MEMORANDUM IN SUPPORT OF KANSAS MDL CO-LEAD COUNSEL AND SETTLEMENT CLASS COUNSEL CHRISTOPHER SEEGER'S PETITION FOR AWARD OF ATTORNEYS' FEES, REIMBURSEMENT OF EXPENSES, AND SERVICE AWARDS TO CLASS REPRESENTATIVES/BELLWETHER PLAINTIFFS AND ALLOCATION OF ATTORNEYS' FEE AWARD

TABLE OF CONTENTS

TABLE OF AUTHORITIES v

INTRODUCTION 1

FACTUAL BACKGROUND 4

I. KANSAS COMMON BENEFIT GROUP UNDERTOOK SUBSTANTIAL EFFORT PROSECUTING CLASS MEMBERS' CLAIMS AGAINST SYNGENTA 4

A. The Court Appointed Co-Lead Counsel to Lead the Litigation. 5

B. Co-Lead Counsel Organized and Coordinated a Team of Lawyers to Conduct Discovery in the MDL. 8

1. Co-Lead Counsel Led Offensive Discovery Against Syngenta. 9

2. Co-Lead Counsel Led Third-Party Discovery. 11

3. Co-Lead Counsel Coordinated Non-Producer Bellwether Discovery in the Kansas MDL with Kansas Common Benefit Attorneys. 13

4. Co-Lead Counsel Assembled and Managed a Team to Conduct Defensive Producer Discovery in the Kansas MDL. 13

C. The Kansas Common Benefit Group Prevailed on Syngenta's Third-Party Complaint. 17

D. Co-Lead Counsel Litigated Key Legal Issues in the Case. 18

E. Co-Lead Counsel Led Expert Discovery on the Key Experts. 21

F. Co-Lead Counsel Responded to and Filed Summary Judgment. 23

G. Co-Lead Counsel Led Trial Preparations and Briefing for the Kansas trial. 24

H. Co-Lead Counsel Tried the Kansas Class Action. 26

I. Co-Lead Counsel Prepared for Four More MDL Trials in 2018. 27

II. CO-LEAD COUNSEL COORDINATED WITH OTHER ACTIONS AND HAVE ENTERED INTO A FEE-SHARING AGREEMENT WITH OTHER LEAD COUNSEL. 28

A. The Court Entered a Coordination Order Requiring the Sharing of Discovery with Related Actions. 28

B. Other Actions were filed in Minnesota, Illinois and Elsewhere. 29

1. The Minnesota Leadership Actions. 29

2. The Illinois Leadership Actions. 31

C. Lead Counsel's Fee-Sharing Agreements. 32

III. SETTLEMENT WAS THE PRODUCT OF THE WORK DONE BY LEADERSHIP IN KANSAS, MINNESOTA AND ILLINOIS. 33

IV. PROSECUTION OF THESE CASES REQUIRED AN ENORMOUS AND RISKY INVESTMENT OF LABOR AND RESOURCES..... 35

A. The Litigation Was Risky and Success Was Far From Certain..... 35

B. Kansas Common Benefit Firms Invested Significant Labor and Expenses. 37

V. TWO DISTINGUISHED EXPERTS ON ATTORNEYS' FEES SUPPORT THE REQUESTS. 39

A. Professor Klonoff Opines that Fees, Costs and Service Awards are Reasonable under the Facts of this Case and in Comparison to Awards in Similarly Sized Settlements. 39

B. Retired Magistrate Judge Richard Ralston Opines that the Billing Rates Used to Calculate the Lodestar are Reasonable. 42

ARGUMENT 43

I. THE FEE REQUEST IS FAIR AND REASONABLE UNDER GOVERNING PRINCIPLES AND BASED ON THE FACTS OF THE CASE. 43

A. The Fee Request is Reasonable as a Percentage of the Fund 43

B. The *Johnson* Factors Justify the Fee Request because this was a Hugely Complex Case Involving Significant Time and Labor where Counsel Incurred Great Risk and Obtained a Record-Setting Settlement. 45

1. The difficult factual and legal issues in this case justify the Fee Request. 46

a) The litigation involved a unique and complex structure..... 47

b) The litigation involved a novel fact pattern. 48

c) The legal issues were complex and their outcome uncertain..... 52

2. Plaintiffs were well-represented by a team of attorneys with substantial experience in prosecuting high-stakes, complex litigation. 56

3. Counsel exercised a high-degree of skill in navigating the complex legal and factual issues that permeated the MDL. 57

4. The massive amount of time and labor that counsel expended supports the Fee Request. 63

5. The demands of this litigation necessary imposed time limitations and precluded counsel from other employment..... 63

6. The contingent nature of the fee and the risk undertaken by counsel justifies the Fee Request. 66

7. The relief involved, totaling $1.51 billion, supports the Fee Request. 69

8. The fee request is consistent with a customary fee. 72

9. Awards in similar cases justify the Fee Request. 74

C. A Lodestar Cross-Check Confirms Reasonableness of the Requested Fee. 78

II. THE EXPENSE REQUEST FOR THE KANSAS COMMON BENEFIT GROUP SHOULD BE GRANTED. 85

III. KANSAS COMMON BENEFIT ATTORNEYS SHOULD BE ALLOCATED 50% OF THE ONE-THIRD FEE AWARD. 87

A. The MDL Allocation to the Federal Kansas Common Benefit Group is Easily Fair and Equitable under the *Johnson* Factors. 88

B. The Court Should Award Subclass Counsel Attorneys' Fees and Expenses from the Remaining 20%. 94

IV. SERVICE AWARDS FOR CLASS REPRESENTATIVE AND BELLWETHER PLAINTIFFS ARE WELL DESERVED. 94

A. Category 1 Plaintiffs Should Each Be Awarded $5,000. 97

B. Category 2 Plaintiffs Should Each Be Awarded $15,000. 98

C. The Kansas Trial Representatives Should Each be Awarded $100,000. 102

D. Subclass Representatives Should Each Be Awarded $2,500. 104

CONCLUSION 106

Report of Third Circuit Task Force: Selection of Class Counsel,
208 F.R.D. 340 (2002) 43

INTRODUCTION

The Settlement Agreement with Syngenta, if approved, will create a common fund of $1.51 billion to compensate Class Members for the claims asserted in this multi-district litigation ("MDL") and in the related actions filed in Minnesota, Illinois, and other state courts across the country. Pursuant to the Settlement Agreement and this Court's inherent authority under the common-fund doctrine and Rule 23(h), Patrick Stueve, Don Downing, William Chaney, and Scott Powell ("Co-Lead Counsel") for the Kansas MDL and Settlement Class Counsel Christopher Seeger ("Seeger") respectfully submit this Petition for Award of Attorneys' Fees, Reimbursement of Expenses, and Service Awards to Class Representatives/Bellwether Plaintiffs and Allocation of Attorneys' Fee Award ("Fee Application").

First, they request that the Court award one-third of the $1.51 billion settlement fund to be set aside for attorneys' fees ("Fee Request") and, to reimburse Co-Lead Counsel and other MDL firms ("Kansas Common Benefit Group") $6,695,350.05 in costs and expenses incurred performing common-benefit work ("Expense Request"). The Fee and Expense Requests are eminently justifiable under the facts and circumstances of this unusual case and application of the *Johnson* factors. The result achieved here is a non-reversionary $1.51 billion settlement — record-setting for agricultural litigation – and more than double the settlement reached with Bayer in what was previously the largest agricultural trade-disruption settlement resulting from the release of a new genetically modified ("GM") trait. This result was not obtained easily, but only after the sustained effort of counsel, including certification of a nationwide and nine state-law litigation classes in two jurisdictions, the start of three jury trials, and one completed, class trial resulting in a $217.7 million jury verdict.

As detailed more fully herein, the factual and legal complexity of these claims, and the unique nature of this MDL and the prosecution of claims in Minnesota and Illinois, required extensive investment of labor and advancement of substantial costs by counsel. The work performed advancing the claims of Class Members – on a fully contingent basis – carried significant risk, and many counsel performing that work, including Co-Lead Counsel, forwent other opportunities and dedicated themselves to these cases full-time for much or all of the past four years. Only because of those efforts were they able to: review more than 2.5 million pages of documents; take or defend nearly 200 depositions (many multi-day depositions); subpoena 18 third party witnesses; produce more than eight expert reports; cross-examine 11 defense experts (some more than once); file 36 substantive motions with supporting legal memoranda; and respond to 19 substantive motions dealing with complex and sophisticated legal arguments — many without controlling precedent on the facts presented here — on issues such as state-law duty, economic-loss doctrine, proximate causation, intervening causation, federal preemption, *Noerr-Pennington*, due process, and the application of foreign law under World Trade Organization ("WTO") treaties, among others.

Furthermore, counsel performed their work while racing toward trial so as not to delay the prosecution of Class Members' claims, completing the depositions of Syngenta's 32 witnesses over 57 days in four continents and nearly 106 depositions, of plaintiffs and third parties across the U.S. within 12 months of the start of full fact discovery in the MDL. They faced uncertain recovery, squaring off against Syngenta's top-flight and well-funded defense counsel armed with an extensive factual record and potentially credible arguments that: the trade disruption was the result of Chinese politics; damages were uncertain and speculative; and any tort duty to delay or restrict the sale of Syngenta's seed, legal in the United States, was

unfounded and unprecedented. Given these risks, the result achieved through counsel's perseverance and investment speaks for itself, justifying the Fee and Expense Request made herein.

Second, Co-Lead Counsel and Settlement Class Counsel Seeger and Stueve request that the Court issue an order allocating the Fee Request among the many lawyers who contributed to the settlement in the following manner:

- 50% of the Fee Request should be awarded to the Co-Lead Counsel to allocate among the 44 law firms, including the four Co-Lead law firms and Mr. Seeger's firm, who performed and reported common-benefit work in the Kansas MDL ("Kansas Common Benefit Group") pursuant to the Court's Common Benefit Order, in light of the fact that the Kansas Common Benefit Group, *inter alia*, took the lead in fact and expert discovery, obtained key legal rulings first in the case, obtained class certification of a nationwide and eight state-law litigation classes, invested over $6.6 million of their own money, led the plaintiffs' settlement negotiation committee, and obtained the only jury verdict – for $217.7 million – in the litigation;

- 12.5% of the Fee Request should be awarded to Minnesota Lead Counsel to allocate among all the law firms who performed and reported common-benefit work in the Minnesota litigation pursuant to the Minnesota Court's Common Benefit Order, for the reasons stated in their separate application for allocation of the Fee Request;

- 17.5% of the Fee Request should be awarded to Illinois Lead Counsel to allocate among themselves and their referral, affiliated, and related counsel for the reasons stated in their separate application for allocation of the Fee Request; and

- 20% of the Fee Request, if the one-third aggregate request is awarded, should be reserved by the Court to award $388,005 in attorneys' fees to Subclass Counsel and to any other counsel who makes a timely and valid request for fees that the Court deems appropriate under common-benefit doctrine principles.

This allocation is supported by Co-Lead Counsel and Seeger and in separate requests to be filed by Daniel Gustafson and Bill Sieben ("Minnesota Lead Counsel"), and Clayton A. Clark ("Illinois Lead Counsel"). Co-Lead Counsel and Seeger reserve the right to amend this request as to the allocation of the 20% upon review of any other applications submitted to this Court.

Third, Co-Lead Counsel and Seeger request that the Court approve service awards from the common fund to subclass representatives and to certain class representatives and bellwether plaintiffs who responded to written discovery (beyond the Plaintiff Fact Sheet), were deposed, and/or testified and represented the Kansas litigation class at trial. These requests are made in varying amounts set forth below according to the plaintiffs' relative contribution, and are fully justified by the facts and law.

This Memorandum is supported by the cited and attached evidence, including: declarations from all four Co-Lead Counsel as Exhibits 1 (Patrick J. Stueve), 2 (Scott Powell), 3 (Don M. Downing), 4 (William Chaney), and lawyers at each of the Kansas Common Benefit Firms (Ex. 7, 10-47); the expert declarations of retired Magistrate Judge Richard Ralston (Ex. 5) and Professor Robert Klonoff (Ex. 6) whose opinions support the reasonableness of these requests; and the Kansas Common Benefit Firm time records, which the undersigned are prepared to submit *in camera* at the Court's request.

FACTUAL BACKGROUND

I. KANSAS COMMON BENEFIT GROUP UNDERTOOK SUBSTANTIAL EFFORT PROSECUTING CLASS MEMBERS' CLAIMS AGAINST SYNGENTA

From the development of the factual record – which required nearly two hundred depositions across four continents coordinated with different types of plaintiffs in venues across the country – to the analysis of complex legal issues including duty, causation and the economic-loss doctrine in 22 different states, this was an enormously challenging case to prosecute. Co-Lead Counsel, working in conjunction with an Executive Committee and others in the Kansas Common Benefit Group,[1] took the lead on nearly every aspect of this prosecution, from

[1] As used throughout this brief, "Co-Lead Counsel" includes the work performed by the four appointed Co-Lead Counsel and the attorneys and staff at their law firms. The "Kansas Common Benefit Group" or "Kansas Common Benefit Attorney" refers to those lawyers and staff at other firms who

coordinating discovery to taking the lead in preparing for and examining fact witnesses during depositions, producing and defending the experts relied upon by Plaintiffs at trial, to actually trying the Kansas class case through to the jury's award of $217.7 million. Following the Kansas trial and months of settlement negotiations, the parties agreed on a $1.51 billion settlement.

The enormous work, expense and risk undertaken in achieving this settlement – as the Court has observed – are detailed in declarations submitted herewith. Exs. 1-7, 10-47. A summary is set out below.

A. The Court Appointed Co-Lead Counsel to Lead the Litigation.

Prior to the formation of the MDL, counsel recognized the need to assemble a high-quality and dedicated team of professionals, with a proven track record of taking risky claims the distance. To this end, Don Downing, Scott Powell, and William Chaney investigated, researched and filed two of the early, initial complaints against Syngenta, following their proven success trying multiple bellwether cases in *In re Genetically Modified Rice Litigation*, which they ultimately settled on behalf of producers for $750 million. They filed a complaint, *Five Star Farms*, in the District of Kansas, for which they joined forces with Patrick Stueve, a Kansas City attorney with similar, national experience prosecuting high-stakes litigation. *See Five Star Farms, et al. v. Syngenta AG et al*., No. 2:14-cv-02571 (D. Kan.) (filed 11/11/14). The second complaint, *Wilson Farm*, was filed in the Eastern District of Missouri. *Wilson Farm Inc., et al. v. Syngenta AG et al*., No. 4:14-cv-01908 (E.D. Mo.) (filed 11/11/14). Both complaints were filed on November 11, 2014 and amended on December 18, 2014. Following amendment, the *Wilson Farms* complaint asserted claims on behalf of farmers in 13 states (Alabama, Arkansas, Illinois,

---

performed work at the express direction and approval of Co-Lead Counsel in the performance of discrete tasks that advanced the common benefit of MDL plaintiffs and Class Members, pursuant to the Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Fund ("CBO"). ECF No. 936. The identities of the Kansas Common Benefit Group are in the Declaration of Patrick J. Stueve ("Stueve Decl.") attached as Exhibit 1 in paragraph 644.

Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Tennessee, and Wisconsin) and the *Five Star Farms* complaint asserted claims on behalf of farmers in 6 states (Kansas, Colorado, Nebraska, North Dakota, South Dakota, and Oklahoma). These complaints were the template used in drafting the Master Complaints, filed on March 13, 2015, which included early work with the agricultural economists describing the price impact of lost Chinese demand for corn on U.S. farmers. *See* Ex. 3 (Downing Decl. ¶¶ 4, 8-21); Ex. 4 (Chaney Decl. ¶¶ 168-73); Ex. 2 (Powell Decl. ¶ 84).

Together, in response to the Court's solicitations for leadership, these four lawyers assembled a team of law firms, representing the diverse interests of the current Class Members. Ex. 3 (Downing Decl. ¶¶ 8-21). That team included Downing, Chaney, Powell, and Stueve as "Co-Lead Counsel," along with the resources of their firms, as well as an Executive Committee (the "EC") consisting of Jayne Conroy, Christopher Ellis, David Graham, Richard Paul III, Robert Shelquist, John Ursu, Stephen Weiss, Tom Cartmell, Scott Poynter and Tom Bender.[2] The Court described the EC as "a set of lawyers whose own skills, demographics and client bases complement and add value to the leadership structure." ECF No. 67 at 4. They represented plaintiffs who were corn and milo producers, non-producers, farmers large and small, and sophisticated corporations. *Id.* And the Court agreed with Co-Lead Counsel that this team was the "best way to proceed," and for which the Court predicted would "bode[] well for the expeditious handling of this litigation." *Id.* at 2. The Court charged Co-Lead Counsel to, *inter alia*, "organize and supervise the efforts of plaintiffs' counsel in a manner to ensure that the pretrial and trial preparation for the plaintiffs is conducted effectively, efficiently, expeditiously,

[2] Tom Cartmell subsequently withdrew from leadership on June 29, 2015. ECF No. 891. Mr. Graham also withdrew, but only in 2018 following his client's settlement with Syngenta. ECF No. 3498.

and economically" and "to encourage full cooperation and efficiency among all plaintiffs' counsel." *Id.* at 6-9. That order was issued on January 22, 2015.

On July 27, 2015, the Court entered the CBO, where it defined "Common Benefit Work" as "services performed for the benefit of all producer and/or all non-producer plaintiffs … specifically authorized by [Co-]Lead Counsel." ECF No. 936 at 7. Such work included but was not limited to "investigation, discovery (whether documents, interrogatories, depositions or otherwise), coding or other analytical work relating to documents or evidence, research, motions and responses to motions, exhibits, bellwether trials and transcripts, [and] all other work performed under the direction of [Co-]Lead Counsel for the benefit of all producer and/or all non-producer plaintiffs, and orders on substantive matters involving Common Benefit Work." *Id.* at 7-8. The Court's order provided that client solicitation and other similar tasks were *not* to be considered Common Benefit Work. *Id.* at 8.

In June 2015, efficiency guidelines were circulated to all Kansas Common Benefit firms. During the 29 months of litigation, Co-Lead Counsel engaged the EC and the other lawyers in the Kansas Common Benefit Group to assist them in: conducting discovery, obtaining class certification, and securing the $217.7 million jury verdict. The $1.51 billion settlement followed. Time spent on work covered by the CBO, and a description of that work, was reported to Stueve during the course of the MDL. After the case settled, each firm was asked to re-review their time for compliance with the CBO and resubmit it. Downing, Chaney, and Powell then reviewed all time entries for compliance and reasonableness. Ex. 1 (Stueve Decl. ¶ 621-42); Ex. 2 (Powell Decl. ¶ 217); Ex. 3 (Downing Decl. ¶ 84); Ex. 4 (Chaney Decl. ¶ 315).

Pursuant to the CBO, for everyone who remains in the Class, attorney's fees are to be determined and awarded from the overall recovery made available by the settlement, pursuant to

the Court's approval and orders. *See* ECF No. 936 at 20 ("In the event that there is a class settlement, recovery or judgment in favor of the class, no assessment pursuant to this Section will be made, either for attorneys' fees or for expenses, individually from any class member or his/her/its individual attorney as to the portion of any class recovery distributed to that individual class member if the class member remains in the class (i.e., does not opt-out of the class). Instead, all fees and expenses for that class member will come out of the overall class recovery funds provided by defendants, as approved by the Court, or otherwise Ordered by the Court.").

B. Co-Lead Counsel Organized and Coordinated a Team of Lawyers to Conduct Discovery in the MDL.

Co-Lead Counsel organized and coordinated the MDL efficiently and expeditiously. Ex. 1 (Stueve Decl. ¶ 621-29). The nature of the MDL required extensive organization and effort because it included claims of producers, non-producers, individuals, and putative class members. *Id.* at ¶ 292. Following Rule 12(b)(6) motion practice (discussed *infra*), the Court established a discovery schedule that included five non-producer plaintiffs, 48 individual producer plaintiffs ("bellwether plaintiffs"), six producer plaintiffs who purchased Agrisure Viptera and/or Duracade, and the putative nationwide and eight state-law class actions, which consisted of a further 21 putative class-representative producer plaintiffs. ECF No. 1098 at 6; ECF No. 1495 at 1-2. Syngenta and Co-Lead Counsel each selected half of the bellwether plaintiffs. To ensure that the best plaintiffs were selected, Co-Lead Counsel and others assigned from the Kansas Common Benefit Group analyzed the relevant state laws, interviewed potential plaintiffs, and vetted each and every one. Ex. 1 (Stueve Decl. ¶¶ 233-34); Ex. 2 (Powell Decl. ¶¶ 96-99); Ex. 4 (Chaney Decl. ¶¶ 192-94); Ex. 43 (Bender Decl. ¶ 6); Ex. 30 (Paul Decl. ¶ 6(d)). In total, after some withdrawals, the plaintiffs covered by Scheduling Order No. 2 consisted of 69 producer plaintiffs. Ex. 2 (Powell Decl. ¶ 99). On November 19, 2015, full discovery commenced on the

claims covered by Scheduling Order No. 2 with the first trial, scheduled for June 2017, nineteen months later. ECF No. 1098 at 14; Ex. 1 (Stueve Decl. ¶ 243).

1. Co-Lead Counsel Led Offensive Discovery Against Syngenta.

Co-Lead Counsel and attorneys in their firms led the offensive discovery against Syngenta, engaging others in the Kansas Common Benefit Group in discrete tasks such as legal research, drafting of legal briefs, document review, and, in a few instances, the taking of depositions. They drafted and issued to Syngenta 267 document requests and 71 interrogatories. Ex. 1 (Stueve Decl. ¶¶ 247-48); Ex. 2 (Powell Decl. ¶ 158). They spent significant time identifying custodians from whom documents would be collected, negotiating search protocols with Syngenta, and establishing a joint document depository available to all coordinating plaintiffs' counsel ("MDL Document Database"). More than 1.5 million pages of responsive documents were obtained from Syngenta and stored in the MDL Document Database. Ex. 1 (Stueve Decl. ¶¶ 251-53). Co-Lead Counsel managed an extensive document review, selecting document reviewers from Kansas Common Benefit Group firms and emphasizing attorneys with long-term availability to commit to the project. They prepared a document-review protocol, and trained and conducted initial review sets on site in Kansas City, Missouri, supervised by a team from Co-Lead Counsel's firms. Co-Lead Counsel tracked performance utilizing software in the MDL Document Database, routing review sets to the most efficient and effective reviewers. Ex. 1 (Stueve Decl. ¶¶ 259-74); Ex. 2 (Powell Decl. ¶¶ 160-63); Ex. 4 (Chaney Decl. ¶¶ 199-201).

Review results were housed in the MDL Document Database and made available to coordinating counsel for all plaintiff types across the country. The database contained an issue code for each relevant document, "hot doc" flags, and reviewer comments. Once the production was narrowed to several thousand pages of potential "hot docs," senior members of Co-Lead Counsel's firms responsible for deposition preparation, summary-judgment briefing, and trial

preparation then catalogued and narrowed those documents further. Ex. 1 (Stueve Decl. ¶ 263); Ex. 2 (Powell Decl. ¶¶ 160-63). The project resulted in: a list of "key events"; "factual bases of certain anticipated defenses"; "a factual timeline"; and an identification of "topics for questioning at depositions." Ex. 2 (Powell Decl. ¶ 163). It permitted Co-Lead Counsel to assemble "all of Syngenta's internal discussions about the status and problems with [its Chinese] applications and compare them with Syngenta's public statements regarding when Chinese approval was expected." Ex. 1 (Stueve Decl. ¶ 418). The coded database represented an extensive knowledge base from which deposition and trial documents could be selected. Little was more important to the overall merits of Plaintiffs' claims than obtaining this documentary evidence. Ex. 1 (Stueve Decl. ¶ 262).

Co-Lead Counsel also supervised the inquiry into Syngenta's privilege log. Ex. 1 (Stueve Decl. ¶¶ 256-58). Following meet-and-confer efforts, they filed a motion to compel, which was granted in part. ECF No. 3109; ECF No. 3238.

Co-Lead Counsel prepared a list of 126 Rule 30(b)(6) deposition topics for Syngenta. Ex. 2 (Powell Decl. ¶ 158(a)). These depositions began in January 2016 – just a few months after Plaintiffs were granted leave to serve non-targeted written discovery – and individual depositions followed immediately thereafter. Ex. 1 (Stueve Decl. ¶¶ 239, 266). Co-Lead Counsel and only one other lawyer from the Kansas Common Benefit Group deposed all 32 Syngenta witnesses – 19 of those deposition lasted two or more days. *Id.* at ¶ 405. Plaintiffs played 18 of these depositions in their case-in-chief during the Kansas trial. *Id.* at ¶ 420.

These depositions were critical in establishing, *inter alia*, Syngenta's knowledge regarding the risk to downstream stakeholders of commercializing its GM traits ahead of Chinese approval; its awareness of Chinese actual and expected corn imports from the U.S.; the facts,

timeline and statements made by Syngenta to Chinese regulatory authorities about its applications for import approval of its GM traits; how and whether China's regulatory system was processing other GM traits; and, rebuttal to its other defenses. *Id*. at ¶¶ 407-17; Ex. 2 (Powell Decl. ¶¶ 164-68); Ex. 4 (Chaney Decl. ¶¶ 241-42); Ex. 3 (Downing Decl. ¶¶ 32-35).

Among counsel for Plaintiffs in the various jurisdictions, Co-Lead Counsel took the lead in preparing and questioning Syngenta's witnesses. This required extensive preparation and travel in the United States, Hong Kong, Great Britain, and Australia. Depositions were treated as trial depositions given the inability to ensure that any witness would be within the Court's subpoena power at the time of trial. Many of these depositions were submitted as evidence in both the Kansas and Minnesota trials. Ex. 1 (Stueve Decl. ¶¶ 407-17, 577). Normally, prior to the deposition, Co-Lead Counsel would share their outline and exhibits with Plaintiffs' counsel in other jurisdictions. Ex. 2 (Powell Decl. ¶¶ 164-68); Ex. 4 (Chaney Decl. ¶¶ 164, 226, 241-42, 282); Ex. 3 (Downing Decl. ¶¶ 32-35); Ex. 30 (Paul Decl. ¶ 6(b)).

2. Co-Lead Counsel Led Third-Party Discovery.

Co-Lead Counsel prepared and served five subpoenas on third parties: Louis Dreyfus Commodities LLC; Bunge North America, Inc.; Gavilon Grain, LLC, CHS, Inc.; the American Soybean Association; and, CropLife America. Ex. 1 (Stueve Decl. ¶ 421). Both Co-Lead Counsel and Syngenta separately subpoenaed another five third parties: North American Export Grain Association, Inc.; National Grain and Feed Association; American Seed Trade Association; Biotechnology Innovation Organization; and U.S. Grains Council. *Id*. at ¶ 424; Ex. 2 (Powell Decl. ¶ 159); Ex. 4 (Chaney Decl. ¶ 198). Syngenta additionally subpoenaed another eight third parties, including the National Corn Growers Association. Ex. 1 (Stueve Decl. ¶ 425). Co-Lead Counsel engaged in extensive meet-and-confer efforts regarding these

subpoenas, resulting in the production and ultimate review of more than 170,000 pages of additional documents. *Id.* at ¶¶ 426-27.

Nine of these third parties were deposed. *Id.* at ¶ 428. Counsel for Plaintiffs asked questions at six depositions and, in all but two instances, Kansas Common Benefit Attorneys led the questioning for Plaintiffs. *Id.* at ¶ 429. Several of these third parties included trade groups for the biotechnology industry, and Syngenta played video clips from the depositions of Matthew O'Mara, Nathan Fields, Gary Martin and Thomas Sleight. *Id.* at ¶ 431.

Syngenta also took extensive discovery of non-parties Cargill and ADM in the Louisiana litigation, where it cross noticed over 40 depositions with the MDL and Minnesota. Ex. 1 (Stueve Decl. ¶ 433); Ex. 2 (Powell Decl. ¶ 168). Co-Lead Counsel participated in all 40 depositions, which occurred in numerous U.S. cities, Hong Kong, and London, spanning 72 deposition days. Ex. 1 (Stueve Decl. ¶ 431); Ex. 2 (Powell Decl. ¶ 167) (requiring multiple overseas trips). These depositions required extensive review of Cargill and ADM documents and preparation. Ex. 1 (Stueve Decl. ¶ 436); Ex. 2 (Powell Decl. ¶ 168); Ex. 4 (Chaney Decl. ¶¶ 199, 247-73). They covered both offensive and defensive issues in the litigation – both of which were critically important. As a defensive matter, Syngenta vociferously argued that these non-parties were at fault for the Chinese rejections (ECF No 2947 at 96-111; ECF No. 3344 at 59-64), that their actions constituted a defense to proximate cause (ECF No. 2861 at 86-99), and that their conduct was relevant to foreseeability and the extent to which Syngenta complied with the standard of care (ECF No. 3141 at 1-5; ECF No. 3163 at 65). Syngenta played eight of these 42 depositions at the Kansas trial. Ex. 1 (Stueve Decl. ¶ 438). As an offensive matter, Plaintiffs developed key evidence related to the relevant standard of care and the Chinese regulatory process through these witnesses, including Cargill's Dr. Randy Giroux who testified at the

Kansas and Minnesota trials as an expert for the Plaintiffs. Ex. 1 (Stueve Decl. ¶¶ 434-35, 437). Plaintiffs also played the deposition of Anthony Reed in their case-in-chief during the Kansas trial. *Id.* at ¶ 438.

In total, Kansas Common Benefit Group participated in 49 third-party depositions, requiring an extensive investment of time and resources. Ex. 1 (Stueve Decl. ¶¶ 428-33); Ex. 2 (Powell Decl. ¶ 169); Ex. 3 (Downing Decl. ¶ 33); Ex. 4 (Chaney Decl. ¶¶ 247-73).

3. Co-Lead Counsel Coordinated Non-Producer Bellwether Discovery in the Kansas MDL with Kansas Common Benefit Attorneys.

Two of the 4 non-producer bellwether plaintiffs' claims, Trans Coastal and Rail Transfer, also proceeded through full fact discovery under Scheduling Order No. 2.[3] Ex. 45 (Robinovitch Decl. ¶ 20); Ex. 35 (Conroy Decl. ¶ 9). Unlike producer plaintiffs, these plaintiffs were required to serve complete Rule 26 initial disclosures. Ex. 4 (Chaney Decl. ¶ 221). Over the course of the litigation, they each responded to three sets of requests for production, two sets of interrogatories, and requests for admission. *Id.* at ¶¶ 222-24. Co-Lead Counsel drafted potential objections and worked with each plaintiff's counsel in preparing and serving substantive responses. *Id.* The Kansas Common Benefit Group defended nine depositions over 17 days in multiple cities for the non-producer bellwether plaintiffs. *Id.* at ¶¶ 230-40.

4. Co-Lead Counsel Assembled and Managed a Team to Conduct Defensive Producer Discovery in the Kansas MDL.

There are presently 4,049 plaintiffs in the MDL. Ex. 1 (Stueve Decl. ¶ 144). Only putative class representatives and bellwether plaintiffs were required to participate in written discovery, and all bellwether producer class representatives and producer plaintiffs completed fact discovery. Ex. 2 (Powell Decl. ¶ 106). There were 89 such plaintiffs who fell into these

[3] Two bellwethers completed some discovery before dismissing their claims. Ex. 4 (Chaney Decl. at 57 n.2).

categories. *See id.* Putative class representatives named in one of the master producer complaints, but not covered by Scheduling Order No. 2, responded to 27 document requests. *Id.* The remaining 69 producer plaintiffs completed discovery under Scheduling Order No. 2. *Id.* In total, each of them responded to 97 requests for documents, 56 interrogatories, and 98 requests for admission; these requests sought extensive information about the plaintiff's farming operations over long periods of time. *See id.* at ¶¶ 106, 117-32; Ex. 1 (Stueve Decl. ¶¶ 280-81). This work required to respond to this discovery was necessarily extensive: between 2015-17 the Kansas Common Benefit Group produced approximately 350 *volumes* of written discovery, including: 400,000 pages of documents; approximately two-hundred sets of original and amended interrogatory responses, representing over 10,000 interrogatory responses; and two-hundred sets of original and amended responses to Syngenta's request for admissions. Ex. 2 (Powell Decl. ¶ 102).

This discovery occurred prior to class certification, so these bellwether plaintiffs represented potentially important test cases for Plaintiffs' claims against Syngenta, and this discovery was defensive evidence that Syngenta would rely upon in opposing class certification. Further, if certification had been denied, these cases would be the test ground for summary-judgment, *Daubert* issues, trial, and appeal of Plaintiffs' claims in the MDL. It was appropriate for and necessary for Co-Lead Counsel to manage this discovery. Ex. 1 (Stueve Decl. ¶ 279).

To this end, Co-Lead Counsel worked with several EC firms and individual counsel in the Kansas Common Benefit Group to comply with these discovery obligations. Ex. 2 (Powell Decl. ¶¶ 100, 130-31). Co-Lead Counsel prepared model responses to various requests, reviewed documents for privilege, coordinated production, and handled service. *Id.* at ¶¶ 100, 129, 117-32. Kansas Common Benefit Group firms spend extensive time and effort preparing

substantive answers, collecting documents, and working with Plaintiffs to answer this discovery.[4] Not a single plaintiff covered by Scheduling Order No. 2 was dismissed for non-compliance with their discovery obligations. *Id*. at ¶ 114. The degree of individualized attention and effort given by the Kansas Common Benefit Group to this discovery is reflected in the varying size and length of each plaintiff's responses. Some plaintiffs produced tens of thousands of pages of documents, others less than a hundred; and, interrogatory responses ranged from 20 to 33 pages long. *Id.* at ¶ 157.

Moreover, the 69 producers – of varying farm sizes – utilized different levels of technology and storage systems. Thus, there was no single method used to identify and collect responsive documents. Often, a member of the discovery team had to physically drive to the farm (often in a remote, rural location), conduct a records search, copy responsive information (either electronically or manually), and catalogue the information for production. Ex. 1 (Stueve Decl. ¶¶ 299-300). In other instances, responses required seeking information from third parties, such as where the Kansas Common Benefit Group contacted or went to third-party locations to collect documents (such as a crop insurance agent, grain elevator or seed dealer) with the plaintiff's authorization. Ex. 2 (Powell Decl. ¶¶ 123, 131). In producing the documents, Co-Lead Counsel assembled, labeled, uploaded, and prepared load files for all productions in compliance with the Court's ESI protocol. *Id*. at ¶ 103.

The Kansas Common Benefit Group also engaged in affirmative discovery with the Plaintiffs. Syngenta produced over 100,000 stewardship agreements, showing the names of all

[4] *See* Ex. 10 (Donarski Decl. ¶ 7); Ex. 13 (J. Bell Decl. ¶ 5); Ex. 44 (W. Bell Decl. ¶¶ 4-5); Ex. 43 (Bender Decl. ¶¶ 6-33); Ex. 15 (Ellis Decl. ¶¶ 6-7); Ex. 16 (Preston Decl. ¶ 6); Ex. 18 (Emerson Decl. ¶¶ 7-8); Ex. 21 (Crompton Decl. ¶¶ 4-5); Ex. 40 (Kerlick Decl. ¶¶ 12-13); Ex. 24 (Shelquist Decl. ¶ 8); Ex. 25 (Lundberg Decl. ¶¶ 6-7); Ex. 26 (Flax Decl. ¶¶ 5-6); Ex. 28 (Wedgworth Decl. ¶ 19); Ex. 29 (Lytle Decl. ¶ 5); Ex. 30 (Paul Decl. ¶¶ 6-7); Ex. 31 (Poynter Decl. ¶ 6); Ex. 34 (Schirger Decl. ¶ 7); Ex. 7 (Weiss Decl. ¶¶ 5, 36-48); Ex. 37 (Soper Decl. ¶ 6); Ex. 38 (Bukovac Decl. ¶¶ 7-8); Ex. 39 (Thrash Decl. ¶¶ 5-6).

farmers and/or entities that purchased seeds containing the Agrisure Viptera or Duracade seed traits. Because the farmers' names were typically hand written, these records were manually reviewed and the names had to be typed into a searchable database, a very time-consuming process, in order to confirm that Syngenta would not argue any of the bellwether plaintiffs purchased or planted Viptera or Duracade seed. Ex. 1 (Stueve Decl. ¶¶ 271-73).

All of these plaintiffs were deposed. There were over 70 depositions because, in some instances, more than one person was produced from each plaintiff. A team of only 11 lawyers was assembled to prepare and produce most of the plaintiffs for their deposition. Ex. 2 (Powell Decl. ¶ 133). An EC firm, Walters Bender, coordinated scheduling and deposition preparation. Ex. 43 (Bender Decl. ¶ 6). The client was prepared ahead of time, typically in person, *id.*, using an extensive deposition outline prepared by the EC in consultation with Co-Lead Counsel. *Id.*; Ex. 1 (Stueve Decl. ¶ 294). Ahead of each deposition, this team ensured the producer plaintiffs' document production was complete. Ex. 2 (Powell Decl. ¶ 134). This small team completed all depositions, oftentimes in rural and remote locations, for over 70 witnesses in the six months between December 2015 and May 2016. *Id.* at ¶ 133; Ex. 1 (Stueve Decl. ¶ 295).

Work continued even after the depositions were completed. From May 2016 to December 2016, the Kansas Common Benefit Group conducted numerous meet-and-confer activities with Syngenta. Ex. 2 (Powell Decl. ¶¶ 143-45). These efforts were precipitated by a letter from Syngenta's counsel containing 88-pages (single-spaced) of purported deficiencies in the plaintiffs' discovery answers. *Id*. at ¶ 143. The Kansas Common Benefit Group engaged in substantial effort reviewing these assertions, collecting and supplementing responses, and responding in a set letters totaling 150 (single-spaced) pages. *Id.* This prompted a 94-page (single spaced) reply by Syngenta's counsel. *Id.* at ¶ 144. An attorney from one of Co-Lead

Counsel and the Walters Bender firm then conducted a lengthy meet-and-confer with Syngenta's lawyers on the purported deficiencies, which lead to both further supplementation and another round of lengthy letters. *Id.* As a result of these efforts, the disputes were all resolved without Court intervention. *Id.* at ¶ 145.

C. The Kansas Common Benefit Group Prevailed on Syngenta's Third-Party Complaint.

Throughout the course of the litigation, Syngenta asserted multiple defenses to shift responsibility for Plaintiffs' injuries on other parties. *See* Ex. 1 (Stueve Decl. ¶¶ 222-28). In late 2015, in answering the Non-Producer Plaintiffs' Second Amended Complaint, Syngenta filed not only an answer and affirmative defenses, but counterclaims as well. ECF No. 1224. Its counterclaims sought indemnification and contribution for any recovery by Plaintiffs against Syngenta. ECF No. 1224 at 106-09. On December 3, 2015, Syngenta filed its Third-Party Complaint against Cargill and ADM, with causes of action also seeking contribution and indemnity. ECF No. 1259. Had Syngenta been successful in maintaining these claims, all of the trials would have taken significant additional time and would have been far more complicated, with higher risk that a jury could find someone other than Syngenta responsible. Ex. 1 (Stueve Decl. ¶ 225).

On January 19, 2016, Co-Lead Counsel with Kansas Common Benefit Group counsel filed a motion to dismiss the counterclaims and third-party claims and memorandum in support. ECF Nos. 1434, 1435. Syngenta opposed the motion, ECF No. 1661, and a reply was filed on March 25, 2016. ECF No. 1766. On April 4, 2016, the Court granted the joint motion to dismiss Syngenta's counterclaims and third-party complaints. ECF No. 1803. This victory ensured that there would not be third parties sitting at trial that Syngenta could blame for the harm to Plaintiffs. Ex. 1 (Stueve Decl. ¶ 225). It also resulted in the defeat of Syngenta's similar claims

against non-producer Plaintiffs and Class Members. Syngenta would later seek to permit the jury to assign fault to non-party ADM, Cargill, other exporters of corn, and even China, and also avoid liability based on superseding cause. Again, Plaintiffs' counsel defeated those efforts. *See infra*, Section I.E.

D. Co-Lead Counsel Litigated Key Legal Issues in the Case.

Co-Lead Counsel and the Kansas Common Benefit Group's raised or responded to a number of key and difficult legal and factual issues via briefing and pleadings throughout the case. They prepared and filed precise and carefully pled Producer Plaintiffs' Class Action Master and Non-Producer Plaintiffs' Class Action Master Complaints (ECF Nos. 296, 297), both of which included specific economic allegations supporting the alleged harm. These initial Master Complaints contained over 274 paragraphs of allegations, a nationwide count for relief under the Lanham Act, and over 70 additional causes of action. These Master Complaints were supplemented following review of Syngenta's initial document production in response to Scheduling Order No. 1, adding another 100 paragraphs of factual allegations. ECF Nos. 450, 451. Additional amendments were made over the course of the MDL. ECF Nos. 1064, 1377.

Legal briefs in the case – drafted almost exclusively by Co-Lead Counsel with frequent collaboration from EC firm Seeger Weiss – were also complex and extensive. A watershed brief, presented and briefed first in the Kansas MDL, was Plaintiffs' response to Syngenta's Motion to Dismiss the Master Complaints pursuant to Rule 12(b)(6). ECF No. 927; Ex. 1 (Stueve Decl. ¶¶ 203-16); Ex. 2 (Powell Decl. ¶¶ 93-95); Ex. 4 (Chaney Decl. ¶¶ 188-90); Ex. 3 (Downing Decl. ¶ 27). Syngenta's June 19, 2015 memorandum in support of its motion to dismiss was 128 pages with appendices. ECF No. 857. Plaintiffs' response was 207 pages with appendices. ECF No. 927. This Court's memorandum and order was itself 120 pages. ECF No.

1016. But, that was only one such brief, there were other significant briefs with comprehensive arguments and multiple legal analyses, such as:

- Early in the litigation, Syngenta removed hundreds of cases originally filed in state courts on the basis of the Federal Common Law of Foreign Relations. After full briefing before this Court, these cases were remanded back to state court. ECF No. 395. This ruling – and the briefing filed by Co-Lead Counsel – thus paved the way for the separate lawsuits in Minnesota and Illinois state court. But for the ruling, all Syngenta cases would have been prosecuted in federal court.

- Syngenta's memorandum in support of its motion for summary judgment in the Kansas class case contained 41 pages of facts, 71 pages of argument, and 323 exhibits. ECF No. 2861. Plaintiffs' opposition contained 79 pages responding to Syngenta's statement of facts, ECF No. 2940-1 (Appx. A), a 117-page statement of additional facts (587 separate paragraphs), ECF No. 2940 (¶¶ 1-587), 100 pages of argument, ECF No. 2940 at 2-100, and 415 exhibits.

- Plaintiffs' own motion for partial summary judgment contained 22 pages of facts, 36 pages of argument, and 64 exhibits. ECF Nos. 2859 & 2859-1-64. Plaintiffs' reply was 112 pages, with 30 additional exhibits. ECF Nos. 2994 & 2994-2-31.

- Syngenta's memorandum in support of its post-trial motion under Rules 50(b) and 59 was sixty-nine pages long. ECF No. 3344. Plaintiffs' opposition was 82 pages long. ECF Nos. 3392.

See Ex. 1 (Stueve Decl. ¶¶ 499-509, 570-72); Ex. 2 (Powell Decl. ¶¶ 180-82, 203); Ex. 3 (Downing Decl. ¶¶ 4(b), 49-50); Ex. 4 (Chaney Decl. ¶¶ 178-81, 279-80, 301); Ex. 7 (Weiss Decl. ¶ 15); Ex. 20 (Ursu Decl. ¶ 6).

Co-Lead Counsel and Seeger Weiss also prepared the extensive motion for class certification of the litigation classes in the MDL, including the development of two agricultural economists and their expert reports. Ex. 1 (Stueve Decl. ¶¶ 441-48); Ex. 3 (Downing Decl. ¶ 40). The motion, memorandum and supporting exhibits themselves were voluminous. *See* ECF Nos. 2156-57. In response, Syngenta filed nearly 1,000 pages of argument and exhibits attacking the ascertainability of the class and, similar to the successful arguments in the *Rice* litigation, alleging individualized issues pertaining to claims and damages, both of which were alleged to

defeat commonality and predominance. *See* ECF No. 2335. Plaintiffs' reply brief and exhibits totaled nearly 1,900 pages. ECF No. 2436.

Co-Lead Counsel produced both of their agricultural economists for deposition, and deposed three defense experts designated by Syngenta when it opposed certification. Ex. 1 (Stueve Decl. ¶¶ 449-51); Ex. 3 (Downing Decl. ¶ 40). The Court held a two-day class certification hearing in which Drs. Babcock and Carter testified live and were cross-examined by Syngenta. Ex. 1 (Stueve Decl. ¶ 458). Significant time was devoted to preparing for this hearing, including a dry run with Minnesota Lead Counsel the day before the hearing. Ex. 3 (Downing Decl. ¶ 40). On September 26, 2016, the Court granted the motion and certified the nationwide and eight state classes, which was the first class certification decision in any of the related cases. Ex. 1 (Stueve Decl. ¶¶ 459-61).

On September 26, 2016, the Court granted the motion for certification of the litigation classes. ECF No. 2547. On October 11, 2016, Syngenta filed a Rule 23(f) Petition for Permission to Appeal Class Certification Order. *In re Syngenta AG MIR162 Corn Litigation*, Case No. 16-607 (10th Cir. Oct. 11, 2016). If granted, this Petition likely would have delayed the June 2017 Kansas trial and put at substantial risk the chance of trying Plaintiffs' claims as class actions. Ex. 1 (Stueve Decl. ¶¶ 493-98). Co-Lead Counsel and Seeger Weiss prepared and filed an opposition brief. On December 7, 2016, the Tenth Circuit denied the Rule 23(f) Petition because the "district court's rulings in the order granting class certification are well-researched and reasoned, and, if any rulings are in error, those errors can be addressed on appeal, if necessary." *In re Syngenta AG MIR162 Corn Litigation*, Case No. 16-607, at 3 (10th Cir. Dec. 7, 2016).

In addition to Plaintiffs' initial motion for class certification and the other titanic briefings described above, and excluding the *many* unopposed, procedural, or administrative motions that were filed in the MDL, Co-Lead Counsel filed approximately thirty-six other substantive motions. *See* ECF Nos. 283, 365, 848, 854, 945, 1213, 1214, 1289, 1435, 1580, 1642, 2237, 2364, 2428, 2598, 2617, 2856, 2868, 2871, 2872, 2877, 2880, 2882, 2884, 2886, 2903, 2912, 3081, 3101, 3109, 3128, 3175, 3297, 3341, 3431, and 3506.[5] And they responded to approximately nineteen substantive motions filed by Syngenta or others. *See* ECF Nos. 1091, 1557, 1615, 1810, 1825, 2090, 2239, 2476, 2949, 2952, 2954, 2456, 2957, 2958, 2960, 2961, 2983, 3029, 3267. In addition, the Court held, and Co-Lead Counsel attended, approximately seventeen hearings or status conferences over the course of the MDL. *See* ECF Nos. 77, 286, 333, 340, 1087, 1335, 1526, 1546, 2661, 2768, 3085, 3118, 3289, 3347, 3394, 3399, 3513. The Court itself issued at least 17 Memoranda and Orders, containing substantive analysis of disputed legal issues, during the litigation phase of this case. ECF Nos. 403, 935, 1016, 1679, 1803, 2047, 2426, 2492, 2502, 2547, 2556, 2703, 3051, 3134, 3319, 3426, 3437.

The legal work represented a significant investment of time and resources by the Kansas Common Benefit Group, and it paved the way for settlement.

E. Co-Lead Counsel Led Expert Discovery on the Key Experts.

Before even filing a complaint, Co-Lead Counsel consulted with agricultural economists to understand and investigate the extent of the damages. Ex. 3 (Downing Decl. ¶¶ 8, 11). Pursuant to Rule 26, Co-Lead Counsel disclosed nine experts in the MDL. These included Dr. Bruce Babcock, Dr. Colin Carter, Dr. Randy Giroux, Dr. Joe Keaschall, Kevin Latner, and Dr.

[5] Although citations are not referenced here, all such motions filed by Plaintiffs were typically accompanied by a Memorandum of Law and a Reply brief. In rare instances, a Sur-reply brief and/or Notices of Supplemental Authority were also prepared and filed.

Dirk Maier.[6] These six experts provided opinion testimony on a broad range of topics, including: agricultural economics, the U.S. commodity system, the standard of care, the efficacy of Syngenta's seeds, and the Chinese regulatory system. Co-Lead and EC Counsel retained and prepared all nine of the experts. Ex. 1 (Stueve Decl. ¶¶ 466-69); Ex. 2 (Powell Decl. ¶¶ 169-75); Ex. 30 (Paul Decl. ¶ 6(f)). Many months were spent discussing opinions and facts, reviewing drafts, and preparing for and defending the experts at their depositions. Ex. 3 (Downing Decl. ¶¶ 6, 11, 28, 38, 43, 47, 53, 62, 67); Ex. 1 (Stueve Decl. ¶¶ 469); Ex. 2 (Powell Decl. ¶¶ 173); Ex. 30 (Paul Decl. ¶ 6(f)). Syngenta moved to strike all of the experts under *Daubert*. Ex. 1 (Stueve Decl. ¶ 511). Co-Lead Counsel researched, prepared, and filed responses to each motion. Ex. 2 (Powell Decl. ¶ 174); Ex. 1 (Stueve Decl. ¶ 509); Ex. 3 (Downing Decl. ¶ 51). They defeated nearly all of Syngenta's arguments. *See* ECF Nos. 2863 (Dr. Dirk Maier), 2866 (Dr. Joe Keaschall), 2870 (Kevin Latner), 2876 (Dr. Randal Giroux), 2888 (Dr. Bruce Babcock) and 2892 (Dr. Colin Carter). Ultimately, Drs. Carter, Babcock, Keaschall, and Giroux testified at the Kansas trial, and did testify or were expected to testify in the Minnesota trial. Ex. 1 (Stueve Decl. ¶ 469).

Syngenta disclosed twelve experts, covering subjects including the USDA process for approving new GM products; the U.S. commodity system; routes of transgenic contamination; industry standards for commercialization of new GM crops; China's regulatory system and purported political manipulation of this system; Chinese law on sale, shipping and import/export of foreign agricultural products containing GM traits; and damages. Ex. 1 (Stueve Decl. ¶¶ 475-76). Co-Lead Counsel led defensive expert discovery for ten of these experts, including:

[6] Plaintiffs also originally designated Bernard Black and David Teece, experts retained and prepared by Minnesota counsel, but both experts were later voluntarily withdrawn in the MDL. ECF No. 2988. Co-Lead Counsel additionally designated Eric C. Frye to provide individual economic analyses of specific plaintiffs, but the parties agreed to delay that designation after the classes were certified.

deposing each expert and preparing and filing *Daubert* motions against each expert.[7] Ex. 1 (Stueve Decl. ¶ 508); Ex. 2 (Powell Decl. ¶ 174); Ex. 3 (Downing Decl. ¶ 51); Ex. 4 (Chaney Decl. ¶ 277). Moreover, Co-Lead Counsel employed two pieces of strategy that significantly narrowed the scope of expert testimony Syngenta could present at trial. First, Co-Lead Counsel subpoenaed Syngenta's only standard-of-care expert, J. Thomas Carrato who authored the BIO Policy, seeking documents responsive to his expert analysis, and challenged his previous employer's attempts to shield these documents based on privilege and confidentiality objections. After several rounds of legal briefing and favorable orders issued by the Court, Syngenta ultimately withdrew Mr. Carrato as an expert witness, leaving Syngenta without a standard-of-care expert for at least the Kansas, Minnesota, Arkansas, Missouri, Illinois, Iowa, Nebraska, South Dakota, and Ohio trials. Ex. 1 (Stueve Decl. ¶¶ 476-90). Second, Co-Lead Counsel prepared and filed a successful *Daubert* brief striking Dr. Goodwin's alternative damages model, which left Syngenta without an alternative damages computation for these trials. *Id.* at ¶ 515; ECF No. 3134 at 29.

Finally, work was conducted in preparing expert reports and opinions for non-producer bellwether plaintiffs. Ex. 4 (Chaney Decl. ¶ 278); Ex. 45 (Robinovitch Decl. ¶ 22).

F. Co-Lead Counsel Responded to and Filed Summary Judgment.

On February 6, 2017, Syngenta filed a summary judgment motion seeking dismissal of "all claims asserted by the Nationwide Lanham Act Class and Kansas State Class." ECF No. 2860 at 2. Syngenta's memorandum was 121 pages, including 137 paragraphs of purportedly undisputed materials facts, and attaching 323 exhibits totaling more than 2,900 pages. ECF No. 2861. Opposition to this summary judgment motion was enormously complicated. Co-Lead

[7] As rebuttal experts to Black and Teece, Page and Daines were withdrawn by Syngenta when Plaintiffs withdrew Black and Teece. ECF No. 2971.

Counsel's firms drafted responses to all of Syngenta's 137 fact assertions, and with assistance from Kansas Common Benefit Group, drafted 587 statements of additional facts that canvassed the totality of the discovery in this litigation, including excerpts from depositions taken across the world, as well as documents produced by Syngenta and third parties throughout the course of the litigation. Ex. 1 (Stueve Decl. ¶¶ 499-509); Ex. 2 (Powell Decl. ¶¶ 180-82); Ex. 3 (Downing Decl. ¶¶ 54-55); Ex. 4 (Chaney Decl. ¶¶ 279-80). The brief and supporting exhibits total more than 9,000 pages. ECF Nos. 2940-46.

Co-Lead Counsel also drafted and filed a motion for partial summary judgment, seeking dismissal of significant affirmative defenses, including assumption of risk, comparative fault, mitigation, intervening and superseding cause and purported business and economic justification. *See* ECF Nos. 2858, 2859. The memorandum and supporting exhibits totaled more than 1,900 pages and asserted 123 statements of undisputed facts. ECF No. 2859. In addition to responding to Syngenta's legal arguments, Plaintiffs' reply brief responded to Syngenta's 208 statements of additional material fact. ECF No. 2994; Ex. 1 (Stueve Decl. ¶¶ 499-509); Ex. 2 (Powell Decl. ¶¶ 180-82); Ex. 4 (Chaney Decl. ¶¶ 279-80); Ex. 3 (Downing Decl. ¶¶ 54-55).

These motions were granted in part and denied in part. ECF No. 3051. Among other things, and importantly, the Court narrowed the affirmative defenses Syngenta could raise at trial, refusing Syngenta's bid to assess fault of producers, ADM, Cargill, and China, and from asserting that the supposed "illegal" acts of the exporters were a superseding cause. *Id.*; Ex. 1 (Stueve Decl. ¶ 508); Ex. 3 (Downing Decl. ¶¶ 54-55).

G. Co-Lead Counsel Led Trial Preparations and Briefing for the Kansas trial.

Because Syngenta repeatedly stated that it would not settle this litigation in advance of trial, Co-Lead Counsel prepared for trial from the very beginning of the litigation. Ex. 1 (Stueve Decl. ¶ 522-23). To prepare for trial, they worked with trial consultants in helping to shape the

themes and demonstrative exhibits for trial, including conducting a focus group and a mock trial. *Id.* at ¶¶ 524-35. The fulsome feedback received from these efforts greatly assisted in refining trial arguments and demonstratives and identifying areas of concern that could be proactively addressed before trial. *Id.* at ¶ 532.

Syngenta's employees were outside of the subpoena power of the Court, so a substantial portion of Plaintiffs' evidence was pre-recorded deposition video testimony. Ex. 1 (Stueve Decl. ¶ 554). Pursuant to the Court's Trial Order, the Parties were required to exchange depositions designations on May 5, 2017; to make counter-designations and objections by May 10; and to make objections and counter-counter-designations by May 15. ECF No. 2984. There were nearly 200 depositions; it took enormous work to select the testimony for trial. Ex. 1 (Stueve Decl. ¶¶ 554-55); Ex. 2 (Powell Decl. ¶ 185); Ex. 6 (Klonoff Decl. ¶ 79). After an extensive, multi-stage review of the depositions, Co-Lead Counsel designated testimony from 43 witnesses for the Kansas trial. ECF No. 3345-1; Ex. 4 (Chaney Decl. ¶ 282). Syngenta designated testimony from 51 witnesses. ECF No. 3338-1. Co-Lead Counsel and the Kansas Common Benefit Group prepared and served objections and counter designations to the testimony of all 51 witnesses within five days. Ex. 1 (Stueve Decl. ¶ 554). Five days after that, they served objections and counter to Syngenta's counter designations. *Id*.

In the weeks leading up to the trial, Co-Lead Counsel fully briefed *in limine* motions, negotiated stipulated jury instructions and fully briefed disputed instructions. ECF Nos. 3204, 3205, 3239, 3278, 3280, 3283, 3284, 3285; Ex. 1 (Stueve Decl. ¶¶ 536-45); Ex. 3 (Downing Decl. ¶¶ 4(b), 56-57, 59, 62). In connection with the latter, Syngenta argued for the first time, a little more than a week before the start of trial, that international law applied to issues in this litigation and the Court should instruct on the WTO's Sanitary and Phytosanitary Measures

Agreement (the "SPS Agreement"). *See* ECF No. 3205. Responding to this proposed jury instruction required significant legal analysis of international law and its relationship to this litigation at a time in which Co-Lead Counsel and their firms were otherwise focused on preparing to start trial. The Court ultimately gave Jury Instruction No. 17. Ex. 1 (Stueve Decl. ¶ 543). Co-Lead Counsel presented oral argument at the jury conference during the Kansas trial. ECF No. 3309 at 2227.

H. Co-Lead Counsel Tried the Kansas Class Action.

The Kansas class trial was the first Syngenta corn case to be tried to a verdict in any court. The Kansas class trial began on June 5, 2017, and lasted until June 23, 2017, when the jury returned its verdict awarding the Kansas class $217.7 million, the entire compensatory damages amount requested by Plaintiffs. Ex. 1 (Stueve Decl. ¶¶ 546-67).

Co-Lead Counsel tried all aspects of the Kansas lawsuit. They put on every fact and expert witness for Plaintiffs and cross-examined all of Syngenta's witnesses. Preparation was extensive. *Id.* Syngenta identified 12 persons as potential live witness on its pre-trial witness list and 58 potential depositions to be offered into evidence. ECF No. 3131. Plaintiffs identified 21 potential live witnesses. ECF No. 3076. Co-Lead Counsel prepared for the examination of many, if not all, of these witnesses in anticipation that they might be called at trial. Ex. 1 (Stueve Decl. ¶¶ 547, 558). Ultimately, Co-Lead Counsel put seven live witnesses on the stand and offered 22 video clips into evidence in their case-in-chief and numerous counter-designated video clips in Syngenta's case. *Id.* at ¶ 556; *see* ECF Nos. 3240-3261, 3287-88, 3293-94.

Syngenta brought in nationally recognized counsel from Kirkland & Ellis to try the Kansas case. Ex. 1 (Stueve Decl. ¶¶ 518-21). Syngenta's trial team involved at least eight partners from Kirkland offices across the country, with additional help from Kirkland associates and staff and jury consultants, and at least two partners from Berkowitz Oliver in Kansas City.

Id. Counsel worked late into the evening and early morning each night preparing for the presentation of evidence, negotiating deposition cuts, meeting and conferring, and preparing for and raising legal arguments with the Court. *Id.* at ¶¶ 555; Ex. 4 (Chaney Decl. ¶¶ 289-91); Ex. 2 (Powell Decl. ¶¶ 194-202); Ex. 3 (Downing Decl. ¶¶ 56-57). At the close of Plaintiffs' case-in-chief on June 14, 2017, Syngenta filed a Rule 50(a) Motion for Judgment as a Matter of Law. ECF No. 3265. Four hours later, Co-Lead Counsel filed a 16-page opposition. The next morning, the Court ruled on this motion orally, largely denying the motion. Ex. 1 (Stueve Decl. ¶ 558).

Syngenta ultimately put on five live witnesses at trial, each one cross-examined by Co-Lead Counsel, and played video clips from the depositions of 15 witnesses. *Id.* at ¶ 559-61.

After deliberating from Thursday afternoon, June 22, 2017, until Friday morning, the jury returned a verdict finding that Plaintiffs proved, by a preponderance of the evidence, the requisite elements of negligence and Syngenta failed to prove its defense that China was a superseding cause. ECF No. 3304. The jury's award was the tenth largest jury verdict in the United States in 2017. Ex. 1 (Stueve Decl. ¶¶ 567-68).

On July 21, 2017, Syngenta filed a Rule 50(b) motion for judgment as a matter of law and alternatively Rule 59 motion for a new trial and/or remittitur. ECF No. 3343. Co-Lead Counsel drafted the opposition, filed on August 21, 2017. ECF No. 3392. Before this motion was ruled upon, the parties reached a global class settlement. Ex. 1 (Stueve Decl. ¶¶ 570-72).

I. Co-Lead Counsel Prepared for Four More MDL Trials in 2018.

After the Kansas trial, the Parties disagreed on the order and course of the trials of the remaining seven certified classes. Co-Lead Counsel moved to consolidate the trials of multiple classes together. ECF No. 3082. Syngenta opposed and wanted all of the class claims severed and cases remanded to judges unfamiliar with the litigation. Following a status conference, the

Court ordered supplemental briefing. ECF Nos. 3314, 3317. The Court adopted Plaintiffs' argument that Syngenta waived personal jurisdiction in Kansas for these Plaintiffs, and grouped the class cases for a set of consolidated trials. ECF No. 3319. The next such trial would include the Arkansas and Missouri classes. *Id.* Co-Lead Counsel prepared and participated in the pretrial conference for that trial. Ex. 1 (Stueve Decl. ¶¶ 573-78).

On September 15, 2017, Co-Lead Counsel filed a motion to certify the remaining producer claims pled in the Master Complaint as class actions. ECF No. 3431.

II. CO-LEAD COUNSEL COORDINATED WITH OTHER ACTIONS AND HAVE ENTERED INTO A FEE-SHARING AGREEMENT WITH OTHER LEAD COUNSEL.

A. The Court Entered a Coordination Order Requiring the Sharing of Discovery with Related Actions.

The JPML issued its order consolidating the federal cases on December 22, 2014. ECF No. 1. On May 5, 2015, the Court rejected Syngenta's argument that the doctrine of foreign relations provided federal jurisdiction, ECF No. 395, and on May 22, 2015, the Minnesota Supreme Court consolidated all state-court cases in a single venue. As a result, on October 21, 2015, and in conjunction with Scheduling Order No. 2, the Court entered a Coordination Order that required coordination among counsel between this MDL and Related Actions, which were defined as those "already . . . pending in Minnesota . . . Louisiana . . . and additional actions [that] may be filed in the future." ECF No. 1099 at 1.

One purpose of that order was to "minimize undue duplication of discovery and undue burden on courts, parties, and non-parties in responding to discovery requests, save substantial expense by the parties and non-parties, and produce substantial savings in judicial resources." *Id*. at 2. To that end, the order provided that Co-Lead Counsel: create the MDL Document Database (*id.* at 5) and take the "lead" for discovery scheduling (*id.* at 4). Pursuant to applicable

orders in the MDL, Co-Lead Counsel was then required to share discovery taken in the MDL with plaintiffs in the Related Actions, although plaintiffs could obtain additional discovery if "such discovery had not been obtained in the MDL." *Id.* at 7. To be a Related Action, the order provided that it could be adopted by courts overseeing cases in other jurisdictions. *See* Ex. 1 (Stueve Decl. ¶¶ 177-82).

B. Other Actions were filed in Minnesota, Illinois and Elsewhere.

1. The Minnesota Leadership Actions.

On May 22, 2015, the Minnesota Supreme Court transferred a number of lawsuits filed by producers and non-producers in Minnesota to a single judge in in the Fourth Judicial District of Minnesota ("Minnesota Court"). *In re: Syngenta Litigation*, No. 27-CV-15-3785, Dist. Court, County of Hennepin, Fourth Judicial District, Mem. Order (Minn. Tr. Ct. Apr. 7, 2016) ("*In re Syngenta Minn. Litig.*"), previously filed as ECF No. 3392-1 at 8. On August 5, 2015, the Minnesota Court appointed lead counsel ("Minnesota Lead Counsel"). ECF No. 1273-3. Following this order Minnesota Lead Counsel proposed orders similar to many of the administrative orders issued in the MDL, including: the Notice to Conform, Protective Order, ESI Protocol, and Preservation Order.[8] On October 2, 2015, Minnesota Lead Counsel filed master complaints similar to the MDL complaints containing specific and extensive factual allegations and causes of action. Ex. 51 (Minnesota Class Action Master Complaint for Producers and Non-Producers, *In re Syngenta Minn. Litig.* (Oct. 2, 2015)) & Ex. 52 (Master Complaint for Producers and Non-Producers (Non-Class), *In re Syngenta Minn. Litig.* (Oct. 2,

[8] *Compare* ECF No. 287 (MDL Order Relating to Consolidated Pleadings) *with* Ex. 53 (Proposed Notice to Conform, *In re Syngenta Minn. Litig.* (Oct. 23, 2015)); *compare* ECF No. 294 (MDL Protective Order) *with* ECF No. 3392-1 (Stipulated Protective Order *In re Syngenta Minn. Litigation*, (Minn. Tr. Ct. Sept. 25, 2015) (Sipkins, J.)); *compare* ECF No. 369 (April 21, 2015 MDL Preservation Order) *with* Ex. 54 (Preservation Order, *In re Syngenta Minn. Litig.*, (Oct. 30, 2015)); *compare* ECF No. 327 (Mar. 31, 2015 MDL ESI Protocol) *with* Ex. 55 (ESI Protocol, *In re Syngenta Minn. Litig.*, (September 25, 2015)).

2015)). On November 11, 2015 and December 22, 2015, the Minnesota Court adopted its own Scheduling Order No. 2 and a bellwether discovery plan that included 40 bellwether discovery plaintiffs in addition to the putative Minnesota class representatives. Ex. 56 (Scheduling Order No. 2, *In re Syngenta Minn. Litig.* (Nov. 4, 2015)) & Ex. 57 (Order Regarding Bellwether Selection, *In re Syngenta Minn. Litig.* (Dec. 22, 2015)).

On November 9, 2015, Syngenta moved to dismiss the Minnesota complaints based on many of the same grounds raised and rejected by this Court, including duty and the economic-loss doctrine. Ex. 58 (Mem. in Law in Supp. of Mot. Dismiss, *In re Syngenta Minn. Litig.* (Nov. 9, 2015)). On December 1, 2015, Minnesota Lead Counsel filed a 105-page opposition brief. Ex. 59 (MN Pls.' Mem. of Law in Opp. to Mot. to Dismiss, *In re Syngenta Minn. Litig.* (Dec. 1, 2015)). The Minnesota Court largely denied the motion, issuing a 55-page decision that followed, in most material aspects, this Court's September 11, 2015 Memorandum and Order. *In re Syngenta Minn. Litig*., (Apr. 7, 2016), previously filed as ECF No. 3392-1.

On November 4, 2015, the Minnesota Court entered the MDL Coordination Order. ECF No. 1273-1. As such, Minnesota Lead Counsel was provided access to the MDL Document Database, depositions, exhibits, and jury-consultant analysis.[9] *See id.*; Ex. 1 (Stueve Decl. ¶ 183). They also sent lawyers to and participated in the Syngenta and third-party depositions described above, and faced most, if not all, of the same defenses that Co-Lead Counsel faced in the MDL: Syngenta opposed class certification, sought to file third-party complaints against ADM and Cargill, argued preemption, sought summary judgment, and challenged the plaintiffs' expert witnesses. In most regards, following briefing by Minnesota Lead Counsel, the Minnesota Court adopted rulings consistent with those issued by this Court and described above.

[9] Any Minnesota document reviewers would have submitted time under the Minnesota CBO, and their work should be included in the brief seeking attorneys' fees submitted by Minnesota Lead Counsel

See Ex. 60 (Order Regarding Summary Judgment Motions, *In re Syngenta Minn. Litig.* (Apr. 11, 2017)); Ex. 61-38 (Orders Regarding Syngenta's Experts); Ex. 69 (Order Granting Class Certification, *In re Syngenta Minn. Litig.* (Nov. 3, 2016)); Ex. 70 (Order Denying Syngenta's Mot. to File Third-Party Complaint, *In re Syngenta Minn. Litig.* (Sept. 6, 2016)).

Trial of the first Minnesota bellwether plaintiff started on April 26, 2017, but a mistrial was declared because of a jury issue before opening statements. ECF No. 3507-11 at ¶ 16. On September 11, 2017, the Minnesota class jury began and proceeded through Plaintiffs' case-in-chief before it was announced that the parties had executed a settlement term sheet. *Id*.

Minnesota Lead Counsel are filing a separate motion in support of their fee application that includes greater detail about their side of the litigation.

2. The Illinois Leadership Actions.

The Illinois Supreme Court consolidated hundreds of producer claims filed in Illinois state court against Syngenta before the Circuit Court of the First Judicial Circuit, Williamson County ("Illinois State Court"). *Dereadt, et al. v. Syngenta Seeds, Inc., et al.*, No. 120-209 (Ill. S. Ct.); *Browning v. Syngenta Seeds, Inc. et al*., No. 15-L-157 (Ill. Cir. Ct.). The Illinois State Court appointed Clayton Clark and Martin J. Phipps as lead counsel in the Illinois State Court cases ("Illinois Lead Counsel"). Additionally, Illinois Lead Counsel represented producer plaintiffs with cases pending in the United States District Court for the Southern District of Illinois in the action styled *Tweet et al. v. Syngenta AG et al.*, No. 3:16-cv-00255-DRH ("Illinois Federal Court").

Following this Court's Memorandum and Order largely denying Syngenta's motion to dismiss in the MDL and the Minnesota Court's similar order, Syngenta nonetheless filed motions to dismiss in both the Illinois state- and federal-court actions. On May 15, 2017, the Illinois Federal Court issued an extensive order with rulings substantially similar to this Court's orders.

In re Syngenta Mass Tort Actions, No. 3:16-CV-00255-DRH, 2017 WL 2117728, at *1 (S.D. Ill. May 15, 2017).[10] On August 18, 2017, the Illinois State Court issued an order largely denying Syngenta's motion to dismiss "[i]n accord with [the] decisions" of this Court, the Minnesota Court, and the Illinois Federal Court. *Browning*, Order (Aug. 21, 2017), previously filed as ECF No. 3392-2.

Illinois Lead Counsel also filed a series of cases on behalf of ethanol plants in state courts around the country, including in Ohio, Michigan, Nebraska, Indiana, and Iowa. Syngenta moved to dismiss those claims. In all but one case, the motions were denied.

Illinois Lead Counsel are filing a separate motion in support of their fee application that includes greater detail about their side of the litigation.

C. Lead Counsel's Fee-Sharing Agreements.

After extensive negotiations between attorneys from the various litigations, the Court-appointed Special Master made a mediator's proposal on an allocation of attorneys' fees between attorneys in the MDL, Minnesota and Illinois. Ex. 1 (Stueve Decl. ¶ 611). Following that proposal Co-Lead Counsel, Minnesota Lead Counsel, and Illinois Lead Counsel executed a Fee-Sharing Agreement on or about February 23, 2018. Ex. 8 ("Fee-Sharing Agreement"). Pursuant to this Agreement, the parties agreed to request that the Court allocate its Fee Award as follows:

- 50% to Co-Lead Counsel for disbursement to the 44 firms in the Kansas Common Benefit Group, *i.e.*, firms who performed authorized work in the Kansas MDL consistent with the Kansas MDL Court's orders ("MDL Allocation"), to be distributed by Co-Lead Counsel;
- 12.5% to Minnesota Lead Counsel for disbursement to all common-benefit law firms ("Minnesota Common Benefit Group") who performed work in the

[10] In addition to the *Tweet* case, the Illinois Federal Court presided over another set of cases consolidated as *Poletti et al. v. Syngenta AG et al.*, No. 3:15-cv-01221-DHR. The MDL Coordination Order was entered in that case. ECF No. 1514. On April 3, 2017, the Illinois Federal Court denied in large part Syngenta's motion to dismiss in that case. *In re Syngenta Mass Tort Actions*, 272 F. Supp. 3d 1074 (S.D. Ill. 2017).

Minnesota MDL consistent with the Minnesota MDL Court's orders ("MN Allocation"), to be distributed by Minnesota Lead Counsel; and

- 17.5% to Illinois Lead Counsel for disbursement to the law firms of Clayton A. Clark ("Clark"), Peter J. Flowers, and Martin J. Phipps, as well as their referring counsel, co-counsel, and/or joint venture partners ("IL Allocation"), to be distributed by Clark.

In the Fee-Sharing Agreement, the parties also provided that the remaining 20% of the Fee Award be allocated by the Court, in consultation and agreement with the Minnesota Court and the Illinois Federal Court, taking into consideration the recommendation by the Special Masters. Ex. 8 (Fee-Sharing Agreement at 2).

Co-Lead Counsel additionally entered into an agreement with Settlement Class Counsel Christopher Seeger and his law firm Seeger Weiss LLP on or about February 22, 2018 for the allocation of attorneys' fees and expenses to the Seeger Weiss law firm from any sum awarded to counsel in the MDL, providing that: no less than ten percent of the MDL Allocation be allocated to Seeger Weiss for their contributions to the case; and, that Seeger Weiss receive the same multiplier on their lodestar, if any, as Co-Lead Counsel. Ex. 9; Ex. 1 (Stueve Decl. ¶ 615). Thus, Seeger's efforts leading the Plaintiffs' Settlement Negotiation Committee, discussed *infra*, as well as his firm's contributions to the case as an EC member, will be compensated out of the MDL Allocation awarded by the Court.

III. SETTLEMENT WAS THE PRODUCT OF THE WORK DONE BY LEADERSHIP IN KANSAS, MINNESOTA AND ILLINOIS.

From the start of the MDL through the verdict in the Kansas trial, Syngenta was clear that it did not intend to settle this litigation before trial. Ex. 1 (Stueve Decl. ¶ 522). On August 9, 2017, the Court entered an order forming a Plaintiffs' Settlement Negotiation Committee ("Negotiating Committee") to negotiate with Syngenta. ECF No. 3366. The Negotiating Committee included Christopher A. Seeger (representing the Kansas MDL), Mikal Watts

(representing Minnesota individual cases), Clayton A. Clark (representing Illinois state cases), and Daniel E. Gustafson (representing the Minnesota class). *Id.* at 3. It was overseen under the auspices of the previously appointed Special Master Ellen K. Reisman, along with retired Judge Dan Stack, and under the supervision of the Illinois Federal Court. *Id.* at 2. Seeger led the committee on behalf of the Plaintiffs. After months of negotiations, Syngenta agreed to pay $1.51 billion. In the three months following the Kansas verdict, the Special Master convened numerous in-person meetings across the country and multiple telephonic meetings between Syngenta's counsel and the Negotiating Committee. Seeger invested hundreds of hours spearheading these negotiations on behalf of the Plaintiffs. Ex. 7 (Weiss Decl. ¶ 13). Given the "parallel litigations," the negotiations were "complex, spirited [and] multidimensional." *Id*. As the Special Master reported at the December 19, 2017 status conference, the term sheet required "months of hard negotiations" and was only reached after the Minnesota class trial had begun. ECF No. 3485 at 5:1-2. Co-Lead Counsel actively participated in negotiations through communications and strategy decisions with Seeger. Ex. 1 (Stueve Decl. ¶ 594).

On October 9, 2017, the parties filed a Joint Motion to Stay pending the execution of the settlement agreement. ECF No. 3452. After the committee announced that it had executed a term sheet with Syngenta, dated September 25, 2017, negotiations continued and were expanded to include Patrick J. Stueve from the MDL Co-Lead Counsel. As the Special Master told the Court, the process of "taking it from a term sheet to final settlement agreement [was also] a difficult one." ECF No. 3485 at 6:5-8. The Special Master convened numerous additional in-person and telephonic meetings. Ex. 1 (Stueve Decl. ¶¶ 595-97). Co-Lead Counsel[11] and

[11] Moreover, in order to simplify the settlement distribution process, Co-Lead Counsel reached out to the United States Department of Agriculture's Farm Service Agency (the "FSA") after the Kansas verdict to discuss with the FSA the possibility of allowing a settlement administrator to have access to the data reported by farmers to the FSA on 578 forms. *Id.* at ¶ 598. In December 2017, Co-Lead Counsel

Seeger's firm spent substantial time and effort negotiating and finalizing the Settlement Agreement, a process that itself took another five months, culminating in a Settlement Agreement signed by Syngenta, Co-Lead Counsel, Subclass Counsel, and all members of the Negotiating Committee. *Id.* at ¶¶ 596-602; Ex 7 (Weiss Decl. ¶¶ 5, 10, 13).

On March 12, 2018, Settlement Class Counsel filed a motion and supporting memorandum seeking preliminary approval of the $1.51 billion settlement. ECF Nos. 3506-07. Attached as Exhibit A to that memorandum was the fully-executed Settlement Agreement. ECF No. 3507-2. The motion drew objections from the Toups/Coffman Plaintiffs and joinders in those objections by the Hossley-Embry Plaintiffs. ECF Nos. 3519, 3512. On April 5, 2018, the Court conducted a preliminary approval hearing. ECF No. 3529. On April 10, 2018, the Court granted preliminary approval of the settlement. ECF No. 3532. By May 11, 2018, the settlement administrator had mailed notice to potential class members. Ex. 1 (Stueve Decl. ¶ 610).

IV. PROSECUTION OF THESE CASES REQUIRED AN ENORMOUS AND RISKY INVESTMENT OF LABOR AND RESOURCES.

A. The Litigation Was Risky and Success Was Far From Certain.

This was an enormously challenging lawsuit to prosecute, filled with specialized and complicated fact discovery and numerous complex legal issues. Ex. 1 (Stueve Decl. ¶¶ 579-88). From a discovery perspective, there was no way to subpoena documents from China. This made it difficult to combat Syngenta's claims that China's denial of Syngenta's import approval applications and ultimate rejection of U.S. corn were all for political reasons. *Id.* at ¶ 580. Syngenta produced many documents in Chinese and multiple witnesses required translators, which further complicated discovery. *Id.* at ¶ 581.

---

secured the commitment from the FSA to supply this information electronically, which was ultimately a key part of the claims process. Ex. 4 (Chaney Decl. ¶ 304). As a result, very few producers will have to submit any documentary evidence to seek their share of the settlement.

Additionally, there were substantial legal risks, particularly with regard to establishing the duty Syngenta owed to Plaintiffs and overcoming Syngenta's causation and economic-loss doctrine arguments. *Id.* at ¶ 585. The risk that this litigation could be dismissed because of a legal ruling is underscored by the June 28, 2017 Judgement Entry entered by the Court of Common Pleas of Seneca County, Ohio in *Fostoria Ethanol, LLC v. Syngenta Seeds, Inc.*, No. 15 CV 0323. *Id.* at ¶ 586. In that Order, the Ohio Court granted Syngenta's motion to dismiss in its entirety, finding that Syngenta did not owe a duty to plaintiffs for their alleged financial losses. The Court stated in relevant part: "There has been no case from any court in Ohio presented to this Court to show that Syngenta's duty should extend to economic harm caused by the intended use of its products, and this court declines to invent such a duty." *Id.* (quoting Order).

The risk continued to trial, where it was quite possible that either the Kansas jury or subsequent juries would find China was a superseding cause of the injuries to Plaintiffs. This risk increased when the Court gave Jury Instruction No. 17, explaining to the jury that China's actions may be relevant to the superseding cause analysis. ECF No. 3302 at 18-19.

Despite these risks, Co-Lead Counsel and the Kansas Common Benefit Group funded the prosecution of the litigation without any guarantee that the more than $6.6 million in expenses would be repaid or that the nearly 150,000 hours of labor expended would be compensated. Ex. 1 (Stueve Decl. ¶ 592). No money was contributed by a non-party or from non-lawyer funders. *Id.* at ¶ 649.

In total, the Kansas Common Benefit Group advanced $6,695350.05 in common-benefit expenses for such costs critical to the prosecution of this litigation, such as: more than $380,000 in deposition-related expenses; nearly $300,000 in ESI-related expenses for the MDL Document Database; approximately $300,000 in payment of the Kansas MDL share of the invoices from

the Special Masters; over $300,000 in expenses related to subpoenas, including the service of these subpoenas and the reasonable expenses related to the production of documents from these subpoenaed third parties; more than $1.5 million reflecting the Kansas MDL share of expert-related expenses; and more than $460,000 in expenses related to the class certification notice. *Id.* at ¶¶ 645, 647-53.[12] A full summary of expenses by category is contained *infra* at Section II.

B. Kansas Common Benefit Firms Invested Significant Labor and Expenses.

Co-Lead Counsel and the Kansas Common Benefit Group invested over 142,823 hours of labor in this case on a full contingency basis. *Id.* at ¶¶ 643-64. This reflects the work of 44 of the 49 firms in the Kansas Common Benefit Group.[13] *Id*. Approximately sixty-eight percent of all common-benefit time was performed by Co-Lead Counsel. When the next highest-hour firm – Seeger Weiss – is included, that figure increases to 75% of the overall time. *Id.* at ¶ 644.

Since the entry of the CBO, Kansas Common Benefit Group firms have been required to submit their time and expenses to Co-Lead Counsel in an Excel spreadsheet on a monthly basis following protocols designed by Co-Lead Counsel. ECF No. 936. Throughout the litigation, these submissions were reviewed carefully and problems with the submissions were addressed with submitting law firms throughout the litigation. *Id.* at ¶ 630.

After the settlement was announced and beginning in February 2018, all law firms in the Kansas Common Benefit Group that submitted common-benefit time and expenses in the Kansas MDL were emailed a comprehensive Excel spreadsheet containing that time and those expenses

[12] Some costs were shared with Lead Counsel in Minnesota. This Expense Request includes only the share of costs incurred by Kansas Common Benefit Attorneys in the MDL. Minnesota Lead Counsel will seek reimbursement for their portion of any shared costs separately. In addition, counsel in the *Poletti* case (Heninger Garrison Davis, LLC) made contributions to the litigation fund. This Expense Request includes that firm's expenses, but not any common-benefit work because they did not submit any. It is anticipated that they may file their own request.

[13] Five firms in the Kansas Common Benefit Group reported no common-benefit work, but made contributions to the litigation fund that were used to fund common-benefit expenses in the MDL and seek reimbursement of those contributions. *Id.* at ¶ 644.

submitted by that firm. *Id.* at ¶¶ 631-32. Counsel were asked to re-review this Excel spreadsheet to re-confirm that all entries were in compliance with the CBO, including ensuring that these submissions did *not* include time spent on individual clients who were not bellwether or class representative plaintiffs, marketing activities, secretarial work, or time spent on Plaintiff Fact Sheets not related to bellwether plaintiffs or class representatives. Co-Lead Counsel drafted and circulated a memorandum containing these guidelines for the re-review and emailed individualized issues to common-benefit firms based upon their submissions to date. All Kansas Common Benefit Group firms were instructed to exercise billing discretion on the previously-submitted entries. *Id.* at ¶¶ 632-35.

All Kansas Common Benefit Group firms were required to – and did – execute a declaration attesting to the time and expenses submitted. Ex. 1 (Stueve Decl. ¶¶ 666, 672); Ex. 2 (Powell Decl. ¶¶ 214-20); Ex. 3 (Downing Decl. ¶ 77); Ex. 4 (Chaney Decl. ¶ 318); Ex. 10 (Donarski Decl. ¶¶ 12, 15); Ex. 11 (Basser Decl. ¶¶ 11, 15); Ex. 12 (Plant Decl. ¶¶ 22, 25); Ex. 13 (J. Bell Decl. ¶¶ 11, 14); Ex. 44 (W. Bell Decl. ¶ 11); Ex. 43 (Bender Decl. ¶¶ 38, 42); Ex. 14 (Brady Decl. ¶¶ 12, 15); Ex.15 (Ellis Decl. ¶¶ 13, 17); Ex. 16 (Preston Decl. ¶¶ 12, 16); Ex. 22 (Brooks Decl. ¶¶ 10, 13); Ex. 17 (Pinyan Decl. ¶¶ 14, 17); Ex. 48 (Cecchi Decl. ¶¶ 25, 28); Ex. 18 (Emerson Decl. ¶¶ 13, 18); Ex. 19 (Maier Decl. ¶¶ 14, 18); Ex. 20 (Ursu Decl. ¶¶ 13, 17); Ex. 21 (Crompton Decl. ¶¶ 8, 13); Ex. 40 (Kerlick Decl. ¶ 19); Ex. 24 (Shelquist Decl. ¶¶ 14, 18); Ex. 25 (Lundberg Decl. ¶ 13); Ex. 26 (Flax Decl. ¶¶ 12, 15); Ex. 27 (McCluer Decl. ¶ 12); Ex. 28 (Wedgworth Decl. ¶¶ 25, 28); Ex. 33 (Miller Decl. ¶ 12); Ex. 29 (Lytle Decl. ¶¶ 11, 14); Ex. 30 (Paul Decl. ¶¶ 13, 17); Ex. 31 (Poynter Decl. ¶¶ 12, 15); Ex. 32 (Roth Decl. ¶¶ 12, 16); Ex. 34 (Schirger Decl. ¶¶ 15, 17); Ex. 7 (Weiss Decl. ¶¶ 52, 56); Ex. 35 (Conroy Decl. ¶¶ 16, 19); Ex. 37 (Soper Decl. ¶¶ 8, 11); Ex. 38 (Bukovak Decl. ¶¶ 13, 16); Ex. 39 (Thrash Decl.

¶¶ 12, 16); Ex. 41 (Wagner Decl. ¶¶ 31, 34); Ex. 42 (Waller Decl. for WJW ¶ 12); Ex. 36 (Waller Decl. for Sneed Lang ¶¶ 14, 18); Ex. 45 (Robinovitch Decl. ¶¶ 30, 34); Ex. 46 (Toups Decl. ¶¶ 6, 10-11, 13); Ex. 47 (Coffman Decl. ¶¶ 8, 12).

After these multiple rounds of review, Co-Lead Counsel computed the aggregate number of common-benefit hours: in sum, 142,823 hours of labor have been invested by the Kansas Common Benefit Group in this litigation, resulting in an aggregate lodestar of $81,725,060.90. Ex. 1 (Stueve Decl. ¶ 644). This results in a blended rate of $572 across all timekeepers.[14] *Id.* at ¶ 646.

V. TWO DISTINGUISHED EXPERTS ON ATTORNEYS' FEES SUPPORT THE REQUESTS.

A. Professor Klonoff Opines that Fees, Costs and Service Awards are Reasonable under the Facts of this Case and in Comparison to Awards in Similarly Sized Settlements.

Professor Richard Klonoff is the current Jordan D. Shnitzer Professor of Law at Lewis & Clark Law School, an endowed, tenured position. Ex. 6 (Klonoff Decl. ¶ 2). Professor Klonoff graduated from Yale Law School and clerked for the Honorable John R. Brown on the United States Court of Appeals for the Fifth Circuit before serving as an Assistant to the Solicitor General. *Id.* He worked for over 12 years at Jones Day before entering academia. *Id.* He has taught class actions, complex litigation, civil procedure, federal courts, and federal appellate procedure. *Id.* In 2011, the Chief Justice of the United States appointed him to the Judicial Conference Advisory Committee on the Rules of Civil Procedure. He served two, three-year terms, where he worked on proposed amendments to Rule 23. *Id.* at ¶ 4. He served for five

[14] Importantly, Co-Lead Counsel excluded nearly $8 million of their own time and over $500,000 of out-of-pocket expenses because they did not meet the definition of common-benefit work or expenses in the CBO, including substantial hours expended on their many individual clients, representing approximately 22,700 hours. Ex. 1 (Stueve Decl. ¶ 664); Ex. 2 (Powell Decl. ¶ 214); Ex. 3 (Downing Decl. ¶ 78); Ex. 4 (Chaney Decl. ¶ 313).

years as a reporter for the ALI's *Principles of the Law of Aggregate Litigation*, in which he was the principal author of the chapter addressing class-action settlements and attorneys' fees. *Id.* at ¶ 5. Numerous courts have relied and cited his testimony and opinions in approving class settlements and attorneys' fees. *Id*. at ¶ 11 (collecting cases).

Here, Professor Klonoff conducted an extensive review of the record, including Kansas Common Benefit Attorneys' time records, and provides a 67-page report containing numerous opinions and sub-opinions. In summary, he concludes as follows. First, the Fee Request is reasonable under the compelling circumstances of this case and is supported by awards made in other large settlements, finding that even in such cases, "there is nothing unusual about awards in the range requested here," even in cases that – unlike this one – did *not* go to trial. *Id.* at ¶ 95.

Second, a lodestar cross check is unnecessary in awarding a percentage-of-the-recovery and "can lead to the very harmful consequences that the percentage method is designed to avoid." *Id.* at ¶ 102. Even so, if such a crosscheck were conducted here, it "would only confirm the reasonableness of the fees requested by MDL class counsel."[15] *Id*. at ¶ 103. The time records reveal "no red flags suggesting that the work of the MDL plaintiffs' firms was inefficient or that there was needless duplication." *Id*. at ¶ 106. "[T]he MDL leadership took great efforts to minimize duplication of tasks," including *inter alia* circulating "guidelines [that] directed firms to minimize the number of timekeepers," "assign[ing] tasks to the same attorneys and staff members to avoid extra time getting others up to speed," and using "small groups of attorneys [to focus] on discovery in particular subject areas to promote efficiency, while a core group of attorneys consistently worked on legal research and briefing." *Id*. at ¶ 107. Further, the billing rates used by the "various MDL law firms submitting lodestar hours," *id.* at ¶ 109, are:

[15] At the time he prepared his report, Minnesota and Illinois Lead Counsel had not completed the review of their time, so that information was unavailable to Professor Klonoff. *Id*. at ¶ 103.

consistent with "rates for prominent plaintiffs' complex litigation firms," *id.* at ¶ 110; justified by the "even higher rates [approved in other] complicated, multi-jurisdictional" cases, *id.* at ¶¶ 111, 115; comparable to "prominent defense firms," *id.* at ¶ 112; and, "especially instructive," lower than the rates published by and revealed in public filings for Kirkland & Ellis, *id* at ¶ 113. The blended rate of $572 per hour is lower than "blended rates in other major MDL cases," even though "none of those cases went to trial (where hours billed by senior lawyers would be expected to increase)." *Id*. at ¶ 116. The resulting multiplier of 3.079 applied to the $251.67 million sought by Kansas Common Benefit Attorneys is "not uncommon, especially for a complicated, challenging case such as this one" *id*. at ¶ 123, and justified by, among other things, the fact that counsel "took on a challenging, risky case with extremely complex legal and factual issues, prosecuted it skillfully over the course of several years without assistance form any official investigation, obtained class certification despite Syngenta's opposition, conducted a complete trial that resulted in an impressive $217.7 million jury verdict, and obtained a superb $1.51 billion settlement for the class." *id.* at ¶ 126. It is actually lower than multipliers applied in many other so-called "mega-fund" settlements, none of which required a trial or jury verdict. *Id.* at ¶ 124.

Third, the $6,695,350.05 million in "costs sought by class counsel are eminently reasonable," as they "paid those enormous costs without any assurance that the case would ultimately succeed." *Id*. at ¶ 133. Those costs are, based on his experience, well within the "norm for major class actions," and reflect "standard (and expected) expenses for a case like this," representing "only .44 percent of the settlement fund." *Id*. at ¶ 134.

Finally, the proposed service awards are reasonable given: the actions taken by those plaintiffs to protect the interests of the class; the benefits conferred on the class by their efforts;

the time and effort undertaken; and, the "huge risk that" despite their investments in the case, "causing them at times to put their farming operations on hold," that "they (and the class) might end up recovering nothing." *Id*. at ¶¶ 135-143.

B. Retired Magistrate Judge Richard Ralston Opines that the Billing Rates Used to Calculate the Lodestar are Reasonable.

Richard H. Ralston is an attorney, mediator, and arbitrator who has practiced in the Kansas City region "for approximately 50 years," with "substantial experience litigating cases on behalf of both plaintiffs and defendants." Ex. 5 (Ralston Decl. ¶ 2). He served as a United States Magistrate Judge for 12 years in the Western District of Missouri, and since then has been involved "as a settlement judge or mediator in more than 4,000 cases." *Id*. He "regularly serve[s] as an expert witness addressing issues such as the reasonableness of settlements and, in particular, assessing the reasonableness of attorneys' fees for class counsel when those fees are determined through application of the percentage of the common fund methodology." *Id*. at ¶ 16. He sets forth a number of opinions and sub-opinions, analyzing market rates in complex MDL and class litigation and other materials: "[b]ased on [his] approximately 50 years of professional experience working in this area of the law both in Kansas City and around the country, the hourly rates charged by common benefit counsel and utilized to calculate the lodestar in this case are reasonable and fair," and that "these rates do not account for the risk undertaken by counsel in accepting these cases on a contingent-fee basis." *Id*. at ¶ 22.

ARGUMENT

I. THE FEE REQUEST IS FAIR AND REASONABLE UNDER GOVERNING PRINCIPLES AND BASED ON THE FACTS OF THE CASE.

It has long been recognized that "a litigant or a lawyer who recovers a common fund for the benefit of persons other than himself or his client is entitled to a reasonable attorney's fee from the fund as a whole." *Boeing Co. v. Van Gemert*, 444 U.S. 472, 478 (1980); *see also Gottlieb v. Barry*, 43 F.3d 474, 482 (10th Cir. 1994) (same). The common-fund doctrine "prevent[s]. . .inequity" by proportionately spreading payment among those who benefit from the labor of others. *Boeing*, 444 U.S. at 478. "The common benefit doctrine has been approved and implemented in dozens, if not hundreds, of multidistrict litigations . . . ." *In re NuvaRing Prods. Liab. Litig.*, No. 4:08 MDL 1964 RWS, 2014 WL 7271959, at *2 (E.D. Mo. Dec. 18, 2014).

A. The Fee Request is Reasonable as a Percentage of the Fund

The dominant method of determining attorneys' fees in common-fund cases is awarding a percentage of the fund. *See* 4 Newberg on Class Actions §14:6 (4th ed. 2010) ("in recent years, a majority of the Circuit courts have approved the percentage-of-the-fund method.") (citing cases); Manual for Complex Litigation, Fourth, § 14.121 ("[T]he vast majority of courts . . . use the percentage-fee method in common-fund cases."); *Report of Third Circuit Task Force: Selection of Class Counsel*, 208 F.R.D. 340, 355 (2002) ("A percentage fee, tailored to the realities of the particular case, remains superior to any other means of determining a reasonable fee for class counsel…"). The Supreme Court itself has expressly stated that "under the 'common fund doctrine,' . . . a reasonable fee is based on a percentage of the fund bestowed on the class." *Blum v. Stenson*, 465 U.S. 886, 900 n.16 (1984).

"The Tenth Circuit has expressed a preference for the percentage-of-the-fund method of awarding attorney fees in common fund cases." *In re: Urethane Antitrust Litig.*, No. 04-1616-

JWL, 2016 WL 4060156, at *4 (D. Kan. July 29, 2016) (citing *Rosenbaum v. MacAllister*, 64 F.3d 1439, 1445 (10th Cir. 1995)); *Gottlieb*, 43 F.3d at 483. This approach is favored because, among other things, it best aligns the interests of the class and its counsel and appropriately approximates the market by basing a fee on what private counsel ordinarily would charge in contingency-fee matters. Ex. 6 (Klonoff Decl. ¶¶ 49-50); *accord Shaw v. Interthinx, Inc.*, No. 13-CV-01229-REB-NYW, 2015 WL 1867861, at *5 (D. Colo. Apr. 22, 2015) ("The Tenth Circuit favors the common fund approach, as opposed to the lodestar method, because a percentage of the common fund 'is less subjective than the lodestar plus multiplier approach,' matches the marketplace most closely, and is the better suited approach when class counsel were retained on a contingent fee basis") (quoting *Lucken Family Ltd. P'ship, LLLP v. Ultra Res., Inc*., No. 09-CV-01543-REB-KMT, 2010 WL 5387559, at *2 (D. Colo. Dec. 22, 2010) (quoting *Brown v. Phillips Petroleum Co.*, 838 F.2d 451, 484 (10th Cir. 1988))).[16]

Here, Co-Lead and Settlement Class Counsel request one-third of the settlement fund, equal to approximately $503.3 million, be allocated to numerous counsel for plaintiffs in the manner described *infra*, Section III. This amount, as a percentage of the fund, is consistent with the Tenth Circuit's requirements that any fee be reasonable under analysis of applicable factors.

[16] *See also, e.g., Gokare v. Fed. Express Corp*., No. 2:11-CV-2131-JTF-CGC, 2013 WL 12094887, at *3 (W.D. Tenn. Nov. 22, 2013) ("the percentage method directly aligns the interests of the class and its counsel and provides a powerful incentive for the efficient prosecution and early resolution of litigation . . . By contrast, the lodestar method . . . is difficult to apply, time-consuming to administer, inconsistent in result, and capable of manipulation' and 'creates inherent incentive to prolong the litigation." (internal quotations and citations omitted); *In re Southeastern Milk Antitrust Litig*., No. 07-cv-1000, 2013 WL 2155387, at *2 (E.D. Tenn. May 17, 2013) ("percentage-of-the-fund method. . .clearly appears to have become the preferred method in common fund cases" and properly "reflects the results achieved by class counsel"); *Bussie v. Allmerica Financial Corp.*, No. 97-40204-NMG, 1999 WL 342042, at *2 (D. Mass. May 19, 1999) ("the [percentage] method of calculating fees more appropriately aligns the interests of the class with the interests of class counsel – the larger the value of the settlement, the larger the value of the fee award.") (internal quotation and citation omitted).

B. The *Johnson* Factors Justify the Fee Request because this was a Hugely Complex Case Involving Significant Time and Labor where Counsel Incurred Great Risk and Obtained a Record-Setting Settlement.

Under both the percentage and lodestar approach, reasonableness is determined by consideration of the now well-known factors originally articulated in *Johnson v. Georgia Highway Express, Inc.*, 488 F.2d 714 (5th Cir. 1974), and approved in the Tenth Circuit:

> (1) the time and labor involved; (2) the novelty and difficulty of the questions; (3) the skill requisite to perform the legal service properly; (4) the preclusion of other employment by the attorney due to acceptance of the case; (5) the customary fee; (6) any prearranged fee-this is helpful but not determinative; (7) time limitations imposed by the client or the circumstances; (8) the amount involved and the results obtained; (9) the experience, reputation, and ability of the attorneys; (10) the undesirability of the case; (11) the nature and length of the professional relationship with the client; and (12) awards in similar cases

Brown, 838 F.2d at 454-55 (quoting *Johnson*, 488 F.2d at 717-19); *see also Gottlieb*, 43 F.3d at 482 (*Johnson* factors "for statutory fee cases apply equally to percentage fee awards in common fund cases."). Not every factor will apply in every case; the court has discretion regarding which factors it considers and the relative weight given to each. *See Uselton v. Commercial Lovelace Motor Freight, Inc.*, 9 F.3d 849, 854 (10th Cir. 1993) ("rarely are all of the *Johnson* factors applicable; this is particularly so in a common fund situation"); *Law v. Nat'l Collegiate Athletic Ass'n*, 4 F. Appx. 749, 752 (10th Cir. 2001) ("We have never held that a district court abuses its discretion by failing to specifically address each *Johnson* factor.") (quoting *Gudenkauf v. Stauffer Communications, Inc.*, 158 F.3d 1074, 1083 (10th Cir. 1998)); *see also, e.g., Yarrington v. Solvay Pharmaceuticals, Inc.*, 697 F. Supp. 2d 1057, 1062 (D. Minn. 2010) ("not all of the

individual factors will apply in every case, affording the Court wide discretion in the weight to assign each factor.").[17] The award requested here is well supported by all applicable factors.

1. The difficult factual and legal issues in this case justify the fee request.

"Courts emphasize the risk undertaken by counsel" in awarding fees, concluding that "complex cases justify higher fees, and simple cases lower fees." *Been v. O.K. Indus., Inc.*, CIV-02-285-RAW, 2011 WL 4478766, at *7 (Aug. 16, 2011), *report and recommendation adopted*, CIV-02-285-RAW, 2011 WL 4475291 (Sept. 26, 2011). And cases involving issues of first impression – which "present greater uncertainty and require extra time and effort – can warrant higher fee awards to compensate the attorneys who accept them." *Id*. (citing *Johnson*, 488 F.2d at 718 ("Cases of first impression generally require more time and effort on the attorney's part . . . [Counsel] should be appropriately compensated for accepting the challenge.").[18]

As the Court well knows from steering this MDL from stem to stern, the claims in the MDL, in Minnesota, in Illinois, and in the state ethanol cases were full of complex factual and

[17] For example, one of the factors, relationship with the client, "has little relevance in the class setting given that the 'client' is the class." 5 Newberg on Class Actions § 15:77 n.15 (5th ed. 2015). Consequently, courts rarely consider it in that context. *See e.g.*, *In re: Motor Fuel Temperature Sales Practices Litig.*, 07-MD-1840-KHV, 2016 WL 4445438, at *9 (D. Kan. Aug. 24, 2016) (class action: nature and length of the professional relationship with the client did not apply); *In re Catfish Antitrust Litig.*, 939 F. Supp. 493, 503 (N.D. Miss. 1996) (class action: "This factor has no application in this court's analysis.").

[18] *See also, e.g.*, *Lunsford v. Woodforest Nat'l Bank*, No. 1:12-CV-103-CAP, 2014 WL 12740375, at *13 (N.D. Ga. May 19, 2014) ("The novelty and difficulty of the issues involved created significant risk for Class Counsel. The risks were not merely one, but several."); *Gokare*, 2013 WL 12094887, at *7 ("an award of 30.9% of the common fund is more than justified when comparing the significant results achieved to the difficulty of the case."); *George v. Duke Energy Ret. Cash Balance Plan*, No. 8:06-CV-00373-JMC, 2011 WL 13218031, at *5 (D.S.C. May 16, 2011) ("Clearly, this litigation involved complex issues and, in some instances, issues of first impression"); *Klein v. O'Neal, Inc.*, 705 F. Supp. 2d 632, 677 (N.D. Tex. 2010) ("complexity of the issues also favors an increase in the benchmark percentage"); *Allapattah Servs., Inc. v. Exxon Corp.*, 454 F. Supp. 2d 1185, 1206 (S.D. Fla. 2006) ("The second *Johnson* factor recognizes that attorneys should be appropriately compensated for accepting novel and difficult cases. . .The legal difficulty of this case was further compounded by the application of state law to numerous issues").

legal issues. More often than not, Syngenta argued that the claims asserted and arguments raised by Plaintiffs were novel and the issues presented lacked direct or controlling precedent (or were defeated by such precedent). In the MDL, it fell to Co-Lead Counsel to extensively research and persuasively argue otherwise to the Court and the jury. Ultimately, the collective work of the leadership attorneys in the various jurisdictions was highly successful, bringing to port both favorable legal rulings, a favorable jury verdict and resulting in a $1.51 billion nationwide settlement.

a) The litigation involved a unique and complex structure.

As a starting point, the unique structure of this litigation, including its multi-jurisdiction spanning nature, created unusual organizational complications. From inception, it involved: hundreds of individual cases as well as putative class actions; discrete, and sometimes disparate, types of plaintiffs, including corn producers and corn buyers; and, multi-jurisdictional litigation that despite the MDL mechanism were impossible to consolidate together because of statutory limitations. Despite these challenges, leadership counsel organized in their respective jurisdictions, and sometimes between themselves, for the mutual benefit of the Class. Moreover, this MDL and the Minnesota cases were highly unusual in that they instituted a dual and simultaneous track for individual-bellwether and class cases, involving all of the initially filed plaintiff types. Early proposed orders and Master Complaints permitted the Court to resolve legal issues in all of the cases efficiently. Ex. 1 (Stueve Decl. ¶¶ 156-202). Further, formal, Court-approved coordination orders were proposed and followed by counsel. And, despite sometimes differences of opinion on strategy among the lawyers for plaintiffs in these cases working toward the common goal, these differences did not impede the substantive prosecution of Plaintiffs' claims on the merits. This is best evidenced by the amount of work that was conducted, in this complex case, in relatively short order: the Court shepherded this case to a

class-wide jury verdict within 29 months from the appointment of MDL leadership. *Compare* Order Concerning Appt. of Leadership, ECF No. 67 *with* Verdict Form, ECF No. 3304. Similarly, the Minnesota Court cases, although initially delayed by Syngenta's removal, were able to proceed swiftly because of this Court's timely order on federal jurisdiction and the groundwork laid in the federal MDL. *See supra* Section I.D. Thus, the first Minnesota trial started in April 2017, less than two years after consolidation, and the second – class – trial started in September 2017.

b) The litigation involved a novel fact pattern.

This was not a case with a simple fact pattern. Indeed, the facts are more complex than even the "ordinary" complex case, like a typical securities-fraud class claim. Rather, the claims in this MDL required an understanding of the development and commercialization of genetically modified ("GM") agricultural seeds, industry standards for that commercialization, the process for USDA deregulation prior to domestic commercialization, China's process for import (and cultivation) approval of GM agricultural products, international policies relating to such processes, and the commingled commodity system in the United States. Leadership counsel were required to become experts in national rules on exportation and international rules on importation of new GM corn. This required expertise beyond just learning these rules – themselves sometimes opaque and subject to interpretation – and required detailed consideration of public policy. A centerpiece of Syngenta's arguments, both legal and factual, was that the United States utilizes a science-based approach to GM seed approvals, and that permitting a recovery here would allow China a "veto over which GM traits can and cannot appear in U.S. corn." ECF 857 at 69. Plaintiffs had to counter that argument both with facts and policy, and did so successfully as evidenced by the many courts' rulings on Syngenta's initial motion to dismiss and the Kansas jury verdict.

Moreover, a central factual attack levied by Syngenta was that the Chinese regulatory process for approval of MIR162 and Event 5307 had been politicized in a trade battle between China and the United States.[19] According to Syngenta, China was the culpable party in the *de facto* trade embargo, and Plaintiffs were required to rebut this defense even though they could not compel discovery from that foreign state. Consequently, Plaintiffs had to build their case on a painstaking review and use of Syngenta's own internal communications with and about the Chinese regulatory authorities.[20] Relatedly, Plaintiffs' damages case was built on the allegation that, but for the *de facto* trade embargo, Chinese importers would have continued to buy and would have increased their purchases of U.S. corn. Owing to the structure of China, however, these importers were either government buyers of corn or private buyers who Plaintiffs – once again – could not compel to provide discovery. Plaintiffs, therefore, depended heavily on expert forecasts of the corn market, which required extensive and complex economic models that had to withstand legal scrutiny and be communicated intelligently and understandably to the jury.

In addition to the complex policy and economic issues relating to GM products and market risk from asynchronous approvals, this was no simple negligence case. There was substantial dispute over the proper standard of care, with difficult policy concepts interwoven therein. Counsel in the leadership groups had to become experts in relevant industry policies and

[19] Syngenta's expert Philip A. Shull provided a 67-page report expounding on the Chinese approval system, stretching back to food shortages in the 1950s, China's food security policy and how that policy purportedly affects its regulatory system. He additionally opined that China's rejection of U.S. corn due to the presence of MIR162 was pretextual, China was not a "key market" for U.S. corn, China's agricultural trade policies are contrary to WTO rules, China misuses its regulatory process to erect trade barriers, and that China should not be given control over advances in U.S. corn seed technology. Ex. 1 (Stueve Decl. ¶ 491).

[20] Plaintiffs' attorneys were required to delve into the complicated realm of China's regulatory process generally, as well as the timing and scientific data required, submitted, and not submitted, by Syngenta. *See* ECF No. 2940 at ¶¶ 36-42, 249-343 & Ex. 27 (Latner Rpt.).

standards adopted by biotech companies in the United States to avoid trade disruptions.[21] These policies were alternatively favorable and unfavorable to Plaintiffs' claims, depending on their interpretation and the facts surrounding how they were actually implemented by Syngenta and other biotech developers. Plaintiffs could not fall back on prior cases to develop their theories about the standard of care. Syngenta repeatedly argued that this was the first instance where a seed manufacturer was being held responsible for a trade disruption caused by a GM trait that had been fully deregulated in the United States. Applying the standard of care to that factual circumstance required painstaking legal analysis, careful consideration and skill. Counsel had to become experts in both industry policies and their implementation by biotech companies, necessitating wide-ranging third-party discovery with trade organizations that were often hostile the Plaintiffs' claims, as well as the policy implications of that standard – issues that were argued and presented to both the Court and jury.

In addition to the standard of care, counsel in the leadership groups had to become experts in the United States commodity system for the domestic and international corn trade. A complicating aspect of the claims – unique from other types of negligence cases – was the

[21] The parties both pointed to policies adopted by the Biotechnology Industry Organization ("BIO"), a trade organization of biotechnology developers, in which the risk of trade disruption stemming from asynchronous approvals is recognized. Plaintiffs alleged that under this policy, a developer should not introduce new GM products without import approval from key export markets. *See* ECF No. 450 at ¶¶ 98-102; ECF No. 1377 at ¶¶ 107-111. From a legal/policy perspective, Syngenta argued that "[e]mbarking on the course Plaintiffs have charted would . . . embroil the judiciary in an ongoing flood of policy choices. Courts would have to decide for each and every significant export crop (1) how to define 'key' export markets that should be given Plaintiffs' proposed veto over new biotechnology in the U.S.; (2) how to determine which governments have 'functioning regulatory systems' such that they are worthy of being granted that veto power by American courts; and (3) whether changes in a country's circumstances have caused it to lose (or gain) status as a 'key' market or a 'functioning regulatory system' . . . Courts simply do not have the experience or expertise to construct and micromanage such a parallel regulatory system governing the introduction of biotechnology products. That is a role for the political branches." ECF No. 857 at 69-70; *see also* ECF No. 3344 at 42-43. From a factual perspective, both sides had their own interpretations of the BIO policy. Ex. 1 (Stueve Decl. ¶¶ 583-84).

process by which the MIR162 and Event 5307 traits reached shipments of U.S. corn to China.[22] This required a full understanding of, and factual development regarding, how GM seeds are planted and grown, harvested, and sold, as well as how corn is commingled and shipped to foreign buyers. Again, these subjects were not just factual, but were intertwined with policies underlying the commodity system (for example, economies of scale and efficiencies of transport). It also required counsel to research and acquire an understanding of foreign laws related to such shipments.[23] And it required an understanding of the feasibility of segregating and channeling GM crops,[24] as well as the highly technical science of genetic modification and the various means of contamination (*e.g.*, cross-pollination). These were not factual issues that had been fully developed in other cases, substantially increasing the complexity and difficulty of addressing them.

Issues of segregation were complicated further by Syngenta's third-party complaint against non-producers including exporters like Cargill and ADM. ECF No. 1225. Although these complaints were resolved on legal grounds, many of Syngenta's allegations that these non-producers knowingly shipped corn containing MIR162 and Event 5307 remained in the case, and were asserted aggressively by Syngenta, which blamed exporters just as it blamed China. *See* ECF No. 3163 at 65.

Not surprisingly, the case required numerous experts. Syngenta designated at least 12 experts who had to be deposed, cross examined, and rebutted (some more than once). *See supra* Sections I.E & II.B.1. Likewise, in the MDL and Minnesota actions, six experts for the Plaintiffs

---

[22] *See, e.g.*, ECF No. 2859 at ¶¶ 26-41; ECF No. 2940 at ¶¶ 97-106.

[23] Syngenta argued that exporters violated Chinese law in various respects when they shipped corn containing, *see* ECF No. 2859 Ex. 11 (Zhang Rpt.), requiring Plaintiffs to delve into that subject. *See* ECF No. 2940 at 59-70.

[24] *See, e.g.*, ECF 2940 ¶¶ 163-233.

were prepared and produced for trial and deposition, sometimes more than once. *Id.* Their opinions involved highly specialized subject matters. *Id.*

Finally, certification of the litigation classes in the MDL and Minnesota turned, in part, on a central question of disputed fact: Syngenta disputed whether class members could prove the fact and amount of damages by showing the price impact on the Chicago Board of Trade ("CBOT") futures price for corn and cited to this dispute as a basis for requiring an evidentiary hearing for the class certification motion. *See* ECF No. 2419 at 3. Prior to this case, no other court had accepted this assertion. The issue was argued in the *Genetically Modified Rice* litigation, where the district court found that CBOT rice price could *not* be used to support class certification in that case. Here, in addition to advancing new legal arguments, counsel developed a different factual record from which this Court, and ultimately the Kansas jury, found that impact and damages could be shown on a class-wide basis. The development of this record necessarily involved application of facts to legal precedent that was hugely important to the prosecution of the Plaintiffs' claims. *See* Ex. 1 (Stueve Decl. ¶¶ 448-61).

c) The legal issues were complex and their outcome uncertain.

The legal issues were at least as extensive, complex and hard-fought as these novel and important factual issues. They often involved issues for which there was no controlling precedent under the facts of this case. Syngenta's able lawyers left no stone unturned in pressing its defenses beginning with extensive arguments for dismissal some five months after appointment of lead counsel in the MDL. *See supra* Section I.D. Even after this Court rejected most of Syngenta's arguments, Syngenta pressed its defenses in multiple venues, including Minnesota, Illinois, and the state courts handling ethanol claims. *See supra* Section II.B.

Work on the initial motion to dismiss was a watershed moment. In that first motion and continuing throughout the litigation, Syngenta urged many defenses, including three

"fundamental doctrines cutting across tort law," which Syngenta argued broadly foreclosed Plaintiffs' claims: duty, causation, and the economic-loss doctrine. ECF No. 857 at 29-31. These issues alone are not only dispositive but daunting, and involved the law of 22 states. ECF No. 927 at 97-118. *See Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1206 ("The legal difficulty of this case was further compounded by the application of state law to numerous issues"); *In re: Motor Fuel Temperature Sales Practices Litig.*, 2016 WL 4445438, at *8 ("Plaintiffs asserted class claims which involved the law of 29 jurisdictions and complex liability and class certification issues. At every juncture, defendants raised procedural, jurisdictional, constitutional and substantive arguments and defenses"). Syngenta's arguments on duty and causation were sophisticated, policy-driven and made even more complex because of numerous contextual sub-issues.[25] The economic-loss doctrine is one of the most complicated topics in modern tort law due to the doctrine's multiple variants and differing rationales, untangling it was a substantial effort and prevailing on it was a significant victory.[26]

Syngenta contended many were issues of first impression, due either to a dearth of precedent or application of existing law to the particular facts of this case. Among other things, Syngenta urged that Plaintiffs' theories of liability were "unprecedented," that prior cases addressing unapproved GM traits (*In re StarLink Corn Prods Liab. Litig.* and *In re Genetically*

[25] For example, duty and causation involved not only already-complicated policy issues, *see* ECF No. 857 at 48-55, but arguments including who should have the burden of implementing safeguards when a new GM product is introduced, application of the BIO policy, and matters of foreign relations. *Id.* at 55-58; ECF No. 3292 at 14-23; ECF No. 3344 at 39-46.

[26] *See* Jim Wren, *Applying the Economic Loss Rule in Texas*, 64 Baylor L. Rev. 204, 205 (2012) ("courts often reference 'the economic loss rule' as if there were one unitary rule applicable to tort actions generally. The over-simplification misleads."); *id*. at 207 ("any reference to a single "economic loss rule" is a "misnomer") (quoting *Sharyland Water Supply Corp. v. City of Alton*, 354 S.W.3d 407, 415 (Tex. 2011)); Dan B. Dobbs, Paul T. Hayden and Ellen M. Bublick, The Law of Torts (2d ed.) ("Dobbs on Torts") at § 607 ("the implication of references to 'the' economic loss rule that there is but a single overarching economic loss rule is misleading. Several discrete rules dominate the decisions, not a single rule."); Dan B. Dobbs, *An Introduction to Non-Statutory Economic Loss Claims*, 48 Ariz. L. Rev. 713, 714 (2006) ("The contractual versions of the [ELD] are different" than the "stranger" version).

Modified Rice Litig.) were distinguishable, and that the only prior analogous cases held that claims were barred by the absence of duty or economic-loss doctrine. *See* ECF No. 857 at 31 (citing *Sample v. Monsanto Co.*, 283 F. Supp. 2d 1088, 1093 (E.D. Mo. 2003); *Hoffman v. Monsanto Canada*, 2005 SKQB 225, 2005 SK.C. LEXIS 330 (Can. Sask. Q.B. May 11, 2005)). Syngenta also argued that it would be unprecedented to hold it accountable for "actions of grain exporters and other market participants that are wholly beyond Syngenta's control," ECF No. 857 at 28, that any duty "to reorganize the entire industry framework for growing and distributing corn. . .would also squarely undermine the policy behind the U.S. regulatory framework" and that "[n]o court has ever purported to create a parallel regulatory regime for determining which GM traits can and cannot be sold freely after federal approval and this Court should not be the first." *Id.* at 30. Counsel were required to respond to these arguments, often in briefs of significant length, which often cited a host of case law and other authority. They prevailed against these arguments, obtaining favorable rulings in multiple jurisdictions.

Class certification also involved cutting-edge legal issues. This Court was one of the first to apply the predominance teachings of *Tyson Foods, Inc. v Bouaphakeo,* 136 S. Ct. 1036 (2016). *See* ECF No. 2436 at 45-49. It also involved an issue that Syngenta alleged was one of first impression in this Circuit: whether to adopt a supposed heightened ascertainability requirement under Rule 23. *See* Syngenta's Rule 23(f) Petition at 20, *In re Syngenta AG MIR162 Corn Litigation*, Case No. 16-607 (10th Cir. Oct. 11, 2016). Plaintiffs' prevailed on these issues as well in both the MDL and Minnesota, and obtained denial of Syngenta's requests for interlocutory appeals in both jurisdictions.

Other complex issues included:

- Whether the high court of each state would apply its version, or adopt the "stranger" version, of the economic-loss doctrine to the circumstances here. *See*

ECF No. 857 at 73-83; ECF No. 927 at 97-134; *In re Syngenta AG MIR 162 Corn Litig.*, 131 F. Supp. 3d 1177, 1195 n.10 (D. Kan. 2015) (noting Court's task as "predicting what particular states' courts would do" in terms of economic-loss doctrine application under the circumstances presented).

- Whether a defendant can be compelled to consent to general jurisdiction by registering to do business in the state, and then subsequently whether such registration is an unconstitutional condition. *See* Mem. & Order, ECF No. 1679; Mem. & Order, ECF No. 2047.

- Standing, causation, and whether statements alleged are actionable under the Lanham Act. *See* ECF No. 857 at 99-106; ECF No. 927 at 160-171; *Lexmark Int'l, Inc. v. Static Control Components, Inc.*, 134 S. Ct. 1377 (2014).

- Express and implied preemption under the Grain Standards Act ("GSA"), 7 U.S.C. § 87g(a), where the preemption clause of the hundred-years-old statute had *never* before been interpreted by a court.[27]

- Syngenta's arguments that China violated international law in violation of World Trade Organization ("WTO") treaties with the United States. *See* ECF No. 2869-2 (Shull Rpt. at 30-32); ECF No. 3188-1; ECF 3205 at 19-22; Order, ECF No. 3239 (requesting supplemental briefing on proposed instruction Nos. 19 and 19A regarding international law); ECF Nos. 3278, 3280.

- Whether fault could be assessed to a foreign state, like China, entailing issues pertaining to various treaties asserted by Syngenta, *see* ECF No. 3344 at 78-81, the act-of-state doctrine, and whether a foreign government has a legal duty to farmers in this country. *See* ECF 3051 at 38-42.

These are just some of the myriad and difficult issues faced by Plaintiffs in this case. All were exceedingly complicated and none had ready answers.[28]

---

[27] Issues relating to GSA preemption, first raised by exporters, carried through to jury instructions as well as summary judgment disputes between Syngenta and producers. *See* ECF No. 1803; ECF No. 3108 at 17-18; ECF No. 2426 at 23-25; ECF No. 2859 at 30-32; ECF No. 3051 at 34-36.

[28] There were many other legal issues in this case made complex by the ability of Syngenta's legal team to craft sophisticated arguments. These included, for example: (1) the standard by which the Court should consider the opinions of plaintiffs' experts at class certification and meaty issues pertaining to class-wide damages, ECF No. 2547 at 14-24; (2) Syngenta's due process arguments against class certification and aggregate damages, ECF No. 2335 at 6, 31, 76, ECF No. 3292 at 29-31, ECF No. 3344 at 82-84; (3) Syngenta's effort to assign fault to Plaintiffs and exporters, *see* ECF Nos. 1270, 2947, 3344 at 75-77; (4) Syngenta's arguments on intervening/superseding case, ECF Nos. 2980 at 78-100, 3344 at 55; (5) the *Noerr-Pennington* doctrine, ECF No. 2862 at 100; and, (6) Syngenta's due process and policy arguments against punitive damages, ECF No. 2862 at 113-120.

All of these factors are relevant to the Fee Request in at least three ways: *first*, the issues presented in this case (procedural, factual, and legal) required counsel with the commensurate skill (administrative, strategic, and legal) to counter the multifaceted defense lodged by Syngenta; *second*, the case justifies the significant number of hours and lawyers of varying skill sets engaged by lead counsel in the MDL, Minnesota, and Illinois cases; and *third*, the outcome of this case was far from certain, requiring counsel to undertake significant risk in investing their time and money into a case that, without herculean effort, could have turned out very differently.

2. Plaintiffs were well-represented by a team of attorneys with substantial experience in prosecuting high-stakes, complex litigation.

This case both demanded – and received – an experienced team of attorneys to meet the challenges from Syngenta's well-funded and well-qualified opposing counsel.[29] Syngenta's legal team was comprised of highly experienced litigators from Kirkland & Ellis with exceptional reputations; tellingly, however, Syngenta engaged even more high-profile lawyers at key, critical points in the case to respond to Plaintiffs' prosecution. For example, although it was already utilizing recognized Supreme Court advocate Patrick Philbin, Syngenta hired and supplemented its team to include Paul Clement when it petitioned the Tenth Circuit for review of the class-certification order. And, to try the Kansas and Minnesota cases, it brought on Leslie Smith and Mike Brock, the latter of whom has been described as "one of the country's most prominent trial lawyers in bet-the-company litigation." Ex. 6 (Klonoff Decl. ¶ 68).

To meet this formidable challenge, Plaintiffs assembled a team of lawyers capable of meeting their opponents head-to-head, including subject-matter experts to assist with the many

[29] *See, e.g.*, *Lunsford*, 2014 WL 12740375, at *13 ("In evaluating the quality of representation by Class Counsel, the Court should also consider the quality of opposing counsel."); *In re Ocean Power Techs., Inc.*, 3:14-CV-3799, 2016 WL 6778218, at *28 (D.N.J. Nov. 15, 2016) (the "quality and vigor of opposing counsel is also important in evaluating the services rendered by Plaintiff's Counsel."); *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1207 ("Further adding to the difficulty of the case was the quality of Plaintiffs' legal adversaries.").

complex factual and legal questions presented in the case. The experience and reputation of Kansas Common Benefit Attorneys alone are extensively documented in the attached declarations. Although not intended to be comprehensive, some highlights include:

- subject-matter experts, such as the lawyers who prosecuted, tried and/or handled critical appeals on all of the *Genetically Modified Rice* bellwether cases and the prior *Starlink* corn contamination case, Ex. 3 (Downing Decl. ¶¶ 5-7); Ex. 2 (Powell Decl. ¶¶ 12, 23); Ex. 4 (Chaney Decl. ¶¶ 19-20, 24); Ex. 7 (Weiss Decl. ¶ 3, 8, 14);[30]

- numerous lawyers with extensive experience in high-stakes litigation, including class actions, backed up by biographies of successful verdicts and settlements, *see e.g,* Ex. 1 (Stueve Decl. ¶¶ 20-21, 32-36, 40-42, 56-63); Ex. 2 (Powell Decl. ¶¶ 13-17, 24, 28, 33); Ex. 3 (Downing Decl. ¶ 4); Ex. 4 (Chaney Decl. ¶¶ 19-20, 23-25, 107); Ex. 7 (Weiss Decl. ¶¶ 7, 9, 12, 17-18); Ex. 24 (Shelquist Decl. ¶ 5(b)); Ex. 30 (Paul Decl. ¶ 5(a)-(c)); Ex. 35 (Conroy Decl. ¶ 6); Ex. 38 (Bukovac Decl. ¶ 3); Ex. 43 (Bender Decl. ¶ 5(a)); and,

- at least thirty-eight former federal circuit- or district-court law clerks or state-court law clerks, Ex. 1 (Stueve Decl. ¶¶ 12, 29, 50, 73, 95, 98, 100, 108, 109); Ex. 2 (Powell Decl. ¶¶ 40, 44, 51); Ex. 3 (Downing Decl. ¶ 4); Ex. 4 (Chaney Decl. ¶¶ 11, 84, 94, 96); Ex. 7 (Weiss Decl. ¶ 18); Ex. 43 (Bender Decl. ¶ 5); Ex. 24 (Shelquist Decl. ¶ 5(a, g, h, i)); Ex. 20 (Ursu Decl. ¶ 5); Ex. 30 (Paul Decl. ¶ 5); Ex. 12 (Plant Decl. ¶ 10); Ex. 13 (Bell Decl.); Ex. 17 (Pinyan Decl. ¶¶ 5, 6); Ex. 18 (Emerson Decl. ¶ 6); Ex. 27 (McCluer Decl. ¶ 4); Ex. 39 (Thrash Decl. ¶ 4).

These attorneys applied their experience in successfully navigating the numerous difficult and complex issues from the inception of this litigation to the $217 million jury verdict to the $1.51 billion settlement.

3. Counsel exercised a high-degree of skill in navigating the complex legal and factual issues that permeated the MDL.

As courts have noted, the successful handling of class and other complex multi-party actions itself requires expertise and a special set of skills.[31] The MDL device adds its own level

[30] *See In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *4 ("Litigation of this case required great skill in a highly specialized field (third factor), against highly skilled opposing counsel. . ."); *Jenkins v. Trustmark Nat'l Bank*, 300 F.R.D. 291, 308 (S.D. Miss. 2014) ("Litigation of this Action required counsel trained in class-action law and procedure as well as the specialized issues presented here. Class Counsel possess these attributes, and their participation added immense value. . .").

[31] *See, e.g., In re Toyota Motor Corp. Unintended Acceleration Mktg., Sales Practices & Prods. Liab. Litig.*, No. 810ML02151JVSFMOX, 2013 WL 12327929, at *31 (C.D. Cal. July 24, 2013) ("Courts

of complexity, particularly for counsel in leadership positions who serve the court in addition to the interests of many thousands of plaintiffs and are required to navigate the complications that coordination between diverse sets of lawyers entails.[32] And this case involved not just a single MDL, but multiple consolidated cases in several state and federal jurisdictions.

The skills of counsel were on full display in these proceedings. The prosecution of this litigation was not assisted by a government investigation (for example, it was not a product case involving recall or precipitated by a DOJ antitrust investigation). Instead, lead counsel investigated, developed, prosecuted, and succeeded in the litigation entirely by their own considerable efforts, often without a road map and relying on their own experience and best judgment. *See In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *4 ("Counsel achieved this verdict and judgment without the benefit of a government investigation or prosecution of members of the alleged antitrust conspiracy."); Ex. 6 (Klonoff Decl. ¶¶ 70-71) ("class counsel had no assistance of any kind from the government" and "bore the entire burden of investigating and proving Syngenta's alleged improper conduct"). If anything, as the Kansas trial showed, counsel's efforts were impeded by governmental authorities: Syngenta relied on U.S. trade representative reports to point the finger at China's trade policies; cited to U.S. deregulation of Agrisure Viptera and Duracade as a legal defense to the imposition of duty; and even used a former USDA trade representative, Mr. Shull, as a trial expert. Ex. 6 (Klonoff Decl. ¶ 71).

---

have recognized that the 'prosecution and management of a complex national class action requires unique legal skills and abilities.'") (quoting *Knight v. Red Door Salons, Inc.*, No. 08-01520 SC, 2009 WL 248367, at *6 (N.D. Cal. Feb. 2, 2009)); *Lunsford*, 2014 WL 12740375, at *11 ("the dimensions [of successfully and ethically prosecuting large class action suits] are awesome.") (citation omitted).

[32] Multidistrict litigation "is a special breed of complex litigation." *In re Phenylpropanolamine (PPA) Products Liab. Litig.*, 460 F.3d 1217, 1232 (9th Cir. 2006). "For it all to work, multidistrict litigation assumes cooperation by counsel and macro-, rather than micro-, judicial management because otherwise, it would be an impossible task for a single district judge to accomplish." *Id.* Appointment of leadership counsel is a necessary tool "provid[ing] order and structure to multidistrict proceedings." *In re Linerboard Antitrust Litig.*, 292 F. Supp. 2d 644, 667 (E.D. Pa. 2003).

Independent investigation and development of the facts was a complicated, arduous business given the number and difficulty of subject matters to cover, the number of documents, witnesses and experts involved, the number of representative plaintiffs who provided discovery and depositions, as well as the ever-present zealousness of opposing counsel. From the outset, the level of investigation and legal analysis is reflected in the Master Complaints filed and amended, containing a detailed account of facts and economic injury, as well as multiple claims made nationally and for 22 state classes of producers in the country's highest corn-producing states. *See supra* Section I.D & II.B.

The marshalling of all salient facts as the case progressed is further testament to the skill and dedication of counsel, who: analyzed over 2.5 million pages of documents; deposed over 81 witnesses, domestically and abroad; prepared and defended over 70 witnesses; and deposed or defended 18 experts. *See, supra,* Section I; Ex. 1 (Stueve Decl. ¶¶ 252, 295, 405, 428, 433). The skill of Plaintiffs' counsel also is evidenced by consistent success on major legal issues, which include those affecting plaintiffs globally (including class certification, Syngenta's motion to dismiss, and efforts to obtain interlocutory appeal thereon) and those pertaining to the Kansas and Minnesota trials (including summary judgment,[33] motions *in limine, Daubert* or *Frye-Mack* motions, and pre- and post-verdict motions for judgment in the Kansas case), which not only affected that trials, but stood as precursors to future argument and rulings. These were challenging issues to research, brief and successfully argue to the Court. *See In re: Checking Account Overdraft Litig.*, No. 1:09-M D-02836-JLK, 2014 WL 11370115, at *16 (S.D. Fla. Jan.

[33] Among counsel's significant victories, the Court granted summary judgment for plaintiffs with respect to certain applications of Syngenta's defenses of superseding cause, assumption of risk, mitigation, business and economic justification, antitrust preemption, and comparative fault. Ex. 1 (Stueve Decl. ¶ 508).

6, 2014) ("based on the novel and very complex issues confronted by Class Counsel in this case . . . an extraordinary group of lawyers was required to prosecute this case.").

Moreover, even as Syngenta demonstrated its perseverance by pressing arguments it lost in the MDL, Minnesota and Illinois Lead Counsel successfully demonstrated their skill in maintain those favorable rulings.

In addition to the unusually complicated factual and legal landscape, another aspect of this case that sets it apart from many other class and MDL actions is that the parties went to trial. *See Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1210 ("Few class actions ever reach trial."); *see also id.* at 1193 ("The most apparent feature distinguishing this class action from virtually every other class action in the reported federal decisions is obviously that it did not settle before trial."); Ex. 6 (Klonoff Decl. at ¶ 69) ("Because relatively few class actions go to trial, courts reviewing attorneys' fee requests justifiably give significant weigh to the fact—when present—that a contested trial occurred.") (citing cases).

The Kansas trial (affecting more than 7,000 Kansas producers) began on June 5, 2017 and lasted three weeks. The second Minnesota trial (affecting more than 22,000 Minnesota producers) began in September 2007 and lasted two weeks before it was stopped for settlement. Although Syngenta brought on additional, high-profile lawyers to try the case, Plaintiffs' counsel met that challenge with the skilled trial team assembled by Co-Lead Counsel in the first instance. Their success was made evident by their preparation, presentation, and ultimate success. *See Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1208 ("skill may manifest itself through arduous preparation and efficient organization, particularly if the case goes to trial. . .an attorney who has a sharp command of trial practice and a sound understanding of the substantive law, governing

the case. . .should be compensated at a higher rate of pay than one who has to educate himself just to gain a general working knowledge of trial practice and law.").

Plaintiffs' trial team culled and organized the most significant documents from the millions of pages produced in discovery. Objection and argument over admissibility of documents was extensive, as were evidentiary issues via motions *in limine*. Ex. 1 (Stueve Decl. ¶¶ 536-45, 557); *see also* ECF Nos. 3098, 3101, 3108, 3143. Testimony at trial was presented live and by video deposition. Syngenta's well-prepared witnesses uniformly and assiduously avoided any concession on any topic. Plaintiffs' counsel analyzed thousands of pages of deposition testimony for cogent passages that were useable at trial and presented their story in a way both understandable and persuasive to a jury. *See* Section I.H. Due to the factual context, much of the evidence was topically complex, requiring extra effort and skill to distill, simplify, and present to lay jurors, and the injuries here were financial. *See In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *4 ("The subject matter was complex and not easily digestible by a lay jury, and there were no personal injuries to heighten sympathy."). Damages evidence alone involved high-level economic concepts that needed to be presented in an understandable way. Battle over instructions was intense, involving weeks of meet-and-confer sessions, many rounds of briefing, ECF Nos. 3204, 3205, 3239, 3278, 3280, 3283, 3284, 3285, and oral argument.

Through the efforts of their attorneys, Plaintiffs overcame all obstacles and prevailed, as the $217 million verdict confirms. ECF No. 3304. That verdict had tremendous importance not just to the Kansas class but to the litigation overall. It was the first verdict secured against Syngenta, serving as a bellwether outcome that awarded 100% of the compensatory damages requested, Ex. 1 (Stueve Decl. ¶ 567)**,** a clear message to Syngenta of the risk it faced going forward. *See* Ex. 6 (Klonoff Decl. ¶ 68) ("Realistically, I have no doubt that had plaintiffs lost

the trial, their ability to negotiate a settlement anywhere near the magnitude of $1.51 billion would have vanished."). Such a rare class trial and victory weighs strongly in favor of the requested fee. *See Gevaerts v. TD Bank*, No. 1:14-CV-20744-RLR, 2015 WL 6751061, at *12 (S.D. Fla. Nov. 5, 2015) ("In the private marketplace, counsel of exceptional skill commands a significant premium. So too should it here."). Moreover, Syngenta did not simply capitulate following the verdict. By putting on much of the Plaintiffs' case in chief before the term sheet was signed, Minnesota Lead Counsel demonstrated that they were prepared to go the distance as well. And Co-Lead Counsel demonstrated that they were prepared to try four class trials in 2018, showing Syngenta the risk it faced if it refused settlement.

Again, this was not a typical class action that resolved during pre-trial discovery. This case required counsel capable of: coordinating among multiple jurisdictions, deciding on and implementing a long-term strategy; planning for multiple cross-jurisdictional jury trials; preparing for potential appeals with case-wide impact; developing a versatile discovery record that could be used by different types of plaintiffs (producer and non-producer) in different types of cases (class and individual) in disparate jurisdictions (federal and state); and designing a nationwide settlement to fairly distribute the $1.51 billion non-reversionary fund agreed to by Syngenta. Further, it required not just counsel who could develop a pre-trial record, but counsel who were capable of using that record in trial of a class action against one of the largest law firms in the world with one of the most respected trial teams in the country. Ex. 1 (Stueve Decl. ¶¶ 517-21). The pre-trial record, the jury's verdict in the Kansas class trial, and the record-breaking $1.51 billion agricultural settlement reached during the middle of the Minnesota class trial are the best evidence of the skills employed by counsel in obtaining this settlement. *See generally* Ex. 1 (Stueve Decl.); Ex. 2 (Powell Decl.); Ex. 6 (Klonoff Decl.).

4. The massive amount of time and labor that counsel expended supports the fee request.

The case was litigated vigorously at all stages in multiple fora over nearly four years, requiring sustained and intensive efforts by lead counsel and those engaged to assist their efforts. This is not a case that settled early or easily. It followed hard-won certification of litigation classes both here and in Minnesota along with orders in both jurisdictions denying interlocutory appeal, rulings on a lengthy motion to dismiss, extensive argument from both sides on summary judgment, fights over admissibility of documents, lay and expert testimony, the start of two class trials, one class-wide jury verdict, and pre- and post-verdict briefing. *See supra* Sections I-II. Furthermore, settlement required the extensive involvement of both the Court-appointed Special Master and the Honorable Daniel Stack (retired), a special discovery master in Illinois, as well as repeated hearings with and involvement from the courts. As discussed throughout, sustained pressure across multiple jurisdictions and a full-damages jury verdict were necessary to achieve this result.

The work necessary to achieve this result, discussed extensively in the attached declarations, is summarized in the Statement of Facts. Further recitation of efforts in the Minnesota Court and the Illinois Courts are included in Minnesota and Illinois Lead Counsel's separate filings. The Court should have no trouble, on this record and based on its own first-hand experience, concluding that the fee request is supported by the time and labor involved in achieving this ground-breaking settlement.

5. The demands of this litigation necessary imposed time limitations and precluded counsel from other employment.

From the earliest status conferences, Syngenta was in this case "for the long haul" with the intention that it was going to "take the case to trial" if it was not dismissed on the pleadings. ECF No. 127 at 81:20-24. Leadership counsel showed they were up to the task. The pace of this

case was aggressive and sustained, with few breaks and little down time. The demands of this case necessarily required full-time commitment from the Co-Lead Counsel in the MDL for virtually the entire course of the MDL, and from many of the lawyers at their firms, as well as similar or significant commitments from many of the supporting law firms.

The initial scheduling order provided MDL leadership with a little over one month to file their consolidated amended master complaints for producers and non-producers that would govern the claims in the MDL, which were 170 and 90 pages long (ECF Nos. 296-97). Scheduling Order No. 1, ECF No. 123. On October 21, 2015, after ruling on Syngenta's motion to dismiss, the Court entered Scheduling Order No. 2 (ECF No. 1098), which started full fact discovery and scheduled the first trial for June 2017 – a deadline that Plaintiffs met through the sustained labor and commitment of counsel. *See* Section I.

Within seven months, Plaintiffs completed most of fact discovery, including depositions of all 74 producers and all but one of the 32 Syngenta depositions. *See* Ex. 1 (Stueve Decl. ¶¶ 294, 405). While reviewing the 1.5 million pages of documents produced by Syngenta, these 32 Syngenta witnesses were deposed over 57 days in 4 continents. *Id.* Although some of the 49 third-party depositions extended past the initial deadline, all but two were completed prior to October 2016 – within 12 months from the start of discovery. Ex. 1 (Stueve Decl. ¶¶ 428, 433).

By March 2017 (within 17 months), Plaintiffs had obtained class certification, successfully opposed interlocutory review of that order, conducted their pretrial conference, and completed extensive summary-judgment briefing. Twenty months and two days after the start of fact discovery, Plaintiffs in the MDL had obtained a $217.7 million jury verdict on behalf of a certified Kansas class, ECF No. 3304, completed pre- and post-verdict briefing and immediately began preparing for the next class trial, *see* Pretrial Order (AR and MO classes), ECF No. 3368.

During this period, counsel filed and responded to over 55 substantive motions and countless other administrative, unopposed and procedural requests. *See, supra*, Section IIE. In the end, it took a sustained effort over approximately two years – and one full and two partial trials – before the parties moved to stay the cases pending execution of the Settlement Agreement. ECF No. 3452. It is difficult to point to other MDLs of similar size that accomplished so much in such a relatively short timeframe, evidence of the degree of commitment required by counsel.

As detailed in the accompanying application of Minnesota Lead Counsel, they followed a similar schedule. *See also* Section II.B.1 (citing Scheduling Order No. 2). Their first bellwether trial was set and prepared for April 2017. Although it resulted in a mistrial before the presentation of evidence due to a juror issue, they were required to proceed through the same discovery process and schedule as the federal MDL. Moreover, the second trial, the Minnesota class trial, began shortly after the conclusion of the Kansas trial, and counsel in both the MDL and in Minnesota were prepared to continue trying cases when the litigation settled.

Given these facts, it is unsurprising that this kind of workload precluded many attorneys from accepting other engagements.[34] It would have been impossible to meet the demands of this case if this litigation was not the first and top priority of the lawyers leading it. *See* Ex. 6

[34] For example: according to Patrick Stueve, "I had a full docket of cases that I had to delegate to other partners because of the time commitment of this case. This was necessary to complete the extensive amounts of discovery in the time frame allotted and to prepare the Kansas case for trial. For extensive periods throughout the litigation, Ms. Schwartz and Mr. Wilders also worked almost exclusively on this case during that time frame. Without a doubt, the needs of this case precluded us, and our firm, from accepting other assignments." Ex. 1 (Stueve Decl. ¶ 670) ("During the time I was working on this case, I spent little, if any, time evaluating and developing new cases, which is something I have historically spent substantial amounts of time on. The needs of this case, and the desire to prosecute these claims effectively on behalf of the Plaintiffs, required that I, and my firm, put this case first, above and beyond other business opportunities. It is not an exaggeration to say that this required that level of commitment and sacrifice."). According to Don Downing, "Before and throughout this entire time period, the resources of my firm's entire commercial litigation/class action/mass tort practice were so fully devoted to this litigation that I was required to instruct those responsible for new client screening and intake to advise all new potential clients that our group was not taking new matters. We had to decline several significant matters due to our commitment to this litigation." Ex. 3 (Downing Decl. ¶ 24).

(Klonoff Decl. ¶ 79) ("As a result of this case, the lead firms representing plaintiffs were clearly hampered in their ability to take on significant other work. The demands of this case were enormous by any measure. At least five lawyers have billed more than 5,000 hours on the case; at least 12 lawyers have billed more than 3,000 hours; and at least 20 lawyers and paralegals have billed more than 2,000 hours."). This also weighs in favor of the requested fee. *See, e.g.*, *Brown*, 838 F.2d at 455 (substantial work on the litigation "precluded or reduced their opportunity for other employment"); *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1209 ("Taking on this resource-sapping, risk-based venture also precluded Class Counsel from accepting other contingent matters during the period of representation.").

6. The contingent nature of the fee and the risk undertaken by counsel justifies the fee request.

Relatedly, the more an attorney invests in a single case, the riskier the bet they place on the outcome of that litigation. Here, counsel expended their labor, forwent other employment, and advanced millions of dollars of their own money, on behalf of the Class Members to prosecute highly complex and risky claims over an extended time period – all on a contingency fee basis with no guarantee of any payment whatsoever. In so doing, they "assumed a significant risk of non-payment or underpayment. Numerous cases recognize such a risk as an important factor in determining a fee award." *Gevaerts*, 2015 WL 6751061, at *13; *see In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *4 (recognizing that when liability is less than certain, a case presents "a great deal of risk, as counsel was required to advance all expenses and attorney time to litigate a hard-fought case against highly experienced opposing counsel hired by a defendant with ample resources").[35] The risk of no recovery, and no payment, factors into

[35] *See also, e.g., In re: Checking Account Overdraft Litig.*, 2014 WL 11370115, at *17 (same); *In re Ocean Power Techs., Inc.*, 2016 WL 6778218, at *28 ("Courts across the country have consistently recognized that the risk of receiving little or no recovery is a major factor in considering an award

undesirability, and is considered in light of, among other things, the risk of obtaining class certification and establishing liability.[36]

"Fees that are contingent on success present definite risks. Payment, if any, is deferred, and there is always a risk, often a substantial risk, that there may be no payment . . . [R]isk demands a premium. And, as a general rule, the greater the uncertainty of payment the greater the premium should be." *Been*, 2011 WL 4478766, at *8 (quoting *In re Superior Beverage/Glass Container Consol. Pretrial*, 133 F.R.D. 119, 127 (N.D. Ill. 1990)).[37] The risk of no recovery only increases with the difficulty of the case. *See In re Toyota Motor Corp. Unintended Acceleration Mktg., Sales Practices & Prods. Liab. Litig.*, 2013 WL 12327929, at

---

of attorneys' fees."); *Jenkins*, 300 F.R.D. at 309 ("in '[r]ecognizing the contingent risk of nonpayment in [class action] cases, courts have found that class counsel ought to be compensated . . . for risk of loss or nonpayment assumed by carrying through with the case.'") (quoting *Turner v. Murphy Oil USA, Inc.*, 472 F. Supp. 2d 830, 859–60 (E.D. La. 2007)); *Pinto v. Princess Cruise Lines, Ltd.*, 513 F. Supp. 2d 1334, 1339 (S.D. Fla. 2007) ("A determination of a fair fee for Class Counsel must include consideration of the contingent nature of the fee, the wholly contingent outlay of out-of-pocket sums by Class Counsel, and the fact that the risks of failure and nonpayment in a class action are extremely high. Cases recognize that attorneys' risk is perhaps the foremost factor in determining an appropriate fee award.") (internal quotations omitted) (quoting *Goldberger v. Integrated Res., Inc.*, 209 F.3d 43, 54 (2d Cir. 2000) and citing cases); *Yarrington*, 697 F. Supp. 2d at 1062 ("Courts have recognized that the risk of receiving little or no recovery is a major factor in awarding attorney fees.") (quoting *In re Xcel Energy, Inc., Sec., Derivative & "ERISA" Litig.*, 364 F. Supp. 2d 980, 994 (D. Minn. 2005) (quotations omitted); *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1215 (finding that contingency risk factor weighs "heavily in favor of" granting the requested fee).

[36] *Bredbenner v. Liberty Travel, Inc.*, No. CIV.A. 09-1248 MF, 2011 WL 1344745, at *20 (D.N.J. Apr. 8, 2011); *see also, e.g., Family Med. Pharmacy, LLC v. Trxade Group, Inc.*, No. CV 15-0590-KD-B, 2017 WL 1042079, at *12 (S.D. Ala. Mar. 17, 2017) (analyzing the "undesirability" factor and stating that the complexity and risk of class actions "may render this class action litigation as undesirable. Accordingly, this factor weighs in favor of awarding the requested attorney's fee."); *Shaw*, 2015 WL 1867861, at *7 ("in light of the risk of nonpayment of the costs advanced by Class Counsel and the time they invested in this case, this [undesirability] factor supports the requested fee award."); *In re Qwest Communications Int'l, Inc. Sec. Litig.*, 625 F. Supp. 2d 1143, 1152-53 (D. Colo. 2009) (risk of non-recovery of time and advanced costs as relevant to "undesirability" factor "carries significant weight and weighs in favor of a substantial fee award"); *Lucas v. Kmart Corp.*, No. CIV.A. 99-01923, 2006 WL 2729260, at *7 (D. Colo. July 27, 2006) ("Given the risk of no recovery and the unsettled legal issues described above, this was not a desirable case to take.").

[37] There are ample examples of situations in which attorneys in complex litigation "have devoted substantial resources in terms of time and advanced costs yet have lost the case despite their advocacy." *In re Xcel Energy, Inc., Sec., Derivative & "ERISA" Litig.*, 364 F. Supp. 2d at 994 (citing *Glover v. Standard Fed. Bank*, 283 F.3d 953 (8th Cir. 2002) (reversing class certification)).

*30 ("Another significant factor to be considered in determining attorney fees is the risk that counsel took of 'not recovering at all, particularly [in] a case involving complicated legal issues.'") (quoting *In re Omnivision Techs., Inc.*, 559 F. Supp. 2d 1036, 1046-47 (N.D. Cal. 2008)).

"It is an established practice to reward attorneys who assume representation on a contingent basis with an enhanced fee to compensate them for the risk that they might be paid nothing at all." *Kanawi v. Bechtel Corp.*, No. C 06-05566 CRB, 2011 WL 782244, at *2 (N.D. Cal. Mar. 1, 2011) (citing *In re Washington Pub. Power Supply Sys. Sec. Litig.*, 19 F.3d 1291, 1299 (9th Cir. 1994)). "Such a practice encourages the legal profession to assume such a risk and promotes competent representation for plaintiffs who could not otherwise hire an attorney." *Id.*[38]

Here, in just the Kansas MDL, attorneys invested over $81 million of lodestar, unadjusted for risk, representing over 142,823 hours of common-benefit work. By themselves, Co-Lead Counsel's firms invested $59 million in lodestar, betting on their own skill, and the skill of the

[38] *See also Been*, 2011 WL 4478766, at *9 ("Courts agree that a larger fee is appropriate in contingent matters where payment depends on the attorney's success."); *In re: Checking Account Overdraft Litig.*, 2014 WL 11370115, at *17 (risk embodied by "contingency fee arrangement often justifies an increase in the award of attorney's fees.") (quoting *In re Sunbeam Sec. Litig.*, 176 F. Supp. 2d 1323, 1335 (S.D. Fla. 2001)); *see also id.* ("Public policy concerns – in particular, ensuring the continued availability of experienced and capable counsel to represent classes of injured plaintiffs holding small individual claims – support the requested fee here."); *Lunsford*, 2014 WL 12740375, at *11 ("Adequate compensation promotes the availability of counsel for aggrieved persons."); *In re Toyota Motor Corp. Unintended Acceleration Mktg., Sales Practices, & Products Liab. Litig.*, 2013 WL 12327929, at *32 ("It is an established practice in the private legal market to reward attorneys for taking the risk of non-payment by paying them a premium over their normal hourly rates for contingency cases . . . This ensures competent representation for plaintiffs who may not otherwise be able to afford it." (internal quotations and citation omitted); *Barrera v. Nat'l Crane Corp.*, No. SA-10-CV-0196 NN, 2012 WL 242828, at *4 (W.D. Tex. Jan. 25, 2012) ("The legal profession accepts contingent fees that exceed the market value of the services if rendered on a non-contingent basis as a legitimate way of assuring competent representation for plaintiffs who cannot afford to pay on an hourly basis regardless of whether they win or lose"); *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1217 ("Class Counsel has risked millions of dollars in un-reimbursed attorneys' time and additional millions in out-of-pocket costs. Unless that risk is compensated with a commensurate reward, few firms, no matter how large or well financed, will have any incentive to represent the small stake holders in class actions against corporate America, no matter how worthy the cause or wrongful the defendant's conduct.").

rest of the Kansas Common Benefit Group. Lead Counsel in Minnesota (over $41 million in lodestar reported under the Minnesota Court's CBO) and Illinois are also expected to report large investments in their separate filings. Moreover, it was not just the labor that counsel invested, but the advancement of expenses. The Kansas Common Benefit Group alone advanced over $6.6 million in expenses, the recovery of which was also contingent on a commensurate success. Ex. 1 (Stueve Decl. ¶ 645). Minnesota Lead Counsel doubtless has significant costs under that Court's CBO. As recounted above, these attorneys faced – and overcome – numerous difficult, novel and complex defenses, including the always-uncertain risk of an adverse jury finding. Liability (and consequent payment) was more than uncertain. This risk permeated every substantive aspect of the case: the motion to dismiss, class certification, dispositive motions and trial. Lead Counsel and those working on their behalf necessarily undertook tremendous risk – and succeeded on behalf of the Class – and should be compensated for doing so.

7. The relief involved, totaling $1.51 billion, supports the Fee Request.

The next factor "recognizes that a fee award should reflect the relief obtained." *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1204. This perhaps is the most important factor, particularly when "the recovery was highly contingent and. . .the efforts of counsel were instrumental in realizing recovery. . ." *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *4 (quoting *Brown*, 838 F.2d at 456).[39] "Factors indicating 'exceptional success' include success achieved under unusually difficult or risky circumstances and the size of plaintiffs' recovery." *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1204-05. The difficulty and risk here, as well as counsel's skill and effort, make the settlement amount all the more remarkable.

[39] *See also McNeely v. Nat'l Mobile Health Care, LLC*, No. 07-933, 2008 WL 4816510, at *15-16 n.9 (W.D. Okla. Oct. 27, 2008) (counsel's "willingness to prosecute this matter on a contingent basis. . .ordinarily shifts the analytical focus away from hours spent. . .to the ultimate result. . .obtained").

In common fund cases, the size of the fund itself reflects "the measure of success . . . [and] represents the benchmark from which a reasonable fee will be awarded." Manual For Complex Litigation 4th § 14:121 (2004) (internal quotation marks and citation omitted); *see also Lucken Family Ltd. P'ship, LLLP*, 2010 WL 5387559, at *3 ("Numerous courts have recognized that in evaluating the various *Johnson* factors, the greatest weight should be given to the monetary results achieved for the benefits of the class.") (quoting *Anderson v. Merit Energy Co.*, No. CIV.07CV00916LTBBNB, 2009 WL 3378526, at *4 (D. Colo. Oct. 20, 2009)). The result obtained here amply supports the requested fee. The settlement is from the outset advantageous as it avoids future uncertainties and provides cash recovery. *See Koehler v. Freightquote.com, Inc.*, No. 12-2505-DDC-GLR, 2016 WL 3743098, at *7 (D. Kan. July 13, 2016) (settlement "avoids the uncertainty and rigors of trial and produces a favorable result for plaintiffs. This factor favors approval of the fee award.").

Moreover, the fee is proportionate to the amount of money that Class Members' will recieve. Syngenta will pay $1.51 billion, with no possibility of reversion, under a claims process that, for most, requires submitting no documentary proof. This is the largest GM crop settlement in history. It reflects a significant portion of the damages alleged by the Class, and is "one of the largest class settlements of any kind." Ex. 6 (Klonoff Decl. ¶ 85). It was not achieved easily, but through sustained victories and extensive effort.

Finally, the results are incredible in light of two additional factors. First, Plaintiffs' victories all hung on the edge of potential appellate review. Syngenta had a strong belief in the merits of its arguments, as demonstrated by the fact that, in its own words, "Syngenta has sought appellate review at every available opportunity for almost two years." ECF No. 3391 at 9. And, indeed, it pressed its arguments in every jurisdiction and sought such review at every available

turn. It asked the Court to certify its September 11, 2015 order on the motion to dismiss under 28 U.S.C. § 1292(b). ECF No. 1081. It petitioned both the Tenth Circuit and the Minnesota Court of Appeals for review of the orders granting class certification. *See In re Syngenta AG MIR162 Corn Litigation*, Case No. 16-607 (10th Cir. Oct. 11, 2016). And it argued vigorously that the Kansas judgment was final and would be subject to immediate appeal following resolution of its post-trial motions even though that judgment did not dispose of all the claims in the Producer Plaintiffs' Third Amended Class Action Master Complaint. *See* ECF No. 3391 at 1-2. No doubt – as it argued – Syngenta's post-verdict motion gave a preview of the arguments it would raise on appeal, including key legal issues such as duty, causation, and the economic-loss doctrine as well as challenges to Plaintiffs' damages models, non-party fault and cause, and certification. ECF No. 3344. Syngenta previously argued that an appellate success on any one of these issues should apply in the cases of all Class Members, *see* ECF No. 3391 at 9-11, and would undoubtedly have pressed that argument if it prevailed on appeal, in which case every Class Member could have recovered nothing, further demonstrating tremendous results.

Second, the benefits of the litigation extend beyond the pure monetary value of the settlement to Class Members – whose businesses continue to have an interest in preserving the exportability of corn or other crops. The rulings and outcomes in this litigation have provided the Class Members with precedent – in numerous jurisdictions. This precedent – and the trial outcome – supports the existence of a GM seed manufacturer's legal duty to act with reasonable care in the timing, manner and scope of commercializing new GM seeds. *See* ECF No. 3392 at iii (collecting cases in the several jurisdictions recognizing said duty). This may deter other GM seed manufacturers from commercialization decisions that cause future trade disruptions. *See* ECF No. 3392 at Ex. 5 (presentation of former general counsel for Monsanto recognizing that

the "deterrent effect of potential [tort] liability is also [a] strong motivation for increased stewardship" of new GM traits). In addition, non-producer Class Members can point to the Kansas and Illinois rulings interpreting the Grain Standards Act as not requiring them to disrupt their businesses to segregate and channel commodity grains. *See* Mem. & Order, ECF No. 1803. Finally, this litigation presents a road map for Class Members who may need to seek class certification of similar claims in the future. Thus, beyond the settlement amount of which Class Counsel seek a percentage, the litigation as a whole will doubtlessly provide future benefits to the Class as they continue to operate their farming businesses.

8. The fee request is consistent with a customary fee.

A useful measure of reasonableness is the customary fee that a lawyer and client would agree to in private litigation. *See In re Synthroid Marketing Litig.*, 264 F.3d 712, 718 (7th Cir. 2001) ("courts must do their best to award counsel the market price for legal services, in light of the risk of nonpayment and the normal rate of compensation in the market at the time."); *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1211 ("the more appropriate measure of a reasonable percentage is the market rate for a contingent fee in commercial cases."); Ex. 6 (Klonoff Decl. ¶ 81).

In a contingent case, one-third of any recovery is par or lower than a standard fee arrangement.[40] In this litigation, thousands of producers have executed fee agreements with counsel clients providing for 40% or more of the recovery. Ex. 1 (Stueve Decl. ¶ 659); Ex. 3

[40] *See, e.g.*, Eisenberg & Miller, *Attorney Fees in Class Action Settlements: An Empirical Study*, 1 J. Empirical Legal Stud. 27 (2004), at 35 ("Substantial empirical evidence indicates that a one-third fee is a common benchmark in private contingency fee cases."); *Flournoy v. Honeywell Int'l, Inc.*, No. Civ. A. 205-184, 2007 WL 1087279, at *2 (S.D. Ga. Apr. 6, 2007) ("The most common contingent fee is one third of the recovery. Forty percent fee contracts are common for complex and difficult litigation"); *In re Remeron Direct Purchaser Antitrust Litig.*, No. CIV.03-0085 FSH, 2005 WL 3008808, at *16 (D.N.J. Nov. 9, 2005) ("Attorneys regularly contract for contingent fees between 30% and 40% with their clients in non-class, commercial litigation.") (citing cases).

(Downing Decl.) ¶¶ 71-73 (noting that the vast majority of fee contracts in both rice and corn MDL's require payment of 40% to the attorney, while others require payment of one-third); Ex. 6 (Klonoff Decl. ¶ 81). As this Court recognized in the *Urethane* case, "a one-third fee is customary in contingent-fee cases, and indeed that figure is often higher for complex cases or cases that proceed to trial." *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *5. This observation is sound and well supported. "Other courts have similarly recognized that '[t]he percentages awarded in common fund cases typically range from 20 to 50 percent of the common fund created[,]' . . . and that fees within this range are 'presumptively reasonable.'" *Shaw*, 2015 WL 1867861, at *6 (citations omitted).[41] The Court may also consider what the

[41] *See also, e.g.*, *Castro v. Sanofi Pasteur Inc.*, No. CV117178JMVMAH, 2017 WL 4776626, at *9 (D.N.J. Oct. 23, 2017) ("fee awards generally range from 19% to 45% of the settlement fund."); *Elliott v. Rolling Frito-Lay Sales, LP*, No. SACV 11-01730 DOC, 2014 WL 2761316, at *9 (C.D. Cal. June 12, 2014) ("thirty percent is commensurate with traditional contingency recovery in an individual suit."); *In re Packaged Ice Antitrust Litig.*, No. 08-MDL-01952, 2012 WL 5493613, at *8 (E.D. Mich. Nov. 13, 2012) ("the requested award of close to 30% appears to be a fairly well-accepted ratio in cases of this type and generally in complex class actions."); *In re: Checking Account Overdraft Litig.*, 830 F. Supp. 2d 1330, 1355-56 n.35 (S.D. Fla. 2011) (30% award "falls at the low end of the average in the private marketplace" in which attorney and client often agree to 33-40% of recovery); *Lucken Family Ltd. P'ship*, 2010 WL 5387559, at *6 ("The customary fee awarded to class counsel in a common fund settlement is approximately one third of the total economic benefit bestowed on the class."); *Anderson*, 2009 WL 3378526, at *3 ("The customary fee to class counsel in a common fund settlement is approximately one-third of the economic benefit bestowed on the class."); *Nichols v. SmithKline Beecham Corp.*, No. CIV.A.00-6222, 2005 WL 950616, at *22 (E.D. Pa. Apr. 22, 2005) ("fee awards of approximately 30% of the common fund [are] not unusual."); *The Erica P. John Fund, Inc. v. Halliburton Company*, No. 3:02-cv-1152-M, ECF No. 844 at 19 & n. 8 (Mem. Op. and Order) (N.D. Tex. Apr. 25, 2018) ("Numerous courts in this Circuit have awarded fees in the 30% to 36% range") (citing cases), attached as Ex. 74; *id.* at 25 (approving one-third of settlement fund); *Fairway Med. Ctr., L.L.C. v. McGowan Enterprises, Inc.*, No. CV 16-3782, 2018 WL 1479222, at *2 (E.D. La. Mar. 27, 2018) (finding that "the appropriate benchmark in this case is one-third") (citing cases); *Ruiz v. XPO Last Mile, Inc.*, 5-CV-2125 JLS (KSC), 2017 WL 6513962, at *7 (S.D. Cal. Dec. 20, 2017) (awarding 35% of settlement fund); *Gevaerts*, 2015 WL 6751061, at *10 ("Numerous recent decisions within this Circuit have awarded attorneys' fees up to and in excess of thirty percent") (citing cases); *Kolinek v. Walgreen Co.*, 311 F.R.D. 483, 502–03 (N.D. Ill. 2015) (awarding 36% of settlement fund); *Gokare*, 2013 WL 12094887, at *4 ("The requested attorneys' fees award of 30.9% from the common fund is appropriate; the percentage requested is similar to or lower than percentage-of-the-fund awards approved in numerous other common fund cases in this Circuit.") (citing cases); *Garcia v. Gordon Trucking, Inc.*, No. 1:10-CV-0324 AWI SKO, 2012 WL 5364575, at *8 (E.D. Cal. Oct. 31, 2012) ("The typical range of acceptable attorneys' fees in the Ninth Circuit is 20% to 33 1/3% of the total settlement value"); *Yarrington*, 697 F. Supp. 2d at 1061 (in the Eighth Circuit, courts "have frequently awarded attorney fees between twenty-five and thirty-six percent

named plaintiffs agreed to pay. *See In re FedEx Ground Package Sys., Inc., Employment Practices Litig.*, 251 F. Supp. 3d 1225, 1240 (N.D. Ind. 2017) ("it seems appropriate to consider as well that many of the named plaintiffs agreed at the outset to pay the attorney 33 percent of any recovery, and some agreed to pay as much as 40 percent, without limitation as to how much the recovery might be."). In this unique case, thousands of producers were willing to pay lawyers at least 40% of their total recovery, so one-third is clearly reasonable for the work described herein.

9. Awards in similar cases justify the fee request.

A one-third fee falls within the range of percentage fee awards approved by this Court and others in this Circuit,[42] and by courts across the country, including in large cases with high risks and exceptional recovery. Such an award is fully supported by the *Johnson* factors.

Objections sometimes are made that the percentage should go down in so-called "mega fund" cases in sliding scale inverse to the size of the recovery. That argument, however, has many flaws as recognized by experts, commentators, and courts alike. *See, e.g.*, Ex. 6 (Klonoff Decl. ¶¶ 96-100; Rubenstein, 5 *Newberg on Class Actions* § 15.80 (5th ed. 2015) (criticizing megafund "sliding scale" approach as "lack[ing] rigor," as being inappropriate in "high fund

---

of a common fund in class actions.") (quoting *In re U.S. Bancorp Litig.*, 291 F.3d 1035, 1038 (8th Cir. 2002)); *Huyer v. Wells Fargo & Co.*, 314 F.R.D. 621, 629 (S.D. Iowa 2016) (finding fee award of one-third of settlement fund "to be in line with other awards in the Eighth Circuit; it is also reasonable and fair given the circumstances of this case.").

[42] *See In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *8 (awarding one-third fee from $835,000,000 settlement fund)*; see also Koehler*, 2016 WL 3743098, at *7 (one-third award falls within "the customary percentage of the fund approved by this Court") (quoting *Barbosa v. Nat'l Beef Packing Co., LLC*, No. CIV.A. 12-2311-KHV, 2015 WL 4920292, at *11 (D. Kan. Aug. 18, 2015)); *Williams v. Sprint/United Mgmt. Co.*, No. 03-2200-JWL, 2007 WL 2694029, at *6 (D. Kan. Sept. 11, 2007) (awarding 35% of $57 million common fund) (Lungstrum, J.); *Lewis v. Wal-Mart Stores, Inc.*, No. 02-CV-0944, 2006 WL 3505851, at *1 (N.D. Okla. Dec. 4, 2006) (awarding one-third of settlement fund and noting that a "one-third [fee] is relatively standard [even] in lawsuits that settle before trial"); *In re United Telecommc'ns Sec. Litig.*, No. 90-2251-0, 1994 WL 326007, at *3-4 (D. Kan. June 1, 1994) (awarding 33.3% of settlement fund).

cases [that] involve significant risks," and for "creat[ing] perverse incentives" for class counsel); *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at * 5-7 (rejecting sliding-scale approach as unwarranted, creating perverse incentives, and failing to account for risk).

First, every case, whether "mega-fund" or not, is unique and should be treated as such. Whether a fee is reasonable should not be answered by rote application of arbitrary rules or a vague sense that the fee is too high, but by assessment of the complexity, risks, skill, work, and result in the case at hand. *See, e.g.*, *In re Ikon Office Solutions, Inc. Sec. Litig.*, 194 F.R.D. 166, 196-97 (E.D. Pa. 2000) ("The court will not reduce the requested award simply for the sake of doing so when every other factor ordinarily considered weighs in favor of approving class counsel's request of thirty percent. . .It is difficult to discern any consistent principle in reducing large awards other than an inchoate feeling that it is simply inappropriate to award attorneys' fees above some unspecified dollar amount, even if all of the other factors ordinarily considered relevant in determining the percentage would support a higher percentage."). As this Court recognized, the Tenth Circuit has suggested no "sliding-scale" principle, but rather, that "the fee percentage must be determined on a case-by-case basis, based on a weighing of the applicable *Johnson* factors." *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *5.

Second, the notion of downward adjustment when success is large is "antithetical to the percentage of the recovery method . . . the whole purpose of which is to align the interests of Class Counsel and the Class by rewarding counsel in proportion to the result obtained." *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1213 (awarding 31.33% fee from $1.06 billion settlement).

Third, such a downward adjustment makes no economic sense: "By not rewarding Class Counsel for the additional work necessary to achieve a better outcome for the class, the sliding

scale approach creates the perverse incentive for the Class Counsel to settle too early for too little." *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *6 (quoting *In re Ikon Office Solutions, Inc. Sec. Litig.*, 194 F.R.D. at 197); *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1213 (same); Ex. 6 (Klonoff Decl. at ¶ 100). As aptly observed by the Seventh Circuit, "[p]rivate parties would never contract for such an arrangement." *In re Synthroid Mktg. Litig.*, 264 F.3d at 718. To the contrary, sophisticated clients "often take the opposite approach, increasing fees as the size of the award grows to create incentive to pursue even the most difficult dollars." *In re FedEx Ground Package Sys., Inc., Empl. Practs. Litig.*, 251 F. Supp. 3d at 1240. It makes no sense to *dis*incentivize counsel from maximizing the Class's recovery.

Fourth, a justification sometimes expressed for a sliding-scale fee award is that the "mega-fund" victory affords lawyers an undeserved windfall. *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *6. That most certainly *is not* true where the litigation has been complex, the battles difficult and long, and the result achieved through skill, perseverance and an outlay of millions in out-of-pocket costs. The lodestar cross check, *infra*, further confirms that the requested fee here is no "windfall," easily falling within the range of multipliers that Courts have approved in other mega-fund cases. In these circumstances, the fee is not unreasonably large in proportion to the result but, to the contrary, appropriately reflective of the risks undertaken and the success achieved. *See id.* at *5-7; *see also id*. at *4 (counsel's "enormous success in a highly contingent case favors an award of a substantial percentage of the Dow settlement fund to the counsel who achieved that success for the class members. It also makes no sense to penalize counsel for hard-won success."); *In re Linerboard Antitrust Litig.*, No. CIV.A. 98-5055, 2004 WL 1221350, at *16 (E.D. Pa. June 2, 2004) ("One might argue that a fee award of 30 percent of settlements in excess of $200 is excessive given the absolute figure, approximately $60 million,

that such an award produces. The Court rejects that thinking in this case because the highly favorable settlement was attributable to the petitioners' skill and it is inappropriate to penalize them for their success."). Here, it must also be noted that this litigation was not prosecuted as a single class action with a small set of attorneys, nor even in a single jurisdiction MDL, but rather as a multi-jurisdictional action with varying degrees of coordination and disparate lead counsel, requiring the efforts of a large number of law firms, all of whom will share in the fee award. If not unprecedented in its procedural characteristics, this litigation is highly distinctive in its sprawling complexity.

Many courts analyzing the "sliding scale" approach have rejected it outright.[43] And it is in no way unusual to award one-third or more in cases with large recoveries. Rather, "there are numerous mega-fund cases with percentage awards comparable to those sought here."; Ex. 6 (Klonoff Decl. ¶ 93) (collecting cases); *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *6 ("Counsel's expert has identified 34 megafund cases with settlements of at least $100 million in which the court awarded fees of 30 percent or higher."); *In re: Checking Account Overdraft*

[43] *See, e.g.*, *In re Auto. Parts Antitrust Litig.*, No. 2:12-CV-00203, 2017 WL 3525415, at *2 (E.D. Mich. July 10, 2017) ("[T]here is no requirement that the Court necessarily apply a declining fee percentage based on the absolute dollar amount of any of the settlements at issue. The Court notes that other federal courts have also rejected the so-called 'mega fund' adjustment to fee awards based solely on the size of a settlement. Instead, consideration must be given to, among other things, the stage of the litigation when a settlement has been achieved and the labor and expense that were required to be incurred in order to achieve the settlement."); *In re FedEx Ground Package Sys., Inc., Employment Practices Litig.*, 251 F. Supp. 3d at 1239 ("our court of appeals hasn't recognized the megafund as a separate concept when determining the reasonableness of a common fund fee request."); *In re Rite Aid Corp. Securities Litig.*, 396 F.3d 294, 302-03 (3d Cir. 2005) ("[T]here is no rule that a district court must apply a declining percentage reduction in every settlement involving a sizeable fund. Put simply, the declining percentage concept does not trump the fact-intensive *Prudential/Gunter* analysis."); *Nichols*, 2005 WL 950616, at *21 ("The Court finds that reducing the percentage of recovery awarded as a fee in this case to a mean fee percentage derived from other cases without consideration of the *Gunter* factors . . . would require the Court to utilize an impermissibly formulaic approach."); *In re Linerboard Antitrust Litig.*, 2004 WL 1221350, at *16-17 (rejecting "sliding scale" approach); *In re Ikon Office Solutions, Inc. Sec. Litig.*, 194 F.R.D. at 196-97 (rejecting "declining percentage method"); *Allapattah*, 454 F. Supp. 2d at 1212-13 (rejecting sliding-scale approach as "arbitrary"); *Vizcaino v. Microsoft Corp.*, 290 F.3d 1043-50, 1047 (9th Cir. 2002) (rejecting "increase-decrease rule").

Litig., 830 F. Supp. 2d at 1367 (awarding 30% fee from $410 million fund, noting that "courts nationwide have repeatedly awarded fees of 30 percent or higher in so-called 'megafund' settlements") (citing cases awarding one-third or more from recoveries ranging from $356 million to $1.075 billion); *id.* at 1366 n.38 ("National Economic Research Associates, an economic consulting firm that has conducted a survey of fee awards in class actions, found that '[r]egardless of the case size, fees average approximately 32 percent of the settlement.'") (quoting Denise N. Martin, *et al., Recent Trends IV: What Explains Filings and Settlements in Shareholder Class Actions?* at 12-13 (NERA Nov. 1996)).

C. A Lodestar Cross-Check Confirms Reasonableness of the Requested Fee.

Courts may, but are not required to, use the lodestar method to cross-check the fairness of a percentage award. *See Petrovic v. Amoco Oil Co.*, 200 F.3d 1140, 1157 (8th Cir. 1999) (lodestar approach is "sometimes warranted to double-check the result of the 'percentage of the fund method"); *CompSource Oklahoma v. BNY Mellon, N.A.*, No. CIV 08-469-KEW, 2012 WL 6864701, at *8 (E.D. Okl. Oct. 25, 2012) ("A majority of circuits recognize that trial courts have the discretion to award fees based solely on a percentage of the fund approach and are not required to conduct a lodestar analysis in common fund class actions.") (citing *Union Asset Mgmt. Holding A.G. v. Dell, Inc.*, 669 F.3d 632, 644 (5th Cir. 2012)); *In re: Checking Account Overdraft Litig.*, 2014 WL 11370115, at *15 ("In view of the excellent results obtained here, the Court deems it unnecessary to scrutinize Class Counsel's lodestar.").

Here, the Fee Request is fully supported under the percentage approach and the Court need not engage in a multiplier analysis. *See* Ex. 6 (Klonoff Decl. ¶ 102). If the Court chooses to do so, however, that analysis only confirms reasonableness.

Where performed, a lodestar cross-check "need entail neither mathematical precision nor bean counting." *In re Xcel Energy, Inc., Sec., Derivative & "ERISA" Litig.*, 364 F. Supp. 2d at

999; *In re NuvaRing Prods. Liab. Litig*., 2014 WL 7271959, at *4 (same) (quoting *In re Rite Aid Corp. Sec. Litig.*, 396 F.3d at 306). Even when fees are sought from the defendant under fee-shifting statutes, "trial courts need not, and indeed should not, become green-eyeshade accountants." *Fox v. Vice*, 563 U.S. 826, 838, (2011). The goal is "not to achieve auditing perfection." *Id.* Trial courts "may take into account their overall sense of a suit, and may use estimates in calculating and allocating an attorney's time." *Id*. This is especially true when the lodestar is used as a cross-check. *See, e.g., Jackson v. Wells Fargo Bank, N.A.*, 136 F. Supp. 3d 687, 719 (W.D. Pa. 2015) ("the lodestar method is applied quite differently in common fund cases. While the lodestar method generally is the primary analysis in statutory fee-shifting cases, in common fund cases it serves only to cross-check the reasonableness of the results of a percentage-of-recovery method."); *Turner*, 472 F. Supp. 2d at 867 ("In recognition of the noted disadvantages of the lodestar method as the principle means for determining attorneys' fees, such as the taxing of judicial resources by examining every time entry and billing rate for each attorney, a lodestar analysis which is rough and more abbreviated is appropriate for a cross check"). The court may, for example, rely on summaries and declarations of counsel as to hours expended as well as blended rates.[44]

[44] Class Counsel stands ready to provide billing records for this Court's review *in camera* upon the Court's request, but it is acceptable and common for the court to rely on affidavits and summaries in performing a lodestar cross-check, especially in large, prolonged cases like this one. *See, e.g., In re Genetically Modified Rice Litig*., 764 F.3d 864, 871 (8th Cir. 2014) (district court "was permitted to rely on the summaries and affidavits presented to the court by Lead Counsel and other common benefit attorneys," which is within its discretion "especially [in large cases] . . . of prodigious proportions like this"); *In re NuvaRing Products Liab. Litig*., 2014 WL 7271959, at *4 ("a court performing a lodestar cross check need not scrutinize each time entry; reliance on representation by class counsel as to total hours may be sufficient. Furthermore, the lodestar cross-check can be simplified by use of a blended hourly rate.") (quoting *Turner*, 472 F. Supp. 2d at 867); *In re Vioxx Prod. Liab. Litig*., No. 11-1546, 2013 WL 5295707, at *3 (E.D. La. Sept. 18, 2013) ("[T]he lodestar analysis is not undertaken to calculate a specific fee, but only to provide a broad cross check on the reasonableness of the fee arrived at by the percentage method."); *In re Diet Drugs*, 582 F.3d 524, 539 (3d Cir. 2009) (rejecting objection that court should have considered individual billing records, explaining that "we have held that courts need not always engage in that time-consuming process . . . In large cases, especially one of prodigious

The attached declarations provide the factual support for the time undertaken and expenses incurred by the Kansas Common Benefit Group.[45]

The declarations, and time records offered for *in camera* review, provide detailed descriptions of the work performed and the number of hours expended by timekeepers (partners, associates, and paraprofessionals) in rendering service to the settlement classes in this case, and attest to the reasonableness of that expenditure. *See, e.g.*, Ex. 1 (Stueve Decl. ¶¶ 133-610); Ex. 2 (Powell Decl. ¶¶ 82-218); Ex. 3 (Downing Decl. ¶¶ 8-84); Ex. 4 (Chaney Decl. ¶¶ 163-319); Exs. 7, 10-47. Co-Lead Counsel have taken the further step of reviewing time records to, among other things, ensure that time submitted was in compliance with the CBO, ensure consistency of billing practices and remove unnecessary duplicative time. *See supra* Sections III.B, IV.

To calculate this lodestar, the hours expended were multiplied by a reasonable hourly rate "to produce a fee amount which can be adjusted, up or down, to reflect the individualized characteristics of a given action." *Johnston v. Comerica Mortg. Corp.*, 83 F.3d 241, 244 (8th Cir. 1996). In assessing reasonableness of rates, it is appropriate to consider market evidence of rates for comparable firms and lawyers in comparable cases within the area in which the court

---

proportions like this, reliance on summaries is certainly within the discretion of the district court."); *Jackson*, 136 F. Supp. 3d at 716 ("Class counsel has produced timekeeping summaries and details demonstrating that a total of 1579.9 hours have been expended"); *In re Schering-Plough Corp. Enhance Sec. Litig.*, No. CIV.A. 08-2177 DMC, 2013 WL 5505744, at *33 (D.N.J. Oct. 1, 2013) (a lodestar cross-check is "not a full-blown lodestar inquiry" . . . Accordingly, the district court may rely on summaries submitted by counsel and need not review billing records.") (internal quotations and citations omitted); *In re Linerboard Antitrust Litig.*, 2004 WL 1221350, at *1, 15 (relying on affidavits containing time and expense summaries; "The Court emphasizes that this is only a cross-check and not a full lodestar analysis.") (citing *DiGiacomo v. Plains All American Pipeline*, Civ. No. H-99-4137, at 23 (S.D. Tex. 2001) (court "will not conduct a detailed analysis of charged hours and hourly rates" because to do so "would undermine the utility of the percentage method").

[45] Upon request by the Court, Counsel are prepared to submit more detailed records accounting for the time and efforts devoted to this litigation. Given that the litigation by certain non-producer plaintiffs continues, that this settlement is not finally approved, and that time entries contain privileged communication and mental impressions of counsel, any such submission should be made *in camera* to avoid providing Syngenta with insight into these plaintiffs' litigation strategy.

sits. *Sussman v. Patterson*, 108 F.3d 1206, 1211 (10th Cir. 1997); *Case v. Unified Sch. Dist. No. 233, Johnson County, Kan.*, 157 F.3d 1243, 1255-56 (10th Cir. 1998) (court should determine what the market commands in analogous litigation, considering evidence of "what lawyers of comparable skill and experience practicing in the area in which the litigation occurs would charge for their time.") (quoting *Ramos v. Lamm*, 713 F.2d 546, 555 (10th Cir. 1983)).[46] The performance, experience and skill of counsel should be taken into account, as well as the contingencies and complexities of the case at hand. Moreover, Plaintiffs' counsel should "be as well paid as their adversaries who did not work on a contingency basis." *In re Charter Commc'ns, Inc., Sec. Litig.*, No. 4:02-CV-1186 CAS, 2005 WL 4045741, at *17 (E.D. Mo. June 30, 2005); *see also In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *7 (finding that the "amounts at issue justified use of the best counsel charging the highest rates (just as Dow used similarly high-priced counsel in the litigation).").[47] In addition, use of current fee rates in

[46] This is not to say that a court cannot or should not consider rates outside the forum, particularly where the litigation is complex and specialized. *See Reazin v. Blue Cross & Blue Shield of Kansas, Inc.*, 663 F. Supp. 1360, 1453–54 (D. Kan. 1987) ("Where local rates are too low for the litigation at issue, the relevant community may be said to be comprised of that group of attorneys specializing in the relevant law and in complex litigation . . . If a high[er] priced, out of town attorney renders services which local attorney could do as well, and there is no other reason to have them performed by the former, then the judge, in his discretion, might allow only an hourly rate which local attorneys would have charged for the same service. On the other hand, there are undoubtedly services which a local attorney may not be willing or able to perform. The complexity and specialized nature of a case may mean that no attorney, with the required skills, is available locally. . ."); *Lucas*, 2006 WL 2729260, at *4 ("Hourly rates must reflect the prevailing market rates in the relevant community. Because of the significant resources and skill required, as well the risks entailed, to litigate large-scale actions on behalf of a class, very few attorneys handle such cases. Thus the relevant community. . .likely consists of attorneys who litigate nationwide, complex class actions."). It may be observed that MDLs do not share the homogenous aspect of class actions filed in a particular state, but rather, are a collection of cases transferred to a single forum under 28 U.S.C. § 1407 and that both plaintiffs and attorneys rendering services are from many areas across the nation, justifying consideration of national rates.

[47] Reported early-2016 hourly rates for partners at Kirkland & Ellis, Syngenta's law firm in this case, are $875-$1,445. Sara Randazzo and Jacqueline Palank, *Legal Fees Cross New Mark: $1,500 an Hour*, WALL STREET JOURNAL (Feb. 9, 2016) (available at https://www.wsj.com/articles/legal-fees-reach-new-pinnacle-1-500-an-hour-1454960708). More recently, Kirkland's website states that in 2017, partners were billing between $930 to $1,745 per hour, Of Counsel at rates ranging from $555 to $1,745

calculating the lodestar is appropriate. *See id.* at *7 n.7 ("Because of the long delay in receiving payment for past work, the Court concludes that use of current billing rates is appropriate in conducting this lodestar cross-check.").[48]

Here, 142,823.5 common-benefit hours were expended by the Kansas Common Benefit Group alone, reflecting $81,725,060.90 in lodestar, resulting in a blended rate of $572. These hours only include time spent on common-benefit work permitted by the CBO, including the time spent prosecuting the claims of the bellwether plaintiffs and litigation classes and other time as described generally above, more specifically in the supporting declarations, and in detail in counsel's time records. Moreover, any lodestar is inherently understated because Co-Lead and Settlement Class Counsel will likely spent at least 500-1,000 hours seeking final approval, defending the Settlement from objections, and supervising claims administration and distribution of the proceeds, Ex. 1 (Stueve Decl. ¶ 668), which could be potentially higher if there are appeals. These hours include the work of 44 law firms, and, even though many or all of those firms incurred such time, it does not include time spent: advertising, soliciting, or retaining clients; communicating status updates to individual, non-bellwether, non-representative plaintiffs; or assisting plaintiffs in completing and responding to their PFS obligations for non-bellwether, non-representative plaintiffs. *Id.* at ¶ 644. As recited above, Co-Lead Counsel alone excluded nearly $8 million of their own lodestar spent on non-common benefit tasks, most

---

per hour, and associates at between $555 and $1,015 per hour. Firm News, Press Mention (Sept. 29, 2017) (available at https://www.kirkland.com/sitecontent.cfm?contentID=230&itemId=13055).

[48] *See also, e.g., Chambers v. Whirlpool Corp.*, 214 F. Supp. 3d 877, 900 (C.D. Cal. 2016) ("District courts have the discretion to compensate plaintiff's attorneys for a delay in payment by. . .applying the attorneys' current rates to all hours billed during the course of the litigation[.]") (citation omitted); *Been*, 2011 WL 4478766, at *9 (applying current hourly rates "is properly part of a reasonable attorneys' fee because 'compensation received several years after the services were rendered. . .is not equivalent to the same dollar amount received reasonably promptly as the legal services are performed, as would normally be the case with private billings."); *Bratcher v. Bray–Doyle Ind. Sch. Dist. No. 42*, 8 F.3d 722, 726 (10th Cir. 1993) (delay in payment may be remedied by applying current hourly rates).

prominently providing services to their individual clients. *See supra* n. 14. Furthermore, the lodestar itself has been subject to review: *first*, by the submitting firm who were obligated to confirm that its time complied with the CBO; and *second*, by Co-Lead Counsel who again re-reviewed all submitted time and expenses. *See supra* Section III.C.

The blended rate of $572 an hour, as well as the rates submitted, is par or below counterparts in private litigation,[49] and in line with rates approved within, as well as outside, this forum in other complex cases. *See* Ex. 6 (Klonoff Decl. ¶¶ 13, 109-19); Ex. 5 (Ralston Decl. ¶¶ 23-61).[50] It demonstrates that counsel used both reasonable rates in determining the lodestar and appropriately delegated tasks. The multiplier on the Kansas Common Benefit Attorneys' requested Fee Allocation of $251.67 million is 3.079, which is "not uncommon, especially for a complicated, challenging case such as this one." Ex. 6 (Klonoff Decl. ¶ 123). "Here, a

[49] Attorneys of the caliber of those in this case often have billing rates exceeding $1,000 per hour. *See* Vanessa O'Connell, *Big Law's $1,000-Plus and Hour Club*, WALL STREET JOURNAL, (Feb. 23, 2011) (available at http://www.wsj.com/articles/ SB10001424052748704071304576160362028728234); Sara Randazzo and Jacqueline Palank, *Legal Fees Cross New Mark: $1,500 an Hour*, WALL STREET JOURNAL (Feb. 9, 2016) (available at https://www.wsj.com/articles/legal-fees-reach-new-pinnacle-1-500-an-hour-1454960708). The rates are reasonable even if only the locale of the litigation is considered. Ex. 5 (Ralston Decl. ¶ 61); Ex. 6 (Klonoff Decl. ¶ 110).

