**MEMORANDUM IN SUPPORT OF THE BRAD MORRIS LAW FIRM PLLC MOTION
FOR AWARD OF ATTORNEYS’ FEES AND REIMBURSEMENT OF EXPENSES**

I. INTRODUCTION/STATEMENT OF NATURE

Brad Morris Law Firm PLLC (“BMLF”), the undersigned counsel for Plaintiff, Fisher Farms et al., who has filed a joint Complaint in the U.S. District Court for the Northern District of Mississippi with multiple plaintiffs seeking damages on approximately eighty-eight (88) separate claims (hereinafter collectively referred to as the “Fisher Plaintiffs”), pursuant to the Court’s Order Preliminarily Approving the Settlement Between Class Plaintiffs and the Syngenta Defendants, Provisionally Certifying the Settlement Class, approving Settlement Class Counsel Subclass Counsel, and Class Representatives, Approving the Notice Plan, and Authorizing

Dissemination of Notice, Appointing the Notice Administrator and Claims Administrator and Special Masters, and Setting a Schedule for the Final Approval Process (ECF No. 3532) and the Agrisure Viptera/Duracade Class Settlement Agreement (ECF No. 3507-2 at ¶7.2.1), submits this memorandum in support of the motion to this Court for an award of attorneys' fees and expenses incurred in pursuing the Fisher Plaintiffs' claims against the defendants.

II. STATEMENT OF FACTS RELEVANT TO THIS MOTION

INDEPENDENT COUNSEL'S BENEFICIAL WORK FOR PLAINTIFFS

Since early 2015, undersigned counsel has been actively involved in pursuing claims for the Fisher Plaintiffs. *See* Exhibit 1, Declaration of Brad Morris (hereafter "Morris Decl."), at ¶ 4.

Each client of BMLF in the present litigation entered into legal service agreements (the "Agreements") in the form of an Authority to Represent with the firm starting as early as January 2015 regarding their claims against Syngenta. A true and accurate list of each of the Firm's clients is attached as Exhibit 2 to this motion, and copies of the service agreements are attached as Exhibit 3. *See also*, Morris Decl. at ¶ 4-6. The Agreements set forth that the Firm would advance court costs and litigation expenses. *Id.* In other words, the Firm was not compensated up front for the representation of its clients and would be compensated only upon a recovery by the client. *Id.* The agreed upon contingency fee with these clients under the firm's standard Authority to Represent was for 33 1/3% of any recovery for the client. *Id.*

On November 7, 2016, the Fisher Plaintiffs jointly filed a Complaint against Defendants in the United States District Court for the Northern District of Mississippi (MSN 3:16-cv-00256).

On November 22, 2016, the action was transferred to this Court pursuant to the Conditional Transfer Order (CTO – 75). *See* ECF No. 1, MSN 3:16-cv-00256.

On April 10, 2018, the Court entered an Order Preliminarily Approving a settlement

agreement titled Agrisure Viptera/Duracade Class Settlement Agreement (the “Settlement Agreement”) that was executed on February 26, 2018, authorizing the Class Members to petition the Court for an award of attorneys’ fees and expenses by the Fee and Expense Application Deadline of July 10, 2018. *See* ECF No. 3532, pp. 1, 10 and ¶17. The Settlement Agreement authorizes a filing of a petition for an award of attorneys’ fees and expenses by any “person seeking attorneys fees, expenses, or service/case contribution/incentive awards from the Settlement Fund.” *See* ECF No. 3532 at ¶17.

Undersigned counsel has spent time and expense investigating the viability of claims, identifying and screening potential plaintiffs, drafting and filing a Complaint, keeping up with developments in the case, acquiring and compiling documents in support of the claims, reviewing court pleadings, preparation and submission of Plaintiff Fact Sheets, communication with clients, and other necessary activity in pursuit of the claims in this litigation. *See*, Morris Decl. at ¶11-15. All of the time and expense incurred to the benefit of the Fisher Plaintiffs as well as to the benefit of all claimants in the broader litigation by contributing to global pressure on the defendants through the pendency of thousands of independent claims.