[50] In the *Urethane* case, using 2016 rates, the blended rate of the unadjusted lodestar was approximately $518/ hour. *In re: Urethane Antitrust Litig.*, No. 04-1616-JWL, 2016 WL 4060156, at *7 (D. Kan. July 29, 2016) ("According to billing records provided *in camera* to the Court, counsel expended over 193,000 hours in this litigation, which, at current rates, yields a total lodestar amount of approximately $100 million."). As the Court observed, "the amounts at issue justified use of the best counsel charging the highest rates." *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *7. That is no less true here. The rate here is very reasonable as illustrated by decisions approving comparable or higher rates in cases of similar or less complexity even several years ago. *See, e.g., In re Bank of Am. Wage & Hour Employment Litig.*, No. 10-MD-2138-JWL, 2013 WL 6670602, at *3 (D. Kan. Dec. 18, 2013) (Lungstrum, J.) (finding blended hourly rate of $488 in FSLA case reasonable); *Roeser v. Best Buy Co.*, No. CIV. 13-1968 JRT/HB, 2015 WL 4094052, at *12 (D. Minn. July 7, 2015) (finding rates of $775 and $880 reasonable accounting "the high-quality work performed by counsel, and the typically higher compensation rates approved for class counsel, in approving these hourly rates."); *In re Genetically Modified Rice Litig.*, No. 4:06MD1811 CDP, 2012 WL 6085141 (E.D. Mo. Dec. 6, 2012), *aff'd*, 764 F.3d 864 (8th Cir. 2014) (approving hourly rates ranging from $375-$865 for partners and $175-$450 for associates as fair and reasonable); *In re Zurn Pex Plumbing Products Liab. Litig.*, No. 08-MDL-1958 ADM/AJB, 2013 WL 716460, at *5 (D. Minn. Feb. 27, 2013) (collecting cases approving rates of $500-$800 per hour); *McDonough v. Toys R Us, Inc.*, 80 F. Supp. 3d 626, 657 (E.D. Pa. 2015) (finding rates ranging from $315 to $800 reasonable).

multiplier of 3.079 [for Kansas Common Benefit Attorneys] is well justified under the case law because class counsel took on a challenging, risky case with extremely complex legal and factual issues, prosecuted it skillfully over the course of several years without assistance from any official investigation, obtained class certification despite Syngenta's opposition, conducted a complete trial that resulted in an impressive $217.7 million jury verdict, and obtained a superb $1.51 billion settlement for the class." *Id.* at ¶ 125.

In addition, Minnesota Lead Counsel reports that their filing will describe over $41 million in lodestar performing additional work pursuant to the Minnesota Court's CBO. Collectively, then, the combined common-benefit lodestar of these two jurisdictions alone is over $122.7 million. That does not include: any of the time spent by Illinois Lead Counsel in Illinois or the state ethanol cases; nor, any other fee applications that the Court may consider. Thus, while the multiplier for the entire one-third fee is presently only slightly higher than four (4.1), it will undoubtedly be lower than that in the final analysis. In any event, that multiplier itself is reasonable. *See id.* at ¶ 124 (table showing 14 cases where multiplier, in $100 million+ settlements, was greater than 4.16, *none of which went to trial*).

Importantly, a "multiplier need not fall within any pre-defined range, so long as the court's analysis justifies the award, such as when the multiplier is in line with multipliers used in other cases." *In re Xcel Energy, Inc., Sec., Derivative & "ERISA" Litig.*, 364 F. Supp. 2d at 999. Either multiplier here is well within the range of those applied in comparable cases. *See* Newberg on Class Actions § 14:6 (4th ed. & Supp. June 2008) ("Multiples ranging from one to four frequently are awarded in common fund cases when the lodestar method is applied. A large common fund award may warrant an even larger multiple."); *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *7 (noting that even were the Court to reduce the lodestar, increasing the

multiplier to 4 or 5, that multiplier "would fall within the range of multipliers accepted by a number courts in megafund cases").[51] The multiplier here is well within typical range, is supported by applicable factors, and is reasonable. The lodestar cross-check confirms that the amount requested should be approved.

II. THE EXPENSE REQUEST FOR THE KANSAS COMMON BENEFIT GROUP SHOULD BE GRANTED.

"Reasonable costs and expenses incurred by an attorney who creates or preserves a common fund are reimbursed proportionately by those class members who benefit by the settlement." *Yarrington*, 697 F. Supp. 2d at 1067 (quotations omitted). The appropriate analysis is whether the particular costs are the type typically billed by attorneys to paying clients in the marketplace. *See Harris v. Marhoefer*, 24 F.3d 16, 19 (9th Cir. 1994) (allowing recovery of "out-of-pocket expenses that 'would normally be charged to a fee paying client'").

Co-Lead Counsel, on behalf of the Kansas Common Benefit Group, seeks reimbursement of costs and expenses reported under the CBO totaling $6,695,350.05. Each firm has been required to submit a declaration attesting to the accuracy and reasonableness of these expenses.

[51] *See, e.g., In re Xcel Energy, Inc., Sec., Derivative & "ERISA" Litig.*, 364 F. Supp. 2d at 999 (collecting cases and approving 4.7 multiplier as reasonable); *In re Rite Aid Corp. Sec. Litig.*, 362 F. Supp. 2d 587 (E.D. Pa. 2005) (approving award representing multiplier of 6.96); *Sewell v. Bovis Lend Lease, Inc*., No. 09 CIV. 6548 RLE, 2012 WL 1320124, at *13 (S.D.N.Y. Apr. 16, 2012); ("Courts commonly award lodestar multipliers between two and six"); *Steiner v. Am. Broad. Co., Inc.*, 248 F. Appx. 780, 783 (9th Cir. 2007) (6.85 multiplier "falls well within the range of multipliers that courts have allowed."); *Roberts v. Texaco, Inc*., 979 F. Supp. 185, 197 (S.D.N.Y. 1997) (multiplier of 5.5). The range of multipliers in "mega-fund" cases is similar. *See, e.g., Vizcaino*, 290 F.3d at 1050-51 & n.6 (approving 3.65 multiplier from $96.9 million settlement fund, and noting standard 1-4 multiplier range); *In re Credit Default Swaps Antitrust Litig.*, No. 1:13-md-02476-DLC, 2016 WL 2731524, at *17 (S.D.N.Y. Apr. 26, 2016) ($253.8 million fee and multiplier "just over 6" multiplier); *In re Enron Corp.*, 586 F. Supp. 2d 732, 799-803 (S.D. Tex. 2008) (5.2 multiplier and $688 million fee award; collecting cases); *In re Charter Commc'ns, Inc., Sec. Litig.*, 2005 WL 4045741, at *18 (settlement fund of $146,250,000; approving multiplier of 5.61, which "falls within the range of multipliers found reasonable for cross-check purposes by courts in other similar actions, and is fully justified here given the effort required, the hurdles faced and overcome, and the results achieved."); *Deloach v. Philip Morris Companies*, No. 1:00CV01235, 2003 WL 23094907, at *1 (M.D.N.C. Dec. 19, 2003) (>$1 billion fund; 4.45 multiplier).

See supra Section III.C. Each expense was categorized pursuant to the categories outlined in the CBO. Here is a summary of the expenses by category:

Expense Category	Total Expenses
Federal Express / Local Courier	$25,713.95
Postage Charges	$1,807.54
Facsimile Charges	$48.00
Long Distance Calls	$31,359.11
In-House Photocopying	$99,144.89
Outside Photocopying	$187,185.79
Hotels	$559,548.83
Meals	$148,438.47
Mileage	$28,793.07
Air Travel	$387,787.08
Deposition Costs	$62,319.31
Lexis/Westlaw/Bloomberg	$555,248.82
Witness and Expert Expenses	$423,794.32
Court Fees	$7,629.22
Service of Process Fees	$9,485.11
Hearing and Trial Transcripts	$180.90
Ground Transportation	$94,272.26
Miscellaneous	$169,395.38
Litigation Fund Assessment	$3,800,000.00[52]
Litigation Class Certification Notice	$103,195.00
TOTAL	**$6,592,152.05**

Ex. 1 (Stueve Decl. ¶ 643). These are the type of expenses routinely charged to hourly clients, are appropriately documented, and were necessary and reasonable to prosecute the litigation. The full requested amount should be reimbursed. *See* Ex. 6 (Klonoff ¶¶ 132-34).

In addition, for the same reasons, Subclass Counsel should be reimbursed their modest expenses in the following amounts as detailed in their supporting declarations. Ex. 48 (Chechi

[52] Litigation fund assessments were levied by Co-Lead Counsel throughout the litigation to firms in the Kansas Common Benefit Group, and these funds were used by Co-Lead Counsel to pay for additional costs not included in the above table: the non-travel related costs of depositions ($382,022.20); ESI expenses, including the costs of the MDL Document Database ($294,591.27); the MDL's share of the Special Master expenses ($299,807.06); court transcripts ($17,382.25); experts ($1,546,672.02); translation services ($46,997.61); subpoena costs pursuant to Rule 45 ($306,391.11); trial consultants ($306,039.11); trial expenses ($188,298.88); additional litigation class notice charges ($363,042.46); FSA information for settlement ($48,412.34); and bank charges for the litigation fund ($342.82). Ex. 1 (Stueve Decl. ¶ 652).

Decl. ¶¶ 27-28) ($15,046.20, which is almost exclusively related to expert costs); Ex. 49 (Wexler Decl. ¶ 20) ($5,621.16); Ex. 50 (Johnson Decl. ¶ 11) ($4,910.16).

III. KANSAS COMMON BENEFIT ATTORNEYS SHOULD BE ALLOCATED 50% OF THE ONE-THIRD FEE AWARD.

Lead Counsel in Kansas, Minnesota,[53] and Illinois[54] have agreed to submit to the Court a proposed allocation among their various groups (50/12.5/17%) that reserves up to 20% of the total fee – approximately $100.7 million – for other potential fee claimants. This Fee-Sharing Agreement, discussed *supra* Section II.C, was reached following extensive mediations with the Court-appointed Special Master. Pursuant to that agreement, Co-Lead Counsel and Seeger requests 50% of the $503.3 million to disburse consistent with the Court's orders to the Kansas Common Benefit Group (approx. $251.67 million)[55] *See infra* at Section III.A. With respect to the 20% unallocated by the Fee-Sharing Agreement, Co-Lead Counsel and Seeger propose that this amount be distributed as follows: *first*, Subclass Counsel for the Viptera/Duracade Purchaser, Grain Elevator, and Ethanol Subclasses be compensated from this percentage based on their lodestar of $256,670, with a 1.5 multiplier for their efforts representing the subclasses during settlement negotiations, for a total fee of $388,055; *second*, the remainder of $100.7

[53] Attorneys in the Minnesota MDL Group include: Daniel E. Gustafson (Gustafson Gluek PLLC); Lewis A. Remele, Jr. (Bassford Remele); William R. Sieben (Schwebel Goetz & Sieben, P.A.); Richard M. Paul, III (Paul Mclnnes LLP and Paul LLP); Will Kemp (Kemp, Jones & Coulthard, LLP); Tyler Hudson (Wagstaff & Cartmell, LLP); Robert K. Shelquist (Lockridge Grindal Nauen); Paul Byrd (Paul Byrd Law firm PLLC); and Referring Counsel.

[54] Attorneys in the Clark Group ("Illinois Group") include: Clayton A. Clark (Clark, Love & Hutson, GP); Peter J. Flowers (Meyers & Flowers) and Martin J. Phipps (Phipps Anderson Deacon LLP), as well as Referring Counsel, co-counsel and / or joint venture partners.

[55] Attorneys in the Federal Kansas Common Benefit Group include the 44 law firms who performed and reported common-benefit work at the direction and with the approval of Co-Lead Counsel in the MDL and are listed in the Declaration of Patrick J. Stueve at ¶ 644. If a law firm performed common-benefit work in both Minnesota and the MDL, it is the intent and agreement of the Fee-Sharing Agreement that work be reported once and that work performed in the MDL at the direction of Co-Lead Counsel be paid from the MDL Allocation and that work performed in Minnesota at the direction of Minnesota Lead Counsel be paid from the MN Allocation.

million amount be used to make any other fee awards that the Court deems appropriate consistent with governing principles upon a timely submission by other counsel under the Settlement Agreement and the Court's scheduling order; and, *third*, that any portion not awarded to other counsel be re-distributed in accordance with the *Johnson* factors.

Furthermore, the undersigned requests that the Court implement the following procedure with respect to allocation of the Fee and Expense Award, consistent with the Fee-Sharing Agreement (Ex. 8 at n.3-4): *first*, that Co-Lead Counsel be assigned and authorized to allocate the MDL Allocation among the Federal Kansas Common Benefit Group with proposed deadlines for any objections; *second*, that Daniel E. Gustafson and Lew Remele be assigned and authorized to allocate the MN Allocation among the Minnesota Common Benefit Group; and, *third* that Clayton A. Clark be assigned and authorized to allocate the IL Allocation among the Illinois Group. Their roles steering the litigation in their respective jurisdictions uniquely qualify them make these determinations in a fair and equitable manner.

A. The MDL Allocation to the Federal Kansas Common Benefit Group is Easily Fair and Equitable under the *Johnson* Factors.

Awarding the 50% MDL Allocation to the 44 firms in the Kansas Common Benefit Group is easily equitable under the facts here. First, as between Minnesota and Illinois Lead Counsel, it reflects an arms-length agreement reached through the efforts of the Special Master and Judge Stack. Thus, the agreement should be afforded and given weight by the Court. Ex. 1 (Stueve Decl. ¶¶ 611-13); Ex. 6 (Klonoff Decl. ¶¶ 129-31). Second, as between the 44 firms in the Kansas Common Benefit Group – including Co-Lead Counsel and Seeger – and *any* other attorneys who file a fee application, the MDL Allocation reflects the fact that the MDL attorneys took the lead, plowed the ground on most aspects of the litigation, led the settlement negotiation

committee, and obtained the $217.7 million jury verdict. This work, and the results achieved because of it, represents at least half the benefits conferred on the Class.

Furthermore, if the Court awards one-third of the $1.51 billion, as requested, the MDL Allocation would be only 16.67% of the settlement fund. That percentage is well below other awards in comparable cases, and is more than supported by all the *Johnson* factors as detailed herein. *Supra* Section II.B.8; *see* Ex. 6 (Klonoff Decl. ¶ 94). From an allocation standpoint, lawyers in the federal MDL performed a substantial share of services, and created the benefits, on behalf of the Class.

Out of the gate, the MDL lawyers went first. They supported remand of state-court cases under the doctrine of foreign relations, paving the way for the state litigation. *See supra* Section I.D. By May and August 2015 – when the first related actions (in Minnesota) were consolidated and leadership appointed, respectively, the Kansas Common Benefit Group had: negotiated a procedure for consolidated pleadings and Notices to Conform (ECF No. 287); obtained and reviewed initial discovery in the form of *Bunge* litigation documents, regulatory filings, and stewardship agreements (ECF No. 123); filed initial and amended Master Complaints (ECF Nos. 296, 297, 450, 451); negotiated with Syngenta and received Court entry of an ESI protocol (ECF No. 327), preservation order (ECF No. 369), and protective order (ECF No. 294); submitted discovery disputes over the scope of Syngenta's discovery to putative class representatives (ECF No. 945); and, perhaps most importantly, prepared and filed their lengthy and largely successful opposition to Syngenta's motion to dismiss (ECF No. 927). Thus, the Kansas Common Benefits Group's work, which took several months to accomplish, was available to everyone in the related jurisdictions, allowing them to catch up, avoid duplication, and accelerate their discovery schedule to match the MDL.

Co-Lead Counsel and the Kansas Common Benefit Group continued to press forward by developing the cases for trial, including *inter alia*: (1) establishing the initial bellwether process; (2) propounding initial sets of written discovery to Syngenta; (3) negotiating search terms with Syngenta for the production of documents; (4) setting up the shared MDL Document Depository; (5) organizing, administering and conducting the 2.5 million-page document review; (6) subpoenaing and negotiating with the third-party witnesses; (7) taking the lead in scheduling and in questioning all 32 Syngenta witnesses, including those critical to the case and those played in the Kansas and Minnesota trials; (8) taking a leading role in the deposition of the Cargill, ADM and other third-party witnesses; (9) locating and developing the experts used to obtain class certification; (10) briefing class certification, which they shared with Minnesota; (11) locating and developing the experts designated and/or used at both the Kansas and Minnesota class trials; (12) deposing and developing cross-examination of Syngenta's experts; (13) preparing and sharing the motions to strike Syngenta's experts and the oppositions to Syngenta's motions to strike Plaintiffs' experts; (14) successfully obtaining an order compelling production of documents that led to the withdrawal of Syngenta's standard-of-care expert; and, (15) trying the first and only case to a verdict, resulting in the $217.7 million Kansas judgment, reflecting full compensatory damages. *See supra* Section I. Co-Lead Counsel also provided assistance to Lead Counsel in Minnesota with the Minnesota class trial, including preparing the damages experts to testify. *See* Ex. 3 (Downing Decl. ¶ 64); Ex. 1 (Stueve Decl. ¶¶ 575-77).

Reflective of the amount of time expended in the MDL, the MDL also involved a larger bellwether pool than other jurisdictions, including 69 producer plaintiffs, and it involved eight certified classes. *See supra* Section II, III.B. Prosecution of these cases placed immense and immediate settlement pressure on Syngenta due to: counsel's successful efforts in obtaining class

certification, the successful result in the Kansas trial, and Syngenta's potential exposure in further 2018 trials, for which Co-Lead Counsel was already preparing for. *See* Ex. 1 (Stueve Decl. ¶ 578); Ex. 2 (Powell Decl. ¶¶ 205-07); Ex. 3 (Downing Decl. ¶ 68); Ex. 4 (Chaney Decl. ¶ 302). Following on the heels of the June 2017 Kansas class trial, the Court originally set four additional class trials, comprised of seven additional state classes, to begin on January 22, 2018, April 4, 2018, May 14, 2018 and October 8, 2018. ECF No. 3319. Thus, Syngenta faced, in the MDL and against counsel with a proven trial result, multiple class trials with substantial exposure in 2018. Moreover, Co-Lead Counsel filed a motion to certify the remaining 13 state-law classes, covering the vast majority of corn produced in the U.S., to ensure that Syngenta, if it continued forward with litigation, would face class trials through 2019 and beyond. *See*, *supra*, Section I.I. In measuring responsibility for "results achieved," *e.g.*, the $1.5 billion settlement, both past results and ongoing pressure in the MDL speak for themselves.

Co-Lead Counsel and the Kansas Common Benefit Group were also the first to brief the key legal issues in the case, identifying the precedent and making the arguments that would prove persuasive throughout the litigation. This included responding to Syngenta's Rule 12(b)(6) motion to dismiss and presenting oral argument on that motion. ECF No. 927. They obtained the initial orders on most or all of the key rulings, including the motion to dismiss, class certification, and summary judgment. *See supra* Section I.D, I.F. This Court's rulings were often cited to approvingly by the other judges. *Id.* at Section II.B.

Pursuant to the Coordination Order and agreements between the Kansas attorneys and Minnesota attorneys, the Kansas Common Benefit Group's work product was made available to attorneys in the Minnesota jurisdiction. This included the MDL Document Database and, often, drafts of briefs and papers, including the motion and reply in support of class certification, the

motion for partial summary judgment, and the *Daubert* motions against Syngenta's experts. And, the work done with the following experts, including their reports, were shared: Dr. Colin Carter; Dr. Bruce Babcock; Dr. Randall Giroux; Dr. Joe Keaschall; Mr. Kevin Latner; and, Dr. Dirk Maier. *See* Ex. 1 (Stueve Decl. ¶¶ 448, 455, 467)

One of the four Co-Leads, or in rare instances a lawyer from their firm or another EC firm, took the lead in questioning Syngenta witnesses at their deposition. *See supra* Section I.B.1. Normally, the Co-Lead taking the deposition would share their deposition outline with the other plaintiffs' attorneys in advance of the deposition, to the extent they wished to question the witness, to avoid non-duplicative questions. Ex. 3 (Downing Decl. ¶ 33). Experts in the MDL were made available to Minnesota plaintiffs pursuant to an expert sharing agreement. *Id*. at ¶ 45.

In addition, it was counsel in the Kansas MDL group who secured the first and only jury verdict against Syngenta. It was by their efforts that Syngenta's risk before a jury was brought home. *See, e.g., In re Copley Pharm., Inc., Albuterol Products Liab. Litig.*, 50 F. Supp. 2d 1141, 1153 (D. Wyo. 1999) ("the Court must remember that this case, unlike other MDL cases, settled only after it went to trial and the Court has accorded great weight to trial counsel for this effort."). A 16.667% aggregate fee to this group, which led the litigation, is well supported by all relevant *Johnson* factors.

Co-Lead Counsel also request that they be assigned the task of allocating the total award to the Kansas Common Benefit Group. "Ideally, allocation is a private matter to be handled among class counsel." *In re Copley Pharm., Inc., Albuterol Products Liab. Litig.*, 50 F. Supp. 2d 1141, 1148 (D. Wyo. 1999) (quoting *In re Domestic Air Transp. Antitrust Litig.*, 148 F.R.D. 297, 357 (N.D. Ga. 1993)). It is sensible to adopt such a procedure as, among other things, "[l]ead [c]ounsel, like the Court as the presiding jurist, [is] in a unique position to weigh the

contributions to the litigation." *Id.* at 1149.[56] It is common practice that lead counsel undertake such allocation. *See, e.g.*, Manual for Complex Litigation 4th §14.221 ("Lead counsel can be made responsible for overseeing [multiple fee submissions]"); *In re: Urethane Antitrust Litig.*, No. 04-1616-JWL, 2008 WL 696244, at *2 (D. Kan. Mar. 13, 2008) (Lungstrum, J.) (co-lead counsel to allocate fee award).[57]

Co-Lead Counsel have been directly involved in the litigation since its inception, have personally conducted, assigned, and overseen all work within the group, and have intimate familiarity therewith. Thus, it is the most efficient means to proceed that once the Fee Award is entered, Co-Lead Counsel undertake the allocation. Co-Lead Counsel request leave to do so, and will, as directed in *Urethane*, allocate the award "in a manner that, in Co-Lead Counsel's good-faith judgment, reflects each plaintiffs' counsel's contribution to the institution, prosecution and resolution of the litigation against Defendants." *In re: Urethane Antitrust Litig.*, 2008 WL 696244, at *2. Co-Lead Counsel further propose that any objections to the allocation, along with the reasons therefore, be filed with the Court not later than ten (10) days after the firm receives

[56] *See also Victor v. Argent Classic Convertible Arbitrage Fund L.P.*, 623 F.3d 82 (2d Cir. 2010) ("Since lead counsel is typically well-positioned to weigh the relative merit of other counsel's contributions, it is neither unusual nor inappropriate for courts to consider lead counsel's proposed allocation"); *In re Initial Pub. Offering Sec. Litig.*, No. 21 MC 92 SAS, 2011 WL 2732563, at *7–8 (S.D.N.Y. July 8, 2011) ("Lead counsel is best positioned to gauge the relative contributions of each firm because, by assuming nearly every task litigation could require . . . the EC is intimately aware of the distribution of responsibility and work that ultimately led to final approval of the settlement."); *In re Vitamin Cases*, No. 301803, 2004 WL 5137597, at *8 (Cal. Super. Ct. Apr. 12, 2004) ("Federal courts nationwide have recognized that lead counsel are generally better suited than the trial court to decide the weight and merit of the relative contributions made by those performing common benefit work-particularly in cases such as this litigation where many attorneys performed thousands of hours of widely varying professional services outside the direct observation of the Court and under the overall supervision of lead counsel.") (citing cases).

[57] *Longden v. Sunderman*, 979 F.2d 1095, 1101 (5th Cir. 1992) ("The district court acted well within its discretion in awarding an aggregate sum to the Susman Attorneys that was based on their collective efforts, leaving apportionment of that sum up to the Susman Attorneys themselves"); *Turner*, 472 F. Supp. 2d at 869-70 ("The Court will leave the apportionment of this award up to the PSC attorneys themselves.").

written notice of the allocation, with Co-Lead Counsel's response due no later than fourteen (14) days thereafter, with a hearing should the Court deem it necessary.

B. The Court Should Award Subclass Counsel Attorneys' Fees and Expenses from the Remaining 20%.

If the Court follows this proposal and the Fee-Sharing Agreement, 20% of the Fee Request remains. As an initial matter, Subclass Counsel has performed work representing the interests of the subclass members in negotiating the allocation of amounts in the Settlement Agreement. Their fee request should be paid from this remaining 20%. The amounts requested are: $209,520 to Carella Byrne; $95,835 to Wexler Wallace; and, $82,650 to Shamberg Johnson, which reflects a modest multiplier of 1.5 of their lodestar representing the subclasses. Their efforts are detailed in their declarations, attached hereto as Exhibits 48-50. Moreover, $388,005 reflects a small portion of the $72 million they negotiated for their subclasses. *See* ECF No. 3507-2 at 25-26.

The undersigned understand that the Special Master may make a recommendation as to allocation of the remainder of the 20%, and others have or will request fees pursuant to their own applications. If the Court determines that some or all of a global award is not appropriately awarded to applicants under common-benefit principles, then respectfully, Co-Lead Counsel recommend that such amount be awarded, as appropriate, to lawyers whose services were of demonstrable class benefit (including those in the Kansas MDL Group) based on application of the *Johnson* factors. Co-Lead Counsel reserve the right to modify their recommendations upon review of the other fee applications.

IV. SERVICE AWARDS FOR CLASS REPRESENTATIVE AND BELLWETHER PLAINTIFFS ARE WELL DESERVED.

"At the conclusion of a class action, the class representatives are eligible for a special payment in recognition of their service to the class." 5 *Newberg on Class Actions* § 17:1 (5th ed.

2015). Serving in a representative capacity is a burdensome task and, without plaintiffs willing to undertake that task, the entire class would receive nothing. Service awards thus "aim to compensate class representatives for their service to the class and simultaneously serve to incentivize them to perform this function." *Id*. at § 17:3.[58]

When considering the appropriateness of a service award, the Court may consider: (1) the actions the representative took to protect the interests of the class; (2) the degree to which the class benefitted from those actions; and (3) the amount of time and effort the representative expended in pursuing the litigation. *Tuten v. United Airlines, Inc*., 41 F. Supp. 3d 1003, 1010 (D. Colo. 2014). "Incentive awards serve an important function, particularly where the named plaintiffs participated actively in the litigation." *Allapattah Servs., Inc.*, 454 F. Supp. 2d at 1218.[59]

---

[58] *See also UFCW Local 880-Retail Food Employers Joint Pension Fund v. Newmont Min. Corp.*, 352 F. App'x 232, 235 (10th Cir. 2009) ("a class representative may be entitled to an award for. . .additional effort and expertise provided for the benefit of the class."); *In re: Checking Account Overdraft Litig*., No. 1:09-MD-02036-JLK, 2014 WL 12557836, at *9–10 (S.D. Fla. Apr. 1, 2014) ("[T]here is ample precedent for awarding incentive compensation to class representatives at the conclusion of a successful class action . . . Courts have consistently found service awards to be an efficient and productive way to encourage members of a class to become class representatives.") (internal quotations and citation omitted); *Asare v. Change Group of New York, Inc.*, No. 12 Civ. 3371(CM), 2013 WL 6144764, at *14 (S.D.N.Y. Nov. 18, 2013) ("Courts acknowledge that class representatives play a crucial role in bringing justice to those who would otherwise be hidden from judicial scrutiny."); *Yarrington*, 697 F. Supp. 2d at 1068 (service awards "promote the public policy of encouraging individuals to undertake the responsibility of representative lawsuits.").

[59] *See also id.* at 1218 ("[c]ourts routinely approve incentive awards to compensate named plaintiffs for the services they provided and the risks they incurred during the course of the class action litigation." (quoting *Ingram v. Coca-Cola Co.*, 200 F.R.D. 685, 694 (N.D.Ga. 2001)) (citing *Cook v. Niedert*, 142 F.3d 1004, 1016 (7th Cir. 1998) ($25,000 to named plaintiff); *In re Lorazepam & Clorazepate Antitrust Litig.*, 205 F.R.D. 369, 400 (D.D.C. 2002) ("Incentive awards are not uncommon in class action litigation and particularly where . . . a common fund has been created for the benefit of the entire class. . .In fact, [c]ourts routinely approve incentive awards to compensate named plaintiffs for the services they provided and the risks they incurred during the course of the class action litigation") (internal quotations and citation omitted); *Godshall v. Franklin Mint Co.*, No. 01-CV-6539, 2004 WL 2745890, at *6 (E.D. Pa. Dec. 1, 2004) ($20,000 to each named plaintiff); *In re Linerboard Antitrust Litig.*, CIV.A. 98-5055, 2004 WL 1221350, at *18-19 (E.D. Pa. June 2, 2004) ($25,000 for each of the five class representatives); *Tenuto v. Transworld Sys.*, No. CIV. A. 99–4228, 2002 WL 188569, at *4-5 (E.D. Pa. Jan.31, 2002) (award of $2,000); *Dornberger v. Metropolitan Life*

Here, there are four categories of plaintiffs (all class representatives and/or bellwether plaintiffs) for whom awards are warranted for their time, effort and service: (1) those who participated in written discovery beyond plaintiff fact sheets; (2) those who participated in more extensive written discovery and also were deposed; (3) those who participated in this more extensive written discovery, were deposed, and also testified at trial; and, (4) subclass representatives who assisted in negotiating subclass caps. In recognition of these levels of service, Settlement Class Counsel request $5,000 for each plaintiff or plaintiff group in the first category; $15,000 for each plaintiff or plaintiff group in the second category; and $100,000 for the trial plaintiffs in the third category.[60] *See In re Dun & Bradstreet Credit Services Customer Litig.*, 130 F.R.D. 366, 374 (S.D. Ohio 1990) ("a differentiation among class representatives based upon the role each played may be proper in given circumstances."). Subclass counsel additionally requests $2,500 to each subclass representative. Appendix A contains a chart, by category and citation to supporting evidence, for each such plaintiff.

All these plaintiffs were named in complaints filed against Syngenta. Some were among the earliest filed.[61] Some became class representatives named in the master complaint and some

Ins. Co., 203 F.R.D. 118, 124-125 (S.D.N.Y. 2001) (award of $10,000 for lead plaintiff and $1,500 for eight sub-class representatives); *Cullen v. Whitman Med. Corp.*, 197 F.R.D. 136, 145 (E.D. Pa. 2000) ("courts routinely approve incentive awards to compensate named plaintiffs for the services they provided and the risks they incurred during the course of the class action litigation."); *In re Lease Oil Antitrust Litig.*, 186 F.R.D. 403, 449 (S.D. Tex. 1999) (granting awards of between $1,000 and $10,000); *In re Residential Doors Antitrust Litig.*, No. 94–3744, 1998 WL 151804, at *11 (E.D. Pa. Apr. 2, 1998) ($10,000 to each of the four class representatives); *In re Plastic Tableware Antitrust Litig.*, No. 94-CV-3564, 1995 WL 723175, at *2 (E.D. Pa. Dec.4, 1995) (award of $3,000); *In re Domestic Air Transp. Antitrust Litig.*, 148 F.R.D. 297, 357 (N.D.Ga. 1993) (award of $2,000 to plaintiffs who produced documents and $5,000 to plaintiffs that were also deposed).

[60] Plaintiffs who farm under common ownership/management and/or whose participation was handled primarily by one representative are treated as a single plaintiff group for purposes of the service award request.

[61] *See Hadden Farms Inc. v. Syngenta Corporation et al.*, No. 3:14-cv-03302 (C.D. Ill.) (filed 10/03/14); *Cronin, Inc., et al. v. Syngenta Corporation et al.*, No. 5:14-cv-04084 (N.D. Iowa) (filed 10/03/14); *Claas, et al. v. Syngenta Corporation et al.*, No. 2:14-cv-04267 (W.D. Mo) (filed 10/03/14);

agreed to be bellwether plaintiffs representing the class of plaintiffs from their home state at trial. All have made themselves available regularly for any necessary communications with counsel, participated substantially in the litigation and contributed to its success.

A. Category 1 Plaintiffs Should Each Be Awarded $5,000.

The first category of plaintiffs went beyond the effort of responding to a plaintiff fact sheet; each was required to work with an attorney to respond to, locate, and produce documents responsive to at least Syngenta's First Request for Production. These plaintiffs were putative class representatives outside of the eight bellwether states subject to Scheduling Order No. 2, and who moved for class certification on September 15, 2017. *See* ECF Nos. 1098, 3432. Syngenta served requests on these plaintiffs on August 17, 2015, ECF No. 955 (Notice of Service), which contained 27 categories of requested documents. *See* Ex. 1 (Stueve Decl. ¶ 281). The requests came during harvest season, when many farmers were already working 15-20 hour days in the field, and sought extensive documents respecting numerous details of each plaintiff's farming operation over a significant time period. *Id.* at ¶¶ 281, 283, citing Req. Nos. 1-8, 10-14. Included were requests for sensitive financial information. *Id.* at ¶ 282, citing Req. No. 24. As to these, as well as other document requests, farmers not only had to search their own records, but often were required to obtain documents held by third parties (for example, sales contracts and settlement sheets reflecting sales of corn and other crops, seed purchase documents, crop

---

Volnek Farms, Inc. v. Syngenta Corporation, et al., No. 8:14-cv-00305 (D. Neb.) (filed 10/03/14); *Graham v. Syngenta AG et al.*, No. 4:14-cv-00428 (S.D. Iowa) (filed 10/27/14); *Hamilton v. Syngenta Corporation et al.*, No. 8:14-cv-00345 (D. Neb.) (filed 11/03/14); *Five Star Farms, et al. v. Syngenta AG et al.*, No. 2:14-cv-02571 (D. Kan) (filed 11/11/14); *Wilson Farm Inc., et al. v. Syngenta AG et al.*, No. 4:14-cv-01908 (E.D. Mo.) (filed 11/11/14); *Gilbert Jones & Sons Farm LLC v. Syngenta Corporation et al.*, No. 14-cv-14384 (E.D. Mich.) (filed 11/14/14).

insurance records, FSA records, and accounting records). Ex. 2 (Powell Decl. ¶¶ 123, 131). The requested award is at or below what courts typically approve.[62]

B. Category 2 Plaintiffs Should Each Be Awarded $15,000.

The second category is comprised of the class representative and bellwether plaintiffs subject to Scheduling Order No. 2. They completed fact discovery by: providing extensive written responses to three sets of interrogatories, answering 98 requests for admission, producing documents to two sets of requests for production, and being deposed. *See* Ex. 2 (Powell Decl. ¶¶ 136-45) (detailing these discovery efforts).

In Syngenta's Second Request for Production directed to these plaintiffs, Syngenta sought 70 categories of documents, many again seeking extensive information over multi-year time periods. *See, e.g.* Ex. 1 (Stueve Decl. ¶ 284), citing Req. No. 8, 9, 10, 11, 29. Again, these requests sought detailed information pertaining to plaintiff's farming operations, as well as information pertaining to categories of argument Syngenta had and/or planned to make. *See, e.g.*, *id.* at ¶ 286, citing Req. Nos. 62, 63, 64. Again, the Requests sought sensitive financial

[62] *See, e.g., In re Online DVD-Rental Antitrust Litig.*, 779 F.3d 934, 943 (9th Cir. 2015) ($5,000 award to each class representative "was relatively small, well within the usual norms of "modest compensation" paid to class representatives for services performed in the class action"); *Thompson v. Qwest Corp.*, No. 17-CV-1745-WJM-KMT, 2018 WL 2183988, at *3 (D. Colo. May 11, 2018) (awarding $5,000 and noting it to be "on the lower end of awards deemed reasonable."); *In re Linkedin User Privacy Litig.*, 309 F.R.D. 573, 592 (N.D. Cal. 2015) (awarding $5,000 as "presumptively reasonable" in district although no written discovery was served on class representative, she did not need to respond to any discovery, she was not deposed, and she did not attend any court hearing or settlement conference); *McDaniels v. Westlake Services, LLC*, No. CIV.A. ELH-11-1837, 2014 WL 556288, at *12 (D. Md. Feb. 7, 2014) ($5,000 incentive award approved as "both reasonable and within the range approved by this and other courts"); *Larey v. Allstate Prop. & Cas. Ins. Co.*, No. 4:14-CV-4008, 2018 WL 811103, at *5 (W.D. Ark. Feb. 9, 2018) ($5,000 service award to each class representative); *deMunecas v. Bold Food, LLC*, No. 09 CIV. 00440 DAB, 2010 WL 3322580, at *10 (S.D.N.Y. Aug. 23, 2010) (same); *Gray v. Talking Phone Book*, No. 8:08-CV-01833-GRA, 2012 WL 12978113, at *11 (D.S.C. Aug. 13, 2012) (same); *Risch v. Natoli Eng'g Co., LLC*, No. 4:11CV1621 AGF, 2012 WL 4357953, at *3 (E.D. Mo. Sept. 24, 2012) (same); *In re Checking Acct. Overdraft Litig.*, No. 1:09-MD-02036-JLK, 2014 WL 12557836, at *10 (S.D. Fla. Apr. 1, 2014) (same); *Accounting Outsourcing, L.L.C. v. Verizon Wireless Pers. Comms., L.P.*, No. CIV.A. 03-CV-161, 2007 WL 7087615, at *3 (M.D. La. Aug. 2, 2007) (same).

information. *See* Ex. 1 (Stueve Decl. ¶ 285), citing Req. Nos. 9-10. Again, these plaintiffs expended significant effort collecting documents, many times requiring communications and/or travel to third parties. *See* Ex. 2 (Powell Decl. ¶¶ 121, 123-24, 131); Ex. 1 (Stueve Decl. ¶¶ 300-01, 312-13, 325-26, 337-38, 349-50, 358-59, 367-68, 377-78, 386-87, 395-96). Documents from these plaintiffs were used in combatting Syngenta's arguments against class certification. *See* ECF No. 2436 at 2, 30-41 & Appx. C, D, E.[63]

They also responded to three sets of interrogatories. Ex. 1 (Stueve Decl. ¶¶ 280, 287, 289). The first set from Syngenta Corporation sought 15 categories of information, primarily directed to the factual basis for various allegations in the complaint and arguments Syngenta had and/or planned to make. *Id.* at ¶ 287. The set from Syngenta Crop Protection contained 20 categories, all seeking detailed information (including financial and insurance information) about the plaintiff's farming operations.[64] And the set from Syngenta AG sought 21 categories of

[63] In opposing Syngenta's arguments about ascertainability/feasibility of identifying class members, Producer Plaintiffs were able to point to not only documents produced by particular plaintiffs, but the quantity of discovery from plaintiffs overall. *See id.* at 39-40 ("Syngenta goes into great detail about what certain records do or do not show or what records have or have not been produced, but its silence about what *has* been produced is deafening. . .Syngenta has had the benefit of an extraordinary amount of discovery from putative class members. In all that evidence, Syngenta did not point to even one MDL producer without proof to establish class membership.").

[64] This requested information included: (1) storage capacity and volume of corn stored from 2013 to present; (2) corn sales made from storage (by volume, storage location, corn variety, and price received) from 2013 to present; (3) any revenue protection crop insurance; (4) other risk-based insurance from 2010 to present as to corn crops or farming operations generally (including level of such insurance, claims filed and paid and dates thereof); (5) any government subsidy programs or revenue protection enrollment; (6) all government payments received from 2010-2014; (7) all Commodity Credit Corporation marketing assistance loans and Loan Deficiency Payments received since 2010; (8) acres set aside from 2010 to present and any payments received for those acres; (9) listing of all corn and/or grain sorghum acreage by farm/tract/field number in which the plaintiff either has a landlord interest or was a tenant from 2013 to present (including the names of the tenants or the entities under which they farm, the names of the landlords from which you rent land, and the details of the specific compensation agreement with any tenants and/or landlords); (10) description of ownership structure of plaintiff's business entity; (11) description of ownership interests in any other operation; (12) any financial interest in businesses that manufacture/sell ethanol, sweeteners or other corn by-products; (13) description of any interest in marketing, ethanol, or other cooperative related to plaintiff's corn farming operations (including all income and patronage dividends received from such membership, and all sales of corn made through the

information.[65] Answers to interrogatories were served by April 2016; Syngenta three times demanded additional information, which was provided in supplemental responses over the next several months. In responding to these interrogatories, plaintiffs collectively provided 1,857 pages of objections and responsive information. Ex. 2 (Powell Decl. ¶ 157).

In its First Requests for Admission, Syngenta propounded 98 such requests. Ex. 1 (Stueve Decl. ¶ 290). The Interrogatories from Syngenta Corporation requested that for any request not unqualifiedly admitted, the plaintiff state the factual basis for denial or qualified admission. *See id.* at ¶ 290. As with the document requests and interrogatories, response to these requests for admission entailed considerable effort. Ex. 2 (Powell Decl. ¶¶ 137-38, 157). In addition, these plaintiffs also provided deposition testimony. On average, they spent many hours in responding to discovery, preparing for and providing that testimony. Ex. 1 (Stueve Decl. ¶¶ 315, 328, 340, 352, 361, 370, 380, 389, 399); Ex. 2 (Powell Decl. ¶¶ 148-56); Ex. 3 (Downing Decl. ¶¶ 88-90); Ex. 4 (Chaney Decl. ¶¶ 213-20). Many of the depositions were used in briefing issues relating to class certification and summary judgment.[66]

---

cooperative, from 2010 to present); (14) all loans secured by corn crops from 2010 to present (including terms, lender, and date on which loan was paid off); (15) all GM crops grown by the plaintiff from 2010 to present (by year and variety); (16) any derivatives or other financial instruments, such as options or futures, purchased or sold to hedge the price risk associated with corn (describing if the plaintiff was long or short corn in that time period and if so by how much); (17) specific nature of any livestock operations (including type and cost of feed) from 2013 to present. Ex. 1 (Stueve Decl. ¶ 288 n.7).

[65] These interrogatories sought information pertaining to, for example: (1) information pertaining to damages; (2) accounting/bookkeeping process on all farming operations (including any software utilized and reports generated); (3) cultivation costs and yield per acre from 2011 to present; (4) information pertaining to any planting/sale of Viptera or Duracade; information on the process for pricing plaintiff's corn; (5) annual price per bushel from 2010 to present; (6) each contract for the sale of corn (including contract type, specific pricing, corn variety, buyer, and delivery terms); (7) corn sales to food processing facilities, exporters and/or ethanol plants; (8) segregation and/or channeling efforts; and (9) pricing information. Ex. 1 (Stueve Decl. ¶ 289).

[66] *See* ECF No. 2436 at 77-78 n.67-68, 80; ECF No. 2859 at 51-52. Had the litigation continued, it is certain that Syngenta and Producer Plaintiffs would have made similar use of such evidence in summary judgment or other motions pertaining to other state classes. Moreover, testimony and documents from these Plaintiffs were relied upon to refute several of Syngenta's defenses to class

All these plaintiffs agreed to serve in the important role as bellwether plaintiff for individual trials or as class representatives in the class trials. That willingness to serve, the contribution made to the pool of information used generally for the benefit of all plaintiffs, as well as the significant commitment of time and effort invested in service to their respective classes, warrants an elevated service award. *See, e.g., In re Linerboard Antitrust Litig.*, 2004 WL 1221350, at *18-19 (awarding $25,000 for each of five class representatives: "Like the attorneys in this case, the class representatives have conferred benefits on all other class members and they deserve to be compensated accordingly. The five class representatives performed considerable work advancing the litigation . . . provided verified answers to interrogatories and produced documents . . . Each of them also expended time in preparing for depositions and gave testimony at depositions."); *In re Polyurethane Foam Antitrust Litig.*, 168 F. Supp. 3d 985, 999-1000 (N.D. Ohio 2016) (awarding $10,000 to each of thirteen class representatives as "well within an appropriate range"); *Manuel v. Wells Fargo Bank, Nat'l Ass'n*, No. 3:14CV238(DJN), 2016 WL 1070819, at *6 (E.D. Va. Mar. 15, 2016) (awarding $10,000 to class representative who "took an active role by participating in discovery and testifying in a deposition.").[67]

---

certification: including commonality of pricing (ECF No. 2164 at Appendix B); ascertainability (ECF No. 2436 at 35 & Appendix D & E).

[67] *See also Bennett v. Sprint Nextel Corp.*, Case No. 2:09-cv-02122-EFM-GEB (D. Kan. Aug. 12, 2015), ECF No. 301, at 3 (awarding $13,927.69, $14,647.50 and $14,345.25, respectively, to three class representatives); *In re: Checking Account Overdraft Litig.*, No. 1:09-MD-02036-JLK, 2013 WL 11319392, at *12 (S.D. Fla. Aug. 5, 2013) (awarding $10,000 to each of five class representatives); *Tuten*, 41 F. Supp. 3d at 1010 (awarding $15,000 to class representative); *Meijer, Inc. v. 3M*, CIV.A. 04-5871, 2006 WL 2382718, at *25 (E.D. Pa. Aug. 14, 2006) (awarding $25,000 to class representative, noting that award is "similar to the awards approved in comparable complex class actions") (collecting cases); *Shaw v. Toshiba Am. Info. Sys., Inc.*, 91 F. Supp. 2d 942, 973 (E.D. Tex. 2000) (awarding $25,000 to each of two named plaintiffs); *Spicer v. Chi. Bd. Options Exchange, Inc.*, 844 F. Supp. 1226, 1267-68 (N.D. Ill. 1993) (collecting cases approving awards ranging from $5,000 to $100,000; awarding $10,000 to each named plaintiff).

C. The Kansas Trial Representatives Should Each be Awarded $100,000.

The third category of plaintiffs not only completed the same discovery as the Category 2 Plaintiffs but also traveled to, attended, and testified at trial. *See* Ex. 1 (Stueve Decl. ¶ 305). Their contribution was, therefore, extraordinary.

These four plaintiffs collectively produced 31,186 pages of documents; 111 pages of interrogatory objections and information; and 99 pages of responses to requests for admission. Ex. 2 (Powell Decl. ¶ 157). The contribution of these plaintiffs cannot be overstated. Each became a public face for all plaintiffs injured by Syngenta's conduct. In addition to the discovery obligations of Category 2 plaintiffs, they spent several hours each preparing for their testimony at trial. Ex. 1 (Stueve Decl. ¶¶ 309-45; Ex. 43 (Bender Decl. ¶ 20); *see also* Ex. 2 (Powell Decl. ¶ 199); Ex. 4 (Chaney Decl. ¶ 293). They travelled and stayed more than 300 miles, and in one instance over 800 miles, from their farms to Kansas City, Kansas to represent the Kansas class and give the jury a face to the Plaintiffs' claims. Ex. 1 (Stueve Decl. ¶¶ 305-07); Ex. 43 (Bender Decl. ¶ 20(c)). This work took these farmers away from their family and farms for as much as 120 hours – all in service of the Class Members' claims – and this is in addition to their other discovery-related obligations. *See* Ex. 43 (Bender Decl. ¶ 20(c)); Ex. 1 (Stueve Decl. ¶¶ 318, 330, 342). They provided invaluable testimony – testimony obviously persuasive to the Kansas jury – at trial; and, this testimony took each of them away from the day-to-day running of their farms for several weeks, Ex. 1 (Stueve Decl. ¶¶ 305-07), while they were still planting corn seed and harvesting the wheat crop – duties that had to be fulfilled by other laborers on their farms and without their direct supervision, *id.* at ¶¶ 316, 330. Mr. Kendrick attended every single day of the Kansas trial, *id.* at ¶¶ 316; Ex. 43 (Bender Decl. ¶ 20(c)), while the other three plaintiffs attended nearly all or significant portions of the trial, Ex. 1 (Stueve

Decl. ¶¶ 330, 342). Three of them continue to consult with counsel regarding the settlement, fulfilling their duties as settlement class representatives. *Id.* at ¶¶ 320, 332, 344.

Furthermore, as the Court found in granting class certification, "the amounts at stake per farm are small enough that separate suits may be impracticable for many class members." ECF No. 2547 at 28. In attending and testifying at trial, these Category 3 Plaintiffs selflessly fulfilled their role as class representatives. Each was invaluable in securing the $217 million jury award in the Kansas trial, which was the singular most important benefit toward settlement in the litigation. Collectively, their service awards of $400,000 represent only .026% of the remarkable benefit that their efforts have made available. It is small price for the remaining class members to pay (less than 3/100 of a cent on every dollar) for the service provided by these plaintiffs.[68] The amount requested compensates these individuals not only for their effort but their vast contribution to the outcome in this case, and again, is in line with other awards for similar or lesser service.[69] All these plaintiffs expended substantial time and effort in representing the

[68] The Tenth Circuit has stated that strictly basing incentive awards on a percentage of the recovery is disfavored "if not altogether forbidden." *Chieftan Royalty Co. v. Enervest Energy Instit. Fund XIII-A, L.P.*, 888 F.3d 455, 468-69 (10th Cir. 2017) (interpreting Oklahoma law, but relying on federal cases and quoting *Newberg* 17:16). Nonetheless, use of "a percentage calculation. . . to 'check a flat award for excessiveness" is not prohibited. *Id*. Here, the award requested for the trial plaintiffs is plainly not excessive, and justified by the "work they performed" and benefits conferred. *Id*. at 468

[69] *See, e.g., Erica P. John Fund, Inc. v. Halliburton Company, et al.*, No. 3:02-cv-1152-M, ECF No. 844 at 29 (N.D. Texas Apr. 25, 2018) (awarding $100,000 to class representative); *Castro v. Sanofi Pasteur Inc.*, CV117178JMVMAH, 2017 WL 4776626, at *10 (D.N.J. Oct. 23, 2017) (awarding $100,000 to each of three class representatives); *In re: Urethane Antitrust Litig*., 2016 WL 4060156, at *7 (granting requested incentive payments); *In re: Urethane Antitrust Litig*., ECF No. 3251 at 12 (D. Kan. June 1, 2016) (requesting awards of $150,000 each to two representatives and $200,000 for third representative); *In re High-Tech Employee Antitrust Litig.*, No. 11-CV-02509-LHK, 2015 WL 5158730, at *17-18 (N.D. Cal. Sept. 2, 2015) (awarding $100,000-$140,000 to each of five class representatives); *Marchbanks Truck Serv. v. Comdata Network, Inc.*, No. 07-CV-1078, ECF No. 713 at 2, 8 (E.D. Pa. July 14, 2014) (awarding $150,000 to one class representative and $75,000 to two other class representatives), attached as Ex. 71; *In re Neurontin Antitrust Litig.*, No. Civ. A. No. 02-1830, ECF No. 114 at ¶ 31 (D.N.J. Aug. 6, 2014) (awarding $100,000 to each class representative), attached as Ex. 72; *In re Titanium Dioxide Antitrust Litig*., No, 10-CV-00318 RDB, 2013 WL 6577029, at *1 (D. Md. Dec. 13, 2013) (awarding $125,000 to one class representative and $25,000 to each of two class representatives); *Been*, 2011 WL 4478766, at *12 (awarding $100,000 to each of 5 class representatives); *Velez v. Novartis*

Classes, took action that protected and advanced the interests of all class members, and deserve to be compensated for their involvement. The amounts requested are within ranges awarded in this Circuit and around the country for similar efforts.

D. Subclass Representatives Should Each Be Awarded $2,500.

Finally, the undersigned and Subclass Counsel request that the appointed class representatives of the of Subclasses 2-4 – the Viptera/Duracade purchaser, Grain Handling Facility, and Ethanol Production Facility subclasses each be awarded $2,500. As the authorities cited above demonstrate, $2,500 is a modest service award. Although these representatives were not deposed, they importantly assisted Subclass Counsel in evaluating the strengths and weaknesses, and concomitantly, the value of the Subclass members' claims. Their efforts are detailed more extensively in the declarations of Subclass Counsel. *See* Ex. 48 (Cecchi Decl. ¶ 19); Ex. 49 (Wexler Decl. ¶ 13); Ex. 50 (Johnson Decl. ¶ 14). These awards should be approved.

CONCLUSION

For the foregoing reasons, MDL Co-Lead Counsel and Settlement Class Counsel Christopher Seeger request that the Court grant this motion and (1) award one-third of the $1.51 billion settlement fund as attorneys' fees; (2) allocate 50% of that amount to MDL Co-Lead Counsel for distribution to the Kansas Common Benefit Group, 12.5% to the Minnesota Common Benefit Group, and 17.5% to the Illinois Group; (3) approve $388,005 in attorneys' fees to Subclass Counsel from the remaining 20% and set aside the remainder until all other fee applications have been considered; (4) approve $6,695,350.05 in reimbursement of costs and expenses to MDL Co-Lead Counsel for distribution to the Kansas Common Benefit Group; (5)

Pharm. Corp., No. 04 CIV 09194 CM, 2010 WL 4877852, at *4, *8, *28 (S.D.N.Y. Nov. 30, 2010) (awarding $125,000 to named plaintiffs); *Columbus Drywall & Insulation, Inc. v. Masco Corp.*, No. 1:04-CV-3066-JEC, 2008 WL 11319972, at *3 (N.D. Ga. Mar. 4, 2008) (awarding $100,000 to each class representative); *Ivax Corp. v. Aztec Peroxides, LLC*, No. 1:02CV00593, ECF No. 78 at 2 (D.D.C. Aug. 24, 2005) (awarding $100,000 to each of two class representatives), attached as Ex. 73.

authorize MDL Co-Lead Counsel to distribute the MDL Allocation to the Kansas Common Benefit Group and set a deadline for any objections to that allocation of 10 days after notice of the allocation is made with a 14-day response period thereto; and, (6) approve the service awards requested in Appendix A.

I, Patrick J. Stueve, declare as follows:

1. I am a founding partner of Stueve Siegel Hanson LLP ("Stueve Siegel Hanson") and appointed MDL Co-Lead Counsel, Liaison Counsel and Settlement Class Counsel for Plaintiffs in this MDL.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' petition for attorneys' fees, expenses and service awards and the allocation of the fee award.

3. I prepared my declaration with the assistance of other lawyers and staff at the firm with knowledge of the matters reflected herein. I have personally reviewed the information supporting the fee and expense requests that are the subject of this declaration, and, based on that review, I believe that the information contained herein is accurate.

I. BACKGROUND

A. STUEVE SIEGEL HANSON LLP

4. I founded Stueve Siegel Hanson in 2001. It is an AV rated law firm and one of the largest law firms in the Midwest specializing solely in complex commercial litigation.

5. Most of the firm's attorneys practiced at large law firms across the country prior to joining Stueve Siegel Hanson. We employ several former government lawyers and seven former, federal law clerks. The firm has a nationwide practice that focuses on complex commercial and class litigation and trials involving a wide range of business torts, antitrust, consumer fraud, environmental contamination, ERISA, and securities violations.

6. The firm has represented hundreds of thousands of individuals in class and collective actions, and has also represented large businesses, like Seaboard Corporation and Associated Wholesale Grocers, and institutional investors, including the Kansas Public

Employees Retirement System. The firm has tried numerous cases to verdict in state and federal courts and in arbitrations, and has tried complex business torts and class action cases to verdict in this District.

7. Since 2011, Stueve Siegel Hanson has successfully tried three class actions to jury verdict in the Kansas City area: the $217.7 million verdict in this litigation on behalf of a class of Kansas producers in June 2017; a $34 million verdict in the United States District Court for the Western District of Missouri on behalf of a class of Missouri insurance policy holders; and a $785,894 verdict in this District on behalf of a class of Tyson Foods employees in a wage-and-hour lawsuit.

8. Stueve Siegel Hanson's lawyers are deeply involved in the legal community, holding leadership roles in local bar organizations. Stueve Siegel Hanson attorneys currently serve on the Board of Directors for the Federal Court Advocates Section of the Kansas City Metropolitan Bar Association, the Lawyers Association of Kansas City and the local chapter of the Federal Bar Association. In 2016, Steve Six served as President of the Kansas Bar Association and, in June 2018, he ended his last term on the Board of Governors of the Kansas Bar Association. Two of our partners previously served on the Bench-Bar Committee for the District of Kansas. With regard to their law schools, our partners currently serve on the Board of Counselors for Drake Law School and the Board of Governors for the University of Kansas School of Law and one of our associates serves on the UMKC School of Law Young Alumni Board. One of our associates serves on the Lawyers Encouraging Academic Performance Board ("LEAP") Board. Our attorneys have previously served on the board of KCMBA's charitable arm, the Metropolitan Bar Foundation.

9. Stueve Siegel Hanson's lawyers are similarly dedicated to helping their

communities. Our attorneys currently serve on the boards of multiple non-legal organizations, including the Alfred and Jean Friendly Foundation Board for the Alfred Friendly Press Partners, Benedictine College's Board of Directors, the Bishop Miege High School Foundation Board and the Historical Society for the United States District Court for the Western District of Missouri. One of our attorneys has been a Big Sister for more than ten years with Big Brothers Big Sisters of Kansas City. Our attorneys have recently served on the Healthcare Foundation of Greater Kansas City and on the board for the Negro Leagues Baseball Museum and the YMCA of the Rockies.

10. A firm resume for Stueve Siegel Hanson was previously-submitted in this litigation (ECF No. 2164 at Ex. JJJ) and substantially more information regarding the firm is available at www.stuevesiegel.com.

B. PARTNERS

1. Patrick J. Stueve

11. I received a J.D. from the University of Kansas Law School in 1987, where I served as an Editor of the Kansas Law Review and the Criminal Justice Review and a member of Order of the Coif. I received a B.A. in Economics with honors from Benedictine College in 1984.

12. After law school, I served as law clerk to Honorable John W. Oliver of the United States District Court for the Western District of Missouri. After completing my clerkship, I began my private practice and, four years later, became partner at what was then the largest firm in Kansas City—Stinson Mag & Fizzell—now Stinson Leonard Street LLP.

13. I have been recognized by my peers as one of the top commercial trial lawyers in the country for my efforts over the past 30 years. I have been named to *The Best Lawyers® in America* for Bet the Company, Antitrust and Commercial Litigation, Top 100 Super Lawyers in

Kansas and Missouri, "Local Litigation Star" by *Benchmark Plaintiffs*, and "Best of the Bar" by the *Kansas City Business Journal*. *Ingram's* magazine included me in its list of "The Most Powerful Business Leaders in Greater Kansas City" in 2016.

14. Since founding Stueve Siegel Hanson in 2001, I have prosecuted claims in in this Court and around the country in the areas of antitrust, intellectual property, securities fraud and other commercial torts against some of the largest businesses in the world including Formula 1 Racing, ITW, Citigroup, United Health Care, and AIG. I have also successfully prosecuted several national and state wide class actions against global giants including Volkswagen, Merck & Co. and Mitsubishi. My nationwide practice includes representing privately-held companies like Associated Wholesale Grocers as well as publicly traded Fortune 500 companies like Seaboard Corporation and Kawasaki. My greatest satisfaction since founding the firm 18 years ago has been the trust I have earned from these clients by delivering hard fought results—including securing more than $2 billion in jury verdicts, arbitration awards and settlements—often in high stakes, bet-the-company cases

15. I have actively practiced before this Court and courts in Kansas City. For example, I represented Radon Sport, Inc. in an antitrust action against several racecars manufacturers and the industry's sanctioning body in this Court. The plaintiff alleged that the defendants engaged in a long-running conspiracy to prevent them from entering the market for Formula Continental racecars. A confidential settlement was with reached with all defendants in March 2014. *See Radon Sport, Inc. v. Sports Car Club of America et al*., Case No. 13-2178 (D. Kan.).

16. In *Chubb Engineering, LLC v. USA Tank Sales and Erection Company and Cameron Holdings Corp.*, Case No. 13-2252-JAR-GLR (D. Kan.), Chubb Engineering alleged

that the defendants misappropriated trade secrets related to its proprietary tank fabrication and tank manufacturing designs in violation of the Kansas Uniform Trade Secret Act. In 2014, I reached a confidential settlement with all defendants.

17. I also have extensive experience litigating antitrust matters locally and nationally In April 2018, I filed a lawsuit in the District of Kansas on behalf of Associated Wholesale Grocers, Inc. against the three largest producers of packaged tuna for conspiring to fix the prices of packaged tuna in violation of state and federal antitrust laws. The lawsuit has since been consolidated in the Southern District of California, but will return to this District for trial. *See In re Packaged Seafood Antitrust Litigation*, Case No. 3:15-md-02670-JLS-MDD, MDL No. 2670 (S.D. Cal.) and *Associated Wholesale Grocers, Inc. v. Bumble Bee Foods, et al.*, Case No. 2:18-cv-02212 (D. Kan.).

18. I also represented Associated Wholesale Grocers, Inc. against the country's largest potato growers and shippers alleging that these defendants fixed the price of fresh and processed potatoes. After three years of litigation, I successfully reached a settlement with defendants in 2016. *See Associated Wholesale Grocers, Inc. v. United Potato Growers of America, Inc., et al.*, Case No. 2:13-cv-02182 (JAR) (D. Kan.), later transferred to the MDL entitled *In re: Fresh and Process Potatoes Antitrust Litigation*, Case No. 4:10-MD-2186-BLW-CWD (D. Idaho).

19. I also represented Associated Wholesale Grocers, Inc., and several local grocery stores in an antitrust lawsuit alleging that twenty egg producers and trade groups engaged in a conspiracy designed to increase the price of eggs. After nearly four years of litigation, I successfully resolved this litigation in 2014. *See Associated Wholesale Grocers Inc., et al., v. United Egg Producers, et al.*, Case No. 10CV2171 (District Court of Wyandotte County,

Kansas).

20. In March 2008, I settled a landmark Sherman Act I antitrust lawsuit brought against 11 defendants, the largest managed care organizations and hospital systems in Kansas City. In *Heartland Surgical v. HCA Midwest Division, et al.*, No. 05-2164 (D. Kan.), my client Heartland Spine & Specialty Hospital, a physician-owned spine and specialty acute care hospital in Overland Park, Kansas, claimed that the dominant hospital systems had conspired among themselves and with the dominant Managed Care Organizations to prevent Heartland from obtaining in-network provider contracts. Heartland also alleged the defendants tortiously interfered with Heartland's ability to obtain provider contracts. The case and settlement was frequently covered by the National Law Journal. I was also featured on the cover of Modern Health Care twice while the case was pending.

21. I successfully represented Seaboard Corporation, one of Kansas's largest businesses, in antitrust litigation in the District Court of Johnson County, Kansas. Seaboard sought millions of dollars in premiums paid and several million dollars in consulting fees from its insurance broker Marsh and insurance giant AIG for illegally conspiring to rig Seaboard's bids. *See Seaboard Corp. v. Marsh Inc.et al.*, Case No. 09 CV 9499 (District Court of Johnson County, Kansas).

22. In addition to my practice, I have served on the Board of Directors of the YMCA of the Rockies in Estes Park, Colorado and Habitat for Humanity Kansas City, including three years as board President. In 2015, Legal Aid of Western Missouri honored me with the Honorable H. Michael Coburn Community Service Award for my pro bono efforts to develop and implement a pro bono legal service program for veterans called the Military Matters program. I am currently the Treasurer and a Foundation Board member of the Alfred Friendly

Press Fellowship Foundation, which grants fellowships each year to international journalists who come to the United States for five months of training and work at the leading news organizations in the country. I also serve on the Board of Directors of Benedictine College, the Bishop Miege High School Foundation, the Historical Society for the United States District Court for the Western District of Missouri, and the Board of Governors for the University of Kansas Law School.

2. Norm Siegel

23. Norm Siegel received a degree in political science from Tufts University and his J.D. from Washington University in St. Louis. At Washington University, he served as Articles Editor of the Washington University Journal of Urban Contemporary Law.

24. After law school, Mr. Siegel served as an Assistant Attorney General and as a partner at the law firm now known as Dentons.

25. Mr. Siegel founded Stueve Siegel Hanson in 2001. Over the last 20 years, he has gained a reputation as a stand-out trial lawyer both locally and nationally. He has successfully tried to verdict a wide range of cases including obtaining several, multi-million dollar jury verdicts. He has also been recognized for obtaining some of the largest settlements in the country, successfully securing hundreds of millions of dollars for his clients over the course of his career.

26. Most recently, in June 2018, Mr. Siegel was the lead attorney in a class action trial in the United States District Court for the Western District of Missouri, which resulted in a jury verdict of more than $34 million.

27. Mr. Siegel has been named to *The Best Lawyers® in America*, has been elected a Missouri Super Lawyer, and has been named "Best of the Bar" and "Kansas City Newsmaker" by the *Kansas City Business Journal*. He was also named to Lawdragon Magazine's 500

Leading Plaintiffs' Lawyers in America, and named a "Local Litigation Star" by *Benchmark Plaintiffs*. He is rated AV – the highest designation a lawyer can achieve from publisher Martindale-Hubbell.

28. Mr. Siegel has served on the boards of the Healthcare Foundation of Greater Kansas City, the Kansas City Bar Foundation, and the Negro Leagues Baseball Museum.

3. Steve Six

29. Steve Six received his J.D. from the University of Kansas School of Law, where he was a Rice Scholar and a member of Order of the Coif. After graduating, he served as a law clerk to the Honorable Deanell R. Tacha on the United States Court of Appeals for the Tenth Circuit. He received his B.A. in Economics from Carleton College.

30. Mr. Six joined Stueve Siegel Hanson following his term as the 43rd Attorney General of Kansas. As Attorney General, Mr. Six represented the State of Kansas in complex cases in various areas including healthcare, antitrust, environmental resources and consumer protection. He successfully prosecuted capital and first-degree murder cases and was the first Attorney General in more than 35 years to personally prosecute these cases before juries. Mr. Six also represented the State of Kansas in a multi-million dollar water dispute with the States of Nebraska and Colorado.

31. Prior to becoming Attorney General, Mr. Six served as district court judge in Douglas County, Kansas and was in private practice. He has also served as an adjunct professor of antitrust law at the University of Kansas School of Law.

32. Mr. Six is an experienced trial attorney and has successfully tried complex cases before juries in state and federal court. In addition to his trial practice, he has maintained an active appellate practice and has successfully argued cases before state appellate courts in Kansas and Missouri, the federal appellate courts and before the United States Supreme Court.

He has tried cases to verdict in a wide variety of areas, including product liability, professional liability, commercial cases and consumer fraud as well as prosecuting criminal cases. Mr. Six has litigated cases before the Judicial Panel on Multidistrict Litigation and has significant experience in multi-district litigation. In addition to his litigation work, Mr. Six serves as a mediator in a variety of matters including complex commercial, antitrust, and tort cases.

33. Mr. Six has actively practices in this District. For example, he represented a real estate developer in a tax increment-financing dispute with the City of Lawrence. *See City of Lawrence, Kansas v. Thomas Fritzel, Oread Inn L.C., et al.,* Case No. 16-2800 (D. Kan.). The matter was resolved at mediation. He represented Radon Sport, Inc. in an antitrust action against several racecar manufacturers and the industry's sanctioning body in this Court. The plaintiff alleged that the defendants engaged in a long-running conspiracy to prevent them from entering the market for Formula Continental race cars. A confidential settlement was with reached with all defendants in March 2014. *See Radon Sport, Inc. v. Sports Car Club of America et al*., Case No. 13-2178 (D. Kan.). He represented Schiller Ground Care, Inc. in a commercial dispute with a national advertising agency. *See BKV, Inc. v. Schiller Ground Care, Inc.*, 12-2495 (D. Kan.). The case was concluded through confidential settlement.

34. Mr. Six represented Associated Wholesale Grocers, Inc. in an antitrust lawsuit filed in the District of Kansas against some of the country's largest chocolate producers alleging that they conspired to artificially inflate the price of chocolate. The claims include violations of the Kansas Restraint of Trade Act, K.S.A. § 50-101, *et seq*. *See In re Chocolate Confectionary Antitrust Litigation*, MDL No. 1935; *Associated Wholesale Grocers, Inc. v. The Hershey Company, Mars, Inc., Nestle USA, Cadbury plc, et al*., 12-CV-2209 (D. Kan.)

35. Mr. Six represented Associated Wholesale Grocers, Inc. against the country's

largest potato growers and shippers alleging that these defendants fixed the price of fresh and processed potatoes. This litigation was successfully settled in 2016 after three years of litigation. *See Associated Wholesale Grocers, Inc. v. United Potato Growers of America, Inc., et al.*, Case No. 2:13-cv-02182 (JAR) (D. Kan.), later transferred to the MDL entitled *In re: Fresh and Process Potatoes Antitrust Litigation*, Case No. 4:10-MD-2186-BLW-CWD (D. Idaho).

36. Mr. Six has been active in professional and bar organizations, recently serving as President of the Kansas Bar Association in 2016. He recently completed four terms on the Board of Governors of the Kansas Bar Association and previously served on the Bench-Bar Committee for the United States District Court for the District of Kansas, the Merit Selection Panel for the Topeka Magistrate Judge vacancy in the District of Kansas, and various other bar committees.

37. Among his many honors, Mr. Six has been recognized as one of Kansas City Business Journal's "Best of the Bar" and has been recognized repeatedly as a Missouri-Kansas "Super Lawyer." Most recently, he was selected for inclusion in *The Best Lawyers® in America* in the field of Appellate Practice and Commercial Litigation.

4. Rachel Schwartz

38. Rachel Schwartz received her B.A. with honors in Political Science, Economics and American Studies from the University of Kansas, where she was a member of Phi Beta Kappa and Mortar Board. She received her J.D. from the University of Michigan Law School, where she was an Associate Editor of the University of Michigan Journal of Law Reform.

39. She began her practice working on the complex litigation team at a large law firm in Dallas, Texas, which is now part of Foley & Lardner LLP. During that time, she defended antitrust and securities class actions on behalf of large corporations. In 2004, she joined Stueve Siegel Hanson as an associate and became an equity partner in 2008.

40. She has significant experience representing plaintiffs in complex litigation and

actively practices before this Court. She previously represented the National Credit Union Administration, as receiver for multiple failed corporate credit unions, in lawsuits pending in this District against RBS, Wachovia, UBS, Credit Suisse, Morgan Stanley, Barclays and other national financial companies related to the sale of mortgage-backed securities. *See National Credit Union Admin. Bd. v. RBS Securities*, No. 11-cv-2340 (D. Kan.); *National Credit Union Admin. Bd. v. J.P. Morgan*, No. 11-cv-2341 (D. Kan.); *National Credit Union Admin. Bd. v. Wachovia Capital Mrkts., LLC*, No. 11-cv-2649 (D. Kan.); *National Credit Union Admin. Bd. v. UBS Securities, LLC*, No. 12-cv-2591(D. Kan.); *National Credit Union Admin. Bd. v. Barclays Capital, Inc.*, No. 12-cv-02631 (D. Kan.); *National Credit Union Admin. Bd. v. Credit Suisse Securities*, No. 12-cv-2648 (D. Kan.); *National Credit Union Admin. Bd. v. Bear Stearns & Co., Inc.*, No. 12-cv-02781 (D. Kan.); *National Credit Union Admin. Bd. v. J.P. Morgan Chase Bank, N.A.*, No. 13-cv-02012 (D. Kan.); and *National Credit Union Admin. Bd. v. Morgan Stanley & Co. Inc.*, 13-cv-2418-JWL-JPO (D. Kan.). The litigation in this District, along with related litigation pending in federal courts in New York and California, resulted in more than $5 billion in recoveries for the federal government. *See* https://www.ncua.gov/newsroom/Pages/news-2017-may-ncua-legal-recoveries-reach-5-billion.aspx.

41. Ms. Schwartz previously represented a local physician-owned hospital in this District in the antitrust litigation *Heartland v. HCA Midwest Division, et al*., pending before the Hon. Judge Monti L. Belot.

42. Her complex litigation experience in the Kansas City area extends to the antitrust litigation on behalf of Kansas City company Associated Wholesale Grocers, Inc. and several local area grocery stores against twenty egg producers and trade groups. After nearly four years of litigation in the District Court of Wyandotte County, this litigation successfully resolved.

43. Ms. Schwartz also previously successfully represented Seaboard Corporation in antitrust litigation in the District Court of Johnson County, Kansas. *See Seaboard Corp. v. Marsh Inc. et al.*, Case No. 09 CV 9499 (District Court of Johnson County, Kansas).

44. She previously served on the Bench-Bar Committee for this District. In August 2013, she was appointed by this District to the Merit Selection Panel for the Kansas City Magistrate Judge vacancy in the District of Kansas.

45. Ms. Schwartz is currently the President-Elect for the Federal Courts Advocates Section of the Kansas City Metropolitan Bar Association and previously served in a variety of leadership roles, including the Section's CLE Committee Co-Chair for the District of Kansas. She is additionally the Kansas City Regional Membership Vice President for the Kansas and Western District of Missouri Chapter of the Federal Bar Association.

46. In 2014, Ms. Schwartz taught the Civil Procedure Skills Lab class at the UMKC School of Law and has guest lectured multiple times for the Complex Litigation class at the UMKC School of Law on topics including class actions and MDLs. She has additionally spoken at CLEs on topics involving multiparty litigation and complex ESI issues.

47. Ms. Schwartz was invited to and attended the June 2018 Duke Law Judicial Studies Center's Conference on Guidelines and Best Practices Addressing Chronic Failure to Diversity Leadership Positions in the Practice of Law.

48. Ms. Schwartz's litigation experience has been recognized in multiple publications. She is rated AV, and has been recognized repeatedly as a Missouri-Kansas "Super Lawyer," as one of the "Local Litigation Stars" by *Benchmark Plaintiffs* and as one of *The Best Lawyers® in America* in the field of Litigation-Securities.

5. Bradley Wilders

49. Bradley Wilders received his J.D. *cum laude* from University of Missouri

Columbia School of Law in 2007 and was inducted into the Order of the Coif. During law school, he was the Lead Articles Editor for the Missouri Law Review. He received a B.S. in computer science from the University of Missouri in 2001.

50. Following law school, Mr. Wilders clerked for the Honorable John R. Gibson of the United States Court of Appeals for the Eighth Circuit. Mr. Wilders had the rare opportunity to work on cases in five of the eleven federal circuit courts of appeals, including the First, Second, Sixth, Eighth, and Ninth.

51. Prior to joining Stueve Siegel, Mr. Wilders practiced patent infringement litigation in Chicago, Illinois for an Am Law 100 international firm.

52. He joined Stueve Siegel Hanson in 2009 and was promoted to equity partner in 2015.

53. He has significant experience prosecuting complex litigation in the Kansas City area and across the country.

54. After his clerkship, he handled patent litigation for a major software company across the country. He was on a trial team in the Eastern District of Texas, where he handled drafting and responding to trial motions and was involved in witness preparation.

55. Upon returning to Kansas City, he joined Stueve Siegel Hanson to focus on complex civil litigation, including class action and appellate work.

56. For several years, Mr. Wilders represented thousands of pizza delivery drivers in the first wave of wage-and-hour lawsuits challenging the industry's methodology for reimbursing drivers for vehicle-related expenses. He identified and developed a vehicle-reimbursement expert to opine on a methodology consistent with governing legal principles. That expert and his methodology are now routinely used by other lawyers across the country in

similar litigation today. The cases he worked on resulted in settlements for the pizza delivery drivers, including the case that Mr. Wilders spearheaded, *Perrin v. Papa Johns, Inc.*, Case No. 09-01335-AGF (E.D. Mo.), where he obtained Rule 23 class certification for five state-law classes, opposed a petition for permission to appeal pursuant to Rule 23(f), and obtained a $12.4 million settlement with the defendant shortly before trial. Other large cases settled on confidential terms. *See Wass v. NPC Int'l, Inc.,* Case No. 09-CV-2254 JWL/KGS (settlement amount confidential); *Smith v. Pizza Hut, Inc.*, 09-CV-01632-CMA-BNB (settlement amount confidential). As a result of the lawsuits, some of these defendants have since changed their reimbursement methodology.

57. Mr. Wilders also represented a certified class of Lincoln National Life Insurance Company policyholders in a contract dispute, and was responsible for drafting an appellate brief that resulted in the reversal of the trial court's denial of class certification and a favorable contractual interpretation. The opinion led to a settlement valued at $2.25 billion in policy relief.

58. In Missouri litigation regarding the prescription drug Vioxx™, Mr. Wilders was jointly responsible for an appeal to the United States Court of Appeals for the Fifth Circuit, challenging a federal injunction preventing Stueve Siegel's certified Missouri state class from pursuing damages for drug costs reimbursed by third-parties payers. The issue on appeal involved novel aspects of the Anti-Injunction Act. Days before oral argument, the defendant agreed to a settlement in which Missouri purchasers could obtain full reimbursement for every Vioxx purchase in the state of Missouri, including reimbursement for amounts paid by third-party payers.

59. In the Missouri Supreme Court, Mr. Wilders handled all aspects of appellate briefing which resulted in a full reversal of an unfavorable intermediate appellate court ruling on

an issue of first impression in Missouri. The Missouri Supreme Court opinion has since been cited 188 times. *See Berry v. Volkswagen Grp. of Am., Inc.*, 397 S.W.3d 425, 428 (Mo. 2013).

60. Mr. Wilders successfully obtained class certification of farmers and others in ancillary litigation related to the Bayer GM rice lawsuit. He represented these classes in multiple federal and state lawsuits to recover common benefit payments. Mr. Wilders was responsible for the legal strategy and briefing that led to a $9.2 million judgment that has since been distributed to the class. In the course of the litigation, he handled two full appeals to the United States Court of Appeals for the Eighth Circuit, both of which resulted in complete victories for his clients. *See Downing v. Riceland Foods, Inc.*, 810 F.3d 580, 583 (8th Cir. 2016); *In re Genetically Modified Rice Litig.*, 835 F.3d 822, 826 (8th Cir. 2016). Because of his work on these cases, he came to this litigation with specific insight into the claims and theories of this case.

61. He also represented Kansas City company Associated Wholesale Grocers, Inc. and several local grocery stores against twenty egg producers and trade groups. He was responsible for jurisdictional strategy and several third-party and defendant depositions conducted in the case. He was responsible for or assisted on numerous motions and/or opposition briefs resulting in favorable rulings, and he handled complex ESI and defense discovery issues during the course of the case. After nearly four years of litigation, all of the Defendants settled the litigation with AWG. *See Associated Wholesale Grocers Inc., et al. v. United Egg Producers et al.*, Case No. 10CV2171.

62. Mr. Wilders also successfully represented Seaboard Corporation in antitrust litigation in the District Court of Johnson County, Kansas. He was jointly responsible for briefing an issue of first impression to the Kansas Supreme Court that resulted in a favorable, published opinion upholding the right of a class-action, opt-out plaintiff to file individual suit in

Kansas state court following denial of class certification in federal court. The opinion has been cited 73 times. *Seaboard Corp. v. Marsh Inc.*, 295 Kan. 384, 385, 284 P.3d 314, 316 (2012).

63. In addition to drafting briefs himself, Mr. Wilders is often asked to provide advice on key trial and appellate court briefs by other lawyers in the firm. He has been involved in at least ten cases where class certification was granted in whole or in part. A substantial portion of Brad's practice has focused on appellate litigation. In addition to arguing in the Court of Appeals for the Eighth Circuit, he has handled briefing on several appeals. He also has substantial experience petitioning and opposing for review of class certification orders. Outside of this case, he has successfully petitioned for review of an order denying class certification in one instance and successfully opposed review of an order granting class certification in numerous cases.

64. In 2016, he was asked by a United States District Judge to serve as a special master, overseeing discovery disputes and settlement matters in a complex, class-action case in the United States District Court for the Western District of Missouri.

65. For several years, Mr. Wilders has been a board member of the Kansas City Metropolitan Bar Association, Federal Advocates Committee, in which he coordinates local CLE opportunities between the bench and bar. He has also presented at the UMKC complex litigation class.

66. Mr. Wilders has been recognized as a Kansas-Missouri "Super Lawyer" for the past five years.

C. ASSOCIATES, OF COUNSEL AND LAW CLERKS

6. Stephanie Walters

67. Stephanie Walters earned her J.D. from the University of Missouri-Kansas City School of Law in 2007. During law school, she served as a Staff Editor of the UMKC

Matrimonial Lawyer Law Journal, Executive Vice President of the Intellectual Property Law Society, and was a member of the UMKC School of Law Faculty Appointment Committee. She received her B.S. in education from Missouri Western State University in 1999 and an MBA from Webster University in 2012.

68. Ms. Walters has been practicing in the area of electronic discovery for nine years. As Stueve Siegel Hanson's e-Discovery Counsel, she oversees and coordinates the firm's document collection, review, and production in all of its large-scale, complex matters. She regularly counsels attorneys on electronic discovery issues including preservation, collection, search term negotiation, document review, ESI production, e-discovery software, and forms of production. She also routinely works with e-discovery vendors on a variety of document review platforms including Summation, iConect Xera, Relativity, Kaleidoscope, Cicayda, and CasePoint.

69. Ms. Walters has substantial experience managing and analyzing documents produced by defendants in antitrust cases, consumer class actions, mass torts cases and personal injury cases. She also has experience managing collection, review and production of documents for corporate and individual plaintiffs.

70. Ms. Walters attends the Sedona Conference annually and is a current member of the Sedona Conference Working Group on Electronic Document Retention and Production. She also regularly attends the New York LegalTech conference, the National eDiscovery Leadership Institute, and she participated in the Georgetown e-Discovery Training Academy.

71. Prior to joining Stueve Siegel Hanson in 2011, Ms. Walters worked to develop a vendor's document review department and led document review teams of 40+ attorneys in various cases from initial intake through review and document production.

7. Curtis Shank

72. Curtis Shank received his J.D. *magna cum laude*, Order of the Coif, from the University of Missouri School of Law in 2013. While in law school, he received eight CALI awards and served as a Note and Comment Editor of the Missouri Law Review. He received his B.A. *summa cum laude* in Economics from the University of Missouri-Kansas City in 2010.

73. After law school, Mr. Shank served as a law clerk to the Hon. Daniel D. Crabtree on the United States District Court for the District of Kansas. He began his practice working on the commercial litigation team at Bryan Cave LLP in Kansas City, Missouri.

74. Mr. Shank joined Stueve Siegel as an associate in 2016. His practice focuses on mass tort, class action, and antitrust cases. He has first-chair trial experience and has handled a number of complex commercial cases in both state and federal courts.

75. In April 2018, Mr. Shank and a team of Stueve Siegel attorneys filed a lawsuit in the District of Kansas on behalf of Associated Wholesale Grocers, Inc. against the three largest producers of packaged tuna for conspiring to fix the prices of packaged tuna in violation of state and federal antitrust laws. The lawsuit has since consolidated in the Southern District of California, but will return to this District for trial. *See In re Packaged Seafood Antitrust Litigation*, Case No. 3:15-md-02670-JLS-MDD, MDL No. 2670 (S.D. Cal.) and *Associated Wholesale Grocers, Inc. v. Bumble Bee Foods, et al.*, Case No. 2:18-cv-02212 (D. Kan.).

76. Apart from antitrust cases, Mr. Shank also has been heavily involved in other types of litigation, including consolidated litigation in Los Angeles, California, on behalf of individuals who took the drug Risperdal and experienced gynecomastia, the development of abnormal breast tissue; subrogation litigation arising out of a multi-million dollar catastrophic explosion at a food manufacturing facility in Grandview, Missouri; and wrongful death litigation in St. Louis, Missouri, where a food delivery truck struck and killed a 30-year old married father

of four.

8. Sean Cooper

77. Sean Cooper received his J.D. from the University of Kansas School of Law in 2013, where he graduated in the top ten percent of his class. While in law school, he served as Associate Editor of the Kansas Law Review and received a CALI award. Mr. Cooper received his B.A. in English *summa cum laude* in 2006, and his M.A. in English in 2008, both from Truman State University.

78. Mr. Cooper joined Stueve Siegel after law school, where he focused his practice on product liability, business torts, consumer fraud, and antitrust cases.

79. Notably, he assisted in representing Associated Wholesale Grocers, Inc. and several local grocery stores against twenty egg producers and trade groups in antitrust litigation in the District Court of Wyandotte County. *See Associated Wholesale Grocers Inc. et al. v. United Egg Producers, et al.*, Case No. 10CV2171 (District Court of Wyandotte County, Kansas).

9. James Vaglio

80. James Vaglio received his J.D. from the University of Iowa College of Law in 2011, where he received two Dean's Award for Academic Excellence. While in law school, Mr. Vaglio served as a legal intern in the University of Iowa Clinical Law Program and assisted California's Habeas Corpus Resource Center in post-conviction capital defense litigation. He received a B.A. in Political Science with highest distinction in 2006 and a MBA with distinction in 2008, both from the University of Kansas. During undergraduate, he was a member of the University's Honors Program and the Phi Beta Kappa academic honor society.

81. Since joining Stueve Siegel Hanson in 2012, Mr. Vaglio has represented businesses and individual clients in a broad range of litigation matters, including business

disputes, antitrust litigation, class actions, and mass torts. Notably, he represented Associated Wholesale Grocers, Inc. against the country's largest potato growers and shippers alleging that these defendants fixed the price of fresh and processed potatoes. This litigation was successfully settled in 2016 after three years of litigation. *See Associated Wholesale Grocers, Inc. v. United Potato Growers of America, Inc., et al.,* Case No. 2:13-cv-02182 (JAR) (D. Kan.), and transferred to the MDL entitled *In re: Fresh and Process Potatoes Antitrust Litigation*, Case No. 4:10-MD-2186-BLW-CWD (D. Idaho).

82. Mr. Vaglio additionally worked on the antitrust litigation *Associated Wholesale Grocers Inc. et al. v. United Egg Producers et al*., Case No. 10CV2171 (District Court of Wyandotte County, Kansas).

10. David Hickey

83. David Hickey received his J.D. from the University of Kansas School of Law in 2009, where he served as a Staff Editor on the Kansas Journal of Law & Public Policy and a member of the Moot Court Council. He received his B.S. in Mechanical Engineering from the University of Kansas in 2006, where he was a member of Tau Beta Pi.

84. Mr. Hickey joined Stueve Siegel in 2010. He has significant complex litigation experience in state and federal courts around the nation. Specifically, he represented Associated Wholesale Grocers, Inc. against the country's largest potato growers and shippers alleging that these defendants fixed the price of fresh and processed potatoes. After three years of litigation, Stueve Siegel Hanson successfully reached a settlement with defendants in 2016. *See Associated Wholesale Grocers, Inc. v. United Potato Growers of America, Inc., et al.,* Case No. 2:13-cv-02182 (JAR) (D. Kan.), and transferred to the MDL entitled *In re: Fresh and Process Potatoes Antitrust Litigation*, Case No. 4:10-MD-2186-BLW-CWD (D. Idaho).

85. Mr. Hickey also represented Associated Wholesale Grocers, Inc., and several

local grocery stores in an antitrust lawsuit alleging that twenty egg producers and trade groups engaged in a conspiracy designed to increase the price of eggs. After nearly four years of litigation, Stueve Siegel Hanson successfully resolved this litigation in 2014. *See Associated Wholesale Grocers Inc., et al. v. United Egg Producers et al.*, Case No. 10CV2171 (District Court of Wyandotte County, Kansas).

86. Mr. Hickey represented a class of 24,000 Missouri policy owners in a lawsuit alleging breach of contract and conversion regarding overcharges in a life insurance contract. In June 2018, Mr. Hickey was part of the trial team in that class action before the Honorable Nanette K. Laughrey of the United States District Court for the Western District of Missouri, which resulted in a jury verdict of more than $34 million. *See Vogt v. State Farm Life Ins. Co.*, Case No. 2:16-cv-04170-NKL (W.D. Mo.).

87. Mr. Hickey also helped prosecute a Missouri statewide class action on behalf of all Missouri purchasers of Vioxx, a pain reliever that Merck pulled off the market after the FDA identified serious risks and misleading sales practices. In October 2012, a settlement was reached providing Missouri purchasers full reimbursement for their Vioxx purchases. Mr. Hickey and Stueve Siegel Hanson were recognized by Missouri Lawyers Weekly in 2013 as securing the largest recorded Plaintiff Win by virtue of this $220 million settlement on behalf of consumers.

11. Toji Calabro

88. Toji Calabro received his J.D. from Stanford Law School in 2005. He received a B.S. in Finance and Banking and a B.A. in Philosophy from the University of Missouri in 2001.

89. Toji began his legal career in the New York and San Francisco offices of the firm now known as Quinn Emanuel Urquhart & Sullivan LLP, where he gained significant experience in a broad range of complex commercial litigation matters including in the areas of commercial disputes and business torts, products liability, structured finance, insurance and reinsurance

disputes, civil RICO, and various other complex commercial and business litigation matters.

90. Since joining Stueve Siegel Hanson in 2015, Mr. Calabro has continued to develop his litigation practice focusing on complex commercial cases, including in the role of primary case manager for several actions such as: a civil RICO, fraud and breach of contract action arising out of a failed real estate development; breach of contract and conversion class actions arising out of the administration of certain universal life insurance policies, and various related wage and hour cases, including one in which Stueve Siegel Hanson won an offensive partial summary judgment ruling.

91. Mr. Calabro has also contributed to various product liability cases and mass tort actions, including actions arising out of a defectively designed auto part, a defective lawn mower part, the pharmaceutical Risperdal, and the testosterone replacement therapy AndroGel.

12. Austin Moore

92. Austin Moore is a 2011 graduate of Washington University School of Law in St. Louis, where he was an associate editor and published member of the Washington University Journal of Law & Public Policy and a recipient of the Mary Collier Hitchcock Price, awarded to one student annually for outstanding legal writing. He received his B.A. in Political Science *summa cum laude* from the University of Mississippi, where he was selected as a member of Phi Beta Kappa.

93. Before joining Stueve Siegel Hanson in 2013, Mr. Moore was in private practice in St. Louis, Missouri, where he handled a number of complex commercial cases and maintained an active state and federal appellate practice. He focuses his practice on complex business litigation. He is a regular participant in multi-district litigation and has been at the forefront of prosecuting consumer class action claims in the emerging area of data breach litigation. Mr. Moore has experience litigating complex claims under the RICO Act, Sherman Act, Lanham

Act, federal securities laws, and state antitrust and consumer protection statutes. He was selected by Super Lawyers as a Missouri & Kansas "Rising Star" in class action litigation in 2015, 2016, and 2017, and Missouri Lawyers Weekly recognized him in 2016 as an "Up and Coming Lawyer."

13. Jennie Carter

94. Jennie Carter received her J.D. from the University of Kansas School of Law in 2004, where she served as an Articles Editor on the Kansas Law Review. She received a B.S. in Accounting and Business Administration with distinction from the University of Kansas in 2001.

95. After law school, Ms. Carter served as a law clerk to the Honorable Carlos Murguia of the United States District Court for the District of Kansas. She began her practice working in the Real Estate Finance department at Polsinelli in Kansas City, Missouri.

96. Ms. Carter joined Stueve Siegel Hanson in 2010. She specializes in providing research, writing and discovery support to antitrust, class action, and wage and hour litigations.

14. Larkin Walsh

97. Larkin Walsh earned her J.D. from the University of Kansas School of Law, where she was a University Merit Scholar and served as an Articles Editor for the Kansas Journal of Law & Public Policy, and Co-Managing Editor of the law school's newspaper, The Brief-Brief. She received undergraduate degrees in English and Studio Art, *cum laude*, from Southern Methodist University.

98. Ms. Walsh has eight years of experience advising the judiciary, in state and federal court, at both the trial and appellate court levels. Before joining Stueve Siegel Hanson as Of Counsel in 2013, she served as law clerk to the Honorable Carlos Murguia of the U.S. District Court for the District of Kansas, and as a research attorney for Justice Carol Beier of the Kansas Supreme Court. She specializes in legal writing and researching, primarily handling appellate

briefing in complex litigation matters.

15. Lindsay Todd Perkins

99. Lindsay Todd Perkins earned her J.D. from the University of Missouri-Kansas City School of Law, graduating first in her class. She was the Editor-in-Chief of the UMKC Law Review, and was a member of the National Moot Court team. She received an MBA from the University of Central Missouri and a bachelor's degree in psychology from Avila University.

100. After law school, Ms. Todd Perkins served as a law clerk for the Honorable Duane Benton of the Eighth Circuit Court of Appeals and the Honorable Ortrie D. Smith, District Court judge for the Western District of Missouri. Following her clerkships, she practiced commercial and employment litigation at the law firm now known as Spencer Fane. She joined Stueve Siegel in 2013 and practices in consumer and commercial litigation, wage and hour, antitrust and personal injury litigation. She was named by Super Lawyers as a "Rising Star" in the area of business litigation from 2012-2017.

101. Ms. Todd Perkins is currently the President-Elect of the Lawyers Association of Kansas City.

102. Ms. Todd Perkins was additionally part of the trial team that tried a class action to verdict in June 2018 before the Honorable Nanette K. Laughrey of the United States District Court for the Western District of Missouri, which resulted in a jury verdict of more than $34 million.

16. Daniel Shaw

103. Daniel Shaw received his J.D. from the University of Kansas School of Law in 2013. Danny received a B.S. in Finance from the University of San Diego in 2009.

104. Prior to joining Stueve Siegel Hanson in 2015, Mr. Shaw worked as an associate for a Kansas City-based firm specializing in consumer protection law. He has worked on multi-

party litigation, focusing on wage and hour litigation.

17. Alex Ricke

105. Alex Ricke received his J.D. from the University of Missouri School of Law in 2012. During law school, Alex placed first in the 2011 MU Law Negotiation Competition and second in the 2011 MU Law Mediation Competition, was a 2010 Moot Court Finalist, and received several scholarships. He received his Bachelor of Journalism in 2009, also from the University of Missouri.

106. Prior to joining Stueve Siegel Hanson in 2016, Mr. Ricke spent over two years practicing law at a boutique complex litigation firm prosecuting business and class action cases around the country. Since joining the firm, he has successfully resolved "bet the company" business cases for his clients as well as nationwide and statewide class actions for hundreds of thousands of class members.

18. Jeff Scurlock

107. Jeff Scurlock received his J.D. from the University of Missouri-Kansas City School of Law, where he graduated first in his class, with distinction. He was a member of the Law Review and earned 16 CALI awards for academic excellence. He is also a member of Phi Beta Kappa.

108. Before joining Stueve Siegel Hanson in 2012, Mr. Scurlock practiced law at The Henning Law Firm and served as a law clerk for the Honorable Thomas H. Newton, Missouri Court of Appeals. Additionally, Mr. Scurlock practiced law for several years with Shook, Hardy & Bacon LLP in Kansas City, where he focused on complex products liability actions in state and federal courts across the United States. He represents businesses and individual clients in a range of litigation matters from antitrust disputes to consumer and employment class actions.

19. Ethan Lange

109. Ethan received his J.D., *magna cum laude*, from Baylor Law School, where he was the Editor-in-Chief of the Baylor Law Review. He was the Number One Speaker in the Dawson & Sodd Moot Court Tournament and was selected for membership in the Order of the Barristers. Mr. Lange served as a law clerk for the Honorable Ed Kinkeade of the United States District Court for the Northern District of Texas, Dallas Division.

110. Before joining Stueve Siegel Hanson in 2015, Mr. Lange practiced in the Dallas office of Locke Lord LLP. Ethan's practice is concentrated in antitrust, business litigation, personal injury, and class actions. He has successful first chair federal jury trial experience and was named by Super Lawyers as a "Rising Star" in 2014-2017.

111. In June 2018, Mr. Lange helped try a class action before the Honorable Nanette K. Laughrey of the United States District Court for the Western District of Missouri, which resulted in a jury verdict of more than $34 million.

20. Matt Cooper, Sam Storrs and John Tompkins

112. Matt Cooper graduated from the University of Kansas School of Law in 2015 with an International Trade and Finance Certificate. He received his B.S. in International Business Management from the University of Arkansas in 2010. Mr. Cooper joined Stueve Siegel after law school.

113. Sam Storrs graduated from the University of Kansas School of Law in 2015. He received his B.A. from the University of Wisconsin-Madison in 2011. Mr. Storrs joined Stueve Siegel after law school.

114. John Tompkins graduated from the University of Kansas School of Law in 2015. He received his B.S. in Business Administration and Finance from Kansas State University in 2010. Mr. Tompkins joined Stueve Siegel after law school.

115. Mr. Cooper, Mr. Storrs and Mr. Tompkins performed document review throughout the MDL litigation and helped with the gathering of responsive documents from class representative and bellwether producer plaintiffs.

21. Ariel Tazkargy

116. Ariel Tazkargy received her J.D. from the University of Minnesota Law School in 2014, where she served as an Executive Editor of the Journal of Law and Inequality. During law school, she won both "Best Oralist" and "Best Brief" in May 2012. Ms. Tazkargy received her B.A. in English with highest distinction from the University of Kansas, where she was a member of the KU Honors Program and the Phi Beta Kappa Honor Society.

22. Ben Stueve

117. Ben Stueve received a B.A. in English Language and Literature from Saint Louis University in 2007, and an M.A. in Secondary Education and Teaching from Avila University in 2012. He taught high school English from 2010 to 2015 before beginning law school at the University of Kansas School of Law. He assisted Stueve Siegel with legal research, analysis, and discovery during the summers before and after his first year of law school.

D. PARALEGALS AND ADDITIONAL STAFF

23. Michelle Campbell

118. Michelle Campbell received her Paralegal Certificate from Johnson County Community College in 1985. She has 32 years of experience as a litigation paralegal and has assisted in more than 10 trials.

24. Sherry Barry

119. Sherry Barry has an Associate Degree from Johnson County Community College in Paralegal Studies. She has 43 years of experience as a paralegal and has assisted in more than 25 trials and arbitrations.

25. Mary Rose Marquart

120. Mary Rose Marquart received a B.S. in Sociology with an emphasis in Criminal Justice from Benedictine College in 1983. Between 1983 and 1985, Ms. Marquart worked as an Investigator for the Jackson County, Missouri Prosecuting Attorney Office. She then received her Paralegal Certificate from Rockhurst University in 1986. Ms. Marquart began working as a Litigation Paralegal in 1985, and now has 34 years of experience. During that time, she has assisted with more than 10 trials.

26. Additional Paralegals

121. Katrina Cervantes is a paralegal with 17 years of experience.

122. Lori DeMoss is a paralegal with 19 years of experience.

123. Julie Olivas is a paralegal with 17 years of experience.

124. Cheri Perez is a paralegal with 34 years of experience.

125. Erika Reyes is a paralegal with 10 years of experience. She received a B.A. in Liberal Arts & Sciences from the University of Missouri-Kansas City in 2005.

126. Margaret Smith is a paralegal with six years of experience. She received a B.A. in Criminology and a B.A. in Women's Studies from Kansas State University in 2008.

127. Melissa Warner is a paralegal with 18 years of experience.

128. Sheri Williams is a paralegal with 18 years of experience.

27. Adrian Weiner

129. Adrian Weiner is Stueve Siegel's Information Technology Manager. He has 24 years of experience in information technology. Adrian received his B.S. in Telecommunications Management from DeVry University in 1998. Prior to receiving his degree, Mr. Weiner was an Electronic Technician, Instructor, and Company Commander in the Navy.

28. Peter Rupp

130. Peter Rupp was Stueve Siegel's Systems Director. He has 19 years of experience in systems and information technology.

29. Janet Switzer

131. Janet Switzer is Stueve Siegel's Finance/HR Director. She has 34 years of relevant experience in these roles.

30. Brendan Marquart

132. Brendan Marquart assisted with linking deposition exhibits with the original discovery database utilized by all co-lead counsel. At the time, he was a senior at the University of Missouri-Columbia.

II. CREATION OF THE MDL AND LEADERSHIP APPOINTMENT

133. On December 11, 2014, the United States Judicial Panel on Multidistrict Litigation ("JPML") entered a Transfer Order consolidating the initial 168 related cases filed against Syngenta before the Honorable John W. Lungstrum in the District of Kansas ("Court").

134. On December 22, 2014, the Court entered a Preliminary Practice and Procedure Order, setting an initial status conference for January 21, 2015 to discuss issues including the appointment of MDL leadership. ECF No. 2.

135. I worked closely with the three attorneys who had previously prosecuted the litigation captioned *In re Genetically Modified Rice Litigation*, previously consolidated in the United States District Court for the Eastern District of Missouri: Don Downing of Gray Ritter & Graham, P.C.; Scott A. Powell of Hare Wynn Newell & Newton L.L.P.; and William Chaney of Gray Reed & McGraw LLP.

136. Don and I were previously partners together at Stinson and I have worked with him on multiple occasions.

137. In creating our proposed leadership slate, we assembled a group of attorneys from across the country who could best represent the interests of the varying groups of plaintiffs in this litigation.

138. After receiving submissions and hearing argument at this status conference, the Court appointed four Co-Lead Counsel (collectively, "Co-Lead Counsel"): myself, and I was also appointed as Liaison Counsel; Don Downing, who was also appointed as interim class counsel; Scott Powell; and William Chaney. ECF No. 67.

139. In making its selection, the Court stated: "They all have done extensive work identifying and investigating potential claims; are experienced in handling complex litigation, including litigation involving genetically modified grain; are knowledgeable in the law; have demonstrated themselves as able and willing to work with diverse interests among plaintiffs as well as with the court and opposing counsel; and they bring the resources necessary to sustain this litigation without untoward involvement by non-party, non-lawyer funders. Moreover, they received excellent references from other judges before whom they have practiced, both for their skills and their collegiality. Much the same could be said about the other candidates, but the DCPS group stood out. The court was especially impressed by the extent to which their lawyers had thought through the matter of advancing the interests of diverse groups of plaintiffs and built a team which takes those interests into account." *Id.* at 2

140. The Court additionally appointed the following attorneys to the Plaintiffs' Executive Committee (the "EC"): Jayne Conroy of Simmons Hanly Conroy LLC; Christopher M. Ellis of Bolen Robinson & Ellis, LLP; David F. Graham of Sidley Austin LLP, who represented Archer Daniels Midland Co. ("ADM"); Richard M. Paul III of Paul LLP (f/k/a Paul McInnes LLP); Robert K. Shelquist of Lockridge Grindal Nauen PLLP; John Ursu of Greene

Espel PLLP, who represented Cargill, Inc. and Cargill International SA (collectively "Cargill"); Stephen A. Weiss of Seeger Weiss LLP; Scott E. Poynter, formerly of Emerson Poynter LLP and now with the Poynter Law Group; Thomas V. Bender, formerly of Walters Bender Strohbehn & Vaughan, P.C. and now with Horn Aylward & Bandy, LLC; and Thomas P. Cartmell of Wagstaff & Cartmell, LP. *See id.*[1]

141. In describing the EC, the Court stated: "This group brings a set of lawyers whose own skills, demographics and client bases complement and add value to the leadership structure." *Id.* at 4.

A. EXECUTION OF LIAISON RESPONSIBILITIES

142. In the Leadership Order, the Court set out the scope of the responsibilities for Liaison Counsel: "Plaintiffs' liaison counsel is designated as the counsel for all plaintiffs in all cases upon whom all notices, orders, pleadings, motions, discovery, and memoranda shall be served. Plaintiffs' liaison counsel is authorized to: (a) receive orders, notices, correspondence, and telephone calls from the court and the clerk of the court on plaintiffs' behalf, (b) prepare and transmit copies of such orders and notices on plaintiffs' behalf, and (c) receive orders and notices from the Judicial Panel on Multidistrict Litigation, and shall: (d) maintain complete files with copies of all documents served upon them and make such files available to all defendants' counsel and (e) maintain and make available to all counsel and the court an up-to-date service list." ECF No. 67 at 5-6.

143. As part of my responsibilities as Liaison Counsel and consistent with the Court's Order Concerning Appointment of Counsel, ECF No. 67, my firm was primarily responsible for

[1] On June 29, 2015, the Court granted Mr. Cartmell's motion to withdraw from the Plaintiffs' Executive Committee. ECF No. 891. After ADM resolved its litigation with Syngenta, Mr. Graham's motion to withdraw from Plaintiffs' Executive Committee was granted on February 27, 2018. ECF No. 3498.

correspondence with the Court and with the Clerk's office throughout the course of the MDL, including: coordinating with the Clerk's office to resolve unique docketing issues for this complex MDL; providing proposed orders to the Court via email; and responding to questions asked by the Court over email.

144. Throughout the entirety of the MDL, Stueve Siegel Hanson tracked all of the transfers from the JPML. Currently, there are 4,409 plaintiffs in the MDL. For each complaint transferred to the MDL, we would obtain the complaint from Bloomberg Law, PACER or Westlaw and we maintained a Summation database in which we tracked plaintiffs by type (i.e., producer, non-producer), by state, by claims asserted and by counsel.

145. Stueve Siegel Hanson maintained complete files of all documents filed and served in the litigation, from under seal filings to written discovery. Throughout the litigation, we worked with co-counsel and coordinated counsel on providing copies of those documents and responding to questions regarding the MDL.

146. We additionally finalized and filed nearly every motion, brief, exhibit and other document on behalf of Plaintiffs in the MDL. For joint filings, we worked directly with national and local counsel for Syngenta for these filings and the proposed orders that were often submitted in conjunction with these joint filings.

B. EXECUTION OF LEADERSHIP RESPONSIBILITIES

147. It was a central goal of the MDL leadership to prosecute the claims of those affected by Syngenta's commercialization of MIR162 and Event 5307 effectively and swiftly.

148. In anticipation of the initial Status Conference scheduled for February 3, 2015, counsel for Plaintiffs and Syngenta discussed a proposed agenda for the Status Conference and proposed Case Management Order No. 1, which created a process and procedure for cases directly filed in the District of Kansas. These were emailed to the Court on January 30, 2015.

149. Included in that same email were Plaintiffs' Proposed Initial Scheduling Order, which proposed dates for the governing orders for the MDL and discovery, and Plaintiffs' Status Report No. 1.

150. On February 3, 2015, the Court held an initial scheduling conference at which these documents were discussed.

151. On the next day, February 4, 2015, the Court entered Scheduling Order No. 1, which established deadlines related to: cases seeking remand to state court, the filing of consolidated amended complaints, and the filing of Rule 12(b)(6) motions to dismiss. ECF No. 123.

152. To advance the prosecution of the cases, at Plaintiffs' request and over Syngenta's objections, Scheduling Order No. 1 also ordered Syngenta to produce certain categories of documents without the need for formal discovery, including prior deposition transcripts in the *Syngenta Seeds, Inc. v. Bunge N. Am., Inc.* litigation; copies of Syngenta's Viptera or Duracade stewardship agreements; and, copies of documents provided to regulatory authorities related to MIR 162 or Event 5307. *See* ECF No. 123. The Court additionally ordered that limited merits discovery could proceeded in tandem with 12(b)(6) and class certification briefing. *Id.*

III. SYNGENTA'S REMOVAL OF STATE COURT CASES, INCLUDING THOSE FILED BY ADM AND CARGILL

153. Early in the litigation, Syngenta began removing hundreds of cases originally filed in state courts across the country on the basis of the Federal Common Law of Foreign Relations. *See, e.g.,* ECF No. 283-1. These removals included lawsuits separately-filed by Cargill and ADM in Louisiana state courts.

154. We assisted counsel for these removed cases, including counsel for Cargill and ADM, in responding and, on March 2, 2015, we filed the motion and memorandum in support

seeking to remand all of the cases that had been removed on this basis. ECF Nos. 283-84.

155. On May 5, 2015, the Court granted this motion to remand, finding that the federal common law of foreign relations does not give rise to federal question jurisdiction under Section 1331. ECF No. 395. As a result of this ruling, Syngenta ultimately faced litigation in multiple state-court jurisdictions, including the Minnesota and Illinois consolidated proceedings.

IV. NEGOTIATION OF GOVERNING ORDERS

156. My partner Rachel Schwartz took the lead on drafting and negotiating the Protective Order, ESI Protocol and Preservation Order with Syngenta. The timely negotiations of these orders were an important step in preserving and procuring documents so that deposition discovery could begin. I had final review and approval responsibilities on behalf of the Co-Leads for these negotiated proposed orders.

A. PROTECTIVE ORDER AND ESI PROTOCOL

157. In January 2015, Ms. Schwartz began drafting a proposed Protective Order and a proposed ESI Protocol.

158. The Protective Order was drafted in compliance with the District's unique Guidelines for Agreed Protective Orders for the District of Kansas.

159. Ms. Schwartz and I coordinated with Co-Lead Counsel and Coordinated Counsel to ensure that the Protective Order addressed the unique challenges in this MDL, wherein competitor non-producers were likely to produce commercially-sensitive information.

160. Similar to the Protective Order, the ESI Order was drafted in compliance with the District's Guidelines for Cases Involving Electronically Stored Information.

161. For the ESI Protocol, Ms. Schwartz worked with Stephanie Walters in my office to ensure that documents received from Syngenta and third parties would work in the Relativity database we intended to use throughout the litigation.

162. The ESI Protocol was uniquely complicated in this litigation because it needed to address emails, computers and other forms of ESI maintained by a wide variety of entities, ranging from: farmers, many of whom had little to no ESI; to sophisticated farming entities with extensive ESI; to non-producers; and Syngenta who maintained ESI on a variety of systems in locations throughout the world.

163. The ESI Protocol specified the types of files to be produced and the required metadata for those files.

164. On February 2, 2015, I emailed first drafts of a proposed Protective Order and a proposed ESI Order to counsel for Syngenta.

165. Over the next month, the parties exchanged multiple drafts of the proposed protective order and conducted multiple conference call discussing these issues.

166. With each new draft, Ms. Schwartz and I coordinated with Co-Lead Counsel on the changes and with coordinated counsel, including counsel for Cargill and ADM, to craft a protective order that would be acceptable to all of these parties.

167. On March 13, 2015, I emailed Judge O'Hara the parties' agreed-upon Protective Order and the Order was entered that same day. ECF No. 294.

168. Because of the technical aspects of the ESI Protocol, the negotiations took longer. On March 30, 2015, I emailed the Court the jointly-proposed ESI Protocol, which was entered on March 31, 2015. *See* ECF No. 327.

B. PRESERVATION ORDER

169. During the course of negotiating the ESI Protocol, the parties discussed whether a separate preservation order was necessary. Initially, Plaintiffs believed a separate protocol was needed, but Syngenta disagreed.

170. On March 11, 2015, after incorporating changes from Co-Lead and Coordinated

Counsel, Ms. Schwartz emailed Syngenta an initial draft of the proposed preservation order.

171. Ms. Schwartz and I engaged in good faith discussions between the parties occurring over multiple weeks, but despite these efforts, the parties were unable to agree on all aspects of the preservation order.

172. On April 17, 2015, the parties filed a Joint Motion for Entry of a Preservation Order. ECF No. 365. Attached to the joint motion were separate memoranda, one on behalf of Plaintiffs and one on behalf of Syngenta, briefing the two areas of dispute.

173. The dispute was resolved by the Court on April 21, 2015, and the Court entered a Preservation Order. ECF No. 369.

174. After entry of the Preservation Order on April 21, 2015, and consistent with Section II(C) of that Order, the parties scheduled a meet and confer for May 1, 2015. Two days in advance of this meeting, each party was required to disclose their ESI systems they would search for potentially responsive ESI information.

175. Ms. Schwartz reached out to counsel for certain the Non-Producers regarding how these plaintiffs intended to search for potentially responsive information. On April 29, 2015, Ms. Schwartz emailed a letter to Syngenta disclosing how these plaintiffs and class representative producers intended to search for potentially responsive ESI.

176. On April 29, 2015, parties including Syngenta, ADM and Cargill sent similar letters regarding their ESI systems and search protocols and the parties began multiple meet-and-confer calls to discuss issues related to the collection and production of potentially responsive ESI.

C. COORDINATION ORDER

177. Given the multitude of jurisdictions in which plaintiffs with similar claims sued Syngenta, the MDL Co-Lead Counsel determined that coordination with other jurisdictions

would promote the efficient and rapid prosecution of these cases.

178. Rachel Schwartz and I took the lead in negotiating the Coordination Order with Syngenta. We additionally sought out and worked with proposed coordinated counsel, including counsel in the Minnesota and Louisiana actions, to ensure that their input was included in these negotiations.

179. After exchanging multiple drafts and participating in multiple telephone conferences, Plaintiffs and Syngenta were unable to agree on all aspects of the proposed coordination order.

180. On October 15, 2015, the parties filed a Joint Motion setting forth their competing approaches to coordination. ECF No. 1083. My office took the lead in drafting Plaintiffs' brief on these disputed issues.

181. Following a status conference on October 19, 2015, the Court entered a Coordination Order, which required coordination on all aspects of discovery. ECF No. 1099.

182. The Coordination Order established that the "MDL Proceeding shall be used as the lead case for discovery scheduling" across all coordinated actions. *Id.* at 4. Lead Counsel were required to create a document depository, which my firm managed, and to take the lead on drafting and serving written discovery. *Id.* at 5, 15. The Order additionally required discovery to comply with the District's Local Rules and for disputes to be raised in the MDL. *Id.* at 17. Minnesota lead counsel were provided access to the MDL Document Database pursuant to the Coordination Order.

D. JPAs WITH VARIOUS PLAINTIFF GROUPS

183. As part of our efforts to ensure and promote the efficient and rapid prosecution of these cases, Don Downing and I spent a considerable amount of time negotiating with some of the plaintiffs' counsel who had filed cases in Minnesota, Illinois and Louisiana regarding

agreements that addressed, among other things: the joint depository of the millions of pages of documents produced in the matter by Syngenta and third parties; confirmed that the Kansas Co-Leads would take the lead on all fact discovery; established cost-sharing agreements, including for any shared experts, common benefit assessments in the event any individual case was settled outside of a class settlement; and the timing of trials.

184. These agreements were important to our successful efforts in meeting the short fact and expert discovery deadlines established by the Court.

E. BUSINESS RECORDS ORDER

185. Early on in the litigation, we proactively addressed how to ensure the admissibility at trial of documents produced by Syngenta, including Syngenta's ESI, by drafting a proposed order establishing a process for establishing the admissibility of certain documents produced in the litigation.

186. On October 5, 2015, I emailed counsel for Syngenta a draft of this proposed order for their review and comment.

187. Despite meeting and conferring over the course of many months, the parties were unable to reach agreement on the proposed order, which resulted in Plaintiffs moving for entry of an order regarding the qualification of documents as authentic and/or records of regularly conducted activity. ECF No. 1580.

188. On March 15, 2016, the Court entered the Order Regarding Qualification of Documents Generated by a Party as Authentic and/or Records of Regularly Conducted Activity, ECF No. 1706, which was later amended, ECF No. 1744.

189. This Order established a process by which the parties would meet and confer regarding the admissibility of documents. From the entry of the Order and continuing through 2017, we regularly received reports from Syngenta regarding whether they would or would not

stipulate to the admissibility of deposition exhibits and would regularly meet and confer regarding these stipulations. As we approached trial, this Order reduced the uncertainty as to what exhibits would be admissible, which helped to streamline our trial preparation efforts.

V. AMENDED COMPLAINTS

190. In Scheduling Order No. 1, the Court set a deadline for the filing of "consolidated amended complaints." ECF No. 123 at 3.

191. In March 2015, Bradley Wilders and I initiated discussions with Syngenta regarding a proposed order drafted by Plaintiffs that would clarify whether the consolidated complaint would be an administrative class complaint only or a master class complaint, which would supersede prior individual complaints. Plaintiffs intended to ask for the amended complaint to be designated as a master complaint.

192. As a part of this process, Plaintiffs additionally prepared a draft Notice to Confirm form to the master class complaint, which would allow plaintiffs to amend their allegations and causes of action to conform to the master class complaint.

193. On March 10, 2015, I emailed the Court the final, jointly-proposed order, which was entered on March 10, 2015. ECF No. 287.

194. The parties additionally discussed how to handle service of process for these new complaints and for parties that would or would not file notices to conform. On April 20, 2015, the Court entered a jointly-proposed order. ECF No. 367. As a result of these orders, individual plaintiffs suing Syngenta did not have to go through the burdensome and costly process of serving foreign Syngenta defendants through the Hague Convention.

195. On May 29, 2015, Plaintiffs filed the Producer Plaintiffs' Amended Class Action Master Complaint, ECF No. 450, Non-Producer Plaintiffs' Amended Master Class Action Complaint, ECF No. 451, and Milo Producer Plaintiffs' Master Complaint, ECF No. 452.

196. The Producer Complaint was 198 pages and included 71 causes of action, including one nationwide class and additional claims on behalf of 22 states. ECF No. 450.

197. The Non-Producer Complaint was 119 pages and included seven causes of action, including class and individual claims. ECF No. 451.

198. The Milo Producer Complaint was 104 pages and included seven causes of action, including nationwide and state class claims. ECF No. 452.

199. These complaints began to incorporate the facts that Plaintiffs were uncovering through continued investigation and review of documents produced by Syngenta. The complaints extensively quoted from Syngenta's employees and cited to Syngenta's internal documents, which had been located and reviewed by the MDL's document reviewers. *See generally* ECF No. 450.

200. Specifically, the Complaints included Syngenta's multiple internal assessments that China was a key country for United States corn exports and discussions regarding Syngenta's decision to commercialize Viptera prior to obtaining Chinese approval of MIR162. The complaint additionally detailed Syngenta's knowledge of the risk that U.S. corn exports could be disrupted by the premature commercialize of Viptera and the problems Syngenta experienced with its Viptera applications. *See id.*

201. To correspond with these amended complaints, Plaintiffs drafted new forms for conforming to the amended complaints, which the Court approved on April 29, 2015. ECF No. 386.

202. On September 19, 2016, we drafted and filed separate Third Amended Complaints on behalf of the Producer Plaintiffs and the Non-Producer Plaintiffs. ECF Nos. 2531 (Producer Plaintiffs' Third Amended Class Action Master Complaint), 2530 (Non-Producer

Plaintiffs' Third Amended Master Complaint).

VI. SYNGENTA'S MOTIONS TO DISMISS

203. On June 19, 2015, Syngenta filed their Federal Rule of Civil Procedure 12(b)(6) Motion to Dismiss Producer and Non-Producer Plaintiffs' Amended Class Action Master Complaints, ECF No. 856, and memorandum in support, ECF No. 857.

204. Syngenta's 96-page memorandum in support of the motion to dismiss the Producer and Non-Producer complaints attacked nearly every aspect of these Complaints. If successful, it would have resulted in a judgment in Syngenta's favor that applied to all plaintiffs in the MDL and all their claims, and it would have been used by Syngenta against all plaintiffs in related jurisdictions. In the motion, Syngenta alleged *inter alia*: it could not be held liable for failing to segregate Viptera from the corn supply or refraining from selling Viptera ("no duty" arguments phrased in terms of duty and proximate cause); the economic loss doctrine ("ELD") barred Plaintiffs' negligence, nuisance and negligent misrepresentation claims; Plaintiffs' could not bring a tortious interference claim; and Plaintiffs' Lanham Act claims should be dismissed entirely because Plaintiffs' lacked statutory and Article III standing and the allegedly false statements were not actionable "commercial advertising or promotion." ECF No. 857. Syngenta also challenged a number of consumer-protection statutes. *Id.*

205. With regard to the duty arguments, Syngenta alleged that no U.S. court had ever imposed liability on a company for selling a GMO seed that been approved in the United States prior to obtaining approval abroad, but that courts in other countries had rejected similar claims. ECF No. 857 at 63; *see also id.* at 68 (citing cases that for many of the "same reasons that courts refuse to impose a duty on manufacturers to control the post-sale use by others of safe, non-defective products, they also refuse to impose a duty on manufacturers to refrain from selling such products altogether."). It further argued that Plaintiffs sought to impose on Syngenta a duty

to control the conduct of others, including the farmers who purchased Viptera and the grain handlers and exporters who shipped it to China. *Id.* at 48. It alternatively phrased its duty arguments in terms of a failure of proximate cause, contending that the chain of events leading to the Chinese rejection was necessarily too remote from Syngenta's conduct. *Id*. at 50.

206. Syngenta's Rule 12(b)(6) motion, Plaintiffs' opposition, and the Court's order were a watershed moment in the litigation. According to Syngenta, in prior GMO litigation, such as LLRICE and StarLink, courts were never asked to directly confront the issue of duty because in those cases, the GMO released did not have full regulatory approval in the United States. In contrast, Syngenta's trait was fully deregulated in the United States, and Syngenta strongly stressed that fact in opposing imposition of state tort duties. It pointed to allegedly analogous authority from Canada, in which the intermediate Canadian appellate court affirmed dismissal of farmer's claims against a seed manufacturer for releasing a GMO trait that caused loss to organic farmers. In responding to Syngenta's motion, we were required to extensively research and oppose its largely policy-based arguments to support the imposition of a legal duty. In addition, Syngenta's related argument that the ELD barred Plaintiff's claims was extensive and complex. In responding to those arguments, we traced the history and application of that doctrine across all 22 jurisdictions, prevailing in each instance. *See generally* ECF No. 927.

207. In total, Plaintiffs filed a 142 page Opposition to Syngenta's motion to dismiss the producer and non-producer complaints. *Id.* Syngenta filed a 91-page reply with four supporting appendices. ECF No. 950.[2]

208. On August 21, 2015, the Court heard oral argument on Syngenta's motion. Mr.

[2] Syngenta additionally filed a separate motion to dismiss the Milo Producer Plaintiffs' Complaint, ECF No. 929, to which Plaintiffs drafted and filed an opposition. ECF No. 946. The Milo Producer Complaint was voluntarily dismissed on July 27, 2016. ECF No. 2350.

Wilders presented argument responding to Syngenta's duty arguments, while Mr. Downing and Ms. Garrison presented argument responding to the ELD, and Mr. Earley presented argument with respect to the motion to dismiss the tortious interference claims. At the hearing, Plaintiffs tendered a 46-page chart responding to the new ELD cases cited by Syngenta in its reply. ECF No. 960.

209. On September 11, 2015, the Court entered its Memorandum and Order largely denying Syngenta's motions to dismiss. ECF No. 1016.

210. The Court held that Plaintiffs had sufficiently alleged a duty. "[P]laintiffs' particular injuries were not only foreseeable, they were actually foreseen by Syngenta, with plaintiffs suffering the very harm expected to occur." ECF No. 1016 at 14. Just as Plaintiffs' argued, the Court found that "the law reasonably imposes a duty on a manufacturer to exercise reasonable care not to commercialize and sell its product in a way that creates a risk of widespread harm resulting from the intended use of the product by all of its customers." *Id.* at 17.

211. The Court additionally rejected Syngenta's arguments that deregulation of Viptera "did not necessarily immunize Syngenta from any liability for wrongful acts connected to the commercialization or sale of those products." *Id.* at 19.

212. With regard to the ELD arguments, the Court followed Plaintiffs' approach and analyzed the application of the ELD in the 22 states at issue. Ultimately, the Court stated that "[i]n in none of these 22 states does the law provide a basis to predict that the state would apply the [stranger version of ELD] in this case in the absence of circumstances in which application of the doctrine would further its rationales. Accordingly, the Court rejects Syngenta's argument that the SELD bars plaintiffs' claims, and it denies Syngenta's motions to dismiss to that extent."

Id. at 50. The Court additionally rejected Syngenta's claims that the ELD barred the non-producer claims. *Id.* at 50-51.

213. While the Court narrowed Plaintiffs' Lanham Act claims, Plaintiffs retained a Lanham Act claim, claims based on Duracade's premature commercialization, tortious interference claims, certain consumer protection actions, and certain claims asserted by the non-producers. *See generally id.*

214. This was the first ruling on a motion to dismiss in any of the Syngenta corn cases. This opinion was cited to and relied upon by other Courts that considered these same issues.

215. Syngenta attempted to refine and expand on its arguments, particularly its duty, ELD, and tortious interference arguments in seeking certification for interlocutory appeal. ECF No. 1081. We prepared a 33-page responsive brief. ECF No. 1091. Bradley Wilders prepared the responsive arguments to the duty issues raised therein.

216. At the October 19, 2015 status conference, the Court denied this motion. ECF No. 1097.

VII. ADDITIONAL AMENDED COMPLAINTS AND MOTIONS TO DISMISS

217. Co-Lead Counsel, with assistance from multiple EC attorneys, worked to draft new master complaints for the Producers and Non-Producers. Gretchen Garrison took the lead on this project, with Rachel Schwartz helping from my office.

218. On October 5, 2015, Non-Producer Plaintiffs filed their Second Amended Master Class Action Complaint, ECF No. 1064.

219. On November 5, 2015, Syngenta filed its Answer and Affirmative Defenses to Plaintiffs' Amended Class Action Master Complaint, ECF No. 1203, and the Milo Producer Plaintiffs' Master Complaint. ECF No. 1204.

220. On November 19, 2015, Syngenta filed: its answer, affirmative defenses and

counterclaims to Non-Producer Plaintiffs' Second Amended Master Class Action Complaint. ECF No. 1224; and its Motion to Dismiss Non-Producer Plaintiffs' Second Amended Master Class Action Complaint, ECF No. 1222, and Memorandum in Support, ECF No. 1223.

221. On January 11, 2016, Producer Plaintiffs filed their Second Amended Class Action Master Complaint, ECF No. 1377.

VIII. SYNGENTA'S COUNTERCLAIMS AND THIRD PARTY CLAIMS

222. The prosecution of this MDL became significantly more complicated in November 2015 when Syngenta filed counterclaims accusing non-producers of negligence.

223. On November 19, 2015, Syngenta filed its Answer and Affirmative Defenses to the Non-Producer Plaintiffs' Second Amended Master Class Action Complaint. ECF No. 1224. As part of this Answer, Syngenta additionally asserted counterclaims against the Non-Producer class representatives. These causes of action sought indemnification and contribution for any recovery by Plaintiffs against Syngenta. *See id.*

224. On December 3, 2015, Syngenta filed its Third-Party Complaint against Cargill and ADM, bringing these entities that had previously been remanded back to state court in Louisiana back into the MDL. ECF No. 1259. The Third-Party Complaint included causes of action for contribution and indemnity in the event Syngenta were to be held liable. *Id.*

225. If Syngenta had been successful in maintaining these claims, not only would it have meant the trials would have taken significant additional time, but they also would have been far more complicated both in terms of proof and in terms of collecting a judgment. This again was a significant victory for Plaintiffs and ensured that there would not be third parties sitting at trial that Syngenta could blame for the harm to plaintiffs.

226. On April 4, 2016, the Court granted the joint motion to dismiss Syngenta's counterclaims and third-party complaints. ECF No. 1803. That ruling applied the Grain

Standards Act, 7 U.S.C. §§ 71-87k, to find that certain claims asserted by Syngenta were preempted by federal law.

227. On April 29, 2016, Syngenta filed a motion for partial judgment on the pleadings against Plaintiffs in the MDL, relying on the Court's ruling applying the Grain Standards Act, 7 U.S.C. §§ 71-87k. ECF No. 1928. We prepared and drafted a response on May 27, 2016 and filed a sur-reply on July 11, 2016. ECF Nos. 2090, 2278. The preemption issue raised by Syngenta was significant because it sought to foreclose all theories of negligence asserted by Plaintiffs as preempted, other than the theory that Syngenta should have waited to commercialize its traits. This would have precluded Plaintiffs from arguing to the jury that Syngenta could have taken steps to sell its seed to avoid the harm that befell the market. Bradley Wilders and Gretchen Garrison, working with me and the other Co-Leads, prepared and filed our briefs on this issue.

228. On August 17, 2016, the Court issued its order only granting Syngenta's motion in part. Critically, it preserved a number of theories of negligence short of waiting to sell, paving the way for Plaintiffs to argue to the jury that Syngenta could have conducted a limited launch of its Viptera and Duracade seeds to prevent Plaintiffs' harm, without running afoul of the Grain Standards Act. ECF No. 2426 at 18-37.

IX. CREATION OF THE PLAINTIFF BELLWETHER POOL

229. In applying for leadership, the MDL Co-Lead Counsel and their proposed EC committed to prosecuting the MDL in a manner that would permit its efficient resolution even if class certification were ultimately denied. This included the commitment that producers seeking individual trials would not be delayed by class discovery and certification proceedings. This required a mixed pool of individual bellwether and class trial plaintiffs.

230. On October 15, 2015, the parties filed a joint motion submitting competing

scheduling orders, including competing proposals for the identification of individual bellwether Plaintiffs and class representative Plaintiffs. ECF No. 1084. My firm took the lead in drafting Plaintiffs' brief on these issues, which proposed a bellwether pool drawn from six representative states. Syngenta's proposal sought bellwether plaintiffs from all 22 states where Plaintiffs had filed actions.

231. The Court ultimately struck a compromise and held that the bellwether pool would consist of: "(1) the 5 non-producer plaintiffs who have filed suit (4 of whom are named class representatives in any event); (2) the 2 milo plaintiffs named in the milo master complaint; (3) a sampling of 6 producer-plaintiffs from 8 of the 22 states at issue, with each side selecting 4 states on an alternating basis, with plaintiffs selecting first, and further with each side selecting 3 plaintiffs per state on a similar alternating basis; and (4) the named class representative(s) in each of the 8 selected states." ECF No. 1098 at 6.

232. The Court additionally ruled that ultimately the "bellwether trial pool will be comprised of 4 producer plaintiffs and 2 non-producer plaintiffs. Subject to review and approval by the court, each side must select 2 producer plaintiffs and 1 non-producer plaintiff for the bellwether trial pool" and that these selections would occur by August 15, 2016. *Id.* at 11.

233. To prepare for the bellwether selection process, Co-Lead Counsel and members of the Executive Committee began a thorough review and analysis of potential candidates for the bellwether pool. Steve Six and I took the lead on this process for our firm, focusing on the Kansas bellwether pool.

234. Co-Lead Counsel and additional counsel at the direction of Co-Lead Counsel undertook a thorough analysis of the 22 different state laws to weight the risks and advantages of each state to determine which states to propose as bellwether states. Bradley Wilders and I

collected the analyses from the various firms and, in consultation with other counsel, provided recommendations to the Co-Lead Counsel.

235. On November 12, 2015, the parties exchanged bellwether state selections. Bradley Wilders and I exchanged the emails with Syngenta regarding these selections.

236. On November 19, 2015, I emailed counsel for Syngenta with the list of Plaintiffs' first eight bellwether plaintiff selections. Bellwether plaintiff selections continued through November 20th, with the parties alternating selections.

X. FACT DISCOVERY

237. At the beginning of the MDL, Syngenta sought to delay the completion of fact discovery, arguing to the Court that discovery should be entirely stayed pending a ruling on the motion to dismiss and the merits-based discovery should be deferred until after a class certification ruling. ECF No. 123 at 5.

238. In contrast, on January 30, 2015, I emailed the Court Plaintiffs' Proposed Initial Scheduling Order, which asked for Syngenta to immediately produce three categories of documents: all documents it previously produced in *Syngenta Seeds, Inc. v. Bunge N. Am., Inc.*, Case No. No. 11-cv-4074-MWB (N.D. Iowa) (Bennett, J.) (the "Bunge litigation"); copies of all iterations of Syngenta's stewardship agreements; and all documents submitted to United States and Chinese regulatory authorities for approval of MIR162 or Event 5307.

239. The Court's Scheduling Order No. 1 rejected Syngenta's phased discovery approach and required Syngenta to immediately produce the three categories of documents requests by Plaintiffs and ordered the parties "to proceed with basic document production," Rule 26 disclosures and "some other highly targeted discovery." ECF No. 123 at 7-10.

240. Although the Court had ordered targeted discovery to begin, Syngenta refused to search for and produce documents from the 15 custodians we requested. Syngenta instead

offered only 5 custodians. ECF No. 844.

241. The Court ultimately held that the "custodian-specific discovery plaintiffs seek is targeted, narrowly drawn, and proportionate" and ordered Syngenta to produce responsive documents from the 15 identified custodians we requested. ECF No. 861.

242. After the ruling on the motion to dismiss, Co-Lead Counsel pushed for an aggressive discovery and trial schedule, with fact and expert discovery ending on August 15, 2016, and the first trial scheduled as early as January 2017. ECF No. 1084-1. In contrast, Syngenta argued for the first trial to occur in June 2017. ECF No. 1084-3.

243. The Court's October 21, 2015 Scheduling Order No. 2 lifted the stay of discovery that had been in place pending a ruling on the motions to dismiss. ECF No. 1098.

244. This Order set a March 15, 2016 deadline for the completion of all written discovery, giving the parties only 5 months for written discovery. *Id.* at 8.

245. This Order additionally established a deadline for the completion of all fact depositions by May 2, 2016, giving the parties less than 7 months from the lifting of the stay of discovery to complete all fact depositions spread across four continents. ECF No. 1098 at 8.

A. PLAINTIFFS' WRITTEN DISCOVERY REQUESTS TO SYNGENTA

246. MDL Counsel, primarily Rachel Schwartz from my firm and Jason Earley from Hare Wynn, took the lead in drafting and serving all written discovery served on Syngenta.

247. Plaintiffs served the following requests for documents:

- Plaintiffs' First Request for Production, containing 75 requests
- Plaintiffs' Second Request for Production, containing 8 requests
- Plaintiffs' Third Request for Production, containing 134 requests
- Plaintiffs' Fourth Request for Production, containing 4 requests
- Plaintiffs' Fifth Request for Production, containing 46 requests

248. Plaintiffs served the following interrogatories on Syngenta:

- Plaintiffs' First Interrogatories to Syngenta AG, containing 19 interrogatories
- Plaintiffs' First Interrogatories to Syngenta Corporation, containing 4 interrogatories
- Plaintiffs' First Interrogatories to Syngenta Crop Protection AG, containing 6 interrogatories
- Plaintiffs' First Interrogatories to Syngenta Crop Protection, LLC, containing 14 interrogatories
- Plaintiffs' First Interrogatories to Syngenta Seeds, Inc., containing 13 interrogatories
- Plaintiffs' Second Interrogatories to Syngenta Crop Protection AG, which included 6 interrogatories
- Plaintiffs' Second Interrogatories to Syngenta Seeds, Inc., which included 9 interrogatories

249. On March 1, 2016, Plaintiffs served their First Set of Class Certification Related Interrogatories and Related Document Request to Syngenta.

250. On March 15, 2016, Plaintiffs served their First Requests for Admission to All Defendants, which included seven requests designed to establish the admissibility of depositions exhibits for trial. Plaintiffs simultaneously served a companion Interrogatory to accompany these Requests for Admission.

B. SYNGENTA'S PRODUCTION OF DOCUMENTS

251. On or about March 27, 2015 and pursuant to Scheduling Order No. 1, Syngenta began its first production of documents. This first production, consisting of SYT and SYNG documents, contained approximately 30,000 documents, totaling more than 390,000 pages. Additional Bunge-related documents were produced on or about April 14, 2015.

252. Rolling productions of documents from Syngenta continued through September 2017. In total and not including substantial numbers of native documents, Syngenta produced more than 354,000 documents, totaling more than 1.5 million pages.

253. Throughout the litigation, Stueve Siegel Hanson, principally Rachel Schwartz with my input when needed, took the lead on all meet and confer discussions with Syngenta

regarding their responses to Plaintiffs' written discovery and compliance with these discovery requests.

254. These meet and confer discussions began as early as April 28, 2015, when we sent Syngenta a letter identifying issues with Syngenta's production of documents pursuant to Scheduling Order No. 1. Syngenta responded on May 2, 2015, and the parties began meet and confer discussions regarding these documents and continued meet and confer discussions throughout the course of discovery in the litigation.

255. These meet and confer conferences additionally involved multiple weeks of discussions regarding the custodians and search terms Syngenta would use to locate potentially responsive documents. Rachel Schwartz and Stephanie Walters, working with coordinated counsel, led these discussions. As new document requests were served on Syngenta, the parties would re-engage on new search terms needed for every additional document request.

256. Throughout the course of the litigation, Syngenta served multiple privilege logs. The meet and confer discussions with Syngenta additionally involved discussions regarding these withheld documents.

257. On April 25, 2017, after meet and confer discussions reached an impasse, Plaintiffs filed a motion to compel certain documents listed on these logs. ECF No. 3109.

258. The Court ultimately granted in part the motion, compelling Syngenta to produce documents, including documents created by a non-party that analyzed the potential economic impact of China's rejection of U.S. corn shipments. ECF No. 3238.

C. DOCUMENT REVIEW

259. Rachel Schwartz and Stephanie Walters coordinated the document review by the common benefit firms.

260. Ms. Walters took the lead on the bidding by and negotiation with outside vendors

to host the Relativity document review database. She was the single point of contact with the vendor throughout the entire litigation, including coordinating the loading and quality control of all produced documents and the appearance and content of the coding screens. Ms. Walters' extensive knowledge of Relativity greatly reduced the costs associated with the Relativity database, including by eliminating project management time from our outside vendor by personally training our reviewers on the Relativity platform.

261. As documents were produced, Ms. Walters would create unique batches of documents for each document reviewer. Depending upon the immediate needs for upcoming depositions, Ms. Walters would create batches of documents by custodian or by search term. She continuously monitored the efficiency of the document review members, answered questions from these reviewers and ensured that reviewers had a constant stream of new documents to review. She also performed searches and located documents used in defendant, non-producer and third party depositions.

262. In March 2015, we began to create the document review protocol, which established how document reviewers would analyze and code every document produced in the litigation. The protocol ensured consistency among the reviewers. Because there were too many documents to have them reviewed by senior attorneys in the amount of time necessary to perform review prior to depositions, we developed a tiered review system. Initial review would be done by dedicated attorneys across the country. The purpose of this review was to weed out irrelevant documents, code documents by subject matter, and flag potentially "hot" documents. A secondary review team, headed by Jason Earley and Drew York, would then review the subset of flagged documents, which were sorted into subject-matter or deposition buckets. Attorneys responsible for depositions would then select from these limited sets, or from the subject-matter

coding, documents to utilize in the depositions. This system allowed for us to efficiently review this large set of the documents and to narrow them to useable number in preparation for trial. In my opinion, few things were more important to the overall merits of Plaintiffs' claims than the documentary evidence.

263. In April 2015, we reached out to Co-Lead and Executive Committee member firms to find one or two individuals from each firm who could dedicate meaningful amounts of time to the document review.

264. From April 21-23, 2015, document reviewers from common benefit firms across the country met in-person in our offices in Kansas City to train on the Relativity document review platform, discuss the document review protocol and begin the actual review of documents produced by Syngenta.

265. We conducted two additional in-person document reviews in Kansas City on November 30-December 4, 2015, and December 7-11, 2015.

266. Syngenta produced more than 550,000 pages of documents after the stay of discovery was lifted in October 21, 2015, ECF No. 1098. With substantive depositions of Syngenta's employees to begin in January 2016, it was critical to have document reviewers review these documents as soon as they were received.

267. Throughout the course of the litigation, it required nearly 50 document reviewers from firms across the country reviewing documents produced by Syngenta, Non-Producers and third parties, which totaled in excess of 2.5 million pages. The training we provided minimized the amount of time that reviewers would need to spend learning the case. Ms. Walters utilized Relativity tool sets to routinely monitor the efficiency and quality of the reviewers, and we used these metrics to steer work to our most efficient and best reviewers. In my opinion, we could not

have completed the review of documents, in the time allotted, and provided a useful database of coded and flagged documents to prepare for trial without engaging the number of reviewers we did because attorneys at the four co-lead firms were actively engaged in various other tasks, including brief writing and deposition preparation.

268. We also conducted regular conference calls with the document reviewers to discuss the on-going factual development in the litigation, which was necessary for the document reviewers to understand the context of the documents they were reviewing, to discuss any hot documents found in the review and to answer any questions reviewers had. This promoted reviewer efficiency.

269. To minimize costs, my firm's document reviewers were primarily Matt Cooper, Sam Storrs and John Tompkins, three attorneys who had our lowest billing rates.

270. They generally reviewed documents produced in the litigation. Once I knew which depositions I would take, they focused on custodial documents from these witnesses and additional documents these witnesses drafted, received or on which they were mentioned.

271. As part of their production of documents, Syngenta produced more than one hundred thousand Stewardship Agreements purportedly signed by certain farmers giving them a limited license to use seeds containing Syngenta's biotechnology.

272. Many of these agreements contained handwriting or were of poor scanned quality, making it difficult to obtain an electronic record of the farmers who had purchased Syngenta's technology. Thus, these documents had to be individually-reviewed to determine which farmer purportedly signed the agreement, the contact information for that farmer and which seeds were referenced in the agreement.

273. We put together a Stewardship Agreement review team primarily composed of

paralegals to reduce the cost of this review. They reviewed all of these agreements to determine which, if any, Producer Plaintiffs involved in the litigation may have signed a Stewardship Agreement. These reviewers then coded this information in our Relativity database.

274. Importantly, even as the document review was ongoing, the shape of the litigation continued to evolve. Many rulings, like the Court's preemption order for example, required adjustments and fine tuning of Plaintiffs' theories and the expected trial plan. Moreover, as depositions unfolded, the scope and nature of the best arguments changed. For this reason, the relative importance of issues continually shifted: subjects that were not deemed critically important when the review started became more important as witnesses started testifying. It became necessary to find documents to contradict bad testimony, even if those documents were not initially flagged. Fortunately, because of the systematic manner in which the documents were loaded and stored, our insistence on obtaining relevant metadata, and the protocol under which the review was conducted, we were able to continually go back to identify and flag new documents without restarting the entire review process. Ms. Walters was critical to this effort, as she routinely responded to requests from the deposition team to search for and find answers to questions in the documents before a deposition occurred, so that the document could be used to obtain the favorable testimony. Her legal experience and technical skills enabled this effort, and ultimately lead to an efficient and real-time leveraging of the document depository for the benefit of all plaintiffs in the litigation.

D. PLAINTIFF FACT SHEETS

275. In Scheduling Order No. 1, the Court ordered each producer plaintiff to serve a plaintiff fact sheet ("PFS"), in lieu of Rule 26 disclosures. ECF No. 123 at 11.

276. The parties met and conferred on a plaintiff fact sheet for producer plaintiffs and ultimately agreed on the format and contents of the plaintiff fact sheet.

277. The plaintiff fact sheet required each producer plaintiff to list all farms on which the plaintiff produced corn from 2011 to 2015, the type of corn planted, pricing on corn, and additional information regarding their farming operations. The PFS additionally included four document requests that required the plaintiff to produce documents regarding the corn seed purchased, sale of their corn, pricing of the corn and crop insurance information.

278. Plaintiff Fact Sheets were required from each Producer Plaintiff with a case in the MDL. ECF No. 123 at 11.

E. ADDITIONAL WRITTEN DISCOVERY TO CLASS REPRESENTATIVE AND BELLWETHER PLAINTIFFS

279. Given the uncertainty at the time that a class would be certified, bellwether plaintiffs represented potentially important test cases for Plaintiffs' claims against Syngenta. The individual discovery Syngenta served on these bellwether plaintiffs represented potentially defensive evidence that Syngenta would rely upon in opposing class certification. Further, if certification were denied, these cases would be the test ground for summary-judgment, *Daubert* issues, trial, and appeal. Thus, it was appropriate for and necessary Co-Lead Counsel to supervise discovery in all of these cases and significant amounts of time were spent on this defensive discovery.

280. In addition to the PFSs, Syngenta served the following written discovery to Producer Plaintiffs:

- Syngenta's First Set of Requests for Production to Producer Plaintiffs, containing 27 requests
- Syngenta's Second Set of Requests for Production to Producer Plaintiffs, containing 70 requests
- Syngenta's First Set of Requests for Production to Viptera and Duracade Producer Plaintiffs, containing 54 requests
- Syngenta's First Set of Requests for Production to Milo Producer Plaintiffs, containing 91 requests
- Syngenta Crop Protection AG's First Set of Interrogatories to Producer Plaintiffs,

containing 20 interrogatories

- Syngenta AG's First Set of Interrogatories to Producer Plaintiffs, containing 21 interrogatories
- Syngenta Corporation's First Set of Interrogatories to Producer Plaintiffs, containing 15 interrogatories
- Syngenta Corporation's First Set of Interrogatories to Milo Producer Plaintiffs, containing 17 interrogatories
- Syngenta AG's First Set of Interrogatories to Milo Producer Plaintiffs, containing 24 interrogatories
- Syngenta Crop Protection AG's First Set of Interrogatories to Milo Producer Plaintiffs, containing 20 interrogatories
- Syngenta's First Set of Requests for Admission to Producer Plaintiffs, containing 98 requests
- Syngenta's First Set of Requests for Admission to Milo Producer Plaintiffs, containing 122 requests

281. Syngenta's First Set of Requests for Production to the Producer Plaintiffs sought extensive documents respecting numerous details of each plaintiff's farming operation over a significant time period.[3]

[3] *See, e.g.*, Req. No. 1 (seeking documents "sufficient to show the selection, purchase, type, price paid, and eventual use (e.g., planted vs. saved for future use) of corn seeds by you and the farming entities in which you have or have had an interest from Marketing Year 2010 to the present"); Req. No. 2 (seeking documents "sufficient to show all corn farming costs incurred by you from Marketing Year 2010 to the present"); Req. No. 3 (seeking documents sufficient to show the sale of grains and oilseeds . . . by you and the farming entities in which you have or have had an interest from Marketing Year 2010 to the present"); Req. No. 4 (seeking documents "sufficient to show efforts by you and any farming entities in which you have or have had an interest to cultivate crops for the purpose of selling all or a portion of those crops into any export market outside of the United States from Marketing Year 2010 to the present"); Req. No. 5 (seeking documents "sufficient to show the amount of storage capacity available to you on your farm, the farms in which you have or have had an interest, and/or any third-party site available to you, from Calendar Year 2010 to the present, as well as the usage of that storage capacity during that period by crop"); Req. No. 6 (seeking "[f]or each farming entity in which you have or have had an interest from Marketing Year 2010 to the present . . . documents sufficient to show the annual yield and amount harvested of each grain and oilseed crop (in bushels, hundredweight, or some other relevant unit of measure), the total cost of each crop grown, and the acreage harvested of each crop"); Req. No. 7 (seeking documents "showing the possession, purchase, use, or sale by you and the farming entities in which you have or have had an interest from Marketing Year 2010 to the present of derivatives, such as options or futures, to hedge price risk associated with your sales of grains and oilseeds (including, but not limited to, corn), as well as any efforts to short sell or otherwise use any decrease in grain or oilseed prices to your financial benefit"); Req. No. 8 (seeking documents "sufficient to show the legal ownership and/or lease parties and terms, the legal description, FSA number, and acreage for land farmed by you or any entity in which you have or have had an interest from Calendar Year 2010 to the present"); Req. No. 10 (seeking documents "sufficient to show your ownership and percentage of ownership of any entity deriving income from corn farming from Calendar Year 2010 to the present, the date or dates you

282. Syngenta's first requests additionally sought sensitive financial information. *See*, *e.g.*, Req. No. 24 (seeking annual financial statements, monthly income statements, and balance sheets, for yourself and all farming entities in which you have or have had a majority or controlling interest from Calendar Year 2010 to the present, as well as documents showing revenue, costs, and income of all activity you and all farming entities in which you have or have had an interest engaged in with the intention of earning money from Calendar Year 2010 to the present.").

283. Responding to these requests was additionally complicated because of the timing of the requests. For example, Syngenta's First Set of Requests for Production was served on or about August 17, 2015, when many of the producer plaintiffs were in the field working 15-20 hour days on their farms.

284. Syngenta's Second Requests for Production directed at the Producer Plaintiffs in the initial bellwether discovery pool contained 70 requests again seeking extensive information over multi-year time periods.[4]

---

acquired that ownership interest, the other owners and the amount of their interests and dates they acquired such, the date of formation of the entity, and the amount of profits or losses attributable to your interest"); Req. No. 11 (seeking "applications, policy documents, and communications with insurers and agents for crop insurance policies purchased from Marketing Year 2010 to the present by you and the farming entities in which you have or have had an interest, including any payments received and/or financial recompense of any kind derived from any policy, statements of insurance coverage, acreage reports, production to count reports, yield reports, and statements/notices of loss or indemnity"); Req. No. 12 (seeking "applications, documents, and communications from Marketing Year 2010 to the present regarding government subsidies received by you relating to corn, including the amount of any subsidies received, as well as any rental payments from the government as part of any voluntary conservation program"); Req. No. 13 (seeking "communications from Marketing Year 2010 to the present with any crop or marketing consultant who assisted you and the farming entities in which you have or have had an interest with the selection, purchase, planting, cultivation, harvesting, storage, and/or sale of corn and corn seed); Req. No. 14 (seeking documents "sufficient to show the types of genetically modified crops grown by you or any farming entity in which you have or have had an interest from Calendar Year 2005 to the present, including, but not limited to, the dates when those crops were planted and harvested.").

[4] *See, e.g.*, Req. No. 8 (seeking documents and communications "regarding your decision, if any, to sell Corn to Chinese buyers in 2011, 2012, 2013 and/or 2014 either directly or through a third party/parties"); Req. No. 9, (seeking documents "relating to the pricing of your Corn during Marketing

285. These requests additionally sought information pertaining to plaintiff's farming operations, as well as information pertaining to categories of argument Syngenta had and/or planned to make.[5]

286. Again, the Requests sought sensitive financial information.[6]

287. Syngenta Corporation's interrogatories sought 15 categories of information, primarily directed to the factual basis for various allegations in the complaint and arguments Syngenta had and/or planned to make.

288. Syngenta Crop Protection's interrogatories sought 20 categories of information, all seeking detailed information (including financial and insurance information) about the plaintiff's farming operations.[7]

Years 2011-2015); Req. No. 10 (seeking "all Documents relating to any financing and/or loans procured for your corn crops during Marketing Years 2011-2015"); Req. No. 11 (seeking FSA forms from 2010 to present); Req. No. 29 (seeking "Documents and Communications sufficient to show all of the factors you considered in deciding where and to whom you should sell your corn in Marketing Years 2011-2015").

[5] *See, e.g.*, Req. No. 62 (seeking documents and communications "concerning any 'contamination' of your corn"); Req. No. 63 (seeking documents "concerning whether grain handlers were accepting or rejecting Syngenta Corn Seed from 2011 through the present, including Documents and Communications related to any efforts taken by grain handlers to segregate Syngenta Corn Seed from other types of corn"); Req. No. 64 (seeking documents and communications "concerning grain exporters testing for Syngenta Corn Seed.").

[6] *See e.g.*, Req. No. 9 (seeking all documents "relating to the pricing of your Corn during Marketing Years 2011-2015"); Req. No. 10, (seeking all documents "relating to any financing and/or loans procured for your corn crops during Marketing Years 2011-2015.").

[7] Interrogatories 1-20 requested information including: (1) storage capacity and volume of corn stored from 2013 to present; (2) corn sales made from storage (by volume, storage location, corn variety, and price received) from 2013 to present; (3) any revenue protection crop insurance; (4) other risk-based insurance from 2010 to present as to corn crops or farming operations generally (including level of such insurance, claims filed and paid and dates thereof); (5) any government subsidy programs or revenue protection enrollment; (6) all government payments received from 2010-2014; (7) all Commodity Credit Corporation marketing assistance loans and Loan Deficiency Payments received since 2010; (8) acres set aside from 2010 to present and any payments received for those acres; (9) listing of all corn and/or grain sorghum acreage by farm/tract/field number in which the plaintiff either has a landlord interest or was a tenant from 2013 to present (including the names of the tenants or the entities under which they farm, the names of the landlords from which you rent land, and the details of the specific compensation agreement with any tenants and/or landlords); (10) description of ownership structure of plaintiff's business entity; (11) description of ownership interests in any other operation; (12) any financial interest in businesses that manufacture/sell ethanol, sweeteners or other corn by-products; (13) description of any interest in marketing, ethanol, or other cooperative related to plaintiff's corn farming

289. Syngenta AG's interrogatories sought 21 categories of information, seeking yet more information pertaining to, for example: (1) information pertaining to damages; (2) accounting/bookkeeping process on all farming operations (including any software utilized and reports generated); (3) cultivation costs and yield per acre from 2011 to present; (4) information pertaining to any planting/sale of Viptera or Duracade; information on the process for pricing plaintiff's corn; (5) annual price per bushel from 2010 to present; (6) each contract for the sale of corn (including contract type, specific pricing, corn variety, buyer, and delivery terms); (7) corn sales to food processing facilities, exporters and/or ethanol plants; (8) segregation and/or channeling efforts; and (9) pricing information.

290. Syngenta additionally served 98 requests for admissions and one of Syngenta's interrogatories requested that for any request not unqualifiedly admitted, the plaintiff state the factual basis for denial or qualified admission.

291. Syngenta also served the following written discovery to Non-Producer Plaintiffs:

- Syngenta's First Set of Requests for Production to Non-Producer Plaintiffs, containing 24 requests
- Syngenta's Second Set of Requests for Production to Non-Producer Plaintiffs, containing 67 requests
- Syngenta Crop Protection AG's Third Set of Requests for Production to Plaintiff Winnsboro Elevator, LLC, containing 1 request
- Syngenta Crop Protection AG's Third Set of Requests for Production to Plaintiff Trans Coastal Supply, Inc., containing 1 request
- Syngenta Crop Protection AG's Third Set of Requests for Production to Plaintiff Rail Transfer Inc., containing 1 request
- Syngenta Crop Protection AG's First Set of Interrogatories to Winnsboro, containing 5 interrogatories
- Syngenta Crop Protection AG's First Set of Interrogatories to Trans Coastal

---

operations (including all income and patronage dividends received from such membership, and all sales of corn made through the cooperative, from 2010 to present); (14) all loans secured by corn crops from 2010 to present (including terms, lender, and date on which loan was paid off); (15) all GM crops grown by the plaintiff from 2010 to present (by year and variety); (16) any derivatives or other financial instruments, such as options or futures, purchased or sold to hedge the price risk associated with corn (describing if the plaintiff was long or short corn in that time period and if so by how much); (17) specific nature of any livestock operations (including type and cost of feed) from 2013 to present.

Supply, Inc., containing 15 interrogatories

- Syngenta Crop Protection AG's First Set of Interrogatories to Rail Transfer, Inc., containing 5 interrogatories
- Syngenta AG's First Set of Interrogatories to Rail Transfer, Inc., containing 19 interrogatories
- Syngenta AG's Amended First Set of Interrogatories to Trans Coastal Supply, Inc., containing 19 interrogatories
- Syngenta AG's First Set of Interrogatories to Winnsboro Elevator, LLC, containing 16 interrogatories
- Syngenta AG's Amended First Set of Interrogatories to Trans Coastal, containing 19 interrogatories
- Syngenta Ag's First Set of Requests for Admission to Plaintiff Winnsboro Elevator, LLC, containing 53 requests
- Syngenta AG's First Set of Requests for Admission to Plaintiff Trans Coastal Supply, Inc., containing 73 requests
- Syngenta AG's First Set of Requests For Admission to Plaintiff Rail Transfer, Inc., containing 55 requests

292. For all of these written requests, Co-Lead Counsel, EC counsel and common benefit counsel worked with the class representative and bellwether plaintiffs to respond to these voluminous requests. Because of the mixed nature of the MDL – class and bellwether – it was important to monitor defensive discovery across the MDL. In part, this was because we recognized that discovery taken of individual bellwether producers could be utilized by Syngenta in opposing class certification. It was also important because, if a class were not certified, we wanted to be ready to begin trying bellwether cases, and given the importance of initial such trials, wanted to ensure these cases were best positioned for victory.

293. Attorneys at Hare Wynn took the lead on coordinating defensive producer discovery, while attorneys at Gray Reed took the lead on coordinating with counsel for non-producers.

F. DEPOSITIONS OF PRODUCER PLAINTIFFS

294. In total, 74 depositions were taken of Producer Plaintiffs in the MDL in ten states. The Co-Lead Counsel tasked EC law firm Walters Bender with preparing extensive outlines that

were used for the preparation of all producers deposed, which were then reviewed by myself and other Co-Lead Counsel. This ensured that all producers were properly prepared for their depositions.

295. The Producer Plaintiff depositions were as follows, many of which were in rural locations in the corn belt:

	Plaintiff	**Date of Deposition**	**Location of Deposition**
1.	Jon Anderson	1/12/2016	Sioux Falls, SD
2.	Matt Bargen	2/19/2016	Superior, NE
3.	Kenneth Bell	1/6/2016	St. Louis, MO
4.	Deborah Bell	2/26/2016	St. Louis, MO
5.	Nathan Bell	2/26/2016	St. Louis, MO
6.	Richard Bieber	3/8/2016	Kansas City, MO
7.	Glenn Bix	3/31/2016	Maryville, MO
8.	John Cap	1/14/2016	Sioux Falls, SD
9.	Steven Cap	1/14/2016	Sioux Falls, SD
10.	Daniel Chism	3/29/2016	Fort Dodge, IA
11.	Luke Claas	3/10/2016	Kansas City, MO
12.	Walter Crandall	2/11/2016	Little Rock, AR
13.	Paul Cronin	4/12/2016	Sioux City, IA
14.	Shane Curry	2/5/2016	Des Moines, IA
15.	Mike DaVault	1/6/2016	St. Louis, MO
16.	William Determan	3/30/2016	Fort Dodge, IA
17.	Lesley Dierking	3/30/2016	Kansas City, MO
18.	Richard Ensor	3/11/2016	Kansas City, MO
19.	Kent Falwell	2/9/2016	Little Rock, AR
20.	Charles Frickey	4/8/2016	Oberlin, KS
21.	Charles Fulkerson	3/30/2016	Columbus, OH
22.	Richard Glanzer	3/4/2016	Sioux Falls, SD
23.	Eugene Goering	3/29/2016	Wichita, KS
24.	Daniel Grafel	4/7/2016	Oberlin, KS
25.	R. Scott Haerr for HGF Irrigated	1/8/2016	Springfield, OH
26.	R. Scott Haerr for Three H Farms	1/8/2016	Springfield, OH
27.	Dale Hadden	4/4/2016	Springfield, IL
28.	Grain Haerr	1/8/2016	Springfield, OH
29.	Charlynn Hamilton	5/5/2016	Denver, CO
30.	Gregory Harris	1/28/2016	Kansas City, MO
31.	Gary Harshberger	3/31/2016	Dodge City, KS
32.	Tyler Henderson	5/12/2016	Little Rock, AR
33.	John Holmbeck	4/15/2016	Lincoln, NE
34.	Frank James	3/9/2016	Sioux Falls, SD

	Plaintiff	Date of Deposition	Location of Deposition
35.	Thomas Justison	2/10/2016	St. Louis, MO
36.	Gregory Kaffenbarger	1/7/2016	Springfield, OH
37.	Linden Kaliff	4/6/2016	Moline, IL
38.	Bret Kendrick	4/1/2016	Dodge City, KS
39.	Kenneth Kennedy	3/17/2016	Decatur, IL
40.	Russell Koeller	2/9/2016	St. Louis, MO
41.	Charles Laubenthal	4/1/2016	Sioux Falls, SD
42.	Charles Lex	5/10/2016	Des Moines, IA
43.	Robert Luck	4/20/2016	Hays, KS
44.	Gary Matthews	3/1/2016	Columbus, OH
45.	David McDonald	1/26/2016	Decatur, IL
46.	David McKee	2/3/2016	Columbus, OH
47.	James McKinney	4/13/2016	Mount Vernon, IL
48.	Joseph Murnane	2/23/2016	Joplin, MO
49.	Chad Murphy	1/13/2016	Sioux Falls, SD
50.	Edward Noonan	1/6/2016	Des Moines, IA
51.	Rodney Olthoff	2/4/2016	Des Moines, IA
52.	Richard Oswald	12/22/2015	Kansas City, MO
53.	Richard Overgard	3/3/2016	Sioux Falls, SD
54.	Alan Pedersen	5/9/2016	Des Moines, IA
55.	Martin Petska	3/18/2016	Ord, NE
56.	David Polifka	4/21/2016	Hays, KS
57.	Donald Prohaska	1/5/2016	Des Moines, IA
58.	Brian Riessland	3/4/2016	Kearney, NE
59.	George Rosborough	2/19/2016	Ft. Myers, FL
60.	Vincent Schroeder	2/2/2016	Columbus, OH
61.	David Schwaninger	1/12/2016	Lincoln, NE
62.	James Shortt	3/25/2016	Manhattan, KS
63.	Pat Skarda	2/26/2016	Little Rock, AR
64.	Ross Ulmer	3/8/2016	Sioux Falls, SD
65.	Yvonne Vogel	2/29/2016	Fremont, OH
66.	Eugene Volnek	3/30/2016	Lincoln, NE
67.	Dustin Wegner	4/14/2016	Lincoln, NE
68.	Steven Wentworth	1/27/2016	Decatur, IL
69.	Roger White	3/18/2016	Decatur, IL
70.	Jane Widener	2/18/2016	North Platte, NE
71.	Orville Williams	3/30/2016	Dodge City, KS
72.	William Wilman	5/11/2016	Little Rock, AR
73.	Ivan Woltemath	3/1/2016	Kansas City, MO
74.	Lee Wright	1/7/2016	St. Louis, MO

G. STUEVE SIEGEL HANSON'S WORK WITH CLASS REPRESENTATIVE AND BELLWETHER PLAINTIFFS

296. Throughout discovery, Stueve Siegel Hanson worked directly with: three Kansas class representatives, David Polifka Rev. Living Trust, Daniel Grafel and Charles Frickey; one Nebraska class representative, David Schwaninger; and five bellwether plaintiff groups, (1) Matt & Robin Bargen/Bar Cattle Limited Partnership, (2) Robert Luck/H and R Operations/R and L Partnership, (3) R&W Farms, Inc., (4) Orville Williams/Williams and Sons, Inc./ROR General Partnership, and (5) Gary Harshberger/Harshberger Enterprises.[8]

297. As described in greater detail below, for each of these plaintiffs, we provided assistance in responding to written discovery requests from Syngenta, in gathering documents responsive to Syngenta's requests for production, for preparing for their depositions and to defend them at their deposition.

298. The document collection process required a considerable amount of time and resources to complete, as well as close collaboration between Stueve Siegel Hanson, plaintiffs, and the plaintiffs' accountants and grain elevators.

299. The bellwether and class representative producer plaintiffs with whom we worked were of varying farm sizes and utilized different technology and storage systems. There was no single method used to identify and collect responsive documents. Often, our attorneys and staff had to physically drive to the farm, conduct a records search, copy responsive information (either electronically or manually), and catalogue the information for production.

300. Stueve Siegel Hanson attorneys and staff made at least four trips to Western Kansas and Southern Nebraska in order to ensure that the bellwether and class representative document searches were thorough and the productions complete. For example, Stueve Siegel

[8] We additionally worked with Plaintiff Kenneth Frerichs prior to his voluntary dismissal on November 5, 2015. ECF No. 1197.

Hanson personnel drove approximately 330 miles from Kansas City, Missouri to Dodge City, Kansas in January of 2016 in order to collect documents from two class representatives and one bellwether plaintiff. Over the course of three days, Stueve Siegel Hanson personnel traveled to farms around Dodge City, Kansas and met with farmers on their farms, in their homes, and at the offices. Stueve Siegel Hanson's attorneys and staff made similar trips to Western Kansas and Southern Nebraska in December 2015, November 2016, and November 2017.

301. As part of the document collection process in this case, Stueve Siegel Hanson attorneys and staff also worked closely with numerous grain elevators in Kansas to collect grain elevator tickets to prove these Plaintiffs' corn sales dating back to 2013, which were invaluable in verifying plaintiffs' sales. Stueve Siegel Hanson also contacted and collected responsive documents from crop insurance agencies, the Farm Services Administration, brokerage firms, and accounting firms. In addition, Stueve Siegel Hanson's e-discovery team worked to search for and collect any responsive emails from each plaintiff.

302. In total and for the plaintiffs discussed below, we helped produced 25,016 documents, totaling 99,389 pages.

303. The class representatives for the Kansas trial took on unique risk to their farming operations in representing the class.

304. Each of these Kansas class representatives testified about the work they did on the day-to-day running of their farms.

305. The three-week Kansas trial occurred during June 2017 during the final weeks of the planting season for corn in Kansas and the harvest season for wheat. Despite this critical time, these Kansas class representatives traveled to and stayed in Kansas City, providing valuable assistance throughout the trial, including in the mornings and evenings, in answering

questions and helping to shape and refine our presentation to the jury.

306. On Day 1 of the trial, Mr. Grafel testified that "[w]e're still planting [corn] right now and it's—we're right up against the late plant deadline so it's getting pretty critical to get it done."

307. But to represent the class, Mr. Grafel, Mr. Polifka, Mr. Frickey and Mr. Kendrick left their farms during this critical planting and harvesting season to testify live in Kansas City, Kansas, which was hundreds of miles away from each of their farms: Mr. Polifka was more than 300 miles away from his farm in Quinter, Kansas; Mr. Grafel and Mr. Frickey were more than 350 miles away from their farms in Oberlin, Kansas; and Mr. Kendrick was more than 430 miles away from his farm in Johnson, Kansas.[9]

308. The magnitude of the risk undertaken by these farmers, during the critical planting and harvesting season, is far greater than when a company sends a designated corporate representative employee to sit at trial.

1. Kansas Class Representative David Polifka Rev. Living Trust

309. David Polifka lives in Quinter, Kansas, where he farms individually and as David Polifka Rev. Living Trust.

310. Steve Six primarily worked with Mr. Polifka throughout discovery in this litigation.

311. Prior to agreeing to be a class representative, Mr. Six worked with Mr. Polifka on his potential claims and what it would mean to represent a class of Kansas farmers. Mr. Polifka additionally investigated his potential claims against Syngenta.

312. Once discovery began, Mr. Polifka was involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's

[9] *See generally* www.google.com/maps.

interrogatories and Syngenta's requests for admission. Mr. Polifka additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, Mr. Polifka estimates that he spent approximately 24 hours on these tasks.

313. In total, Mr. Polifka produced 2,124 documents totaling 6,390 pages in response to Syngenta's discovery requests.

314. Mr. Polifka was deposed on April 21, 2016 in Hays, Kansas, which is approximately a 50 mile drive from his home. Mr. Six produced Mr. Polifka for his deposition.

315. Between his deposition and his preparation for his deposition with Mr. Six, Mr. Polifka estimates he spent approximately 18 hours on these tasks.

316. In June 2017, Mr. Polifka attended the Kansas MDL trial, which took him away from the day-to-day running of his farm for nearly three full weeks.

317. Mr. Polifka was away from his farm in the time surrounding the busy wheat harvest and corn planting seasons. He spent nearly three weeks in Kansas City when he would have been working long, 15+ hour days on his farm. In addition to the work done on his farm, Mr. Polifka also provides equipment and assistance to his two sons' farms during busy times and he was unable to assist while he was in Kansas City for trial.

318. Mr. Polifka spent time preparing with Scott Powell in the weeks leading up to trial and met with Mr. Powell in Kansas City and Quinter to prepare for his trial testimony.

319. He testified live on June 14, 2017, on day 8 of the Kansas trial.

320. Following trial, Mr. Six has been in contact with Mr. Polifka regarding the proposed settlement.

321. In total, counting all of these actions in support of the Kansas class, Mr. Polifka

estimates that he spent more than 196 hours fulfilling his responsibilities as a Kansas class representative.

2. Kansas Class Representative Grafel Farms, LLC/Beaver Creek Farms, Inc./D&S Grain & Cattle Co./Demmer Farms, Inc.

322. Daniel Grafel lives in Oberlin, Kansas, where he farms as Grafel Farms, LLC, Beaver Creek Farms, Inc., D&S Grain & Cattle Co. and Demmer Farms, Inc.

323. Steve Six and I primarily worked with Mr. Grafel throughout discovery in this litigation.

324. Prior to agreeing to be a class representative, Mr. Six and I worked with Mr. Grafel on his potential claims and what it would mean to represent a class of Kansas farmers. Mr. Grafel additionally investigated his potential claims against Syngenta.

325. Once discovery began, Mr. Grafel was involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission for each of his four farming entities. Mr. Grafel additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, Mr. Grafel estimates that Grafel Farms spent approximately 27 hours on these tasks.

326. In total, Mr. Grafel produced 4,838 documents totaling 22,387 pages in response to Syngenta's discovery requests.

327. Mr. Grafel was deposed on April 7, 2016 in Oberlin, Kansas. Mr. Six produced Mr. Grafel for his deposition.

328. Between his deposition and his preparation for his deposition with Mr. Six, Mr. Grafel estimates he spent approximately 16 hours on these tasks.

329. In anticipation of trial, I met with Mr. Grafel in person in Trier, Kansas, and in Kansas City to prepare for his trial testimony.

330. In June 2017, Mr. Grafel attended nearly every day of the Kansas MDL trial, which took him away from the day-to-day running of his farm for the better part of three weeks. April to June is the busiest part of the farming year for the Grafel entities. In 2017, the area where the Grafel entities farm experienced a late wet snow that pushed corn planting up against deadlines. In the Grafel operation, Mr. Grafel oversees and helps to operate various aspects of the wheat harvesting, the corn planting and the spraying operations. During the time leading up to trial, wheat harvest was coming to an end and activities on the farm were especially hectic. While he was away at trial, others in the Grafel operations had to pick up the slack and work additional hours that put significant stress on the Grafel farming operations.

331. On June 5 and continuing to June 6, 2017, Mr. Grafel was the first live witness to testify at the Kansas trial.

332. Following trial, Mr. Six and I have been in contact with Mr. Grafel about the status of the case and the proposed settlement. I spoke with Mr. Grafel before the agreement on the global settlement dollar amount was reached to discuss and seek his approval.

333. In total, counting all of these actions in support of the Kansas class, Mr. Grafel estimates that he spent more than 209 hours fulfilling his responsibilities as a Kansas class representative.

3. Kansas Class Representative Charles Frickey

334. Charles Frickey lives in Oberlin, Kansas, where he farms.

335. Steve Six primarily worked with Mr. Frickey throughout discovery in this litigation.

336. Prior to agreeing to be a class representative, Mr. Six worked with Mr. Frickey on

his potential claims and what it would mean to represent a class of Kansas farmers. Mr. Frickey additionally investigated his potential claims against Syngenta.

337. Once discovery began, Mr. Frickey was involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission. Mr. Frickey additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, Mr. Frickey estimates that he spent approximately 19 hours on these tasks.

338. In total, Mr. Frickey produced 34 documents totaling 120 pages in response to Syngenta's discovery requests.

339. Mr. Frickey was deposed on April 8, 2016 in Oberlin, Kansas. Mr. Six produced Mr. Frickey for his deposition.

340. Between his deposition and his preparation for his deposition with Mr. Six, Mr. Frickey estimates he spent approximately 11 hours on these tasks.

341. In anticipation of trial, Mr. Frickey spoke on the telephone with Mr. Six and Mr. Chaney and met in person in Kansas City with Mr. Chaney to prepare for his trial testimony.

342. In June 2017, Mr. Frickey attended a significant part of the Kansas MDL trial, which took him away from oversight of his farm.

343. Mr. Frickey testified live on June 7, 2017, on day 3 of the Kansas trial.

344. Following trial, Mr. Six has been in contact with Mr. Frickey regarding the proposed settlement.

345. In total, counting all of these actions in support of the Kansas class, Mr. Frickey estimates that he spent more than 107 hours fulfilling his responsibilities as a Kansas class

representative.

4. Nebraska Class Representative David Schwaninger

346. David Schwaninger lives in Martell, Nebraska, where he farms.

347. Steve Six and I primarily worked with Mr. Schwaninger throughout discovery in this litigation.

348. Prior to agreeing to be a class representative, Mr. Six and I worked with Mr. Schwaninger on his potential claims and what it would mean to represent a class of Nebraska farmers. Mr. Schwaninger additionally investigated his potential claims against Syngenta.

349. Once discovery began, Mr. Schwaninger was involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission. Mr. Schwaninger additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, Mr. Schwaninger estimates that he spent approximately 35 hours on these tasks, with a majority of the time spent on the collection of responsive documents.

350. In total, Mr. Schwaninger produced 2,298 documents totaling 9,342 pages in response to Syngenta's discovery requests.

351. Mr. Schwaninger was deposed on January 12, 2016, in Lincoln, Nebraska, which was approximately 20 miles from his home. Mr. Six produced Mr. Schwaninger for his deposition.

352. Between his deposition and his preparation for his deposition with Mr. Six, Mr. Schwaninger estimates he spent approximately 16 hours on these tasks.

353. Following the Kansas trial, Mr. Six and I have been in contact with Mr. Schwaninger regarding the status of the case and the proposed settlement.

354. In total, counting all of these actions in support of the Nebraska class, Mr. Schwaninger estimates that he spent approximately 51 hours fulfilling his responsibilities as a Nebraska class representative.

5. Bellwether Plaintiff Matt & Robin Bargen/Bar Cattle Limited Partnership

355. Matt and Robin Bargen live in Superior, Nebraska, where they farm individually and through the Bar Cattle Limited Partnership.

356. Steve Six primarily worked with the Bargens throughout discovery in this litigation.

357. Prior to agreeing to be class representatives, Mr. Six worked with the Bargens regarding their potential claims and what it would mean to represent a class of Nebraska farmers. The Bargens additionally investigated their potential claims against Syngenta.

358. Once discovery began, the Bargens were involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission. The Bargens additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, the Bargens estimate that they spent approximately 30 hours on these tasks, with a majority of the time spent on the collection of responsive documents.

359. In total, the Bargens produced 754 documents totaling 3,369 pages in response to Syngenta's discovery requests.

360. Matt Bargen was deposed on February 19, 2016, in Superior, Nebraska. Mr. Six produced Mr. Bargen for his deposition.

361. Between his deposition and his preparation for his deposition with Mr. Six, the

Bargens estimate they spent more than 13 hours on these tasks.

362. Following the Kansas trial, Mr. Six has been in contact with the Bargens regarding the proposed settlement.

363. In total, counting all of these actions in support of the Nebraska class, the Bargens estimate that they spent approximately 43 hours fulfilling their responsibilities as a Nebraska class representative.

6. Bellwether Plaintiff Robert Luck/H and R Operations/R and L Partnership

364. Robert Luck lives in Colby, Kansas, where he farms individually and through R & L Partnership and H & R Operations.

365. Steve Six primarily worked with Mr. Luck throughout discovery in this litigation.

366. Prior to agreeing to be a bellwether plaintiff, Mr. Six worked with Mr. Luck about his potential claims and what it would mean to be a bellwether plaintiff. Mr. Luck additionally investigated his potential claims against Syngenta.

367. Once discovery began, Mr. Luck was involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission. Mr. Luck additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, Mr. Luck estimates that he spent approximately 30 hours on these tasks, with a majority of the time spent on the collection of responsive documents.

368. In total, Mr. Luck produced 480 documents totaling 1,740 pages in response to Syngenta's discovery requests.

369. Mr. Luck was deposed on April 20, 2016, in Hays, Kansas, which is

approximately 100 miles from his home in Colby, Kansas. Mr. Six produced Mr. Luck for his deposition.

370. Between his deposition and his preparation for his deposition with Mr. Six, Mr. Luck estimates he spent more than 16 hours on these tasks.

371. Mr. Luck additionally spent 15 hours traveling to Kansas City to watch the Kansas trial. Upon arrival, Syngenta's attorneys invoked the rule to exclude Mr. Luck from watching the trial.

372. Following the Kansas trial, Mr. Six has been in contact with Mr. Luck regarding the proposed settlement.

373. In total, counting all of these actions as a bellwether plaintiff, Mr. Luck estimates that they spent approximately 61 hours fulfilling his responsibilities as a bellwether plaintiff.

7. Bellwether Plaintiff R&W Farms, Inc.

374. R&W Farms, Inc. is a farming entity in Wellfleet, Nebraska, which is farmed by Jane and Ben Widener.

375. Steve Six primarily worked with R&W Farms, Inc. throughout discovery in this litigation.

376. Prior to agreeing to be a bellwether plaintiff, Mr. Six worked with R&W Farms, Inc. about its potential claims and what it would mean to be a bellwether plaintiff. R&W Farms, Inc. additionally investigated its potential claims against Syngenta.

377. Once discovery began, R&W Farms, Inc. was involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission. R&W Farms, Inc. additionally produced supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, R&W Farms, Inc.

estimates that it spent approximately 24 hours on these tasks, with a majority of the time spent on the collection of responsive documents.

378. In total, R&W Farms, Inc. produced 2,106 documents totaling 6,915 pages in response to Syngenta's discovery requests.

379. On behalf of R&W Farms, Inc., Jane Widener was deposed on February 18, 2016, in North Platte, Nebraska, which is approximately 30 miles from Wellfleet, Nebraska. Mr. Six produced Ms. Widener for her deposition.

380. Between his deposition and his preparation for his deposition with Mr. Six, R&W Farms, Inc. estimates it spent more than 15.5 hours on these tasks.

381. Following the Kansas trial, Mr. Six has been in contact with R&W Farms, Inc. regarding the proposed settlement.

382. In total, counting all of these actions as a bellwether plaintiff, R&W Farms, Inc. estimates that they spent more than 39 hours fulfilling its responsibilities as a bellwether plaintiff.

8. Bellwether Plaintiff Orville Williams/Williams and Sons, Inc./ROR General Partnership

383. Orville Williams lives in Montezuma, Kansas, where he farms individually and through Williams and Sons, Inc. and ROR General Partnership.

384. Steve Six primarily worked with these Bellwether Plaintiffs throughout discovery in this litigation.

385. Prior to agreeing to be a bellwether plaintiff, Mr. Six worked with Mr. Williams about his potential claims and what it would mean to be a bellwether plaintiff. Mr. Williams additionally investigated his potential claims against Syngenta.

386. Once discovery began, Mr. Williams was involved in responding to the Plaintiff

Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission. Mr. Williams additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests. In total, with the investigation and responding to discovery, Mr. Williams estimates that he spent approximately 48 hours on these tasks, with a majority of the time spent on the collection of responsive documents.

387. In total, Mr. Williams produced 6,892 documents totaling 16,252 pages in response to Syngenta's discovery requests.

388. Mr. Williams was deposed on March 30, 2016, in Dodge City, which is approximately 30 miles from his home in Montezuma, Kansas. Mr. Six produced Mr. Williams for his deposition.

389. Between his deposition and his preparation for his deposition with Mr. Six, Mr. Williams estimates he spent approximately 14.5 hours on these tasks.

390. Following the Kansas trial, Mr. Six has been in contact with Mr. Williams regarding the proposed settlement.

391. In total, counting all of these actions as a bellwether plaintiff, Mr. Williams estimates that he spent approximately 62.5 hours fulfilling his responsibilities as a bellwether plaintiff.

9. Bellwether Plaintiff Gary Harshberger/Harshberger Enterprises

392. Gary Harshberger lives in Dodge City, Kansas, where he farms individually and through Harshberger Enterprises.

393. Steve Six primarily worked with Mr. Harshberger throughout discovery in this litigation.

394. Prior to agreeing to be a bellwether plaintiff, Mr. Six worked with Mr.

Harshberger about his potential claims and what it would mean to be a bellwether plaintiff. Mr. Harshberger additionally investigated his potential claims against Syngenta.

395. Once discovery began, Mr. Harshberger was involved in responding to the Plaintiff Fact Sheet, Syngenta's discovery requests, Syngenta's requests for production, Syngenta's interrogatories and Syngenta's requests for admission. Mr. Harshberger additionally produced an Amended Plaintiff Fact Sheet and supplemental responses to Syngenta's discovery written discovery requests.

396. In total, with the investigation and responding to discovery, Mr. Harshberger estimates that the Harshberger entities spent approximately 72 hours on these tasks, with a majority of the time spent on the collection of responsive documents.

397. In total, Mr. Harshberger produced 5,487 documents totaling 32,874 pages in response to Syngenta's discovery requests.

398. Mr. Harshberger was deposed on March 31, 2016, in Dodge City, Kansas. Mr. Six produced Mr. Harshberger for his deposition.

399. Between his deposition and his preparation for his deposition with Mr. Six, Mr. Harshberger estimates he spent approximately 17 hours on these tasks.

400. Following the Kansas trial, Mr. Six has been in contact with Mr. Harshberger regarding the proposed settlement.

401. In total, counting all of these actions as a bellwether plaintiff, Mr. Harshberger estimates that he spent more than 89 hours fulfilling his responsibilities as a bellwether plaintiff.

H. DEPOSITIONS OF NON-PRODUCER PLAINTIFFS

402. In addition to the depositions of the Producer Plaintiffs, Syngenta took the following depositions related to the Non-Producer Plaintiffs:

Witness	Non-Producer Plaintiff	Dates	Location
Robert Briscoe	Trans Coastal	05/17-18/2016	Chicago, IL
Ryan Ellington	Winnsboro Elevator	05/05-06/2016	Baton Rouge, LA
Minglu Li	Trans Coastal	6/3/2016	Los Angeles, CA
Gregory Molnar	Trans Coastal	6/14/2016	Minneapolis, MN
Pamela Moses	Trans Coastal	04/07-08/2016; 05/26-27/2016; 10/25/2016	St. Louis, MO
Todd Nimmo	Rail Tran	04/20-21/2016; 08/24/2016	Minneapolis, MN
David Stanko	Trans Coastal	6/9/2016	Alton, IL
Eric Woodie	Trans Coastal	6/7/2016	Houston, TX
James Woods	Rail Tran Expert	12/14/2016	Dallas, TX
James Woods	Trans Coastal Expert	12/20/2016	Alton, IL
Pauline Yang	Trans Coastal	6/2/2016	Los Angeles, CA

403. At trial for the Producer Plaintiffs, Syngenta played videotaped testimony from the deposition of Pamela Moses.

I. DEPOSITIONS OF SYNGENTA-RELATED INDIVIDUALS

404. The depositions of Syngenta's current and former employees occurred in countries on four continents: the United States; Great Britain; Hong Kong; and Australia. The four Co-Lead Counsel decided early on that we would not take unnecessary depositions. We took depositions of witnesses where the documents and facts supported that the deposition was likely to yield information necessary to the prosecution of the litigation. We played testimony from more than half of the depositions at trial.

405. In total, Plaintiffs in the MDL prepared for and took the following depositions:

	Witness	Dates	Location
1	Jessica Adelman	04/20-21/2016	Washington, DC
2	Miloud Araba	03/03-04/2016	Washington, DC
3	Jack Bernens	04/04-06/2016	Washington, DC
4	Michael Bierman	6/8/2016	Webster Groves, MO
5	Jingwen Chen	3/18/2016	Washington, DC
6	Scott Huber	01/27-29/2016	Washington, DC
7	Sarah Hull	03/23-24/2016	Washington, DC
8	Charles Lee	03/08-10/2016	Washington, DC

	Witness	Dates	Location
9	Michael Mack	04/28-29/2016	London, England
10	Duane Martin	01/29/2016; 02/09/2016	Washington, DC
11	Rex Martin	05/03-04/2016	Washington, DC
12	Andrew McConville	03/31-04/01/2016	Sydney, Australia
13	Paul Minehart	04/18-19/2016	Washington, DC
14	David Morgan	02/10-12/2016; 04/12-13/2016	Washington, DC
15	David O'Reilly	5/24/2016	Washington, DC
16	Grant Ozipko	3/7/2016	Washington, DC
17	Davor Pisk	04/21-22/2016	London, England
18	Cheryl Quain	1/19/2016	Washington, DC
19	John Ramsay	4/29/2016	London, England
20	Terese Rennie	2/23/2016	Washington, DC
21	David Roberts	3/15/2016	Washington, DC
22	Mark Sather	3/2/2016	Washington, DC
23	Pat Steiner	04/26-27/2016	London, England
24	Ponsi Trivisvavet	04/26-27/2016	Washington, DC
25	Abigail Vulcan	2/10/2016	Washington, DC
26	Dennis Ward	2/17/2016	Washington, DC
27	Jill Wheeler	03/17-18/2016	Washington, DC
28	Claire Xu	4/4/2016	Hong Kong
29	Lisa Zannoni	04/12-13/2016	Washington, DC
30	Lawrence Zeph	01/20-21/2016	Washington, DC
31	Yongsheng Zhang	03/21-24/2016	Washington, DC
32	Eddie Zhu	4/5/2016	Hong Kong

406. I took the lead on deposing Syngenta's witnesses who were involved with the application for Chinese regulatory approval of Viptera and Duracade and the Syngenta corporate representative designated to cover these issues:

- Jessica Adelman
- Miloud Araba
- Scott Huber
- Ponsi Trivisvavet
- Yongsheng Zhang

407. My partner Bradley Wilders took the depositions of two additional Chinese regulatory employees, Claire Xu and Eddie Zhu in Hong Kong, and Syngenta's Andrew McConville, Head of Corporate Affairs for Asia Pacific.

408. Syngenta required the use of translators for the depositions of Ms. Xu, Mr. Zhang

and Mr. Zhu.

409. These depositions were critical for four reasons. First, there was no way to subpoena documents directly from China, which made these depositions indispensable to establishing the timeline of Syngenta's Chinese applications and China's responses to these applications.

410. Second, these depositions were necessary to address Syngenta's claim, included in the jury instructions, that China's compliance with the international SPS Agreement "may be relevant to your consideration of whether China had a functioning regulatory system or whether China's conduct was a superseding cause." ECF No. 3302 at 18.

411. Third, these regulatory depositions provided essential details supporting our claim that China's regulatory system was functioning and that Syngenta's mistakes during the application process were to blame for Syngenta's Chinese application rejections. The record we developed showed not only the mistakes in the Viptera application, but the mistakes made in Syngenta's Duracade application process. We then contrasted these applications with the Chinese approval of Syngenta's GMO corn seed Enogen and how that GMO was approved by the Chinese regulators in a timely fashion due to the absence of the mistakes made in the Viptera and Duracade applications. We also developed the record that China's functioning regulatory process resulted in the approval of Syngenta's competitors GMO seed applications including GMO corn seed applications.

412. Fourth, this deposition testimony directly disputed Syngenta's superseding cause affirmative defense, which was included as a specific question in the Verdict Form given to the jury in the Kansas class trial. This defense was based primarily on the expert testimony of Philip Shull. The above record was critical in my cross-examination of Mr. Shull at trial.

413. Without this testimony and the record of the mistakes made in the Chinese application process, it would have been nearly impossible to impeach Mr. Shull and dispute Syngenta's claim that China rejected U.S. corn shipments for reasons unrelated to and independent of the presence of Viptera and Duracade. If accepted by the jury, Plaintiffs' claims would have been barred.

414. Syngenta's Chinese regulatory review group had a disproportionately large number of custodial documents relative to other witnesses. By way of example only, Yongsheng Zhang and Ponsi Trivisvavet each individually had more than 19,000 custodial documents, which does not include the thousands of additional non-custodial documents on which they were the author, the recipient or mentioned on the face of the document.

415. From these Chinese regulatory documents, we put together a series of comprehensive regulatory timelines for Syngenta's Viptera, Duracade and Enogen, and Syngenta's internal and external discussions of the application processes for these GMO products.

416. For Viptera, we tracked each of Syngenta's applications to China for approval of MIR162. These applications began in March 2010 and continued through December 2014, when MIR162 was finally approved by China.

417. We similarly tracked the application history for Syngenta's Event 5307 for its Duracade GMO seed.

418. From our review and analysis of the documents produced by Syngenta, including documents in Chinese, we assembled all of Syngenta's internal discussions about the status and problems with these applications and compared them with Syngenta's public statements regarding when Chinese approval was expected. As an additional comparison, we created a

timeline of Syngenta's Chinese application for its Enogen GMO product, which was approved within the expected period of time.

419. These documents were critical in the depositions of Syngenta's employees, the cross-examination of Syngenta's Chinese regulatory expert at his deposition and at trial in Kansas.

420. At trial and as reflected in the Trial Transcripts, we ultimately played or read deposition excerpts from 18 of these depositions:

- Jessica Adelman
- Miloud Araba
- Jack Bernens
- Scott Huber
- Sarah Hull
- Charles Lee
- Michael Mack
- Duane Martin
- Andrew McConville
- Paul Minehart
- David Morgan
- Grant Ozipko
- Davor Pisk
- Dennis Ward
- Jill Wheeler
- Lisa Zannoni
- Yongsheng Zhang
- Eddie Zhu

421. In my opinion, these depositions provided essential context to the jurors about Syngenta's actions, including mistakes Syngenta made in their Chinese application process, Syngenta's knowledge of risk of harm to farmers from premature commercialization and its superseding cause affirmative defense.

XI. THIRD PARTY DISCOVERY

A. THIRD PARTY SUBPOENAS

422. Ms. Schwartz and Steve Six worked with attorneys at Co-Lead Counsel law firms

and additional coordinated counsel in drafting and serving subpoenas on third parties likely to have information relevant to this litigation.

423. We served subpoenas on entities including the following: Louis Dreyfus Commodities LLC on or about March 4, 2016; Bunge North America, Inc. on or about March 4, 2016; Gavilon Grain, LLC on or about March 4, 2016; CHS, Inc. on or about March 15, 2016; American Soybean Association on or about April 8, 2016; and CropLife America, Inc. on or about April 8, 2016.

424. Plaintiffs and Defendants both served subpoenas on at least the following entities:

- North American Export Grain Association, Inc. ("NAEGA")
- National Grain and Feed Association ("NGFA")
- American Seed Trade Association ("ASTA")
- Biotechnology Innovation Organization ("BIO")
- U.S. Grains Council ("USGC")

425. Syngenta additionally served subpoenas on the following additional entities:

- National Corn Growers Association ("NCGA")
- Agdia, Inc.
- Envirologix Inc.
- Eurofins Analytical Laboratories Inc.
- Genetic ID NA, Inc.
- Omic USA Inc.
- Romer Labs Diagnostic GmbH
- SGS North America Inc.

426. Extensive meet and confer discussions, primarily handled by Steve Six and Rachel Schwartz, were conducted with many of these non-parties to negotiate the scope of these subpoenas in an attempt to avoid any under burden or expense and to negotiate search terms for responsive ESI. These negotiations took multiple weeks.

427. These subpoenaed parties produced in excess of 170,000 pages of documents.

428. Ultimately, depositions were taken of the following subpoenaed, non-parties:

Witness	Entity	Dates	Location
Paul Bertels	National Corn Growers Association	5/11/2016	St. Louis, MO
Nathan Fields	National Corn Growers Association	05/09-10/2016	St. Louis, MO
Max Fisher	National Grain and Feed Association	05/03-04/2016	Washington, DC
Randall Gordon	National Grain and Feed Association	06/06/2016; 06/08/2016	Washington, DC
Andrew LaVigne	American Seed Trade Association	6/2/2016	Washington, DC
Bryan Lohmar	United States Grains Council	06/23-24/2016	Washington, DC
Gary Martin	North American Export Grain Association	06/02-03/2016	Washington, DC
Matthew O'Mara	Biotechnology Innovation Organization	06/28-29/2016	Washington, DC
Thomas Sleight	United States Grains Council	06/22-23/2016	Washington, DC

429. From my firm, Steve Six attended the deposition of Max Fischer and asked questions of the witness. Co-Lead Counsel assigned the Greene Espel firm with the responsibility to take the lead and question the witness first in the Fisher and Gordon depositions. Mr. Chaney took the lead and questioned the witness first for plaintiffs in the O'Mara deposition, and attended and asked questions at the Sleight deposition. No questions were asked by counsel for any plaintiffs in Bertels, LaVigne, or Lohmar.

430. At trial, we played testimony from only the depositions of Gary Martin and Paul Bertels.

431. Many of the subpoenaed groups that were deposed represent trade groups for the biotechnology industry. Syngenta was able to obtain a significant amount of favorable testimony from these industry groups and ultimately played video clips from the depositions of Matthew O'Mara, Nathan Fields, Gary Martin and Thomas Slight.

B. ADM AND CARGILL

432. The Coordination Order states that "depositions taken in a Coordinated Action

may be used in the MDL Proceeding for any purposes . . . as if they had been taken under the applicable civil discovery rules of the MDL Proceeding, provided, however, that MDL Plaintiffs' Liaison Counsel shall receive written advance notice of a deposition to be taken in the Coordinated Action." ECF No. 1099 at 9.

433. Throughout the litigation, Syngenta cross-noticed in the MDL the following depositions of 40 individuals deposed in the ADM and Cargill lawsuits:

	Witness	**Company**	**Dates**	**Location**
1.	Pablo Altuna	ADM	9/29/2016	Chicago, IL
2.	Robert Aspell	Cargill	07/07-08/2016	Hong Kong
3.	William Barksdale	Cargill	06/16-17/2016	Minneapolis, MN
4.	David Baudler	Cargill	05/16-17/2016; 06/14-15/2016	Minneapolis, MN
5.	Steven Becraft	Cargill	6/27/2016	Minneapolis, MN
6.	Brett Bell	Cargill	6/28/2016	Minneapolis, MN
7.	Timothy Bodin	Cargill	06/16-17/2016	Minneapolis, MN
8.	Christopher Boerm	ADM	06/20-21/2016	Chicago, IL
9.	Elliott Brammer	ADM	6/8/2016	Chicago, IL
10.	David Buchanan	Cargill	8/17/2016	Bend, OR
11.	Jerrity Chen	Cargill	07/05-06/2016	Hong Kong
12.	Henry Cooklin	ADM	5/25/2016	Chicago, IL
13.	Cheryl Eldstrom	Cargill	12/13/2016	Minneapolis, MN
14.	Stefan Fiedler	ADM	7/15/2016	Chicago, IL
15.	Brent Flickinger	ADM	06/30/2016; 07/08/2016	Chicago, IL
16.	Nick Friant	Cargill	6/13/2016	Minneapolis, MN
17.	Matt Giltner	ADM	10/14/2016	Chicago, IL
18.	Randal Giroux	Cargill	05/16-17/2016; 06/09-10/2016	Minneapolis, MN
19.	Richard Grabiel	ADM	09/08-09/2016	Springfield, IL
20.	Stefanie Gummelt	ADM	7/22/2016	Chicago, IL
21.	William Hale	Cargill	05/18-19/2016; 06-29-30/2016	Minneapolis, MN
22.	Arvid Hawk	Cargill	7/25/2016	Minneapolis, MN
23.	JuHui Huang	ADM	09/22-23/2016	Chicago, IL
24.	Maurice Hurst	Cargill	12/16/2016	Minneapolis, MN
25.	Douglas Johns	ADM	07/18-19/2016	Chicago, IL
26.	Corey Jorgenson	Cargill	05/25-26/2016	Minneapolis, MN
27.	Andrew Keighin	ADM	5/26/2016	Chicago, IL
28.	Dinh Lai	Cargill	7/27/2016	Washington, DC
29.	Chris Langholz	Cargill	6/29/2016	Minneapolis, MN

	Witness	Company	Dates	Location
30.	Oscar Li	Cargill	08/23-24/2016	Hong Kong
31.	Sean Miller	ADM	6/2/2016	Chicago, IL
32.	Anthony Reed	ADM	06/01/2016; 06/03/2016; 10/14/2016	Washington, DC
33.	Alex Sanfeliu	Cargill	06/23-24/2016	London, England
34.	Steven Smalley	Cargill	5/18-19/2016; 2/16/2017	Minneapolis, MN
35.	Mark Stonacek	Cargill	03/24/2017; 05/23-24/2016	Minneapolis, MN
36.	Joseph Taets	ADM	06/25-26/2016	Chicago, IL
37.	Wes Uhlmeyer	ADM	06/15-16/2016; 6/23/16	Chicago, IL
38.	Stephen Von Lamezan	ADM	7/12/2016	Chicago, IL
39.	Andrew Wong	Cargill	08/29-31/2016	Hong Kong
40.	Jason Xu	Cargill	08/25-26/2016	Hong Kong

434. Because these depositions could be used in the MDL for any purpose, Co-Lead Counsel believed it was necessary to appear at these depositions to preserve objections and to ask questions of these witnesses. Co-Lead Counsel personally or counsel at the Co-Lead firms appeared at each of the depositions.

435. Because Cargill fact witnesses were important to the standard of care issues as well as the Chinese regulatory approval process and superseding cause issues, I prepared for and extensively participated in the following Cargill depositions: William Hale on June 29-30, 2016; Steven Becraft on June 27, 2016; Dr. Giroux on May 16-17 and June 9-10, 2016; and Steve Smalley on May 18-19, 2016.

436. These depositions required extensive review of Cargill and ADM documents and put additional strain on what was already a very short window in which to complete the affirmative discovery needed by Plaintiffs in the MDL.

437. At the Kansas trial, we played an excerpt from the deposition of Anthony Reed from ADM and used Dr. Giroux as a live expert witness.

438. Syngenta played video excerpts from David Baudler, David Buchanan, Richard

Grabiel, Matt Giltner, Alex Sanfeliu, Stephen Smalley, William Hale and Andrew Wong.

XII. CLASS CERTIFICATION

439. In preparing to file the motion for class certification, I and my fellow Co-Leads extensively discussed that class certification had been denied in arguably the most closely analogous lawsuit.

440. In 2008, the Honorable Catherine Perry denied class certification in a lawsuit involving lost market opportunities when unapproved genetically-modified rice contaminated the supply. She found that the individual damages issues predominated over the common issues asserted by the class representatives. "I am not persuaded that the calculation of damages in this case is a common issue. What plaintiffs have proposed is a convenient shorthand calculation that might represent an estimate of some damages for some plaintiffs. For many plaintiffs, such an award might even be a fair and equitable compensation for their alleged loss. It might be a reasonable basis on which to reach a settlement of the claims. But plaintiffs' proposed method for calculating damages does not represent an actual *adjudication* of any one plaintiff's claims. Rather, calculation of actual damage is an individual issue specific to each plaintiff in this case, involving a unique inquiry into the time, place, and manner in which each plaintiff both priced and sold his rice." *In re Genetically Modified Rice Litig.*, 251 F.R.D. 392, 398 (E.D. Mo. 2008).

441. In anticipation that Syngenta would challenge class-wide damages in this litigation, we engaged two of the country's most distinguished agricultural economists to explain how damages in this litigation could be reasonably calculated on a class-wide basis. Don Downing and I worked with them extensively to ensure that their methodologies and analyses were sound, reliable, and would withstand the attacks that we expected Syngenta to raise against us.

442. Dr. Bruce Babcock is a Professor of Economics at Iowa State University who has studied the commodity corn market for more than 25 years.

443. Dr. Colin Carter is a Distinguished Professor of Agricultural and Resource Economics at the University of California, Davis. He has studied commodity markets for over 36 years and is a Fellow of the American Agricultural Economics Association, the profession's highest honor.

444. Dr. Carter and Dr. Babcock performed independent analyses of the impact of the premature commercialization of MIR162 and Event 5307 on the United States corn market.

445. Dr. Babcock used a multi-year, competitive-storage model to account for the impact on the corn price from Syngenta's actions. Ultimately, he was able to calculate the per-bushed decline in corn prices as a result of the loss of Chinese demand for U.S. corn. He calculated an aggregate amount of damage nationwide, which was capable of being further broken down on a state-by-state level.

446. Dr. Carter used an event study to measure class-wide injury and aggregate damages. Dr. Carter discovered a structural break between price of corn and the price of sorghum, a close feed substitute. Dr. Carter identified that the price of corn began to drop in September 2013 and he was able to calculate the per-bushel drops in the price of U.S. corn on a weekly basis, which were used to calculate the aggregate damages for the class for each marketing year.

447. On June 15, 2016, both economists served expert reports in support of class certification, laying out their damages methodology. Plaintiffs also filed their motion and memorandum in support seeking to certify a nationwide class under the Lanham Act and eight state class actions asserting Lanham Act and common law claims. ECF Nos. 2156, 2164. On

June 28, 29 and July 6, we produced both experts for deposition.

448. In support of the motion for class certification, we collected, prepared and submitted a tremendous amount of supporting evidence. In addition to the expert materials, we included a twelve-page summary (Appendix B) of thousands of pages of deposition testimony from the class representatives for the nationwide and state classes supporting that corn is priced based on the CBOT, that the Plaintiffs were proper representatives, and that they were part of the proposed classes. We also included 61 separate exhibits of evidence supporting class certification. In total, the memorandum in support of the class certification was 1,627 pages long. *See generally* ECF No. 2164. Preparation of the Memorandum and supporting evidence was a collective effort on the part of all four Co-Lead Counsel firms and several other common-benefit firms with discrete tasks assigned to individual lawyers where all work product was then finalized and reviewed by one of the Co-Lead firms. We shared the draft of our brief, and the expert reports, with Minnesota interim class counsel.

449. Plaintiffs' motion was attacked on two fronts. First, Syngenta filed a voluminous opposition, totaling nearly 1,000 pages inclusive of exhibits. ECF No. 2335. Unlike most class actions, Syngenta had and drew upon an extensive record that included individualized discovery aimed at putative class members, including over 110 producer depositions and 30,000 plaintiff facts sheets from the MDL and Minnesota litigation.

450. Its submission also included three expert reports: Mr. Charles E. Finch, Prof. Daniel R. Fischel, and Dr. Walter N. Thurman. I took the lead in analyzing Mr. Finch's report. I additionally assisted Mr. Downing in the analysis of Mr. Fischel and Dr. Thurman's reports.

451. All three experts were deposed: I deposed Mr. Finch on August 9, 2016; and Mr. Downing deposed Dr. Thurman on August 8, 2016, and Professor Fischel on August 11, 2016.

Mr. Downing and I worked together ahead of these depositions to coordinate the cross-examinations of all three critical witnesses and we both attended all three depositions.

452. Among other arguments, Syngenta's opposition brief attacked the ascertainability of the class and, similar to the successful arguments in the *Rice* litigation, the individualized nature of the claims and damages, both of which were alleged to defeat commonality and predominance. *See generally id.*

453. Second, the Phipps/Clark Plaintiffs filed an opposition memorandum. ECF No. 2348. Numerous ancillary briefs were drafted and filed relating to this memorandum. This opposition primarily attacked Plaintiffs' damages models from Drs. Carter and Babcock, alleging that the models were unreliable and failed to establish common class-wide damages. *See id.*

454. In support of this Opposition, the Phipps/Clark Plaintiffs attached a joint expert report that attacked the expert reports from Drs. Babcock and Carter that was authored, prepared and approved by five experts and that contained four additional signatures of experts that purportedly agreed and approved of the conclusions in the report. *See* ECF No. 2348 at Ex. A.

455. On August 17, 2016, Plaintiffs' reply in support of their class certification motion and supporting exhibits totaled more than 1,900 pages, including 106 pages of argument and rebuttal declarations from Dr. Carter and Dr. Babcock that responded to the Phipps/Clark Plaintiffs' experts. ECF No. 2436. Like the initial motion, the reply was the product of collective work in which we assigned discrete tasks to other law firms, which were then incorporated and reviewed. In many ways, preparing the reply was a tremendous effort because of the size of the record in this case. Unlike most class actions, where there is little or no absent class member discovery, there was a huge record developed as part of the bellwether process in the MDL and in Minnesota, which was fair game for Syngenta to rely upon under the

Coordination Order. Many of Syngenta's arguments were fact-based, such as its ascertainability and its predominance arguments. In replying to its arguments, we collected rebuttal evidence from dozens of producer depositions and document productions, organized in over 1,000 pages of Appendices. ECF No. 2436. We shared this reply with Minnesota as well.

456. We additionally briefed the propriety of the Phipps/Clark Plaintiffs' expert report, responded to Syngenta's attempts to strike certain evidence and Syngenta's request for an evidentiary hearing, which the Court granted. ECF No. 2492.

457. On August 16, 2016, Syngenta requested an evidentiary hearing in response to Plaintiffs' reply brief. ECF No. 2418-19. We prepared and filed an opposition to that brief on August 24, 2016. ECF No. 2456. The Court granted Syngenta's motion in part, permitting the evidentiary hearing, but only permitting a party to call the opposing side's expert for cross-examination. The Court treated the expert reports as the direct testimony of the proponent.

458. The Court conducted a two-day hearing on the class certification motion on September 13, 2016. Syngenta chose to cross examine Drs. Carter and Babcock at the hearing, and Don Downing handled the rebuttal examination of those witnesses. We chose not to call Syngenta's experts. These examinations were attended by the Minnesota court as well.

459. On September 14, 2016, Don Downing argued on behalf of Co-Lead Counsel argued in favor of certifying the class. Collectively, we spent significant amounts of time preparing for the argument, ultimately submitting to the Court an 89-page PowerPoint presentation summarizing the argument.

460. On September 26, 2016, the Court granted the motion and certified the nationwide and eight state classes. ECF No. 2547.

461. This ruling, which was the first class certification decision in any Syngenta corn

case, materially changed the dynamics of the litigation. Rather than undertaking the time and expense of trying individual cases, we could now proceed with class trials, which greatly increased Syngenta's risk.

462. Co-Lead Counsel drafted and filed our Motion for Approval of Class Notice and supporting Memorandum and exhibits. ECF No. 2598-99.

463. The notice drew objections from the Toups/Coffman Plaintiffs, ECF No. 2642, the Craig Eiland Plaintiffs, ECF No. 2645, and the Phipps/Clark Plaintiffs, ECF No. 2660.

464. On November 23, 2016, the Court approved a revised draft of the notice. ECF No. 2703.

465. Bradley Wilders took the lead in working with Analytics LLC to administer the notice.

XIII. EXPERT DISCOVERY

466. In the MDL, Plaintiffs disclosed the following experts:

- Bruce Babcock
- Colin Carter
- Randy Giroux
- Joe Keaschall
- Kevin Latner
- Dirk Maier[10]

467. These experts, who included two agricultural economists, intended to testify on issues related to the standard of care for the commercialization of new GMOs, the efficacy of Syngenta's new GMO corn seeds, the Chinese regulatory system, agricultural economics, and damages. Reports for these experts were shared with the Minnesota litigation, and I understand used there as well.

[10] Plaintiffs originally designated Bernard Black and David Teece, but both experts were voluntarily withdrawn. ECF No. 2988. Plaintiffs additionally designated Eric C. Frye to provide individual economic analyses of specific plaintiffs.

468. I, along with others at my firm, took the lead role in searching for and retaining potential liability experts, including those intended to testify regarding the Chinese regulatory system, Syngenta's standard of care and the efficacy of Syngenta's new GMO corn seeds. Experts who had any connection to the biotechnology industry were ultimately conflicted-out, making our efforts to find qualified experts extremely challenging.

469. Ultimately, we retained, prepared and produced for their depositions the following damages and liability experts: Dr. Babcock and Dr. Carter (who were produced for deposition twice and once at the evidentiary hearing on class certification); Dr. Giroux; Dr. Maier, Mr. Latner, and Mr. Keaschall. Dr. Babcock, Dr. Carter, Dr. Keaschall, and Dr. Giroux testified at the Kansas trial and did or were expected to testify at the Minnesota trial. Mr. Paul, from the EC, assisted with the preparation of Mr. Latner and initially identified and retained Mr. Maier.

470. The Co-Leads divided up our work with these experts. Stueve Siegel Hanson took the lead on preparing and producing Randy Giroux and Kevin Latner and I worked with Mr. Downing on the damages experts, Dr. Carter and Dr. Babcock. We spent months reviewing drafts of expert reports, discussing the opinions with the experts, and preparing and defending their depositions.

471. Not including exhibits, Kevin Latner's expert report was 562 paragraphs over 77 pages. Based on his experiences working in China, he concluded, among others, that China has a functioning regulatory system for the review and approval of new genetically-modified traits.

472. As a non-retained expert, Dr. Giroux did not provide a report. Rather, pursuant to Rule 26, Bradley Wilders and I, working with counsel at Greene Espel, prepared a six-page disclosure identifying the areas that Dr. Giroux was expected to testify about, with citations to his prior deposition testimony, including the standard of care and practices within the

biotechnology and grain industry with regard to the commercialization of new biotech traits. He additionally disclosed that he expected to testify about Syngenta's breach of the standard of care and that, unlike other biotechnology companies, Syngenta had repeatedly commercialized biotech traits in an unreasonable manner.

473. I prepared and produced Mr. Latner for his deposition in Kansas City on October 28, 2016.

474. Syngenta also asked to depose Dr. Giroux again. We objected on the grounds that Dr. Giroux had already been deposed several times as a third-party witness. On October 20, 2016, the parties submitted a joint motion identifying the dispute to the Court. Judge O'Hara permitted a further deposition, but imposed strict limitations on it. I defended the deposition of Dr. Giroux on November 16, 2016 in Minneapolis, Minnesota.

475. On January 13, 2017, Syngenta disclosed or produced new expert reports for the following 12 experts in the Kansas MDL proceedings:

- J. Thomas Carrato
- Philip Shull
- Travis Milne, non-retained expert
- William Sheppard, non-retained expert
- Alan McHughen
- Walter Thurman
- Barry Goodwin
- Robert Daines
- Antony Page
- Daniel Fischel
- Quentin Mimms
- Hongjun Zhang

476. These experts intended to testify on subjects including the USDA process for approving new GM products, the U.S. commodity system, routes of transgenic contamination, industry standards for commercialization of new GM crops, China's regulatory system and purported political manipulation of this system, Chinese law on sale, shipping and import/export

of foreign agricultural products containing GM traits, and damages.

477. My firm took the lead on responding to the expert testimony from Mr. Carrato and Mr. Shull and I also assisted Mr. Downing with his depositions of Mr. Fischel and Dr. Thurman.

478. In his Expert Report, Mr. Carrato opined that Plaintiffs were seeking to impose an unreasonable standard on biotechnology companies like Syngenta regarding the commercialization of U.S.-approved corn seed products. He stated that Syngenta did not need to wait for Chinese approval before commercializing a U.S.-approved corn seed product because China lacks a functioning regulatory system and waiting would effectively give China veto power over the commercialization of new biotech. As the purported author of the BIO Policy, Mr. Carrato's testimony could potentially have carried significant weight with the jury.

479. As a basis for his expert analysis, Mr. Carrato relied in part on his 21 years of experience in Monsanto's General Counsel's office and his experiences with Monsanto's development and commercialization of new biotech products.

480. In preparing to depose Mr. Carrato, my firm drafted and served a subpoena duces tecum seeking 19 categories of documents responsive to his expert testimony, including actions undertaken by Monsanto in commercializing new biotech traits and his knowledge of industry practices with regard to commercialization.

481. On January 6, 2017, we filed the notice of this subpoena duces tecum, which additionally confirmed that Mr. Carrato's deposition would occur on January 19th. ECF No. 2782.

482. On January 18, 2017, Monsanto filed an emergency motion to intervene to protect Monsanto's attorney-client information and information protected by confidentiality clauses in

Mr. Carrato's employment and consulting agreements with Monsanto. ECF No. 2813. I received a copy of the motion while flying to San Francisco to take the deposition of Mr. Carrato, scheduled for January 19, 2017.

483. On January 19, 2017, I participated in an emergency telephonic hearing conducted by the Court to discuss the motion to intervene. The Court granted Monsanto the right to intervene and to attend the deposition in person. The Court additionally moved the deposition of Mr. Carrato to Saturday-Sunday, January 28-29, 2017, during which Judge O'Hara would attend and preside over the deposition in-person to resolve any objections. ECF No. 2819.

484. On January 26, 2017, Monsanto filed a motion to quash the subpoena. ECF No. 2834.

485. I took the lead in questioning Mr. Carrato on the first day of his deposition. Throughout the deposition, counsel for Monsanto objected repeatedly on the basis of Monsanto's attorney-client privilege and Judge O'Hara resolved those objections throughout the depositions.

486. Following the two-day deposition, my firm drafted and filed a Motion to Strike Mr. Carrato from providing expert testimony in this litigation, ECF No. 2904, and a combined motion to compel materials and a response to Monsanto's motion to quash, ECF No. 2903. After analyzing the opposition to the motion to compel, we additionally drafted and filed a reply in support of our motion to compel. ECF No. 2939.

487. On February 27, 2017, the Court entered an order regarding the *in camera* review of certain documents that were withheld on the basis of privilege. ECF No. 2938. In response to the Court's order requiring that the Parties group and categorize certain representative documents for review, my firm took the lead in that endeavor, providing a list of documents for *in camera* review to the Court.

488. On March 7, 2017, Special Master John B. Van de North, Jr. and Judge O'Hara issued a Joint Discovery Order setting deadlines related to this privilege dispute. ECF No. 2979.

489. In a subsequent order on March 15, 2017, the Court required the production of certain documents previously withheld on the basis of privilege. ECF No. 3013.

490. On April 6, 2017, Syngenta officially withdrew Mr. Carrato as an expert in this litigation, which removed Syngenta's only standard of care expert from Syngenta's defense. ECF No. 3059. It also withdrew Mr. Carrato in Minnesota.

491. Syngenta's expert Philip A. Shull provided a 67-page report expounding on the Chinese approval system, stretching back to food shortages in the 1950s, China's food security policy and how that policy purportedly affects its regulatory system. He additionally opined on that China's rejection of U.S. corn due to the presence of MIR162 was pretextual, China was not a "key market" for U.S. corn, China's agricultural trade policies are contrary to WTO rules, China misuses its regulatory process to erect trade barriers, and that China should not be given control over advances in U.S. corn seed technology.

492. On January 27, 2017, I took the full-day deposition of Mr. Shull in Washington D.C.

XIV. SYNGENTA'S 23(F) APPEAL

493. On October 11, 2016, Syngenta filed its Rule 23(f) Petition for Permission to Appeal Class Certification Order.

494. If granted, this Petition likely would have delayed the June 2017 trial and put at substantial risk the chance of trying Plaintiffs' claims as class actions. There was a substantial likelihood that the Tenth Circuit might accept the appeal, given the high stakes and value of the class claims. Moreover, Syngenta argued that there were two important legal issues unresolved in the Tenth Circuit: the ascertainability standard, which it contended was subject to a Circuit-

split, and the applicability of the evidentiary standard at class certification post-*Tyson* in pre-trial class certification order. It also pointed to the number of individual cases excluded from the class and those filed in Illinois and Minnesota.

495. In my opinion, the elimination of the class mechanism likely would have substantially decreased the overall value of these cases because of the substantial increase in costs and risks in trying producer cases individually and the greater likelihood that an individual case would lead to appellate review of the key legal rulings in the case, such as duty and ELD.

496. Plaintiffs filed their Answer to the Petition on October 21, 2016. This Answer explained that an immediate appeal was unwarranted because there were neither issues unlikely to evade received end-of-case review nor unsettled issues of law other than those that typically arise in class actions.

497. While the Petition was on appeal, both sides submitted and responded to submissions of supplemental authorities, and Plaintiffs opposed Syngenta's request to file a reply brief.

498. On December 7, 2016, the Tenth Circuit denied the Rule 23(f) Petition because the "district court's rulings in the order granting class certification are well-researched and reasoned, and, if any rulings are in error, those errors can be addressed on appeal, if necessary." *In re Syngenta AG MIR162 Corn Litigation*, Case No. 16-607, at 3 (10th Cir. Dec. 7, 2016).

XV. SUMMARY JUDGMENT BRIEFING

499. On February 6, 2017, Plaintiffs and Syngenta both filed summary judgment motions.

500. On behalf of the Plaintiffs, we filed a motion for partial summary judgment and memorandum in support on certain affirmative defenses raised by Syngenta, including assumption of risk, comparative fault, mitigation, intervening and superseding cause and the

purported business and economic justification. *See* ECF Nos. 2858, 2859. The memorandum and supporting exhibits totaled more than 1,900 pages and asserted 123 statements of undisputed facts. ECF No. 2859.

501. Syngenta's opposition totaled more than 2,000 pages, inclusive of exhibits. ECF No. 2947.

502. In our reply, we responded to Syngenta's 208 statements of additional material fact and the legal arguments raised in opposition. ECF No. 2994.

503. Although the briefs were extensive, work was confined almost exclusively, or nearly exclusively, to the four Co-Lead Counsel firms. My firm and Mr. Downing's firm took the lead on Plaintiffs' motion for summary judgment. Mr. Powell's firm took the lead on preparing and responding to an extensive statement of facts opposing Syngenta's motions and on arguments opposing Syngenta's request that punitive damages be thrown out of the case. Mr. Downing's firm was responsible for responding to Syngenta's proximate-cause arguments, which were extensive and detailed. My firm was responsible for responding to Syngenta's arguments for judgment on any claims related to limited launch and Duracade. And, Mr. Chaney's firm took the lead on responding to Syngenta's arguments for judgment on the Lanham Act and misrepresentation claims.

504. Syngenta's motion sought dismissal of "all claims asserted by the Nationwide Lanham Act Class and Kansas State Class." ECF No. 2860 at 2. Syngenta's memorandum was 121 pages and included 137 paragraphs of purportedly undisputed materials facts. ECF No. 2861.

505. In support of its motion, Syngenta attached 323 exhibits, totaling more than 2,900 pages. *See generally* ECF No. 2861.

506. The response to this summary judgment motion was one of the most complicated in my 30-year career. Plaintiffs' opposition to Syngenta's summary judgment and supporting exhibits totaled more than 9,000 pages. ECF Nos. 2940-46.

507. We drafted 587 statements of additional facts that canvassed the totality of the discovery in this litigation, including excerpts from depositions taken across the world to citations to documents produced by Syngenta and third parties throughout the course of the litigation. We additionally included factual responses to Syngenta's 137 paragraphs of material facts, nearly all of which were materially disputed. ECF No. 2940.

508. On April 5, 2017, the Court entered a comprehensive Memorandum and Order granting in part and denying in part both motions. ECF No. 3051. With regard to Plaintiffs' motion, the Order substantially narrowed the affirmative defenses Syngenta could raise at trial, including certain applications of intervening cause, assumption of the risk, mitigation, business and economic justification, antitrust preemption, and comparative fault. ECF No. 3051.

509. While the Court did dismiss Plaintiffs' Lanham Act claim, this is an issue that Plaintiffs would have appealed to the Tenth Circuit.

XVI. *DAUBERT* MOTIONS

510. In total, Co-Lead Counsel filed motions to exclude Syngenta experts in whole or in part. *See* ECF Nos. 2868 (Philip Shull), 2871 (Travis Milne), 2912 (William Sheppard), 2877 (Alan McHughen), 2884 (Walter Thurman) and 2886 (Barry Goodwin).

511. My firm took the lead on drafting the motion to exclude Philip Shull, which we shared with Minnesota counsel.

512. Syngenta ultimately filed motions to exclude all of Plaintiffs' experts. *See* ECF Nos. 2863 (Dirk Maier), 2866 (Joe Keaschall), 2870 (Kevin Latner), 2876 (Randal Giroux), 2888 (Dr. Bruce Babcock) and 2892 (Dr. Colin Carter).

513. My firm took the lead on responding to Syngenta's motions to exclude Plaintiffs' experts Randal Giroux and Kevin Latner.

514. On May 4, 2017, the Court entered its Memorandum and Order resolving all of the motions to exclude experts. ECF No. 3134.

515. Plaintiffs' motion to exclude Dr. Goodwin was granted in its entirety. ECF No. 3134. This was a significant victory because it eliminated Syngenta's alternative damages model, which left the jury with only the damages model proposed by Plaintiffs' experts. It additionally eliminated Dr. Goodwin's criticisms of Dr. Carter's economic analysis.

516. Ultimately none of our experts were struck in their entirety. The Court denied in their entirety Syngenta's motions to exclude Mr. Keaschall and Dr. Babcock and denied in part the remaining motions to exclude experts for both sides. ECF No. 3134.

XVII. KANSAS TRIAL, JUNE 2017

A. SYNGENTA'S TRIAL TEAM

517. Syngenta brought in additional counsel from Kirkland & Ellis to try this first bellwether class trial.

518. On May 10 and 11, 2017, Mike Brock and Leslie M. Smith, from Kirkland's Washington D.C. and Chicago offices respectively, entered their appearances as counsel of record for Syngenta. ECF Nos. 3149-50.

519. I understood these actions as further evidence of Syngenta's commitment to trying these cases. Mr. Brock had previously served as the lead trial lawyer for BP in the Deepwater Horizon oil spill litigation and as national trial counsel for Merck in a variety of drug cases.[11]

520. Syngenta's trial team involved at least eight different Kirkland partners with

[11] *See* https://www.kirkland.com/sitecontent.cfm?contentID=220&itemid=11248.

additional assistance from associates and support staff, including jury consultants. Throughout the litigation, at least three additional Kirkland partners and additional associates participated in discovery and oral arguments before the Court.

521. Syngenta was additionally represented at trial by two partners from Berkowitz Oliver LLP, a well-known and well-respected law firm in Kansas City.

B. PRE-TRIAL WORK

522. Throughout the litigation, Syngenta' statements at status conferences and its actions showed that it did not intend to settle this litigation before trial.[12]

523. Because of these statements, from the very beginning of the litigation I assumed that at least one trial would occur in this litigation and prepared accordingly.

524. To prepare for trial, the Co-Leads worked with trial consultants in helping to shape the themes and demonstrative exhibits for trial. The Co-Leads additionally conducted one focus group and one mock trial.

525. The Co-Leads and additional attorneys who were on the trial team met with a trial consultant with whom I have worked for nearly 20 years. We met with him on three separate occasions: the week of October 26, 2015; the week of October 31, 2016; the week of April 10, 2017. The first session was designed to create the initial trial themes that the Co-Lead Counsel would attempt to establish through discovery. The second and third sessions were focused on the creation of trial demonstratives, and refining those themes and the presentation of evidence.

[12] *See, e.g.*, Tr. of Feb. 3, 2015 Scheduling Conference (ECF No. 127) at 81:20-24 ("Your Honor, we agree it's premature and it's an issue for later. On Syngenta's part, we're in it for the long haul and we're going to litigate. We believe it to be dismissed. And if not dismissed at the pleadings stage, take the case to trial."); Tr. of Feb. 12, 2016 Telephone Conference (ECF No. 1552) at 16:13-21 ("So that, while we absolutely will cooperate with any guidance from the court or suggestions from the court, in terms of a settlement tract, it's not something that either the MDL plaintiffs nor Syngenta are necessarily suggesting for now. But that's – that's certainly not to try to sound bull-headed in any way, Your Honor. I'm just trying to convey what directions I do or don't have from my client, if that makes sense.").

Many of these trial demonstratives were used in the opening statement and closing arguments as well as with our expert witnesses.

526. The focus group occurred on September 29, 2016. The goal of the focus group was to focus on the reactions from a cross-section of individuals from the Kansas City area to certain case themes and defenses likely to be raised by Syngenta.

527. The focus group was valuable in helping us to shape our initial trial themes on GMOs generally and how to better explain the roles of China and Syngenta's actions relevant to this litigation.

528. The mock trial occurred on March 18, 2017, before a cross-section of more than 30 individuals from the Kansas City area dived into three juries.

529. The mock jury involved full opening statements, on behalf of Plaintiffs and Syngenta, and a rebuttal by Plaintiffs.

530. Following the presentations, the jury deliberated and then participated in moderated focus groups.

531. For the mock trial, the Co-Leads continued to create and revise demonstrative exhibits that, depending on the feedback from the mock jury, were intended to be used at trial.

532. The fulsome feedback received from the mock jury additionally helped us to refine our trial arguments and demonstratives. It additionally helped us identify areas of concern to the mock jurors so that we could proactively address these issues at trial.

533. Prior to trial, Co-Lead Counsel met with the live witnesses we each intended to put on the stand at trial.

534. I personally met with class representative Daniel Grafel numerous times in person and communicated with him by phone as well.

535. I also took the lead in retaining and working with a jury selection expert who assisted in the preparation of the proposed jury questionnaire submitted to the Court and participated in jury selection at trial.

C. PRETRIAL BRIEFING: MOTIONS IN LIMINE AND JURY INSTRUCTIONS

536. On April 24, 2017, both sides filed their motions in limine. ECF Nos. 3100-01.

537. As explained in our supporting memorandum, our motion sought to exclude certain evidence and arguments, including claims regarding mitigation of damages, government subsidies and actions

538. The Court announced its ruling at the in limine conference on May 12, 2017. ECF No. 3155.

539. One pre-trial issue that was complicated by the multi-national aspects of this litigation was the jury instructions.

540. On May 26, 2017, a little more than one week before the start of trial, Syngenta suggested for the first time that international law applies to the issues in this litigation and that the Court should give an instruction on the WTO's Sanitary and Phytosanitary Measures Agreement (the "SPS Agreement"). *See* ECF No. 3205.

541. Responding to this proposed jury instruction required significant legal analysis of international law and its relationship to this litigation at a time in which Co-Lead Counsel were preparing to start trial.

542. After meet and confer discussions with Syngenta failed to result in agreement, the parties briefed their disputes on the jury instructions. ECF No. 3187.

543. The Court ultimately gave Jury Instruction No. 17, which discussed the SPS Agreement and stated that China's compliance with the SPS Agreement "may be relevant to your consideration of whether China had a functioning regulatory system or whether China's conduct

was a superseding cause." ECF No. 3302 at 18.

544. The Court additionally gave Jury Instruction No. 16, which addressed Syngenta's affirmative defense that U.S. corn shipments were rejected for reasons unrelated to Syngenta's actions. ECF No. 3302 at 17. The Verdict Form's Question 2 specifically required the jury to make a finding on whether there was or was not a superseding cause. ECF No. 3304.

545. If the jury had found that Syngenta had proven its superseding cause affirmative defense, this would have been a complete victory for Syngenta.

D. JUNE 2017 KANSAS CLASS TRIAL

546. There were several weeks of trial preparation wherein each of the Co-Leads prepared their assigned direct and cross examinations, reviewed deposition designations and counter-designations, reviewed and edited trial demonstratives, and worked with fact and expert witnesses to prepare them for their trial testimony. I also reviewed and edited the opening statement and participated in several mock presentations of the opening. In addition, I began outlining the rebuttal closing argument.

547. The Kansas class trial began on June 5, 2017, and lasted until June 23, 2017, when the jury returned its verdict. Without a doubt, this was the most complex, hard-fought and sophisticated trial of my career. Co-Lead Counsel tried all aspects of the Kansas lawsuit. They put on every fact and expert witness for Plaintiffs and cross-examined all of Syngenta's witnesses. Preparation was extensive. Syngenta identified 12 persons as potential live witness on its pre-trial witness list and 58 potential depositions to be offered into evidence. ECF No. 3131. Plaintiffs identified 21 potential live witnesses. ECF No. 3076. Co-Lead Counsel prepared for the examination of many, if not all, of these witnesses in anticipation that they might be called at trial.

548. Voir dire began on the morning of June 5th. After the Court completed its

questioning of potential jurors, I conducted the voir dire on behalf of Plaintiffs.

549. Following the selection of the jury, Scott Powell made the Plaintiffs' opening statement.

550. I put on the first witness at the trial, Class Representative Plaintiff Daniel Grafel.

551. Mr. Grafel testified about his Kansas farm, which totals approximately 10,000 tillable acres, how he runs his farm and the types of corn he grew on those acres. He additionally helped the jury to understand corn farming generally, from the purchase of corn seed by farmers, to the planting of the seed and harvesting of the corn, to how the corn is stored on farms and at elevators and finally to how corn is priced and how he would be damaged by a drop in the price of corn.

552. I also put Dr. Randal Giroux on the stand. Dr. Giroux was the only person to give expert testimony to the jury about the standard of care in the Kansas trial. Dr. Giroux was not a retained expert, but an employee of Cargill. We developed the topics that he would testify to at trial over the course of several meetings and prior depositions in the litigation. He testified about the standard of care and practices within the biotechnology and grain industry with regard to the commercialization of new biotechnology traits, and gave an opinion about the standard of care in this case. Dr. Giroux's testimony was an important, and possibly critical, evidence in the case, as it provided the jury with direct and express evidence as to Syngenta's alleged negligence and breach of its duty of care.

553. In addition to Mr. Grafel and Dr. Giroux, my fellow Co-Lead Counsel put the following live witnesses on the stand during their case-in-chief: class representative Charles Frickey; class representative Bret Kendrick; Plaintiffs' expert Dr. Bruce Babcock; Plaintiffs' expert Dr. Colin Carter; and class representative David Polifka.

554. Because Syngenta's employees were outside of the subpoena power of the Court, a substantial portion of our evidence was pre-recorded deposition video testimony. Pursuant to the Court's Trial Order, the Parties were required to exchange depositions designations on May 5, 2017; to make counter designations and objections by May 10; and to make objections and counter-counter-designations by May 15. ECF No. 2984. Substantial work went into selecting deposition testimony for trial. Initially, the four Co-Leads made designations for each of the depositions that they took or attended, and other attorneys at our firms made designations to non-Syngenta witnesses. Then, cognizant of the need to limit video testimony at trial, we exchanged those designations and took turns making cuts. We received Syngenta's designations on May 5 and had five days to make counter designations and objections. Because of the volume of work and the short deadline, and the importance of the work, the four Co-Lead Firms handled counter designations of all Syngenta witnesses, but we asked other firms to assist on third party and producer plaintiff designations. Where possible, and to promote efficiency, we asked firms who handled the deposition to be responsible for the counter designations. Myself, Mr. Wilders, Mr. Shank and Mr. Six handled designations for my firm. Similar work was done on objections to the counter-designations.

555. We continued to cut the depositions up to and including during trial, to streamline and shorten our presentation of evidence. A sub-team of lawyers from the Co-Lead firms was primarily responsible for this endeavor. From my firm, it included: Mr. Wilders and myself. After we settled on our final deposition cut, a team, consisting primarily of attorneys from Hare Wynn and Gray Reed, exchanged cuts with Syngenta's lawyers. Each night, agreements were struck on what would be played. Objections were then presented to the Court, if necessary. This work often went from evening into early morning. Once a cut was finalized, the video was

prepped and a lawyer watched the cut from beginning to end in sync with the documents for presentation purposes.

556. We played the following deposition video clips during our case-in-chief:

- Syngenta's Jack Bernens
- ADM's Anthony Reed
- Syngenta's Dennis Ward
- Syngenta's Grant Ozipko
- Syngenta's Jill Wheeler
- Syngenta's Miloud Araba
- Plaintiffs' expert Joe Keaschall
- Syngenta's Sarah Hull
- Syngenta's Paul Bertels
- Syngenta's Davor Pisk
- North American Export Grain Association's Gary Martin
- Syngenta's Duane Martin
- Syngenta's Paul Minehart
- Syngenta's Jessica Adelman
- Syngenta's Andrew McConville
- Syngenta's Charles Lee
- Syngenta's Lisa Zannoni
- Syngenta's David Morgan
- Syngenta's Scott Huber
- Syngenta's Yongsheng Zhang
- Syngenta's Eddie Zhu
- Syngenta's Michael Mack

557. During trial, we exchanged a list of exhibits expected to be used with Syngenta and objections to those lists were exchanged each night. Lawyers from the Co-Lead firms then met and conferred over the admissibility of the exhibits, and disputes were presented to the Court. Typically, these conferences between counsel occurred late at night. Kirkland always had one or more partners handling these conferences. Mr. Wilders handled these meet and confer efforts for my firm. Our diligence on these fronts was successful, as we kept out a number of documents that would have hurt the Plaintiffs' case.

558. At the close of Plaintiffs' case-in-chief on June 14, 2017, Syngenta filed a Rule

50(a) Motion for Judgment as a Matter of Law, ECF No. 3265. Syngenta filed this motion at approximately 6:00 p.m. that day and we filed a 16 page opposition approximately four hours later. ECF No. 3267. The next morning, the Court ruled on this motion orally, largely denying the motion.

559. Co-Lead Counsel additionally cross-examined each of Syngenta's live witnesses: David O'Reilly; Syngenta's expert Philip Shull; Syngenta's expert Travis Milne; Syngenta's expert Daniel Fischel; and Syngenta's expert Walter Thurman. In addition, I prepared extensively to cross-examine David Morgan, who would have been the most senior Syngenta executive to testify live at trial. Mr. Morgan had been disclosed by Syngenta as a live witness. After we exchanged exhibit lists, previewing the evidence we had intended to use for Mr. Morgan's cross examination, Syngenta elected not to call Mr. Morgan, even though we understood here was in Kansas City.

560. I cross-examined Mr. Shull, who was Syngenta's expert on the Chinese regulatory system and was proffered to support Syngenta's intervening cause defense. The jury ultimately rejected Syngenta's intervening cause affirmative defense, answering no to this jury question. ECF No. 3304.

561. In addition to the five live witnesses, each of whom Co-Lead Counsel cross examined, Syngenta played the following video clips from depositions during their case-in-chief:

- Bryan Lohmar
- Matt O'Mara
- Davor Pisk
- Richard Grabiel
- David Baudler
- David Buchanan
- Gary Martin
- Matt Giltner
- Alex Sanfeliu
- Stephen Smalley

- William Hale
- Pamela Moses
- Nathan Fields
- Andrew Wong
- Thomas Sleight

562. In total, Plaintiffs admitted 426 exhibits at trial, not including a substantial number of additional demonstrative exhibits.

563. On trial day 14, June 22, 2017, the parties gave their closing arguments.

564. Scott Powell gave Plaintiffs' closing argument and I gave Plaintiffs' rebuttal closing argument. Mr. Powell and I and our trial teams worked together during the days leading up to closings arguments to make sure our arguments addressed the key pieces of evidence and anticipated the likely arguments Syngenta would make in its closing arguments.

565. The jury began deliberations on June 22 and returned a verdict on the morning of June 23, 2017, which was trial day 15.

566. The jury found that Plaintiffs proved, by a preponderance of the evidence, the requirements of negligence and Syngenta failed to prove its defense of a superseding cause. ECF No. 3304.

567. The jury awarded $217,700,000, the entire compensatory damages amount requested by Plaintiffs. *Id.*

568. This verdict was the 10th largest jury verdict in the United States in 2017 and the first and only verdict secured against Syngenta in all of the proceedings.[13]

569. Following the trial, I continued to work with our jury consultant on analyzing the feedback we received from jurors. I also spoke at length in person with one of the jurors who provided additional insight into the strengths of our case, information we intended to use in

[13] *See* https://www.law.com/nationallawjournal/2018/04/30/top-100-verdicts-2017-chart (Top 100 Verdicts 2017: Chart).

future trials.

XVIII. POST-TRIAL MOTIONS

570. On July 21, 2017, Syngenta filed their Rule 50(b) motion for judgment as a matter of law and alternatively Rule 59 motion for a new trial and/or remittitur. ECF No. 3343.

571. Mr. Wilders coordinated the response to this motion. As before, senior attorneys from the other Co-Leads divided drafting responsibilities with respect to Syngenta's arguments. To be efficient, we typically tried to stay consistent with respect to topic division of work. For example, as she had on the summary-judgment briefing, Ms. Garrison at Mr. Downing's firm handled proximate causation and ELD arguments, and Mr. Wilders handled duty and limited-launch causation arguments. We filed our 77-page opposition brief on August 21, 2017. ECF No. 3392.

572. Before this motion could be ruled upon, the parties were able to reach a global class settlement.

XIX. FURTHER TRIALS AND CLASS CERTIFICATION

573. After the Kansas trial, the parties disagreed on the order and course of the trials for the remaining 7 certified classes. Plaintiffs moved to consolidate the trials of multiple classes together. ECF No. 3082. Syngenta opposed and wanted all of the class claims severed and cases remanded to judges unfamiliar with the litigation. The Court ordered supplemental briefing following a status conference. ECF Nos. 3314, 3317. Ultimately, the Court adopted Plaintiffs' argument that Syngenta waived personal jurisdiction for these Plaintiffs, and grouped the class cases for a set of consolidated trials. ECF No. 3319.

574. On September 21, 2017, the Court entered its Trial Order for the first such trial, of the Arkansas and Missouri classes. ECF No. 3438. The Parties prepared a Pretrial Order and conducted a final pretrial conference with the Court. Ms. Schwartz took the lead on this effort

for the Plaintiffs.

575. Moreover, the Co-Leads assisted with some of the preparation of the Minnesota trial.

576. For example, I assisted Minnesota counsel with the jury selection, including providing the analysis we had undertaken with our jury consultant regarding the Kansas jurors and jury feedback we had received and our work regarding the Chinese regulatory issues and potential expert testimony from Mr. Latner. I additionally conferred with Dr. Giroux's counsel regarding his Minnesota trial testimony.

577. I ultimately attended multiple days of the Minnesota trial to further assist on these same issues. Much of the deposition testimony played by Plaintiffs at the Minnesota trial included questioning by MDL Co-Lead Counsel.

578. When the Minnesota trial ended, we were already well underway preparing for the next trial in the Kansas MDL. Indeed, we had already gone back through and streamlined further our video deposition testimony, an effort lead by attorneys from Hare Wynn and Gray Reed.

XX. STRENGTHS AND WEAKNESSES OF THE CASE

579. In more than 30 years of practicing, this has been the most challenging case I have ever had and an enormously difficult case to prosecute.

580. From a discovery perspective, there was no way to subpoena documents from China, which made it difficult to explain the reasons for China's rejections of Syngenta's applications and to respond to Syngenta's claims that the rejections were all for political reasons.

581. Syngenta produced many documents in Chinese and multiple witnesses who required translators, which further complicated discovery.

582. From a coordination perspective, there were enormous complications unique to

this litigation. For example, with isolated exceptions, Syngenta was able to produce their witnesses a single time, which required Co-Lead Counsel to work with counsel in Minnesota, Illinois and Louisiana on scheduling depositions and then time splits within that single deposition between the various counsel.

583. There were substantial disputes over the interpretation of important documents in this litigation. By way of example only, both sides had starkly different interpretations of the Product Launch Stewardship policy created by the Biotechnology Innovation Organization (the "BIO Policy"). We argued that Syngenta failed to comply with the BIO Policy's analysis in determining what countries are key export countries for U.S. corn and whether China had a functioning regulatory system.

584. In contrast, Syngenta argued that China was never a key or functioning regulatory system under the definitions in the BIO Policy. If a jury had been convinced that China was neither a key nor functioning market, this could have made obtaining a favorable verdict much more challenging.

585. There were substantial legal risks in these cases, particularly with regard to establishing the duty Syngenta owed to Plaintiffs and overcoming Syngenta's causation, ELD and superseding cause challenges.

586. The risk that this litigation could be dismissed because of a legal ruling on duty is underscored by the June 28, 2017 Judgement Entry entered by the Court of Common Pleas of Seneca County, Ohio in *Fostoria Ethanol, LLC v. Syngenta Seeds, Inc.*, No. 15 CV 0323. In that Order, the Ohio Court granted Syngenta's motion to dismiss in its entirety, finding that Syngenta did not owe a duty to plaintiffs. The Court stated in relevant part: "There has been no case from any court in Ohio presented to this Court to show that Syngenta's duty should extend to

economic harm caused by the intended use of its products, and this court declines to invent such a duty." *Id.* at 7.

587. There was additionally a substantial amount of risk that the Kansas jury or any subsequent jurors would find China as a superseding cause of the injuries to Plaintiffs. This risk increased when the Court gave Jury Instruction No. 17, explaining to the jury that China's actions may be relevant to the superseding cause analysis. ECF No. 3302 at 18.

588. All of these risks informed my judgment on what could be a reasonable settlement for potential nationwide classes that could resolve this litigation.

XXI. SETTLEMENT NEGOTIATIONS

589. On March 23, 2016, the Court appointed Ellen K. Reisman of Reisman Karron Greene, LLP as the special master "to assist the court in efficiently coordinate settlement discussions in these proceedings." ECF No. 1745 at 2.

590. On October 17, 2016, Judge Herndon appointed Hon. Daniel J. Stack (Ret.) as a Special Master to "facilitate discovery in this case and to assist the Court in coordinating with the litigation pending in Illinois State Court in Williamson County, Illinois before Judge Brad Bleyer." *In re Syngenta Mass Tort Actions,* Case No. 3:16-cv-00255-DRH, ECF No. 168 (S.D. Ill. Oct. 17, 2016).

591. From the start of the MDL through the verdict in the Kansas trial and continuing for weeks following the trial, Syngenta never made a settlement offer to Plaintiffs.

592. Prior to the Kansas verdict, Co-Lead Counsel and EC members funded the on-going prosecution of the Kansas MDL without any guarantee that these millions of dollars in hard costs would be repaid and without any guarantee of compensation for the tens of thousands of hours of time spent representing these plaintiffs.

593. After the completion of the successful Kansas trial, on August 9, 2017, the Court

created the Plaintiffs' Settlement Negotiation Committee (the "PNC"). ECF No. 3366.

594. PNC member Christopher Seeger's firm, Seeger Weiss, was part of the Kansas MDL Executive Committee. I and the other Co-Lead Counsel were active in communicating with Mr. Seeger over the course of the negotiations, participating in strategy decisions regarding settlement terms.

595. When the PNC announced that a term sheet had been executed, I asked the Court for permission to join the PNC to work with Mr. Seeger to help finalize the settlement.

596. Mr. Seeger and I spent the next several months participating in weekly calls and attended multiple in person meetings in Washington D.C., New York and Kansas City to negotiate all remaining material terms of the settlement. In addition to these group meetings, Mr. Seeger and I additionally separately corresponded by phone and by email.

597. With assistance from Bradley Wilders, I worked directly with Mr. Seeger in substantially editing the draft Settlement Agreements and all settlement papers, including the proposed long and short-form notices, the proposed claim forms, and the notice plan.

598. In the hopes of creating a simple claim process, Mr. Chaney and I reached out to the United States Department of Agriculture's Farm Service Agency (the "FSA") to discuss with the FSA the possibility of allowing a settlement administrator to have access to the data reported to the FSA on FSA 578 forms, such as corn acreage. We had multiple in-person meetings facilitated by our consultant to explain to the FSA why allowing direct access to the FSA database would substantially reduce the burden on farmers to participate in the settlement claims process.

599. We sought to achieve three goals in reaching out to the FSA. First, we hoped to eliminate the need for each corn producer in the United States to individually have to contact the

FSA for acreage and other data as part of the settlement.

600. Second, by greatly simplifying a potential claims process, we intended to eliminate the need for any farmer to have to seek out individual representation for help in completing the claim form.

601. Third, the hope was to minimize the cost and administrative burden on the FSA to respond to potentially hundreds of thousands of request for this data.

602. In December 2017, Co-Lead Counsel ultimately executed a memorandum of understanding that would allow the FSA to provide this data, which was ultimately a key part of the claims process. During this several month process, I advised the Special Masters, the PNC and Syngenta of our efforts. As soon as we were able to secure the FSA's written consent, I disclosed the agreement with the FSA to Syngenta, the PNC and the Special Masters.

XXII. SETTLEMENT TERMS

603. On October 9, 2017, we filed a Joint Motion to Stay pending the execution of the settlement agreement. ECF No. 3452.

604. Mr. Seeger and I, on behalf of the Co-Leads, then spent the following months finalizing and then executing the formal settlement agreement with Syngenta's counsel and the additional members of the PNC.

605. On March 12, 2018, the terms of the settlement and the settlement negotiations were fully disclosed in Plaintiffs' motion seeking preliminary approval of the settlement and memorandum in support. ECF Nos. 3506-07. Attached as Exhibit A to the memorandum was the fully-executed Settlement Agreement. ECF No. 3507-2.

606. The motion drew objections from the Toups/Coffman Plaintiffs and joinders in those objections by the Hossley-Embry Plaintiffs. ECF Nos. 3514, 3517.

607. The Court conducted a preliminary approval hearing on April 5, 2018. ECF No.

3529.

608. On April 10, 2018, the Court granted preliminary approval of the settlement and denied the motions and joinders filed by the Toups/Coffman and Hossley-Embry Plaintiffs. ECF No. 3532. That Order additionally appointed Settlement Class and Sub-Class Counsel. *Id.*

609. As one of the appointed Settlement Class Counsel, I have continued to work with the other Settlement Class and SubClass Counsel, Co-Lead Counsel and the Settlement Administrator to ensure that the settlement website is easy to navigate and that the final electronic claim forms are as simple as possible.

610. By May 11, 2018, notice had been mailed to potential class members.

XXIII. FEE-SHARING AGREEMENTS

611. After extensive negotiations between attorneys from the various litigations, the Court-appointed Special Master made a mediator's proposal on an allocation of attorneys' fees between the various groups of Plaintiffs' attorneys.

612. Although we believed that the mediator's proposed allocation to the Kansas MDL was far below what counsel prosecuting the Kansas MDL should have received based upon the value of the work performed during the Syngenta corn litigation, Co-Lead Counsel accepted the proposal. Not all of the attorneys accepted, however, and negotiations continued.

613. Ultimately, to secure agreement and avoid a protracted fight, a Fee-Sharing Agreement was executed on or about February 23, 2018, with lawyers prosecuting the Illinois state and Minnesota class litigations. In this Agreement, the parties agreed that any attorneys' fees awarded by the Court would be divided as follows: 50% would go to all attorneys who performed common benefit work in the Kansas MDL consistent with the Kansas MDL Court's

orders;[14] 12.5% would go to attorneys who performed common benefit work in the Minnesota MDL[15] consistent with the Minnesota MDL Court's orders; and 17.5% would go to Clayton Clark and his group.[16] *See* Exhibit 8.

614. The Agreement additionally stated that the remaining 20% of any attorneys' fees awarded by the Court will be allocated by the Kansas MDL Court, in consultation and agreement with the Minnesota MDL Court and Judge Herndon of the United States District Court for the Southern District of Illinois, taking into consideration the recommendation by the Special Masters.

615. At the request of Seeger Weiss, Co-Lead Counsel additionally entered into an agreement with Settlement Class Counsel Christopher Seeger and his law firm Seeger Weiss

[14] This group includes Patrick J. Stueve (Stueve Siegel Hanson LLP), Don M. Downing (Gray, Ritter & Graham, PC), William B. Chaney (Gray Reed & McGraw, LLP), Scott A. Powell (Hare Wynn Newell & Newton), Christopher M. Ellis (Bolen Robinson & Ellis, LLP), David F. Graham (Sidley Austin LLP), Jayne Conroy (Simmons Hanly Conroy), John W. Utsu (Greene Espel PLLP), Richard M. Paul, III (Paul McInnes, LLP and Paul LLP)(Kansas MDL common benefit work), Robert K. Shelquist (Lockridge Grindal Nauen)(Kansas MDL common benefit work), Scott E. Poynter (Emerson Poynter LLP), Stephen A. Weiss (Seeger Weiss Law Firm), and Thomas V. Bender (Walters Bender Strohbehn & Vaughan, PC) and all "Referring Counsel." "Referring Counsel" means a law firm engaged with the named law firm in the joint representation of one or more Claimants in connection with the prosecution of their Claims. The four Kansas MDL Co-Lead Counsel (William B. Chaney, Don Downing, Scott Powell and Patrick J. Stueve) will allocate the fees represented by this percentage among all firms that provided common benefit work in the Kansas MDL consistent with the Kansas MDL Court's orders. The four Kansas MDL Co-Lead Counsel will have the right to review, revise and approve any common benefit time and expense submissions for common benefit work performed in the Kansas MDL that will be submitted by Settlement Class Counsel to the Kansas MDL Court consistent with the Kansas MDL Court's orders."

[15] The Agreement states that the "Gustafson Gluek PLLC party" "includes Lewis A. Remele, Jr. (Bassford Remele), William R. Sieben (Schwebel Goetz & Sieben, P.A.), Richard M. Paul, III (Paul Mclnnes LLP and Paul LLP)(Minnesota work), Will Kemp (Kemp, Jones & Coulthard, LLP), Tyler Hudson (Wagstaff & Cartmell, LLP), Robert K. Shelquist (Lockridge Grindal Nauen)(Minnesota work), and Paul Byrd (Paul Byrd Law firm PLLC) and all Referring Counsel. Daniel E. Gustafson and Lew Remele will allocate fees represented by this percentage among all firms that provided common benefit work in the Minnesota MDL consistent the Minnesota MDL Court's orders. Daniel E. Gustafson and Lew Remele will have the right to review, revise and approve any common benefit time and expense submissions for common benefit work performed in the Minnesota MDL that will be submitted by Settlement Class Counsel to the Kansas MDL Court consistent with the Minnesota MDL Court's orders."

[16] This group includes Peter J. Flowers (Meyers & Flowers) and Martin J. Phipps (Phipps Anderson Deacon LLP), as well as Clark's, Flowers' and/or Phipps' Referring Counsel, co-counsel and / or joint venture partners.

LLP on or about February 22, 2018. The Agreement states that if the Court awards attorneys' fees and reimbursements costs and expenses and delegates that allocation of attorneys' fees to Co-Lead Counsel, Co-Lead Counsel will, in allocating that sum to the various counsel in the Kansas MDL, accord to Seeger Weiss the same multiplier to its lodestar that would be allocated to the Co-Leads and that the allocation to Seeger Weiss would be no less than ten percent of the gross sum awarded to counsel in the Kansas MDL. Co-Lead Counsel additionally committed to seeking reimbursement of Seeger Weiss's costs and expenses in the petition to the Court. Exhibit 9.

616. Earlier in the litigation, Co-Lead Counsel disclosed to the Court the existence of Joint Prosecution Agreements between certain groups of Plaintiffs' Counsel, which in part discussed the application of the Common Benefit Assessments in the Common Benefit Order. *See*, *e.g.*, ECF Nos. 326, 2719.

617. The Common Benefit Order assessments, however, do not apply here because there is a class settlement. *See* ECF No. 936 at 20 ("In the event that there is a class settlement, recovery or judgment in favor of the class, no assessment pursuant to this Section will be made, either for attorneys' fees or for expenses, individually from any class member or his/her/its individual attorney as to the portion of any class recovery distributed to that individual class member if the class member remains in the class (i.e., does not opt-out of the class). Instead, all fees and expenses for that class member will come out of the overall class recovery funds provided by defendants, as approved by the Court, or otherwise Ordered by the Court.").

XXIV. COMMON BENEFIT TIME AND EXPENSE SUBMISSIONS

A. THE COMMON BENEFIT ORDER

618. The Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (the "Common Benefit

Order") stated that "Time and expense submissions shall be made to Lead Counsel on a monthly basis, by deadlines to be set by Lead Counsel, in accordance with the guidelines set forth herein and using monthly reports to be distributed by Lead Counsel so that Lead Counsel may retain those forms for later submission to this Court if and when necessary." ECF No. 936 at 17.

619. Rachel Schwartz, with substantial input from Co-Lead Counsel, took the lead in drafting the guidelines and the Excel chart that each common benefit firm would complete and submit to Stueve Siegel Hanson each month.

620. Consistent with the Common Benefit Order, all common benefit law firms were directed to submit their common benefit time and expense submissions by the last calendar day of each month, with the submissions covering time period through the end of the preceding month. *See* ECF No. 936 at 17.

B. EFFORTS TO ENSURE MDL EFFICIENCY

621. Throughout the litigation, the Co-Lead Counsel took steps to ensure that work in this litigation was done efficiently with the goal of minimizing duplication of tasks.

622. In June 2015, Co-Lead Counsel circulated guidelines to common benefit firms regarding billing in the MDL.

623. In these guidelines, common benefit firms were told that "[g]eneral review of MDL filings, orders, transcripts, emails or other documents not directly related to work assigned by Co-Lead Counsel will not be considered common benefit time."

624. The guidelines additionally stated that it "is the expectation that counsel will minimize the number of individual timekeepers from a single firm to ensure the efficiency of time spent on this litigation."

625. Throughout the litigation, Co-Lead Counsel took proactive steps to assign the same counsel to related tasks to avoid having new counsel spend material amounts of time re-

learning an area of the litigation.

626. By way of example only, a core group of EC members assisted with the discovery from producer plaintiffs and this same group of attorneys helped with the depositions of these same producer plaintiffs.

627. In order to minimize turnover from the document reviewers, we asked all Co-Lead and EC firms to provide only those document reviewers who were able to devote substantial amounts of time over multiple months.

628. The goal was to eliminate inefficiencies by minimizing document reviewer turnover to avoid having to repeatedly re-train new document reviewers throughout the course of the litigation.

629. A small group of attorneys assisted with the briefing throughout the course of the litigation, which minimized time that would otherwise be required to bring a new attorney up to speed on prior briefing.

C. REVIEW AND REVISING OF COMMON BENEFIT SUBMISSIONS

630. James Vaglio in my office reviewed these common benefit submissions each month, responded to questions from common benefit counsel about these submissions and corresponded with counsel regarding technical problems with their submissions, including the failure to provide required information or the failure to provide the information in the correct format. After the settlement was announced, we took the Excel charts that had been submitted from all law firms and combined these entries into a single Excel chart.

631. Ms. Schwartz then began to substantively review the combined Excel spreadsheet to begin to fix substantive problems with these submissions, including miscalculated lodestar totals. She additionally identified entries that were potentially inconsistent with the Common Benefit Order and the guidelines provided to common benefit counsel by Co-Lead Counsel. She

ultimately drafted a memorandum addressed to common benefit counsel identifying some of the more common errors that needed to be fixed.

632. Beginning in February and continuing through March 2018, all law firms that submitted common benefit time and expenses were emailed a comprehensive Excel spreadsheet with two tabs containing all of the common benefit time and expenses each firm had submitted.

633. Counsel were asked to re-review this Excel spreadsheet to confirm that all entries were in compliance with the Common Benefit Order and the guidelines provided by Co-Lead Counsel and to exercise billing discretion on the previously-submitted entries.

634. Common benefit firms were additionally emailed a memorandum with guidelines on this re-review, which included: ensuring that time descriptions were sufficiently-detailed and giving examples of time descriptions that would not be accepted; to exclude time and expenses for work on behalf of plaintiffs who were not ultimately class representative or bellwether plaintiffs, including time spent on Plaintiff Fact Sheets for non-bellwether and non-class representative plaintiffs; ensuring that no time or expenses were submitted for marketing activities; and specific types of entries that should be removed because the work was on behalf of individual clients, not bellwether or class representative plaintiffs, and excluding secretarial work, which should not be submitted as common benefit time.

635. Additionally, in the email forwarding this memorandum, we identified issues that were unique to each individual firm and that required attention on the re-review.

636. In my firm, Ms. Schwartz re-reviewed the time and expense submissions we had previously submitted.

637. Once these re-reviewed Excel spreadsheets were returned, Co-Lead Counsel divided up the submissions for another re-review of the submitted time and expenses.

638. If there were concerns that an entry did not comply with the Common Benefit Order or the Guidelines provided by Co-Lead Counsel, Co-Lead Counsel were to directly contact the common benefit firm to gain additional information on the entry or to discuss cutting the entry.

639. Additionally, these entries were reviewed to ensure that firms were efficient throughout the course of the litigation and took steps to eliminate unnecessary duplication of efforts by multiple timekeepers.

640. After the completion of this process, the re-reviewed time and expense entries were re-combined and finalized.

641. As a final double-check of the time entries to ensure there were no duplicate entries from the same timekeeper for the same day, we ran formulas in Excel to identify and potentially eliminate any true duplicate entries.

642. Even though many or all of the law firms listed below incurred such time, the final common benefit lodestar does not include time spent: advertising, soliciting, or retaining clients; time spent communicating with individual, non-bellwether, non-representative plaintiffs; or time spent responding to PFS obligations for non-bellwether, non-representative plaintiffs. Additionally, with a few exceptions, the rates for all time entries were standardized to the rate submitted by each timekeeper in 2017.

D. COMMON BENEFIT TIME AND EXPENSES SUBMITTED BY COMMON BENEFIT FIRMS

643. A total of 49 law firms have submitted common benefit time and/or expenses in the Kansas MDL, including 44 law firms that performed common benefit work.

644. In total, these firms have submitted the following common benefit expenses and

lodestar. This reflects the work by 44 of the 49 firms in the Kansas Common Benefit Group.[17] Approximately sixty-eight percent of all common-benefit time was performed by Co-Lead Counsel. When the next highest-performing firm – Seeger Weiss – is included, that figure increases to 75% of the overall time.

Firm	Expenses	Lodestar	Total hours
Anderson, Bottrell, Sanden & Thompson	$72.45	$11,430.00	48.40
Barrack, Rodos & Bacine	$17,458.17	$1,819,463.00	3,166.60
Battle & Winn LLP	$587.45	$5,394.00	11.60
Batts, Batts & Bell, LLP	$380.22	$62,192.00	276.10
Bohrer Brady LLC	$5,022.28	$42,210.00	120.60
Bolen Robinson & Ellis, LLP	$211,984.72	$1,744,392.50	4,080.30
Brady Preston Brown PC	$5,000.00	$14,909.50	112.30
Brooks Pierce	$400.00	$4,550.00	13.30
Coffman Law Firm	$2,371.22	$117,300.00	223.20
Emerson Poynter LLP	$20,949.26	$288,342.00	379.80
Emerson Scott LLP	$83,413.32	$910,632.50	1,400.50
English, Lucas, Prist & Owsley, LLP	$313.61	$5,152.50	28.50
Gray Reed & McGraw P.C.	$805,484.03	$10,462,531.60	16,859.90
Gray, Ritter & Graham, P.C.	$690,244.26	$12,771,320.50	18,480.50
Greene Espel PLLP	$199,822.80	$1,767,880.80	4,390.50
Hare Wynn Newell & Newton	$911,263.79	$11,728,489.50	20,153.10
Heninger Garrison Davis, LLC	$145,000.00		
Holland Law Firm	$1,395.11	$69,760.00	139.30
Jake W. Brooks Attorney at Law	$41.70	$1,912.50	8.50
Kruml Law Office, P.C.	$221.98	$1,555.00	11.40
Lockridge Grindal Nauen PLLP	$216,121.06	$1,350,611.00	3,607.00
Lundberg Law Firm PLC		$9,922.50	44.10
Martin, Browne, Hull & Harper PLL	$117.74	$34,295.00	141.00
McCulley McCluer		$212,287.50	298.00
Milberg Tadler Phillips Grossman LLP	$825.50	$77,057.50	173.80
Miller Schirger LLC	$81.59	$79,950.00	119.60
Paul LLP	$216,571.29	$1,379,386.50	4,009.80
Quinn Emanuel	$150,000.00		
Roth Law Office	$719.28	$6,375.00	42.50
Saeed & Little, LLP		$500.00	2.50

[17] Five firms in the Kansas Common Benefit Group reported no common-benefit work, but made contributions to the litigation fund and seek reimbursement of those contributions.

Firm	Expenses	Lodestar	Total hours
Schirger, Kirk, McDougall & Winzeler, P.C.	$249.99	$14,350.00	41.00
Scott Poynter	$763.82	$75,922.50	95.50
Seeger Weiss LLP	$438,883.72	$6,990,276.00	9,745.20
Sidley Austin LLP	$175,000.00		
Simmons Hanly Conroy LLC	$730,928.00	$1,197,732.50	3,294.20
Sneed Lang PC	$882.91	$58,240.00	145.60
Soper Leddin Law Firm, PC	$185.00	$4,631.50	15.70
Stinson Leonard Street LLP	$172,315.00	$782,219.50	2,032.40
Stueve Siegel Hanson LLP	$1,026,482.73	$24,362,269.50	42,413.40
Thrash Law Firm, P.A.	$497.10	$39,530.00	48.80
Wadler Perches Hundl Kerlick		$15,186.00	69.60
Wagner Reese	$711.50	$35,240.00	54.80
Wagstaff & Cartmell	$15,000.00		
Waller Jorgenson Warzynski, PLLC		$4,000.00	10.00
Walters Bender Strohbehn & Vaughan, P.C.	$219,345.88	$2,573,422.50	5,412.60
Weller, Green, Toups & Terrell, L.L.P.		$71,957.50	99.50
Whaley Law Firm	$5,000.00		
Westerfield, Janoush & Bell, P.A.		$23,560.00	58.90
Zimmerman Reed, LLP	$120,043.57	$496,720.50	943.60
Totals	$6,592,152.05	$81,725,060.90	142,823.50
Additional Class Certification Notice Expense[18]	$103,198		
Grand Expense Total	$6,695,350.05		

645. Common benefit firms maintained these expenses by category code. Not including the additional class certification notice expense listed above, across all law firms that submitted common benefit expenses, here are the total expenses per category code.

[18] On June 29, 2018, Analytics, the class certification notice administrator, sent a final invoice for $172,310.49. This invoice exceeded the remaining balance in the litigation fund by $103,198, which we are including as an additional common benefit expense in this submission.

Category Code	Description of Category Code	All Kansas Common Benefit Expenses by Category Code
1	Federal Express / Local Courier	$25,713.95
2	Postage Charges	$1,807.54
3	Facsimile Charges	$48.00
4	Long Distance Calls	$31,359.11
5	In-House Photocopying	$99,144.89
6	Outside Photocopying	$187,185.79
7	Hotels	$559,548.83
8	Meals	$148,438.47
9	Mileage	$28,793.07
10	Air Travel	$387,787.08
11	Deposition Costs	$62,319.31
12	Lexis/Westlaw/Bloomberg	$555,248.82
13	Witness and Expert Expenses	$423,794.32
14	Court Fees	$7,629.22
15	Service of Process Fees	$9,485.11
16	Hearing and Trial Transcripts	$180.90
17	Ground Transportation	$94,272.26
18	Miscellaneous	$169,395.38
19	Litigation Fund Assessment	$3,800,000.00
	TOTAL	**$6,592,152.05**[19]

646. The overall blended rate across all law firms is $572.21 per hour.

E. LITIGATION FUND

647. To fund the on-going prosecution of the MDL, Co-Lead Counsel, Executive Committee members and additional firms in the MDL made periodic contributions to the litigation fund.

648. Our firm was responsible for setting up and managing the litigation fund. I was responsible for updating all common benefit firms on the status of expenses in the litigation and requesting periodic contributions to the litigation fund. I would send regular updates to the Co-Leads on the status of the fund and the payment of all invoices. I worked with all firms who

[19] Some of these out-of-pocket costs were shared with Lead Counsel in Minnesota, such as the hosing cost of the MDL Document Database and costs for shared experts. Co-Lead Counsel seek reimbursement here only for their share of these costs advanced for the litigation. I understand Minnesota Lead Counsel will seek reimbursement for their share of these costs in their separately-filed application.

agreed to share costs to make sure they complied with those funding commitments and answered any questions they had regarding shared costs.

649. No money was accepted by a non-party or non-lawyer funders.

650. There was no guarantee that these litigation fund contributions would be repaid. If the litigation had been unsuccessful, none of these contributions would have been repaid.

651. In total, the following law firms contributed $3,800,000 to the litigation fund, which are expenses included in the chart above listing total common benefit expenses across all law firms. The contributions are as follows:

Law Firm	Total Litigation Fund Contribution
Gray Reed & McGraw P.C.	$405,000
Gray, Ritter & Graham, P.C.	$405,000
Hare Wynn, Newell & Newton LLP	$405,000
Stueve Siegel Hanson LLP	$405,000
Seeger Weiss LLP	$275,000
Walters Bender Strohbehn & Vaughan, P.C.	$195,000
Bolen Robinson & Ellis LLP	$190,000
Greene Espel PLLP	$190,000
Lockridge Grindal Nauen P.L.L.P.	$190,000
Paul LLP	$190,000
Simmons Hanly Conroy	$190,000
Sidley Austin LLP	$175,000
Stinson Leonard Street	$160,000
Quinn Emanuel	$150,000
Heninger Garrison Davis	$145,000
Emerson Scott LLP	$80,000
Emerson Poynter LLP	$15,000
Wagstaff & Cartmell	$15,000
Barrack Rodos & Bacine	$10,000
Brady Preston Brown PC	$5,000
Whaley Law Firm	$5,000
TOTAL	**$3,800,000**

652. The litigation fund expenses broke down under the following categories:

	Description of Expense Category	Total Litigation Fund Expense
1	Deposition-related expenses	$382,022.20
2	ESI expenses, including the ESI Relativity Database	$294,591.27
3	Special Master Expenses	$299,807.06[20]
4	Court Transcripts	$17,382.25
5	Expert-related expenses	$1,546,672.02
6	Translation services	$46,997.61
7	Subpoena expenses	$306,391.98
8	Trial consultants	$306,039.11
9	Trial expenses	$188,298.88
10	Class Certification Notice Expenses	$363,042.46[21]
11	FSA Information for the settlement	$48,412.34
12	Bank Charges for the Litigation Fund	$342.82
	TOTAL	**$3,800,000**

653. Additional details on these categories are below:

a. Category 1, Deposition-related expenses: included in this category are court reporter fees and purchases of deposition transcripts and videotapes of these depositions. We negotiated competitive rates for this work.

b. Category 2, ESI expenses: this includes all costs related to the Relativity database, which stored all of the documents produced by Syngenta and third parties in this litigation. We negotiated competitive rates for this work, after reviewing several submissions.

c. Category 3, Special Master Expenses: this includes payment of the invoices submitted by Special Master Reisman and the Honorable Judge Daniel J. Stack. The fees for Ms. Reisman were split between the parties. ECF No. 1745 at 5. Ultimately, the Kansas MDL

[20] Not included in the number above is a recent invoice for $7,200 from the Special Masters, moving the total expenses for this category above $300,000. We anticipate that the Special Masters may have additional invoices in the coming months. Neither this recent invoice nor any future invoices are included in the total number above.

[21] Invoices from Analytics for the class certification notice totaled $466,240.46: $363,042.46 was paid directly out of the litigation fund; and the remaining $103,198 from a recent June 2018 invoice is included in Section XXIV.D as an additional common benefit expense.

was responsible for paying 3/32 of the total invoices, which later increased to 5/32 after ADM settled.

d. Category 4, Court Transcripts: this includes purchases of transcripts from court hearings.

e. Category 5, Experts: this includes costs for the experts retained by Plaintiffs and their expenses to prepare their reports, appear at depositions and testify at the class certification hearing and trial.

f. Category 6, Translation services: this includes costs for the translation of certain Chinese documents produced by Syngenta.

g. Category 7, Subpoena expenses: this includes the reasonable expenses related to the production of documents from subpoenaed third parties and other costs associated with the service of process for these subpoenas.

654. Category 8, Trial Consultants: this includes expenses related to services of the trial consultant used to prepare for the MDL trials, the jury consultant, and the expenses related to the focus group and mock trial. To be efficient, we utilized one trial consultant group to conduct the focus group and the mock trial, so they did not have to re-learn the basics of the case. We intended to continue using these consultants for the remaining trials.

655. Category 9, Trial Expenses: this includes charges for the copying of highlighted deposition designation binders for the Court, meals for the trial team, travel expenses for trial, a planning session for the 2018 trials and printing of demonstratives for trial.

656. Category 10, Class Certification Notice: this includes the amounts paid to Analytics LLC for work related to the class certification notice. We selected Analytics following a competitive bidding process.

657. Category 11, FSA data: this includes the amounts paid to retained counsel who aided in discussions with the USDA regarding providing FSA data for the settlement.

658. Category 12, bank charges: this includes charges from the bank for maintaining the litigation fund.

XXV. STUEVE SIEGEL HANSON'S FEE AGREEMENTS WITH INDIVIDUAL CLIENTS

659. My firm has individually retained more than 1,140 producer plaintiffs who now have the opportunity to participate in the class settlement.

660. Some of the individual retainer agreements with these producer plaintiff clients involved co-counsel. These co-counsel relationships were disclosed on the face of the individual retainer agreements. Other than these relationships and the relationships disclosed in this declaration and as part of this briefing, Stueve Siegel Hanson does not have other agreements to pay any share of any fees that may be awarded to our firm in this litigation to attorneys outside of our law firm.

661. If a class had not been certified, our individual fee agreements required each client to pay 33 1/3% of any net benefit received.

662. If a class were certified, my firm's fee agreements expressly waive any right to seek attorneys' fees individually from these clients and to instead seek fees and expenses solely from the Court.

663. Consequently, my firm is seeking compensation and expense reimbursement solely from the common benefit fee and expense award made by this Court and will not seek to recover individual attorneys' fees or expense reimbursement from any individual client.

664. In total, my firm has expended more than 5,600 hours on these individual clients, totaling more than $2.5 million in lodestar. We have additionally incurred more than $330,000

in expenses. We have not included this lodestar amount or the expenses for our individual clients in this application for attorneys' fees.

XXVI. STUEVE SIEGEL HANSON'S COMMON BENEFIT TIME AND EXPENSES

665. Stueve Siegel Hanson maintains contemporaneous records of its time and expenses. These records are prepared and maintained in the ordinary course of business through software systems maintained by the firm.

A. STUEVE SIEGEL HANSON'S LODESTAR

666. As part of the preparation of my declaration, Ms. Schwartz and I reviewed the time and expenses incurred in this litigation to exercise billing judgment. This work was performed in compliance with the CBO.

667. After exercising billing judgment and making billing reductions based on our review of the records, the number of hours spent on this litigation by my firm is 42,313.40 hours. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Stueve, Patrick	Partner	6,398.70	$865.00	$5,534,875.50
2.	Schwartz, Rachel	Partner	5,846.50	$725.00	$4,238,712.50
3.	Walters, Stephanie	e-Discovery Counsel	5,350.10	$625.00	$3,343,812.50
4.	Wilders, Bradley	Partner	4,301.20	$695.00	$2,989,334.00
5.	Campbell, Michelle	Paralegal	2,674.90	$295.00	$789,095.50
6.	Shank, Curtis	Associate	2,651.30	$425.00	$1,126,802.50
7.	Cooper, Sean	Associate	2,538.30	$425.00	$1,078,777.50
8.	Cooper, Matt	Associate	2,334.60	$350.00	$817,110.00
9.	Vaglio, James	Associate	1,736.60	$425.00	$738,055.00
10.	Six, Steve	Partner	1,399.90	$825.00	$1,154,917.50
11.	Storrs, Sam	Associate	1,378.50	$350.00	$482,475.00
12.	Tompkins, John	Associate	1,041.70	$350.00	$364,595.00
13.	Perez, Cheri	Paralegal	737.90	$295.00	$217,680.50
14.	Hickey, David	Associate	481.30	$450.00	$216,585.00
15.	Cervantes, Katrina	Paralegal	442.50	$245.00	$108,412.50

	Name	Title	Total Hours	Hourly Rate	Lodestar
16.	Calabro, Toji	Of Counsel	402.80	$625.00	$251,750.00
17.	Barry, Sherry	Paralegal	385.80	$295.00	$113,811.00
18.	Reyes, Erika	Paralegal	377.50	$245.00	$92,487.50
19.	Marquart, Mary Rose	Paralegal	371.50	$295.00	$109,592.50
20.	Stueve, Ben	Paralegal	229.20	$225.00	$51,570.00
21.	Moore, Austin	Associate	214.50	$475.00	$101,887.50
22.	Tazkargy, Ariel	Associate	208.90	$350.00	$73,115.00
23.	Williams, Sheri	Paralegal	172.70	$245.00	$42,311.50
24.	Weiner, Adrian	Staff: IT Manager	116.70	$275.00	$32,092.50
25.	Carter, Jennifer	Associate	108.90	$475.00	$51,727.50
26.	Rupp, Peter	Staff: Systems Director	98.90	$425.00	$42,032.50
27.	Walsh, Larkin	Of Counsel	83.80	$495.00	$41,481.00
28.	Siegel, Norman	Partner	65.50	$865.00	$56,657.50
29.	Marquart, Brendan	Paralegal	61.80	$225.00	$13,905.00
30.	Perkins, Lindsay	Of Counsel	59.70	$550.00	$32,835.00
31.	Shaw, Daniel	Associate	35.20	$375.00	$13,200.00
32.	Ricke, Alex	Associate	26.40	$425.00	$11,220.00
33.	Smith, Margaret	Paralegal	21.00	$245.00	$5,145.00
34.	Scurlock, Jeffrey	Of Counsel	17.20	$575.00	$9,890.00
35.	Lange, Ethan	Associate	16.70	$495.00	$8,266.50
36.	Warner, Melissa	Paralegal	8.20	$245.00	$2,009.00
37.	DeMoss, Lori	Paralegal	7.20	$245.00	$1,764.00
38.	Olivas, Julie	Paralegal	7.00	$245.00	$1,715.00
39.	Switzer, Janet	Staff: Finance/HR Director	2.30	$245.00	$563.50
	TOTALS		42,413.40		$24,362,269.50

668. These figures do not include the anticipated additional time necessary to finalize the administration of this settlement. The claims deadline is not until October 12, 2018, which means there are three additional months in which we will continue working with the claims administrator and answering questions from class members. There is additional work to draft the

final approval papers and attend the final approval hearing. It has been our experience in similar class actions that class counsel will spend between 500 to 1,000 hours following final approval to finalize the administration of this settlement.

B. PRECLUSION OF OTHER WORK

669. Stueve Siegel Hanson's attorneys and staff collectively spent more time on this MDL than the firm has ever spent on a single case in the history of the firm.

670. At times throughout the litigation, we had partners, associates and staff members devoting all or nearly all of their time to this litigation. I worked almost exclusively on this case for the past several years. I had a full docket of cases that I had to delegate to other partners because of the time commitment of this case. This was necessary to complete the extensive amounts of discovery in the time frame allotted and to prepare the Kansas case for trial. For extensive periods throughout the litigation, Ms. Schwartz and Mr. Wilders also worked almost exclusively on this case during that time frame. Without a doubt, the needs of this case precluded us, and our firm, from accepting other assignments. During the time I was working on this case, I spent little, if any, time evaluating and developing new cases, which is something I have historically spent substantial amounts of time on. The needs of this case, and the desire to prosecute these claims effectively on behalf of the Plaintiffs, required that I, and my firm, put this case first, above and beyond other business opportunities. It is not an exaggeration to say that this required that level of commitment and sacrifice.

C. STUEVE SIEGEL HANSON'S EXPENSES

671. As part of the Common Benefit Guidelines provided by Co-Lead Counsel, all common benefit firms tracked common benefit expenses using Category Codes 1-19.

672. In total, my firm seeks reimbursement of common benefit expenses in the amount of $1,026,482.73. Those expenses and charges are summarized by below:

Category Code	Description of Category Code	Stueve Siegel Hanson LLP Amounts
1	Federal Express / Local Courier	$6,969.44
2	Postage Charges	$45.89
3	Facsimile Charges	
4	Long Distance Calls	$2,591.06
5	In-House Photocopying	$38,017.30
6	Outside Photocopying	$41,016.26
7	Hotels	$84,587.24
8	Meals	$22,763.46
9	Mileage	
10	Air Travel	$63,624.19
11	Deposition Costs	
12	Lexis/Westlaw/Bloomberg	$340,522.53
13	Witness and Expert Expenses	
14	Court Fees	$800.00
15	Service of Process Fees	$302.00
16	Hearing and Trial Transcripts	
17	Ground Transportation	$16,820.32
18	Miscellaneous	$3,423.04
19	Litigation Fund Assessment	$405,000.00
	TOTAL	**$1,026,482.73**

673. Additional details on these expenses are below:

a. Category 1, Federal Express / Local Courier, etc.: This category includes common benefit expenses for shipping, courier, and delivery expenses of documents to and from class representatives, bellwether plaintiffs, co-counsel, opposing counsel, and the Court. This category also includes expenses related to shipping deposition exhibits. These expenses are reported at actual cost.

b. Category 2, Postage Charges: This category includes common benefit postage charges for mailing letters and accompanying documents to class representatives, bellwether plaintiffs, document custodians, ESI vendors, co-counsel, opposing counsel, the Court, and other necessary parties. These expenses are reported at actual cost.

c. Category 3, Facsimile Charges: Stueve Siegel Hanson is not seeking reimbursement for any facsimile expenses.

d. Category 4, Long Distance, Conference Call, and Cellular Telephone Charges: This category includes Stueve Siegel Hanson's common benefit expenses for long distance and conference calls to co-lead counsel, opposing counsel, the Court, and other necessary parties to discuss the common benefit order, ESI protocol, discovery disputes, class certification, trial, and other matters for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

e. Category 5, In-House Photocopying: This category includes Stueve Siegel Hanson's common benefit expenses for photocopying and printing documents for use in depositions, class certification briefing, trial notebooks, trial exhibits, and other matters for the common benefit of all producer and non-producer plaintiffs. Consistent with the Common Benefit Order, these expenses were billed at $.10/page, which is below what we normally charge for these expenses.

f. Category 6, Outside Photocopying: This category includes Stueve Siegel Hanson's common benefit expenses for photocopying, scanning, printing, and binding documents by third-party vendors. Stueve Siegel Hanson typically utilized such vendors to assist with large projects requiring the printing, scanning, and binding of thousands of pages of documents for use in depositions and at trial. Stueve Siegel Hanson also relied on the services of a third party vendor for the design and creation of demonstratives for use at trial. These expenses are reported at actual cost.

g. Category 7, Hotels: This category includes Stueve Siegel Hanson's common benefit expenses for hotel room charges for the average available room rate of a business hotel in the city in which the stay occurred. Stueve Siegel Hanson attorneys and staff incurred hotel room charges while traveling to collect documents from class representatives and bellwether

plaintiffs, attending depositions, meeting with trial experts, and performing other matters for the common benefit of all producer and non-producer plaintiffs. Stueve Siegel Hanson negotiated reduced Kansas City hotel rates for the benefit of all counsel. These expenses are reported at actual cost.

h. Category 8, Meals: This category includes Stueve Siegel Hanson's common benefit expenses for meals. Stueve Siegel Hanson attorneys and staff incurred meal expenses while attending depositions, meeting with co-counsel, collecting documents from class representatives and bellwether plaintiffs, and performing other tasks for the common benefit of all producer and non-producer plaintiffs. Stueve Siegel Hanson also incurred common benefit meal expenses while hosting a team of attorneys that traveled to Kansas City for several weeks to review and code Defendants' document productions. These expenses are reported at actual cost.[22]

i. Category 9, Mileage: Stueve Siegel Hanson is not individually seeking reimbursement for common benefit mileage expenses.

j. Category 10, Air Travel: This category includes Stueve Siegel Hanson's common benefit airfare expenses. Stueve Siegel Hanson is seeking reimbursement for the lowest available, convenient coach fair. Stueve Siegel Hanson incurred these airfare expenses in order to attend depositions, meet with co-counsel to plan for settlement discussions and trial, meet with trial consultants, and perform other tasks for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.[23]

---

[22] Charges for alcohol were excluded from these meal totals. From an analysis of the itemized meal bills that included alcohol, alcohol was approximately 33% of the total bill. If some instances, an itemized bill was not provided. In those circumstances and out of an abundance of caution for any meal that may *potentially* have included alcohol, 33% was removed from total meal bill.

[23] First class domestic airfare and business international airfare were reduced to the charge for a contemporarily-priced coach airfare. From an analysis of these flights, coach flights were 74% of

k. Category 11, Deposition Costs: Stueve Siegel Hanson is not individually seeking reimbursement for deposition costs.

l. Category 12, Lexis/Westlaw/Bloomberg: This category includes Stueve Siegel Hanson's common benefit expenses related to conducting computerized research on Westlaw, Bloomberg Law, and PACER. Stueve Siegel Hanson's attorneys and staff used these electronic databases in order to access court filings and conduct legal research on a broad range of legal topics. For example, Stueve Siegel Hanson attorneys utilized Westlaw and Bloomberg Law in order to perform legal research on the Lanham Act, choice-of-law issues, class certification, preemption, Defendants' affirmative defenses, the admissibility of expert reports, whether PowerPoint presentations constitute business records for hearsay purposes, and numerous other legal issues that Plaintiffs faced during the course of this litigation. These costs are billed in the same manner in which Stueve Siegel Hanson bills its hourly clients.

m. Category 13, Witness and Expert Expenses: Stueve Siegel Hanson is not individually seeking reimbursement for witness or expert expenses.

n. Category 14, Court Fees: This category includes Stueve Siegel Hanson's common benefit expenses related to court filing fees. These expenses are reported at actual cost.

o. Category 15, Service of Process Fees. This category includes Stueve Siegel Hanson's common benefit expenses related to service of process. These expenses are reported at actual cost.

p. Category 16, Hearing and Trial Transcripts: Stueve Siegel Hanson is not individually seeking reimbursement for hearing and trial transcript expenses.

q. Category 17, Ground Transportation: This category includes Stueve Siegel

---

the price of a first class domestic plane ticket and business international airfare. For those few instances in which there was not a documented contemporarily-priced coach airfare, the charge was reduced by that 26%.

Hanson's common benefit expenses related to automobile rentals, shuttle service, taxis, and Uber service. Stueve Siegel Hanson attorneys and staff incurred these expenses while attending depositions and trial, meeting with co-counsel, collecting documents from class representatives and bellwether plaintiffs, and performing other tasks for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

r. Category 18, Miscellaneous: This category includes Stueve Siegel Hanson's common benefit expenses related to miscellaneous cash expenses for which receipts generally are not available (e.g., tips, luggage handling) and other items which do not fall within another category. For example, Stueve Siegel Hanson incurred miscellaneous expenses related to baggage handling, hotel computing, wireless internet, trial supplies and exhibits, and other miscellaneous items necessary for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

s. Category 19, Litigation Fund Assessments: This category includes Stueve Siegel Hanson's periodic monetary contributions to the Syngenta Litigation Fund. Co-Lead Counsel, Executive Committee members, and additional firms in the multidistrict litigation made periodic contributions to the litigation fund. These funds were utilized for the on-going prosecution of the multidistrict litigation. In total, my firm has contributed $405,000 to the litigation fund.

674. The expenses pertaining to this case are reflected in the books and records of this firm. These books and records are prepared from receipts, expense vouchers, check records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 10th day of July, 2018, in Kansas City, Missouri.

IV. Hare Wynn's Common Benefit Time and Expenses 60

I, Scott A. Powell, declare as follows:

1. I am a partner at Hare, Wynn, Newell & Newton, LLP ("Hare Wynn") and counsel of record for Plaintiffs.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so.

3. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

I. BACKGROUND

4. The following section provides background information on Hare Wynn and all Hare Wynn lawyers and staff members who performed common benefit work in this litigation.

A. Hare, Wynn, Newell & Newton, LLP

5. Hare Wynn was founded in 1890. Hare Wynn currently has 22 lawyers and 36 staff members and has its primary office in Birmingham, Alabama.

6. Hare Wynn's practice focuses exclusively on the representation of plaintiffs in civil litigation across the United States. While the firm continues to represent plaintiffs in personal injury, medical malpractice, and commercial cases, Hare Wynn over the past twenty years has maintained an active complex litigation practice. Hare Wynn primarily represents individual plaintiffs, but in recent years has also represented corporations, institutional investors, and the several state governments. Since I joined Hare Wynn in 1986, Hare Wynn's lawyers have tried hundreds of cases to verdict.

7. Numerous national and regional publications have recognized Hare Wynn. *U.S. News and World Report* has recognized Hare Wynn in its annual "Best Law Firm" rankings for each of the past eight years, with Hare Wynn earning the distinction as a U.S. News "Tier 1" firm

in nine practice areas in 2018. *VerdictSearch* recognized Hare Wynn for obtaining one of the 100 largest jury verdicts in the United States in the years 2010, 2011, 2013, and 2017.

8. Hare Wynn lawyers have served in numerous leadership positions in the bar. One of our partners is a former member of the Uniform Law Commission. Another lawyer at our firm is a former justice of the Alabama Supreme Court. Five current Hare Wynn lawyers have also served as president of the Alabama Association for Justice (formerly known as the Alabama Trial Lawyers Association), one lawyer has served as president of the Alabama State Bar, and another has served as president of the Birmingham Bar Association.

B. Partners

Scott Powell

9. I received a J.D. *cum laude* from Samford University's Cumberland School of Law in 1978. I obtained my undergraduate degree from the University of Alabama in 1975.

10. Over the past forty years my practice has focused exclusively on the representation of plaintiffs in civil litigation. I joined Hare Wynn as an equity partner in 1986 after working for eight years at another plaintiffs' firm in Birmingham. Over my career I have represented individuals, corporations, *qui tam* relators, state governments, and institutional investors. I have tried over a hundred civil cases to verdict and served as lead trial counsel in cases that resulted in million dollar verdicts.

11. Since the mid-1990s, I have focused my practice largely on complex, class, and multi-district litigation, and have practiced exclusively in those areas for over ten years. I am currently the chairman of Hare Wynn's complex litigation group.

12. I played a leading role in *In re Genetically Modified Rice Litigation*, MDL 1811 (E.D. Mo.) ("GM Rice" litigation). I was lead counsel in *Schafer v. Bayer, et al.*, (Cir. Ct. Lonoke

Cnty., Ark.), a state court proceeding related to the GM Rice litigation. In *Schafer*, a jury returned a $48 million verdict for a group of Arkansas rice farmers following a multi-week trial. The Arkansas Supreme Court later affirmed that verdict in an opinion that held the Arkansas punitive damages cap unconstitutional. *See Bayer CropScience LP v. Schafer*, 385 S.W.3d 822 (Ark. 2011). I later served on the trial teams for one of the federal bellwether trials in the GM Rice litigation and, working with Mr. Downing and Mr. Chaney, helped negotiate a $750 million settlement in the GM Rice litigation.

13. I am lead class counsel in a nationwide fraud class action that is pending in state court in Birmingham, Alabama, *Johnson v. Caremark, et al.*, Case No. 01-cv-2003-006630 (Cir. Ct. of Jefferson Cnty, Ala.). The *Johnson* case settled for $310 million in 2016 after the Alabama Supreme Court affirmed the trial court's class certification order and remanded the case for trial, *see CVS Caremark Corp. v. Lauriello*, 175 So. 3d 596 (Ala. 2014).

14. I have held leadership roles in some of the largest *qui tam* actions in U.S. history. I served as co-lead counsel in the oil royalty litigation, *United States ex rel. Johnson v. Shell Oil Co.*, No. 9:96-cv-00066-TH (E.D. Tex.), which resulted in a $410 million settlement—then the highest recovery on behalf of the United States in the history of the False Claims Act. I was also co-lead counsel in *United States ex rel. Pogue v. Diabetes Treatment Centers of America*, No. 1:99-cv-03298-RCL (D.D.C.), a health care fraud case prosecuted under the False Claims Act which, at the time of its resolution in 2009, was the highest recovery in a non-intervened health care *qui tam* case in history. I also represented one of the relators in a False Claim Act action against Novartis Pharmaceuticals that resulted in a $422 million recovery.

15. I also recently represented the State of Alaska, the State of Montana, and the Commonwealth of Kentucky in litigation under those states' consumer protection laws against the

manufacturer of the anti-inflammatory drug Vioxx. *See Commonwealth of Kentucky v. Merck*, MDL 1657 (E.D. La.); *State of Alaska v. Merck & Co., Inc*., No. 3:06-cv-00018-TMB (D. Alaska); *State of Montana ex rel. Timothy C. Fox, Attorney General v. Merck & Co., Inc.*, No. CV-06-07-H-DWM (D. Mont.). Those three cases settled for a total of nearly $60 million.

16. In October 2017 I filed a putative copyright infringement class action against the e-commerce company Alibaba. *See Keck v. Alibaba.com, Inc*., et al, Case No. 5:17-cv-05672-BLF (N.D. Cal.). That case remains pending.

17. I also held a leadership position in *In re Biomet M2a Magnum Hip Implant Products Liab. Litigation*, MDL 2391 (N.D. Ind.)

18. I have been active in state and national bar organizations. I am a past president of both the Alabama Trial Lawyers Association and International Society of Barristers. I am also a Fellow of the American College of Trial Lawyers, Fellow of the International Society of Barristers, Fellow of the American Bar Foundation, and Fellow of the Alabama Bar Foundation. I am also a member of the United States Magistrate Judge Selection Committee for the Northern District of Alabama and recently served as Chairman of the Cumberland Law School Advisory Board.

19. I was selected as the 2013 Alabama Litigator of the Year by *Benchmark Litigation*. I have also been named to *The Best Lawyers in America* in three different fields, and Taxpayers Against Fraud honored me as its Lawyer of the Year in 2009. I have also been recognized by *Chambers USA* as a leading lawyer representing plaintiffs.

Bruce McKee

20. Bruce McKee obtained his B.A. from the University of Alabama in 1978, his J.D. from Columbia University School of Law in 1981, and his LL.M. from the University of Virginia School of Law in 1984. Bruce formerly served as the central staff attorney for the Alabama

Supreme Court and has taught various courses—including federal civil procedure, Alabama civil procedure, and conflict of laws—at Samford University's Cumberland School of Law and Faulkner University's Jones School of Law.

21. Bruce has been the primary appellate lawyer and brief writer at Hare Wynn for nearly 30 years. Bruce joined Hare Wynn as a partner in 1989, after working for Hare Wynn on a part-time basis for several years while serving as a full-time professor and assistant dean at Cumberland School of Law. After joining Hare Wynn, Bruce continued to teach civil procedure at Cumberland School of Law as an adjunct professor for another 17 years.

22. Bruce served as a member of the Uniform Law Commission for 15 years, has worked on or with the amicus curiae brief committee of the Alabama Association for Justice (formerly, Alabama Trial Lawyers Association), has served on several Alabama Law Institute committees tasked with drafting legislation for Alabama, and has been appointed by the Alabama Supreme Court to serve on several other committees.

23. Bruce was appellate counsel in *Bayer CropScience LP v. Schafer*, 385 S.W.3d 822 (Ark. 2011), where he successfully argued that the Arkansas statutory cap on punitive damages was unconstitutional.

24. Bruce has served as the lead legal researcher and brief writer at the trial court level in numerous class actions, including *Johnson v. Caremark, et al*., Case No. 01-cv-2003-006630 (Cir. Ct. of Jefferson Cnty., Ala.), which eventually settled for $310 million, and *Johns Manville v. Tennessee Valley Authority*, No. 2:99-CV-2294 (N.D. Ala.), which resulted in a $18 million settlement.

25. Bruce has been recognized as a *Super Lawyer*, is listed in the *Best Lawyers in America*, and in 2018, *Birmingham Magazine* recognized him as the top appellate lawyer in

Birmingham.

Jamie Moncus

26. Jamie Moncus obtained his J.D. from Vanderbilt University Law School in 2003 and earned his undergraduate degree from Auburn University in 2000. During law school, Jamie received the Morgan Prize for the most outstanding piece of student writing for his class. Jamie has worked as a trial lawyer at Hare Wynn since 2003.

27. Jamie is a member of the Alabama, Tennessee, Mississippi, and West Virginia state bars and represents plaintiffs in civil actions across the United States.

28. Jamie has tried numerous complex tort cases to verdict. *VerdictSearch* recognized Jamie in both 2011 and 2013 for obtaining one of the 100 largest verdicts in the United States in both of those years. Jamie is currently representing several hundred Texas property owners whose homes were damaged in flooding due to the negligent design of a levee just south of Houston. Jamie also recently concluded a case in Corpus Christi, Texas, where he acted as lead counsel in securing an $11 million settlement in a high profile tort case.

29. Jamie frequently lectures on trial advocacy, having taught seminars, conferences, and continuing legal education events to lawyers from 47 states.

30. Jamie is also active in bar organizations. He serves on the American Association for Justice Board of Governors, serves on the Alabama Association for Justice Executive Committee, is a Member of the American Inns of Court, and is a fellow of the American Bar Foundation.

31. Jamie is listed in the *Best Lawyers in America* and in Mid-South *Super Lawyers*. He is also Life Member of the Multi-Million Dollar Advocates Forum. Martindale-Hubbell has rated Jamie as “AV Preeminent” since 2012.

Jason Earley

32. Jason Earley received his J.D. with High Honors from the University of Arkansas at Little Rock William H. Bowen School of Law in 2004. During law school, Jason served on the Law Review and National Trial Team. Jason received his B.A. in Politics *cum laude* from Lyon College in 1999.

33. Jason has served as the Managing Partner of the Hare Wynn office in Little Rock since 2014. At Hare Wynn, Jason has focused his practice on class action litigation. He served as class counsel in *Mounce v. Community Health Systems, Inc. et al*., No. 5:15-CV-05197-TLB (W.D. Ark.), which successfully resolved after three years of litigation. He is currently prosecuting a putative class action on behalf of copyright owners against e-commerce giant Alibaba. *See Keck v. Alibaba.com, Inc*., No. 5:17-cv-05672-BLF (N.D. Cal.)

34. Prior to joining Hare Wynn, Jason practiced complex litigation with a boutique Little Rock law firm and has litigated complex cases across the country. He has first-chair experience in numerous jury trials.

35. In 2018, Jason attended the Duke Law Judicial Studies Center's MDL Conference. He has been repeatedly recognized by *Super Lawyers* as a Mid-South "Rising Star" and "Super Lawyer." Jason has served nine years on the Arkansas Bar Association's House of Delegates.

36. Jason is also an officer and board member of the Downtown Little Rock Kiwanis Club and is on the board of trustees of Philander Smith College.

Hughston Nichols

37. Hughston Nichols obtained his B.S. from the University of Alabama in 2003 and his J.D. from the University of Alabama School of Law in 2006. Hughston began working at Hare Wynn as an associate in 2006 and was promoted to partner in 2014.

38. Hughston is past president of the Young Lawyers Section of the Alabama State Bar, is recognized as a *Super Lawyers* "Rising Star," and in 2016 *Birmingham Magazine* selected him as "Best Attorney in Birmingham."

Brian Vines

39. Brian Vines received a J.D. from the University of Virginia School of Law in 2007, where he served on the Managing Board of the *Virginia Law Review* and graduated as a member of the Order of the Coif. Brian received a B.S. in Civil Engineering from Auburn University, where he graduated *summa cum laude* in 2002.

40. After law school, Brian served as a law clerk to the Honorable William H. Pryor Jr. of the United States Court of Appeals for the Eleventh Circuit and then began his private career at the law firm of Bradley Arant Boult Cummings, LLP. In 2011, Brian left Bradley Arant and became an associate at Hare Wynn, where he became a partner in May 2017.

41. Brian has worked on numerous complex cases throughout his legal career. While at Bradley Arant, he represented the State of Alabama in several cases, including filing a brief in front of the United States Court of Appeals for the Fourth Circuit on behalf of the state. At Hare Wynn, Brian represented the Commonwealth of Kentucky as well as the states of Montana and Alaska in litigation against Merck arising out of its sale of Vioxx. *See Commonwealth of Kentucky v. Merck*, MDL 1657 (E.D. La.); *State of Alaska v. Merck & Co., Inc*., No. 3:06-cv-00018-TMB (D. Alaska); *State of Montana ex rel. Timothy C. Fox, Attorney General v. Merck & Co., Inc*., No. CV-06-07-H-DWM (D. Mont.).

42. Brian also represented shareholders in a fraud class action against CVS Caremark and AIG related to their fraudulent settlement of a securities class action in the late 1990s. This case settled for $310 million in 2016. *Johnson v. Caremark, et al*., Case No. 01-cv-2003-006630

(Cir. Ct. of Jefferson Cnty., Ala.).

C. Associates

Tempe Smith

43. Tempe Smith received her J.D. *magna cum laude*, Order of the Coif, from the University of Alabama School of Law in 2010. While in law school, Tempe received Best Paper in Civil Procedure, Appellate Advocacy, and Public International Law. She chaired the Campbell Moot Court Board and was an Articles Editor and Managing Board Member of the *Alabama Law Review*. Tempe received her B.S. in Psychology from Mary Washington College in 2004.

44. After law school, Tempe served as law clerk to the Hon. James H. Hancock, R. David Proctor, and John E. Ott, all in the Northern District of Alabama.

45. Tempe joined Hare Wynn as an associate in 2015. Her practice focuses on mass tort and class action cases. Tempe has first-chair trial experience and has handled a number of complex commercial cases in both state and federal courts.

46. Tempe and a team of Hare Wynn attorneys serve as Class Counsel in a nationwide fraud class action that is pending in state court in Birmingham, Alabama, *Johnson v. Caremark, et al*., Case No. 01-cv-2003-006630. The *Johnson* case settled for $310 million in 2016, although the claims administration process is still ongoing.

47. Tempe also worked on a team of Hare Wynn attorneys to represent the states of Montana and Alaska in their consumer protection cases against Merck related to Vioxx. *State of Alaska v. Merck & Co., Inc*., No. 3:06-cv-00018-TMB (D. Alaska); *State of Montana ex rel. Timothy C. Fox, Attorney General v. Merck & Co., Inc*., No. CV-06-07-H-DWM (D. Mont.)

48. In October 2017, Tempe along with other Hare Wynn attorneys, filed a putative class action in the Northern District of California against e-commerce giant Alibaba for violating

the copyrights of visual artists. *Keck v. Alibaba.com, Inc., et al*, Case No. 5:17-cv-05672-BLF (N.D. Cal.).

49. *Super Lawyers* has recognized Tempe as a Mid-South region "Rising Star."

Chris Randolph

50. Chris Randolph received a J.D., *cum laude*, from Harvard Law School in 2010, where he was a Dean's Scholar, earned the Joseph H. Beale Prize for Conflict of Laws, and was Submissions Editor for the *Harvard Journal on Legislation*. He received a B.A., *summa cum laude* with High Honors in Political Science, from Vanderbilt University in 2007. At Vanderbilt he was inducted into Phi Beta Kappa and received the Founder's Medal for First Honors for finishing first in his college class.

51. After law school, Chris clerked for Hon. William H. Pryor Jr. of the United States Court of Appeals for the Eleventh Circuit. After completing his clerkship, Chris worked for over three years as an associate at Maynard, Cooper & Gale, P.C., a 200-lawyer full-service firm based in Birmingham, Alabama. Chris' practice at Maynard Cooper focused on complex, class action, and appellate litigation.

52. Chris joined Hare Wynn as an associate in early 2015. Chris' practice at Hare Wynn focuses on class action and mass tort litigation, though he also has experience handling single event cases. He has briefed and argued multiple federal appeals and is also a member of the Alabama Association for Justice Amicus Committee.

53. Chris was on the team of lawyers that obtained a $27 million settlement in *In re Duke Energy Corp. Derivative Litigation*, C.A. No. 7705-VCG (Del. Ch.). Chris has also been actively involved in litigating *Keck v. Alibaba.com, Inc., et al*, Case No. 5:17-cv-05672-BLF (N.D. Cal.), a putative class action Hare Wynn filed in October 2017 on behalf of copyright owners

whose works have been infringed on Alibaba.com and related e-commerce platforms.

54. *Super Lawyers* has recognized Chris as a "Rising Star" for the Mid-South region.

Sarah Jewell

55. Sarah Jewell holds a B.A. from the University of Arkansas, a M.A. from Texas Christian University, and a J.D. from the University of Arkansas School of Law. Sarah began work at Hare Wynn after finishing law school in 2015 and worked at Hare Wynn until 2018.

D. Staff Attorney

Virginia Applebaum

56. Virginia Applebaum received her J.D. from Cumberland School of Law in 2004 and received a B.S. and M.S. from Jacksonville State University in 1995 and 1999, respectively. Virginia has worked in private law practice since 2006. Virginia started working as a paralegal at Hare Wynn in 2014 and became a staff attorney in 2017.

57. Virginia has extensive experience in mass tort litigation, including experience in the GM Rice litigation, pharmaceutical litigation, and medical device litigation. Since 2017, Virginia, at the request of the Circuit Court of Jefferson County, Alabama, has served as coordinating counsel for nearly 300 plaintiffs asserting claims against Alabama Gas Corporation (now Spire, Inc.) arising out of a gas pipeline explosion.

58. *Super Lawyers* has recognized Virginia as a "Rising Star" for the Mid-South region.

E. Paralegals and Support Staff

Debbie Byrd

59. Debbie Byrd has worked as a legal secretary and paralegal since 1980. Debbie became Hare Wynn's interim litigation support director in 2016 and became Hare Wynn's permanent litigation support director in 2017. She is experienced in using numerous litigation

management software programs, including Lexbe, IPro Eclipse, and Summation.

Martha Miller

60. Martha Miller received a B.S. in business administration from Samford University and has worked at Hare Wynn since 1983. She has experience working with accounting software that several bellwether discovery pool plaintiffs used to record financial information that had to be produced in discovery.

Laura Riedinger

61. Laura Riedinger has worked in the legal industry since 1985, working as a legal secretary, paralegal, law librarian and, for five years, as a deputy clerk of the U.S. District Court for the Eastern District of Arkansas. Laura has worked as a paralegal at Hare Wynn since 2010. She has extensive experience working as a mass tort and class action paralegal, including work on the GM Rice litigation and several pharmaceutical and medical device MDLs. Laura holds a bachelor's degree from the University of Oregon and a master's degree in library and information science from the University of Illinois.

Andi Marquez

62. Andi Marquez has worked as a paralegal and legal administrative assistant since 2001. Andi has a B.A. from the University of Alabama.

Brian Snipes

63. Brian Snipes has worked as the information technology manager at Hare Wynn since 2002 and has worked in the technology industry since 1996. He is a Microsoft Certified Professional, RedHat Certified Engineer, Linux Certified Professional, Master Certified Novell Engineer, and Cisco Certified Network Associate.

Zondra Bess

64. Zondra Bess started working as a paralegal/litigation support assistant at Hare Wynn in 2003. She worked as a paralegal on the GM Rice litigation.

Phillip Carter

65. Phillip Carter has worked as a full-time technology consultant at Hare Wynn since 2003. Philip is a Certified TrialDirector Trainer and has coordinated the courtroom audio and video presentations in over 100 trials. Phillip has taken film and theater classes at George C. Wallace State Community College and at Samford University.

Darcy Glasgow

66. Darcy Glasgow has worked as a paralegal/litigation support assistant at Hare Wynn since 2003. She was a paralegal case manager in the GM Rice litigation.

Brittney Wilson

67. Brittney Wilson holds a bachelor's degree in Paralegal Studies from Eastern Kentucky University and a Master's Degree in Human Resources Management from Sullivan University. Brittney has worked as a paralegal since 2004.

Sarah Nelson

68. Sarah Nelson holds an Associate Degree in Paralegal Studies from Virginia College and has worked as a litigation paralegal since 2008. She previously served as the primary paralegal for an environmental class action.

Emily Rubino

69. Emily Rubino holds a B.A. from the University of Montevallo and has worked as a paralegal/litigation support assistant at Hare Wynn since 2012.

Rasheedah Heath

70. Rasheedah Heath holds an undergraduate degree from the University of Alabama

at Birmingham and obtained her J.D. from Miles Law School in 2011. She worked as a paralegal at another firm from 2008 to 2014 and has worked at Hare Wynn since 2016.

Amy Camp

71. Amy Camp is a graduate of the Paralegal Certification Program at the University of Alabama at Birmingham and also completed coursework in Stenography and Paralegal Studies at Gadsden State Community College. Amy has worked as a paralegal since 1997.

Dax Whitfield

72. Dax Whitfield worked in litigation support at Hare Wynn starting in 2002 and worked as Hare Wynn's litigation support director from 2013 until 2016. Dax obtained an engineering degree from the University of Alabama at Birmingham.

Jennifer Young

73. Jennifer Young worked as a paralegal/legal secretary at Hare Wynn starting in 2014. Before coming to Hare Wynn, Jennifer had 15 years of experience in general insurance administration.

Chanelle Parker

74. Chanelle Parker started working at Hare Wynn as a paralegal/litigation support assistant in 2014. Before coming to Hare Wynn, Chanelle worked as computer consultant/troubleshooter, a patient services manager at a health care practice, and as an insurance claims adjuster.

Mary Ellen Davis

75. Mary Ellen Davis obtained her undergraduate degree from Samford University and was enrolled in paralegal classes at Cumberland School of Law while working at Hare Wynn. She began working at Hare Wynn in 2014.

Tara Crowden Dickerson

76. Tara holds a bachelor's degree from the University of North Alabama. She began her career as a paralegal/litigation support assistant at Hare Wynn in 2015.

Ryan Gordon

77. Ryan Gordon obtained a bachelor's degree from Auburn University in 2012 and attended Jones School of Law of Faulkner University in 2012-13. Ryan had two years of experience as a law clerk and paralegal at other Birmingham firms before starting work as a contract paralegal at Hare Wynn in 2015.

Emilie Estep

78. Emilie Estep obtained a B.A. *cum laude* from the University of Alabama in 2015. She worked as a legal assistant at Donald & Estep, LLC in Mobile, Alabama, in the summers of 2011 and 2014, and worked at Hare Wynn as a contract paralegal in 2016.

Jason Henry

79. Jason Henry obtained a B.A. from Virginia College in 2009. He had nine years of experience working in business and on a political campaign before starting work as a contract paralegal at Hare Wynn in 2016.

Brian Ware

80. Brian graduated *magna cum laude* from Auburn University in 2012 and obtained a J.D. from Cumberland School of Law in 2016. Brian worked as a paralegal at Hare Wynn in 2016 after he completed law school.

Hellana Marshall

81. Hellana Marshall worked as a paralegal/litigation support staff member while pursuing a degree from Auburn University at Montgomery.

II. SUMMARY OF COMMON BENEFIT WORK PERFORMED BY HARE WYNN

82. Pat Stueve in his declaration has provided a chronological overview of this litigation and described much of the common benefit work performed jointly by co-lead counsel. In the discussion below, I supplement Mr. Stueve's declaration with description of common benefit work that Hare Wynn handled or coordinated.

A. Preparation of Original Class Action Complaints

83. Hare Wynn lawyers Brian Vines and Jason Earley in 2014 worked with Gretchen Garrison of Gray Ritter & Graham, P.C. ("Gray Ritter") in conducting research for the original producer plaintiff complaints. Brian and Jason helped draft the factual sections of those complaints and worked with me in reviewing several draft versions of the complaint.

84. The original producer plaintiff complaints were filed in the District of Kansas and the Eastern District of Missouri in November 2014. *See Five Star Farms, et al v. Syngenta AG et al*, No. 2:14-cv-02571-JWL-JPO (D. Kan.); *Wilson Farm, Inc., et al v. Syngenta AG, et al*, No. 4:14-cv-01908-RWS (E.D. Mo.). These complaints formed the basis for the Master Complaints filed in the MDL.

B. Coordination with Leadership in Parallel Litigation

85. In January 2015, this Court appointed as co-lead counsel for the plaintiffs in the MDL Don Downing of Gray Ritter; Patrick Stueve of Stueve Siegel Hanson, LLP ("Stueve Siegel"); William Chaney of Gray Reed & McGraw LLP ("Gray Reed"); and myself. (ECF No. 67.) In the days immediately following the leadership order, the co-lead counsel divided up work responsibilities.

86. In the spring of 2015 I worked with the co-leads in negotiating a Joint Prosecution Agreement with Phipps Anderson Deacon, LLP and Watts Guerra, LLP, firms that were

prosecuting parallel litigation on behalf of producer plaintiffs in Minnesota and Illinois. In connection with the negotiation of the Joint Prosecution Agreement I traveled to meetings in St. Louis and Phoenix. The Joint Prosecution Agreement was submitted to the Court on April 1, 2015. (ECF No. 331)

87. Throughout the litigation the other co-leads and I maintained communication with counsel prosecuting claims against Syngenta in other venues. I also attended court hearings in parallel cases in Hennepin County, Minnesota, St. John the Baptist Parish, Louisiana, and Williamson County, Illinois.

C. Preparation of Amended Producer Plaintiffs Master Complaint

88. I worked with the other co-leads in vetting potential additional class representatives who would be named in the Amended Producer Plaintiffs Master Complaint.

89. In connection with the preparation of the Amended Producer Plaintiffs Master Complaint, Jason Earley, Brian Vines, and Chris Randolph were part of the team that researched potential causes of action, some of which were ultimately asserted, under the laws of about 24 states.

90. For each of those states, Jason, Brian, and Chris researched approximately 30 legal issues related to various causes of action, including negligence, trespass to chattels, trespass to land, private nuisance, tortious interference, violation of an unlawful trade practices act, and prima facie tort. Research issues included the scope of and theoretical basis for the economic loss doctrine; whether in a negligence action the foreseeability of harm gives rise to a duty; the availability of punitive damages for a negligence claim; and whether malice or an intent to cause harm is required for a tortious interference claim.

91. After completing this research, Jason was part of the team that drafted for the

Amended Producer Plaintiffs Master Complaint new allegations supporting claims under the laws of various states and reviewed edited drafts of the Amended Producer Plaintiffs Master Complaint.

D. State Court Class Action Complaints

92. Chris Randolph and Tempe Smith, in consultation with Drew York, coordinated the filing of state court class action complaints in several states with two-, three-, and four-year statutes of limitations to toll the running of those statutes. Chris and Tempe identified class representatives from among the producer plaintiffs who had retained the co-lead firms, prepared state class action complaints based on the Master Complaint, and worked with Drew to identify local counsel to assist with the filing of complaints in state court in Alabama, South Dakota, Arkansas, Wisconsin, New Mexico, Montana, Kentucky, and Nebraska.

E. Response to Motion to Dismiss

93. Syngenta filed its Motion to Dismiss on June 19, 2015. (ECF No. 856)

94. Jason Earley worked with Gretchen Garrison in preparing the opposition to the Motion to Dismiss. Jason drafted responses to Syngenta's arguments directed to the trespass to chattels and tortious interference claims. Jason also worked with Chris Randolph in preparing a response to Syngenta's arguments directed to the private nuisance claims.

95. I reviewed and edited the Opposition to the Motion to Dismiss and, along with Jason Earley, attended the hearing on the Motion to Dismiss in Kansas City. At the hearing, Jason handled oral argument relating to the tortious interference claims.

F. Bellwether Discovery Pool Selection

96. The Court ruled that the bellwether pool would consist of: "(1) the 5 non-producer plaintiffs who have filed suit (4 of whom are named class representatives in any event); (2) the 2 milo plaintiffs named in the milo master complaint; (3) a sampling of 6 producer-plaintiffs from 8

of the 22 states at issue, with each side selecting 4 states on an alternating basis, with plaintiffs selecting first, and further with each side selecting 3 plaintiffs per state on a similar alternating basis; and (4) the named class representative(s) in each of the 8 selected states." (ECF No. 1098 at 6.)

97. To prepare for the bellwether selection process, I worked with the other co-lead lawyers and executive committee members in identifying the states most desirable to include in the bellwether discovery pool and evaluating potential candidates for the bellwether pool.

98. On November 12, 2015, the parties selected the eight bellwether states: Arkansas, South Dakota, Illinois, Iowa, Missouri, Kansas, Nebraska, and Ohio. The following week, on November 19-20, 2015, the parties made their bellwether plaintiff selections.

99. Over the following months, several bellwether selections had to be replaced; in a few instances, Co-Lead Counsel elected not to choose a replacement bellwether. Ultimately the bellwether discovery pool included 69 corn producers, some of whom farmed through multiple farming entities.

G. Producer Plaintiff Written Discovery

100. The MDL included hundreds of complaints filed by dozens of law firms, class representatives from over 20 states, and a bellwether discovery pool that included approximately 70 farmers. All of those plaintiffs had to provide discovery to Syngenta, and the co-lead counsel agreed that Hare Wynn would coordinate the production of written discovery from the producer plaintiffs in the MDL, handle the service of those discovery responses to Syngenta, and coordinate plaintiffs' responses to complaints that Syngenta raised about the plaintiffs' discovery responses. Hare Wynn took on this coordinating responsibility consistent with the Court's directives that co-lead counsel "organize and supervise the efforts of plaintiffs' counsel in a manner to ensure that

the pretrial and trial preparation for the plaintiffs is conducted effectively, efficiently, expeditiously, and economically," "coordinate the initiation of and conduct discovery on behalf of plaintiffs . . .," and "be the primary contact for all communications between plaintiffs and defendants." (ECF No. 67 at 6-7.) Co-lead counsel's supervision of producer plaintiff discovery was also necessary given that Syngenta was expected to (and did) rely on discovery obtained from individual plaintiffs in supporting its opposition to class certification; moreover, had class certification been denied, individual farmers' claims would have likely been tried in bellwether trials.

101. The following discussion first provides an overview of Hare Wynn's responsibilities in coordinating plaintiffs' production of discovery, then identifies the discovery obligations of various categories of plaintiffs, and then provides more detailed discussion of Hare Wynn's work related to plaintiff fact sheets, document productions, depositions, and requests for admission and interrogatories directed to the plaintiffs.

102. Hare Wynn, as co-lead counsel, coordinated the service to Syngenta of all discovery from the producer plaintiffs. In that role, Hare Wynn coordinated the production to Syngenta of approximately 350 volumes of written discovery between 2015 and 2017. Those production volumes included

a. Approximately 2,900 original and amended plaintiff fact sheets;

b. Approximately 400,000 pages of documents produced by the producer plaintiffs;

c. Approximately 200 sets of original and amended interrogatory responses;

d. Approximately 200 sets of original and amended request for admission responses;

e. Documents that the plaintiffs' experts relied on in forming their opinions.

103. For these productions, Hare Wynn would

a. Assemble documents that the producer plaintiffs' law firms had collected from their clients;

b. Determine the Bates numbers for all documents being produced, using a unique prefix for each plaintiff;

c. Prepare a load file for each document production, as required by the ESI protocol; usually, Hare Wynn worked with an outside vendor, SourceOne, in preparing the load files;

d. Upload fact sheets, written discovery responses, documents, and load files to a secure website accessible by Syngenta's counsel;

e. Prepare and file with the Court a certificate of service that identified the plaintiffs who were providing discovery in each production volume.

104. On a few occasions Syngenta encountered technical issues when attempting to access the producer plaintiff's document productions. In those instances Chris Randolph worked with Hare Wynn staff or SourceOne to respond to those issues—usually within a few hours of Syngenta raising the issue.

105. Tara Dickerson, and other Hare Wynn staff members, also maintained a separate cloud site, accessible by plaintiffs' counsel, where Bates numbered versions of all documents produced by the plaintiffs in the bellwether discovery pool were organized by plaintiff.

1. Producer plaintiffs' discovery obligations

106. The discovery obligations of the producer plaintiffs differed based on whether a plaintiff was a bellwether selection, was a class representative from one of the states in the bellwether discovery pool, or was a class representative from one of the states outside the bellwether discovery pool:

a. The Kansas class representatives attended and testified at trial; provided deposition testimony; responded to the 27 requests in Syngenta's First Set of Requests for Production to Producer Plaintiffs which sought, among other things, detailed information pertaining to the producer's farming operations over an extended

time period; responded to Syngenta's second Set of Requests for Production to Producer Plaintiffs, which included 70 document requests; were required to respond to three sets of interrogatories; were required to answer requests for admission; and were required to provide a plaintiff fact sheet, which included four requests for production. These Kansas class representatives, designated as "Tier 3" plaintiffs, are listed below:

Name	State
Grafel Farms, LLC/Beaver Creek Farms, Inc./D&S Grain & Cattle Co./Demmer Farms, Inc.	KS
Charles Frickey	KS
Five Star Farms	KS
David Polifka Rev. Living Trust	KS

b. The remaining plaintiffs in the bellwether discovery pool were deposed; required to provide documents responsive to Syngenta's First Set of Requests for Production, were required to respond to Syngenta's Second Set of Requests for Production to Producer Plaintiffs, were required to respond to three sets of interrogatories, were required answer requests for admission, and were required to provide a plaintiff fact sheet, which included four requests for production. These bellwether discovery pool plaintiffs, designated as "Tier 2" plaintiffs, are listed below:

c. All remaining class representatives named in the Master Complaint, in addition to providing a fact sheet, were required to respond to the

27 requests in Syngenta's First Set of Requests for Production to Producer Plaintiffs. These requests sought, among other things, detailed information pertaining to the producer's farming operations over an extended time period. These class representatives from outside the bellwether discovery pool, designated as "Tier 1" plaintiffs, are listed below:

Name	State
Robert Walker, Jr. Farms	AL

d. All plaintiffs in the MDL were required to serve a plaintiff fact sheet and documents responsive to the four document requests in the fact sheet.

2. Plaintiff Fact Sheets

107. This Court on February 4, 2015, ordered that each producer plaintiff in the MDL complete and serve a plaintiff fact sheet "providing detailed information using a standard form about which the parties' lead counsel must meet and confer." (ECF No. 123 at 11) Hare Wynn, in its role as one of the co-lead firms, coordinated the fact sheet production for the plaintiffs in the MDL.

108. Brian Vines and I took the lead in developing a plaintiff fact sheet and handled the

meet and confer with Syngenta's counsel regarding the content of the plaintiff fact sheet. We were eventually able to reach agreement with Syngenta on a plaintiff fact sheet form without Court involvement.

109. The fact sheet required producer plaintiffs to provide their corn acreage for each year from 2011 to the present and the variety of corn grown. The fact sheet also required each plaintiff to answer 14 additional questions.

110. The fact sheet included four requests for production. Those document requests sought 1) documents sufficient to show corn seed purchases from 2011 to the present; 2) documents sufficient to show "all terms and conditions for all of your sales or contracts for sale of corn" from 2011 to the present; 3) documents sufficient to show "any cost you believe you have incurred or injury you believe you have suffered as a result of the presence of Viptera or Duracade in corn," and 4) "all documents for crop insurance related to corn for the 2013 and 2014 crop years."

111. In spring 2015, Hare Wynn staff members, including Zondra Bess, Andi Marquez, Virginia Applebaum, Darcy Glasgow, and Emily Rubino, working under the supervision of Brian Vines and Chris Randolph, helped contact class representatives named in the Master Complaint to obtain from them information and documents requested in the plaintiff fact sheet. The team later coordinated the production of amended fact sheets for those class representatives following an exchange of golden rule letters with Syngenta's counsel.

112. Chris Randolph worked with Hare Wynn staff members including Dax Whitfield, Andi Marquez, Emily Rubino, Virginia Applebaum, Zondra Bess, Sarah Nelson, Darcy Glasgow, Ryan Gordon, and Tara Dickerson to coordinate the production of plaintiff fact sheets to Syngenta for all plaintiffs in the MDL. In carrying out this responsibility:

a. Hare Wynn's litigation support manager, Dax Whitfield, set up an online cloud site containing folders for each plaintiff in the MDL. Plaintiffs' lawyers could upload documents responsive to the fact sheet's document requests to the cloud site.

b. Dax worked with Stueve Siegel's staff to set up an online portal where plaintiffs' lawyers could enter for each plaintiff information responsive to the questions in the plaintiff fact sheet.

c. Chris contacted all lawyers who represented producer plaintiffs in the MDL to notify them of their obligations to produce plaintiff fact sheets, provided them detailed instructions regarding the process for completing plaintiff fact sheets, and provided them reminders of fact sheet deadlines.

d. All plaintiffs' firms with cases in the MDL in the summer of 2015 were assigned a contact person at Hare Wynn who could provide assistance with completing fact sheets. Chris and Hare Wynn staff fielded thousands of questions related to plaintiff fact sheets from lawyers representing plaintiffs in the MDL.

e. Hare Wynn, ahead of fact sheet production deadlines, would collect responses to the plaintiff fact sheet questions that had been entered into the portal and configure those responses into the proper format for production.

f. Hare Wynn would collect documents responsive to the fact sheet's document requests that plaintiffs' lawyers had uploaded to the cloud site, determine the appropriate Bates numbers for those documents, and work with an outside vendor, SourceOne, in having load files prepared for those documents.

g. Hare Wynn, when feasible, identified potential deficiencies in plaintiff fact sheets and communicated with the lawyers completing those fact sheets regarding those potential deficiencies.

h. Chris and I managed communications with Syngenta's counsel regarding purported fact sheet deficiencies.

113. As the litigation continued, Hare Wynn coordinated the production of amended fact sheets that included updated information about farmers' operations.

114. This Court on October 21, 2015, issued an order directing producer plaintiffs to serve completed fact sheets by December 1, 2015, or risk having their claims dismissed for failure to prosecute. (ECF No. 1098 at 7.) Over the following weeks, Hare Wynn worked to help

plaintiffs' lawyers identify potential deficiencies in their plaintiff fact sheets and coordinated the production of hundreds of amended fact sheets. (*See, e.g.*, ECF Nos. 1235, 1250, 1255) No plaintiffs' claims were involuntarily dismissed for failure to produce a completed fact sheet.

115. Hare Wynn continued to work with plaintiffs lawyers in coordinating the production of plaintiff fact sheets for plaintiffs whose cases were transferred to the MDL. In early 2016, for example, Hare Wynn coordinated the production of hundreds of fact sheets for plaintiffs whose cases were filed shortly before the statute of limitations ran in states with two-year statutes. (*See, e.g.* ECF No. 1392, 1438-1445.)

116. Throughout this process, I monitored the status of the plaintiff fact sheet production, regularly spoke with Chris about the production of plaintiff fact sheets, and discussed the status of plaintiff fact sheets with the other co-lead counsel. I also invited all lawyers representing plaintiffs in the MDL to conference calls I hosted where I stressed the importance of completing plaintiff fact sheets and answered questions from plaintiffs' lawyers. I volunteered Hare Wynn's assistance to any lawyers who needed help collecting from their clients the information and documents necessary to complete plaintiff fact sheets.

3. Syngenta's First Set of Requests for Production to Class Representatives and Bellwether Plaintiffs

117. Syngenta in July 2015 circulated proposed requests for production to producer and non-producer plaintiffs. Over the following weeks I participated in meet and confer discussions with Syngenta's counsel regarding the scope of those requests. Syngenta ultimately agreed to narrow the scope of some of its requests for production.

118. We were unable to reach agreement with Syngenta about the scope of several of Syngenta's proposed discovery requests and submitted those discovery disputes to the Court for

resolution. Jason Earley and Chris Randolph worked with Rachel Schwartz in drafting the plaintiffs' portion of a Joint Motion Regarding Disputes Concerning Syngenta's First Set of Requests for Production of Documents to Producer Plaintiffs. (ECF No. 945). The Court in its August 11, 2015 order, overruled some of our objections to Syngenta's discovery requests while also sustaining our objection to the production of tax returns and to certain financial records from farming entities in which a producer plaintiff had any ownership interest. (ECF No. 951 at 4, 7)

119. Syngenta served its First Set of Requests for Production to named plaintiffs ("Syngenta's First RFPs") on August 17, 2015. This set of discovery requests included 27 document requests. These discovery requests were served on all the plaintiffs named in the operative version of the Master Complaint. Syngenta later served these requests on all the producer plaintiffs in the bellwether discovery pool.

120. Hare Wynn coordinated the production of producer plaintiff's written responses and objections to Syngenta's First RFPs and Second Set of Requests for Production.

121. Chris Randolph, working with several Hare Wynn staff members, coordinated the production of documents responsive to Syngenta's First RFPs. These efforts included identifying potentially responsive categories of documents and assembling responsive documents that several law firms—including Gray Ritter, Stueve Siegel, Gray Reed, and Paul McInnes[1]—collected from producer plaintiffs. Chris also fielded questions from lawyers at those firms regarding Syngenta's First RFPs.

122. Hare Wynn worked with Rachel Schwartz in handling meet and confers with Syngenta's counsel regarding search terms used in searching plaintiffs' e-mail accounts for responsive documents.

[1] Rick Paul and Ashlea Schwarz formerly worked at Paul McInnes, LLP. Both of them are now affiliated with Paul, LLP.

123. Hare Wynn worked directly with a number of plaintiffs in collecting documents responsive to Syngenta's First RFPs. Those plaintiffs included W. Edgar Willman Trust/Estate of Lloyd Willman, Pat Skarda, Henderson Farms Partnership, Robert Walker, Jr. Farms, Walker Farms, James H. Walker Farms, Brenda Hunt, Frith Farms Partnership, Clark Hill d/b/a Clark Hill Farms, Delta Farms Partnership, Jackle Farms, Inc., Steve & Penny Bernstein d/b/a Bernstein Farms, Wilson Farms, Inc., and Whispering Oats Farms, Inc. Hare Wynn and Gray Ritter split discovery responsibilities for Mike DaVault and Hare Wynn worked with the Holland Firm, and Paul, LLP in collecting discovery from James McKinney. Hare Wynn also worked with Anderson Bottrell Sanden & Thompson as that firm collected discovery directly from Tom Belzer, Belzer Bros. Potato Co., and B&G, and worked with Milberg, LLP as that firm collected discovery directly from Gilbert Jones & Sons Farms, LLC. In order to ensure that all responsive documents within the plaintiffs' possession, custody, or control were collected, Hare Wynn lawyers and staff, including Virginia Applebaum, Darcy Glasgow, and Chris Randolph, worked with some farmers to obtain authorization to collect documents from third parties, such as crop insurance agents, grain elevators, and seed dealers, and then collected responsive documents directly from those third parties.

124. Collection of documents during the fall of 2015 was complicated by the fact that the producer plaintiffs in most parts of the country were at that time working long hours harvesting their crops.

125. Aside from some productions from Kansas farmers which lawyers at Stueve Siegel reviewed for privilege, Chris Randolph reviewed for privilege all documents produced in response to Syngenta's First RFPs.

126. Chris and Virginia worked with other plaintiffs' firms in coordinating the

supplementation of those plaintiffs' document productions with responsive corn sales documents that were generated after the initial document productions.

127. Chris reviewed corn seed purchase documents produced by class representatives and the producer plaintiffs in the bellwether discovery pool to determine if they purchased Viptera or Duracade.

4. Syngenta's Second Set of Requests for Production to Discovery Pool Plaintiffs

128. Syngenta in November 2015 served its Second Set of Requests for Production to Producer Plaintiffs ("Syngenta's Second RFPs"), which included 70 document requests. Syngenta served these discovery requests on all plaintiffs in the bellwether discovery pool.

129. Chris Randolph identified categories of documents potentially responsive to Syngenta's Second RFPs and worked with other lawyers, including Rachel Schwartz, in preparing model responses and objections to Syngenta's Second RFPs.

130. Chris Randolph and Hare Wynn staff members coordinated the production of documents responsive to Syngenta's Second RFPs that several firms—including Gray Ritter Graham, Stueve Siegel, Gray Reed, Paul McInnes, and Walters Bender[2]—collected from the plaintiffs in the bellwether discovery pool. Chris also fielded questions from lawyers at those firms regarding Syngenta's Second RFPs.

131. Hare Wynn also worked directly with several plaintiffs in the bellwether discovery pool to collect documents responsive to Syngenta's Second RFPs. Hare Wynn worked directly with W. Edgar Willman Trust/Estate of Lloyd Willman, Pat Skarda, and Henderson Farms Partnership in collecting documents responsive to Syngenta's Second RFPs. Hare Wynn worked with Gray Ritter in collecting that discovery from Mike DaVault and with the Holland Firm and

[2] Tom Bender and Dirk Hubbard assisted with producer plaintiff discovery when they were affiliated with Walters Bender Strohbehn & Vaughn; they have since left that firm and joined Horn Aylward & Bandy, LLC.

Paul, LLP in collecting that discovery from James McKinney. Again, in order to ensure that all responsive documents within the plaintiff's possession, custody, or control were collected, Hare Wynn lawyers and staff obtained authorization to collect documents from third parties such as crop insurance agents, grain elevators, and seed dealers.

132. Aside from some document productions from Kansas farmers which lawyers at Stueve Siegel reviewed for privilege, Chris Randolph reviewed for privilege all documents produced in response to Syngenta's Second RFPs.

5. Discovery Pool Plaintiff Depositions

133. All producer plaintiffs in the bellwether discovery pool were deposed. Dirk Hubbard, Tom Bender, Chris Ellis, Ashlea Schwarz, Rick Paul, Steve Six, Don Downing, Jason Sapp, Bill Chaney, Drew York, and Steve Weiss divided amongst themselves the defense of most of the producer plaintiff depositions, which were taken between December 2015 and May 2016. In a few instances more than one person testified on behalf of a plaintiff partnership or corporation, so over 70 individuals provided deposition testimony on behalf of producer plaintiffs.

134. Ahead of each deposition, Chris confirmed that all documents collected from that producer plaintiff had been produced to Syngenta. He also reviewed producer plaintiffs' document productions for completeness and, when appropriate, contacted the lawyers defending the producer plaintiff's depositions regarding potential deficiencies in document productions. After obtaining confirmation that a producer plaintiff's document production was substantially complete, he would relay that confirmation to Syngenta's counsel and also provide Syngenta a list of the production volumes that included that plaintiff's documents.

135. Syngenta after several producer plaintiff depositions raised concerns about potential deficiencies in producer plaintiff's document productions. Chris in several of those

instances worked with the lawyers who defended the relevant producer plaintiffs' depositions in responding to Syngenta's concerns and coordinating supplemental document productions.

6. Interrogatories and Requests for Admission to Producer Plaintiffs

136. On February 29, 2016, Syngenta served three sets of interrogatories on the producer plaintiffs in the bellwether discovery pool:

a. Syngenta AG's First Set of Interrogatories to Producer Plaintiffs (21 interrogatories)

b. Syngenta Corporation's First Set of Interrogatories to Producer Plaintiffs (15 interrogatories)

c. Syngenta Crop Protection AG's First Set of Interrogatories to Producer Plaintiffs (20 interrogatories)

137. On March 15, 2016, Syngenta served its First Set of Requests for Admission ("Syngenta's RFAs") on the producer plaintiffs in the bellwether discovery pool. Syngenta's RFAs included 98 requests. One of the interrogatories in Syngenta Corporations' First Set of Interrogatories asked the plaintiffs, for any request for admission that is not answered with an unqualified admission, to "state the factual basis for your denial or qualified admission."

138. Given that these interrogatories and requests for admission were served on all the plaintiffs in the bellwether discovery pool, plaintiffs' attorneys were responsible for collecting and providing approximately 10,000 interrogatory and request for admission responses.

139. A team of lawyers from approximately 10 plaintiffs' firms worked directly with the producer plaintiffs in collecting responses to Syngenta's interrogatories and requests for production. Chris Randolph and Tempe Smith worked directly with several producer plaintiffs, including Pat Skarda, Henderson Farms Partnership, Jim McKinney, Mike DaVault, and W. Edgar Willman Trust/Estate of Lloyd Willman in collecting responses to these discovery requests.

140. Chris Randolph worked with Rachel Schwartz to identify potential objections to the interrogatories and requests for production.

141. Chris Randolph worked with other plaintiffs firms in coordinating the collection of the interrogatory and request for admission responses from various plaintiffs' lawyers and serving those responses on Syngenta. The plaintiffs in the bellwether discovery pool produced their responses to Syngenta's interrogatories and requests for admission on a rolling basis, which was completed by the end of April 2016.

142. Syngenta Corporation's interrogatories sought the bases of several of the contentions in the producer plaintiff's master complaint. Jason Earley took the lead in preparing a joint response to those contention interrogatories that relied on documents obtained in discovery which Syngenta had designated as confidential.

143. Syngenta on May 25, 2016, sent an 88-page single-spaced letter identifying purported deficiencies in the plaintiffs' interrogatory and request for admission responses. Chris Randolph took the lead in coordinating the plaintiffs' responses to this letter. As part of this process, Chris:

a. Reviewed Syngenta's letter to identify areas where the plaintiffs' responses may need to be supplemented and identify some of Syngenta's general complaints that appeared to be meritless;

b. Assembled a series of response letters to Syngenta, which consisted of inserts prepared by plaintiffs' lawyers who were working directly with the producer plaintiffs in collecting discovery responses. These response letters addressed Syngenta's complaints, noted where the plaintiffs intended to supplement their previous discovery responses, and explained why plaintiffs believed that many of Syngenta's complaints about plaintiffs' discovery responses were baseless. These letters, sent between mid-June and early July 2016, totaled approximately 150 single-spaced pages;

c. Collected from other plaintiffs' lawyers amended discovery responses and served those responses on Syngenta.

144. Syngenta on July 15, 2016, sent a 94-page single-spaced reply to the letters that plaintiffs sent in June and early July. Chris Randolph worked with Tom Bender and Dirk Hubbard in coordinating the plaintiffs' response to that letter; Chris, Tom, and Dirk held a lengthy meet and confer with Syngenta's counsel and coordinated the production of some supplemental interrogatory and request for admission responses over the following weeks. Chris also worked with other plaintiffs' lawyers in putting together several letters to Syngenta that responded to points made in the July 15 letter.

145. Syngenta on November 23, 2016 sent a final letter complaining about purported deficiencies in plaintiffs' interrogatory and request for admission responses. Chris worked with other plaintiffs' lawyers in preparing response letters to Syngenta in December. Ultimately, all disputes over the producer plaintiffs' interrogatory and request for admission responses were resolved without Court intervention.

7. Efforts to Collect the Information and Documents Syngenta Sought

146. As noted above, Hare Wynn worked with, among other class representatives, Robert Walker, Jr. Farms, Walker Farms, James H. Walker Farms, Brenda Hunt, Frith Farms Partnership, Clark Hill d/b/a Clark Hill Farms, Delta Farms Partnership, Jackle Farms, Inc., Steve & Penny Bernstein d/b/a Bernstein Farms, Wilson Farms, Inc., and Whispering Oats Farms, Inc.. Hare Wynn also worked closely with firms collecting documents directly from Tom Belzer, Belzer Bros. Potato Co., and B&G, and Gilbert Jones & Sons Farms, LLC.

147. All of these plaintiffs provided discovery in addition to plaintiff fact sheets.

148. Robert Walker, Jr. Farms, Walker Farms, and James H. Walker Farms were selected and agreed to serve as Alabama class representatives and, in that capacity, responded to Syngenta's requests for production, which sought documents pertaining to numerous details about

their farming operation and other information over significant time periods, and also called for personal financial information. James Walker, who owns and operates James H. Walker Farms, assumed the responsibility for collecting documents pertaining to the operations of Robert Walker, Jr. Farms (which is owned by James' brother) and Walker Farms (which is owned by James' father). James conducted an extensive search through records kept at his home in order to find responsive documents. James also made about a dozen trips to Florence, Alabama, to collect documents responsive to Syngenta's requests from third parties, such as the FSA office, a crop insurance agent, and an accountant. Each round trip to Florence would have taken over an hour. James furthermore authorized several third parties, such as grain elevators, to release copies of responsive records to Hare Wynn. James had to collect most of the documents Syngenta requested during the harvest season, when he was normally working 16 hours per day in his fields. Chris' notes indicate that he spoke with James 10 times in fall 2015 regarding the collection of documents. Chris also spoke with James on several other occasions about the status of the litigation. James estimates that he spent 20-25 hours collecting documents requested by Syngenta and that this total exceeded 40 hours when counting the time he spent making trips to Florence. Based on Hare Wynn's records and Chris' contemporaneous involvement in James' document collection efforts and discussions with James, this estimate is reasonable. James was also willing, if necessary, to sit for a deposition and attend a multi-week trial in Kansas City.

149. Brenda Hunt was selected and agreed to serve as a Kentucky class representative. In that capacity, she responded to Syngenta's requests for production, which sought documents pertaining to numerous details about her farming operation and other information over significant time periods, and also called for personal financial information. Ms. Hunt conducted an extensive search to locate records and had several discussions with Chris in order to understand the requests

and properly respond. She does not use a computer but spent hours searching through paper files for documents. To ensure that she produced complete records, Ms. Hunt made special trips to grain elevators in Auburn, Kentucky (which is 60 miles from Ms. Hunt's farm) and in Bowling Green, Kentucky (which is 40 miles from Ms. Hunt's farm) to collect corn sales records. She also made special trips to her accountant in LaFayette, Tennessee, and to her crop insurance in Westmoreland, Tennessee (which is a 45 minute drive from Ms. Hunt's farm) to collect records. She also made trips to FSA offices in three different counties to obtain records to produce to Syngenta. Ms. Hunt made these efforts to collect documents during harvest season, when she regularly worked in the fields from 6:00 AM until midnight or later; and Ms. Hunt is no longer young--she has farmed full time after retiring from a 26-year career as a school teacher. Ms. Hunt estimates that she spent 30-40 hours collecting records responsive to Syngenta's requests for production. Based on Chris' contemporaneous involvement with Ms. Hunt's document collection efforts and discussions with Ms. Hunt, Ms. Hunt's estimate is reasonable.

150. Frith Farms Partnership was selected and agreed to serve as a Louisiana class representative. In that capacity, John David Frith, a member of Frith Farms Partnership, responded to Syngenta's requests for production, which sought documents pertaining to numerous details about Frith's farming operation and other information over significant time periods, and also called for personal financial information. Mr. Frith conducted an extensive search to locate and review records. In collecting documents, he searched through thousands of pages of paper and electronic records he keeps on his farm and also visited and requested records from his seed dealer, multiple grain elevators, his local FSA office, and his crop insurance agent. His crop insurance agent's office is about 45 miles away from Mr. Frith's farm, and one of the grain elevators is about 30 miles away from the farm. Mr. Frith obtained copies of financial records from his accountant, who

charged Mr. Frith for her time. He also had multiple phone conversations about documents requests with George Snellings, Esq. of Nelson, Zentner, Sartor & Snellings, LLC and Hare Wynn employees. Mr. Frith also had multiple in-person meetings with George Snellings at Snellings' office in Monroe, Louisiana—which is about 75 miles from Mr. Frith's farm. Mr. Frith was also willing to sit for a deposition and attend a multi-week trial in Kansas City. Mr. Frith estimated that he spent over 40 hours collecting documents responsive to Syngenta's requests for production. Based on discussions with Mr. Frith and his report of discussions with Mr. Snellings, Mr. Frith's estimate is reasonable.

151. Clark Hill Farms and Delta Farms Partnership were selected and agreed to serve as Louisiana class representatives. In that capacity, Clark Hill—who operates both Clark Hill Farms and Delta Farms Partnership—responded to Syngenta's requests for production, which sought documents pertaining to numerous details about Hill's farming operation and other information over significant time periods, and also called for personal financial information. Mr. Hill searched through thousands of pages of paper and electronic records to find responsive documents he had kept on his farm. To ensure that he collected all responsive documents within his possession, custody, or control, Mr. Hill also visited his local FSA office, a grain elevator and a second grain buyer, his crop insurance agent, and his accountant. The crop insurance agent's office is a 40 minute drive from Mr. Hill's farm. He had to visit some of those third parties multiple times to ensure that all responsive records were collected. Mr. Hill spoke with Hare Wynn employees on multiple occasions regarding the collection of documents, and also spoke with George Snellings, Esq. of Nelson, Zentner, Sartor & Snellings, LLC. Mr. Hill made multiple visits to Mr. Snellings' office in Monroe, Louisiana, which is nearly 70 miles from Mr. Hill's farm. Mr. Hill had to collect many of the requested records during harvest season, when he was normally working 12-15 hours

per day in his fields. Mr. Hill agreed to, if necessary, provide deposition testimony and attend a multi-week trial in Kansas City. Mr. Hill estimates that he spent 20-40 hours collecting documents responsive to Syngenta's discovery requests. Based on discussions with Mr. Hill and Mr. Snellings, Mr. Hill's estimate is reasonable.

152. Jackle Farms, Inc. was selected and agreed to serve as an Indiana class representative. In that capacity, John Jackle—who operates Jackle Farms, Inc.—responded to Syngenta's requests for production, which sought documents pertaining to numerous details about Jackle Farms, Inc.'s farming operation and other information over significant time periods, and also called for personal financial information. Mr. Jackle and his wife spent hours sorting through thousands of pages of paper records they had maintained. In order to make sure that he collected all documents within his possession custody, or control, he requested and received records from multiple grain elevators, his crop insurance agent, and the FSA office. He had to collect many of these records during harvest season, when he would normally be working 15-18 hour days in his fields. He incurred additional expense in having copies of his records prepared at a Staples store in a nearby town. Mr. Jackle estimates that he and his wife spent 15-20 hours collecting documents responsive to Syngenta's requests for production. Based on discussions with Mr. Jackle and of Chris' contemporaneous involvement in the collection of documents from Mr. Jackle, that estimate is reasonable.

153. Bernstein Farms (Steve & Penny Bernstein) was selected and agreed to serve as a North Dakota class representative. In that capacity, Steve Bernstein responded to Syngenta's requests for production, which sought documents pertaining to numerous details about his farming operation and other information over significant time periods, and also called for personal financial information. During the 2015 harvest season, he made special trips to a grain elevator, a local FSA

office, and to his accountant's office to authorize the release of documents requested by Syngenta. He also made a special trip to his crop insurance agent's office, 30 miles away from his farm, to discuss the release of records responsive to Syngenta's discovery requests. He also contacted other grain and oilseed purchasers and authorized the release of his records to Hare Wynn. He had to make repeated calls to some seed dealers to request the release of records. In addition, Mr. Bernstein searched through his paper files at his home to identify potentially responsive documents. Mr. Bernstein was required to collect these documents during harvest season—during harvest, he regularly works 15-16 hours per day in the field, sometimes working all night. Chris' notes indicate that he spoke with Mr. Bernstein at least seven times in the fall of 2015 regarding the collection of documents. Mr. Bernstein also agreed that, if necessary, he would provide deposition testimony and attend a multi-week trial in Kansas City. Based on conversation with Mr. Bernstein, Hare Wynn's records, and Chris' contemporaneous involvement in the collection of documents from Mr. Bernstein, 20 hours is a reasonable approximation of the total number of hours that Mr. Bernstein devoted to the collection of documents requested by Syngenta.

154. Whispering Oats Farms, Inc. was selected and agreed to serve as a Wisconsin class representative. In that capacity, Kenneth Newman—who operates Whispering Oats Farms, Inc.—responded to Syngenta's requests for production, which sought documents pertaining to numerous details about his farming operation and other information over significant time periods, and also called for personal financial information. Mr. Newman spent weeks collecting documents responsive to Syngenta's requests for production. Mr. Newman searched through years' worth of paper records that he maintained in his attic and also made repeated trips to the Farm Service Agency office in Elkhorn, Wisconsin, a grain elevator in Darien, Wisconsin, and a seed dealer in East Troy, Wisconsin, to collect additional records that he had authority to obtain. He also collected

documents from a landlord. To ensure that the financial information he provided was complete and accurate, Mr. Newman requested numerous records from his accountant, and the accountant charged him for collecting those records. Mr. Newman would mail paper records he collected to Hare Wynn for production to Syngenta. The collection of documents was particularly burdensome because he was having to collect this discovery during harvest season, when he would normally be working 80 hour weeks in his fields. Mr. Newman recalls that he spoke with plaintiffs' lawyers about document collection on numerous occasions in an effort to ensure that he was collecting all responsive documents, and Chris' notes indicate that he spoke with Mr. Newman at least eight times in October 2015 regarding the collection of documents. Mr. Newman estimates that he spent 40-60 hours collecting documents responsive to Syngenta's requests. Mr. Newman furthermore committed to attend a multi-week class trial in the event that the Wisconsin class claims went to trial. Based on conversation with Mr. Newman, Hare Wynn's records, and Chris' contemporaneous involvement in the collection of documents from Mr. Newman, the estimate Mr. Newman provided is a reasonable approximation of the total number of hours that Mr. Newman devoted to the collection of documents requested by Syngenta.

155. Tom Belzer, Belzer Bros. Potato Co., and B&G were selected and agreed to serve as North Dakota class representatives. In that capacity, Tom Belzer—who farms under his own name and also operates Belzer Bros. Potato Co. and B&G—responded to Syngenta's requests for production, which sought documents pertaining to numerous details about his farming operations and other information over significant time periods, and also called for personal financial information. Mr. Belzer searched through thousands of pages of records he kept at his home and requested additional documents from third parties, including his FSA office and his crop insurance agent. He estimates that he made up to a dozen special trips to various third parties to either collect

responsive documents or authorize the release to class counsel of responsive documents. Mr. Belzer spoke with Michelle Donarski, Esq. of Anderson, Bottrell, Sanden & Thompson on numerous occasions regarding the collection of documents—Mrs. Donarski discussed document collection with Mr. Belzer in at least 10 conference calls and in at least 45 e-mails. Mr. Belzer also spoke with Bill Chaney and Chris. Mr. Belzer agreed to, if necessary, provide deposition testimony and attend a multi-week trial in Kansas City. Mr. Belzer estimated that he spent 30-40 hours collecting documents responsive to Syngenta's requests for production. Based on conversation with Mr. Belzer and Mrs. Donarski, as well as Chris' contemporaneous involvement in the collection of documents from Mr. Belzer, this estimate is reasonable.

156. Gilbert Jones & Sons Farms, LLC was selected and agreed to serve as a Michigan class representative. In that capacity, David Jones—who helps operate Gilbert Jones & Sons Farms, LLC—responded to Syngenta's requests for production, which sought documents pertaining to numerous details about his farming operations and other information over significant time periods, and also called for personal financial information. In ensuring that all responsive documents in his possession, custody, and control were produced, Mr. Jones made multiple special trips to his county FSA office, his accountant, his seed dealer, and an ADM elevator. The ADM elevator is about 20 miles away from Mr. Jones' farm. Mr. Jones, to collect crop insurance records, also made a special trip to his crop insurance agent, whose office is about 60 miles from Mr. Jones' farm. He also estimates that he spoke with John Hughes, Esq. of Milberg, LLP at least a dozen times regarding the collection of documents. Mr. Jones' document production was also due during harvest season, when Mr. Jones routinely works long hours on his farm. Mr. Jones agreed to provide deposition testimony and to attend a multi-week trial in Kansas City in the event that the Michigan class' claims were tried. Based on conversation with Mr. Jones and knowledge of the

scope of Syngenta's discovery requests, it is reasonable to estimate that Mr. Jones spent at least 20 hours collecting documents responsive to Syngenta's discovery requests.

157. As noted above, my firm served as a repository for all documents produced by the producer plaintiffs. In connection with the request for service awards, and under my supervision, Chris Randolph worked with several Hare Wynn staff members in tabulating, for each plaintiff for whom a service award is sought, the number of pages of documents produced and the number of pages in the latest versions of the plaintiffs' interrogatory and request for admission responses.

State	Name	Pages of docs. produced[3]	Pages of final interrog. responses	Pages of final RFA responses
KS	Grafel plaintiffs (Grafel Farms, LLC, Beaver Creek Farms, Inc., D&S Grain & Cattle Co., Demmer Farms, Inc.)	23,291	32	31

[3]In instances where a plaintiff group produced documents under separate Bates prefixes, the number of pages produced with each Bates prefix is provided, along with the total number of pages produced by that plaintiff group.
[4] An additional 42,000 pages of documents were responsive to requests directed to both Taylor and Sandra Boyer; to avoid unnecessary duplication, those documents were produced only under the Boyer Bates prefix.

H. Written Discovery Served on Syngenta

158. Jason Earley, working with Rachel Schwartz, drafted the discovery requests served on Syngenta, including:

a. The producer plaintiffs' 30(b)(6) deposition notice, which contained 126 topics

b. Plaintiffs' First Set of Requests for Production to Syngenta, which included 75 document requests

c. Plaintiffs' Second Set of Requests for Production to Syngenta, which included 8 document requests

d. Plaintiffs' Third Set of Requests for Production to Syngenta, which included 134 document requests

e. Plaintiffs' Fourth Set of Requests for Production to Syngenta, which included 4 document requests

f. Plaintiffs' Fifth Set of Requests for Production to Syngenta, which

included 46 document requests

g. Plaintiffs' First Interrogatories to Syngenta Corporation, which included 4 interrogatories

h. Plaintiffs' First Interrogatories to Syngenta AG, which included 19 interrogatories

i. Plaintiffs' First Interrogatories to Syngenta Crop Protection, LLC, which included 14 interrogatories

j. Plaintiffs' First Interrogatories to Syngenta Crop Protection AG, which included 6 interrogatories

k. Plaintiffs' First Interrogatories to Syngenta Seeds, Inc., which included 13 interrogatories

l. Plaintiffs' Second Interrogatories to Syngenta Crop Protection AG, which included 6 interrogatories

m. Plaintiffs' Second Interrogatories to Syngenta Seeds, Inc., which included 9 interrogatories

n. Plaintiffs' First Requests for Admission to Syngenta, which included 7 requests for admission. Plaintiffs also served an interrogatory seeking the basis for each response to a request for admission that was not an unqualified admission.

159. Jason Earley drafted subpoenas to several third parties, including Crop Life International and the National Corn Growers Association.

160. Jason Earley also helped prepare the document review protocol to provide guidance to the lawyers who reviewed the documents produced by Syngenta. That protocol, *inter alia*, identified issues that document reviewers should be looking for in reviewing documents and listed issue codes that document reviewers were to apply when reviewing documents.

161. Jason Earley, Laura Riedinger, Brian Vines, Virginia Applebaum, and Chris Randolph assisted with the first-round review of documents. Included in their document reviews were documents that Syngenta had produced in *Syngenta Seeds, Inc. v. Bunge North America, Inc.*, No. C 11-4074-MWB (N.D. Iowa); documents Syngenta produced in response to the requests for

production that Jason and Rachel Schwartz drafted; and documents that ADM, Cargill, and Gavilon produced. Jason and Chris also attended multiple multi-day document review sessions with lawyers from other plaintiffs' firms in Kansas City in 2015.

162. Jason, Brian, and Chris also reviewed and summarized the deposition testimony that Syngenta employees provided in *Syngenta Seeds, Inc. v. Bunge North America, Inc*., No. C 11-4074-MWB (N.D. Iowa).

163. The first-round document review team—which included lawyers from the co-lead counsel's firms as well as executive committee members' firms—flagged thousands of pages of key documents as "hot." Jason Earley then reviewed all the documents that the first-round document review team identified as "hot documents." Based on his review of those "hot documents," Jason was able to identify key events, review factual bases of certain anticipated defenses, build a factual timeline, and identify topics for questioning at depositions.

I. Depositions of Current and Former Employees of Syngenta and Third-Parties

164. Jason helped the co-leads prepare for depositions of current and former Syngenta employees as well as the depositions of current and former ADM and Cargill employees.

165. Jason, based on his review of the "hot documents," helped prepare deposition outlines in advance of over 40 depositions and identified and organized potential deposition exhibits. For depositions that Jason was not taking, Jason met with the co-lead lawyer who would be taking that deposition to assist with deposition preparation.

166. Jason and/or I took, defended, or attended over 40 depositions. These depositions took place at locations around the world. I traveled to London twice for depositions. Jason traveled to London and Hong Kong twice for depositions. Jason and/or I also traveled to

Washington, D.C. (on numerous occasions), St. Louis, Chicago (on numerous occaions), Minneapolis (on numerous occasions), and Bend, Oregon for depositions.

167. Jason and I took depositions of several current and former Syngenta employees, including Paul Minehart, Grant Ozipko, David Roberts, Patrick Steiner, and John Ramsay. Jason took or attended the depositions of other Syngenta employees, including Jingwen Chen, Duane Martin, David Morgan, Abigail Vulcan, and Michael Bierman. Jason or I went first in questioning all current or former Syngenta employees that we deposed.

168. Jason and I also participated in numerous depositions of ADM and Cargill employees, as well as depositions of third parties. I took the deposition of Nathan Fields of the National Corn Growers Association, and also took the depositions of Corey Jorgenson, Alex Sanfeliu, and Mark Stonacek. Jason took the depositions of Robert Aspell, Elliott Brammer, and Brett Bell; Jason also took the depositions of David Buchanan, Jerrity Chen, Nick Friant, Oscar Li, Andew Wong, Christopher Langholz, Sean Miller, and Jason Xu.

J. Plaintiff's Experts

169. I worked with the other co-leads in vetting and selecting expert witnesses.

170. Jason Earley and I worked directly with two of the producer plaintiffs' experts, Dirk Maier and Joe Keaschall.

171. Dr. Maier is a professor at Iowa State University who we retained to testify about the dispersion of the MIR-162 trait. His expert report and deposition testimony demonstrated how the MIR-162 trait contaminated the U.S. corn supply.

172. Dr. Keaschall was a professor at the University of Nebraska who we retained to testify about the limited benefits the MIR-162 trait provided to U.S. corn farmers. Dr. Keaschall explained that MIR-162 did not increase corn yield and provides resistance only against pests that

are not serious problems in the major corn growing areas in the U.S. Dr. Keaschall's testimony was key to refuting Syngenta's theme at trial that it in commercializing MIR-162 Syngenta was providing U.S. farmers access to much-needed technology.

173. Jason and I worked with Dr. Maier and Dr. Keaschall over a period of months as we discussed their opinions, reviewed drafts of their expert reports, prepared them for deposition, and defended their depositions. In carrying out these responsibilities, Jason and I had numerous phone conversations with those experts and traveled to meet with them in person on several occasions.

174. Tempe Smith, with input from Jason and me, drafted the producer plaintiffs' opposition to Syngenta's motion to exclude Dr. Maier's testimony. (ECF No. 2954.) The Court ultimately granted in part and denied in part Syngenta's motion to exclude Dr. Maier's testimony. (ECF No. 3134 at 30-31.) Chris Randolph, also with input from Jason and me, drafted the producer plaintiffs' opposition to Syngenta's motion to exclude Dr. Keaschall's testimony. (ECF No. 2952.) The Court denied Syngenta's motion to exclude Dr. Keaschall's testimony. (ECF No. 3134 at 32-34.)

175. Chris Randolph also worked with Jason Sapp and several other lawyers from other firms to collect corn sales data for the producer plaintiffs' damages experts.

K. Syngenta's Experts

176. I deposed three of Syngenta's experts: Alan McHughen, William Sheppard, and Travis Milne. Jason assisted with my preparation for those three expert depositions and traveled with me to California, Arizona, and Missouri for these depositions.

177. Tempe Smith, with input from Jason and me, briefed the producer plaintiffs' motion to exclude McHughen's testimony. (ECF No. 2878, 3001) Chris Randolph, also with input from

Jason and me, briefed the producer plaintiffs' motion to exclude Sheppard's and Milne's testimony. (ECF Nos. 2875, 3000, 2912, 3002) The Court granted in part the motions to exclude testimony from McHughen, Milne, and Sheppard. (ECF No. 3134 at 9-20.)

L. Class Certification Briefing

178. Dirk Hubbard and Chris Randolph collected from the producer plaintiffs' document productions documents that were included in appendices submitted with the producer plaintiffs' reply brief in further support of the motion for class certification. These documents included sales contracts demonstrating that the various types of corn pricing arrangements used by class members were based on the Chicago Board of Trade price for corn. They also collected documents for an exhibit demonstrating that the members of the bellwether discovery pool had priced corn during the relevant time period. These exhibits countered Syngenta's arguments that the various methods of pricing corn prevented class certification and that class membership was not readily ascertainable.

179. Bruce McKee and I reviewed and provided comments on plaintiff's response to Syngenta's Rule 23(f) petition.

M. Summary Judgment Briefing for the Kansas Class

180. Jason Earley was an instrumental part of the team of attorneys who opposed Syngenta's summary judgment motion and sought summary judgment on behalf of Plaintiffs. Jason was responsible for coordinating and preparing fact sections for the filings, including the 587-paragraph Statement of Additional Facts ("Statement of Additional Facts") filed with Plaintiffs' Memorandum in Opposition to Syngenta's Motion for Summary Judgment (ECF No. 2940 at xviii-cxxiv) and the 79-page Plaintiffs' Response to Defendants' Statement of Undisputed

Material Facts ("Response to Syngenta's Statement of Facts") that was submitted with the response to Syngenta's motion for summary judgment (*See* ECF No. 2940-1).

181. Jason worked with attorneys responsible for the legal arguments (including Brad Wilders and Gretchen Garrison) in analyzing what facts were needed to respond to Syngenta's summary judgment motion, and working with Laura Riedinger, collected and organized the over 400 exhibits, totaling over 9,000 pages, that the producer plaintiffs filed with Plaintiffs' Response to Defendants' Statement of Undisputed Material Facts and which provided the evidentiary basis for the Statement of Additional Facts and Response to Syngenta's Statement of Facts. (*See* ECF Nos. 2940-2946.)

182. Bruce McKee helped draft for the response to Syngenta's summary judgment motion a response to Syngenta's punitive damages arguments.

N. Kansas Class Trial Preparation

183. Jason Earley and I, along with lawyers from the other co-lead firms, attended several meetings with outside trial consultants. These meetings included:

a. three multi-day trial strategy sessions with a trial consultant;

b. a focus group in Kansas City where we evaluated laymen's attitudes to our potential arguments and Syngenta's anticipated defenses;

c. a mock trial in Kansas City where we presented our case, and Syngenta's anticipated defenses, to three mock jury panels. Jamie Moncus also attended the mock trial and assisted with the development of trial themes.

184. Jason and I also had several in-person trial strategy meetings with lawyers from the other co-lead firms. These meetings were in addition to the weekly conference calls among the four co-lead lawyers.

185. Most of the Syngenta and third-party witnesses whose testimony we wanted to present were not within the subpoena power of the Court. Jason and I in April 2017 reviewed

dozens of witness' deposition testimony and designated portions of those witnesses' deposition testimony that we wanted to have available to present at trial.

186. Tempe Smith, Jason Earley, and Chris Randolph in May 2017 identified objections to Syngenta's deposition designations for eight witnesses and identified counter-designations to Syngenta's deposition designations. They also identified objections to Syngenta's counter-designations and identified counter-to-counter designations for those witnesses' designated deposition testimony.

187. Tempe traveled to Kansas City to help organize binders identifying proposed deposition designations for the Court.

188. In addition to working on the deposition designations, Tempe Smith and Chris Randolph worked with audio visual litigation support staff to edit and finalize the video deposition presentations. Beginning on May 28, 2017, the video team began preparing the excerpts for 26 potential witnesses. Lawyers from each firm reviewed the designations remaining after the Court's evidentiary rulings, and provided instructions to paralegals and support staff to insert, highlight, and zoom in on certain exhibits being discussed during the testimony. After the initial production of each video was made, an attorney from one of the co-lead firms would watch the video. The attorney then provided instructions to the paralegals and support staff to make additional edits to the videos as necessary. This process continued through the presentation of Plaintiffs' case at trial.

189. Tempe Smith participated in meet and confers with Syngenta's counsel in the days leading up to the beginning of trial about the impact of the Court's rulings on deposition designations on the exhibits identified therein. There were three meetings that collectively lasted approximately 8 hours.

190. The Co-Leads decided in spring 2017 that I would present the opening statement at trial. Jason Earley and Jamie Moncus worked with me in drafting an opening statement. As part of that preparation, Jason and Jamie held in-person meetings in Birmingham and Little Rock. Phillip Carter, working under Jamie's and Jason's direction, prepared the visual presentation for the opening statement.

191. The co-leads also agreed that I would present at trial the testimony of David Polifka, one of the Kansas class representatives. In May 2017, Chris Randolph and I traveled to Mr. Polifka's farm near Quinter, Kansas, to meet with Mr. Polifka and start his trial testimony preparation.

192. Jason and I worked together on preparing an outline for Joe Keaschall's direct examination.

193. Jason Earley helped prepare the order of proof for the trial.

O. Kansas Class Trial

194. Six Hare Wynn lawyers and two Hare Wynn staff members attended all or part of the Kansas class trial. Jason, Tempe, Chris, Jamie Moncus, Phillip Carter, and I arrived in Kansas City 7-10 days before the start of trial and stayed in town for the entire trial. Sarah Jewell provided assistance to the trial team in Kansas City for two days during the first week of trial. Laura Riedinger traveled to Kansas City on the first day of the trial and stayed for the rest of the trial.

195. One of our experts, Joe Keaschall, was unable to travel to Kansas City for the trial due to health problems. The Court permitted us to take Dr. Keaschall's deposition for presentation at trial, and we noticed Dr. Keaschall's deposition for June 2, 2017. (ECF No. 3184, 3186.) Jason Earley, Jamie Moncus, and I traveled to Lincoln, Nebraska, the week before the trial to meet with Dr. Keaschall. I took Dr. Keaschall's trial deposition on June 2.

196. Tempe Smith and Drew York coordinated the exchange of trial exhibits with Syngenta during trial, consistent with an agreement between the parties under which exhibits would be exchanged in advance of the relevant witness' testimony.

197. Tempe and Drew conducted dozens of meet and confers with Syngenta's counsel regarding deposition designations and trial exhibits. These meetings began before trial and continued through the end of Syngenta's case; generally, multiple meet and confers were held each day--some of those meet and confers were conducted at the courthouse and others were conducted by phone late at night. As a result of those discussions, the volume of deposition testimony designated for presentation to the jury was reduced significantly.

198. During trial Laura Riedinger, Phillip Carter, and two employees of Midwest Court Reporting continued the process of editing deposition videos to include only the designated testimony that plaintiff's counsel and Syngenta's counsel had elected to present to the Court. This editing process also included editing the videos to treat exhibits introduced by Syngenta through Syngenta's counter-designations in accordance with any exhibit treatment instructions provided by Syngenta. Tempe Smith, Jason Earley, Chris Randolph, and Laura Riedinger worked with lawyers from the other co-lead firms in reviewing those edited videos to ensure that the correct testimony was included, identify the exhibits that needed to be presented on-screen during the deposition designation videos, and identify portions of exhibits that needed to be highlighted on screen. Ultimately plaintiffs played during their case 22 of the 26 videos presented at trial. During the presentation of Syngenta's case, Tempe Smith and Drew York coordinated with other attorneys and staff to provide Syngenta with instructions for the display of exhibits introduced by Plaintiffs during video depositions offered by Syngenta.

199. I held several preparation sessions with David Polifka in the days leading up to his testimony. I then conducted his direct examination at trial.

200. I worked with Jason Earley in preparing for the cross-examination of Syngenta witnesses Lawrence Zeph, David O'Reilly, Duane Martin, Alan McHughen, Michael Mack, and Travis Milne. Syngenta chose not to present most of those witnesses in Court. Syngenta did put Mr. Milne on the stand, and I conducted his cross-examination.

201. Jamie Moncus attended the entire trial and advised the co-leads on trial presentation.

202. The co-leads agreed that I would present the closing argument at the trial. I worked with Jamie Moncus and Jason Earley in preparing the closing argument. Phillip Carter, working under Jamie's and Jason's direction, prepared the visual presentation for the closing argument.

P. Post-Kansas Class Trial Motions

203. Bruce McKee helped prepare the response to Syngenta's post-trial motions.

Q. Preparation for Arkansas and Missouri Classes Trial

204. The Court determined that the Arkansas and Missouri class claims would be tried in the second MDL class trial. (ECF No. 3319.)

205. In preparation for the Arkansas and Missouri class trial, Tempe Smith working with Drew York and Jason Earley, spent three weeks studying the video deposition testimony from the Kansas class trial. They identified testimony that should be added or removed for the Arkansas and Missouri class trial and testimony from the Kansas class trial was cumulative of other evidence.

206. I attended some of the Minnesota class trial in Minneapolis in fall 2017. Jamie Moncus and Jason Earley attended all of that trial to prepare for the Arkansas and Missouri trials.

R. Settlement Discussions

207. In the summer of 2017 through the spring of 2018, the co-leads and I participated in confidential settlement discussions with Syngenta's counsel and Special Master Reisman. These discussions included several in-person meetings in various locations across the United States.

III. FEE AGREEMENTS WITH INDIVIDUAL CLIENTS

208. A number of plaintiffs in the class retained Hare Wynn and the other co-lead firms to represent them on an individual basis. If a class had not been certified, our individual fee agreements required each client to pay 33 1/3% of any net benefit received.

209. If a class were certified, Hare Wynn's fee agreements expressly waived any right to seek attorneys' fees individually from these clients and to instead seek fees and expenses solely from the Court.

210. Consequently, Hare Wynn is seeking compensation and expense reimbursement solely from the common benefit fee and expense award made by this Court and will not seek to recover individual attorneys' fees or expense reimbursement from any individual client.

211. Hare Wynn has maintained files on all individual clients that Hare Wynn, Gray Reed, and Gray Ritter originated. Hare Wynn has coordinated the mailing of status updates to those clients, maintained communication with referring lawyers, obtained from clients authorizations to collect FSA 578 forms (which, in many instances, expired after one year, necessitating requests for new authorizations), and requested FSA 578 forms for those clients from FSA offices around the country. Many FSA offices charged Hare Wynn for those 578 records. Hare Wynn has also developed and maintained an electronic database that includes FSA 578 data

on those clients. Hare Wynn hired contract employees to assist Hare Wynn's permanent employees with the management of these individual clients' files.

212. Hare Wynn filed individual claims on behalf of the Kentucky and Mississippi clients that Hare Wynn and the other co-lead firms represented since it was not clear that the filing of a class action in those states would toll the statute of limitations. For those Mississippi and Kentucky clients, Hare Wynn submitted plaintiff fact sheets and filed notices to conform. Hare Wynn is not counting as common benefit time the hours spent collecting from those individual clients the information and documents requested in the plaintiff fact sheet and preparing notices to conform for those clients.

213. In total, my firm has expended nearly 15,000 hours on these individual clients. The lodestar for this time exceeds $4 million.[5] The firm in handling claims of individual plaintiffs incurred hundreds of thousands of dollars in out-of-pocket expenses, including labor costs. We have not included this lodestar amount or the expenses for our individual clients in this application for attorneys' fees.

IV. HARE WYNN'S COMMON BENEFIT TIME AND EXPENSES

214. Hare Wynn maintained contemporaneous records of its time and expenses for this matter. These records are prepared and maintained in the ordinary course of business.

215. I prepared my declaration with the assistance of other lawyers and staff at Hare Wynn with knowledge of the matters reflected herein. I have personally reviewed the information supporting the fee and expense requests that are the subject of this declaration, and, based on that review, I believe that the information contained herein is accurate.

[5] Several Hare Wynn employees and contract workers who helped handle individual claims did not perform common benefit work. In calculating the lodestar value of those individuals work, we have applied a $250 per hour rate.

216. As part of the preparation of my declaration, I reviewed the time and expenses incurred in this litigation to exercise billing judgment. These figures do not include the anticipated additional time preparing for and attending the Final Approval Hearing and the additional time to administer the Settlement and finalize payments to class members. I anticipate, based on past experience, that our firm will have to devote, at a minimum, several hundred hours to those tasks.

217. I and the other co-lead counsel reviewed the time and expense submissions of common benefit firms to determine compliance with the requirements for common benefit time and expense. I personally reviewed Gray Reed's submissions, as well as the submissions of over a dozen other firms that performed common benefit work. In reviewing those firms common benefit time and submissions, I eliminated from those common benefit submissions time and expenses that I believed did not qualify as common benefit.

218. After exercising billing judgment and making billing reductions based on my review of the records, the number of hours spent on this litigation by my firm (excluding all time associated with this motion) is 20,153.10 hours. The rates for each timekeeper are reasonable in this judicial district and consistent with my own knowledge and understanding as to the range of rates charged by attorneys of comparable experience in comparable cases. A breakdown of the lodestar is provided below. The lodestar amount for attorney time is $11,728,489.50.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Earley, Jason	Partner	5,425.80	$725.00	$3,933,705.00
2.	Randolph, Chris	Associate	4,134.50	$565.00	$2,335,992.50
3.	Powell, Scott	Partner	3,041.90	$865.00	$2,631,243.50
4.	Whitfield, Dax	Paralegal	1,072.80	$295.00	$316,476.00
5.	Riedinger, Laura	Paralegal	899.60	$295.00	$265,382.00
6.	Rubino, Emily	Paralegal	780.80	$295.00	$230,336.00
7.	Smith, Tempe	Associate	759.50	$565.00	$429,117.50
8.	Glasgow, Darcy	Paralegal	758.30	$295.00	$223,698.50

	Name	Title	Total Hours	Hourly Rate	Lodestar
9.	Moncus, Jamie	Partner	552.80	$700.00	$386,960.00
10.	Applebaum, Virginia	Associate	517.30	$500.00	$258,650.00
11.	Crowden Dickerson, Tara	Paralegal	489.50	$250.00	$124,625.00
12.	Carter, Phillip	Paralegal	486.80	$300.00	$146,040.00
13.	Marquez, Andi	Paralegal	306.20	$295.00	$90,329.00
14.	Gordon, Ryan	Paralegal	188.50	$250.00	$47,125.00
15.	Bess, Zondra	Paralegal	140.60	$295.00	$41,477.00
16.	Nelson, Sarah	Paralegal	137.00	$295.00	$40,415.00
17.	McKee, Bruce	Partner	106.60	$865.00	$92,209.00
18.	Vines, Brian	Associate	104.90	$625.00	$65,562.50
19.	Heath, Rasheedah	Paralegal	40.40	$295.00	$11,918.00

219. As part of the Common Benefit Guidelines provided by Co-Lead Counsel, all common benefit firms tracked common benefit expenses using Category Codes 1-19.

220. In total, my firm seeks reimbursement of common benefit expenses in the amount of $911,263.79. Those expenses and charges are summarized by below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	$3,711.91
2	Postage Charges	$16.30

4	Long Distance Calls	$219.75
5	In-House Photocopying	$5,842.40
6	Outside Photocopying	$12,719.93
7	Hotels	$181,136.21
8	Meals	$42,818.20
9	Mileage	$5,690.13
10	Air Travel	$123,699.56
12	Lexis/Westlaw/Bloomberg	$48,412.67
13	Witness and Expert Expenses	$4,587.50
14	Court Fees	$225.00
16	Hearing and Trial Transcripts	$107.10
17	Ground Transportation	$22,127.21
18	Miscellaneous	$54,949.92
19	Litigation Fund Assessment	$405,000.00
	TOTAL	**$911,263.79**

Additional details on these expenses are below:

221. Category 1, Federal Express / Local Courier, etc.: This category includes common benefit expenses for shipping, overnight, courier, and delivery expenses of documents to and from class representatives, bellwether plaintiffs, co-counsel, and opposing counsel. These expenses are reported at actual cost.

222. Category 2, Postage Charges: This category includes common benefit postage charges for mailing letters and accompanying documents to class representatives, bellwether plaintiffs, document custodians, ESI vendors, co-counsel, opposing counsel, the Court, and other necessary parties. These expenses are reported at actual cost.

223. Category 4, Long Distance, Conference Call, and Cellular Telephone Charges: This category includes Hare Wynn's common benefit expenses for long distance and conference calls to co-lead counsel, opposing counsel, the Court, and other necessary parties to discuss the common benefit order, ESI protocol, discovery disputes, class certification, trial, and other matters for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

224. Category 5, In-House Photocopying: This category includes Hare Wynn's common benefit expenses for photocopying and printing documents for use in depositions, class certification briefing, trial notebooks, trial exhibits, and other matters for the common benefit of all producer and non-producer plaintiffs. Consistent with the Common Benefit Order, these expenses were billed at $.10/page, which is below what we normally charge for these expenses.

225. Category 6, Outside Photocopying: This category includes Hare Wynn's common benefit expenses for photocopying, scanning, printing, and binding documents by third-party vendors. Hare Wynn typically utilized such vendors to assist with large projects requiring the printing, scanning, and binding of thousands of pages of documents for use in depositions and at trial. Hare Wynn also relied on the services of a third party vendor for the design and creation of demonstratives for use at trial. These expenses are reported at actual cost.

226. Category 7, Hotels: This category includes Hare Wynn's common benefit expenses for hotel room charges for the average available room rate of a business hotel in the city in which the stay occurred. Hare Wynn attorneys and staff incurred reasonable hotel room charges while attending depositions, meeting with trial experts, attending Court hearings and trial, and performing other matters for the common benefit of all producer and non-producer plaintiffs. Stueve Siegel negotiated reduced Kansas City hotel rates for the benefit of all counsel. These expenses are reported at actual cost.

227. Category 8, Meals: This category includes Hare Wynn's common benefit expenses for meals. Hare Wynn attorneys and staff incurred meal expenses while attending depositions, meeting with co-counsel, attending court hearings and trial, and performing other tasks for the common benefit of all producer and non-producer plaintiffs. Evening meals costing more than

$70 were discounted by one-third to account for alcohol. These expenses are reported at actual cost.

228. Category 9, Mileage: This category includes Hare Wynn's common benefit expenses for mileage incurred while traveling to Kansas City for trial, traveling to meetings with co-counsel, and performing other tasks for the common benefit of all producer and non-producer plaintiffs.