The undersigned counsel has advanced costs and expenses, and expended significant attorney time and staff time in pursuit of the claims. *Id.* And, BMLF’s work is not done now that there is a Settlement Agreement. *Id.* The Firm will continue to work on our client’s claims, represent our clients, and advise them until the clients are compensated. *Id.* at 16. The clients want and expect our continued involvement preparing, reviewing and submitting the settlement forms and documents necessary for claim processing. *Id.* BMLF and other independently retained contingent fee counsel devoted a large amount of resources to this litigation despite considerable risk. *Id.*

III. ARGUMENT

INDEPENDENT COUNSEL IS ENTITLED TO COMPENSATION FOR TIME AND EXPENSES

An award of attorney fees and expenses in class actions is provided for by Rule 23(h) of the Federal Rules of Civil Procedure. The rule reads, “In a certified class action, the court may award reasonable attorney’s fees and nontaxable costs that are authorized by law or by the parties’ agreement.” The notes to the rule clarify that “it provides a format for all awards of attorney fees and nontaxable costs in connection with a class action, not only the award to class counsel. In some situations, there may be a basis for making an award to other counsel whose work produced a beneficial result for the class, such as attorneys who acted for the class before certification but were not appointed class counsel, or attorneys who represented objectors to a proposed settlement under Rule 23(e) or to the fee motion of class counsel. Other situations in which fee awards are authorized by law or by agreement of the parties may exist.”

The Court, plaintiffs, and the justice system in general have an interest in broadening the range of attorney participation in MDL cases, lest the work be confined to a specialized bar of MDL attorneys which would result in exclusivity, unfairness, and discrimination, and inure to the disadvantage of litigants and their attorneys. *In re Vioxx Products Liability Litigation*, 802 F. Supp. 2d 740, 762 (2011). *In re Vioxx* aptly demonstrated the notion that recovery of attorney fees should not be controlled merely by attorneys appointed to a Plaintiffs’ Steering Committee. Rather, in *in re Vioxx*, over one hundred firms or attorneys sought to perform common benefit work. *Id.* In allocating the fees, the court concluded, “[t]his case demonstrates that when a court provides a broad umbrella for willing and able attorneys to perform work in a consolidated mass tort or MDL litigation, those attorneys can achieve impressive results for their clients.”

The Tenth Circuit has recognized that attorney's fees may appropriately be awarded from a common fund. *Gottlieb v. Barry*, 43 F.3d 474, 482 (10th Cir. 1994). In determining attorney's fees in common fund cases, the “hybrid” approach is used which combines the percentage of the fund method with the twelve factors originally developed in *Johnson v. Georgia Highway Express, Inc.*, 488 F.2d 714, 717–19 (5th Cir. 1974). The *Johnson* factors are: “the time and labor required, the novelty and difficulty of the question presented by the case, the skill requisite to perform the legal service properly, the preclusion of other employment by the attorneys due to acceptance of the case, the customary fee, whether the fee is fixed or contingent, any time limitations imposed by the client or the circumstances, the amount involved and the results obtained, the experience, reputation and ability of the attorneys, the ‘undesirability’ of the case, the nature and length of the professional relationship with the client, and awards in similar cases.... [T]he weight given to different factors may vary in common fund, as opposed to statutory fee shifting cases.” *Gottlieb*, 43 F.3d at 482 n.4 (internal citation omitted). The trial judge may exercise its judgment in assigning different relative weights to the factors, and may determine one factor is not applicable or give greater weight to one factor over another, where the bases for doing so are clearly reflected in the record. *Brown v. Phillips Petro. Co.*, 838 F.2d 451, 456 (10th Cir. 1988).

The fact that the Firm was not designated as Class Counsel is not determinative as to which counsel are entitled to fees or costs. As the Tenth Circuit noted in *Gottlieb v. Barry*:

We fail to see why the work of counsel later designated as class counsel should be compensated, while the work of counsel who were not later designated class counsel, but on whose shoulders class counsel admittedly stood, should be wholly uncompensated.
43 F.3d 474, 488 (10th Cir. 1994).