229. Category 10, Air Travel: This category includes Hare Wynn's common benefit airfare expenses. Hare Wynn is seeking reimbursement for the lowest available, convenient coach fare on domestic flights; if a first-class ticket was purchased, reimbursement is only sought for 74 percent of the airfare cost. Hare Wynn incurred these airfare expenses in order to attend depositions, meet with co-counsel to plan for settlement discussions and trial, meet with trial consultants, and perform other tasks for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

230. Category 12, Lexis/Westlaw/Bloomberg: This category includes Hare Wynn's common benefit expenses related to conducting computerized research on Westlaw and PACER. Hare Wynn attorneys and staff used these electronic databases in order to access court filings and conduct legal research on a broad range of legal topics. For example, Hare Wynn attorneys utilized Westlaw in order to perform legal research on damages issues, causes of action under the laws of various states, *Daubert* standards, potential discovery objections, and numerous other legal issues that Plaintiffs faced during the course of this litigation. These costs are billed in the same manner in which Hare Wynn calculates costs in other hourly or contingency fee cases. Specifically, Hare Wynn has reported PACER charges at the actual cost reflected in PACER invoices. In calculating Westlaw charges, Hare Wynn multiplied each monthly Westlaw invoice by the percentage of the

firm's Westlaw usage that month that was devoted to this litigation. (For example, if Hare Wynn's monthly Westlaw charge was $10,000 and 25 percent of Hare Wynn's Westlaw time that month related to this litigation, a $2,500 Westlaw expense would be reported for that month.) Hare Wynn did not use Lexis or Bloomberg in this litigation.

231. Category 13, Witness and Expert Expenses: This category includes Hare Wynn's common benefit expenses related to retaining expert witnesses to testify on matters for the common benefit of all producers and non-producers. Such matters include the Chinese regulatory system, the efficacy of Syngenta's new GMO products, Plaintiffs' damages, and other matters for the common benefit of all producers and non-producers.

232. Category 14, Court Fees: This category includes Hare Wynn's common benefit expenses related to court fees. These expenses are reported at actual cost.

233. Category 16, Hearing and Trial Transcripts: This category Hare Wynn's common benefit expenses related to ordering transcripts from various hearings and trials.

234. Category 17, Ground Transportation: This category includes Hare Wynn's common benefit expenses related to automobile rentals, shuttle service, taxis, and Uber service. Hare Wynn attorneys and staff incurred these expenses while attending depositions, meeting with co-counsel and experts, and performing other tasks for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

235. Category 18, Miscellaneous: This category includes Hare Wynn's common benefit expenses related to miscellaneous cash expenses for which receipts generally are not available (*e.g.*, tips, luggage handling) and other items which do not fall within another category. These expenses are reported at actual cost.

236. Category 19, Litigation Fund Assessments: This category includes Hare Wynn's periodic monetary contributions to the Syngenta Litigation Fund. Co-Lead Counsel, Executive Committee members, and additional firms in the multidistrict litigation made periodic contributions to the litigation fund. These funds were utilized for the on-going prosecution of the multidistrict litigation.

237. The expenses pertaining to this case are reflected in the books and records of this firm. These books and records are prepared from receipts, expense vouchers, check records and other documents and are an accurate record of the expenses.

238. I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 9th day of July 2018 in Birmingham, Alabama.

DECLARATION OF DON M. DOWNING IN SUPPORT OF FEE AND EXPENSE REQUEST AND SERVICE AWARDS

I, Don M. Downing, under penalty of perjury, hereby declare:

1. I am an officer, director and shareholder at Gray, Ritter & Graham, P.C. ("GRG") and counsel of record for Plaintiffs in this litigation.

2. I am making this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so.

3. This declaration is submitted in support of Plaintiffs' request for attorneys' fees, expenses and service awards.

I. GRG AND ITS TIMEKEEPERS

GRG was founded in 1946 and has maintained its legal practice in St. Louis, Missouri continuously since then. The firm has 14 attorneys. It handles class actions, mass torts, commercial litigation, and personal injury litigation (including medical negligence and product liability cases). The firm itself has won numerous awards, including being listed in Martindale-Hubbell's Bar Register of Preeminent Lawyers. Ten of our attorneys are included in the 2018 edition of Best Lawyers in America, including four who are listed as "Lawyer of the Year" in their respective categories. Only one attorney in St. Louis is chosen per year per category for this distinction. Ten of our attorneys have been listed as "Super Lawyers" and nine have an "AV" rating from Martindale-Hubbell. Our firm also has been very active in the organized bar. The current Missouri Bar President and a former Missouri Bar President are shareholders, as well as a former President of our local bar association.

4. The following provides background information on GRG lawyers and staff members who performed common benefit work in this litigation:

a. Don Downing

I graduated from the University of Missouri School of Law in 1982, where I served as an editor on the Missouri Law Review. I then served for two years as law clerk for the Honorable Edward L. Filippine, District Judge for the Eastern District of Missouri. In 1984, I joined the Kansas City office of Stinson, Mag & Fizzell (now Stinson Leonard Street) as an associate and became a partner in 1990. My practice at Stinson focused on complex commercial litigation, including class actions.

From 1993 through 1995, I served as Chief Deputy Attorney General for the State of Missouri, the state's top appointed legal officer. I was the lead lawyer in cases involving

consumer protection, antitrust, environmental, securities and many other areas of law. I appeared before the United States Supreme Court four times, including one case I personally argued. I also argued six cases before the Missouri Supreme Court and tried substantial cases in federal and state court. I also was responsible for hiring, training and supervising more than 170 assistant attorneys general.

I rejoined Stinson as a partner in 1996 and served as the Managing Partner of the firm's St. Louis office and on the Firm's Managing Committee. I continued to practice in the areas of complex commercial litigation and class actions.

In 2004, I became a shareholder at GRG and have been the leader of our complex litigation, class action and mass tort group since then. I have represented thousands of consumers in class action litigation against cellular telephone and internet service providers, drug companies, hospital systems and other entities that engaged in unfair and deceptive trade practices. I also have represented businesses in commercial disputes.

I began representing farmers in litigation in the mid-1990's when genetically modified seeds were first beginning to be sold. For example, I brought multiple individual cases on behalf of hundreds of farmers against Monsanto for defective genetically modified seed and against a large chemical company for damage caused by herbicide drift. I also brought a class action on behalf of farmers against the federal government for misinformation supplied regarding federal farm program payments. Each of these cases resulted in substantial payments to farmers. I also defended farmers in cases in which Monsanto had sued them for alleged breaches of its technology/stewardship agreements.

In part because of my extensive experience representing farmers, I was appointed in 2007 as one of two Co-Lead Counsel in *In re Genetically Modified Rice Litigation*, MDL # 1811

("*Rice Litig.*"), a large MDL against another large bio-tech company Bayer (which recently acquired Monsanto) in which dozens of law firms worked together and devoted over 100,000 hours of common benefit time and millions of dollars of their resources over a period of several years to achieve a global settlement of $750 million for rice producers and over $1 billion dollars in total payments. I managed this litigation from beginning to end, took and defended many depositions, was lead trial counsel in the four MDL bellwether trials (the first three of which resulted in plaintiffs' verdicts and the fourth of which settled after the first week of trial) and led the global settlement negotiations that resulted in the $750 million rice producer settlement. Other GRG attorneys, including Ms. Garrison and Mr. Sapp, also took significant part in that litigation, as did GRG paralegal Jackie Statz (a veteran who worked closely with the farmers and served as a hub for leadership counsel).

I have been active in community and bar activities, and have received awards for my service as well as for my legal work. I was appointed to the University of Missouri Board of Curators in 2009 and served as Chair in 2014. I have served on the University of Missouri Law School Foundation Board of Trustees and have received the Citation of Merit, the law school's highest award. I also received the Faculty-Alumni Award from the University of Missouri. I was selected by the District Judges of the Eastern District of Missouri to serve on the merit selection panel for the appointment of a United States Magistrate Judge. I have been named by Best Lawyers "Lawyer of the Year" for five of the past six years in three different categories, including "Mass Tort Litigation/Class Action-Plaintiffs." I have an AV Peer Review Rating from Martindale-Hubbell Law Directory, which is the highest given. I have been annually selected to *Missouri & Kansas Super Lawyers* since 2006, in the area of Business Litigation, and

have been named among the Top 50 attorneys in St. Louis and the Top 100 attorneys in Missouri by the same publication.

b. Gretchen Garrison

Receiving her law degree in 1986 from the University of Missouri Kansas City, where she was managing editor of the law review, Ms. Garrison began her legal career as a law clerk to the Honorable Edward Robertson, Missouri Supreme Court. Ms. Garrison is a Principal at GRG and has extensive experience in complex litigation. Prior to joining GRG, Ms. Garrison was a litigation partner with Stinson Morrison Hecker. For many years, she has litigated class actions, MDL and other complex cases involving complicated issues and large corporate defendants including SBC Communications, Inc., MCI Worldcom, Merck, Bayer, Monsanto, BASF, and Aurora Dairy. Ms. Garrison's litigation skills are complemented by extensive appellate experience. Prior to private practice, she served as Deputy Appellate Counsel for the Missouri Attorney General, handling her own appellate matters and overseeing appeals handled by other assistant attorneys general, including analysis and editorial review of briefing and preparation for oral argument. She has briefed and presented argument in all Missouri appellate courts, the Eighth Circuit, and the United States Supreme Court. Ms. Garrison has directly handled some 70 appeals and assisted in countless more. Ms. Garrison has authored several articles and has been a speaker at a number of CLEs and seminars. From 2008 to the present, she has been listed in *Best Lawyers® in America*, and *Best Lawyers in St. Louis* in appellate practice, and also among *Missouri & Kansas Super Lawyers* in the area of commercial litigation. Other recognition includes National Trial Lawyers; Top 100 Trial Lawyers; Top Lawyers of Missouri; and Missouri Lawyers Weekly, Largest Reported Settlement.

Ms. Garrison was heavily involved in the *Rice Litig*. whereas one of the trial counsel at three of the federal bellwether trials, she presented the direct testimony of plaintiffs' liability expert and cross-examined Bayer's liability expert. She also took the lead on most of the research, briefing and argument pertaining to the extensive motion practice under federal and state laws. Among other things, she was primarily responsible for several key rulings, including the court's rejection of Bayer's causation and economic loss doctrine defenses (under five state's laws), rejection of express federal preemption under the Plant Protection Act, and its finding (the first in the country); and that applicable regulations did not permit adventitious presence of regulated GMOs. Ms. Garrison drafted and argued the jury instructions as well as numerous motions *in limine* for each bellwether trial. She also drafted and coordinated briefing of all post-trial motions and was lead appellate counsel on Bayer's appeals of the first three bellwether trials, as well as two subsequent appeals related to attorney's fees, one of which challenged an MDL court's authority to establish a common benefit fund for the payment of common benefit attorneys.

c. Jason Sapp

Mr. Sapp graduated with honors (Order of the Coif) from the University of Missouri School of Law, where he served as Editor in Chief of the *Missouri Law Review*. Prior to joining GRG, he was an associate at Lewis, Rice & Fingersh (now known as Lewis Rice LLC) working on litigation and transaction matters. Mr. Sapp has also litigated numerous class, MDL and complex cases against large corporate defendants including Bayer, UMB Bank, Commerce Bank, BJC Healthcare and Universal Tax Systems, Inc. (a division of Wolters Kluwer). Mr. Sapp has received a number of awards including being named as a Rising Star by *Missouri and Kansas Super Lawyers* magazine from 2012 through 2016, as a 2011 "Up and Coming Lawyer"

by *Missouri Lawyers Weekly*, and as a 2012 Top 40 Under 40 attorney by the National Trial Lawyers Association. Mr. Sapp serves as the Co-Chair of the Complex Litigation Committee for the Missouri Bar.

Mr. Sapp was also heavily involved in the *Rice Litig*. He worked extensively with farmer plaintiffs regarding discovery and damages issues, including collecting, analyzing and producing documents and developing a thorough understanding of the way in which commodity crops are marketed. Mr. Sapp defended numerous plaintiff and damage expert depositions and assisted in presenting these witnesses at trial. He also spent significant time working with FSA farm data, which experience was utilized significantly in the damages analysis and settlement structure in this matter. Mr. Sapp also spent considerable time implementing the global settlement in the *Rice Litig*. case, which provided valuable insight in structuring a resolution in this case.

d. Kaitlin Bridges

Ms. Bridges graduated from the University of Missouri School of Law with honors (cum laude and Order of the Coif) in 2008. She was the Managing Editor of the *Missouri Law Review* and received the William H. Howard Legal Research and Writing Award. After graduation, Ms. Bridges worked as a law clerk for United States District Court Judge E. Richard Webber. Since joining GRG, she has litigated numerous class, MDL and complex cases against large corporate defendants, including UMB Bank, Commerce Bank, Iowa Health System, Blue Buffalo Company, and Universal Tax Systems, Inc. (a division of Wolters Kluwer). She was also involved in implementing the global settlement in the *Rice Litig*.

Ms. Bridges has received a number of awards, including the John C. Shepherd Professionalism Award in 2015 and an "Up & Coming Lawyer" award in 2012. She has been listed in *Best Lawyers® in America* from 2015 to the present and in 2018 was named the St.

Louis Mass Tort Litigation/Class Actions – Plaintiffs Lawyer of the Year. She has also been named as a Rising Star by *Missouri & Kansas Super Lawyers* every year since 2015.

e. Cort VanOstran

Mr. VanOstran is a 2014 honors graduate of Washington University School of Law, where he served as President of the Student Bar Association and Managing Editor of the *Washington University Journal of Law and Policy* and received the Dean's Leadership Award for his contributions to the law school and an Honor Scholar award for his academic performance.

Prior to joining GRG, Mr. VanOstran served as law clerk to the Honorable Audrey Fleissig and the Honorable John Ross, both United States District Judges in the Eastern District of Missouri. Mr. VanOstran previously worked as an associate at an international products liability and commercial litigation firm based in Kansas City. In addition to practicing law, Mr. VanOstran serves as a Visiting Lecturer in Law at Washington University.

f. Jackie Statz

Ms. Statz received her bachelor's degree from Virginia Tech in 1976 and began working in the legal field in 1976 as a legal assistant/paralegal. She obtained her paralegal certificate with honors from Roosevelt University in Chicago in 1980 with an emphasis on litigation. Since arriving at GRG, she has worked on class actions, MDL and complex litigation cases. Ms. Statz was heavily involved in the *Rice Litig*. where she worked closely with the farmers in gathering information, documents and assisting them in completion of their plaintiff fact sheets and later, their settlement documents. She worked with leadership counsel throughout the case, worked with attorneys on the various briefing issues, assisted at the trials and was heavily involved with the entire settlement claims process.

g. Charles Fasterling

Mr. Fasterling received his bachelor's degree from the University of Rochester in 2009 and his paralegal certification from St. Louis Community College in 2010. Mr. Fasterling began working at GRG in the fall of 2010, assisting the commercial litigation team in implementing the settlement achieved in the *Rice Litig.*

5. The knowledge and unique expertise GRG attorneys gained during the *Rice Litig.* proved to be extraordinarily valuable in investigating, developing, and prosecuting the claims in this litigation against Syngenta. For example, Ms. Garrison developed detailed expertise on: genetic modification, channeling, and means of contamination; the nature of the federal regulatory system governing regulation and deregulation of genetically modified organisms; the federal Plant Protection Act and related preemption arguments that could be asserted by defendants; WTO and BIO policies relating to asynchronous approvals; the nebulous economic loss doctrine and its state-law variant and policies; analyses of duty and causation; and a host of other issues that were directly relevant to the claims asserted, and Ms. Garrison's work, in this MDL. Likewise, Mr. Sapp gained valuable expertise about the manner in which farmers farm, keep and maintain their records (including records showing their seed purchases and crop sales, government farm programs and government records available relating to those programs (including FSA 578 forms and the data which FSA maintains regarding farming operations)), the structure and legal issues of farming entities and landlord relationships, the market and pricing mechanisms used in selling commodity crops, and the methods through which experts can determine damages to each farmer resulting from a loss of a foreign market and related legal issues.

6. For me, in addition to developing or refreshing expertise in each of the areas listed above, the *Rice Litig.* allowed me to gain additional expertise in developing damage models consistent with the requirements of *Daubert* in a context much like this MDL — price impacts to farmers resulting from the loss of a foreign market for their crop. *Rice Litig*. also gave me invaluable insight and expertise on how juries would react to claims by farmers against biotech companies involving a loss of a foreign market, the importance of selecting farmers as class representatives and bellwether plaintiffs who are genuine, articulate and can explain farming in a manner that urban juries relate to, as well as the importance and means of explaining complex economic analyses. (For example, we developed and presented in the *Rice* trials the same tutorial that Dr. Babcock presented in the trial in this MDL against Syngenta on the law of supply and demand. Jurors in the *Rice* trial told us it was very helpful to their understanding of the price impacts of the loss of a foreign market.) Although class certification was not granted in *Rice*, I gained much from the class motion practice in that case, including examining firsthand the types of arguments and evidence that experienced counsel would likely present to oppose class certification in a case involving price impacts stemming from the loss of a foreign market. That experience strengthened our collective ability to frame persuasive class certification arguments and evidence in this litigation.

7. Another valuable lesson was the importance of developing admissible evidence through depositions of witnesses who may not be available at trial and the art of editing large volumes of video deposition clips down to the essence of what is necessary to support the claims and assist the jury in understanding the facts. My management skills also were honed in ways invaluable to an effective, efficient MDL: assembling a team of leadership attorneys; coordination, communication and team building; effective means of managing scores of lawyers

around the country over a period of several years toward our common goal of maximizing recovery for our clients; and coordination with and early resolution of disputes with counsel prosecuting related litigation in other venues which was our primary motivation in reaching out to the Minnesota state court leadership and entering into our cooperation agreements with that group. In short, the expertise and experience GRG attorneys gained through the *Rice Litig.* made us uniquely qualified to prosecute this litigation and allowed us to hit the ground running when we began to receive calls from farmers in the early fall of 2014.

II. EARLY WORK AND LEADERSHIP TEAM

8. Given my experience in the *Rice Litig.* and other farmer cases, it is not surprising that beginning in the early fall of 2014, I began to receive numerous calls from farmers and others inquiring about my and my firm's willingness to investigate and prosecute litigation against Syngenta based upon its decision to commercialize Viptera and the ensuing loss of the Chinese corn market to U.S. farmers. Attorneys from GRG devoted significant time and resources in the fall of 2014 to investigating the facts, consulting with and retaining experts, researching potential legal claims that could be asserted by farmers and others and drafting two 100-plus page complaints that were filed in November 2014 in the Eastern District of Missouri and the District of Kansas. That work was foundational to the first Master Complaints filed in this MDL on March 13, 2015.

9. I personally had numerous conversations in the fall of 2014 with farmers, seed dealers, agricultural economists, lawyers for Cargill and ADM and others directly or indirectly involved in the corn industry to immerse myself in the issues that likely would be relevant in the litigation.

10. The primary researcher, coordinator and drafter of the complaints was GRG attorney Gretchen Garrison. Ms. Garrison was assisted by Jason Sapp and me (including my extensive work with experts on the section pertaining to damages), along with attorneys from other leadership firms. As mentioned above, Ms. Garrison was uniquely qualified to lead the drafting team given her extensive experience in the *Rice Litig.* She and others carefully and methodically researched potential legal theories that might be available to farmers under several different state laws, as well as potential defenses that might be asserted by Syngenta, under both federal and state law. The *Wilson Farms* complaint asserted claims on behalf of farmers in 13 states (Alabama, Arkansas, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Mississippi, Missouri, Tennessee and Wisconsin) and the *Five Star Farms* complaint asserted claims on behalf of farmers in 6 states (Kansas, Colorado, Nebraska, North Dakota, South Dakota and Oklahoma). Both complaints were filed on November 11, 2014 and amended on December 18, 2014. Mr. Sapp also conducted substantial factual investigation and legal research, and was heavily involved in drafting portions of the complaints. These complaints were the template used in drafting the Master Complaints that were filed on March 13, 2015.

11. It was also vitally important early on to fully understand and evaluate the effect of the loss of the Chinese market on the price of U.S. corn. I spent significant time with two agricultural economists I had retained in the *Rice Litig.*, Dr. Colin Carter and Dr. Bruce Babcock, each of whom is among the top agricultural economists in the world. Both had performed similar economic analyses in the *Rice Litig.* to evaluate the loss of the European Union market on U.S. rice prices. I worked with these economists to examine various methodological options and to ensure that the methods chosen reflected sound economic principles, would pass *Daubert* scrutiny and could be explained in a manner that juries would understand.

12. I also spent much time communicating with lawyers for farmers, some of whom I had worked with in the *Rice Litig.* and in previous farmer-related litigation, in an effort to put together the best legal team possible. I knew from personal experience in previous cases against Monsanto and Bayer that large biotech companies like Syngenta would present a formidable challenge, both in terms of the quality of the attorneys it would retain and in the amount of resources it would devote to the litigation. Thus, it was vitally important that we put together a team that had the skills, talents, and resources necessary to wage an expensive, multi-year battle against a tough and well-financed adversary. It was also necessary to assemble a team that could work harmoniously and represent all interests in the litigation.

13. I had worked extensively with William Chaney and Scott Powell and their firms in the *Rice Litig*., and found them both to be honest, talented and hard-working lawyers dedicated to their clients. Mr. Chaney was on the Executive Committee in the *Rice Litig.* and also was on our trial team in each of the four *Rice* bellwether trials. He also performed a multitude of other important tasks and did each of them well. I was particularly impressed by the thoroughness of his work, and his consideration of all the details. I was also impressed with a then young lawyer in Mr. Chaney's firm, Drew York. Mr. York performed a number of tasks in the *Rice Litig.*, and I knew he would be a valuable member of our leadership group in this MDL.

14. Scott Powell also was extensively involved in the *Rice Litig*. and was on our trial team for the second bellwether trial. Mr. Powell also tried a related state court case and obtained the largest damage award of all the *Rice* trials. Mr. Powell has many talents which he demonstrated during our work together, and foremost among them is his extraordinary ability in the courtroom.

15. Given our extensive work together on a case with many similarities to this MDL and our respect for each other, Mr. Chaney, Mr. Powell and I agreed early on that it made sense for us to work together.

16. I have known Pat Stueve from the time we were young attorneys at the old Stinson Mag firm. We worked extensively together on a significant commercial litigation case for a large client in the 1990s. I have always had tremendous respect for Mr. Stueve's abilities as a lawyer, his tireless work ethic and for the honorable manner in which he conducts himself. After we both left Stinson, we worked together again on a consumer fraud class action against a major pharmaceutical firm on behalf of Missouri consumers. After working on that case for years and within just a couple of months of a class trial, we settled that litigation for $220 million, the full amount our experts had determined the class would be entitled to if we won at trial. The work performed by Mr. Stueve and his firm in that litigation was top notch in every respect. When I found out Mr. Stueve was representing farmers with claims against Syngenta, I thought he would be a perfect addition to our leadership group. As it turned out, he was.

17. After the Judicial Panel on Multi-District Litigation consolidated this litigation in the District of Kansas, Mssrs. Chaney, Powell and Stueve and I looked to add to our leadership group lawyers who could bring the experience, expertise and resources necessary to prosecute a case of this magnitude.

18. One of the lawyers we invited to become a part of our leadership was Steve Weiss of Seeger Weiss. Mr. Weiss was a member of the Executive Committee in the *Rice Litig.* and also involved in previous litigation involving farmers, including corn farmers in the *Starlink* case. He is very knowledgeable about farmer litigation and he and his firm brought a wealth of

experience in mass tort and class action litigation. Seeger Weiss also brought substantial human and financial resources to the litigation.

19. Scott Poynter also was on the Executive Committee in the *Rice Litig.* and likewise very experienced in farmer, class action and mass tort litigation. Rob Shelquist also had previous experience in farmer litigation through his involvement in *Starlink* and substantial class action experience. Jayne Conroy, Chris Ellis and Rick Paul each had substantial mass tort and class action experience, and were involved early on in this litigation. John Ursu and David Graham, representing Cargill and ADM respectively, and their firms brought significant human and financial resources to the table, and had a wealth of experience representing both plaintiffs and defendants in commercial and class action litigation. Mr. Ursu's client filed the first case against Syngenta. In short, we assembled a team that had the expertise, experience and financial resources to take on a large biotech company like Syngenta and was well suited to handle class, individual, Producer and Non-Producer cases.

20. Tom Bender, added by the Court to our leadership group, was a valuable addition. Mr. Bender and Dirk Hubbard of his firm conscientiously provided leadership and organization to the process of preparing for and defending farmer depositions.

21. As the litigation progressed, dozens of other firms provided quality assistance to our efforts. Our fee application seeks funds to provide compensation to all firms that provided common benefit work in accordance with this Court's common benefit order.

III. GRG WORK AFTER LEADERSHIP APPOINTMENT

22. In the paragraphs below, I summarize work that was performed by GRG timekeepers at each stage in the litigation after the leadership appointment. I understand that the other Co-Leads are providing similar declarations as to work performed by their respective firms,

and that other firms that provided common benefit work are likewise providing declarations summarizing their work. By providing the detail below regarding the work performed by GRG personnel, I do not mean to suggest that attorneys from other firms were not involved in the listed activities. In fact, the vast majority of the work performed on behalf of plaintiffs was a team effort and resulted from the harmonious and collegial working relationships we shared. Virtually every piece of work product was reviewed and scrutinized by lawyers in firms that were not the primary authors of the work. We collectively were far better lawyers and law firms than any of us could have been individually.

23. After the Court's appointment of the leadership group on January 22, 2015, a multitude of tasks needed to be performed in relatively short order. One of the most significant was to draft Producer and Non-Producer Master Complaints, which were filed on March 13, 2015. The legal research and drafting that created our first Master Complaints was led by Ms. Garrison. Like she had done in the *Rice Litig.*, Ms. Garrison masterminded legal claims, arguments and strategies, and coordinated a team of lawyers from GRG and other firms in conducting the necessary legal and factual research and drafting processes. Ms. Garrison later was joined in the briefing role by Brad Wilders of the Stueve Siegel firm, and those two extremely gifted lawyers divided responsibilities for being plaintiffs' experts on numerous legal issues and taking the lead on substantive motion practice. GRG attorney Jason Sapp also was significantly involved in various research and drafting, as well as selection of class representatives. Mr. Sapp was very familiar with many of the issues given his prior involvement in the *Rice Litig*.

24. As for me, the leadership appointment in January 2015 began a whirlwind of non-stop activity that lasted all the way through and beyond the June 2017 class trial. Before and

throughout this entire time period, the resources of my firm's entire commercial litigation/class action/mass tort practice were so fully devoted to this litigation that I was required to instruct those responsible for new client screening and intake to advise all new potential clients that our group was not taking new matters. We had to decline several significant matters due to our commitment to this litigation.

25. At the beginning of any MDL, numerous organizational, procedural and substantive tasks have to be performed. In addition to working with Ms. Garrison and others on the Master Complaints filed on March 13, 2015 as described above, I spent significant time early on working with my fellow Co-Leads and members of our Executive Committee to try to ensure that we had processes in place that would allow our group to operate effectively and efficiently, and would allow for the free flow of information to those who needed it to perform the work they were assigned to perform. As I had learned from the *Rice Litig*., it also was important early on to reach out and attempt to resolve disputes with fellow plaintiffs' attorneys in other venues, which we spent significant time on. That early work on coordination paid off later and helped us avoid major disputes over written discovery, depositions, class certification and experts. The following is a non-exclusive list of various categories of work I personally performed from the date of our Leadership appointment on January 22, 2015 through April 30, 2015 (and throughout the litigation where indicated):

a. Drafted and distributed agendas for Co-Lead meetings and conference calls (throughout the litigation).

b. Drafted and distributed agendas for and led EC meetings and conference calls (throughout the litigation).

c. Reviewed, edited and approved all substantive court filings (along with other Co-Leads, throughout the litigation).

d. Worked on proposed scheduling orders, the protective order and the common benefit order.

e. Made assignments of work to non-co-lead firms, and suggested allocation of work to Co-Lead firms (along with other Co-Leads, throughout the litigation).

f. Monitored progress of assigned work to ensure timely completion (along with other Co-Leads, throughout the litigation).

g. Led process of identifying and vetting class representatives and bellwether plaintiffs.

h. Led work on coordination with Minnesota leadership (along with other Co-Leads, throughout the litigation).

i. Worked on coordination issues with those that later filed cases in the Southern District of Illinois (along with other Co-Leads, throughout the litigation).

j. Worked on coordination with Cargill and ADM (along with other Co-Leads, throughout the litigation).

k. Worked on written discovery requests.

l. Reviewed summaries of depositions in related litigation involving Bunge prepared by GRG attorney Kaitlin Bridges.

m. Reviewed "hot" documents identified by document review team which included Ms. Bridges.

26. The next several months were focused primarily on obtaining, reviewing and analyzing discovery obtained from Syngenta, modifying the complaints to include facts revealed by that discovery, responding to Syngenta's lengthy motion to dismiss, reviewing and digesting the Court's rulings on Syngenta's motions and beginning preparation for class certification motion practice.

27. My firm and the Stueve Siegel firm took the overall lead in coordinating the opposition to Syngenta's motion to dismiss, which involved numerous issues, including complicated and potentially dispositive issues of duty, causation and the economic loss doctrine

under the laws of 22 states. Ms. Garrison took the lead on economic loss and other areas of research and drafting. Mr. Sapp did extensive work regarding consumer protection statute issues, including the nationwide Minnesota Consumer Protection Act class claims. Ms. Garrison, Mr. Sapp, Mr. Wilders, and Jason Earley later argued at the motion to dismiss hearing.

28. From May 2015 through September 2015, the following is a non-exclusive list of various categories of work I performed and, where indicated, others performed:

a. Continued detailed review and analysis of hot documents; drafted inserts for amended complaints containing references thereto.

b. Worked with Ms. Garrison and Mr. Sapp on other amendments to producer, non-producer and milo Master Complaints.

c. Participated in multiple in-person and telephone conferences and had many other communications with Dr. Carter and Dr. Babcock regarding damage methodologies.

d. Continued to work on coordination issues with related litigation including negotiations and drafting of joint prosecution agreements, and common benefit orders and related motions.

e. Detailed review and analysis of motions to dismiss producer and non-producer complaints; worked on assignments related thereto.

f. Worked with Ms. Garrison, Mr. Wilders, Mr. Sapp and others on the responses to Syngenta's motions to dismiss.

g. Worked with others on response to motion to dismiss milo complaint.

h. Worked on class certification issues; made assignments relating thereto.

i. Planned, coordinated and worked on gathering of documents and preparation of discovery responses for class representatives and bellwether plaintiffs (with Mr. Sapp and members of other firms).

j. Detailed review and analysis of the Court's 117-page ruling on motions to dismiss; outlined process and assignments for amendments and other issues relating to the ruling.

k. Reviewed and analyzed class certification issues in light of the ruling; made assignments relating thereto.

l. Multiple communications with class representatives and economic experts relating to class certification issues.

29. The remainder of 2015 was devoted to continuing review and analysis of written discovery provided by Syngenta, identifying and developing trial strategies and themes based upon that discovery, continued work preparing for class certification motion practice, identifying and vetting potential bellwether plaintiffs, producing discovery from farmers and defending their depositions (plaintiffs ultimately produced documents for and defended depositions of 77 farmers from eight different states), and scheduling and preparing for the upcoming depositions of Syngenta's corporate representatives and executives.

30. Others at GRG including Mr. Sapp and Ms. Bridges were heavily involved in reviewing documents produced by Syngenta and gathering and preparing plaintiff discovery.

31. The following is a non-exclusive list of my activities during those months:

a. Worked on scheduling orders and detailed assignments related thereto.

b. Continued working on class certification issues, including with our experts.

c. Prepared for and attended week-long trial strategy session with trial consultant (with Co-Leads and others).

d. Designed and oversaw bellwether trial selection and vetting process and identification of plaintiffs' bellwether selections; assignments regarding same.

e. Continued work on coordination with related litigation.

f. Began preparations for depositions of Syngenta corporate representatives.

g. Worked with Syngenta on developing a master schedule for upcoming depositions of Syngenta executives.

h. Addressed multiple issues regarding ongoing farmer depositions.

32. Depositions of Syngenta corporate representatives and executives began in January 2016. Over the course of the next six months, plaintiffs deposed 32 Syngenta executives on four different continents.

33. One of the four MDL Co-Leads took the lead on virtually every Syngenta deposition. Normally, the MDL Co-Lead taking the deposition would share the deposition outline with the attorney for the Minnesota leadership and counsel for Cargill and ADM in advance of the deposition to give other plaintiffs' counsel, to the extent they wished to question the witness, the ability to avoid non-duplicative questions.

34. The preparation time for each of these depositions was lengthy given the numerous documents produced by Syngenta that contained the name of or was related to each deponent. I personally took the depositions of 12 fact witnesses, most of which lasted more than one day, including the top two Syngenta executives, Mssrs. Mack and Pisk. I also took the deposition of Mr. Bernens, whose multiple warnings to other Syngenta executives about the significance of the Chinese market to U.S. corn producers, was important to several of our trial themes and strategies.

35. Much of the deposition testimony I elicited from these and other witnesses I deposed was played in both the federal MDL trial as well as the Minnesota trial. For many of the depositions I took, Ms. Bridges undertook the tedious document review process with substantial assistance from Mr. Sapp to cull the number of documents for my detailed review for each deposition to a manageable number and also worked on deposition outlines. This work by Ms. Bridges was very time consuming, but necessary given the numerous depositions we were required to take in a relatively short time period.

36. Also, during this time period, I and others continued to work on class certification issues and with our economic experts and began working with the Settlement Special Master and others on multiple preliminary settlement issues.

37. Mr. Sapp and I also prepared for and defended multiple class representative and bellwether depositions. Mr. Sapp also worked with others to address plaintiffs' discovery issues.

38. The following is a non-exclusive list of my activities from January 2016 through April 2016:

a. Continued working on master schedule for depositions of Syngenta executives.

b. Prepared class representatives for depositions; defended those depositions along with Mr. Sapp.

c. Detailed review of numerous facts and important documents identified by document review team.

d. Worked with Drs. Carter and Babcock on draft reports related to class certification.

e. Addressed multiple class certification briefing issues, as did Ms. Garrison.

f. Detailed review of witness-specific documents in preparation for Syngenta executives' depositions.

g. Prepared for and took depositions of Syngenta's corporate representatives Martin (2 days) and Vulcan.

h. Provided guidance to Mr. Sapp and others regarding the meet and confer process regarding plaintiff discovery.

i. Prepared for and took the depositions of Syngenta witnesses: Rennie, Sather (2 days), Wheeler (2 days), Hull (2 days), Bernens (3 days), Pisk (2 days in London), Mack (2 days in London).

j. Began working on settlement issues with Settlement Special Master.

k. Continued detailed work with Drs. Carter and Babcock on their class reports.

l. Worked on expert sharing agreement with Minnesota leadership.

m. Worked with class certification briefing team on class issues.

39. During the next several months, the depositions of Syngenta executives continued.

40. In addition, our class certification briefing team led by Mr. Wilders devoted significant time to our class opening and reply briefs. I devoted much time to working with Mr. Wilders on those briefs and with our class experts, Drs. Carter and Babcock, in finalizing their class expert reports, preparing and producing them for their depositions and for their testimony at the class certification hearing. I also devoted significant time in preparing for and taking the depositions of Syngenta's class experts, and preparing for and participating in the two-day class certification hearing. I also devoted significant time in preparing for and taking the depositions of Syngenta's class experts, and preparing for and participating in the two-day class certification hearing, including a dry run with Minnesota Lead Counsel the day before the hearing.

41. Ms. Garrison and Mr. Wilders again took the lead on opposing Syngenta's motion for judgment on the pleadings, with assistance from me and attorneys from other firms.

42. I also continued to work on multiple settlement issues as directed by the Settlement Special Master and on bellwether selections. Mr. Powell and I also worked on designing a focus group and mock trial session to enable us to test our trial strategies and themes.

43. The following is a non-exclusive list of my activities from May 2016 through September 2016:

a. Monitored Fisher deposition.

b. Continued detailed work with Drs. Carter and Babcock on class reports.

c. Detailed work on class certification brief.

d. Worked with Mr. Powell on design and scheduling of focus group and mock trial sessions.

e. Worked on response to Syngenta's motion for judgment on the pleadings.

f. Prepared for and took deposition of NAEGA corporate representative Martin (2 days), NGFA corporate representative Gordon, and Cargill's Bodin (2 days).

g. Deposition preparation of Drs. Carter and Babcock.

h. Defended Carter and Babcock depositions (2 days each).

i. Worked with Bill Chaney on non-producer bellwether selections.

j. Worked with Co-Leads on producer bellwether selections.

k. Detailed review of Syngenta's class certification brief and accompanying expert reports; made assignments related thereto.

l. Consulted with Drs. Carter and Babcock regarding Syngenta's expert reports.

m. Prepared for and took depositions of Syngenta experts Thurman and Fischel; attended deposition of Syngenta expert Finch.

n. Detailed work on class certification reply brief.

o. Worked with Drs. Carter and Babcock on declarations.

p. Reviewed and analyzed ruling dismissing ABCD defendants and its impact on trials for producers.

q. Detailed preparation for evidentiary class certification hearing and oral argument.

r. Redirect of Drs. Babcock and Carter at class certification hearing.

s. Oral argument at class certification hearing.

t. Continued work on settlement issues and meetings with Settlement Special Master; worked on Master Settlement Agreement and settlement memorandum.

u. Worked on focus group presentation.

v. Detailed review and analysis of class certification ruling and its impacts on the litigation; mapped out remainder of litigation.

44. After the Court issued its ruling certifying our proposed nationwide and state classes in September 2016, we immediately began work on identifying and assigning all work that needed to be performed through our first trial.

45. I also devoted significant time to continued development of trial themes and strategies, working with our merits experts on their reports and producing them for their depositions. The merits experts were identified by the federal MDL Co-Leads, who also worked with them on their reports and prepared them for and defended their depositions. The federal MDL Co-Leads made the experts available to the Minnesota leadership under an Expert Sharing Agreement entered into by the parties.

46. GRG attorney Kaitlin Bridges also devoted substantial time to working with our experts on their merits expert reports and preparing them for their depositions.

47. I also continued working on multiple settlement issues as directed by the Special Master. The following is a non-exclusive list of my activities in October and November 2016:

a. Detailed work on assignments through trial.

b. Worked on project to identify and organize all jury points to be made during trial.

c. Worked with Drs. Carter and Babcock to finalize their merits expert reports. Ms. Bridges assisted with this work.

d. Detailed review of all other plaintiff expert reports; suggested edits and additions.

e. Worked on class notice issues.

f. Worked on response to Rule 26(f) petition.

g. Prepared for and attended week-long session with trial consultant.

h. Worked with Mr. Sapp on expert analysis from Mr. Frye.

i. Prepared for and defended Dr. Babcock's second deposition.

j. Prepared for and defended Dr. Carter's second deposition.

k. Continued work on multiple settlement issues as directed by Special Master.

48. In December 2016, our pretrial preparation began to accelerate. We began the incredibly time-consuming and tedious process of conducting a detailed review of all depositions to identify portions that should be considered for designation. After later winnowing down those portions to the ones we ultimately decided should be offered at trial, we then began the tedious process of reviewing and editing video clips for each of those designations. A similar process was undertaken to identify documents that we would consider offering into evidence.

49. Also, in late 2016 and early 2017, we worked on the detailed and important pretrial order, as well as plaintiffs' motion for summary judgment on several important issues including Syngenta's efforts to assign fault to producers, exporters, and the Republic of China, and to claim that the conduct of exporter (as well as China) was a superseding cause of the harm in this case.

50. Ms. Garrison and Mr. Wilders led the summary judgment team, both from the plaintiffs' side, and in opposing Syngenta's lengthy motion for summary judgment against plaintiffs. Ms. Garrison was primarily responsible for gathering, assembling, and drafting the memorandum and supporting exhibits for Plaintiffs' summary judgment motion, which included 123 statements of undisputed facts. Paralegal Jackie Statz assisted in gathering and assembling exhibits. Jason Earley from Hare Wynn also was instrumental in compiling the extraordinarily

comprehensive set of facts for the opposition. Jason Sapp also assisted with the summary judgment opposition.

51. Additional work during this period included various *Daubert* motions directed at some of Syngenta's experts (whose depositions we took during this period), responding to Syngenta's *Daubert* motions directed at our experts, and refinement of trial strategies and themes (including through a mock jury trial).

52. I also continued working on multiple settlement issues as directed by the Settlement Special Master.

53. The following is a non-exclusive list of my activities from December 2016 through March 2017:

a. Began work on deposition designation and video clip project. Ms. Garrison and Ms. Bridges also worked on this process.

b. Continued work with Mr. Sapp on issues relating to Mr. Frye's expert analysis.

c. Continued working with Drs. Carter and Babcock on issues related to their reports and trial testimony. Ms. Bridges continued to assist with this work.

d. Continued work on multiple settlement issues as directed by Special Master.

e. Worked on selection of class plaintiffs for upcoming trials.

f. Worked on summary judgment motions.

g. Drafted damage section of proposed pretrial order.

h. Reviewed voluminous evidentiary materials to assist with other sections of pretrial order.

i. Worked with Mr. Powell to design mock trial session and suggest assignments.

j. Detailed reviews of all of Syngenta's expert reports.

k. Prepared for and took Thurman, Fischel and Goodwin depositions. Ms. Bridges assisted.

l. Drafted *Daubert* motions directed at Goodwin and Thurman with assistance from Ms. Bridges.

m. Detailed review of and suggestions for summary judgment briefing.

n. Detailed review of draft *Daubert* motions directed at five other Syngenta experts; made edits and additions.

o. Detailed review of *Daubert* motions directed at Drs. Carter and Babcock; worked on responses, with assistance from Ms. Bridges.

p. Review of *Daubert* motions directed at other Plaintiffs' experts; provided suggestions and edits on responses.

q. Worked on and participated in mock trial presentation. GRG attorney Cort VanOstran assisted on this work.

r. Detailed and extensive work on deposition designation project.

s. Detailed review of 149-page summary judgment response from Syngenta; outlined assignments for response.

t. Drafted replies in support of *Daubert* motions directed at Goodwin and Thurman, with assistance from Ms. Bridges.

u. Worked on responses to motions to strike Carter and Babcock declarations. Ms. Bridges assisted.

v. Continued working on multiple settlement issues, with the assistance of Mr. Sapp, including Master Settlement Agreement and settlement conferences as directed by Special Master.

54. During this period, Ms. Garrison and Mr. Wilders took the lead on plaintiffs' extensive 112-page summary judgment reply briefing.

55. Important successes on the summary motions had significant effect on the scope of issues at trial, among them, that Syngenta could not attribute fault to producers, exporters Cargill and ADM, or China and could not assert that the conduct of Cargill and ADM was a superseding cause of Plaintiffs' harm.

56. From April 2017 through the June 2017 three-week trial, we were absorbed in final trial preparation and the trial itself. We spent much time preparing all live witnesses and experts for their testimony, preparing for cross-examination, preparing direct and cross-examination outlines, preparing opening statement and closing argument outlines and slides, preparing and responding to motions in limine, finalizing our deposition designations and responding to Syngenta's designations (including both objections and counter-designations), reviewing and responding to Syngenta's counter-designations (including objections and counters to the counter-designations), working on jury instructions, attending a final week-long session with our trial consultant, working on jury selection issues and working with our jury consultant and trying the case. Given the complexities and length of the trial, all of our GRG team was heavily involved in numerous trial issues.

57. Ms. Garrison drafted the jury instructions proposed by Plaintiffs, analyzed and researched issues relating to the instructions proposed by Syngenta, and, with Mr. Chaney, engaged in numerous meet and confer sessions with Syngenta's counsel in an effort to find common ground for a set of stipulated instructions. She also was the primary drafter of briefing that pertained to disputed instructions, and presented oral argument at the instruction conference.

58. Ms. Garrison, along with Mr. Wilders, were primarily responsible for responding to Syngenta's pre- and post-verdict motions for judgment.

59. Mr. Sapp spent much time preparing each of the class representatives for their trial testimony, preparing cross-examinations of anticipated Syngenta witnesses, participating in meet and confer sessions with defendants regarding trial exhibits and addressing various other legal issues related to admissibility and damages requirements that arose before and during the

trial including numerous motion in limine and evidentiary issues. Mr. Sapp also worked with the notice administrator regarding exclusion requests and other class administrative issues.

60. Ms. Bridges assisted me in preparing our agricultural economists for their testimony and in preparing for cross-examination of Syngenta's damage experts, including identifying a discrepancy between one of Syngenta's expert report exhibits and a similar exhibit that expert presented at trial which I pointed out to the jury. She also devoted time to multiple meet and confer sessions with opposing counsel regarding exhibits. Ms. Bridges also devoted considerable time to the deposition designation and video editing process.

61. Mr. VanOstran worked with me and lawyers from Hare Wynn on our opening and closing arguments.

62. The following is a non-exclusive list of my activities from April 2017 through June 2017:

a. Continued detailed work on deposition designations of many witnesses.

b. Continued work on settlement, together with Mr. Sapp, under direction of the Special Master.

c. Detailed review of the Court's summary judgment rulings and analyzed impact on trial presentation.

d. Reviewed motions in limine drafts and provided input.

e. Reviewed jury instruction drafts and provided input.

f. Drafted opening statement outline of points.

g. Prepared for and attended week-long session with trial consultant focused on opening statement and demonstratives.

h. Worked on numerous pretrial issues and followed up on assignments.

i. Multiple meetings with Mr. Sapp and plaintiff Bret Kendrick to prepare him for his trial testimony; worked on direct examination outline.

j. Meetings with Ms. Bridges and Drs. Carter and Babcock to prepare them for their trial testimony; worked on direct examination outlines.

k. Detailed work on review of all videos to be played by Plaintiffs (divided among Co-Leads).

l. Worked with Drs. Carter and Babcock on supplemental reports.

m. Detailed work on objections to Syngenta's designations, counter-designations and counters to the counters, assisted by Ms. Garrison, Mr. Sapp and Ms. Bridges.

n. Detailed review and analysis of Court's *Daubert* rulings and implications on trial.

o. Detailed work on all witness direct and cross-examination outlines, with assistance from Ms. Bridges.

p. Worked on closing argument outline.

q. Final trial preparation.

r. Attended and participated in trial.

63. After the trial, we began the process of preparing for the upcoming trial of the Arkansas and Missouri classes, and worked with our experts to supplement their reports. Ms. Bridges assisted.

64. We also worked with the Minnesota leadership to assist them in preparing for their trial of claims of the Minnesota class, including working with our experts who would be testifying in the Minnesota trial. In addition, we provided the Minnesota Leadership counsel with our Daubert briefing on our experts.

65. We also continued work on settlement as directed by the Settlement Special Master. After the Settlement Negotiation Committee was appointed, we spent significant time educating Mr. Seeger on the litigation and settlement issues that had been previously addressed or raised and reviewing and analyzing all settlement issues we were made aware of.

66. GRG attorney Jason Sapp and I were heavily involved in the settlement process, conducting detailed reviews of all versions of term sheets and final settlement agreements, working with our experts to analyze various settlement issues and multiple other tasks related to settlement. Mr. Sapp also worked with FSA personnel and the notice and claims administrator on multiple data, notice and claims issues.

67. The following is a non-exclusive list of my activities during this post-trial time period:

a. Worked on class certification brief for the remaining 12 states and class representative vetting.

b. Worked with Drs. Carter and Babcock on supplemental reports for upcoming MDL trials.

c. Worked with Drs. Carter and Babcock and Minnesota counsel in preparation for Minnesota trial.

d. Worked on response to damages section of Syngenta's post-trial motion, with assistance from Ms. Bridges.

e. Provided assistance to Minnesota counsel on cross-examination of Syngenta's damage experts.

f. Multiple meetings, conference calls and other communications to educate Mr. Seeger on litigation and prior settlement discussions after appointment of Settlement Negotiation Committee and to evaluate various settlement proposals and issues.

g. Worked with Dr. Babcock on various settlement related issues.

h. Provided input, together with Mr. Sapp, on a proposed Allocation Plan for the June trial judgment.

i. Consulted with Mr. Sapp and others regarding meetings and discussions with FSA regarding data production and allocation methodology.

j. Worked extensively, with Mr. Sapp and others, on potential settlement structures and allocations methodologies.

k. Reviewed and provided input, together with Mr. Sapp, on settlement format, notice and implementation processes.

68. Also during this period, we were preparing for summary judgment motions respecting the Arkansas/Missouri trial. Briefing on summary judgment positions was well underway at the time of settlement. Based on meet and confer sessions with Syngenta (conducted by Mr. Wilders), we were aware of the issues Syngenta would assert, as well as active issues on which Plaintiffs would seek summary judgment against Syngenta on which Syngenta did not believe the Court's prior order applied. Among other things, Syngenta would raise an assumption of risk defense under Arkansas and Missouri law not available under Kansas law. It also would seek to assign fault to China, all exporters who shipped corn to China in addition to Cargill and ADM under Arkansas and Missouri law. Syngenta also would assert that all exporters, not just Cargill and ADM, were a superseding cause for Plaintiffs' injury. Ms. Garrison was in the midst of drafting the summary judgment oppositions and motion for Plaintiffs when the parties reached an agreement in principal to settle the case.

69. From the onset of the case, Jackie Statz worked with the class representative/ bellwether clients in gathering information needed for the Kansas and Missouri complaints and the Master complaint. She assisted with document collection from class representative and bellwether clients and worked on the responses to discovery. Because she worked extensively with plaintiff fact sheets in *Rice Litig.*, she was consulted by the team of attorneys who developed the plaintiff fact sheet in this case. During the discovery stage, Ms. Statz reviewed and coded documents produced by Syngenta. Ms. Statz worked closely with Don Downing, Jason Sapp and Kaitlin Bridges on their work with experts Dr. Colin Carter and Dr. Bruce Babcock and gathered the experts' materials used in all of their reports for production to Syngenta. She assisted the attorneys in preparing for the experts' depositions and Syngenta

witnesses which included extensive work on numerous Excel spreadsheets produced by Syngenta witnesses. Ms. Statz was tasked with collecting and organizing the spreadsheets and corresponding documents from the Minnesota counsel regarding their clients who were opting out. Throughout the duration of the case, she responded to requests from GRG and other Co-Lead firm attorneys for various work products and materials needed for use in preparing briefs and assisted with preparing exhibits to the briefs. She was also the main contact with the court reporters in resolving issues, reviewing all invoices for accuracy and approving the invoices for payment. In preparation for trial, Ms. Statz worked with the team on creating deposition designations and preparing video clips for use at trial.

70. Charles Fasterling assisted the GRG attorneys with various tasks such as deposition preparation and document production. He corresponded with farmer clients regarding obtaining and producing client records and information.

IV. CONTINGENCY FEE PERCENTAGE

71. As the Court is aware, tens of thousands of corn producers were signed up as clients by numerous lawyers. Having seen many of those contracts and spoken with many lawyers whose firms entered into those contracts, I am aware that most of those contracts require payment of 40% of the gross recovery to the lawyers.

72. The retention contract that the Co-Leads utilized required payment of a fee of 33 1/3 % of the gross recovery. Our firms collectively have over 4,600 clients in the litigation.

73. Fee contracts with a one-third or higher contingency fee are customary in farmer cases, and in most other cases as well. It is customary for my firm to have at least a one-third contingency fee arrangement for commercial litigation. In the *Rice Litig.*, the vast majority of fee contracts also required payment of 40% and my firm's contract required payment of 33 1/3%.

Given the risk, uncertainty, and lengthy time period involved before any potential recovery and the enormous resources that must be devoted, these fee percentages are reasonable and conform to standard practice.

74. GRG will not seek to recover attorneys' fees or expense reimbursement from any individual client that is part of the global settlement. Instead, GRG will look solely to the Court for those fees and expenses.

75. The result obtained in this litigation is extraordinary by any measure. The $1.51 billion settlement is the largest agricultural settlement in history, and one of the largest settlements of any kind. The $217.7 million verdict that led to this settlement was one of the top ten verdicts in the United States in 2017. Each of the 600,000 corn producers in the country will receive significant monetary compensation through the settlement. Depending on the number of claims filed, it is possible that all corn producers who file claims could receive full compensation for their losses as determined by plaintiffs' experts.

V. GRG LODESTAR

76. GRG attorneys and staff devoted a total of 18,480.50 hours of common benefit time to this litigation through June 2018.

77. I have reviewed our contemporaneous time entries by each of our timekeepers who performed work on this case and exercised billing judgment in carefully reviewing and excluding time that was not common benefit time under the Court's common benefit order, or that I otherwise perceived was duplicative, excessive or otherwise inappropriate. Unitemized evening meal receipts were reduced by one-third to account for alcohol.

78. These hours do not include the significant time spent on non-common benefit activities. The timekeepers from my firm spent at least 1100 hours (with a lodestar over

$890,000) on non-common benefit activities that are not included in our submission of common benefit time. Most of this time was incurred with respect to individual clients, including written communications keeping them abreast of developments in the litigation, numerous in-person meetings and telephone communications answering questions about the litigation and settlement, and numerous meetings, telephone conferences and emails with referral counsel. Additional time not included in our submission is a host of other activities including numerous meetings, telephone conferences with and presentations to counsel for farmers, attendance at town hall meetings and trade shows, participation in activities to communicate and explain the settlement to farmers and agriculture attorneys, work before the Judicial Panel on Multidistrict Litigation, work on our leadership application, meetings and telephone conferences with various non-producers, and a host of other activities.

79. The total hours of common benefit time by each timekeeper from my firm, after my reductions, are accurately set forth in the chart below.

Name	**Title**	**Year graduated from Law School**	**Total Hours**	**Hourly Rate**	**Lodestar**
Don Downing	Director/Shareholder	1982	6,515.10	$865	$5,635,561.50
Gretchen Garrison	Principal	1986	3,999.70	$825	$3,299,752.50
Jason Sapp	Partner	2006	1,900.30	$695	$1,320,708.50
Kaitlin Bridges	Associate	2008	2,670.80	$565	$1,509,002.00
Cort VanOstran	Associate	2014	582.60	$400	$233,040.00
Jack Downing	Associate	2017	15.00	$330	$4,950.00
Jack Downing	Law Clerk		360.80	$225	$81,180.00
Statz, Jackie	Paralegal		1,894.50	$295	$558,877.50

Name	Title	Year graduated from Law School	Total Hours	Hourly Rate	Lodestar
Stinson, Judy	Paralegal		91.30	$295	$26,933.50
Charles Fasterling	Paralegal		449.90	$225	$101,227.50
Cameron Roark	Law Clerk		0.50	$175	$87.50
Totals			18,480.50		$12,771,320.50

80. This time does not include the anticipated additional time preparing for and attending the Final Approval Hearing or to administer the Settlement and finalize payments to class members.

81. The rates for each timekeeper are reasonable in this judicial district as explained by the Honorable Richard Ralston, and consistent with my own knowledge and understanding as to the range of rates charged by attorneys of comparable experience in comparable cases. As mentioned above, the rates for GRG attorneys are well justified by each of their experience and skills, including the unique experience and qualifications gained in prior farmer cases in general and in the *Rice Litig*. in particular. I was retained last year in a matter at the rate of $800 per hour. Six years ago, attorneys at GRG received court approval for a fee range of $375 to $650 per hour and five years ago, they received court approval for a fee range of $250 to $675 per hour.

82. As part of the Common Benefit Guidelines provided by Co-Lead Counsel, all common benefit firms tracked common benefit expenses using Category Codes 1-19. *See* the chart at ¶220 of Scott Powell's Declaration dated July 9, 2018.

83. GRG also devoted $690,244.26 in common benefit costs to this litigation. Much of those funds were utilized to pay for expert and consultant fees, deposition transcripts and videos, travel expenses, Westlaw charges, copy charges and other expenses that were necessarily incurred in prosecuting this litigation. All expenses were incurred at my direction and were contemporaneously tracked. The expenses are reflected in GRG's records prepared from receipts, expense vouchers, check records and other documents. I have reviewed our records of expenses to ensure that each expense is reasonable and is properly considered a common benefit expense under the Court's Common Benefit Order, and have excluded expenses that do not qualify, including all expenses related to work done for and communications with individual clients who were not class representatives or bellwether clients.

84. As part of our review process, the four Co-Leads reviewed the submitted common benefit time and expenses of the firms that performed common benefit work in this MDL. I personally reviewed the common benefit time and expenses of nine firms and eliminated time and expenses that I believed were not reasonable or properly compensable under the standards set forth in the Court's Common Benefit Order. I then sent my proposed reductions to each of those firms and conducted telephone conferences to explain the bases for my reductions and listen to any justifications offered. As to some reductions I proposed, I was convinced during the conversations that the eliminated time and/or expense was properly compensable. For those entries, I eliminated my exclusion. The remainder of my exclusions were eliminated from that firm's submission and the total hours and/or total expense was reduced accordingly. The firms whose time and expenses I personally reviewed are: Bolen Robinson & Ellis, LLP; Jake W. Brooks; Schirger, Kirk, McDougall & Winzeler, P.C.; Stinson Leonard Street; Stueve Siegel

Hanson LLP; Thrash Law Firm; Waller Jorgenson Warzynski, PLLC (formerly with Sneed Lang PC); Walters Bender Strohbehn & Vaughan, P.C.; and Westerfield, Janoush & Bell, P.A.

VI. SERVICE AWARDS

85. In connection with the fee request, Co-Lead Counsel also are asking that service awards be made to class representatives and bellwether plaintiffs for their efforts and contribution to this litigation.

86. My firm and I worked with the following class representative and bellwether plaintiffs: Bottoms Farms Partnership; JPPL, Inc.; NEBCO, Inc.; Triple BG Partnership; Mike DaVault, Bradley DaVault, and David DaVault d/b/a ArkMo Farms; and Wright Brothers Farms Partnership**.** All of these plaintiffs provided discovery in addition to plaintiff fact sheets. All were in the group of plaintiffs from eight bellwether discovery pool states. These plaintiffs responded to, and produced documents responsive to, a first and second set of requests for production. These plaintiffs also answered three sets of interrogatories, answered requests for admission, and were deposed. I or attorneys in my firm assisted in preparing discovery responses. I or attorneys in my firm also assisted with the preparation and defense of these plaintiffs in depositions.

87. My firm and I spent considerable time and effort responding to Syngenta's discovery requests. As described below, each of these individuals also spent many hours doing so, and where applicable, preparing for and providing deposition testimony.

88. Bottoms Farms Partnership, JJPL, Inc., NEBCO, Inc. and Triple BG Farms (collectively, the "Bell Farming Entities") were selected and agreed to serve as a Missouri class representative and/or bellwether representative and in that capacity, responded to Syngenta's first and second requests for production, which sought documents pertaining to numerous details

about the Bell Farming Entities' farming operation and other information over significant time periods, and also called for personal financial information. In responding to both requests, the Bell Farming Entities conducted an extensive search to locate, and review records, and had several discussions with me and other attorneys at my firm in order to understand the requests and properly respond. Many of these documents were located at the Bell Farming Entities' offices, on their computers or in storage, but others were obtained from third parties including the FSA, insurance companies, grain buyers, seed and other farming input vendors. Representatives from the Bell Farming Entities made numerous telephone calls as well as personal visits to these third parties to obtain documents. The Bell Entities also answered interrogatories, which also requested detailed information, as well as a request for admission. Based on my and my firm's time records, my own contemporaneous involvement, and discussion with Nathan Bell of the Bell Farming Entities, approximately 50 hours were devoted to these tasks by the Bell Farming Entities, three representatives of which were also deposed. Based on my and my firm's time records and my own contemporaneous involvement, and discussions with representatives of the Bell Farming Entities spent approximately 40 additional hours preparing for and providing deposition testimony, not including the time needed to travel approximately 140 miles to St. Louis for depositions on two separate occasions. In total the Bell Farming Entities devoted at least 90 hours in pursuit of this litigation.

89. Mike DaVault, Bradley DaVault and David DaVault d/b/a ArkMo Farms were selected and agreed to serve as an Arkansas class representative and/or bellwether representative and in that capacity, responded to Syngenta's first and second requests for production, which sought documents pertaining to numerous details about the DaVaults' farming operation and other information over significant time periods, and also called for personal financial

information. In responding to both requests, Mike DaVault conducted an extensive search to locate, and review records, and had several discussions with me and attorneys at my firm in order to understand the requests and properly respond. Some of the documents that Mr. DaVault produced were located in their own physical and electronic files, but others had to be obtained from third parties, which required trips to three separate county FSA offices, and multiple phone calls to others including insurance agents. Mike DaVault also answered interrogatories, which also requested detailed information, as well as a request for admission. Based on my and my firm's time records, my own contemporaneous involvement, and discussion with Mike DaVault, approximately 40 hours were devoted to these tasks by him. Based on my and my firm's time records and my own contemporaneous involvement, Mike DaVault spent approximately 20 additional hours preparing for and providing deposition testimony, not including an additional 10 hours of time traveling to and from St. Louis for the deposition, which required an overnight stay. In total Mike DaVault devoted approximately 60 hours in pursuit of this litigation.

90. Wright Brothers Partnership was selected and agreed to serve as a Missouri bellwether representative and in that capacity, responded to Syngenta's first and second requests for production, which sought documents pertaining to numerous details about the Wright Brothers Partnership farming operation and other information over significant time periods, and also called for personal financial information. In responding to both requests, the Wrights conducted an extensive search to locate, and review records, and had several discussions with me and attorneys at my firm in order to understand the requests and properly respond. Some of the records were located in Wright Brothers Partnership's office, storage and/or electronic files. Others were in the possession of third parties including the FSA, grain elevators and vendors, which required personal visits and phone calls to obtain. The Wrights also answered

interrogatories, which also requested detailed information, as well as a request for admission. Based on my and my firm's time records, my own contemporaneous involvement, and discussion with the Wrights, over 75 hours were devoted to these tasks by the Wrights, who were also deposed. Based on my and my firm's time records and my own contemporaneous involvement, three representatives of Wright Brothers Partnership spent approximately 25 hours each preparing for, providing deposition testimony and attending the deposition. In total the Wrights devoted over 150 hours in pursuit of this litigation, not including the time spent traveling approximately 160 miles each way to St. Louis on at least three occasions related to production of documents and attending a deposition.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 9th day of July, 2018, in St. Louis, Missouri.

/s/ Don M. Downing

I, William B. Chaney, declare as follows:

1. I am a partner of Gray Reed & McGraw LLP ("Gray Reed") and counsel of record for Plaintiffs.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

BACKGROUND

A. GRAY REED & MCGRAW LLP

3. Gray Reed was founded in 1985, and was formerly known as Looper Reed & McGraw, P.C., and then later, as Gray Reed & McGraw, P.C. Gray Reed is an AV rated law firm with over 130 lawyers in offices in Dallas and Houston, Texas.

4. Gray Reed is a full service commercial law firm. Its philosophy, since its founding in 1985, is to provide high-quality legal services in a streamlined manner, to provide reasonably priced, sophisticated and complex legal advice, and to provide big-firm results with small-firm efficiency. For over 30 years, the lawyers at Gray Reed have dedicated themselves to achieving success for their clients, as those clients define success - whether that is winning a critical lawsuit, closing a key deal, consulting to save taxes, or just giving good business advice to avoid disputes.

5. Gray Reed was included in the 2018 *U.S. News & World Report* and *Best Lawyers*' "Best Law Firms" rankings. Twelve of the firm's practices were recognized. The firm was also ranked 146 out of the 319 firms listed on the BTI Client Service A-Team 2018, and was further recognized with the BTI "Honor Roll" distinction, the third-highest level of achievement in client service. *Best Lawyers in America* in 2018 recognized 26 of the firm's attorneys and *The National*

Law Journal included the firm in its 2017 "Top 500" Rankings. *Texas Super Lawyers* in 2017 recognized 32 of the firm's attorneys as "Super Lawyers" and 22 as "Rising Stars."

6. As outlined in more detail below, the attorneys in Gray Reed's litigation practice have significant experience in class and mass action cases, from both the plaintiff and defense sides, including work on the agriculture and biotechnology issues raised in the cases before this Court.

7. Gray Reed's lawyers are deeply involved in the legal community, holding leadership roles in national, state and local bar organizations. Other Gray Reed lawyers are similarly active in leadership roles in over a hundred community-focused organizations.

8. Gray Reed previously submitted its firm resume for the Court's review in this litigation (ECF No. 2164 at Ex. JJJ) and substantially more information regarding the firm is available at www.grayreed.com.

B. PARTNERS

1. William B. Chaney

9. I received a J.D. from Southern Methodist University in 1977 and a B.A. in Political Science and Mass Communications from Trinity University (San Antonio, Texas) in 1974.

10. During my over 40 year career and as outlined below, I have principally handled complex, multiparty corporate, commercial and financial litigation and trials, in state and federal courts, as well as arbitration panels, in Texas and nationwide. I have represented plaintiffs in class or mass actions, including investors in securities fraud actions and farmers and industry members damaged by the premature release of genetically modified seed.

11. After law school, from June 1977 through June 1979, I served as law clerk to William M. Steger, United States District Court Judge for the Eastern District of Texas.

12. After my clerkship, I began my private law practice with, and later became partner at, Shank, Irwin & Conant (also, at various times, known as Shank, Irwin, Conant, Williamson & Grevelle, and Shank, Irwin, Conant, Lipshy and Casterline) ("Shank Irwin") in Dallas, Texas. While at Shank Irwin, I principally engaged in a commercial litigation practice, but also handled a wide variety of additional matters, including bankruptcy and creditors' rights matters as well as some corporate and real estate transactions. My experience at Shank Irwin was broad and included, among other matters, the following:

13. As an associate, I was as a member of the trial team for the defendants in the 1981 trial in the United States District Court for the Southern District of Texas, of *Valero Energy Corporation and Coastal States Marketing, v. Nelson Bunker Hunt, Herbert Hunt, and Lamar Hunt.* In that antitrust, group boycott case, we obtained for the defendants a directed verdict after the close of Plaintiffs' evidence. The case involved the trade of oil expropriated by Libya and the application of the *Noerr Pennington* doctrine (and, in parallel state court litigation resolved prior to my involvement, but affecting the 1981 trial, the application of the Act of State Doctrine and the Hickenlooper Amendment).

14. Also as an associate, I worked on several matters and issues in connection with the disruption of the silver commodity market in the early 1980's.

15. As a partner, I represented a defendant, surety bond company, in various securities fraud, bankruptcy and related actions in connection with the issuance of surety bonds supporting investors' promissory notes executed in tax shelters promoted by Gas Reclamation, Inc.,

16. I also represented various parties in the late 1980's in claims by or against financial institutions arising from the savings and loan industry disruptions at the time, including efforts by

the acquirers of several failed savings and loans to reject data processing contracts performed by Affiliated Computer Systems, Inc.

17. Shank Irwin disbanded in 1990 and I joined the Dallas office of a Chicago based law firm, Bell Boyd and Lloyd. Bell Boyd closed its Dallas, Texas office in 1992 and I joined Conant Whittenburg and Schachter ("Conant Whittenburg"), a law firm originally based in Amarillo, Texas, but which had opened an office in Dallas and with which my former partner at Shank Irwin, Al Conant ("Conant"), had become a partner. While working at Bell Boyd and then later in the Dallas office of Conant Whittenburg, I continued my general commercial litigation, creditors rights and bankruptcy practice. Also, while at Conant Whittenburg, and as one of its shareholders, I was on the team representing the plaintiff investors in two securities fraud class actions challenging proprietary, net lease real estate tax shelters promoted by institutional brokerage houses. Both cases resulted in significant settlements in favor of the plaintiff investor classes prior to trial.

18. In 1999, Conant, William French and I were the founding partners of Conant French & Chaney, at which I practiced until 2005 when, with French, I joined Gary Reed (at the time, Looper Reed & McGraw, P.C.). While at Conant French and Chaney, I represented UBS, as the successor to PaineWebber, in several actions pending in Texas state district court in which a mortgage loan servicer and bondholder sought to return to UBS hundreds of millions of dollars of commercial mortgage backed loans syndicated by PaineWebber.

19. After joining Gray Reed, I represented the trustee of the Margaret Hunt and Haroldson L. Hunt Trust Estates against claims by a contingent beneficiary for an accounting and alleged breaches of fiduciary duty. Additionally, I assisted my partner William French in his then on-going representation of tomato and vegetable farmers with claims pending in Arkansas state

court against BASF and aerial applicators for spray drift damages resulting from the herbicide FACET. Thereafter, and while at Gray Reed, I have represented rice mills, exporters and rice farmers, and served as a member of the court appointed Plaintiffs' Executive Committee, in *In re Genetically Modified Rice Litigation*, MDL 1811 (the "LLRICE Litigation"), before the Honorable Catherine M. Perry, then Chief Judge of the United States District Court, Eastern District of Missouri. I participated in all phases of the LLRICE Litigation, including (i) Plaintiffs' efforts to secure personal jurisdiction over, and to establish liability of, Bayer's foreign parent and affiliates, (ii) taking depositions of Bayer's representatives, employees and experts, (iii) coordinating and participating in discovery, both fact and expert, and settlement negotiations for rice mills and other non-producers who had claims pending in the LLRICE Litigation; and (iv) preparing for and participating in the trial teams for 4 bellwether trials for producers from the states of Missouri, Mississippi and Arkansas, Louisiana, and Texas. Each of those bellwether trials ended with unanimous jury verdicts in favor of the farmers against Bayer or, in one, a settlement prior to submission to the jury. I also participated as a member of the Plaintiffs Negotiating Committee in the global settlement for the producer claims of those cases and separately negotiated settlements for several non-producers.

20. After my work on the LLRICE Litigation, I continued my interest in and work on genetically modified crop issues. I joined the American Agricultural Law Association and at its October 2014 annual symposium, made a presentation on the Lessons Learned from the Genetically Modified Rice Litigation. Later, in the fall of 2015, I made a similar presentation to the Arkansas Trial Lawyers Association meeting in Little Rock, Arkansas. Additionally, in the Spring of 2016 I made a presentation on regulatory and other issues related to the development of

drought resistant crops using gene editing technology to the 45th Spring Conference of the ABA's Section on Environment, Energy and Resources.

2. Drew York

21. Drew York earned his B.A. in Economics from Southwestern University in 2002 and then attended Baylor Law School where he earned his J.D., *cum laude*, in 2005. While at Baylor he was a member of the Order of the Barristers and served as an articles editor for the Baylor Law Review. Drew clerked at Gray Reed while in law school, and started as an associate in the firm's litigation section shortly after graduation.

22. Selected eleven times consecutively as a "Rising Star" by *Texas Monthly* magazine, Drew focuses his practice primarily on class action/mass tort (both plaintiff and defense) and complex commercial litigation disputes. Among other cases, Drew served as lead counsel for a Texas-based homebuilder in the *In re Chinese-Manufactured Drywall Products Liability Litigation*, 2:09-MD-2047-EEF, pending before Judge Fallon in the Eastern District of Louisiana. Drew's representation included managing the client through inspections of more than 150 homes that were identified by the homebuilder's drywall supplier as potentially containing defective drywall, negotiating resolutions of potential claims affected homeowners against his client, and then negotiating settlement of his client's contribution and indemnity claims against its supplier and the drywall manufacturer. Ultimately, all claims by and against his client were settled short of trial.

23. Drew also served as counsel for a trust in the *In re Tremont Securities Law, State Law and Insurance Litigation*, 1:11-CV-016870TPG, pending in the Southern District of New York. The litigation was brought by numerous investors in funds managed by Tremont Securities, which served as a "feeder fund" that invested its clients' funds with Bernard Madoff. Drew successfully represented the client past the motion to dismiss stage, becoming one of the few

plaintiffs in the litigation that survived dismissal. The Tremont defendants settled the trust's claims before any depositions were taken in the case.

24. Drew also was a key member of three of the four trial teams in the LLRICE Litigation, as well as a member of the trial team led by Scott Powell of Hare Wynn Newell & Newton LLP that obtained the 42nd largest jury verdict in the United States in 2010 according to Verdict Search. The team represented twelve Arkansas farmers suing Bayer in a related state court case to the LLRICE Litigation. The jury verdict, and corresponding judgment, awarded the twelve farmers one hundred percent of the compensatory damages sought ($5,975,605.00) as well as $42 million in punitive damages. The Arkansas Supreme Court affirmed the judgment in all respects in 2011.

25. Drew's commercial litigation experience includes serving as lead counsel for a consumer lending institution in multiple arbitrations. In one arbitration, the arbitrator awarded $400 to a claimant that was seeking over $300,000 on claims of usury, fraud, and violations of the Texas Deceptive Trade Practices Act. In another arbitration the claimant was awarded one-tenth ($1/10^{th}$) of the damages sought on similar claims. Just last month Drew also successfully obtained separate writs of habeas corpus and mandamus on behalf of a client who was held in criminal contempt for allegedly violating a permanent injunction prohibiting the use, disclosure or dissemination of a former employer's confidential information. The trial court had sentenced the client to 38 days in jail and awarded the employer $221,000 in attorney's fees as sanctions.

26. Drew has attended two of the multidistrict litigation conferences put on by the Bolch Judicial Institute at Duke University, and spoke at the 2017 Arkansas Trial Lawyers Association's SECLE Conference on the use of deposition testimony under Fed. R. Civ. P. 32. He is chair of Gray Reed's contingency committee. Drew is a former trustee (recent graduate-elect)

of Southwestern University, and was also recently invited to sit on the University's Board of Visitors.

3. Clint Brown

27. Clint Brown earned his B.S. in Econometric Studies from Southern Methodist University in 2000, graduating *summa cum laude*. He also earned his B.B.A, in General Business with a concentration in Marketing from Southern Methodist University in 2000, graduating *magna cum laude*. He then earned his J.D. from Southern Methodist University Dedman School of Law in 2006.

28. Clint's practice focuses on family law disputes, related litigation, and collaborative law. He is Board Certified in Family Law. Additionally, Clint prepares agreements and handles proceedings associated with family relationships, including premarital and marital agreements, same-sex cohabitation agreements, surrogate parenting arrangements and child adoptions. In disputes involving sophisticated assets, Clint provides a diverse skill set ranging from complex property tracing and asset valuation to asset characterization and reimbursement claims assessment.

29. Clint has appeared in over 100 contested hearings, mediations, or trials. He has also completed over 60 collaborative law divorce matters. He is the Founder and Director of the Collaborative Professionals of Dallas, an Adjunct Professor at the Southern Methodist University Dedman School of Law, and has been named a Rising Star by Texas Super Lawyers every year from 2010 to the present.

4. Cleve Clinton

30. Cleve Clinton earned his B.B.A. in Finance from the University of Texas in 1975, then earned his J.D. from the Southern Methodist University Dedman School of Law in 1978.

31. Cleve is a Board Certified Civil Trial Law specialist, with a long history of success in business and commercial litigation matters. He is also a regular contributor to the Tilting the Scales legal blog.

32. Cleve is the former director of the Dallas Association of Young Lawyers, an active member of the State Bar of Texas, and a prior Director and President of the Rotary Club of Park Cities.

33. He is an AV Rated Attorney, having successfully served as counsel on matters involving over a billion dollars in loans, multi-million dollar joint venture disputes, insider bond trading claims, and discrimination matters.

5. David Earhart

34. David Earhart earned his B.B.A. from the University of Notre Dame in 1988, graduating with highest honors. He then earned his J.D. From the University of Texas School of Law in 1991, graduating with honors.

35. David's practice focuses on corporate law, securities, private equity, and financing. This includes mergers and acquisitions, dispositions and public and private offerings of debt and equity (including the representation of both issuers and underwriters). David also represents numerous oil and gas, technology and internet-related companies, and has significant experience with the Hart-Scott Rodino Antitrust Improvements Act of 1976. David also represents clients in connection with project finance transactions. In addition, David has been involved in numerous private equity and debt financing transactions, including workouts, recapitalizations and restructurings.

36. David is a member of the State Bar of Texas as well as a member of the Mergers and Acquisitions and Securities sections of the Dallas Bar Association.

6. David Gair

37. David Gair earned his B.A. from Bates College in 1996, followed by his M.A. at Middlebury College in 1999. He then received his J.D. from the University of Denver Sturm College of Law in 2005 where he was an editor of the Denver Journal of International Law & Policy from 2003-2005. He went on to receive his LL.M. in Taxation from the University of Denver Sturm College of Law in 2006.

38. As a trial lawyer Board Certified in Tax Law by the Texas Board of Legal Specialization, David focuses his practice on guiding businesses, high-net-worth individuals and tax professionals through all types of complex civil and criminal tax controversies, everything from audits and litigation to investigations and collection matters. David devotes a substantial part of his practice to defending businesses and individuals facing tax problems that not only trigger a potentially higher tax bill, but also a criminal investigation or prosecution.

39. David has handled several recent controversies involving issues that are currently in the crosshairs of the IRS, including energy efficiency credits and deductions, tax shelter liability and collection cases targeting nominees and fraudulent transfers. David is also helping clients decipher the recently-enacted U.S. Tax Code provisions, with a particular emphasis on the new rules governing partnership audits. In addition to his controversy practice, David helps businesses and entrepreneurs develop proactive tax and estate planning strategies to avoid future disputes and minimize all taxes, including income, estate, gift, GST, franchise and sales/use tax.

40. David was selected by his peers for inclusion in Woodward/White, Inc.'s *The Best Lawyers in America* in the field of Tax Law (2016-2018), He was also selected as one of the Best Lawyers in Dallas, Tax Litigation, by *D Magazine* (2014, 2018). David was named a "Rising Star" (2010 - 2013) and a "Super Lawyer" (2014 - 2017) by Texas Super Lawyers as published in *Texas*

Monthly magazine. He was also selected as an "Outstanding Attorney Under 40" by the Cardozo Society of the Jewish Federation of Greater Dallas (2014).

7. John G. George, Jr.

41. John George, Jr., earned his B.B.A., *cum laude*, from Sam Houston State University in 2004. John then earned his J.D., *cum laude*, from St. Mary's University School of Law, where he was the Editor in Chief of St. Mary's Law Journal, Volume 38, as well as a member of the honors fraternity Phi Delta Phi – Tarlton Inn and the John M. Harlan Society.

42. John manages a diverse caseload of civil litigation matters in Texas and across the country, ranging from complex real estate and energy litigation to general business disputes involving novel theories of contract and commercial tort law.

43. John also manages complex energy litigation throughout Texas and a national docket of commercial and collection cases. He helps businesses within every oil and gas sector resolve litigation involving a variety of contracts and issues, including branded marketer agreements, farm-out agreements, landowner disputes and royalty interests.

44. John was named a Rising Star by Texas Super Lawyers as published in *Texas Monthly* (2012-2018).

8. Jennifer Gurevitz

45. Jennifer earned her M.P.A. and B.B.A. from the University of Texas in 2000. She then earned her J.D. from the University of Florida in 2003, graduating with honors. She earned her LL.M. in Taxation from New York University in 2005.

46. Jennifer has also served as an attorney-adviser for Judge Juan F. Vasquez at the United States Tax Court.

47. Jennifer has broad experience in health care, tax and corporate transactional matters. She has an extensive background in handling and structuring business transactions,

partnership and corporate tax planning and corporate governance in a variety of areas. Her practice areas include healthcare, real estate transactions, energy matters, international deals, business joint ventures, start-ups, reorganizations and corporate separations.

48. Jennifer left Gray Reed in November of 2016, and she now works as a Vice President and Regional General Counsel at CHRISTUS Health in Dallas, Texas.

9. J.J. Hardig

49. J.J. earned his B.S. from Texas A&M University in 1995 and his J.D. from South Texas College of Law in Houston in 1998.

50. His practice typically relates to businesses in the construction, oil and gas, manufacturing, food and automobile industries. His trial and appellate practice focuses primarily on high-stakes commercial disputes, as well as very serious personal injury matters. J.J. also serves his clients by providing tailor-made advice and counsel on a variety of matters affecting their businesses, including risk analysis, litigation prevention strategies and employment related issues.

51. His broad commercial litigation experience includes successfully handling complex disputes involving breach of contract, breach of warranty, fraud, DTPA, misappropriation of trade secrets, as well as indemnity issues. J.J.'s personal injury experience includes successfully defending catastrophic products and premises liability claims involving toxic exposure, food contamination, industrial accidents and crane failure.

52. He has been named a "Super Lawyer" by Texas Super Lawyers as published in *Texas Monthly* magazine six times (2005, 2013 - 2017).

53. Prior to private practice, J.J. served as Justice Adele Hedges' briefing attorney at the First Court of Appeals of Texas in Houston.

10. David Henry

54. David Henry earned his B.A. from Baylor University and then received his J.D. from the Baylor University School of law.

55. David focuses his practice on patent litigation prosecution and defense, patent and trademark strategic planning, prosecution and licensing; and trademark and trade secret litigation. David has extensive experience in assisting his clients in identifying, strategically managing and protecting domestic and foreign intellectual property assets, as well as prosecuting or defending patent infringement and trademark infringement claims in federal courts throughout the United States. He has had some emphasis in both patent prosecution and litigation in the areas of pharmaceuticals and medical and surgical devices (scoliosis-related devices, surgical instruments, suturing tools, and introducers, to name a few), but has also prosecuted and litigated patents relating to a wide variety of technologies. These other areas include petroleum exploration technologies, electrical grid management systems, prosthetic joints, food and beverage production technologies and devices, systems used in space missions, and animal care products.

56. At any given time, David is involved in a number of federal court patent infringement or trademark infringement actions throughout the United States, as well as certain, selected activities at the United States Patent & Trademark Office (USPTO). His experience and circumstances are such that he is particularly well-suited for assisting clients in intensive, fast-paced patent litigation arenas, such as the Eastern District of Texas.

57. Alongside his longstanding legal career, David has served as a patent law professor at Baylor Law School since 1994, and now teaches in the Entrepreneurship Program of Baylor's Hankamer School of Business. He is also an Accredited CLE Presenter for multiple bar associations.

11. Bob Mangum

58. Bob Mangum earned his B.S. in Architectural Engineering from The University of Texas in 1963. He then received his J.D. from the University of Texas School of Law in 1971, where he served as an Associate Editor of the Texas Law Review.

59. He has over thirty plus years of experience as a business lawyer in the Dallas-Fort Worth area, both as a transactional lawyer and a business litigator. His transactional experience includes representing banks and borrowers in all types of commercial lending transactions, representing owners, tenants, and investors in all types of real estate transactions, such as purchases and sales, construction of facilities, construction and permanent financings, mechanic's liens, and leases, and representing nationally-known banks as indenture trustees for debt financings involving hundreds of millions–and even billions–of dollars in debt securities.

60. Bob also has extensive business litigation experience covering a wide range of commercial law, including state and federal court cases and arbitrations for both plaintiffs and defendants in the areas of finance, construction, sales, deceptive trade practices, fraud, securities laws, letters of credit, foreclosures, bankruptcy, manufacturing, covenants not to compete, leases, real estate and personal property.

61. Bob left Gray Reed in 2017 and now practices law as a solo practitioner.

12. Jim Moseley

62. Judge Jim Moseley earned his B.A. from Baylor University in 1976, followed by his J.D. at Baylor University's School of Law in 1978. He was a Notes & Comments Editor for the Baylor Law Review and a member of the Phi Delta Phi legal honors fraternity.

63. Judge Moseley served on the Texas Fifth District Court of Appeals for eighteen years before joining Gray Reed to head the firm's appellate practice section. As one of the 13 justices on the Fifth District Court of Appeals, Jim authored more than 1,500 opinions in all areas

of civil and criminal law and sat as a non-authoring justice in more than 3,000 additional cases. In 2003, Jim was commissioned to sit for a recused Texas Supreme Court justice and authored the Court's plurality opinion (*St. Joseph's Hospital v. Wolff*, 94 S.W.3d 514 (2003)).

64. A licensed AAA arbitrator, Jim is in high demand to adjudicate a broad range of complex commercial disputes involving substantial dollar amounts. Jim's strength is working through complex disputes, i.e. complex fact issues, contractual terms, causation theories, damage models, or procedural (arbitrability) issues.

65. Before serving on the Fifth Court of Appeals, Jim practiced law in Dallas and Odessa (Texas) for 14 years. He also served four years as Regional Director of the Federal Trade Commission during the Reagan Administration. There he was responsible for the FTC's enforcement of federal antitrust and consumer laws in a five-state area. Jim is a former chair of the Antitrust & Business Litigation Section of the State Bar of Texas and an elected member of the American Law Institute.

13. Jim Ormiston

66. Jim earned his B.A. from St. Mary's University of San Antonio in 1982, graduating *magna cum laude*. He then earned his J.D. from the University of Texas School of Law in 1987.

67. The majority of Jim's practice involves handling energy litigation, he's also well-equipped to represent clients in other complex commercial disputes in jurisdictions across Texas and the rest of the country. Jim is also chair of the firm's Commercial Litigation practice group.

68. Among his other representative experience, Jim has successfully obtained more than $75 million in three separate class action settlements on behalf of royalty owners against operators for the underpayment of royalties and failure to reasonably market gas. Additionally, Jim obtained a $29.5 million settlement on behalf of approximately 130 royalty owners for the failure to reasonably market natural gas production.

69. Jim was selected by his peers for inclusion in Woodward/White, Inc.'s *The Best Lawyers in America* in the field of Commercial Litigation (2013 – 2018). He was named a "Super Lawyer" by Texas Super Lawyers as published in *Texas Monthly* magazine (2008 – 2017). He is also AV Preeminent® rated (the highest possible Martindale-Hubbell Peer Review Rating designation). Jim is on the executive committee of the University of Texas School of Law Alumni Association.

14. Jim Reed

70. Jim Reed earned his B.B.A. from the University of Oklahoma in 1976, followed by his J.D. from the University of Houston in 1978, where he graduated *cum laude.*

71. Jim has successfully represented the interests of clients in a wide variety of trial work, commercial disputes and other relationships requiring aggressive representation. He has represented both plaintiffs and defendants in state and federal courts, as well as in arbitration. Jim has been lead counsel in a wide variety of complex civil litigation, including cases involving breach of contract, fraud, breach of fiduciary duty, tortious interference, conspiracy, anti-trust, deceptive trade, insurance code violations, partnership disputes, corporate governance/ownership disputes, breach of express and implied warranty/covenants, RICO, sexual harassment, constitutional claims, assault, battery, libel, slander, trespass, nuisance, product defect and negligence.

72. Jim's notable cases include obtaining a $30 million settlement in 2004 on behalf of a statewide royalty owner class comprising approximately 36,000 royalty owners. Jim also obtained a $20 million judgment on behalf of a class of approximately 1,600 West Texas royalty owners in 2000. He also successfully settled the claims of 130 royalty owners in West Texas for $29.5 million.

73. He was selected by his peers for inclusion in Woodward/White, Inc.'s *The Best Lawyers in America* in the field of Commercial Litigation (2015 – 2018). Jim was named a "Super

Lawyer" by Texas Super Lawyers as published in *Texas Monthly* magazine (2005 – 2017), and a Top Lawyer by H Texas Magazine (2010-2013). He is AV Preeminent® rated (the highest possible Martindale-Hubbell Peer Review Rating designation).

15. Tom Rhodus

74. Tom received his B.A. from Southern Methodist University in 1968 and his J.D. from the Southern Methodist University Dedman School of Law in 1971.

75. Tom combines his early experience as a government trial lawyer with over 30 years of private practice to help clients navigate the complex landscape of federal regulation and law enforcement. With diverse clients ranging from healthcare groups and publicly-traded companies to non-profits and wealthy entrepreneurs, Tom focuses primarily on resolving tax and other regulatory controversies involving civil and criminal liability. He has tried numerous cases to successful verdicts in federal and state courtrooms across the country and has also guided clients through investigations conducted by the IRS, the Department of Health and Human Services and other government agencies.

76. During his seven-year tenure as a trial lawyer for the Tax Division of the U.S. Department of Justice, Tom prosecuted countless civil and criminal tax cases. Tom is now chair of the firm's Taxation practice group.

77. Dedicated to educating future lawyers and giving back to the legal community, Tom has taught as an adjunct professor at the SMU Dedman School of Law for over 35 years, including courses in federal tax procedure and criminal tax fraud.

78. Tom was selected as a Best Lawyer in Dallas by *D Magazine* (2017-2018). He was also selected by his peers for inclusion in Woodward/White, Inc.'s *The Best Lawyers in America* in the fields of Tax Litigation & Controversy and Tax Law (2009 – 2018). He was named a "Super Lawyer" by Texas Super Lawyers as published in *Texas Monthly* and *Law & Politics* magazine

(2005 – 2017). Also, Tom is AV Preeminent® rated (the highest possible Martindale-Hubbell Peer Review Rating designation).

16. Ken Stone

79. Ken received his undergraduate degree from Baylor University in 1981 and his J.D. from the Baylor School of Law in 1984.

80. Ken's practice focuses on commercial and personal injury litigation matters, primarily within the healthcare field but also across several other industries. He spends a substantial portion of his time assisting parties in resolving contractual disputes, and he works with a diverse group of healthcare clients – individual physicians, physician groups, hospitals, nursing homes and dialysis centers – resolving insurance, billing and recoupment disputes that arise when their valid claims for payment are either denied or reduced by insurers and Medicare.

81. Ken maintains an active administrative law practice as well, representing healthcare clients in licensing disputes and other professional licensure matters before various boards in Texas, including the Texas Medical Board, the Texas Board of Nursing and the Texas Physician Assistant Board. Clients also rely on Ken to provide quick answers to everyday licensing and peer review questions and to advise on best practices for handling similar issues internally.

82. Since state and federal agencies have recently intensified their enforcement activities in many of the firm's key industries, Ken now devotes part of his practice to defending corporate and individual clients facing investigations and enforcement proceedings with potential criminal and civil liability. These matters typically involve allegations of fraud and abuse within any heavily regulated industry, including healthcare, financial services, pharmaceuticals, manufacturing and many more.

83. Ken is AV Preeminent® rated (the highest possible Martindale-Hubbell Peer Review Rating designation).

C. ASSOCIATES AND OF COUNSEL[1]

1. Angela Brown

84. Angela Laughlin Brown received her B.A. in Government from the University of Virginia. She received her J.D. from Northeastern University School of Law. While in law school, Angela gained extensive experience in the law school's externship program, clerking for the Honorable Robert E. Keeton, U.S. District Court, District of Massachusetts, the Committee for Long-Term Debt and Capital Expenditures ("Big-Dig"), in Boston, Massachusetts, and the law firms Miller, Cassidy, Larocca & Lewin and Shea & Gardner, in Washington, D.C.

85. After graduating from law school, Angela clerked for the Honorable Nancy M. Koenig, U.S. Magistrate Judge for the Northern District of Texas. In 2002, Angela joined the faculty of Texas Tech University School of Law and taught Legal Practice & Procedure. In 2004, Angela was promoted to Associate Professor of Law and taught federal evidence and civil procedure. Angela was awarded Tenure and promoted to Full Professor in 2009.

86. Angela joined the firm of Gray Reed in 2015 and now focuses her practice on white collar criminal and regulatory matters. She has represented numerous corporate and individual clients in high stakes litigation before federal courts, the SEC and other regulators. She represents the firm's healthcare clients in connection with individuals and corporations accused of healthcare fraud, and has defended healthcare clients under investigation by the Department of Justice and the Office of Inspector General of the Department of Health and Human Services. Angela is also on faculty at the National Institute of Trial Advocacy ("NITA").

[1] In addition to the associates listed below, the following law students who worked as law clerks at Gray Reed also performed work on these cases: London England (Summer 2017, SMU School of Law); Nathan Cox (Summer 2016, Baylor School of Law); and Kyle A. Gardner (Summer 2018, Baylor School of Law).

2. Jason Brown

87. Jason earned his B.S. in Finance from Louisiana State University in 2009, graduating *cum laude*. He then earned his J.D. from the Southern Methodist University Dedman School of Law in 2013, also graduating *cum laude*. While at the Dedman School of Law he was the Associate Managing Editor of the SMU International Law Review.

88. Jason focuses his practice on general corporate and finance matters. He is engaged in the negotiation and documentation of a wide variety of commercial lending transactions. He additionally has experience representing both debtors and creditors in financial restructuring and insolvency matters, including complex chapter 11 bankruptcy cases.

89. Jason left Gray Reed in 2016 and he now practices law at the international law firm of Norton Rose Fulbright in Dallas, Texas.

3. Casey Doherty

90. Casey earned his B.A. in Political Science, with high honors, from Boston College in 2008. He then received his J.D. from the New York University School of Law in 2011.

91. Before entering private practice, Casey clerked for Bankruptcy Judge Robert L. Jones of the Northern District of Texas-Lubbock Division from 2011 to 2012.

92. Casey left Gray Reed in 2018 to pursue other employment.

4. William Drabble

93. William Drabble earned his J.D., *summa cum laude*, from Baylor University School of Law in 2010, graduating first in his class. He was the Senior Technical Editor for the Baylor Law Review, the winner of the 2008 Strasburger & Price Moot Court Tournament, and a member of the Order of the Barristers. William received his B.A., *summa cum laude*, in Political Science from Texas Tech University in 2007.

94. Following his graduation, William clerked from the Honorable Walter S. Smith, Jr. of the United States District Court for the Western District of Texas, Waco Division, from 2010 to 2012. During that time, William coached three moot court teams for Baylor University School of Law. William joined Gray Reed in 2012, and his practice focuses on commercial litigation, corporate-governance disputes, and real-estate litigation.

5. Dylan Drummond

95. Dylan earned his B.S. from Texas Tech University in 1999, graduating *summa cum laude*. He then earned his J.D. from Texas Tech University School of Law in 2003, while also earning his M.B.A. at the same time.

96. After law school, Dylan served as a clerk of the Texas Supreme Court.

97. Dylan's commercial litigation practice includes providing strategic counsel aimed at preserving error through pre- and post-trial motion practice, expert designation disputes, jury charge preparation, class certification and dispositive motion practice. His civil appellate practice before state and federal appellate courts consists of pursuing traditional, accelerated, agreed, and permissive appeals; original proceedings and extraordinary writs; as well as petition, merits, and amicus briefing before the Texas Supreme Court.

98. HE is AV rated by Martindale-Hubbell in Appellate Practice, Litigation, (2012–present). He has been named a Texas Rising Star in appellate practice; Super Lawyers, (2009–2015). He is a Fellow of the Texas Bar Foundation, (2012–present) (top 1/3 of 1% of Texas attorneys invited to join annually). He was also a recipient of the Rising Star Alumni Award for Texas Tech University School of Law in 2015.

6. Marcus Fettinger

99. Marcus received his B.B.A. from the University of Texas McCombs School of Business in 2007. He then earned his J.D. from the Southern Methodist University Dedman School

of Law in 2011, graduating *cum laude*. At the Dedman School of Law, he served as an Articles Editor for the SMU Law Review.

100. His practice focuses primarily on management-side employment matters and litigation, though he has extensive experience in general commercial and business litigation as well.

101. Marcus was named a Rising Star by Texas Super Lawyers as published in *Texas Monthly* magazine in 2018.

7. Alex Fuller

102. Alex earned his B.S. from the University of Houston in 2003, graduating *summa cum laude*. He then earned his J.D. from the Baylor University School of Law in 2006, graduating *cum laude* and serving as the Executive Editor of the Baylor Law Review.

103. After law school Alex joined the Smith County District Attorney's office, eventually serving as Chief Misdemeanor Prosecutor and Asset Forfeiture Attorney. He joined Gray Reed as an associate in 2007 with a wide ranging practice focusing on General Civil and Commercial Litigation, with experience in cases involving collections, deceptive trade practices, fraud, property disputes, health care litigation, defense of corporations and businesspersons against violations of city ordinances, oil and gas and probate litigation.

104. Alex left Gray Reed in 2016 to open the Law Office of H. Alex Fuller, PLLC, in Plano, Texas, where he practices today.

8. Jeff Hopkins

105. Jeff graduated with a B.A. degree in Politics and Russian Studies from Oberlin College in 1992. He received his J.D. in 1997 from the University of Houston Law Center, where he graduated *cum laude* and served as a member of the Houston Journal of International Law.

106. Jeff focuses his practice in transactional, corporate and securities matters. Licensed in Texas and New York, he has represented clients in negotiation of private equity investments, mergers and acquisition, joint ventures, debt financings, restructurings and securities offerings

9. Russell Jumper

107. Russell earned his B.A. from Baylor University in 2005. He then earned his J.D. from the Texas Tech University School of Law in 2008, where he graduated *magna cum laude* and was a member of the Order of the Barristers. Russell clerked for the Honorable Walter Smith, United States District Judge, Western District of Texas.

108. Russell's practice focuses on construction litigation and commercial disputes. He also has worked extensively in healthcare and employment litigation.

109. Russell was named a Rising Star by Texas Super Lawyers as published in *Texas Monthly* from 2014-2018.

10. Taylor Lamb

110. Taylor Lamb earned her B.A. with distinction from the University of Oklahoma in 2007, where she was a member of Phi Beta Kappa. She then earned her J.D. from the University of California-Los Angeles School of Law in 2010.

111. After receiving her J.D., Taylor worked at the White House in the Office of Cabinet Affairs where she was responsible for coordinating communications, policies, and logistics between the Executive Office of the President and the Cabinet.

112. Taylor's practice at Gray Reed focused on corporate and transaction matters, including mergers and acquisitions and commercial contracts.

113. Taylor left Gray Reed in 2016 and now works for the law firm of Fizer, Beck, Webster, Bentley & Scroggins, P.C., in Houston, Texas.

11. Trevor Lawhorn

114. Trevor Lawhorn received his Juris Doctor *cum laude* from Southern Methodist University Dedman School of Law in 2017. Trevor received his bachelor of arts from Louisiana State University where he majored in political science and minored in disaster science management.

115. During law school, Trevor served as Staff Editor and ADR Symposium Editor for the SMU Law Review Association. Trevor also completed an internship for the Honorable Cynthia Wheless, 417th Judicial District Court, Collin County, Texas, and completed an externship for the Honorable A. Joe Fish, Senior District Judge, Federal District Court of the Northern District of Texas. Trevor received the "Best Representative of the SMU Law Review Association 2016-2017" award for his service for the SMU Law Review Association and the "Frank and Debbie Branson Trial Advocacy Scholarship" for his excellence in SMU's trial advocacy program. Trevor joined Gray Reed in 2017 as an associate in its litigation section.

12. Jeff Leach

116. Jeff Leach serves as Of Counsel at Gray Reed, where his practice is focused primarily in the areas of complex commercial and civil litigation, construction law and real estate.

117. Jeff serves as an elected Member of the Texas House of Representatives, representing House District 67, consisting of portions of Plano, Allen, Richardson and Dallas in Collin County. Since taking office in 2013, Jeff has served on the House Committee on Criminal Jurisprudence, the House Committee on Government Transparency and Operation, the House Committee on Urban Affairs and the House Committee on Rules & Resolutions. Currently, Jeff is serving as Vice Chairman of the House Committee on Urban Affairs. Jeff also was elected by his colleagues to serve on the House Republican Caucus Policy Committee.

118. Jeff graduated from Baylor University in 2005, and received his law degree in 2008 from the Southern Methodist University Dedman School of Law. In 2004, Jeff served in George W. Bush's White House, where he worked in the President's Office of Political Affairs.

13. Logan Leal

119. Logan Leal graduated *summa cum laude* from Texas State University, where she was a member of Alpha Lambda Delta. She received her J.D. from the University of Texas School of Law, where she directly represented children as an attorney *ad litem.*

120. Logan joined Gray Reed after law school. Logan's practice is concentrated in complex commercial litigation and family law matters.

14. Michael Lillibridge

121. Michael earned his B.A. from Texas A&M University in 1993. He then earned his J.D. from the University of Houston Law Center in 1997.

122. Michael later joined Gray Reed where he provided investigative research and analyses for various civil litigation matters, including business disputes, fraud claims, class actions, and complicated family law matters. He conducted due diligence inquiries to review clients' potential joint venture partners, targets for mergers/acquisitions, and prospective vendors, both within the United States and internationally. Much of his practice was focused on asset investigation, both pre-litigation and post judgment, as well as enforcing domestic and foreign judgments.

123. Michael left Gray Reed in 2017 and opened an office as a solo practitioner in Houston, Texas.

15. David Lisch

124. David Lisch earned his Electrical Engineering degree from the University of Texas at Austin in 2006 and worked as an engineer for four years prior to attending law school. David

earned his J.D. from South Texas College of Law in 2013. During law school, he was a member of the South Texas Law Review. David also participated in numerous student organizations and was President of the South Texas intellectual property society. David further participated in various moot court tournaments and was a national quarter-finalist in the Giles Sutherland Rich Moot Court competition. Additionally, prior to completing law school, David became admitted to practice before the U.S. Patent and Trademark Office.

125. David's practice focuses on patent litigation, along with trademark and copyright matters. David has represented business in enforcing their patent rights, including in *Optis Cellular Tech. et al. v. Kyocera Commc'ns., Inc. et al.*, Case No. 2:16-cv-0059-JRG-RSP (E.D. Tex.), *Optis Wireless Tech et al. v. BlackBerry Ltd. et al.*, Case No. 2:16-cv-62 (E.D. Tex.), and *Optis Wireless Tech., LLC, et al. v. Huawei Techs. Co. Ltd., et al.*, Case No. 2:17-cv-123 JRG-RSP (E.D. Tex.).

16. Brock Niezgoda

126. Brock Niezgoda earned his B.B.A. from the University of Texas in 2008. He then earned his J.D. from the University of Texas School of Law in 2011.

127. Brock's practice focuses on financing, securities and transactional matters. He advises clients on financing transactions, mergers and acquisitions, business formations and reorganizations, corporate governance issues, SEC reporting and compliance issues, private equity offerings and commercial transactions. A majority of Brock's practice is devoted to both financing matters, including representing both borrowers and lenders, primarily in energy related secured lending, project finance and acquisition financing, and mergers and acquisitions.

128. Brock was named a Rising Star by Texas Super Lawyers as published in *Texas Monthly* from 2014-2018.

17. Sonya Reddy

129. Sonya Reddy received her J.D. from the University of Virginia School of Law in 2011. During her undergraduate studies, Sonya Reddy was a member of the Phi Beta Kappa academic honor society.

130. Since graduating from law school, she has focused her practice on commercial litigation, which has included representing claimants and defendants in oil and gas matters, construction litigation, employment litigation, trade secret misappropriation actions. Included in that representative experience, she was the key draftsperson for submissions addressing purported class representative's motion for conditional certification in case involving FLSA allegations in connection with representation of defendant.

18. Ricky Rivera

131. Ricky Rivera earned his B.B.A. in Accounting from the University of Puerto Rico in 1999, graduating *magna cum laude*. He then earned his J.D. from the University of Puerto Rico in 2003, graduating *magna cum laude*. He also received his LL.M. in Taxation from the Georgetown University Law Center in 2006.

132. Ricky has broad experience in matters relating to US and international taxes, corporate transactions, employee benefits, and executive compensation. He has an extensive background in handling and structuring business transactions, partnership and corporate tax planning and corporate governance in a variety of areas.

133. Prior to joining Gray Reed, Ricky served as Director and Tax Counsel for American Airlines, where he was in charge of federal taxes, international taxes with a focus in Latin America, and employee benefits and executive compensation.

19. Cole Robinson

134. Cole earned his B.B.A. in Finance from Baylor University in 2008. He then earned his J.D. from Southern Methodist University Dedman School of Law in 2013, graduating *cum laude.*

135. Cole is currently a member of Gray Reed's real estate and corporate law sections. His experience includes mergers and acquisitions, drafting purchase and sale agreements, and various corporate matters.

20. Skyler Stuckey

136. Skyler earned his B.A. in Theatre from Pepperdine University in 2005. He then earned his J.D. from the Texas Tech University School of Law in 2011, graduating *magna cum laude*, a member of the Phi Delta Phi legal honors fraternity, a member of the Order of the Barristers, an Articles Editor for the Texas Tech Law Review, and as a national moot court champion.

137. His practice covers on a wide range of matters including commercial litigation, complex multi-state litigation, appellate matters, white collar criminal defense, class actions, e-commerce development and technology, and internet and media issues.

138. Before joining Gray Reed, Skyler served as an intern for the Honorable Ken Molberg in the 95th District Court in Dallas and the Honorable Robert Junell in the U.S. District Court for the Western District of Texas.

139. Skyler has been named a Rising Star by Texas Super Lawyers as published in *Texas Monthly* in 2017 and 2018.

21. Alexandria Twiss (Moore)

140. Alexandria earned her B.A. in Psychology from Texas Tech University in 2012, graduating *cum laude*. She then earned her J.D. from Baylor University School of Law in 2015 where she served on the Baylor Law Review.

141. Her practice of law focuses on commercial litigation and general business matters.

142. Alexandria left Gray Reed in 2018 and now practices at the national law firm of Dykema Gossett, PLLC, in Dallas, Texas.

22. Lydia Webb

143. Lydia Webb received her J.D. from Baylor University School of Law in 2012, where she graduated *cum laude* and top 5 in her class. Lydia was a member of the Baylor Law Review, serving as technical editor, and her article on shareholder oppression was published in the Spring 2012 edition of the journal. She received her undergraduate degree *cum laude* in Finance and Economics, also from Baylor University.

144. Since joining Gray Reed in 2012, Lydia has specialized in federal practice and procedure, primarily in the area of corporate restructuring and bankruptcy. Lydia was named a Rising Star by Texas Super Lawyers in 2018.

23. Mary Ann Zaki

145. Maryann Zaki earned her B.A. in International Relations from Boston University in 2008. She is also a graduate of the University of Houston Law Center, where she graduated *cum laude*, and was inducted into Order of the Barons. While in law school, Maryann was named Candidate of the Year of the Houston Journal of Health Law & Policy, and served as Senior Articles Editor. Maryann also interned for the Honorable United States District Judge Gray Miller during her final year of law school.

146. Maryann's practice at Gray Reed focused on general litigation matters. She left Gray Reed in 2015 and now works at the law firm of Morgan, Lewis & Bockius, LLP, in Houston, Texas.

D. PARALEGALS AND ADDITIONAL STAFF

1. Elayne Cameau

147. Elayne Cameau is a paralegal with 13 years of experience and a B.S. in Legal Studies from Kaplan University.

2. Beth Cook

148. Beth Cook is a paralegal in the litigation section of Gray Reed in Dallas. Her background includes over 25 years of experience as a legal assistant and paralegal handling a variety of matters including commercial and civil litigation. She has prior experience with family law, employment law and probate law as well.

149. Beth's current work includes all stages of pretrial and trial preparation including document production and review, preparation and assisting with trials, depositions and hearings; summary of depositions, records acquisition, summary of medical, billing and employment records; Pacer, Westlaw and Secretary of State research and client communications.

150. Prior to becoming a paralegal, Beth worked as a Legal Assistant at Gray Reed from 2005 to 2011.

3. Chris Donaldson

151. Chris Donaldson is a paralegal with 13 years of experience working for numerous law firms.

152. Chris has dealt with e-discovery and complex trial litigation support since 2010, working on numerous trials and disputes.

4. Leah Hart

153. Leah Hart was a paralegal at Gray Reed who worked on matters including commercial litigation, civil litigation, and class action lawsuits.

154. Leah retired from her work at Gray Reed in 2017.

5. Lan Lam

155. Lan Lam is a PACE Registered Paralegal® since 2012. She received her B.A.A.S. with an emphasis on Legal Information Management from the University of North Texas in 2006 and received her Paralegal Certificate from Dallas County Community College in 2002.

156. She has 17 years of experience in the legal industry with 7 years as a legal secretary, 10 years as a litigation paralegal and has assisted in more than 5 trials and arbitrations.

6. Casey Lindsey

157. Casey was a paralegal at Gray Reed who had seven years of experience in family law-related matters.

158. Casey left Gray Reed in 2017 to pursue other employment opportunities.

7. Clark Patterson

159. Clark D. Patterson received a B.S. in Criminal Justice from the University of Wisconsin – Milwaukee in 1984. Clark obtained his paralegal certification in 1987 from Southeastern Paralegal Institute in Dallas.

160. He worked for the Attorney General's Office as a Child Support Enforcement Agent between 1988 and 1990. He has over 30 years of experience as a paralegal working in the areas of Intellectual Property, Commercial Litigation, Labor and Employment and Bankruptcy. He has assisted in more than 15 trials, Arbitrations and Mediations.

8. Paul Savoy

161. Paul Savoy serves as Manager of Litigation Support. During his 24-year legal career as a Litigation Paralegal, Paul has developed expertise with litigation support, case management and extensive trial work (70+ trials). In the last seven years, he has focused on all aspects of the Electronic Discovery Reference Model (EDRM) from data identification, early case assessment, processing, review, production and presentation. Paul is a member of the Association of Certified E-Discovery Specialists (ACEDS) and CEDS Certified.

9. Jill Wall

162. After previous employment as a paralegal working in municipal utility districts/bonds and litigation, Jill brings 25 years of paralegal experience to Gray Reed in Houston. Her responsibilities include: assisting attorneys in all aspects of trial preparation from the initial stage of discovery; maintaining and analyzing large amounts of data; utilizing concordance to final stages of trial by creating video deposition clips, electronic exhibits and demonstratives utilizing PowerPoint, Sanction and Trial Director, and running such programs at trial.

GENERAL OVERVIEW

163. I, and Gray Reed lawyers, paralegals and staff under my supervision, participated in all aspects of this litigation from the initial factual and legal investigation, through the drafting and filing of initial complaints, motion practice, discovery, pre-trial, trial and settlement.

164. As appointed by this Court, I served as one of 4 Co-Lead Counsel in these MDL proceedings, and then later as one of 4 class counsel for a nationwide and 8 state classes certified by this Court. During the course of this litigation, I regularly conferred with my Co-Lead Counsel regarding all aspects of the development and prosecution of these cases, attended all status conferences and hearings when all Co-Lead Counsel's attendance was required, and participated in the June 2017 trial of Kansas state class claims which resulted in a $217.7 million verdict and

judgment for the Plaintiffs. My partner Drew York was involved in all phases of the litigation, and regularly conferred and coordinated with his counterparts at each of the firms for the other Co-Lead Counsel. Mr. York and I regularly and throughout the litigation communicated and coordinated with other plaintiffs' counsel as well, including counsel appearing in the parallel Minnesota state court and Southern District of Illinois federal court proceedings, and counsel serving as members of the Executive Committee appointed by this Court. The legal and factual complexity of the case required the extensive coordination with Co-Lead Counsel and other plaintiffs' counsel. This case has been the most factually and legally complex piece of litigation I have handled during my over 40 year career.

165. I understand that Pat Stueve's declaration provides a chronological overview of this litigation and describes much of the common benefit work performed jointly by Co-Lead Counsel. In the sections of this Declaration which follow, and in support of our fee application, I supplement Mr. Stueve's declaration with descriptions of common benefit work that Gray Reed handled or coordinated. The following paragraphs summarize the work performed by Gray Reed timekeepers at each stage in the litigation both before and after the leadership appointment, and provide more detail on the key areas of Gray Reed's and my involvement in the institution, prosecution and settlement of these cases. I have made an effort to mention instances where Gray Reed attorneys, including myself, collaborated with attorneys from other firms. This by no means is an exhaustive summary of those collaborative efforts. The bulk of the work performed on behalf of all of the plaintiffs in this litigation was a team effort that produced far better work product than any one lawyer, or one firm, could have produced on its own.

GRAY REED'S INITIAL INVOLVEMENT AND FILINGS IN THE SYNGENTA CORN LITIGATION

166. In the fall of 2014, several of Gray Reed's clients in the LLRICE Litigation also grew corn or participated in other aspects of the corn market. They, and others with whom we communicated, expressed interest in the allegations made against Syngenta and wanted to determine if they had been damaged, or were continuing to experience damage, as a result of Syngenta's marketing of Agrisure Viptera and Duracade without key market approvals, including China's.

167. I worked at length in the LLRICE Litigation with Don Downing ("Downing"), of Gray Ritter & Graham, P.C. ("Gray Ritter"), as well as Scott Powell ("Powell"), of Hare Wynn Newell & Newton, LLP ("Hare Wynn"). Downing and Powell are talented, trustworthy, hard-working lawyers. Additionally, they both have a number of partners and associates at their firms who are brilliant legal minds. I spoke to Downing and Powell not long after I was contacted by several of the firm's clients about potential claims against Syngenta. Because we had worked well together in the LLRICE Litigation, Downing, Powell and I agreed early on that our firms should work together in this litigation. We then contacted Patrick Stueve ("Stueve") of Stueve Siegel Hanson, in Kansas City, Missouri ("Stueve Siegel"), whom he had known for many years beginning when they worked together at the law firm now known as Stinson Leonard Street. The four of us agreed that our firms should work together to prosecute this litigation on behalf of our clients.

168. I, along with others from Gray Reed, worked with Downing, Powell and Stueve, as well as members of each of their firms, to research the facts and applicable law arising from Syngenta's premature marketing of its Agrisure Viptera and Duracade seeds. Those investigations and research culminated in the drafting and filing in November 2014 of two class action lawsuits

on behalf of corn producers from 10 states against Syngenta. Those actions were filed in the United States District Courts for the Eastern District of Missouri and the District of Kansas, styled *Wilson Farm, Inc., et al v. Syngenta AG, et al*, No. 4:14-cv-0198, E.D. Mo. (filed November 11, 2014, on behalf of producers from the states of Alabama, Arkansas, Illinois, Iowa, Louisiana, Minnesota and Missouri) and *Five Star Farms, et al v. Syngenta AG, et al*, No. 2:14-cv-0257, D. Kan. (filed on November 11, 2014, on behalf of producers from the states of Kansas, Nebraska and South Dakota). Both the *Wilson Farm* and *Five Star Farms* cases asserted statewide, common law and statutory class claims, as well as claims on behalf of a nationwide class of corn producers under the Lanham Act.

169. The factual and legal research undertaken prior to the filing of the *Five Star Farms* and *Wilson Farms* complaints included investigation of the then publicly available facts regarding Syngenta's development, U.S. approval, and marketing of the Agrisure Viptera and Duracade seeds, as well as the then unsuccessful efforts by Syngenta to obtain approval from key markets, including China. We also investigated the facts, allegations and proceedings in a 2011 lawsuit filed by Syngenta Seeds, Inc. against Bunge North America, Inc., *Syngenta Seeds, Inc. v. Bunge North America, Inc*, No. 5:11-cv-04074, in the United States District Court for the Northern District of Iowa (the "Bunge Litigation"). Several Gray Reed lawyers assisted me in these initial efforts to investigate and research the claims against Syngenta. Those lawyers included Drew York, who had worked extensively on the LLRICE Litigation with me, Carol Wilhelm, who had background and experience with Lanham Act issues, associates Alex Fuller, Russell Jumper, Skyler Stuckey, and paralegal Leah Hart, who had also worked with me on the LLRICE Litigation. We coordinated our investigation and research with lawyers at Gray Ritter, Hare Wynn and Stueve Siegel, most specifically including Gretchen Garrison of Gray Ritter. We also reviewed several

draft versions of the complaints, and provided suggested edits and comments to those who were leading the drafting effort.

170. On behalf of the plaintiffs in the *Five Star Farms* and *Wilson Farm* actions, Downing, Powell, Stueve and I sought transfer by the Judicial Panel on Multidistrict Litigation ("JPML") of the federal litigations filed against Syngenta for pretrial proceedings to either the Eastern District of Missouri or, alternatively, the District of Kansas. Downing made our group's presentation to the JPML at a hearing held in Charleston, South Carolina, which Powell, Stueve and I attended. On December 11, 2014, the JPML consolidated for pretrial purposes under 28 U.S.C. § 1407 the federal litigation against Syngenta and transferred those cases to this Court.

171. On December 18, 2014, we amended the *Five Star Farms* and *Wilson Farm* lawsuits and added producer plaintiffs asserting class claims on behalf of producers from 9 additional states: Colorado, North Dakota and Oklahoma to the *Five Star Farms* action and Indiana, Kentucky, Michigan, Mississippi, Tennessee and Wisconsin to the *Wilson Farm* action.

172. With the assistance of other Gray Reed lawyers, as well as counsel in Louisiana, Ohio, and North Carolina, I arranged for the filing of similar class action lawsuits on behalf of producers in federal and state courts in those states. Additionally, we filed a case on behalf of a producer from Texas. The Louisiana, Ohio, North Carolina, and Texas filings were the following: (i) *Clark Hill Farms, et al v. Syngenta AG, et al*, No. 2014-000220, 6th Judicial District Court, Madison Parish, Louisiana (November 18, 2014), removed to the United States District Court for the Western District of Louisiana, No. 3:14-cv-03482 (December 19, 2014); (ii) *Kaffenbarger Farms v. Syngenta AG, et al*, No. 3:15-cv-00022, in the United Stated District Court for the Southern District of Ohio (January 22, 2015);; (iii) *Jack H. Winslow Farms, Inc., et al v. Syngenta AG, et al*, No. 4:15-cv-00016, in the United States District Court for the Eastern District of North

Carolina (January 21, 2015); and (iv) *Hahn v. Syngenta AG, et al*, No. 6:15-cv-00013, in the United States District Court for the Western District of Texas (January 21, 2015). Syngenta removed the *Clark Hill* case to federal court asserting as grounds for removal both diversity of citizenship jurisdiction as well as federal question jurisdiction under the Federal Common Law of Foreign Relations. Each of the *Kaffenbarger, Winslow, Hahn* and *Clark Hill* (after its removal) lawsuits were transferred to this Court under 28 U.S.C. § 1407.

173. With the amendments to the *Five Star Farms* and *Wilson Farm* complaints, as well as the filing of the *Kaffenbarger, Winslow, Hahn* and *Clark Hill* lawsuits, Gray Reed, Gray Ritter, Hare Wynn and Stueve Siegel, had initiated class actions asserting state law claims on behalf producers from 22 states as well as nationwide class claims under the Lanham Act. Based upon our research, the corn production from these 22 states represented in excess of 90% of the total corn production in the United States. As demonstrated below, the actions filed by our firms formed the basis of the later allegations made in the master complaints filed in this MDL proceeding.

LEADERSHIP APPOINTMENT

174. On December 22, 2014, this Court entered a Preliminary Practice and Procedure Order, setting an initial status conference on January 21, 2015. (ECF No. 2). Paragraph 6 of that Preliminary Practice and Procedure Order also required the Plaintiffs and Syngenta to submit a letter to the Court on or before January 16, 2015, summarizing the legal and factual issues raised by the claims asserted in these cases. I took a leading role in the coordination of the drafting, revision and finalization of the Plaintiffs' summary. In that effort, I worked closely with other Plaintiffs' lawyers, including those representing non-producers such as ADM and Cargill, as well as lawyers representing producer plaintiffs other than those represented by Gray Reed, Gray Ritter, Hare Wynn and Stueve Siegel in the cases we had filed.

175. Following submissions and hearing argument at the January 21, 2015 status conference, the Court appointed Downing, Powell, Stueve and me as Co-Lead Counsel (hereinafter and collectively, "Co-Lead Counsel"). The Court also appointed Downing as Interim Class Counsel and Stueve as Liaison Counsel. (ECF No. 67).

176. Soon after my appointment as one of the Co-Lead Counsel, the Court scheduled a Status Conference for February 3, 2015. I worked with the other Co-Lead Counsel in preparation for this Status Conference and attended that conference. Thereafter, on February 4, 2015, the Court entered Scheduling Order No. 1 establishing established deadlines related to: cases seeking remand to state court, the filing of consolidated amended complaints, and the filing of Rule 12(b)(6) motions to dismiss. (ECF No. 123).

177. Soon after the Court issued its leadership order, the Co-Lead Counsel divided up work responsibilities.

SYNGENTA'S REMOVAL OF STATE COURT CASES, INCLUDING THOSE FILED BY ADM AND CARGILL

178. Early in the litigation, Syngenta not only removed the *Clark Hill* case that we had filed in Louisiana, but also began removing hundreds of cases originally filed in state courts across the country on the basis of the Federal Common Law of Foreign Relations. (*See, e.g.,* ECF No. 283-1.) These removals included lawsuits separately filed by Cargill and ADM in Louisiana state courts.

179. Together with the other Co-Lead Counsel and members of their firms, I worked with counsel for these removed cases, including counsel for Cargill and ADM, in drafting a motion to remand these cases back to state court. Although we did not oppose removal of the *Clark Hill* case on diversity of citizenship grounds, we did join in the opposition to removals based upon the Federal Common Law of Foreign Relations.

180. On March 2, 2015, Co-Lead Counsel and the parties whose cases Syngenta had removed based on the Federal Common Law of Foreign Relations finalized and filed the motion and memorandum in support seeking to remand all of the cases that Syngenta had removed on this basis. (ECF Nos. 283-84).

181. On May 5, 2015, the Court granted the motion to remand, finding that the Federal Common Law of Foreign Relations did not give rise to federal question jurisdiction under 28 U.S.C. § 1331. (ECF No. 395). The *Clark Hill* case, however, was not among the cases remanded and remained pending in this Court based upon the alternate, diversity of citizenship grounds for its removal that we had not opposed.

PREPARATION AND FILING OF MASTER AND AMENDED MASTER CLASS ACTION PRODUCER AND NON-PRODUCER COMPLAINTS

182. In its February 4, 2015, Scheduling Order No. 1, the Court set March 13, 2015, as the deadline for the filing of "consolidated amended complaints." (ECF No. 123 at 3). Lawyers at Gray Reed, including Drew York, Alex Fuller, Russell Jumper and me, assisted Co-Lead Counsel and members of their firms in drafting portions of the Producers' and Non-Producers' Class Action Master Complaints filed on March 13, 2015 (ECF No. 296, 297). We reviewed, edited, and commented on several drafts of those complaints. The March 13, 2015 master class action complaints followed the allegations made the basis of the claims made by Co-Lead Counsel in the *Five Star Farms, Wilson Farm, Clark Hill Farms, Kaffenbarger Farms, Jack H. Winslow Farms* and *Hahn* cases.

183. Additionally, in working on the Non-Producer Class Action Master Complaint, I and Mr. York worked with not only Co-Lead Counsel, including Gretchen Garrison and Jason Sapp of Gray Ritter, but also coordinated and communicated with counsel for the named, non-producer plaintiffs, Trans Coastal Supply Company, Inc. ("Trans Coastal"), Winnsboro Elevator

("Winnsboro"), and Rail Transfer, Inc ("Rail Transfer") regarding the drafting and filing of the Non-Producer Class Action Master Complaint. Like the Producer Master Complaint, Mr. York and I reviewed, edited and commented on multiple drafts of the Non-Producer Class Action Master Complaint.

184. After the March 13, 2015 filing of the Producers' and Non-Producers' Master Class Action Complaints, Syngenta produced the documents and other materials, including deposition transcripts from, the *Bunge Litigation* as required by the Court's February 4, 2015, order. Gray Reed lawyers, including Russell Jumper, Alex Fuller, Drew York and I participated in the review of those materials. Mr. York and I also assisted in the drafting of the amended master class complaints filed on May 29, 2015, (ECF Nos. 450, 451). Our assistance again included the review, editing, and commenting on multiple drafts of both complaints. As we had done with the original Non-Producer Class Action Master Complaint, we coordinated, together with other Co-Lead Counsel and members of their firms, including specifically Gretchen Garrison and Jason Sapp with Gray Ritter, with counsel for Trans Coastal, Winnsboro and Rail Transfer in the drafting of the Amended Non-Producer Class Action Master Complaint, as well as counsel for a newly added Non-Producer Class Representative, Express Grain Terminal, LLC ("Express Grain"). Gray Reed also worked with Ms. Garrison and Scott Poynter to draft the Milo Producers' Class Action Master Complaint also filed on that date. (ECF No. 452).

185. Throughout the course of the preparation and filing of the *Five Star Farms*, *Winslow Farm*, and master complaints (including the amendments thereto), Mr. York, Mr. Fuller, and Mr. Jumper researched various legal issues in certain states that were being considered for inclusion. Those issues included whether the states recognized causes of action for public nuisance, private nuisance, trespass to chattels, trespass to land, and tortious interference, as well

as the elements necessary to support each cause of action. They also researched whether each state recognized the economic loss doctrine, and if so, the scope of the same. Finally, they assisted in researching the availability, and standard for, punitive damages in certain states. Ms. Wilhelm also researched issues associated with the Lanham Act claim. They also updated their research throughout the course of the litigation as each iteration of the complaints containing these claims was being prepared for filing.

186. After the May 29, 2015 filings, Mr. York, at the request of Co-Lead Counsel, retained the firms that translated and served those complaints upon Syngenta's foreign-based defendants under the Hague Convention. During the course of this litigation, a number of counsel for Producer and Non-Producer Plaintiffs contacted Co-Lead Counsel and requested assistance to serve the Syngenta foreign-based defendants. Those counsel were directed to Mr. York in those instances for assistance. Ultimately, we proposed and the Court entered an Order Relating to Consolidated pleadings that provided all plaintiffs with the ability to piggyback off our service under the Hague Convention saving those plaintiffs substantiated trial and expense.

STATE COURT CLASS ACTION COMPLAINTS

187. Drew York, in consultation with Chris Randolph from Hare Wynn, coordinated the filing of class action complaints in state courts on behalf of producer plaintiffs in states where the applicable statutes of limitation might arguably be two, three, or four years. As part of that effort, Alex Moore (Twiss) and Lydia Webb performed additional research and then provided an analysis of the respective state statutes of limitation. Based on that research, Mr. York, Ms. Moore and Mr. Randolph divided responsibilities each year and identified potential class representatives from the applicable states who had retained the co-lead firms. Mr. York, Ms. Moore and Mr. Randolph then drafted the state court class action complaints and coordinated with local counsel to assist in the filing of those complaints. I also assisted with the preparation, coordination and filing of state

court complaints in some states that arguably had two-year statutes of limitations. Among others, Gray Reed attorneys worked to file state court class action complaints in Colorado, Illinois, Indiana, Iowa, Kansas, Mississippi, North Carolina, Ohio, Oklahoma, Texas, and Wisconsin.

SYNGENTA'S MOTIONS TO DISMISS

188. On June 19, 2015, Syngenta filed their Motion to Dismiss the Producer and Non-Producer Plaintiffs' Amended Class Action Master Complaints (ECF No. 856) and memorandum in support (ECF No. 857).

189. Lawyers at Gray Reed reviewed and assisted with various portions of the opposition to Syngenta's Motion to Dismiss. Skyler Stuckey, Alex Moore (Twiss) and I principally focused on responding to Syngenta's arguments seeking dismissal of Plaintiffs' Lanham Act claims. In doing so, I coordinated not only with Co-Lead Counsel, but also with counsel for Trans Coastal in fashioning the arguments opposing dismissal of the Lanham Act claims. Although the Court did narrow the scope of the Lanham Act claims, it did not dismiss that claim upon Syngenta's motion to dismiss. Additionally, Mr. York and I reviewed, edited and commented on other sections of the response to those attorneys taking the lead with drafting the response.

190. Mr. York and I also attended the hearing on the Motion to Dismiss in Kansas City. We also joined lawyers from the other Co-Lead Counsel firms in Kansas City for approximately two days before the hearing to prepare.

SYNGENTA'S COUNTERCLAIMS AND THIRD PARTY CLAIMS

191. In response to Syngenta's Counterclaims and Third Party Claims filed on November 19, 2015, and December 3, 2015, I coordinated and communicated with counsel for the Non-Producer class representatives. In particular, I worked with and assisted counsel for these parties in the coordinated efforts by Co-Lead Counsel and Counsel for ADM and Cargill, to seek, and obtain, dismissal of the Counter and Third-Party Claims.

BELLWETHER DISCOVERY POOL SELECTION

192. In response to the Court's order establishing Producer and Non-Producer bellwether pools, I worked with the other Co-Lead Counsel and lawyers from the executive committee to identify the states most desirable to include in the Producer Plaintiff bellwether discovery pool, and to assess the viability of potential candidates from those states. Additionally, I took the lead, in coordination with the other Co-Lead Counsel, to discuss with counsel for Non-Producer Plaintiffs the Court's order and impact on their claims.

193. The parties selected the eight bellwether states for the Producer Plaintiffs on November 12, 2015. One week later, the parties made their bellwether plaintiff selections. Among other things, during this time I contacted Alan Embree to discuss whether a particular plaintiff from South Dakota would be willing to serve as a bellwether plaintiff.

194. During the course of the litigation after those selections were made, some bellwether selections had to be replaced. I coordinated with the other Co-Lead Counsel and other attorneys representing those bellwether plaintiffs to discuss those issues. In a few instances, we elected to not choose a replacement bellwether plaintiff.

BELLWETHER POOL JURISDICTION AND VENUE DISPUTE

195. After the Court informed both sides that the Kansas class would be in the first bellwether trial, the Court invited the parties to meet and confer, and then submit briefing on how the trials for the remaining bellwether classes should be conducted, including the Nationwide class. During the course of the meet and confer process, a dispute arose between Plaintiffs and Syngenta concerning where the trials of the remaining bellwether state classes would be held. Syngenta contended those state classes should be remanded back to their home states for trial. Plaintiffs argued that those state classes should be tried in Kansas, and that Syngenta had waived any defense to jurisdiction or venue in Kansas for those states by failing to assert that defense in their initial

responsive pleading to the operative complaints. Mr. York and I took the lead on drafting those arguments for Plaintiffs. Ultimately, the Court agreed that Syngenta waived those defenses and determined the classes would be tried in Kansas, and that the Nationwide class claims would be tried in conjunction with the Kansas class.

FACT DISCOVERY

196. Gray Reed participated in all phases of written, fact discovery in this case. In particular, work by Gray Reed lawyers on written discovery matters included the following:

A. WRITTEN DISCOVERY TO SYNGENTA AND THIRD PARTIES

197. Mr. York and I assisted Jason Earley with written discovery to Syngenta. Specifically, we reviewed, edited and commented on multiple drafts of the requests for production, interrogatories, and requests for admission that were ultimately served on the various Syngenta defendants.

198. I also assisted Jason Early in the initial drafts of document production requests to Third-Party trade organizations such as the National Corn Growers Association ("NCGA"), the American Seed Trade Association ("ASTA"), the National Grain and Feed Association ("NGFA"), the BioTechnology Industry Organization ("BIO"), and the US Grains Council ("USG"). I had personally met with counsel or representatives of several of these organizations prior to the drafting and service of subpoenas, and had previously worked with trade organizations such as the US Rice Federation in the LLRICE Litigation. Skyler Stuckey of Gray Reed provided substantial assistance to me in these efforts. I then followed up with the initial contact with counsel for these organizations regarding their compliance with the subpoenas.

B. DOCUMENT REVIEW

199. Because of his involvement in the LLRICE Litigation's document review process, Co-Lead Counsel asked Mr. York to coordinate and oversee the document review team in this

litigation. Together with Jason Earley from Hare Wynn, Mr. York prepared the document review protocol to guide the lawyers from a number of firms that would be reviewing the documents produced by Syngenta, ADM, Cargill, other Non-Producer Plaintiffs, and third parties. The protocol identified issues that document reviewers should be looking for when reviewing documents. It also contained a list of issue codes that document reviewers were supposed to apply when reviewing the documents.

200. Mr. York, Skyler Stuckey, and Russell Jumper assisted with the first-round review and coding of Syngenta's document production. That first round of review initially took place over five days in Kansas City. The first-round document review team – including lawyers from other Co-Lead and executive committee firms – flagged thousands of documents as "hot." Mr. York and Mr. Earley reviewed those documents and coordinated a summary of key events to begin preparation for depositions of Syngenta witnesses.

201. Ultimately, Mr. Stuckey, Mr. Jumper and Marcus Fettinger (among others), reviewed and coded Syngenta's document production and third party documents produced in response to Plaintiffs' requests for production to Syngenta and subpoenas to third parties. These document reviews occurred on multiple occasions throughout the litigation as Syngenta and third parties produced more documents in discovery. Gray Reed attorneys reviewed documents in Kansas City at Stueve Siegel's offices and at Gray Reed's offices in Dallas, Texas. Additionally, paralegal Leah Hart reviewed and coded producer stewardship agreements produced by Syngenta that Stueve Siegel assigned to her for review.

C. WRITTEN DISCOVERY TO PRODUCER AND NON-PRODUCER PLAINTIFFS

1. Gray Reed's Work with Producer Plaintiffs; Efforts to Collect the Information and Documents Syngenta Sought

202. Throughout discovery, Gray Reed worked directly with the following producer class representatives: Martin Petska (Nebraska), Greg Kaffenbarger (Ohio), Scott Haerr (Ohio), Alan Pedersen (Iowa) and Charles Lex (Iowa).

203. Each of these plaintiffs were required to: (i) provide a plaintiff fact sheet; (ii) respond to Syngenta's First Set of Requests for Production; (iii) respond to Syngenta's Second Set of Requests for Production; (iv) respond to three different sets of interrogatories served by three different Syngenta entities; (v) respond to Syngenta's First Set of Requests for Admission; and (vi) appear for a deposition. Gray Reed attorneys provided assistance to these plaintiffs at each stage.

204. Beginning in late winter of 2015, Mr. York and I began contacting each of these class representatives to discuss the plaintiff fact sheets ordered by the Court. We assisted them in obtaining some of the requested information from their local USDA Farm Service Agency (FSA) office, their crop insurance agent, seed dealer, grain elevator, or other buyer of their grain. In some instances our firm would contact those third parties on behalf of the plaintiff to obtain the requested information. Leah Hart, Alex Moore (Twiss) and Drew York were primarily responsible for contacting those third parties in those instances. During the course of the litigation, we also amended each class representative plaintiff's fact sheet to provide acreage for additional corresponding years. Throughout this process, we coordinated with Mr. Randolph at Hare Wynn and uploaded the completed PFS forms, or amendments, to the online portal maintained by Hare Wynn.

205. Syngenta served its First Set of Requests for Production on August 17, 2015. This set of discovery requests included 27 document requests. Working in coordination with Hare Wynn's Chris Randolph, Mr. York, Ms. Moore and I prepared the formal objections and responses to the requests for each of these plaintiffs. We also conferred directly with each of these plaintiffs about their responsibilities to produce the responsive documents that they could find during a diligent search of their files, and the need to contact third parties for whom they had control over the right to obtain documents that might otherwise be responsive. We also discussed with each plaintiff whether they had an email account that they used for their farming operation, and where appropriate, coordinated with Hare Wynn to access that email account to run searches for responsive documents.

206. The document collection process required a considerable amount of time and resources to complete, as well as close collaboration between Gray Reed, plaintiffs, and in some instances the plaintiffs' accountants, banks, the FSA offices, and the plaintiffs' grain elevators or ethanol plants. Collection of documents during the fall of 2015 was complicated by the fact that many of these producer plaintiffs, like others across the country, were at that time working long hours harvesting their crops.

207. Once the documents were collected, Mr. York, Ms. Moore and Ms. Hart divided responsibilities to review them to ensure that no privileged documents were produced.

208. In November 2015 Syngenta served its Second Set of Requests for Production. This set included 70 document requests. Once again, in coordination with Hare Wynn's Chris Randolph, Mr. York, Ms. Moore and I prepared the formal objections and responses to the requests for each of these plaintiffs. Mr. York, Ms. Moore, Ms. Hart and I contacted the plaintiffs directly

to discuss the requests and coordinate production of any responsive documents that had not already been produced.

209. Syngenta served three sets of interrogatories in late February 2016. The three sets comprised 56 separate interrogatories, not counting discrete subparts. Mr. York and Ms. Moore coordinated with Mr. Randolph and with Rachel Schwartz from Stueve Siegel concerning potential objections that might be lodged in response. Mr. York and Ms. Moore then worked with each of these plaintiffs to prepare the formal responses to the interrogatories.

210. In March 2016 Syngenta served its First Set of Requests for Admission comprising 98 separate requests. Again working in coordination with Chris Randolph, Mr. York identified potential objections to certain requests, as well as potential responses based on the wording of certain requests. Mr. York and Ms. Moore then worked directly with these plaintiffs to prepare formal responses to the requests for admission.

211. In May 2016, Mr. Randolph forwarded to the Co-Lead Counsel firms as well as other firms responsible for handling plaintiff written discovery an 88-page, single-spaced letter from Syngenta's counsel identifying alleged deficiencies in the plaintiffs' interrogatory and request for admission responses. Mr. York reviewed the letter, as well as the interrogatory and request for admission responses, with respect to the plaintiffs Gray Reed was directly responsible for. Mr. York identified those alleged deficiencies that he disputed, as well as others he thought arguably had merit. Mr. York then worked with Ms. Moore to obtain additional information, where appropriate, to respond to those arguably meritorious deficiencies. Mr. York and Ms. Moore then worked to prepare supplemental or amended responses where appropriate and discussed those outstanding issues with Mr. Randolph and the plaintiffs on numerous occasions.

212. In July 2016, Mr. Randolph forwarded a second letter from Syngenta's counsel. Just as they had done in responding to the May 2016 letter, Mr. York and Ms. Moore performed the same process for the plaintiffs that Gray Reed was responsible for.

213. Martin Petska was selected and agreed to serve as a Nebraska class representative. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. Mr. Petska was also required to produce personal financial information. He conducted an extensive search of his records, both hard copy and electronic, that were kept at his home and his office to collect responsive documents. He also requested responsive documents from his bank, the FSA county offices that oversee the land he farms, his crop insurance agent, and the grain elevator that regularly purchases some of his corn. Mr. Petska also authorized some of these third parties to release copies of responsive records to Gray Reed. Mr. Petska also provided Gray Reed and Hare Wynn with access to his personal email account to obtain any responsive documents. Mr. Petska had to collect many of the documents during harvest season, when he was normally working 17 hours per day in his fields. All told, Mr. Petska produced more than 6,400 pages of documents to Syngenta. Mr. York and I spoke to Mr. Petska more than ten times in the fall and winter of 2015-16 regarding the collection of documents and also exchanged at least 175 emails during the course of this litigation. We both also spoke to Mr. Petska on many other occasions about the status of the litigation. Mr. Petska estimates that he spent 258 hours collecting documents requested by Syngenta. Based on Gray Reed's records and my and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Mr. Petska, this estimate is reasonable. Mr. Petska also responded to Syngenta's three sets of Interrogatories and 98 Requests for Admission. As noted in more detail below, Mr. Petska also sat for a full-day

deposition and met with Mr. York and me on different occasions to prepare for the deposition. Mr. Petska was also willing, if necessary, to travel from Ord, Nebraska to Kansas City to attend a multi-week trial.

214. Kaffenbarger Farms, Inc. was selected and agreed to serve as an Ohio class representative. Greg Kaffenbarger, who owns and operates Kaffenbarger Farms, assumed responsibility for collecting documents. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. Mr. Kaffenbarger was also required to produce personal financial information. He conducted an extensive search of his records, both hard copy and electronic, that were kept at his home and his office to collect responsive documents. He also requested responsive documents from his bank, the FSA county offices that oversee the land he farms, his crop insurance agent, and the multiple grain elevators that regularly purchases his crops. Mr. Kaffenbarger also authorized some of these third parties to release copies of responsive records to Gray Reed. Mr. Kaffenbarger had to collect many of the documents during harvest season, when he was normally working 16 hours per day in his fields. All told, Mr. Kaffenbarger produced almost 900 pages of documents to Syngenta. Mr. York and I spoke to Mr. Kaffenbarger directly or indirectly through Greg Flax, who also represented Mr. Kaffenbarger, more than ten times in the fall and winter of 2015-16 regarding the collection of documents. We both also spoke to Mr. Kaffenbarger on many other occasions about the status of the litigation. Mr. Kaffenbarger estimates that he spent 50 hours collecting documents requested by Syngenta. Based on Gray Reed's records and my and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Mr. Kaffenbarger, this estimate is reasonable. Mr. Kaffenbarger also responded to Syngenta's three sets of Interrogatories and 98

Requests for Admission. As noted in more detail below, Mr. Kaffenbarger also sat for a full-day deposition and met with me to prepare for the deposition. Mr. Kaffenbarger was also willing, if necessary, to travel from Ohio to Kansas City to attend a multi-week trial.

215. Haerr Grain Farms, Three H Farms, LLC, and HGF Irrigated were selected and agreed to serve as Ohio class representatives. These entities are owned jointly by Richard A. Haerr and Richard S. "Scott" Haerr. Scott assumed responsibility for collecting documents. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. Scott was also required to produce financial information for all three entities. He conducted an extensive search of his records, both hard copy and electronic, that were kept at his home and his office to collect responsive documents. He also requested responsive documents from the FSA county offices that oversee the land he farms, his crop insurance agent, seed dealer and the grain elevator that regularly purchases some of his corn. Scott also authorized some of these third parties to release copies of responsive records to Gray Reed. Scott had to collect many of the documents during harvest season, when he was normally working at least 15 hours per day in his fields. The document production and collection efforts were done on multiple occasions. All told, the three entities collectively produced over 8,000 pages of documents to Syngenta. Mr. York, Greg Flax (who also represented Mr. Haerr's entities) and I spoke to Scott more than ten times in the fall and winter of 2015-16 regarding the collection of documents. We also spoke to Scott on many other occasions about the status of the litigation. Scott estimates that he spent 85 hours collecting documents requested by Syngenta for all three entities. Based on Gray Reed's records and my and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Scott, this estimate is reasonable. Scott also responded to Syngenta's

three sets of Interrogatories and 98 Requests for Admission for each entity. As noted in more detail below, Scott also sat for a full day of three successive corporate representative depositions on behalf of each entity. He also met with me to prepare for the depositions. Scott was also willing, if necessary, to travel from Ohio to Kansas City to attend a multi-week trial.

216. Alan Pedersen was selected and agreed to serve as an Iowa class representative. Alan and his wife LaRae farm in their individual capacities. Alan assumed responsibility for collecting documents about their farming operation. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. Mr. Pedersen was also required to produce personal financial information. He conducted an extensive search of his records, both hard copy and electronic, that were kept at his home and his office to collect responsive documents. He also requested responsive documents from his bank, the FSA county offices that oversee the land he farms, his crop insurance agent, and the grain elevator that regularly purchases his corn. Mr. Pedersen also authorized some of these third parties to release copies of responsive records to Gray Reed, including specifically from his local FSA office. Mr. Pedersen had to collect many of the documents during harvest season, when he was normally working 12-14 hours per day in his fields. All told, Mr. Pedersen produced almost 800 pages of documents to Syngenta. Mr. York and I spoke to Mr. Pedersen more than five times in the fall and winter of 2015-16 regarding the collection of documents. We both also spoke to Mr. Pedersen on many other occasions about the status of the litigation. Mr. Pedersen estimates that he spent 20-25 hours collecting documents requested by Syngenta. Based on Gray Reed's records and my and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Mr. Pedersen, this estimate is reasonable. Mr. Pedersen also responded to Syngenta's three sets

of Interrogatories and 98 Requests for Admission. As noted in more detail below, Mr. Pedersen also sat for a full-day deposition and met with Mr. York on two separate occasions to prepare for the deposition. Mr. Pedersen traveled from Humboldt, Iowa to West Des Moines, Iowa for the deposition. It is approximately 120 miles from Humboldt to West Des Moines. Mr. Pedersen was also willing, if necessary, to travel from Humboldt to Kansas City to attend a multi-week trial.

217. Charles Lex selected and agreed to serve as an Iowa class representative. Mr. Lex, who owns land that is farmed by another Iowa farmer, assumed responsibility for collecting documents. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. Mr. Lex was also required to produce financial information about his farming operation. He conducted an extensive search of his records, both hard copy and electronic, that were kept at his home and his office to collect responsive documents. Mr. Lex sometimes requested that his business assistant, Cheryl Sutton, gather and provide responsive financial documents. He also requested, or authorized Cheryl Sutton to request, responsive documents from his bank, the FSA county offices that oversee the land he farms, his crop insurance agent, and the grain elevator that regularly purchases some of his corn. Mr. Lex also authorized some of these third parties to release copies of responsive records to Gray Reed. All told, Mr. Lex produced almost 350 pages of documents to Syngenta. Mr. York spoke to Mr. Lex and Ms. Sutton more than five times in the fall and winter of 2015-16 regarding the collection of documents. He both also spoke to Mr. Lex on many other occasions about the status of the litigation. Mr. Lex and Ms. Sutton estimate that collectively they spent at least 40 hours collecting documents requested by Syngenta. In some instances, Mr. Lex and Ms. Sutton had to drop everything and search again for additional documents that Syngenta contended Mr. Lex had in

meet and confer processes. Ms. Sutton also made multiple trips to the cooperative and FSA office to retrieve documents. Each trip was at least 75 miles roundtrip, meaning that Ms. Sutton would spend close to a half day gathering those documents. Based on Gray Reed's records and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Mr. Lex and Ms. Sutton, this estimate is reasonable. Mr. Lex also responded to Syngenta's three sets of Interrogatories and 98 Requests for Admission. As noted in more detail below, Mr. Lex also sat for a full-day deposition and met with Mr. York on two occasions to prepare for the deposition. The preparation sessions, as well as the deposition, took place in West Des Moines, Iowa, which was approximately 30 minutes from Mr. Lex's home. Mr. Lex made three roundtrips in association with his deposition. Mr. Lex was also willing, if necessary, to travel from Iowa to Kansas City to attend a multi-week trial.

218. Gray Reed, in conjunction with Lockridge Grindal Nauen ("Lockridge Grindal"), also worked with Steve Lott Farms & Services, Inc., which was a named Michigan class representative. Steve Lott, who owns the corporation, agreed to let his company serve as a class representative. Because Michigan was not among the states selected for the bellwether pool, Steve Lott Farms & Services, Inc., was required to produce a plaintiff fact sheet and respond to Syngenta's First Set of Requests for Production. Mr. Lott also assumed responsibility for collecting documents. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. He conducted an extensive search of his records, both hard copy and electronic, that were kept at his home office to collect responsive documents. He also requested responsive documents from the FSA county office that oversee the land he farms, his crop insurance agent, seed dealer and the grain elevator that regularly purchases his corn. Mr.

Lott had to collect many of the documents during harvest season, when he was normally working 12-14 hours per day in his fields. All told, Mr. Lott produced almost 350 pages of documents to Syngenta. Mr. York spoke to Mr. Lott several times in the fall and winter of 2015-16 regarding the collection of documents. We also understand Mr. Lott spoke to Kelly LeRoy at Lockridge Grindal Nauen multiple times concerning Syngenta's document requests. Mr. York and Ms. LeRoy also spoke to Mr. Lott on other occasions about the status of the litigation. Mr. Lott estimates that he spent 27 hours collecting documents requested by Syngenta. Based on Gray Reed's records and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Mr. Lott and Ms. LeRoy, this estimate is reasonable. Mr. Lott also provided a declaration as part of Plaintiffs' motion for certification of the remaining states, and was willing to travel from Michigan to Kansas City to attend a multi-week trial if necessary.

219. Tim Harvey is a farmer from Minnesota who operates his farming operation as a sole proprietorship. Mr. Harvey was selected and agreed to serve as a class representative for the Minnesota class. Gray Reed, in conjunction with Lockridge Grindal, worked with Mr. Harvey regarding his discovery obligations. Because Minnesota was not selected as one of the bellwether states, Mr. Harvey was only required to produce a plaintiff fact sheet and respond to Syngenta's First Set of Requests for Production. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. He conducted an extensive search of his records, both hard copy and electronic, that were kept at his home and his office to collect responsive documents. He also requested responsive documents from the FSA county office that oversee the land he farms, his crop insurance agent, seed dealer and the grain elevator that regularly purchases his corn. Mr. Harvey had to collect many of the documents during harvest season, when

he was normally working 12-14 hours per day in his fields. All told, Mr. Harvey produced almost 150 pages of documents to Syngenta. We also understand Mr. Harvey spoke to Kelly LeRoy at Lockridge Grindal Nauen on multiple occasions concerning Syngenta's document requests. Mr. York and Ms. LeRoy also spoke to Mr. Harvey on other occasions about the status of the litigation. Mr. Harvey estimates that he spent 30 hours collecting documents requested by Syngenta. Based on Gray Reed's records and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Mr. Harvey, Mr. York and Ms. LeRoy, this estimate is reasonable.

220. Robert Hahn agreed to and was selected to serve as a Texas class representative. Mr. Hahn farms under the assumed name Bull Hide Creek Farms. Some of the land he farms has been in his family for more than 100 years. Gray Reed worked with Mr. Hahn to fulfill his discovery obligations. Because Texas was not selected as one of the bellwether states, Mr. Hahn was only required to produce a plaintiff fact sheet and respond to Syngenta's First Set of Requests for Production. In that capacity, he responded to all of Syngenta's requests for production. Those requests sought documents pertaining to numerous details about his farming operation and other information over lengthy periods of time. He and his wife conducted an extensive search of his records, both hard copy and electronic, that were kept at his home and his office to collect responsive documents. He also requested responsive documents from his FSA county office that oversees the land he farms, his crop insurance agent, and seed dealer. Mr. Hahn even traveled to the seed dealer and FSA office a couple of times each to collect some of these documents. Each roundtrip was between 40 and 60 miles. Mr. Hahn also authorized some of these third parties to release copies of responsive records to Gray Reed. Mr. Hahn had to collect many of the documents during harvest season, when he was normally working 16-18 hours per day in his fields. All told, Mr. Hahn produced almost 480 pages of documents to Syngenta. Mr. York spoke to Mr. Hahn

several times in the fall and winter of 2015-16 regarding the collection of documents. He both also spoke to Mr. Hahn on other occasions about the status of the litigation. Mr. Hahn estimates that he and his wife spent 55-60 hours reviewing Syngenta's requests, combing their files, and collecting documents requested by Syngenta. Based on Gray Reed's records and Mr. York's contemporaneous involvement in those collection efforts, and discussions with Mr. Hahn, this estimate is reasonable. Mr. Hahn also was willing to travel from Texas to Kansas City to attend a multi-week trial if necessary.

2. Gray Reed's Work with Non-Producer Plaintiffs

221. Gray Reed worked directly with counsel for the Non-Producer bellwether plaintiffs in the prosecution of those Non-Producer plaintiffs' claims.[2] Mr. York and I assisted counsel for Trans Coastal, Rail Transfer, Winnsboro and Express Grain to prepare and serve their clients' Fed. R. Civ. P. 26 initial disclosures.

222. Additionally, Syngenta served three sets of requests for production on Trans Coastal, Rail Transfer, and Winnsboro. Many of the requests for production to each Non-Producer plaintiff mirrored each other. Mr. York and I jointly drafted objections to these requests, and then worked with each Non-Producer plaintiff's counsel to complete the responses and produce any responsive, non-privileged information to Syngenta's counsel.

223. Syngenta also served two separate sets of interrogatories on Trans Coastal, Rail Transfer and Winnsboro. Like the requests for production, the majority, if not all, of the interrogatories to each Non-Producer plaintiff mirrored each other. Mr. York and I jointly drafted

[2] Trans Coastal and Rail Transfer participated throughout as Non-Producer bellwether plaintiffs. Express Grain dismissed its claims in February 2016. (ECF 1596, February 24, 2016). Prior to Express Grain's dismissal, Gray Reed assisted Express Grain and its counsel with written discovery directed to Express Grain. In August 2016, Winnsboro dismissed its claims (ECF 2416, 2417, August 16, 2016). Prior to Winnsboro's dismissal, Gray Reed assisted Winnsboro, and its counsel with the written discovery described this and subsequent paragraphs.

objections to these interrogatories, and then worked with each Non-Producer plaintiff and their counsel to prepare responses to the interrogatories.

224. Syngenta likewise served requests for admission on Trans Coastal, Rail Transfer and Winnsboro that mostly mirrored each other. Mr. York and I jointly drafted objections to the requests where appropriate, and then worked with each Non-Producer Plaintiff's counsel to complete the responses and serve them on Syngenta's counsel.

225. Paragraph intentionally omitted.

D. DEPOSITIONS

226. Gray Reed attorneys took and defended more than 60 separate depositions in this litigation. In preparation for and during each of these depositions, Gray Reed attorneys customarily and regularly undertook to coordinate and communicate with attorneys for other producer plaintiffs' groups (namely, the Minnesota state court plaintiffs and the plaintiffs from the Southern District of Illinois), as well as counsel for the Non-Producer Plaintiffs, ADM and Cargill.

1. Producer Plaintiff Depositions

227. Gray Reed attorneys made at least 5 trips to Central Iowa, South Central Nebraska, and Central Ohio to prepare and defend the Producer Plaintiff class representatives in their depositions. For example, I traveled to Ord, Nebraska, to prepare Martin Petska for his deposition, although we ultimately rescheduled that deposition. I spent approximately one full day preparing Mr. Petska. I flew in and out of Omaha, Nebraska, and then drove 3 hours to Ord. Thereafter, Mr. York made two trips to Ord, Nebraska, to prepare Mr. Petska for his deposition a second time. Mr. York flew from Dallas to Grand Island, Nebraska, and then drove to Ord to meet with Mr. Petska. After their first preparation session, a massive blizzard resulted in the cancellation of the deposition. Due to the blizzard, Mr. York was unable to get out of Grand Island for two days. Mr.

York then flew back to Grand Island the following month for the deposition. Each time he spent approximately a half-day preparing Mr. Petska. Mr. Petska's deposition lasted a full day.

228. Mr. York also made two trips from Dallas to Des Moines, Iowa, to prepare and defend Alan Pedersen and Charles Lex in their depositions. The first trip occurred April 14-15, 2016. During the first trip, Mr. York drove approximately 120 miles from Des Moines to Humboldt, Iowa for a half-day preparation session with Mr. Pedersen. Mr. York then returned to Des Moines and met with Mr. Lex the following day for approximately 4 hours. The second trip to Des Moines occurred on May 8-10, 2016. Mr. Pedersen was deposed on May 9 for a full day. Mr. Lex was deposed on May 10 for a full day. Mr. York met with both class representatives for final deposition preparation. Each meeting lasted approximately two hours.

229. On January 6, 2016, I traveled to Springfield, Ohio, to prepare Scott Haerr and Greg Kaffenbarger for their depositions as Ohio class representatives. I spent approximately one day preparing both witnesses. Their depositions were taken over the next two days, on January 7th and 8th, 2016. I defended both of their depositions.

2. Non-Producer Plaintiff Depositions

230. Gray Reed attorneys also participated in depositions of Non-Producer Plaintiffs, including the Non-Producer Class Representatives as well as representatives and employees of ADM and Cargill, whose cases the Court remanded to Louisiana state court:

a. Trans Coastal

231. Mr. York traveled to St. Louis and met with Pam Moses and Trans Coastal's counsel on April 6, 2016, to prepare Ms. Moses for the first two days of her deposition as Trans Coastal's corporate representative. Mr. York then attended both days of the deposition on April 7-8.

232. Mr. Stuckey also traveled to St. Louis to meet with Pam Moses and Trans Coastal's counsel on May 24-25, 2016, to prepare Ms. Moses for additional days of her deposition as Trans Coastal's corporate representative. Mr. Stuckey then attended the third and fourth days of the deposition on May 26-27, 2016.

233. Mr. York and Mr. Stuckey also traveled to Chicago to prepare for and attend the deposition of Robert Briscoe. Mr. Briscoe appeared in his individual capacity, and then as a corporate representative of Prairie Grain, on May 17-18, 2016. Mr. York and Mr. Stuckey met with Mr. Briscoe, as well as Trans Coastal's counsel, on May 16 for approximately a half day to prepare for Mr. Briscoe's depositions.

234. Mr. Stuckey then traveled to Ontario, California, on June 1, 2016, and met with MingLu Li and Pauline Yang, former employees of Trans Coastal, as well as Trans Coastal's counsel to prepare Mrs. Li and Ms. Yang for their depositions. Mr. Stuckey then traveled to Los Angeles on June 2, 2016, to attend the deposition of Pauline Yang. After Ms. Yang's deposition, Mr. Stuckey met with Mrs. Li and Trans Coastal's counsel to continue preparing for Mrs. Li's deposition.

235. Mr. York also traveled to Houston on June 6 to meet with Eric Woodie and Trans Coastal's counsel in preparation for Mr. Woodie's deposition. The preparation session lasted approximately a half day. Mr. Woodie's deposition took place on June 7 and lasted a full day.

236. Mr. Stuckey next traveled to St. Louis to meet with Dave Stanko, a former employee of Trans Coastal, and Trans Coastal's counsel on June 8, 2016, to prepare for Mr. Stanko's deposition. Mr. Stuckey then attended Mr. Stanko's deposition on June 9, 2016.

237. Mr. Stuckey then traveled to Minneapolis on June 13, 2016, to meet with Greg Molnar, a former employee of Trans Coastal, and Trans Coastal's counsel to prepare Mr. Molnar for his deposition. Mr. Stuckey then attended Mr. Molnar's deposition on June 14, 2016.

238. Mr. Stuckey also traveled to St. Louis on September 26, 2016, to attend an additional day of the ongoing deposition of Pam Moses as Trans Coastal's corporate representative. Mr. Stuckey returned to St. Louis to meet with Ms. Moses and counsel for Trans Coastal on October 24, 2016, and then attended another day of Ms. Moses's deposition as Trans Coastal's corporate representative on October 25, 2016.

b. Rail Transfer

239. Mr. York traveled to Minneapolis and met with Todd Nimmo and Hart Robinovitch, Rail Transfer's counsel, to prepare Mr. Nimmo for his testimony as a corporate representative of Rail Transfer. The preparation sessions lasted approximately a day and half on April 19-20, 2016. Mr. York then attended the first two days of Mr. Nimmo's corporate representative deposition on April 21-22. Syngenta took a third day of Mr. Nimmo's deposition on August 24, 2016. Mr. York flew to Minneapolis on August 23, met with Mr. Nimmo and Mr. Robinovitch for a half day to prepare, and then attended Mr. Nimmo's deposition.

c. Winnsboro

240. On May 4, 2016, Mr. York traveled to Baton Rouge, Louisiana to meet with Ryan Ellington and Winnsboro's counsel to prepare Mr. Ellington to testify as Winnsboro's corporate representative. Mr. York then attended Mr. Ellington's deposition on May 5-6.

3. Depositions of Syngenta Witnesses

241. I prepared and served upon Syngenta's counsel Rule 30(b)(6) deposition notices and topic lists in late 2015 in anticipation of depositions commencing the following January. I

consulted with Co-Lead Counsel in preparing those notices, as well as counsel for other parties, including Cargill, ADM and the plaintiffs with cases pending in Minnesota state court.

242. I took the lead in deposing Syngenta's employees who were involved with the commercialization decisions for Agrisure Viptera and Duracade, the U.S. regulatory approval and testing of those products, and as the background on the corporate organization and structure of the Syngenta entities. In each deposition, I questioned the witness first, and prior to, and during, the deposition communicated and coordinated with other plaintiffs' counsel, including in some instances sharing outlines, so that they could prepare supplemental examinations. Because of the inability to subpoena many of these witnesses to trial, in these depositions it was necessary to conduct them in a manner designed to permit video play back at trial of critical testimony. Drew York, Skyler Stuckey or Alex Moore (Twiss) assisted me in the preparation for these depositions, and in most instances one of them attended the deposition with me. These employees' depositions included:

- Cheryl Quain, as a corporate representative on certain topics, January 19, 2016, in Washington, DC (Mr. York also attended);
- Lawrence Zeph, as a corporate representative on certain topics, January 20 – 21, 2016, in Washington, DC (Mr. York also attended);
- Scott Huber, as a corporate representative on certain topics, January 28 – 29, 2016, in Washington, DC (Co-Lead Counsel Patrick Stueve took Mr. Huber's deposition on other topics after my examination);
- David Morgan, as a corporate representative on certain topics, February 10 – 11, 2016, and individually, April 12 – 13, 2016, all in Washington, DC (Mr. York also attended both depositions);

- Dennis Ward, in his individual capacity as a former Syngenta employee, February 17, 2016, in Washington, DC (Mr. York also attended);
- Charles Lee, in his individual capacity, March 8 – 10, 2016, in Washington, DC (Mr. York also attended);
- David Roberts, in his individual capacity, via telephone with Jason Earley of Hare Wynn conducting the examination, in Washington, DC; and
- Rex Martin, in his individual capacity as a former Syngenta employee, May 3, 2016, in Washington, DC (Mr. Stuckey also attended).

4. Third Party Depositions

243. I took the lead on behalf of the Plaintiffs in these multidistrict proceedings in the following depositions of third party witness:

244. Mathew O'Mara, as the corporate representative of the BioTechnology Industry Organization on certain topics, June 28 – 29, 2016, in Washington, DC.;

245. Andrew LaVigne, as the corporate representative of the America Seed Trade Association on certain topics, June 3, 2016, in Washington, DC; and,

246. Thomas Sleight and Bryan Lohmar, as the corporate representatives of the United States Grain Council on certain topics, June 22 – 24, 2016, in Washington, DC (together with Lew Garrison, counsel for the plaintiffs in actions pending in the Southern District of Illinois).

5. Depositions of ADM and Cargill Witnesses

247. At the Co-Leads Counsel's request, Gray Reed also took the lead role attending the depositions of ADM employees. Additionally, Gray Reed attorneys attended the depositions of several Cargill employees. Gray Reed attorneys examined the witnesses at virtually all of these

depositions, and in many instances took the lead role examining the witnesses for all plaintiffs. Below is a list of all ADM and Cargill depositions attended by Gray Reed attorneys:

a. ADM Witnesses

248. Pablo Altuna, September 29, 2016 in Chicago (Mr. York).

249. Chris Boerm, as a corporate representative of ADM on certain topics, June 20-21, 2016 in Chicago (Mr. York).

250. Henry Cooklin, May 25, 2016 in Chicago (Mr. York).

251. Stefan Fiedler, July 15, 2016, in Chicago (Mr. York)

252. Brett Flickinger, as a corporate representative of ADM on certain topics, June 30, 2016 in Chicago (Mr. York).

253. Brett Flickinger, in his individual capacity, July 8, 2016 in Chicago (Mr. York by telephone).

254. Matt Giltner, October 14, 2016 in Chicago (Mr. Stuckey).

255. Richard Grabiel, September 8-9, 2016 in Springfield, Illinois (Mr. York).

256. Stefanie Gummelt, July 22, 2016 in Chicago (Mr. Stuckey).

257. JuHui Huang, September 22-23, 2016 in Chicago (Mr. York).

258. Douglas Johns, July 18-19, in Chicago (Mr. York).

259. Andrew Keighin, May 26, 2016 in Chicago (Mr. York).

260. Anthony Reed, as a corporate representative of ADM on certain topics, June 1, 2016 in Washington D.C. (Mr. York).

261. Anthony Reed, in his individual capacity, June 3, 2016 in Washington D.C. (Mr. York).

262. Anthony Reed, as a corporate representative of ADM on certain topics, October 14, 2016 in Washington D.C. (Mr. York).

263. Joseph Taets, June 25-26, 2016 in Chicago (Mr. York).

264. Wesley Uhlmeyer, as a corporate representative of ADM on certain topics, June 15-16, 2016 in Chicago (Mr. York).

265. Wesley Uhlmeyer, in his individual capacity, June 23, 2016 in Chicago (Mr. York).

266. Stephan von Lamezan, July 12, 2016 in Chicago (Mr. York).

b. Cargill Witnesses

267. David Baudler, as a corporate representative on certain topics and in his individual capacity, May 16 and 17, 2016, in Minneapolis (I took the deposition).

268. William Hale, as a corporate representative on certain topics, May 18 and 19, 2016, in Minneapolis (I took the deposition).

269. Arvid Hawk, a former Cargill employee, in his individual capacity and as a corporate representative of Global Agricultural Consulting on certain topics, July 25, 2016, in Minneapolis (I took the deposition).

270. William Barksdale, June 13-14, 2016 in Minneapolis (Mr. Stuckey).

271. Cheryl Eldstrom, December 13, 2016 in Minneapolis (Mr. York).

272. Maurice Hurst, as a corporate representative for Cargill on certain topics, December 16, 2016 in Minneapolis (Mr. York).

273. Steve Smalley, as corporate representative for Cargill on certain topics, February 16, 2017 in Minneapolis (Mr. York).

EXPERT DISCOVERY AND DAUBERT MOTIONS

274. Gray Reed took the lead role in searching for and retaining potential experts to testify on issues related to the Plaintiffs' Lanham Act claims. We did retain a consulting expert on those issues who furnished valuable advice that assisted with our litigation strategy.

275. The Co-Lead Counsel and I divided the work necessary to investigate and depose Syngenta's designated, testifying experts. Gray Reed took the lead for the Co-Lead Counsel in deposing Dr. Hongjun Zhang, a purported expert on Chinese law. We worked closely with counsel for both Cargill and ADM, each of which had particular expertise in this area. Mr. York and I spent more than four days preparing for Dr. Zhang's deposition, including meeting in person with other attorneys representing producer and non-producer plaintiffs to outline the deposition examination. I deposed Dr. Zhang on February 1, 2017.

276. At Co-Lead Counsel's request, Mr. York also attended the depositions of Antony Page on January 24, 2017, and Robert Daines on January 27, 2017, on behalf of the Federal MDL Plaintiffs. (ECF Nos. 2988, 3063). Counsel for the Minnesota Plaintiffs took the lead examining both witnesses. Mr. York coordinated with Minnesota counsel both before and during the depositions concerning the examinations. He also examined both witnesses.

277. Gray Reed took the lead on drafting the motion to exclude Dr. Zhang and coordinated with counsel for the Minnesota state court plaintiffs concerning motions to exclude Drs. Page and Daines, including drafting sections of the argument specifically tailored to issues arising in the Federal MDL proceedings. Mr. York was responsible for drafting these three motions for this MDL. Syngenta withdrew all three experts prior to trial. (ECF Nos. 2988, 3063).

278. Additionally, Mr. York and I coordinated with counsel for Trans Coastal and Rail Transfer concerning the designation of their testifying expert witnesses. Mr. York and I reviewed and commented on drafts of the reports prepared by James Woods opining on the damages suffered by both Non-Producer Plaintiffs. We also participated in conference calls with Mr. Woods and counsel for Rail Transfer and Trans Coastal regarding those reports. I met with Mr. Woods and

counsel for Rail Transfer and Trans Coastal to prepare Mr. Woods for his separate depositions, and then I attended both depositions.

SUMMARY JUDGMENT BRIEFING

279. On February 6, 2017, Plaintiffs and Syngenta both filed summary judgment motions. With respect to Plaintiffs' motion, Gray Reed took the lead drafting the section challenging Syngenta's independent, legitimate business, and economic justifications. We also reviewed, edited, and commented on drafts of the entire memorandum in support of the motion.

280. With respect to Plaintiffs' response to Syngenta's motion, Gray Reed took the lead drafting the response to Syngenta's arguments seeking summary judgment on Plaintiffs' Lanham Act claims. In that regard, I not only worked with Co-Lead Counsel, but also counsel for Trans Coastal Supply. We also reviewed, edited and commented on drafts of the entire memorandum in opposition to Syngenta's motion. Mr. York also assisted Jason Earley from Hare Wynn to prepare Plaintiffs' Response to Defendants' Statement of Undisputed Facts, as well as Plaintiffs' Statement of Additional Facts that was filed with the Memorandum in Opposition to Syngenta's Motion for Summary Judgment. Among other things, Mr. York coordinated the gathering of certain exhibits for the Statement of Additional Facts. He also led a team of attorneys at Gray Reed – including Mr. Stuckey, Sonya Reddy, Angela Brown, and Marcus Fettinger, among others – who cite checked the final draft of the Memorandum in Opposition.

PRE-TRIAL PREPARATION FOR KANSAS CLASS TRIAL

281. Mr. York and I, along with lawyers from other co-lead firms, prepared extensively for several meetings with outside trial consultants including: (i) a focus group in Kansas City to evaluate local attitudes to our potential arguments and anticipated defenses Syngenta would raise; (ii) a mock trial in Kansas City where Mr. Downing and I presented a portion of Syngenta's anticipated case; and (iii) three, week-long strategy sessions with a trial consultant. Mr. York also

traveled to Little Rock, Arkansas in early 2017 to meet with Mr. Earley for several days to work on potential trial themes.

282. Most of the fact witnesses – both Syngenta employees and third-party witnesses – who we would have wanted to testify at trial were not within the Court's subpoena power. Therefore, Co-Lead Counsel assigned responsibility to each firm that attended a fact witness deposition to identify excerpts they believed should be introduced at trial if the witness did not appear live. Mr. York and I reviewed the transcripts of the depositions of each witness we attended and marked potential excerpts to play at trial. If we both attended the deposition, we discussed any excerpts that we disagreed on and reached a final consensus. We then circulated all of the selected excerpts to all of the Co-Leads. Co-Lead counsel Stueve and Powell then made the initial proposed edits and cuts of the excerpts submitted by all of the firms. Co-Lead Counsel Downing and I then reviewed and made secondary edits and cuts to proposed video deposition designations for use at trial. I reviewed dozens of potential witnesses during this time. This process was quite complicated as we had to read, and some instances watch, the initial video deposition selections to determine the precise points we needed to present to the jury, and further to attempt to remove duplication among the witnesses. This was most time-consuming, but critical work in this case as much of our case at trial depended on video testimony, and we had to carefully balance the need to offer a complete record with the jury's limited attention span for video testimony.

283. Gray Reed also coordinated and prepared the disclosures of many of the pre-trial disclosures for the Kansas class trial. For example, Gray Reed was responsible for serving Plaintiffs' witness lists and Plaintiffs' deposition designations. Mr. York led that effort, coordinating the deposition designation selections from each Co-Lead firm, as well as other executive committee firms or others whom Co-Lead Counsel had assigned to attend depositions

of fact witnesses in this litigation, based on the Co-Leads edits through their two-step review process described above. Mr. York utilized Ms. Moore, as well as paralegals Elayne Cameau and Beth Cook, to collect and organize the disclosures from each firm into the singular disclosure that was filed with the Court and/or served on Syngenta's counsel.

284. Mr. York, Mr. Stuckey and I reviewed Syngenta's designated deposition testimony for the deponents we attended, and identified objections and counter-designations for the same. Mr. York was also in charge of coordinating, organizing and finalizing service of Plaintiffs' objections to Syngenta's designations as well as Plaintiffs' counter-designations for all depositions. Again, Mr. York, Ms. Moore, Ms. Cameau and Ms. Cook compiled the information provided by each plaintiff's firm into a singular disclosure that was served on Syngenta's counsel.

285. Mr. York, Mr. Stuckey and I also reviewed Syngenta's counter-designations for those plaintiffs' witnesses whose depositions we attended. We identified objections to the counter-designations as well as counter-to-the-counter designations. Mr. York was once again responsible for coordinating and finalizing Plaintiffs' objections to Syngenta's counter-designations and counter-to-counter designations. He, Ms. Moore, Ms. Cameau and Ms. Cook compiled the information provided by each plaintiff's firm, reviewed it for accuracy, and prepared a singular disclosure that was served on Syngenta's counsel.

286. Mr. York, Mr. Stuckey and I also reviewed Syngenta's counter-to-the-counter designations for those witnesses on Syngenta's witness list for whom we attended their deposition. We prepared objections to the same. Mr. York, along with Ms. Moore, Ms. Cameau, and Ms. Cook, compiled the objections for all of these witnesses from all of the plaintiffs' counsel, reviewed for accuracy, and prepared a singular disclosure that was served on Syngenta's counsel.

287. Mr. York oversaw a team of 12 comprising Gray Reed associates, paralegals, and summer law clerks, as well as Tempe Smith and Laura Riedinger from Hare Wynn, to prepare .pdf copies of the transcripts of Plaintiffs' deposition witnesses that identified designated testimony in accordance with the Court's color-coding instructions. The team also inserted objections in the margins following service of all objections to designations, counter-designations, and counters-to-the-counters. Drafts of the transcripts were provided to Syngenta's counsel for review and approval. Mr. York also met and conferred with Syngenta's counsel regarding the deposition designations and objections prior to providing the Court with the deposition notebooks for rulings on Plaintiffs' designations.

288. Mr. York, Ms. Cook and Lan Lam traveled to Kansas City to help organize the binders identifying disputed deposition designations for Plaintiffs' case, and then delivered them to the Court. Additionally, Mr. York led this same team of lawyers, paralegals and staff to review the drafts of the color-coded binders that Syngenta submitted to the Court before trial.

289. Mr. York was also responsible for leading a team of lawyers, paralegals, and audio visual litigation support staff to produce, review, edit and finalize the videotape excerpts of each witness Plaintiffs called to testify by deposition. This was an extremely laborious process. Beginning on May 28, 2017, the video team began preparing videos of the designation excerpts for 26 potential witnesses. Lawyers from each Co-Lead Counsel firm reviewed the designations remaining after the Court's evidentiary rulings, and provided instructions to paralegals and support staff to insert, highlight, and zoom in on certain exhibits discussed during the testimony. After the initial production of each video was made, an attorney from one of the Co-Lead firms would watch the video. The attorney then provided instructions to the paralegals and support staff to make additional edits to the videos as necessary. The video team worked extremely long hours before

and during trial. During weekdays, on average, the team started at 8 a.m. each day and finished between 1 and 2 a.m. In some instances, members of the team worked all night. The team's work on weekends started between 8 and 9 a.m. and went until 6 or 7 p.m. on Saturdays, and then around midnight on Sundays. The video team's time was due in large measure to the drawn out meet and confer process with Syngenta's counsel over cumulativeness and scope objections, which resulted in the final edits of many videos being made the night before the video was played in Court. Ultimately, Plaintiffs played 22 of the 26 videos during our case-in-chief. This team's work continued during Syngenta's case in which we offered counter-designations and sought to prevent the introduction of cumulative evidence by Syngenta.

290. Mr. York and Tempe Smith from Hare Wynn met and conferred with Syngenta's counsel on the weekend before trial began to discuss the impact of the Court's rulings on deposition designations and exhibits identified therein. There were three meetings that collectively lasted approximately 8 hours.

291. Additionally, in preparation for the trial of the Kansas class, I assisted Gretchen Garrison in the preparation of proposed jury instructions and in conferences with Syngenta's counsel to determine which instructions to which the parties could agree and those as to which they could not agree. Dylan Drummond also provided significant assistance to Ms. Garrison and me in the legal research regarding, as well as preparation, review, and finalizing of the proposed jury instructions.

JUNE 2017 KANSAS CLASS TRIAL

292. The Kansas class trial began on June 5, 2017, and lasted until June 23, 2017, when the jury returned its verdict. Three Gray Reed attorneys and one paralegal attended all or part of the Kansas class trial. Drew, Skyler, and I arrived approximately a week before the start of trial

and stayed in Kansas City for the entire duration. Beth Cook also arrived approximately 5 days early and stayed for the first week of trial.

293. During the trial, I prepared for and presented the testimony of Charles Frickey, one of the Kansas class representatives. I had met with Mr. Frickey on at least 3 occasions in preparation for his testimony, spending approximately 2 days total. Mr. Frickey testified early in the trial.

294. I also prepared for and conducted the cross-examination of one of Syngenta's witnesses, David O'Reilly. Mr. O'Reilly had been deposed by lawyers not involved in the Kansas class trial and my preparation included not only studying the deposition transcript but also reviewing other documents produced by Syngenta authored by or sent to him.

295. During the trial, I also briefed and conducted conferences with Syngenta's counsel on several issues, including proof of Syngenta's net worth and other factors bearing upon Plaintiffs' claims for punitive damages. I also negotiated with Syngenta and obtained approval of the Court to publish to the jury certain documents without a sponsoring witness. I additionally helped coordinate the preparation of agreed statements by counsel introducing and describing to the jury each of the witnesses for whom Plaintiffs presented video deposition testimony.

296. I also prepared for the direct testimony, or cross examination, of other witnesses who did not testify at trial. Additionally, I consulted with and assisted the other Co-Lead Counsel in their preparation for direct or cross examination of other witnesses, or in the preparation of voir dire, opening statements and closing argument.

297. Drew York and Tempe Smith of Hare Wynn coordinated the exchange of trial exhibits and witness disclosures with Syngenta during trial, consistent with both sides' agreement concerning the timing of those exchanges.

298. Mr. York and Ms. Smith conducted dozens of meet and confers with Syngenta's counsel regarding deposition designations and trial exhibits. Multiple meet and confers were held each day – some at the courthouse in the attorney conference rooms while trial was going on. Other meet and confers were held by phone late at night. As a result of those discussions, both sides significantly narrowed the volume of designated deposition testimony that was ultimately presented to the jury.

299. To the extent there were unresolved evidentiary disputes, Mr. York primarily handled those arguments before the Court for Plaintiffs. Mr. York also handled the admission of exhibits identified in Plaintiffs' depositions, and ensured that the page/line designations of the deposition testimony played in Plaintiffs' case-in-chief were filed with the Court by the time Plaintiffs rested.

300. During trial Skyler Stuckey, Beth Cook, attorneys and paralegals from Hare Wynn, and two employees of Midwest Court Reporting continued the process of editing deposition videos to include only the designated testimony that Plaintiffs' counsel and Syngenta's counsel had elected to present in Plaintiffs' case in chief. This editing process also included editing the videos to treat exhibits introduced by Syngenta through Syngenta's counter-designations in accordance with any exhibit treatment instructions provided by Syngenta. Mr. York, Tempe Smith, Jason Earley, and Chris Randolph reviewed those edited videos to ensure that the correct testimony was included, worked with lawyers from the other Co-Lead Counsel firms to identify the exhibits that needed to be presented on-screen during the deposition designation videos, and identified portions of exhibits that needed to be highlighted on screen. Ultimately Plaintiffs played during their case 22 of the 26 that were videos presented at trial. During the presentation of deposition testimony in Syngenta's case-in-chief, Mr. York and Ms. Smith coordinated with other attorneys and staff to

provide Syngenta with instructions for the display of exhibits introduced through Plaintiffs' counter-designations.

POST-TRIAL

301. Dylan Drummond assisted Gretchen Garrison and Brad Wilders with research regarding issues raised in Plaintiffs' Motion to Amend the Nationwide and Kansas Class Judgment, as well as Plaintiffs' Opposition to Syngenta's Post-Trial Rule 50(b) Motion for Judgment and, Alternatively, Rule 59 Motion for a New Trial and/or Remittitur.

PREPARATION FOR ARKANSAS AND MISSOURI CLASSES TRIAL

302. After the Court determined that the Arkansas and Missouri class claims would be included in the second MDL class trial (ECF No. 3319), Mr. York, along with Tempe Smith and Jason Earley, spent approximately three weeks studying the video deposition designations from the Kansas class trial. They met in Birmingham, Alabama and Little Rock, Arkansas to identify testimony that they believed should be added or removed, including testimony that they felt was unnecessarily cumulative. Mr. York and Mr. Earley then presented their recommendations to Co-Lead Counsel.

SETTLEMENT NEGOTIATIONS

303. After the initial appointment of Special Master Ellen Reisman, I participated in initial discussions with her in person and on the phone. I participated in those early discussions with Co-Lead Counsel, including at least one meeting with Ms. Reisman and Stueve, and in one telephone conference with Ms. Reisman and Powell. I regularly consulted with Co-Lead Counsel regarding the settlement negotiations after the appointment by the Court of the Plaintiffs' Negotiating Committee and then following the September 25, 2017, announcement that the parties had signed a term sheet.

304. After the announcement of the preliminary settlement framework on September 25, 2017, I evaluated, with the assistance of Gray Reed associates Alex Moore (Twiss) and Skyler Stuckey, the USDA FSA's procedures for gathering and maintenance of the producers' acreage and related data through its Form 578, and the means by which that data might most efficiently be accessed and used in the administration of the settlement of these cases. That evaluation led to meetings which Stueve, legislative affairs counsel Adam Sachs of the firm of Husch & Blackwell, and I had with the staffs of Senate and members of the House of Representatives serving on Senate and House Agriculture Committees, and ultimately counsel to the USDA. I drafted and negotiated with the USDA, with the assistance and input of Stueve and Sachs, a Memorandum of Understanding executed by the FSA to provide electronic access to the Form 578 data. That Memorandum of Understanding provided the basis for the current arrangement to make that data available in connection with this settlement.

305. In support of this settlement, following this Court's preliminary approval and at the request of the American Agricultural Law Association, Downing and I prepared for and made on June 4, 2018, a one-hour webinar entitled the "Nuts and Bolts of the Syngenta Corn Settlement."

GRAY REED'S TAX, CORPORATE AND CREDITOR'S RIGHTS COMMON BENEFIT WORK

306. Gray Reed's tax, corporate and creditors' rights attorneys additionally assisted in several important issues during the prosecution and settlement of these cases.

307. Gray Reed's corporate lawyers, Brock Niezgoda and Jeff Hopkins provided valuable assistance in monitoring and evaluating developments arising from ChemChina's tender offer for Syngenta.

308. Gray Reed's litigation, bankruptcy and creditors' rights associate, Lydia Webb, also assisted me with a survey of and preliminary research regarding enforceability in Switzerland of a judgment against Syngenta AG or its Swiss, affiliated co-defendants.

309. Tom Rhodus assisted me and supervised the preparation of the qualified settlement fund trust established by this court to hold the common benefit fees and expenses paid upon settlement of the *Minsk* case in Minnesota state court. (ECF No. 3354). We also sought and obtained additional comments on that trust document from lawyers at the Stinson Leonard Street law firm.

310. Mr. Rhodus and David Gair assisted me in reviewing and providing comments on drafts of the escrow agreement with CitiBank established and approved by this Court in connection with the class settlement now awaiting final approval by this Court. (ECF No. 3535).

FEE AGREEMENTS WITH INDIVIDUAL CLIENTS

311. Gray Reed has been individually retained by a number of plaintiffs who are now members of the settlement class. If a class had not been certified, our individual fee agreements required each client to pay 33 1/3% of any net benefit received.

312. If a class were certified, Gray Reed's fee agreements expressly waived any right to seek attorneys' fees individually from these clients and to instead seek fees and expenses solely from the Court.

313. Consequently, Gray Reed is seeking compensation and expense reimbursement solely from the common benefit fee and expense award made by this Court and will not seek to recover individual attorneys' fees or expense reimbursement from any individual client who is a member of the settlement class.

314. In total, my firm has expended more than 1,000 hours on these individual clients, totaling more than $600,000 in lodestar. We have additionally incurred approximately $100,000

in expenses. We have not included this lodestar amount or the expenses for our individual clients in this application for attorneys' fees.

COMMON BENEFIT TIME AND EXPENSE SUBMISSIONS

A. COMMON BENEFIT TIME AND EXPENSES SUBMITTED BY COMMON BENEFIT FIRMS

315. Co-Lead Counsel divided the time and expense submission of common benefit firms for a review to conduct a robust review to determine compliance with the requirements for common benefit time and expense under the Court's orders. Each Co-Lead Counsel reviewed the submissions of another Co-Lead Counsel. For example, Mr. York and I both reviewed the Hare Wynn time and expense submissions and Scott Powell reviewed Gray Reed's submissions. Additionally, Mr. York and I both reviewed in May and June, 2018, the submissions of 17 other firms. I then sent to each firm our comments and proposed reductions in either their common benefit time or expenses. I also conducted a telephone conference with each firm to explain the bases for our reductions and listened to any justifications offered. In some instances I was convinced that the eliminated time and/or expense was properly compensable. The remainder of our exclusions were removed from that firm's submission and the total hours and/or total expense was reduced accordingly. The firms whose time and expenses that Mr. York and I personally reviewed were: Hare Wynn Newell Newton LLP; Batts, Batts & Bell, LLP; Battle & Winn LLP; Bohrer Brady LLC; Brooks Pierce; Coffman Law Firm; Greene Espel PLLP; Kruml Law Office, P.C.; Lockridge Grindal Nauen PLLP; Martin, Browne, Hull & Harper PLL; McCauley McClure; Miller Schirger LLC; Paul LLP; Simmons Hanly Conroy LLC; Soper Leddin Law Firm, PC; Wagner Reese, LLP; Weller, Green, Toups & Terrell, L.L.P.; and Zimmerman Reed, LLP

B. GRAY REED'S COMMON BENEFIT TIME AND EXPENSES

316. Gray Reed maintains contemporaneous records of its time and expenses. These records are prepared and maintained in the ordinary course of business through software systems maintained by the firm.

317. I prepared my declaration with the assistance of other lawyers and staff at the firm with knowledge of the matters reflected herein. I have personally reviewed the information supporting the fee and expense requests that are the subject of this declaration, and, based on that review, I believe that the information contained herein is accurate.

318. As part of the preparation of my declaration, I reviewed the time and expenses incurred in this litigation to exercise billing judgment. These figures do not include the anticipated additional time preparing for and attending the Final Approval Hearing and the additional time to administer the Settlement and finalize payments to class members. It has been our experience in similar class actions that class counsel will spend between 500 to 1,000 hours following final approval to finalize the administration of this settlement.

319. After exercising billing judgment and making billing reductions based on my review of the records, the number of hours spent on this litigation by my firm is 16,859.90 hours. A breakdown of the lodestar is provided below. The lodestar amount for attorney time based on the rates is $10,462,531.60, using the rates for each individual consistent with rates approved by this Court for similarly experienced counsel in contingent class action cases.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Chaney, William	Partner	4,942.90	$865.00	$4,275,608.50
2.	York, Andrew K.	Partner	3,796.10	$695.00	$2,638,289.50
3.	Stuckey, Skyler	Associate	2,583.10	$565.00	$1,459,451.50
4.	Hart, Leah J.	Paralegal	1,585.90	$225.00	$356,827.50

45.	Ormiston, Jim	Partner	0.50	$825.00	$412.50
46.	Gurevitz, Jennifer	Partner	0.40	$650.00	$260.00
	TOTALS		16,859.90		$10,462,531.60

320. The rates for each timekeeper are reasonable in this judicial district as explained by the Honorable Richard Ralston, and consistent with my own knowledge and understanding as to the range of rates charged by attorneys of comparable experience in comparable cases.

321. As part of the Common Benefit Guidelines provided by Co-Lead Counsel, all common benefit firms tracked common benefit expenses using Category Codes 1-19.

322. In total, my firm seeks reimbursement of common benefit expenses in the amount of **$805,484.03** Those expenses and charges are summarized by below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	$6,663.97
2	Postage Charges	$121.50
3	Facsimile Charges	
4	Long Distance Calls	$1,404.84
5	In-House Photocopying	$20,394.90
6	Outside Photocopying	$5,683.75
7	Hotels	$113,739.60
8	Meals	$22,237.13
9	Mileage	$2,155.75
10	Air Travel	$70,446.08
11	Deposition Costs	
12	Lexis/Westlaw/Bloomberg	$33,376.90
13	Witness and Expert Expenses	
14	Court Fees	$409.00
15	Service of Process Fees	$7,881.91
16	Hearing and Trial Transcripts	
17	Ground Transportation	$14,537.98
18	Miscellaneous	$101,430.72

Category Code	Description of Category Code	Amounts
19	Litigation Fund Assessment	$405,000.00
	TOTAL	**$805,484.03**

323. Additional details on these expenses are below:

324. Category 1, Federal Express / Local Courier, etc.: This category includes common benefit expenses for shipping, overnight, courier, and delivery expenses of documents to and from class representatives, bellwether plaintiffs, co-counsel, for use at depositions, and opposing counsel. These expenses are reported at actual cost.

325. Category 2, Postage Charges: This category includes common benefit postage charges for mailing letters and accompanying documents to class representatives, bellwether plaintiffs, document custodians, co-counsel, opposing counsel, the Court, and other necessary parties. These expenses are reported at actual cost.

326. Category 4, Long Distance, Conference Call, and Cellular Telephone Charges: This category includes Gray Reed's common benefit expenses for long distance and conference calls to co-lead counsel, opposing counsel, the Court, and other necessary parties to discuss the common benefit order, ESI protocol, discovery disputes, class certification, trial, and other matters for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

327. Category 5, In-House Photocopying: This category includes Gray Reed's common benefit expenses for photocopying and printing documents for use in depositions, class certification briefing, trial notebooks, trial exhibits, and other matters for the common benefit of all producer and non-producer plaintiffs. Copies were either in black/white or color. Consistent with the Common Benefit Order, these expenses were billed at $.10/page, which is below what we normally charge for these expenses.

328. Category 6, Outside Photocopying: This category includes Gray Reed's common benefit expenses for photocopying, scanning, printing, and binding documents by third-party vendors. Gray Reed typically utilized such vendors to assist with large projects requiring the printing, scanning, and binding of thousands of pages of documents for use in depositions and at trial. These expenses are reported at actual cost.

329. Category 7, Hotels: This category includes Gray Reed's common benefit expenses for hotel room charges for the average available room rate of a business hotel in the city in which the stay occurred. Gray Reed attorneys and staff incurred reasonable hotel room charges while attending depositions, meeting with witnesses to prepare for trial, attending Court hearings and trial, and performing other matters for the common benefit of all producer and non-producer plaintiffs. Stueve Siegel negotiated reduced Kansas City hotel rates for the benefit of all counsel. These expenses are reported at actual cost.

330. Category 8, Meals: This category includes Gray Reed's common benefit expenses for meals. Gray Reed attorneys and staff incurred meal expenses while attending depositions, meeting with co-counsel, attending court hearings and trial, and performing other tasks for the common benefit of all producer and non-producer plaintiffs. Evening meals costing more than $70 were discounted by one-third to account for alcohol. These expenses are reported at actual cost.

331. Category 9, Mileage: This category includes Gray Reed's common benefit expenses for mileage incurred while traveling to Kansas City for trial, traveling to meetings with co-counsel, and performing other tasks for the common benefit of all producer and non-producer plaintiffs.

332. Category 10, Air Travel: This category includes Gray Reed's common benefit airfare expenses. Gray Reed is seeking reimbursement for the lowest available, convenient coach

fare on domestic flights. Gray Reed incurred these airfare expenses in order to attend depositions, meet with co-counsel to plan for settlement discussions and trial, meet with trial consultants, and perform other tasks for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

333. Category 12, Lexis/Westlaw/Bloomberg: This category includes Gray Reed's common benefit expenses related to conducting computerized research on Westlaw and PACER. Gray Reed attorneys and staff used these electronic databases in order to access court filings and conduct legal research on a broad range of legal topics. For example, Gray Reed attorneys utilized Westlaw in order to perform legal research on damages issues, causes of action under the laws of various states, Syngenta's anticipated defenses and numerous other legal issues that Plaintiffs faced during the course of this litigation. These costs are billed in the same manner in which Gray Reed calculates costs in other hourly or contingency fee cases. Specifically, Gray Reed has reported Pacer charges at the actual cost reflected in PACER invoices. In calculating Westlaw charges for purposes of this application, Gray Reed has a flat-fee monthly subscription that provides the firm with access to certain databases. Gray Reed did not allocate any portion of the flat-fee monthly subscription charge to this litigation. The Westlaw charges included here are the actual costs incurred by the firm for only those instances where Gray Reed attorneys exceeded the monthly subscription allowance, or conducted research through necessary databases that were not included in the firm's monthly subscription. Gray Reed did not use Lexis or Bloomberg in this litigation.

334. Category 14, Court Fees: This category includes Gray Reed's common benefit expenses related to court fees. These expenses are reported at actual cost.

335. Category 15, Service of Process Fees. This category includes Gray Reed's common benefit expenses related to service of process. Gray Reed is not individually seeking reimbursement for common benefit service of process costs.

336. Category 17, Ground Transportation: This category includes Gray Reed's common benefit expenses related to automobile rentals, taxis, and Uber service. Gray Reed attorneys and staff incurred these expenses while attending depositions, meeting with co-counsel and experts, meeting with producer or non-producer plaintiffs, and performing other tasks for the common benefit of all producer and non-producer plaintiffs. These expenses are reported at actual cost.

337. Category 18, Miscellaneous: This category includes Gray Reed's common benefit expenses related to miscellaneous cash expenses for which receipts generally are not available (*e.g.,* tips, luggage handling) and other items which do not fall within another category. These expenses are reported at actual cost.

338. Category 19, Litigation Fund Assessments: This category includes Gray Reed's periodic monetary contributions to the Syngenta Litigation Fund. Co-Lead Counsel, Executive Committee members, and additional firms in the multidistrict litigation made periodic contributions to the litigation fund. These funds were utilized for the on-going prosecution of the multidistrict litigation.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 10th day of July, 2018, in Dallas, Texas.

Syngenta AG, et al.*, No. 2:17-cv-02614-JWL-JPO *Agribase International Inc. v. Syngenta AG, et al.*, No. 2:15-cv-02279-JWL-JPO	**Master File No. 2:14-MD-02591-JWL-JPO** **MDL No. 2591**

DECLARATION OF RICHARD H. RALSTON

I, Richard H. Ralston, declare as follows:

1. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so.

2. I am an attorney, arbitrator and mediator with The Ralston Law Group, LLC. I have practiced law in this region for approximately 50 years, and have substantial experience litigating cases on behalf of both plaintiffs and defendants. From 1976 to 1988, I was a United States Magistrate Judge for the Western District of Missouri. Since that time, I have focused my practice primarily on arbitrations and mediations. I have been involved as a settlement judge or mediator in more than 4,000 cases. My professional history and background are summarized in greater detail below.

3. I have testified on a number of occasions as an expert witness regarding the appropriate award of attorneys' fees and expenses in a wide range of cases.

4. I respectfully submit this declaration in support of Stueve Siegel Hanson LLP, Hare Wynn Newell & Newton, Gray Reed & McGraw P.C. and Gray, Ritter & Graham, P.C's (collectively, "Co-Lead Counsel") motion for attorneys' fees and expenses in the above-captioned litigation. I understand that all of the attorneys' fees and expenses submitted in Co-Lead Counsel's motion have been subject to Co-Lead Counsel's billing judgment and billing rate judgment. I further understand that this motion includes all attorneys' fees and expenses expended by counsel from all firms that worked at the direction of or in coordination with Co-Lead Counsel for the common benefit of the litigation (collectively, "common benefit counsel" and "common benefit time").

I. My Professional Background Relevant to My Expert Opinions

5. I graduated with honors from the University of Missouri – Kansas City School of Law in 1969 where I was Editor-In-Chief of the UMKC Law Review. I was admitted to the Missouri Bar, the Bar of the United States District Court for the Western District of Missouri, and the Bar of the United States Court of Appeals for the Eighth Circuit in the fall of 1969. I have appeared as a trial lawyer in the United States District Court for the Western District of Missouri, and other federal trial courts, on many occasions. I have argued cases before the United States Court of Appeals for the Eighth Circuit and the Missouri appellate courts on many occasions.

6. I was a law clerk to United States District Judge Elmo B. Hunter of the United States District Court for the Western District of Missouri from 1969 through 1972.

7. I previously served as a law professor at two law schools: The Creighton University School of Law and the University of Missouri – Kansas City School of Law. At the Creighton University School of Law, I was honored with the award for the Outstanding Professor of the Year in 1974. At each law school I taught litigation subjects such as evidence, civil procedure, federal

jurisdiction, litigation with the federal government, environmental law, and complex and multidistrict litigation. I was a tenure-track Assistant Professor at Creighton, and an Adjunct Professor at the University of Missouri – Kansas City.

8. I became a member of the United States District Court for the Western District of Missouri in 1976 when I was appointed as a United States Magistrate Judge. As a United States Magistrate Judge, I routinely presided over civil trials, both jury and bench trials, for approximately 12 years. While on the federal bench, I presided over approximately 150 trials and hundreds of other cases. I also sat on the Model Jury Instruction Committee for the Eighth Circuit for approximately 10 years.

9. I left the bench in August of 1988 and joined the litigation department of the law firm of Polsinelli, White, Vardeman & Shalton (now known as Polsinelli) in Kansas City. While at the Polsinelli firm, I represented clients in trials and hearings in both state and federal courts in Kansas and Missouri.

10. In 1995, because of the rising demand from the bar for more alternative dispute resolution proceedings, I began to limit my practice to arbitration and mediation. Throughout my legal career, I have served as a mediator or settlement judge in more than 4,000 civil cases. I am regularly involved in arbitration and mediation proceedings involving millions of dollars and complex legal and factual issues.

11. I have mediated or arbitrated cases in most of the major metropolitan areas of the United States, such as San Francisco, Dallas, Baltimore, Los Angeles, Chicago, New Orleans, Washington, D.C., New York City, Boston, Philadelphia, Denver and Atlanta. I have mediated cases involving the Department of Justice, the Nuclear Energy Commission, the Equal Employment Opportunity Commission, the University of Missouri, the City of Kansas City, Jackson County, and

the State of Missouri, among others.

12. I have served as an arbitrator in more than 150 arbitration proceedings across the country.

13. I have served (as recently as last year) as a Special Master, appointed by the Circuit Court of Jackson County, in several proceedings.

14. I have been a member of the American College of Trial Mediators and the College of Commercial Arbitrators, both by invitation. I have been honored by recognition by Super Lawyers, Best Lawyers in America, 100 Best Judges in America, and Best of the Bar. I am Preeminent AV rated by Martindale Hubble.

15. I have been the Chairman of the Federal Courts Committee of the Missouri Bar Association; a member of the Board of Directors of the Kansas City Metropolitan Bar Association; a panelist of the International Center for the Prevention and Resolution of Disputes (CPR); a panelist of the American Arbitration Association; a Master of the Ross T. Roberts Inn of Court; a member of the American Bar Association; a member of the Kansas City Metropolitan Bar Association; a member of the National Institute for Trial Advocacy; a member of the Association for Women Lawyers; a member of the Committee on Federal Model Jury Instructions; a member of the Ad Hoc Committee of the Missouri Supreme Court on Mediation Practice; a member of the KCMBA Committee on Professionalism and Civility; and the Speed Trial Reporter for the United States District Court for the District of Nebraska.

16. I regularly serve as an expert witness addressing issues such as the reasonableness of settlements and, in particular, assessing the reasonableness of attorneys' fees for class counsel when those fees are determined through application of the percentage of a common fund methodology. Notably, I testified before the Honorable Sandra Midkiff in the Circuit Court of Jackson County,

Missouri in *Hale v. Wal-Mart*, where a $90,000,000 class settlement was approved and class counsel were awarded $34,000,000 in attorneys' fees (over one-third of the common fund). I have also testified in the Circuit Court of Jackson County, Missouri on several occasions with respect to attorneys' fees.

17. I served as the primary expert in the *Americold* litigation in Kansas with respect to the reasonableness of consent judgments which were entered in the District Court of Wyandotte County, Kansas. In his lengthy opinion rendered after almost 15 years of litigation, District Judge Seavy relied extensively on my expert opinions in awarding millions of dollars in total recovery.

18. I have taught trial advocacy across the country since 1973 when I joined the initial staff of the National Institute for Trial Advocacy (NITA). I have taught trial advocacy for NITA in various locations in the United States, and in private advocacy training for such companies as the Aetna Insurance Company and the Hartford Insurance Company. I have taught trial advocacy at the University of Kansas, Creighton University, the University of Missouri, and the University of Missouri – Kansas City. I have been a regular speaker for the Missouri Bar Association, the University of Missouri – Kansas City, the Kansas City Metropolitan Bar Association, the Clay County Bar Association, and the Federal Bar Association on such widely varied topics as civil procedure, mediation, arbitration and evidence.

II. Assignment and Compensation

19. I have been asked by Co-Lead Counsel to assess the reasonableness of the common benefit counsel's lodestar submitted in support of their requests for a fee award, and, more particularly, the reasonableness of the hourly rates and blended hourly rate utilized by common benefit counsel to generate that lodestar.

20. The Ralston Law Group is being compensated for my work in submitting this declaration at my hourly rate of $650. Compensation in this matter is not contingent upon the

content of my testimony or the outcome of this litigation.

III. Summary of Expert Opinions

21. In assessing the reasonableness of common benefit counsel's hourly rates, blended hourly rates, and total lodestar, I believe there are three relevant benchmarks: (1) the national market for attorney hourly rates charged in complex MDL and class action litigation of the type and character at issue in this case; (2) the hourly rates charged by opposing counsel in this case, Kirkland & Ellis, LLP; and (3) the Kansas City market for attorney hourly rates charged in complex litigation.

22. Based on my approximately 50 years of professional experience working in this area of the law both in Kansas City and around the country, the hourly rates charged by common benefit counsel and utilized to calculate the lodestar in this case are reasonable. When measured against any of the relevant benchmarks – the national market for complex MDL and class action litigation, opposing counsel's rates, and the Kansas City market for complex litigation – common benefit counsel's hourly rates, blended rate, and lodestar are reasonable. Moreover, these rates do not account for the risk undertaken by counsel in accepting these cases on a contingent-fee basis.

IV. My Analysis and Conclusions

A. The Tenth Circuit's Framework for Awarding Reasonable Attorneys' Fee in Class Action Settlements Yielding a Common Fund

23. In the Tenth Circuit, as is common in many other circuits, attorneys' fees for a class action settlement or judgment are typically awarded as a percentage of the fund created.[1]

24. After analyzing national and Tenth Circuit precedent, this Court has recently opined that one-third of the settlement fund is an appropriate award of attorneys' fees in complex class

[1] *See, e.g., Gottlieb v. Barry*, 43 F.3d 474, 483 (10th Cir. 1994) ("In our circuit . . . *Uselton* implies a preference for the percentage of the fund method.").

action and Multidistrict Litigation ("MDL") within this District.[2]

25. In this litigation, my understanding is that Settlement Class Counsel (including Patrick J. Stueve on behalf of the Co-Lead Counsel and Kansas common benefit counsel) collectively seek an award of one-third of the $1,510,000,000 settlement fund that will then be divided among counsel for the various plaintiff groups. Based on my experience, an award of one third of the settlement fund is consistent with the percentages that courts in this District and in this Circuit have found to be fair and reasonable in similarly situated cases.

26. Although there is a clear preference for utilizing the percentage of the fund methodology to award attorneys' fees, courts in this Circuit also look to other factors, including lodestar – the number of hours spent on the case multiplied by the reasonable hourly rate for the professionals – as a crosscheck to confirm the reasonableness of the requested attorneys' fees.[3]

27. In litigation such as this one, in which the attorneys will be paid solely on a contingency, it is my experience and a view shared by courts that contingency counsel have little incentive to work more hours than are necessary to achieve the best result for the client.[4] Indeed, a

---

[2] *See, e.g., In re: Urethane Antitrust Litig.*, No. 04-1616-JWL, 2016 WL 4060156, at *8 (D. Kan. July 29, 2016) (analyzing Tenth Circuit case law regarding percentage of the settlement fund awards in class actions and approving a one third percentage of the fund attorneys' fees award in a case that, like this case, was settled following a class action trial in the District of Kansas).

[3] *See Johnson v. Georgia Highway Express, Inc.*, 488 F. 2d 714, 717-19 (5th Cir. 1974); *see also Brown v. Phillips Petroleum Co.*, 838 F.2d 451, 454-55 (10th Cir. 1988) (adopting the Fifth Circuit's "*Johnson* factors" and identifying "time and labor involved" as one factor to consider in approving a fee award).

[4] *See, e.g., Been v. O.K. Indus., Inc.*, No. CIV-02-285-RAW, 2011 WL 4478766, at *7 (E.D. Okla. Aug. 16, 2011) ("The Court notes that in a contingent fee action there is little incentive for attorneys to 'churn' a file, that is to work more hours than necessary to accomplish a favorable result. In other words, had Class Counsel been able to obtain the same result while spending less time, they certainly would have done so."); *accord Eatinger v. BP America Prod. Co.*, No. 07-1266-EFM-KMH, ECF No. 375 at 12-13 (D. Kan. Sept. 17, 2012) (holding that reviewing time and labor "is of lesser importance in a non-hourly case").

contingency arrangement is likely to result in the most reasonable economic arrangement because counsel is paid based on their success, rather than on their time.

28. The risks inherent in litigation such as this are daunting and substantial. Class counsel must invest millions of dollars and tens of thousands of hours to sustain prosecution of this type of litigation. So, reflecting the benefit of a contingent arrangement to enhance efficient litigation, as well as the inherent risk of such an arrangement, it is common for courts within the Tenth Circuit and within this District to approve fee awards that represent a multiplier on the lodestar.[5]

29. When the lodestar is used, pursuant to the *Johnson* factors, as a cross-check on the requested fee, courts do not typically scrutinize every time entry, but instead rely on the total number of hours expended as reported by counsel and the blended hourly rate.[6]

B. Common Benefit Counsel's Hourly Rates and Blended Hourly Rate

30. In conducting my analysis, I have neither reviewed common benefit counsel's detailed time records nor made any assessment regarding time spent on any particular aspect of the litigation. As noted previously, however, the very nature of contingent litigation, particularly one contested as vigorously as the case here, encourages efficiency. Instead, I have focused my analysis

---

[5] *See, e.g., In re Crocs., Inc. Sec. Litig.*, No. 07-cv-2351-PAB-KLM, 2014 WL 4670886, at *4 (D. Colo. Sept. 18, 2014) (holding that the 1.23 multiplier was "well below what courts in this District typically award" and noting other approved multipliers that range from 2.5 to 4.6).

[6] *See, e.g., In re Crocs., Inc. Sec. Litig.*, 2014 WL 4670886, at *4 n.4 ("Because the Court has adopted the percentage method, the lodestar calculation is used only for comparison purposes. Thus, the Court will not undertake an exhaustive lodestar analysis.") (internal citations omitted); *In re Rite Aid Corp. Sec. Litig.*, 396 F.3d 294, 306 (3d Cir. 2005) ("The lodestar cross-check calculation need entail neither mathematical precision nor bean-counting. The district courts may rely on summaries submitted by the attorneys and need not review actual billing records."); *In re Xcel Energy, Inc., Sec., Derivative & "ERISA" Litig.*, 364 F. Supp. 2d 980, 999 (D. Minn. 2005) (same); *In re NuvaRing Prod. Liab. Litig.*, No. 4:08 MDL 1964 RWS, 2014 WL 7271959, at *4 (E.D. Mo. Dec. 18, 2014) (same).

on the reasonableness of common benefit counsel's hourly rates.

31. Because the Supreme Court (and this Court) has held that the use of current rates for all hours expended is proper since current rates take into account inflation and the loss of use of funds, it would have been appropriate for me to have evaluated common benefit counsel's current rates.[7] However, in an exercise of billing rate judgment, Co-Lead Counsel utilized 2017 rates for common benefit counsel's time to reflect the fact that the trial and substantive settlement of this matter took place in 2017. In my experience, this exercise of billing rate judgment further supports the reasonableness of common benefit counsel's hourly rates and, as a result, their blended hourly rate and lodestar.

32. The hourly rate ranges used by common benefit counsel to calculate their lodestar in this case are as follows:

Position at Common Benefit Firm	2017 Hourly Rate Range
Partner	$150-$985
Of Counsel	$495-$825
Associate	$170-$775
Paralegal	$63.75-$305
Law Clerk / Summer Associate	$150-$325
Professional Staff	$225-$425

33. Co-Lead Counsel have also informed me that, as of the date of this submission, common benefit counsel have expended approximately 142,823.50 hours in furtherance of this litigation yielding a total lodestar of $81,725,060.90. This represents a blended hourly rate of $572.21. As discussed in additional detail below, this is consistent with blended rates that have been approved in this District.

34. As stated above, I evaluate common benefit counsel's rates against the following

[7] *See Missouri v. Jenkins*, 491 U.S. 274, 282-84 (1989); *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *7 n.7 ("Because of the long delay in receiving payment for past work, the Court concludes that use of current billing rates is appropriate in conducting this lodestar cross-check.").

three relevant benchmarks: (1) the national market for attorney hourly rates charged in complex MDL and class action litigation of the type and character at issue here; (2) the hourly rates charged by opposing counsel in this case, Kirkland & Ellis, LLP; and (3) the Kansas City market for attorney hourly rates charged in complex litigation. It is my opinion that each benchmark supports the reasonableness of common benefit counsel's hourly rates and blended hourly rate, and, by extension, the lodestar calculation.

C. Common Benefit Counsel's Hourly Rates Are Consistent with or less than the National Market for Complex MDL and Class Action Litigation

35. An MDL is necessarily national in scope because it involves cases transferred from courts throughout the country to a single, centralized location. As such, my inquiry at this level focuses on the national marketplace for attorney hourly rates in complex MDL and class action litigation.

36. Following my review of Co-Lead Counsel's and common benefit counsel's hourly rates, blended hourly rate, and lodestar (all outlined above), I conclude that all three are comfortably in line with the national market for experienced and capable counsel litigating complex MDL and class action cases.

37. The *Volkswagen "Clean Diesel" Marketing, Sales Practices, and Product Liability Litigation* provides a compelling data point supporting the reasonableness of common benefit counsel's hourly rates in this case. In conducting a lodestar crosscheck and awarding the requested attorneys' fees (including a lodestar multiplier), Judge Breyer of the United States District Court for the Northern District of California found that "$529 per hour for all work performed and projected, with billing rates ranging from $275 to $1600 for partners, $150 to $790 for associates, and $80 to $490 for paralegals" was reasonable. *In re Volkswagen "Clean Diesel" Mktg., Sales Practices, & Prod. Liab. Litig.*, No. 2672 CRB (JSC), 2017 WL 1047834, at *5 (N.D. Cal. Mar. 17, 2017). At the

top end of the ranges, the hourly rates in the *Volkswagen "Clean Diesel" Marketing, Sales Practices, and Product Liability Litigation* are materially higher than those charged by common benefit counsel in this case. This supports the reasonableness of common benefit counsel's hourly rates in this case.

38. In addition, the *NFL Players' Concussion Injury Litigation* – itself a complex national MDL – provides an apt comparison for this case considering attorneys' fees were awarded in April of this year. One of the Settlement Class Counsel in this case – Chris Seeger of Seeger Weiss LLP – is co-lead counsel in the *NFL Players' Concussion Injury Litigation* where Judge Brody of the U.S. District Court for the Eastern District of Pennsylvania calculated class counsel's common benefit lodestar using a blended hourly rate of $623.05 per hour. *In re Nat'l Football League Players' Concussion Injury Litig*., No. 2:12-MD-02323-AB, 2018 WL 1635648, at *9 (E.D. Pa. Apr. 5, 2018).

39. In this matter, is my understanding that Mr. Seeger has the highest hourly rate of the common benefit counsel in this case at $985 per hour. In the *NFL Players' Concussion Injury Litigation*, Mr. Seeger's rate was approved at $985 per hour. *In re Nat'l Football League Players' Concussion Injury Litig*., No. 2:12-MD-02323-AB, ECF No. 10019 at *20-21 (E.D. Pa. May 24, 2018); *see id*. at ECF No. 7151-2 at *41 (identifying Mr. Seeger and his firm's submitted and approved rates including partner rates ranging from $750 to $985 per hour, of counsel rates ranging from $775 to $795 per hour, associate rates of $600 per hour, and professional staff rates of $215 to $290 per hour).

40. In addition, recognizing its contribution to the litigation, Seeger Weiss' lodestar was approved at a blended hourly rate of $861.28 (an upward enhancement from the standard $623.05 blended hourly rate approved for all common benefit counsel). *Id*. at ECF No. 10019 at *21

("Seeger Weiss has submitted 21,044 hours for a lodestar of $18,124,869.10," which yields a blended hourly rate of $861.28.). In dividing total fees among the various plaintiff firms, Judge Brody then applied a 3.5 lodestar multiplier to Seeger Weiss' approved hourly rates. *Id*. at ECF No. 10019 at *21. In this case, common benefit counsel's blended hourly rate of $572.21 is comfortably below the $623.05 un-multiplied blended hourly rate for common benefit counsel approved in *NFL Players' Concussion Injury Litigation* and significantly less than the $861.28 un-multiplied blended hourly rate approved for Seeger Weiss in that litigation.

41. Common benefit counsel's blended hourly rate of $572.21 is less than or commensurate with the blended hourly rates for complex class action litigation awarded both nationally and within the Kansas City area in the recent past. *See*, *e.g.*, *Abbott v. Lockheed Martin Corp*., No. 06-CV-701-MJR-DGW, 2015 WL 4398475, at *3 (S.D. Ill. July 17, 2015) (awarding attorneys' fees constituting one third of a common fund where class counsel expended 25,084 hours yielding a lodestar of $15,541,544 for a blended hourly rate of $619.58, which was then subject to a 1.33 multiplier); *Bruner v. Sprint/United Mgmt. Co*., No. CIV.A. 07-2164-KHV, 2009 WL 2058762, at *10 (D. Kan. July 14, 2009) (awarding Stueve Siegel Hanson, one of the Co-Lead Counsel in this case, a blended hourly rate of $590.91 nearly nine years ago); *In re: Urethane Antitrust Litig.*, 2016 WL 4060156, at *7 (awarding one third of a common fund as attorneys' fees to class counsel who expended 193,000 hours yielding lodestar of approximately $100,000,000 at a blended rate of approximately $518 per hour); *Will v. Gen. Dynamics Corp*., No. CIV. 06-698-GPM, 2010 WL 4818174, at *3 (S.D. Ill. Nov. 22, 2010) (awarding one-third of a settlement fund as attorneys' fees following a lodestar cross-check based on a $514.60 blended hourly rate nearly eight years ago); *Tussey v. ABB Inc*., No. 2:06-CV-04305-NKL, 2015 WL 8485265, at *5 n.2 (W.D. Mo. Dec. 9, 2015), *reversed on other grounds*, 850 F.3d 951 (8th Cir. 2017) (awarding attorneys' fees based on a

$514.60 blended hourly rate in an ERISA class action); *In re Bank of Am. Wage & Hour Employment Litig.*, No. 10-MD-2138-JWL, 2013 WL 6670602, at *3 (D. Kan. Dec. 18, 2013) (finding a blended hourly rate of $488 in FSLA case reasonable within this District nearly five years ago where Stueve Siegel Hanson was co-lead counsel). In two of these class action cases – *Urethane* ($518 per hour) and *Tussey* ($514 per hour) – the claims were tried and resulted in a favorable verdict for the class. *Urethane* was a local MDL centralized before this Court, and *Tussey* was a class action tried nearby in Jefferson City, Missouri, where rates are typically lower than Kansas City. That these cases were tried, and successfully, represents strong evidence of the complexity issues at stake in the case, justifying the engagement of high-quality counsel, which necessarily require higher costs. There are clear parallels between those two cases and this case, although this MDL was larger with a longer jurisdictional spread, involved greater administrative challenges, fraught with a number of complex legal issues that did not have ready answers, and was premised on legal claims that had not been tested under the unique facts presented here. Thus, I give these two precedents particular weight in my consideration.

42. This benchmark – the national market for complex MDL and class action litigation – supports the reasonableness of common benefit counsel's hourly rates, blended hourly rate, and lodestar.

D. Common Benefit Counsel's Hourly Rates Are Commensurate with or Less Than Those Charged by Opposing Counsel

43. The national scope of this particular litigation is confirmed by the lead law firm the Syngenta Defendants selected to represent them in this litigation in Kansas City. In this case, I understand that the Syngenta Defendants are represented by attorneys from primarily the Washington D.C., Chicago and Los Angeles offices of Kirkland & Ellis, LLP ("Kirkland"), one of the largest law firms in the world.

44. In assessing the reasonableness of the hourly rates charged by common benefit counsel, I frequently look at the hourly rates charged by the counsel selected by the opposing party as a reference point. Indeed, this may be the best measure of reasonableness, as clients have broad discretion in choosing the firms that will represent them and do so knowing that they will be paying the hourly rates, regardless of result, on a regular basis. This is particularly true where, as here, the opposing counsel are paid by the hour without any of the risks of contingent litigation. *See In re: Urethane Antitrust Litig*., 2016 WL 4060156, at *7 (finding that the "amounts at issue justified use of the best counsel charging the highest rates (just as [the Defendant] Dow used similarly high-priced counsel in the litigation).").

45. In 2015, to my knowledge the last year in which the National Law Journal conducted an annual survey of billing rates across the country, the NLJ found that Kirkland had a top hourly billing rate of $995 for partners, with an overall partner billing rate average of $825. The top hourly billing rate for associates was $715, with an average associate rate of $540.[8]

46. Since that survey was conducted, the ABA published an article based on public filings that found Kirkland has reported billable rates as high as $1,445 per hour.[9]

47. In a 2016 article, the Wall Street Journal reported that the hourly rates of partners at Kirkland ranged between $875 and $1,445/hour.[10]

---

[8] *See* January 5, 2015 *National Law Journal* survey, available at http://www.nationallawjournal.com/id=1202713809557/Billing-Rates-Rise-Discounts-Abound.

[9] *See* February 8, 2016 article entitled "Top partner billing rates at BigLaw firms approach $1,500 per hour," available at http://www.abajournal.com/news/article/top_partner_billing_rates_at_biglaw_firms_nudge_1500_per_hour.

[10] *See* February 9, 2016 article entitled "Legal Fees Cross New Mark: $1,500 an Hour," available at https://www.wsj.com/articles/legal-fees-reach-new-pinnacle-1-500-an-hour-1454960708.

48. In an article dated May 11, 2018, The New York Times reported that Kirkland was billing at rates as high as $1,745 per hour.[11]

49. Perhaps most relevant, on Kirkland's own website, Kirkland currently reports that "[r]ecent court filings show that Kirkland partners are billing [their client] between $930 to $1,745 per hour for their services; of counsel at hourly rates ranging from $555 to $1,745; and associates between $555 and $1,015 per hour."[12]

50. Critically, Syngenta's engagement of Kirkland attorneys reflects how the Syngenta Defendants viewed this litigation—it was national in scope, required nationally-recognized counsel to defend, and Syngenta was willing to pay national rates to ensure this defense.

51. In addition, the rates charged by the Special Master in this case are similarly relevant to this Court's analysis of the reasonableness of common benefit counsel's hourly rates. In its Order appointing Ellen K. Resiman as the Special Master in this MDL, the Court approved hourly rates for Special Master Reisman up to $950/hour, Andrew Karron up to $850/hour, and Ethan Greene up to $750/hour. In addition, associates were approved to bill up to $550/hour and legal assistants were approved up to $200/hour. ECF No. 1745 at *5.

52. Here, the common benefit partners, of counsels, and associates in this litigation have billable hour rates that are in line with or substantially less than each rate range reported by the Kirkland lawyers and approved for the Special Master. It is also fair to note that none of these rates are contingent and/or reflect risk tied to the outcome of the case. Thus, it is appropriate to consider these rates in the calculation of common benefit counsel's lodestar, before it is adjusted upward

---

[11] *See* May 11, 2018 article entitled "At Toys 'R' Us, a $200 Million Debt Problem Could Lead to $348 Million in Fees," available at https://www.nytimes.com/2018/05/11/business/toys-r-us-bankruptcy.html.

[12] *See* https://www.kirkland.com/sitecontent.cfm?contentID=230&itemId=13055.

based on the other *Johnson* factors, such as the contingent nature of the representation. Importantly, contingent lawyers in litigation like this assume significant risk that hourly lawyers collecting fees based on these rates do not. Specifically, they undertake the risk that (1) the litigation will result in a successful recovery for their clients and (2) that the size of this recovery will be sufficient to justify their investment of time and labor and their advancement of expenses. In my experience, people often discount the risks undertaken in such an endeavor. It is not unusual for contingency attorneys to invest years of their labor in a case without being compensated, as this case demonstrates. During this time, firms have to pay their staff and employees, cover overhead, and, typically (as here), advance significant litigation costs the recovery of which is also at risk and tied to the outcome of the litigation. Typically, these firms fund operations through firms or personal savings guaranteed by the partners of the firm; thus, it is not just their own labor at risk in these cases, but their personal finances as well.[13] I note this for two reasons: *first*, to show the extent of the risk undertaken by counsel in a case like this that requires a massive investment of time and advancement of costs on behalf of the client; and, *second*, to note that the hourly rates I have reviewed do *not* take this risk into account, as these rates are supported by hourly rates found reasonable before they were enhanced through the use of a multiplier and by Kirkland's own hourly, non-contingent rates.

53. In my opinion, this supports the reasonableness of common benefit counsel's hourly rates in this case.

E. Common Benefit Counsel's Hourly Rates Are Commensurate with the Kansas City and Midwestern Market for Complex Litigation

54. Although the national scope of this type of litigation makes it most appropriate to consider rates charged by similar practitioners, regardless of geographic location, a review of the

[13] Although some firms now use outside funders whose recovery is contingent on the outcome of the case, allowing firms to share that risk, I understand here that none of the Co-Lead Counsel used such funders.

rates charged in the Kansas City and Midwest markets for complex litigation supports the reasonableness of common benefit counsel's hourly rates.

55. Of the Co-Lead Counsel firms, only Stueve Siegel Hanson is based in the Kansas City area. Although Stueve Siegel Hanson is based in the Kansas City area, I know from personal experience that the firm's practice is national in scope. As with the other Co-Lead Counsel firms, Stueve Siegel Hanson has represented to me that the rates they charge in litigation locally is the same as what they charge in all of their matters regardless of location. My review of Stueve Siegel Hanson's recent attorneys' fee awards demonstrates that the firm charges the same hourly rates both nationally and locally.

56. A sample of Stueve Siegel Hanson's recent attorneys' fee awards confirms that their hourly rates – and by extension, common benefit counsel's rates – are reasonable both nationally and within the Kansas City area:

- *Hapka v. CareCentrix, Inc.*, No. 16-cv-02372-KGG, 2018 WL 1879845, at *1 (D. Kan. Feb. 15, 2018) (applying a pure lodestar analysis and approving Stueve Siegel Hanson's 2017 hourly rates in a data breach class action ranging from $645 to $865 per hour for partners, $375 to $475 per hour for associates, and $225 to $275 for professional staff); *see id.* at ECF No. 95 at *10 (identifying Stueve Siegel Hanson's requested hourly rates);

- *Spangler v. Nat'l Coll. of Tech. Instruction*, 2018 WL 846930, at *2 (S.D. Cal. Jan. 5, 2018) (approving Stueve Siegel Hanson's 2016 rates of $795 to $825 per hour for partners, $595 per hour for of counsels, and $315 to $525 per hour for associates after applying the lodestar method to a contested attorneys' fee application);

- *Criddell v. Premier Healthcare Services, LLC*, Case No. 2:16-cv-05842-R-KS, ECF No. 64 at *3 (C.D. Cal. Jan. 16, 2018) (adopting an arbitration award of attorneys' fees after a fully contested fee application and approving Stueve Siegel Hanson's 2016 hourly rates, including a partner at $825 per hour, an of counsel at $525 per hour, an associate at $395 per hour, and professional staff at $245 per hour after applying the lodestar method); *see also id.* at ECF No. 59-4 at (21-31 (arbitrator's award analyzing timekeepers' hourly rates);

- *Magill v. DIRECTV, LLC*, No. CV 16-00356-SVW-AS, 2017 WL 8894320, at *2 n.1 (C.D. Cal. June 23, 2017) (approving Stueve Siegel Hanson's 2016 rates of $825 per hour for partners, $600 to $650 per hour for of counsels, $375 per hour for an associate,

and $245 per hour for professional staff after applying the lodestar method); *see also id.* at ECF No. 56-1 at *5-6 (identifying Stueve Siegel Hanson's requested hourly rates);

- *Bennett v. Sprint Nextel Corp., et al.*, Case No. 2:09-cv-02122-EFM-GEB, ECF No. 301 at *2 (D. Kan. Aug. 12, 2015) (approving Stueve Siegel Hanson's rates at $600 to $725 per hour for partners and approving the firm's co-counsel at rates of $725 to $975 per hour for partners, $300 to $625 per hour for associates, and $175 to $295 per hour for paralegals); *see also id*. at ECF No. 289-5 at *9 (identifying hourly rates for specific Stueve Siegel Hanson timekeepers); *see id* at ECF No. 289-3 at *6 (identifying Motley Rice LLC's submitted and approved hourly rates);

- *Garcia v. Tyson Foods, Inc.*, No. 06-2198-JTM, 2012 WL 5985561, at *3 (D. Kan. Nov. 29, 2012) *aff'd* 770 F.3d 1300 (10th Cir. 2014) (approving Stueve Siegel Hanson's rates of $600 per hour for senior partners, $400 per hour for junior partners and $125 to $175 for professional staff, with an overall blended hourly rate of $302.29 nearly six years ago);

- *Berry v. Volkswagen of America*, Case No. 0516-CV01171-01, May 3, 2011 Findings of Fact, Conclusions of Law, and Judgment (Circuit Court of Jackson County, Missouri) *aff'd* 397 S.W.3d 425 (Mo. banc 2013) (approving Stueve Siegel Hanson's 2013 rates of $400 to $650 for partners, $252 to $375 for associates, and $75 to $196 for professional staff, holding that the "hourly rates charged by class counsel were reasonable" over seven years ago);

- *In re: Pre-Filled Propane Tank Marketing Litigation*, Case No. 09-md-2086, ECF No. 164 at *2 (W.D. Mo. Oct. 20, 2010) (approving a blended hourly rate of $495 for Stueve Siegel Hanson nearly eight years ago);

- *In re: H&R Block Inc. Express Marketing Litigation*, Case No. 4:06-md-01786, ECF No. 232 at *2 (W.D. Mo. May 17, 2010) (approving Stueve Siegel Hanson and its co-counsel at rates of $425 to $750 per hour for partners, $225 to $485 per hour for associates, and $75 to $290 for professional staff nearly eight years ago);

57. The rates charged by other plaintiff-side lawyers in complex MDL and class action litigation in the Kansas City area likewise confirm the reasonableness of common benefit counsel's hourly rates.

58. For example, two of the common benefit law firms in this MDL – Bolen Robinson & Ellis and The Holland Law Firm – were involved in litigation pending in the United States District Court for the Western District of Missouri. *Pollard v. Remington Arms Co., LLC*, Case No. 13-0086-ODS, ECF No. 181 ("Plaintiffs' Supplemental Fee Application") (W.D. Mo. Jan. 17, 2017).

Ultimately, the court approved the fee application in that consumer class action with rates ranging from $261 to $897 per hour and finding that "the average hourly fees, although some are on the high side, are not dissimilar to those hourly rates charged in the Kansas City area." *Pollard v. Remington Arms Co., LLC*, 320 F.R.D. 198, 222 (W.D. Mo. 2017) (awarding a 1.08 multiplier on attorneys' fees where class counsel expended 19,293.64 hours for a lodestar of $11,499,027.50, which yields a blended hourly rate of $596).

59. Additional examples from the Kansas City area and from around the Midwest are:

- *Abbott v. Lockheed Martin Corp.*, 2015 WL 4398475, at *3 (S.D. Ill. July 17, 2015) (approving attorneys' fees in an employee retirement benefits class action and awarding an hourly rate of $974 per hour for attorneys with 25 or more years of experience, $826 per hour for attorneys with 15-24 years of experience, $595 per hour for attorneys with 5-14 years of experience, $447 per hour for attorneys with 2-4 years of experience, and $300 per hour for paralegals);

- *Tussey v. ABB Inc.*, No. 2:06-CV-04305-NKL, 2015 WL 8485265, at *5 n.2 (W.D. Mo. Dec. 9, 2015), *reversed on other grounds*, 850 F.3d 951 (8th Cir. 2017) (awarding a $514.60 blended hourly rate in an employee benefits class action based on the following hourly rate ranges: "for attorneys with 25 years or more experience, $800 per hour; for attorneys with 15-24 years of experience, $625 per hour; 5-15 years of experience, $450 per hour; 2-4 years of experience, $325 per hour; and for professional support staff, $125 per hour." It should be noted that the Eighth Circuit specifically declined to overturn the blended hourly rate of $514.60 over the defendant's vigorous protest);

- *Will v. Gen. Dynamics Corp.*, No. CIV. 06-698-GPM, 2010 WL 4818174, at *3 (S.D. Ill. Nov. 22, 2010) (awarding attorneys' fees nearly eight years ago and noting that $514.60 was a reasonable blended hourly rate and $800 per hour was a reasonable hourly rate for partners because "[t]his is national litigation which few lawyers or law firms are capable of handling.").

60. Based on data published by the National Law Journal from 2014, common benefit counsel's hourly rates are commensurate with those of lawyers with similar experience at Kansas City's largest law firms handling complex litigation on a national basis. For example, four non-contingent, hourly rate law firms that are either based in or have a significant presence in Kansas City that handle complex litigation cases reported billing ranges that are comparable or higher to

those submitted here: Polsinelli (top range of $750); Bryan Cave (top range of $860); Husch Blackwell (top range $925); and Dentons (top range $1,050).[14]

61. The attorneys' fee awards (both nationally and in the Kansas City area) to the local Co-Lead Counsel firm (Stueve Siegel Hanson), the attorneys' fee awards to other plaintiff-side lawyers in the Kansas City area and around the Midwest, and the hourly rates charged by counsel at the largest, non-contingent firms in the Kansas City area all commensurate with the rates charged by common benefit counsel in this case. In my opinion, this benchmark supports the reasonableness of common benefit counsel's hourly rates, blended hourly rate, and lodestar.

V. Conclusion

62. For all of the reasons discussed above and using these rates for the sole purpose of performing the lodestar cross-check, I believe that the hourly rates used by common benefit counsel are reasonable and appropriate in light of the nature of this specific litigation.

[14] *See, e.g.*, January 13, 2014, Nat'l L.J., available at http://www.nationallawjournal.com/id=1202636785489/Billing-Rates-Across-the-Country (the 2015 survey cited above only included the Top 50 law firms, unlike the 2014 survey that included many more law firms).

I declare under penalty of perjury that the foregoing is true and correct to the best of my knowledge. Executed this 9th day of July, 2018, at Kansas City, Missouri.

IV. BACKGROUND OF THIS LITIGATION AND SETTLEMENT 8

V. SUMMARY OF OPINIONS 15

VI. DETAILED DISCUSSION OF OPINIONS 16

A. The Attorneys' Fees Requested by Class Counsel Are Reasonable 17

1. This Court Should Use the Percentage-of-the-Fund Method 17

2. The 33⅓ Percent Requested Here Is Reasonable 19

a. The Percentage Requested Is Justified Under the *Johnson* Factors Based on the Compelling Circumstances in This Case 19

i. Time and Labor Required 21

ii. Novelty and Difficulty of the Questions 22

iii. Skill Requisite to Perform the Legal Service Properly 30

iv. Preclusion of Other Employment Due to Acceptance of the Case 33

v. Customary Fee 33

vi. Any Prearranged Fee 35

vii. Time Limitations Imposed by the Client or the Circumstances 35

viii. Amount Involved and Results Obtained 36

ix. Experience, Reputation, and Ability of Attorneys 36

x. Undesirability of the Case 37

xi. Nature and Length of Professional Relationship With the Client 37

xii. Awards in Similar Cases 37

b. The Percentage Requested Is Supported by Awards in Other Class Actions, Including So-Called Mega-Fund Cases 38

3. There Is No Need for a Lodestar Cross Check 46

4. In Any Event, a Lodestar Analysis Supports the Fees Requested 47

a. The Hours Spent by MDL Class Counsel Are Reasonable 48

b. The Billing Rates Proposed by MDL Class Counsel Are Reasonable 49

c. Additional Expected Hours Should Be Included 54

d. The Multiplier Is Well Justified Based on Tenth Circuit Precedent 54

e. The Multiplier Is Well Justified in Comparison With Other Mega-Fund Cases 57

f. The Multiplier Is Supported by the Relevant *Johnson* Factors 59

5. Conclusion on Attorneys' Fees 59

B. The Proposed Allocation of Attorneys' Fees Is Reasonable 60

C. The Out-of-Pocket Costs Sought by Class Counsel Are Reasonable 61

D. The Proposed Incentive Payments for the Class Representatives Are Reasonable 62

VII. CONCLUSION 67

APPENDIX A: Curriculum Vitae 69

APPENDIX B: Materials Reviewed 83

ROBERT H. KLONOFF, under penalty of perjury, declares as follows:

I. INTRODUCTION

1. I have been asked by class counsel to opine on the reasonableness of: (1) the requested attorneys' fees; (2) the proposed allocation of attorneys' fees; (3) the requested out-of-pocket costs; and (4) the proposed incentive payments to certain MDL class representatives and bellwether plaintiffs. I am offering my opinions for the Court's consideration based on my background and experience. I recognize, of course, that my role is limited and that this Court will make the ultimate decision.

II. QUALIFICATIONS

2. I have served as an expert in numerous class action cases, including several recent high-profile class settlements. I am currently the Jordan D. Schnitzer Professor of Law at Lewis & Clark Law School and have held that position since June 1, 2014. This is an endowed, tenured position at the rank of full professor. From July 1, 2007, to May 31, 2014, I served as the Dean of Lewis & Clark Law School, and I was also a full professor at Lewis & Clark during that time. Immediately prior to assuming the deanship at Lewis & Clark, I served for four years as the Douglas Stripp/Missouri Professor of Law at the University of Missouri-Kansas City School of Law (UMKC). That appointment was an endowed, tenured position at the rank of full professor. Prior to my academic post at UMKC, I served for more than a dozen years as an attorney with the international law firm of Jones Day, working in the firm's Washington, D.C. office. For most of that time, I was an equity partner at the firm. (I continued to work at Jones Day while I was employed at UMKC; my status with the firm during that period changed from partner to of counsel.) While working at Jones Day (before joining the UMKC faculty), I also served for many years as an adjunct professor of law at Georgetown University Law Center. Before joining Jones Day, I served as an Assistant United States Attorney and as an Assistant to the Solicitor General of the United States. Immediately after graduating from law school, I served as a law clerk for Chief Judge John R. Brown of the U.S. Court of Appeals for the Fifth Circuit. I received my law degree from Yale Law School.

3. In my various academic positions, I have taught (among other subjects) complex litigation, class actions, civil procedure, federal courts, and federal appellate procedure.

4. In September 2011, the Chief Justice of the United States appointed me to serve a three-year term as the academic voting member of the Judicial Conference Advisory Committee on Rules of Civil Procedure ("Advisory Committee"). The Advisory Committee considers and recommends amendments to the Federal Rules of Civil Procedure. Only one civil procedure professor in the United States is selected by the Chief Justice to serve in that role during any three-year term. In May 2014, the Chief Justice reappointed me to serve a second three-year term on the Advisory Committee. I completed that service in May 2017. (The maximum period of service on the Advisory Committee is six years.) I also served on the Advisory Committee's Class Action Subcommittee, which took the lead for the full Advisory Committee on proposed amendments to the federal class action rule, Federal Rule of Civil Procedure 23. Those proposed amendments are currently making their way through the rules adoption process and are on track to become effective on December 1, 2018.[1]

5. I served for five years as an Associate Reporter for the American Law Institute's class action (and other multi-party litigation) project, *Principles of the Law of Aggregate Litigation*. I was the principal author of Chapter 3, which addresses class action settlements and attorneys' fees. The ALI project was unanimously approved by the membership of the American Law Institute at its annual meeting in May 2009, and was published by the American Law Institute in May 2010. It has been frequently cited by courts and commentators.[2]

6. I have more than 30 years of experience as a practicing lawyer. I have had eight oral arguments before the U.S. Supreme Court, and numerous oral arguments in other federal and state appellate courts throughout the country, including oral arguments in eight federal circuits. As an attorney at Jones Day, I personally handled more than 100 class action cases, mostly (but not entirely) on the defense side.

7. I have lectured and taught on class actions and other litigation topics throughout the United States and abroad, including presentations at law schools in Cambodia, Canada, China, Colombia, Croatia, Ecuador, Germany, India, Israel, Italy, Japan, the Philippines, Russia, South Korea, Taiwan, and Turkey. Over the years, I have frequently appeared as an invited speaker at class action symposia, conferences, and continuing legal education programs.[3]

8. I co-authored the first casebook devoted specifically to class actions, and I am now the sole author of that book: *Class Actions and Other Multi-Party Litigation: Cases and Materials* (West 4th ed. 2017). I am also the sole author of the Nutshell on class actions: Robert H. Klonoff, *Class Actions and Other Multi-Party Litigation in a Nutshell* (West 5th ed. 2017). These texts are used at law schools throughout the United States and have been cited by many courts and commentators.[4] In addition, I have authored or co-authored numerous scholarly articles on class actions and other topics.[5] I also serve on the advisory board of Class Action Litigation Report, a Bloomberg/BNA publication.

9. In October 2014, I was elected to membership in the International Association of Procedural Law (IAPL), an organization of preeminent civil procedure scholars from around the world. I was selected in a competitive process to present a scholarly article on class actions at the May 2015 Congress of the IAPL, an event held once every four years.

10. I have testified as an expert in numerous class action cases and in other cases raising civil procedure issues. Between 2011 and the present, I testified in the following cases:

- *Jabbari v. Wells Fargo & Co.*, No. 15-cv-02159-VC (N.D. Cal.) (submitted expert declaration on class certification, settlement fairness, attorneys' fees, costs, and incentive payments in unauthorized accounts litigation, dated 1/19/18; submitted supplemental declaration on 5/21/18);
- *Lynch v. Lynch*, No. F.D. 14-6239-006 (Pa. Ct. Comm. Pl., Allegheny Cnty.) (submitted expert declaration on the nature of class action law practice in the context of a divorce proceeding involving a class action attorney) (dated 9/05/17);
- *In re Chinese-Manufactured Drywall Litigation*, MDL No. 2047 (E.D. La.) (submitted expert declaration on attorneys' fees issues) (dated 5/04/17);

(submitted expert declaration on class certification, settlement fairness, and attorneys' fees relating to proposed Halliburton/Transocean class settlement) (dated 8/5/16);
- *Ben-Hamo v. Facebook, Inc. and Facebook Ireland Limited*, No. 46065-09-14 (Central District Court, Israel) (submitted expert declaration on Sept. 3, 2015, on behalf of Facebook, Inc. and Facebook Ireland Limited addressing various issues of U.S. civil procedure and class action law);
- *Skold v. Intel Corp.*, Case No. 1-05-CV-039231 (Super. Ct. of Cal., Santa Clara County) (submitted expert declaration on class settlement approval, attorneys' fees, and incentive payments to class representatives) (dated 12/30/14);
- *In re National Football League Players' Concussion Injury Litigation*, No. 2:12-md-02323-AB (E.D. Pa.) (submitted expert declaration on class certification, class notice, and settlement fairness) (dated 11/12/14);
- *MBA Surety Agency, Inc. v. AT&T Mobility, LLC*, Case No. 1222-CC09746 (Mo. 22d Dist.) (submitted expert declaration on class certification and settlement fairness on 2/13/13; submitted supplemental expert declaration on 2/19/13; and testified in court on 2/20/13);
- *In re Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico on April 20, 2010*, No. 2:10-md-02179-CJB-SS (E.D. La.) ("Deepwater Horizon") (submitted expert declarations on class certification, fairness, and attorneys' fees for the economic and property damages settlement (Doc. No. 7104-3) and

class certification, fairness, and attorneys' fees for the personal injuries settlement (Doc. No. 7111-4) (both dated 08/13/12), and submitted supplemental expert declarations for both class settlements (Doc. No. 7727-4) (economic), (Doc. No. 7728-2) (medical) (both dated 10/22/12));

- *Robichaux v. State of Louisiana, et. al.* (No. 55,127) (18th Judicial Dist. Ct., Iberville Parish, La.) (submitted written report on attorneys' fees on February 20, 2012, gave deposition testimony on March 7, 2012, and testified in court on April 11, 2012); and
- *In re AT&T Mobility Wireless Data Services Sales Tax Litig.*, MDL No. 2147, Case No. 1:10-cv-02278 (N.D. Ill.) (submitted expert declarations on the fairness of a proposed class action settlement (Doc. No. 163-3) and on attorneys' fees and incentive payments (Doc. 164-1) (both dated 03/08/11), and testified in court on March 10, 2011).

11. Courts reviewing class settlements and attorneys' fees issues have relied extensively on my testimony. For example, in the *Wells Fargo Unauthorized Accounts* litigation, Judge Chhabria cited my testimony in ordering that objectors to the class settlement post an appeal bond.[6] In the *Volkswagen Clean Diesel* litigation, Judge Charles Breyer repeatedly cited and quoted my two Declarations in his three opinions—relating to the 2.0-liter VW class settlement, the 3.0-liter VW class settlement, and the class settlement with VW's co-defendant, Bosch.[7] In the *Deepwater Horizon* case, Judge Carl Barbier cited and quoted my Declarations (relating to a proposed settlement with British Petroleum) more than 60 times in his two opinions analyzing class certification and fairness.[8] In a later order in that MDL, Judge Barbier repeatedly cited my Declaration (which I filed in connection with a class settlement involving Transocean and Halliburton).[9] In the *AT&T Mobility* litigation, Judge Amy St. Eve (now a Judge on the Seventh

Circuit) cited and quoted my Declarations more than 20 times in approving a class settlement and awarding attorneys' fees.[10] And in *Skold v. Intel Corp.*, Judge Peter Kirwan cited my Declaration in approving a class settlement and awarding attorneys' fees.[11]

12. Along with my expertise and experience in the areas of class certification and settlement fairness, I have done extensive work in the area of attorneys' fees. In addition to my expert witness work, I have litigated attorneys' fees issues in private practice, have worked on such issues in my role as Associate Reporter for the ALI *Aggregate Litigation* project, and have addressed attorneys' fees issues in my academic writings.[12] In those various tasks, I have developed expertise in attorneys' fees concepts, such as percentage of the fund and the lodestar.

13. I have extensive knowledge of typical hourly rates for attorneys and paralegals in class action litigation. I have served as counsel and as an expert in class action cases throughout the United States, and have gained knowledge of hourly rates during that work. I have also gained familiarity with hourly rates of legal personnel through my work as a scholar.

14. I am being compensated at the rate of $785 per hour. My fee is not contingent on the substance of my opinions.

15. Additional information regarding my qualifications and experience—including a list of my publications—can be found in my curriculum vitae, attached hereto as Appendix A.

III. MATERIALS RELIED UPON

16. In addition to reviewing cases and materials in other class actions, I reviewed numerous documents in the instant case. *See* Appendix B (listing those documents).

REV. 1695 (2006) (discussing attorneys' fees issues in the settlement context); PRINCIPLES OF THE LAW OF AGGREGATE LITIGATION §§ 3.08, 3.13 (Am. Law Inst. 2010) (addressing attorneys' fees in class actions and other aggregate litigation).

IV. BACKGROUND OF THIS LITIGATION AND SETTLEMENT

17. This Court is thoroughly familiar with the background of this litigation. Thus, I focus only on those facts that bear on my opinions in this matter. The factual statements in this Declaration are based on the case-specific materials I have reviewed, which are listed in Appendix B.

18. The instant litigation commenced in the fall of 2014, with numerous lawsuits filed against Syngenta[13] in federal and state court resulting from Syngenta's decision to commercialize two genetically modified organisms (GMO) corn seeds (containing the new traits MIR162 and Event 5307), with trade names Viptera and Duracade. According to plaintiffs, Syngenta's commercialization of Viptera caused corn containing MIR162 to become commingled with the rest of the U.S. corn supply, and, as a result, China ceased importation of corn from the U.S. for a period of time. Because of Syngenta's actions, the price of corn fell, harming corn producers and various non-producers (grain elevators and ethanol production facilities).

19. In December 2014, the Judicial Panel on Multidistrict Litigation (JPML) consolidated the pending federal cases in this Court. On January 22, 2015, this Court entered an order appointing Co-Lead Counsel, the Executive Committee, Interim Class Counsel, and Liaison Counsel. That order also defined the authority, duties, and responsibilities of counsel appointed to leadership positions in the federal multidistrict litigation (MDL).

20. In March 2015, the MDL plaintiffs filed two consolidated master complaints (one on behalf of producers, the other on behalf of non-producers).

21. In May 2015, the MDL plaintiffs filed two amended master complaints. Syngenta moved to dismiss both complaints, arguing, *inter alia*, that it owed no legal duty to prevent commingling of corn grown by third parties from its GMO corn seed and plaintiffs could not establish proximate cause; that various claims were barred by the economic loss doctrine; and that the various causes of action were barred for a variety of other reasons. In a 120-page opinion, this Court granted in part and denied in part the motion dismiss (dismissing various counts but leaving intact claims under the Lanham Act (15 U.S.C. §§ 1051 et seq.), claims of

[13] "Syngenta" is used herein as shorthand for the various Syngenta entities and companies named in this litigation. These are: Syngenta AG; Syngenta Crop Protection AG; Syngenta Corp.; Syngenta Crop Protection, LLC; Syngenta Seeds, Inc. (now known as Syngenta Seeds, LLC); and Syngenta Biotechnology, Inc. (now merged with Syngenta Crop Protection, LLC, as the remaining entity).

negligence and tortious interference, and various consumer protection claims). The Court denied Syngenta's request for interlocutory appeal under 28 U.S.C. § 1292(b).

22. On July 27, 2015, this Court entered an order establishing protocols for common benefit work and expenses. The order also established the common benefit fee and expense funds. As the Court described it, the order "provides for the fair and equitable sharing among plaintiffs' counsel of the burden of services performed and expenses incurred by attorneys acting for the common benefit of all producer and/or all non-producer plaintiffs in this complex litigation." Order Establishing Protocols for Common Benefit Work & Expenses & Establishing the Common Benefit Fee & Expense Funds (Dkt. No. 936) (hereinafter "Common Benefit Order"). The Common Benefit Order further stated that, in the event of a class settlement:

> [N]o assessment pursuant to this Section will be made, either for attorneys' fees or for expenses, individually from any class member or his/her/its individual attorney as to the portion of any class recovery distributed to that individual class member if the class member remains in the class (*i.e.*, does not opt-out of the class). Instead, all fees and expenses for that class member will come out of the overall class recovery funds provided by defendants, as approved by the Court, or as otherwise Ordered by the Court.

Id. at 20.

23. Approximately six months after the JPML consolidated the federal cases in this Court, the Minnesota Supreme Court entered an order consolidating the cases filed in Minnesota state court in a single venue in Hennepin County, Minnesota. Consolidated master complaints were filed in the Minnesota action.

24. On October 21, 2015, at the request of the MDL parties, this Court entered a Coordination Order, encouraging the parties to coordinate discovery against Syngenta. The following month, numerous producer plaintiffs filed suit in Illinois state court. Syngenta removed those cases to federal court. The Illinois federal court held that, because those cases were a mass action under the Class Action Fairness Act, they could not be transferred to this Court. Numerous additional cases were filed in Illinois state court in January 2016 and were consolidated before a single judge. Subsequently, thousands of additional individual cases were filed in Illinois state court, and numerous class actions were filed in state courts in Indiana, Iowa, Michigan, Nebraska, and Ohio, many of which were removed by Syngenta and transferred to the

MDL. Additionally, in December 2015, class actions were filed by ethanol production facilities in several state courts, including Ohio and Indiana. Syngenta did not remove those cases.

25. In addition to attacking the MDL complaints, Syngenta also moved to dismiss the Minnesota complaint. In a 55-page opinion, the Minnesota court largely denied the motion, citing with approval to this Court's order on Syngenta's motions to dismiss in the MDL. The judges in the Illinois state and federal cases rejected similar challenges by Syngenta. Syngenta was successful, however, in securing dismissal of all of the Ohio claims by one ethanol production facility.

26. On October 21, 2015, this Court lifted the general stay of discovery, opening the door to full discovery against Syngenta and third parties, and full discovery from the producer and non-producer bellwether plaintiffs and the class representatives from the bellwether states. Among other discovery, MDL plaintiffs obtained more than 2.3 million pages of documents, which were placed in a document depository. All of the MDL bellwether plaintiffs (both representatives and non-representative individuals) were deposed and produced written discovery. Similar discovery occurred in the Minnesota case. MDL plaintiffs retained two agricultural economists as experts, both of whom were deposed twice and were additionally utilized in the Minnesota action. MDL plaintiffs also prepared for and took over 30 depositions of current and former Syngenta employees, many of which proved critical at trial given that these individuals were outside the subpoena power of the Court. Plaintiffs and Syngenta also sought discovery from a number of non-parties, and deposed representatives of the National Corn Growers Association, the National Grain and Feed Association, the American Seed Trade Association, the United States Grains Council, the North American Export Grain Association, and the Biotechnology Innovation Organization. Syngenta also cross-noticed the depositions of at least 40 individuals deposed in coordinated actions involving ADM and Cargill. And both sides prepared for and conducted several lengthy depositions of many of the more than 16 experts disclosed by plaintiffs and Syngenta.

27. On June 15, 2016, the MDL plaintiffs moved for class certification of a nationwide class (and eight state-law classes). Plaintiffs' submission included 114 pages of briefing and more than 1500 pages of evidence. Syngenta's opposition briefing totaled 127 pages, with more than 800 pages of evidence (including reports of three economists, whom plaintiffs deposed).

Plaintiffs' reply totaled 104 pages, along with 1800 additional pages of evidence. Plaintiffs' motion was also opposed by the Phipps/Clark plaintiffs, who argued that plaintiffs' expert damages models were unreliable and failed to establish classwide damages. *See id*. ¶ 350. This Court conducted a two-day hearing on September 13–14, 2016, consisting of both evidentiary presentations (attended by the Minnesota judge) and oral argument. Also on June 15, 2016, Minnesota plaintiffs moved for class certification, using the same economists that plaintiffs in the MDL used. The Minnesota court heard argument on September 16, 2016.

28. On September 26, 2016, this Court granted class certification, and the Minnesota court granted class certification on November 13, 2016. On December 7, 2016, the Tenth Circuit denied Syngenta's request for Rule 23(f) interlocutory review of this Court's class certification order, and on January 10, 2017, the Minnesota Court of Appeals denied interlocutory review of the Minnesota trial court's class certification order.

29. Bellwether trial dates were set in the MDL and in Minnesota, and the parties engaged in further expert discovery. The MDL plaintiffs produced six experts. Syngenta produced 12 experts in the MDL.

30. In February 2017, both sides moved for summary judgment in both the MDL and Minnesota cases. Plaintiffs moved for summary judgment as to various defenses raised by Syngenta. Syngenta moved for summary judgment as to plaintiffs' Lanham Act claims, negligence claims, claims based on Syngenta's sale of Duracade, and punitive damages claims. Both motions were granted in part and denied in part. On April 5, 2017, this Court granted summary judgment for plaintiffs with respect to certain applications of Syngenta's defenses of intervening cause, assumption of risk, mitigation, business and economic justification, antitrust preemption, and comparative fault. The Court granted summary judgment for Syngenta as to all of plaintiffs' claims under the Lanham Act, as well as all claims of negligence based on alleged misrepresentation, voluntary undertaking, failure to warn, and duty to recall. The court otherwise denied both motions. The Minnesota court entered its summary judgment order on April 11, 2017.

31. The Minnesota bellwether case, which was intended to try the claims of a single bellwether producer plaintiff, commenced trial in April 2017. On April 26, 2017, a mistrial was declared in that case because of a jury issue before opening statements began.

32. On June 5, 2017, the Kansas bellwether class action (involving more than 7,000 Kansas corn growers) went to trial in the MDL. Plaintiffs' trial team included the four co-lead attorneys appointed by the Court and attorneys and staff from their law firms. Syngenta's trial team included at least seven Kirkland & Ellis partners, with assistance from a number of associates and support staff, and at least two partners from Berkowitz Oliver. On June 23, 2017, a jury returned a verdict of $217.7 million for the Kansas class, the full amount of compensatory damages requested by plaintiffs.[14]

33. Settlement discussions had begun even prior to the MDL trial, and this Court had appointed a special master, Ellen K. Reisman, to assist in settlement discussions. Syngenta made clear, however, that it had no intention of settling the litigation prior to trial. After the June 23, 2017 jury verdict in the MDL, this Court appointed a plaintiffs' negotiation committee. The committee included an attorney from one of the firms on the MDL plaintiffs' executive committee (Christopher Seeger), class counsel in Minnesota, and counsel representing thousands of individual producer and non-producer plaintiffs. Subsequently, the Court requested that the special discovery master in the Illinois state and federal cases (the Honorable Daniel J. Stack, retired) participate in the settlement discussions.

34. Although a class trial began in Minnesota state court in September 2017, the trial was halted when the negotiating committee announced the execution of a settlement term sheet. The term sheet provided for a settlement of up to $1.51 billion. Settlement discussions continued after the execution of the term sheet, and separate counsel participated in the negotiations to determine the relief for each of the four subclasses (discussed below).

35. The settlement, as ultimately embodied in the settlement agreement, provides for Syngenta to pay the $1.51 billion in three installments between March 2018 and April 2019. The settlement provides that, upon final approval, none of the $1.51 billion will revert to Syngenta. The settlement class consists of four subclasses: (1) a producer subclass that did not purchase and/or produce Viptera or Duracade, (2) a producer subclass that did purchase and/or produce Viptera or Duracade, (3) a grain handling facility subclass, and (4) an ethanol production facility subclass. The settlement did not include the large corn exporters such as Cargill, ADM, Bunge,

[14] According to the National Law Journal, this represents the 10th-largest verdict in 2017. *See Top 100 Verdicts 2017: Chart*, THE NATIONAL LAW JOURNAL (Apr. 30, 2018), https://www.law.com/nationallawjournal/2018/04/30/top-100-verdicts-2017-chart/?slreturn=20180530185632.

or Louis Dreyfus, several of whom had filed separate lawsuits against Syngenta. The class period is defined as starting on September 15, 2013, and ending as of the date of preliminary approval of the settlement. Under the settlement, class members release their economic claims against Syngenta relating to the conduct at issue but do not release claims for bodily harm.

36. Under the settlement, the costs of settlement administration, attorneys' fees, and class counsel's out-of-pocket costs will first be deducted from the total fund. Specific dollar amounts are allocated to three of the subclasses, with the remainder of funds being used to pay members of the remaining subclass.[15] The agreement sets forth a detailed compensation formula that considers, among other things, the number of corn acres reported on a producer's USDA Form FSA 578 as well as acres not reported to USDA but for which data is available. Weighted averages are set forth for each of five marketing years beginning with 2013–2014. Allocation methodologies are also provided for non-producer grain handling facilities and ethanol production facilities. As part of the preliminary approval process, the parties proposed a multi-faceted notice program, including direct mail and publication notice (print and digital). Regarding attorneys' fees, costs, and incentive payments to class representatives and other plaintiffs, the agreement does not reflect any position by Syngenta with respect to such awards. Any disputes arising from the fact that many individual plaintiffs have separate contingency fee agreements with individual attorneys will be resolved by the Court.

37. On February 23, 2018, MDL co-lead counsel, Minnesota lead counsel, and certain other plaintiffs' counsel entered into a fee-sharing agreement, which provides that any attorneys' fees awarded by the Court will be distributed among the various common benefit law firms as follows: (1) 50 percent will be allocated to Kansas MDL Co-Lead Counsel (Stueve Siegel Hanson; Gray, Ritter & Graham; Gray Reed & McGraw; and Hare Wynn Newell & Newton) to allocate "among all firms that provided common benefit work in the Kansas MDL consistent with the Kansas MDL Court's orders"; (2) 12.5 percent will be allocated to Minnesota counsel Gustafson Gluek to allocate to "all firms that provided common benefit work in the Minnesota MDL consistent with the Minnesota MDL Court's orders"; (3) 17.5 percent will be allocated to

[15] In particular, a maximum of $22.6 million is allocated to producers who purchased and planted Viptera or Duracade; a maximum of $29.9 million is allocated to the grain handling facilities; a maximum of $19.5 million is allocated to the ethanol production facilities; and the remainder is allocated to producers who did not plant Viptera or Duracade corn.

Illinois counsel Clark, Love & Hutson, who "shall petition the Honorable David R. Herndon of the United States District Court for the Southern District of Illinois concerning the allocation of fees among the members of [its] group"; and (4) the remaining 20 percent "will be allocated by the MDL Court, in consultation and agreement with the Minnesota Court and Judge Herndon of the United States District Court for the Southern District of Illinois, taking into consideration the recommendation by the Special Masters." Fee Sharing Agreement at 1–2.[16]

38. On March 12, 2018, the parties moved for preliminary approval of the settlement. A group of plaintiffs (Toups/Coffman) opposed the settlement at the preliminary approval stage for a number of reasons, including an objection as to the anticipated amount of attorneys' fees that might be sought. *See* Toups/Coffman Pls.' Response in Opposition to Class Pls.' Mot. for Preliminary Approval at 3–18 (Dkt. No. 3514) (hereinafter "Toups/Coffman Obj."). The objection stated that class counsel intended to seek attorneys' fees of 33⅓ percent and challenged such fees as being "exorbitant." *Id*. at 14. The objection argued that fees at that level were well above the average fees awarded in mega-fund cases, and particularly for funds of $1 billion or more.

39. On April 10, 2018, this Court entered an order preliminarily approving the settlement. In its order, the Court set a deadline of July 10, 2018, for the filing of attorneys' fees and expense applications (including applications for incentive payments to class representatives). The Court additionally rejected the objections raised by Toups/Coffman. Motions for final approval of the settlement are due October 17, 2018, and the final approval hearing is set for November 15, 2018.

40. MDL co-lead counsel now seek approval of (1) attorneys' fees of one-third (33⅓ percent) of the $1.51 billion settlement fund; (2) the proposed allocation of those fees pursuant to the February 23, 2018 agreement among common benefit counsel; (3) out-of-pocket costs for the MDL plaintiffs of $6,695,350.05; and (4) incentive payments to certain MDL class representatives and bellwether plaintiffs of $5,000 (for 20 bellwether and class representative plaintiffs who participated in written discovery beyond plaintiff fact sheets but were not deposed); $15,000 (for 65 bellwether and class representative plaintiffs who participated in written discovery and were deposed); and $100,000 (for four class representatives who

[16] It is my understanding that the Fee Sharing Agreement will be filed with the Court on July 10, 2018.

participated in written discovery, were deposed, and participated in the Kansas class trial on behalf of Kansas corn farmers).

V. SUMMARY OF OPINIONS

41. The Syngenta litigation has been extremely challenging and hard-fought, with extraordinary lawyers on both sides. Syngenta made clear that it would not settle prior to trial. Thus, the MDL plaintiffs had to litigate class certification and conduct a classwide bellwether trial. Class counsel succeeded in obtaining class certification and eventually won the bellwether trial, recovering the entire $217.7 million that they sought in compensatory damages. Only after that trial verdict did Syngenta agree to a record-setting $1.51 billion settlement.[17] Prior to litigating class certification and proceeding to trial, class counsel conducted extensive and wide-ranging fact and expert discovery, and litigated myriad dispositive legal questions.

42. **Reasonableness of Fees.** The first issue is whether the fees sought (33⅓ percent) are reasonable. In my view, they are. Under the percentage-of-the-fund method, a 33⅓ percentage is justified by the so-called *Johnson* factors: Enormous time and expertise were required to litigate the claims, which raised extremely difficult factual, legal, and expert issues. Class counsel displayed exceptional skill and were largely precluded from taking on other significant matters. Despite extraordinary pressures placed on class counsel, they were victorious at every critical juncture—dispositive motions, class certification, and the bellwether trial—and ultimately reached an historic settlement. Class counsel came to the case with impressive experience and national reputations, and took a great risk by investing enormous time and money in such a challenging case. The fact that thousands of individual plaintiffs agreed to 40 percent contingency arrangements confirms the reasonableness of the requested fee. All of these factors support the request for 33⅓ percent, an award that is supported by numerous cases awarding comparable percentages.

43. I do not believe that a lodestar cross check is necessary or appropriate. In any event, I have done a lodestar cross check for the MDL common benefit counsel and believe that the pertinent figures (142,823.50 total hours, a blended rate of $572.21, and a total lodestar of

[17] The settlement is more than twice what Bayer agreed to pay rice farmers in the most recent lawsuit involving the loss of an export market due to the release of unapproved genetically modified traits. *See Bayer Settles With Farmers Over Modified Rice Seeds*, N.Y. TIMES (July 1, 2011), https://www.nytimes.com/2011/07/02/business/02rice.html.

$81,725,060.90—resulting in a multiplier of 3.079 to reach the fees requested by MDL counsel) fully justify the 33⅓ percent sought under the percentage method.

44. **Allocation of Fees.** Class counsel recommend that the Court divide the fee by awarding 50 percent to MDL common benefit counsel, 12.5 percent to common benefit counsel in the Minnesota litigation, and 17.5 percent to leadership counsel in the Illinois litigation, with the remaining 20 percent to be allocated in the Court's discretion. This approach makes perfect sense to me: It was determined through arms-length bargaining under the auspices of the special masters, and I see nothing to suggest that it is unfair to any segment of plaintiffs' attorneys involved in this litigation.[18]

45. **Out-of-Pocket Costs.** In my view, the out-of-pocket costs sought by counsel are eminently reasonable. Totaling $6,695,350.05, which is only 0.44 percent of the settlement, they consist of essential costs, such as fees and costs for expert witnesses, costs of class certification notice, deposition expenses, etc. These are the types of costs commonly reimbursed by paying clients.

46. **Incentive Payments.** Incentive payments are sought for certain MDL class representatives and bellwether plaintiffs. Those who produced written discovery beyond responding to plaintiff fact sheets would receive $5,000; those who, in addition, sat for depositions would receive $15,000; and those who also attended the Kansas class bellwether trial would receive $100,000. As I explain, these awards are supported by the case law, given the significant time investments involved, the tangible risks to the plaintiffs' livelihoods (including time spent away from their farms), coupled with the substantial risk that at the end of the day, they—like class counsel—would recover nothing.

VI. DETAILED DISCUSSION OF OPINIONS

47. In the remaining sections of this Declaration, I explain in detail my opinions on the reasonableness of (1) the proposed attorneys' fees, (2) the proposed allocation of attorneys' fees, (3) the out-of-pocket costs requested by the MDL plaintiffs, and (4) the proposed incentive payments to certain MDL class representatives and bellwether plaintiffs.

[18] I may offer further opinions on this issue after I review all of the fee and expense applications filed on July 10, 2018.

ATTORNEYS' FEES

A. The Attorneys' Fees Requested by Class Counsel Are Reasonable

48. Class counsel are seeking, as attorneys' fees, 33⅓ percent of the $1.51 billion settlement fund (approximately $503 million). In this section of the Declaration, I analyze the reasonableness of that request.

1. This Court Should Use the Percentage-of-the-Fund Method

49. As an initial matter, this Court must decide whether to use the percentage-of-the-fund method (the percentage method) or the lodestar method. Courts in the Tenth Circuit have discretion in common fund cases to choose either the percentage method or the lodestar method.[19] Both in the Tenth Circuit and nationwide, however, courts have a strong preference for the percentage method.[20] This preference for the percentage method—which I

[19] *See, e.g.*, *Gottleib v. Barry*, 43 F.3d 474, 483, 487–88 (10th Cir. 1994) (noting that "either method is permissible in common fund cases," but holding that the district court abused its discretion in applying the lodestar method contrary to the special master's recommendation; special master had recommended that the percentage method be applied because: "(1) it most closely matches the methodology actually employed in the marketplace; (2) because it matches the market, it provide[s] incentive for counsel to pursue actions such as this on behalf of large groups of investors; (3) it is less subjective than the lodestar plus multiplier approach; (4) it gives primary consideration to the results obtained by counsel; (5) because class counsel was initially retained on a contingent fee basis, a percentage fee most closely approximates the original agreement between client and counsel; (6) a fee expert retained by class counsel opined that percentage fee awards are customary and reasonable in cases like this one; and (7) because of the large number of law firms seeking compensation in this case, a lodestar approach could result in overcharging the class" (citations and internal quotation marks omitted; alteration in original)).

[20] *See, e.g.*, *Gottleib*, 43 F.3d at 487–88 (noting "preference for the percentage of the fund method"); *Rosenbaum v. MacAllister*, 64 F.3d 1439, 1445 (10th Cir. 1995) (to the same effect); *In re Urethane Antitrust Litig.*, No. 2:04-md-01616-JWL, 2016 WL 4060156, at *4 (D. Kan. July 29, 2016) (Lungstrum, J.) May 17, 2013) (noting that the "percentage-of-the-fund method clearly appears to have become the preferred method in common fund cases"); *Jones v. Dominion Resources Services, Inc.*, 601 F. Supp. 2d 756, 758 (S.D. W. Va. 2009) ("The percentage method has overwhelmingly become the preferred method for calculating attorneys' fees in common fund cases."); MANUAL FOR COMPLEX LITIGATION (FOURTH) § 14.121 (2004) (noting that the "vast majority" of courts apply the percentage method); Theodore Eisenberg, Geoffrey Miller & Roy Germano, *Attorneys' Fees in Class Actions: 2009–2013*, 92 N.Y.U. L. REV. 937, 963 (2017) (noting that the lodestar method "was used in only 6.29 [percent] of cases during the 2009–2013 period"); Brian T. Fitzpatrick, *An Empirical Study of Class Action Settlements and Their Fee Awards*, 7 J. EMPIRICAL LEGAL STUD. 811, 832–33 (2010) (noting that district courts "employed the lodestar method in only 12 percent of settlements" from 2006–2007); Theodore Eisenberg & Geoffrey Miller, *Attorneys' Fees and Expenses in Class Action Settlements: 1993–2008*, 7 J. EMPIRICAL LEGAL STUD. 248, 267 (2010) (lodestar method was used in only 9.6 percent of settlements from 2003–2008); AM. LAW

wholeheartedly support—stems primarily from the fact that the percentage method "aligns the interests of class counsel with the interests of the class because the more the class recovers, the more class counsel recovers."[21] By contrast, the lodestar method gives class counsel an incentive to work more hours than are necessary and to avoid early settlement.[22] As one district court in the Tenth Circuit emphasized, "[t]he lodestar method encourages attorneys to bill as many hours as possible, preferably to the firm's most expensive attorneys, and discourages early settlement, even on terms favorable to plaintiffs, because the attorneys will earn more the longer a litigation lasts."[23] Another court observed that, "[w]hile the lodestar approach incentivizes attorneys to work more hours, without regard to the quality of the output or the class's needs, the percentage

Visa USA, Inc.*, 396 F.3d 96, 121 (2d Cir. 2005) (noting that the percentage method "provides a powerful incentive for the efficient prosecution and early resolution of litigation"); *Swedish Hosp. Corp. v. Shalala*, 1 F.3d 1261, 1269 (D.C. Cir. 1993) ("It matters little to the class how much the attorney spends in time or money to reach a successful result."); *Shaw v. Interthinx, Inc.*, No. 13-CV-01229-REB-NYW, 2015 WL 1867861, at *5 (D. Colo. Apr. 22, 2015) ("The Tenth Circuit favors the common fund approach, as opposed to the lodestar method, because a percentage of the common fund is less subjective than the lodestar plus multiplier approach, matches the marketplace most closely, and is the better suited approach when class counsel were retained on a contingent fee basis . . . ." (citation omitted)); *Craft v. Cnty. of San Bernardino*, 624 F. Supp. 2d 1113, 1123 (C.D. Cal. 2008) (emphasizing that the percentage method "aligns the interests of counsel and the class by allowing class counsel to directly benefit from increasing the size of the class fund"); *see also* NAT'L ASS'N OF CONSUMER ADVOCATES, STANDARDS AND GUIDELINES FOR LITIGATING AND SETTLING CONSUMER CLASS ACTIONS 27 (3d ed. 2014) (noting that the percentage method is preferable from consumers' perspective because it "keeps class counsel's financial interest closely aligned with that of the class itself" and "approximates the 'free market' negotiated fees obtained in traditional contingency litigation").

[22] *See, e.g.*, *McDaniel v. Cnty. of Schenectady*, 595 F.3d 411, 418 (2d Cir. 2010) ("The lodestar method . . . creates an incentive for attorneys to bill as many hours as possible, to do unnecessary work, and for these reasons also can create a disincentive to early settlement. Under certain conditions, moreover, lodestar awards can create the near opposite incentive, encouraging attorneys to settle before trial even when it is not in their clients' best interest."); *Vizcaino v. Microsoft Corp.*, 290 F.3d 1043, 1050 n.5 (9th Cir. 2002) ("[I]t is widely recognized that the lodestar method creates incentives for counsel to expend more hours than may be necessary . . . , [and] the lodestar method does not reward early settlement."); *In re Synthroid Mktg. Litig.*, 264 F.3d 712, 721 (7th Cir. 2001) ("[T]he lodestar approach creates [an] incentive to run up the billable hours."); *Swedish Hosp. Corp*, 1 F.3d at 1268–69 ("[U]sing the lodestar approach . . . attorneys are given incentive to spend as many hours as possible, billable to a firm's most expensive attorneys [and] . . . there is a strong incentive against early settlement since attorneys will earn more the longer a litigation lasts."); *In re Netflix Privacy Litig.*, No. 5:11-CV-00379 EJD, slip op. at 18 (N.D. Cal. Mar. 18, 2013) ("[T]he lodestar method's limitations lie in its creating a possible incentive for counsel to expend more hours than is necessary on a litigation or to delay settlement."); REPORT OF THE FEDERAL COURTS STUDY COMMITTEE 104 (Fed. Judicial Ctr. Apr. 2, 1990), *available at* https://www.fjc.gov/sites/default/files/2012/RepFCSC.pdf (noting that the lodestar method gives class counsel "incentives to run up hours unnecessarily").

[23] *In re Copley Pharm., Inc.*, 1 F. Supp. 2d 1407, 1411 (D. Wyo. 1998).

approach instead rewards counsel for success and penalizes it for failure."[24] Moreover, the lodestar method has been heavily criticized by courts and commentators as "difficult to apply, time-consuming to administer, inconsistent in result, and capable of manipulation to reach a predetermined result."[25]

50. Here, the policies favoring the percentage method are directly applicable. Class counsel took on a difficult case and did everything possible (including obtaining class certification and winning a Kansas class bellwether trial) to achieve the maximum possible settlement. In any event, although there is no need for the Court to undertake the time-consuming effort of a lodestar cross check, the fee award sought by MDL class counsel here is fully supported by a lodestar cross check, which I conducted for the MDL common benefit counsel (*see* ¶¶ 103–127).

2. The 33⅓ Percent Requested Here Is Reasonable

51. As noted, class counsel seek attorneys' fees of 33⅓ percent of the $1.51 billion settlement fund. As I discuss below, it is my opinion that this percentage is reasonable.

a. The Percentage Requested Is Justified Under the *Johnson* Factors Based on the Compelling Circumstances in This Case.

52. The determination of the reasonableness of fees must depend on the precise facts and circumstances of the particular case. Courts in the Tenth Circuit have long recognized that attorneys' fees awards must be "decided on the totality of the circumstances of the case and the uniqueness of the litigation."[26] For a very difficult and risky case, a high award is justified,

[24] *In re Cardinal Health Inc. Sec. Litig.*, 528 F. Supp. 2d 752, 762 (S.D. Ohio 2007).

[25] *Ramah Navajo Chapter v. Babbitt*, 50 F. Supp. 2d 1091, 1108 (D.N.M. 1999). *Accord, e.g.*, *Swedish Hosp. Corp.*, 1 F.3d at 1269–70 ("The lodestar method makes considerable demands upon judicial resources since it can be exceptionally difficult for a court to review attorney billing information over the life of a complex litigation and make a determination about whether the time devoted to the litigation was necessary or reasonable. . . . A related weakness in the lodestar approach is that it often results in substantial delay in distribution of the common fund to the class. . . ."); REPORT OF THE FEDERAL COURTS STUDY COMMITTEE 104 (Fed. Judicial Ctr. Apr. 2, 1990), *available at* https://www.fjc.gov/sites/default/files/2012/RepFCSC.pdf (noting that the lodestar method may "unduly burden judges").

[26] *In re King Resources Co. Sec. Litig.*, 420 F. Supp. 610, 640 (D. Colo. 1976). *Accord, e.g.*, *In re Cendant Corp. PRIDES Litig.*, 243 F.3d 722, 736 (3d Cir. 2001) ("[A] district court may not rely on a formulaic application of the appropriate range in awarding fees but must consider the relevant circumstances of the particular case."); *Urethane*, 2016 WL 4060156, at *5 (noting, in rejecting objectors' contention that percentage fee awards should necessarily be lower in mega-fund cases, that "the fee percentage must be determined on a case-by-case basis . . . based on the unique circumstances of the case."); *In re Checking Account Overdraft Litig.*, 830 F. Supp. 2d 1330, 1359 (S.D. Fla. 2011) ("There is no hard and fast rule mandating a certain percentage of a common fund which may be awarded as a fee because the amount of any fee must be determined upon the facts of each case.")

while a lower award would be appropriate where such concerns are not present.[27]

53. In the Tenth Circuit, the facts and circumstances are assessed by looking at 12 specific factors. These so-called *Johnson* factors, originally set forth by the Fifth Circuit in *Johnson v. Georgia Highway Express, Inc.*,[28] are:

> (1) the time and labor involved; (2) the novelty and difficulty of the questions; (3) the skill requisite to perform the legal service properly; (4) the preclusion of other employment by the attorney due to acceptance of the case; (5) the customary fee; (6) any prearranged fee—this is helpful but not determinative; (7) time limitations imposed by the client or the circumstances; (8) the amount involved and the results obtained; (9) the experience, reputation, and ability of the attorneys; (10) the undesirability of the case; (11) the nature and length of the professional relationship with the client; and (12) awards in similar cases.[29]

The *Johnson* factors are considered "in totality," and no one factor is dispositive.[30] Moreover, courts in the Tenth Circuit have recognized that "[t]he weight to be given to each of the *Johnson* factors varies from case to case, and each factor is not always applicable in every case."[31] Moreover, "[i]n a common fund case, the greatest weight should be given to the monetary results achieved for the benefit of the class."[32]

(citation and internal quotation marks omitted)).

54. In my opinion, the *Johnson* factors, taken as a whole, support the reasonableness of the 33⅓ percent fee award requested in this case. I address each factor separately below.

i. Time and Labor Required

55. This case has required (and will continue to require) a significant investment of time by class counsel. As set forth more fully below (*see* ¶¶ 105, 119), to date, MDL class counsel have devoted 142,823.50 hours to the case, and expect to devote at least 500–1,000 hours in the future to implement the settlement.

ii. Novelty and Difficulty of the Questions

56. Class counsel faced numerous difficulties and challenges. They include the following:

57. **Difficult Legal Claims.** There were a number of exceptionally difficult legal issues in this case, particularly in light of the unique underlying facts of the litigation. Syngenta argued that the alleged tort law duty underlying the complaint was "novel" because it required Syngenta "not to sell Viptera at all in the U.S. [after being approved to do so] absent Chinese approval—thereby effectively giving China a veto over the sale of U.S.-approved biotechnology *in the U.S.*"[33] Syngenta's legal challenges resulted in hundreds of pages of briefing and numerous orders of the Court. Syngenta raised challenges to the entire array of claims asserted by plaintiffs, including claims under the Lanham Act; state law claims of negligence, nuisance, negligent misrepresentation, tortious interference, and misrepresentation; and claims under state consumer protection acts. In addition to contending that various elements of the claims could not be satisfied, Syngenta raised additional overarching legal and policy issues, including: whether the Lanham Act should apply to the facts here, which are not the typical trademark/trade dress claims; the interpretation and application of the principles of proximate and superseding cause, where the decision to reject U.S. corn was made by a foreign state; application of the economic loss doctrine to tort claims for financial injury; and application of the Grain Standards Act (7 U.S.C. §§ 71 et seq.) and federal preemption. Syngenta also contested the availability of punitive damages. Syngenta succeeded on some of its arguments (such as successfully obtaining summary judgment on plaintiffs' Lanham Act claims, as well as all of plaintiffs' claims of negligence based on alleged misrepresentation, voluntary undertaking, failure to warn, and duty

[33] Rule 23(f) Petition for Permission to Appeal Class Certification Order at 4–5 (10th Cir.) (filed Oct. 11, 2016) (emphasis in original).

to recall (*see* ¶ 30)). But even where Syngenta was not successful, its arguments offered potentially dispositive grounds for appeal (both in the Tenth Circuit and in the U.S. Supreme Court).[34]

58. Substantial attorneys' fees are justified when the legal issues are particularly complex. Indeed, this Court in the *Urethane Antitrust* litigation relied heavily on the fact that it "was an extremely difficult and complex case . . .with significant disputed issues arising at [various stages of the litigation]."[35] In awarding attorneys' fees of 33⅓ percent, the Court emphasized that "[l]iability on these claims was far from certain, and thus the case presented a great deal of risk" to class counsel.[36] Similarly, in *Cullen v. Whitman Medical Corp*., the court noted, in awarding attorneys' fees of 33⅓ percent, that "[v]irtually nothing about this case was simplistic . . . [and that] both the legal theories and litigation process were complex."[37]

59. **Difficult Factual Issues.** There were a number of exceptionally difficult factual issues embedded in plaintiffs' claims and Syngenta's defenses. Those claims and defenses required not only proof of Syngenta's conduct and China's reasons for rejecting the U.S. corn, but also proof of the conduct of numerous third parties involved in the transportation and trade of U.S. corn, including grain handlers, trade associations, and foreign buyers. Plaintiffs' bone of contention—that Syngenta should have taken steps to limit the launch of its seeds until it had obtained China's approval—necessarily required proof that those steps would have prevented the trade

[34] The difficulty of the legal issues is also confirmed by the fact that in Ohio, the court dismissed an ethanol production facility's entire lawsuit against Syngenta, accepting Syngenta's argument that the company had no duty to prevent the economic harm alleged by plaintiffs. *See Fostoria Ethanol v. Syngenta Seeds, Inc.*, No. 15-cv-00323, slip op. at 7 (C.P. Seneca Cnty., Ohio June 28, 2017). Such prior success by the defendant has been relied upon by courts in awarding fees. *See, e.g.*, *In re Nat'l Football League Players' Concussion Injury Litig.*, No. 2:12-md-02323-AB, 2018 WL 1635648, at *7 (E.D. Pa. Apr. 5, 2018) ("Class Counsel was actually fighting *against* prior cases in which the NFL Parties had successfully utilized defenses to obtain pretrial dismissals. This litigation required Class Counsel to reinvent the Plaintiffs' position by conducting new research, developing experts, and briefing issues without the benefit of previous successful lawsuits." (emphasis in original)). In addition, Syngenta cited and relied on earlier cases that had rejected similar claims against seed manufacturers. *See* Syngenta's Mem. of Law in Support of Mot. to Dismiss Producer & Non-Producer Pls.' Amended Class Action Master Complaints at 31 (Dkt. No. 857) (citing *Sample v. Monsanto Co.*, 283 F. Supp. 2d 1088, 1093 (E.D. Mo. 2003); *Hoffman v. Monsanto Canada,* 2005 SKQB 225, 2005 SK.C. LEXIS 330 (Can. Sask. Q.B. May 11, 2005)).

[35] *Urethane*, 2016 WL 4060156, at *5.

[36] *Id.* at *4.

[37] 197 F.R.D. 136, 148 (E.D. Pa. 2000). *Accord, e.g.*, *Buettgen v. Harless*, No. 3:09-cv-00791-K, 2013 WL 12303194, at *2 (N.D. Tex. Nov. 13, 2013) (emphasizing in awarding attorneys' fees that the case involved "particularly complex issues of law" and "numerous rounds of complicated briefing"); *In re Lease Oil Antitrust Litig. (No. II)*, 186 F.R.D. 403, 445 (S.D. Tex. 1999) (relying on the existence of "difficult questions" of law in awarding "an above-average recovery").

disruption. Also, Syngenta argued that China's reasons for rejection of U.S. corn were put in issue under plaintiffs' theory of the case, even though plaintiffs could not, in any way, compel direct evidence from a foreign state.

60. At bottom, Syngenta raised substantial arguments pointing to the difficulties in proving the nexus between its actions and plaintiffs' injuries. As it argued:

> Plaintiffs' convoluted theory of causation winds its way through a host of actions taken by others *after* Syngenta relinquished control of its Viptera seed, including farmers who planted the seed (allowing cross-pollination); grain elevators that bought and mixed corn without distinguishing for Viptera (and then shipped it to China knowing that it likely contained Viptera); and Chinese officials who conveniently invoked Viptera as the reason for turning away U.S. corn after the price of corn had dropped over 30% (thus giving Chinese buyers a way out of expensive contracts). And the last step in the chain turns on Plaintiffs' speculation that China's actions lowered the price of U.S. corn.[38]

61. Class counsel's task in combating Syngenta's arguments was made more challenging by their inability to subpoena documents from China. Without access to that critical information, it became difficult for class counsel to explain China's actions and to refute Syngenta's arguments that China acted for purely political reasons rather than because of the presence of Viptera in corn shipments.

62. The existence of difficult factual issues can warrant substantial fees. For example, in awarding attorneys' fees of more than 30 percent in *Allapattah Services, Inc. v. Exxon Corp.*, the district court emphasized that "[t]he factual and legal framework out of which this case arose made it an extraordinarily difficult case."[39] Similarly, in the *Heritage Bond Litigation*, the court noted that "the case was factually complex" and reasoned that "[t]he complexity of this case justifies the requested fees [of 33⅓ percent]. . . .[T]his case cannot be considered a garden variety securities class action."[40]

63. **Difficult Expert Issues.** Substantial briefing (and analysis by this Court) was

[38] Def.'s Mem. of Law in Support of Mot. to Dismiss at 2 (Dkt. No. 857) (emphasis in original).

[39] 454 F. Supp. 2d 1185, 1206 (S.D. Fla. 2006).

[40] *In re Heritage Bond Litig.*, No. 02-ML-01475-DT, 2005 WL 1594403, at *20–21 (C.D. Cal. June 10, 2005). *Accord, e.g.*, *Cullen*, 197 F.R.D. at 148 (relying on factual complexity and voluminous discovery in awarding fees); *Eashoo v. Iovate Health Sciences U.S.A., Inc.*, No. 15-cv-01726-BRO (PJWx), 2016 WL 6205785, at *10 (C.D. Cal. Apr. 5, 2016) (similar); *Schwartz v. necessitated by Syngenta's argument that plaintiffs' various experts did not satisfy the standards of *Daubert v. Merrell Dow Pharmaceuticals, Inc*.[41] Especially challenging issues arose because of the effort of plaintiffs' experts to address classwide injury by (1) focusing on the price of corn on the Chicago Board of Trade (CBOT) and then (2) opining that price changes on the CBOT caused uniform changes nationwide to all local corn prices. Plaintiffs had to establish via expert testimony a counterfactual economic world where Syngenta did not commercialize—or limited the commercialization of—Viptera and Duracade until the company received Chinese approval. This required experts who could reliably predict what Chinese demand for U.S. corn would have been in this counterfactual world and what impact that demand would have had on U.S. corn prices. To prevail in the Kansas class jury trial, plaintiffs also had to develop an economic model that applied to the entire class, including persuading the Court and the jury that changes in the CBOT price would be reflected in changes to all local prices paid to producers in the class. Moreover, plaintiffs had to establish what the standard of care should be for GMO manufacturers in commercializing new traits that have not obtained export approvals in all key export markets. I am advised that plaintiffs developed expert testimony through one of the third-party grain handlers in the case, and navigated the use of that expert at trial in the face of potentially difficult cross-examination on bias, based on his employment with a plaintiff who was suing Syngenta. In addition, class counsel successfully obtained orders compelling the production of documents from Syngenta's standard-of-care expert, ultimately resulting in that expert's withdrawal as an expert in this litigation.

64. The existence of hotly contested *Daubert* issues can warrant substantial fees. For example, the court in the *Flonase Antitrust Litigation*, in awarding 33⅓ percent of the settlement fund as attorneys' fees, relied upon the fact that class counsel had litigated a number of hotly contested *Daubert* challenges.[42] Similarly, in *Columbus Drywall & Insulation, Inc. v. Masco Corp.*, the court cited "multiple *Daubert* challenges" in awarding attorneys' fees of 33⅓ percent.[43]

---

65. **Hotly Contested Class Certification Issues.** Although I ultimately agree with this Court's decision to certify a class, given the overarching common issues, there is no question that class counsel took a serious risk that class certification would be denied. In the case that arguably was the most similar to this one, *In re Genetically Modified Rice Litigation*, the court denied class certification.[44] Syngenta relied extensively on that case in opposing class certification. *See* Syngenta's Opposition to Producer Pls.' Mot. for Class Certification at 5–6, 29, 75, 83, 111–12, 115–16, 124 (Dkt. No. 2335). Syngenta also made numerous other forceful arguments in vigorously contesting class certification, including: that the class was not ascertainable because individualized inquiries were required regarding each producer; that individualized inquiries were required to determine whether specific class members were injured (thus defeating commonality and predominance); that individualized inquiries were required to resolve Syngenta's affirmative defenses (including failure to mitigate damages); that a class action was not the superior mechanism; and that an issues class under Rule 23(c)(4) would not be efficient or consistent with the Seventh Amendment. Syngenta also attacked plaintiffs' experts in opposing class certification, arguing that the Court must resolve any disputes between the class's experts and Syngenta's experts, instead of just ruling that, under *Daubert*, the class's experts offered admissible testimony. The briefing and evidentiary submissions on class certification were extensive (*see* ¶ 27), and Syngenta's arguments were supported by substantial authority.

66. Although Syngenta did not prevail in opposing class certification, and it was unsuccessful in seeking Rule 23(f) interlocutory review, it nonetheless raised substantial arguments for appealing the class certification ruling after final judgment. At the same time, class counsel's success in obtaining certification undoubtedly placed substantial settlement pressure on Syngenta, thereby contributing to the $1.51 billion settlement.[45] After the $217.7 million judgment in the Kansas class bellwether trial, Syngenta faced even greater damages in

---

Daubert motions in awarding fees); *Buettgen*, 2013 WL 12303194, at *2 (relying on contentious *Daubert* motions in awarding fees); *Allapattah*, 454 F. Supp. 2d at 1193, 1232 (noting "week-long *Daubert* evidentiary hearing" in awarding fees).

[44] 251 F.R.D. 392, 398 (E.D. Mo. 2008).

[45] *See, e.g.*, *Amgen Inc. v. Conn. Ret. Plans & Trust Funds*, 568 U.S. 455, 475 (2013) (noting the "[s]ettlement pressure exerted by class certification"); *In re Zurn Pex Plumbing Prods. Liab. Litig.*, 644 F.3d 604, 629 (8th Cir. 2011) (noting that "many defendants face substantial settlement pressures as a result of class certification" (citation omitted)).

the forthcoming Minnesota, Arkansas, Missouri, Illinois, Iowa, Ohio, Nebraska, and Missouri trials. Thus, by the time Syngenta might have received an appellate ruling on class certification (or any of several other dispositive issues) from the Tenth Circuit, it potentially would have incurred multiple jury verdicts as large as (or larger than) the Kansas verdict. Thus, class counsel's efforts in obtaining class certification in the face of numerous hotly contested issues were immensely beneficial to the class.

67. A number of courts have relied on the fact that class counsel litigated difficult class certification issues in justifying a substantial percentage fee award. The district court in *Montague v. Dixie National Life Insurance*, for example, reasoned that the fact that the case "was hotly contested both on the merits of the claims *and on the issue of class certification* . . . provide[d] support for a 33 percent fee award."[46] Similarly, in awarding attorneys' fees of 33⅓ percent of the $586 million settlement fund in the *Initial Public Offering Securities Litigation*, the court emphasized that "class counsel briefed and argued three hotly contested class certification motions."[47]

68. **Contested Trial.** One of the most compelling justifications for the award sought here is the fact that MDL class counsel conducted a full trial on the merits.[48] That trial, involving a Kansas class of more than 7,000 Kansas growers, resulted in a verdict of $217.7 million in compensatory damages—100 percent of the compensatory relief requested by plaintiffs. Syngenta vigorously disputed plaintiffs' claims at trial and brought in a distinguished and experienced trial team of seven Kirkland & Ellis partners, including Mike Brock—one of the country's most prominent trial lawyers in bet-the-company litigation—and additional attorneys and staff. Realistically, I have no doubt that had plaintiffs lost the trial, their ability to negotiate a settlement anywhere near the magnitude of $1.51 billion would have vanished. The fact that MDL class counsel achieved a major verdict against such formidable opposition helped pave the way for the substantial global settlement.

---

[46] No. 3:09-00687-JFA, 2011 WL 3626541, at *3 (D.S.C. Aug. 17, 2011) (emphasis added).

Litig.*, Nos. 08-397 & 08-2177 (DMC) (JAD), 2013 WL 5505744, at *26 (D.N.J. Oct. 1, 2013) (relying on contested class certification and "unusual class certification issues" in awarding fees); *Cullen*, 197 F.R.D. at 148 (relying on contested class certification motions in awarding fees); *Heritage Bond*, 2005 WL 1594403, at *20 (similar).

[48] Notably, class counsel also conducted portions of two bellwether trials in Minnesota. *See* ¶¶ 31, 34.

69. Because relatively few class actions go to trial,[49] courts reviewing attorneys' fee requests justifiably give significant weight to the fact—when present—that a contested trial occurred. For example, in its order awarding attorneys' fees in the *Deepwater Horizon Litigation*, the court noted that class counsel "did something that rarely happens in class actions: they actually went to trial."[50] The court emphasized that the "massive two-phase trial effort" weighed in favor of the fees requested by class counsel.[51] Similarly, in *Allapattah*, the district court emphasized that the settlement was reached only after class counsel succeeded at trial, noting that "[c]lass counsel . . . faced a potential catastrophic risk in the event the case was lost at trial."[52] And in *Urethane*, this Court relied heavily in its fee award on the impressive jury verdict obtained by class counsel.[53] The Court emphasized that "the case was not settled pretrial" but rather was litigated before a jury, resulting in a verdict of over $400 million—an "incredible success on the merits."[54]

70. **Absence of Government Litigation.** In some instances, private counsel are aided by the existence of parallel government litigation. Such government litigation—which may involve

[54] *Id.* at *4. *Accord, e.g.*, *Brady v. Air Line Pilots Ass'n*, 627 F. App'x 142, 144–45 (3d Cir. 2015) (emphasizing that "Class Counsel conducted a five-week liability trial that resulted in a jury verdict in favor of the class" in upholding district court's 30 percent attorneys' fee award); *In re Apollo Grp. Inc. Sec. Litig.*, No. 04-cv-02147-PHX-JAT, 2012 WL 1378677 (D. Ariz. Apr. 20, 2012) (awarding attorneys' fees of 33⅓ percent of $145 million fund based in large part on favorable jury verdict secured by class counsel, and noting: "[S]ecurities class actions rarely proceed to trial . . . [and] there was a great risk that this case would not result in a favorable verdict after trial."); *In re Thirteen Appeals Arising Out of San Juan Dupont Plaza Hotel Fire Litig.*, 768 F. Supp. 912, 931–32 (D.P.R. 1991) (relying on multi-phase trial in setting aside total attorneys' fees of $68 million out of $220 million fund, or 30.9 percent), *rev'd on other grounds*, 56 F.3d 295 (1st Cir. 1995). Indeed, courts give substantial weight in awarding fees to the fact that a case was *close* to going to trial. *See, e.g.*, *Fleisher v. Phoenix Life Ins. Co.*, Nos. 11-cv-8405(CM), 14-cv-8714(CM), 2015 WL 10847814, at *12–13 (S.D.N.Y. Sept. 9, 2015) (noting, in awarding 33⅓ percent of cash settlement fund, that "the litigation was hard-fought" and a settlement was reached "on the eve of trial" and after an "all-day mock trial"); *In re Flonase Antitrust Litig.*, 291 F.R.D. 93, 99, 104, 106 (E.D. Pa. 2013) (noting that class counsel "had completed significant preparation for trial" in awarding attorneys' fees of 33⅓ percent); *Columbus Drywall & Insulation, Inc. v. Masco Corp.*, No. 1:04-cv-3066-JEC, 2012 WL 12540344, at *3 (N.D. Ga. Oct. 26, 2012) (emphasizing that "[t]he case settled only within 48 hours of trial" in awarding attorneys' fees of 33⅓ percent). *A fortiori*, a completed, successful trial is a strong circumstance justifying large fees.

both criminal actions and civil enforcement—can provide valuable resources and can help uncover underlying wrongdoing. Thus, some courts have noted the heavy involvement of the government in setting awards below what class counsel requested. For example, in reducing class counsel's fee request in the *AOL Time Warner Securities Litigation*, the court noted that class counsel "benefited to a degree from work performed by others," including "[p]arallel government investigations."[55] Similarly, in explaining its fee award of only 10 percent in *In re Quantum Health Resources, Inc*., the court emphasized that "[t]he facts of [the] case weighed heavily in the Class' favor from the start, largely because the material allegations of the complaint were supported by the unequivocal results of public investigations conducted by [California state agencies]."[56] Conversely, courts have also noted the *absence* of government involvement in approving substantial fee requests. For example, in *In re Gulf Oil/Cities Services Tender Offer Litigation*, the court emphasized that the case was "not [one] where plaintiffs' counsel can be cast as jackals to the government's lion, arriving on the scene after some enforcement or administrative agency has made the kill. [Class counsel] did all the work on their own."[57] As this Court noted in *Urethane*, the fact that "[class] [c]ounsel had to build this case on their own, *without the help of a government investigation or prosecution*," weighed in favor of the requested 33⅓ percent fee award.[58]

71. Here, class counsel had no assistance of any kind from the government. They bore the entire burden of investigating and proving Syngenta's alleged improper conduct. Indeed, statements and actions by the U.S. government were used *against* class counsel: Syngenta sought to use U.S. government deregulation as a defense in this case, cited to U.S. government reports on China to support its argument that China's biotechnology approval process was

politically driven, and hired a former U.S. trade official as one of its experts.

72. **No Public Admission of Liability.** In some instances, class counsel benefit from the fact that the defendant has publicly admitted wrongdoing. Such admissions no doubt make it easier for class counsel to prosecute the claims and negotiate a settlement. For example, in *Quantum Health*, the court emphasized the "significant public admissions by Quantum" in concluding that class counsel did not face "any significant risk" and awarding attorneys' fees of 10 percent of the common fund.[59] Here, Syngenta vigorously contested liability prior to settlement, and it still admits no wrongdoing even today despite its agreement to pay $1.51 billion. Indeed, Syngenta even argued at trial that its actions *benefited* farmers, rather than harming them.

73. **No Public Relations Reason to Settle.** In some cases, widespread adverse publicity creates a public relations nightmare for a defendant, thus increasing the need for such a defendant to settle on terms favorable to plaintiffs. Examples include the *Deepwater Horizon Litigation*, where British Petroleum faced "a torrent of criticism" in the wake of the oil spill disaster;[60] the *Volkswagen Clean Diesel Litigation*, where Volkswagen's admission of fraud shook consumer confidence and resulted in "something like a tsunami" of bad press;[61] and the *NFL Concussion Litigation*, where commentators noted that "regular updates from a courtroom had the potential to be a PR nightmare for the NFL, especially because of the possibility of unflattering documents coming to light."[62] Here, there were no similar pressures that compelled Syngenta to seek an early resolution. To the contrary, as noted (¶ 33), the company showed no

[59] 962 F. Supp. at 1259. *See also, e.g.*, *In re Schering-Plough Corp. Enhance Sec. Litig.*, Nos. 08-397 & 08-2177 (DMC) (JAD), 2013 WL 5505744, at *43 (D.N.J. Oct. 1, 2013) (noting that the litigation "was no easy task for [class counsel] because no Defendant ever admitted wrongdoing"). Additionally, even if the defendant has not publicly admitted wrongdoing, courts have focused on the relative ease of establishing liability in awarding fees below those requested by class counsel. For example, the Third Circuit, in rejecting the district court's fee award in *In re Cendant Corp. Litigation*, emphasized that plaintiffs had "a simple case in terms of liability." 264 F.3d 201, 221 (3d Cir. 2001).

interest in settlement until after its defeat in the Kansas bellwether trial.

74. In sum, class counsel faced numerous difficult circumstances that justify a fee award of 33⅓ percent. This Court's observations in *Urethane* are equally applicable here:

> [Class] counsel achieved an incredible result for the class, in a case with an extreme amount of risk at all stages of the litigation, and they obtained that result because they won what is reported to be one of the largest verdicts of its kind in United States history. Counsel had to build this case on their own, without the help of a governmental investigation or prosecution, . . . and they toiled for many years, at great expense to themselves, with a very real risk that they would not recover anything . . . .[63]

iii. Skill Requisite to Perform the Legal Service Properly

75. A high level of skill was necessary to litigate and settle these cases. As noted above (*see* ¶¶ 56–74), this case involved a number of difficult legal and factual challenges. The plaintiffs' team needed to be at the top of their game in trial skills, legal research and analysis, class certification, knowledge of the national and international commodity system, knowledge of markets for corn (as well as the rules and regulations governing importation and exportation of genetically modified corn), and the development of technical expert testimony.

76. Thus, it is not surprising that the team representing the class included some of the country's most accomplished class action plaintiff lawyers. Team members have received recognition as the "The Best Lawyers in America,"[64] "Super Lawyers,"[65] and "Rising Stars."[66]

---

[63] *Urethane*, 2016 WL 4060156, at *6.

[64] The Best Lawyers in America are selected based on a peer-review process "designed to capture, as accurately as possible, the consensus opinion of leading lawyers about the professional abilities of their colleagues within the same geographical area and legal practice area." *Methodology Process*, BEST LAWYERS, https://www.bestlawyers.com/methodology (last visited July 7, 2018). Attorneys on plaintiffs' team who have been named to The Best Lawyers in America include (among others) Patrick Stueve, Norman Siegel, Steve Six, and Rachel Schwartz of Stueve Siegel Hanson, *see Attorneys*, STUEVE SIEGEL HANSON, http://www.stuevesiegel.com/ssh/about-us/attorneys.html (last visited July 7, 2018); Don Downing, Gretchen Garrison, and Jason Sapp of Gray, Ritter & Graham, *see Attorneys*, GRAY, RITTER & GRAHAM, P.C., https://www.grgpc.com/attorneys/ (last visited July 7, 2018); and Scott Powell of Hare Wynn Newell & Newton, *see Scott A. Powell*, HARE WYNN NEWELL & NEWTON, https://www.hwnn.com/our-people/scott-a-powell/ (last visited July 7, 2018).

[65] Super Lawyers are selected each year based on an extensive research and peer-evaluation process. They represent the top five percent of attorneys in each state and practice area. *See Selection Process Detail*, SUPER LAWYERS, https://www.superlawyers.com/about/selection_process_detail.html (last visited July 7, 2018). Attorneys on plaintiffs' team who have been selected as Super Lawyers include (among others) Patrick Stueve, Norman Siegel, Steve Six, and Rachel Schwartz of Stueve Siegel Hanson, *see Attorneys*, STUEVE SIEGEL HANSON, http://www.stuevesiegel.com/ssh/about-us/attorneys.html (last visited July 7, 2018); Don Downing and Gretchen Garrison of Gray, Ritter & Graham, *see Attorneys*, GRAY, RITTER & GRAHAM, P.C.,

Many have held prominent leadership roles in other major class actions and MDL cases.[67] These are, in short, some of the country's premier complex litigation attorneys.

77. An important factor in evaluating a proposed fee award is the quality of opposing counsel. For example, in awarding attorneys' fees of 33⅓ percent in *Dartell v. Tibet Pharmaceuticals, Inc.*, the court noted that "the quality and vigor of opposing counsel is relevant when evaluating the quality of services rendered by [class counsel]. . . . The performance and quality of defense counsel . . . favors a finding that [class counsel] prosecuted this case with skill and efficiency."[68] Similarly, in awarding attorneys' fees of 33⅓ percent of the $510 million fund in the *Initial Public Offering Securities Litigation*, the court noted that class counsel "were pitted against . . . prominent national defense firms," emphasizing that the favorable settlement

https://www.grgpc.com/attorneys/ (last visited July 7, 2018); and Dan Gustafson and Karla Gluek of Gustafson Gluek, *see Our People*, GUSTAFSON GLUEK PLLC, http://gustafsongluek.com/our-people/ (last visited July 7, 2018).

[66] Attorneys under 40 years of age or in practice for ten years or less are eligible to be designated Rising Stars if they have not been designated Super Lawyers. The Rising Stars selection process is similarly based on independent research and a peer-evaluation process. Only 2.5 percent of eligible lawyers are designated Rising Stars. *See The Rising Stars Selection Process*, SUPER LAWYERS, https://www.superlawyers.com/about/selection_process_detail.html (last visited July 7, 2018). Attorneys on plaintiffs' team who have been selected as Rising Stars include (among others) Jason Sapp of Gray, Ritter & Graham (selected for five consecutive years), *see Jason D. Sapp*, GRAY, RITTER & GRAHAM, P.C., https://www.grgpc.com/attorneys/jason-d-sapp/ (last visited July 7, 2018); and Drew York of Gray Reed & McGraw (selected 11 consecutive times as of 2018), *see Drew York*, GRAY REED & MCGRAW, http://www.grayreed.com/Our-People/Andrew-K-York (last visited July 7, 2018).

[67] For example, Clayton Clark of Clark, Love & Hutson has been appointed as national co-lead counsel in the pending *Pelvic Repair System* products liability MDL, served as plaintiffs' liaison counsel in the *Phen-Fen* and *Paxil* cases, and was appointed to the executive committee in the *Pradaxa* litigation. *See Clayton A. Clark*, CLARK, LOVE & HUTSON, http://www.triallawfirm.com/Firm-Overview/Clayton-A-Clark.shtml (last visited July 7, 2018). Christopher Seeger of Seeger Weiss was appointed to the plaintiffs' steering committee in the *Volkswagen Clean Diesel Litigation*, served as co-lead counsel in the *NFL Concussion*, *Vioxx*, and *Testosterone Replacement Therapy Products* cases, and was appointed chair of the plaintiffs' trial committee in the *Chinese Drywall Litigation*. *See Christopher A. Seeger*, SEEGER WEISS LLP, https://www.seegerweiss.com/attorneys/partners/christopher-a-seeger (last visited July 7, 2018). Stephen Weiss of Seeger Weiss was appointed to the plaintiffs' executive committee in the *Polyurethane Foam* antitrust MDL, was appointed to the plaintiffs' steering committee in the *Initial Public Offering Securities Litigation*, and served as co-lead counsel in the *Vytorin/Zetia* and *StarLink Corn* MDLs. *See Stephen A. Weiss*, SEEGER WEISS LLP, https://www.seegerweiss.com/attorneys/partners/stephen-a-weiss/ (last visited July 7, 2018). Scott Powell of Hare Wynn Newell & Newton holds a seat on the plaintiffs' steering committee in the ongoing *Biomet M2a Magnum Hip Implant* litigation, and served as co-lead counsel in *Genetically Modified Rice*. Don Downing of Gray, Ritter & Graham was recently appointed lead plaintiffs' counsel and chair of the plaintiffs' executive committee in the *Monsanto Dicamba Herbicide* MDL, and also served as co-lead counsel in *Genetically Modified Rice*. Patrick Stueve of Stueve Siegel Hanson served as co-lead counsel in the *Lincoln National Life Insurance Litigation*, and as lead counsel in *Berry v. Volkswagen of America, Inc*. *See Patrick Stueve*, STUEVE SIEGEL HANSON, http://www.stuevesiegel.com/attorney/Stueve (last visited July 7, 2018). And Norman Siegel of Stueve Siegel Hanson has served as lead counsel in the *SFPP Right-of-Way Claims Litigation*, the *Home Depot Data Breach Litigation*, and the *Target Data Breach MDL*. *See Norman E. Siegel*, STUEVE SIEGEL HANSON, http://www.stuevesiegel.com/attorney/Siegel (last visited July 7, 2018). Numerous other examples could be cited.

[68] No. 14-cv-03620, 2017 WL 2815073, at *9–10 (D.N.J. June 29, 2017) (citations and internal quotation marks omitted).

achieved "against such formidable opponents [was] an impressive feat."[69] Numerous other courts have applied similar reasoning.[70]

78. Not surprisingly, Syngenta retained some of the top defense lawyers in the country, including (as noted) Mike Brock and others from Kirkland & Ellis. There can be no serious doubt that Kirkland & Ellis is a prestigious and formidable national law firm. Indeed, Kirkland generally—and Brock in particular—have received widespread recognition.[71] Berkowitz Oliver, the Kansas City-based defense firm representing Syngenta, likewise has a stellar national reputation.[72] The fact that class counsel achieved such an impressive settlement against these top-flight defense attorneys is a testament to class counsel's skill.

Schult*, BERKOWITZ OLIVER, http://www.berkowitzoliver.com/people/thomas-schult/ (last visited July 7, 2018).

iv. Preclusion of Other Employment Due to Acceptance of the Case

79. As a result of this case, the lead firms representing plaintiffs were clearly hampered in their ability to take on significant other work. The demands of this case were enormous by any measure. At least five lawyers have billed more than 5,000 hours on the case; at least 12 lawyers have billed more than 3,000 hours; and at least 20 lawyers and paralegals have billed more than 2,000 hours. More than 180 depositions were taken on both sides, including depositions of current and former Syngenta employees, plaintiffs, and third parties in the United States, Great Britain, Hong Kong, and Australia, and depositions of numerous experts. Millions of pages of documents and electronic records were prepared, exchanged, and reviewed during discovery, including voluminous interrogatories and tens of thousands of Chinese regulatory documents, many of which required translation. Co-lead counsel Patrick Stueve, Scott Powell, Don Downing, and William Chaney detail in their voluminous declarations the massive discovery efforts undertaken by plaintiffs.[73]

80. This case has been a huge resource drain on the various plaintiffs' law firms involved, and has significantly impeded the ability of those firms to take on other work. For example, Patrick Stueve notes that "Stueve Siegel Hanson's attorneys and staff collectively spent more time on this MDL than the firm has ever spent on a single case in the history of the firm." Stueve Decl. ¶ 669. Stueve himself "worked almost exclusively on this case for the past several years," and thus "spent little, if any, time evaluating and developing new cases." *Id*. ¶ 670. Ultimately, he notes that he and his firm "put this case first, above and beyond other business opportunities." *Id*. Given the major challenges in this case (*see* ¶¶ 56–74), I have no doubt that such commitment and singular focus were reasonable and necessary, and were the reasons why plaintiffs achieved such an impressive settlement.

v. Customary Fee

81. In individual contingency-fee contracts, the attorneys' fees percentage is typically 33⅓

[73] *See* Decl. of Patrick J. Stueve ¶¶ 237–492 (filed contemporaneously) (hereinafter "Stueve Decl."); Decl. of Scott Powell ¶¶ 100–177 (filed contemporaneously) (hereinafter "Powell Decl."); Decl. of Don Downing ¶¶ 25–26, 29–35, 37–40, 43, 45–48, 51, 86–90 (filed contemporaneously) (hereinafter "Downing Decl."); Decl. of William Chaney ¶¶ 196–278 (filed contemporaneously) (hereinafter "Chaney Decl.").

percent, although the percentage can go much higher if, for example, the case goes to trial.[74] Here, I understand that there were potentially *thousands* of contingent fee contracts *at the 40 percent level even pre-trial*, a level that is well above the typical 33⅓ percent.[75] In assessing reasonable fees, numerous courts have cited the actual amount of individual fee agreements. As the Seventh Circuit has explained:

> When attorney's fees are deducted from class damages, the district court must try to assign fees that mimic a hypothetical *ex ante* bargain between the class and its attorneys. The court must base the award on relevant market rates and the *ex ante* risk of nonpayment. To determine the market for attorney's fees, the court should look to actual fee contracts that were privately negotiated for similar litigation . . . .[76]

Similarly, the court in *Allapattah* noted that, "when deciding on appropriate fee levels in common-fund cases, courts must do their best to award counsel the market price for legal services, in light of the risk of nonpayment and the normal rate of compensation in the market at the time."[77] Here, the market rate (the rate negotiated by individual plaintiffs and counsel) was clearly well above 33⅓ percent. The fact that so many individual plaintiffs agreed to a 40

REV. 371, 381, 409 (1998) (noting that "standard contingent fees . . . [are] one-third of any recovery" and that fees "may vary with the stage at which the matter is resolved (*e.g.*, one-third of the recovery if the case settles before trial; forty percent thereafter)"); Eric Helland et al., *Contingent Fee Litigation in New York City*, 70 VAND. L. REV. 1971, 1971 (2017) (study finding that, in New York, contingent fees "are almost always one-third"); Herbert M. Kritzer, *The Wages of Risk: The Returns of Contingency Fee Legal Practice*, 47 DEPAUL L. REV. 267, 286 (1998) (survey of Wisconsin attorneys revealed that "a contingency fee of 33% was by far the most common," but the "range for those cases involving a suit but not a trial was 20% to 43%[, and] [f]or those going to trial, the range was from 25% to as high as 50%").

[75] *See, e.g.*, *Montague v. Dixie Nat'l Life Ins. Co.*, No. 3:09-00687-JFA, 2011 WL 3626541, at *3 (D.S.C. Aug. 17, 2011) ("A 33% fee award from the common fund in this case is consistent with what is routinely privately negotiated in contingency fee litigation."); Eisenberg & Miller, *supra* note 20, at 35 ("Substantial empirical evidence indicates that a one-third fee is a common benchmark in private contingency fee cases."); Herbert M. Kritzer, *The Wages of Risk: The Returns of Contingency Fee Legal Practice*, 47 DEPAUL L. REV. 267, 284–86 (1998) (noting that 33⅓ percent "is the standard contingency fee figure" and finding, in a study of Wisconsin attorneys, that "a contingency fee of 33% was by far the most common, accounting for 92% of those cases").

[76] *Williams v. Rohm & Haas Pension Plan*, 658 F.3d 629, 635 (7th Cir. 2011).

[77] 454 F. Supp. 2d at 1211. *Accord, e.g.*, *In re Continental Ill. Sec. Litig.*, 962 F.2d 566, 572 (7th Cir. 1992) ("The object in awarding a reasonable attorneys' fee . . . is to simulate the market."); *RJR Nabisco Inc. Sec. Litig.*, Fed. Sec. L. Rep. (CCH) ¶ 94, 268 (S.D.N.Y. 1992) (noting that "what should govern [fee] awards is . . . what the market pays in similar cases").

percent contingency fee speaks volumes regarding the difficulty of the litigation and the fairness of a fee request of 33⅓ percent.

vi. Any Prearranged Fee

82. As noted (*see* ¶ 81), thousands of individual farmers entered into private contingency fee contracts of 40 percent.

vii. Time Limitations Imposed by the Client or the Circumstances

83. Serious time limitations were imposed in this case. This Court held both sides' feet to the fire, resolving the complicated class certification issues, pressing forward on case management and discovery, setting tight deadlines, and moving forward with a Kansas class trial. Similar pressures were imposed in the Minnesota litigation, including the adjudication of class certification and the commencement (on two occasions) of bellwether trials. The intense time pressures are demonstrated by the accelerated discovery and class certification schedules, which (based on my many years of experience as a litigating partner at Jones Day) were extremely unusual. Prior to its ruling on Syngenta's motion to dismiss, the Court permitted only "highly targeted discovery." Thus, full discovery did not commence until October 21, 2015. Plaintiffs completed virtually all of their discovery in seven months, and the Court's decision on class certification—which was preceded by extensive briefing, evidentiary submissions, and a hearing—was rendered within 11 months of the start of full discovery. Moreover, within about 20 months of the start of full discovery, the parties had completed the Kansas class trial and plaintiffs had obtained the $217.7 million verdict. And a term sheet to settle the cases for $1.51 billion was announced within only 33 months of the commencement of the MDL and 23 months after the start of full discovery. These figures suggest that class counsel were under extreme pressure to work essentially non-stop to conduct the rigorous investigation, discovery, briefing, class certification work, and trial preparation necessary to achieve success for the class.

84. Courts have emphasized similar litigation pressures in awarding attorneys' fees. For example, in *Johnson*, the court noted that "priority work that delays the lawyer's other legal work is entitled to some premium."[78] And in *Allapattah*, the court cited the "frantic pace" of the

[78] *Johnson*, 488 F.2d at 718.

litigation in "giv[ing] significant weight to this factor in setting the [fee] percentage."[79]

viii. Amount Involved and Results Obtained

85. As noted, courts in the Tenth Circuit have widely recognized that, "in evaluating the various *Johnson* factors, the greatest weight should be given to the monetary results achieved for the benefit of the class."[80] Here, class counsel successfully negotiated a settlement worth approximately $1.51 billion, twice as large as the *Genetically Modified Rice* settlement. I understand that this may well be the largest agricultural settlement in history,[81] and indeed, it is one of the largest class settlements of any kind.[82] Settlements or verdicts in excess of a billion dollars are exceedingly rare.[83] This is the polar opposite of a case in which class members end up with little of value, such as a settlement involving worthless coupons.[84] Here, class members will receive substantial compensation for their losses. In my opinion, this is a superb result, especially given the difficulties noted in ¶¶ 56–74. The fact that class counsel achieved this strong result weighs strongly in favor of the requested 33⅓ percent fee.

ix. Experience, Reputation, and Ability of Attorneys

86. As noted in ¶¶ 75–78, class counsel are highly skilled and experienced class action

[84] *See, e.g.*, *Columbus Drywall & Insulation, Inc. v. Masco Corp.*, No. 1:04-cv-3066-JEC, 2012 WL 12540344, at *3 (N.D. Ga. Oct. 26, 2012) (noting, in awarding attorneys' fees of 33⅓ percent, that "unlike some class settlements, the recovery here consists entirely of cash, rather than coupons or discounts on future purchases from the defendants").

attorneys, whose prior representations included many important class action and MDL cases. And they were litigating against one of the country's most prestigious and formidable law firms, Kirkland & Ellis.

x. Undesirability of the Case

87. Although a number of attorneys sought leadership opportunities in the MDL and/or filed individual cases, any lawyer considering involvement on the plaintiffs' side had to understand that the litigation involved a huge commitment of time and resources, with an outcome that was anything but certain. Plaintiffs were facing exceedingly difficult legal, factual, and expert issues. *See* ¶¶ 56–64. And they were litigating against a defendant—and team of defense attorneys—who were willing (and financially able) to devote any and all necessary resources to achieving success. Moreover, as fiduciaries, class counsel could not simply cut their losses and quit when the case became too challenging and expensive.[85] Indeed, the challenges of this litigation explain why numerous plaintiffs' lawyers were able to negotiate 40 percent individual contingency fee agreements, a figure well above the typical 33⅓ percentage. *See* ¶ 81.

xi. Nature and Length of Professional Relationship With the Client

88. Because of their prior work on behalf of farmers in the *Genetically Modified Rice* litigation, three of the four MDL co-lead attorneys had pre-existing professional relationships with a small number of class members. *See* Powell Decl. ¶ 12. For the vast majority of class members, however, there was no such prior relationship. Courts have generally given little weight to this factor, noting that "[t]he meaning of this factor . . . and its effect on the calculation of a reasonable fee has always been unclear."[86] As a result, courts typically state that this particular *Johnson* factor is irrelevant or immaterial. Here, to the extent that this factor is relevant at all, it is largely neutral.

xii. Awards in Similar Cases

89. Fee awards in other cases involving significant challenges confirm the reasonableness of

[85] *See, e.g.*, *In re Bluetooth Headset Prods. Liab. Litig.*, 654 F.3d 935, 946 (9th Cir. 2011) (noting the "fiduciary duty owed [to] the class" by class counsel); *In re Gen. Motors Corp. Pick-Up Truck Fuel Tank Prods. Liab. Litig.*, 55 F.3d 768, 801 (3d Cir. 1995) ("Beyond their ethical obligations to their clients, class attorneys . . . also owe the entire class a fiduciary duty once the class complaint is filed.").

[86] *Bruner v. Spring/United Mgmt. Co.*, No. 07-cv-02164-KHV, 2009 WL 2058762, at *9 (D. Kan. July 14, 2009).

the fees sought here. As I explain in detail below, the percentage requested here (33⅓ percent) is in line with percentages awarded in numerous other class actions. *See* ¶ 94 (Table 1), and ¶¶ 91–101.

* * *

90. As the above discussion reflects, analysis of the *Johnson* factors demonstrates the reasonableness of the fees sought here. The case imposed enormous demands on class counsel, and it entailed a significant risk that counsel would invest massive hours and substantial funds, only to recovery nothing. The multi-jurisdictional and complex nature of the litigation, the extensive work required of class counsel under severe time pressure, the favorable class certification ruling and bellwether jury verdict, and the compelling $1.51 billion settlement support the requested fee of 33⅓ percent. This is anything but a garden-variety case, and in my opinion, the fee award should reflect that reality.

b. The Percentage Requested Is Supported by Awards in Other Class Actions, Including So-Called Mega-Fund Cases

91. In this section, I explain why, in my opinion, an award of 33⅓ percent is in line with awards in other complicated class actions that resulted in impressive settlements.

92. I am fully aware that a fee of 33⅓ percent is above the average and median fee awards in class actions.[87] I also recognize that, in general, fee awards (as a percentage) tend to decline as the amount of the settlement increases, with the lowest percentage awards appearing in so-called mega-fund settlements (*i.e.*, those above $100 million).[88] Nonetheless, it should be obvious that

[87] *See, e.g.*, Eisenberg, Miller & Germano, *supra* note 20, at 947, 951 (finding average of 27 percent and median of 29 percent for 2009–2013 period); Fitzpatrick, *supra* note 20, at 811, 833 (finding, for 2006–2007 period, average and median of about 25 percent); Eisenberg & Miller, *supra* note 20, at 259 (finding, in 1993–2008 study, average fees of 24 percent and median fees of 25 percent); THOMAS E. WILLGING, LAURAL L. HOOPER & ROBERT J. NIEMIC, EMPIRICAL STUDY OF CLASS ACTIONS IN FOUR FEDERAL DISTRICT COURTS: FINAL REPORT TO THE ADVISORY COMMITTEE ON CIVIL RULES 151 (Fed. Judicial Ctr. 1996), *available at* http://www.uscourts.gov/sites/default/files/rule23_1.pdf (1996 study of four federal districts found that average and median awards ranged from 26 to 31 percent).

[88] *See, e.g.*, Fitzpatrick, *supra* note 20, at 811 (noting that fee percentages are "inversely associated with the size of the settlement" and finding that, in cases involving settlements between $1 billion and $6.6 billion during 2006–2007, average and median awards were 13.7 percent and 9.5 percent, respectively); Eisenberg, Miller & Germano, *supra* note 20, at 947–48 (describing "scaling effect" where, "as [the] recovery amount increases, the ratio of the size of the attorneys' fee relative to the size of the recovery (*i.e.*, the fee percentage) tends to decrease" and finding that average and median fees for settlements greater than $100 million varied from "a low of 16.6% in 2009 to a high of 25.5% in 2011").

a median means that half of the awards are *above* that amount and half are below. And in the case of an average, the figure is also comprised of awards *above* that amount as well as awards below it.[89]

93. It is thus not surprising that there are numerous mega-fund cases with percentage awards comparable to those sought here. As would be expected, those awards are based on a careful analysis of the specific facts and challenges of a given case. For example, in *In re Vitamins Antitrust Litigation*,[90] *Standard Iron Works v. ArcelorMittal*,[91] and *In re Flonase Antitrust Litigation*,[92] the courts awarded, respectively, 34.06 percent, 33 percent, and 33⅓ percent as attorneys' fees because of the complex issues involved, the quality of class counsel's work, and the results obtained. Importantly, the courts approved those awards even though none of the cases actually went to trial. The litigation challenges in the instant case were substantially greater, since class counsel had to tackle a full bellwether trial (and two partial bellwether trials).

94. The above cases are just three examples. In the table below, I have collected more than 40 mega-fund cases that involved fee awards of 30 percent or greater.

TABLE 1: Fee Awards of 30 Percent or More in Mega-Fund Class Actions

Case	Recovery	Fee Award	Trial?
Lobo Exploration Co. v. BP Am. Prod., No. CJ-1997-72 (Oka. Dist. Ct., Beaver Cnty. Dec. 8, 2005)	$150 million	40 percent	No
Simmons v. Anadarko Petroleum Corp., No. CJ-2004-57 (Okla. Dist. Ct., Caddo Cnty., Dec. 23, 2008)	$155 million	40 percent	No
Lauriello v. Caremark RX LLC, No. 01-cv-2003-006630.00 (Ala. Cir. Ct., Jefferson Cnty. Aug. 15, 2016)	$310 million	40 percent	No

[89] Indeed, in one study, more than one-third of all fee awards were 30 percent or higher. *See* Fitzpatrick, *supra* note 20, at 834.

[90] No. MISC 99-197(TFH), 2001 WL 34312839, at *11–13 (D.D.C. July 16, 2001).

[91] No. 08-cv-05214, 2014 WL 7781572, at *1 (N.D. Ill. Oct. 22, 2014).

[92] 951 F. Supp. 2d 739, 747–49 (E.D. Pa. 2013).

Case	Recovery	Fee Award	Trial?
In re Merry-Go-Round Enterprises, Inc., 244 B.R. 327 (Bankr. D. Md. 2000)	$185 million	40 percent	No
In re Combustion, Inc., 968 F. Supp. 1116 (W.D. La. 1997)	$127 million	36 percent	No[93]
In re Managed Care Litig. v. Aetna, MDL No. 1334, 2003 WL 22850070 (S.D. Fla. Oct. 24, 2003)	$100 million	35.5 percent	No
Haddock v. Nationwide Life Ins. Co., No. 3:01-cv-01552-SRU (D. Conn. Apr. 9, 2015) (Dkt. No. 601)	$140 million	35 percent	No
In re Vitamins Antitrust Litig., No. 99-197, 2001 WL 34312839 (D.D.C. July 16, 2001)	$365 million	34.06 percent	No
DeLoach v. Phillip Morris Co., No. 1:00-cv-01235, 2003 WL 25683496 (M.D.N.C. Dec. 19, 2003)	$212 million	33.33 percent	No
In re Tricor Direct Purchaser Antitrust Litig., 1:05-cv-00340-SLR (D. Del. Apr. 23, 2009) (Dkt. No. 543)	$250 million	33.33 percent	No
In re Neurontin Antitrust Litig., No. 2:02-cv-01830 (D.N.J. July 6, 2014) (Dkt. No. 114)	$190 million	33.33 percent	No
In re Titanium Dioxide Antitrust Litig., No. 1:10-cv-00318 (D. Md. Dec. 13, 2013) (Dkt. No. 555)	$163.5 million	33.33 percent	No
In re U.S. Foodservice, Inc. Pricing Litig., No. 3:07-md-01894 (AWT) (D. Conn. Dec. 9, 2014) (Dkt. No. 521)	$297 million	33.33 percent	No
In re Urethane Antitrust Litig., No. 2:04-md-01616-JWL (D. Kan. July 29, 2016) (Dkt. No. 3276)	$835 million	33.33 percent	Yes
In re Relafen Antitrust Litig., No. 01-cv-12239-WGY (D. Mass. Apr. 9, 2004) (Dkt. No. 297) (direct purchaser litigation)	$175 million	33.33 percent	No
In re Flonase Antitrust Litig., 951 F. Supp. 2d 739 (E.D. Pa. 2013)	$150 million	33.33 percent	No
City of Greenville v. Syngenta Crop Prot., No. 3:10-cv-00188 (S.D. Ill. Oct. 23, 2012)	$105 million	33.33 percent	No

[93] A trial was conducted in the parallel government enforcement action under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA), 42 U.S.C. §§ 9601 et seq., but the private class action based on plaintiffs' tort claims was settled prior to trial.

Case	Recovery	Fee Award	Trial?
In re OSB Antitrust Litig., No. 06-cv-00826 (D. Pa. Dec. 9, 2008) (Dkt. No. 947)	$120.7 million	33.33 percent	No
In re Apollo Grp. Inc. Sec. Litig., No. 04-cv-02147-PHX-JAT, 2012 WL 1378677 (D. Ariz. Apr. 20, 2012)	$145 million	33.33 percent	Yes
In re Buspirone Antitrust Litig., No. 1:01-md-01413-JGK (S.D.N.Y. Apr. Nov. 18, 2003) (Dkt. No. 171)	$220 million	33.30 percent	No
In re Initial Pub. Offering Sec. Litig., 671 F. Supp. 2d 467 (S.D.N.Y. 2009)	$510 million	33.30 percent	No
Standard Iron Works v. ArcelorMittal, No. 08-cv-05214, 2014 WL 7781572 (N.D. Ill. Oct. 22, 2014)	$164 million	33 percent	No
Dahl v. Bain Capital Partners, LLC, No. 1:07-cv-12388 (D. Mass. Feb. 2, 2015) (Dkt. No. 1095)	$590.5 million	33 percent	No
San Allen, Inc. v. Buehrer, No. CV-07-644950 (C.P., Cuyahoga Cnty., Ohio Nov. 25, 2014)	$420 million	32.7 percent	Yes
In re Auto. Refinishing Paint Antitrust Litig., No. MDL-1426, 2008 WL 63269 (E.D. Pa. Jan. 3, 2008)	$105.7 million	32.7 percent	No
Allapattah Services, Inc. v. Exxon Corp., 454 F. Supp. 2d 1185 (S.D. Fla. 2006)	$1.06 billion	31.33 percent	Yes
In re Thirteen Appeals Arising Out of San Juan Dupont Plaza Hotel Fire Litig., 56 F.3d 295 (1st Cir. 1995)	$220 million	30.9 percent	Yes
Weatherford Roofing Co. v. Employers Nat'l Ins. Co., No. 91-05637 (116th Tex. Dist. Ct., Dallas Cnty. Dec. 1, 1995)	$140 million	30 percent	Yes
In re (Bank of America) Checking Account Overdraft Litig., 830 F. Supp. 2d 1330 (S.D. Fla. 2011)	$410 million	30 percent	No
Tennille v. Western Union Co., No. 09-cv-00938-JLK-KMT, 2014 WL 5394624 (D. Colo. Oct. 15, 2014)	$180 million	30 percent	No
In re Linerboard Antitrust Litig., No. 98-cv-05055, 2004 WL 1221350 (E.D. Pa. June 2, 2004)	$202.5 million	30 percent	No
In re Home-Stake Prod. Co. Sec. Litig., MDL No. 153 (N.D. Okla. Jan. 2, 1990)	$185 million	30 percent	Yes

Case	Recovery	Fee Award	Trial?
In re (Chase Bank) Checking Account Overdraft Litig., No. 1:09-md-02036 (S.D. Fla. Dec. 19, 2012) (Dkt. No. 3134)	$162 million	30 percent	No
In re (Citizens Bank) Checking Account Overdraft Litig., No. 1:09-md-02036 (S.D. Fla. Mar. 12, 2013) (Dkt. No. 3331)	$137.5 million	30 percent	No
In re Informix Corp. Sec. Litig., No. 97-cv-01289-CRB (N.D. Cal. Nov. 23, 1999) (Dkt. No. 471)	$132.2 million	30 percent	No
Kurzweil v. Philip Morris Co., Inc., Nos. 94-civ-2373 (MBM), 94-civ-2546 (BMB), 1999 WL 1076105 (S.D.N.Y. Nov. 30, 1999)	$123 million	30 percent	No
In re Ikon Office Solutions, Inc. Sec. Litig., 194 F.R.D. 166 (E.D. Pa. 2000)	$111 million	30 percent	No
Klein v. O'Neal, Inc., 705 F. Supp. 2d 632 (N.D. Tex. Apr. 9, 2010), *as modified* (June 14, 2010)	$110 million	30 percent	No
In re Prison Realty Sec. Litig., No. 3:99-cv-00458 (M.D. Tenn. Feb. 9, 2001) (Dkt. No. 108)	$104 million	30 percent	No

95. These cases show that, even in mega-fund cases, there is nothing unusual about awards in the range requested here. If any case justifies an award of 33⅓ percent, it is this one, which involved difficult factual, legal, and expert issues, a contested class certification, a trial on the merits, formidable opposing counsel, and a significant risk of no recovery.

96. At bottom, it is erroneous to focus solely on averages and medians. The Toups/Coffman objection, for example, is fatally deficient because it fails to conduct any nuanced, fact-specific analysis of the 33⅓ percent fee request in light of the particular circumstances of this case, including the litigation's difficult legal and factual challenges, the precise work performed by class counsel, and the fact that class counsel prevailed after a hard-fought bellwether trial.

97. Moreover, given that mega-fund class actions are relatively less common than those with smaller recoveries, average and median fee percentages for those cases are subject to greater

variation.[94] Notably, a number of mega-fund settlements have been securities class actions, where average and median fee awards tend to be lower than the overall averages and medians.[95] A reason for lower fees in securities cases, presumably, is that the crucial issue of class certification—a major source of dispute here (*see* ¶¶ 65–66)—is generally less challenging in securities cases.[96] Moreover, in some mega-fund securities settlements, courts have pointed to the lack of complex legal and factual challenges and the relative ease of achieving settlement in awarding lesser attorneys' fees.[97]

98. In my opinion, the important point is that attorneys' fee awards should bear a relationship to the degree of risk involved.[98] Indeed, courts often expressly point to the degree of risk assumed by class counsel in approving larger fee awards. As one court noted in awarding attorneys' fees of 33 percent, "Courts recognize that the risk of receiving no recovery is a major factor in awarding attorneys' fees . . . . [T]he riskier the case, the greater the justification for a substantial fee award."[99] Another court suggested that "[a]ttorneys' risk is perhaps the foremost factor in determining an appropriate fee award."[100] Indeed, a number of the *Johnson* factors

---

[94] *See, e.g.*, *In Re: Oil Spill by the Oil Rig "Deepwater Horizon" in the Gulf of Mexico, on April 20, 2010*, No. 2:10-md-02179-CJB, 2016 WL 6215974, at *16 (E.D. La. Oct. 25, 2016) (noting that in mega-fund cases "there are fewer percentage awards to serve as a benchmark; consequently, there is some variability in the percentages awarded in these cases"); Fitzpatrick, *supra* note 20, at 839 (noting that recoveries in the $1 billion to $6.6 billion range were subject to the largest standard deviation among fee awards).

[95] *See* Fitzpatrick, *supra* note 20, at 834.

[96] *See, e.g.*, *In re FedEx Ground Package Sys., Inc. Employment Practices Litig*., No. 3:05-MD-527 RLM, 2017 WL 1735541, at *5 (N.D. Ind. Apr. 28, 2017) (noting, in awarding attorneys fees of 30 percent and distinguishing lower fee awards in comparable securities cases, that "securities cases . . . differ . . . in many ways, not least of which that class certification in securities cases is nearly automatic under today's laws"); *see also* Robert H. Klonoff, *The Decline of Class Actions*, 90 WASH. U. L. REV. 729, 824 (2013) (noting that because "securities fraud suits . . . tend to involve overarching issues that impact all class members and seek damages that can be easily calculated," they "are commonly certified").

[97] In *In re Cendant Corp. PRIDES Litigation*, for example, the Third Circuit noted that the "case was neither legally nor factually complex and did not require significant motion practice or discovery by [class counsel], and the entire duration of the case from the filing of the Amended Complaint to the submission of a Settlement Agreement to the District Court was only four months." *In re Cendant Corp. PRIDES Litig.*, 243 F.3d 722, 742–43 (3d Cir. 2001).

[98] *See, e.g.*, Eisenberg & Miller, *supra* note 20, at 27, 38 ("[f]ees are . . . correlated with risk: the presence of high risk is associated with a higher fee, while low-risk cases generate lower fees. . . . That fees are adjusted for risk is widely accepted in the literature."). In their more recent study, Professors Eisenberg, Miller, and Germano found that "the association between risk and fee percentage continues in the 2009–2013 data." Eisenberg, Miller & Germano, *supra* note 20, at 958

[99] *Montague v. Dixie Nat'l Life Ins. Co*., No. 3:09-00687-JFA, 2011 WL 3626541, at *3 (D.S.C. Aug. 17, 2011).

focus specifically on the risks imposed by the litigation. *See* ¶¶ 52–90.

99. An emphasis on risk is especially relevant in mega-fund cases, where class counsel often invest thousands of attorney hours and millions of dollars in expenses. For example, in awarding attorneys' fees of 33⅓ percent in *Heekin v. Anthem, Inc.*, the court noted that class counsel "had a great deal at stake . . . with the burden of advancing litigation costs of over $6 million" despite "the risk presented by [the] case."[101]

100. It should also be emphasized that the very concept that fees as a percentage should decline as the size of the fund increases has been roundly criticized by courts. In *Urethane*, for example, this Court expressly rejected objectors' reliance on statistical studies in arguing—much like the Toups/Coffman objectors here—that fee awards should necessarily decrease with the size of the fund. To the contrary, in awarding attorneys' fees of 33⅓ percent in *Urethane*, this Court stated:

> [Objector] repeatedly cites the "principle" in the Tenth Circuit that fee award percentages decrease as settlement funds increase. . . . *[T]here is no such Tenth Circuit principle*. . . . This Court appreciates that some courts have awarded lower percentages to avoid granting an excessive windfall to counsel under the unique circumstances of those cases. On the other hand, *the Court agrees with those courts who have noted that such a diminishing scale can fail to provide the proper incentive for counsel*. . . . [I]n the present case, . . . class counsel achieved extraordinary success in a very long litigation. Thus, use of a declining-scale approach is not appropriate here, and the Court will award fees based on the unique circumstances of the case.[102]

Likewise, the Third Circuit has noted that the "position [that fees should decrease with the size of the fund] has been criticized by respected courts and commentators, who contend that such a

[100] *Francisco v. Numismatic Guar. Corp. of Am.*, No. 06-61677-CIV, 2008 WL 649124, at *14 (S.D. Fla. Jan. 31, 2008). *Accord, e.g.*, *In re Ocean Power Technologies, Inc.*, No. 3:14-cv-03799, 2016 WL 6778218, at *28 (D.N.J. Nov. 15, 2016) ("Courts across the country have consistently recognized that the risk of receiving little or no recovery is a major factor in considering an award of attorneys' fees."); *Jenkins v. Trustmark Nat'l Bank*, 300 F.R.D. 291, 309 (S.D. Miss. 2014) (noting that "courts have found that class counsel ought to be compensated . . . for risk of loss or nonpayment assumed by carrying through with the case").

[101] No. 1:05-CV-01908-TWP, 2012 WL 5878032, at *3–4 (S.D. Ind. Nov. 20, 2012). *Accord, e.g.*, *In re Tyco Int'l Ltd. Multidistrict Litig.*, 535 F. Supp. 2d 249, 260 (D.N.H. 2007) (noting that the case "involved a greater risk of non-recovery than other multibillion-dollar securities class action settlements" and emphasizing that, "[h]ad [class counsel] lost at summary judgment or fallen short of establishing liability at trial, they would have lost the tens of millions of dollars in expenses and all of the attorney time that they collectively invested in th[e] case").

[102] *Urethane*, 2016 WL 4060156, at *5–6 (emphasis added).

fee scale often gives counsel an incentive to settle cases too early and too cheaply."[103] In the *Rite Aid Securities Litigation*, the Third Circuit made clear that "there is no rule that a district court must apply a declining percentage reduction in every settlement involving a sizeable fund."[104] In the court's view, "the declining percentage concept does not trump the fact-intensive [attorneys' fees] analysis."[105] And in *Allapattah*, the court emphasized that a declining percentage reduction:

> is antithetical to the percentage of the recovery method . . . the whole purpose of which is to align the interests of Class Counsel and the Class by rewarding counsel in proportion to the result obtained. By not rewarding Class Counsel for the additional work necessary to achieve a better outcome for the class, the sliding scale approach creates the perverse incentive for the Class Counsel to settle too early for too little.[106]

Echoing the same analysis, the court in *In re Ikon Office Solutions, Inc. Securities Litigation* noted:

> Such an approach . . . fails to appreciate the immense risks undertaken by attorneys in prosecuting complex cases in which there is great risk of no recovery. Nor does it give significant weight to the fact that large attorneys' fees serve to motivate capable counsel to undertake these actions.[107]

Other courts have made the same points.[108] In my opinion, these courts have correctly criticized

[would be] an impermissibly formulaic approach"); *In re Linerboard Antitrust Litig.*, No. 98-cv-05055, 2004 WL 1221350, at *16 (E.D. Pa. June 2, 2004) (rejecting "sliding

the notion that fee percentages should necessarily decline with the size of the fund.[109]

101. In short, the requested fee of 33⅓ percent of a $1.51 billion judgment fits comfortably within the case law, given the facts and circumstances of this case.

3. There Is No Need for a Lodestar Cross Check

102. The next issue is whether the fees requested by class counsel should be tested using a "lodestar cross check"—*i.e.*, a procedure that courts sometimes use to verify the reasonableness of the fees sought based on sheer percentages.[110] This Court is certainly not *required* to conduct a lodestar cross check.[111] Indeed, a lodestar cross check can lead to the very harmful consequences that the percentage method is designed to avoid. As one court has noted, "[t]he lodestar analysis, even when used as a cross check to determine a reasonable percentage award, has the effect of rewarding attorneys for the same undesirable activities that the percentage method was designed to discourage, namely 'incentiviz[ing] [class counsel] to multiply filings and drag along proceedings to increase their lodestar.'"[112] (*See* ¶¶ 49–50.) It is not surprising, therefore, that even when approving relatively high percentage fee awards, courts in the Tenth

---

scale approach" as "economically unsound" and reasoning that "the highly favorable settlement was attributable to [class counsel's] skill and it is inappropriate to penalize them for their success").

[109] Likewise, numerous scholars agree that fee percentages should not necessarily be lower in mega-fund cases. *See, e.g.*, John C. Coffee, Jr., *Understanding the Plaintiff's Attorney: The Implications of Economic Theory for Private Enforcement of Law Through Class and Derivative Actions*, 86 COLUM. L. REV. 669, 697 (1986); Declaration of Professor Geoffrey P. Miller at 11, *In re Takata Airbag Prods. Liab. Litig.*, No. 1:15-md-02599-FAM (S.D. Fla.) (Dkt. Fitzpatrick at 14 & n.4, *In re High-Tech Employees Antitrust Litig.*, No. 11-CV-2509-LHK (N.D. Cal.) (filed May 8, 2015), *available at* http://www.hightechemployeelawsuit.com/media/303927/15-5-8__1079__fitzpatrick_decl__motion_for_attorney_fees.pdf; Declaration of Brian T. Fitzpatrick on the Reasonableness of Class Counsel's Requested Award of Attorneys' Fees at 7, *In re Urethane Antitrust Litig.*, No. 2:04-md-01616-JWL (D. Kan.) (Dkt. No. 3269-1) (filed July 15, 2016), *available at* http://polyetherpolyolsettlement.com/docs/Reply_Mem_iso_Attys_Fees_etc_Exhibits_for_website.pdf. Although the Toups/Coffman objection relies almost entirely on Professor Fitzpatrick, that scholar in fact refutes the entire premise of the objection.

[110] *See In re Crocs, Inc. Sec. Litig.*, No. 07-cv-02356-PAB-KLM, 2014 WL 4670886, at *4 & n.4 (D. Colo. Sept. 18, 2014) (describing role of lodestar cross check as a means to confirm the reasonableness of a percentage fee award, and noting that the "cross-check calculation need entail neither mathematical precision nor bean counting" (citation omitted)).

[111] *See, e.g.*, *Ramah Navajo Chapter v. Jewell*, 167 F. Supp. 3d 1217, 1241 (D.N.M. 2016) ("The Tenth Circuit has made it clear that district courts need not calculate a lodestar when applying the percentage method." (citing *Gottlieb v. Barry*, 43 F.3d 474, 487 (10th Cir. 1994))).

[112] *Jewell*, 167 F. Supp. 3d at 1242 (citation omitted).

Circuit have often declined to apply a lodestar cross check.[113] Many other jurisdictions follow a similar approach.[114] Indeed, in awarding attorneys' fees of 30 percent in the $410 million *Bank of America Checking Account Overdraft Litigation* without conducting a lodestar cross check, the court emphasized that "[t]he lodestar approach should not be imposed through the back door via a cross-check."[115]

4. In Any Event, a Lodestar Analysis Supports the Fees Requested

103. Even if the Court were to conduct a lodestar cross check, such an analysis, in my opinion, would only confirm the reasonableness of the fees requested by MDL class counsel. (I have only been given data for MDL counsel and thus am not in a position to opine on the lodestar with respect to Illinois and Minnesota counsel.)

104. In the Tenth Circuit, a lodestar cross check involves "determining the lodestar amount—*i.e.,* the number of hours [class] counsel reasonably expended multiplied by a reasonable [hourly rate]—and then multiplying the lodestar amount by a subjective 'multiplier'

[113] *See, e.g.*, *Fankhouser v. XTO Energy, Inc.,* 2012 WL 4867715, at *3 (W.D. Okla. Oct. 12, 2012) (awarding 36 percent fee without lodestar cross check); *Hill v. Marathon Oil Co*., No. 5:08-cv-00037, slip op. at 5–6 (W.D. Okla. Oct. 3, 2012), *available at* https://ecf.okwd.uscourts.gov/doc1/14912670884 (awarding 33⅓ percent fee without lodestar cross check); *CompSource Okla. v. BNY Mellon, N.A*., No. CIV 08-469-KEW, 2012 WL 6864701, at *8 (N.D. Okla. Oct. 25, 2012) (awarding 25 percent fee without lodestar cross check); *Droegemueller v. Petroleum Dev. Corp.,* 2009 WL 961539, at *4 (D. Colo. Apr. 7, 2009) (awarding 33⅓ percent fee without lodestar cross check); *Lewis v. Wal-Mart Stores, Inc.,* 2006 WL 3505851, at *2 (N.D. Okla. Dec. 4, 2006) (awarding 33⅓ percent fee without lodestar cross check); *Millsap v. McDonnell Douglas Corp.*, No. 94-CV-633-H(M), 2003 WL 21277124, at *9 (N.D. Okla. May 28, 2003) (awarding 25 percent fee without lodestar cross check).

[114] *See, e.g.*, *Swedish Hosp. v. Shalala*, 1 F.3d 1261, 1266–70 (D.C. Cir. 1993) (lodestar analysis not required); *Bacchi v. Mass. Mut. Life Ins. Co.*, No. 12-11280-DJC, slip op at 7 (D. Mass. Nov. 8, 2017) (noting that lodestar cross check is discretionary in the First Circuit); *CompSource Okla. v. BNY Mellon, N.A*., No. CIV 08-469-KEW, 2012 WL 6864701, at *8 (N.D. Okla. Oct. 25, 2012) ("[A] majority of circuits recognize that trial courts have the discretion to award fees based solely on a percentage of the fund approach and are not required to conduct a lodestar analysis in common fund class actions."); *Smith v. Krispy Kreme Doughnut Corp*., No. 1:05CV00187, 2007 WL 119157, at *3 (M.D.N.C. Jan. 10, 2007) (noting that "[i]t is not necessary for the Court to conduct a lodestar analysis" in the Fourth Circuit); *Laffitte v. Robert Half Int'l Inc.*, 376 P.3d 672, 688 (Cal. 2016) (noting that courts "retain the discretion to forgo a lodestar cross-check and use other means to evaluate the reasonableness of a requested percentage fee").

[115] *In re Bank of Am. Checking Account Overdraft Litig*., 830 F. Supp. 2d 1330, 1362 (S.D. Fla. 2011). Likewise, numerous scholars have argued that courts should not use a lodestar cross check when applying the percentage method. *See, e.g.*, Declaration of Brian T. Fitzpatrick at 6–7, *In re High-Tech Employees Antitrust Litig*., No. 11-CV-2509-LHK (N.D. Cal.) (filed May 8, 2015), *available at* http://www.hightechemployeelawsuit.com/media/303927/15-5-8__1079__fitzpatrick_decl__motion_for_attorney_fees.pdf; MORRIS RATNER, CIVIL PROCEDURE: CLASS ACTION FEE AND COST AWARDS 30–32 THE JUDGE'S BOOK: Vol. 1, Article 9 (2017); Charles Silver, *Due Process and the Lodestar Method: You Can't Get There From Here*, 74 TUL. L. REV. 1809, 1813–14 (2000).

to compensate for the risk of [the] litigation."[116] I focus on these calculations below.

a. The Hours Spent By MDL Class Counsel Are Reasonable

105. I have been provided with copies of all time entries from all common benefit counsel in the Kansas MDL. In total, common benefit counsel in the Kansas MDL have spent 142,823.50 hours prosecuting this litigation to date.

106. I should note that I see no red flags suggesting that the work of the MDL plaintiffs' firms was inefficient or that there was needless duplication. Attorneys at the MDL plaintiffs' common benefit law firms targeted specific tasks: overseeing overall strategy and case management; performing legal research; drafting briefs and memoranda; reviewing, analyzing, and coding documents; focusing on particular kinds of depositions (*e.g.*, producer depositions and expert depositions); drafting discovery responses; drafting pleadings; and trial preparation. Moreover, the paralegals assigned to the case focused on traditional paralegal tasks, such as preparation of potential exhibits for depositions; document management; assisting with filing of court documents; and performing basic research. I have seen nothing to suggest that the case was overstaffed, that there was needless duplication of effort, or that attorneys or paralegals were focusing on unnecessary tasks.

107. Indeed, the MDL leadership took great efforts to minimize duplication of tasks. Co-lead counsel created and circulated billing guidelines to the various common benefit law firms. Among other things, those guidelines directed the firms to minimize the number of individual timekeepers at each firm, directed the firms to assign the same attorneys and staff members to related tasks to avoid extra time getting others up to speed, and provided that time spent generally reviewing filings and other materials not directly related to work assigned by co-lead counsel would not be billable as common benefit time. *See* Stueve Decl. ¶¶ 621–629. Moreover, small groups of attorneys focused on discovery in particular subject areas to promote efficiency, while a core group of attorneys consistently worked on legal research and briefing

[116] *Been v. O.K. Indus.*, Inc., No. CIV-02-285-RAW, 2011 WL 4478766, at *10 (E.D. Okla. Aug. 16, 2011). *Accord, e.g.*, *In re Toyota Motor Corp. Unintended Acceleration Mktg., Sales Practices, & Prods. Liab. Litig.*, No. 8:10-ml-02151-JVS (FMOx), 2013 WL 12327929, at *34 (C.D. Cal. July 24, 2013) (multiplier awarded based on "all the circumstances of [the] litigation, particularly the risks"); *Klein v. O'Neal, Inc.*, 705 F. Supp. 2d 632, 680 (N.D. Tex. 2010), *as modified* (June 14, 2010) (noting that a multiplier was "warranted due to the risks entailed in this litigation"); *In re Sprint Corp. ERISA Litig.*, 443 F. Supp. 2d 1249, 1271 (D. Kan. 2006) (finding multiplier resulting from lodestar cross check "[e]minently reasonable based on the risks associated with counsel taking on this case").

throughout the litigation. *See id*. ¶¶ 625–626. Even document reviewers were kept consistent, with priority given to "those document reviewers who were able to devote substantial amounts of time over multiple months." *Id*. ¶ 627. Stueve Siegel Hanson collected and reviewed monthly time records from all of the common benefit firms, and then combined, reviewed, and corrected the cumulative records. After this initial review, each firm involved was asked to review its time for consistency with the Common Benefit Order and the above-mentioned billing guidelines provided by co-lead counsel, which resulted in meaningful cuts. Co-lead counsel then performed a final review of all time entries, which again resulted in a meaningful reduction in the overall lodestar. *See id*. ¶¶ 630–641.

108. I understand that additional time was logged by Minnesota counsel and by members of the Clark, Love & Hutson group in the Illinois action. I further understand that those attorneys are submitting their hours to the Court separately.

b. The Billing Rates Proposed by MDL Class Counsel Are Reasonable

109. The designated hourly rates for the various MDL law firms submitting lodestar hours[117] range from $175 to $985 for partners; $170 to $775 for associates; $495 to $825 for of counsel; $150 to $325 for law clerks; and $63.75 to $305 for paralegals. To gauge the reasonableness of class counsel's rates, courts in the Tenth Circuit begin by referring to "the prevailing market rates in the relevant community"—defined as "the area in which the litigation occurs."[118]

110. Courts have approved rates for prominent plaintiffs' complex litigation firms that are comparable to those designated by the plaintiffs' firms in this case. Examples include Motley Rice (hourly rates as high as $975 approved in litigation in this District three years ago),[119] and

[117] Those firms are: Anderson, Bottrell, Sanden & Thompson; Barrack, Rodos & Bacine; Battle & Winn; Batts, Batts & Bell; Bohrer Brady; Bolen Robinson & Ellis; Brady Preston Brown; Brooks Pierce; Coffman Law Firm; Emerson Poynter; Emerson Scott; English, Lucas, Prist & Owsley; Gray Reed & McGraw; Gray, Ritter & Graham; Greene Espel; Hare Wynn Newell & Newton; Holland Law Firm; Jake W. Brooks Attorney at Law; Kruml Law Office; Lockridge Grindal Nauen; Lundberg Law Firm; Martin, Browne, Hull & Harper; McCulley McCluer; Miller Schirger; Paul LLP; Saeed & Little; Schirger, Kirk, McDougall & Winzeler; Seeger Weiss; Simmons Hanly Conroy; Sneed Lang; Soper Leddin Law Firm; Stinson Leonard Street; Stueve Siegel Hanson; Wadler Perches Hudl Kerlick; Wagner Reese; Walters Bender Strohbehn & Vaughan; Weller, Green, Toups & Terrell; Westerfield Janoush & Bell; and Zimmerman Reed. These firms are referred to collectively as "plaintiffs' firms."

[118] *Garcia v. Tyson Foods, Inc.*, No. 06-cv-02198-JTM, 2012 WL 5985561, at *3 (D. Kan. Nov. 29, 2012) (citations and internal quotation marks omitted).

[119] *See, e.g.*, Decl. of James M. Hughes at Ex. A, *Bennett v. Sprint Nextel Corp*., No. 2:09-cv-02122-EFM (D. Kan.) (filed May 8, 2015), *available at* https://ecf.ksd.uscourts.gov/doc1/07914018030.

litigation involving both Bolen Robinson & Ellis and the Holland Law Firm (hourly rates up to $897 approved in 2017 in the Western District of Missouri, where the court noted that such rates "are not dissimilar to those hourly rates charged in the Kansas City area").[120] Stueve Siegel Hanson has an impressive record of having substantial rates approved, both in the Kansas City area and elsewhere, with several judicial opinions in 2018 approving rates as high as $865 for partners and $525 for associates.[121]

111. Indeed, even higher rates than those requested here would be justified given the complicated, multi-jurisdictional nature of this case.[122] For example, in *Volkswagen*, class counsel's hourly rates were as high as $1,600 for partners and $790 for associates.[123] And in *Nitsch v. DreamWorks Animation SKG, Inc.*, billing rates for partners were as high as $1,200 per hour.[124] Here, all of the proposed rates are below $1,000 per hour, despite the prominence and

[120] *Pollard v. Remington Arms Co., LLC*, 320 F.R.D. 198, 222 (W.D. Mo. 2017). It is also notable, as Retired Judge Ralston points out in his declaration (at ¶ 51), that this Court's order appointing Ellen K. Reisman as special master designated her rate at $950 per hour.

[121] *See, e.g.*, *Hapka v. Carecentrix, Inc*., No. 2:16-cv-02372-KGG, slip op. at 3 (D. Kan. Feb. 15, 2018), *available at* https://ecf.ksd.uscourts.gov/doc1/07914925572 (citing Pls.' Litig.*, No. CV 7-2536 PSG, 2016 U.S. Dist. LEXIS 148577, at *27 (C.D. Cal. Oct. 25, 2016) (approving "a billing rate ranging from $750 to $985 per hour for partners, $500 to $800 per hour for 'of

vast experience of the attorneys involved (*see* ¶ 76).

112. The rates proposed by the MDL plaintiffs' firms here are also extremely reasonable when compared to rates for prominent defense firms. For instance, a 2016 American Bar Association report (relying on public filings in Chapter 11 bankruptcy cases) noted billing rates as high as $1,475 at Proskauer Rose; $1,450 at Ropes & Gray; and $1,425 at both Akin Gump Strauss Hauer & Feld and Skadden Arps Slate Meagher & Flom.[125] Similarly, a 2015 fee application of Gibson Dunn revealed rates for partners in a bankruptcy case as high as $1,475.[126] Indeed, according to some sources (discussing rates in 2014 and 2015), some prominent partners at top law firms have billed rates as high as $2,000 per hour.[127] For associates, a 2011 study found rates at DLA Piper as high as $730; at Kay Scholer, rates as high as $705; and at Winston

& Strawn, rates as high as $600.[128] Of course, today's rates for partners and associates would presumably be even higher.[129]

113. It is especially instructive, in gauging billing rates for class counsel, to look at rates for the firm actually representing the defendant in the litigation.[130] Here, partners at Syngenta's law firm, Kirkland & Ellis, bill at substantially higher rates than plaintiffs' counsel here are proposing. For instance, Kirkland's own web site reveals that the firm's partners bill at rates as high as $1,745 per hour, with associates billing out as high as $1,015 per hour.[131] Other sources confirm similarly high rates for Kirkland lawyers.[132]

114. The rates designated by the MDL plaintiffs' common benefit lawyers in the instant case are comparable to (or below) the above-described billing rates. For example, the billing rates designated by those lawyers are well below Kirkland's billing rates, with no attorney from any of the plaintiffs' common benefit firms proposing rates for partners anywhere close to $1,745 per hour, or for associates anywhere close to $1,015 per hour. Indeed, at Kirkland, some *associates* bill out at more than the rates proposed by even the most senior and prominent partners in the instant case, such as Christopher Seeger and Patrick Stueve.

115. Importantly, in other cases, the MDL plaintiffs' law firms involved here have been

---

[132] *See, e.g.*, Ryan Lovelace, *Hourly Rate Gap Widens as Top Billers Leave Others Behind*, NAT'L L.J. (May 17, 2018), https://www.law.com/nationallawjournal/2018/05/17/hourly-rate-gap-widens-as-top-billers-leave-others-behind/ (noting hourly rates for Kirkland partners as high as $1,745); Sara Randazzo & Jacqueline Palank, *Legal Fees Cross New Mark: $1,500 an Hour*, WALL ST. J. (Feb. 9, 2016), https://www.wsj.com/articles/legal-fees-reach-new-pinnacle-1-500-an-hour-1454960708 (2016 article noting hourly rates for Kirkland partners ranging from $875 to $1,445).

awarded hourly rates comparable to those requested. For example, as noted (¶ 110), rates as high as $865 per hour have been approved for attorneys at Stueve Siegel Hanson in prior litigation in this District. In the *NFL Concussion* case, the court approved hourly billing rates for partners ranging from $750 to $985, including $985 per hour for Christopher Seeger of Seeger Weiss (settlement class counsel in this case).[133]

116. The blended rate for the MDL plaintiffs' common benefit firms in this case is $572.21. That rate is consistent with or below blended rates in other major MDL cases. For example, in *NFL Concussion*, the court approved a blended rate of $861.28 per hour for Seeger Weiss specifically, and a blended rate of $623.05 per hour for all common benefit counsel.[134] In *Hightower v. JPMorgan Chase Bank, N.A.*, the court approved a blended rate of $575 per hour.[135] And Lieff Cabraser Heimann & Bernstein designated a blended rate of $529 per hour in the *Volkswagen Clean Diesel Litigation*.[136] Notably, none of those cases went to trial (where hours billed by senior lawyers would be expected to increase).

117. In any event, in my opinion, it is not useful to compare the blended rate here with the rates in other cases, especially those in which the tasks performed were very different. Here, much of the work was, by its very nature, high-level and thus not suitable for a paralegal or low-level attorney. For example, the firm could not assign paralegals or recent law school graduates to try the bellwether cases, conduct high-level settlement negotiations, interview and work with experts, or evaluate, brief, and argue the complicated issues of law. It should not be surprising, therefore, that four of the top five billers (all with more than 5,000 hours) are partners, and that among the top ten billers, all but two are partners. Given the nature of the tasks that make up

many of the hours spent by class counsel, the blended rate here is very reasonable. Simply comparing that number to other cases—in which the mix of tasks performed may be very different—is not an especially probative exercise.[137]

c. Additional Expected Hours Should Be Included

118. When calculating the lodestar, courts routinely take into account hours that class counsel reasonably anticipate spending on the matter after final approval (*e.g.*, hours to be spent on claims administration issues).[138]

119. I am advised by MDL class counsel that they have spent 142,823.50 hours on the case to date, and expect to spend at least 500–1,000 hours in the future due to the size of the class and the complexity of the settlement administration process. Because the claims deadline is not until October 12, 2018, MDL class counsel will continue working with the claims administrator and answer questions from class members for three additional months. Additional work will also include drafting the final approval papers and preparing for and attending the final approval hearing. As discussed in ¶¶ 105–107, the figure for time spent thus far on this complicated case—with a full and two partial bellwether trials, contested class certification, and extensive dispositive and *Daubert* motions—strikes me as entirely reasonable, as does the figure representing hours likely to be expended by the firm going forward.

d. The Multiplier Is Well Justified Based on Tenth Circuit Precedent

120. Based on the number of hours expended and the hourly rates proposed, class counsel's lodestar would be $81,725,060.90. MDL class counsel are requesting 50 percent of the total 33⅓ percent attorneys' fees requested, or approximately $251.6 million, pursuant to the above-noted

[137] *See also, e.g.*, *Young v. Polo Retail, LLC*, No. 02-cv-4546-VRW, 2007 WL 951821, at *7 (N.D. Cal. Mar. 28, 2007) ("[T]he central role of settlement negotiations in this litigation—and the central role of senior attorneys in those negotiations—suggest that typical blended hourly rates . . . are inappropriate here.").

[138] *See, e.g.*, *Tennille v. Western Union Co.*, No. 09-cv-00938-MSK-KMT, 2013 WL 6920449, at *3 (D. Colo. Dec. 31, 2013) (instructing plaintiffs to include in their lodestar calculation "an estimate of the future hours that will be necessary to carry the case to completion under the Settlement Agreement"); *Reyes v. Bakery & Confectionery Union*, 281 F. Supp. 3d 833, 853, 856–57 (N.D. Litig.*, No. 2672 CRB (JSC), slip op at 8 (N.D. Cal. Mar. 17, 2017) (granting fee request reserving "an additional 21,000 hours to (1) guide the hundreds of thousands of Class Members through [claims period]; (2) assist in the implementation and supervision of the Settlement . . . ; and (3) defend and protect the settlement on appeal, among other things" (citation and internal quotation marks omitted)); *AT&T Mobility*, slip op at 16–17 (citing the "considerable ongoing efforts" required of class counsel to implement the settlement as a "factor [that] supports a generous reward").

fee-sharing agreement. *See* ¶ 37. (I opine separately on that proposed allocation in ¶¶ 129–131.) That calculates to a multiplier of 3.079 for MDL class counsel, not counting hours going forward.[139] Counting 750 hours going forward as well (based on class counsel's estimate of 500–1,000 additional hours), the multiplier would be 3.06. In my view, either multiplier is justified here.

121. As a threshold matter, I believe that MDL class counsel are clearly entitled to a multiplier. Courts in the Tenth Circuit generally apply a multiplier to the lodestar "to compensate for the risk of [the] litigation."[140] In analyzing the multiplier, the ultimate standard is "reasonableness," and courts often look to those *Johnson* factors that are not already subsumed within the lodestar calculation (excluding, for example, "the time and labor involved," because class counsel's hours and rates are already accounted for by the lodestar).[141]

122. In this case, there is no question that MDL class counsel reasonably expected to be awarded a multiplier (assuming that the Court were to apply the lodestar method). Counsel took on a case that, as explained in ¶¶ 56–74, entailed enormous risk and challenges. It would be illogical and unfair to rely solely on normal billing rates, without enhancement, in a situation where there was a high likelihood that class counsel would recover nothing. Class counsel's designated hourly rates do not reflect that risk. As noted, those rates are in line with (or below) those awarded to plaintiffs' firms (before factoring in a multiplier) in other major class actions. *See* ¶¶ 109–111, 116. And they are comparable to—or below—what prominent defense firms charge (*see* ¶¶ 112–114), even though such defense firms are paid those rates regardless of whether they win or lose.[142] As the court emphasized in the *Toyota Unintended Acceleration* case, a multiplier is awarded based on "all the circumstances of [the] litigation, particularly the

[139] This figure is based on a lodestar (excluding future time, *see* ¶¶ 118–119) of $81,725,060.90. A multiplier of 3.079 is thus required to reach MDL class counsel's requested fee of $251.6 million.

risks."[143]

123. Multipliers in the 3.079 range are not uncommon, especially for a complicated, challenging case such as this one. In the Tenth Circuit, "[a] multiplier of four or less is commonly accepted as reasonable."[144] And courts in the Tenth Circuit and elsewhere have approved similar or greater multipliers in numerous other major cases. For example, in *Urethane*, this Court stated that a multiplier of "4 or 5 would fall within the range of multipliers accepted by a number of courts in megafund cases."[145] Another court within the Tenth Circuit noted that "[t]ypical multipliers range from one to four depending on the facts, with many courts awarding multipliers larger than four on case-specific grounds."[146] Likewise, in *Steiner v. American Broadcasting Co., Inc.*, the Ninth Circuit upheld a multiplier of 6.85, and emphasized that it "f[ell] well within the range of multipliers that courts have allowed."[147] Another court noted that "[c]ourts regularly award lodestar multipliers of up to eight times the lodestar, and in some cases, even higher multipliers."[148] And the court in *In re Charter Communications*

125. As the court noted in the *Enron Litigation*: "The multiplier represents the risk of the litigation, the complexity of the issues, the contingent nature of the engagement, the skill of the attorneys, and other factors."[150] It can be "adjusted to account for particular circumstances, such as the quality of representation, the benefit obtained for the class, the complexity and novelty of the issues presented, and the risks involved . . . ."[151] In *Enron*, class counsel faced complex legal and factual issues, obtained class certification over vigorous opposition, took on numerous rounds of briefing and motion practice, contributed to (rather than relying entirely on) a parallel government investigation, and ultimately obtained a record-setting settlement. The court held that "the extraordinary recovery under extremely challenging circumstances . . . justifies . . . application of a significant [5.21] multiplier."[152] Similarly, in the *Rite Aid Securities Litigation*,

[150] *In re Enron Corp. Sec., Derivative & ERISA Litig.*, 586 F. Supp. 2d 732, 752 (S.D. Tex. 2008).

[151] *Id.*

[152] *Id.* at 797.

the court cited the "undeniably unique" facts, the complexity of the legal issues, the lack of reliance "on the fruits of any official investigation," class counsel's skillful representation, and the impressive "nine-figure settlement" in support of a multiplier of 6.96.[153] Importantly, in neither *Enron* nor *Rite Aid* was there a trial on the merits, unlike the instant case.

126. Here, a multiplier of 3.079 for MDL class counsel is well justified under the case law because class counsel took on a challenging, risky case with extremely complex legal and factual issues, prosecuted it skillfully over the course of several years without assistance from any official investigation, obtained class certification despite Syngenta's opposition, conducted a complete trial that resulted in an impressive $217.7 million jury verdict, and obtained a superb $1.51 billion settlement for the class.

f. The Multiplier Is Supported by the Relevant *Johnson* Factors

127. The reasonableness of the 3.079 multiplier is further confirmed by those *Johnson* factors that are not already subsumed by the lodestar calculation. In particular, this is an unusually complicated case, with difficult legal and factual issues, and it involved a contested class certification, a successful bellwether trial, and contentious dispositive and *Daubert* motions. MDL class counsel took on substantial risks, were precluded to a significant extent from doing other work, and achieved an enormous $1.51 billion settlement, even though the case was not a desirable one at the outset. *See* ¶¶ 52–90.

5. Conclusion on Attorneys' Fees

128. The attorneys' fees sought (33⅓ percent) are well justified based on the percentage method, and the 50 percent of those fees sought by MDL class counsel remain fully justified even if this Court were to analyze the fees under a lodestar cross check.

[153] *See In re Rite Aid Corp. Sec. Litig.*, 362 F. Supp. 2d 587, 590 (E.D. Pa. 2005).

ALLOCATION OF FEES[154]

B. The Proposed Allocation of Attorneys' Fees Is Reasonable

129. As explained above (¶ 37), on February 23, 2018, class counsel entered into a fee-sharing agreement. Specifically, co-lead counsel in the federal MDL, co-class counsel in the Minnesota cases, and appointed lead counsel in the Illinois state cases agreed on an allocation among their various groups, after mediations with the Court-appointed special master. Under the agreement, those attorneys propose that the Court divide the fee award as follows: 50 percent to co-lead counsel in the federal MDL and the attorneys who performed and reported common benefit work in the federal MDL; 12.5 percent to attorneys who performed common benefit work in the Minnesota MDL; and 17.5 percent to appointed counsel in the Illinois state-court cases. Under the agreement, the remaining 20 percent of the requested fee would be distributed as the Court deems appropriate.

130. I understand that class counsel are now recommending that the Court allocate the common benefit portion pursuant to the February 23, 2018 agreement (50/12.5/17.5 percent). As to the remaining 20 percent, class counsel urge that that portion be allocated: (1) to subclass counsel for the Viptera purchaser, grain elevator, and ethanol production subclasses for their efforts representing those subclasses during settlement negotiations and for any service awards sought by subclass counsel for the subclass representatives; (2) to other counsel who make timely fee requests as the Court deems appropriate; and (3) if funds remain, to lawyers whose services were of demonstrable class benefit (including those in the Kansas MDL group) as the Court deems appropriate in accordance with the *Johnson* factors.

131. The February 2018 agreement was negotiated under the auspices of the special masters, and the allocations were the result of arms-length negotiations between the federal MDL common benefit group, the Minnesota common benefit group, and the Illinois common benefit group. Given the arms-length bargaining and the involvement of the special masters, I have no basis to second-guess the 50/12.5/17.5 allocation among common benefit counsel. MDL common benefit counsel did much of the heavy lifting in developing and investigating the case, and took the lead on discovery, class certification, briefing key legal issues, and trying the

[154] I offer no opinions in connection with a putative class action lawsuit filed against the Watts Guerra law firm, *Kellogg v. Watts Guerra et al.*, No. 0:18-cv-01082-DWF-BRT (D. Minn. filed Apr. 24, 2018).

Kansas case. Also, it makes perfect sense for common benefit counsel to defer to the Court on allocations to subclass counsel and other attorneys from the remaining 20 percent. Finally, it makes good sense for the Court to divide among common benefit counsel any of the 20 percent that is left over, and the *Johnson* factors can be used to determine precisely how to divide those funds.

OUT-OF-POCKET COSTS

C. The Out-of-Pocket Costs Sought by Class Counsel Are Reasonable

132. MDL class counsel seek out-of-pocket costs in the amount of $$6,695,350.05. It is well settled in the Tenth Circuit and nationwide that "an attorney who creates or preserves a common fund for the benefit of a class is entitled to receive reimbursement of all reasonable costs incurred."[155]

133. In my opinion, the costs sought by class counsel are eminently reasonable. Those costs represent only 0.44 percent of the settlement fund. They include: expert-related expenses (more than $1.5 million), class certification notice (more than $460,000), deposition-related expenses (more than $380,000), payments to the special masters (close to $300,000), ESI expenses (close to $300,000), as well as substantial outlays for travel, research, fax and mailing charges, court costs, etc. Notably, as previously discussed, class counsel paid those enormous costs without any assurance that the case would ultimately succeed.

134. Based on my experience, costs of that magnitude are well within (indeed, below) the norm for major class actions. For example, in the *Enron* case, costs were 0.50 percent;[156] in *Visa Antitrust*, costs were 0.55 percent;[157] in the *Tyco Securities Litigation*, costs were 0.87 percent,[158]

---

[155] *Lucas v. Kmart Corp.*, No. 99-cv-01923-JLK-CBS, 2006 WL 2729260, at *9 (D. Colo. July 27, 2006). *Accord, e.g.*, *Been v. O.K. Indus., Inc.*, No. CIV-02-285-RAW, 2011 WL 4478766, at *3 (E.D. Okla. Aug. 16, 2011) ("Attorneys who recover a common fund for a class are entitled to . . . reasonable . . . costs and expenses from the fund."); *Wakefield v. Wells Fargo & Co.*, No. 3:13-CV-05053-LB, 2015 WL 3430240, at *6 (N.D. Cal. May 28, 2015) ("Class counsel are entitled to reimbursement of reasonable out-of-pocket expenses."); *In re Cardizem CD Antitrust Litig.*, 218 F.R.D. 508, 534–35 (E.D. Mich. 2003) ("Under the common fund doctrine, class counsel is entitled to reimbursement of all reasonable out-of-pocket litigation expenses and costs in the prosecution of claims and in obtaining settlement, including expenses incurred in connection with document productions, consulting with experts and consultants, travel and other litigation-related expenses.").

[156] *See In re Enron Corp. Sec., Derivative & ERISA Litig.*, 586 F. Supp. 2d 732 (S.D. Tex. 2008) (approximately $39 million in costs compared to $7.2 billion settlement).

[157] *See In re Visa Check/Mastermoney Antitrust Litig.*, 297 F. Supp. 2d 503 (E.D.N.Y. 2003) ($18.7 million in costs compared to $3.4 billion settlement).

in *Dahl v. Bain Capital Partners, LLC*, costs were 2.03 percent,[159] and in the *U.S. Foodservice Pricing Litigation*, costs were 2.7 percent.[160] Moreover, the costs are for standard (and expected) expenses for a case like this, and thus do not raise any concerns.

INCENTIVE PAYMENTS

D. The Proposed Incentive Payments for the Class Representatives Are Reasonable

135. The Kansas class representatives, and certain other class representatives and bellwether plaintiffs here, invested significant time and effort on behalf of the class. For most, their work on this case took them away from their families and from their day-to-day responsibilities of running their family-owned farms. Those who attended the three-week Kansas class trial had to travel to Kansas City, far from their homes and farms, and some spent the full three weeks at trial. They had to prepare to testify, and ultimately provided persuasive testimony that helped win a major verdict for the class. All of those plaintiffs who attended the Kansas class trial were also deposed, and many had to travel to prepare for and attend their sometimes lengthy depositions. A number of plaintiffs who did not attend the Kansas class trial nonetheless had to travel to prepare for and attend depositions. And all of the plaintiffs who were deposed also responded to lengthy written discovery—including at least six sets of interrogatories propounded by Syngenta and nearly 100 requests for admissions—and produced numerous documents detailing their farming operations in response to Syngenta's requests for production. Other plaintiffs were not deposed, but spent significant time responding to voluminous requests for production beyond plaintiff fact sheets. In addition to searching and reviewing their own files to respond to Syngenta's discovery requests, many plaintiffs in each category had to put in additional effort to obtain documents from third parties.

136. Class counsel seek incentive payments for those class representatives and bellwether plaintiffs, to be structured as follows: (1) $100,000 for each plaintiff who attended the Kansas

---

[158] *See In re Tyco Int'l Ltd. Litig.*, 535 F. Supp. 2d 249 (D.N.H. 2007) ($28.9 million in costs compared to $3.3 billion settlement).

[159] *Dahl v. Bain Capital Partners, LLC*, No. 1:07-cv-12388 (D. Mass. Feb. 2, 2015) (Dkt. No. 1095) ($12 million in costs compared to $590.5 million settlement).

[160] *In re U.S. Foodservice, Inc. Pricing Litig.*, No. 3:07-md-01894 (AWT), slip op. at 7 (D. Conn. Dec. 9, 2014) (Dkt. No. 521) ($8.08 million in costs compared to $297 million settlement). Professors Eisenberg and Miller found that mean and median costs awarded in all class settlements between 2003 and 2008 were 2.7 percent and 1.7 percent, respectively. *See* Eisenberg & Miller, *supra* note 20, at 274.

class trial; (2) $15,000 for each plaintiff who was deposed but did not attend the Kansas class trial; and (3) $5,000 for each plaintiff who responded to written discovery but was not deposed and did not attend the Kansas class trial. The first category encompasses four plaintiffs; the second encompasses 65 plaintiffs; and the third encompasses 20 plaintiffs.[161] Thus, the proposed incentive payments total $1.475 million, or 0.1 percent of the $1.51 billion common fund. In my view, these requests are reasonable based on the facts and circumstances presented here.