The United States Supreme Court “has recognized consistently that a litigant or a lawyer

who recovers a common fund for the benefit of persons other than himself or his client is entitled to a reasonable attorney's fee from the fund as a whole." *Boeing Co. v. Van Gemert*, 444 U.S. 472, 478 (1980); see also, *Sprague v. Ticonic Nat'l Bank*, 307 U.S. 161 (1939)(when an attorneys' efforts benefit a common fund, the court is empowered to award fees from the fund). In order to prevent unjust enrichment, courts exercise inherent equitable powers to assess attorneys' fees against the entire fund, thereby spreading the cost of those fees among everyone who benefited. *Sprague*, 307 U.S. at 161.

Consistent with the foregoing authority, the undersigned is entitled to fees and costs.

BMLF requests that the agreed-upon contingent fee and expenses as to each of BMLF's clients be paid from the Fund to be created from the preliminarily approved class action settlement. In the first alternative, Movants request payment of fees equal to thirty-three and one-third percent (33 1/3%) of all amounts recovered by BMLF (along with its expenses) from the Fund. In the alternative, if the Court sets aside the contingency fee agreements between the Firm and its clients, BMLF seeks payment from the Fund based on its clients' proportionate share of acreage compensated in the Settlement, which is reasonably expected to be a fee in excess of \$500,000. Finally, if the court bases its approval of attorney fees on an hourly or *quantum meruit* basis, BMLF seeks leave from the court to submit supplemental materials detailing hourly billing and expenses upon direction from the court. Although the case management system of BMLF tracks detailed time entries, for the present litigation some time entries are recorded in a central file for general work performed on the litigation while other entries are recorded in the individual case file for each claimant. In order to present the court with accurate lodestar billing, BMLF would have to generate over eighty individual invoices within the case management system. BMLF requests that it not be required to incur the time and expense to generate this

documentation until the court determines the method to be used to calculate attorneys' fees.

Additionally, BMLF seeks this Court's guidance as to what information it may need to evaluate the fee applications of non-Class counsel. BMLF is prepared to supplement this filing with any information the Court may request.

In support of this Memorandum, movant incorporates fully by reference the following Exhibits:

- 1) Exhibit 1 – Declaration of Brad Morris;
- 2) Exhibit 2 – BMLF client list; and,
- 3) Exhibit 3 – BMLF fee agreements.

III. CONCLUSION

For the foregoing reasons, the undersigned respectfully requests attorney fees and reimbursement for expenses be granted to BMLF for legal work performed in present litigation based on the contingent fee agreement with its clients, based upon its clients' proportional share of acreage compensated in the settlement, or based upon lodestar/hourly billing/*quantum meruit* calculation after direction from the court.

**DECLARATION OF BRAD MORRIS FOR BRAD MORRIS LAW FIRM PLLC IN
SUPPORT OF THE BRAD MORRIS LAW FIRM PLLC MOTION FOR AWARD OF
ATTORNEYS' FEES AND REIMBURSEMENT OF EXPENSES**

I, Brad Morris, declare as follows:

1. I am over the age of twenty-one years old and make this declaration based on my personal knowledge. If called as a witness, I could and would testify competently to the facts contained herein, which are true and correct.
2. I am the managing attorney of Brad Morris Law Firm PLLC (hereinafter "the Firm"). I am authorized to submit this declaration on the Firm's behalf.
3. I submit this declaration in support of the Motion of Brad Morris Law Firm PLLC for Award of Attorney Fees and Reimbursement of Costs, (the "Motion"), filed pursuant to Section

7.2.1 of the Agrisure Viptera/Duracade Class Settlement Agreement (the “Settlement Agreement”) in In Re: Syngenta AG MIR 162 Corn Litigation, a multi-district litigation consolidated in the United States District Court for the District of Kansas before Hon. John W. Lungstrum (MDL-2591).

4. The Firm represents clients on eighty-eight (88) claims (the “Fisher Plaintiffs”) in the Agrisure/Viptera litigation against Syngenta on a contingency basis. In written fee agreements, these clients agreed to pay 33 1/3% of any recovery in this matter as a contingent fee, plus reimbursement of the Firm’s expenses.
5. As these were contingent fee agreements, our Firm advanced court costs and litigation expenses and would only be compensated if the clients recovered money.
6. Because my representation is on a contingency basis, I have not compiled detailed time reports for this litigation since it was not anticipated this would be necessary. Nevertheless, the Firm’s case management system does track all activity on our cases, so the Firm is able to produce detailed time billing, if the court decides to award attorneys’ fees based on a lodestar method of hourly, *quantum meruit* billing. Since we tracked some of our activity for this litigation in a “master” matter for the corn litigation but tracked other activity in the individual matters set up for each claim, we will have to generate we will have to generate nearly ninety (90) separate invoices in our case management system to provide detailed time billing for our work on this litigation. Due to the significant administrative burden of producing this billing (which we do not know to be necessary at this point), we are awaiting court direction before generating such detailed billing.
7. I was admitted to the Mississippi Bar in 2011. I have also been admitted to various Federal Courts during my time in practice. My main practice areas include mass torts, trial practice,