137. In the Tenth Circuit and elsewhere, incentive payments serve as compensation to class representatives "for personal risk incurred by the [class representative] or additional effort and expertise provided for the benefit of the class."[162] Courts often look to "the extent of the plaintiff's personal involvement in the lawsuit in terms of discovery responsibilities and/or testimony at depositions or trial."[163] Moreover, courts frequently evaluate incentive payments "in comparison to the total recovery on behalf of the class."[164]

138. Courts have approved substantial incentive payments where the class representatives undertook particularly demanding work on behalf of the class. The payments sought here are substantial but not unprecedented. Thus, courts have awarded $100,000 or more in a number of cases, such as where the representatives participated in trials or otherwise performed major roles. For instance, in *Urethane*, this Court awarded incentive payments as high as $150,000 to $200,000 out of a fund of $835 million.[165] In *Boynton v. Headwaters, Inc.*, the court approved incentive payments of $100,000 out of a fund of $16 million, noting the "diligence" of the class representatives and the "significant financial sacrifices" they made in playing such active, time-

[161] The plaintiffs in each category are identified in the Memorandum in Support of Kansas MDL Co-Lead Counsel and Settlement Class Counsel Christopher Seeger's Petition for Award of Attorneys' Fees, Reimbursement of Expenses, Service Awards to Class Representatives/Bellwether Plaintiffs and Allocation of Attorneys' Fee Award (filed contemporaneously).

[162] *UFCW Local 880–Retail Food Emp'rs Joint Pension Fund v. Newmont Mining Corp*., 352 F. App'x 232, 235–36 (10th Cir. 2009). *Accord, e.g.*, *Hadix v. Johnson*, 322 F.3d 895, 898 (6th Cir. 2003) (noting that "incentive awards are efficacious ways of . . . rewarding individual efforts taken on behalf of the class," noting that "[n]umerous courts have authorized incentive awards," and citing cases approving incentive awards); *Lane v. Page*, 862 F. Supp. 2d 1182, 1234 (D.N.M. 2012) (noting that incentive payments serve "to compensate a class representative for risks they take and work they perform on behalf of the class").

[163] *Reibstein v. Rite Aid Corp*., 761 F. Supp. 2d 241, 257 (E.D. Pa. 2011).

[164] *Meijer, Inc. v. Warner Chilcott Holdings Co. III, Ltd*., 565 F. Supp. 2d 49, 57 (D.D.C. 2008).

[165] *See In re Urethane Antitrust Litig*., No. 04-md-01616-JWL, slip op. at 2 (D. Kan. July 29, 2016) (Dkt. No. 3276).

consuming roles.[166] Other examples are *In re High-Tech Employee Antitrust Litigation*,[167] *In re Titanium Dioxide Antitrust Litigation*,[168] *Ivax Corp. v. Aztec Peroxides, LLC*,[169] *In re Neurontin Antitrust Litigation*,[170] *Marchbanks Truck Services v. Comdata Network, Inc.*,[171] *Been v. O.K. Industries, Inc.*,[172] *Columbus Drywall & Insulation, Inc. v. Masco Corp*,[173] *Velez v. Novartis Pharmaceutical Corp.*,[174] and the *NFL Concussion Litigation*.[175] And of course, myriad cases have awarded payments of less than $100,000.[176]

139. In evaluating the reasonableness of proposed incentive payments, courts in the Tenth Circuit consider a number of factors:

> (1) the actions the class representative took to protect the interests of the class; (2) the level of benefit that the class received from the class representative's actions; and (3) the quantity of time and effort the class representative spent in pursuing the litigation.[177]

Qwest Corp.*, No. 17-cv-01745-WJM, 2018 WL 2183988, at *3 (D. Colo. May 11, 2018) (same); *Waldbuesser v. Northrop Grumman Corp.*, No. 06-cv-06213-AB (JCX), 2017 WL 9614818, at *6–8 (C.D. Cal. Oct. 24, 2017) ($25,000 incentive payments out of $16.75 million fund); *see also, e.g.*, *In re AT&T Mobility Wireless Data Services Sales Tax Litig.*, 792 F. Supp. 2d 1028, 1041–42 (N.D. Ill. 2011) (awarding $5,000 incentive payments despite noting that "the parties undertook no formal discovery" and thus "the class representatives' roles were largely prospective").

[177] *Nieberding v. Barrette Outdoor Living, Inc.*, 129 F. Supp. 3d 1236, 1251 (D. Kan. 2015).

Courts also consider the personal risk assumed by the class representative.[178] I assess each of these factors below:

140. **Actions to Protect the Interests of the Class.** Here, the class representatives and other bellwether plaintiffs ensured that common benefit counsel could properly litigate the case. Without their cooperation, common benefit counsel could not have complied with their discovery obligations or satisfied plaintiffs' burden of proof in the bellwether trial. All of the plaintiffs for whom incentive payments are sought responded to written discovery and produced documents. Some of those plaintiffs also prepared for and sat for depositions. And a subgroup of the latter group actually attended and participated in all or most of the three week trial. *See* Stueve Decl. ¶ 305. All of these actions were designed to ensure that plaintiffs satisfied their discovery obligations and succeeded at trial.

141. **Benefit to the Class.** The benefit to the class is obvious: the class representatives and other bellwether plaintiffs did important heavy lifting that enabled class counsel to win the Kansas class bellwether trial, secure a jury verdict of $217.7 million, and thereby parlay that verdict into a $1.51 billion settlement. As the court noted in *In re Linerboard Antitrust Litigation*: "Like the attorneys in this case, the class representatives have conferred benefits on all other class members and they deserve to be compensated accordingly."[179]

142. **Time and Effort.** The declarations contemporaneously filed by counsel detail the substantial time and effort put into the case by each plaintiff for whom an incentive payment is sought. *See, e.g.*, Stueve Decl. ¶¶ 279–401.

143. **Risk.** The class representatives and bellwether plaintiffs took a huge risk that, despite all the hours they put into the case, causing them at times to put their farming operations on hold, they (and the class) might end up recovering nothing. And, of course, had the case not gone well for the class, there would be no chance that these plaintiffs would be eligible for incentive

[178] *See, e.g.*, *In re Motor Fuel Temperature Sales Practices Litig.*, 271 F.R.D. 263, 293 (D. Kan. 2010) (noting that incentive awards are justified "to compensate [class representatives] for personal risk incurred"); *In re Auto. Refinishing Paint Antitrust Litig.*, No. MDL-1426, 2008 WL 63269, at *7 (E.D. Pa. Jan. 3, 2008) (noting, in awarding incentive payments of $30,000 each, that "[t]he Class Representatives not only conferred benefits on all of the Class Members, but also risked jeopardizing their existing relationships with their suppliers of automotive refinishing paint products"); *Van Vranken v. Atlantic Richfield Co.*, 901 F. Supp. 294, 299–300 (N.D. Cal. 1995) (noting that, in evaluating the reasonableness of incentive payments, courts consider "the risk to the class representative in commencing suit, both financial and otherwise").

[179] No. 98-cv-05055, 2004 WL 1221350, at *18 (E.D. Pa. June 2, 2004).

payments. Moreover, the Kansas class representatives took on unique risk because of the timing of the Kansas class trial. The June 2017 trial occurred during the final weeks of the Kansas corn planting season (and for some, the wheat harvest season), a critical time for farmers to be on their farms. *See* Stueve Decl. ¶ 305. The Kansas class representatives' willingness to travel to Kansas City for up to three weeks during planting season put their families' livelihoods at risk, and represents a much different situation than a company merely sending a designated corporate representative to sit at trial.

144. Two examples that illustrate the hardships borne by the Kansas class representatives who attended the trial are David Polifka and Daniel Grafel. Polifka, a corn and wheat farmer in Quinter, Kansas, completed a fact sheet for class counsel, responded to numerous interrogatories propounded by Syngenta, and produced over 6,000 pages of documents detailing his farming operations. He attended a deposition 50 miles from his home, spent nearly three full weeks in Kansas City at the trial, and provided live testimony on day eight of the trial. During corn planting and wheat harvest season, Polifka would normally have been putting in long days on his family farm—as well as providing equipment for and assisting his two sons with their farms—but abandoned those duties for the benefit of the class. Grafel, a corn and wheat farmer in Oberlin, Kansas, also completed a fact sheet for class counsel and responded to numerous interrogatories propounded by Syngenta. In total, he produced over 22,000 pages of documents detailing his farming operations. He was deposed locally, but traveled to Kansas city for nearly three weeks for the trial, and was the first live witness at trial. Like Polifka, Grafel would normally have been working long days during the corn planting and wheat harvest season—the busiest time of the year for his family farm. His efforts on behalf of the class and absence during that critical time placed "significant stress" on his farming operation. Stueve Decl. ¶¶ 309–333.

145. Finally, none of the questionable circumstances that have caused courts to reject or overturn incentive payments in other cases exist here. In *Radcliffe v. Experian Information Solutions Inc.*, for example, the Ninth Circuit overturned a class settlement on the ground that the settlement agreement provided for incentive awards *only* if the class representatives supported the settlement, creating a "patent divergence of interests between the named representatives and the class."[180] By contrast, the incentive payments in this case are not conditioned on support for

[180] 715 F.3d 1157, 1161 (9th Cir. 2013).

the settlement. Additionally, this is not a case where the unnamed class members receive nothing.[181] Indeed, the proposed incentive payments represent only a tiny fraction (0.1 percent) of the total recovery. Here, the class will receive significant monetary compensation for their losses. Thus, the entire class directly benefited from the class representatives' investment of time in the case.

VII. CONCLUSION

146. It is my opinion that the attorneys' fees requested, proposed fee allocation, expenses claimed, and proposed incentive payments are reasonable.

[181] Even in a case where the settlement went entirely to a *cy pres* entity and attorneys' fees, the Ninth Circuit affirmed incentive payments. *See Lane v. Facebook, Inc*., 696 F.3d 811, 817 (9th Cir. 2012).

APPENDIX A

CURRICULUM VITAE

ROBERT H. KLONOFF
Lewis & Clark Law School
10015 SW Terwilliger Blvd.
Portland, Oregon 97219
Tel: 503-768-6601 (Office)
E-Mail: klonoff@lclark.edu

Date of Birth: March 15, 1955
Place of Birth: Portland, Oregon

EDUCATION:

J.D., Yale University, 1979

A.B., University of California, Berkeley, 1976, Majored in Political Science/Economics (Highest Honors)

WORK EXPERIENCE:

Current Position:

Jordan D. Schnitzer Professor of Law, Lewis & Clark Law School (since 2014)

Prior Positions:

Dean of the Law School, Lewis & Clark Law School (2007-2014)

Douglas Stripp/Missouri Endowed Professor of Law, University of Missouri-Kansas City School of Law (2003-2007)

Jones Day, Washington, D.C. (Partner, 1991-July 2003; Of Counsel, 1989-1991, 2003- 2007)

Adjunct Professor of Law, Georgetown University Law Center (class action law and practice) (1999-2003)

Visiting Professor of Law, University of San Diego School of Law (1988-1989)

Assistant to the Solicitor General of the United States (1986-1988)

Assistant United States Attorney (Criminal Division, District of Columbia) (1983-1986)

Associate, Arnold & Porter, Washington, D.C. (1980-1983)

Law Clerk to the Honorable John R. Brown, Chief Judge, United States Court of Appeals for the Fifth Circuit (1979-1980)

Summer Associate, Baker & Botts, Houston, and Arent, Fox, Kintner, Plotkin & Kahn, Washington, D.C. (1978)

Summer Associate, Sidley & Austin, Washington, D.C. (1977)

SPECIAL HONORS AND ACHIEVEMENTS:

Member, 2011-2017, United States Judicial Conference Advisory Committee on Civil Rules (appointed by Chief Justice John G. Roberts, Jr., in 2011 as the sole voting member from the law school academy; reappointed May 2014 for a second three-year term)

Elected Member, International Association of Procedural Law

Selected in November 2013 for the J. William Fulbright Specialist Roster

Recipient, Oregon Consular Corps Award for Individual Achievement in International Outreach, Portland, Oregon (May 2013)

Associate Reporter, American Law Institute's *Principles of the Law of Aggregate Litigation* (class action project; drafts presented at several annual meetings; final version approved by full ALI in May 2009 annual meeting and published in May 2010)

Fellow, American Academy of Appellate Lawyers

Fellow, American Bar Foundation

Academic Fellow, Pound Institute

Elected Member, American Law Institute

Recipient, 2007 Award for Outstanding UMKC Law Professor (based on vote of 3d year class)

2007 UMKC Law School Commencement Speaker (based on vote of 3d year class)

Recipient, 2006 UMKC Law School Elmer Pierson Teaching Award for Most Outstanding Teacher in the Law School (selected by the Dean)

Recipient, 2005 President's Award for Outstanding Service from the UMKC Law School Foundation

Reporter, 2005 National Conference on Appellate Justice (co-sponsored by the Federal Judicial Center, National Center for State Courts, and other organizations)

Co-Recipient, District of Columbia Bar's Frederick B. Abramson Award for Superior Service to the Community (June 1998)

Attorney General's Special Achievement Award for Outstanding Work as an Assistant to the Solicitor General of the United States (1986, 1987)

Attorney General's Special Achievement Award for Outstanding Work as an Assistant United States Attorney (1984, 1985)

The Benjamin N. Cardozo Prize for Best Moot Court Brief for Academic Year 1978-1979, Yale Law School

Semi-Finalist, Moot Court Oral Argument, Yale Law School (Fall, 1978)

Phi Beta Kappa

U.C. Berkeley's Most Outstanding Political Science Student (1976)

The Edward Kraft Award for Outstanding Work as a Freshman Student, U.C. Berkeley (1974)

SIGNIFICANT LEGAL EXPERIENCE:

Argued eight cases before the U.S. Supreme Court

Authored dozens of U.S. Supreme Court filings (certiorari petitions, certiorari oppositions, merits briefs, reply briefs)

Briefed and argued numerous cases before various U.S. circuit and district courts and state trial and appellate courts

Tried dozens of cases (primarily jury trials)

Handled more than 100 class action cases as counsel

Served as an expert witness in numerous federal and state class action cases, including the British Petroleum Deepwater Horizon oil spill case, the National Football League Concussion case, and the Volkswagen "Clean Diesel" case

Worked extensively with testifying and consulting experts on class action issues, including economists, securities experts, medical and scientific experts, and leading academics

Presented more than 100 cases to the grand jury while serving as an Assistant U.S. Attorney

Handled hundreds of sentencing hearings, preliminary hearings, and probation revocation hearings

DECLARATION OF STEPHEN A. WEISS

SETEPHEN A. WEISS declares the following, pursuant to 28 U.S.C. § 1746:

1. I am a partner of the firm of Seeger Weiss LLP ("Seeger Weiss"), and was appointed by the Court to the Plaintiffs' Executive Committee in its Order Concerning Appointment of Counsel, dated January 22, 2015 (ECF No. 67).

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and reimbursement of expenses in this litigation, and in support of a request for service/case contribution/incentive awards to certain class representatives and bellwether plaintiffs in this litigation.

3. My firm has been recognized by federal and state courts, as well as by its adversaries, peers, and the legal media, as one of the leading plaintiffs' law firms in the nation. The firm, which is comprised of approximately 25 lawyers, handles all manner of complex individual, mass and class action litigation on behalf of injured persons, consumers and investors nationwide, and has been appointed to leadership positions in scores of highly notable mass and class actions, including some of the largest and most successful multidistrict ("MDL") or complex litigation proceedings in history. *E.g.*, *In re National Football League Players' Concussion Injury Litig.*, MDL No. 2323 (E.D. Pa.; nationwide settlement valued at over $1 billion) (Co-Lead Class Counsel); *In re Volkswagen "Clean Diesel" Mktg., Sales Practices, & Prods. Liab. Litig.*, No. MDL 2672 CRB (JSC) (N.D. Cal.) (combined nationwide settlements of over $11 billion) (member of Plaintiffs' Steering Committee and one of lead negotiators); *In re Vioxx Prods. Liab. Litig.*, MDL No. 1657 (E.D. La.) (Co-Lead Counsel; $4.85 billion nationwide settlement); *In re Zyprexa Prods. Liab. Litig.*, MDL No. 1596 (E.D.N.Y.) (Liaison Counsel; $700 million nationwide settlement); *In re StarLink Corn Prods. Liab. Litig.*, MDL No. 1403 (N.D. Ill.) (Co-Lead Counsel; $110 million nationwide settlement); *In re Genetically Modified Rice Litig.*, No. 4:06-md-1811-CDP (E.D. Mo.) (Plaintiffs' Executive Committee; $750 million settlement); *In re Vytorin/Zetia Mktg. Sales Practices & Prods. Liab. Litig.*, MDL No. 1938 (D.N.J.) (Co-Lead Counsel; $41.5 million recovery); and *In re Initial Pub. Offering Secs. Litig.*, No. 21 MC 92 (S.D.N.Y.) (Plaintiffs' Steering Committee; $586 million recovery).

4. Attached is my law firm's resume. Additional information concerning Seeger Weiss is available at www.seegerweiss.com/our-firm and www.seegerweiss.com/team.

5. As detailed below, my firm was involved extensively in almost every phase of this litigation, including the drafting of the opposition to Syngenta's motion to dismiss the Producer

Plaintiffs' amended master consolidated class action complaint, the vetting of bellwether and class representative plaintiffs, handling of bellwether plaintiff and class representative written and deposition discovery (in particular, the bellwether states of Iowa and Nebraska), the drafting of Plaintiffs' opening and reply class certification motion papers and numerous ancillary motions or responses to motions (*e.g.*, Syngenta's objections to consolidated class trials, its objection to a trial of the nationwide Lanham Act claim, its motion for an evidentiary class certification hearing, and Plaintiffs' second-phase class certification motion), the drafting of the opposition to Syngenta's Tenth Circuit Rule 23(f) petition, the drafting of the opposition to Syngenta's motion for summary judgment, the extensive settlement negotiations, and the drafting of various settlement-related documents and motion papers.

6. As concerns the background of individual timekeepers at my firm, I received a B.A. degree from Brandeis University in 1986 and my J.D. degree in 1990 from Benjamin N. Cardozo School of Law, where I served as the Business Editor of the *Cardozo Law Review* and where I have served on that school's Board of Overseers for the past 17 years. Prior to co-founding Seeger Weiss in 1999, I worked for a leading defense firm in New York City for almost a decade.

7. Since the formation of Seeger Weiss in 1999, I have represented injured people and businesses across a wide array of legal disciplines, including environmental and toxic exposures, securities and consumer frauds, and antitrust, employment, insurance and *qui tam* actions. I have held leadership roles in numerous MDLs, including the *Initial Public Offering Securities Litigation* MDL mentioned above. I have received numerous accolades for my work, including repeated selection to New York Super Lawyers.

8. As specifically concerns the subject matter of this litigation, over some 18 years, I have represented family farmers in agricultural litigation concentrated in the midwestern United

States. I was appointed by the Honorable James B. Moran (deceased) to serve as Co-Lead Counsel in the *StarLink Corn Products* MDL mentioned above, litigation strikingly similar to this one in that it stemmed from the introduction of an unapproved genetically-modified corn into the crop cycle. I was later appointed by the Honorable Catherine D. Perry as a member of the Plaintiffs' Executive Committee in the *Rice Contamination* MDL, an MDL involving contamination of the U.S. long-grain rice supply by genetically-modified rice strains.

9. My trial work in agricultural cases is similarly notable. For over a decade beginning in 2001, I represented over 300 family farmers in northern Missouri in odor nuisance litigation against their industrial agricultural neighbors. In March 2010, as co-lead trial counsel in a five-week Jackson County, Missouri trial before the Honorable Jay A. Daugherty (ret.), I and my co-counsel obtained an $11,050,000 verdict on behalf of fifteen farmer plaintiffs (believed to be the largest temporary nuisance verdict ever obtained against a hog producer, and which followed a $4.5 million verdict in 2006 against the same corporate defendants). Following those verdicts, I served as lead negotiator in the successful global resolution of the approximately 300 remaining claims.

10. On January 22, 2015, the Court appointed me to the Plaintiffs' Executive Committee in this MDL in its Order Concerning Appointment of Counsel (ECF No. 67). In that capacity, I was involved in numerous aspects of this litigation. I participated in numerous in-person and telephonic meetings of the Plaintiffs' Executive Committee, in which case strategy and the management of the litigation were formulated, and I reviewed numerous drafts of papers in this litigation. In addition, I handled the preparation of several bellwether and class representative plaintiffs for their deposition and/or the defense of their deposition: B & A Riessland (Brian Riessland), Cronin Inc. (Robert Cronin), Shane Curry, Charlynn Hamilton, Randy Olthoff, and

Richard Oswald. The Plaintiffs' Executive Committee tasked Seeger Weiss with preparing the bellwether plaintiffs from the states of Iowa and Nebraska for deposition. Moreover, I was intimately involved in the intense negotiations that ultimately yielded the $1.51 billion global settlement of this litigation that is pending final approval. Those negotiations required hundreds of hours of my time over a period of many months, beginning well before the Court's August 2017 appointment of the Plaintiffs' Settlement Negotiation Committee.

11. My partner, **Christopher A. Seeger**, received a B.A. degree *summa cum laude* from Hunter College of the City University of New York in 1987 and a J.D. degree *magna cum laude* in 1990 from Benjamin N. Cardozo School of Law, where he was the Managing Editor of the *Cardozo Law Review*.

12. Mr. Seeger has served in leadership roles in innumerable MDLs and has tried several cases to verdict, including a $47.5 million verdict in a pharmaceutical injury action against Merck. He was the lead or co-lead negotiator of some of the country's most notable litigation settlements, resulting in recoveries in the hundreds of millions and billions of dollars, including those resolving *In re National Football League Players' Concussion Injury Litigation* (MDL No. 2323), *In re Volkswagen "Clean Diesel" Marketing, Sales Practices and Products Liability Litigation* (MDL No. 2672), *In re Vioxx Products Liability Litigation* (MDL No. 1657), and *In re Zyprexa Products Liability Litigation* (MDL No. 1596). He has received countless awards and accolades for his work, including repeated selection to Best Lawyers in America; New York Super Lawyers; New Jersey Super Lawyers; Law Dragon 500; and Best Lawyers, Mass Tort Litigation.

13. In its Order dated August 9, 2017 (ECF No. 3366), the Court appointed Mr. Seeger to the Plaintiffs' Settlement Negotiation Committee to work towards reaching a global resolution of this MDL and the related litigations pending in other courts, both state and federal. As concerns

those settlement negotiations, Mr. Seeger interacted frequently with Special Master Reisman and Special Master Stack, the Honorable David R. Herndon of the Southern District of Illinois, Syngenta's counsel, the court-appointed leadership in the cognate Minnesota state class action Syngenta MIR162 litigation, and attorneys representing tens of thousands of individual clients in the various Syngenta MIR162-related litigations. He spearheaded negotiations that were conducted both in person in various locations and telephonically and which led initially to a settlement term sheet and ultimately to the operative settlement agreement (ECF No. 3507-2) that is pending final approval. As the Court is aware, those negotiations, which required hundreds of hours of Mr. Seeger's time over a six-month period, were complex, spirited, and multidimensional given the parallel litigations, both class and non-class, that had been filed in various state and federal courts.

14. My partner, **Diogenes P. Kekatos**, received a B.A. degree from Columbia University in 1980 and a J.D. degree from Brooklyn Law School in 1983. Prior to joining Seeger Weiss in December 2000, he served for 14 years as an Assistant U.S. Attorney in the Southern District of New York, where he received numerous awards and award nominations for outstanding service and argued some 120-30 appeals and appellate motions. Mr. Kekatos was involved extensively in the analogous *Genetically Modified Rice Litigation* MDL. In that MDL he had central roles in the research, drafting, and editing of the operative consolidated master pleading; plaintiffs' class certification briefs, and a Rule 23(f) petition to the Eighth Circuit for leave to appeal that court's class certification ruling; Eighth Circuit briefs in appeals taken by the defendants from the judgments rendered in the plaintiffs' favor in the MDL court's first three bellwether trials; and various briefs filed in the district court and the Arkansas Supreme Court pertaining to common benefit assessment issues. Mr. Kekatos also worked extensively on the

StarLink Corn Products MDL. Overall, Mr. Kekatos has an extensive background in the areas of complex, class action, and mass tort litigation in federal and state courts, including numerous MDLs, and has been selected numerous times to New York Super Lawyers.

15. Mr. Kekatos performed extensive work from the inception of this MDL. He was a principal draftsman and editor of Plaintiffs' class certification motion papers, the successful opposition to Syngenta's Tenth Circuit Rule 23(f) petition that sought interlocutory review of this Court's September 2016 class certification ruling, and Plaintiffs' second-phase class certification motion, as well as several ancillary motions or objections (the opposition to Syngenta's motion for an evidentiary class certification hearing and the response to Syngenta's objections to trial of the nationwide Lanham Act claim). He also contributed to the drafting of the brief in opposition to Syngenta's motion to dismiss the amended master consolidated class action complaint (specifically, the economic loss doctrine discussion) and to the editing of that brief, and to the drafting of the brief in opposition to Syngenta's motion for summary judgment (in particular, the punitive damages discussion).

16. In addition, Mr. Kekatos had a central role in the drafting and/or editing of the various settlement papers, including the fourth amended master consolidated class action complaint, sundry settlement documents (including the settlement agreement and associated settlement documents, such as the Class Notice and Claim Forms), the opposition to the Coffman and Toups' Plaintiffs' motion to delay preliminary approval, and the reply brief in support of the motion for preliminary approval. Mr. Kekatos was also involved in the vetting of class representative and bellwether plaintiffs, drafted the outline that was used to prepare all bellwether and class representative plaintiffs for their deposition, and researched a number of class

certification-related and other case strategy issues at the request of the Plaintiffs' Executive Committee.

17. My partner, **David R. Buchanan**, received a B.S. degree from the University of Delaware in 1990 and a J.D. degree in 1990 from the Benjamin N. Cardozo Law School, where he was a Samuel Belkin Scholar and a member of the *Cardozo Law Review* and its Administrative Editor in 1992-93. Prior to joining Seeger Weiss in 1999, Mr. Buchanan was worked in the New York City office of a prominent national defense firm. He has extensive experience, including at the trial level, in mass tort litigation. He has been selected numerous times to Best Lawyers in America, New York Super Lawyers, Legal 500, and Law Dragon 3000. Mr. Buchanan assisted with formulating mediation strategy.

18. My partner, **TerriAnne Benedetto**, received a B.A. degree from Franklin & Marshall College in 1986 and a J.D. degree in 1990 from the Villanova University School of Law, where she was a member of the *Villanova Law Review*. A former law clerk to the Honorable Jacob Kalish of the Commonwealth Court of Pennsylvania and the Honorable William W. Vogel of the Montgomery County Court of Common Pleas, Ms. Benedetto worked for several prominent plaintiff's law firms before joining Seeger Weiss in 2006. Ms. Benedetto, who had a major role in the drafting of the settlement papers in the landmark *NFL Football Players' Concussion Injury Litigation* MDL mentioned above, assisted here in the drafting of the settlement agreement and preliminary approval papers.

19. My former partner, **Moshe Horn**, received a B.A. degree in 1989 from the George Washington University and a J.D. degree in 1993 from the Benjamin Cardozo School of Law. He was an Assistant District Attorney in New York Country from 1993-99, he held numerous supervisory positions and tried 50 jury cases, and afterwards was a senior associate with a leading

national defense firm before joining Seeger Weiss in 2004. Mr. Horn handled the preparation for deposition, the defense of the deposition, or both of two bellwether plaintiffs, LBJ Ventures (William Determan) and Eugene Goering.

20. Another former partner, **Eric H. Jaso**, received a B.A. degree from Harvard University in 1989 and a J.D. degree from the University of Chicago in 1992. Prior to joining Seeger Weiss in 2012, he had, among other things, served as a federal prosecutor. Mr. Jaso assisted in the vetting of potential plaintiff class representatives.

21. **James A. O'Brien**, formerly a counsel with the firm, received a B.A. degree from the University of Massachusetts at Amherst in 1984 and a J.D. degree in 1988 from the New England School of Law, where he was a member of the *New England Law Review*. Prior to joining Seeger Weiss in 2001, Mr. O'Brien was a Special Assistant U.S. Attorney in the Southern District of New York for 11 years, where he drafted scores of appellate and district court briefs, many of them involving constitutional challenges to legislation. Mr. O'Brien assisted in the drafting of the opposition to Syngenta's motion to dismiss the Producer Plaintiffs' amended master consolidated class action complaint and Syngenta's summary judgment motion (specifically, the response to Syngenta's First Amendment Petition Clause arguments), and principally drafted other motion papers (in particular, the motion for consolidation of class trials).

22. **Hailemariam DeBass, Jr.**, an associate with the firm, received a B.A. degree from the University of Maryland at College Park in 1995 and a J.D. degree from Georgetown University Law Center in 1999. He performed extensive document review and also assisted several bellwether plaintiffs in preparing their responses and supplemental responses to Syngenta's written discovery requests.

23. **Laura Muldowney**, an associate with the firm, received a B.S. degree from Lehigh University in 1987 and a J.D. degree from the Villanova University School of Law in 1990. Along with Mr. DeBass, Ms. Muldowney was the firm's other principal document reviewer in this litigation.

24. **Asa R. Danes**, a senior associate with the firm, received his B.A. degree from Oberlin College in 1994, and his J.D. degree *cum laude* in 2001 from Brooklyn Law School, where he was the Notes and Comments Editor of the *Brooklyn Journal of International Law*. Mr. Danes assisted in legal research.

25. **Kseniya Lezhnev** is an associate with the firm who graduated from Brooklyn College of the City University of New York in 2012, and received a J.D. degree from Benjamin N. Cardozo School of Law in 2016. Ms. Lezhnev assisted in legal research.

26. **Maxwell Goins**, a student at Lewis & Clark Law School in Portland Oregon, was employed by the firm as a summer associate in 2016. He assisted with class certification-related research.

27. **Scott D. Seigel** joined the firm in 2015 and is currently the firm's Paralegal Manager. He received a B.A. degree from the State University of New York at Buffalo in 2007 and an M.S. degree from The New School of Management & Urban Policy in New York City in 2011. He has been a paralegal for 11 years, having worked at a prominent national defense firm in New York City and for the New York City Law Department prior to joining Seeger Weiss. In this litigation, Mr. Siegel assisted with briefing, discovery, and deposition preparation assignments and provided general litigation support.

28. **Sabrina Tyjer** is a Senior Litigation Paralegal who joined the firm in 2017. She received a B.S. degree in Criminal Justice from Rutgers University in 1999 and has 18 years'

experience as a paralegal. Before joining Seeger Weiss, Ms. Tyjer was employed as a paralegal and later as a senior litigation paralegal at several prominent defense firms. Ms. Tyjer has assisted with "Blue-Booking" and cite-checking of briefs and hearing preparation support.

29. **Darryl A. Bailey** was a senior litigation paralegal with some 30 years' experience who was employed by the firm from 2017-18. He received a B.A. degree from the City College of New York in 1985 and had worked for a number of plaintiff's and defense firms prior to joining Seeger Weiss. Mr. Bailey assisted with the finalization of Plaintiffs' second-phase class certification motion and other motion papers and provided general litigation support.

30. **J. Daniel Mora** was a paralegal with the firm from 2004-16. He was a senior litigation paralegal with over 15 years' experience in state and federal litigation support. He received a B.A. degree *cum laude* from the City College of New York, and an ABA-approved diploma in Paralegal Studies from New York University. Mr. Mora handled sundry support tasks for the attorneys in this litigation, including the "Blue-booking" and cite-checking of briefs, downloading and organization of documents entered on this Court's ECF system, and preparation of witness binders in connection with the firm's handling of bellwether and class representative depositions, and he also provided general litigation support.

31. **Christine Essler** was a senior litigation paralegal with nearly 30 years' experience who worked for the firm in 2016. She received a B.A. degree from Beaver College in Glenside, Pennsylvania in 1974 and a Paralegal Certificate from Adelphi University in Garden City, New York in 1989. Prior to her employment at Seeger Weiss, Ms. Essler had worked for a number of prominent defense firms. Ms. Essler assisted with briefing and hearing preparation assignments, including "Blue-Booking" and cite-checking of briefs.

32. **Corey B. Madin** was employed as a paralegal in 2016-17. He received a B.S. degree from the State University of New York at Albany in 2004 and had 12 years' experience as a legal assistant and paralegal before joining Seeger Weiss. Mr. Madin provided litigation support in connection with the Rule 23(f) proceedings in the Tenth Circuit.

33. **Antoine Barzey** was employed as a paralegal in 2017-18. He was enrolled in the Legal Studies Certificate program at Hunter College (an evening program). Mr. Barzey had 10 years' experience as a paralegal prior to joining Seeger Weiss. Mr. Barzey provided general litigation support.

34. My firm and/or its co-counsel worked with a total of 10 class representative and bellwether plaintiffs in this litigation: B & A Riessland, Cronin Inc., Shane Curry, Eugene Goering, Charlynn Hamilton, Gregory Harris, Linden Kaliff, LBJ Ventures, Randy Olthoff, and Richard Oswald.

35. These plaintiffs were bellwether and (then-proposed) class representative plaintiffs from the bellwether discovery pool states of Iowa (Cronin Inc., LBJ Ventures, and Messrs. Curry and Olthoff), Kansas (Mr. Goering), Missouri (Messrs. Harris and Oswald), and Nebraska (B & A Riessland, Mr. Kaliff, and Ms. Hamilton).

36. All of these bellwether and (then-proposed) class representative plaintiffs provided oral and written discovery in addition to plaintiff fact sheets. They responded to, and produced documents responsive to, requests for production, answered interrogatories, and answered requests for admission. In most instances, it was my firm (and/or our co-counsel) that assisted in preparing those responses, either because we represented those plaintiffs individually or because the bellwether plaintiff's individual counsel ceded that its responsibility for its clients. My firm, its co-counsel, or both spent considerable time and effort working with Mr. Riessland (B & A

Riessland), Mr. Cronin (Cronin Inc.), Ms. Hamilton, Mr. Harris, Mr. Kaliff, Mr. Determan (LBJ Ventures), and Mr. Oswald to respond to Syngenta's discovery requests

37. In addition, all of these bellwether and (then-proposed) class representative plaintiffs were deposed. I or my former partner Moshe Horn prepared for deposition or assisted in preparing for deposition Robert Cronin (the principal of Cronin Inc.), Charlynn Hamilton, Linden Kaliff, William Determan (the principal of LBJ Ventures), Randy Olthoff, Richard Oswald, and Brian Riessland (the principal of B & A Riessland), and we defended the deposition of all these plaintiffs, except Mr. Oswald. In addition, my former Partner, Mr. Horn, defended the deposition of Kansas bellwether plaintiff Goering.

38. As described in detail below, these individuals devoted many hours to providing written discovery and preparing for and providing deposition testimony.

39. **B & A Riessland (Brian Riessland)**. B & A Riessland is a Nebraska bellwether plaintiff. I both prepared Mr. Riessland for his deposition and defended it. I met with him in Kearney, Nebraska for deposition preparation of about 8 hours. Mr. Riessland traveled roughly 1 hour each way to his deposition, and the deposition itself ran about 6 hours. In addition, my firm, rather than Mr. Riessland's individual counsel, worked with Mr. Riessland in the preparation of responses to written discovery, including supplementations in response to Syngenta's counsel's deficiency letters. Mr. Riessland devoted no fewer than 25 hours towards such written discovery efforts.

40. **Cronin Inc. (Robert Cronin)**. Cronin Inc. is an Iowa bellwether plaintiff. I both prepared Mr. Cronin for his deposition and defended it. Mr. Cronin devoted a total of about 12 hours for deposition preparation, including travel time, and another 8 hours towards his deposition, also including travel time. Mr. Cronin's individual counsel also assisted in in preparing him for

deposition. In addition, my firm and Mr. Cronin's individual counsel worked with him in the preparation of responses to written discovery, including supplementations in response to Syngenta's counsel's deficiency letters. Mr. Cronin devoted no fewer than 25 hours towards such written discovery efforts, including assisting in organizing and producing documents and in responding to interrogatories and requests for admission.

41. **Shane Curry**. Mr. Curry is an Iowa bellwether plaintiff. I both prepared Mr. Curry for his deposition and defended it. I met with him for deposition preparation of about 2.5 to 3 hours. Mr. Curry had to travel about 240 miles round-trip from Lu Verne, Iowa for purposes of deposition preparation and 240 miles round-trip to Des Moines, Iowa for his deposition. Mr. Curry devoted 8 hours towards his deposition, including final day-of-deposition preparation and post-deposition discussion. His individual counsel (the Watts Guerra firm) worked with him in responding to Syngenta's written discovery responses and requests for supplementation. Mr. Curry devoted 8 hours over several time periods to original and supplemental interrogatory responses and to original and supplemental responses to Syngenta's requests for admissions. Also, Mr. Curry committed some 20 hours over several time periods for purposes of responding to Syngenta's requests for production of documents, traveling a total of approximately 75 miles on several occasions to grain elevators, accountants, an FSA office, and banks to obtain responsive documents.

42. **Eugene Goering**. Mr. Goering is a Kansas bellwether plaintiff. Another firm (the Paul McInnes firm) was tasked by the Plaintiffs' Executive Committee with preparing Mr. Goering for and defending his deposition, but subsequently my firm was asked to defend his deposition because that firm ran into a scheduling conflict owing to the large number of depositions that were clustered together and often needed to be rescheduled due to counsel or plaintiff availability issues

or weather issues. My former partner, Moshe Horn, defended Mr. Goering's deposition, which ran about 4-6 hours.

43. **Charlynn Hamilton**. Ms. Hamilton is a Nebraska bellwether plaintiff whom, coincidentally, my firm represents individually. I both prepared Ms. Hamilton for her deposition and defended it. Ms. Hamilton's in-person deposition preparation lasted about 4 hours. Her deposition consumed at least 8 hours, including 2 hours of final day-of-deposition preparation and post-deposition discussion. She had to travel 90 miles round-trip from McCook, Nebraska to then take a one-hour flight to Denver for her deposition. In addition, our co-counsel, The Speer Law Firm, worked with Ms. Hamilton in the preparation of responses to written discovery, including supplementations in response to Syngenta's counsel's deficiency letters. Ms. Hamilton devoted about 72 hours over several time periods towards such written discovery efforts, including efforts to obtain documents (having to travel some 70 miles round-trip to obtain documents from grain elevators, accountants, an FSA office, and banks, and 90 miles round-trip to ship documents), and in answering interrogatories and requests for admission, and dealing with needed supplementations.

44. **Gregory Harris**. Mr. Harris is a Missouri bellwether plaintiff whom the Walters Bender firm was tasked by the Plaintiffs' Executive Committee with preparing him for his deposition and defending it. Mr. Harris is individually represented by Seeger Weiss and The Speer Law Firm. Our co-counsel, The Speer Law Firm, worked with Mr. Harris in helping prepare him for his deposition and in the preparation of responses to written discovery, including any needed supplementations in response to Syngenta's counsel's deficiency letters. Mr. Harris committed some 14 hours to telephonic and in-person preparation for his deposition, and travelled some 280 miles round-trip from Golden City, Missouri for in-person preparation. He also devoted about 82

hours on independent study to fully prepare for his deposition. Mr. Harris also traveled some 280 miles round-trip from Golden City, Missouri for his deposition, which lasted about 5.5 hours, including final day-of-deposition preparation, the deposition itself, and post-deposition discussion. He devoted no fewer than 110 hours over several time periods to answering written discovery, including independent research to support his interrogatory responses, time spent with counsel in the drafting of responses, and travelling as many as 120 miles to grain elevators, accountants, an FSA office, and banks to obtain responsive documents or to deliver responsive documents to counsel.

45. **Linden Kaliff**. Mr. Kaliff is a Nebraska bellwether plaintiff. My firm worked with Mr. Kaliff in the preparation of responses to written discovery, including supplementations in response to Syngenta's counsel's deficiency letters. Mr. Kaliff devoted no fewer than 12 hours towards such written discovery efforts. Our co-counsel (The Speer Law Firm) both prepared Mr. Kaliff for his deposition and defended it. Mr. Kaliff devoted some 9-10 hours towards preparation for his deposition and his deposition, including round-trip travel time.

46. **LBJ Ventures (William Determan)**. LBJ Ventures is an Iowa bellwether plaintiff. My former partner, Moshe Horn, both prepared Mr. Determan for his deposition and defended it. He met with Mr. Determan at his home for deposition preparation of about 4 hours. Mr. Determan had to drive about 4 hours each way to and from his deposition, and the deposition itself lasted about 5-6 hours. In addition, my firm worked with Mr. Determan in the preparation of responses to written discovery, including supplementations in response to Syngenta's counsel's deficiency letters. Mr. Determan devoted no fewer than 15 hours towards such written discovery efforts.

47. **Rodney Olthoff**. Mr. Olthoff is an Iowa bellwether plaintiff. I both handled Mr. Olthoff's preparation for his deposition and defended it. I met with Mr. Olthoff for deposition

preparation of about 2.5 to 3 hours. He had to travel about 400 miles round-trip for purposes of deposition preparation and he also had to travel about 400 miles round-trip to attend his deposition. Mr. Olthoff devoted 8 hours towards his deposition, including final day-of-deposition preparation and post-deposition discussion. His individual counsel (the Watts Guerra firm) worked with him in responding to Syngenta's written discovery responses and requests for supplementation. Mr. Olthoff devoted 5 hours over several time periods to original and supplemental interrogatory responses and to original and supplemental responses to Syngenta's requests for admissions. Also, Mr. Olthoff committed some 15 hours over several time periods for purposes of responding to Syngenta's requests for production of documents, traveling a total of approximately 50 miles on several occasions to grain elevators, accountants, an FSA office, and banks to obtain responsive documents.

48. **Richard Oswald**. Mr. Oswald is one of the representatives of the Missouri Class whom, coincidentally, my firm represents individually. Although the Plaintiffs' Executive Committee tasked the Walters Bender firm with the defense of his deposition, I prepared Mr. Oswald for his deposition because Seeger Weiss is Mr. Oswald's individual counsel. Mr. Oswald devoted some 12 hours on three occasions for deposition preparation, and on two of those occasions had to travel about 4 hours from Langdon, Missouri to Kansas City for deposition preparation. He also had to travel about 4 hours miles from Langdon, Missouri for the deposition itself, and devoted a total of about 9.5 hours to his deposition, including final in-person preparation on the day of the deposition and post-deposition discussion. In addition, my co-counsel (The Speer Law Firm) worked with Mr. Oswald in the preparation of responses to written discovery, including supplementations in response to Syngenta's counsel's deficiency letters. Mr. Oswald devoted no fewer than 42 hours over several time periods towards such written discovery efforts, including

locating and gathering documents (having to travel some 50 miles to obtain certain documents), answering interrogatories and requests for admission, and dealing with needed supplementations.

49. My firm maintains contemporaneous records of its time and expenses in the ordinary course of business and will provide those to the Court for its review thereof if requested.

50. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

51. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent on behalf of the firm's individual clients who were neither bellwether nor class representative plaintiffs.

52. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction or in consultation with me. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

53. The total lodestar for my law firm is **$6,990,276**. A breakdown of the lodestar is provided below.

Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
DeBass, Haile Jr.	Associate	3,275.10	$500.00	$1,637,550.00
Kekatos, Dion	Partner	2,597.70	$925.00	$2,402,872.50
Weiss, Stephen A.	Partner	1,188.10	$975.00	$1,158,397.50
Muldowney, Laura	Associate	1,144.80	$450.00	$515,160.00

Name	Title	Total Hours	Hourly Rate	Lodestar
Seeger, Christopher A.	Partner	751.90	$985.00	$740,621.50
O'Brien, Jim	Counsel	416.40	$775.00	$322,710.00
Horn, Moshe	Partner	176.00	$850.00	$149,600.00
Mora, Daniel	Paralegal	93.30	$295.00	$27,523.50
Siegel, Scott	Paralegal	27.70	$295.00	$8,171.50
Essler, Christine	Paralegal	23.80	$295.00	$7,021.00
Tyjer, Sabrina	Paralegal	15.40	$215.00	$3,311.00
Bailey, Darryl	Paralegal	8.70	$215.00	$1,870.50
Benedetto, TerriAnne	Partner	7.10	$895.00	$6,354.50
Lezhnev, Kseniya	Associate	5.30	$375.00	$1,987.50
Jaso, Eric	Partner	4.00	$750.00	$3,000.00
Goins, Maxwell	Law Clerk	2.70	$150.00	$405.00
Barzey, Antoine	Paralegal	2.00	$215.00	$430.00
Madin, Corey	Paralegal	2.00	$215.00	$430.00
Buchanan, David	Partner	1.90	$975.00	$1,852.50
Danes, Asa R.	Associate	1.30	$775.00	$1,007.50
TOTALS		9,745.20		$6,990,276

54. Because my firm dedicated a substantial amount of time to common benefit work, this resulted in significant opportunity costs, precluding it from taking on other matters.

55. My firm seeks an award of **$438,883.72** in reimbursement of expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	$1,011.64
4	Long Distance Calls	$314.11

Category Code	Description of Category Code	Amounts
5	In-House Photocopying	$1,475.70
7	Hotels	$33,542.08
8	Meals	$29,398.67
9	Mileage	$334.71
10	Air Travel	$50,022.51
11	Deposition Costs	$4,646.70
12	Lexis/Westlaw/Bloomberg	$21,193.33
14	Court Fees	$227.00
15	Service of Process Fees	$556.25
17	Ground Transportation	$21,161.02
19	Litigation Fund Assessment	$275,000.00
	TOTAL	**$438,883.72**

56. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (ECF No. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

57. The expenses pertaining to this litigation are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records, and other documents, and are an accurate record of the expenses.

58. I declare under penalty of perjury that the foregoing is true and correct.

Executed on this 7th day of July 2018, at New York, New York.

FEE-SHARING AGREEMENT
Syngenta MIR162 Litigation

Pursuant to the terms of the Agrisure Viptera/Duracade Class Settlement Agreement ("Master Settlement Agreement"), Settlement Class Counsel shall make a Fee and Expense Application to the Court for an attorneys' fee and expense award.[1] This Fee-Sharing Agreement ("Agreement") governs the division of attorney's fees and expenses between the Parties associated with any fee and expense award ordered by the Court in *In re Syngenta AG MIR 162 Corn Litigation*, MDL 2591, in the United States District Court for the District of Kansas.

The Parties agree to divide any attorney's fees awarded by the Court as follows:

Party	Percentage (%)
Patrick J. Stueve *STUEVE SIEGEL HANSON LLP* Don Downing *GRAY, RITTER & GRAHAM, PC* William B. Chaney *GRAY REED & MCGRAW, LLP* Scott A. Powell *HARE WYNN NEWELL & NEWTON*[2]	50%
Daniel E. Gustafson *GUSTAFSON GLUEK PLLC*[3]	12.5%

[1] The Clayton A. Clark group shall submit expenses on their own behalf to Settlement Class Counsel, who will include them in the Attorneys' Fee and Expense Petition.

[2] This group includes Patrick J. Stueve (Stueve Siegel Hanson LLP), Don M. Downing (Gray, Ritter & Graham, PC), William B. Chaney (Gray Reed & McGraw, LLP), Scott A. Powell (Hare Wynn Newell & Newton), Christopher M. Ellis (Bolen Robinson & Ellis, LLP), David F. Graham (Sidley Austin LLP), Jayne Conroy (Simmons Hanly Conroy), John W. Ursu (Greene Espel PLLP), Richard M. Paul, III (Paul McInnes, LLP and Paul LLP)(Kansas MDL common benefit work), Robert K. Shelquist (Lockridge Grindal Nauen)(Kansas MDL common benefit work), Scott E. Poynter (Emerson Poynter LLP), Stephen A. Weiss (Seeger Weiss Law Firm), and Thomas V. Bender (Walters Bender Strohbehn & Vaughan, PC) and all "Referring Counsel." "Referring Counsel" means a law firm engaged with the named law firm in the joint representation of one or more Claimants in connection with the prosecution of their Claims. The four Kansas MDL Co-Lead Counsel (William B. Chaney, Don Downing, Scott Powell and Patrick J. Stueve) will allocate the fees represented by this percentage among all firms that provided common benefit work in the Kansas MDL consistent with the Kansas MDL Court's orders. The four Kansas MDL Co-Lead Counsel will have the right to review, revise and approve any common benefit time and expense submissions for common benefit work performed in the Kansas MDL that will be submitted by Settlement Class Counsel to the Kansas MDL Court consistent with the Kansas MDL Court's orders.

[3] This group also includes Lewis A. Remele, Jr. (Bassford Remele), William R. Sieben (Schwebel Goetz & Sieben, P.A.), Richard M. Paul, III (Paul McInnes LLP and Paul LLP)(Minnesota work), Will Kemp (Kemp, Jones &

Clayton A. Clark *CLARK, LOVE & HUTSON, GP*[4]	17.5%

The remaining 20% of any attorneys' fees awarded by the Court will be allocated by the Kansas MDL Court, in consultation and agreement with the Minnesota MDL Court and Judge Herndon of the United States District Court for the Southern District of Illinois, taking into consideration the recommendation by the Special Masters.

The Parties to this Agreement agree that it is in the Parties' and Class Members' best interest to consummate this Agreement and to cooperate with each other and take all actions reasonably necessary to obtain Court approval of this Agreement. The Parties also agree to take all actions necessary to obtain entry of Orders required to implement this Agreement, and that all Orders entered to implement and approve this Agreement shall be final. The Parties further agree to waive any right to appeal any Order implementing and approving this Agreement.

The Parties agree that no signatory to this Agreement, or their co-counsel, partners, or referring counsel will seek to void this Agreement or take any actions in any Court contrary to any provision in this Agreement. In the event that any Party challenges this Agreement for any reason, any dispute shall be submitted exclusively to the Honorable David R. Herndon, John W. Lungstrum, and Laurie J. Miller for final resolution, with no right of appeal, and consistent with the terms of the Master Settlement Agreement.

Coulthard, LLP), Tyler Hudson (Wagstaff & Cartmell, LLP), Robert K. Shelquist (Lockridge Grindal Nauen)(Minnesota work), and Paul Byrd (Paul Byrd Law Firm PLLC) and all Referring Counsel. Daniel E. Gustafson and Lew Remele will allocate fees represented by this percentage among all firms that provided common benefit work in the Minnesota MDL consistent the Minnesota MDL Court's orders. Daniel E. Gustafson and Lew Remele will have the right to review, revise and approve any common benefit time and expense submissions for common benefit work performed in the Minnesota MDL that will be submitted by Settlement Class Counsel to the Kansas MDL Court consistent with the Minnesota MDL Court's orders.

[4] This group also includes Peter J. Flowers (Meyers & Flowers) and Martin J. Phipps (Phipps Anderson Deacon LLP), as well as Clark's, Flowers' and / or Phipps' Referring Counsel, co-counsel and / or joint venture partners. Clayton A. Clark shall petition the Honorable David R. Herndon of the United States District Court for the Southern District of Illinois concerning the allocation of fees among the members of this group.

All Parties must consent before any Party may amend or supplement this Agreement. If any provision of this Agreement is held to be illegal, invalid, or unenforceable under present or future laws, the legality, validity, and enforceability of the remaining provisions of this Agreement shall not be affected. This Agreement shall be liberally construed so as to carry out the intent of the Parties. It shall be construed without regard to any presumption or rule requiring construction or interpretation against the Party drafting same. If any Party perceives another may be in default in connection with this Agreement, such Party shall provide such other Party notice of, and a reasonable opportunity to cure, such default; if the latter cures such default, or if the former provides the latter notice of the former's intent to waive such default, then there shall have been no default under this Agreement. To the extent this Agreement requires a Party consent to, or give notice of, anything, such consent or notice must be in writing and signed by such Party, and a copy of such consent or notice must delivered to each of the other Parties.

The Parties also agree that this Agreement, along with the Master Settlement Agreement and the separate fee agreement between Seeger Weiss LLP and Kansas MDL Co-Lead Counsel (collectively, "Fee Agreements"), embodies the entire agreement between the Parties with respect to its subject matter and, if the Master Settlement Agreement is granted final approval, this Agreement supersedes and cancels all prior oral or written agreements by and among the parties, other than the Fee Agreements, including, without limitation, the March 23, 2015 Joint Prosecution Agreement ("JPA"), the June 18, 2015 JPA, and the January 21, 2016 JPA. All parties to the JPAs will sign a separate agreement confirming that this Agreement supersedes and cancels all JPAs if the Master Settlement Agreement is granted final approval. No party that signed a JPA may receive any fee or expense reimbursement from the monies awarded by the Court without signing this separate agreement.

Finally, the Parties further agree to take all actions reasonably necessary to effectuate the terms of the Master Settlement Agreement and ensure all participation thresholds are met. In the event that the Master Settlement Agreement is not granted final approval, this Agreement shall be null and void.

SIGNED on this the 23rd day of February, 2018.

Christopher A. Seeger, Esq.
Seeger Weiss LLP
77 Water Street, 26th Floor
New York, NY 10005

Re: **In re Syngenta AG MIR162Corn Litigation**
MDL No. 2591; No. 2:14-md-2591-JWL-JPO (D. Kan.)

Dear Chris:

This letter shall memorialize the agreement by and among Seeger Weiss LLP ("Seeger Weiss") and the four Co-Lead Class Counsel appointed by Judge Lungstrum in the above-referenced matter ("the Kansas MDL") on September 26, 2016 (collectively "MDL Class Counsel").

1. MDL Class Counsel hereby agree that, out of the sum to be allocated by Judge Lungstrum for an award of attorney's fees and reimbursement of costs and expenses to all counsel collectively in the Kansas MDL in connection with the Final Approval of the Master Settlement Agreement with the Syngenta Defendants ("Syngenta"), MDL Class Counsel will, in allocating that sum to the various counsel in the Kansas MDL, (a) accord to Seeger Weiss the same multiplier to its lodestar that they accord to that of their own firms;[1] and (b) under no circumstances allocate to Seeger Weiss less than ten percent (10%) of the gross sum awarded by Judge Lungstrum as attorney's fees to counsel in the Kansas MDL.

2. To the extent that Judge Lungstrum does not delegate the allocation of attorney's fees outright to MDL Class Counsel, MDL Class Counsel agree that any application, petition, or motion to Judge Lungstrum for an award of fees to counsel in the Kanas MDL or any recommended allocation of fees submitted to him shall reflect the formula for division of fees set forth in the preceding paragraph.

---

[1] In the event that the MDL Class Counsel accord different multipliers to their respective four firms, they will accord the highest of those multipliers to Seeger Weiss' lodestar.

3. In addition to the aforementioned allocation of attorney's fees, MDL Class Counsel agree to fully reimburse Seeger Weiss's costs and expenses, in allocating the award made by Judge Lungstrum, or to the extent that Judge Lungstrum does not delegate the allocation of attorney's fees and reimbursement of costs and expenses outright to MDL Class Counsel, to see such full reimbursement in any application, petition, or motion to Judge Lungstrum for an reimbursement of fees and costs to counsel in the Kanas MDL or in any recommended allocation of costs and expenses reimbursement that is submitted to him.

Very truly yours,

Patrick J. Stueve (on behalf of MDL Class Counsel)

DECLARATION OF MICHELLE M. DONARSKI

I, Michelle M. Donarski, declare as follows:

1. I am a shareholder attorney with the North Dakota law firm Anderson, Bottrell, Sanden & Thompson ("ABST"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. ABST is a full service commercial law firm with attorneys licensed to practice law in North Dakota, South Dakota and Minnesota state and federal courts, the United States Court of

Appeals for the Eighth Circuit and the US Court of Appeals for the Federal Circuit. ABST advises businesses of all sizes throughout the United States, from small to large, with regard to business and litigation needs.

4. Our litigation team prosecutes and defends complex civil cases in both state and federal courts, including multi-million dollar matters to successful resolution. Our attorneys have achieved the Top Rated Lawyer recognition by Martindale-Hubbell, the Leading Lawyers in Chambers USA and the Great Plains Super Lawyers recognition. Our attorneys include former judicial law clerks to the North Dakota Supreme Court, the North Dakota Federal District Court, and the North Dakota Bankruptcy Court. We regularly represent farmers, ranchers and agricultural related businesses in their business needs in areas such as Farm Service Agency/United States Department of Agriculture, Federal Crop Insurance Corporation, Plant Variety Protection and other various issues that affect agriculture. ABST handles complex litigation and has successfully litigated multi-million dollar matters.

5. The following timekeepers have worked on this matter:

Michelle Donarski. Michelle is a shareholder attorney at ABST. She received her J.D. degree from the University of North Dakota in 1995 and has litigated cases for over 22 years. Michelle is licensed to practice in the state and federal courts of North Dakota and Minnesota. She is also admitted to practice before the U.S. Court of Appeals. She specializes in agriculture law, commercial litigation and labor and employment. She is also an Alternate Municipal Judge for the cities of West Fargo, ND and Fargo, ND. She received the Top Rated Lawyer award by Martindale-Hubbell and is AV Rating. She is also recognized as a Leading Lawyer by the Chambers USA-America's Leading Business Lawyers. She received 2018 Lawyer of the Year and is Great Plains Super Lawyer.

Michelle represents farmers in all aspects of their farming operations, including multi-million dollar claims.

Lowell Bottrell. Lowell is a shareholder attorney at ABST. He received his J.D. degree from the University of North Dakota in 1983 and has litigated cases for over 35 years. He is licensed to practice in the state and federal courts of North Dakota and Minnesota. He is also admitted to practice before the U.S. Court of Appeals. He specializes in agriculture law, bankruptcy, commercial transactions and debtor-credit law and represents farmers in all aspects of their farming operation, including multi-million dollar claims. He is listed in Best Lawyers in America and Great Plains Super Lawyers. He is a member of the Best Attorneys Network. He is also ranked one of America's Leading Business Lawyers by Chambers USA and is AV Rating.

Michael Gust. Michael Gust is a shareholder attorney at ABST. He received his J.D. degree, *with distinction,* from the University of North Dakota in 2001 and has litigated cases for over 13 years. Michael Gust is licensed to practice in the state and federal courts of North Dakota and Minnesota. He is also admitted to practice before the U.S. Court of Appeals and B.A.P. 8th Circuit. Michael Gust specializes in banking law, bankruptcy, corporate law, debtor-creditor law, and insurance law.

Michael Andrews. Michael Andrews is a shareholder attorney at ABST. He received his J.D. degree, *with distinction,* from the University of North Dakota in 1998 and has litigated cases for over 18 years. He is licensed to practice in the state and federal courts of North Dakota, Minnesota and South Dakota. He is also admitted to practice before the U.S. Court of Appeals. Michael Andrews specializes in commercial litigation and real estate. He is AV Rated.

Liza Gion. Liza has been a paralegal with ABST since May 2012. She graduated with an Associate of Applied Science in Business Management-Emphasis in Business Administration in 2008 and an Associate of Applied Science in Paralegal in 2012 from Rasmussen College, Fargo, ND. She specializes in litigation.

6. In this Syngenta matter, ABST assisted with the drafting and filing of the South Dakota state law class action claim captioned *Triple K Farms and John Schneider, et al., v. Syngenta Ag, et al.*, Case No. 16-4174 (filed in Hughes County, South Dakota, U.S. District Court, Southern Division). This case was removed to the United States District Court for the District of Kansas as Case No. 14-md-2591-JWL and transferred by the MDL Panel on January 12, 2017 as CTO-77.

7. ABST also partnered with the law firms of Stueve Siegel Hanson LLP, Gray, Ritter & Graham, P.C., Gray, Reed & McGraw, P.C., and Hare, Wynn, Newell and Newton, LLP to recruit class representative Plaintiffs in the states of North Dakota, Minnesota and South Dakota and worked with the class representatives in completing the fact sheet. ABST also worked with the North Dakota class representative to review, compile and draft discovery responses and collect and review responsive documents. ABST also researched North Dakota claims, statute of limitations and assisted lead counsel with drafting of Complaint to include North Dakota state law claims. ABST also worked with the North Dakota state FSA office to coordinate collection of FSA information from North Dakota class members.

8. Our firm maintains contemporaneous records of its time and expenses in the ordinary course of business. Time is entered daily from the timesheets prepared by attorneys and paralegals. No bill is sent out until it has been reviewed and approved by the lead attorney involved in the matter.

9. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

10. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

11. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

12. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $11,430.00. A breakdown of the lodestar is provided below.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Donarski, Michelle	Partner	37.40	$250.00	$9,350.00
2.	Gion, Liza	Paralegal	6.70	$150.00	$1,005.00
3.	Bottrell, Lowell	Partner	2.00	$250.00	$500.00
4.	Andrews, Michael	Partner	1.70	$250.00	$425.00
5.	Gust, Michael	Partner	0.60	$250.00	$150.00
	TOTALS		48.4		$11,430.00

14. My firm seeks $72.45 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
14	Court Fees	$72.45
	TOTAL	**$72.45**

15. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

16. Our firm is not requesting expense reimbursement for capital contributions to the litigation fund.

17. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Fargo, North Dakota.

DECLARATION OF STEPHEN R. BASSER

I, Stephen R. Basser, declare as follows:

1. I am a partner of Barrack, Rodos & Bacine ("Barrack" or "Firm"). Based on my position with the Firm, I am authorized to submit this declaration on its behalf.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for an award of attorneys' fees and reimbursement of expenses in this litigation.

3. Barrack, Rodos & Bacine (www.barrack.com), founded in 1976, is a national boutique litigation firm comprised of 19 attorneys with offices in Pennsylvania, New York,

California, Michigan and New Jersey. The firm specializes in complex class actions alleging violations of federal and/or state law, including federal and state securities laws, federal antitrust laws, the Racketeering Influenced and Corrupt Organizations Act ("RICO Act"), contracts and tort common law, and state consumer protection statutes. As more fully discussed in the Barrack firm biography appended as Exhibit A to this declaration, the Firm has been appointed to serve as a lead or executive committee counsel in and has prosecuted numerous large, complex class actions over the past 40-plus years since its inception. Barrack has secured some of the nation's largest class action recoveries, including several in excess of one billion dollars. The Firm possesses significant trial experience with respect to large, complex class actions, including, for example, *In re Apollo Group, Inc. Securities Litigation*, *Litigation*, Master File No. CV-04-2147 PHX-JAT (District of Arizona). ("*Apollo*") which resulted in a unanimous jury verdict in the full amount of damages sought by the class. The Firm's extensive litigation experience in complex class actions includes the examination and critical analysis of massive document productions by defendants, often well exceeding a million pages. The Firm is expert in identifying and condensing a massive universe of documents into those that are essential, and synthesizing them in aid of conducting thorough, substantive and productive discovery depositions and in proving plaintiffs' class claims at trial. Barrack, Rodos & Bacine has received numerous judicial accolades for its achievements and trial work, as more fully noted in its biography attached hereto.

4. The Barrack team members whose time entries contributed to its reported lodestar in this case are attorneys William J. Ban, Samuel M. Ward and Stephen R. Basser, and paralegals Nina L. McGarvey, Gavin R. O'Hara and Jennifer R. Mueller. Their individual backgrounds are summarized as follows for the Court's convenience:

Stephen R. Basser, a senior level partner in Barrack, Rodos & Bacine, is a graduate of American University, Washington, D.C. (1973, B.A., English Literature with Honors) and Temple University School of Law, Philadelphia, Pennsylvania (1976, J.D., *cum laude*), where he received the honor of "Highest Grade and Distinguished Class Performance" in its nationally renowned Civil Trial Advocacy Program, and was further honored by being selected to serve as a student prosecutor under the supervision of the United States Attorney's Office for the Eastern District of Pennsylvania. Mr. Basser was admitted to the bars of the Supreme Court of Pennsylvania in 1976, and the Supreme Court of California in 1985. An experienced civil litigator in federal and state courts, Mr. Basser has extensive experience prosecuting complex class actions involving various forms of corporate wrongdoing, including securities fraud, antitrust violations, unfair and deceptive business practices, elder abuse and violations of the RICO Act, and was the Firm's lead counsel and lead trial attorney in *Apollo*. Mr. Basser, an "AV Preeminent™ Rated" attorney by Martindale-Hubbell, has been perennially named a "Super Lawyer" by Super Lawyer Magazine and recognized as a "Top Lawyer" by San Diego Magazine and the Los Angeles Times through 2018. A more complete discussion of Mr. Basser's complex class action litigation experience is included in the Barrack biography.

William J. Ban, a partner with Barrack, Rodos & Bacine, is a graduate of Brooklyn Law School (J.D. 1982) and Lehman College of the City University of New York (A.B. 1977). Mr. Ban was admitted to the bars of New York in 1983 and Pennsylvania in 2005. Over the past thirty-five years, Mr. Ban's practice of law has focused on federal securities, antitrust and consumer class action litigation on behalf of plaintiffs. Mr. Ban has participated as a lead or co-lead counsel and on executive committees and in significant defined roles in scores of major class action litigation in federal and state courts throughout the country, including participation in major class action trials such as *In re WorldCom, Inc. Securities Litigation*, (02-Civ-3288 (DLC)) (S.D.N.Y. 2005) and *In re Brand Name Pharmaceutical Antitrust Litigation*, MDL No. 997 (N.D. Ill. 1998). Mr. Ban has been a highly skilled and experienced senior member of document review teams in complex, mega-class action litigation requiring experienced analysis of massive document productions and their refined synthesis for use in depositions and trial. Mr. Ban's extensive and high-level experience in that important, critical litigation function has played an important role in successfully prosecuting and securing large recoveries for class members. A more complete discussion of Mr. Ban's litigation experience is included in the Barrack biography.

Samuel M. Ward, a partner with Barrack, is a graduate of the University of California, Hastings College of Law (J.D. 2001), and a 1995 honors graduate of the University of California, San Diego (B.A. 1995). Mr.

Ward was admitted to practice law in California in 2001. Since joining the Firm in 2003, Mr. Ward has litigated numerous complex class actions, including those asserting claims under federal securities and state consumer protection statutes. Mr. Ward was member of the trial team in *Apollo.* Mr. Ward also has extensive experience handling document review projects in large, complex and mega-class actions and in developing and synthesizing the documentary evidence. *See also* Exhibit A hereto.

Nina L. McGarvey started her career as a paralegal with Barrack in 1996. Ms. McGarvey received a Bachelor of Arts in Criminal Justice from Temple University, Philadelphia, PA in 1983, a Masters of Science in Public Safety from St. Joseph's University, Philadelphia, PA in 1994, and a paralegal certificate from an ABA approved Philadelphia paralegal institute in 1996. Ms. McGarvey has extensive experience with respect to document review projects associated with large, complex and mega-class actions prosecuted by the Firm over many years.

Gavin R. O'Hara, a paralegal under Cal. Bus. & Prof. Code 6450(c)(4) since 1996, has been with the Firm for over 15 years. Mr. O'Hara received a Bachelor of Arts in Legal Studies from National University, San Diego, CA in 1999. In addition to his function and experience as a paralegal, Mr. O'Hara possesses significant IT experience. Mr. O'Hara secured a CompTIA Certification (Network+) in 2001 and completed a Microsoft Certification Courses (MCSA), Vertex Data Systems, in 2002. Mr. O'Hara has extensive experience with respect to document review projects associated with large, complex class actions prosecuted by the Firm over many years.

Jennifer R. Mueller was a paralegal with Barrack from June 2015 to August 2017, and earned a Bachelor's Degree in Paralegal Studies from Roger Williams University in 2013. Prior to joining the Firm, Ms. Mueller served as a Petty Officer, Second Class, in the United States Navy and was a clerk with Navy Legal Southwest, Judge Advocate Generals' Office from 2008 to 2009. Ms. Mueller was honorably discharged from the Navy. Ms. Mueller possesses experience in all phases of paralegal document review projects, including large documents productions in class action cases. Ms. Mueller is now employed with the Clerk of the United States District Court for the Southern District of California.

5. The Firm's attorneys and paralegals identified above devoted significant time and effort in aid of the successful prosecution of the Action and for the common benefit of the class at the direction of Co-Lead Counsel. Among other activities, the Firm engaged in extensive

document examination and analysis of Syngenta and third party documents produced in the Action. Barrack also assisted Co-Lead Counsel with respect to discrete groups of documents for specific purposes, including non-party document productions that needed to be analyzed quickly for substantive analysis and to determine compliance with discovery parameters. The Firm also thoroughly researched, investigated, analyzed and addressed potential federal claims asserting violations of the RICO Act, including conducting the review of documents produced by third parties associated with that project. During the course of the litigation, the Firm also dedicated attorney William Ban to assist Co-Lead Counsel's prosecution of the Action. Working under the direction of Co-Lead Counsel, and beyond the time and effort he devoted to a more general examination and analysis of documents, Mr. Ban:

- Attended a series of multi-week, in person, closely supervised document review sessions at the offices of Steuve Siegel in Kansas City, Missouri.
- Was frequently assigned to examine documents of a more nuanced nature that required insightful analysis and comment or evaluation.
- Targeted useful information on many different levels, identified and shared his analysis of hot documents, provided analysis and insights for the potential use of these documents at depositions and/or at trial, and identified additional key individuals for deposition.
- Identified issues with respect to redacted, incomplete or withheld documents in support of discovery negotiations with defendant and non-party producers as well as documents that presented potential attorney-client and/or attorney work product waiver issues.

- Assisted in fine-tuning an understanding of the chronology of distinct efforts being made by Syngenta's personnel in China, thereby facilitating the focus for the depositions of significant individuals.
- Examined and analyzed e-mails relating to Syngenta's China-based individuals who were attempting to obtain approval for the 162 product over several years in order to distinguish between their efforts to obtain approval to grow 162 in China as a commercial product as opposed to obtaining permission to grow 162 in China in order to conform to Chinese requirements for import approval.
- Completed discreet projects outside the ordinary document review and analysis protocols established by Co-Lead Counsel, such as: independent searches in specially created document libraries; developing suggestions for creation of additional defined document libraries; conducting expedited analysis and examination of newly produced documents from Syngenta or non-parties; performing Quality Assurance by examining work performed by less experienced document examiners; and editing the same as deemed necessary.
- Developed an understanding of the GMO industry history for commercialization of a variety of GMO products in foreign markets compared to commercialization of such products in the United States.
- Examined the commercialization history of many GMO products, including corn, soy and cotton, by primary industry participants such as Monsanto and Cargill and examined a large volume of documents produced by Syngenta from the files of its designated witness for industry practice for the commercialization of GMO traits, namely, J. Thomas Carrato, former General Counsel for Monsanto.

Facilitated the ability of Co-Lead Counsel taking the Carrato deposition to focus on the most relevant parts of those documents and cross-reference them, in particular identifying contradictions between the documents and Mr. Carrato's expert opinions. Following that deposition, Mr. Ban continued analysis and work with Mr. Carrato's expert report, his deposition transcript and additional documents produced subsequent to his deposition. Mr. Carrato was ultimately withdrawn as defendant's expert on industry practice in April 2017, a few weeks following his deposition.

- Relying on a personal understanding of maritime trade practices and terminology, Mr. Ban painstakingly reviewed significant documentation about individual vessels, their cargos and, importantly, the cost to the grain shippers of the cargo rejections in China or from re-routing vessels. This was done efficiently, cutting through the mass of materials and creating a summary memo listing all of the vessels and relevant details of their voyages and identified the master files for each. This allowed a comprehensive view, with specific evidentiary backing, of all of the concerned vessels and voyages providing dates, cargo tonnage, cargo disposition as well as the general costs sustained by the grain exporters.

6. The schedule included in paragraph 12 below, defining and summarizing Barrack's hours and resulting lodestar arising from the Firm's work in this Action, was prepared from regularly maintained contemporaneous daily time records. The Firm maintains contemporaneous records of its time and expenses in the ordinary course of its business. The attorneys and paralegals who devoted time and effort in this Action entered their time on daily time sheets. Their time was collected and reported in periodic time reports. My Firm provided

regular reporting of its time and expenses to Co-Lead Counsel based on the reports prepared from those contemporaneous daily time records.

7. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my Firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

8. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent on any individual claim.

9. I am the principle attorney/partner who oversaw the day-to-day activities performed by the Barrack team in the Action. I reviewed printouts of my Firm's periodic time reports based on contemporaneous daily time records before each periodic lodestar report was provided to Co-Lead Counsel. As part of the preparation of my declaration, I reviewed the Court's Common Benefit Order. I also conducted a re-review of all of the time entries and expenses previously submitted to Co-Lead Counsel in this litigation in order to remove all time devoted and expenses incurred prior to the appointment of Co-Lead Counsel, and any time that was not performed for the benefit of the Class or under the direction of Co-Lead Counsel. Based on this review, and with input from Lead Counsel, reductions were made to my Firm's time and lodestar. I cut a total of approximately 407 hours of time incurred by my Firm since the inception of the case, totaling approximately $300,000.00 in lodestar, which also included the deletion of *de minimus* and/or redundant time.

10. I did not include in the Firm's time and lodestar report below any time expended in periodically reviewing the Firm's time or expenses, or any expended in preparing this application for fees and payment of expenses. Nor has any time expended subsequent to May 31, 2017 been included. I confirm that Co-Lead Counsel conducted a thorough review and vetting

of my Firm's omnibus time and expenses in order to further make certain that its time/lodestar and expense reporting is in full compliance with the Common Benefit Order.

11. After a re-review, I can confirm that the reported time herein was undertaken by the members of my Firm at the direction and with approval from Co-Lead Counsel or their designee. I further believe and aver that the Common Benefit time and expense information submitted on behalf of the Firm is accurate and in compliance with the Court's Common Benefit Order, is reasonable, and was necessary for the effective prosecution and resolution of the Action.

12. Based on the foregoing, the total lodestar for my law firm for which compensation is being sought is **$1,819,463.00**. A breakdown of the Firm's lodestar based on contemporaneous daily time records regularly prepared and maintained by my Firm at 2017 billing rates is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Ban, William J.	Partner	2,314.10	$660.00	$1,527,306.00
2.	McGarvey, Nina	Paralegal	452.20	$300.00	$135,660.00
3.	O'Hara, Gavin	Paralegal	273.70	$290.00	$79,373.00
4.	Basser, Stephen R.	Partner	79.20	$770.00	$60,984.00
5.	Mueller, Jennifer	Paralegal	39.70	$290.00	$11,513.00
6.	Ward, Samuel M.	Partner	6.20	$560.00	$3,472.00
7.	Golan, Jeffrey W.	Partner	1.50	$770.00	$1,155.00
	TOTALS		3,166.6		$1,819,463.00

13. The common benefit work that the attorneys and paralegals at my Firm devoted to this case, and especially with respect to Mr. Ban, who was dedicated almost exclusively to

working on the Action at the direction of Co-Lead Counsel, precluded the undertaking of work in other matters.

14. My firm seeks **$17,458.17** in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
4	Long Distance Calls	$266.67
7	Hotels	$4,474.47
8	Meals	$499.39
10	Air Travel	$1,627.90
17	Ground Transportation	$589.74
19	Litigation Fund Assessment	$10,000.00
	TOTAL	**$17,458.17**

15. As part of the Firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Common Benefit Order. The requested award is in conformity with the Common Benefit Order.

16. Included in the expenses for which the Firm is requesting expense reimbursement are capital contributions to the Syngenta litigation fund, made on February 8, 2015 and April 20, 2016 in the amounts of $5,000 each, for a total litigation fund contribution of $10,000, as more fully itemized in paragraph 14 above.

17. The expenses pertaining to this case are reflected in the records of the Firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents, and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in San Diego, California.

Introduction

Barrack, Rodos & Bacine is a nationally recognized law firm known for its prosecution of complex class action litigation, including securities class actions on behalf of institutional investors, derivative and breach of fiduciary duty actions by corporate shareholders, antitrust class actions on behalf of victims of price-fixing conspiracies and other federal and state law matters on behalf of consumers. Since 1976, the Firm has had significant leadership positions in complex litigation, having been appointed by courts as lead counsel in numerous class actions throughout the United States, including those brought pursuant to the provisions of the Private Securities Litigation Reform Act ("PSLRA").

Acclaim for Barrack, Rodos & Bacine

Courts throughout the United States have praised the work done by the Firm on behalf of injured investors and victims of price-fixing.

In ***In re Apollo Group Inc. Securities Litigation***, Master File No. CV-04-2147 PHX-JAT (U.S. District Court for the District of Arizona), Barrack, Rodos & Bacine, as the sole lead counsel for the class, secured a jury verdict for the full amount per share requested. Judge Teilborg commented that trial counsel ***"brought to this courtroom just extraordinary talent and preparation.... The technical preparation, the preparation for your examination and cross-examination of witnesses has been evident in every single instance. The preparation for evidentiary objections and responses to those objections have been thorough and foresighted. The arguments that have been made in every instance have been well-prepared and well-presented throughout the case. *** Likewise, for the professionalism and the civility that you -- and the integrity that you have all demonstrated and exuded throughout the handling of this case, it has just, I think, been very, very refreshing and rewarding to see that. *** [W]hat I have seen has just been truly exemplary."***

BR&B ultimately secured payment of $145 million from the defendants – the largest post-verdict judgment and recovery achieved in a shareholder class action for violations of the federal securities laws since passage of the PSLRA. In approving the $145 million resolution on April 20, 2012 (*see* 2012 WL 1378677), Judge Teilborg noted BR&B's "***high degree of competence"*** in litigating the case, and further stated: "[S]ince the enactment of the Private Securities Litigation Securities Reform Act ("PLSRA"), securities class actions rarely proceed to trial. Because Plaintiffs faced the burden of proving multiple factors relating to securities fraud, there was great risk that this case would not result in a favorable verdict after trial. Further, after the jury verdict, this Court granted judgment as a matter of law in favor of Defendants and Class Counsel pursued a risky and successful appeal to the Ninth Circuit Court of Appeals. Thereafter, Class Counsel successfully opposed a petition for certiorari to the United States Supreme Court. ***Based on this procedural history and the seven years of diligence in representing the Class, Class Counsel achieved an exceptional result for the Class. Such a result is unique in such securities cases and could not have been achieved without Class Counsel's willingness to pursue this risky case throughout trial and beyond***. … [A]s discussed above, ***Plaintiffs' Lead Counsel achieved exceptional results for the Class and pursued the litigation despite great risk***."

In ***In re WorldCom, Inc. Securities Litigation***, No. 02 Civ. 3288 (DLC) (U.S. District Court for the Southern District of New York), Barrack, Rodos & Bacine was co-lead counsel for the Class and achieved settlements in excess of $6.19 billion. After a partial settlement with one group of defendants for $2.575 billion, the Court stated that ***"the settlement amount ... is so large that it is of historic proportions."*** The Court found that ***"Lead Counsel has performed its work at every juncture with integrity and competence. It has worked as hard as a litigation of this importance demands, which for some of the attorneys,***

including the senior attorneys from Lead Counsel on whose shoulders the principal responsibility for this litigation rests, has meant an onerous work schedule for over two years." The Court further found that ***"the quality of the representation given by Lead Counsel is unsurpassed in this Court's experience with plaintiffs' counsel in securities litigation. Lead Counsel has been energetic and creative. Its skill has matched that of able and well-funded defense counsel. It has behaved professionally and has taken care not to burden the Court or other parties with needless disputes. Its negotiations with the Citigroup Defendants have resulted in a settlement of historic proportions. It has cooperated with other counsel in ways that redound to the benefit of the class and those investors who have opted out of the class. The submissions of Lead Counsel to the Court have been written with care and have repeatedly been of great assistance."*** The Court also found that ***"In sum, the quality of representation that Lead Counsel has provided to the class has been superb".*** In approving final settlements totaling $3.5 billion with certain defendants, in an opinion and order dated September 20, 2005, the Court stated ***"The impressive extent and superior quality of Lead Counsel's efforts as of May 2004 were described in detail in the Opinion approving the Citigroup Settlement. … At the conclusion of this litigation, more than ever, it remains true that 'the quality of representation that Lead Counsel has provided to the class has been superb.' … At trial against Andersen, the quality of Lead Counsel's representation remained first-rate. .. The size of the recovery achieved for the class – which has been praised even by several objectors – could not have been achieved without the unwavering commitment of Lead Counsel to this litigation."***

The Court also found that ***"Despite the existence of these risks, Lead Counsel obtained remarkable settlements for the Class while facing formidable opposing counsel from some of the best defense firms in the country;"*** and ***"If the Lead Plaintiff had been represented by less tenacious and competent counsel, it is by no means clear that it would have achieved the success it did here on behalf of the Class."*** As the Court further stated: ***"It is only the size of the Citigroup and Underwriters' Settlements that make this recovery so historic, and it is likely that less able plaintiffs' counsel would have achieved far less."***

In ***In re Cendant Corporation Litigation***, No. 98-CV-1664 (WHW) (U.S. District Court for the District of New Jersey), Barrack, Rodos & Bacine was co-lead counsel for the Class and achieved settlements with defendants of **$3.3 billion**, more than three times larger than the next highest recovery ever achieved in a securities law class action suit by that time. The *Cendant* settlement included what was, at the time, the largest amount by far ever paid in a securities class action by an issuing company and what was, and remains, the largest amount ever paid in a securities class action by an auditor. The *Cendant* settlement further included extensive corporate governance reforms, and a contingency recovery of one-half the net recovery that Cendant and certain of its affiliated individuals may recover in on-going proceedings against CUC's former auditor – a contingency that resulted in the Class receiving another **$132 million** in 2008. The *Cendant* court stated that ***"we have all been favored with counsel of the highest competence and integrity and fortunately savvy in the ways of the law and the market."*** The Court found that the "***standing, experience and expertise of counsel, the skill***

and professionalism with which counsel prosecuted the case and the performance and quality of opposed counsel were and are high in this action." The Court further found that the result of lead counsel's efforts were "***excellent settlements of uncommon amount engineered by highly skilled counsel with reasonable cost to the class.***" And on April 11, 2005, the Third Circuit noted (404 F.3d 173, 209 (3d Cir. 2005)) that**: *"Lead Counsel's handling of the case was thorough, expert, and extraordinarily successful…. Lead Counsel's efforts ...led to the plaintiff class's gigantic recovery."***

In ***In re Automotive Refinishing Paint Antitrust Litigation***, 2:10-md-01426-RBS (U.S. District Court for the Eastern District of Pennsylvania), Barrack, Rodos & Bacine, co-lead counsel for a Class of direct purchasers of automotive refinishing paint, achieved settlements with five defendants in excess of $100 million. After reaching a settlement with the last two defendants remaining in the litigation, the Court stated, ***"I want to commend counsel on both sides of this litigation. I think that the representation on both sides of this litigation is as good as I've ever seen in my entire professional career. Counsel worked together in this case. They frankly made the job of this Court very easy and I commend all of you for what you've done in this litigation."***

In ***Payne v. Micro Warehouse, Inc.***, No. 3:96CV1920(DJS) (U.S. District Court for the District of Connecticut), where Barrack, Rodos & Bacine was co-lead counsel for the shareholder class, the Court noted ***"the exceptional results achieved by plaintiffs' counsel,"*** who ***"were required to develop and litigate this complex case solely through their own efforts,"*** and concluded that ***"the benefit conveyed to the class plaintiffs amply supports the conclusion that the plaintiffs' counsels' work was exceptional."***

Our clients have also praised our efforts on their behalf. One public pension fund client has made the following comments about the Firm:

- "BR&B has performed superbly in its representation of [our fund]. BR&B keeps [us] informed of every step in the litigation and is very responsive to [our] needs and requests for information."
- "BR&B is highly responsive to [our fund]. Telephone calls are returned quickly by a return call or email. Any response by BR&B that requires a written document also is provided to [us] in a timely manner."
- "BR&B has a very good understanding of unique problems faced by public sector institutional clients. … BR&B is good about screening cases it might recommend to [us]."
- "BR&B is also not afraid to take a case to trial, and has done so to a successful conclusion."

Significant Cases – Securities Laws

Among the many securities law cases where the Firm has been appointed lead counsel are the following:

Patricia A. Shenk, et al. v. Mallinckrodt PLC, et al., Civil Action No. 17-cv-00145 (DLF), before the Honorable Dabney L. Friedrich in the District of Columbia;

In re Roadrunner Transportation Systems, Inc. Securities Litigation, No. 2:17-cv-144-PP, before the Honorable Pamela Pepper in the Eastern District of Wisconsin;

In re DFC Global Corp. Securities Litigation, Civ. A. No. 2:13-cv-06731-BMS, before the Honorable Berle M. Schiller in the Eastern District of Pennsylvania;

Pennsylvania Public School Employees' Retirement System v. Bank of America Corp., et al., Civil Action No. 1:11-cv-733-WHP, before the Honorable William H. Pauley, III, in the Southern District of New York;

In re OmniVision Technologies, Inc. Securities Litigation, Case No. 5:11-cv-05235, before the Honorable Ronald M. Whyte in the Northern District of California;

Louisiana Municipal Police Employees Retirement System v. Green Mountain Coffee Roasters et al., Case No. 11-cv-00289, before the Honorable William K. Sessions, III, in the District of Vermont;

In re American International Group Inc. 2008 Securities Litigation, Master File No. 08-CV-4772-LTS, before the Honorable Laura Taylor Swain in the Southern District of New York;

In re McKesson HBOC, Inc. Securities Litigation, No. C-99-20743-RMW, before the Honorable Ronald M. Whyte in the Northern District of California;

In re WorldCom, Inc. Securities Litigation, Master File No. 02-Civ-3288 (DLC), before the Honorable Denise L. Cote in the Southern District of New York;

In re Cendant Corporation Litigation, Master File No. 98-1664 (WHW), before the Honorable William H. Walls in the District of New Jersey;

In re Apollo Group, Inc. Securities Litigation, Master File No. CV 04-2147-PHX-JAT, before the Honorable James A. Teilborg in the District of Arizona;

In re Merrill Lynch & Co., Inc. Securities, Derivative & ERISA Litigation, Master File No. 07-cv-9633 (LBS)(AJP)(DFE), before the Honorable Jed S. Rakoff in the Southern District of New York;

Waldrep v. ValueClick, Inc., et al., Case No. 07-05411 DDP (AJWx), before the Honorable Dean D. Pregerson in the Central District of California;

In re The Mills Corporation Securities Litigation, Civil Action No. 1:06-77, before the Honorable Liam O'Grady in the Eastern District of Virginia;

In re R & G Financial Corp. Securities Litigation, No. 05 cv 4186, before the Honorable John E. Sprizzo in the Southern District of New York;

In re Bridgestone Securities Litigation, Master File No. 3:01-0017, before the Honorable Robert L. Echols in the Middle District of Tennessee;

In re DaimlerChrysler AG Securities Litigation, No. 00-0993, before the Honorable Joseph J. Farnan, Jr. in the District of Delaware;

In re Schering-Plough Securities Litigation, Master File No. 01-CV-0829 (KSH/RJH), before the Honorable Katherine Hayden in the District of New Jersey;

Rubin v. MF Global, Ltd., et al., Case No. 1:08cv2233-VM, before the Honorable Victor Marrero in the Southern District of New York;

In re Michael Baker Inc. Securities Litigation, Civil Action No. 2:08-cv-00370-JFC, before the Honorable Joy Flowers Conti in the Western District of Pennsylvania;

In re PainCare Holdings, Inc. Securities Litigation, Case No. 6:06-cv-362-Orl-28DAB, before the Honorable John Antoon, II in the Middle District of Florida;

In re Sunbeam Securities Litigation, No. 98-8258-CIV-MIDDLEBROOKS, before the Honorable Donald M. Middlebrooks in the Southern District of Florida;

In re Applied Micro Circuits Corp. Securities Litigation, No. 01-CV-0649-K (AJB), before the Honorable Judith N. Keep in the Southern District of California;

Jason Stanley, et al. v. Safeskin Corporation, et al., Lead Case No.: 99cv0454-BTM (LSP), before the Honorable Barry Ted Moskowitz in the Southern District of California;

In re Hi/Fn, Inc. Securities Litigation, Master File No. C-99-4531-SI , before the Honorable Susan Illston in the Northern District of California;

In re Theragenics Corp. Securities Litigation, No. 1:99-CV-0141 (TWT), before the Honorable Thomas W. Thrash in the Northern District of Georgia, Atlanta Division;

Bell, et al. v. Fore Systems, Inc., et al., Civil Action No. 97-1265, before the Honorable Robert J. Cindrich in the Western District of Pennsylvania;

In re Envoy Corp. Securities Litigation, Civil Action No. 3-98-00760, before the Honorable John T. Nixon in the Middle District of Tennessee, Nashville Division;

In re Paradyne Networks, Inc. Securities Litigation, Case No. 8:00-CV-2057-T-17E, before the Honorable Elizabeth A. Kovachevich in the Middle District of Florida, Tampa Division;

Smith v. Harmonic, Inc., et al., No. C-00-2287 PJH, before the Honorable Phyllis J. Hamilton in the Northern District of California; and

Smith, et al. v. Electronics For Imaging, Inc., et al., No. C-97-4739-CAL, before the Honorable Charles A. Legge in the Northern District of California.

Significant Cases – Derivative and Fiduciary Duty Cases

Among the many derivative and fiduciary duty cases where the Firm has been appointed lead counsel are the following:

Government Employees' Retirement System of the Virgin Islands v. Michael D. Huggins, et al. (Synthes), Civil Action No. 11-01993, before the Honorable Robert J. Shenkin in the Court of Common Pleas in Chester County, Pennsylvania;

In re Pepsi Bottling Group Shareholder Litigation, C.A. No. 4526-VCS, before the Honorable Leo E. Strine, Jr. in the Delaware Court of Chancery:

In re Barnes & Noble Stockholder Derivative Litigation, C.A> No. 4813-CS, before the Honorable Leo E. Strine, Jr. in the Delaware Court of Chancery:

In re Cheniere Energy, Inc. Stockholders Litigation, Consolidated C.A. No. 9710-VCL, before the Honorable J. Travis Laster in the Delaware Chancery Court,

In re Allion Healthcare Inc. Shareholders Litigation, Cons. C.A. No. 5022-CC, before Chancellor William B. Chandler III in the Delaware Chancery Court;

Herbert Resnik v. Patricia A. Woertz, et al. (Archer-Daniels-Midland Company), Civil Action No. 1:10-cv-00527-GMS, before the Honorable Gregory M. Sleet, Chief Judge of the District of Delaware;

Ruby Resnick v. Spencer Abraham, et al. (Occidental Petroleum Corp.), Case No. 10-cv-00390, before the Honorable Robert F. Kelly (sitting by designation) in the District of Delaware;

Dennis Rice v. Lafarge North America, Inc., et al., Civil No. 268974-V, before the Honorable Michael D. Mason in the Circuit Court for Montgomery County, Maryland;

In re Nationwide Financial Services Litigation, Civil Action No. 2:08cv00249, before the Honorable Michael H. Watson in the Southern District of Ohio;

In re Chiron Shareholder Deal Litigation, Case No. RG05-230567, before the Honorable Robert B. Freedman in the California Superior Court for Alameda County;

In re AOL Time Warner Shareholder Derivative Litigation, Master File No. 02-CV-6302 (SWK), before the Honorable Shirley Wohl Kram in the Southern District of New York;

In re Apple Computer, Inc., *Derivative Litigation*, Lead Case No. 1:06CV066692, before the Honorable Joseph H. Huber in the Superior Court of the State of California, County of Santa Clara;

In re Computer Sciences Corporation Derivative Litigation, Lead Case No.: 06-CV-5288 MRP (Ex), before the Honorable Mariana R. Pfaelzer in the Central District of California;

In re Monster Worldwide, Inc. Stock Option Derivative Litigation, Civil Action No. 1:06cv04622 (NRB-DCF), before the Honorable Naomi R. Buchwald in the Southern District of New York;

In re Quest Software, Inc. Derivative Litigation, Lead Case No. 06-cv-751 Doc(Rnbx), before the Honorable David O. Carter in the Central District Of California, Southern Division;

Bader v. Ainslie (Lehman Brothers Holdings, Inc.), Civil Action No. 06cv5884, before the Honorable William H. Pauley, III in the Southern District of New York;

Insulators and Asbestos Workers Local 14 Pension Fund v. Buckley, et al. (3M Corporation), Case No. 1:07-cv-00416-GMS, pending before the Honorable Gregory M. Sleet in District of Delaware;

Hill v. Berdon (*Barnes & Noble, Inc.)*, Index No. 06602889, before the Honorable Richard B. Lowe, III, in the Supreme Court of New York County New York; and

The Edward Goodman Life Income Trust v. Huang (NVIDIA Corp.), Case No. 3:06cv06110-MHP (N.D.Cal.), before the Honorable Saundra Brown Armstrong in the Northern District of California.

Significant Cases – Antitrust

The Firm has also been appointed lead counsel or to the leadership group in many antitrust law class action cases, including:

In re Fasteners Antitrust Litigation, MDL Docket No. 1912, the Honorable R. Barclay Surrick in the Eastern District of Pennsylvania;

In re Lithium Ion Batteries Antitrust Litigation, MDL Docket No. 2420, the Honorable Yvonne Gonzalez Rogers in the Northern District of California;

In re Publication Paper Antitrust Litigation, Docket No. 3:04 MD 1631 (SRU), before the Honorable Stefan R. Underhill in the District of Connecticut;

In re Automotive Paint Refinishing Antitrust Litigation, MDL No. 1426, before the Honorable R. Barclay Surrick in the Eastern District of Pennsylvania;

In re Flat Glass Antitrust Litigation, Master Docket Misc. No. 970550, MDL No. 1200, before the Honorable Donald E. Ziegler in the Western District of Pennsylvania;

Thomas & Thomas Rodmakers, Inc. v. Newport Adhesives and Composites, Inc., et al., No. CV-99-07796-GHK(Ctx), before the Honorable Florence Marie Cooper in the Central District of California, Western Division;

Brookshire Brothers, Ltd., et al. v. Chiquita Brands International, Inc., et al., Lead Case No. 05-21962-Cooke/Brown, before the Honorable Marcia G. Cooke in the Southern District of Florida, Miami Division;

In re Citric Acid Antitrust Litigation, Master File No. 95-2963, before the Honorable Charles A. Legge in the Northern District of California;

In re Graphite Electrodes Antitrust Litigation, Master File No. 97-CV-4182 (CRW), before the Honorable Charles R. Weiner in the Eastern District of Pennsylvania; and

In re Sorbates Antitrust Litigation, Master File No. C 98-4886 MCC, before the Honorable William H. Orrick, Jr. in the Northern District of California.

In re Sodium Gluconate Antitrust Litigation, No. C-97-4142CW, the Honorable Claudia Wilken in the Northern District of California;

In re: Metal Building Insulation Antitrust Litigation, Master File No. H-96-3490, the Honorable Nancy F. Atlas in the Southern District of Texas;

In re Carpet Antitrust Litigation, MDL No. 1075, the Honorable Harold L. Murphy in the Northern District of Georgia, Rome Division;

In re Citric Acid Antitrust Litigation, Master File No. 95-2963, the Honorable Charles A. Legge in the Northern District of California; and

Capital Sign Company, Inc. v. Alliance Metals, Inc., et al., Civil Action No. 95-CV-6557 (LHP), the Honorable Louis H. Pollak in the Eastern District of Pennsylvania; and

Plastic Cutlery Antitrust Litigation, Master File No. 96-728, the Honorable Joseph L. McGlynn in the Eastern District of Pennsylvania.

Trial Experience

The Firm approaches each case as if it will go to trial. And while very few securities class actions go to trial, the Firm has extensive experience in nationwide class actions, has demonstrated its willingness to bring cases to trial, and has achieved stellar results at trial.

BR&B has litigated one of the few securities class actions that (a) was tried to a jury verdict, (b) resulted in a verdict in favor of the plaintiff class, and (c) was upheld in all respects on appeal. In *In re Apollo Group, Inc. Securities Litigation* before the Honorable James A. Teilborg in the United States District Court for the District of Arizona, BR&B acted as lead counsel for lead plaintiff, the PABF. After three years of vigorous and contentious litigation, BR&B took the case to trial. At the conclusion of the 22-day trial, the jury entered a unanimous verdict in January 2008 for the lead plaintiff and class of investors it represented in the full amount of damages sought on a per share basis. Although the court entered a post-trial ruling in defendants' favor, the U.S. Circuit Court of Appeals for the Ninth Circuit reversed that ruling and reinstated the jury verdict. The U.S. Supreme Court denied defendants' petition for certiorari and allowed the decision of the Ninth Circuit to stand. In August 2011, BR&B, on behalf of the lead plaintiff, entered into an agreement with the defendants to resolve a dispute over claims procedures in exchange for the payment of **$145 million** for the benefit of the class.

The *Apollo* court approved the resolution in 2012, noting that BR&B had obtained "an exceptional result for the class." The court also commented that the Firm "demonstrated a high degree of competence in the eight years of litigation of this case." The court also observed that the result achieved for the class:

> [I]s unique in such securities cases and could not have been achieved without Class Counsel's willingness to pursue this risky case throughout trial and beyond. … [A]s discussed above, Plaintiffs' Lead Counsel achieved exceptional results for the Class and pursued the litigation despite great risk.

The *Apollo* case is not the Firm's only experience in taking securities class actions to trial. BR&B also conducted a trial in the landmark *WorldCom, Inc. Securities Litigation*. After obtaining more than $6 billion in settlements from various defendants, including WorldCom's financial advisor, underwriters, directors, and members of management, the Firm and co-counsel conducted a five-week trial against WorldCom's auditor, Arthur Andersen. After nearly five weeks of trial and as the parties were approaching closing arguments, Andersen agreed to settle the claims for $65 million in cash plus the maintenance of a contingent claim that was ultimately resolved in exchange for a further payment of $38 million.

In April 2018, Barrack Rodos & Bacine began a trial before Judge Juan R. Sánchez in the United States District Court for the Eastern District of Pennsylvania in *Becker v. The Bank of*

New York Mellon Trust Company, N.A., et al., a class action lawsuit brought on behalf of former bondholders of Lower Bucks Hospital. The lawsuit was brought against The Bank of New York Mellon Trust Co., N.A., and J.P. Morgan Trust Company, National Association, as indenture trustees for bonds issued on behalf of Lower Bucks Hospital. The plaintiff alleged that the defendants breached their fiduciary and contractual duties to the bondholders by failing to ensure that the bondholders' security interest in the collateral backing the bonds was perfected, resulting in a diminished recovery for the bondholders in the Lower Bucks Hospital bankruptcy, and sought $15 million in damages, plus interest, from the indenture trustees. On April 19, 2018, on the eve of closing arguments, the parties entered into an agreement in principle to settle the action for $13.5 million, to be distributed to the bondholders on a pro rata basis. The parties are currently seeking preliminary approval of the settlement.

The Firm's other trial experience includes: *Gutierrez v. Charles J. Givens Organization, et al.*, Case No. 667169 (Superior Court of California, County of San Diego) (jury verdict in excess of $14 million for plaintiff consumer class); *Equity Asset Investment Trust, et al. v. John G. Daugman, et al.*, C.A. No. 20395 (Del. Ch.) (2003 trial involving board composition of Iridian Technologies followed by settlement); *In re Control Data Corporation Securities Litigation*, 933 F.2d 616 (8th Cir. 1991); *Gould v. Marlon*, CV-86-968-LDG (D. Nev.) (jury verdict for plaintiff class); *Herskowitz v. Nutri/System, et al.*, 857 F.2d 179 (3rd Cir. 1988); and *Betanzos v. Huntsinger*, CV-82-5383 RMT (C.D. Cal.) (jury verdict for plaintiff class).

In addition to the *Equity Asset v. Daugman* case, the Firm was also one of the Shareholder Plaintiffs' co-lead counsel in *In re Airgas Inc. Shareholder Litigation,* C.A. No. 5256-CC (Del. Ch.), which went to trial before former Chancellor William B. Chandler, III, of the Delaware Chancery Court. On January 27, 2011, after a trial and supplemental hearing, the Court ruled in defendants' favor, based primarily on testimony provided by board members who had been elected from a slate proposed by the potential acquirer of Airgas but testified in favor of maintaining Airgas as an independent company. At the conclusion of the supplemental hearing, Chancellor Chandler stated the following: "Unless there's some question about that, the only thing I'll end with is to thank all of you again. *As I said the last time you were here, this is really the dream team for me. This group of litigants, the lawyers involved in this case, I can't imagine a finer group*. And I'm not just saying that. It reminds me a little bit of what I'm looking forward to in a few weeks when I'm going to watch the Packers and the Steelers. Truly legendary teams with legendary histories and great legacies. And the tough part is, just like in a sporting event, it's a zero sum game. And I wish it were [not], because I think that much of both teams. The work you've done has just been so impressive. You've been so helpful to me in getting me things that I've asked you to on a very accelerated basis. And I realize that's not equal -- not seeing your families, being away on weekends and nights. I apologize for that. *You've done a superb job. I wish your clients were here, but I think they'll get the message that they couldn't have gotten a better team of litigators assembled anywhere to do the job you've done. I congratulate you all on your effort*."

Shareholder Advocacy

In addition to our representation of institutional investors and public and private pension funds in securities litigation, BR&B also seeks to further the interests of institutional investors through the submission of amicus curiae briefs in important securities class action and other stockholder appeals. Below are three examples of our work in this regard.

- *Halliburton II Supreme Court Appeal:* On November 15, 2013, the United States Supreme Court granted certiorari in *Halliburton Co. v. Erica P. John Fund (Halliburton II)*, in which the Supreme Court agreed to consider the viability of the fraud-on-the-market presumption of reliance necessary to certify a class of putative securities fraud plaintiffs under Section 10(b) of the Securities Exchange Act of 1934 and alternatively what is needed to invoke and rebut the presumption. In the appeal, the Supreme Court was being asked to overturn the 1988 landmark decision in *Basic, Inc. v. Levinson*, which established the "fraud-on-the-market" presumption of reliance, now a cornerstone of securities fraud class actions. Under the decision in *Basic*, investors are not required to prove directly that they relied on a defendant's material misstatements. The *Basic* decision held that such reliance may be presumed where the investor shows that the security at issue traded on an efficient market. In the years since *Basic,* when seeking class certification, plaintiffs had been able to show class-wide reliance by demonstrating that the market for a particular stock was efficient and, as a result, the stock price reflected material, publicly-available material information.

BR&B, working on behalf of fourteen renowned financial economists, including Nobel Laureate Eugene Fama, submitted an amicus brief in the *Halliburton II* case. The brief filed by BR&B explained that while financial economists may disagree about whether markets perfectly process information and how quickly they do so, there is generally no disagreement about whether market prices respond to material information for securities that trade in well-developed markets. The brief also explained that under the Efficient Capital Market Hypothesis, financial economists generally believe that stock prices respond to material information in a predicable direction and that the primary debate among economists is whether stock prices reflect fundamental value—the actual value of the company—not whether stock prices will move in response to material information. The brief demonstrated that the premise upon which the fraud-on-the-market theory rests is widely accepted by financial economists, and took the position that the Supreme Court should not overrule or significantly modify the fraud-on-the-market presumption enunciated in *Basic.*

On June 23, 2014, the United States Supreme Court issued its much-anticipated ruling in the *Halliburton II* appeal. In a victory for investors, the Court rejected the defendant's challenge to the "fraud-on-the-market" theory, which has been a lynchpin of securities fraud class action litigation for almost 30 years. BR&B's commentary about the Supreme Court's decision is accessible at: http://www.barrack.com/node/241. The amicus brief submitted by BR&B was cited by the Supreme Court in support of its decision.

➢ *Wal-Mart Shareholder Proposal Litigation:* On February 11, 2015, Barrack, Rodos & Bacine submitted an amicus brief on behalf of the Robert F. Kennedy Center for Justice and Human Rights, also known as Robert F. Kennedy Human Rights, in *Trinity Wall Street v. Wal-Mart Stores, Inc.*, a dispute arising from Wal-Mart's refusal to include a shareholder proposal in its 2014 proxy materials.

In December 2013, Trinity Wall Street, a church parish located at the corner of Broadway and Wall Street in New York City, and a shareholder of Wal-Mart Stores, Inc., submitted a shareholder proposal for inclusion in Wal-Mart's proxy materials for its 2014 annual shareholder meeting. The proposal was submitted in the wake of the unspeakable tragedy involving the mass killing at the Sandy Hook Elementary School in Newtown, Connecticut, and was intended to cover policies and standards that would be applicable to determining whether Wal-Mart should continue to sell assault-style firearms with high-capacity magazines. The proposal sought to be presented for approval by Wal-Mart's shareholders, would require Wal-Mart's board to provide specific oversight "concerning the formulation and implementation of, and the public reporting of the formulation and implementation of, policies and standards that determine whether or not the Company (i.e., Wal-Mart) should sell a product that: (1) especially endangers public safety and well-being; (2) has the substantial potential to impair the reputation of the Company; and/or (3) would reasonably be considered by many offensive to family and community values integral to the Company's promotion of its brand."

After Wal-Mart refused to include the proposal in its 2014 proxy materials, Trinity brought suit in the U.S. District Court in Delaware. On November 26, 2014, the District Court determined that Wal-Mart had wrongfully excluded the proposal from its proxy materials, and ordered the Company to include the proposal in the proxy materials for its upcoming 2015 annual shareholder meeting. The District Court ruled that the proposal did not relate to Wal-Mart's "ordinary business operations," which would have allowed the Company to exclude it, but rather raised policy issues that are appropriate for shareholder consideration. As the District Court wrote: "The significant social policy issues on which the Proposal focuses include the social and community effects of sales of high capacity firearms at the world's largest retailer and the impact this could have on Wal-Mart's reputation, particularly if such a product sold at Wal-Mart is misused and people are injured or killed as a result."

Wal-Mart appealed the District Court's decision to the U.S. Court of Appeals for the Third Circuit. In support of Trinity's position on the appeal, BR&B submitted an amicus brief on behalf of the Robert F. Kennedy Human Rights. The brief filed by BR&B took the position that upholding the District Court's decision was necessary to protect and facilitate the use of the Sustainable Investing investment philosophy as a best practice in the financial evaluation of a company and the role of shareholders. Sustainable Investing, where shareholders integrate Environmental, Social, and Governance ("ESG") factors into their financial objectives, has been gaining visibility for its utility in evaluating the long-term financial health of a company and shareholder value. The brief filed by the Firm included extensive research and findings concerning gun violence and mass killings, examples of boards of other companies having taken actions in response to social and public health imperatives, and a series of shareholder proposals that have been offered to ensure that companies are abiding by the Sustainable

Investing factors in light of changing societal demands for companies to engage in socially responsible behavior. The brief concluded that the sale of products that are dangerous to public health is a serious policy and human rights issue, and that upholding the District Court's decision was necessary to protect Sustainable Investors' attempts to ensure that Wal-Mart is appropriately and effectively applying the relevant Sustainable Investing factors. Unfortunately, however, the Court of Appeals overturned the decision of the District Court, finding that the shareholder proposal related to the "ordinary business" of the company, and was therefore not an appropriate subject for a shareholder proposal.

- *Second Circuit Class Certification Appeals:* In the first half of 2016, the United States Court of Appeals for the Second Circuit accepted appeals from district court decisions granting class certification in a series of cases involving Goldman Sachs Group, Inc. (No. 16-250), Barclays PCL (No. 16-1912), and Petroleo Brasileiro S.A. Petrobras (No. 16-1914). One of the primary issues common to all of the appeals was the legal impact of the presumption of reliance created by the U.S. Supreme Court, in *Basic, Inc. v. Levinson*, 485 U.S. 224 (1988), and reiterated and further explained in *Halliburton Co. v. Erica P. John Fund, Inc.*, 134 S. Ct. 2398 (2014) (*Halliburton II*), for securities fraud actions stemming from a plaintiff's showing that a market for a security is efficient, *i.e.,* the fraud-on-the-market presumption. While courts were uniform in holding that a showing of market efficiency creates a presumption of reliance, questions remained as to whether the plaintiff or defendant would have the "burden of persuasion" when a defendant sought to rebut the presumption and the type of proof that is required to rebut the presumption.

Barrack, Rodos & Bacine worked with a solo practitioner in Washington, D.C. in representing, through the filing of amicus briefs in each of the appeals, sixteen eminent professors of law who teach, research and write about the law of evidence. As noted in the amicus briefs, the law school professors "share the view that principles of the law of evidence dictate that, once plaintiffs have satisfied their burden of triggering the presumption of reliance …, the burden of persuasion shifts to the defendants to rebut that presumption by a preponderance of the evidence." The briefs argued that the Supreme Court has recognized the need to shift burdens of persuasion to effectuate the intent of Congress or to implement judicially-created legal doctrines (in many diverse fields of law), and that given the presumption of reliance as explained in *Basic* and *Halliburton II*, the Court of Appeals should rule that the defendants – as the parties rebutting the presumption – should have the burden of persuasion in seeking to rebut the fraud-on-the-market presumption. As such, the amicus briefs were submitted in support of the positions of the plaintiffs-appellees in the three appeals, which were primarily institutional investors and public pension funds. The Court of Appeals ruled in the three appeals consistent with the positions BR&B advocated in the amicus briefs.

Significant Recoveries in Securities Litigation

The Firm has achieved significant recoveries on behalf of class members, including institutional clients, in more than 50 cases since passage of the PSLRA, including the following:

- *In re WorldCom, Inc. Securities Litigation*, Master File No. 02 Civ. 3288 (DLC) (S.D.N.Y.). BR&B, as co-lead counsel for lead plaintiff the Comptroller of the State of New York, the sole Trustee for the New York State Common Retirement Fund ("NYSCRF"), negotiated **$6.19 billion** in settlements with defendants. The first of the settlements, in which Citigroup and its affiliates and its former analyst Jack Grubman agreed to pay $2.575 billion (adjusted), was approved by the Court in November 2004. An additional $3.428 billion in settlements with WorldCom's other investment bankers were reached in February and March 2005, during the final phases of trial preparation. Before trial, BR&B also participated with the NYSCRF in negotiating an historic settlement of the claims against WorldCom's outside directors, which included personal contributions of $4.5 million from WorldCom's former chairman, Bert Roberts, and $20.25 million from the other director defendants. Jury selection began on March 23, 2005, and BR&B participated with the NYSCRF in negotiating a $65 million cash settlement (plus certain contingent claims left open) with WorldCom's former auditor, Arthur Andersen, which settlement was reached in April 2005, after nearly five weeks of trial and on the eve of closing arguments. And there were also settlements with former WorldCom CEO Bernard Ebbers and CFO Scott Sullivan for $43.49 million, entered into just before they were sentenced in their criminal cases. The proceeds achieved through the settlements yielded approximately 70% and 58% of the recognized claim amounts for class members who purchased May 2001 and May 2000 WorldCom bonds, respectively, and approximately 5.8% for class members who purchased WorldCom stock and other bonds – amounts that appear to exceed recoveries obtained by most of the opt-out plaintiffs for comparable securities. And finally, a settlement with Arthur Andersen of the contingent claims was reached in September 2012, and approved by the Court in December 2012, for an additional $38 million for the Class.

- *In re Cendant Corporation Litigation*, Civil Action No. 98-1664 (WHW) (D.N.J.). BR&B, as co-lead counsel, represented co-lead plaintiffs NYSCRF and the California Public Employees Retirement System. This litigation was settled in March 2000 for **$3.18 billion** – which, at the time, was by far the largest recovery ever achieved in a class action under the securities laws. The settlements, consisting of $2.85 billion from Cendant and $335 million from Ernst & Young LLP, also included a contingent payment of one-half of the company's net recovery, if any, obtained on its claims against E&Y, which occurred in December 2008 when Cendant paid the class $132 million from the amount it received through a settlement of its claims against E&Y. Thus, the total recovery to the class was more than **$3.32 billion**. And finally, as part of the settlement with Cendant, the company agreed to significant corporate governance changes, many of which were later mandated by the Sarbanes-Oxley Act of 2002. The settlements were approved by the district court on August 15, 2000, and affirmed on appeal on August 28, 2001.

- *In re McKesson HBOC, Inc. Securities Litigation*, Master File No. CV-99-20743 RMW (N.D.Cal.). BR&B, as co-lead counsel, represented the NYSCRF as sole lead plaintiff. BR&B vigorously prosecuted the case against the company, its management, HBOC, Inc.'s former auditor, Arthur Andersen LLP, and Bear Stearns & Co., Inc., which had issued a fairness opinion in connection with the merger between McKesson and HBOC. After contentious motion practice and during discovery, BR&B participated with the NYSCRF in negotiating settlements totaling **$1.052 billion**, consisting of a $960 million settlement from the company approved by

the court in 2006, a $72.5 million cash settlement from Arthur Andersen (plus certain contingent claims left open) approved in 2007, and a $10 million settlement from Bear Stearns approved in 2008. The recovery is the largest securities fraud class action recovery in the Northern District of California. And, in November 2012, Arthur Andersen agreed to pay an additional $9.5 million to resolve the outstanding contingent claims. The court approved this additional settlement in February 2013.

- *In re American International Group, Inc. 2008 Securities Litigation*, Master File No. 08-CV-4772-LTS (S.D.N.Y.). BR&B served as a Lead Counsel on behalf of the court-appointed lead plaintiff, the State of Michigan Retirement Systems, as custodian of the Michigan Public School Employees' Retirement System, the State Employees' Retirement System, the Michigan State Police Retirement System, and the Michigan Judges Retirement System. The case, before the Honorable Laura Taylor Swain, alleged, among other things, that the defendants violated the federal securities laws by misrepresenting and concealing the full extent of American International Group, Inc.'s exposure to the U.S. subprime residential mortgage market. BR&B vigorously litigated the case for more than six years, completing all fact witness discovery and fully briefing lead plaintiff's motion for class certification, on which the Court thereafter held a three-day evidentiary hearing and oral argument. In July and August 2014, the lead plaintiff reached settlements with the various defendants totaling **$970.5 million** to resolve the case. The settlement was the result of negotiations spanning more than two years, assisted by mediator Layn Phillips, a former U.S. District Court Judge. The court granted final approval to the settlement on March 20, 2015, stating that it was an "outstanding result obtained on behalf of the Settlement Class" and a "very substantial" recovery in a highly complex case with such significant risks. The total settlement amount is among the largest recoveries in a securities fraud class action stemming from the 2008 financial crisis, and appears to be the largest recovery ever achieved in a securities class action where there was not also a criminal prosecution, SEC enforcement action, or a restatement of financial results.

- *In re Merrill Lynch & Co., Inc. Securities, Derivative & ERISA Litigation*, Master File No. 07-cv-9633 (LBS)(AJP)(DFE), pending before the Honorable Jed S. Rakoff in the Southern District of New York. BR&B, as co-lead counsel for sole lead plaintiff the State Teachers Retirement System of Ohio, negotiated a **$475 million** settlement with defendants in January 2009. The settlement was approved by the court in August 2009.

- *Pennsylvania Public School Employees' Retirement System v. Bank of America Corp., et al.*, Civil Action No. 1:11-cv-733-WHP, before the Honorable William H. Pauley, III, in the United States District Court for the Southern District of New York. BR&B, as sole lead counsel for the sole lead plaintiff, Pennsylvania Public School Employees' Retirement System ("PSERS"), prosecuted this securities fraud class action case for investors in Bank of America ("BAC") securities for false or misleading statements made to investors by BAC and its executives concerning, among other things, BAC's exposure to billions of dollars in repurchase claims stemming from mortgages securitized and sold into the marketplace as residential mortgage-backed securities. On September 23, 2011, PSERS filed a consolidated class action complaint on behalf of purchasers of BAC common stock and Common Equivalent Securities during the period from February 27, 2009 through October 19, 2010. After full briefing by the

parties, the court denied the motions to dismiss in 2012, and thereafter denied motions for reconsideration filed by certain of the defendants. In February 2014, the court certified the class as sought by the lead plaintiff. The case progressed through extensive discovery, which involved the production and review of tens of millions of pages of BAC documents, as well as documents from certain non-parties, and more than 30 fact witness depositions. In mid-2015, after a series of mediation sessions supervised by former U.S. District Judge Layn Phillips, the parties agreed to the **$335 million** settlement. The settlement was approved by the court in December 2016.

- *In re DaimlerChrysler AG Securities Litigation*, Master File No. 00-993 (JJF) (D.Del.). BR&B, as co-lead counsel for institutional investors the Denver Employees Retirement Plan, the PABF, and the Municipal Employees Annuity and Benefit Fund of Chicago, negotiated in October 2003, a **$300 million** settlement of this case involving the purported "merger of equals" between Daimler Benz and Chrysler Corporation. The settlement, which was approved by the court in February 2004, was reached after extensive discovery in the United States and Europe, and during the pendency of one of defendants' numerous motions for summary judgment. Based on the amount recovered and the plan of allocation approved by the court, the recovery appears to have been approximately 10% of recognized claim amounts for class members who purchased DaimlerChrysler stock on the open market and filed claims, and 30% for class members who exchanged Chrysler stock for DaimlerChrysler stock and filed claims.

- *In re 3Com Securities Litigation*, Master File No. C 97-21083-EAI (N.D. Cal.). This case, in which BR&B represented a lead plaintiff group of individual investors, involved discovery taken throughout the United States and in Europe with respect to 3Com and its outside auditing firm. A settlement in the amount of **$259 million** was reached at the end of the discovery process, and was approved by the court in February 2001.

- *In re The Mills Corporation Securities Litigation*, Civil Action No. 1:06-cv-00077 (LO/TRJ), before the Honorable Liam O'Grady, in the Eastern District of Virginia. BR&B, as co-lead counsel and counsel for co-lead plaintiff the Iowa Public Employees Retirement System ("IPERS"), negotiated settlements totaling **$202.75 million** with the defendant real estate investment trust corporation, for a release of claims against itself and its former officers, directors and underwriters ($165 million plus interest), with Mills' former auditor, Ernst & Young ($29.75 million), and with a foreign real estate development company ($8 million). In approving the settlement, Judge O'Grady noted that lead counsel were "very experienced and skilled in the field of securities litigation and achieved here a very favorable result for the Class."

- *In re Schering-Plough Securities Litigation*, Master File No. 01-CV-0829 (KSH/RJH), before the Honorable Katherine Hayden in the District of New Jersey. BR&B, as lead counsel for lead plaintiff the Florida State Board of Administration, negotiated a **$165 million** settlement after 8 years of hard-fought litigation. The settlement, approved in December 2009, was described by the Court as the product of "hard work and good judgment in ultimately achieving a negotiated resolution of substantial value to the class."

- *In re Apollo Group, Inc. Securities Litigation*, Master File No. CV 04-2147-PHX-JAT, before the Honorable James A. Teilborg in the District of Arizona. BR&B, as lead counsel for sole lead plaintiff the Policemen's Annuity and Benefit Fund of Chicago ("PABF"), conducted a two month trial which resulted in a unanimous jury verdict in January 2008 for the lead plaintiff and investor class for the full amount of price inflation per share that the lead plaintiff had requested. Although the district court judge entered a judgment for defendants notwithstanding the verdict on loss causation grounds, on June 23, 2010, the Ninth Circuit overturned the judgment and reinstated the jury verdict in favor of plaintiffs and the investor class. The decision of the Court of Appeals to reinstate the plaintiffs' jury verdict appears to be the only time such an appellate decision has been made since passage of the PSLRA. On March 7, 2011, the U.S. Supreme Court denied defendants' petition for certiorari, thereby allowing the Ninth Circuit's decision to stand and for the district court to enter judgment in favor of the plaintiff class. In August 2011, an agreement in principle was reached regarding claims administration, and the defendants made a cash payment of **$145 million** to be distributed to injured investors. On April 20, 2012, the court granted final approval of the case resolution.

- *In re Sunbeam Securities Litigation*, Case No. 98-8258-Civ-Middlebrooks (S.D. Fla.). BR&B represented a lead plaintiff group that included the CWA/ITU Negotiated Pension Plan in this litigation, which could not be prosecuted against Sunbeam itself due to its bankruptcy filing. This case resulted in settlements in 2002 totaling more than $140 million from Arthur Andersen LLP, Albert J. Dunlap, Russell Kersh and one of the Company's insurers. The settlement included a record breaking **$110 million** settlement with Arthur Andersen and one of the largest individual securities settlements ($15 million) from the company's former chief executive officer, "Chainsaw" Al Dunlap.

- *In re Informix Corporation Securities Litigation*, Civil Action No. C-97-1289 (N.D. Cal.). This case, in which BR&B represented a lead plaintiff group of individual investors, was resolved during the discovery process by a settlement in 1999 valued at **$132 million**, consisting of $98 million from the Company and its insurance carriers and $34 million from the company's outside accounting firm.

- *Michael Rubin v. M.F. Global Ltd.*, Case No. 08cv2233 (VM), before the Honorable Victor Marrero in the Southern District of New York. BR&B, as co-lead counsel and counsel for co-lead plaintiffs IPERS and the PABF, negotiated a **$90 million** settlement after the Second Circuit Court of Appeals reversed the trial court's dismissal of the complaint. The court granted final approval to the settlement in November 2011.

- *In re R&G Financial Corporation, et al.*, Civil Action No. 1:05cv04186 (JES), before the Honorable John E. Sprizzo in the Southern District of New York. BR&B, as co-lead counsel for co-lead plaintiff the City of Philadelphia Board of Pensions and Retirement, negotiated a **$51 million** settlement with defendants in May 2008. The settlement was approved by the court in October 2008.

- *In re DFC Global Corp. Securities Litigation*, Civil Action No. 2:13-cv-06731-BMS, before the Honorable Berle M. Schiller, in the United States District Court for the Eastern District

of Pennsylvania. BR&B as co-lead counsel, on behalf of co-lead plaintiffs the Macomb County Employees' Retirement System and Laborers' District Council and Contractors' Pension Fund of Ohio, negotiated a **$30 million** settlement of the litigation after defendants' motions to dismiss were denied and the lead plaintiffs' motion for class certification was granted, and while discovery was ongoing. The settlement was approved by the Court on September 20, 2017.

- *In re Bridgestone Securities Litigation*, Master File No. 3:01-0017, pending before the Honorable Robert L. Echols in the Middle District of Tennessee. BR&B, as co-lead counsel, represented intervening plaintiff IPERS. BR&B, as co-lead counsel for the original lead plaintiff, vigorously opposed the motion to dismiss filed by defendants. This case was dismissed in 2002, which dismissal was reversed by the United States Court of Appeals for the Sixth Circuit in 2004. IPERS intervened in the litigation after the appellate court decision and BR&B, on its behalf, engaged in extensive discovery. At the end of 2008, the parties reached a **$30 million** settlement of this litigation, during the pendency of both a renewed motion to dismiss and the motion for class certification. The settlement was approved by the court in January 2009.

- *In re Applied Micro Circuits Corp. Securities Litigation*, Civil Action No. 01-cv-0649-K (AJB) (S.D.Cal.). BR&B, as sole lead counsel for lead plaintiff the Florida State Board of Administration, negotiated a **$60 million** settlement in 2005. The settlement was reached in this vigorously litigated case after extensive discovery and contentious motion practice. Final approval of the settlement occurred on June 17, 2005.

- *Stanley, et al. v. Safeskin Corp.*, Lead Case No. 99cv0454-BTM (LSP) (S.D. Cal.). This case, in which BR&B represented an institutional investor, was resolved for **$55 million** after discovery was complete and while summary judgment motions were pending. The settlement was approved by the court on March 20, 2003.

- *In re: 1996 Medaphis Corporation Securities Litigation*, Civil Action No. 1:96-CV-2088-TWT (N.D. Ga.). This case – one of the first prosecuted on behalf of a class of purchasers by a state retirement fund as lead plaintiff, the Pennsylvania Public School Employees Retirement System ("PSERS") – was filed in August 1996, and resolved in December 1997 during the discovery process by a settlement valued at **$72.5 million**, consisting of $20 million in cash and Medaphis securities valued at $52.5 million.

- *Payne, et al. v. MicroWarehouse, Inc.*, et al., Case No. 3:96:-CV-1920 (DJS) (D. Conn.). This case, which was prosecuted on behalf of the class with PSERS as lead plaintiff, was filed in the District of Connecticut on October 1, 1996. In 1998, the MicroWarehouse defendants and KPMG Peat Marwick, the company's outside accounting firm, agreed to settle the case for **$30 million** in cash, one of the largest in the District of Connecticut.

- *In re Theragenics Corp. Securities Litigation*, Civil Action No. 1:99-cv-0141 (N.D.Ga.). BR&B acted as co-lead counsel for a group of investors in this litigation, which was settled in July 2004 for **$10 million** after extensive discovery and during the pendency of defendants' summary judgment motion.

- *In re HI/FN, Inc. Securities Litigation*, Master File No. C-99-4531-SI (N.D.Cal.). BR&B acted as co-lead counsel for a group of investors in this litigation, which was settled in May 2002, during the discovery process for **$9.5 million**, consisting of $6.8 million in cash and 270,000 shares of Hi/fn common stock valued at $2.7 million.

- *In re PeopleSoft, Inc. Securities Litigation*, Master File No. C-99-0472-WHA(JL) (N.D.Cal.) BR&B acted as co-lead counsel for a group of investors in this litigation, which was settled for **$15 million** in May 2001, during the discovery process.

- *In re Envoy Corporation Securities Litigation*, Case No. 3:98-0760 (M.D. Tenn.). This litigation, in which BR&B was co-lead counsel for a group of individual investors, was settled in September 2003, for **$11 million**, during the pendency of defendants' motions for summary judgment.

- *In re Silicon Graphics, Inc. II Securities Litigation*, Master File No. C-97-4362-SI (N.D.Cal.). This litigation, in which BR&B represented a lead plaintiff group of individual investors, was resolved in 2001 during the discovery process for **$12 million**, consisting of $4 million in cash and 8 million shares of Silicon Graphics common stock, valued at approximately $8 million.

- *In re Green Tree Financial Corporation Stock Litigation*, Master File No. 97-2666 (JRT/RLE) (D. Minn.). This case, in which BR&B represented a lead plaintiff group of individual investors, was resolved with its related options case in 2003 during the discovery process for **$12.45 million**.

- *Sherman Steele et al., v. Electronics for Imaging, Inc.*, Lead Case No. 403099 (Cal. Super. Ct., San Mateo Cty.). BR&B acted as co-lead counsel for a group of investors in this California state court case for violations of the California Corporations Code. This litigation settled in July 2002 for **$8 million**.

- *Robert K. Bell, et al., v. Fore Systems, Inc.*, Consolidated Civil Action No. 97-1265 (W.D. Pa.). BR&B acted as co-lead counsel for a group of investors in this litigation which was settled for **$11.7 million** in September 2003, during the discovery phase of the litigation.

Significant Recoveries and Corporate Governance Achieved in Other Shareholder Litigation

The Firm has also achieved significant recoveries as well as highly valuable corporate governance reforms through other shareholder litigation, including the following:

- *In re Pepsi Bottling Group Shareholder Litigation,* C.A. No. 4526-VCS, before the Honorable Leo A. Strine in the Delaware Court of Chancery. BR&B, as co-lead counsel, represented IBEW Local 98 and the class in this class action contesting the proposed

acquisition of Pepsi Bottling Group ("PBG") by PepsiCo. After significant litigation and through negotiations of special committees, PepsiCo agreed to a significantly higher acquisition price that provided PBG shareholders as a group with **$1.022 billion** more in value, and other terms including deletion of cross-conditionality provision for related deals, reductions in the merger agreement' termination fees and termination tail periods, and additional disclosures in the final proxy statement. At the final settlement hearing in June 2010, the court credited the litigation brought by the plaintiffs and their counsel as a causal factor in prompting PepsiCo to make fuller offers for PBG and a related PepsiCo bottling company, and approved the settlement.

- *In re Nationwide Financial Services Litigation*, Case No. 2:08-CV-00249, before the Honorable H. Michael Watson, in the U.S. District Court for the Southern District of Ohio. BR&B, as co-lead counsel, represented lead plaintiff the International Brotherhood of Electrical Workers Local 98 Pension Fund in this class action litigation contesting the buy-out of Nationwide Financial Services, Inc. by its majority owner Nationwide Mutual Insurance Company and certain affiliates in 2008. After extensive negotiations, Nationwide Mutual agreed to increase its tender offer price from its initial offer of $47.20 per share to the final price of $52.25 per share, a benefit to the class of approximately **$232.8 million** (a 10.7% increase), and further agreed to additional disclosures in the final proxy statement that the Court found provided the class "with material information about NFS's financial projections and valuation, as well as additional details of the merger process, …, all of which enabled Class members to make a more informed decision about whether they were receiving fair value for their shares." In assessing the settlement, the Court agreed with lead plaintiffs that it represented an "excellent result for the Class" and found that the "quality and skill in the work performed by Plaintiffs' Counsel is evident through the significant economic and non-economic recovery achieved in this Action."

- *Dennis Rice v. Lafarge North America, Inc., et al.*, Civil No. 268974-V, before the Honorable Michael D. Mason in the Circuit Court for Montgomery County, Maryland. BR&B, as co-lead counsel, represented lead plaintiff the City of Philadelphia Board of Pensions and Retirement in this class action litigation contesting the buy-out of Lafarge North America by majority owner Lafarge S.A in 2006. After extensive discovery and injunction practice, Lafarge SA agreed to increase its tender offer price from its initial offer of $75 per share to the final price of $85.50, a benefit to the class of approximately **$388 million**.

- *In re Chiron Shareholder Deal Litigation*, Case No. RG 05-230567, before the Honorable Robert B. Freedman in the California Superior Court for Alameda County. BR&B, as lead counsel, represented an individual investor and the class in this class action litigation contesting the proposed acquisition of Chiron Corp. by Novartis AG in 2005. After extensive discovery and injunction practice, Novartis agreed to increase the offering price from its initial offer of $40 per share to the final price of $48, a benefit to the class of approximately **$880 million**.

- *In re Cheniere Energy, Inc. Stockholders Litigation*, Consolidated C.A. No. 9710-VCL, before Vice Chancellor J. Travis Laster in the Delaware Chancery Court, provides another example of the Firm's ability to obtain corporate governance remedies and recoveries of assets.

In 2015, BR&B achieved a settlement of lawsuits initiated by BR&B on behalf of investors against Cheniere's CEO, certain other senior executives, and the members of Cheniere's board of directors alleging that Cheniere's management team and board breached the terms of the company's bylaws as well as their fiduciary duties to the company and its shareholders with respect to stock awards made in 2013. The lawsuits also challenged the board's plan to seek stockholder authorization at a June 12, 2014 Annual Stockholder Meeting to place an additional 30 million shares within the share reserve of the company's long-term stock incentive plan so that the board would have those shares available to grant to company insiders from 2014 through 2018. Upon BR&B's filing of the initial complaint, Cheniere postponed the Annual Stockholder Meeting for three months, and thereafter took off the agenda for the Meeting the proposal to add another 30 million shares to the stock incentive plan's share reserve. The settlement negotiated with defendants, following oral argument on motions to dismiss the action, among other things: (a) invalidated the board's ability to issue to company insiders 7.845 million shares of stock that the company claimed had been validly set aside for compensation purposes based on a prior stockholder vote, **which shares had a market price-based value at the time of the settlement of approximately $565 million**; (b) provided that the 7.845 million shares could be used for compensation purposes only if the company scheduled a new vote and obtained stockholder authorization pursuant to a voting standard in line with the default provision of Delaware law, a so-called "present and entitled to vote" standard under which abstentions are counted as "no" votes; and (c) prohibited the company from granting to company insiders or seeking stockholder approval for any further stock-based compensation to company insiders until January 1, 2017. The settlement was approved by the Delaware Chancery Court on March 16, 2015. Notably, the company never sought a new vote concerning the 7.845 million shares that were invalidated through the litigation settlement.

- *Government Employees' Retirement System of the Virgin Islands v. Michael D. Higgins, et al.,* Civil Action No. 11-01993 (Ct. Comm. Pleas, Chester Cty., PA). In this case, before the Honorable Robert J. Shenkin in the Court of Common Pleas in Chester County, Pennsylvania, BR&B was retained by the Government Employees' Retirement System of the Virgin Islands to bring a shareholder derivative action on behalf of Synthes, Inc., a medical device company headquartered in Pennsylvania. The case arose from the indictment of several company executives for illegal "off label" promotion of a bone cement product. The case was settled on the basis of significant corporate governance and compliance reforms that Synthes agreed to undertake. These included: the elimination of staggered board terms for the board of directors; the establishment of a nominating committee of the board comprised solely of independent directors; the adoption of a by-law provision prohibiting the chairman of the board from also being the CEO; the appointment of a chief compliance officer reporting directly to the board of directors; the establishment of a compliance committee consisting of most of the company's senior management; and policies strictly forbidding the off-label promotion of the company's products.

- *K12, Inc.*: BR&B achieved significant corporate governance remedies on behalf of shareholders of K12 Inc. In October 2012, the Firm, on behalf of its client Oakland County Employees' Retirement System, demanded the inspection of certain K12 books and records pursuant to Section 220 of the Delaware General Corporation Law. The purpose of the

requested inspection was to investigate possible mismanagement and breach of fiduciary duties by the Company's officers and directors in connection with student enrollment, retention, teacher qualifications and certification, and K12's reported revenues. Following a mediation that also included stockholders who had filed a derivative case against K12 and stockholders who had made a demand upon the Board of K12, all plaintiffs and the individual K12 defendants entered into a settlement agreement that provided for significant corporate governances changes at K12. BR&B sought these corporate governance reforms to remedy alleged deceptive recruiting, sales practices, and strategies at K12 designed to illegally increase enrollment. Among other corporate governance reforms, the Board agreed to approve a Legal and Ethics Compliance Program to prevent misconduct and detect potential violations of applicable law, regulations and Company policies. To implement these changes, K12's charter was to provide for a management-level Compliance Committee that will report to the Audit Committee. In addition, this Committee was to establish a Chief School Compliance Officer who will report to the General Counsel and will have the responsibility to review all existing policies, practices, and procedures pertaining to applicable education laws, rules and regulations to ensure the Company's compliance. Other corporate governance reforms included (1) the retention of a subject matter consultant to deliver a "boot camp" training program to all members of senior management regarding SEC disclosure and compliance regulations; and (2) the establishment of an employee hotline for K12 employees to report violations of policies, procedures or ethical violations. The settlement agreement was approved in November 2013. *Staal v. Tisch, et al.*, 12-cv-00365-SLR (D. Del.).

- *In Re Barnes & Noble Stockholder Derivative Litigation*, C.A. No. 4813-CS (Del. Chancery Ct.), before the Honorable Leo E. Strine, Jr. in the Delaware Court of Chancery. BRB served as co-lead counsel in this derivative action challenging the corporation's overpayment for an asset owned by its controlling stockholder. After extensive litigation, an eve-of-trial settlement providing a reduction in the purchase price of the asset of **$29 million** was achieved. The settlement was approved on September 4, 2012.

- *Edward J. Goodman Life Income Trust v. Huang, et al*., No. 4:06-cv-06110 (N.D. Cal.). BR&B served as a co-lead counsel in this consolidated derivative action relating to a stock options backdating scheme that benefited Nvidia Corp. executives and board members at the expense of the company and its public shareholders. The plaintiffs alleged that beginning when Nvidia became a public company and moving forward, certain executives had engaged "in a secret scheme to grant undisclosed, in-the-money stock options to themselves and others by backdating stock option grants to coincide with historically low prices for Nvidia's common stock." After consulting with the plaintiffs and other influential institutional investors, the Firm and our co-counsel negotiated a historic settlement that achieved not only a direct economic benefit to the Company, with an aggregate value of $15.8 million, but also significant corporate governance measures that included: (1) board members would be limited to service on the board of directors of no more than four publicly traded companies; (2) at least three-quarters of board members were required to be independent; (3) board members would receive at least 50% of their annual compensation through common stock payments; (4) a required series of director education programs; (5) annual election of a lead independent director with various responsibilities set forth in the settlement agreement; (6) the lead independent director would

contact the five largest shareholders, offering to meet with them to discuss matters of importance to such shareholders, including but not limited to board composition and other corporate governance matters; and (7) certain compensation practice reforms, including but not limited to changes in the company's stock option plans and granting practices.

- *Resnick v. Occidental Petroleum, et al.*, Case No. 10-cv-00390 (D. Del.). BR&B led this corporate governance case before the Honorable Robert Kelly, in which the Firm successfully advocated for corporate governance and excessive executive compensation reforms through shareholder rights claims asserted in direct and derivative claims alleging that the company's directors had breached fiduciary and other legal duties. The litigation resulted in corporate therapeutics and benefits that were described by the Court as "meaningful change" to the company's executive compensation and reporting policies and practices that "affords valuable consideration to Occidental and its shareholders."

- *Herbert Resnik v. Patricia A. Woertz, et al. (Archer-Daniels-Midland Company),* Civil Action No. 1:10-cv-00527-GMS (D. Del.). In this action, before Chief Judge Gregory M. Sleet, BR&B alleged that ADM's 2009 Incentive Compensation Plan failed to comply with S.E.C. regulations and the Internal Revenue Code by failing to disclose the consultants and advisors eligible for compensation under it and by dramatically increasing the maximum awards participants could receive. Through a settlement, ADM agreed to make all necessary curative disclosures and to take steps to ensure the violations would not continue in the future, including that ADM's Compensation and Succession Committee, or a properly delegated subcommittee or officer, would be charged with adhering strictly to Delaware's law regarding awards of equity compensation.

Significant Recoveries in Antitrust Litigation

The Firm has achieved significant recoveries on behalf of class members in antitrust cases, including the following:

- *In re Urethane Antitrust Litigation*, 2:04-md-01616-JWL (D. Kan.). After nearly nine years of litigation and four weeks of trial, the Jury reached a verdict for plaintiffs in excess of $400 million (before trebling) against defendant Dow Chemical Company, and the District Court entered a Judgment of $1.06 billion, which was upheld on appeal by the Tenth Circuit Court of Appeals. While on appeal to the U.S. Supreme Court, the case against Dow settled for **$835 million**, which was in addition to earlier settlements reached with other defendants. BR&B served as a member of the trial team for the case.

- *In re Vitamins Antitrust Litigation*, MDL No. 1285 (D.D.C.). In this highly complex litigation, plaintiffs achieved settlements **in excess of $1 billion**. BR&B served as a member of the executive committee.

- *In re Citric Acid Antitrust Litigation*, Master File No. 95-2963 (N.D. Cal.). After five years of litigation, plaintiffs achieved settlements totaling **over $80 million**. BR&B served as co-lead counsel.

- *In re Graphite Electrodes Antitrust Litigation*, Master File No. 97-CV-4182 (CRW) (E.D. Pa.). After six years of litigation, plaintiffs achieved settlements totaling **over $133 million**. BR&B served as co-lead counsel.

- *In re Automotive Refinishing Paint Antitrust Litigation*, MDL No. 1426 (E.D. Pa.). After five years of litigation, plaintiffs achieved settlements totaling **over $105 million**. See 617 F. Supp.2d 336 (E.D. Pa. 2007). BR&B served as co-lead counsel.

- *In re Sorbates Antitrust Litigation,* No. C 98-4886 (N.D. Cal.). After four years of litigation, plaintiffs achieved settlements in the total amount of **$96.5 million**. BR&B served as co-lead counsel.

- *Thomas & Thomas Rodmakers, Inc., et al. v. Newport Adhesives and Composites, et al.*, No. CV-99-07796 FMC (RNBx) (C.D. Cal.) (Carbon Fiber Antitrust Litigation). Plaintiffs achieved settlements totaling **$67.5 million**. BR&B served as co-lead counsel.

- *In re Polypropylene Carpet Antitrust Litigation*, MDL No. 1075 (N.D. Ga.). After five years of litigation, plaintiffs achieved a recovery of **nearly $50 million**. See 93 F. Supp. 2d 1348 (N.D. Ga. 2000). BR&B served as co-lead counsel.

- *In re Flat Glass Antitrust Litigation*, MDL No. 1200 (W.D. Pa.). After more than seven years of litigation, plaintiffs were successful in maintaining the case on appeal, see 385 F.3d 350 (3d Cir. 2004), and achieved total recoveries of **more than $120 million**. BR&B served as co-lead counsel.

Significant Recoveries in Consumer Cases

The Firm has also achieved significant recoveries on behalf of class members in consumer cases, including the following:

- "Senior Annuity" cases in which BR&B served as a co-lead counsel or participated in the prosecution group, which achieved settlements valued in the aggregate **between $552 million and $1.273 billion**, after asserting claims against insurance companies under consumer protection and elder abuse statutes and the Racketeer Influenced and Corrupt Organizations Act, including the following:

  - *Negrete. et al. v. Allianz Life Insurance Company of North America*, Case No. 05-cv-06838-CAS-MAN (C.D. Cal.), resulted in a claims-made settlement valued between $251 million and $971 million;

  - *In re American Equity Annuity Practices and Sales Litigation*, Case No. 2:05-cv-06735-CAS-MAN (C.D. Cal.), resulted in a settlement valued at approximately $129 million;

  - *Rand v. American National Insurance Co*., Case No. 3:09-cv-0639-WDB (N.D. Cal.), resulted in a settlement valued at more than $9 million;

- *Negrete, et al. v. Fidelity and Guaranty Life Insurance* Company, Case No. 2:05-cv-06837-CAS-MAN (C.D. Cal), resulted in a settlement valued at approximately $52.7 million;

- *Meadows v. Jackson National Life Insurance Co*., Case No. 4:12-cv-1380-CW (N.D. Cal), resulted in a settlement valued at more than $11.2 million;

- *Midland National Life Insurance Co Annuity Sales Practices Litigation*, Case No. 2:07-ml-01825-CAS-MAN (C.D. Cal.), resulted in a settlement valued at $79.5 million; and

- *In re National Western Life Insurance Deferred Annuities Litigation*, Case No. 05-cv-1018-AJB (WVG), resulted in a settlement valued at more than $21 million.

➢ *Rieff v. Evans* (Allied Mutual Insurance Company Demutualization Litigation), Civil Action No. CE 35780 (Polk Cty., Iowa, District Ct.). BR&B, as co-lead counsel for a class of individual mutual insurance company policyholders (as owners of the mutual, similar to shareholder-owners of a stock company), brought an action against management for, inter alia, conversion of the value of their ownership interests in the mutual under a theory of de facto demutualization. The Iowa Supreme Court upheld the plaintiffs' theory in *Rieff v. Evans*¸ 630 N.W.2d 278 (Iowa 2001), and the case was subsequently resolved for **approximately $130 million**.

➢ *Hernandez, et al. v. Google, Inc., et al.,* Case No. 1-15-CV-280601 (Santa Clara Cty., California, Superior Ct.), before the Honorable Brian C. Walsh. BR&B, on behalf of the plaintiffs and similarly situated purchasers of gift cards issued by Google, Inc. for use in its Google Play Store, prosecuted this action to require defendants to abide by California law with regard to gift cards with less than a $10.00 balance on them. Pursuant to the settlement reached in the case, which is pending final approval, Google agreed to comply with California law, which requires sellers to refund gift card balances of less than $10.00 upon request. In addition, Google agreed to (1) provide refunds to all Google Play users who had previously requested, but were denied, such refunds; (2) provide additional training regarding the refund requirements to its customer service representatives; and (3) provide notice of the availability of refunds on its website. Notably, after the filing of the lawsuit, Google revised its payment system, allowing gift card users to combine their gift cards with other forms of payment. The changes adopted by Google pursuant to the settlement are ongoing, providing benefit to millions of Google Play gift card users.

➢ *Gutierrez v. Charles J. Givens Organization, et al.*, Case No. 667169 (San Diego Cty., California, Superior Court). BR&B, on behalf of the plaintiff and similarly situated class members, achieved a jury verdict in **excess of $14 million** for the benefit if the plaintiff consumer class.

➢ In litigation involving the Harleysville Mutual insurance company in the Court of Common Pleas of Philadelphia County, Pennsylvania, BR&B served as co-lead counsel representing policyholders of Harleysville Mutual challenging Nationwide Mutual Insurance

Company's 2011 attempt to acquire Harleysville Mutual without providing any compensation to its mutual policyholders, even though it agreed to pay $60 per share to acquire the shares of Harleysville's stock subsidiary. As a result of the plaintiffs' persistent litigation efforts, including expedited discovery and motion practice, in 2012 defendants agreed to pay **$26 million** in compensation for the benefit of Harleysville's mutual policyholders.

- BR&B also successfully litigated an insurance-related takeover matter for the New York Liquidation Bureau ("NYLB"). The NYLB, an arm of the Department of Financial Services of the State of New York (formerly the Department of Insurance), selected BR&B (following a competitive process in 2012) to serve as lead trial counsel in an major piece of litigation then pending in the New York Supreme Court against predecessor banks of J.P. Morgan Chase and Bank of America. The suit, filed in 2000, charged those banks with wrongfully obtaining $13 million from a New York-domiciled insurer, United Community Insurance Company ("UCIC"), to pay off debts that UCIC's principals owed the banks. In the lawsuit, NYLB alleged that this transfer constituted a violation of the New York fraudulent conveyance statute because, at the time the funds were transferred, UCIC was insolvent, or was rendered insolvent by the transfer, and UCIC did not receive reasonably equivalent value in exchange for the $13 million. In assuming responsibility for that litigation, BR&B reviewed the results of 12 years of discovery and motion practice, engaged in additional fact and expert discovery in preparing the case for trial, and ultimately obtained a favorable settlement of the case for the NYLB.

Significant Legal Authority

The Firm has been responsible for establishing significant legal authority in the securities litigation field in many cases, including the following:

- *Blackie v. Barrack,* 524 F.2d 891 (9th Cir. 1975) (establishing the standards for class actions in securities cases).

- *In re WorldCom, Inc. Securities Litigation:* Throughout the litigation, the court issued dozens of decisions including the following significant reported decisions: 234 F.Supp.2d 301 (S.D.N.Y. 2002) (granting discovery motion prior to motions to dismiss); 294 F.Supp.2d 392 (S.D.N.Y. 2003) (denying in major part the defendants' motions to dismiss); 219 F.R.D. 267 (S.D.N.Y. 2003) (granting plaintiffs' motion for class certification); 2004 WL 2591402 (S.D.N.Y. Nov. 12, 2004) (approving settlement with Citigroup defendants and proposed plan of allocation); 2005 WL 638268 (S.D.N.Y. Mar. 21, 2005) (denying director defendant's summary judgment motion); 346 F.Supp.2d 628 (S.D.N.Y. 2004) (denying the underwriter defendants' motion for summary judgment, and granting in part lead plaintiff's motion for summary judgment, and setting the standard for underwriters in order to comply with their due diligence obligations under the Securities Act); 352 F.Supp.2d 472 (S.D.N.Y. 2005) (denying auditor's motion for summary judgment and setting the standard for outside auditors in conducting audits and issuing audit opinions for financial statements); 2005 WL 375313 (S.D.N.Y. Feb. 17, 2005) (granting in part and denying in part auditor's motions in limine, including denial of motion to exclude introduction of the WorldCom restatement at trial); 2005 WL 375314 (S.D.N.Y. Feb. 17,

2005) (denying in major part underwriter defendants' motions in limine, including denial of motion to exclude plaintiffs from presenting aggregate damages evidence); 2005 WL 375315 (S.D.N.Y. Feb. 17, 2005) (denying underwriter defendants' motion to separate trial into three phases, and granting lead plaintiff's motion to exclude evidence relating to individual plaintiffs from trial of the class claims); 2005 WL 627698 (S.D.N.Y. Mar. 16, 2005) (allowing lead plaintiff's accounting and auditing expert to rely on reports issued by the WorldCom Audit Committee and the WorldCom Bankruptcy Examiner in formulating expert opinions); 2005 WL 638268 (S.D.N.Y. Mar. 21 2005) (denying director defendant's summary judgment motion and setting the standard for directors of public companies); 2005 WL 2319118 (S.D.N.Y., Sept. 21, 2005) (approving settlements with all remaining defendants and supplemental plan of allocation); and 366 F.3d 70 (2d Cir. 2004) (granting in part appeals from class certification ruling prior to withdrawal of appeal).

- *Employees' Retirement System of Government of the Virgin Islands v. Blanford*, 794 F.3d 297 (2d Cir. 2015) (reversing dismissal of complaint and setting important precedent in rulings that: (1) rather than being exculpatory, the executives' adoption of a pre-determined 10b5-1 trading plan during the class period could support an inference of their scienter; and (2) efforts to hide inventory from auditors may indicate scienter).

- *Iowa Public Employees' Retirement System v. MF Global, Ltd., 620* F3d. 137 (2d Cir. 2010) (reversing dismissal of complaint).

- *In re Apollo Group, Inc. Securities Litigation*, 2010 WL 5927988 (9th Cir. June 23, 2010), *cert. denied,* 562 U.S. 1270 (2011) (reversing judgment notwithstanding the verdict on loss causation grounds, and reinstating jury verdict).

- *Becker v. BNY Mellon Trust Co., N.A.,* 172 F. Supp. 3d 777 (E.D. Pa. 2016) (denying motion for summary judgment); 2016 WL 6397415 (E.D. Pa. October 28, 2016) (reconsideration denied); 2016 WL5816075 (E.D. Pa. October 5, 2016) (granting class certification).

- *Pennsylvania Public School Employees' Retirement System v. Bank of America Corp.*, 874 F.Supp.2d 341 (S.D.N.Y. 2012) (denying motion to dismiss complaint); 2013 WL 1664696 (S.D.N.Y., April 17, 2013) (denying motion to dismiss amended complaint).

- *In re American International Group, Inc. 2008 Securities Litigation*, 741 F.Supp.2d 511 (S.D.N.Y. 2010) (denying all motions to dismiss complaint).

- *In re OmniVision Technologies, Inc. Securities Litigation*, 2013 WL 1334250 (N.D.Cal., March 29, 2013) (denying motion to dismiss complaint).

- *Herbert Resnik v. Patricia A. Woertz, et al. (Archer-Daniels-Midland Derivative Litigation)*, 2011 U.S. Dist. LEXIS 31868 (D. Del. March 28, 2011) (denying motion to dismiss derivative complaint).

- *Arkansas Teachers Retirement System v. Caiafa (Countrywide Financial Corp./Bank of America Merger Litigation),* 996 A.2d 321 (Del. 2010) (approving settlement and establishing potential basis for challenging mergers).

- *In re Cendant Corp. Securities Litigation*: Throughout the course of the litigation, the court issued several important decisions including the following reported decisions: 182 F.R.D. 144 (D.N.J. 1998); 191 F.R.D. 387 (D.N.J. 1998); 182 F.R.D. 476 (D.N.J. 1998); 60 F.Supp.2d 354 ((D.N.J. 1999); 2000 WL 1288307 (D.N.J., April 7, 2000); 194 F.R.D. 158 (D.N.J. 2000); 109 F.Supp.2d 235 (D.N.J. 2000); 109 F.Supp.2d 273 (D.N.J. 2000); 109 F.Supp.2d 285 (D.N.J. 2000); 243 F.Supp.2d 166 (D.N.J. 2003); 264 F.3d 201 (3rd Cir. 2001); 264 F.3d 286 (3d Cir. 2001); 404 F.3d 173 (3rd Cir. 2005).

- *In re McKesson HBOC, Inc. Securities Litigation*: Throughout the course of the litigation, the court issued several important decisions including the following reported decisions: 79 F.Supp.2d 1146 (N.D. Cal. 1999); 97 F.Supp.2d 993 (N.D. Cal. 1999); 126 F.Supp.2d 1239 (N.D. Cal. 2000); 2000 WL 34016195 (9th Cir. 2000); 126 F.Supp.2d 1248 (N.D. Cal. 2000); 339 F.3d 1087 (9th Cir. 2003) (9th Circuit affirmed the dismissal of a complaint brought by McKesson against lead plaintiff the New York State Common Retirement Fund, which sought to hold the NYSCRF and innocent class members responsible for damages allegedly suffered by the McKesson defendants); 2005 WL 946456 (N.D. Cal., March 31, 2005); 2005 WL 946455 (N.D. Cal., March 31, 2005); 2005 WL 934331 (N.D. Cal., March 31, 2005).

- *In re DaimlerChrysler AG Securities Litigation:* Throughout the course of the litigation, the court issued several important decisions including the following reported decisions: 197 F.Supp.2d 42 (D. Del. 2002); 197 F.Supp.2d 86 (D. Del. 2002); 200 F.Supp.2d 439 (D. Del. 2002); 247 F.Supp.2d 579 (D. Del. 2003); 216 F.R.D. 291 (D. Del. 2003), as amended by 2003 U.S.Dist. LEXIS 10849 (D. Del. June 19, 2003); 216 F.R.D. 395 (E.D. Mich. 2003); 269 F.Supp.2d 508 (D. Del. 2003).

Attorney Resumes

Leonard Barrack, senior partner in Barrack, Rodos & Bacine, is a graduate of Temple University Law School (J.D. 1968) where he was Editor in Chief of the Temple Law Reporter. Mr. Barrack has been practicing in the area of securities class and derivative actions, and corporate litigation generally, for more than 40 years, during which time he has analyzed laws and provided advice on issues relevant to pension fund boards of trustees. He was admitted to the bar of the Supreme Court of Pennsylvania in 1969, and is also a member of the bars of the United States Supreme Court, the United States Courts of Appeals for the First, Third, Eighth and Tenth Circuits, and the United States District Court for the Eastern District of Pennsylvania. Mr. Barrack can be reached at the Firm's Philadelphia, PA office.

Since enactment of the PSLRA, Mr. Barrack has been appointed lead or co-lead counsel in dozens of securities cases throughout the United States, including three of the largest case settlements in securities class action history. In *In re WorldCom, Inc. Securities Litigation,* before the Honorable Denise L. Cote in the Southern District of New York, Mr. Barrack was responsible for guiding both the vigorously prosecuted litigation – including the five-week trial against Arthur Andersen – as well as negotiating on behalf of the NYSCRF the ground-breaking settlements totaling more than $6.19 billion with WorldCom's underwriters, its outside directors, and Arthur Andersen, in the midst of trial. He was also co-lead counsel in *In re Cendant Corporation Litigation*, before the Honorable William H. Walls in the District of New Jersey, which, at $3.3 billion, was the previously highest recovery ever achieved in a securities fraud class case; *In re McKesson HBOC, Inc. Securities Litigation,* before the Honorable Ronald M. Whyte in the Northern District of California, which settled for $1.052 billion. Mr. Barrack was also appointed co-lead counsel in *In re Merrill Lynch & Co. Securities, Derivative and ERISA Litigation*, before the Honorable Jed S. Rakoff in the Southern District of New York (settlement of $475 million approved in August 2009) and co-lead counsel in *In re American International Group, Inc. Securities Litigation*, before the Honorable Laura Taylor Swain in the Southern District of New York, which settled for $970.5 million.

Mr. Barrack has had extensive trial and deposition experience in complex actions including the successful trial of derivative lawsuits under Section 14(a) of the Securities Exchange Act of 1934; *Gladwin v. Medfield*, CCH Fed. Sec. L. Rep. ¶95,012 (M.D. Fla. 1975), *aff'd*, 540 F.2d 1266 (5th Cir. 1976); *Rafal v. Geneen*, CCH Fed. Sec. L. Rep. ¶93,505 (E.D. Pa. 1972). In addition, Mr. Barrack has lectured on class actions to sections of the American and Pennsylvania Bar Association and is the author of *Developments in Class Actions*, The Review of Securities Regulations, Volume 10, No. 1 (January 6, 1977); Securities Litigation, *Public Interest Practice and Fee Awards*, Practicing Law Institute (March, 1980).

Gerald J. Rodos, partner in Barrack, Rodos & Bacine, is a graduate of Boston University (B.A. 1967) and an honor graduate of the University of Michigan Law School (J.D. *cum laude* 1970). Mr. Rodos has been practicing in the area of securities class and derivative actions, antitrust litigation and corporate litigation generally, for more than 40 years, during which time he has analyzed laws and provided advice on issues relevant to pension fund boards of trustees. He was admitted to the bar of the Supreme Court of Pennsylvania in 1971, and is also a member of the bars of the Supreme Court of the United States, the United States Court of Appeals for the Third Circuit, and the United States District Court for the Eastern District of Pennsylvania. Mr. Rodos can be reached at the Firm's Philadelphia, PA office.

Mr. Rodos has been appointed lead counsel, *inter alia*, in *Payne, et al. v. MicroWarehouse, Inc., et al.*, before the Honorable Dominic J. Squatrito in the District of Connecticut; *In re Sunbeam Securities Litigation,* pending before the Honorable Donald M. Middlebrooks in the Southern District of Florida; *In re Regal Communications Securities Litigation*, before the Honorable James T. Giles in the Eastern District of Pennsylvania; *In re Midlantic Corp. Shareholders Securities Litigation*, before the Honorable Dickinson R. Debevoise in the District of New Jersey; *In re Craftmatic Securities Litigation*, before the Honorable Joseph L. McGlynn, Jr. in the Eastern District of Pennsylvania; *In re New Jersey Title*

Insurance Litigation, Case No. 2:08-cv-01425-PGS-ES, before the Honorable Peter G. Sheridan in the District of New Jersey; *In re Automotive Refinishing Paint Antitrust Litigation*, Case No. 2:01-cv-02830-RBS, before the Honorable R. Barclay Surrick in the Eastern District of Pennsylvania; and *In re Publication Paper Antitrust Litigation*, Docket No. 3:04 MD 1631 (SRU), before the Honorable Stefan R. Underhill in the District of Connecticut, among many others. Mr. Rodos also represented lead plaintiff in the *WorldCom* litigation.

Mr. Rodos is the co-author of *Standing To Sue Of Subsequent Purchasers For Antitrust Violations -- The Pass-On Issue Re-Evaluated*, 20 S.D.L. Rev. 107 (1975), and *Judicial Implication of Private Causes of Action; Reappraisal and Retrenchment*, 80 Dick. L. Rev. 167 (1976).

Daniel E. Bacine, partner in Barrack, Rodos & Bacine, is a graduate of Temple University (B.S. 1967) and of Villanova University School of Law (J.D. 1971), where he was an Associate Editor of the Law Review and a member of the Order of the Coif. Mr. Bacine has been practicing in the area of securities class and derivative actions, and corporate litigation generally, for more than 40 years, during which time he has analyzed laws and provided advice on issues relevant to pension fund boards of trustees. He was admitted to the bar of the Supreme Court of Pennsylvania in 1971, and is also a member of the bars of the United States Courts of Appeals for the Third and Seventh Circuits and the United States District Court for the Eastern District of Pennsylvania. Mr. Bacine can be reached at the Firm's Philadelphia, PA office.

Mr. Bacine is an experienced civil litigator in both the federal and state courts, having tried jury and non-jury securities and other commercial cases, including cases involving disputes between securities brokerage firms and their customers. He has been lead or co-lead counsel in various class actions, including, *inter alia*, *In re American Travelers Corp. Securities Litigation*, in the Eastern District of Pennsylvania; *In re IGI Securities Litigation, in the District of New Jersey; Kirschner v. CableTel Corp.*, in the Eastern District of Pennsylvania; *Lewis v. Goldsmith*, in the District of New Jersey; *Rieff v. Evens (Allied Mutual Demutualization Litigation)*, in the District Court for Polk County, Iowa; *Crandall v. Alderfer (Old Guard Demutualization Litigation)*, in the Eastern District of Pennsylvania; and *In re Harleysville Mutual*, in the Court of Common Pleas of Philadelphia.

Mr. Bacine served as senior plaintiff's counsel in *Becker v. BNY Mellon Trust Co., N.A.*, in the Eastern District of Pennsylvania, a class action case that resulted in several important decisions delineating the duties of indenture trustees to bondholders: 172 F. Supp. 3d 777 (E.D. Pa. 2016) (denying motion for summary judgment); 2016 WL 6397415 (E.D. Pa. October 28, 2016) (reconsideration denied); 2016 WL5816075 (E.D. Pa. October 5, 2016) (granting class certification). He was senior counsel at the trial of the *Becker* matter, which settled just before closing arguments.

Mr. Bacine is an adjunct professor of law at Drexel University's Thomas R. Kline School of Law and an adjunct lecturer in law at Villanova University School of Law, teaching courses in class actions and complex litigation. He also sits as an arbitrator for the Financial Industry

Regulatory Authority, hearing disputes involving the securities industry, and has chaired numerous FINRA arbitration panels since 2000.

William J. Ban, partner in Barrack, Rodos & Bacine, is a graduate of Brooklyn Law School (J.D. 1982) and Lehman College of the City University of New York (A.B. 1977). For more than thirty-five years, Mr. Ban's practice of law has focused on securities, antitrust and consumer class action litigation on behalf of plaintiffs and he has participated as lead or co-lead counsel, on executive committees and in significant defined roles in scores of major class action litigations in federal and state courts throughout the country. Since Mr. Ban came to the Firm in 2004, he has been an important member of the firm's litigation teams for: *In re WorldCom, Inc. Securities Litigation*, Master File No. 02-Civ-3288 (DLC), before the Honorable Denise L. Cote in the Southern District of New York; *IPERS v. MF Global, Ltd.*, 08-Civ-2233 (VM), before the Honorable Victor Marrero in the Southern District of New York; *PPSERS v. Bank of America, Corp*., 11-Civ-00733 (WHP), before the Honorable William H. Pauley in the Southern District of New York; *In re Automotive Refinishing Paint Antitrust Litigation*, MDL Docket No. 1426, before the Honorable R. Barclay Surrick in the Eastern District of Pennsylvania; *In re: OSB Antitrust Litigation*, 06-CV-00826 (PSD), before the Honorable Paul S. Diamond in the Eastern District of Pennsylvania; and the recently concluded *In re: Lithium Ion Batteries Antitrust Litigation*, MDL Docket No. 2420, before the Honorable Yvonne G. Rogers in the Northern District of California, among others. Mr. Ban was admitted to practice in New York in 1983 and in Pennsylvania in 2005. He is a member of the bars of United States District Courts for the Southern and Eastern Districts of New York and the Eastern District of Pennsylvania and is a member of the New York City Bar Association. Mr. Ban can be reached at the Firm's New York, NY office.

Jeffrey A. Barrack, partner in Barrack, Rodos & Bacine, is a graduate of Clark University (B.A. 1990), Boston College (M.A. 1992) and Temple University School of Law (J.D. 1996). He was admitted to practice in Pennsylvania in 1996 and in New York in 2009, is a member of the bars of the United States Court of Appeals for the Third Circuit and the United States District Courts for the Southern and Eastern Districts of New York, the Eastern District of Pennsylvania, and has been admitted *pro hac vice* in district courts throughout the United States. Mr. Barrack has represented plaintiffs in securities fraud, antitrust and other class actions since joining the Firm in 1996. He also has represented both plaintiff and defendant individual and corporate clients in environmental, consumer, business tort and commercial litigation in state and federal courts. Before joining the Firm, Mr. Barrack served under the United States Attorney assisting in the prosecution of complex white-collar crime in the Eastern District of Pennsylvania and the Philadelphia District Attorney assisting in the prosecution of crime in Philadelphia. He has been honored repeatedly by the First Judicial District of Pennsylvania as an attorney whose "work has been recognized by the judiciary as exemplary." Mr. Barrack can be reached at the Firm's Philadelphia, PA office.

Mr. Barrack served as a principal member of the litigation team and as a trial attorney in *In re Apollo Group Inc. Securities Litigation*, Master File No. CV-04-2147 PHX-JAT, before the Honorable James A. Teilborg of the United States District Court for the District of Arizona, which resulted in a $145 million recovery for the class. With the firm representing the Policemen's Annuity and Benefit Fund of Chicago, the *Apollo Group* federal jury trial began in November

2007 and ended in a unanimous verdict for investors in January 2008 for the full amount requested per damaged share. After the District Court entered a judgment notwithstanding the verdict on loss causation grounds, Mr. Barrack participated on the briefing team before the Ninth Circuit Court of Appeals, which led to the Court of Appeals vacating the JNOV and reinstating the jury verdict. Mr. Barrack also participated on the briefing team before the U.S. Supreme Court, which denied defendants' petition for certiorari. Mr. Barrack led the successful loss causation evidentiary and expert presentation at trial.

Mr. Barrack was also a principal member of the litigation team in *In re WorldCom, Inc. Securities Litigation*, Master File No. 02-Civ-3288 (DLC), before the Honorable Denise L. Cote of the United States District Court for the Southern District of New York, in which the Firm represented the New York State Common Retirement Fund. He served as the lead attorney on auditing and accounting issues through the case and actively participated in the five-week trial of the only non-settling defendant, WorldCom's former auditor Arthur Andersen LLP. The 2005 jury trial against Arthur Andersen resulted in an additional $103 million for the benefit of the class of WorldCom investors, prompting Judge Cote to commend in an opinion and order that in the "trial against Andersen, the quality of Lead Counsel's representation remained first-rate."

Mr. Barrack was a principal member of the litigation team in *Pennsylvania Public School Employees' Retirement System v. Bank of America Corp., et al.,* Civil Action No. 1:11-cv-733-WHP, before the Honorable William H. Pauley, III, in the United States District Court for the Southern District of New York. With the firm serving as counsel on behalf of the lead plaintiff and class representative, the Pennsylvania Public School Employees' Retirement System, Mr. Barrack served as a lead member in the litigation and resolution of the case, which settled for $335 million.

Mr. Barrack has also served public pensions as an important member of many successful litigation teams for the Firm. He represented the New York State Common Retirement Fund in the prosecution of *In re McKesson HBOC, Inc. Securities Litigation*, No. C-99-20743-RMW, before the Honorable Ronald M. Whyte in the Northern District of California, which resulted in more than $1.052 billion for investors from defendants, including Bear Stearns, the investment bank that issued a fairness opinion on the merger that was the subject of the action; the State Teachers Retirement System of Ohio in the prosecution of *In re Merrill Lynch & Co., Inc. Securities, Derivative and ERISA Litigation*, Master File No.: 1:07-cv-9633-JSR-DFE, before the Honorable Judge Jed S. Rakoff, in the Southern District of New York, which settled for $475 million; the Iowa Public Employees Retirement System in the prosecution of *The Mills Corporation Securities Litigation*, Civil Action No. 1:06-cv-00077 (LO/TRJ), before the Honorable Liam O'Grady, in the Eastern District of Virginia, which settled for $202.75 million; the Denver Employees Retirement Plan, the Policemen's Annuity and Benefit Fund of Chicago, and the Municipal Employees Annuity and Benefit Fund of Chicago in the prosecution of *In re DaimlerChrysler AG Securities Litigation*, Master Docket No. 00-0993 (JJF), before the Honorable Joseph J. Farnan, Jr. in the District of Delaware ($300 million settlement); the CWA/ITU Negotiated Pension Plan in the prosecution of *In re Sunbeam Securities Litigation*, No. 98-8258-CIV-MIDDLEBROOKS, before the Honorable Donald M. Middlebrooks in the Southern District of Florida ($140 million settlement recovered from corporate defendants and the company's independent public accounting firm); the City of Philadelphia Board of Pensions

and Retirement in the prosecution of *In re R&G Financial Corporation Securities Litigation*, Master File No. 05 Civ. 4186 (JES), before the Honorable John E. Sprizzo, in the Southern District of New York ($51 million settlement from corporate defendants and the company's independent public accounting firm); and the Iowa Public Employees Retirement System in the prosecution of *In re Bridgestone Securities* Litigation, Master File No. 3:01-cv-0017, before the Honorable Robert L. Echols in the Middle District of Tennessee ($30 million settlement from Japanese corporation).

Mr. Barrack has successfully advocated corporate governance and excessive executive compensation reforms through shareholder rights claims asserted in direct and derivative cases alleging corporate directors' breaches of fiduciary and other legal duties. For example, Mr. Barrack was a principal member of the litigation team in *Resnick v. Occidental Petroleum, et al.*, Case No. 10-cv-00390, before the Honorable Robert F. Kelly, presiding by special designation in the District of Delaware, which resulted in benefits described by the Court as "meaningful change" to the company's executive compensation and reporting policies and practices that "affords valuable consideration to Occidental and its shareholders." And in *Gralnick v Apple, Inc*., No. 13 Civ. 900 (RJS), 13 Civ. 0976 (RJS) (S.D.N.Y.), Mr. Barrack was a principal member of the litigation team that successfully challenged an improper proxy statement issued by Apple, Inc., seeking to preserve shareholders' right to a fair and informed shareholder vote and to enjoin the vote on the offending proposal. The Court issue the injunction ruling that plaintiff shareholder was "likely to succeed on the merits and [would] face irreparable harm if the vote ... [was] permitted to proceed. Further, the Court finds that the balance of hardships tips in [plaintiff's] favor, and that a preliminary injunction would be in the public interest."

Mr. Barrack has participated in public pension board educational programs and conferences designed for the education of public pension fiduciaries. For example, Mr. Barrack participated at a board educational program hosted by the Pennsylvania Public School Employees' Retirement System, and presented on trial practice in securities fraud litigation. In addition, Mr. Barrack has presented to the members of the National Association of Public Pension Attorneys ("NAPPA") during its annual summer seminar, and has published work in its periodical, *The NAPPA Report*. Mr. Barrack currently serves on NAPPA's Securities Litigation Working Group. Mr. Barrack has lectured on private securities litigation at the Beasley School of Law at Temple University, has been a featured columnist on securities litigation for *The Legal Intelligencer*, the oldest law journal in the United States, and has written on trial practice for the *American Journal of Trial Advocacy*.

Stephen R. Basser, partner in Barrack, Rodos & Bacine, is a graduate of the American University, Washington D.C. (B.A., with Honors, 1973) and Temple University School of Law, Philadelphia, Pennsylvania (J.D. *cum laude* 1976), where he was awarded the honor of "Highest Grade and Distinguished Class Performance" by its nationally renowned clinical trial litigation program and was selected to serve as a student prosecutor under the supervision of the United States Attorney's Office for the Eastern District of Pennsylvania. Mr. Basser has been practicing in the area of securities class and derivative actions, and corporate litigation generally, for over 32 years, during which time he has analyzed laws and provided advice on issues relevant to pension fund boards of trustees. He was admitted to the bars of the Supreme

Court of Pennsylvania in 1976, and the Supreme Court of California in 1985. He is also a member of the bars of the United States Circuit Courts of Appeals for the Sixth and Ninth Circuits, and the United States District Courts for the Southern, Central and Northern Districts of California, the District of Colorado, the Eastern District of Pennsylvania and the Northern District of Texas. Mr. Basser is the managing partner of the Firm's San Diego, CA office.

Mr. Basser is an experienced civil litigator in federal and state courts and has successfully tried numerous civil jury and non-jury cases to verdict. In addition to litigating product liability, medical malpractice, catastrophic injury, mass toxic tort and complex business disputes, Mr. Basser has extensive experience prosecuting securities class actions, including actions against Pfizer, Inc., Procyte Corp., Wall Data Corp., Louisiana-Pacific Corp., Samsonite Corp., TriTeal Corp., Sybase, Inc., Silicon Graphics, Inc., Orthologic Corp., Adobe, PeopleSoft, Inc., Safeskin Corp., Bridgestone Corp., Harmonic, Inc., 3Com Corp., Dignity Partners, Inc., Daou, Vivus, Inc., FPA Medical, Inc., Union Banc of California, Merix Corporation, Simulation Sciences, Inc., Informix Corporation, OmniVision Technologies, Inc. and Hewlett Packard Company. Mr. Basser served as lead counsel representing lead plaintiff the Florida State Board of Administration in *In re Applied Micro Circuits Corp. Securities Litigation*, Lead Case No. 01-cv-0649-K (AJB), which settled for $60 million, one of the largest recoveries in a securities class action in the Southern District of California since passage of the PSLRA. He also acted as co-lead counsel for lead plaintiff the NYSCRF in *In re McKesson HBOC, Inc. Securities Litigation*, Master File No. CV-99-20743 RMW, which settled for a total of $1.052 billion from all defendants and is the largest securities fraud class action recovery in the Northern District of California. Mr. Basser was the lead attorney in *In re Chiron Shareholder Deal Litigation*, Case No. RG 05-230567, (Superior Court in and for the County of Alameda, California), resulting in a settlement for the shareholder class valued at approximately $880 million, constituting one of the largest securities ever achieved in a merger related class action alleging breach of fiduciary duties by corporate officers and directors. He was the lead trial attorney in *In re Apollo Group Inc. Securities Litigation*, Master File No. CV-04-2147 PHX-JAT (District of Arizona), before the Honorable James A. Teilborg, which was tried to a federal jury from November 2007 until the jury returned a unanimous verdict for investors on January 16, 2008, ultimately recovering $145 million for the shareholder class.

Mr. Basser has prosecuted derivative shareholder actions on behalf of and for the benefit of nominal corporate entities such as Pfizer, Apple, Nvidia and Quest, achieving significant corporate governance therapeutics on behalf of those entities. Mr. Basser has also vigorously pursued the rights of the elderly, serving as a co-lead counsel and as part of a group of firms prosecuting class actions alleging federal RICO claims against companies that target senior citizens in the sale of deferred annuity products, ultimately securing benefits collectively valued at over $1 billion.

Mr. Basser has regularly shared his experience and knowledge with attorneys, Judges, public pension funds and the lay public. He also lectured on the topic of securities related litigation and shareholder issues in the wake of the derivative securities, toxic debt portfolio and real estate mortgage default related global economic crisis of 2008, at the American Association of Justice, Winter Convention, February 2010 and the American Association of Justice, Summer Convention 2010, presented on the topic of "Securities Litigation" at the Federal Judicial

Center's Workshop for Judges of the Ninth Circuit on February 1, 2011 and lectured on the topic of trying a complex class action at Vanderbilt Law School entitled "Battle in the Valley of the Sun: Strategy Tactics and Honor in Litigation," October 17, 2013. He has written for the American Association of Justice Quarterly Newsletter, Fall 2009, co-authoring "*Securities Litigation in the Wake of the Sub-Prime Crisis.*" Mr. Basser has been repeatedly selected as a California "Super Lawyer" through 2018, as LAWDRAGON's "100 Attorneys You Need to Know in Securities Litigation" and has been regularly commended by San Diego Magazine and the Los Angeles Times as a "Top Lawyer."

Daniel Brooker, an associate at Barrack Rodos & Bacine, is a graduate of the University of Wisconsin – Madison (2004, B.S. Biology & Political Science) and the University of San Diego School of Law (2007, J.D.). Mr. Brooker is admitted to practice law in California and is a registered patent attorney with the United States Patent and Trademark Office. He is also a member of the California Bar Association. Mr. Brooker can be reached at the Firm's San Diego, CA office.

Before joining the Firm, Mr. Brooker worked as a patent attorney and in private practice as a criminal defense attorney. He has trial experience in various civil cases and has helped clients resolve disputes through mediation as well.

Chad A. Carder, partner in Barrack, Rodos & Bacine, is an honors graduate of The Ohio State University (B.A. 1999), and College of William and Mary, Marshall-Wythe School of Law (J.D. 2002), where he was a Graduate Research Fellow and served on the William and Mary Moot Court Board. From 2002 to 2003, Mr. Carder served as the law clerk to the Honorable Michael J. Hogan of the New Jersey Superior Court. Mr. Carder was admitted to practice in Pennsylvania and New Jersey in 2002 and is a member of the bars of the United States District Courts for the Eastern District of Pennsylvania and the District of New Jersey. He can be reached at the Firm's Philadelphia, PA office.

Mr. Carder concentrates his practice on federal securities class action litigation, is experienced in representing both institutional investor plaintiffs and individual defendants, and has been a member of the teams that have litigated major securities class actions to their landmark conclusions, including *In re WorldCom, Inc. Securities Litigation*, Master File No. 02-Civ-3288 (DLC), before the Honorable Denise L. Cote in the Southern District of New York; *In re Schering-Plough Securities Litigation*, Master File No. 01-CV-0829 (KSH/RJH), before the Honorable Katherine Hayden in the District of New Jersey; *Eastwood Enterprises, LLC v. Farha, et al.*, Case No. 8:07-cv-1940-T-33EAJ, before the Honorable Virginia M. Hernandez Covington in the Middle District of Florida; and *In re The Mills Corporation Securities Litigation*, Civil Action No. 1:06-cv-00077 (LO/TJR), before the Honorable Liam O'Grady in the Eastern District of Virginia.

In addition to representing plaintiffs in securities class actions, Mr. Carder also has an active antitrust litigation practice, representing plaintiffs in the prosecution of the following antitrust cases, among others: *In re Chocolate Confectionary Antitrust Litigation*, before the Honorable Christopher C. Connor, in the Middle District of Pennsylvania; *In re Processed Egg*

Products Antitrust Litigation, before the Honorable Gene E.K. Pratter, in the Eastern District of Pennsylvania; *In re New Jersey Title Insurance Antitrust Litigation*, before the Honorable Garrett E. Brown, Jr., in the District of New Jersey; *In re Flat Glass (II) Antitrust Litigation*, before the Honorable Donetta W. Ambrose in the Western District of Pennsylvania; and *In re Publication Paper Antitrust Litigation*, before the Honorable Stefan R. Underhill in the District of Connecticut. Mr. Carder is also currently litigating several corporate takeover class and derivative actions, and has extensive experience litigating shareholder derivative actions in various state and federal courts.

Matthew Cyr, an associate at Barrack, Rodos & Bacine, is a graduate of St. Joseph's University, Philadelphia, Pennsylvania (B.A. 1998) and the University of Wisconsin Law School, Madison, Wisconsin (J.D. 2005). Mr. Cyr was admitted to practice in Wisconsin in 2005, in New Jersey in 2006 and in Pennsylvania in 2012. He can be reached at the Firm's Philadelphia, PA office.

At the Firm, Mr. Cyr has worked on major class action litigation in the securities and antitrust fields, including cases against Mills Corporation, WellCare Health Plans, Inc., American International Group, RAIT Financial Trust, Merrill Lynch & Co., and companies involved in the municipal derivatives industry.

Alexander Arnold Gershon, partner in Barrack, Rodos & Bacine, is a graduate of the Georgia Institute of Technology (B.S. 1962), Emory University School of Law (L.L.B. 1964) and New York University (L.L.M. 1966). For more than 35 years, Mr. Gershon's practice has focused on representing plaintiffs in cases arising under the federal securities laws, state corporations laws, and similar kinds of matters in class actions, individual actions, and stockholders' derivative actions in the state and federal courts. Mr. Gershon was admitted to practice in New York in 1966 and in Georgia in 1964 (inactive status) and is a member of the bars of the United States Supreme Court, United States Courts of Appeals for the District of Columbia Circuit, the Second, Third and Ninth Circuits, and the United States District Courts for the Southern, Eastern and Western Districts of New York and the Northern District of Georgia. Mr. Gershon can be reached at the Firm's New York, NY office.

Mr. Gershon is an experienced civil litigator in federal and state courts and has contributed to the jurisprudence of class action settlements in cases such as *National Super Spuds, Inc. v. New York Mercantile Exchange,* 660 F.2d 9 (2d Cir. 1981); has helped to establish important standards in shareholder derivative actions: *Seinfeld v. Barrett,* 2006 WL 890909 (D. Del. 2006), and *Vides v. Amelio,* 265 F.Supp.2d 273 (S.D.N.Y. 2003) (exceptions to the demand requirement in stockholders' derivative actions); *Lewis v. Vogelstein,* 699 A.2d 327 (Del.Ch. 1997), and *Kaufman v. Beal,* 1983 WL 20295 (Del.Ch. 1983) (standards for executive compensation); and contributed to the establishment of the standards of required disclosure under the federal securities laws when corporate stockholders are solicited to approve executive bonus plans seeking tax benefits under the Internal Revenue Code in *Shaev v. Saper,* 320 F.3d 373 (3d Cir. 2003).

Mr. Gershon has successfully advocated corporate governance and excessive executive compensation reforms through shareholder rights claims asserted in direct and derivative cases alleging corporate directors' breaches of fiduciary and other legal duties. Most recently, Mr. Gershon led the litigation team in *Resnick v. Occidental Petroleum, et al.*, Case No. 10-cv-00390, before the Honorable Robert F. Kelly, presiding by special designation in the District of Delaware, which resulted in benefits described by the Court as "meaningful change" to the company's executive compensation and reporting policies and practices that "affords valuable consideration to Occidental and its shareholders."

Jeffrey B. Gittleman, partner in Barrack, Rodos & Bacine, is an honors graduate of Tulane University (B.A. 1993), and Temple University School of Law (J.D. 1996), where he served on the Moot Court Honors Society. Mr. Gittleman was admitted to practice in Pennsylvania and in New Jersey in 1996. He is admitted to the bars of the United States Court of Appeals for the Third Circuit and the United States District Courts for the District of New Jersey, the Eastern District of Pennsylvania and the Northern District of Illinois. Mr. Gittleman can be reached at the Firm's Philadelphia, PA office.

Mr. Gittleman has represented plaintiffs in securities fraud, antitrust and other class actions since joining the firm in 1998. Mr. Gittleman regularly consults with institutional investors, including international, state, county, municipal and Taft-Hartley pension funds, regarding domestic and international securities litigation. He assists clients in their evaluation of whether and when to take an active role in securities litigation. Mr. Gittleman works closely with the Firm's portfolio monitoring department and case evaluation teams to help the Firm's clients maximize their recoveries from securities litigation.

Mr. Gittleman has been actively involved in the prosecution of numerous securities litigation cases. He has represented the State of Michigan Retirement Systems in *In re American International Group, Inc. 2008 Securities Litigation*, Master File No. 08-CV-4772-LTS (S.D.N.Y.), which settled for $970.5 million; the Florida State Board of Administration in *In re Schering-Plough Securities Litigation*, which settled for $165 million, and the Iowa Public Employees' Retirement System in *In re Mills Securities Litigation*, which settled with the defendant real estate investment trust corporation, its officers and directors, its auditor, Ernst & Young, and a foreign real estate development company, for $202.75 million. He has also represented the State Teachers Retirement System of Ohio, the Pennsylvania Public School Employees' Retirement System, and the Oakland County Employees' Retirement System in securities litigation class actions across the country.

Recently, Mr. Gittleman served as trial counsel for a class of bondholders in *Becker v. BNY Mellon* in the Eastern District of Pennsylvania. The case settled the same day that closing arguments were set to begin. Mr. Gittleman also served as trial counsel for Iridian Technologies, Inc. and its common shareholder-elected directors in *Equity Asset Investment Trust, Inc. v. John Daugman, et al*, in a case tried in Delaware Chancery Court.

Mr. Gittleman has served in leadership roles in numerous multi-district antitrust class actions. He has helped secure multi-million dollar recoveries against the manufacturers of carbon fiber, automotive refinishing paint, graphite electrodes, flat class and other products. Mr.

Gittleman is currently serving as a member of the Executive Committee in *In re Lithium Ion Batteries Antitrust Litigation*.

Jeffrey W. Golan, a partner in Barrack, Rodos & Bacine, graduated with honors from Harvard College in 1976 with a degree in Government. He graduated in 1980 from the Georgetown University Law Center, where he served as the Topics Editor for the school's international law review, and from the School of Foreign Service, with a Master's of Science Degree in Foreign Service. In 1980, he received the Francis Deák Award from the American Society of International Law for the year's best student writing in an international law journal. Mr. Golan served as a Law Clerk for the Honorable Edwin D. Steel, Jr., in the United States District Court for the District of Delaware, and thereafter joined a large firm in Philadelphia, where he concentrated on commercial litigation, including the representation of plaintiffs and defendants in federal securities and antitrust cases. Mr. Golan was admitted to practice in Pennsylvania in 1981 and is a member of the bars of United States Court of Appeals for the Second, Third, and Fourth Circuits, and the United States District Court for the Eastern District of Pennsylvania. Mr. Golan can be reached at the Firm's Philadelphia, PA office.

Since joining BR&B in 1990, Mr. Golan has been the Firm's primary attorney in many major securities fraud cases throughout the country. Of particular note, he was BR&B's lead trial attorney in the *WorldCom* securities class action – a prosecution that yielded a record-breaking recovery of more than $6.19 billion for defrauded investors – one of the most notable fraud cases ever to go to trial. In April 2005, Mr. Golan led the BR&B team that took the only non-settling defendant, WorldCom's former auditor Arthur Andersen LLP, to trial. Andersen agreed to settle in the fifth week of trial, shortly before closing arguments. In approving this and other settlements, Judge Denise Cote found "the quality of the representation given by Lead Counsel is unsurpassed in this Court's experience with plaintiffs' counsel in securities litigation" and that "the quality of representation that Lead Counsel has provided to the class has been superb." From 2008 to 2015, Mr. Golan was the Firm's lead attorney in *In re American International Group, Inc. 2008 Securities Litigation*, which settled for $970.5 million. The settlement is believed to be the largest recovery in a securities class action in the absence of a restatement, an SEC enforcement action or a criminal indictment. In approving the settlement in March 2015, Judge Laura Taylor Swain found the recovery to be an "outstanding result obtained on behalf of the settlement class."

Mr. Golan also served as BR&B's primary attorney for the landmark *Cendant* case, in which the lead plaintiffs and lead counsel achieved what is still the third highest recovery ever achieved in a securities fraud class case ($3.32 billion), which included the most ever paid in a securities fraud class case by an outside auditor ($335 million). He served as the Firm's lead attorney in the securities fraud class action involving The Mills Corporation, which settled with the defendant real estate investment trust corporation, its officers and directors, its auditor, and a foreign real estate development company, for $202.75 million, as well as in cases against DaimlerChrysler ($300 million obtained for the class), DFC Global Corp. ($30 million recovered), and many others.

Mr. Golan also served as the lead trial attorney in an action in the Delaware Court of Chancery, *Equity Asset Investment Trust, et al. v. John G. Daugman, et al.*, in which the Firm

represented Iridian Technologies, Inc. (the world leader in iris recognition technologies) and its common shareholder-elected directors. The case was brought against the Company and the common directors, prepared for trial on an expedited basis under the Chancery Court's "fast-track" procedures for Board contests, and went to trial two months after the complaint was filed.

Mr. Golan has also headed up the Firm's representation of lead plaintiffs in a number of derivative actions stemming from the stock option backdating scandal, and served as the Firm's lead attorney in cases challenging proposed corporate transactions. He served as a co-lead counsel in consolidated shareholder cases challenging PepsiCo's acquisition of Pepsi Bottling Group. After such lawsuits were filed, PepsiCo increased its offer price from $29.50 to $36.50 per share, which provided PBG's public shareholders with an additional $1.022 billion in value. He represented institutional and individual lead plaintiffs in a case that challenged the proposed buy-out of Lafarge N.A. by its majority shareholder, Lafarge S.A., which was settled when Lafarge S.A. agreed to increase the buy-out price from the $75.00 per share initially offered to $85.50 per share (a $388 million increase in the amount paid to Lafarge N.A.'s public shareholders) and to make additional disclosures about the company and the proposed transaction. And, among other cases, Mr. Golan served as a co-lead counsel in consolidated shareholder cases challenging the majority shareholder buy-out of Nationwide Financial Services, Inc., where as part of a settlement the acquirer raised its offer price from $47.20 per share to $52.25 per share, thereby providing a $232 million benefit to class members.

Mr. Golan also successfully represented investors in the class and derivative action in the Delaware Court of Chancery in *In re Cheniere Energy Stockholders Litigation*, which challenged whether shareholders approved an equity compensation plan that provided Cheniere's CEO with $126 million in equity compensation for one year. The successful settlement of this litigation resulted in the withdrawal of a new equity compensation plan that had earlier been proposed to grant executives 30 million shares that would have had a market value of $565 million at the time, a new stockholder vote on the shares that were challenged by the litigation, and several other corporate reforms.

Mr. Golan has been selected as a "Pennsylvania Super Lawyer" in the field of securities litigation. In June 2000, he was honored as the "Featured Litigator" in the on-line magazine published by Summation Legal Technologies, the legal software company. Mr. Golan, who has served as a faculty member at various deposition training programs, has also served in numerous capacities for the Public Interest Law Center of Philadelphia, including as Vice-Chair of the Board, on the staff of the Mayor's Task Force for the Employment of Minorities in the Philadelphia Police Force, and as a member of the Philadelphia Bar Association's Pro Bono Task Force (report issued October 2017).

Robert A. Hoffman, partner in Barrack, Rodos & Bacine, is a graduate of Rutgers University (B.A. 1980) (with high distinction) and Rutgers University School of Law - Camden (J.D. 1983). Mr. Hoffman clerked for the Honorable Charles R. Weiner, United States District Court for the Eastern District of Pennsylvania, during the years 1984-1985. Mr. Hoffman has been practicing in the area of securities class and derivative actions, and corporate litigation generally, for more than 25 years, during which time he has analyzed laws and provided advice

on issues relevant to pension fund boards of trustees. He was admitted to the bars of the Supreme Court of Pennsylvania and Supreme Court of New Jersey in 1983, and is also a member of the bars the United States Court of Appeals for the Eighth Circuit and the United States District Courts for the Eastern District of Pennsylvania and the District of New Jersey. Mr. Hoffman can be reached at the Firm's Philadelphia, PA office.

Mr. Hoffman has broad experience in prosecuting securities class actions in federal courts around the country. He served as lead counsel for the Florida State Board of Administration in *In re Schering-Plough Securities Litigation*, before the Honorable Katherine Hayden in the District of New Jersey, which settled in 2009 for $165 million. Mr. Hoffman also prosecuted one of the most significant subprime related securities class actions, *In Re Merrill Lynch & Co., Inc. Securities, Derivative and ERISA Litigation*, before the Honorable Judge Jed S. Rakoff, in the Southern District of New York, which settled for $475 million for defrauded investors, and was a member of the litigation team in prosecuting *In re American International Group, Inc. 2008 Securities Litigation*, before the Honorable Laura Taylor Swain in the Southern District of New York, which settled in 2014 for $970.5 million. He was one of the lead attorneys representing plaintiffs in *In re MicroWarehouse Securities Litigation*, (D.Conn.), which resulted in a $30 million recovery for the plaintiff class. He also has significant experience in the trial and appeal of securities class actions. *See, e.g. In re Control Data Corp. Securities Litigation*, 933 F.2d 616 (8th Cir. 1991). Mr. Hoffman also led a derivative case against Synthes, Inc., a large medical device company that had been cited by the U.S. Government for illegal "off-label" promotions. The case resulted in the implementation of significant corporate governance changes at the company.

Leslie Bornstein Molder, partner in Barrack, Rodos & Bacine, is an honors graduate from the University of Michigan (A.B. *magna cum laude* 1980) as well as from the National Law Center at the George Washington University (J.D. *cum laude* 1983) and was admitted to practice in Pennsylvania in 1983 and is a member of the bar of the United States Court of Appeals for the Seventh Circuit and the United States District Court for the Eastern District of Pennsylvania. For over 25 years, Ms. Molder has practiced primarily in the area of complex civil litigation, including securities class actions, antitrust class actions and policyholder actions against insurance companies and has participated in the trials of a variety of commercial cases, including cases involving disputes between securities brokerage firms and their customers. Ms. Molder oversees the Firm's portfolio monitoring services for institutional clients. She is also the Firm's settlement attorney, specializing in documenting and effectuating settlements of class actions and assisting clients throughout the settlement process. She can be reached at the Firm's Philadelphia, PA office.

Julie B. Palley, an associate at Barrack, Rodos & Bacine, joined the Firm in 2008. Ms. Palley graduated from the University of Pennsylvania *cum laude* in 2003 with a double major in Communications and Psychology with honors. She received her J.D. from Temple University School of Law in May of 2007. At Temple, Mrs. Palley was on the Dean's List and received an award for distinguished class performance. She was also a member of the Law School's budget committee, the Women's Law Caucus and the Jewish Law Students' Association. Ms. Palley was admitted to practice in Pennsylvania and New Jersey in 2007 and is a member of

the bar of the United States District Court for the Eastern District of Pennsylvania. Before joining Barrack, Rodos & Bacine, Mrs. Palley was counsel at the Pennsylvania Securities Commission. Ms. Palley can be reached at the Firm's Philadelphia, PA office.

At BR&B, Ms. Palley has been a member of the Firm's litigation teams representing investors, including state, local and union pension funds, in securities class action litigations and derivative actions, including cases involving securities fraud, shareholders rights and corporate governance. Ms. Palley was a member of the litigation team that prosecuted *In re Merrill Lynch & Co., Inc. Securities, Derivative and ERISA Litigation* before the Honorable Jed S. Rakoff in the Southern District of New York, which settled for $475 million. Ms. Palley has also been part of the litigation teams in other successful class actions, including the team that successfully challenged the majority shareholder buy-out of Nationwide Financial Services, Inc., where as part of a settlement the acquirer raised its offer price from $47.20 per share to $52.25 per share, a $232 million benefit to class members, and as part of the teams challenging the proposed acquisition of Wm. Wrigley Jr. Company by Mars, Incorporated, and the proposed acquisition of King Pharmaceuticals by Pfizer. Ms. Palley also successfully represented shareholders in a derivative case involving the buyout of Barnes & Noble by its chairman, resulting in a $29 million payment to settle shareholder claims.

Ms. Palley was a member of the team prosecuting *In re American International Group, Inc. 2008 Securities Litigation*, before the Honorable Laura Taylor Swain in the Southern District of New York, which settled in 2014 for $970.5 million. She is also a member of the teams prosecuting *Pennsylvania Public School Employees' Retirement System v. Bank of America Corp.,* before the Honorable William H. Pauley, III, in the Southern District of New York as well as a member of litigation teams pursuing claims for violations of the federal antitrust laws on behalf of small businesses and other individuals who have been injured by price-fixing conspiracies.

Lisa Lamb Port, partner in Barrack, Rodos & Bacine, graduated *summa cum laude* from Villanova University School of Law in 2003, where she was a member of the Order of the Coif and an associate editor of the *Villanova Law Review* and *Villanova Journal of Law and Investment Management*. She received her B.A. in psychology, with honors, from Princeton University in 2000. Ms. Port was admitted to practice in Pennsylvania in 2003 and joined BR&B in 2005. She is also admitted to practice before the United States Court of Appeals for the Third Circuit and United States District Courts for the Eastern District of Pennsylvania and the Northern District of Illinois. She has been selected as a "Pennsylvania Rising Star" by *Philadelphia Magazine* and *Pennsylvania Super Lawyers* every year since 2013. Ms. Port is a member of the Villanova Inn of Court and a Volunteer Attorney for the Support Center for Child Advocates. Ms. Port can be reached at the Firm's Philadelphia, PA office.

Ms. Port's practice focuses on the representation of investors, including state, local and union pension funds, in securities class action litigations, derivative actions, and breach of fiduciary duty cases. Most recently, Ms. Port served as lead attorney for the plaintiff and the class of bondholders in *Becker v. BNY Mellon*, in the Eastern District of Pennsylvania, a class action case that resulted in several important decisions delineating the duties of indenture trustees to bondholders: 172 F. Supp. 3d 777 (E.D. Pa. 2016) (denying motion for summary

judgment); 2016 WL 6397415 (E.D. Pa. October 28, 2016) (reconsideration denied); 2016 WL5816075 (E.D. Pa. October 5, 2016) (granting class certification). She was the lead trial attorney at the trial of the *Becker* matter, which settled just before closing arguments.

She was also an integral part of the litigation team that prosecuted *In re American International Group, Inc. 2008 Securities Litigation*, which resulted in a $970.5 million settlement on behalf of the class. The settlement was reached after six years of intensive litigation and is among the largest recoveries ever achieved in a securities fraud class action stemming from the 2008 financial crisis. Ms. Port was also a member of the highly successful trial team in *In re WorldCom, Inc. Securities Litigation*, which resulted in a record-breaking recovery of more than $6.19 billion for defrauded investors.

Among other successful securities class action cases, Ms. Port was a key member of the teams that prosecuted cases against DFC Global Corp., Green Mountain Coffee Roasters, Inc. and The Mills Corporation. The case against Mills settled for $202.75 million, the largest recovery ever in Virginia and the second largest recovery ever in the Fourth Circuit. She has also been part of the litigation teams in other successful securities fraud class actions, including *In re Michael Baker Corp. Securities Litigation*, *In re R&G Financial Securities Litigation*, and *In re Bridgestone Securities Litigation*.

Mark R. Rosen, partner in Barrack, Rodos & Bacine, is an honors graduate of the University of Pennsylvania (A.B. *summa cum laude* 1976), where he was elected to Phi Beta Kappa, and the Harvard Law School (J.D. *cum laude* 1979). Mr. Rosen, who served as a law clerk to Judge Stanley S. Brotman, of the United States District Court for the District of New Jersey, has handled many trials and appeals as an experienced civil litigator representing plaintiffs and defendants in federal and state courts in, *inter alia*, constitutional, securities, antitrust, corporate takeover, environmental, consumer and other class and derivative litigation and individual commercial actions. Mr. Rosen can be reached at the Firm's Philadelphia, PA office.

Mr. Rosen has successfully litigated high-profile cases which received nationwide recognition. In *Strawn v. Canuso*, 140 N.J. 43, 657 A.2d 420 (1995), the New Jersey Supreme Court ruled in favor of his clients, a group of homeowners, in establishing that builders and real estate brokers must inform prospective buyers if the property for sale is near a landfill. In *Atlantic Coast Demolition & Recycling, Inc. v. Board of Chosen Freeholders*, 48 F.3d 701 (3d Cir. 1995), *on remand*, 931 F. Supp. 341 (D.N.J. 1996), *aff'd*, 112 F.3d 652 (3d Cir.), *cert. denied*, 522 U.S. 966 (1997), Mr. Rosen represented an out-of-state recycling facility and persuaded the court to strike down the New Jersey system of waste "flow control," holding that it violated the constitutional protection for interstate commerce.

At BR&B, Mr. Rosen has handled a variety of matters, including antitrust, securities and corporate takeover class and derivative actions, as well as individual commercial actions. Mr. Rosen was a principal member of the litigation team in *Pennsylvania Public School Employees' Retirement System v. Bank of America Corp., et al.,* Civil Action No. 1:11-cv-733-WHP, before the Honorable William H. Pauley, III, which settled for $335 million. He was also a member of the successful team that litigated *In re WorldCom, Inc. Securities Litigation*, before the

Honorable Denise L. Cote in the Southern District of New York, to its landmark conclusion. He served as one of the lead counsel in the *Rubin v. MF Global Ltd.* securities litigation, where he successfully argued an appeal to the United States Court of Appeals for the Second Circuit, *Iowa Public Employees' Retirement System v. MF Global, Ltd.*, 620 F.3d 137 (2d Cir. 2010), establishing a landmark precedent that defendants could not immunize their statements under the "bespeaks caution" doctrine, and, upon remand, settled for $90 million. He currently serves as one of the lead counsel in the Green Mountain Coffee Roasters Securities Litigation, where he successfully argued an appeal to the Second Circuit reinstating the plaintiffs' claims. *Employees' Retirement System of Government of the Virgin Islands v. Blanford*, 794, F.3d 297 (2d Cir. 2015).

He was one of the lead counsel for plaintiffs in *In re Automotive Refinishing Paint Antitrust Litigation*, before the Honorable R. Barclay Surrick in the Eastern District of Pennsylvania, which yielded $105 million in settlements, and *In re Publication Paper Antitrust Litigation*, before the Honorable Stefan R. Underhill in the District of Connecticut, among others. He was one of the lead counsel for plaintiffs in the litigation over the acquisition of Chiron, which resulted in an increase of several hundred million dollars in the price paid to buy out its public shareholders, and for the mutual policyholders of Harleysville Mutual Insurance Company, in which he worked to secure a $26 million recovery. Mr. Rosen has also handled the defense of several matters, including representing a group of defendants in a securities action arising from the upheaval in the financial markets. He also served as lead trial counsel representing a major international bank in an injunction hearing successfully defending its acquisition of an American bank.

Mr. Rosen has argued or had principal responsibilities for appeals in a number of state and federal appellate courts. In 2012, Mr. Rosen was selected as a Top Rated Lawyer in Commercial Litigation by American Lawyer Media. He is admitted to practice in California, the District of Columbia, New Jersey and Pennsylvania, and is a member of the bars of the United States Supreme Court, the United States Courts of Appeals for the District of Columbia, Second, Third, Sixth, Seventh, Ninth, and Eleventh Circuits and the United States District Courts for the Southern, Central and Northern Districts of California, the District of Colorado, the District of Columbia, District of New Jersey, the Eastern District of Pennsylvania and the Eastern District of Wisconsin.

Michael A. Toomey, an associate in Barrack, Rodos & Bacine's New York office, joined the Firm in 2011. Mr. Toomey received his B.A. from Tufts University in 2005 and his J.D. from Temple University School of Law in 2010. At BR&B, Mr. Toomey has represented investors, including state, local and union pension funds, in several class and derivative actions, including cases involving securities fraud, shareholder rights and corporate governance. Mr. Toomey was an integral part of the litigation team that prosecuted *In re American International Group, Inc. 2008 Securities Litigation*, which resulted in a $970.5 million settlement for defrauded investors, among the largest recoveries ever achieved in a securities fraud class action stemming from the 2008 financial crisis. Mr. Toomey has also successfully represented investors in class and derivative actions such as *In re Cheniere Energy Stockholders Litigation*, which challenged whether shareholders approved an equity compensation plan that provided

Cheniere's CEO with $126 million in equity compensation for one year. The successful settlement of this litigation resulted in the withdrawal of a new equity compensation plan that proposed to grant executives 30 million shares, a new stockholder vote on the shares that were challenged by the litigation, and several other corporate reforms. Mr. Toomey also successfully represented shareholders in a derivative case challenging the payment by Barnes & Noble for an asset held by its chairman Leonard Riggio whereby Riggio agreed to pay $29 million to settle shareholders' claims. Mr. Toomey has also helped to establish important standards in shareholder derivative actions such as *Seinfeld v. Slager*, No. CIV.A. 6462-VCG, 2012 WL 2501105 (Del. Ch. June 29, 2012) (directors must show entire fairness of their own compensation if compensation plan lacks meaningful limits).

Mr. Toomey is admitted to practice in New York and New Jersey and is a member of the bars of the United States District Courts for the Southern and Eastern Districts of New York. While at Temple, Mr. Toomey was an intern in the Chambers of Judge Lerner of the Philadelphia Court of Common Pleas and Magistrate Judge Elizabeth Hey of the Eastern District of Pennsylvania. He also interned at the Philadelphia Public Defender where he advocated in court on behalf of indigent defendants. Mr. Toomey can be reached at the Firm's New York, NY office.

Samuel M. Ward**,** partner in Barrack, Rodos & Bacine, is a graduate of the University of California, Hastings College of Law (J.D. 2001), and a 1995 honors graduate of the University of California, San Diego (B.A. 1995). Mr. Ward was admitted to practice in California in 2001 and is a member of the bars of the United States District Courts for the Southern, Central and Northern District of California. Before joining BR&B, Mr. Ward worked as a political consultant, managing both Congressional and State Assembly campaigns. At the Firm, he has litigated numerous securities cases in federal district courts throughout the country. Mr. Ward was a member of the trial team in *In re Apollo Group Inc. Securities Litigation*, before the Honorable James A. Teilborg in the District of Arizona, where he played a critical role in mastering the deposition and documentary proof that was used at trial to secure the jury's unanimous verdict. Mr. Ward also represented the plaintiff class in *In re Applied Micro Circuits Corp. Securities Litigation*, achieving a $60 million settlement for class members, one of the largest recoveries in a securities class action in the Southern District of California since passage of the PSLRA. Mr. Ward is the former Chair of Planned Parenthood Affiliates of California and former Vice-Chair of the Board of Directors of Planned Parenthood of the Pacific Southwest. Mr. Ward can be reached at the Firm's San Diego, CA office.

Frances Vilella-Vélez, of-counsel to Barrack, Rodos & Bacine, is a graduate of Syracuse University College of Law, Syracuse, New York (J.D. 1977) and Swarthmore College (B.A. 1974). She was admitted to practice in Puerto Rico in 1977 and in Pennsylvania in 1978 and is a member of the bars of the United States Court of Appeals for the Third Circuit and the United States District Court for the Eastern District of Pennsylvania. Ms. Vilella-Vélez began her legal career in 1978 as a trial attorney in the Office of the Regional Solicitor, U.S. Department of Labor, where she litigated OSHA cases before the United States district courts and the Occupational Safety and Health Review Commission (OSHRC). She then served as the first law clerk for the Honorable Nelson A. Diaz, on the Court of Common Pleas of

Philadelphia County, Philadelphia, Pennsylvania. During her tenure with Judge Diaz, Ms. Vilella-Vélez also served as a staff member on the Mayor's Task Force on Minority Employment in the Police Department, in Philadelphia, where she conducted legal and policy analyses of alternative proposals to increase minority employment in the Policy Department, and assisted in drafting the report to the mayor. Ms. Vilella-Vélez can be reached at the Firm's Philadelphia, PA office. Among other community activities, Ms. Vilella-Vélez served for many years on the board of the Valentine Foundation and currently serves on the board of the Chester Children's Chorus.

Professional Staff Resumes

Brett G. Wilmot, *Director of Institutional Research*, joined the Firm in 2008. Mr. Wilmot brings extensive financial analysis experience to the Firm's securities and corporate litigation practice. Using a wide array of market research tools and resources, Mr. Wilmot investigates securities class actions, derivative actions, appraisal cases and other shareholder and corporate governance actions on behalf of our institutional clients. Mr. Wilmot identifies instances where fraud or other corporate wrongdoing has adversely affected the value of our clients' investments, and otherwise assists the Firm's effort in protecting client interests. Before joining the Firm, Mr. Wilmot worked for a Delaware-based securities litigation law firm where he created and instituted a proprietary portfolio monitoring program. He has extensive experience with calculations of client losses and recoverable damages. Mr. Wilmot also spent several years as an investment analyst for a $1 billion investment management firm. In 1999, Mr. Wilmot received a B.A. in statistics from the University of Michigan. He can be reached at the Firm's Philadelphia, PA office.

Eric J. Roode, *Senior Enterprise Developer*, joined the Firm in 2006. Mr. Roode is a career database engineer who brings a broad array of analytical skills to the Firm. He leads a team of information technology (IT) specialists who compile data about BR&B's clients' financial interests in pending and settled securities class actions. Mr. Roode designs, develops, and maintains the Firm's databases and its proprietary **BEAMS**® software. Mr. Roode has been developing software since 1985, and has been designing and developing database applications since 1989. His work has been cited in Damian Conway's seminal Perl Best Practices, and use of his Read-only module was ranked as one of the "Ten Essential Coding Practices." Mr. Roode's work was also cited in Mark Dominus's advanced text Higher-Order Perl. Before joining the Firm, Mr. Roode maintained and developed software for a large database of over a billion records for a private marketing corporation. He has given talks before Philadelphia's Perlmongers professional association, and before Philadelphia's Linux Users Group. Mr. Roode can be reached at the Firm's Philadelphia, PA office.

DECLARATION OF ADAM P. PLANT

I, Adam P. Plant, declare as follows:

1. I am a partner in the law firm of Battle & Winn LLP. Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Battle & Winn is a firm of innovative, experienced litigation lawyers. We have a proven track record of achieving results for our clients by creating and implementing smart litigation strategies that earn the respect of judges, juries, and our peers.

4. Battle & Winn lawyers prosecute and defend complex civil cases for diverse clients—from aggrieved individuals to businesses of all sizes—in both state and federal courts. Battle & Winn lawyers have served as lead counsel for plaintiffs and defendants, and proven that they have the skills, experience, and smarts to take cases to trial and win.

5. Among the complex litigation matters this firm has handled are the *Allianz* cases (lead case: *William H. Clark v. Allianz Life Insurance Company*, Civ. Action No. 07-132 in the Circuit Court for Walker County, Alabama). Battle & Winn represented more than 300 individual plaintiffs against Allianz Life Insurance Company and its agents for fraud and breach of fiduciary duty for selling unsuitable equity-indexed annuities to elderly individuals, many of whom were in their seventies and eighties.

6. This firm litigates multi-million-dollar insurance coverage disputes, business disputes, False Claims Act matters, multi-party complex litigation, class action litigation, and conducts external investigations for private businesses, government agencies, and regulatory bodies.

7. I am a 2003 *cum laude* graduate of The University of Alabama School of Law. While in law school, I was Editor in Chief of the *Alabama Law Review*.

8. I am admitted to practice in Alabama and the District of Columbia. I also am admitted to practice in federal courts in Alabama and before the United States Court of Appeals for the Eleventh Circuit. I previously have been admitted *pro hac vice* in several courts including the Southern District of California, Northern District of California, Northern District of Georgia, Eastern District of Missouri, Southern District of Florida, District of New Mexico, the United States Courts of Appeals for the Eighth and Ninth Circuits, and state courts in California and Tennessee.

9. After my law school graduation, I served as a Deputy Solicitor General of Alabama. I represented the State of Alabama and wrote winning briefs before the Alabama Court of Criminal Appeals, Alabama Supreme Court, and the Eleventh Circuit Court of Appeals and had substantial experience in the Supreme Court of the United States, including briefs *amicus curiae*. Among the published decisions in which I was counsel are *Nelson v. Campbell*, 541 U.S. 637 (2004); *Altherr v. State*, 911 So. 2d 1105 (Ala. Crim. App. 2004); *Ex parte Med. Licensure Comm'n*, 897 So. 2d 1093 (Ala. 2004). In *McGinley v. Houston*, 361 F.3d 1328 (11th Cir. 2004), I represented the Justices of the Alabama Supreme Court in litigation concerning the removal of a 5,280-pound granite monument with the Ten Commandments engraved on it, which the former Chief Justice of Alabama installed.

10. The Hon. William H. Pryor Jr. then hired me as his first law clerk on the United States Court of Appeals for the Eleventh Circuit. I served as a law clerk to Judge Pryor from April 2004 to September 2005.

11. Before joining Battle & Winn, I had significant complex litigation experience individually as an attorney at a national class action and complex litigation firm based in Birmingham, Alabama. I represented the plaintiff in a groundbreaking Title IX retaliation case, *Jackson v. Birmingham Bd. of Ed.*, No. 2:01-cv-01866 (N.D. Ala.), *on remand from*, 544 U.S. 167 (2005). I have represented classes of consumers, shareholders, members of the United States Armed Forces, cattle ranchers, medical associations, and doctors during the course of my law practice. *See, e.g., McPhail v. First Command Fin. Planning, Inc.*, 247 F.R.D. 598 (S.D. Cal. 2007), 251 F.R.D. 514 (S.D. Cal. 2008); *Grimes v. Rave Motion Pictures Birmingham, LLC*, 552 F. Supp. 2d 1302 (N.D. Ala. 2008) (*Floyd v. Express Oil Change, LLC*), *rev'd sub nom*, *Harris v. Mexican Specialty Foods, Inc.*, 564 F.3d 1301 (11th Cir. 2009); *Carpenters Health & Welfare*

Fund v. Coca-Cola Co., 587 F. Supp. 2d 1266 (N.D. Ga. 2008); *Ex Parte Johnson*, 993 So. 2d 875 (Ala. 2008); *Utility Consumers' Action Network v. Sprint Solutions, Inc.*, No. 07-CV-2231 (S.D. Cal. May 12, 2010) (final settlement approval); *Feller v. Anthem Blue Cross*, No. 56-2010-00368587 (Ventura Co., Cal., Super. Ct. Aug. 26, 2011) (final settlement approval). My previous firm was named to the *National Law Journal* "Plaintiffs' Hot List" multiple times while I worked there. During my approximately six years working at my previous firm, clients and classes I represented were awarded more than $750 million in monetary and injunctive relief under judgments and settlements on which I personally worked.

12. Perhaps my most relevant complex litigation experience for the purposes of this Court's decision today is working with the leadership of *In re Genetically Modified Rice Litig.*, No. 4:06-MD-1811 (E.D. Mo.). In that matter, I helped develop litigation strategy, prepared merits experts, participated in mock trials, and actively participated numerous depositions. I reported directly to co-lead counsel and members of the plaintiff's leadership team. I drafted pretrial motions, performed legal research, and shepherded discovery concerning numerous third parties, including USDA NASS.

13. Attached to my declaration is my law firm's resume which further describes my background and that of my law firm.

14. In this case, I filed an Alabama state-law class action case. *Walter R. Richardson, et al. v. Syngenta Corp., et al.*, Case No. 01-CV-2015-000408.00 (filed in Jefferson County, Ala. Circuit Ct.). This case was removed to the Northern District of Alabama as Case No. 2:15-cv-02272-JEO and transferred by the MDL Panel on January 7, 2017 under CTO 51.

15. I was responsible for all aspects of the filing and management of this case until it was subsumed in the MDL litigation. This matter performed a critical function of ensuring that

all Alabama farmers' claims were protected against arguments that the statute of limitations was not tolled during the pendency of the MDL before class certification.

16. Battle & Winn maintains contemporaneous records of its time and expenses in the ordinary course of business.

17. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

18. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

19. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

20. I have substantially reduced my time and expenses, including writing off attendance at the initial hearing regarding applications for leadership of the MDL in Kansas City before this Court and participation in telephonic hearings at which I did not speak.

21. I also have ensured that none of my time spent working with my firm's numerous individual clients was included in the common benefit time entries.

22. After this re-review, I can confirm this time was undertaken by my firm at my direction. I believe the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

23. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $5,394.00. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Plant, Adam	Partner	11.60	$465.00	$5,394.00
	TOTALS		11.60		$5,394.00

24. My firm seeks $587.45 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
14	Court Fees	$551.00
15	Service of Process Fees	$36.45
	TOTAL	**$587.45**

25. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award conforms to the Common Benefit Order.

26. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records, and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Birmingham, Alabama.

BATTLE & WINN LLP

BATTLE & WINN
ATTORNEYS AT LAW

Firm Resume of Battle & Winn LLP

Battle & Winn LLP is a litigation law firm in Birmingham, Alabama. The firm was founded in 2004 when Robert E. Battle and Harlan F. Winn III left a large regional law firm of more than 200 lawyers to found their firm under a previous name. At Battle & Winn, the "litigation process" is not as an end unto itself—it's how we prepare a persuasive argument for our clients that is convincing to a judge or jury. We bring efficiency, creativity, and intensity to large-scale litigation and single-event cases. We focus our resources on important issues that improve our clients' results.

This resume discusses our practices areas and its successes in those practice areas over the past 14 years, then addresses the background of Battle & Winn lawyers.

Class Actions and Complex Litigation

Battle & Winn lawyers prosecute and defend complex civil cases for diverse clients—from aggrieved individuals to businesses of all sizes—in both state and federal courts. Battle & Winn lawyers have served as lead counsel for plaintiffs and defendants, and proven that they have the skills, experience, and smarts to take cases to trial and win.

Some notable class action successes of Battle & Winn include:

- *Hillis v. Equifax Consumer Services, Inc. and Fair Isaac Corporation*, Case No. 1:04-cv-03400 (N.D. Ga.). Appointed co-lead class counsel and recovered in-kind compensation exceeding $100 million in value and extensive injunctive relief for a class of approximately 6.6 million consumers under the Credit Repair Organization Act. The settlement of this case was approved by the district court on June 12, 2007. The settlement of this matter also covered the class pleaded in *Slack*.
- *Slack vs. Fair Isaac Corporation and Myfico Consumer Services, Inc.* (N.D. Cal.). We represented class members pleading violations of the Credit Repair Organization Act.
- *Townes vs. Transunion, LLC, and Truelink, Inc.* (D. Del.). Served as Co-Class Counsel. This case involved claims of violation of the Credit Repair Organization Act; a classwide settlement was reached and approved by the district court.

Whistleblower Litigation

Battle & Winn lawyers represent whistleblowers and qui tam relators in state and federal courts. When good people see bad things happen, they call us. Taxpayers deserve to know their hard-earned money is being used wisely, and not stolen through fraud, waste, and abuse.

Some of the notable successes of Battle & Winn in this practice area include:

- *United States ex rel. Fite v. Aperian Laboratory Solutions, et al.* (N.D. Ala.). Relator's counsel in ongoing False Claims Act matter, which has recovered more than $6 million for the United States.
- *Other matters remain under seal until final approval of pending settlements.*

Business & Commercial Litigation

We are experienced lawyers who handle business litigation nationwide. We prepare to win every case at trial, but we approach business cases with a business mindset. We create smart litigation strategies and recognize that not every dispute demands long, protracted litigation. We work with our clients to find a strategy that fits. While many matters were resolved according to settlement agreements that included confidentiality provisions, we have obtained multi-million-dollar recoveries for our clients.

Insurance Coverage Litigation

We represent policyholders when their insurance companies will not honor their agreements. Battle & Winn lawyers litigate coverage disputes for business and individuals, including bad faith denials of legitimate claims. We work to ensure our clients receive the insurance coverage they paid for and deserve. We regularly litigate and win cases where tens of millions of dollars are in dispute.

Litigation for Individuals

We believe individuals should have access to the civil justice system at the same high level as businesses. Battle & Winn represents our individual clients with the same creativity and intensity as our business clients. We regularly litigate non-compete and non-solicitation clause cases, shareholder direct and derivative cases, fraud cases, business dissolutions, and cases involving serious injury or wrongful death. We have obtained settlements and judgments worth millions of dollars to our clients. Battle & Winn lawyers represented more than 300 opt-out class members in cases against Allianz and resolved those cases in our clients' favor.

Estate Litigation

Sadly, when a family member dies, a family can be torn apart rather than brought together. Battle & Winn lawyers have represented families in disputes where substantial assets hang in the balance. We can litigate your will dispute, protect your interests, and maximize the assets of the estate. We have litigated will contests throughout Alabama, and all the way to the Alabama Supreme Court.

Issues, Appeals, and Special Matters

Battle & Winn lawyers are fully prepared to litigate every case through trial and appeal. We have significant experience in front of the Alabama Supreme Court, the Federal Courts of Appeals, and the Supreme Court of the United States. We believe that great appeals begin at the trial and pre-trial levels, and we prepare our cases with that in mind. Battle & Winn lawyers also can be retained post-verdict to litigate issues and appeals in state and federal appellate

courts. We will identify issues on which you can succeed, brief your appeal, and argue your case before the appellate courts.

Battle & Winn lawyers have been retained as counsel by special investigation committees, boards of directors, and government and regulatory bodies. We have litigated election law contests, including a disputed United States Senate election. We hold ourselves to high standards of ethics and competency, and we work discreetly to protect our clients' interests.

Members of the Battle & Winn Team

Relied on by clients and co-counsel. Respected by judges. Highly rated by our peers.

Robert E. Battle

B.A., Political Science (Yale College, 1992); J.D. (Vanderbilt Law School 1995). Law clerk (1995-'96) to Hon. Ira DeMent, U.S. District Judge for the Middle District of Alabama.

Battle & Winn lawyer Bob Battle is a founding partner in the firm. Mr. Battle's practice has focused primarily on business and commercial litigation, and he also has significant experience in class actions and complex litigation, personal injury, and wrongful death cases. Mr. Battle is admitted to practice in Alabama state and federal courts; the U.S. District Court for the District of Colorado; the U.S. District Court for the Central District of Illinois; the Northern District of Alabama Bankruptcy Court; and the Fifth and Eleventh Circuit Courts of Appeals. Bob also has been admitted *pro hac vice* in courts in Florida, Delaware, Oklahoma, Louisiana, Mississippi, and Pennsylvania.

Mr. Battle was an appointed special deputy Attorney General for the Alabama Department of Mental Health and Mental Retardation and led the defense of ten wrongful death and personal injury cases filed against the Department, its Commissioner, and its employees. Mr. Battle has tried complex litigation matters to successful verdicts. Bob also has significant appellate experience, including obtaining favorable rulings from appellate courts to uphold verdicts he won at trial.

Since 2005, Mr. Battle has been AV-rated by Martindale-Hubbell. Since 2010, Bob has been consistently recognized as an Alabama "Super Lawyer"—a recognition limited to only 5% of Alabama lawyers each year. *B-Metro* magazine has recognized Bob as one of the top lawyers in Birmingham in since 2010.

Mr. Battle grew up in Huntsville, Alabama. He is married to Brooke Tanner Battle, and they have two daughters. When not spending time with his family, Mr. Battle serves as the president of the Yale Club of Alabama and on the board of directors for Impact Alabama. He is the a past chair of the Federal Practice Section of the Birmingham Bar Association, serves as a member of the Birmingham Bar Foundation board of directors, and has served on the executive committee of the Birmingham Bar Association. Mr. Battle is a member of The Kiwanis Club of Birmingham. Mr. Battle has been honored with selections to the Project Corporate Leadership class of 1999, the Birmingham Business Journal "Top 40 Under 40" class of 2001, the Alabama State Bar Leadership Forum class of 2006, the Leadership

Birmingham class of 2012, and the Leadership Alabama Class of 2018. He also previously has served on the Alabama State Bar Young Lawyer's Executive Committee, and the Birmingham-Southern College President's Advisory Council.

Harlan F. Winn IIII

B.A., Economics (Washington & Lee University, 1990); J.D., *summa cum laude*, (Cumberland School of Law at Samford University, 1994). In law school, Mr. Winn was awarded the Dean's Scholarship, elected to the Honor Court, and was an editor of the *Cumberland Law Review*. Law clerk (1994-'95) to Hon. Edwin L. Nelson, United States District Judge for the Northern District of Alabama.

Battle & Winn lawyer Harlan Winn is a founding partner in the firm. Mr. Winn is licensed to practice in the state and federal courts of Alabama and Mississippi, and the Fifth and Eleventh Circuit Courts of Appeals. He has appeared *pro hac vice* in courts in Florida, Georgia, Louisiana, Tennessee, California, Delaware, Pennsylvania, and Oklahoma.

Mr. Winn has served both as class counsel and lead defense counsel in state and nationwide class actions. Mr. Winn's practice focuses on complex litigation, business litigation, estate litigation, and insurance coverage disputes. Mr. Winn's clients include individuals, privately held companies, and publicly-traded corporations. He represents these clients as plaintiffs and defendants in cases in federal and state courts nationwide. Mr. Winn is rated AV by Martindale-Hubbell, and is recognized as an Alabama "Super Lawyer"—a recognition limited to only 5% of Alabama lawyers each year. Mr. Winn has been recognized as one of the top lawyers in Birmingham by *B-Metro* magazine since 2010.

Mr. Winn is a native of Pensacola, Florida. He and his wife, Gina, have four children. Harlan is a retired youth baseball, basketball, softball, and soccer coach. He has served on the Board of Directors of the Birmingham Golf Association. Harlan teaches youth Sunday school at Canterbury United Methodist Church. When time permits, he is an avid outdoorsman.

Adam P. Plant

B.A., Journalism and Mass Communication (Samford University, 1999); J.D. *cum laude* (The University of Alabama School of Law, 2003). While in law school, Mr. Plant was Editor in Chief of the *Alabama Law Review*. Law clerk to Hon. William H. Pryor Jr., United States Circuit Judge for the Eleventh Circuit.

Battle & Winn lawyer Adam Plant joined the firm in 2011 after spending six years at a national litigation firm based in Birmingham. As a law student, Mr. Plant authored *With a Little Help from my Friends: The Intersection of the Gestational Carrier Surrogacy Agreement Legislative Inaction, and Medical Advancement*, 54 Ala. L. Rev. 639 (2003), which has been cited by with approval by state and federal courts. Before entering private practice, Mr. Plant served as a Deputy Solicitor General for the State of Alabama. During his time working at the Office of the Alabama Attorney General, Mr. Plant litigated for the people of Alabama in state and federal appellate courts, including the Supreme Court of Alabama, the United States Court of Appeals for the Eleventh Circuit, and the Supreme Court of the United States, including at the cert

stage, merits briefing, and briefs *amicus curiae*. His reported decisions include *Nelson v. Campbell*, 541 U.S. 637 (2004); *Altherr v. State*, 911 So. 2d 1105 (Ala. Crim. App. 2004); and *Ex parte Med. Licensure Comm'n*, 897 So. 2d 1093 (Ala. 2004). In *McGinley v. Houston*, 361 F.3d 1328 (11th Cir. 2004), Mr. Plant represented the Justices of the Alabama Supreme Court in litigation concerning the removal of a 5,280-pound granite monument with the Ten Commandments engraved on it, which the former Chief Justice of Alabama installed.

Mr. Plant is admitted to practice in Alabama and the District of Columbia. He also is admitted to practice in federal courts in Alabama and before the United States Court of Appeals for the Eleventh Circuit. He has been admitted *pro hac vice* in the Southern District of California, Northern District of California, Northern District of Georgia, Eastern District of Missouri, Southern District of Florida, District of New Mexico, United States Courts of Appeals for the Eighth and Ninth Circuits, and state courts in California and Tennessee.

Mr. Plant has represented clients in antitrust, securities, and shareholder derivative cases; class actions; and complex litigation. He has represented small businesses, shareholders, members of the United States Armed Forces, doctors and medical associations, cattle ranchers, and row crop farmers in state and federal courts nationwide, including extensive experience in multidistrict litigation. Some of his matters included *McPhail v. First Command Fin. Planning, Inc.*, 247 F.R.D. 598 (S.D. Cal. 2007), 251 F.R.D. 514 (S.D. Cal. 2008); *Grimes v. Rave Motion Pictures Birmingham, LLC*, 552 F. Supp. 2d 1302 (N.D. Ala. 2008) (*Floyd v. Express Oil Change, LLC*), *rev'd sub nom, Harris v. Mexican Specialty Foods, Inc.*, 564 F.3d 1301 (11th Cir. 2009); *Carpenters Health & Welfare Fund v. Coca-Cola Co.*, 587 F. Supp. 2d 1266 (N.D. Ga. 2008); *Ex Parte Johnson*, 993 So. 2d 875 (Ala. 2008); *Utility Consumers' Action Network v. Sprint Solutions, Inc.*, No. 07-CV-2231 (S.D. Cal. May 12, 2010) (final settlement approval); *Feller v. Anthem Blue Cross*, No. 56-2010-00368587 (Ventura Co., Cal., Super. Ct. Aug. 26, 2011) (final settlement approval). In *In re Genetically Modified Rice Litig.*, No. 4:06-MD-1811 (E.D. Mo.), Mr. Plant helped develop litigation strategy, prepared merits experts, participated in mock trials, and actively participated numerous depositions as a lawyer for thousands of American rice farmers. He drafted motions, performed legal research, and shepherded discovery concerning numerous third parties, including USDA NASS. Mr. Plant also represented the plaintiff in a groundbreaking Title IX retaliation case, *Jackson v. Birmingham Bd. of Ed.*, No. 2:01-cv-01866 (N.D. Ala.), *on remand from*, 544 U.S. 167 (2005).

Mr. Plant represents *qui tam* relators in whistleblower litigation and other clients in matters including prosecuting and defending personal injury, fraud, financial services, and contract cases. He is rated AV by Martindale-Hubbell and, before he aged out of the category, Mr. Plant was named as an Alabama "Super Lawyers Rising Star"—a recognition limited to only 2.5% of Alabama lawyers under 40 each year. Mr. Plant has been recognized as one of the top lawyers in Birmingham by *B-Metro* magazine multiple times.

Mr. Plant grew up on a farm in Madison County, Alabama. He and his wife have three children. He served as a member of the Cahaba Heights Master Plan Steering Committee for the City of Vestavia Hills, and the Samford University Department of Journalism and Mass Communication advisory board. He is a graduate of the Alabama State Bar Leadership Forum,

chaired the Leadership Forum Program Committee, and is the vice-chair of the Alabama State Bar Long Range Strategic Planning Task Force. Mr. Plant leads a Sunday school class for young professionals at Shades Mountain Baptist Church, where he is an ordained Deacon.

DECLARATION OF JOSEPH L. BELL, JR.

I, Joseph L. Bell, Jr., declare as follows:

1. I am a partner of Batts, Batts & Bell, LLP, located in Rocky Mount, North Carolina. Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Attached hereto is my firm's resume, which also includes biographies of all attorneys and a certified paralegal who submitted time in this matter.

4. Also attached is a list of representative complex cases that my firm has handled during the previous fifteen (15) years.

5. My firm assisted with locating, preparing pleadings for, and producing discovery for class representatives for the state of North Carolina. These undertakings were complicated by the withdrawal or dismissal of three North Carolina class representatives for various reasons, which required my firm to search for and find new class representatives and to help prepare and file pleadings for them well into this litigation. The new North Carolina class representatives are Benson and Russ, Inc., Mart Benson Farms, Inc. and Russ Company, Inc.

6. My firm and our timekeepers maintain contemporaneous records of our time and expenses in the ordinary course of business.

7. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

8. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

9. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

10. In re-reviewing the time entries, and in consultation with Co-Lead Counsel, I ensured that my firm is submitting time that qualifies as Common Benefit Work and edited out a substantial amount of time entries in an abundance of caution.

11. After this re-review, I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

12. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $62,192.00. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	McKellar, Joseph	Associate	122.20	$200.00	$24,440.00
2.	Batts, Jeffrey	Partner	97.10	$280.00	$27,188.00
3.	Bell, Joseph	Partner	30.20	$260.00	$7,852.00
4.	Cottle, Jennifer	Paralegal	23.40	$80.00	$1,872.00
5.	Batts, Michael	Partner	2.00	$300.00	$600.00
6.	Smith, Michael	Associate	1.20	$200.00	$240.00
	TOTALS		276.10		$62,192

13. My firm seeks $380.22 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	$153.22
12	Lexis/Westlaw/Bloomberg	$27.00
14	Court Fees	$200.00
	TOTAL	**$380.22**

14. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

15. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 9th day of July, 2018, in Rocky Mount, North Carolina.

/s/ Joseph L Bell, Jr.
Joseph L. Bell, Jr.

BATTS, BATTS & BELL, LLP

HISTORY AND OVERVIEW OF THE FIRM

Batts, Batts & Bell, LLP was founded in 1980 by the late Jeff. D. Batts, and has been in continuous operation since that time. The firm takes pride in its history of providing valuable, quality services to its clients in a broad range of business and personal needs. We help clients anticipate and avoid problems, resolve disputes, and achieve their business and individual goals. We value our relationship with each client and dedicate our best resources to each matter in order to arrive at a positive resolution.

Our attorneys and other legal professionals are involved in professional organizations, volunteer groups, and committees that are focused upon and lead our industry's areas of service and expertise. We emphasize involvement and leadership in our respective fields.

The firm's office is located at 103 Candlewood Road, Rocky Mount, North Carolina. We have a staff of twelve, including six attorneys and three legal assistants.

The firm is engaged in a widely diversified practice which includes both litigation and commercial matters. Specific areas of practice include: general civil and commercial litigation, estate planning and administration, trust administration, tax litigation, business and corporate law, labor and employment law, state and federal criminal defense, family law, estate and fiduciary litigation, personal injury litigation, professional malpractice litigation, and dispute resolution including mediation and collaborative law.

ATTORNEYS

The firm's attorneys, for the most part, have areas of specialization and interest. The following list identifies the firm's attorneys, their respective backgrounds, and areas of interest and/or expertise.

Michael S. Batts

Michael S. Batts is a partner in the firm and primarily handles matters involving estate planning, estate and trust administration, federal and state taxation, and tax-exempt organizations. Mike's clients come from a wide area of eastern North Carolina. Mike has consulted with clients on estates of all sizes, from very large to rather modest. He also represents clients before IRS and North Carolina tax departments in audits and other reviews. Mike spends a good portion of his practice in estate planning, but also works with businesses and individuals on a variety of federal and state tax issues outside the estate and inheritance tax fields.

Mike is a native of North Carolina, born and raised in Rocky Mount. He graduated from Wake Forest University in 1980 with a B.S. in Business and a B.A. in Chemistry. After graduating from college, he worked as an industrial engineer for Blue Bell, Inc., for four

years in the Shenandoah Valley area of Virginia. Mike then returned to Wake Forest University and graduated from Wake Forest University School of Law in 1987. Mike then attended the University of Florida and received a degree of Masters of Laws in Taxation in 1988 before returning to Rocky Mount to practice law with his father.

Mike is admitted to practice before all state courts in North Carolina as well as the United States Tax Court. He was recognized by the North Carolina State Bar as a specialist in Estate Planning and Probate Law in November of 1995, and still retains his certification. Mike is also a member of state and local professional associations, the East Carolina Estate Planning Council, and the Eastern North Carolina Inn of Court.

Email: mikebatts@battslaw.com
Practice Areas: Estate Planning and Administration, Trust Administration, Tax Litigation
Bar Admissions: North Carolina, United States Tax Court
Bar Certifications: Estate Planning and Probate Law Specialist

Jeffrey A. Batts

Jeffrey A. Batts is a partner in the firm and handles a wide range of business, corporate, and civil litigation matters. Jeffrey's recent cases include: a number of closely held business disputes, including litigation between owners of a four closely held businesses resulting in a settlement and buyout of the minority shareholder; representation of 110 victims of an investment advisor who defrauded his clients of more than $12 million; defense of claims against one of the five primary defendants in the catastrophic explosion of a West Pharmaceutical plant in Kinston, North Carolina that resulted in several deaths and serious injuries with damages exceeding $50 million; ERISA and state law fraud and related claims for more than $10 million against a fiduciary arising from a profit sharing plan and related estate administration; representation of propounders and caveators in several caveat proceedings involving estates having asset values up to $25 million; defense of an ambulance service provider in the United States District Court against Medicare fraud claims of several million dollars, and pursuit of a related claim in the federal courts against a medical records service company that provided billing services to the provider; disputes involving estate administration; business disputes involving employment, non-competition, unfair and deceptive business claims practices, and trade secrets claims; real property disputes; and appeals arising from these.

In addition to matters in litigation, Jeffrey's practice involves a substantial amount of advice to businesses and the principals and owners of those businesses. Jeffrey has organized a large number of businesses, with emphasis on the form of business, ownership structure, and succession and forward-looking planning for relationships among principals and owners.

Jeffrey became a Certified Public Accountant in 1983, and kept his license active until 2006. His experience in the financial aspects of a wide range of businesses provides him with a valuable background in understanding the challenges faced by businesses today.

Jeffrey is a native of North Carolina, born and raised in Rocky Mount. He graduated from Wake Forest University in 1981 with a B.S. in Accounting, and graduated *cum laude* from Wake Forest University School of Law in 1986, where he served as Managing Editor of the Wake Forest Law Review. Jeffrey worked with Brooks, Pierce, McLendon, Humphrey & Leonard in Greensboro from 1986 to 1990 before returning home to join in practice with his father and brother. He is admitted to practice before all state and federal courts in North Carolina as well as the United States Tax Court, and was admitted to the United States Supreme Court Bar in 2001. Jeffrey is also a member of several state and local professional associations, the Eastern North Carolina Inn of Court, is Vice-Chairman of Nash UNC Hospitals and a founder, director and officer of North Carolina Civil Collaborative Law Association.

Joseph L. Bell, Jr.

Joseph L. Bell, Jr. is a partner in the firm and handles a wide range of criminal and civil litigation matters. Joe typically handles serious felony cases in both state and federal courts, capital and non-capital murder cases in both state and federal courts, medical malpractice and serious personal injury matters, domestic matters related primarily to the equitable distribution of significant marital estates, guardianship matters, estate litigation, other general litigation matters, and appeals.

Joe is a member of the North Carolina State Bar and the 7th Judicial District Bar. He is also a member of the American Bar Association, North Carolina Bar Association [Sections: Family Law and Criminal Justice (Criminal Justice Section Council Member 2003-2006)], Nash-Edgecombe Counties Bar Association (President 1998-2003), North Carolina Academy of Trial Lawyers [Sections: Family Law and Professional Negligence], National Association of Criminal Defense Lawyers, and the Eastern North Carolina Inn of Court.

Joe graduated from the University of North Carolina at Chapel Hill in 1984 with an A.B. in Zoology. After several years working in sales, Joe returned to law school, graduating from Wake Forest University School of Law in 1991. While in law school, Joe served as the Managing Editor of the Wake Forest Law Review. Upon his graduation, Joe spent two years clerking for the Honorable Hiram H. Ward, United States District Judge, Middle District of North Carolina. After completing his clerkship in 1993, Joe came to Rocky Mount to join the practice of his father-in-law and brothers-in-law. He is admitted to practice before all state and federal courts in North Carolina, the United States Court of Appeals for the Fourth Circuit, and was admitted to the United States Supreme Court Bar in 2001. Joe is also admitted to practice before the United States Tax Court.

Practice Areas: Criminal Defense, General Civil Litigation, Family Law, Estate and Fiduciary Litigation
Bar Admissions: All State and Federal Courts in North Carolina, United States Tax Court, 4th Circuit Court of Appeals, Unites States Supreme Court

Michael R. Smith, Jr.

Michael R. Smith, Jr. joined the firm in 2008 and works primarily in the areas of criminal defense, family law, employment law, and general civil litigation. Mike regularly represents clients on a variety of criminal matters throughout Eastern North Carolina, from routine traffic tickets up to and including first degree murder. Mike also devotes a significant portion of his practice to representing clients on a variety of family law issues such as child custody, child support, spousal support, property division, separation, divorce, and domestic violence matters. The remainder of Mike's practice is devoted to civil litigation, with a focus on employment related issues. Mike has represented both employers and employees regarding a variety of issues such as sexual harassment, age discrimination, wrongful termination, and matters before the U.S. Equal Employment Opportunity Commission (EEOC).

Mike is a member of the North Carolina State Bar and the 7th Judicial District Bar. Mike is also a member of the North Carolina Bar Association as well as the North Carolina Advocates for Justice with membership in the criminal law, family law, and employment law sections. Mike is admitted to practice in all North Carolina state courts as well as the Federal District Court of the Eastern District of North Carolina.

Mike was born in Rocky Mount and raised in Hobgood, NC. After graduating high school, Mike enlisted in the United States Air Force where he served with the Air Force Security Forces for several years guarding aircraft and performing law enforcement related duties. Mike had the opportunity to live in various locations during his service including: California, Texas, New Jersey, South Korea, and Saudi Arabia. After leaving the military, Mike returned to North Carolina to work as a police officer with the Wilson Police Department before returning to college on a full time basis. In 2004, Mike graduated *summa cum laude* from North Carolina State University with a B.A. in Criminology. Shortly thereafter, Mike enrolled in law school at the University of North Carolina at Chapel Hill, graduating in May 2008.

PARALEGALS

Jennifer R. Cottle

Jennifer is a certified paralegal who joined the firm in 2007 and assists primarily in civil litigation and corporate matters. She is a North Carolina State Bar Certified Paralegal and has been working in the legal field since 1999. She obtained her paralegal certification in 2014, her Associate of Science Degree in Paralegal Technology from Wilson Community College, Wilson, NC in 2014, and her Bachelor of Science Degree in Business Administration from North Carolina Wesleyan College in 2016. She is in the process of obtaining her Associate of Science Degree in Accounting from Wilson Community College.

Jennifer currently serves as an Item-Writer for the North Carolina State Bar Paralegal Certification Exam and is a member of the North Carolina Paralegal Association. She also serves on the Advisory Committed to the Paralegal Technology Program and the Structured Programs of Study Subcommittee of Completion by Design at Wilson Community College in Wilson, North Carolina.

BATTS, BATTS & BELL, LLP

Representative Complex Cases:

Represented more than one hundred plaintiffs in litigation against investment manager who fraudulently procured investments in a number of real estate ventures. After several years of pretrial litigation, the firm secured a settlement of all available and recoverable funds from those investments for the benefit of the firm's clients, which represented more than 80% of the affected parties.

Represented the executor of an estate valued at over $20 million against a will caveat brought by beneficiaries of the decedent's prior will. After a month long trial, appeals to N.C. Court of Appeals and the N.C. Supreme Court, the firm secured a settlement favorable to our client.

Represented a multi-national chemical supplier who was one of five primary defendants in a case involving an explosion at a large manufacturing facility, resulting in six deaths and thirty-eight injuries and damages claimed in excess of $50 million. The client's product was alleged to be a primary cause of the explosion. After several years of pretrial litigation, the firm secured a settlement favorable to our client.

Represented car dealership against national finance company who wrongfully withheld servicing fees from firm's client. At trial before an appointed complex business judge, recovered significant verdict against defendant on behalf of firm's client which included an award of attorney's fees and costs. The verdict was upheld in appeal before the N.C. Court of Appeals and appellate review was denied by the N.C. Supreme Court.

Represented ambulance transport service in federal court action by United States to recover several million dollars for alleged Medicare fraud. Negotiated settlement allowed client to continue its business and pursue related claim by client against third-party medical billing company that resulted in a favorable settlement for the client.

Represented minority shareholder sued by majority shareholder for alleged fraud involving $8 million actual damages for fraud and other matters involving four companies, three co-owned. Following several years of pre-trial litigation, negotiated settlement with no liability for client and favorable cash purchase of all interests in co-owned companies and retention of fourth company solely owned by client.

Representing charitable bequest beneficiary with $6.4 million interest in estate and profit-sharing plan in federal court against fiduciary of estate and profit-sharing plan who failed to make distributions in accordance with plan and fiduciary responsibility on ERISA and state law claims; case involves more than 19 parties and is ongoing.

Represented plaintiff in sexual harassment case against large national corporation. Just prior to trial, successfully secured a significant settlement for firm's client.

DECLARATION OF SCOTT E. BRADY

I, Scott E. Brady, declare as follows:

1. I am a partner of Bohrer Brady, LLC ("Bohrer Brady"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Bohrer Brady is a Louisiana law firm that primarily represents individuals and companies who have been injured or suffered losses by the fault of another. The firm practices in the areas of personal injury, mass torts, class actions, pharmaceutical and medical device litigation,

wage and hour and consumer law. Bohrer Brady has been involved in numerous MDL and mass tort litigations including representing both producers and non-producers in *In re Genetically Modified Rice Litigation*, MDL 1811 (E.D. Mo.).

4. Attached to my declaration is my resume.

5. I received a Bachelor of Arts from Louisiana State University in 1994 before attending Southern University Law Center, where I graduated as Valedictorian of my law school class. I have been admitted to practice law in Louisiana since 1998. I am in good standing and admitted to practice before the following United States District Courts and Courts of Appeal: Middle District of Louisiana; Western District of Louisiana; Eastern District of Louisiana; Fifth Circuit Court of Appeals; Eastern District of Michigan; Eleventh Circuit Court of Appeals; District Court of Colorado; Western District of Texas; Northern District of Texas; Western District of Oklahoma; District Court of North Dakota; District Court of New Mexico; Southern District of Texas; Eastern District of Arkansas; Sixth Circuit Court of Appeals; and Northern District of Indiana.

6. My role in the instant litigation was focused on non-producers. As such, I participated in drafting, editing and reviewing various pleadings including the original, amended and Master complaints and discovery to the defendants. I also participated in drafting and editing master responses to discovery responses, in addition to responding to individual discovery requests from our client, Winnsboro Elevator, who was serving as a class representative. In responding to the defendants' class discovery, I collected, reviewed and produced thousands of documents in both paper and electronic form. I also produced Winnsboro Elevator as a class representative for a two-day deposition.

7. As part of our practice, Bohrer Brady maintains contemporaneous time and expenses.

8. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

9. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

10. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

11. Although paralegals, legal assistants and other attorneys of Bohrer Brady participated in the litigation on behalf of a class representative, their time was not included in the firm's common benefit submission.

12. After this re-review, I can confirm that this time was undertaken by myself. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $42,210.00. A breakdown of the lodestar is provided below.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Brady, Scott	Partner	120.60	$350.00	$42,210.00
	TOTALS		120.60		$42,210.00

14. My firm seeks $5,022.28 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
6	Outside Photocopying	$480.48
11	Deposition Costs	$1,641.80
14	Court Fees	$400.00
18	Miscellaneous	$2,500.00
	TOTAL	**$5,022.28**

15. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

16. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 10th day of July, 2018, in Baton Rouge, Louisiana.

DECLARATION OF CHRISTOPHER M. ELLIS

I, Christopher M. Ellis, declare as follows:

1. I am a Managing Partner of Bolen Robinson & Ellis, LLP ("BRE Law"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Since BRE Law's formation in 2004, my co-managing partner, Jon D. Robinson, and I have served as lead counsel and/or co-counsel or liaison counsel on numerous complex

litigation cases in both State and Federal Courts throughout the country. Many of the timekeepers contained herein also played pivotal roles in those cases.

4. Attached to my declaration is my law firm's Curriculum Vitae ("CV"), which lists many representative complex litigation cases where Jon or I served as lead counsel and/or co-counsel or liaison counsel.

5. Below is a list of each timekeeper contained on BRE Law's time submission documents, along with relevant background on each timekeeper. In order, the time keepers contained herein are: (a) Jon D. Robinson; (b) Christopher M. Ellis; (c) Shane M. Mendenhall; (d) Matthew C. Spain; (e) Joshua G. Rohrscheib; (f) L. Drew Hickey/Lea Jacobs; (g) Nrupa Patel; (h) Zachary T. Anderson; (i) Sandra Jones; (j) Donna Whitsett; (k) Lori Stephens; (l) Dawn Nichols.

(a) **Jon D. Robinson:** Jon is the senior partner and founding member of BRE Law. Over his 45+ years of practicing law, Jon has tried numerous cases to verdict, including, as outlined in the firm's CV, serving as class counsel for the Plaintiffs in numerous complex litigation/class action cases throughout the country.

(b) **Christopher M. Ellis:** Chris is the managing partner and founding member of BRE Law. After graduating from Georgetown University School of Law and practicing in large firms in Washington D.C. and Chicago, Chris returned to Decatur, Illinois and became a founding partner of BRE Law. Since founding the firm in 2004, Chris has directed and controlled BRE Law's complex litigation practice. A representative list of complex litigation cases where Chris served as class counsel is attached to the firm's CV. Here, Chris was selected to serve on the Executive Committee. In this capacity, Chris directed and controlled the firm's effort to prosecute this case on behalf of the class, while directly working with co-lead counsel to complete all

assigned work and responsibilities. As described more fully below, these responsibilities including defending numerous depositions, assisting an expert witness in calculating a damage formula, analyzing Syngenta's conduct under the purview of the World Trade Organization, working with and updating the Illinois class representatives regarding all aspects of the litigation, and working with Analytics LLC both on submitting the class notice to all farmers nationwide ("notice project") and tracking all exclusions from the class after notice was submitted ("exclusion project"). A full list of the assigned work and responsibilities is contained herein in Paragraph 6.

(c) **Shane M. Mendenhall:** After graduating from the Oklahoma City College of Law and joining BRE Law approximately 10 years ago, Shane has played an instrumental role in BRE Law's complex litigation practice. In this case, Shane played a variety of pivotal roles, including serving on the document review team at the request of leadership, which required him to review thousands of documents produced during discovery on the computer program Relativity.

(d) **Matthew C. Spain:** Matt graduated from Southern Illinois University College of Law. Like Shane, Matt served on the document review team. Throughout the course of the litigation, Matt expended many hours reviewing thousands of documents produced during discovery on the computer program Relativity.

(e) **Joshua G. Rohrscheib:** Josh graduated from the University of Illinois College of Law. After working at a large, multi-national law firm in Washington D.C., Josh returned to his hometown of Decatur, Illinois, and eventually joined BRE Law. In this case, Josh spent a significant amount of time assisting our local class

representative and bellwether plaintiffs respond to discovery requests from Syngenta and assisted in their deposition preparation and defending the actual depositions.

(f) **L. Drew Hickey/Lea Jacobs:** Drew is a Partner at BRE Law. Because of her past work related to international law and specifically the scope and enforcement of international treaties, Drew worked with Chris to research and draft a legal memorandum for leadership related to Syngenta's conduct and its relation to country obligations under the WTO.

(g) **Nrupa Patel:** Nrupa joined BRE Law in 2017, so her work here was limited to assisting in preparing a declaration for Russell Simmons of Analytics, LLC concerning class exclusions in July 2017.

(h) **Zachary T. Anderson:** Zach graduated from the University of Illinois College of Law and worked at BRE Law throughout law school. In addition to assisting local class representatives and bellwether plaintiffs respond to discovery, Zach, as described in paragraph 6, spent a significant amount of time working on what has been called the "Exclusion Project," a project assigned by co-lead counsel. This project required Zach to work jointly with Analytics LLC (the assigned class notice administrator) to track all individual exclusions from the class. While working with Analytics, Zach helped streamline exclusion tracking, which significantly alleviated the need for the class to expend attorney time on tracking individual exclusions.

(i) **Sandra Jones:** Sandy started with BRE as an accounts' manager in 2004 and retired from that role in 2018. Sandy's role in this matter was limited to coordinating production of plaintiff fact sheets in 2015.

(j) **Donna Whitsett:** Donna has worked in the legal field for nearly 43 years, serving as long-time paralegal to Jon D. Robinson. She has served as the lead paralegal on virtually of the complex litigation cases contained on the firm's CV. In this case, Donna primarily assisted in helping our assigned class representative and bellwether plaintiffs respond to discovery requests.

(k) **Lori Stephens:** Lori has been a paralegal for approximately 29 years, 7 of which have been at BRE Law. Since joining our firm, Lori has played a pivotal role on our complex litigation cases. Here, Lori spent a significant amount of time coordinating discovery on behalf of our class representative and bellwether plaintiffs, while working on many administrative tasks.

(l) **Dawn Nichols:** As a legal assistant, Dawn performed many administrative tasks and did some spot document coding in Relativity in late 2015.

6. During the course of the litigation, BRE Law expended a significant amount of time on seven primary issues, all of which are discussed below: (a) depositions; (b) document review; (c) discovery; (d) notice project; (e) damage models; (f) exclusion project; (g) WTO/Legal research.

(a) **Depositions.** I personally defended six depositions on behalf of class representatives and bellwether plaintiffs, including depositions for plaintiffs Steven Wentworth, Roger White, Dave McDonald, Chuck Fulkerson, Kenneth Kennedy, and Jim McKinney. At the request of leadership, I also attended five depositions scheduled in the Minnesota case to serve as a representative on behalf of class counsel. Following each deposition, I reported to leadership regarding the strategies developed during those depositions.

(b) **Document Review.** Two BRE Law attorneys, Shane Mendenhall and Matthew C. Spain joined the document review team. This required training in Kansas City. Both spent a significant amount of time reviewing documents produced by Syngenta and others during the discovery process, with a goal of identifying relevant documents for pleadings, trial, etc.

(c) **Discovery.** As more fully described in paragraph 7 of this declaration, my firm was in charge of responding to discovery request for plaintiffs Wentworth, White, McDonald, Fulkerson, and Kennedy. To say the least, responding to many of the discovery requests was very time consuming. Obtaining old sales documentations was especially difficult, as we found that many grain elevators were more included to "assist" a farmer than an attorney since many farmers either did not maintain their sales documentation or had trouble finding all of the documents. Moreover, many of the documents we received from our clients were in bulk, requiring us to go through each document to determine whether it was subject to a discovery request by Syngenta. BRE Attorneys spent hundreds of hours on this project.

(d) **Notice Project.** At the direction of lead counsel, I worked with class action notice administrator Analytics LLC to propose the nationwide class notice. This required detailed coordination with the FSA in order to acquire addresses of individuals and entities entitled to receive notice. We also had to work through individual firm client lists to determine what individuals were not to receive class notice. In addition, objections to the notice were filed by various firms, necessitating constant edits to the original proposed notice plan. After notice was sent, I personally worked with Analytics to prepare a consistent and coordinated response to questions and

comments received from class members. I made multiple trips to Minnesota to oversee this process and personally spoke with numerous producers from all over the country.

(e) **Damage Models.** I assisted the plaintiff's experts in preparing damage models on behalf of Illinois class members. At least some of the experts Illinois damage models were based on documentation provided by local class representatives during the discovery phase.

(f) **Exclusion Project.** Following the verdict obtained on behalf of the Kansas class, lead counsel asked BRE to prepare a list of all class members (1) who were excluded from the class because of ongoing litigation in Minnesota or representation by one of 12 identified law firms and (2) who opted out of the class following the procedures set in place in the class notice. What began as a relatively straightforward task quickly snowballed into a time intensive and at times contentious process. With ongoing settlement talks in the background, BRE navigated various potential pitfalls to cordially work with law firms from across the country to properly identify what producers were truly not part of the class or otherwise not entitled to receive benefits. Working in conjunction with the notice provider Analytics, BRE was able to put together state-by-state lists that were on average over 98% accurate, which allowed the class damage experts to accurately calculate the total damages suffered by the class by state. As a demonstration of the broad scope of the work, Zach Anderson traveled to Minnesota to meet with Analytics and was ultimately given unfettered access to their internal database so he could help develop a better tracking procedure to use in this process. In total, BRE spent hundreds of hours on the exclusion project,

which played an important role in allowing the parties, including all of the various plaintiff groups, to reach a global settlement.

(g) **WTO/Legal Research.** BRE worked with leadership to respond to the motion to dismiss filed by Syngenta. We also conducted spot research at other times as requested by leadership. Importantly, BRE questioned whether Syngenta's conduct, and specifically its representations that it's seed would soon obtain Chinese approval, interfered with the ability of the US government to file a complaint with the WTO related to the disruption of trade resulting from Syngenta's early commercialization of MIR 162.

7. My firm worked with five class representative and bellwether plaintiffs: (a) Steven Wentworth; (b) Roger White; (c) Dave McDonald; (d) Chuck Fulkerson; and (e) Kenneth Kennedy. All five were deposed, with me defending the deposition. In addition, my firm spent a considerable amount of time responding to discovery requests received from Syngenta directed to each individual. As described below, each of the five individuals also spent many hours of their own time responding to those discovery requests.

(a) **Steven Wentworth.** Steve was selected as an Illinois class representative. In this capacity, Steve was deposed and responded to Syngenta's discovery requests, both in the form of Interrogatories and Requests to Produce. As reflected in my firm's billing records, his total deposition time, including preparation for and the actual deposition, amounted to 16 hours. During the discovery process, Steve personally corresponded with and traveled to grain elevators to obtain sales documentation, reviewed his own records, and corresponded with numerous third parties to obtain additional information, such as insurance documents. All told, Steve estimates that

he spent approximately 50 hours of his time responding to the discovery request, not including the aforementioned deposition time. As a result, Steve spent approximately 66 hours in pursuit of this litigation.

(b) **Roger White.** Roger was also selected as an Illinois class representative. Roger was deposed by Syngenta and, as reflected in my firm's billing records, spent a total of 11 hours preparing for and sitting through his deposition. During discovery, Roger personally corresponded with and traveled to grain elevators to obtain sales documentation, reviewed his own records, and corresponded with numerous third parties to obtain additional information, such as insurance documents. Roger estimates that he spent approximately 50 hours responding to discovery, not including deposition time. As a result, Roger spent approximately 61 hours in pursuit of this litigation.

(c) **Dave McDonald.** Dave was a bellwether plaintiff. In this capacity, Dave was deposed by Syngenta and asked to respond to discovery requests, both written and requests to produce. As reflected in my firm's billing records, Dave's deposition preparation and actual deposition amounted to 13 hours. During discovery, Dave personally corresponded with and traveled to grain elevators to obtain sales documentation, reviewed his own records, and corresponded with numerous third parties to obtain additional information, such as insurance documents. All told, Dave reasonably estimates that he spent approximately 25 hours on the discovery process, not including his deposition time. As a result, Dave spent approximately 38 hours in pursuit of this litigation.

(d) **Chuck Fulkerson.** Chuck was a bellwether plaintiff. In this capacity, Chuck was deposed by Syngenta and asked to respond to discovery requests, both written and requests to produce. As reflected in my firm's billing records, Chuck's deposition preparation and actual deposition amounted to 10 hours. During discovery, Chuck personally corresponded with and traveled to grain elevators to obtain sales documentation, reviewed his own records, and corresponded with numerous third parties to obtain additional information, such as insurance documents. Chuck was unable to provide an estimate on the amount of time he spent on recovery. However, considering the amount of documents he produced relative to the above individuals, we estimate that Chuck spent approximately 15 hours on the discovery process, not including his deposition. As a result, Chuck spent approximately 25 hours in pursuit of this litigation.

(e) **Kenneth Kennedy.** Ken was a bellwether plaintiff. In this capacity, Ken was deposed by Syngenta and asked to respond to discovery requests, both written and requests to produce. As reflected in my firm's billing records, Ken's deposition preparation and actual deposition amounted to 11 hours. During discovery, Ken personally corresponded with and traveled to grain elevators to obtain sales documentation, reviewed his own records, and corresponded with numerous third parties to obtain additional information, such as insurance documents. Ken was unable to provide an estimate on the amount of time he spent on recovery. However, considering the amount of documents he produced relative to the above individuals, we estimate that Ken spent approximately 15 hours on the discovery process, not

including his deposition. As a result, Ken spent approximately 26 hours in pursuit of this litigation.

8. During this litigation, BRE Law used a law practice management called Abacus. Abacus has a time billing program that allows users to keep time contemporaneously while work is done on a given project. The policy at BRE is for all attorneys to keep their time contemporaneously with their work.

9. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

10. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients, who were not either bellwether or class representative plaintiffs.

11. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

12. In re-reviewing our common benefit time and expense submissions, I cut any submission for matters that I deemed to be questionable as to whether it would fall under common benefit time or expense. For example, I had a health issue in 2016 which required me to be out of the office and directed a member of my team to review ECF filings on my behalf to keep me updated about the litigation. The time spent reviewing those ECF filings were initially billed for; however, on re-review, I ultimately determined that they likely did not fall within the allocated common benefit time. Moreover, if a meal receipt could not be produced, I permitted lead counsel to remove 1/3 of the expense from that particular meal receipt from my firm's expense reimbursement request.

13. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

14. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $1,744,392.50. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
Ellis, Christopher	Partner	1,256.00	$650.00	$816,400.00
Mendenhall, Shane	Partner	1,018.90	$425.00	$433,032.50
Anderson, Zachary	Law Clerk	599.50	$250.00	$149,875.00
Spain, Matt	Partner	346.30	$350.00	$121,205.00
Rohrscheib, Josh	Partner	338.40	$375.00	$126,900.00
Nichols, Dawn	Paralegal	252.10	$150.00	$37,815.00
Stephens, Lori	Paralegal	153.80	$150.00	$23,070.00
Whitsett, Donna	Paralegal	83.80	$150.00	$12,570.00
Robinson, Jon	Partner	25.20	$875.00	$22,050.00
Jacobus, Lea	Partner	2.80	$325.00	$910.00
Jones, Sandy	Paralegal	1.90	$150.00	$285.00
Patel, Nrupa	Partner	1.60	$175.00	$280.00
TOTALS		4,080.3		$1,744,392.50

15. Given our significant capital contributions and the amount of common benefit time my firm was spending on various assigned projects, I was hesitant to take on a substantial amount of additional work for fear of over-stretching our small firm.

16. My firm seeks $211,984.72 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Description of Category Code	Amounts
Federal Express / Local Courier	$59.00
Postage Charges	$208.58

Description of Category Code	Amounts
In-House Photocopying	$569.40
Hotels	$8,837.03
Meals	$3,007.46
Mileage	$2,503.02
Air Travel	$1,870.94
Deposition Costs	$1,670.44
Lexis/Westlaw/Bloomberg	$20.00
Witness and Expert Expenses	$2,094.60
Court Fees	$790.50
Service of Process Fees	$16.50
Ground Transportation	$286.76
Miscellaneous	$50.49
Litigation Fund Assessment	$190,000.00
TOTAL	**$211,984.72**

17. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

18. I am requesting expense reimbursement for capital contributions made by BRE Law to the litigation fund in the amount of $190,000.

19. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Decatur, Illinois.

BOLEN ROBINSON & ELLIS, LLP

Although officially formed in July 2004, the law firm of Bolen, Robinson & Ellis is the culmination of the merger and expansion of one of the oldest and most respected firms in Central Illinois. In 1971, Jon D. Robinson joined the law firm of Hull, Campbell & Robinson. In 2004, Mr. Robinson joined with T.G. Bolen and Christopher M. Ellis to form Bolen, Robinson & Ellis. Bolen, Robinson & Ellis is a full service law firm representing clients in various complex litigation matters, including complex class action litigation.

Jon D. Robinson practices primarily in the areas of commercial and class action litigation on behalf of plaintiffs. In addition, he has been involved as counsel for both plaintiffs and defendants in numerous major civil litigations, including commercial, labor relations, personal injury and products liability. A graduate of the University of Tennessee College of Law, Mr. Robinson has been practicing law since 1971. He has tried multiple cases to a verdict, successfully obtaining millions of dollars for his clients in awards and settlements and continues to litigate complex cases in Federal and State courts throughout the United States.

Mr. Robinson participated as co-lead counsel for plaintiffs in *Garza v. Remington Arms Company*, Civil Action No. SA-93-CA-1082, filed in the United States District Court, Western District of Texas, San Antonio Division. This case involved ten million class members who owned Remington Model 1100, Model 870 and Model 11-87 12-gauge shotguns. The Remington litigation led to a change of the steel barrels of the popular 12-gauge shotguns, which produced a safe product. This class action was the culmination of eighteen years of litigation from Mr. Robinson against Remington Arms Company involving defective 12-gauge shotguns which had caused numerous personal injuries, at a time when few, if any, others had been successful against Remington. Notable cases against Remington include, *King v. Remington Arms Company*, 89-CA-340-MR, Ky, Appellate Court (1990), which was upheld on appeal, through the filing of a

certiorari petition, by the United States Supreme Court; *Loitz v. Remington Arms Company*, 177 Ill.App.3d 1034, 127 Ill.Dec. 262, 532 N.E.2d 1091 (4th Dist. 1989); *Moore v. Remington Arms Co., Inc.*, 100 Ill.App.3d 1102, 56 Ill.Dec. 413, 427 N.E.2d 608 (4th Dist. 1981). Mr. Robinson also successfully settled a class action complaint on behalf of hundreds of retirees for employee benefits in *Bland, et al. v. FiatAllis North America, Inc. et al.*, Case No. 2002-cv-69 (United States District Court for the Northern District of Illinois, Eastern Division) (following reversal of summary judgment against his clients by the 7th Circuit) and *Carney, et al. v. FiatAllis North America, Inc., et al.*, Case No. 04-cv-002128I) (settled after appeal from the State of Wisconsin Court of Appeals District 1, No. 2006-AP-001529).

Mr. Robinson is licensed to practice in all courts for the State of Illinois. He is also admitted to practice before the United States District Courts for the Northern, Central and Southern Districts of Illinois, the Seventh Circuit Court of Appeals, the United States Supreme Court and a numerous other Federal District Courts throughout the United States.

Christopher M. Ellis has substantial experience representing plaintiffs and defendants in major civil litigation, including commercial, personal injury and products liability. He practices primarily in the areas of commercial and class action litigation on behalf of plaintiffs. A graduate of Georgetown University Law Center, Mr. Ellis has been practicing law since 2001.

Mr. Ellis is licensed to practice in all courts for the State of Illinois and was formerly admitted to practice before the District Court of Columbia Court of Appeals. He is also admitted to practice before the United States District Courts for the Northern, Central and Southern Districts of Illinois and the Seventh Circuit Court of Appeals.

Shane M. Mendenhall has an extensive practice of representing plaintiffs in complex litigation, including matters involving commercial law, consumer law, product defects and personal injury. He practices primarily in the areas of commercial and consumer class action

litigation on behalf of plaintiffs. A graduate of Oklahoma City University School of Law, Mr. Mendenhall has been practicing law since 2008.

Mr. Mendenhall is licensed to practices in all courts for the State of Illinois. He is also admitted to practice before the United States District Courts for the Northern, Central and Southern Districts of Illinois.

Mr. Robinson, Mr. Ellis and Mr. Mendenhall served or are currently serving as lead counsel and/or co-counsel or liaison counsel or on the executive committee on multiple class action cases in both State and Federal court, including the following representative cases:

In re IKO Roofing Shingles Products Liability Litigation, Case No. 2:09-md-02104-MPH-HAB (United States District Court for the Central District of Illinois, Urbana Division);

Tucker, et al. v. Soy Capital Bank and Trust Company, Case No. 09-CH-42951 (Circuit Court of Cook County, Illinois);

Vought, et al. v. Bank of America, N.A. et al., Case No. 2:10-cv-02052-MPM-DGB (United States District Court for the Central District of Illinois, Urbana Division);

Tom Kowa v. The Auto Club Group, et al., Case No. 1:11-cv-07476, (United States Court for the Northern District of Illinois, Eastern Division);

In Re: JPMorgan Chase Mortgage Modification Litigation, MDL 2290, 1:11-md-02290 (United States District Court for the District of Massachusetts);

In re: Groupon Marketing and Sales Practice Litigation, Case No. 11-md-2238-DMS-RBB, (United States District Court for the Southern District of California);

In re: Living Social Marketing and Sales Practices Litigation, Case No. 1:11-mc-04721-ESH (United States District Court for the District of Columbia);

In re: HardiePlank Fiber Cement Siding Litigation, MDL No. 2359 (United States District Court for the District of Minnesota);

In re: Dial Complete Marketing and Sales Practices Litig., No. 11-md-2263 (NH)

In re: Colgate-Palmolive Marketing Practices Litig., MDL No. 2320 (JPML)

Robert S. Melillo, et al. v. Building Products of Canada Corp., et al., Case No. 1:12-cv-00016-JGM (United States District Court for the District of Vermont);

Macon County, Illinois v. Merscorp, Inc., et al., Case No. 2:12-cv-02214-MPM-DGB (United States District Court for the Central District of Illinois, Urbana Division);

Macon County, Illinois v. Federal Housing Finance Agency, et al., Case No. 2:12-cv-02295-HAB-DGB (United States District Court for the Central District of Illinois, Urbana Division);

Moodie v. Remington, et al. No. 2:13-cv-00172-JCC (United States District Court for the Western District of Washington, Seattle Division);

Pollard v. Remington, et al., No. 4:13-cv-00086-ODS (United States District Court for the Western District of Missouri);

Ashley Energy, Inc., et al. v. L & J Producers, Inc., et al., Case No. 2009-MR-7 (Circuit Court for the Fifth Judicial Circuit of Illinois, Clark County); and

In Re: Syngenta AG MIR 162 Corn Litigation, MDL 2591, Case No. 2:14-md-2591 (United States District Court for the District of Kansas)

15. *Staninger v. Remington Arms*, No. CV9286M (Mont. 1992) (
16. *Clark v. Remington Arms Company*, No. SA 93 CA 993 (W.D. Tex. 1993) (settled)
17. *Janek v. Remington Arms Company, No.* 2:93-cv-0020JM (N.D. Ind. 1993) (settled)
18. *DeBruin v. Remington Arms Company*, No. 95-cv-4555 (W.D. Tex 1995)
19. *James Adams v. Remington Arms Company*, No. 93-L-17, Fayette County, Illinois
20. *See v. Remington Arms Company,* No. 3:13-cv-01765-BR, (D. Or. 2014) (mediated/settled)
21. *Yancey v. Remington Arms Co., LLC et al*, No. 1:12-cv-477 (M.D. NC) (settled)
22. *Henderson v. Remington Arms Co., LLC, et al*, No. 3:12-cv-00322-B, (N.D. Tx.) (settled)
23. *Pollard v. Remington Arms Co., LLC, et al.*, No. 4:13-cv-00086 (W.D. Mo. Jan. 28, 2013) (pending)
24. *Moodie v. Remington Arms Co., LLC, et al.*, No. 2:13-cv-00172 (W.D. Wash. Jan. 29, 2013) (pending)
25. *Huleatt v. Remington Arms Co., LLC, et al.*, No. 9:13-cv-00113-DLC (D. Mont. June 4, 2013) (pending)
26. *Chapman v. Remington Arms Co., LLC, et al*, No. 1:12-cv-24561-JEM (S.D. Fla. Dec. 31, 2012) (dismissed by Plaintiffs)
27. *Maxwell v. Remington Arms Co., LLC,* No. 1:10-CV-00918-UA-LPA (M.D. NC) (class action involving recall of 597 Remington rifles; dismissed)

In addition to the above litigation, Robinson has negotiated settlements for over 40 unfiled cases involving loss from Remington firearms.

Other Firearm Litigation

1. *Koby v. Star Ammunition and Sigarms*, No. 3:97CV-96S (W. D. Ky. 2003) (settled)
2. *Spencer, et al. v. American Arms, et al*., No. 4:99 CV 093-M (W. D. Ky. 2002) (Summary Judgment)
3. *Bellone v. Krieghoff*, et al., No. 96-0300-CA04, Indian River County, Florida (settled)

Class Action and Complex Litigation

In 1978 Mr. Robinson took on the first of many personal injury cases due to the failure of Remington Models 1100, 870 and 11-87 12-gauge shotguns. Over the next 18 years, Robinson would successfully litigate more than 20 Remington shotgun cases and negotiate the settlement of numerous others. Finally, in 1993, Robinson filed a class action against Remington involving its defective Model 1100, 870, and 11-87 12-gauge shotguns in an attempt to resolve the ongoing issues with these shotguns. That lawsuit, *Garza v. Remington Arms Co.*, No. 5:93-cv-01082 (W.D. Tex. 1993) involved approximately five million class members, and Mr. Robinson served as the lead counsel. After years of vigorous litigation, Mr. Robinson secured settlement for the plaintiff class members which included a change of the steel barrels in the popular 12-gauge shotguns.

As early as February, 2002, Mr. Robinson was contacted by a couple whose Remington Model 700 had discharged without a trigger pull. After investigating the incident, Mr. Robinson researched this malfunction at Kansas City by reviewing over 18,000 pages of Remington documents. This investigation revealed many customer complaints and ultimately culminated in the filing of class actions regarding the defective Remington product throughout the United States, including *Pollard v. Remington Arms Co., LLC, et al.*, No. 4:13-cv-00086 (W.D. Mo. Jan. 28, 2013).

Mr. Robinson also successfully resolved two class action complaints on behalf of hundreds of retirees for employee benefits. *See Bland v. FiatAllis North America, Inc.*, 401 F.3d 779 (7th Cir. 2005). In *Bland*, Robinson successfully appealed to the Seventh Circuit in this complex ERISA-related pension case and ultimately obtained a significant settlement for approximately 2000 Fiat-Allis retirees. *See also, Carney, et al. v. FiatAllis North America, Inc., et al.*, 04CV002128I, which was settled after appeal from the State of Wisconsin Court of Appeals District 1, No. 2006AP001529.

In 2009, Mr. Robinson was approached by a group of national class action firms to act as liaison counsel for *In re: IKO Roofing Shingles Prods. Liab. Litig*, No. 2:09-md-02104 (C.D. Ill), which is pending in the United States District Court for the Central District of Illinois (Urbana). In early 2010, the court approved the appointment of Mr. Robinson as liaison counsel, and since that time he has assisted in this complex litigation through numerous motions, hearings, and most recently a successful appeal in the Seventh Circuit. His role in the IKO case has expanded significantly since 2009, culminating in co-lead IKO counsel unanimously choosing him to present oral arguments in the two-day class certification hearing.

In addition to the above, Robinson has litigated numerous complex cases in Federal and State courts throughout the United States, and he has surrounded himself with a team of successful attorneys at BRE LAW to protect consumers and the public. These cases include the following:

1. *Bland v. FiatAllis North America, Inc.*, 401 F.3d 779 (7th Cir. 2005)
2. *Carney, et al. v. FiatAllis North America, Inc., et al.*, 04CV002128I
3. *In re: IKO Roofing Shingles Prods. Liab. Litig*, No. 2:09-md-02104 (C.D. Ill)
4. *Carlock v. Williamson, et al.*, No. 3:08-cv-03075 (C.D. Ill. 2014)
5. *Vought, et al. v. Bank of America, N.A., et al.*, No. 2:10-cv-02052 (C.D. Ill.)

6. *In re: Living Social Marketing and Sales Practices Litig.*, No. 1:11-mc-04721 (D. Columbia)
7. *Melillo, et al. v. Building Prods. of Canada Corp., et al.*, No. 1:12-cv-00016 (D. Vermont)
8. *Kowa v. The Auto Club Group*, No. 1:11-cv-07476 (N.D. Ill.)
9. *In re: JP Morgan Chase Mortg. Mod. Litig.*, No. 11-md-02290 (D. Mass.)
10. *In re: Groupon Market. and Sales Practice Litig.*, No. 11-md-2238 (S.D. CA) (currently on appeal)
11. *In re: HardiePlank Fiber Cement Siding Litig.*, MDL No. 2359 (D. Minn.)
12. *Macon County Illinois v. Merscorp, Inc. et al.*, No. 2:12-cv-02214 (C.D. Ill)
13. *Macon County Illinois v. Fed. Housing Finance Agency, et al.*, No. 2-12-cv-02295 (C.D. Ill)
14. *In Re Colgate-Palmolive Marketing Practices Litig.*,MDL No. 2320 (JPML)
15. *In Re Dial Complete Marketing And Sales Practices Litigation*, No. 11-md-2263-SM (D. NH)
16. *Hamilton County Illinois, et al. v. Trinity Industries, Inc.*, 3:14-cv-01320 (S.D. Ill.)
17. *IN RE: Syngenta AG MIR162 Corn Litigation*, MDL No. 2591 (JPML)

Professional Achievements

Mr. Robinson co-authored the Appellee's brief and successfully argued in the Illinois Supreme Court the case *Andrews, et al. v. Kowa Printing Corp., et al.*, 217 Ill.2d 101, 838 N.E.2d 894, 298 Ill.Dec. 1 (2005). Andrews is a seminal case under the Illinois Wage Pay and Collection Act that, among other things, clarified that corporate officers of defunct Illinois corporations cannot be held liable for unpaid wages when he or she was not in control of the corporation at the time the payments came due. This case provides significant protection to Illinois corporate officers and clarifies, for the first, certain provisions of the Wage Act.

The settlement in *Garza* accomplished the change in barrel steel for all Remington 12-gauge shotgun barrels, and as a result, the incidence of barrel bursts went from several hundred per year to zero for the new barrels.

Loitz v. Remington remains the seminal case on punitive damages in the State of Illinois.

As of 1991, the jury verdict of $6 Million in *King v. Remington* was the largest single personal injury verdict in the history of the State of Kentucky.

Community and Professional Membership and Activities

- Decatur Bar Association
- Illinois Bar Association
- Association of Trial Lawyers of America
- Illinois State Bar Committee for Civil Practice (1991-94)

BIOGRAPHY

Chris is the managerial partner and, along with Jon D. Robinson, a founding member of Bolen Robinson & Ellis, LLP. He graduated from Illinois Wesleyan University and Georgetown University School of Law with honors. Prior to starting BRE Law, Chris was an associate in the Washington, D.C. and Chicago offices of Ross Dixon & Bell, LLP (now Troutman Sanders). He is a member of various professional organizations and admitted to practice before multiple courts throughout the country.

Involved in nearly every practice area at BRE, Chris has become the central contact and go-to-person for a majority of the firm's clients. Clients routinely come to Chris with complex issues, whether related to litigation, business or family planning; in turn, Chris assembles the appropriate team at BRE to meet and exceed the client's expectations. Working closely with both the client and BRE team, Chris remains intimately familiar with the issues and typically takes the lead in negotiating a solution, litigating the matter in court or drafting the final documents needed to accomplish the client's goals.

One of Chris's primary roles is to direct and control the Firm's high stakes litigation. Chris has tried numerous cases on behalf of both plaintiffs and defendants and argued multiple times before the appellate courts. Representing both individuals severely injured or wronged by the misdeeds and frauds of another, as well as corporations defending themselves against claims of liability or seeking to enforce contractual rights, gives Chris a unique perspective in his approach to litigation, allowing him to see all cases from both sides. Recently Chris has become actively

involved in the prosecution of multiple class actions throughout the United States where he has served as lead counsel, liaison counsel and on various executive and steering committees.

Chris also serves as lead counsel for multiple local corporations. On a daily basis he advises business owners and professionals on matters varying from contract interpretation to employment issues. Chris's experience in the labor law arena runs the gamut from negotiating collective bargaining agreements to defending and pursuing unfair labor practice charges in front of the NLRB. ERISA is another area that Chris and his team at BRE have been extensively involved with, both on behalf of corporate clients and as counsel for union pension funds. In addition, Chris assists many of these clients and other of our community's most influential leaders with their personal and business estate succession plans.

Recognizing that being actively involved in one's community is not only a privilege but a duty, Chris has given countless hours of his time assisting those in need of support. Chris currently serves on the local United Way Board, where in the past he has held the roles of Chairman, Vice-Chairman and Campaign Chair. He is also actively involved with the St. Mary's Hospital Foundation Board, where he has served as Chairman, Vice-Chairman and on the Capital Campaign Committee. In the past Chris has served on various other civic boards and held varying titles and roles. All of his efforts have been geared towards making Decatur and the surrounding communities a better place for everyone, particularly those less fortunate.

Chris has been married 11 years to his beautiful wife and high school sweetheart, Kelli. Together they have three wonderful children – Nicholas, Ashlyn and Abigail. In his spare time Chris enjoys coaching every team that his kids play on, from baseball and football to softball and soccer.

Education

DECLARATION OF MATTHEW L. PRESTON

I, Matthew L. Preston, declare as follows:

1. I am an officer of Brady Preston Gronlund PC ("BPG"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. BPG has practiced in class action and complex litigation in state and federal courts in the State of Iowa and other jurisdictions. BPG's counsel noted below were co-counsel in *Rieff* v. *Evans,* No. CE 35780 (Iowa Dist. Ct., Polk County) (representing class of 200,000

mutual insurance policyholders in class and derivative action resulting in cash settlement of $100 million for class); and BPG was also counsel in the class action jury trial *Gutierrez* v. *Givens,* No. 667169 (Cal. Super.Ct., San Diego Cty.) (jury verdict in excess of $14 million for 19,000 member consumer class); and BPG also served as class counsel in the further matters noted below. BPG's attorneys have been counsel in the following proposed or certified class actions:

Gutierrez v. Tedder, No. 97-01218 (S.D. Cal)

Great Rivers Co-op. of Southeastern Iowa v. Farmland Ind., Inc., No. 96-2751 (S.D. Iowa)

In Re: Norand Sec. Litig., No. 95-00323 (N.D. Iowa) (co-counsel on behalf of plaintiffs)

OOIDA v Heartland Express, No. 01- 80179 (S.D. Iowa)

Townsend, et. al v. Templeton Rye Spirits, LLC, filed on October 3, 2014, in the Iowa District Court for Polk County, case number CVCV048581

Backhaus v. Syngenta Corporation, et. al, filed on November 18, 2014, in the United States District Court – Northern District of Iowa – Western Division, case number 5:14-cv-04108-DEO

Dennard v. Aegon USA LLC, et. al, filed on April 7, 2015, in the United States District Court – Northern District of Iowa – Cedar Rapids Division, case number 1:15-cv-0030-EJM

Gutierrez v. Givens, filed in the United States District Court – Southern District of California, case number 97cv1218B (JAH)

Rieff v. Evans, filed in the Iowa District Court for Polk County

Miller v. Remedy Intelligent Staffing, Inc., filed in the Iowa District Court for Linn County, case number LACV062766

Backhaus v. AG Processing Inc. a Cooperative, filed in the United States District Court – Northern District of Iowa – Western Division

Rakes v. Life Investors Insurance Company of America, filed on July 17, 2006 in the United States District Court – Northern District of Iowa – Cedar Rapids Division

Peterson v. Cottage Grove Place, Inc. et. al, filed on March 10, 2010, in the Iowa District Court for Linn County, case number LACV068465

Beard, et. al v. Toyota Motor Corporation, et. al, filed on March 12, 2010, in the United States District Court for the Southern District of Iowa – Davenport Division, case number 3:10-cv-00033-CRW-CFB

Haun, et. al v. Perry Comeau, et. al, filed on December 1, 2009, in the Iowa District Court for Fayette County, case number LACV052412

Murr v. Midland National Life Insurance Company, filed on August 11, 2010, in the United States District Court – Southern District of Iowa – Central Division, case number 4:10-cv-00369-JAJ-CFB

Inechien v. Nichols Aluminum, LLC, et. al, filed on March 18, 2011, in the United States District Court for the Southern District of Iowa – Davenport Division, case number 3:11-cv-00032-CRW-RAW

Legg v. West Bank, et. al, filed in the Iowa District Court in and for Polk County, case number CVCV008364, certification and appointment as Class Counsel upheld by the Iowa Supreme Court in Case No. 14-0692 (January 22, 2016)

4. Attached to this declaration is my law firm's resume.

5. Following is background on each BPG timekeeper who worked on common benefit work:

a. **Brad J. Brady** is a native of Anamosa, Iowa and currently lives in Cedar Rapids, Iowa. Mr. Brady has practiced law in Cedar Rapids, Iowa since graduation from law school in 1978. He practices primarily in the areas of personal injury, wrongful death, products liability and commercial litigation. He also serves as a civil litigation mediator and has mediated a variety of disputes, including in the areas of personal injury and wrongful death, insurance coverage, probate and estate planning, commercial and business, banking, real estate, employment and civil rights. Mr. Brady graduated from Cornell College in 1974, earning a Bachelor's degree in

philosophy, summa cum laude. He graduated from University of Iowa College of Law, with Distinction in 1978.

b. **Matthew L. Preston** practices primarily in the area of commercial litigation. Mr. Preston is a native of Cedar Rapids, Iowa. Mr. Preston attended the University of Iowa, where he received a Bachelor of Business degree in Economics, with honors. He received his law degree, with distinction, from the University of Iowa College of Law, in 1996. While in law school, he was one of four students of 230 selected to compete in the National Moot Court Competition. He also was a member of the Iowa Law Review, which included editing articles published in the nationally circulated journal. Mr. Preston is a Fellow in the Iowa Academy of Trial Lawyers, an organization devoted to trial practice and limited to approximately 3% of Iowa attorneys. Mr. Preston is also a member of the American Board of Trial Advocates, which invites attorneys who meet criteria of character, reputation, and jury trial experience. Mr. Preston is a member of the trial group – the Dean Mason Ladd Inn of Court and served as its President for 2014-15 and Counselor for 2013-14.

c. **Ann E. Brown**, formerly an attorney with BPG, is a native of Cedar Rapids Iowa. She attended Cornell College, where she graduated cum laude with a degree in Political Science. While at Cornell, Ms. Brown was inducted into the Phi Sigma Alpha Honor Society and given the Mark E. Hutchinson Scholarship for excellence in Political Science. Ms. Brown

attended the University of Iowa College of Law, where she graduated in 2004, with distinction. While in law school, Ms. Brown was selected to participate in the Van Oosterhout Memorial Moot Court Competition and later served on the Moot Court Board as a student judge.

d. **Kristine M. Reed** (f/k/a Kristine M. Bunger), paralegal, is a native of Waterloo, Iowa and practices primarily in the area of commercial litigation. Ms. Reed is a 1999 graduate of the paralegal program at Kirkwood Community College, in Cedar Rapids, Iowa and has been working as a paralegal for the past 19 years.

6. BPG represents Rod Backhaus, class representative for the Iowa class action lawsuit, and prepared and filed the Iowa class action Complaint. BPG prepared and submitted Mr. Backhaus Fact Sheet and related materials. BPG also assisted with reviewing and summarizing Stewardship Agreements relevant to this matter.

7. BPG maintains contemporaneous records of its time and expenses in the ordinary course of business.

8. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

9. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

10. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

11. I have exercised my billing judgment in the re-review of common benefit time and expenses, including any cuts that were made thereto.

12. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $14,909.50. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Bunger, Kristine	Paralegal	103.70	$120.00	$12,444.00
2.	Preston, Matthew	Partner	5.30	$275.00	$1,457.50
3.	Brady, Brad	Partner	3.00	$310.00	$930.00
4.	Brown, Ann	Partner	0.30	$260.00	$78.00
	TOTALS		112.30		$14,909.50

14. BPG dedicated the time submitted herein to common benefit work, which precluded BPG from working on other matters during those times.

15. My firm seeks $5,000.00 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
19	Litigation Fund Assessment	$5,000.00
	TOTAL	**$5,000.00**

16. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

17. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Cedar Rapids, Linn County, Iowa.

BIOGRAPHY OF BRADY PRESTON GRONLUND PC, BRAD BRADY, MATTHEW PRESTON, AND ANN BROWN

Brady Preston Gronlund PC practices primarily in civil litigation, including both general and complex litigation. The firm's attorneys have been involved in litigation and trial work throughout Iowa and other states, and have appeared pro hac vice in state and federal courts in approximately 20 states, including cases involving employment issues, employee benefits claims, ERISA claims, consumer fraud, and class and derivative actions, both on behalf of Plaintiff and Defendant.

Brady Preston Gronlund PC was co-counsel, with other firms, and played an active role in all aspects of *Rieff v. Evans, et al.*, Iowa District Court, Polk County No. CE 35780 (representing a class of 200,000 mutual insurance policyholders in a class and derivative action resulting in a cash settlement of $100 million for the class). Rieff was litigated for seven years, and resulted in three appeals to the Iowa Supreme Court, with the first two reported at *Rieff v. Evans, et al.*, 630 N.W.2d 278 (Iowa 2001) and 672 N.W.2d 728 (Iowa 2003), and the third pending before the Iowa Supreme Court when the case was settled.

BRAD BRADY is a native of Anamosa, Iowa and currently lives in Cedar Rapids, Iowa. Mr. Brady has practiced law in Cedar Rapids, Iowa since graduation from law school in 1978. He practices primarily in the areas of personal injury, wrongful death, products liability and commercial litigation. He also serves as a civil litigation mediator and has mediated a variety of disputes, including in the areas of personal injury and wrongful death, insurance coverage, probate and estate planning, commercial and business, banking, real estate, employment and civil rights.

Education:

Mr. Brady graduated from Cornell College in 1974, earning a Bachelor's degree in philosophy, summa cum laude. He graduated from University of Iowa College of Law, with Distinction in 1978.

Professional Honors & Activities:

Mr. Brady is the recipient of an AV rating, the highest peer review rating by Martindale-Hubbell®.

Mr. Brady has been inducted into the American College of Trial Lawyers, an organization devoted to trial practice and limited to approximately 1% of practicing Iowa attorneys (see the press release) and into the Iowa Academy of Trial Lawyers, an organization devoted to trial practice and limited to approximately 3% of Iowa attorneys. He also has been selected as a "Super Lawyer" in the area of personal injury for the Great Plains region, a peer-reviewed selection process limited to 5% of the lawyers in a state.

He is a member and former chair of the Litigation Legislation Committee of the Iowa State Bar Association, a member of the Jury Committee of the American College of Trial Lawyers, a member of the Litigation Legislation committee of the Iowa Association for Justice and a former member of the Justice For All Group of the Iowa Trial Lawyers Association.

He has mediated in the area of civil litigation since 2002, is a Certified Mediator under Iowa Rule of Professional Conduct 32:7.4(d)(1) and is a Qualified Neutral under Rule 114 of the Minnesota Rules of General Practice. He is a member of the American Academy of ADR Attorneys.

W. Side Salvage, Inc. v. RSUI Indem. Co., 878 F.3d 219, 221 (7th Cir. 2017)

MATTHEW L. PRESTON attended the University of Iowa, where he received a Bachelor of Business degree in Economics, with honors. He received his law degree, with distinction, from the University of Iowa College of Law, in 1996. While in law school, he was one of four students of 230 selected to compete in the National Moot Court Competition. He also was a member of the Iowa Law Review, which included editing articles published in the nationally circulated journal.

Professional Honors & Activities:

Mr. Preston is a Fellow in the Iowa Academy of Trial Lawyers, an organization devoted to trial practice and limited to approximately 3% of Iowa attorneys. Mr. Preston is also a member of the American Board of Trial Advocates, which invites attorneys who meet criteria of character, reputation, and jury trial experience. Mr. Preston is a member of the trial group – the Dean Mason Ladd Inn of Court and served as its President for 2014-15 and Counselor for 2013-14.

Presentations & Speeches:

Mr. Preston has spoken to Lawyers and Legal Assistant groups on litigation and trial skills topics.

Bar Admissions:

Mr. Preston is a member of the Linn County Bar Association, and served as its Vice President from 1998 - 2000. He served as President of the Iowa State Bar Association Young Lawyer Division for the term 2005-2006.

Mr. Preston belongs to the American Bar Association, where he is a member of the Tort and Insurance Practice Section, Section of Intellectual Property Law, and Forum on Franchising. Mr. Preston's other recent professional affiliations include serving as President of the Linn County group for young lawyers (1998 - 2000), and sitting on the Bench-Bar Relations Committee (1999 - 2000).

Court Admissions:

Mr. Preston is admitted to practice before all Iowa state courts. In federal court he is admitted to the Northern and Southern Districts of Iowa, the Southern District of Illinois, the Western District of Michigan and the Western District of Wisconsin, as well as the 7th and 8th Circuit Court of Appeals. Mr. Preston has also been admitted pro hac vice to practice before the state and/or federal courts of: California, Colorado, Illinois, Michigan, Minnesota, Nebraska, Nevada, Oklahoma, Wisconsin, and Wyoming.

DECLARATION OF CLINTON R. PINYAN

I, Clinton R Pinyan, declare as follows:

1. I am a partner with the North Carolina law firm of Brooks, Pierce, McLendon, Humphrey & Leonard, LLP ("Brooks Pierce"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge, and, if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Brooks Pierce is a business law firm founded in 1897, which regularly assists its client to handle significant and complex matters. Brooks Pierce represents regional, national,

and international clients, including businesses, governmental entities, non-profits, trade associations, and individuals. Our litigation attorneys include former judicial law clerks to the United States Supreme Court, federal circuit courts of appeal, the North Carolina Supreme Court, and the North Carolina Business Court. For the past three years (2016, 2017, and 2018), Brooks Pierce has been named the "North Carolina Law Firm of the Year" by *Benchmark Litigation*, an independent research organization. Our litigation practice received a Band 1 Ranking from Chambers USA in 2018. As these rankings and awards reflect, Brooks Pierce regularly handles complex litigation to successful resolution.

4. Attached to my declaration is my law firm's resume.

5. I graduated from Wake Forest University, *summa cum laude*, with a Bachelor of Arts in 1991. I obtained my J.D. from the University of Chicago in 1995, graduating with high honors and Order of the Coif. After graduation, I served as a law clerk to Chief Judge Frank W. Bullock, Jr. of the United States District Court for the Middle District of North Carolina. Before joining Brooks Pierce, I spent three years practicing in the appellate section of an international law firm, with my practice focused on representing clients in the federal appellate courts and the United States Supreme Court. I joined Brooks Pierce in October of 1999 and have litigated numerous cases since then. From 2013 through the present, I have been selected by my peers for inclusion in *The Best Lawyers in America* for commercial litigation.

6. Senior Associate Daniel F. E. Smith has also worked on this matter. Mr. Smith graduated from Duke University, *summa cum laude*, with a Bachelor of Science degree in 2002. He then obtained a Master of Arts in Teaching degree in 2003, also from Duke University. After teaching high school science for four years, Mr. Smith returned to law school. Mr. Smith obtained his J.D. from the University of North Carolina School of Law in 2010, graduating with

highest honors and Order of the Coif. Mr. Smith also served as Editor in Chief of the *North Carolina Law Review*. During the 2010-2011 term of the Supreme Court of North Carolina, Mr. Smith served as a law clerk to Justice Mark D. Martin. Since joining Brooks Pierce in August 2011, Mr. Smith has litigated numerous complex business matters, including class actions. From 2016 through the present, Mr. Smith has been recognized by his peers for inclusion in *North Carolina Super Lawyers* as a "Rising Star" in environmental law.

7. Mr. Pinyan and Mr. Smith have represented both plaintiff classes and defendants in a number of class-action cases including but not limited to, *Seaman v. Duke University et al.* (M.D.N.C.), *DeLoach et al. v. Philip Morris USA, Inc. et al.* (M.D.N.C.), *North Carolina Association of County Commissioners et al. v. Thompson et al.* (M.D.N.C.), *State of North Carolina ex rel. Woods et al. v. American Tobacco Co. et al.* (M.D.N.C.), *Hall et al. v. United Airlines et al.* (E.D.N.C.), *Haney v. USAA Casualty Ins. Co.* (E.D.N.C.), *Gay v. Peoples Bank* (N.C. Business Court), *Awartani v. Moses H. Cone Memorial Hospital Operating Corporation* (Guilford County Superior Court), *Children's Home Society of North Carolina v. City of Greensboro* (Guilford County Superior Court), and *Stafford v. Fairbanks Capital Corp.* (Guilford County Superior Court).

8. Brooks Pierce assisted with the drafting of the class action complaint filed on behalf of North Carolina farmers in the United States District Court for the Eastern District of North Carolina, partnering with the law firm of Batts, Batts & Bell, LLP to recruit representative plaintiffs for that class and completing fact sheets for participating class members. Brooks Pierce also assisted in November 2016 with the drafting of a complaint to be filed in North Carolina state court if necessary to preserve claims for impacted North Carolina farmers.

9. Brooks Pierce maintains contemporaneous records of the time and expenses of its attorneys in the ordinary course of business. Time entries are made on a daily basis and compiled at month end for secondary review prior to billing.

10. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

11. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

12. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

13. Of the $34,626.00 in attorneys' fees that have been billed to this matter, I determined, after re-review of the Common Benefit Order and consultation with national counsel, that the amount of $4,550.00 fell within the definition of common benefit time and expenses. Brooks Pierce is not making a claim for the remaining $30,034.00 of attorneys' fees that were spent on individual client work or that otherwise fell outside the definition of common benefit time.

14. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

15. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $4,550.00. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
Clinton R. Pinyan	Partner	11.6	$360.00	$4,176.00
Daniel F. E. Smith	Associate	1.7	$220.00	$374.00
TOTALS	**--**	**13.3**	**--**	**$4,550.00**

16. My firm seeks $400.00 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Costs	Amount
14	Filing Fees, Clerk, N.C. Eastern District—Filing Fee for Initial Complaint	$400.00
	TOTAL	**$400.00**

17. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

18. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Greensboro, North Carolina.

/s/ Clinton R. Pinyan

About Us

Brooks, Pierce, McLendon, Humphrey & Leonard, LLP is a business law firm that, since 1897, has been providing creative solutions for the significant and complex dealings of our clients. We serve businesses, government, non-profit institutions, trade associations and individuals. Brooks Pierce works with clients on a regional, national, and international level. The multi-faceted approach to the solutions offered by Brooks Pierce derives from the expertise resident in this firm. Our unique philosophy results in powerful analysis and effective solutions for our clients.

What is our philosophy? It is that exceptional service for our clients is developed by exposing our bright and dedicated attorneys to multiple areas of the sophisticated law with which we deal every day. These practice areas include mergers and acquisitions, media, banking, corporate finance, real estate, employment and labor law, litigation, trusts and estates and complex business litigation.

Our attorneys are experienced. Represented among the Brooks Pierce ranks are present and former state officials, law professors, regulatory commissioners, and a former political campaign manager.

Our attorneys embrace the highest standards of professional and personal excellence. Our attorneys exhibit intelligence, integrity, leadership, have a demonstrated record of professional excellence, and show a commitment to the law not only as a profession, but as a calling. Our attorneys have excelled in some of the nation's leading law schools, including Duke, Georgetown, Harvard, Stanford, UCLA, University of Chicago, University of North Carolina at Chapel Hill, University of Virginia, University of Texas, Wake Forest, Emory, Washington and Lee, William and Mary, and Yale.

Our attorneys are highly ranked in the top legal directories by their clients and peers. Our attorneys have received multiple honors from credentialing directories, such as *Chambers USA: America's Leading Lawyers for Business, The Best Lawyers in America©, North Carolina Super Lawyers,* and *Business North Carolina* Magazine's "Legal Elite."

Our attorneys are committed to understanding and empathizing, on a personal level, with the people who manage the businesses we represent. This allows our firm to be responsive to the professional needs of our clients. Our atmosphere is collaborative and collegial.

Our attorneys work closely with one another to exchange ideas and strategy in order to address the complex legal issues our clients bring to us. The Brooks Pierce team approach maximizes the scope and quality of the service we provide to our clients.

Only lawyers with a demonstrated record of professional excellence and the highest standards of personal integrity become part of Brooks, Pierce, McLendon, Humphrey & Leonard, LLP.

Awards & Honors

Seven Brooks Pierce practice areas and twenty-one firm attorneys were ranked among the best in North Carolina in the 2018 edition of *Chambers USA – America's Leading Lawyers for Business*. The practice areas that received recognition were Antitrust, Bankruptcy/Restructuring, Corporate/Mergers & Acquisitions, Environment, Intellectual Property, Labor & Employment, and Litigation: General Commercial.

Brooks Pierce was named "North Carolina Law Firm of the Year" for litigation in 2016, 2017 and 2018 by *Benchmark Litigation*. The publication, which is the only ranking directory that focuses exclusively on litigation, also gave the firm a Highly Recommended" score for 2018, and listed eleven attorneys as "Litigation Stars."

U.S. News and World Report gave Brooks Pierce tier-one rankings in thirty-six of its practice areas in their respective metropolitan areas in their 2018 edition of "Best Law Firms." The honored practice areas include Banking & Finance Law, Commercial Litigation, Corporate Law, Securities/Capital Markets Law, Tax Law, and Trusts & Estates Law.

Fifty-four Brooks Pierce attorneys were recognized as industry leaders in their respective practice areas in the 2018 edition of *The Best Lawyers in America*©. Ten of our attorneys were also recognized as "Greensboro Lawyer of the Year" in their respective practice areas.

Thirty-eight Brooks Pierce attorneys were recognized in the 2018 edition of *North Carolina Super Lawyers*. In addition, Kearns Davis was named one of the state's Top 10 attorneys, and partners Jennifer Van Zant, Reid Phillips, David Sar, and Gary Parsons were ranked among the Top 100 attorneys in the state.

DECLARATION OF JOHN G. EMERSON

I, John G. Emerson, declare as follows:

1. I am the owner of Emerson Firm, PLLC, an entity which has no time or expense submitted in this matter. Previously, I was a partner of Emerson Scott, LLP ("ES") from August 1, 2015 through May 31, 2018. Further, I was a partner of Emerson Poynter, LLP ("EP") from before and at the time of the inception of this case through July 31, 2015. Based on my positions with these firms, I am authorized on behalf of them to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Attached to this declaration is the Firm Resume of ES. ES began its practice on August 1, 2015 and had a national class action and complex litigation practice with offices in Little Rock, Arkansas and Houston, Texas. The Firm continued the practice begun by me at the predecessor Firm, EP, with additional emphasis on antitrust, data breach, and catastrophic injury medical negligence cases. ES's legal practice was as follows:

a. In antitrust area, ES was a member of the Plaintiffs' Counsel Steering Committee in the *Aluminum Warehousing Antitrust Litigation* representing first level purchasers in this Multi- District Litigation ("MDL"), 13 MDL 2481 (KBF), which was pending in the Southern District of New York and is currently on appeal in the U.S. Court of Appeals for the 2nd Circuit where we are waiting on a ruling following recent oral argument. At ES I was involved for plaintiffs in the following antitrust cases: *Lithium Ion Batteries Antitrust Litigation, Trans-Pacific Airline Surcharge Litigation, Domestic Airlines Antitrust*, *Liquid Aluminum Sulfate Antitrust Litigation*, and *Washington County Health Care Authority, Inc. v. Baxter International Inc. et a*l (the Saline Solution Antitrust case). At ES I also represented one of the named plaintiff/direct purchaser plaintiffs in *Bridgestone Anti-Vibration Rubber Parts Antitrust Litigation*.

b. In the privacy and data breach areas, ES was actively involved prosecuting cases for aggrieved consumers in the following pending MDL cases: *In re: Anthem Healthcare Data Breach Litigation*, MDL No. 2617 (N.D. Cal.); *In re: Premera Healthcare Data Breach Litigation,* (D. OR.) MDL No. 2633; *In re: Medical Informatics Engineering Data Breach Litigation,* MDL No.

2667 (N.D. Ind.); *In re: Office of Personnel Management Data Breach Litigation* (D.D.C.) MDL No. 2664; *In re: Experian Data Breach Litigation* (C.D.CA.) MDL No. 2676 in which nearly half of the named plaintiffs in the consolidated amended complaint are clients of Emerson Scott, and *In re: Vizio, Inc., Consumer Privacy Litigation* (C.D.CA.). Emerson Scott was also actively involved in prosecuting two data breach cases in Arizona, *In re: Banner Health Data Breach Litigation* and *In re: Valley Anesthesiology Data Breach Litigation*. Most recently, ES represented three of the named plaintiffs in the consolidated amended complaint stemming from MDL No. 2800, *IN RE: Equifax, Inc., Customer Data Security Breach Litigation* (N.D. GA.).

c. In other consumer protection cases, ES represented three of the named plaintiffs in the certified class case involving premiums increases allegedly related to cost of insurance in the case styled *Gordon Feller et al v. Transamerica Life Insurance Company* (C.D. Cal.). ES represented the Arkansas bellwether trial plaintiff Mr. Kenny Falwell and numerous other corn producers in the *United States in consolidated actions in MDL No. 2591, In re: Syngenta AG MIR162 Corn Litigation* before this Court.

d. In May 2018, ES successfully concluded a catastrophic brain injury case against a major Arkansas hospital and a doctor by way of a confidential mediated settlement and is involved in representing many other persons allegedly injured as a result of medical negligence.

4. The timekeepers at ES working on the Syngenta litigation were John Emerson, David Scott, and Tanya Autry.

a. **John Emerson** was a founding partner of ES. He was born in Little Rock, Arkansas, and was raised there and in Houston, Texas. He is a member of the state bars of Texas, Washington and Arkansas. Mr. Emerson obtained his Bachelor of Arts from the University of Texas at Austin and then earned his Juris Doctorate from South Texas College of Law in Houston. Mr. Emerson has been rated "AV Preeminent" for the last 19 years by Martindale- Hubbell. Mr. Emerson was admitted to the Texas Bar in 1980. He is admitted to practice before the U.S. Supreme Court; U.S. Court of Appeals for the 2nd, 5th, and 8th Circuits; U.S. District Courts for the Northern, Southern, Eastern, and Western Districts of Texas; Eastern and Western Districts of Arkansas; Western District of Washington; District of Colorado; Eastern District of Michigan; and all Texas, Washington, and Arkansas state courts. Mr. Emerson has extensive jury trial experience over the past 37 years. He is a member of the legal fraternity Delta Theta Phi. He is also a member of The National Trial Lawyers; American Association for Justice ("AAJ"); AAJ Class Action Litigation Group; AAJ Medical Negligence Information Exchange Group; Fellow of The Pound Civil Justice Institute; Texas Trial Lawyers Association; American Bar Association (Tort and Insurance Practice and Legal Economics Sections); State Bar of Texas (Grievance Committee 4-D, Houston, 1991-94); Membership Services Committee, 1991-92); Sustaining Life Fellow Texas Bar Foundation; Bar Association

for the United States District Court for the Eastern District of Texas; Houston Bar Association; Fellow of the Houston Bar Foundation; Washington State Bar; King County Bar Association; Arkansas Trial Lawyers Association; Pulaski County Bar Association; and the Arkansas Bar Association. Mr. Emerson was honored by the Governor of Arkansas when he was named an Arkansas Traveler, an Ambassador of Good Will on behalf of the people of the state of Arkansas to people everywhere. Mr. Emerson has had a robust class action practice for over twenty years as can be seen from paragraph 3, *supra*, and Exhibits A and B attached hereto.

b. **David G. Scott** was a founding partner of ES. He was born and raised in Warren, Arkansas. Mr. Scott received his Bachelor of Science degree in Business Administration, with a major in Finance, from the University of Arkansas at Fayetteville in 1982 and his Juris Doctorate from the William H. Bowen School of Law in Little Rock, Arkansas in 2006. Mr. Scott received his Chartered financial analysts (CFA) designation from The Institute of Chartered Financial Analysts in 1993 and was an institutional investments representative and manager prior to law school with Prudential-Bache Securities, Dean Witter Reynolds, Inc., and SouthWest Securities, Inc. While working in the field of institutional investments for eighteen years, Mr. Scott specialized in the areas of asset/liability management, portfolio immunization, and hedging in the financial futures markets and cash markets for large institutional clients such as banks, insurance companies, savings and loans, and mortgage bankers. He further specialized

in the mortgage-backed securities and mortgage markets where he was involved in the development of the first collateralized mortgage obligation securities. Mr. Scott has extensive experience in representation of clients in the personal injury, drug injury, medical malpractice, and complex litigation areas. Mr. Scott has worked extensively in the MDL *In re: Syngenta AG MIR162 Corn* Litigation (MDL 2591) and the case, *In Re: Aluminum Warehousing Antirust Litigation*, (13 MDL 2481 (KBF)). He is also deeply involved in the representation of class action plaintiffs in numerous consumer protection and antitrust cases, including *In re: Anthem Healthcare Data Breach Litigation*, MDL No. 2617 (N.D. Cal.); *In re: Premera Healthcare Data Breach Litigation,* (D. OR.) MDL No. 2633; *In re: Medical Informatics Engineering Data Breach Litigation,* MDL No. 2667 (N.D. Ind.); *In re: Office of Personnel Management Data Breach Litigation* (D.D.C.) MDL No. 2664; and *In re: Experian Data Breach Litigation* (C.D. Cal.) MDL No. 2676 as well as two data breach cases in Arizona, *In re: Banner Health Data Breach Litigation* and *In re: Valley Anesthesiology Data Breach Litigation.* He has extensive criminal law experience as he was previously a Special Prosecutor for the State of Arkansas and successfully prosecuted to conviction over 1000 felony cases. Mr. Scott is a member of the Bar of the State of Arkansas and is admitted to practice in the United States District Courts for the Eastern and Western Districts of Arkansas. He is also a member of the Arkansas Trial Lawyers Association, the Arkansas

Bar Association, American Association for Justice ("AAJ"), and the AAJ Class Action Litigation Group.

c. **Tanya Autry** was a paralegal at ES. She earned her Paralegal Certification from Arkansas State University in December 2002. She has over seventeen years of experience as a paralegal in the areas of securities fraud, ERISA, consumer cases, personal injury law, and class action cases. Tanya was actively involved in several aspects of litigation support, including editing pleadings and correspondence, legal research, shareholder relations, timekeeping matters, and dealing with clients, attorneys, experts, court personnel, and administrative agencies.

5. Also attached to this declaration is the Firm Resume of EP. With regard to my prior law firm, EP, this Firm began in 2003 with offices in Houston, Texas and Little Rock, Arkansas and had a national class action and complex litigation practice. The Firm handled numerous securities cases representing investors and, in addition, investors involved in shareholder derivative cases where they pursued breach of fiduciary duty claims derivatively against corporate boards of directors. In the class action litigation area, EP represented plaintiffs in well over 100 class actions. For example:

a. EP served as Co-Lead Counsel in several Multidistrict Litigation ("MDL") cases involving product liability and consumer protection issues. In 2004, EP was appointed by the Honorable Stephen P. Friot as Plaintiffs' Co-Lead counsel in *In re Farmers Insurance Co., Inc. FCRA Litigation*, which was settled in the Western district of Oklahoma. This case was litigated on behalf of a certified class of Farmers' current and past customers who were

charged more than the lowest premium for insurance based upon information in a consumer report, and received certain "adverse action: notices that willfully failed to conform to the Fair Credit Reporting Act. The case resolved in late 2011 and provided class members with about $100 million in cash and other relief.

b. EP also represented numerous long-grain rice farmers in Arkansas and other states, and served as Co-Chair of Plaintiffs' Executive Committee in the MDL action *In re Genetically Modified Rice Litigation* (the "*Rice MDL Action*") having been appointed to such position by the Honorable Catherine D. Perry of the Eastern District of Missouri in April 2007. The *Rice MDL Action* sought damages for long-grain rice producers in Arkansas, Missouri, Mississippi, Louisiana, and Texas for defendants' contamination of the United States' rice supply with genetically modified rice as revealed by Bayer and the USDA in August 2006. This MDL action was settled for over $750 million in cash relief for American rice farmers.

c. EP was also active in cases seeking to improve corporate governance in public companies through its involvement in shareholder derivative litigation. Most notably, EP served as Co-Lead Counsel in cases resulting in significant and far-reaching corporate governance and compliance improvements within companies such as AOL/Time Warner, Computer Associates, Nicor, Cryolife, Inc., and Crompton (Chemtura). The Firm also represented shareholders in claims involving corporate buyouts and other change-of-control transactions. In 2007, EP represented shareholders of

Alltel Corporation in an acquisition of the company by an affiliate of Goldman Sachs. The action was settled favorably for the shareholders and it was settled in August of 2008.

d. In the consumer protection litigation area, EP was a leader in fighting for the rights of consumers. EP was a leader in the MDL action styled *In Re; Bisphenol-A (BPA) Polycarbonate Plastic Products Liability Litigation* in the United States District Court for the Western District of Missouri. EP was Co-Lead Counsel in the *Webb et al. v. Carters Inc. et al.* litigation in the United States District Court for the Central District of California concerning Carter's line of tagless baby clothing; in the *Montanez et al. v. Gerber Childrenswear, Inc., et al.* litigation in the United States District Court for the Central District of California concerning Gerber's line of tagless baby clothing; in the *Horne et al. v. The Dannon Company Inc.* litigation in the United States District Court for the Eastern District of Arkansas concerning Dannon's line of yogurt products.

e. In the retirement plan/pension area, EP served as Co-Lead Counsel in the *Winn- Dixie Stores, Inc. ERISA Litigation* that settled in the Middle District of Florida in 2008, and served as Co-Lead Counsel in the *ADC Telecommunications ERISA Litigation* that settled in the District of Minnesota in 2006. John Emerson of EP served on the *Enron ERISA Litigation* Plaintiffs' Counsel Steering Committee. This case settled in 2005 in the United States District Court, Southern District of Texas.

6. The timekeepers at EP include John Emerson (background described, *supra*), Tanya Autry (background described, *supra*), Scott Poynter, William Crowder, Corey McGaha, and Paige Parham.

a. **Scott E. Poynter** was a founding partner of EP with John Emerson. Mr. Poynter was born in Fayetteville, Arkansas and was raised in Mountain Home. He earned his Bachelor of Science Degree in Accounting from Arkansas Tech University. He then earned his Juris Doctorate from the University of Arkansas in 1989. While in law school, Mr. Poynter was active in Phi Alpha Delta legal fraternity and was awarded a leadership scholarship from the school. After completing law school, Mr. Poynter joined the Judge Advocate Department of the United States Air Force and served six years of active duty as a Judge Advocate and litigated more than fifty jury trials. In 1995, then Captain Poynter was selected by the Air Force for its Advanced Trial Advocacy Course, a course reserved for the military's finest litigators. After leaving active duty, Mr. Poynter was a partner at a national class action law firm which focused its work on the representation of investors. He also continued his military career in the Arkansas Air National Guard and attained the rank of Major. Mr. Poynter is admitted to practice before: U.S. Court of Appeals for the Armed Forces; U.S. District Courts for the Western and Eastern Districts of Arkansas; 8th Circuit court of Appeals; and all Arkansas State Courts. Mr. Poynter was engaged to represent homeowners after man-made earthquakes damaged their homes. In 2010 and 2011, central Arkansas was hit with thousands of

earthquakes, which were caused by oil and gas operations in the Fayetteville Shale. This seismic activity was due to fracking operations, specifically, when fracking fluids and wastewater was injected under pressure deep into the earth through the industry's injection wells. About 35 homeowners in the Guy and Greenbrier areas of Arkansas filed suit alleging both physical and market value losses to their homes. Mr. Poynter was retained by residents of Prague, Oklahoma who have similarly suffered due to more substantial earthquakes rattling central Oklahoma. Mr. Poynter assisted clients faced with abusive insurance practices. One example is in *In re: Farmers Insurance Co., Inc., FCRA Litigation.* As a result of efforts by Mr. Poynter and his co-counsel, a $100 million settlement was secured on behalf of class members. In another MDL action, *In Re Genetically Modified Rice Litigation,* Mr. Poynter served as Co-Chair of Plaintiffs' Executive Committee on behalf of rice farmers who experienced a deflated rice market after America's rice supply was contaminated by Bayer's genetically modified rice in 2006 and markets in Europe and Asia were lost. A $750 million cash settlement was achieved in 2012. Mr. Poynter was appointed by this Court to the Executive Committee in *In re: Syngenta AG MIR162 Corn Litigation*.

b. **William T. Crowder** was a partner with EP. He was born and raised in Camden, Arkansas. In 2000, Mr. Crowder earned a Bachelor of Arts Degree in Political Science from the University of Arkansas. In 2003, Mr. Crowder earned his Juris Doctorate from the William H. Bowen School of Law at the

University of Arkansas at Little Rock. Mr. Crowder is a member of the Arkansas Bar and admitted to the United States District Court for the Eastern and Western Districts of Arkansas, the District of Colorado, and the U.S. Court of Appeals for the Eighth Circuit. Mr. Crowder was a member of the American Bar Association, American Association for Justice, the Arkansas Trial Lawyers Association and the Pulaski County Bar Association. In 2009, 2010, and 2011, Mr. Crowder was selected as a *Mid-South Super Lawyer* Rising Star. After law school, Mr. Crowder served as a Law Clerk for the Hon. Harry F. Barnes, United States District Court for the Western District of Arkansas. Following his clerkship he was employed by the Little Rock law firms of Jack, Lyon & Jones, P.A. (where he focused on defense work) and McMath Woods, P.A. (where he began his representation of the injured.) During his time at EP, Mr. Crowder was extensively involved in all manner and types of class cases, including the firms' consumer litigation cases:

1. *Carrera v. Bayer Corporation*, (D.N.J.), deceptive trade practices action for marketing of Bayer's WeightSmart diet pill.
2. *Montantez v. Gerber Childrenswear, LLC* (C.D. Cal) and *Webb v. Carter's, Inc.* (C.D. Cal), cases involving tagless labels on children's garments.
3. *In re: Cheerios Marketing and Sales Practices Litigation* (D.N.J.), multidistrict litigation pending against General Mills for health and cancer-prevention claims made by their products.

Mr. Crowder was a leader in EP's efforts in litigation of cases on behalf of Arkansas's citizens:

1. Claims against major retailers who manufacture products with dangerous levels of heavy metals and other chemicals;
2. Claims against manufacturers of "toning shoes" on behalf of Arkansas's citizens;
3. Claims against banks relating to overdraft practices.

c. **Corey D. McGaha**, began as an associate with EP in July, 2011. He is admitted to practice in the state courts of Arkansas and Texas, the United States Court of Appeals for the Eighth Circuit, the United States District Courts for the Eastern and Western Districts of Arkansas, and the United States District Court for the Eastern District of Texas. Mr. McGaha graduated cum laude from Ouachita Baptist University and received his law degree from the University of Arkansas in 2002. After law school, Mr. McGaha served as a Law Clerk to the Hon. Harry F. Barnes, United States District Court for the Western District of Arkansas from 2002-2006. He is a member of the American Bar Association, the Arkansas Bar Association, the State Bar of Texas, and the Pulaski County Bar Association. Mr. McGaha worked as an attorney at Patton Roberts PLLC in Texarkana, Texas from 2006 through 2011. Mr. McGaha assisted the firm in successfully litigating and settling a number of security fraud cases including:

1. *In Re: Brocade Securities Litigation, Northern District of California* - A national securities fraud class action which resulted in a court-approved cash settlement of $160 million for shareholders. *In Re*: *Salomon Analyst Metromedia Litigation, Southern District of New York* – A securities fraud class action which resulted in a court-approved cash settlement of $35 million for shareholders of Metromedia Fiber Network.
2. *Walker v. Rent-A-Center, Inc., Eastern District of Texas* – A securities fraud class action which resulted in a court approved cash settlement of $3.6 million for the shareholders of Rent-A-Center, Inc.
3. *McClure, et al, v. AOL Time Warner, Inc., Texas state court* – An individual securities fraud action in which our clients received 100% more than they would have received in the global settlement of the national securities fraud class action.

After he joined EP, Mr. McGaha assisted the firm in prosecuting several class actions and real estate litigation cases, including:

(1) Over 30 property damage cases litigated in state and federal court for clients in Faulkner County, Arkansas alleging that wastewater injection wells caused the Guy-Greenbrier Earthquake Swarm in 2010-2011, which damaged his clients' homes.

(2) Reported decision in *Asset Acceptance v. Newby*, 2014 Ark. 280 (2014) – Mr. McGaha successfully argued his clients' claims were not subject to arbitration because Asset Acceptance, LLC, a debt-collector, had no specific evidence Ms. Newby agreed to arbitration, that the arbitration clause at issue was ever communicated to her, nor that she assented to the arbitration clause at issue.

d. Paige Parham was a Paralegal at EP. She had over four years of experience as a paralegal in the areas of securities fraud, family law, and consumer cases. Paige was actively involved in several aspects of litigation support, including legal research, and coordinating with clients and administrative agencies.

7. At ES and EP, we had key responsibilities in working with the Arkansas Bellwether Trial Plaintiff Mr. Kenny Falwell of Eagle Lake Farms, his assistant Richard Smith, his crop consultants and advisors, and accountants. We gathered and analyzed Mr. Falwell's documents and records at the direction of Co-Lead Counsel, met with him many times, assisted him in the preparation of his answers to defendant's interrogatories and responses to defendant's requests for production of documents, prepared supplements to written discovery, worked with him on his deposition preparation, and assisted in his defense at his video deposition. Throughout this litigation, we stayed in frequent communication with Mr. Falwell and his assistant via emails, phone calls, and written correspondence with regard to the progress and status of the litigation and to answer their questions. At ES, we were deeply involved in document review at the direction of Co-Lead Counsel and this included all documents produced by defendants as well as documents

produced by third parties. Further, David Scott of ES was one of the top document reviewers on the document review team by the document review leadership at Stueve, Siegel, took on special assignments and got the job done quickly and efficiently.

8. Arkansas Bellwether Trial Plaintiff Kenny Falwell spent many hours meeting in person with me, and co-counsel, Mr. Tom Bender and Mr. Dirk Hubbard, gathering his documents, talking to his crop consultants, talking to his accountant, working on his answers and responses to written discovery and supplements thereto, reviewing and approving pleadings, preparing for his deposition, and appearing for his deposition. Mr. Falwell has always made himself available, been cooperative, put the interests of the Class on a par with his own individual interests, and has always been mindful of his duties and obligations as a class representative and bellwether trial plaintiff. The categories and estimates of time spent by Mr. Falwell and his employee, Richard Smith, on this litigation are as follows:

Deposition Date/Location/Length/Distance Traveled:

- February 9, 2016 deposition in Little Rock, Arkansas.
- 9.5 hours for total deposition time, day-of-depo prep, and post-depo discussion
- Traveled 180 miles round trip from Newport, AR to attend deposition

Deposition Prep Date(s)/Length/Distance Traveled:

- Phone prep discussions on January 22, 2016 and other dates totaling 3 hours
- In-person prep on January 2 and February 8, 2016 totaling 9 hours
- Traveled 180 miles round trip from Newport, AR to attend deposition prep

Estimated Time Spent on Paper Discovery Responses:

- 10 hours spent over several time periods on original and supplemental interrogatory responses and on original and supplemental responses to requests for admissions

Estimated Time Spent and Distances Traveled on Document Gathering and Production

- 25 hours spent over several time periods on document production

- Traveled approximately 386 miles total on several occasions to meet with my attorneys, go to grain elevators, accountants, FSA office, and banks to obtain documents.
- Coordinating with attorney Mr. John Emerson on miscellaneous Syngenta litigation issues (not related to paper discovery, deposition preparation, or deposition). This includes, but is not limited to, common benefit matters, bellwether trial issues, where meetings will be held, discovery disputes, witness list matters, review of producer plaintiffs' third amended class action complaint, class certification, damage experts and phone calls with damage expert, new trial dates, miscellaneous phone calls with counsel relating to case status and updates on the litigation, and settlement matters. 12 hours

Mr. Falwell's total hours are 68.5. His total mileage is 746 miles.

9. Both ES and EP maintained contemporaneous records of their time and expenses in the ordinary course of business as complex litigation law firms.

10. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), both of my prior Firms, ES and EP, submitted common benefit time and expense submissions to Co-Lead Counsel in the MDL.

11. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs. Extensive cuts were made to any time and expense submissions which inadvertently included work and/or expenses for clients other than our firms' bellwether trial plaintiffs. EP had completed extensive work on the Syngenta matter prior to January 23, 2015 and almost the entirety of time and expense entries prior to that date were stricken and deleted from our submissions. Also all work on producer PFS sheets were stricken with the exception of bellwether trial plaintiffs represented by the respective Firms, ES and EP.

12. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

13. After this re-review, I can confirm that this time was undertaken by the members of my firms at my direction. I believe that the common benefit time and expense information submitted on behalf of my firms is accurate and in compliance with the Court's Common Benefit Order.

14. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for ES is $910,632.50. A breakdown of the lodestar is provided below.

NAME	TITLE	TOTALHOURS	HOURLY RATE	LODESTAR
JOHN EMERSON	PARTNER	219.50	$795.00	$174,502.50
DAVID SCOTT	PARTNER	1,176.80	$625.00	$735,500.00
TANYA AUTRY	PARALEGAL	4.20	$150.00	$630.00
TOTALS		1,400.50		$910,632.50

15. ES seeks $83,413.32 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
2	Postage Charges	$25.41
4	Long Distance Calls	$5.04
5	In-House Photocopying	$18.90
7	Hotels	$2,006.24
8	Meals	$568.74
9	Mileage	$296.74
10	Air Travel	$119.64
11	Deposition Costs	$68.81
13	Witness and Expert Expenses	$300.00
18	Miscellaneous	$3.80
19	Litigation Fund Assessment	$80,000.00
	TOTAL	**$83,413.32**

16. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for EP is $288,342.00. A breakdown of the lodestar is provided below.

NAME	TITLE	TOTALHOURS	HOURLY RATE	LODESTAR
JOHN EMERSON	PARTNER	170.60	$795.00	$135,627.00
SCOTT POYNTER	PARTNER	162.00	$795.00	$128,790.00
WILLIAM CROWDER	PARTNER	2.40	$650.00	$1,560.00
COREY MCGAHA	ASSOCIATE	34.90	$600.00	$20,940.00
TANYA AUTRY	PARALEGAL	8.70	$150.00	$1,305.00
PAIGE PARHAM	PARALEGAL	1.20	$100.00	$120.00
TOTALS		379.80		$288,342.00

17. EP seeks $20,949.26 in expense in connection with the prosecution of this litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	$27.62
2	Postage Charges	$541.32
4	Long Distance Calls	$29.80
5	In-House Photocopying	$5.60
7	Hotels	$1,370.34
8	Meals	$92.66
9	Mileage	$481.85
10	Air Travel	$667.20
12	Lexis/Westlaw/Bloomberg	$1,007.29
13	Witness and Expert Expenses	$1,590.00
17	Ground Transportation	$71.68
18	Miscellaneous	$63.90
19	Litigation Fund Assessment	$15,000.00
	TOTAL	**$20,949.26**

18. As part of my request for an award of expenses on behalf of both ES and EP, I have reviewed Section III(B) of the Court's Order Establishing Protocols for common Benefit Work

and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (The "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

19. ES requests expense reimbursement for capital contributions to the litigation fund, in the amount of its capital contributions, the sum of $70,000.00.

20. EP requests expense reimbursement for capital contributions to the litigation fund, in the amount of its capital contributions, the sum of $15,000.00.

21. The expenses pertaining to this case are reflected in the records of both ES and EP. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records, and other documents and are an accurate record of expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Little Rock, Arkansas.

Our Firm

Emerson Scott, LLP ("ES") has a national class action legal practice with offices in Houston, Texas, and Little Rock, Arkansas.

The Firm and its team of experienced attorneys and paralegals, handles complex commercial litigation with a concentration on cases that involve violations of federal antitrust statutes, violations of federal and state consumer protection laws, securities laws, and violations of the Employee Retirement Income Security Act of 1974 ("ERISA"). ES has prosecuted numerous antitrust class action cases, consumer class action cases, securities fraud, and shareholder derivative cases representing consumers, damaged companies, and investors around the country and abroad. ES and its predecessor firms have been active in many class action and individual cases of note. In the class action litigation area, ES and its predecessor firm have represented plaintiffs in well over 100 class action or other complex litigation cases.

In antitrust, ES is currently a member of the Plaintiffs' Counsel Steering Committee in the *Aluminum Warehousing Antitrust Litigation* representing first level purchasers in this Multi-District Litigation ("MDL"), 13 MDL 2481 (KBF), which was pending in the Southern District of New York and is currently on appeal in the U.S. Court of Appeals for the 2nd Circuit. ES has represented plaintiffs in the *Compact Disc Antitrust Litigation* filed against the music industry in

the United States, and plaintiffs in the *High Pressure Laminates Antitrust Litigation* in the direct purchaser case. ES has been or is currently involved in the following antitrust cases: *Lithium Ion Batteries Antitrust Litigation, CRT (Cathode Ray Tube) Antitrust Litigation, Flash Memory Antitrust Litigation, GPU (Graphics Processing Units) Antitrust Litigation, Ocean Shipping Antitrust Litigation, TFT-LCD (Flat Panel) Antitrust Litigation, Trans-Pacific Airline Surcharge Litigation, Domestic Airlines Antitrust, Liquid Aluminum Sulfate Antitrust Litigation,* and *Bridgestone Anti-Vibration Rubber Parts Antitrust Litigation,* among other cases.

In privacy and data breach, ES is actively involved prosecuting cases for aggrieved consumers in the following pending MDL cases: *In re: Anthem Healthcare Data Breach Litigation*, MDL No. 2617 (N.D. Cal.); *In re: Premera Healthcare Data Breach Litigation,* (D. OR.) MDL No. 2633; *In re: Medical Informatics Engineering Data Breach Litigation,* MDL No. 2667 (N.D. Ind.); *In re: Office of Personnel Management Data Breach Litigation* (D.D.C.) MDL No. 2664; *In re: Experian Data Breach Litigation* (C.D.CA.) MDL No. 2676 in which nearly half of the named plaintiffs in the consolidated amended complaint are clients of ES, and *In re: Vizio, Inc., Consumer Privacy Litigation* (C.D.CA.). ES is also actively involved in prosecuting two data breach cases in Arizona, *In re: Banner Health Data Breach Litigation* and *In re: Valley Anesthesiology Data Breach Litigation*.

In other consumer protection cases, ES currently represents numerous corn farmers in the United States in consolidated actions in the MDL *In re: Syngenta AG MIR162 Corn* Litigation (MDL 2591) pending before Judge John W. Lungstrum in the District of Kansas. In September, 2016, this case was certified as a national class and eight states had classes certified including the state of Arkansas where ES represents the designated Arkansas bellwether trial plaintiff and many other Arkansas corn farmers. John Emerson of Emerson Scott was a leader in the MDL baby bottle action captioned *In Re: Bisphenol-A (BPA) Polycarbonate Plastic Products Liability Litigation* in the United States District Court for the Western District of Missouri. John Emerson of Emerson Scott was Co-Lead Counsel in the *Webb et al. v. Carters Inc. et al.* class action litigation in the United States District Court for the Central District of California concerning Carter's line of tag-less baby clothing; in the *Montanez et al. v. Gerber Childrenswear, Inc., et al.* class action litigation in the United States District Court for the Central District of California concerning Gerber's line of tag-less baby clothing.

ES's predecessor firm served as Co-Lead Counsel in several MDL cases involving product liability and consumer protection issues. In 2004, Emerson Scott's predecessor firm was appointed by the Honorable Stephen P. Friot as Plaintiffs' Co-Lead Counsel in *In re: Farmers Insurance Co., Inc. FCRA Litigation,* which was settled in the Western District of Oklahoma. This case was litigated on behalf of a certified class of Farmer's current and past customers who were charged

more than the lowest premium for insurance based upon information in a consumer report, and received certain "adverse action" notices that willfully failed to conform to the Fair Credit Reporting Act. The case resolved in late 2011 and provided class members with about $100 million in cash and other relief. ES's predecessor firm represented numerous long-grain rice farmers in Arkansas and other states, in the MDL action *In re: Genetically Modified Rice Litigation* (the "*Rice MDL Action*"). The *Rice MDL Action* sought damages for long-grain rice producers in Arkansas, Missouri, Mississippi, Louisiana, and Texas for defendants' contamination of the United States' rice supply with genetically modified rice as revealed by Bayer and the USDA in August 2006. This MDL action was settled for over $750 million in cash relief for American rice farmers. ES's predecessor served as Co-Lead Plaintiffs' Counsel in an MDL case transferred to the Honorable Richard D. Bennett of the District of Maryland captioned *In Re: Tyson Foods, Inc. Chicken Raised Without Antibiotics Consumer Litigation*. The case involved false advertising claims associated with the sale of Tyson Foods' chicken as being raised without antibiotics, when in fact the chicken was raised with antibiotics. The action was settled for $5 million in cash and other relief for class members who purchased the chicken products at issue.

The Firm has been active in prosecuting cases seeking to improve corporate governance in public companies through its involvement in shareholder derivative litigation. Most notably, John Emerson, served as Co-Lead Counsel in cases resulting in significant and far-reaching corporate governance and compliance improvements within companies such as AOL/Time Warner, Computer Associates, Nicor, Cryolife, Inc., and Crompton (Chemtura). The Firm has also represented shareholders in claims involving corporate buyouts and other change-of-control transactions.

Finally, John Emerson of ES served on the *Enron ERISA Litigation* Plaintiffs' Counsel Steering Committee. This case settled in the United States District Court, Southern District of Texas, Houston Division in 2005.

Our Attorneys

John G. Emerson **Partner**

Mr. Emerson is a founding partner of ES. He was born in Little Rock, Arkansas, and was raised there and in Houston, Texas. He is a member of the state bars of Texas, Washington and Arkansas. Mr. Emerson obtained his Bachelor of Arts from the University of Texas at Austin and then earned his Juris Doctorate from South Texas College of Law Houston. Mr. Emerson has been rated "AV Preeminent" for the last 18 years by Martindale-Hubbell. This is the highest possible peer review rating in legal ability and ethical standards. Mr. Emerson was honored by being named one of the Top 100 Trial Lawyers in America by the National Trial Lawyers in 2013 -2016.

In his antitrust practice, Mr. Emerson is currently a member of the Plaintiffs' Counsel Steering Committee in the *Aluminum Warehousing Antitrust Litigation* representing first level purchasers in this MDL, 13 MDL2481 (KBF), which was pending in the Southern District of New York and is currently on appeal in the U.S. Court of Appeals for the 2nd Circuit. Mr. Emerson has represented plaintiffs in the *Compact Disc Antitrust Litigation* filed against the music industry in the United States, and plaintiffs in the *High Pressure Laminates Antitrust Litigation* in the direct purchaser case. Notably, Mr. Emerson also has been or is currently involved in the following antitrust cases: *Lithium Ion Batteries Antitrust Litigation, CRT (Cathode Ray Tube) Antitrust Litigation, Flash Memory Antitrust Litigation, GPU (Graphics Processing Units) Antitrust Litigation, Ocean Shipping Antitrust Litigation, TFT-LCD (Flat Panel) Antitrust Litigation, Trans-Pacific Airline Surcharge Litigation, Domestic Airlines Antitrust Litigation, Liquid Aluminum Sulfate Antitrust Litigation*, and the *Bridgestone Anti-Vibration Rubber Parts Antitrust Litigation* case, among others.

In his privacy and data breach practice, Mr. Emerson is actively involved prosecuting cases for aggrieved consumers in the following pending MDL cases: *In re: Anthem Healthcare Data Breach Litigation*, MDL No. 2617 (N.D. Cal.); *In re: Premera Healthcare Data Breach Litigation*, (D. OR.) MDL No. 2633; *In re: Medical Informatics Engineering Data Breach Litigation*, MDL No. 2667 (N.D. Ind.); *In re: Office of Personnel Management Data Breach Litigation* (D.D.C.) MDL No. 2664; *In re: Experian Data Breach Litigation* (C.D.CA.) MDL No.

2676, and *In re: Vizio, Inc., Consumer Privacy Litigation* (C.D.CA.). He is also actively involved in prosecuting two Arizona data breach cases, *In re: Banner Health Data Breach Litigation* and *In re: Valley Anesthesiology Data Breach Litigation*.

In his consumer class action practice, Mr. Emerson represents numerous corn farmers in the United States in consolidated actions in the MDL *In re: Syngenta AG MIR162 Corn* Litigation (MDL 2591) pending before Judge John W. Lungstrum in the District of Kansas. On September 11, 2016 the Court denied defendant's motion to dismiss in major part. On September, 26, 2016 this case was certified as a national class and eight states had classes certified including the state of Arkansas where Mr. Emerson represents the designated Arkansas bellwether trial plaintiff as well as many other Arkansas corn producers. This case is currently set for trial on June 5, 2017. Currently, he also is prosecuting cases involving food products allegedly contaminated with the synthetic chemical glyphosate such as a case against General Mills involving Nature Valley snack bars and a case against Sioux Honey Association Cooperative involving honey products. Finally, Mr. Emerson is currently representing policyholders in cases against Transamerica and Lincoln Life concerning increased cost of insurance rates and/or increased monthly deductions. Mr. Emerson served as Chairman of the Expert Witness Committee in the consolidated MDL action styled *In Re: Bisphenol-A (BPA) Polycarbonate Plastic Products Liability Litigation* filed in the United States District Court for the Western District of Missouri. Mr. Emerson represented one of the named lead plaintiffs in the *AOL Version 5.0 Software Litigation*. He was Co-Lead Counsel in an action filed against the Farmers Insurance Group of Companies involving alleged violations of the Fair Credit Reporting Act which resolved for plaintiffs. He was Co-Lead Counsel for a number of parents in the Gerber's baby clothing litigation and the Carter's baby clothing litigation. Both cases resolved for plaintiffs in 2013. Mr. Emerson was a consultant to Canadian plaintiffs' counsel in the Canadian *Medtronic Pacemaker Pacing Lead Product Liability Litigation* that was certified and settled in British Columbia as a Canadian national class action. He has been a consultant to Canadian counsel in the Canadian *Compact Disc Antitrust Litigation*, the Canadian *Publishers Clearing House Litigation*, and the Canadian *AOL 5.0 Software Litigation*.

In his retirement plan practice, Mr. Emerson was appointed to the Plaintiffs' Counsel Steering Committee by Judge Melinda Harmon, United States District Judge, Southern District of Texas – Houston Division, in the consolidated Enron ERISA Litigation, styled *Pamela M. Tittle v. Enron Corp., et al.*

In his corporate practice, Mr. Emerson has represented numerous stockholders in shareholder derivative lawsuits brought against corporate boards alleging breaches of fiduciary duties. These suits sought to impose corporate governance reforms aimed at protecting

shareholders and eliminating corporate waste and abuse. In the past, Mr. Emerson served as one of the lead counsel in the Computer Associates shareholder derivative action in the Federal District Court for the Eastern District of New York. This action was brought against the Computer Associates' board of directors and led to the resignation of the Company's CFO, the resignation of two other senior financial officers, and the adoption of certain corporate governance measures that Computer Associates has since represented as the "gold standard" of governance reform. Mr. Emerson was Co-Lead Counsel in the case styled *In Re: Nicor, Inc. Shareholder Derivative Litigation* in the Circuit Court of Cook County, Illinois County Department, Chancery Division. This action was brought against Nicor's board of directors and its settlement resulted in major corporate governance improvements at Nicor. Mr. Emerson was Co-Lead Counsel in the case styled *In Re: Cryolife Derivative Litigation* pending in the Superior Court of Fulton County, Georgia. The settlement of this action resulted in wide-sweeping corporate governance improvements at Cryolife. Mr. Emerson was also Co-Lead Counsel in the case styled *In re: AOL Time Warner Shareholder Derivative Litigation* which was settled in the Federal District Court for the Southern District of New York. This settlement resulted in wide ranging corporate governance and compliance changes and was recognized as a substantial factor in Time Warner's ability to obtain $200 million from its Directors' and Officers' (D&O) insurance carriers. Mr. Emerson was Lead Counsel in the action styled *In re: Crompton* (now known as Chemtura) *Shareholder Derivative Litigation* which settled with Crompton's D & O carrier, AIG, at JAMS in New York and was thereafter approved by the Bankruptcy Court for the Southern District of New York. This settlement resulted in major corporate governance improvements.

Mr. Emerson was admitted to the Texas Bar in 1980. He is admitted to practice before the U.S. Supreme Court; U.S. Court of Appeals for the 2nd, 5th, and 8th Circuits; U.S. District Courts for the Northern, Southern, Eastern, and Western Districts of Texas; Eastern and Western Districts of Arkansas; Western District of Washington; District of Colorado; Eastern District of Michigan; and all Texas, Washington, and Arkansas state courts.

Mr. Emerson has extensive jury trial experience over the past 36 years. He is a member of the legal fraternity Delta Theta Phi. He is also a member of The National Trial Lawyers; American Association for Justice ("AAJ"); AAJ Class Action Litigation Group; Fellow of The Pound Civil Justice Institute; Texas Trial Lawyers Association; American Bar Association (Tort and Insurance Practice and Legal Economics Sections); State Bar of Texas (Grievance Committee 4-D, Houston, 1991-94); Membership Services Committee, 1991-92); Sustaining Life Fellow Texas Bar Foundation; Bar Association for the United States District Court for the Eastern District of Texas; Houston Bar Association; Fellow of the Houston Bar Foundation; Washington State Bar; King

County Bar Association; Arkansas Trial Lawyers Association; Pulaski County Bar Association; and the Arkansas Bar Association. Mr. Emerson was honored by the Governor of Arkansas when he was named an Arkansas Traveler, an Ambassador of Good Will on behalf of the people of the state of Arkansas to people everywhere.

Mr. Emerson is married with two children, two grandsons, and five rescued dachshunds. He enjoys the outdoors and has hunted and fished in the United States, Canada, Mexico, Honduras, Uruguay, Argentina, Botswana, and South Africa. He is a member of Ducks Unlimited and is a life member of Safari Club International.

Mr. Emerson's email address is jemerson@emersonfirm.com.

David G. Scott	**Partner**

Mr. Scott is a founding partner of Emerson Scott, LLP. He was born and raised in Warren, Arkansas. Mr. Scott received his Bachelor of Science degree in Business Administration, with a major in Finance, from the University of Arkansas at Fayetteville in 1982 and his Juris Doctorate from the William H. Bowen School of Law in Little Rock, Arkansas in 2006.

Mr. Scott received his Chartered Financial Analysts (CFA) designation from The Institute of Chartered Financial Analysts in 1993, charter number 18365. He was an institutional investments representative and manager prior to law school with Prudential-Bache Securities, Dean Witter Reynolds, Inc., and SouthWest Securities, Inc. While working in the field of institutional investments for eighteen years, Mr. Scott specialized in the areas of asset/liability management, portfolio immunization, and hedging in the financial futures markets and cash markets for large institutional clients such as banks, insurance companies, savings and loans, and mortgage bankers. He further specialized in the mortgage-backed securities and mortgage markets where he was involved in the development of the first collateralized mortgage obligation securities.

Mr. Scott has extensive experience in representation of clients in the personal injury, drug injury, medical malpractice, and complex litigation areas. Mr. Scott has worked and is working extensively in the MDL *In re: Syngenta AG MIR162 Corn* Litigation (MDL 2591) and the case, *In Re: Aluminum Warehousing Antirust Litigation*, (13 MDL 2481 (KBF)). He is also deeply involved in the representation of class action plaintiffs in numerous consumer protection and antitrust cases, including *In re: Anthem Healthcare Data Breach Litigation*, MDL No. 2617 (N.D. Cal.); *In re: Premera Healthcare Data Breach Litigation*, (D. OR.) MDL No. 2633; *In re: Medical Informatics Engineering Data Breach Litigation*, MDL No. 2667 (N.D. Ind.); *In re: Office of Personnel Management Data Breach Litigation* (D.D.C.) MDL No. 2664; and *In re: Experian*

Data Breach Litigation (C.D. Cal.) MDL No. 2676 as well as two data breach cases in Arizona, *In re: Banner Health Data Breach Litigation* and *In re: Valley Anesthesiology Data Breach Litigation*.

Mr. Scott has extensive criminal law experience as he was previously a Special Prosecutor for the State of Arkansas and successfully prosecuted to conviction over 1000 felony cases.

Mr. Scott was tendered and qualified as expert witness in the area of financial analysis and testified as to his opinion in the embezzlement case, *State v. Jean Leek*, CR 2010-4307, in the Fourth Division of Pulaski County, Arkansas Circuit Court. The defendant was convicted.

Mr. Scott is a member of the Bar of the State of Arkansas and is admitted to practice in the United States District Courts for the Eastern and Western Districts of Arkansas. He is also a member of the American Association of Justice, the Arkansas Trial Lawyers Association, the Arkansas Bar Association, American Association for Justice ("AAJ"), and the AAJ Class Action Litigation Group.

Mr. Scott's email address is dscott@emersonfirm.com

Our Firm

Emerson Poynter LLP has a national class action legal practice with offices in Houston, Texas, and Little Rock, Arkansas.

Emerson Poynter, and its team of experienced Attorneys and Paralegals, handles complex commercial litigation with a concentration in those cases that involve violations of federal and state securities or antitrust laws, consumer protection laws, and violations of the Employee Retirement Income Security Act of 1974 ("ERISA"). Our law firm has handled numerous securities and shareholder derivative cases representing investors. Emerson Poynter and its predecessor firms have also been active in many mass tort, class action, and individual cases of note. In the class action litigation area, Emerson Poynter has represented and currently represents plaintiffs in well over 100 class action cases, some of which are being prosecuted with other leading national firms.

Emerson Poynter has served as Co-Lead Counsel in several recent Multidistrict Litigation ("MDL") cases involving product liability and consumer protection issues. In 2004, Emerson Poynter was appointed by the Honorable Stephen P. Friot as Plaintiffs' Co-Lead Counsel in *In re Farmers Insurance Co., Inc. FCRA Litigation*, which was settled in the Western District of Oklahoma. This case was litigated on behalf of a certified class of Farmers' current and past customers who were charged more than the lowest premium for insurance based upon information in a consumer report, and received certain "adverse action" notices that willfully failed to conform to the Fair Credit

Reporting Act. The case resolved in late 2011 and provided class members with about $100 million in cash and other relief. Emerson Poynter LLP also represent numerous long-grain rice farmers in Arkansas and other states, and continues to serve as Co-Chairman of Plaintiffs' Executive Committee in the MDL action *In re Genetically Modified Rice Litigation* (the "*Rice MDL Action*") having been appointed to such position by the Honorable Catherine D. Perry of the Eastern District of Missouri in April 2007. The *Rice MDL Action* sought damages for long-grain rice producers in Arkansas, Missouri, Mississippi, Louisiana, and Texas for defendants' contamination of the United States' rice supply with genetically modified rice as revealed by Bayer and the USDA in August 2006. This MDL action was settled for over $750 million in cash relief for American rice farmers. Emerson Poynter additionally served as Co-Lead Plaintiffs' Counsel in an MDL case transferred to the Honorable Richard D. Bennett of the District of Maryland captioned *In Re; Tyson Foods, Inc. Chicken Raised Without Antibiotics Consumer Litigation*. The case involved false advertising claims associated with the sale of Tyson Foods' chicken as being raised without antibiotics, when in fact the chicken was raised with antibiotics. The action was settled for $5 million in cash and other relief for class members who purchased the chicken products at issue.

Emerson Poynter is also active in cases seeking to improve corporate governance in public companies through its involvement in shareholder derivative litigation. Most notably, Emerson Poynter served as Co-Lead Counsel in cases resulting in significant and far-reaching corporate governance and compliance improvements within companies such as AOL/Time Warner, Computer Associates, Nicor, Cryolife, Inc., and Crompton (Chemtura). The Firm has also represented shareholders in claims involving corporate buyouts and other change-of-control transactions. In 2007, Emerson Poynter represented shareholders of Alltel Corporation in an acquisition of the company by an affiliate of Goldman Sachs. The action was settled favorably for the shareholders, and the Honorable Judge Chris Piazza of the Pulaski County Circuit Court, Arkansas, approved the settlement in August of 2008.

In the consumer protection litigation area, Emerson Poynter is a leader in fighting for the rights of consumers. Besides the aforementioned *Tyson RWA Chicken MDL Action*, Emerson Poynter was also a leader in the MDL action captioned *In Re; Bisphenol-A (BPA) Polycarbonate Plastic Products Liability Litigation* in the United States District Court for the Western District of Missouri. Emerson Poynter was Co-Lead Counsel in the *Webb et al. v. Carters Inc. et al.* litigation in the United States District Court for the Central District of California concerning Carter's line of tagless baby clothing; in the *Montanez et al. v. Gerber Childrenswear, Inc., et al.* litigation in the United States District Court for the Central District of California concerning Gerber's line of tagless baby clothing; in the *Horne et al. v. The Dannon Company Inc.* litigation in the United States District Court for the Eastern District of Arkansas concerning Dannon's line of yogurt products.

In the retirement plan/pension area, Emerson Poynter served as Co-Lead Counsel in the Winn-Dixie Stores, Inc. ERISA Litigation that settled in the Middle District of Florida in 2008, and served as Co-Lead Counsel in the ADC Telecommunications ERISA litigation that settled in the District of Minnesota in 2006. Emerson Poynter served on the Enron ERISA Litigation Plaintiffs' Counsel Steering Committee. This case settled in the United States District Court, Southern District of Texas, Houston Division in 2005.

Our Attorneys

John G. Emerson — Partner

Mr. Emerson is a founding partner of the Firm. He was born in Little Rock, Arkansas, and was raised there and in Houston, Texas. He is a member of the state bars of Texas, Washington and Arkansas. Mr. Emerson obtained his Bachelor of Arts from the University of Texas at Austin and then earned his Juris Doctorate from South Texas College of Law. Mr. Emerson has been rated "AV Preeminent" for the last 17 years by Martindale-Hubbell which is the highest possible peer review rating in legal ability and ethical standards. Mr. Emerson was honored by being named one of the Top 100 Trial Lawyers in America by the National Trial Lawyers in 2013 and 2014.

In his antitrust practice, Mr. Emerson is currently a member of the Plaintiffs' Counsel Steering Committee in the Aluminum Warehousing Antitrust Direct Purchaser action. Mr. Emerson has represented plaintiffs in the Compact Disc Antitrust Litigation filed against the music industry in the United States, and plaintiffs in the High Pressure Laminates Antitrust Litigation in the direct purchaser case. Notably, Mr. Emerson also has been or is currently involved in the following antitrust cases: CRT (Cathode Ray Tube) Antitrust Litigation; Flash Memory Antitrust Litigation; GPU (Graphics Processing Units) Antitrust Litigation; Ocean Shipping Antitrust Litigation; TFT-LCD (Flat Panel) Antitrust Litigation; Trans-Pacific Airline Surcharge Litigation, among others.

In his corporate practice, Mr. Emerson has represented numerous stockholders in shareholder derivative lawsuits brought against corporate boards. These suits sought to impose corporate governance reforms aimed at protecting shareholders and eliminating corporate waste and abuse. Mr. Emerson is currently Co-Lead Counsel in cases involving Wal-Mart, Citigroup and JP Morgan Chase. In the past, Mr. Emerson served as one of the lead counsel in the Computer Associates derivative action in the Federal District Court for the Eastern District of New York. This action was brought

against the Computer Associates' board of directors and led to the resignation of the Company's CFO, the resignation of two other senior financial officers, and the adoption of certain corporate governance measures that Computer Associates has since represented as the "gold standard" of governance reform. Mr. Emerson was Co-Lead Counsel in the case styled *In Re Nicor, Inc. Shareholder Derivative Litigation* in the Circuit Court of Cook County, Illinois County Department, Chancery Division. This action was brought against Nicor's board of directors and its settlement resulted in major corporate governance improvements at Nicor. Mr. Emerson was Co-Lead Counsel in the case styled *In Re Cryolife Derivative Litigation* pending in the Superior Court of Fulton County, Georgia. The settlement of this action resulted in wide-sweeping corporate governance improvements at Cryolife. Mr. Emerson was also Co-Lead Counsel in the case styled *AOL Time Warner Shareholder Derivative Litigation* which was settled in the Federal District Court for the Southern District of New York. This settlement resulted in wide ranging corporate governance and compliance changes and was a substantial factor in Time Warner's ability to obtain $200 million from its Directors' and Officers' (D&O) insurance carriers. Mr. Emerson was Lead Counsel in the action styled *Crompton* (now known as Chemtura) *Shareholder Derivative Litigation* which settled in the Bankruptcy Court for the Southern District of New York. This settlement resulted in major corporate governance improvements.

In his consumer class action practice, Mr. Emerson served as Chairman of the Expert Witness Committee in the consolidated Multi-District Litigation action styled *In Re Bisphenol-A (BPA) Polycarbonate Plastic Products Liability Litigation* filed in the United States District Court for the Western District of Missouri. Mr. Emerson represented one of the lead named plaintiffs in the AOL Version 5.0 software litigation. He was Co-Lead Counsel in an action filed against the Farmers Insurance Group of Companies involving alleged violations of the Fair Credit Reporting Act which resolved for plaintiffs. He was Co-Lead Counsel for a number of parents in the Gerber's baby clothing litigation and the Carter's baby clothing litigation. Both case resolved for plaintiffs in 2013. Mr. Emerson was a consultant to Canadian plaintiffs' counsel in the Canadian Medtronic Pacemaker Pacing Lead Product Liability Litigation that was certified and settled in British Columbia as a Canadian national class action. He has been a consultant to Canadian counsel in the Canadian Compact Disc Antitrust Litigation, the Canadian Publishers Clearing House Litigation, and the Canadian AOL 5.0 Software Litigation.

In his retirement plan practice, Mr. Emerson was appointed to the Plaintiffs' Counsel Steering Committee by Judge Melinda Harmon, United States District Judge, Southern District of Texas – Houston Division, in the consolidated Enron ERISA Litigation, styled *Pamela M. Tittle v. Enron Corp., et al.*

Mr. Emerson was admitted to the Texas Bar in 1980. He is admitted to practice before the U.S. Supreme Court; U.S. Court of Appeals for the 2nd, 5th, and 8th Circuits; U.S. District Courts for the Southern, Northern, Western and Eastern Districts of Texas; Western and Eastern Districts of Arkansas; Western District of Washington; District of Colorado; and all Texas, Washington and Arkansas state courts.

Mr. Emerson has extensive jury trial experience over the past 35 years. He is a member of the legal fraternity Delta Theta Phi. He is also a member of The National Trial Lawyers; American Association for Justice ("AAJ"); AAJ Class Action Litigation Group; Fellow of The Pound Civil Justice Institute; Texas Trial Lawyers Association; American Bar Association (Tort and Insurance Practice and Legal Economics Sections); State Bar of Texas (Grievance Committee 4-D, Houston, 1991-94); Membership Services Committee, 1991-92); Sustaining Life Fellow Texas Bar Foundation; Bar Association for the United States District Court for the Eastern District of Texas; Houston Bar Association; Fellow of the Houston Bar Foundation; Washington State Bar; King County Bar Association; Pulaski County Bar Association; and, the Arkansas Bar Association. Mr. Emerson was honored by the Governor of Arkansas when he was named an Arkansas Traveler, an Ambassador of Good Will on behalf of the people of the state of Arkansas to people everywhere.

Mr. Emerson is married with two children, one grandson, and six rescued dachshunds. He enjoys the outdoors and has hunted and fished in the US, Canada, Mexico, Honduras, Uruguay, Argentina, Botswana, and South Africa. He is a life member of Safari Club International.

Mr. Emerson's email address is jemerson@emersonpoynter.com.

Scott E. Poynter Partner

Mr. Scott Poynter is a founding partner of the Firm. He was in Fayetteville, Arkansas and was raised in Mountain Home. Mr. Poynter earned his Bachelor of Science Degree in Accounting from Arkansas Tech University. He then earned his Juris Doctorate from the University of Arkansas in 1989. While in law school, Mr. Poynter was active in Phi Alpha Delta legal fraternity and was awarded a leadership scholarship from the school. After completing law school, Mr. Poynter joined the Judge Advocate Department of the United States Air Force and served six years of active duty as a Judge Advocate and litigated more than fifty jury trials. In 1995, then Captain Poynter was selected by the Air Force for its Advanced Trial Advocacy Course, a course reserved for the military's finest litigators. After leaving active duty, Mr. Poynter was a partner at a national class action law firm, which focused its work on the representation of investors. He also continued his military career in the Arkansas Air National Guard and attained the rank of Major.

Mr. Poynter is serving Arkansas homeowners in class action cases alleging certain banks outside the state of Arkansas violate the provisions of the Arkansas Statutory Foreclosure Act, which provides that foreclosing entities must strictly comply with its provisions. But often, the banks do not comply with the statute's requirements. He is also working for Arkansas homeowners that have been forced to purchase insurance at excessively high prices and in order for many of these same banks to receive illegal kickbacks from the insurers. Mr. Poynter is also pleased to help those that encounter other abusive lending and debt collection practices throughout Arkansas and the United States.

Over one hundred Alaska Airlines' flight attendants have retained Mr. Poynter in demonstrating that uniforms manufactured and supplied to them by Twin Hill contained harmful chemicals. The flight attendants allege the Twin Hill uniforms they were required to wear caused them to break out in skin rashes, suffer from contact dermatitis, have problems breathing, lose hair, and further, caused thyroid problems. The case is being pursued by almost 170 flight attendants, and is on file in Orange County, California before Judge Kim G. Dunning.

Mr. Poynter has also been engaged to represent homeowners after man-made earthquakes damaged their homes. In 2010 and 2011, central Arkansas was hit with thousands of earthquakes, which were caused by oil and gas operations in the Fayetteville Shale. This created seismicity was due to fracking operations, and specifically, when the fracking fluids and wastewater was injected

under pressure back down and deep into the earth through the industry's injection wells. About 35 homeowners in the Guy and Greenbrier areas of Arkansas filed suit alleging both physical and market value losses to their homes. Due to this experience, Mr. Poynter has been also been retained by residents of Prague, Oklahoma who have similarly suffered due to more substantial earthquakes rattling central Oklahoma.

Mr. Poynter has also helped clients faced with abusive insurance practices. As Plaintiffs' Co-Lead Counsel in *In re: Farmers Insurance Co., Inc., FCRA Litigation* (the "*Farmers MDL Action"*), Mr. Poynter was devoted to recovering statutory damages in a certified class action brought on behalf of Farmers' customers who paid higher insurance premiums based upon credit information without their knowledge due to faulty FCRA notices prepared by Farmers. As a result of his and his co-counsel's effort, they secured a $100 million settlement on behalf of class members.. In another MDL action, *In Re Genetically Modified Rice Litigation,* Mr. Poynter served as Co-Chair of Plaintiffs' Executive Committee on behalf of rice farmers who experienced a deflated rice market after America's rice supply was contaminated by Bayer's genetically modified rice in 2006 and markets in Europe and Asia were lost. A $750 million cash settlement was achieved in 2012.

Mr. Poynter leads the firm in prosecuting privacy violations and other similar breaches of federal law. In today's electronic environment, big business collects an enormous amount of financial and other information from consumers. Often times this data collection is done secretly and in order to directly market those who have had private information unknowingly taken from them. Moreover, and all to often now, businesses have utterly failed to protect the financial and personal information of their customers through data breaches, which expose consumers to risks of identify theft. In short, our rights to privacy have been substantially diminished. Mr. Poynter is engaged in prosecuting claims under the federal Driver's Privacy Protection Act of 1994 (or "DPPA"), which was designed to protect privacy and the disclosure of information gathered by state Departments of Motor Vehicles, and the Telephone Consumer Protection Act (or "TCPA") passed into law to restrict the telemarketing.

Mr. Poynter is also dedicated to serving consumers cheated by deceitful marketing. For example, he served as Co-Lead Plaintiffs' Counsel in the *Tyson RWA Chicken MDL Action* before Judge Bennett in the District of Maryland, which involved the false marketing of chicken as being raised without the use of antibiotics. Mr. Poynter and his co-counsel provided class members over $5 million in relief. Additionally, he served as class counsel in multiple consumer actions against Alltel, and thus far, has secured over $60 million of relief former Alltel subscribers who were members of certain consumer classes. Mr. Poynter has been extensively involved in many

telecommunications class action cases brought under consumer protection statutes, and appeared on the nationally syndicated television show *The Morning Show with Mike and Juliet* as an expert on the cell phone industry's early termination fees. Mr. Poynter provided viewers of this show with legal information regarding the response of consumers to such fees, and the Federal Communications Commission's hearings on the subject.

Mr. Poynter also represents shareholders in various kinds of securities actions. He currently leads a shareholder derivative action brought on behalf of Wal-Mart after its directors and executives caused the Company to pay bribes to Mexican officials and then acted to cover-up their illegal bribery scheme – all in violation of the Federal Corrupt Practices Act. The case is on file in the Western District of Arkansas, the Honorable Susan Hickey presiding. As an active participant in the representation of investors whose shares are acquired through leveraged buyouts, mergers, tender offers, and other "change of control" transactions, Mr. Poynter has challenged the fairness of such transactions, the adequacy of disclosures made in connection with the transactions, and the price offered to shareholders for their equity. These types of cases have resulted in the restructuring of scores of corporate transactions. Most recently, Mr. Poynter was a lead counsel in such litigation and represented Alltel shareholders in a case in Pulaski County Circuit Court, and Baldor shareholders in another like action filed in Sebastian County Circuit Court.

Mr. Poynter is admitted to practice before: U.S. Court of Appeals for the Armed Forces; U.S. District Courts for the Western and Eastern Districts of Arkansas; 8th Circuit Court of Appeals; and all Arkansas State Courts.

Mr. Poynter's e-mail address is scott@emersonpoynter.com.

Will T. Crowder	Partner

Mr. Crowder is a partner with the firm. He was born and raised in Camden, Arkansas. In 2000, Mr. Crowder earned a Bachelor of Arts Degree in Political Science from the University of Arkansas. In 2003, Mr. Crowder earned his Juris Doctorate from the William H. Bowen School of Law at the University of Arkansas at Little Rock. Mr. Crowder is a member of the Arkansas Bar and admitted to the United States District Court for the Eastern and Western Districts of Arkansas, the District of Colorado, and the U.S. Court of Appeals for the Eighth Circuit.

Following his clerkship he has been employed by the Little Rock law firms of Jack, Lyon & Jones, P.A. (where he focused on defense work) and McMath Woods, P.A. (where he began his representation of the injured).

During his time at Emerson Poynter, Mr. Crowder has been extensively involved in all manner and types of class cases, including the firms' consumer litigation cases:

- *Carrera v. Bayer Corporation*, (D.N.J.), deceptive trade practices action for marketing of Bayer's WeightSmart diet pill.
- *Montantez v. Gerber Childrenswear, LLC* (C.D. Cal) and *Webb v. Carter's, Inc.* (C.D. Cal), cases involving tagless labels on children's garments.
- *In re: Cheerios Marketing and Sales Practices Litigation* (D.N.J.), multidistrict litigation pending against General Mills for health and cancer-prevention claims made by their products.

Mr. Crowder has also lead the firm's efforts in litigation of cases on behalf of Arkansas's citizens

- Claims against major retailers who manufacture products with dangerous levels of heavy metals and other chemicals;
- Claims against manufacturers of "toning shoes" on behalf of Arkansas's citizens;
- Claims against banks relating to overdraft practices.

Mr. Crowder is a member of the American Bar Association, American Association for Justice, the Arkansas Trial Lawyers Association and the Pulaski County Bar Association.

In 2009, 2010, and 2011, Mr. Crowder was selected as a *Mid-South Super Lawyer* Rising Star.

Mr. Crowder's email is wcrowder@emersonpoynter.com.

Corey D. McGaha Senior Associate

Mr. Corey D. McGaha, an associate with Emerson Poynter LLP since July 2011, is admitted to practice in the state courts of Arkansas and Texas, the United States Court of Appeals for the Eighth Circuit, the United States District Courts for the Eastern and Western Districts of Arkansas, and the United States District Court for the Eastern District of Texas. Mr. McGaha graduated cum laude from Ouachita Baptist University and received his law degree from the University of Arkansas in 2002

After graduating law school, Mr. McGaha served as a law clerk to the Hon. Harry F. Barnes, United States District Court for the Western District of Arkansas from 2002-2006. He is a member of the American Bar Association, the Arkansas Bar Association, the Texas Bar Association, and the Pulaski County Bar Association.

Since joining Emerson Poynter LLP, Mr. McGaha has assisted the firm in prosecuting several class actions and real estate litigation cases, including:

- Over 30 property damage cases litigated in state and federal court for clients in Faulkner County, Arkansas alleging that wastewater injection wells caused the Guy-Greenbrier Earthquake Swarm in 2010-2011, which damaged his clients' homes.
- Reported decision in *Asset Acceptance v. Newby*, 2014 Ark. 280 (2014) – Mr. McGaha successfully argued his clients' claims were not subject to arbitration because Asset Acceptance, LLC, a debt-collector, had no specific evidence Ms. Newby agreed to arbitration, that the arbitration clause at issue was ever communicated to her, nor that she assented to the arbitration clause at issue.

Mr. McGaha worked as an attorney at Patton Roberts PLLC in Texarkana, Texas from 2006 through 2011. Mr. McGaha assisted the firm in successfully litigating and settling a number of security fraud cases including:

- *In Re: Brocade Securities Litigation, Northern District of California* - A national securities fraud class action which resulted in a court-approved cash settlement of $160 million for shareholders.
- *In Re*: *Salomon Analyst Metromedia Litigation, Southern District of New York* – A securities fraud class action which resulted in a court-approved cash settlement of $35 million for shareholders of Metromedia Fiber Network.
- *Walker v. Rent-A-Center, Inc., Eastern District of Texas* – A securities fraud class action which resulted in a court approved cash settlement of $3.6 million for the shareholders of Rent-A-Center, Inc.
- *McClure, et al, v. AOL Time Warner, Inc., Texas state court* – An individual securities fraud action in which our clients received 100% more than they would have received in the global settlement of the national securities fraud class action.

Mr. McGaha also assisted the Firm in representing the Industrial Technology Research Institute (ITRI), the prominent Taiwanese national research institute, in its first prosecution of its patent portfolio in the United States against Samsung Electronics, and its second ongoing prosecution of its patent portfolio against LG Electronics.

Mr. McGaha enjoyed a strong local civil litigation practice at Patton Roberts, focused on commercial, real estate, and personal injury litigation that included:

- *Arkansas State Highway Commission v. Wilson, et al, Arkansas state court* - In his first jury trial, Mr. McGaha secured an $188,000 jury verdict on his client's counterclaim against the Arkansas State Highway Commission after the State condemned a third of his clients' farm. The jury verdict substantially higher than the amount of money the State $116,000 originally interpled into the court's registry.
- Reported decision in *Buck v. City of Hope*, 2009 Ark. App. 105, 303 S.W.3d 85 (Ark.App. 2009) – Mr. McGaha successfully argued for his client that the trial court erred in finding it lacked subject matter jurisdiction over claims for nuisance, inverse condemnation, trespass and negligence against the City of Hope, Arkansas.
- *Watz, et al. v. Red Robin International, Inc., et al, Arkansas state court* – Mr. McGaha successfully gained a dismissal of a wrongful death lawsuit against his clients, the Red Robin restaurant chain, for lack of subject matter jurisdiction.
- *Lancaster v. Red Robin International, Inc., Arkansas state court* – Mr. McGaha achieved another success for the Red Robin restaurant chain by defeating a former employee's defamation claim by a motion for summary judgment.

While living in Texarkana, Mr. McGaha was active in the bar as a member of the Texarkana Bar Association, and treasurer for the Texarkana Young Lawyers Association. Mr. McGaha was also a member of the Texarkana Chapter of Kiwanis International. Mr. McGaha's email address is cmcgaha@emersonpoynter.com

Robert Jigarjian — Of Counsel

Mr. Jigarjian received his Bachelor of Arts degree from Hamilton College in 1981, his Masters of Business Administration from Tulane University in 1985 and his Juris Doctorate from Golden Gate University in 1993. Prior to law school, Mr. Jigarjian worked as an institutional sales trader with Keefe Bruyette & Woods, Inc., where he specialized in sales and trading of equity securities in the bank and savings and loan sectors.

Mr. Jigarjian was a founding member of Green & Jigarjian LLP. He joined Emerson Poynter in 2007. Prior to founding Green & Jigarjian, Mr. Jigarjian was employed at Girard & Green LLP.

Mr. Jigarjian has substantial experience in the representation of individual and institutional investors in class action and derivative litigation. He represented one of the lead plaintiffs in the class action captioned *In re Prison Realty Securities Litigation*, Case No. 3:99-0452 (M.D. Tenn.) which resulted in a settlement that created a fund for the class valued at approximately $105 million. He also represented one of the lead plaintiffs in the consolidated class and derivative action captioned *In re Digex, Inc. Shareholders Litigation*, C.A. No. 18336 NC (Del. Ch.), which resulted in a settlement that created a fund for the class valued at approximately $180 million and provided for other non-cash benefits valued at approximately $450 million. Mr. Jigarjian currently represents the derivative plaintiffs in *Saito, et al. v. McCall, et al.*, C.A. No. 17132-NC (Del. Ch.). The Delaware Chancery Court recently approved a settlement in the Saito litigation that provided for payment by directors and officers liability insurers to McKesson Corporation of $30 million and certain corporate governance improvements. Mr. Jigarjian also represents the lead class plaintiffs in *In Re: Salomon Analyst XO* Litigation, 02-CV-8114 (GEL) (S.D.N.Y.).

Mr. Jigarjian is a member of the State Bar of California and is admitted to the United States District Courts for the Northern, Southern, Eastern and Central Districts of California and to the Ninth Circuit Court of Appeals.

Mr. Jigarjian's email address is jigarjianlaw@gmail.com.

DECLARATION OF KURT W. MAIER

I, Kurt W. Maier, declare as follows:

1. I am a partner of English, Lucas, Priest & Owsley, LLP ("ELPO"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. ELPO was founded in 1973 and has been handling complex litigation since its formation, including involvement in leadership committees in the New England Compound Company (NECC) litigation and involvement with numerous mass torts. Kurt Maier has litigated

complex litigation cases involving GM and Daimler-Chrysler, Vioxx, mesothelioma, Agent Orange, Firestone tire/rim separation, farm equipment amputations and roll-overs, hotel fires, hotel pool electrocutions, defective warning labels on cleaning solutions, defective power line fasteners, nursing home, train and trucking accidents. Jessica Surber has litigated multiple complex medical device product liability cases, including being involved in the following mass tort litigation: Stryker Rejuvenate hips, Depuy ASR, Depuy Pinnacle, Zimmer Durom hips, IVC filters, Bair Hugger Forced Air Warming Blankets, hernia mesh products, Actos, Xarelto, Levaquin, Zofran and Testosterone Replacement Therapy.

4. Attached to my declaration is my law firm's resume.

5. **Partner, Kurt W. Maier**, graduated Denison University in 1976 with a Bachelor's Degree in Political Science and Environmental Studies. He graduated from the University of Kentucky College of Law in 1979 where he was a member of the Kentucky Law Journal. He then immediately began his career in ELPO. Kurt Maier is licensed to practice law in Kentucky, and Tennessee and is also admitted to practice in the following federal courts: Western District of Kentucky, Eastern District of Kentucky, Middle District of Tennessee, Supreme Court of Kentucky, Supreme Court of Tennessee and the 6th Circuit United States Court of Appeals. Kurt is a member of the American, Kentucky, Tennessee and Bowling Green-Warren County Bar Associations, the American Association for Justice and the Kentucky Justice Association. He is also a member of the Tennessee Trial Lawyers Association. For the past five years, Kurt has been chosen for inclusion in Super Lawyers. Kurt was involved in ELPO's large settlement with Merck over the drug Vioxx several years ago. He also worked on the cases involving fungal meningitis outbreak in 2012 involving the New England Compounding Company.

6. **Partner, Jessica Surber (associate at the time common benefit work completed)**, graduated from Western Kentucky University, *magna cum laude*, in 2009 with a Bachelors of Science degree in Accounting. She graduated from the University of Kentucky College of Law in 2012, Order of the Coif. Jessica has worked primarily at ELPO on products liability and personal injury cases, with most of her practice focusing on defective medical products and pharmaceuticals as well as complex nursing home abuse/neglect and medical malpractice cases. In the medical device field, Jessica has handled many cases against the manufacturers of metal-on-metal hip replacements including the Stryker Rejuvenate, Stryker ABG II, Depuy ASR, Depuy Pinnacle and Zimmer Durom. Jessica also handles cases involving the makers of IVC filters, Bair Hugger Forced Air Warming Blankets and various hernia mesh products. Beyond medical devices, Jessica is handling cases involving numerous prescription drugs that have been linked to injuries and illnesses; including but not limited to, Actos, Xarelto, Levaquin, Zofran and Testosterone Replacement Therapy. She is a member of the American Association for Justice, the Kentucky Justice Association, the American, Kentucky and Bowling Green-Warren County Bar associations. She graduated from the Leadership Bowling Green program, served on the Western Kentucky University Young Alumni Council and the Board of Directors of the American Red Cross of South Central Kentucky. She currently serves on the Board of Directors for the Kentucky Justice Association, Bowling Green-Warren County Bar Association and Junior Achievement of South Central Kentucky.

7. **Paralegal, Bridget Stratton** graduated from Western Kentucky University May 10, 2013 with Associates Degrees in Paralegal Studies and Office Systems Technology. She was awarded the Western Kentucky University Paralegal Studies Legal Research and Writing Award upon graduation. She began working at ELPO on May 13, 2013 managing all mass tort/complex

litigation cases. Bridget passed the Certified Kentucky Paralegal exam on May 17, 2015. She has five years of experience in mass tort/complex litigation cases.

8. Our firm filed the class action complaint in Kentucky, and worked with lead counsel in reviewing the current case inventory of Kentucky firms in identifying the appropriate class representatives. We also worked with the Kentucky class representative both before and after the class action complaint was filed.

9. ELPO maintains contemporaneous records of its time and expenses in the ordinary course of business.

10. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

11. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

12. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

13. Prior to submitting our common benefit time, I and my partner, Jessica Surber, reviewed our billing records and removed any time entries that could not be solely traced to common benefit time. After a review of our billing records, it was determined no significant cuts were necessary, as the time recorded was appropriate for the tasks completed.

14. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information

submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

15. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $5,152.50. A breakdown of the lodestar is provided below.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Surber, Jessica	Associate	16.60	$175.00	$2,905.00
2.	Stratton, Bridget	Paralegal	6.10	$145.00	$884.50
3.	Maier, Kurt	Partner	5.80	$235.00	$1,363.00
	TOTALS		28.50		$5,152,50

16. The time dedicated to completing common benefit work in this case did not prevent our firm from taking on other work.

17. My firm seeks $313.61 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	**Description of Category Code**	**Amounts**
14	Court Fees	$313.61
	TOTAL	**$313.61**

18. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

19. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Bowling Green, Kentucky.

/s/ Kurt W. Maier

English, Lucas, Priest & Owsley, LLP is a full-service law firm in Bowling Green, and is deeply rooted in Kentucky.