and personal injury litigation. My firm has represented and does currently represent clients in multiple MDL/class action cases, and has obtained favorable results for clients. Prior to becoming involved in the Syngenta Corn Litigation, me and my firm represented clients in the Deepwater Horizon Economic and Property Damage Claims.

8. In November and December 2015, the Firm was contacted by farmers who were aware of China rejecting shipments of corn from the U.S. and who had seen a price drop in the value of corn. After researching the case, our Firm began taking on clients and signed contingency fee agreements for prosecution of their claims. The Firm started signing clients as early as January 2015.
9. On November 7, 2016, the Firm filed a Complaint against Defendants in the United States District Court for the Northern District of Mississippi (MSN 3:16-cv-00256) which named all of the firm's then-existing clients as plaintiffs in the lawsuit. On November 22, 2016, the action was transferred to this Court pursuant to the Conditional Transfer Order (CTO – 75). See ECF No. 1, MSN 3:16-cv-00256.
10. After the Plaintiff Fact Sheet order was entered in 2016, the Firm spent tremendous time and resources contacting and meeting with farmers to obtain the documentation required by the order, knowing that if the information was not produced by the court deadlines, defense counsel could file a motion to dismiss the individual cases barring our clients from ever recovering. After the long discovery process and monitoring the status of the bellwether cases around the country, the Firm became aware in late 2017 about a potential settlement of all cases around the country. With the understanding there was settlement committees comprised of both individual and class action attorneys, it was believed there would be two settlement tracks. In early 2018, we became aware there would be only one Class Actions

Settlement which would include our filed cases, so we began advising clients of the Settlement and what we believed was in their best interest.

11. My staff and I have stayed informed about this case by communicating with other counsel, reading court pleadings and public reports, monitoring news stories, and participating in status calls. We used the information to keep our clients informed on the progress of the case. We maintained contact with our corn litigation clients through phone calls, text messages, email newsletters, personalized emails, in-person meetings both in our offices and at clients farms and houses and fields, and through mass mailouts.
12. The firm spent time and expense investigating the viability of claims, identifying and screening potential plaintiffs, drafting and filing a Complaint, keeping up with developments in the case, acquiring and compiling documents in support of the claims, reviewing court pleadings, preparation and submission of Plaintiff Fact Sheets, communication with clients, and other necessary activity in pursuit of the claims in this litigation.
13. The Firm has spent significant attorney and support staff time and resources on this litigation, sometimes to the detriment of pursuing other work and opportunities that were available.

The firm has faced considerable risk in undertaking this representation.
14. The Firm has advanced expenses in pursuit of the claims.
15. The individuals in the Firm, including myself, who worked on this matter are:
 - a. Brad Morris, Managing Attorney;
 - b. Kegan Coleman, Associate Attorney;
 - c. Kristen Kiste, Director of Business Development and Client Relations (and Syngenta Claims Coordinator);
 - d. Suzsan McGehee, Paralegal;

- e. Melissa Rinehart, Office Assistant;
- f. Dodd Jones, Investigator/Claims Assistant; and,
- g. Braxton Domino, Office Assistant.

16. We have concluded the proposed settlement is a fair settlement for our clients, and we have advised our clients to participate in the settlement program. So far, we have not had a single client choose to opt-out of the settlement. We are actively assisting clients with registration and submission of their claims packages, and we anticipate being actively involved in processing claims all the way through the claims process. Our clients want us involved and, frankly, expect it. We feel an ongoing obligation to remain involved until every claim is finalized and the litigation is closed.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 10th day of July, 2018, in Oxford, Mississippi.