Our clients include established international and national businesses, regional companies, family-owned businesses, utilities, start-ups and entrepreneurs. Our business clients touch all sectors of the economy and operate from all corners of the globe – from as far away as Japan and as close as right down the street.

Alongside our business practice, we also represent individuals in a wide variety of personal matters, particularly people who have been seriously injured in accidents, need assistance with divorce or custody or those who need help with estate planning and probate. Our experienced litigators have represented clients in state and federal courts throughout Kentucky, in neighboring states and in federal courts from coast to coast, including the U.S. Supreme Court. We have extensive experience in alternative dispute resolution, and our attorneys are always willing to work with clients on negotiations, mediations or arbitrations. Should the need arise, however, our attorneys will represent our clients zealously in the courtroom or in administrative hearings.

Our Attorneys

Our firm includes 15 attorneys who have earned an AV rating by Martindale-Hubbell, the highest ranking available from the organization. Our three founding members are all members of the American College of Trial Lawyers, which is a highly selective group where only one-half of one percent of the nation's attorneys are chosen for membership. Four of our attorneys are members of the Federation of Defense & Corporate Counsel. Additionally, six of our lawyers have been selected for inclusion in Super Lawyers, the annual recognition of the state's top attorneys.

DECLARATION OF JOHN URSU

I, John Ursu, declare as follows:

1. I am a partner of Greene Espel, PLLP, ("Greene Espel"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Our practice embraces the wide variety of complex disputes. We have defended and prosecuted complex class actions involving allegations of securities fraud, breach of fiduciary duty in the corporate context, and business torts. Our attorneys are experienced in handling matters

involving complex financial instruments and transactions, trade secrets, and professional liability issues, and are regularly called upon to teach and write about these issues.

4. Greene Espel is an elite litigation boutique located in Minneapolis, Minnesota. Our firm has both a constitutional practice that represents cities and municipalities, a complex commercial practice that represents numerous Fortune 500 firms, and a white collar and investigatory practice those navigating government investigations. For many years, by nearly every reputational measure, our firm has ranked at the top level of firms in the region. Our success is the direct result of our unusual structure in which every attorney—whether a partner or non-partner—has an equal voice in the firm's management. Greene Espel's unique approach attracts and retains top-notch talent, resulting in each attorney's investment in every firm client's success. We are proud that Greene Espel encourages participation and contribution at every level—from administrative assistants and paralegals as well as our most junior and most senior attorneys. Everyone at our firm contributes to our representation of each client.

5. The following chart contains background information on every timekeeper for whom we are submitting our common benefit request.

Attorney Name (Last Name, First Name)	Law School Graduation Year	Experience, Honors/Awards
Baker, John	1986	John Baker is one of the founding attorneys of Greene Espel. An exceptional brief writer, John is an experienced appellate advocate and trial attorney. John has presented oral argument on appeal more than 30 times. While John has significant experience in private and public-sector matters, he is best known as an advocate, author and speaker on constitutional law, land-use litigation, appellate practice, telecommunications law, and defamation. • Listed in *The Best Lawyers in America* (2015-2018) • Selected to Super Lawyers list, *Minnesota Super Lawyers* (2003-2017)

		• Selected to list of "Top 25 Appellate Law Super Lawyers," *Minnesota Journal of Law and Politics* (2005)

Dunlop, Sybil	2008	Sybil Dunlop helps clients resolve complex commercial and intellectual property disputes. Sybil advises Fortune 100 clients as they navigate business disputes with contractors, clients, and business partners. As a litigator, Sybil is a passionate advocate with first-chair trial and arbitration experience. She has also represented clients before the Patent Trial and Appeal Board, including the first patent owner to score a complete victory in a CBM proceeding.

Espel, Larry	1977	Larry Espel founded the law firm with Cliff Greene in 1993. Larry's well-reputed practice includes federal and state litigation in Minnesota and throughout the country. It has involved class actions and multi-district lawsuits, arbitration, and administrative proceedings to resolve commercial, environmental, construction, products liability, and telecommunications disputes. Larry is an experienced mediator and arbitrator, and was a Certified Civil Trial Specialist for 30 years. He has published articles and lectures in the fields of contracts, construction law, environmental litigation, and products liability. • Named Local Litigation Star - Minnesota, Benchmark Litigation, The

		Guide to America's Leading Firms and Attorneys (2010-2018) • Selected to Super Lawyers list, Minnesota Super Lawyers (2003-2017) • Winner of The Hennepin County Pro Bono Publico Award For Excellence By An Attorney in the Private Sector (2015) • Recognized as Minnesota State Bar Association North Star Lawyer for Pro Service (2012-2015) • Selected to list of the "Top 40 Business Litigation Super Lawyers," Minnesota Journal of Law and Politics (2009) • Distinguished Service Award, Children's Law Center (2006)
Gassman-Pines, Jenny	2006	Jenny is an experience litigator whose cases involve the defense of private and public-sector clients facing employment claims in courtroom and agency settings, including discrimination, whistleblower, and retaliation lawsuits. She also regularly advises and defends corporate clients and individuals related to non-competition and non-solicitation agreements. • Selected to Rising Stars list, Minnesota Super Lawyers (2012-2016) • Recognized as Minnesota State Bar Association North Star Lawyer for pro bono service (2015-2016) • Wesleyan University Service Award, presented to volunteers who have given sustained or significant service to Wesleyan University (2013) • Arthur T. Pfefer Memorial Award, Twin Cities Cardozo Society (2009) • Outstanding Achievement Award in Employment Discrimination Law, Minnesota State Bar Association, Labor & Employment Law Section (2006) • Baldwin Fellowship, awarded to the member of the senior class who shows the most promise of becoming an outstanding lawyer and public-spirited citizen, Wesleyan University (2003) • Camp Prize, awarded for excellence in English Literature, Wesleyan University (2003)

Gilbertson, Robert	1991	Bob Gilbertson is an experienced trial lawyer who has successfully handled litigation and arbitrations across the United States in cases involving intellectual property, commercial disputes, insurance, industrial catastrophes, and products liability. He has tried cases to verdict in all of these areas and has handled cases in 30 states around the country. He also has deep experience representing companies faced with putative class action and antitrust lawsuits, having defended 36 such actions in 16 different states around the country. • U.S. Courts of Appeals for the Federal, Second, Sixth and Eighth Circuits • Listed in The Best Lawyers in America (2013-2018) • Selected to Super Lawyers list, Minnesota Super Lawyers (2014-2017) • Recognized as Minnesota State Bar Association North Star Lawyer for pro bono service (2012-2015) • Named a "Rising Star" and a "Super Lawyer" by Minnesota Journal of Law & Politics • Led teams that received the Volunteer Award, The Advocates for Human Rights (1998 and 2004)
Greene, Clifford	1976	Cliff Greene is one of Minnesota's preeminent trial advocates. He consistently earns this recognition from leading legal publications—including Best Lawyers in America, Chambers, and Benchmark Litigation—as well as his peers. Most recently, Best Lawyers elected Cliff as the"2018 Minneapolis Litigation - Labor and Employment Lawyer of the Year." Cliff represents clients in complex business, employment, and product liability actions. He also regularly counsels and defends government agencies and officials in disputes involving high-profile claims and significant precedent. Cliff maintains a special focus on federal practice and procedure. He has been appointed by three different chief judges of the District of Minnesota to chair the Local Rules Advisory Committee. In 2016, the Chief Judge appointed Cliff to co-chair the federal magistrate Merit Selection Panel. U.S. Supreme Court • Named Leading Commercial Litigator, *Chambers USA*, America's

Hagerty, Brian (Of Counsel)	2004	Brian graduated first in his class from the University of Michigan Law School in 2004, then completed a clerkship with Judge John M. Walker, Jr. of the U.S. Court of Appeals for the Second Circuit—the first of his four clerkships. In all, over the course of about 10 years, Brian clerked for judges at every level of court in both the state and federal systems and worked on cases of almost every description, from multi-million-dollar derivatives-related litigation, to patent suits involving medical devices and electronics, to civil-rights cases, personal-injury cases, and criminal cases of all kinds. • Daniel H. Grady Prize (highest GPA in graduating class), Class of 1908 Award (highest GPA, first two years), and Maurice

		Weigle Award (highest first-year GPA), University of Michigan Law School • West Publishing Company Award (outstanding scholarship and extracurricular contributions), University of Michigan Law School • Ralph M. Freeman Award (excellence in criminal law and procedure), University of Michigan Law School • Hubert H. Humphrey Merit Scholarship, University of Minnesota — Humphrey School of Public Affairs
Hibbard, Kathryn	2006	Kate has represented clients in class-action lawsuits, actions involving personal injuries and wrongful death claims, as well as litigation involving shareholder and intellectual property disputes, antitrust and employment claims, special litigation committees, and business torts. Kate has also represented clients facing governmental investigations involving the Federal Trade Commission, the Commodities Futures Trading Commission, the Securities and Exchange Commission, and the Office of the Comptroller of the Currency. • Selected to Rising Stars list, *Minnesota Super Lawyers* (2013-2016) • Presidential Scholarship Recipient (full tuition), University of St. Thomas School of Law
Johnson, Mark	2003	Mark Johnson is lead counsel in complex commercial litigation and arbitration matters for several Fortune 1000 corporations and sophisticated individuals. Mark regularly brings and defends lawsuits involving trade secrets, trademarks, and other intellectual property; professional liability; the enforcement of contractual and fiduciary duties; finance and securities; and international business disputes. • Selected to Super Lawyers list, *Minnesota Super Lawyers* (2015-2017) • Honored as Attorney of the Year, *Minnesota Lawyer* (2012) • Selected to Rising Stars list, *Minnesota Super Lawyers* (2011-2014) • Recognized as Up and Coming Attorney, *Minnesota Lawyer* (2011)

Kimble, Janine	2010	Janine Kimble represented public and private sector clients in complex litigation and compliance matters. She has assisted clients through all phases of cases in both state and federal court. Janine joined Greene Espel after clerking for Justice Alan C. Page of the Minnesota Supreme Court. Janine received her J.D. from Stanford Law School, where she was on the board of the Stanford Law Review. She received her B.A. magna cum laude from St. Olaf College. Before attending law school, Janine was a Recruitment Director for Teach For America in Minneapolis and taught eighth grade math for two years as a Teach For America Corps Member in Mississippi. Janine currently works as an Assistant Attorney general for the Minnesota Attorney General's Office.
Paul, Jeya (Of Counsel)	2006	Jeya Paul is an experienced litigator whose practice focuses on intellectual property and other complex commercial disputes. She has experience with all stages of litigation, from pre-suit investigations to trial and post-trial proceedings. Jeya has represented clients in patent litigation matters in district courts across the country and at the Federal Circuit. She also has experience with inter partes reviews at the United States Patent and Trademark Office. Jeya is a graduate of Stanford Law School and a former federal district court law clerk.
Rashid, Faris	2010	Faris Rashid represents private sector clients in complex commercial matters, including cases involving trade secrets, non-competition and non-solicitation agreements, technology and software-related disputes, and product liability claims. He advises corporate clients regarding FCPA and anti-corruption laws, and coordinates responses to government investigations, including those conducted by the Securities and Exchange Commission and the Federal Trade Commission. aris has represented both local enterpreneurs and Fortune 500 companies. Faris received his J.D., magna cum laude from the University of Wisconsin Law School, and his B.A., with high distinction, from the University of Wisconsin. After law school, he clerked for the Honorable Ann D. Montgomery of the United States District Court for the District of Minnesota.

		• Recognized as Minnesota State Bar Association North Star Lawyer for pro bono service (2015) • University of Wisconsin Law School--Davis Award for Excellence in the Study of Constitutional Law
Schmitter, Chris	2013	Chris Schmitter uses experience gained from federal trial and appellate court clerkships to represent clients in both the public and private sectors. Chris joined Greene Espel after clerking for the Honorable Sidney R. Thomas of the U.S. Court of Appeals for the Ninth Circuit and for the Honorable John Tunheim of the U.S District Court for the District of Minnesota. While in law school, Chris clerked for the U.S. Attorney's Office for the District of Minnesota and served as a legal intern for the U.S. Department of Justice's Civil Rights Division (Criminal Section). He worked as a research assistant to Professor Kristin Hickman. Chris also served as the student director of the Misdemeanor Prosecution Clinic. Before attending law school, Chris served as Deputy Chief of Staff and Legislative Director for U.S. Representative Tim Walz. • Class of 2013 Most Outstanding Contribution Award, University of Minnesota Law School • Judge Edward J. Devitt Award for excellence in the study of federal law and practice, University of Minnesota Law School • ALI-CLE Scholarship and Leadership Award, University of Minnesota Law School • Book Award for highest grade in Property, Federal Securities Regulation, and Advanced Corporate Law, University of Minnesota Law School • Recipient of the Leonard, Street & Deinard Law Review Award for excellence in legal writing
Sindberg Porter, Erin	2007	Erin has over a decade of experience litigating complex cases. She has counseled individuals and corporations facing civil litigation, criminal prosecutions, and government investigations. Erin's clients include Fortune 500 companies as well as individuals and smaller organizations. She has represented clients facing mortgage repurchase

		claims, defending the originators and sellers of mortgage loans against banks and other investors demanding repurchase and indemnification. She also represents companies in complex business tort cases helping clients navigate multiple actions in different states and jurisdictions. Erin also maintains a robust pro bono practice, advocating for mothers and children. Her advocacy includes; representing children through the Children's Law Center who recognized her as Volunteer of the Month, helping review the City of Minneapolis Youth Violence Prevention Program, a founding member of the Minnesota Mother Attorneys Association, and serving on the Board of Directors of Our Fair Carousel. Erin also currently serves as the President of Macalester College's Alumni Board. • Recognized as Up and Coming Attorney, *Minnesota Lawyer* (2017) • Selected to Rising Stars list, *Minnesota Super Lawyers* (2011-2017) • Recognized as Minnesota State Bar Association North Star Lawyer for pro bono service (2012-2015) • Named Children's Law Center October 2013 Volunteer of the Month • CALI Award for highest grade in Constitutional Law, Federal Jurisdiction
Ursu, John	2002	John has practiced at Greene Espel since 2005 where, according to the 2010 edition of Benchmark: The Definitive Guide to America's Leading Litigation Firms and Attorneys, he "has made a name for himself managing complex business disputes." In 2011, John was named as one of Minnesota Lawyer's 28 "Up & Coming Attorneys," and from 2013 to 2017, one of Benchmark's "Local Litigation Stars." John graduated from the University of Michigan Law School in 2002, where he was Managing Editor of the Michigan Law Review. While at Michigan, he won the 78th Annual Henry M. Campbell Moot Court Competition, which the university describes as "one of the highest honors a Michigan law student can achieve." John won several awards while at Michigan, including the Jason L. Honigman award for his contributions to the Law Review over two years. Following law school, John clerked for the Honorable Richard H.

		Kyle of the United States District Court for the District of Minnesota. • Named to 2018 BTI Client Service All-Stars List (2018) • Listed in The Best Lawyers in America (2018) • Honored as Local Litigation Star, Benchmark: The Definitive Guide to America's Leading Litigation Firms and Attorneys (2013-2017) • Named Up & Coming Attorney, *Minnesota Lawyer* (2011) • Listed as Rising Star, *Minnesota Super Lawyers* (2011, 2012) • Recognized as Future Star, *Benchmark: The Definitive Guide to America's Leading Litigation Firms and Attorneys* (Third Annual Edition, Fourth Annual Edition, Fifth Annual Edition) • Champion, 78th Annual Henry M. Campbell Moot Court Competition at University of Michigan Law School, as awarded by Judge Frank Easterbrook (7th Cir.), Judge Steven Reinhardt (9th Cir.), and Barbara Underwood, former Acting Solicitor General for the United States (2002) • Jason L. Honigman Award, for the greatest contributions to the *Michigan Law Review* (2002) • Certificate of Merit, for the highest grade in Constitutionalism in South Africa (2002) • James A. Dykema Award, for election to the editorial board of the *Michigan Law Review* (2001)
Wallace-Jackson, David	1998	David Wallace-Jackson litigates complex matters in federal and state courts throughout the United States. He represents companies and individuals in complex business and intellectual property disputes, internal investigations and due diligence work, and white-collar criminal defense matters. David routinely litigates complex cases involving contract, trade secret and unfair competition issues. He defends companies against product liability lawsuits and related agency investigations. David investigates international business conduct issues as they arise under the Foreign Corrupt Practices Act

		and the U.K. Bribery Act. And he defends clients caught up in the criminal justice system. • Listed in The Best Lawyers in America (2013-2018) • Dana Award for Personal Achievement, Carleton College (1987)
Zhao, X. Kevin	2010	X. Kevin Zhao represents clients in complex litigation, including multidistrict class actions, business disputes and arbitration, and product-liability litigation. Kevin has prosecuted and defended a variety of claims in federal and state courts across the country. Kevin also has substantial experience in cross-border disputes. Leveraging his fluency in Mandarin, for instance, Kevin has prepared, defended, and taken numerous depositions of Chinese-speaking witnesses in China and Hong Kong. In addition to complex litigation, Kevin advises clients on regulatory-compliance matters, including trade compliance and export controls, and conducts sensitive internal investigations. Kevin maintains an active pro bono practice, working with asylum seekers in partnership with The Advocates for Human Rights. • Appointed to the Merit Selection Panel by Chief Judge John R. Tunheim to advise the U.S. District Court of the District of Minnesota on the selection of a new U.S. Magistrate Judge (February, 2018) • Recognized as Minnesota State Bar Association North Star Lawyer for pro bono service (2014-2016) • Graduate Fellow for Constitutional Law and Corporations, Harvard Law School

Staff Name (Last Name, First Name)	Years of experience in the legal industry	Experience
Dolphin, Kathleen	30	As a litigation specialist paralegal, Katy Dolphin helps clients in all phases of litigation. Katy is a critical member of case teams who masters the factual record and deploys that mastery to provide tactical and strategic input. She is responsible for investigative support, including factual research and interviews; document review and management; preparation of summary

		investigative memoranda and court filings; and trial preparation and support.
Frisell, Sharon	28	Sharon is a litigation specialist at Greene Espel with over 25 years of litigation experience. As a seasoned litigation paralegal, her experience includes high volumes of document collection and management, witness interviews and preparation, discovery tasks, pretrial preparation, and trial support.
Jones, Debra	23	Deb Jones, RP® is a senior paralegal with more than 20 years of experience providing key support in a broad range of legal areas, with a focus on employment and complex commercial litigation. She assists in all phases of litigation, including document preservation and collection, factual analysis and development, depositions, and trial preparation.
Levy, Carynne	22	Carynne Levy is a Senior Paralegal at Greene Espel with over twenty years' experience in all aspects of complex litigation case management in multiple jurisdictions including Alabama, Arizona, Florida, Georgia, and Minnesota. Carynne has an extensive background in orchestrating crucial day-to-day assistance to attorneys in the areas of mass tort product liability cases, general commercial litigation matters with significant claims at stake, FINRA arbitrations, and SEC investigations. She assists in all phases of litigation, including document collection and analysis, discovery requests and responses, fact development, case investigation and organization, depositions, arbitration, trial preparation and trial support. Carynne also has experience in bankruptcy and immigration matters. Carynne regularly works with the latest litigation support and courtroom technologies.
Ling, Lynn	1	Lynn Ling is a 2016 graduate of the University of Minnesota Law School with a Bachelor's Degree from Nanjing University in Nanjing, China. Before clerking at Greene Espel during her final two years of law school, Ms. Ling worked at private law firms in Minneapolis and New York and at a corporate legal department. A native Mandarin speaker, Ms. Ling's professional experience also included liaising between the United States and China for universities in both countries. Ms. Ling now a senior associate at Clifton Larson Allen in Minneapolis.
Nikolai, Mary	1	Mary Nikolai is a 2018 graduate of the University of St. Thomas Law School with eight years' experience working for private law firms on commercial litigation matters and legislative initiatives. Mary has worked as a legal assistant, providing drafting assistance for legal

		documents and has broad experience researching a range of legal and legislative matters.
Nusbaum, Ann	18	Ann Nusbaum joined Greene Espel as a paralegal in 2014. Ann had significant experience as a paralegal in large litigation firms, where she specialized in ediscovery, technical collection, review, and database management, especially on large, complex matters. Ann's experience included all aspect of discovery, from collection to production, and managing internal litigation support and external vendors for each step in the discovery process. Ann retired from private practice in 2016.
Richart, Laura	10	Laura Richart provides important support to Greene Espel attorneys and paralegals by managing documents and databases. Laura Richart is a Case Assistant at Greene Espel.
Yackley, Melanie	8	As a Case Manager, Mel Yackley helps manage and triage all the moving parts of complex litigation matters. She assists matter teams with defining goals, standardizing processes, and delivering results that align with each client's objectives.

6. Our firm was the first to file suit against Syngenta for its premature, broad commercialization. When the MDL was created, I was appointed to the Executive Committee, where I have been deeply involved in multiple strategic decisions on procedural matters, discovery, dispositive motions, and trial. My partners and colleagues and I have conducted extensive legal research, have drafted and and assisted co-lead counsel in the drafting of significant motions, including Syngenta's motion to dismiss, motion to remand (which included the complicated area of foreign relations), dismissal of third-party complaints (which included the Grain Standards Act), and summary judgment motions involving Syngenta's arguments pertaining to exporters and China, worked with co-lead counsel regarding information pertaining to China's regulatory system, assisted in research and drafting of the motion for class certification, argued important motions (including motion to remand and motions to dismiss third-party complaint), assisted in developing facts pertaining to the United States commodity system and means of bulk transportation, developed the procedural framework for the coordinated cases, took depositions of

critical witnesses as lead lawyer (including representatives of NGFA and NAEGA), reviewed documents, assisted in preparing trial witnesses including Randy Giroux, and sat as thought partners in every step of this litigation.

7. Our firm has been heavily invested in every piece of the multi-district and class action litigation against Syngenta. We have had to forego other work due to our commitments to this litigation.

8. Greene Espel maintains contemporaneous records of time and expenses in the ordinary course of business. Clients are sent monthly invoices detailing those time records and expenses, which are recorded and saved (along with non-billable, administrative time) in a software system.

9. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

10. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

11. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

12. My partner Erin Sindberg Porter and I have exercised billing judgment in re-reviewing common benefit time and expenses. We scrutinize each invoice, and I have done so again here, and again in a teleconference with Co-Lead Counsel.

13. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information

submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

14. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $1,767,880.80. A breakdown of the lodestar is provided below.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Ursu, John W.	Partner	972.30	$534.00	$519,208.20
2.	Zhao, X. Kevin	Associate	718.30	$361.00	$259,306.30
3.	Hagerty, Brian	Associate	564.90	$400.00	$225,960.00
4.	Schmitter, Chris L.	Associate	475.10	$337.00	$160,108.70
5.	Hibbard, Kathryn N.	Partner	330.00	$412.00	$135,960.00
6.	Wallace-Jackson, David	Partner	280.90	$501.00	$140,730.90
7.	Levy, Carynne L.	Paralegal	256.20	$266.00	$68,149.20
8.	Sindberg Porter, Erin	Partner	243.90	$374.00	$91,218.60
9.	Dolphin, Kathleen A.	Paralegal	98.10	$258.00	$25,309.80
10.	Rashid, Faris A.	Associate	94.00	$361.00	$33,934.00
11.	Nusbaum, Ann J.	Paralegal	76.70	$238.00	$18,254.60
12.	Richart, Laura S.	Paralegal	52.40	$90.00	$4,716.00
13.	Gilbertson, Robert J.	Partner	46.90	$585.00	$27,436.50
14.	Jones, Debra A.	Paralegal	41.30	$258.00	$10,655.40
15.	Kimble, Janine W.	Associate	37.40	$302.00	$11,294.80
16.	Dunlop, Sybil L.	Partner	31.90	$322.00	$10,271.80
17.	Baker, John M.	Partner	21.80	$305.00	$6,649.00
18.	Gassman-Pines, Jenny	Partner	15.10	$345.00	$5,209.50
19.	Greene, Clifford M.	Partner	11.20	$596.00	$6,675.20
20.	Paul, Jeya	Associate	5.20	$391.00	$2,033.20
21.	Frisell, Sharon C.	Paralegal	5.00	$238.00	$1,190.00
22.	Johnson, Mark L.	Partner	4.50	$400.00	$1,800.00
23.	Yackley, Melanie M.	Paralegal	3.40	$112.00	$380.80
24.	Espel, Larry D.	Partner	1.70	$643.00	$1,093.10

	Name	Title	Total Hours	Hourly Rate	Lodestar
25.	Nikolai, Mary M.	Paralegal	1.50	$160.00	$240.00
26.	Ling, Lynn Y.	Paralegal	0.80	$119.00	$95.20
	TOTALS		4,390.50		$1,767,880.80

15. Our firm's investment in this litigation resulted in our timekeepers spending significant amounts of time, advancing the case against Syngenta.

16. My firm seeks $199,822.80 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	$153.91
5	In-House Photocopying	$1,634.32
7	Hotels	$457.70
8	Meals	$151.35
9	Mileage	$975.90
10	Air Travel	$508.60
12	Lexis/Westlaw/Bloomberg	$5,759.62
17	Ground Transportation	$24.40
18	Miscellaneous	$157.00
19	Litigation Fund Assessment	$190,000.00
	TOTAL	**$199,822.80**

17. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

18. Greene Espel requests $160,000 as reimbursement for capital contributions to the litigation fund.

19. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Minneapolis, Minnesota.

DECLARATION OF R. SETH CROMPTON

I, R. Seth Crompton, declare as follows:

1. I am a partner at Holland Law Firm, LLC. Based on my position at the firm, I am authorized on behalf of my firm to submit this declaration. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

2. My firm's work on this case was performed on a wholly contingent basis pursuant to contingency fee contracts with plaintiffs, including named class representative James McKinney. My firm has not received any amounts in connection with this case either as fee income

or expense reimbursement. Additionally, all expense amounts were incurred and paid by my firm out of operating funds.

3. The firm practices throughout the United States and its partners have been appointed as co-lead, steering committee and executive committee in a variety of complex litigations, including consumer, product, and financial litigations from coast to coast. The partners credentials are more fully set forth in the curriculum vitae of. R. Seth Crompton, attached hereto and the curriculum vitae of Eric D. Holland, also attached hereto. A small amount of time was spent by one associate – Philip Proud – who while at the firm worked with the partners in all of the firm's practice areas, including class action, and has continued in complex litigation at his current firm.

4. The majority of the firm's work in this case was with named class representative James McKinney. This work involved responding to discovery, including multiple rounds of supplemental discovery, multiple rounds of production that involved collecting, analyzing, and producing hundreds of complex documents, preparing Mr. McKinney for his deposition, and defending Mr. McKinney's deposition. All of this work required extensive communications and involvement with Mr. McKinney as well as various lead counsel attorneys.

5. Mr. McKinnney was invaluable to the prosecution of the litigation. He was actively involved throughout the process, including the initial investigation and filing, which required researching and gathering supporting documents, responding to discovery, including multiple rounds of supplemental discovery and document production, traveling a variety of distances to obtain documentation, executing authorizations, extensive communication with counsel, multiple deposition preparation sessions, and appearing at a deposition, just to name a few of the task he performed for the benefit of the class. But for people such as Mr. McKinney stepping forward and

prosecuting the litigation, the members of the class would not have had the issues raised in the Complaint remedied.

6. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

7. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to individual clients, who were not either bellwether or class representative plaintiffs.

8. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment, including cutting any time related to work not performed either for common benefit or as it relates to named representative Mr. McKinney. Moreover, assignments were coordinated so as to avoid duplicative work, as evidenced by the fact that the vast majority of the work for the firm was done by one timekeeper, R. Seth Crompton. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

9. The lodestar below is derived from contemporaneous daily time records the firm compiled on this matter, which are recorded in our computerized database. The firm requires regular and contemporaneous recording of time records, which occurred in this case.

10. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $69,760.00. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
R. Seth Crompton	Partner	137.10	$500	$68,550.00
Eric D. Holland	Sr. Partner	1.10	$850	$935.00
Philip Proud	Associate	1.10	$250	$275.00
TOTALS		139.30		$69,760.00

11. Additionally, the firm advanced a total of $1,395.11 in expenses reasonably and necessarily incurred in connection with the prosecution of this litigation. These expenses are reflected in the books and records regularly kept and maintained by my firm.

12. My firm seeks $1,395.11 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	$23.56
2	Postage Charges	$84.96
3	Facsimile Charges	$13.00
4	Long Distance Calls	
5	In-House Photocopying	$53.10
6	Outside Photocopying	
7	Hotels	$24.24
8	Meals	$613.33
9	Mileage	$498.22
10	Air Travel	
11	Deposition Costs	
12	Lexis/Westlaw/Bloomberg	$84.70
13	Witness and Expert Expenses	
14	Court Fees	
15	Service of Process Fees	
16	Hearing and Trial Transcripts	
17	Ground Transportation	
18	Miscellaneous	
19	Litigation Fund Assessment	
	TOTAL	**$1,395.11**

13. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

14. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in St. Louis, MO.

/s/ *R. Seth Crompton*

Curriculum Vitae

ERIC D. HOLLAND

Eric D. Holland, managing and founding partner of Holland Law Firm, LLC, leads a nationally recognized trial practice at his firm's City of St. Louis headquarters. He has extensively litigated and tried cases in federal and state courts serving as lead counsel, co-lead counsel, or in other leadership capacities in a variety of banking, product liability, railroad disaster and mass tort matters.

Holland has been regularly interviewed by and quoted in a variety of international, national and local media outlets regarding pharmaceutical, class action, mass tort and railroad cases including the following:

- The New York Times
- The Chicago Sun-Times
- The St. Louis Post-Dispatch
- Law360
- CBS News Radio
- Die Zeit (German national newspaper)
- KSDK News Channel 5
- KTVI Fox 2 News
- St. Louis Business Journal
- KMOX News Radio
- Bloomberg BNA

Holland has received a host of awards and honors including Martindale's AV Preeminent rating, the Super Lawyer designation, Top Attorneys, and Top 100 Trial Lawyers, to name a few. He serves as designated legal counsel for a member union of the Transportation Trades Department of the AFL-CIO, and has been appointed a special assistant State's Attorney in Illinois.

Mr. Holland's experience in the courtroom began 27 years ago. Starting his practice at one of St. Louis' largest law firms, Eric immediately began handling serious injury-related litigation. Early in his career, he handled a large number of individual cases, many of which resulted in record-setting jury verdicts and settlements. He has dozens and dozens of multi-million dollar jury verdicts and settlements in single event cases. These results came primarily in railroad, trucking and product liability matters and include the largest railroad jury verdicts in the State of Missouri for 1999, 2001 and 2005 as well as the largest railroad jury verdict in Florida history, returned in 2006. Mr. Holland also holds the record for the largest F.E.L.A jury verdict in Missouri history, obtained in the 22nd Judicial Circuit, on August 29, 2005, where he has litigated and tried cases for his entire career.

He also has developed an extensive practice in aggregate litigation. He has been nominated and selected to a variety of leadership positions by both his peers and courts. Mr. Holland's most recent appointed leadership positions in aggregate litigation include a number of high profile product liability, banking, pharmaceutical and complex litigation matters including serving as co-lead counsel in a federal multidistrict litigation in the United States District Court for the Eastern District of Missouri pending before the Hon. Henry Autrey, in which nationwide class certification was recently granted. He has served as lead counsel in many cases that have resulted in nationwide settlement classes including cases against international

automotive companies, some of the world's largest banks, and the oldest firearms maker in the United States. He has served in a leadership capacity in the following cases:

Vought, et al., v. Bank of America, N.A., Case No. 2:10 CV 2052 (C.D. Ill.)(co-lead counsel)

Parisot v. U.S. Title Co., 8:22 CC 9381 (Circuit Court, City of St. Louis)(co-lead counsel)

In re: Michigan Oil Spill Litigation/Volstromer v. Enbridge, 1:10 CV 752 (W.D. Mich.)(executive committee)

In re: Yasmin and Yaz Sales, Marketing Practices and Product Liability Litigation, Case No. 3:09-md-02100 (MDL 2100) (S.D. Ill.)(PSC's science committee)

In re IKO Roofing Products Liability Litigation, Case No. 2:09-md-02104 (MDL 2104) (C.D. Ill.)(executive committee)

Christiansen v. Volkswagen Group of America, Inc., Case No. 1:10-cv-6484 (N.D. IL)(class counsel)

In re Dial Complete Sales and Marketing Litigation, Case No. 1:11-md-02263 (MDL 2263) (D.N.H.)(executive committee)

In re JPMorgan Chase Bank Mortgage Loan Modification Litigation, Case No. 1:11-md-2290 (MDL 2290) (D. Mass.)(executive committee, discovery chairman and settlement team)

In re CitiBank HAMP Loan Modification Litigation, Case No. 2:11-ml-02274 (MDL 2274)(C.D. CA)(executive committee)

In re KV Pharmaceutical Securities Litigation, Case No. 4:11-cv-01816 (E.D. MO)(liaison counsel)

In re HardiePlank Fiber Cement Siding Litigation, Case No. 12-md-2359 (MDL 2359)(D. MN)(trial team)

In re Eliason, et al. v Gentek Building Products, Inc. Case No. 1:10-cv-2093 (ND OH) (executive committee)

In re Espinoza, et al v Whiting, et al. Case No. 4:12-cv-01711 (E.D. MO) (liaison counsel)

In re Emerson Electric Wet/Dry Vac Sales and Marketing Litigation, MDL 2382 (E.D. MO)(co-lead counsel)

In re Mirena IUD Products Liability Litigation, MDL 2434 (S.D. N.Y.)(plaintiffs' steering committee)

In re H&R Block IRS Form 8863 Litigation, MDL 2474 (W.D. MO)(co-lead counsel)

In re Carrier IQ Consumer Privacy Litigation, MDL 2330 (N.D. CA)(executive committee)

Smith, et al. v. Volkswagon Group of America, et al., 13-cv-00370- SMY (S.D. IL)(co-lead counsel)

Hayes v. Integrity Title Company, 11SL-cc-1529 (21st Judicial Circuit, State of Missouri)(lead counsel)

Pollard v Remington Arms Company, 4:13-cv-00086-ODS (W.D. MO)(co-lead counsel)

Simpkins v Wells Fargo Bank, N.A., et al, 12-cv-768-DRH (S.D. IL)(liaison counsel)

United Desert Charities v. Flushmate, 2:12-cv-6878-SJO (C.D.

CA)(executive committee)

Wilson v. Everbank, N.A., 14-cv-22264 (S.D. FL)(class counsel)

Jackson v. U.S. Bank, N.A., 14-cv-21252 (S.D. FL)(class counsel)

Mr. Holland's results in aggregate litigation follow the results of his personal injury practice. For example, he served as co-lead counsel in a national products liability class action involving allegedly defective wire harnesses, leading the case through successful settlement and resolution that provided a complete fix of the allegedly defective part at no cost to class members. Just three years before, he obtained certification of a nationwide settlement class against the same international auto maker for a defective Bluetooth system. Mr. Holland also served in the leadership and was on the settlement team in a banking class action that resulted in a settlement valued at over $500 million by a former Department of Treasury official arising out of the financial crisis and Big Bank bailout. He also represented individuals in the General Motors Ignition Switch Litigation including one of the original 13 victims of the GM cover-up, successfully concluding that matter. Recently, his acumen in complex litigation was cited by the judge presiding over an insurance class action: "The Court further finds, based on the appearance of Class Counsel at hearings and filing of pleadings in the case, that Class Counsel's prosecution and handling of this complex class action case has been exemplary.

Attorney Holland, who personally appeared at all substantive hearings, demonstrated a command of complex litigation that resulted in the rare opportunity for complete relief for class members. The Court commends Holland and his firm…for their prosecution of this action." *Hayes v. Integrity Title Company*, 11SL-cc-1529 (21st Judicial Circuit-Honorable Tom J. DePriest, Jr., presiding).

Mr. Holland is a frequent lecturer regarding complex litigation topics. He has been featured on a variety of topics with a particular focus on state court litigation of complex matters. Mr. Holland has also been a featured speaker on complex litigation at a number of nationally acclaimed symposia across the country regarding complex federal litigation. He has shared the podium with many of the country's most recognized lawyers and legal scholars, including when he spoke at the 13th Annual Class Action and Complex Litigation Symposium in New Orleans, Louisiana, serving on a panel chaired by Professor Arthur Miller and including Mark Geragos, Ken Starr and Professor Francis McGovern discussing the topic of aggregate litigation. He also recently co-chaired, along with Richard Arsenault, the opioid conference held in St. Louis in connection with the MDL hearing concerning the national opioid litigation. This conference was attended by attorneys from across the country and Holland moderated and participated in all discussions regarding the various aspects of the opioid crisis and resulting litigation.

Mr. Holland has been consulted or retained as counsel by judges, national and

local labor unions, Fortune 500 companies, elected officials, public entities, and, most importantly, a variety of catastrophically injured victims and their families. His background in the labor movement has led to Eric's keen interest in the rights of those injured, maimed and killed due to the negligent conduct of others. As part of his practice, he serves as designated legal counsel to one of the national labor unions who form the Transportation Trades Department (TTD) of the AFL-CIO and has served the last four years as liaison counsel for a national labor union's regional convention. He is also a member of the Academy of Rail Labor Attorneys.

Mr. Holland is a 1988 graduate of the University of Illinois at Urbana-Champaign and a 1991 graduate of the St. Louis University School of Law, where he was elected to the Law Review. He is admitted to practice in the state courts of Missouri, Illinois, and Michigan, as well as federal courts across the country. Particularly, he has been generally or pro hac vice admitted in federal districts in Missouri, Illinois, Michigan, Ohio, Pennsylvania, New York, New Hampshire, Florida, Texas, Oklahoma, Arkansas, Iowa, Colorado, California, Oregon, Washington, New Jersey, Tennessee, Iowa, and Minnesota.

Mr. Holland has been recognized for his professional accomplishments for many years including holding an AV Preeminent rating from Martindale-Hubbell, which is a peer-reviewed analysis of attorneys primarily focused on skills and ethics. He has also been designated a "Top Rated Lawyer "(Product Liability, Mass Tort,

and Class Action), a "Super Lawyer", and noted by the National Trial Lawyers as a "Top 100 Trial Lawyer". He is a past member of the Board of Governors for the Missouri Association of Trial Attorneys, has served on the steering committee for the Midwest Innocence Project, and does a variety of volunteer work including on behalf of Legal Services of Eastern Missouri and the Muscular Dystrophy Association.

FIRM BACKGROUND

Holland Law Firm, LLC is a civil litigation firm offering a wide range of services to its clients. The firm handles litigation in state and federal courts across the country on behalf of individuals, corporations, and government entities. The firm's attorneys are experienced trial lawyers handling litigation involving class and mass actions, railroad, maritime, and trucking accidents, catastrophic personal injuries, wrongful death, traumatic brain injuries, and complex commercial litigation. From the firm headquarters in St. Louis, Missouri, the firm provides clients with powerful resources coupled with nationally recognized trial attorneys in their fight for justice.

The firm has extensive experience in federal court litigation including product liability, consumer, antitrust, banking, railroad, maritime, and diversity matters. The

firm's attorneys litigate cases in state and federal courts across the country.

R. Seth Crompton, Esq.

Curriculum Vitae

R. Seth Crompton is a distinguished trial lawyer litigating complex civil cases throughout the United States. He has been appointed by courts across the country to lead complex litigations and has obtained significant verdicts, settlements, and results on behalf of his clients. His cases have been featured on various media outlets across the country.

Received the Martindale-Hubbell preeminent AV rating (5.0/5.0), which is given to a select group of attorneys that have been designated by their colleagues and the judiciary as demonstrating preeminence in the practice of law.

Designated as a National Trial Lawyers – Top 100 Trial Lawyer. National Trial Lawyers is an invitation-only organization wherein members are evaluated on the basis of stringent qualifications, and is comprised of the most premier trial attorneys across the United States.

Received Global Directory of Who's Who (Top Lawyers). Who's Who (Top Lawyers) honors attorneys who have demonstrated achievement and leadership in the legal field based on an attorneys' position and professional accomplishments.

Recognized by Super Lawyers as a Top-Rated Class Action and Mass Tort attorney. Super Lawyers uses an independent selection process to rate outstanding lawyers who have attained a high-degree of peer recognition and professional achievement.

Recognized by Best Lawyers in America as ranking in the top 5% of private practice attorneys nationwide, as determined by my legal peers. Inclusion in Best Lawyers is based on a rigorous peer-review survey comprising more than 7.4 million confidential evaluations by top attorneys.

In addition to other not-for-profit and community leadership activities, he serves on the Board of Governors for the Missouri Association of Trial Attorneys.

DECLARATION OF JAKE BROOKS

I, Jake Brooks, declare as follows:

1. I am attorney licensed to practice law in the State of Kansas.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. I obtained my J.D. from Washburn University School of Law in 1978 and have been in private practice in Scott City, Kansas, for the past forty years. I practice civil litigation, and also practice in the areas of criminal defense, family law, and estate planning and probate.

4. I coordinated the filing of a class action complaint in the District Court of Scott

County, Kansas that asserted claims against Syngenta on behalf of Kansas corn farmers. That action was subsequently removed to this Court and included in the MDL. *See Compton v. Syngenta AG*, et al., No. 6:16-cv-01004-JWL-JPO (D. Kan.). In carrying out my responsibilities related to the *Compton* case I spoke with Steve Six of Stueve, Siegel, Hanson, LLP on multiple occasions, assisted Mr. Six with the vetting of potential class representatives, reviewed the draft complaint, and filed the complaint.

5. I maintain contemporaneous records of my time and expenses in the ordinary course of business.

6. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), I submitted my common benefit time and expense submissions to Co-Lead Counsel in the MDL.

7. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

8. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

9. My billing is based upon actual time spent on representing the class representative in this litigation. My re-review of time spent was compared to all of the emails, letters and travel time spent.

10. After this re-review, I can confirm that this time was undertaken by me personally. I believe that the common benefit time and expense information I am submitting is accurate and in compliance with the Court's Common Benefit Order.

11. After exercising billing judgment and making billing reductions based on my

review of the records, the total lodestar for my work is $1,912.50. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
Jake Brooks	Attorney	8.5	$225.00	$1,912.50

12. I seek an award of $41.70 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
1	Federal Express / Local Courier	
2	Postage Charges	$6.70
3	Facsimile Charges	
4	Long Distance Calls	
5	In-House Photocopying	$35.00
6	Outside Photocopying	
7	Hotels	
8	Meals	
9	Mileage	
10	Air Travel	
11	Deposition Costs	
12	Lexis/Westlaw/Bloomberg	
13	Witness and Expert Expenses	
14	Court Fees	
15	Service of Process Fees	
16	Hearing and Trial Transcripts	
17	Ground Transportation	
18	Miscellaneous	
19	Litigation Fund Assessment	
	TOTAL	**$41.70**

13. As part of my request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

14. The expenses pertaining to this case are reflected in my records. These records are contemporaneously prepared from receipts; expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Scott City, Kansas.

/s/ Jake Brooks

DECLARATION OF THOMAS S. KRUML

I, Thomas S. Kruml, declare as follows:

1. I am a shareholder and President of Kruml Law Office, P.C., LLO of 1501 M Street, PO Box 347, Ord, NE 68862 ("Kruml"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. I have been in practice for twenty-five years, handling various matters in state and federal court. In addition, I have represented clients in complex litigation in U.S. Bankruptcy

Court, in matters such as serving as lead counsel for one of 5 members of the creditor's committee in the VeraSun Ethanol Bankruptcy. I represented Trotter, Inc., James Trotter, President, as a member of that creditor's committee on behalf of all nationwide corn producers in that VeraSun matter.

4. In the present matter, all attorney work has been done by me personally, and has also involved my legal assistant, Lacey Fauss. As indicated, I have been representing clients for the past twenty-five years in Nebraska, including many corn producers, and various other businesses including grain elevators. I graduated from the University of Nebraska College of Law in 1993, and have been working since that time. My assistant, Lacey Fauss, has a both a bachelors degree (2009), and a masters degree in 2012 from Doane University.

5. I assisted in various actions connected to the filing of the Nebraska State Court Complaint in order to preserve potential state court claims as part of this action. I also hosted various meetings in preparation for the deposition involving one of the lead plaintiffs for Nebraska in the federal case, namely Martin Petska. I also hosted the deposition.

6. My firm utilizes and continuously maintains a contemporaneous time keeping/records systems for all client matters, including the pending Syngenta matter, all in the ordinary and usual course of our operation.

7. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

8. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients, who were not either bellwether or class representative plaintiffs.

9. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

10. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

11. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $1,555.00. A breakdown of the lodestar is provided below.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Kruml, Thomas S.	Partner	7.00	$175.00	$1,225.00
2.	Fauss, Lacey	Paralegal	4.40	$75.00	$330.00
	TOTALS		11.4		$1,555.00

12. My firm seeks $221.98 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	**Description of Category Code**	**Amounts**
5	In-House Photocopying	$40.00
9	Mileage	$98.98
14	Court Fees	$83.00
	TOTAL	**$221.98**

13. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

14. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July 2018, in Ord, Valley County, Nebraska.

DECLARATION OF ROBERT K. SHELQUIST

I, Robert K. Shelquist, declare as follows:

1. I am a partner of Lockridge Grindal Nauen P.L.L.P. ("Lockridge"). Based on my position with my firm and in furtherance of my Court-appointment to the MDL Plaintiff Executive Committee, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Founded in 1978, Lockridge has served clients throughout the Midwest and in Washington, D.C. Our attorneys and lobbyists have extensive experience in government relations,

antitrust, business, health care, employment, environmental, consumer protection, products liability, intellectual property, real estate, securities, utilities and technology law. The firm has litigated and/or tried scores of products liability/personal injury and consumer protection/antitrust cases in state and federal district and appellate courts across the country. The firm is known for complex class action and consolidated litigation, and has litigated numerous collective and class actions for a diverse range of products and injuries, including asbestos products, pharmaceuticals, farm seed and chemical technology, medical devices, electronic appliances, industrial accidents, construction products, consumer products, and construction equipment. Lockridge attorneys are assisted by experienced paralegals and support staff. The firm has offices in Minneapolis, Minnesota, Bismarck, North Dakota and Washington, D.C. Our firm represents clients of all shapes and sizes and include agribusiness, banks, local and tribal governments, real estate developers, telecommunications providers, energy companies, health care professionals, casualty insurers, trade and industry associations, pension funds, unions, publishers and authors, as well as issue-based coalitions.

4. Attached to my declaration is the Lockridge firm resume. Further information about the firm can be found at locklaw.com.

5. The Lockridge attorneys and staff involved in this matter are well-versed in complex litigation and coordinated multidistrict litigation, several of them have held court-appointed leadership positions in the context of certified classes and coordinated litigation, and all are required by the firm to submit daily time records in this and other firm matters.

a. Richard Lockridge graduated from law school in 1974. He is a former Minnesota Assistant Attorney General and was a law clerk to the Honorable Myron H. Bright of the Eighth Circuit Court of Appeals. During the past

forty years, Mr. Lockridge has focused his practice on securities and antitrust class action litigation. He has led litigation teams in a number of high profile complex class action matters and has developed a national reputation for fairness, integrity and superior legal representation.

b. Robert Shelquist graduated from law school in 1990. Mr. Shelquist heads up the firm's consumer protection and products liability litigation practice groups. During the course of his career, he has represented individuals, small businesses and corporations in a wide range of civil litigation including defective and mispriced products, securities and ERISA, anti-competitive conduct, privacy, and the use of sharp business practices, fraud, misrepresentations, and other statutory violations in conjunction with the sale of goods and services. Mr. Shelquist has represented plaintiffs as court-appointed counsel and was one of the trial attorneys in two national class actions tried to verdict. In *Peterson v. BASF Corp*., a judgment in excess of $60 million was paid following a jury verdict, multiple state appellate opinions, and two trips to the U.S. Supreme Court. Mr. Shelquist has been and continues to be named Lead, Executive Committee, Plaintiff Steering Committee, and Committee Chair in complex litigation in both federal and state courts throughout the United States. Over the course of his career, Mr. Shelquist has led cases which have collectively resulted in close to $1 billion worth of recoveries by way of judgment and settlement. He continues to lecture at continuing legal education events on a variety of topics, has been involved in the leadership of the consumer section of the

Bar Association, and is a member of a working group for Standards and Best Practices, Duke Law Center for Judicial Studies. Mr. Shelquist was named one of Minnesota Lawyer's Attorney of the Year in 2017.

c. Rebecca Peterson graduated from law school in 2005. She practices in the firm's class action group with an emphasis in securities, products liability, ERISA and data privacy litigation. Ms. Peterson had extensive experience prior to joining the firm including Thomson Reuters, the California Attorney General's Office, North State Advisors and private law firms. Ms. Peterson was named one of Minnesota Lawyer's Attorney of the Year in 2017.

d. Krista Freier graduated from law school in 2009. Krista Freier practices in the firm's class action group with an emphasis in products liability. She is a 2009 graduate of Hamline University School of Law where she was a Student Attorney in Hamline's Child Advocacy Clinic and interned with the Honorable Gregory G. Galler in Minnesota State Court. While attending law school, Krista clerked with the Hennepin County Attorney's Office in the divisions of Juvenile Prosecution-Victim Witness and Child Support.

e. Kevin Ravenscroft graduated from law school in 2009. Mr. Ravenscroft has extensive experience in research and legal writing. He has worked individually and with junior attorney teams to prepare deposition support and reports for senior partners. Mr. Ravenscroft has also conducted ad hoc research queries to locate specific documentary support and drafted motions as support in litigation. He has also provided partners with background and

preliminary research into suspect product markets prior to drafting of complaints.

f. Rachel Christiansen graduated from law school in 2004. Ms. Christiansen has extensive litigation experience in which she has prepared deposition materials and outlines, written deposition summaries and gathered factual evidence for depositions and second-chaired depositions. She has also been lead attorney for depositions. Ms. Christiansen has drafted discovery, addressed privilege log issues and drafted pleadings. She has worked internationally, researching and drafting memoranda on various issues.

g. Kristin Marttila graduated from law school in 2005. Kristen Marttila practices primarily in the areas of antitrust, environmental and land use, business law, and health care law. She frequently serves as local counsel in a wide variety of matters, including intellectual property, consumer, and complex ERISA cases. She clerked for the Honorable Patrick J. Schiltz in the United States District Court for the District of Minnesota. In 2005, she graduated from the University of Iowa College of Law with high distinction and was a member of the Order of the Coif. She was also awarded the Boyd Service Medallion for her public interest work. In law school, she was a symposium editor for the Journal of Transnational Law and Contemporary Problems and competed in the Jessup International Moot Court. She also earned her M.S. in urban and regional planning, with an emphasis in land-use and environmental planning, and a B.A. in English. Ms. Marttila

received the Sierra Club North Star Achievement Award in recognition of service as Chapter Legal Chair (2007).

h. Rick Linsk graduated from law school in 2008. Mr. Linsk is an experienced second-career lawyer devoted to rigorous attention to detail and zealous representation of his clients. He works primarily in the firm's health care, insurance, employment, and products liability litigation practices. He frequently represents medical practitioners in regulatory and litigation matters. He has particular experience with insurance bad-faith claims and employee benefit litigation brought under the Employee Retirement Income Security Act (ERISA). Mr. Linsk is a member of the Minnesota Supreme Court's Advisory Committee on the Rules of Public Access to Records of the Judicial Branch. Mr. Linsk served as an extern to Judge David Minge of the Minnesota Court of Appeals. Mr. Linsk was a judicial law clerk at the Minnesota Supreme Court for the Honorable Paul H. Anderson, the Honorable G. Barry Anderson, and the Honorable Lorie S. Gildea, associate justices at the time.

i. Scott Moriarity graduated from law school in 2002. Mr. Moriarity is an active member of the Federal Bar Association, where he has provided pro bono representation through its Pro Se Project; served as editor of the IP Browser, the FBA newsletter on intellectual property law; and worked on the Minnesota Chapter's legal education committee. An engaged community member, Mr. Moriarity is on the board of In the Heart of the Beast Mask and Puppet Theater, which supports theater and school-age

programming on the environment and social diversity. He also serves on the board of the TwinWest Chamber of Commerce Foundation, which champions workforce development and early childhood education in Minneapolis' western suburbs. Mr. Moriarity also served as a law clerk in the state and federal courts, with Judge Mark S. Wernick in Hennepin County district court; with Judge Wilhelmina M. Wright in the Minnesota Court of Appeals; and with Magistrate Judge Jeanne J. Graham in the U.S. District Court, District of Minnesota.

j. Laura Matson graduated from law school in 2014. She has extensive research experience and authored many articles regarding various environmental issues. She has consulted internationally on these issues, as well.

k. Ke Huang graduated from law school in 2015. Ms. Huang has experience in legal research and drafting in the areas of civil law and immigration. She is fluent in Chinese.

l. Laurie Meyer graduated from law school in 1989. Ms. Meyer has extensive experience in insurance defense, securities and arbitration cases. She has represented clients in mediation and arbitration hearings and argued motions in court in insurance defense cases.

m. Kelly LeRoy earned an Associate of Science Degree from North Hennepin Community College in Paralegal Studies. Ms. LeRoy has more than twenty years' experience as a paralegal in the area of complex litigation, specializing in consumer fraud and products liability. She has experience

working with cases venued in many federal courts and through the Multi-District Litigation Panel. Ms. LeRoy has maintained voluminous case files, designed and implemented document coding databases, coordinated and monitored multiple coding projects, and prepared attorneys for depositions and hearings. She has also prepared for and participated in several trials.

6. As an Executive Committee member, I participated in all calls and meetings as requested by lead counsel, identified class representatives in several states, oversaw projects assigned by lead counsel to the firm, and helped develop case themes and shape motion practice as requested by lead counsel.

7. Lockridge was asked to dedicate experienced lawyers to pursue several document review and related deposition preparation projects. Several attorneys were requested to and traveled to Kansas City for on-site training and document review. These attorneys reviewed many significant sets of documents including third-party documents from Bunge, Cargill, ADM and Gavilon. They reviewed Syngenta documents from M. Mack, P. Trivisvavet, M. Araba, D. Ward and Y. Zhang. Lockridge attorneys also provided assistance with deposition preparation. They also reviewed Syngenta internal documents that included marketing materials, business plans, technical information, biosafety documents, Agrisure and Duracade documents, China deregulation documents, distributor contracts and efficacy trials. Of additional importance, Huang Ke, who is fluent in Chinese, provided summaries for many of the documents produced by several parties in Chinese and identified and translated hot documents for depositions and motion practice. Lockridge attorneys contributed to legal research for choice of law issues and opposition to motions to dismiss. They also contributed to research on the experts for this case and conducted legal research at the request of co-lead counsel for the MDL. I also was appointed as Liaison

Counsel in the Minnesota action and in that position was a bridge between the MDL and the Minnesota action and worked closely with the MDL co-leads on various projects and issues, including providing information from mock jury projects, jury instructions, and coordinated motion practice regarding an expert witness (ultimately withdrawn) and expert documents in the litigation and non-litigation context.

8. Lockridge obtained several class representative for the MDL action: Charles Lex, Alan Pederson, Tim Harvey, David Elijah and Willimack Farms. Lockridge also assisted with the filing of the *Hammerstrom* Wisconsin state action and provided legal research for the complaint, which was ultimately removed to the Kansas MDL. In all cases and for a number of other clients being considered to act as class representatives or who may be offered in an anticipated bellwether selection process, Lockridge helped evaluate the viability for each role and ensured all discovery and plaintiff fact sheet obligations as to class representatives were met.

9. Our time report was prepared from contemporaneous, daily time records regularly prepared and maintained by my firm. The hourly rates for the partners, attorneys, and professional support staff in my firm included in this submission are the same as the usual and customary hourly rates currently charged for their services in similar complex contingent or class action litigation matters.

10. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL on a monthly basis.

11. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs or being considered for such roles.[1]

12. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

13. In a coordinated effort with staff, we have reviewed time and expense entries internally and a second time with MDL co-Lead Counsel to again ascertain the appropriateness of the activities in light of this Court's directives and authorizations received from Co-Lead MDL Counsel to proceed with the tasks. All of this review work in support of the fee and expense application was accomplished without any time and expenses being billed.

14. After this re-review, I can confirm that this time was undertaken by the members of my firm at the direction of MDL lead counsel and overseen by me. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

15. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $1,350,611.00. A breakdown of the lodestar is provided below.

Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
Christiansen, Rachel	Associate	999.70	$325.00	$324,902.50
Ravenscroft, Kevin	Associate	691.20	$325.00	$224,640.00

[1] Through my appointment as Liaison Counsel in the Minnesota state court consolidated proceedings, our firm took on separate assignments which were billed contemporaneously with daily time records to a separate billing matter number. None of the time spent working on Minnesota projects is being submitted for consideration via the MDL petition. All of my firm's Minnesota time will be included in the separately-filed Minnesota petition seeking fees and cost reimbursement.

Name	Title	Total Hours	Hourly Rate	Lodestar
Freier, Krista	Associate	492.20	$420.00	$206,724.00
Huang, Ke	Associate	448.10	$325.00	$145,632.50
Matson, Laura	Associate	404.30	$325.00	$131,397.50
Shelquist, Robert	Partner	236.20	$785.00	$185,417.00
Meyer, Laurie	Associate	123.70	$375.00	$46,387.50
LeRoy, Kelly	Paralegal	65.80	$200.00	$13,160.00
Marttila, Kristen	Associate	46.00	$500.00	$23,000.00
Peterson, Rebecca	Associate	42.10	$500.00	$21,050.00
Moriarty, Scott	Associate	32.30	$500.00	$16,150.00
Linsk, Rick	Associate	23.80	$450.00	$10,710.00
Lockridge, Richard	Partner	1.60	$900.00	$1,440.00
TOTALS		3,607.00		$1,350,611.00

16. Each of the attorneys are firm partners or associates and hours spent by each in this matter precluded them from working those hours on other firm matters.

17. My firm seeks $216,121.06 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Description of Category Code	Amounts
Federal Express / Local Courier	$102.80
Postage Charges	$59.15
Long Distance Calls	$57.56
In-House Photocopying	$618.40
Hotels	$10,097.65
Meals	$987.40
Mileage	$136.26
Air Travel	$8,745.28
Lexis/Westlaw/Bloomberg	$1,445.67
Court Fees	$1,301.00
Service of Process Fees	$365.00
Hearing and Trial Transcripts	
Ground Transportation	$1,560.83
Miscellaneous	$644.06
Litigation Fund Assessment	$190,000.00
TOTAL	**$216,121.06**

18. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

19. My firm is requesting expense reimbursement for capital contributions to the litigation fund. The full amount requested by MDL lead counsel for each capital contribution was timely paid. Our litigation fund contributions totaled $190,000.00[2] over the course of this litigation.

20. The expenses pertaining to this case are reflected in the records of my firm, maintained by our accounting department and reviewed by attorneys on a monthly basis.. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Minneapolis, Minnesota.

/s/ Robert K. Shelquist
Robert K. Shelquist

[2] As a court-appointed Liaison Counsel to the Minnesota state court consolidated proceedings, my firm also paid assessments in Minnesota. Those Minnesota assessments are not being included in this request and we will separately seek reimbursement through the separately-filed Minnesota petition for fees and cost reimbursement.

LOCKRIDGE GRINDAL NAUEN P.L.L.P.
Attorneys at Law

Founded in 1978, Lockridge Grindal Nauen P.L.L.P. has extensive experience in antitrust, securities, environmental, employment, health care, commercial, intellectual property and telecommunications law.

DECLARATION OF PAUL D. LUNDBERG

I, Paul D. Lundberg, declare as follows:

1. I am the sole member of Lundberg Law Firm PLC ("Lundberg"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Lundberg was organized in Sioux City, Iowa in 2002. The firm's principal, Paul D. Lundberg, has practiced law in Sioux City since 1981 and is licensed to practice in the state and federal courts of Iowa, Nebraska, and South Dakota, the Eighth Circuit Court of Appeals, and the

United States Supreme Court. Paul D. Lundberg is a Fellow of the Iowa Academy of Trial Lawyers and just recently resigned as a Fellow of the American College of Trial Lawyers. In addition to the firm's work in the Syngenta litigation, Lundberg is participating local counsel in the *Blue Cross Blue Shield* antitrust MDL now pending in the Northern District of Alabama. In that proceeding Lundberg has participated in a discovery committee for the central United States with direct responsibility for identification and review of defendant document production for Iowa, South Dakota and North Dakota, along with document review for document production by all defendants. Lundberg has also been lead counsel for a telecommunications entity for 10 years in the "Tier One" telecommunications cases pending before Senior Judge James Gritzner in the Southern District of Iowa. (See Case No. 07-cv-00078, SD of Iowa).

4. Attached to my declaration is my law firm's resume.

5. Paul D. Lundberg is the sole timekeeper for Lundberg Law Firm in this proceeding. I am a 1981 graduate of the University of Iowa college of Law. I graduated with high distinction and was a member of the Order of the Coif. I have practiced civil trial law in Sioux City, Iowa since 1981. I am a Fellow of the Iowa Academy of Trial Lawyers and recently resigned as a Fellow of the American College of Trial Lawyers. I have tried over 100 cases to jury verdict in Iowa, Nebraska, and South Dakota. Some of my significant cases are set forth in the resume attached.

6. Lundberg has participated in discovery on behalf of bellwether plaintiff Cronin, Inc. (Iowa) including conferences with client principal, Robert Cronin, review and production of client documents, reviewing and drafting responses to requests for admissions and interrogatories and assisting lead counsel with preparation of Robert Cronin for his deposition.

7. Our firm worked with bellwether plaintiff Cronin, Inc. (Iowa) and its principal Robert Cronin. Robert Cronin spent approximately 15 hours assisting in organization and

production of Cronin, Inc. documents, 10 hours in assisting with responding to interrogatories and requests for admissions, 12 hours in deposition preparation and 8 hours attending his deposition including travel time.

8. Through our QuickBooks system my firm maintains contemporaneous records of its time and expenses for all matters in the ordinary course of business.

9. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

10. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients, who were not either bellwether or class representative plaintiffs.

11. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

12. In reviewing the time entries submitted in this litigation I removed, and did not submit, all time entries pertaining to our other clients in this litigation. These other clients included Maas-Ruba Farms (Iowa); Volnek Farms (Nebraska); Charlene Hamilton (Nebraska) and Meinke Farms (Missouri). All entries submitted pertain to bellwether plaintiff Cronin, Inc.

13. After this re-review, I can confirm that this time was undertaken by me on behalf of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

14. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $9,922.50. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
Paul D. Lundberg	Partner	44.10	$225.00	$9,922.50
TOTALS		44.10		$9,922.50

15. My firm does not seek reimbursement of expenses in connection with the prosecution of the litigation.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July 2018, in Sioux City, Iowa.

DECLARATION OF GREGORY R. FLAX

I, Gregory R. Flax, declare as follows:

1. I am a partner of Martin, Browne, Hull & Harper, PLL ("Martin Browne"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Martin Browne has been serving clients in Springfield, Ohio and surrounding areas for more than 140 years. Attorneys within the firm practice in a variety of areas, including agriculture, civil litigation, labor and employment, real estate, and estate planning and

administration. The firm consists of eleven attorneys and has offices in Springfield and Urbana, Ohio.

4. My biographical information is attached along with biographical information for all other timekeepers in the firm who provided services in the above-captioned case.

5. Martin Browne has worked closely with Co-Lead Counsel in the above-reference case. The firm filed, at the request of Co-Lead Counsel, complaints on behalf of the Ohio class in state and federal court. The firm also identified Ohio class representatives and bellwether plaintiffs, Kaffenbarger Farms, Inc., Haerr Grain Farms, Three H Farms, LLC, and HGF Irrigated. Martin Browne collected written discovery from those clients and hosted Defendants' depositions of those clients at its office in Springfield, Ohio.

6. The Ohio class representatives and bellwether plaintiffs Kaffenbarger Farms, Inc., Haerr Grain Farms, Three H Farms, LLC, and HGF Irrigated, provided hundreds of pages of documents to Defendants in discovery, responded to numerous interrogatories and requests for admissions, appeared for depositions, and assisted Co-Lead Counsel in preparing for trial of the Ohio claims.

7. Martin Browne maintains contemporaneous records of its time and expenses in the ordinary course of business.

8. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

9. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

10. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

11. I personally omitted and/or cut time entries that did not meet the requirements of the Common Benefit Order.

12. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $34,295.00. A breakdown of the lodestar is provided below.

Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
Gregory R. Flax	Partner	113.1	$275.00	$31,102.50
Steven J. McCready	Partner	1.5	$275.00	$412.50
Richard F. Heil, Jr.	Partner	0.8	$275.00	$220.00
Brenda Rushing	Paralegal	25.6	$100.00	$2,560.00
TOTALS		141.0		$34,295.00

14. My firm seeks $117.74 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	**Description of Costs**	**Amount**
2	Federal Express/Local Courier	66.14
5	In-House Photocopying	51.60
	TOTAL	**$117.74**

15. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

16. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 9th day of July, 2018, in Springfield, Ohio.

/s/ Gregory R. Flax
Gregory R. Flax

Gregory R. Flax, Partner

Greg has been a partner with the firm since July 2014. His primary practice areas include agricultural law, environmental law and business litigation. Greg operated a family farm in Clark County before attending law school. He is a lifelong resident of Clark County. Greg was an associate in the Columbus office of Baker & Hostetler from 2006 to 2011, and then launched a successful solo practice in Springfield. Greg and his wife, Holly, have three children. They enjoy participating in youth sports and the Clark County and Ohio State Fairs.

DECLARATION OF STUART H. MCCLUER

I, Stuart H. McCluer, declare as follows:

1. I am a member of McCulley McCluer PLLC ("McCulley McCluer"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. McCulley McCluer is a boutique litigation firm focused on representing plaintiffs in complex commercial litigation. With offices in Charleston, South Carolina and Oxford,

Mississippi, the Firm has a national practice and primarily litigates significant antitrust, commercial, and healthcare matters in courts throughout the country.

McCulley McCluer has extensive experience prosecuting class actions and other complex litigation. This experience has been recognized by Courts and co- counsel through the Firm's selection to serve in leadership roles in a broad range of matters. The Firm has also been selected to serve as outside counsel by numerous State Attorneys General to pursue complex fraud claims on behalf of their States.

In recent years, McCulley McCluer has recovered over $250 million for its clients. For example, the Firm served as Plaintiffs' Executive Committee Counsel in an antitrust class action on behalf of independent truck stop owners that settled for $130 million and significant injunctive relief. *Universal Delaware, Inc., et al. v. Comdata Corp.*, 07-cv-1078 (E.D. Pa.). In addition, the Firm and its co-counsel recovered $82 million for a nationwide class of self-insured local governmental entities in a complex prescription drug fraud matter. *In re: McKesson AWP Governmental Entity Litigation*, 08-cv-11349 (D. Mass.). The Firm reached this settlement shortly before trial after achieving the rare certification of a nationwide RICO class and defeating a Rule 23(f) petition to the First Circuit Court of Appeals. The Firm also recovered over $40 million for the Attorneys General of the States of Mississippi, Ohio, Oklahoma, and Utah in numerous healthcare fraud matters.

4. Attached to this declaration is my law firm's resume. Background information regarding Messrs. McCulley and McCluer is included therein.

Frank B. Ulmer is a magna cum laude graduate of Wofford College, where he was elected to Phi Beta Kappa. He then graduated from the Washington & Lee University School of Law in 2002, magna cum laude, where he served as Lead Articles Editor of the Washington &

Lee Law Review. After graduating from law school, Mr. Ulmer served on active duty as a Captain in the Judge Advocate General's Corps of the United States Army. Mr. Ulmer also served a year-long deployment in Baghdad, Iraq in support of Operation Iraqi Freedom III. Following his military service and before entering private practice, Mr. Ulmer served as a law clerk to Judge David C. Norton, United States District Court for the District of South Carolina. Justin Bouchard graduated from the Georgia Institute of Technology in 2012 and the University of Mississippi School of Law in 2015. He is licensed to practice law in Georgia and Alabama.

5. McCulley McCluer was the primary counsel for non-producer class representative Express Grain Terminals LLC ("Express Grain"). Key responsibilities in the litigation included coordinating discovery responses and production and also assisting with the non-producer damages models.

6. Express Grain, and counsel on Express Grain's behalf, spent a substantial amount of time preparing written responses to discovery and also coordinating document production. These amounts are reflected in the daily time entries provided to the Court in connection with this petition and declaration.

7. McCulley McCluer maintains contemporaneous records of its time and expenses in the ordinary course of business.

8. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

9. In compliance with the Common Benefit Order, I did not include in these submissions any time and expenses spent in respect to individual clients who were not either bellwether or class representative plaintiffs.

10. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

11. I individually reviewed my firm's time and made significant edits to narrow the scope of the time submitted. Thereafter I coordinated with Co-Lead counsel and agreed to further reductions in the interest of efficiency.

12. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $212,287.50. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
R. Bryant McCulley	Partner	154.5	$750	$115,875.00
Stuart H. McCluer	Partner	122.9	$725	$89,102.50
Frank B. Ulmer	Of Counsel	7.2	$550	$3,960.00
Justin Bouchard	Associate	13.4	$250	$3,350.00
TOTALS		**298**		**$212,287.50**

14. My firm is not seeking reimbursement for any expenses associated with its participation in this matter.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Charleston, South Carolina.

/s/ *Stuart H. McCluer*

FIRM RÉSUMÉ AND BIOGRAPHIES

MCCULLEY MCCLUER PLLC is a boutique litigation firm focused on representing plaintiffs in complex commercial litigation. With offices in Charleston, South Carolina and Oxford, Mississippi, the Firm has a national practice and primarily litigates significant antitrust, commercial, and healthcare matters in courts throughout the country.

McCulley McCluer has extensive experience prosecuting class actions and other complex litigation. This experience has been recognized by Courts and co- counsel through the Firm's selection to serve in leadership roles in a broad range of matters. The Firm has also been selected to serve as outside counsel by numerous State Attorneys General to pursue complex fraud claims on behalf of their States.

In recent years, McCulley McCluer has recovered over $250 million for its clients. For example, the Firm served as Plaintiffs' Executive Committee Counsel in an antitrust class action on behalf of independent truck stop owners that settled for $130 million and significant injunctive relief. *Universal Delaware, Inc., et al. v. Comdata Corp.*, 07-cv-1078 (E.D. Pa.). In addition, the Firm and its co-counsel recovered $82 million for a nationwide class of self-insured local governmental entities in a complex prescription drug fraud matter. *In re: McKesson AWP Governmental Entity Litigation*, 08-cv-11349 (D. Mass.). The Firm reached this settlement shortly before trial after achieving the rare certification of a nationwide RICO class and defeating a Rule 23(f) petition to the First Circuit Court of Appeals. The Firm also recovered over $40 million for the Attorneys General of the States of Mississippi, Ohio, Oklahoma, and Utah in numerous healthcare fraud matters.

Additional representative matters for the Firm include:

ANTITRUST

Universal Delaware, Inc., et al. v. Comdata Corp., 07-1078 (E.D. Pa.) (Plaintiffs' Executive Committee in direct purchaser antitrust class action that settled for $130 million).

In re: Pre-Filled Propane Tank Antitrust Litigation, MDL 2567 (W.D. Mo.) (represent lead plaintiff in antitrust action seeking damages for overcharge damages related to the pricing of propane exchange tanks).

In re: Delta/AirTran Baggage Fee Antitrust Litigation, MDL 2089 (N.D. Ga.) (Interim Co-Lead Counsel in direct purchaser antitrust class action).

In re: Aftermarket Filters Antitrust Litigation, MDL 1957 (N.D. Ill.) (Co-Chair of the Class Certification Committee in direct purchaser antitrust class action) ($8.3 million settlement).

In re: Aftermarket Automotive Lighting Products Antitrust Litigation, MDL 2007 (C.D. Cal.) (direct purchaser antitrust class action) ($50 million settlement).

FINANCIAL / SECURITIES

MF Global Inc. Customer Cases (Deangelis, et al., v. Corzine, et. al., 11-cv-7866) (S.D.N.Y.)) (represent lead plaintiff in class action seeking damages resulting from failure of MF Global) ($100 million partial settlement).

In re LIBOR-Based Financial Instruments Antitrust Litigation, MDL No. 2262 (S.D.N.Y.) (represent lead plaintiff in class action seeking damages for LIBOR-Based Securities holders as a result of the alleged suppression of LIBOR).

HEALTHCARE

In re: McKesson AWP Governmental Entity Litigation, (08-cv-11349, D. Mass.) (member of Plaintiffs' Executive Committee in nationwide class action of public payors of pharmaceuticals that settled for $82 million) (class representatives included the City of Baltimore, Maryland; Douglas County, Kansas; City of Panama City, Florida; Anoka County, Minnesota; City of Columbia, South Carolina; City of Goldsboro, North Carolina).

State of Ohio v. McKesson Corp., (13-cv-2000 N.D. Cal.) (Co-Lead Counsel for the State of Ohio in pharmaceutical pricing litigation) ($18.3 million settlement).

Average Wholesale Price Litigation – Mississippi (Special Assistant Attorneys General to the State of Mississippi in pharmaceutical pricing litigation) (favorable settlements).

Average Wholesale Price Litigation – Oklahoma (Co-Lead Counsel for the State of Oklahoma in pharmaceutical pricing litigation against drug manufacturers) (approximately $20 million recovery).

State of Oklahoma v. McKesson Corp. (08-cv-11349, D. Mass) (Co-Lead Counsel for the State of Oklahoma in pharmaceutical pricing litigation) (recovered funds for both Oklahoma Medicaid and OSEEGIB, Oklahoma's State Health Plan) (favorable settlements).

State of Utah v. McKesson Corp. (10-cv-4743 N.D. Cal.) (Co-Lead Counsel for the State of Utah in pharmaceutical pricing litigation) (favorable settlements).

State of Mississippi v. McKesson Corp. (251-10-862 Hinds County, Miss. Circuit Court) (Co-Lead Counsel for the State of Mississippi in pharmaceutical pricing litigation) (favorable settlement).

ENVIRONMENTAL

In re: Syngenta AG MIR162 Corn Litigation, MDL 2591 (D. Kan.) (represented lead plaintiff non-producer in class action arising from contamination of corn industry).

In re: BP Oil Spill Litigation, MDL 2179 (E.D. La.) (represent hundreds of Business Economic Loss claimants).

In re: Genetically Modified Rice Litigation, MDL 1811 (E.D. Mo.) (represented numerous long-grain rice farmers in multi-district litigation).

COMMERCIAL

Southeast Georgia Reg'l Med. Ctr., Inc., et al. v. Humana Military Healthcare Services, Inc., Case No. 11 193 00446 09 (Co-Lead Counsel in arbitration resulting in $2.2 million judgment for client).

The City of Jacksonville, et al. v. Hotels.com, et al., (Duval County, Florida Circuit Court) (Co-Lead Counsel for Duval County, Florida in class action involving taxation of internet travel transactions) (favorable settlement for client).

PRINCIPAL ATTORNEYS

R. BRYANT MCCULLEY

Admitted: Florida, Alabama (U.S. District Court for the Northern District of Alabama, U.S. District Court for the Middle District of Florida).

Education: Hampden-Sydney College (B.A., *summa cum laude*, Phi Beta Kappa); University of Strathclyde (Master of Environmental Studies, *with distinction*); Washington & Lee University School of Law (J.D., *magna cum laude*, Order of the Coif). Editor-in-Chief, WASHINGTON AND LEE LAW REVIEW.

Clerkship: Hon. Karon O. Bowdre, U.S. District Court for the Northern District of Alabama.

Publications: The Proof is in the Policy: The Bush Administration, Nonpoint Source Pollution and EPA's Final TMDL Rule, 59 WASH. & LEE L. REV. 237 (2002).

Practice: Mr. McCulley has significant experience representing plaintiffs and defendants in complex commercial litigation.

R. Bryant McCulley has been engaged in complex civil litigation since he entered private practice with the national law firm Boies, Schiller & Flexner LLP. While at Boies Schiller, Mr. McCulley prosecuted and defended class action claims seeking hundreds of millions of dollars in damages. Such matters include: *In re Terazosin Hydrochloride Antitrust Litig*., S.D. Fla. ($74.5 million settlement); *In re Scrap Metal Antitrust Litig*., N.D. Ohio ($10 million partial settlement); *Spartanburg Regional Healthcare Servs. v. Hillenbrand Indus., Inc.*, D.S.C. (defense of manufacturer in action seeking in excess of $1 billion).

Since co-founding McCulley McCluer PLLC in 2007, Mr. McCulley has continued to focus on the representation of plaintiffs in high-stakes fraud, antitrust, securities and natural resource damage litigation. A large part of Mr. McCulley's practice involves the prosecution of significant claims on behalf of governmental entities. For example, Mr. McCulley recently as outside counsel to the States of Ohio, Mississippi, Oklahoma, and Utah in healthcare fraud litigation and as a member of the Plaintiffs' Executive Committee in *In re McKesson Gov't Entity Average Wholesale Price Litig*., D. Mass. These matters resulted in over $120 million in recoveries for Mr. McCulley's clients.

Mr. McCulley has particular experience litigating issues related to class certification, having represented both plaintiffs and defendants in class actions seeking billions of dollars in damages. Most recently, Mr. McCulley was a member of the litigation team that achieved nationwide certification of a RICO claim against a major pharmaceutical wholesaler. This litigation, *In re McKesson Gov't Entity Average Wholesale Price Litig*., D. Mass., settled shortly before trial for $82 million. In addition, among other matters, Mr. McCulley recently secured a $2.2 million arbitration judgment in favor of a large hospital system in a contract dispute with a health insurance company, a settlement for a medical device company asserting unfair competition and antitrust claims, and settlements for the City of Jacksonville, Florida in litigation against online travel companies for unpaid occupancy taxes.

Mr. McCulley is a summa cum laude graduate of Hampden-Sydney College, where he was elected to Phi Beta Kappa and Omicron Delta Kappa and served as the Chairman of the Student Honor Court. He received a MSc in Environmental Studies, with distinction, from the University of Strathclyde in Glasgow, Scotland, which he attended on a Rotary Ambassadorial Scholarship. He then graduated from the Washington & Lee University School of Law, magna cum laude, where he served as Editor-in-Chief of the *Washington & Lee Law Review*. Following law school, Mr. McCulley served as a law clerk to the Hon. Karon O. Bowdre, United States District Judge for the Northern District of Alabama.

Mr. McCulley is admitted to the Bars of the States of Florida and Alabama and the United States District Courts for the Northern District of Alabama and the Middle District of Florida.

Mr. McCulley has been repeatedly selected as a "Florida Rising Star" by *Super Lawyers*. This honor is awarded to less than 2.5% of the attorneys in the State.

STUART H. MCCLUER

Admitted: Mississippi, Alabama (all State and Federal Courts in both states).

Education: The University of Virginia (B.A.); Washington & Lee University School of Law (J.D.). Executive Officer, MOOT COURT BOARD.

Clerkship: Hon. Callie V.S. Granade, Chief Judge of the U.S. District Court for the Southern District of Alabama.

Publications: PWORA § 115: The Devastating Impact of a Little-Known Provision, Shepherd Consortium (2002).

Practice: Mr. McCluer's primary experience has been representing plaintiffs in complex commercial litigation and serving as both compliance and litigation counsel to governmental entities.

Stuart H. McCluer was born in New Haven, Connecticut. He obtained his undergraduate degree in Philosophy from the University of Virginia. After working in the publishing industry in New York City, Mr. McCluer enrolled in law school at the Washington & Lee University School of Law. While in law school Mr. McCluer served as an Executive Officer of the Moot Court Board, assisted federal prisoners through the law school's legal practicum program, and published articles regarding post-incarceration disparate treatment through the school's Shepherd Poverty Program.

After graduation from law school Mr. McCluer served as a law clerk to the Honorable Callie V.S. Granade, Chief United States District Judge for the Southern District of Alabama. Following his clerkship, Mr. McCluer represented both private and governmental entities in litigation matters and served as the City Attorney for the City of Oxford, Mississippi.

In 2007, Mr. McCluer and his colleague Bryant McCulley formed the law firm of McCulley McCluer PLLC with the goal of prosecuting significant claims on behalf of private

and governmental entities. Mr. McCluer has served as Special Assistant Attorney General to numerous States in pharmaceutical fraud litigation. Mr. McCluer has also served in leadership positions on behalf of class representatives and plaintiffs in numerous class actions. Currently pending matters include: *In re: Pre-Filled Propane Tank Antitrust Litig.*, MDL No. 2567 (W.D. Mo.) and *In re: Syngenta AG MIR 162 Corn Litig.*, MDL No. 2591 (D. Kan.).

Outside the practice of law, Mr. McCluer is involved in a number of community service organizations. He serves on the Board of Directors of the Mississippi Innocence Project, which assists innocent prisoners seeking exoneration and release from prison on the basis of DNA evidence, and recently concluded a three-year term on the vestry of St. Peter's Episcopal Church in Oxford, Mississippi. Mr. McCluer is past-president of the American Bar Association's local Young Lawyers chapter and has been listed as a "Rising Star" in Mid-South Super Lawyers every year since 2010.

DECLARATION OF PEGGY J. WEDGWORTH

I, Peggy J. Wedgworth, declare as follows:

1. I am an attorney licensed to practice law in the State of New York and am a partner at Milberg Tadler Phillips Grossman LLP ("Milberg").[1]

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Several lawyers and staff members at Milberg performed common benefit work in

[1] Milberg Tadler Phillips Grossman LLP was established in 2018 by members of Milberg LLP and Sanders Phillips Grossman LLC. As of January 1, 2018, Milberg LLP's lawyers are now prosecuting new and active cases out of Milberg Tadler Phillips Grossman LLP.

this litigation.

Peggy Wedgworth

4. I am a managing partner and Chair of the Antitrust Practice Group at Milberg. I was an Assistant District Attorney in Brooklyn, New York from 1986 to 1989. Since leaving the public sector in 1989, I have handled numerous securities, commodities, antitrust and whistleblower matters, and is a *Super Lawyer* in New York, New York since 2016 and recommended in the *Legal 500 United States* for 2016. I represent defrauded investors and consumers, and currently represents consumers in *In re Contact Lens Antitrust Litigation*, and car dealerships in *In re Dealer Management Systems Antitrust Litigation*, a class action brought against software suppliers, where I was recently named Interim Lead Class Counsel. I actively litigated *In re Initial Public Offering Securities Litigation* for over five years, which settled for $586 million, and *In re Merck & Co. Securities Litigation*, which had a combined settlement totaling $1.062 billion. I also won a jury trial against R.J. Reynolds in a wrongful death tobacco case in Florida state court.

5. I have litigated antitrust and commodities class actions on behalf of plaintiffs including extensive experience in all aspects of pretrial discovery in, among other cases, *In re Brand Name Prescription Drugs Antitrust Litigation*, No. 94-897, 1996 WL 351180 (N.D. Ill. June 24, 1996) (approving $351 million settlement); *In re NASDAQ Market-Makers Antitrust Litigation*, 187 F.R.D. 465 (S.D.N.Y.) ($1,027,000,000 settlement); *In re Microsoft Litigation*, MDL 1332 (D. Md.) (consolidated class actions alleging long term unlawful maintenance of a monopoly and other anticompetitive conduct by Microsoft resulting favorable partial settlements); *In re Soybean Futures Litigation*, No. 89-7009 (N.D. Ill.) ($21,500,000 class settlement providing claiming class members/soybean futures traders a full recovery under

plaintiffs' expert's formula); *In re Sumitomo Copper Litigation*, 74 F. Supp. 2d 393, 395 (S.D.N.Y. 1999) ("The recovery is the largest class action recovery in the 75 plus year history of the Commodity Exchange Act."); *Kohen v. Pacific Investment Management Company, LLC*, No. 05-4681 (N.D. Ill.) (certified class of treasury bond futures purchasers alleging manipulation of the futures market); *Leider v. Ralfe*, No. 01-3137 (D.N.J.) (alleging price-fixing and monopolization in the diamond market by DeBeers resulting in a settlement of $250,000,000 and extensive injunctive relief); and *In re Natural Gas Commodities Litigation*, 03-6186 (S.D.N.Y.) ($101 million settlement).

6. I regularly speak on topics relating to antitrust litigation, multi-district litigation and class action issues, and consumer matters. I am a member of the New York State Bar Association's Antitrust Committee, where she has served as both a speaker and panelist, and the American Bar Association, Antitrust Committee, and a member of the American Association of Justice.

Paul F. Novak

7. Paul F. Novak received his B.A. and M.A. degrees from Michigan State University in 1983, and J.D. from Emory University School of Law in 1986. Mr. Novak was the head of Milberg's antitrust practice group and the managing partner of the Firm's Detroit office. In his time with the firm, He was active in a host of antitrust, securities, and consumer protection class action matters, and served as interim co-lead counsel in multiple antitrust cases. Mr. Novak is no longer with the firm.

8. Prior to joining Milberg, Mr. Novak practiced law in both the public sector, as an Assistant Attorney General for the State of Michigan and as the City Attorney of Lansing, and in the private sector consulting with clients on antitrust, environmental, and regulatory matters. As

an assistant attorney general, Mr. Novak served as the Division Head of the Special Litigation Division with responsibility for antitrust enforcement, public utility matters, and securities litigation. He emerged as a national leader in multistate litigation involving pricing practices in the pharmaceuticals industry, and served as lead counsel on behalf of all fifty state attorneys general in the *In re Cardizem CD Antitrust Litigation*. He also served as lead counsel on behalf of the State of Michigan in several price fixing, monopolization, and merger cases in a broad spectrum of industries including health care, pharmaceuticals, and in cases involving Microsoft and Oracle Corporation.

9. Mr. Novak is the former Chair of the Michigan Bar Association's Antitrust, Franchising, and Trade Regulation Section and is a contributing editor of the American Bar Association's Antitrust and Health Care Newsletter. He is also a member of the State Bar of Michigan United States Court Committee. He was awarded the Frank J. Kelley Excellence in Trial Advocacy Award for his work in antitrust enforcement. He has lectured on antitrust issues in the pharmaceuticals and insurance industries for the Practicing Law Institute. He served as chair of the National Association of Attorneys General ("NAAG") Midwest Antitrust Enforcement Task Force and as a member of the NAAG Airlines Industry Working Group and Prescription Drug Pricing Task Force.

John Hughes

10. John Hughes focuses his practice on antitrust, consumer protection, and False Claims Act Litigation as well as e-discovery.

11. Mr. Hughes graduated from Michigan State University with a B.A. in Political Science in 2005 and earned his J.D. degree from Wayne State Law School in 2012.

12. During law school, Mr. Hughes served as Director of The Free Legal Aid Clinic in Detroit, Co-managing a facility that specializes in providing family and elder law services to city residents. Prior to joining Milberg, Mr. Hughes helped lead a non-profit organization with a presence in New York City, Detroit, and Los Angeles that focused on providing legal support to creative communities.

13. Mr. Hughes is admitted to practice in Michigan.

Diana Gjonaj

14. Diana Gjonaj focused her practice at Milberg LLP primarily on antitrust litigation, targeting illegal and anti-competitive practices on behalf of consumers and investors. She received her Bachelor Degree, *cum laude,* from the University of Michigan and her Juris Doctor from Wayne State University Law School. During law school, Ms. Gjonaj clerked for Milberg LLP in the Firm's Detroit office. Ms. Gjonaj is no longer with the firm.

15. Ms. Gjonaj is admitted to practice in the state courts of Michigan, the United States District Court for the Eastern District of Michigan and the United States Court of Appeals for the Sixth Circuit. She is a member of the American Bar Association, Women's Lawyer Association of Michigan, and Michigan Association for Justice.

16. ***Peter Chevere*** is an experienced project manager for the litigation support department of Milberg, He oversaw the logistical aspect of discovery, managing the document repositories and the production of data from our clients. Mr. Chevere is no longer with Milberg.

17. ***Christine Porras*** is an experienced project manager for the litigation support department of Milberg, she oversaw the logistical aspect of discovery, managing the document repositories and the production of data from our clients. Ms. Porras is no longer with Milberg.

18. ***Paul McVoy*** is the director of the litigation support department, Mr. McVoy

oversaw the day to day operations of the Milberg Litigation Support team. In addition, he consulted with the legal teams on discovery related topics, including the collection and preservation of our client's data. Mr. McVoy is no longer with Milberg.

19. The attorneys and professional support staff of the firm performed numerous tasks on behalf of all producer plaintiffs, specifically by performing services on behalf of Gilbert Jones and Sons Farm, LLC, a named plaintiff and possible class representative for the Michigan corn producer class claims. These tasks, performed at the request of Lead Counsel, included but were not limited to:

a. Corresponding with Lead counsel for assignments and completing, with client Gilbert Jones and Sons Farm, LLC, the class representative questionnaire and Plaintiff Fact Sheet, as well as conducting research as appropriate for the completion of these submissions.

b. Ensuring the client's ESI was properly imaged and preserved for future document productions with the use of in-house litigation support specialists and e-discovery vendors as appropriate, as well as subsequently reviewing client's ESI documents for relevance and privilege.

c. Drafting responses to Defendants' requests for the production of documents, Interrogatories, gathering client documents and arranging the production thereof, and by working directly and indirectly with client's agricultural supply vendors, insurance providers, financial advisors, and the Farm Service Agency to ensure that discovery obligations were met in a timely fashion.

20. The firm maintains contemporaneous records of time and expenses in the ordinary course of business.

21. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), Milberg submitted common benefit time and expense submissions to Co-Lead Counsel in the MDL.

22. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to any individual clients who were not contemporaneously either under consideration as plaintiff in a future bellwether trial or as a proposed class representative.

23. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

24. Milberg's billing is based upon actual time spent on representing a named plaintiff in this litigation. My re-review of time spent was compared to all of the emails, letters and travel time spent.

25. After this re-review, I can confirm that this time was undertaken by me personally and by attorneys and professional support staff of Milberg. I believe that the common benefit time and expense information I am submitting is accurate and in compliance with the Court's Common Benefit Order.

26. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for work performed by my firm is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
Hughes, John	Associate	93.30	$400.00	$37,320.00
Gjonaj, Diana	Associate	51.40	$350.00	$17,990.00
Novak, Paul F.	Partner	12.40	$800.00	$9,920.00
Wedgworth, Peggy	Partner	12.00	$875.00	$10,500.00

Name	Title	Total Hours	Hourly Rate	Lodestar
Porras, Christine	Staff: Litigation Support	2.70	$300.00	$810.00
Chevere, Peter	Staff: Litigation Support	1.50	$225.00	$337.50
McVoy, Paul	Staff: Litigation Support	0.50	$360.00	$180.00
TOTALS		173.8		$77,057.50

27. Milberg seeks expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
18	Miscellaneous (Collection of client ESI)	$825.50
	TOTAL	**$825.50**

28. As part of my request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

29. The expenses pertaining to this case are reflected in Milberg's records. These records are contemporaneously prepared from receipts; expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 7th day of July, 2018, in Denver, Colorado.

DECLARATION OF MATTHEW W. LYTLE

I, Matthew W. Lytle, declare as follows:

1. I am a partner in the law firm of Miller Schirger, LLC, located at 4520 Main Street, Suite 1570, Kansas City, Missouri 64111 ("Miller Schirger"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Miller Schirger is a civil litigation firm with substantial nationwide experience in complex business and commercial litigation, and multi-party actions, including class actions. In

the last 10 years, the three Miller Schirger attorneys primarily responsible for rendering services in this case have devoted the majority of their time and practice to prosecuting and litigating complex commercial class action lawsuits. Those efforts include securing a settlement on behalf of more than 77,000 life insurance policy holders against The Lincoln National Life Insurance Company, which provided additional death benefits valued at $2.25 billion at a market value of approximately $171.8 million. *See Bezich v. The Lincoln National Life Insurance Co.*, No. 02C01-0906-PL-73 (Allen County, Indiana). Those efforts also include securing a $59.75 million settlement on behalf of a nationwide class of life insurance policy holders against John Hancock Life Insurance Company (U.S.A.). *See Larson v. John Hancock Life Insurance Co. (U.S.A.)*, No. RG16813803 (Superior Court of California, County of Alameda). In addition, in June 2018, the three Miller Schirger attorneys primarily responsible for rendering services in this case were on the team of attorneys that tried a case on behalf of a class of approximately 24,000 Missouri life insurance policy holders in the United States District Court for the Western District of Missouri, which resulted in a jury verdict of $34.3 million on behalf of the class. *See Vogt v. State Farm Life Insurance Co.*, No. 2:16-cv-04170-NKL, (W.D. Mo.). Currently, Miller Schirger is prosecuting simultaneous complex commercial class actions in federal courts in California, Colorado, Connecticut, Iowa, Texas, and Wisconsin.

4. The three Miller Schirger attorneys primarily responsible for rendering services in this case have a combined 48 years of legal experience in complex business and commercial litigation, including multi-party and class action litigation, as more fully described below:

a. I, Matthew W. Lytle, obtained a B.A. from Creighton University in 1996, and a J.D. from Creighton University School of Law (*magna cum laude*) in 2004. I am currently admitted and licensed to practice in the states of Missouri and Nebraska

(inactive), as well as before numerous federal district and appellate courts. I began my legal career at McGrath, North, Mullin & Kratz, PC LLO, a large regional law firm located in Omaha, Nebraska. I then spent approximately three years practicing at Shughart Thompson & Kilroy and Bryan Cave LLP, large national and international law firms in Kansas City, Missouri. In 2009, I left Bryan Cave LLP to join Miller Schirger, and was named a partner in the firm in 2013. I have been named a "Rising Star" and "Super Lawyer" by Missouri and Kansas Super Lawyers and was also named to the 2012 BTI Client Service All-Stars, a select group of only 272 lawyers nationwide chosen solely on unprompted, unequivocal recommendations by corporate counsel for their understanding of business issues, innovative approaches to legal services, and commitment to client needs. Throughout my career, I have represented clients ranging from individuals to Fortune 500 companies in various complex business and commercial matters, including class actions and other multi-party actions, in state and federal courts across the United States. Since joining Miller Schirger, I have devoted the majority of my time and practice to prosecuting and litigating complex commercial class action lawsuits and have developed significant experience representing plaintiffs in complex class action lawsuits brought in a number of state and federal courts nationwide.

b. John J. Schirger obtained a B.A. from the University of Notre Dame in 1988, and a J.D. from Creighton University School of Law in 1992. He is admitted and licensed to practice in the states of Missouri and Nebraska (inactive), as well as before numerous federal district and appellate courts. He began his legal career at

McGrath, North, Mullin & Kratz, PC LLO, a large regional law firm located in Omaha, Nebraska, where he was elected partner after four years of practice. After 12 years of private practice, Mr. Schirger spent approximately three years as in-house counsel in the insurance industry, including approximately two years as a senior legal officer for a Fortune 500 life and health insurance company. He returned to private practice in 2008, when he co-founded Miller Schirger. He has been named a "Top 100 Missouri & Kansas Super Lawyer" by Missouri and Kansas Super Lawyers and "Best of the Bar" by the Kansas City Business Journal and has been "AV" rated by Martindale-Hubbell for approximately 21 years. Throughout his career, Mr. Schirger has represented clients ranging from individuals to Fortune 500 companies in various complex business and commercial matters, including class actions and other multi-party actions, in state and federal courts across the United States. In addition, his 26 years of experience includes representing clients, both individuals and corporations, in a wide variety of litigation and regulatory matters.

c. Joseph M. Feierabend obtained his B.B.A. from the University of Notre Dame in 2005, with a major in accounting, and his J.D. from the University of Missouri School of Law in 2008. He is currently admitted and licensed to practice in the State of Missouri, as well as before the United States District Courts for the Western District of Missouri, and the District of Kansas. Before he began practicing law, Joe spent approximately two years running the business operations of a local Kansas City company, where his responsibilities included overseeing the financial and accounting functions. In 2010, Joe joined Miller Schirger as an

associate. Joe focuses his practice in the areas of complex business and commercial litigation and represents individuals and businesses in insurance disputes involving coverage and bad faith claims. Joe has significant experience representing plaintiffs in cost of insurance class actions brought in a number of state and federal courts throughout the United States.

5. The services rendered by Miller Schirger in this case principally involved working with Robert Borneman, the class representative in the Illinois class action. In that respect, Miller Schirger was responsible for: the preparation, filing and service of the Illinois class action complaint; the removal of the Illinois class action and its subsequent transfer into the MDL; the preparation of Mr. Borneman's Plaintiff Fact Sheet, including gathering and reviewing documents, and conferring with Mr. Borneman; and consultation with lead counsel throughout the case.

6. In the ordinary course of business, Miller Schirger maintains contemporaneous records of the time and expenses spent and incurred on the firm's cases, and all timekeepers are instructed to keep detailed records of their time spent working on the firm's cases.

7. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

8. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

9. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

10. In re-reviewing the time entries and expenses previously submitted, I sought to identify those entries for which the timekeepers responsible for rendering services recorded time related to this case that, although they accurately reflected time expended in relation to this case, did not comply with the Court's Common Benefit Order or otherwise qualify as compensable common benefit time. In an exercise of billing judgment, I made reductions of approximately 18 hours of the firm's time as a result of my re-review.

11. After this re-review, I can confirm that this time was undertaken by the members of my firm. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

12. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $79,950.00. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
John J. Schirger	Partner	67.3	$675	$45,427.50
Matthew W. Lytle	Partner	44.5	$675	$30,037.50
Joseph M. Feierabend	Partner	7.8	$575	$4,485.00
TOTALS		119.6		$79,950.00

13. My firm seeks $81.59 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Description of Costs	Amount
Online Legal Research	$58.14
Postage	$17.25
Photocopy Charges	$6.20
TOTAL	**$81.59**

14. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

15. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Kansas City, Missouri.

DECLARATION OF RICHARD M. PAUL III

I, Richard M. Paul III, declare as follows:

1. I am the managing partner of Paul LLP. Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of the federal MDL Plaintiffs' request for attorneys' fees and expenses and service awards in this litigation.

3. Paul LLP practices almost exclusively in the area of complex litigation in state and federal courts across the country. Our cases frequently involve class, mass, multi-district, or other

multi-party litigation. Our firm takes on a limited number of large-scale cases so that we can focus on achieving the best possible results for our clients. Since the founding of Paul LLP in 2013, this case has consumed the majority of our time, but our attorneys have a history of achieving outstanding results in large-scale litigation on behalf of our clients. For example, we led the litigation of a multi-party, multiple death airplane crash case that resulted in a record settlement, settled a class action against JPMorgan Chase for charging unlawful home mortgage interest, and recently obtained a jury verdict in favor of an internet service provider arising out of a dispute over a failed acquisition. Both myself and my partner Ashlea Schwarz have served as court-appointed lead or co-lead counsel and members of leadership committees of numerous class and/or multi-district litigations.

4. Attached to this Declaration is my law firm's resume.

5. The following is biographical information on all attorneys and staff from Paul LLP that billed common benefit time in this litigation:

a. **Rick Paul:** I was appointed to the Plaintiffs' Executive Committee in the federal MDL as well as in the Minnesota MDL, and served as co-lead trial counsel in the individual bellwether and Minnesota class trials. After graduating law school in 1995, I worked as a judicial clerk at the Missouri Supreme Court. I was hired to clerk for the Honorable Elwood Thomas, and then, after Judge Thomas' untimely death, clerked for the remaining members of the Missouri Supreme Court until Judge Thomas' replacement was appointed. I then continued my judicial clerkship with the Honorable Edwin Smith at the Missouri Court of Appeals, Western District. In 1996, I joined the Kansas City law firm Shughart Thomson & Kilroy, P.C., n/k/a Polsinelli, where I was mentored by very fine lawyers, including Larry Ward and Jack Brady. In 2002, I was elected to become a shareholder and a director of the firm. During my tenure at Shughart Thomson, I both

prosecuted and defended numerous class action cases and also tried a number of individual business disputes. In 2008, because my growing contingent fee practice on behalf of individuals was falling more and more outside of the direction of the firm, I left Shughart Thomson and joined Stueve Siegel Hanson LLP. There, I continued to handle business and employment litigation, primarily in class and collective action litigation. While there, I tried, and won, several cases on behalf of my clients and achieved numerous substantial settlements on behalf of other clients. In 2013, I left Stueve Siegel Hanson to start Paul LLP. I have successfully tried cases to judges and juries in both state and federal court, and tried (and won) several cases in arbitration, including two collective action arbitrations on behalf of thousands of employees. In addition to trial work, I have argued over 45 cases before various state and federal appellate courts. In 2006, Missouri Lawyers Weekly named me as of one of eight "Up and Coming Lawyers." I have repeatedly been named a "Missouri/Kansas Super1Lawyer," am listed on American Registry's "Top Attorneys in Missouri/Kansas," and have an AV Preeminent Peer Review Rating with Martindale-Hubbell.

b. **Ashlea Schwarz:** Ashlea is a partner at Paul LLP and spent a substantial amount of time prosecuting this case both in the federal and Minnesota MDLs. During law school, Ashlea worked as a judicial clerk at the United States District Court, District of Kansas. Ashlea graduated from the University of Kansas School of Law in 2007. Ashlea began her career at Stueve Siegel Hanson LLP where she practiced business and employment litigation, primarily in multi-district litigation and/or class and collective actions. She moved her practice to Paul LLP in August 2014 and became a partner in 2015. She has served on the board of the Kansas City Metropolitan Bar Association's Federal Court Advocates Section and as a subcommittee chair for the Association of Women Lawyers. In 2014, she was named one of Missouri Lawyers' Weekly's "Up and Coming Lawyers," an award recognizing litigators under age 40 who demonstrate excellence in the legal

profession and in their commitment to their communities. Ashlea continues to be selected yearly as a Kansas City Business Journal Rising Star and Super Lawyers' Missouri and Kansas Rising Star.

c. **John Cracken:** John is the managing partner of The Cracken Law Firm PC but joined Paul LLP as of counsel for purposes of this litigation. He attended the University of Texas and since beginning his private practice in 1987, John built a successful trial practice in Texas winning more than 30 verdicts and/or settlements in excess of $1 million for his clients. Since 1997, John has been rated AV Preeminent by Martindale-Hubbell and in 2012 was named a Top Rated Lawyer in Mass Tort Litigation. He has been recognized for his work by both *Corporate Counsel* and *The American Lawyer*.

d. **Susan Becker:** Sue worked as an associate at Paul LLP. She graduated from the University of Missouri Kansas City School of Law in 2012, where she served as Executive Editor of the online UMKC Law Review journal. During law school, she worked as a judicial intern for Chief Judge Fernando Gaitan, Jr. at the United States District Court for the Western District of Missouri for two consecutive summers. Following graduation, she worked as a law clerk for the Hon. Gary Witt, Missouri Court of Appeals, Western District, before entering private practice with Paul LLP. She left Paul LLP in 2017 to accept a position as Chief Legal Counsel for Kansas Secretary of State Kris Kobach.

e. **Robert Kinsman:** Robert graduated from the University of Missouri Kansas City School of Law in 2014. He immediately opened his own law firm, Krause and Kinsman, and sub-leased space within Paul LLP's office. As he was getting his young firm going, Robert agreed to work for Paul LLP, part-time, on a purely contingent fee basis. He is an active member of the Missouri Bar, Kansas City Metropolitan Bar Association, Missouri Association of Trial Attorneys

and serves on KCMBA's Young Lawyers Section. His practice focuses on mass torts, business litigation, employment discrimination, and personal injury.

f. **Adam Krause:** Adam graduated from the University of Missouri Kansas City School of Law in 2014. He immediately opened his own law firm, Krause and Kinsman, and sub-leased space within Paul LLP's office. As he and Robert were getting their young firm going, Adam agreed to work for Paul LLP, part-time, on a purely contingent fee basis. His practice focuses on mass torts, business litigation, employment discrimination, and personal injury.

g. **Steven Rowe:** Steven graduated from the University of Kansas School of Law in 2015. Steven was a law clerk for Paul LLP during law school and continued to work for Paul LLP on a part-time basis as he was getting his own law firm started. After a short period in private practice, Steven decided to work for Legal Aid of Western Missouri.

h. **Cameron Riemensnider:** Cam graduated cum laude from Truman State University and is a 2018 graduate of Washington University Law School, graduating in the top third of his class. He worked as a law clerk at Paul LLP during two consecutive summers where his duties included legal research, document review, and collection of documents and data in response to discovery requests.

i. **Kendra John:** Kendra is the head paralegal at Paul LLP and has over 24 years of experience working for law firms. She has extensive experience in document management for large cases including numerous multi-district cases and admiralty casualties, including being primarily responsible for collection and organization of records in support of a multi-million-dollar successful claim to the National Pollution Funds Center. Throughout her career, she has taken the lead in the initial document review and collection of information from clients through the discovery phase of litigation.

j. **Linda Davis:** Linda is a paralegal at Paul LLP and has over 21 years of experience as a paralegal working on class and mass action cases. Prior to joining Paul LLP in 2016, she provided document and claims management for numerous product liability multi-district cases for Shook Hardy & Bacon where she also served on numerous trial teams. She has continued to provide document and discovery support for class action and mass tort cases during her employment with Paul LLP.

k. **R. Patrick Neal:** Pat is a paralegal at Paul LLP. He obtained his paralegal certificate in 2011 and has experience in document management and pleading preparation in the fields of personal injury and civil litigation. Since joining Paul LLP in 2016, Patrick has been responsible for discovery and document/data management for numerous multi-party cases.

l. **Melissa Casady:** Melissa worked for Paul LLP as a contract paralegal. She worked exclusively on the federal MDL litigation.

m. **Pam Williams:** Pam worked for Paul LLP as a contract paralegal. She worked exclusively on the federal MDL litigation.

n. **Heather Webb:** Heather was a paralegal at Paul LLP. She earned her paralegal certificate in 2015 and joined Paul LLP as a paralegal shortly after graduation. She was responsible for data collection and document organization for the firm's multi-district, class, and mass action cases.

o. **Sydney Estelle:** Sydney was a paralegal at Paul LLP. Prior to joining Paul LLP, she worked in the Jackson County, Missouri clerk's office. She joined Paul LLP in 2015, assisting with data entry and document review.

p. **Caroline Abbott:** Caroline has worked for Paul LLP as a Case Clerk for three consecutive summers while on break from Emory University where she earned a bachelor's degree

in neuroscience and behavioral biology. Caroline will begin law school in the fall of 2018 at the University of Virginia. She provides research assistance for a variety of cases, in particular those utilizing her science degree, and also assists with data entry and data collection from clients.

6. In addition to representing over 1,400 firm clients in the Syngenta litigation, Paul LLP was appointed to serve as a member of the Plaintiffs' Executive Committee for both the federal and Minnesota MDLs, While the bulk of Paul LLP's common benefit work was performed in the Minnesota MDL due to my role as head of the discovery committee and co-lead trial counsel, I and Paul LLP performed a substantial amount of common benefit work in the federal MDL, which is summarized by category below:

a. **Pleadings:** Paul LLP helped draft several of the key pleadings in the case, including the First and Second Master Consolidated Complaints for Producers and Non-Producers, the Opposition to the Motion to Dismiss, and the Trial Plan Proposal for Bellwether Plaintiffs.

b. **Depositions:** Paul LLP was heavily involved in the discovery process. I was one of the few attorneys outside of the Co-Lead Counsel who deposed Syngenta employees on behalf of the federal MDL (and took dozens of depositions on behalf of the Minnesota MDL), deposing David O'Reilly and Claire Xu. The video-taped deposition testimony of these witnesses was played at both the Kansas and Minnesota class trials. Between Ashlea and I, we produced 17 of the class representatives and bellwether plaintiffs for deposition.

c. **Written Discovery/Document Review:** Both Ashlea and I helped draft the initial set of written discovery directed to Syngenta. Paul LLP also participated heavily in the document review. Ashlea participated in the identification of the key custodians and search terms used to identify the critical documents needed for liability, damages, and expert witnesses. Paul LLP was also on the document review team from day one and reviewed tens of thousands of documents.

Paul LLP staff coded the handwritten personal information, including thousands of stewardship agreements produced by Syngenta, that was produced in a format that could not be OCR'ed or searched.

d. **Class Representative/Bellwether Discovery:** Ashlea and I both worked on the class representative and bellwether team. We assisted in the process to select proposed class representatives and potential bellwether plaintiffs, including conducting multiple interviews of farmers, working with their counsel, and conducting in-person meetings. Once selections were made by both Plaintiffs and Syngenta, Paul LLP was directed by Co-Lead Counsel to oversee the discovery of selected bellwethers and class representatives for the states of Ohio, Kansas, and Illinois, in addition to the eight bellwethers and class representatives that were Paul LLP clients. Ashlea was one of the attorneys who negotiated and drafted the ESI search terms that were used to search class representative and bellwethers' computers. In total, Paul LLP oversaw the discovery process for 17 of the class representatives and bellwethers. Our work generally included:

- conducting interviews to gather information for the Plaintiff Fact Sheets;
- completing the Plaintiff Fact Sheets;
- conducting interviews to respond to the Interrogatories, Requests for Admission, and 3 sets of Requests for Production of Documents;
- drafting responses and objections to the written discovery;
- drafting multiple Golden Rule letters to Syngenta's counsel regarding supposed deficiencies in discovery responses;
- on-site document collection;
- working with farmers and Cicayda on ESI document collection from farmers' computers;

- reviewing all documents produced for relevance, privilege, and responsiveness;
- organizing and uploading all documents responsive to the Requests for Production of Documents;
- drafting amendments to responses to Syngenta's written discovery;
- telephone prep-sessions for depositions;
- in-person prep-sessions for depositions;
- defending depositions;
- post-deposition follow-up for changes and errata sheets;
- preparing plaintiff specific information needed by the damages experts; and
- continuing communications with bellwethers and class representatives regarding litigation status and updates.

In addition to the 17 class representatives and bellwethers for the eight certified states, Paul LLP also oversaw the initial discovery phase for six additional farmers (some of whom were our clients and some that were not) who were selected as class representatives for states that were not part of the initial certification motion. Our work with these farmers included preparing the first round of discovery responses, document collection and production, communications regarding status of their class cases, and completing declarations in support of class certification.

e. **Class Certification:** Paul LLP was tasked by Co-Lead Counsel to cumulate for each of the bellwethers and class representatives "Ascertainability Charts," that identified information for several ascertainability issues. One set of charts identified information related to corn sales transactions pulled from the various settlement sheets, sales contracts, and personal farming documents for each year during the statute of limitations. The information from these charts was incorporated into the class certification briefing to prove all class representatives (and

bellwethers) made purchases during the relevant statute of limitations and the extent of those sales. Another set of charts related to livestock and whether the farmer owned livestock, how many, whether the farmer fed corn it raised to livestock and/or feed, and whether the livestock numbers had increased during the statute of limitations period. A third set of charts pertained to ownership arrangements and included information for each farm tract whether it was owned or leased, whether it was cash rent or crop share, and any changes over time for each farm tract.

Additionally, our firm was asked to create a spreadsheet for use in class certification briefing and the hearing that detailed every sale of corn from 2013-2016 for each of the 17 bellwethers and class representatives we worked up. This was an extraordinary effort to identify and document each and every corn sale made in 2013-2016, including who the sale was made to, the price date, settlement date, delivery date, bushels sold, price paid, contract number, and correlating bates numbers for all the data for each plaintiff.

f. **Expert Witnesses:** I served on the expert witness committee. As such, I helped identify and vet potential substantive experts in the areas of containment, agronomy, MIR162 technology, and Chinese regulatory issues.

a. **Dirk Maier:** My firm made the initial contact with and retained the containment expert for the litigation, Dr. Dirk Maier. Thereafter, in collaboration with Scott Powell, Ashlea and I worked with Dr. Maier to provide him the information he needed to complete his expert report and to prepare and produce him for deposition. This required us to spend a substantial amount of time culling Syngenta's document productions for necessary information requested by Dr. Maier to run dispersion models for Viptera. Dr. Maier's report was a critical piece to combat several of Syngenta's summary judgment arguments.

b. **Kevin Latner:** I was part of the team that worked with Plaintiffs' Chinese Regulatory Expert, Dr. Kevin Latner, to provide him the information he needed to prepare his expert report. Ashlea and I both helped prepare him for his deposition. While we ultimately decided not to call Dr. Latner as a witness in the Kansas class action trial, I worked to prepare him to testify, including preparing and conducting a mock cross-examination of Dr. Latner in case we needed him to testify.

c. Ashlea also analyzed the reports of Syngenta's experts Dr. Thurman and Mr. Finch submitted in opposition to Plaintiffs' motion for class certification to address their opinions in Plaintiffs' reply brief in support of class certification.

d. Ashlea also prepared Damage Questionnaires (regarding harvested corn and milo and crop share arrangements) for 4 class representatives and helped Plaintiffs' damage expert, Mr. Eric Frye, prepare his expert report providing individualized analyses of each class representative's damages.

g. **Trial:** Because I was co-lead trial counsel for the first bellwether trial in Minnesota (which began before the Kansas class trial but ended in a mistrial), I had already prepared much of the trial material and shared it with the Kansas class trial team, including deposition designations (which I re-cut based on the theories and time constraints in the Kansas trial), my opening statement and PowerPoint slides, and consulted with the trial team on both direct and cross-examinations.

7. Paul LLP worked with 17 of the class representative or bellwether plaintiffs, each of whom are deserving of a service award. Specific details regarding the class representative and bellwether plaintiffs with whom Paul LLP worked are:

a. Noonan Farms, Inc. Noonan Farms Inc., represented by Ed Noonan, was selected and agreed to serve as an Iowa bellwether plaintiff and as a result of this position, was required to answer Interrogatories, Requests for Admission and two sets of Requests for Production of Documents. In order to respond to the discovery, Mr. Noonan reviewed several years' worth of documents located in his possession, and telephoned third parties to locate additional documents. He contacted his accountant, seed vendors, the elevators where he sells grain, and his insurance provider who all forwarded additional documents. Mr. Noonan also had to work with outside vendor who remotely logged into this computer to search for any responsive documents located in his email account. After his initial discovery response, Mr. Noonan continued to produce additional relevant documents including updating his sales documents as the litigation continued, which required multiple additional phone calls and trips to various offices to keep getting the next year's documents. And, he submitted both supplemental and amended answers to his initial Interrogatories, and amended his Requests for Admission. Mr. Noonan produced nearly 700 pages of documents in response to the discovery. He estimates that he spent over 20 hours completing his plaintiff fact sheet, locating and producing the document required for both his plaintiff fact sheet and the discovery requests, and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 7 hours assisting Mr. Noonan with his discovery responses, which included numerous telephone calls, review of his documents, and review of the emails downloaded from Mr. Noonan's home computer. Mr. Noonan sat for a 6 ½ hour deposition in Des Moines, Iowa, which required over four hours of preparation, both in person with Ashlea and I, as well as by telephone. He traveled 5 ½ hours round trip to attend the deposition. Once the deposition concluded, Mr. Noonan spent additional time reading through his deposition transcript and

providing an errata sheet and signature page. With travel time, deposition preparation, and producing Mr. Noonan for deposition, Paul LLP spent 30.5 hours on the deposition of Mr. Noonan. In total, without travel time, Mr. Noonan estimates he spent in excess of 36 hours in pursuit of this litigation, and Paul LLP spent approximately 37.5 hours assisting Mr. Noonan with his discovery obligations.

b. McKee Family Farms. McKee Family Farms, represented by David McKee, was selected and agreed to serve as an Ohio bellwether plaintiff and as a result, was required to respond to Interrogatories, Requests for Admission, two sets of Requests for Production, and a plaintiff fact sheet. Mr. McKee produced nearly 600 pages of documents in response to the discovery some of which he obtained from his own files, and the majority he retrieved personally from the business locations of third parties such as his seed vendors, the elevators where he sells grain, and his insurance provider. After his initial discovery response, Mr. McKee continued to produce additional relevant documents and amended his Requests for Admission following Syngenta's request for clarification. Mr. McKee spent over 16 hours locating and producing the documents in his possession, speaking with and retrieving documents from third parties, and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 8.6 hours assisting Mr. McKee with his discovery responses, which included numerous telephone calls, review of his documents, and review of the emails downloaded from Mr. McKee's home computer. Mr. McKee sat for an 8-hour deposition in Columbus, Ohio, which was a 2-hour round trip drive for him, and prepared over 4.5 hours, both in person with Ashlea and I, as well as by telephone. After the conclusion of the deposition, Mr. McKee read his transcript to ensure accuracy. With travel time, deposition preparation, and attendance at the deposition, Paul LLP spent 32.5 hours on the deposition of Mr.

McKee. In total, without travel time, Mr. McKee estimates he spent in excess of 32 hours in pursuit of this litigation and Paul LLP spent over 41 hours assisting him with his discovery obligations.

c. Evelyn I. Linder Child's Trust. Yvonne Vogel on behalf of the Evelyn I. Linder Child's Trust was selected and agreed to serve as an Ohio bellwether and as a result, was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Ms. Vogel produced over 115 pages of documents in response to the discovery, which she obtained from her own files as well as those she collected from her vendors. She contacted her FSA office, elevators where she sells corn, and her seed distributor to obtain the documents she produced. Ms. Vogel was a landowner and thus had much more difficulty figuring out where to get documents and from whom. She relies solely on her farmer to do the farming, but she does her own selling. After her initial discovery response, Ms. Vogel continued to produce additional relevant documents, including updating her 2016 sales, and submitted two amended responses to her Requests for Admission as a result of Syngenta's request for additional information. She also worked with an outside vendor search her computer for any additional responsive documents located in her email. Ms. Vogel spent over 17 hours locating and producing the documents and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent 5.6 hours assisting Ms. Vogel with her discovery responses, which included numerous telephone calls, review of her documents, and review of the emails downloaded from Ms. Vogel's home computer. Ms. Vogel sat for a 6 ½ hour deposition in Fremont, Ohio, which required over 4 hours of preparation, both in person and on the telephone with Ashlea Schwarz. After her deposition, Mr. Vogel reviewed the transcript and provided an errata sheet with corrections. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 25.1 hours on the

deposition of Ms. Vogel. In total, without travel time, Ms. Vogel spent in excess of 29 hours in pursuit of the litigation, and Paul LLP spent in excess of 30 hours assisting her with her discovery obligations.

d. Russell Koeller. Russell Koeller was selected and agreed to serve as a Illinois bellwether and as a result of this position, he was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and complete a plaintiff fact sheet. Mr. Koeller produced over 1,400 pages of documents in response to the discovery requests, which he obtained from his own files as well as his seed vendors, the elevators where he sells grain, his local FSA office, and his insurance provider. Ashlea and Adam Krause also traveled to Mr. Koeller's home to assist him with his document collection. After his initial discovery response, Mr. Koeller continued to produce additional relevant documents including obtaining updated 2016 sales information, and he submitted an amended response to his Requests for Admission. Mr. Koeller spent over 30 hours locating and producing the documents and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 40 hours assisting Mr. Koeller with his discovery responses, which included numerous telephone calls with Mr. Koeller and his vendors, review of his documents, and review of the emails downloaded from Mr. Koeller's home computer. Mr. Koeller sat for a 9-hour deposition in St. Louis, Missouri, which required him to travel 4 hours round trip. In addition, he spent over 5 hours preparing for the deposition, both in person with Ashlea and Adam Krause, as well as by telephone. After the deposition, Mr. Koeller read the lengthy transcript to ensure accuracy and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 40.2 hours on the deposition of Mr. Koeller. In total, without travel time, Mr. Koeller estimates he spent in excess

of 51 hours in pursuit of this litigation, and Paul LLP spent in excess of 80 hours assisting Mr. Koeller with his discovery obligations.

e. Thomas Justison. Thomas Justison was selected and agreed to serve as an Illinois bellwether plaintiff and as a result of this position, he was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Mr. Justison produced over 2,500 pages of documents in response to the discovery requests. Because of the large geographic area where Mr. Justison farms, the vendors from whom he gathered documents were widespread. He obtained documents from his own files as well as his seed vendors, the numerous elevators where he sells grain, five FSA offices in the counties where he farms, and his insurance provider. Mr. Justison's brother also assisted with the document collection as some of the records were in his possession. After his initial discovery response, Mr. Justison continued to produce additional relevant documents and submitted amended Interrogatory responses and two amended responses to his Requests for Admission. He also updated his responses in late 2016 to provide new sales information. Mr. Justison spent over 50 hours locating and producing the documents in his possession, retrieving documents from his brother, and those in the possession of his vendors, and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 40 hours assisting Mr. Justison with his discovery responses, which included numerous telephone calls with Mr. Justison and his vendors, review of his documents, and review of the emails downloaded from Mr. Justison's home computer. Mr. Justison sat for a 5 ½ hour deposition in St. Louis, Missouri, which required him to travel 2.5 hours round trip. In addition, he spent over 4 hours preparing for the deposition, both in person with Ashlea and Adam Krause, as well as by telephone. After the deposition, Mr. Justison read his transcript for accuracy

and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 33.2 hours on the deposition of Mr. Justison. In total, without travel time, Mr. Justison estimates he spent over 62 hours in pursuit of this litigation, and Paul LLP spent over 73 hours assisting him with his discovery obligations.

f. Leon Taylor. Leon Taylor was selected and agreed to serve as an Illinois bellwether plaintiff. He was represented in this litigation by William Rosborough, the producer who sharecrops with Mr. Taylor and handles the day-to-day farming operation. Mr. Taylor was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. In response to these discovery requests, Mr. Rosborough produced over 800 pages of documents on behalf of Mr. Taylor, which he obtained from his own files as well as his seed vendors, the elevators where he sells grain, his local FSA office, and his insurance provider. In addition, approximately 42,000 pages of documents were produced for Mr. Taylor and Ms. Boyer as a result of the third-party vendor's search of Mr. Rosborough's computer to locate relevant documents based on search terms defined by defendants. The documents were located in both Missouri and Florida and required substantial time coordinating the efforts in both locations to ensure all documents were provided. After the initial discovery response, Mr. Rosborough continued to produce additional relevant documents, amended the Interrogatory responses twice, and submitted two amended responses to the Requests for Admission. Mr. Rosborough, on behalf of Mr. Taylor, spent approximately 25 hours locating and producing the documents and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 5.5 hours assisting Mr. Rosborough with his discovery responses, which included numerous telephone calls, review of his documents, and review of the emails downloaded from Mr.

Rosborough's computer. Mr. Rosborough sat for a 9-hour deposition in Ft. Myers, Florida on behalf of both Mr. Taylor and another bellwether plaintiff, Ms. Boyer. The deposition required over 7 hours of preparation, in person with me and with Ashlea by telephone, as well as Mr. Rosborough's review of all documents on his own. After the deposition, Mr. Rosborough reviewed his lengthy deposition transcript to ensure it was accurate and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 32.8 hours on the deposition of Mr. Rosborough on behalf of Mr. Taylor and Ms. Boyer. In total, without travel time, Mr. Rosborough estimates he spent in excess of 42 hours in pursuit of this litigation, and Paul LLP spent in excess of 38 hours assisting Mr. Rosborough with his discovery obligations.

g. Sandra Boyer. Sandra Boyer was selected and agreed to serve as was an Illinois bellwether plaintiff. She was represented in this litigation by William Rosborough, the producer who sharecrops with Ms. Boyer and handles the day-to-day farming operation. Ms. Boyer was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. In response to these discovery requests, Mr. Rosborough produced approximately 800 pages of documents on behalf of Ms. Boyer, which he obtained from his own files as well as his seed vendors, the elevators where he sells grain, his local FSA office, and his insurance provider. In addition, approximately 42,000 pages of documents were produced for Ms. Boyer and Mr. Taylor as a result of the third-party vendor's search of Mr. Rosborough's computer to locate relevant documents based on search terms defined by defendants. The documents were located in both Missouri and Florida and required substantial time coordinating the efforts in both locations to ensure all documents were provided. After the initial discovery response, Mr. Rosborough continued to produce additional relevant documents, amended the Interrogatory responses twice, and submitted two amended responses to the Requests for

Admission. Mr. Rosborough, on behalf of Ms. Boyer, spent over 25 hours locating and producing the documents and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 5.5 hours assisting Mr. Rosborough with his discovery responses, which included numerous telephone calls, review of his documents, and review of the emails downloaded from Mr. Rosborough's home computer. Mr. Rosborough sat for a 9-hour deposition in Ft. Myers, Florida on behalf of both Mr. Taylor and another bellwether plaintiff, Ms. Boyer. The deposition required over 7 hours of preparation, in person with me and with Ashlea by telephone, as well as Mr. Rosborough's review of all documents on his own. After the deposition, Mr. Rosborough reviewed his lengthy deposition transcript to ensure it was accurate and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 32.8 hours on the deposition of Mr. Rosborough on behalf of Mr. Taylor and Ms. Boyer. In total, without travel time, Mr. Rosborough estimates he spent in excess of 42 hours in pursuit of this litigation, and Paul LLP spent in excess of 38 hours assisting Mr. Rosborough with his discovery obligations.

h. J3B Partnership. J3B Partnership, represented by its owner, Don Prohaska, was selected and agreed to serve as an Iowa bellwether plaintiff and as a result of this position, he was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Mr. Prohaska produced over 500 pages of documents in response to the discovery, which he obtained from his own files as well as his seed vendors, the elevators where he sells grain, his accountant, and his insurance provider. After his initial discovery response, Mr. Prohaska continued to produce additional relevant documents, amended his Requests for Admission to clarify his responses, and supplemented his responses to include his

2016 sales after harvest. Mr. Prohaska spent over 18 hours locating and producing the documents, contacting third party vendors for missing information, and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 7.3 hours assisting Mr. Prohaska with his discovery responses, which included numerous telephone calls, review of his documents, and review of the emails downloaded from Mr. Prohaska's home computer. Mr. Prohaska sat for a 9-hour deposition in Des Moines, Iowa, which required over six hours of preparation, both in person with Ashlea and I, as well as by telephone. In addition, Mr. Prohaska had to travel 4 hours round trip to attend the deposition. After the deposition, he reviewed his lengthy deposition transcript to ensure accuracy and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 45.5 hours on the deposition of Mr. Prohaska. In total, without travel time, Mr. Prohaska estimates he spent in excess of 39 hours in pursuit of this litigation, and Paul LLP spent in excess of 52 hours assisting Mr. Prohaska with his discovery obligations.

i. Partners 5 LLC. Partners 5 LLC, represented by owner Vincent Schroeder, was selected and agreed to serve as an Ohio bellwether plaintiff. Partners 5 LLC was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents and a plaintiff fact sheet. Mr. Schroeder produced over 1,550 pages of documents in response to the discovery requests, which he obtained from his own files as well as his seed vendors, the elevators where he sells grain, his local FSA office, and his insurance provider. After his initial discovery response, Mr. Schroeder continued to produce additional relevant documents and amended his Requests for Admission to clarify his responses. After harvest in 2016, Mr. Schroeder updated his sales information and provided purchase contracts. Mr. Schroeder spent over 25 hours locating and producing documents and working with Paul LLP to respond to discovery requests and

subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 13.4 hours assisting Mr. Schroeder with his discovery responses, which included numerous telephone calls, review of his documents, and review of the emails downloaded from Mr. Schroeder's home computer. Mr. Schroeder sat for a 7 ½ hour deposition in Columbus, Ohio, which required over 5 hours of preparation, both in person with Ashlea and I, as well as by telephone. In addition, Mr. Schroeder had to travel 4 hours round trip to attend the deposition. After the deposition, Mr. Schroeder reviewed his transcript for accuracy and provided the necessary errata sheet and signature pages. With travel time, deposition preparation, and attendance at the deposition, Paul LLP spent 38.4 hours on the deposition of Mr. Schroeder. In total, without travel time, Mr. Schroeder estimates he spent over 43 hours in pursuit of this litigation, and Paul LLP spent over 51 hours assisting Mr. Schroeder with his discovery obligations.

j. Gary Duane Matthews. Gary Matthews was selected and agreed to serve as an Ohio bellwether plaintiff and was required to answer Interrogatories, Requests for Admission and two sets of Requests for Production of Documents. Mr. Matthews produced approximately 820 pages of documents in response to discovery requests over a nine-month period, which he obtained from his own files as well as his seed vendors, the elevators where he sells grain, and his insurance provider. After his initial discovery response, Mr. Matthews continued to produce additional relevant documents and submitted two amended answers to his initial Interrogatories, amended his Requests for Admission, and updated his 2016 sales information after harvest. Mr. Matthews spent over 16 hours locating and producing documents and working with Paul LLP and The Gibbs Firm (his personal counsel) to respond to discovery requests and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 8 hours

assisting Mr. Matthews with his discovery responses, which included numerous telephone calls, review of his documents, and review of the emails downloaded from Mr. Matthews's home computer. In addition, pursuant to the billing records I have reviewed, his local counsel, The Gibbs Firm, billed 38 hours assisting Mr. Matthews with his discovery obligations, including an in-person meeting at Mr. Matthews' home to assist in the document collection. Mr. Matthews sat for a 7 ½ hour deposition in Fremont, Ohio and spent 4.7 hours in preparation, both in person as well as by telephone with Ashlea. Mr. Matthews traveled 2 hours round trip to attend his deposition. After the deposition, Mr. Matthews reviewed his transcript for accuracy and provided an errata sheet. With travel time, deposition preparation, and attendance at the deposition, Paul LLP spent 23.7 hours on the deposition of Mr. Matthews. In total, without travel time, Mr. Matthews estimates he spent over 31 hours in pursuit of this litigation, and counsel spent in excess of 69 hours assisting Mr. Matthews with his discovery obligations.

k. Dustin Wegner and Wegner Hillside Farms. Dustin Wegner and Wegner Hillside Farms were selected and agreed to serve as Nebraska bellwether plaintiffs and as such, were required to each answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Mr. Wegner produced over 560 pages of documents in response to the discovery, which he obtained from his own files as well as retrieving records from the offices of his seed vendors, the elevators where he sells grain, his local FSA office, and his insurance provider. After his initial discovery responses, Mr. Wegner continued to produce additional relevant documents and submitted amended Interrogatory responses and amended responses to his Requests for Admission. He also updated his 2016 sales information after harvest. Mr. Wegner spent over 30 hours locating and producing the documents in his possession and in the possession of his vendors, and working with Paul LLP to respond to the

discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 13 hours assisting Mr. Wegner with his discovery responses, which included numerous telephone calls with Mr. Wegner and his vendors, review of his documents, and review of the emails downloaded from Mr. Wegner's home computer. Mr. Wegner was deposed for 5 ½ hours in Lincoln, Nebraska, which required him to travel 2 hours round trip. In addition, he spent over 4.5 hours preparing for the deposition, both in person with Ashlea, as well as by telephone. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 17.7 hours on the deposition of Mr. Wegner. In total, without travel time, Mr. Wegner estimates he spent over 43 hours in pursuit of this litigation, and Paul LLP spent over 30 hours assisting Mr. Wegner with his discovery obligations.

l. James Shortt Trust. The James Shortt Trust, through Trustee James Shortt, was selected and agreed to serve as a Kansas bellwether plaintiff and as such, he was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents and a plaintiff fact sheet. Mr. Shortt produced over 180 pages of documents in response to the discovery requests, which he obtained from his own files as well as personally retrieving records from the offices of his seed vendors, the elevators where he sells grain, his local FSA office, and his insurance provider. After his initial discovery responses, Mr. Shortt continued to produce additional relevant documents and submitted amended Interrogatory responses and amended responses to his Requests for Admission. Mr. Shortt spent approximately 20 hours locating and producing the documents in his possession and in the possession of his vendors, and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 4.7 hours assisting Mr. Shortt with his discovery responses, which included numerous telephone calls with him, review of

his documents, and review of the emails downloaded from Mr. Shortt's home computer. Mr. Shortt was deposed for 3 hours in Manhattan, Kansas. In addition, he spent approximately 2 hours preparing for the deposition, both in person with Ashlea, as well as by telephone. After the deposition, Mr. Shortt reviewed his transcript for accuracy and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 10 hours on the deposition of Mr. Shortt. In total, without travel time, Mr. Shortt estimates he spent in excess of 26 hours in pursuit of the litigation, and Paul LLP spent over 14 hours assisting Mr. Shortt with his discovery obligations.

m. Joseph Murnane Trust. The Joseph Murname Trust through Trustee Joseph Murnane, was selected and agreed to serve as a Kansas bellwether plaintiff and as such, was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Mr. Murnane produced over 100 pages of documents in response to the discovery requests, which he obtained from his own files as well as personally retrieving records from the offices of his seed vendors, the elevators where he sells grain, his local FSA office, and his insurance provider. After his initial discovery responses, Mr. Murnane continued to produce additional relevant documents and submitted amended Interrogatory responses and amended responses to his Requests for Admission. Mr. Murnane spent approximately 15 hours locating and producing the documents in his possession and in the possession of his vendors, and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 6.2 hours assisting Mr. Murnane with his discovery responses, which included numerous telephone calls with him, review of his documents, and review of the emails downloaded from Mr. Murnane's computer. He was deposed for 3 hours in Joplin, Missouri which required

him to travel 2 hours round trip. In addition, he spent approximately 4.2 hours preparing for the deposition, both in person with me, as well as by telephone with Ashlea. After the deposition, Mr. Murnane reviewed his transcript and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 14.5 hours on the deposition of Mr. Murnane. In total, without travel time, Mr. Murnane estimates he spent in excess of 22 hours in pursuit of this litigation, and Paul LLP spent in excess of 20.5 hours assisting Mr. Murnane with his discovery obligations.

n. R&R Farms LLC and Ensor Brothers. R&R Farms LLC and Ensor Brothers, both represented by Richard Ensor, were selected and agreed to serve as Missouri class representatives and were required to each answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Mr. Ensor produced over 2,000 pages of documents in response to the discovery all of which he obtained from his own files with the exception of the insurance records. After his initial discovery responses, Mr. Ensor continued to produce additional relevant documents and submitted amended Interrogatory responses and amended responses to his Requests for Admission in response to Syngenta's demands for additional information. Mr. Ensor and his wife Julie spent over 150 hours locating and producing the documents in their possession which, because of the time frame involved, required them to search through their closed files. Additionally, the Ensors operate R&R Farms and Ensor Brothers separately and thus, in effect, were required to do the searching and document collection twice. Paul LLP attorneys and staff spent approximately 23 hours assisting Mr. Ensor with his discovery responses, which included numerous telephone calls with the Ensors, review of their extensive documents, and review of the emails downloaded from the Ensor's computer. Mr. Ensor was deposed for 4 hours in Kansas City, Missouri, which required him to travel 6 hours round trip. In

addition, he spent over 4 hours preparing for the deposition, both in person with Ashlea and I, as well as by telephone. Mr. Ensor reviewed his transcript after the deposition and provided an errata sheet. With deposition preparation and attendance at the deposition, Paul LLP spent 8 hours on the deposition of Mr. Ensor. Because Missouri was going to be the next class trial to take place, Mr. Ensor and Paul LLP had begun trial preparations. Ashlea and I traveled to Holliday, Missouri to meet with Mr. Ensor and collect updated documents, which would be required for trial. Mr. Ensor spent 3 hours preparing for trial, and with travel time, Paul LLP spent 21.8 hours on trial preparation of Mr. Ensor. In total, without travel time, Mr. Ensor estimates he spent in excess of 168 hours in pursuit of this litigation, and Paul LLP spent in excess of 52.5 hours assisting Mr. Ensor with his discovery obligations and preparing him for trial.

o. R&D Chism Farms LLC. R&D Chism Farms LLC, represented by its owner, Daniel Chism, was selected and agreed to serve as an Iowa class representative and as a result, was required to answer Interrogatories, Requests for Admission and two sets of Requests for Production of Documents. Mr. Chism produced over 725 pages of documents in response to the discovery requests, which he obtained from his own files as well as his seed vendors, the elevators where he sells grain and his insurance provider. After his initial discovery response, Mr. Chism continued to produce additional relevant documents and amended his Requests for Admission to clarify his responses. In addition, he contacted seven grain-handling facilities after the 2016 harvest in order to update his records and provide sales contracts. Mr. Chism spent approximately 25-30 hours locating and producing the documents and working with Paul LLP to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 29.7 hours assisting Mr. Chism with his discovery responses, which included numerous telephone calls with Mr. Chism and his vendors, review of

his documents, and review of the emails downloaded from Mr. Chism's computer. He sat for a 7.5-hour deposition in Ft. Dodge, Iowa, which required over 4 hours of preparation, both in person with Adam Krause, as well as by telephone. In addition, Mr. Chism had to travel 3 hours round trip to attend the deposition. After the deposition, Mr. Chism spent additional time reviewing the transcript to ensure accuracy and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 21.3 hours on the deposition of Mr. Chism. In total, without travel time, Mr. Chism estimates he spent in excess of 40 hours in pursuit of this litigation, and Paul LLP spent 51 hours assisting Mr. Chism with his discovery obligations.

p. John Holmbeck. John Holmbeck was selected and agreed to serve as a Nebraska class representative and as a result, was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Mr. Holmbeck produced nearly 900 pages of documents in response to the discovery which he obtained from his own files as well as from his seed vendors, the elevators where he sells grain and his insurance provider. Mr. Holmbeck was residing out of state for a period of time while collecting documents, which required additional effort on his part to contact all his vendors since he did not have immediate access to his own records. After his initial discovery response, Mr. Holmbeck continued to produce additional relevant documents and amended his answers to the Interrogatories and Requests for Admission to clarify his responses and add additional information. Mr. Holmbeck spent approximately 25 hours locating and producing documents and working with Paul LLP to respond to the discovery requests and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 15.2 hours assisting Mr. Holmbeck with his discovery responses, which included numerous telephone calls with Mr. Holmbeck and his vendors, review of his documents, and review of the emails downloaded from

his computer. Mr. Holmbeck was deposed for 4.5 hours in Lincoln, Nebraska, which required over 4.5 hours of preparation, both in person with Ashlea, as well as by telephone. In addition, Mr. Holmbeck had to travel over 2 hours round trip to attend the deposition. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 12.5 hours on the deposition of Mr. Holmbeck. In total, without travel time, Mr. Holmbeck estimates he spent in excess of 35 hours in pursuit of this litigation, and Paul LLP spent in excess of 27 hours assisting Mr. Holmbeck with his discovery obligations.

q. Eugene Goering. Eugene Goering was selected and agreed to serve as a Kansas bellwether plaintiff and as a result, he was required to answer Interrogatories, Requests for Admission, two sets of Requests for Production of Documents, and a plaintiff fact sheet. Mr. Goering produced 1760 pages of documents in response to the discovery requests, which he obtained from his own files as well as documents located at his bank, and spent an entire day copying bank records which were not in his possession. After his initial discovery response, Mr. Goering continued to produce additional relevant documents and amended his answers to the Requests for Admission twice to clarify his responses and add additional information. Mr. Goering spent approximately 24 hours locating and producing documents and working with Paul LLP and Watts Guerra LLP (his personal counsel) to respond to discovery requests and subsequent demands by Syngenta's counsel for additional information. Paul LLP attorneys and staff spent approximately 15.5 hours assisting Mr. Goering with his discovery responses, which included numerous telephone calls with Mr. Goering and his vendors, review of his documents, and review of the emails downloaded from his computer. Mr. Goering was deposed for 7 hours in Wichita, Kansas, which required over 5 hours of preparation, both in person with Ashlea, as well as by telephone. In addition, he had to travel 2 hours round trip to attend the deposition. After the

deposition, Mr. Goering reviewed his transcript to ensure accuracy and provided an errata sheet. With travel time, deposition preparation and attendance at the deposition, Paul LLP spent 21.3 hours on the deposition of Mr. Goering. In total, without travel time, Mr. Goering estimates he spent in excess of 40 hours in pursuit of this litigation, and Paul LLP spent in excess of 36 hours assisting Mr. Goerring with his discovery obligations.

r. James McKinney. James McKinney was selected and agreed to serve as an Illinois bellwether plaintiff and was required to respond to discovery. Mr. McKinney collected over 530 pages of documents from his personal files, and also retrieved documents in person from his local FSA office, his seed dealer, his insurance provider, and the elevator where he sells his corn. Mr. McKinney was also deposed and spent time preparing for the deposition with his personal counsel, Holland Law Firm, both in person and by telephone. Mr. McKinney spent approximately 50 hours preparing for and attending his deposition, locating and producing the documents and working with Paul LLP and Holland Law Firm to respond to the discovery and subsequent demands by Syngenta's counsel for additional information. Mr. McKinney as asked at least seven times to supplement his answers, provide additional information, execute additional authorizations and/or provide additional documents. In at least two instances, the third-party vendors would not accept Mr. McKinney's release and he was required to travel a long distance to retrieve records. According to their time sheets, Holland Law Firm billed 121.2 hours assisting Mr. McKinney with his document production, reviewing documents, and drafting discovery responses and amendments.

s. Mark Lueder. Mark Lueder was selected and agreed to serve as an Indiana class representative and as such, he was required to respond to discovery. Mr. Lueder collected over 110 pages of documents from his local FSA office, his seed dealer, the elevators where he sells his

corn, and his insurance provider. He spent approximately 8 hours collecting the documents, and Paul LLP spent approximately 4 hours working with Mr. Lueder to respond to the discovery and review his documents.

t. Thomas Goode. Thomas Goode was selected and agreed to serve as an Indiana class representative and as such, he was required to respond to discovery. Mr. Goode collected over 100 pages of documents from his files and those of his vendors including his local FSA office, seed dealer, elevator, and insurance provider. Mr. Goode does not recall the exact amount of time he spent collecting documents, but assumes it was in excess of 8 hours. Paul LLP spent approximately 9 hours working with Mr. Goode, reviewing his documents and responding to discovery.

u. Little Omega Farms Partnership. Little Omega Farms Partnership, represented by George Cunningham, was selected and agreed to serve as a Mississippi class representative and was therefore required to respond to discovery. Mr. Cunningham produced 268 pages of documents from his files and spent between fifteen and twenty hours going through his files to locate the documents. Paul LLP spent approximately 2 hours working with Mr. Cunningham to respond to discovery requests and review documents.

8. Paul LLP maintains contemporaneous records of its time and expenses in the ordinary course of business. Paul LLP bills time both on an hourly and a contingent fee basis and uses the same timekeeping practices for both.

9. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the federal MDL.

10. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent on behalf of my individual clients who were not either

bellwether or class representative plaintiffs. In addition, Paul LLP was one of only two firms to serve as part of the Plaintiffs' Leadership in both the federal and Minnesota MDLs. Throughout the pendency of the global litigation, Paul LLP kept two separate timekeeping systems to track Kansas and Minnesota time to ensure that no time or expense was double-billed. When we performed common benefit work, or incurred a common benefit expense, for the benefit of both the federal and Minnesota MDLs, we split the time and/or expense evenly between the two to avoid duplication.

11. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

12. Even before the final review of our time referenced in paragraph 11, each month before submitting our time to Co-Lead Counsel in the federal MDL, Ashlea and I both reviewed all staff and attorney time to ensure entries were appropriately billed, tracked in the correct MDL, and were reasonable entries for the work performed. This frequently led to the amount of time being cut or time being re-allocated from the Federal MDL common benefit billing file to either the Minnesota billing file or a separate file we kept for work performed for our roughly 1,400 clients. Notably, we have over $1.6 million in billings for time related to our individual clients that we did not deem to be common benefit time, which is more time than we billed as common benefit in the Federal MDL. This includes filling out plaintiff fact sheets, providing status reports and general information about the litigation, and ultimately filling out their claim forms. As a further example, Paul LLP oversaw the discovery and contact with several of the class representatives, Ashlea attended several hearings, conferences, and telephone calls related to class certification and scheduling/discovery of the 14 state classes that had not been certified yet. During the re-review

process, we chose to cut all time related to these hearings, conferences, and telephone calls as those classes did not move forward before settlement.

13. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

14. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $1,379,386.50. A breakdown of the lodestar is provided below.

Name	Title	Total Hours	Hourly Rate	Lodestar
Schwarz, Ashlea	Of Counsel	1,074.50	$500.00	$537,250.00
Rowe, Steven	Paralegal	868.80	$225.00	$195,480.00
Becker, Sue	Associate	376.60	$275.00	$103,565.00
Williams, Pam	Paralegal	339.70	$175.00	$59,447.50
Paul, Rick	Partner	335.40	$650.00	$218,010.00
Casady, Melissa	Paralegal	308.30	$175.00	$53,952.50
Krause, Adam	Associate	181.70	$225.00	$40,882.50
Cracken, John	Of Counsel	158.60	$675.00	$107,055.00
John, Kendra	Paralegal	151.70	$185.00	$28,064.50
Estell, Sydney	Paralegal	83.40	$125.00	$10,425.00
Kinsman, Robert	Associate	63.80	$225.00	$14,355.00
Riemensnider, Cam	Paralegal	34.90	$175.00	$6,107.50
Neal, Pat	Paralegal	26.40	$150.00	$3,960.00
Davis, Linda	Paralegal	3.20	$175.00	$560.00
Webb, Heather	Paralegal	2.00	$100.00	$200.00
Abbott, Caroline	Paralegal	0.80	$90.00	$72.00
TOTALS		4,009.80		$1,379,386.50

15. Between the Kansas and Minnesota MDLs, including the non-common benefit time we spent representing our individual clients, nearly half of the total time worked by my firm in 2016 and 2017 was spent on this litigation, and nearly one-quarter in 2015. Personally, over 90% of all the hours I billed in 2016 was billed to this litigation and over 70% in 2017. Similarly, nearly 80% of Ashlea's time in 2016 and nearly 70% in 2017 was spent on this litigation. For much of

this time, Paul LLP had 4 attorneys and 3 paralegals, so it is not a stretch to say that Ashlea and I bet our law firm on this litigation. We turned down other work we did not have time to appropriately handle on behalf of other clients because the demands of this litigation precluded us from taking on other cases.

16. My firm seeks reimbursement, without markup, of $216,571.29 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Description of Costs	Amount
Federal Express	120.76
Postage	33.39
In House Photocopies ($.03-.05/page)	920.06
Outside Photocopies	22.46
Hotels / Lodging	8,496.62
Meals	1,445.56
Mileage Reimbursement	1,189.64
Airfare	10,390.36
Deposition Costs	620.00
Westlaw Charges	32.72
Transportation (Cabs, airport parking)	3,299.72
Litigation Fund Assessment	$190,000.00
TOTAL	**$216,571.29**

17. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

18. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Kansas City, Missouri.

Rick Paul and Ashlea Schwarz founded Paul LLP after years of litigating high stakes commercial cases together. We have fought against some of the biggest companies in the country, including Syngenta, Monsanto, JPMorgan Chase, Phillips 66, Commerce Bank, General Motors, and Wal-Mart. And we have won big. We founded the firm on two overriding principles: (1) a strong passion for litigating cases on behalf of our clients; and (2) a desire to make meaningful, industry-wide changes that create reshaped markets and improved lives.

The Work We Do

Agriculture: Agricultural law is rapidly developing—almost as fast as the advances in technology are being put on the market. Uniquely situated in the heart of farming country, we have a deep knowledge of how law and agriculture intersect, including the areas of negligence, crop-drift, trespass, antitrust, food safety, trade, marketing, and resource management. Our lawyers are well-versed in the common law and regulatory requirements related to agricultural production in individual, mass, and class actions.

Antitrust: Antitrust laws were enacted to ensure that businesses play by the rules. We make sure that companies who engage in unfair business practices are kept in check, allowing other businesses the opportunity to compete in a fair marketplace.

Class and Collective Actions: We know how difficult it is for a single person to bring a case against a large corporation or entity. The enormity of this task prevents many people from pursuing legitimate claims, which allows companies to continue with unsafe, unlawful, or unfair practices. These are often pervasive, industry-wide violations. Our

attorneys have the assets and skill sets necessary to bring about meaningful change whether it be through mass, class, or collective actions.

Commercial Litigation: Partnerships within or between businesses often lead to disputes. When partnerships are exploited, or contracts are not followed through on, we help pick up the pieces.

Commodities: In recent years, trillions of dollars in financial losses have been attributed to unlawful investment practices. We help protect both individual and institutional investors whose financial losses resulted from fraud, breaches in fiduciary duty, and other violations of securities laws. This includes misinforming shareholders, failing to disclose information to shareholders, misrepresentation, and more.

Intellectual Property: Great ideas deserve protection. That's why laws exist to guard intellectual property, including copyright, trademarks, and patents. When works and ideas created by an individual or company are exploited by others, we help ensure that credit is duly awarded. Our contingency fee structuring allows individuals to bring cases they otherwise may not be able to afford.

Products Liability: We have a breadth of experience in ensuring manufacturers take responsibility for products that cause harm or injury to consumers. Injury and financial harm can result from products with faulty design or improper manufacturing, as well as a company's failure to warn consumers of possible injury or unwanted side effects from use of that product.

The Results We Have Achieved

In re Syngenta MIR162 Corn Litigation (District of Kansas) and *In re Syngenta Litigation* (Minnesota Fourth Judicial District) (trial counsel for individual bellwethers and Minnesota class leading to $1.51 Billion settlement)

In re General Motors Dex-Cool Cases (Alameda County Superior Court, California; Jackson County Circuit Court, Missouri) (negotiated cash reimbursements for class for vehicle repairs)

In re Eclipse Aviation Depositor Litigation (Bernalillo County, New Mexico) (negotiated settlement of approximately $49,000,000 on behalf of purchasers of jet aircraft)

In re: Air Crash of N51RX (Santa Fe County, New Mexico) (negotiated complex 8-figure settlement in a 5-death air ambulance crash with multiple defendants and insurance companies)

Malloy v. Pratt & Whitney (U.S. District Court, Northern District of Oklahoma) ($2.1 million settlement of product liability claim for defective aircraft engines)

In re Great Plains Air Lines (U.S. Bankruptcy Court, Northern District of Oklahoma) (negotiated confidential settlement with officers and directors of defunct regional airline carrier)

In re Mountain Energy Corp. (U.S. Bankruptcy Court, Western District of Missouri) (officer/director liability, negotiated 14-party settlement with more than $60 million recovery)

In re Oak Hills Drilling & Operating Co. (U.S. Bankruptcy Court, Eastern District of Oklahoma) (obtained judgment after trial for over $1.5 million on behalf of bankruptcy estate)

De La Cruz v. Masco Retail Cabinet Group (Arbitration – AAA) (obtained $2.6 million arbitration award for group of account representatives who were misclassified in violation of the FLSA)

Malloy v. Commerce Bank (District Court of Tulsa County, Oklahoma) (negotiated settlement for claims alleging aiding and abetting breach of fiduciary duty, fraudulent transfers, and civil conspiracy on behalf of bankruptcy estate)

Sanchez v. DISH Network LLC (Arbitration – AAA) (received $2.9 million judgment on behalf of 3,000 call center employees seeking unpaid overtime wages under the FLSA)

Cabreros, et al. v. Spansion, LLC et al. (U.S. Bankruptcy Court, District of Delaware) (negotiated $8 million settlement of a California class action for violations of the Worker Adjustment and Retraining Notification Act)

PAUL LLP
TRIAL ATTORNEYS

The Lawyers and Reputation We Enjoy

Rick Paul

Rick, managing partner of Paul LLP, specializes in complex antitrust, business, bankruptcy, product liability, and consumer litigation—typically involving multi-parties, class or mass actions, or bankruptcy estates. Rick graduated from the University of Missouri-Columbia School of Law, where he served as Associate Managing Editor of the Missouri Law Review. After law school, Rick was a judicial law clerk at the Missouri Supreme Court and the Missouri Court of Appeals, Western District. In 1996, he began private practice with the firm formerly known as Shughart Thomson & Kilroy, a large Kansas City law firm with offices in Missouri, Kansas, Colorado, and Arizona. In 2002, the Board of Directors of Shughart Thomson elected him a Shareholder and Director. In 2008, Rick moved his practice to Stueve Siegel Hanson LLP. In May 2013, Rick started Paul LLP.

Rick has recovered more than $2 billion for his clients through trial or settlement. Rick has been appointed by numerous courts across the country to serve as lead class counsel in class actions and MDL proceedings and as special litigation counsel for bankruptcy trustees in numerous bankruptcy estates. Currently, Rick is serving on the Plaintiffs' Executive Committee in *In re Dicamba Herbicides Litigation*, MDL 2820, pending in the United States District Court for the Eastern District of Missouri.

Rick enjoys being in the courtroom and has tried and won many types of cases in jury trials, bench trials, and arbitrations. He has repeatedly been brought in to a case shortly before trial for just that purpose. Recently, Rick served as trial counsel in the *In re Syngenta Litigation* pending in the Minnesota Fourth Judicial District. Rick was co-lead trial counsel for the first individual bellwether trial as well as the Minnesota class action trial. During the third week of the Minnesota class trial, the litigation was settled on behalf of all farmers (individual and classes) across the country. This is just the most recent in a string of litigations where Rick has been lead trial counsel, including two class arbitrations, where he prevailed in both. He has also argued more than 40 appeals to various state and federal appellate courts and briefed over 100 appeals.

Rick is active in the local bar, including the Kansas City Metropolitan Bar Association and the Lawyers Association of Kansas City. In 2004, he served as the Chair of the Appellate Courts Committee of the KCMBA. He has also served as Vice-Chair on the Business Torts Committee, where he authored the Chapter on Fiduciary Duties for the Business Torts Handbook. Rick is a frequent speaker and moderator at seminars and presentations on handling appeals, electronic discovery, and the use of technology in the courtroom. In 2006,

Missouri Lawyers Weekly named Rick as one of eight “Up and Coming Lawyers.” He has also been named a “Missouri/Kansas Super Lawyer,” is listed on American Registry’s “Top Attorneys in Missouri/Kansas,” and is a member of The National Trial Lawyers: Top 100. He has an AV Preeminent Peer Review Rating with Martindale-Hubbell and is listed as a 2012 Top Rated Lawyer in Appellate Law.

PAUL LLP
TRIAL ATTORNEYS

Ashlea Schwarz

Ashlea litigates complex business disputes including claims for breach of contract, breach of fiduciary duty, intellectual property and trade secrets, fraud, and misrepresentation. She also represents clients in a range of litigation matters including complex, consumer class and collective actions, and acts as special counsel for Chapter 7 bankruptcy trustees in multifaceted adversary proceedings to bring monies back into the estate to pay creditors typically including for fraudulent transfers, aiding and abetting, breach of fiduciary duties, conspiracy, re-characterizing debt instruments as equity, equitable subordination, products liability, and director/officer liability.

Ashlea has represented thousands of clients from the inception of a case through a verdict and litigated over 50 mass and class actions. Ashlea has taken 6 cases to trial, including two collective/class actions where she recovered over $5 million collectively for her clients. Her practice is nationwide and traditionally includes multi-party and multi-district litigation.

Ashlea remains involved in the legal community through her work as a board member for the Kansas City Bar Association's Federal Court Advocates Section, subcommittee chair for American Women Lawyers, and participation in the Lawyers Association of Kansas City. She is a contributing author for the American Bar Association's yearly FLSA Midwinter Report and co-author of *FLSA Arbitration Strategies* for the April 2013 edition of Trial Magazine, Employment Law. In 2014, she was named one of Missouri Lawyers' Weekly's "Up and Coming Lawyers," an award recognizing litigators under age 40 who demonstrate excellence in the legal profession and in their commitment to their communities. Ashlea continues to be selected yearly as a Kansas City Business Journal Rising Star and Super Lawyers' Missouri and Kansas Rising Star.

DECLARATION OF SCOTT POYNTER

I, Scott Poynter, declare as follows:

1. I am a Partner of Poynter Law Group. Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. On January 28, 2015, I was appointed to the Plaintiffs' Executive Committee.

3. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

4. I have practiced law for nearly 28 years, and have focused my practice on complex litigation since about 1996. Before my appointment to the Plaintiffs' Executive Committee, I also

served on the Plaintiffs' Executive Committee in the *In Re Genetically Modified Rice Litigation* via an appointment by Judge Catherine Perry.

5. Attached to my declaration is my law firm's resume.

6. Primarily, I was appointed to the Executive Committee due to our representation of milo producers, which had unique claims with this multidistrict litigation. However, I served Lead Counsel as a member of the Executive Committee and advised the leadership on all aspects of the litigation. As for the milo producers, the work focused on the investigation of the claims, work with experts on damages theories, legal research and drafting of the milo producer master complaint and responding to and propounding discovery requests.

7. Poynter Law Group maintains contemporaneous records of its time and expenses in the ordinary course of business through a cloud based time/expense record keeping system.

8. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

9. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to individual clients who were not either bellwether or class representative plaintiffs.

10. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation and exercised billing judgment.

11. In exercising fair billing judgment, I re-reviewed each time and expense entry recently to ensure all of my work and expenses commonly benefited the prosecution of claims within this multidistrict litigation. Additionally, I also worked closely with Lead Counsel to ensure such time and expense entries were fair and appropriate.

12. After this re-review, I can confirm that this time was fair and appropriate. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $75,922.50. A breakdown of the lodestar is provided below.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Poynter, Scott	Partner	95.50	$795.00	$75,922.50
	TOTALS		95.50		$75,922.50

14. My firm also seeks $763.82 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	**Description of Category Code**	**Amounts**
8	Meals	$56.52
10	Air Travel	$624.00
17	Ground Transportation	$83.30
	TOTAL	**$763.82**

15. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested expense award is in conformity with the Common Benefit Order.

16. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Little Rock, Arkansas.

/s/ Scott Poynter

plg

POYNTER LAW GROUP

400 W. Capitol Ave., Suite 2910
Little Rock, AR 72201
(501) 251-1587

Scott Poynter

Mr. Poynter and his firm Poynter Law Group serve as Of Counsel to Steel, Wright, Gray, & Hutchinson, PLLC of Little Rock, Arkansas.

Mr. Poynter was born in Fayetteville, Arkansas and raised in Mountain Home. In 1987, he earned a Bachelor of Science Degree in Accounting from Arkansas Tech University. He then earned his Juris Doctorate from the University of Arkansas School of Law in 1989. While in law school, Mr. Poynter was active in Phi Alpha Delta legal fraternity and was awarded a leadership scholarship from the school.

Military Service

After law school, Mr. Poynter was commissioned a First Lieutenant and entered the Judge Advocate Department of the United States Air Force. While on active duty, he was involved in more than fifty jury trials. In 1995, then Captain Poynter was selected by the Judge Advocate General to attend the Air Force's Advanced Trial Advocacy Course, a course reserved for the military's finest litigators. After leaving active duty 1996, Mr. Poynter became a partner at a national class action law firm, which focused its work on the representation of shareholders, employees, and consumers. He also continued his military career in the Arkansas Air National Guard and attained the rank of Major.

Agricultural Litigation Experience

Mr. Poynter has more than a decade of experience in agricultural law, and represents clients in civil litigation both from a plaintiffs' perspective, and as a defense attorney.

From 2006 through 2012, Mr. Poynter served thousands of rice farmers in the LLRICE 601 Genetically Modified Rice MDL Action. Mr. Poynter was appointed to the Plaintiffs' Executive Committee in the multidistrict litigation by Judge Catherine D. Perry of the Eastern District of Missouri. The Rice MDL has now recovered more than one billion dollars in damages for farmers and others involved in the American rice market.

On January 22, 2015, Mr. Poynter was appointed by the Honorable John W. Lungstrum of the U.S. District Court, District of Kansas, to the Plaintiffs' Executive

Committee in the *In re Syngenta AG MIR162 Corn Litigation*. In this mulitidistrict litigation, Mr. Poynter represents both corn and milo farmers seeking damages for market losses incurred after Syngenta contaminated America's corn market with genetically modified corn varieties that had not been approved in China.

Since December of 2016, Mr. Poynter has also served as counsel to local and international grain merchandisers as both an advisor and as litigation counsel.

Consumer Litigation

Over the past two decades, Mr. Poynter has represented consumers in various actions across the United States. He served in leadership positions in the *Tyson Foods Inc., Chicken Raised Without Antibiotics Consumer Litigation*, District of Maryland, Case No. 1:08-md-01987 (an MDL action on behalf of a nationwide false advertising class; $8 million in class settlement relief); *In re: Farmers Insurance Co., Inc. FCRA Litigation*, Western District of Oklahoma, MDL No. 1564 (an MDL case brought on behalf of a nationwide class of insureds and resolving with $104.3 million in class-wide relief); *Sumner v. Alltel*, Lonoke County Circuit Court, Arkansas, Case No. CV-2003-68 (nationwide false advertising case securing $44 million in settlement); *Tyler v. Alltel*, Eastern District of Arkansas, Case No. 4:07-cv-0019-JLH ($17.1 million class resolution for consumers); and, *Rosenow v. Alltel,* Circuit Court of Saline County, Arkansas, Case No. CV-2006-182-3 (securing $8 million in relief for Arkansas payers of early termination fees).

Man-Made Earthquakes

In 2010 and 2011, central Arkansas was hit with thousands of earthquakes, which were caused by oil and gas wastewater disposal operations in the Fayetteville Shale. This created seismicity was due to fracking fluids and waste being disposed of into the earth with injection wells – known as Class II Disposal Wells. About 35 homeowners in the Guy and Greenbrier areas of Arkansas retained Mr. Poynter and filed suit alleging both physical and market value losses to their homes. These man-made earthquake cases were the very first of their kind filed anywhere.

Thus, Mr. Poynter pioneered induced seismicity litigation, and currently pursues both class action and individual cases throughout Oklahoma, which has become the Nation's most seismic state.

In the fall of 2011, residents around Prague, Oklahoma suffered then the largest quake Oklahoma had ever experienced. During November of 2011 quakes measuring about 5.7 in magnitude in Prague, Ms. Sandra Ladra was watching television in her living room with her family when rocks from her two-story fireplace and chimney fell onto her legs causing substantial injuries. Her case was originally dismissed on jurisdictional grounds, but the

Oklahoma Supreme Court unanimously reversed that decision freeing the way for these cases to be heard in Oklahoma courtrooms. *Ladra v. New Dominion*, 2015 OK 53, 353 P.3d 529 (2015). The *Ladra* action was settled by August of 2018, and was the very first induced seismicity case settled in Oklahoma.

Mr. Poynter also represented the Sierra Club in a Resource Conservation and Recovery Act environmental suit before Judge Friot of the Western District of Oklahoma. This suit was designed to eliminate the continued threat of devastating earthquakes in Oklahoma, which are a byproduct of the oil and gas industry's fracking operations. *Sierra Club v. Chesapeake, et al.,* Western District of Oklahoma, Case No. CV-16-134.

Tribal Law Experience: Mr. Poynter filed the first-ever tribal court case brought over induced seismicity. He brought the claim on behalf of the Pawnee Nation of Oklahoma after the tribe suffered nearly $400,000.00 in property damages to its historic governmental buildings. The Nation's damages were the result of largest earthquake that Oklahoma had ever suffered – a 5.8 magnitude earthquake shaking the areas around Pawnee, Oklahoma on September 3, 2016, and caused by oil and gas wastewater disposal operations nearby.

Mr. Poynter has both individual actions and class action cases designed to recover property damages, market losses, emotional harm, and punitive damages due to the oil and gas industry's induced seismicity across the State of Oklahoma since 2011. He recently settled with some of the defendants in a class action regarding the swarm of over 5.0 magnitude earthquakes that hit near Prague, Oklahoma, in November of 2011. This class settlement will be the first induced earthquake case settled anywhere on behalf of a class of property owners.

These cases and Scott's win before the Oklahoma Supreme Court have gained national media attention from the Wall Street Journal, the New York Times, the New Yorker, Bloomberg, Reuters, CBS News, 60 Minutes, and CBS Saturday Morning. He has also been published on the topic of induced seismicity. *What the Frack? Man-Made Earthquakes Are For Real*; The Legal Examiner, Feb. 2, 2015.

Scott is admitted to practice before the U.S. Court of Appeals for the Armed Forces; the Pawnee Nation District Court and Supreme Court; the U.S. District Courts for the Western and Eastern Districts of Arkansas; the Eighth Circuit Court of Appeals; and all Arkansas State Courts.

Please contact Mr. Poynter at: scott@poynterlawgroup.com or (501) 251-1587.

DECLARATION OF KENT ROTH

I, Kent Roth, declare as follows:

1. I am a sole owner of Roth Law Office, Ten North Main, Ellinwood, KS 67526, Tax Payer ID No. 48-1205550 ("Kent Roth d/b/a Roth Law Office"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. My background and that of my law firm, including experience with complex litigation, includes general practice of law for over Forty (40) years.

4. Attached to my declaration is my attorney resume.

5. All legal work by the Roth Law Office in connection with this class action litigation was performed by me.

6. I was asked by federal MDL Co-Lead Counsel Scott Powell to facilitate the filing of a class action in New Mexico. I had direct contact with class representatives in the New Mexico case, Todd & Honey Poling d/b/a Road Runner Farms and Cherie Goodan as President of Atchley Inc. I drove to New Mexico and personally met with those class representatives, identified and worked with New Mexico counsel in filing a class action complaint in New Mexico state court, and communicated with Scott's firm regarding the status of the New Mexico class action.

7. My firm maintains contemporaneous records of its time and expenses in the ordinary course of business by maintaining calendar and time sheets evidencing actual amount of time expended by activity.

8. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

9. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

10. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

11. I exercised my billing judgment in the re-review of common benefit time and expenses, including an effort to avoid duplication.

12. After this re-review, I can confirm that this time was undertaken by me. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $6,375.00. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Roth, Kent A.	Partner	42.50	$150.00	$6,375.00
	TOTALS		42.50		$6,375.00

14. My firm dedicated a substantial amount of time to common benefit work, this precluded you from taking on other work, as traveling from Kansas to New Mexico alone was an over five (5) hour one-way trip and I would be out of the office for several days at a time when traveling in connection with the common benefit work.

15. My firm seeks $719.28 in expenses in connection with the prosecution of this litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
9	Mileage	$719.28
	TOTAL	**$719.28**

16. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

17. This firm is not requesting expense reimbursement for capital contributions to the litigation fund.

18. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 8th day of July, 2018, in Ellinwood, KS 67526.

DECLARATION OF DAVID E. MILLER

I, David E. Miller, declare as follows:

1. I am a partner of Saeed & Little LLP ("Saeed & Little"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. The attorneys at Saeed & Little are highly experienced in consumer protection cases, including consumer collection defense, mortgage foreclosure defense, Fair Debt Collection Practices Act violations and Telephone Consumer Protection Act. Our attorneys have served

clients in an individual capacity in consumer protections cases, and have successfully pursued class action cases against large financial institutions for consumer law violations

4. In 2007, Jon Little started a private practice in Flagstaff, Arizona with the goal of providing passionate legal services to those typically swept down the conveyor belt of the American justice system. In 2009, Ali Saeed began working with Jon, and in 2011, they became partners. In 2018, David Miller became the third partner at Saeed & Little LLP. Today, Saeed & Little, LLP has attorneys licensed in Arizona, California, Illinois, Indiana, New York, and Ontario, Canada, all zealously fighting to ensure that justice is not meted out a sliding economic scale. Saeed & Little only represents individuals and small businesses**.** We help our clients fight against the corporate and, increasingly, governmental powers that are infringing on their rights. We strive to use our passion and training to create systematic change. We are particularly proud of the work we have done on behalf of athletes who have been sexually abused by coaches in the United States Olympic Sports movement. In 2008, we filed the first sexual abuse case against United States Swimming; a case that would ultimately result in the exposure of decades of sexual abuse by the coaches sanctioned by that organization. Saeed & Little has also successfully represented dozens of clients in disputes against the largest corporations in America; corporations like Bank of America, Chase Bank, Audi, and Blue Cross/ Blue Shield. In 2012, we obtained the two largest Telephone Consumer Protection Act settlements in the history of the United States against Chase and Bank of America.

5. David Miller graduated from a specialized, dual-degree law program earning an American and a Canadian Juris Doctor from the University of Detroit Mercy's School of Law and the University of Windsor's Faculty of Law respectively in May 2012. David grew up in Hendricks County, Indiana and attended Tri-West High School and he received his B.S. from Ball State

University in Athletic Training. David practices law to help those that have been taken advantage of by institutions larger than themselves. Far too often people are harmed because companies do not fear the repercussions for their actions. David feels that everyone deserves fair and affordable representation when they have been harmed. David is currently involved in multi district litigation against Narconon and Blue Cross Blue Shield and he is actively involved in litigation against the State of Indiana working on behalf of mentally handicapped children denied benefits from the State. David is currently admitted to practice in California, Indiana, New York and Ontario, Canada. David is currently admitted to practice in the following Federal Circuit Courts: Southern District of Indiana, District of Colorado, Western District of Michigan, Central District of California, Southern District of California, and Northern District of California.

6. Our work in this case included being the point of contact for Potential class reps in Indiana, Kentucky, and Wisconsin, and vetting class representative Tom Goode in Indiana.

7. Saeed & Little LLP utilizes Bill4Time to track all work conducted during litigation on behalf of our clients in the normal course of business. Our time was maintained throughout the course of this litigation through this method.

8. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

9. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

10. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

11. Our hours were only conduction at the direct request of Paul McInnes and we did not include time spent outside of those direct requests.

12. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

13. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $500.00. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.		Miller, David	Associate	2.50	$200.00
	TOTALS		2.50		$500.00

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

DECLARATION OF SCHIRGER, KIRK, MCDOUGALL & WINZELER, P.C.

I, Michael J. Schirger, declare as follows:

1. I am a partner of Schirger, Kirk, McDougall & Winzeler, P.C. ("SKMW"), successor law firm of Schirger Law Offices, LLC. Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. SKMW represents businesses and individuals. We provide legal counsel in entity formation, business and real-estate transactions, contracting, and civil and appellate litigation. We also provide counsel for estate planning, dispute resolution, leases, and a variety of other issues.

4. SKMW is a general-practice law firm in downstate Illinois representing, among others, clients engaging in agricultural business (farming). SKMW was formed in the fall of 2016. It is the successor law firm to Schirger Law Offices, LLC, with roots going back over 50 years of providing legal services in northern Illinois. It engages its legal services in commercial transactions, estate planning, estate disputes, commercial litigation, family law, general litigation, and appeals. It has provided legal services as counsel to SewardAg, a major Illinois agricultural supply company, and to a variety of several agricultural banks in the region. And it has represented people in litigation of several family disputes over estates involving thousands of acres of Illinois farmland valued in the millions of dollars.

5. Resumes:

a. Michael Schirger, JD University of Iowa. Licensed to practice law in Illinois in 2006. His work involves both litigation and transactional matters as well as estate and succession planning. Attorney Schirger received his law school's best oralist and best advocate awards for Moot Court.

b. Richard Kirk, JD DePaul University. Licensed to practice law in Illinois in 2005. Mr. Kirk represents clients before the trial and appellate courts of Illinois, obtaining a unanimous decision from the Illinois Supreme Court reversing the trial court in favor of his client in 2010. His practice includes commercial and contract disputes, eminent domain matters, and estate disputes.

c. Taja D. Winzeler, JD University of Illinois. Licensed to practice law in 1993. Ms. Winzeler gained extensive experience litigating homicide and major drug cases during her time as Senior Felony Assistant with the Winnebago County Public Defender's office. Ms. Winzeler combines this experience with her experience in Winnebago County's first Rehabilitative Drug Court, which focused on a collaborative approach to the resolution of issues.

6. Attorneys Schirger, Kirk, and Winzeler represented, prepared and filed the Illinois class action complaint, *Borneman et al., v. Syngenta AG*, No. 15-L-36 in the Fifteenth Judicial Circuit Ogle County, Illinois; that action was subsequently removed to the United States District Court for the Northern District of Illinois, see *Borneman et al., v. Syngenta*, No. 16-CV-2943, and then transferred to the MDL.

7. As part of its representation, SKMW met with the plaintiff in *Borneman* to obtain the information and documents requested in the plaintiff fact sheet and communicated that information and those documents to lead attorneys in the case.

8. In addition, SKMW researched and drafted a Memorandum detailing said research regarding the filing of the Illinois Claim, service of Complaint and other matters.

9. Further, SKMW travelled to Ogle County Courthouse on multiple occasions, both to file documents in the case and attend Court hearings while the matter was pending in the Fifteenth Judicial Circuit Court of Ogle County in Illinois.

10. SKMW maintains contemporaneous records of its time and expenses in the ordinary course of business which such invoice reflects an explanation of time spent in this matter.

11. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

12. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

13. As part of the preparation of my declaration, I reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

14. SKMW exercised billing judgment by re-reviewing the common benefit time and expenses to confirm that its billing in this matter is correct and accurately reflects the substantive time its attorneys spent in providing legal services in these matters.

15. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

16. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $14,350.A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Schirger, Michael J.	Partner	38.80	$350.00	$13,580.00
2.	Winzeler, Taja	Partner	2.20	$350.00	$770.00
	TOTALS		41.00		$14,350

15. My firm seeks $249.99 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
2	Postage Charges	$19.99
14	Court Fees	$230.00
	TOTAL	**$249.99**

17. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expenses Funds.) Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

18. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Rockford, Illinois

DECLARATION OF JAYNE CONROY

I, Jayne Conroy, declare as follows:

1. I am a shareholder of Simmons Hanly Conroy ("SHC"). Based on my position with my firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Simmons Hanly Conroy LLC is a limited liability corporation organized under the laws of the State of Illinois. The principal office location is in Alton, Illinois.

4. Attached as to my declaration is my law firm's resume.

5. Below are biographies on the attorneys who worked on this matter:

6. ***Jayne Conroy:*** Attorney Jayne Conroy is a named shareholder of Simmons Hanly Conroy, one of the United States' largest mass tort law firms, and has developed a superb national reputation as a skilled strategist, trial lawyer, and negotiator over her thirty year career. Based in the New York office, Ms. Conroy litigates products liability and mass torts cases, among other complex actions. Ms. Conroy has spearheaded efforts to help thousands of victims in some of the largest cases in the United States obtain the medical help or financial resolution they need to again be whole. The high-profile cases she has litigated include the Toyota Unintended Acceleration controversy, the Sept. 11 terrorist attacks, the Deepwater Horizon oil disaster, sex abuse in Catholic institutions and more. Ms. Conroy has served in leadership positions on over a dozen multidistrict litigations throughout America.

> Her recent accomplishments include the more than $16 billion resolution for the *VW Diesel Emission* scandal for VW owners in the U.S., three verdicts totaling in excess of $1.7 billion in the U.S. litigation against the Dallas, Texas *DePuy/J&J Pinnacle Hip Litigation* and the $1.5 billion settlement of the genetically modified corn case against *Syngenta*. Ms. Conroy and her firm are currently leading the nationwide U.S. litigation against the *Opioid* manufacturers and distributers. The *National Law Journal* has named Ms. Conroy as one of the nation's Outstanding Women Lawyers and Law360 has named her a 2017 Product Liability MVP for the second consecutive year. Ms. Conroy earned her J.D. from New England School of Law in 1985.

7. ***Sarah Burns:*** Sarah Burns is a shareholder at Simmons Hanly Conroy LLC. She has substantial legal experience handling consumer safety cases, mass tort multidistrict litigations and other complex business torts. In the past ten years, she has secured millions of dollars in settlements on her clients' behalf. Her clients are regular, everyday people, businesses or municipalities who've been harmed by larger, multi-national corporations. Sarah brings an in-depth understanding of the law and how it applies to her clients' unique circumstances. Around

the firm, her work has garnered her a reputation as equal parts secret weapon, taskmaster and quarterback. Her cases regularly take on some of the largest companies in the world. Not only is Sarah adept at overcoming the stall tactics big defense law firms deploy against smaller plaintiffs, she leverages the firm's resources to put her clients on an equal playing field. Her responsibilities include overseeing pre-filing investigations and preparing cases for trial and the appeal process. Sarah's current caseload includes representing county and municipal governments against the pharmaceutical companies over the aggressive and fraudulent marketing of prescription opioid painkillers that has led to the opioid epidemic throughout the country. Sarah serves as the deputy chief of the opioid litigation team, led by Shareholder Paul Hanly, which includes attorneys, paralegals and staff dedicated to helping counties and municipal governments enforce their legal rights against pharmaceutical companies responsible for the opioid crisis. Currently, she oversees casework for more than 125 cases filed on behalf of government entities in New York, Illinois, Wisconsin, Louisiana, Connecticut, Pennsylvania, Iowa and Indiana. Sarah also represents Trans Coastal Supply Co., a regional exporter in the agricultural industry that was forced to declare bankruptcy after it lost $41 million because its exports to China were contaminated with Agrisure Viptera corn seed. The lawsuit is part of the federal multidistrict litigation, *Syngenta AG MIR 162 Corn Litigation MDL 2591,* that farmers, exporters and other companies have filed against the international biotechnology seed company Syngenta for misleading them about the status of Viptera's approval in China. Sarah also handled the consumer protection cases the firm has filed against Volkswagen, regarding the automaker's highly-publicized emission scandal, and is currently focused on the marketplace unfair competition claims brought by competing dealerships. She earned her J.D. in 2004 from the University of Tulsa College of Law, where she graduated with honors.

8. As a member of the Plaintiffs' Executive Committee in this MDL, I participated, and was deeply involved, in numerous conference calls with Co-Lead Counsel and other Executive Committee members about various legal, practical and strategic issues in this litigation concerning procedural matters, discovery, dispositive motions, and trial.

9. In addition to my appointment as a member of the Plaintiffs' Executive Committee, I and my firm represented the Non-Producer Bellwether Plaintiff Trans Coastal. As such, in addition to PSC tasks, we prepared the Non-Producer Bellwether case for trial including all depositions, expert preparation and reports, motion practice and relevant pre-trial work. This included both the development of Trans Coastal's case as well as the defense of the damage models and other relevant positions common to other non-producer plaintiffs. The discovery relating to Trans Coastal's claims was enormous. Trans Coastal produced over 3,250,000 pages of documents in the litigation. SHC lawyers had to collect and review those documents, as well as thousands of pages of others for responsiveness and privilege issues. All documents were then produced in the form required by the agreed document production protocol, which took significant time by SHC. While Trans Coastal maintained some records electronically, a substantial portion of its records were maintained in hard copy. SHC lawyers, including Ms. Burns and myself, traveled to warehouses in Decatur, Illinois and Kansas City, Missouri, where we combed through hundreds of boxes of Trans Coastal documents to find information that was responsive to Syngenta's multiple sets of requests for production. Trans Coastal also responded to interrogatories and requests for admission served by Syngenta. SHC lawyers, in coordination with Co-Lead Counsel and Trans Coastal, prepared the responses. SHC lawyers also engaged in multiple meet and confer sessions with Syngenta concerning alleged discovery deficiencies. The fact and expert witnesses relating to Trans Coastal's claims were located throughout the country

and required both preparation and defense at their depositions. SHC lawyers defended seven current or former Trans Coastal employees in depositions that collectively lasted for 13 days and took place in five different states. Early on in the litigation, my firm retained James Woods as a potential expert for Trans Coastal. SHC lawyers spent many hours gathering relevant documents to Trans Coastal's damages and assisting Mr. Woods to understand Trans Coastal's business, as well as to understand the business of non-producers in the corn and ethanol industry. We also coordinated with Mr. Woods regarding his expert report, and defended his deposition. SHC lawyers also deposed Mr. Quentin Mimms, one of Syngenta's experts who rebutted the non-producer damage expert reports issued by Mr. Woods in the litigation. SHC lawyers coordinated with Mr. Woods in preparation for Mr. Mimms' deposition, and I deposed Mr. Mimms.

10. In addition to work specifically related to Trans Coastal's claim that benefitted other non-producers, I and other SHC lawyers were also assigned work by Co-Lead Counsel. These included:

a. Legal research and writing on issues related to Syngenta's motion to dismiss the Non-Producer Amended Master Class Action Complaint, including on the Lanham Act and the economic loss doctrine;

b. In coordination with Co-Lead Counsel, SHC lawyers researched various states' laws for purposes of the class action complaints, as well as legal issues related to the pled sub-classes;

c. SHC lawyers, including Sarah Burns and Eric Disney, were part of the plaintiffs' document review team. SHC lawyers traveled to Kansas City for multiple weeks of in-person review, and then conducted additional review from SHC offices. At the request of Co-Lead Counsel, SHC lawyers

performed targeted reviews for documents associated with particular issues that Plaintiffs wanted to investigate for possible questioning at depositions;

d. I would be contacted by attorneys representing potential non-producer plaintiffs who asked questions about the status of the litigation and discussed issues concerning whether their clients had viable claims against Syngenta.

11. Simmons Hanly Conroy maintains contemporaneous records of its time and expenses in the ordinary course of business.

12. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

13. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients, who were not either bellwether or class representative plaintiffs.

14. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment.

15. I personally reviewed the time entries also with my partner, Sarah Burns, and my head Paralegal Jill Kraus. In addition, I reviewed each entry and discussed the billing with co-lead William Chaney on several occasions. Some time entries from other firm cases that were mistakenly logged with the Syngenta time system were removed. In addition, entries related to one of the Bellwether clients, TransCoastal, concerning its bankruptcy proceedings were removed. Expenses were likewise reviewed for accuracy.

16. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

17. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $1,197,732.50. A breakdown of the lodestar is provided below.

	Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
1.	Disney, Eric	Associate	1,387.00	$185.00	$256,595.00
2.	Burns, Sarah	Associate	785.30	$400.00	$314,120.00
3.	Conroy, Jayne	Partner	459.20	$950.00	$436,240.00
4.	Payne, Gary	Associate	336.50	$275.00	$92,537.50
5.	Kraus, Jill	Paralegal	181.20	$125.00	$22,650.00
6.	Bierstein, Andrea	Partner	61.80	$950.00	$58,710.00
7.	Bond, Julie	Paralegal	56.50	$100.00	$5,650.00
8.	Hurd, Ellyn	Associate	25.70	$400.00	$10,280.00
9.	Hanly, Paul	Partner	1.00	$950.00	$950.00
	TOTALS		3,294.20		$1,197,732.50

18. My firm seeks $730,928.00 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	**Description of Category Code**	**Amounts**
1	Federal Express / Local Courier	$3,557.35
5	In-House Photocopying	$5,510.55
6	Outside Photocopying	$125,611.14
7	Hotels	$17,368.42
8	Meals	$3,152.63
10	Air Travel	$20,288.96
11	Deposition Costs	$48,634.46
13	Witness and Expert Expenses	$312,193.28
14	Court Fees	$248.00
17	Ground Transportation	$4,057.12
18	Miscellaneous	$306.09

19	Litigation Fund Assessment	$190,000.00
	TOTAL	**$730,928.00**

19. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

20. Simmons Hanly Conroy is requesting expense reimbursement for capital contributions to the litigation fund, in the amount of $190,000.00.

21. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 9th day of July, 2018.

/s/ Jayne Conroy
Jayne Conroy

Simmons Hanly Conroy is one of the nation's largest plaintiff law firms and has recovered over $5 billion in verdicts and settlements for both individuals and businesses in a variety of complex matters. Led by John Simmons, Paul J. Hanly, Jr. and Jayne Conroy, the firm encompasses centuries of cumulative litigation experience in service to our clients. SHC has a dedicated staff of over 200 people, including 75 attorneys licensed in multiple states in the following areas of litigation: Mesothelioma & Asbestos, Prescription Opioid Litigation, Dangerous Drugs & Devices, Consumer Protection, Business/Commercial, Environmental, Personal Injury, and Sexual Abuse. The firm has sued the largest corporations in the United States and prevailed, utilizing its skills and resources to try cases effectively and efficiently.

In 2003, our asbestos attorneys secured a $250 million verdict on behalf of a U.S. steel worker who was diagnosed with mesothelioma as a result of his asbestos exposure at an Indiana factory. The verdict remains the largest result for a single plaintiff against a single defendant in the history of asbestos litigation. In the same year, members of the firm effectively invented large-scale, multi-defendant opioid litigation when it commenced truly groundbreaking opioid litigation against opioid manufacturers for damages suffered by more than 5,000 clients prescribed the prescription opioid OxyContin. In the past year, building upon its decade-long experience and expertise, SHC has filed litigation on behalf of more than 200 municipalities across the country against opioid drug manufacturers for their role in the opioid epidemic. SHC is seen as an authority on the topic, with one of our lead shareholders appointed co-lead counsel of the federal MDL.

Simmons Hanly Conroy has offices in the following cities: Alton, Illinois; New York, New York; Chicago, Illinois; San Francisco, California; El Segundo, California; and St. Louis, Missouri.

DECLARATION OF MARK A. WALLER

I, Mark A. Waller, declare as follows:

1. I am a shareholder of Sneed Lang PC ("Sneed Lang"), which is currently winding up its affairs. Based on my position with that firm, I am authorized on behalf of that firm to submit this declaration.

2. I make this declaration based on my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. Sneed Lang attorneys litigated class action oil and gas royalty underpayment cases, class actions against banks for abusive overdraft practices, Fair Labor Standards Act collective

actions on behalf of a national class, a mass tort action against directors and officers of a failed aircraft manufacturer, and been involved in complex commercial litigation matters over the last two decades.

4. Mark A. Waller performed the majority of the work at Sneed Lang in the referenced case. I graduated from The University of Tulsa with a Bachelors of Science degree in Economics in 1980. I graduated from The University of Tulsa, College of Law, in 1991. I was significantly involved, from 1990-1991, in defending a group of individual defendants in two large depositor class actions involving the Republic Bancorp financial institutions. In 1995 I was a founding partner with Inhofe, Jorgensen, Balman & Waller, where I worked primarily in the areas of complex commercial litigation and employment law. In 1998 I was hired by a Fortune 500 energy and communications company headquartered in Tulsa, Oklahoma -- The Williams Companies, Inc. ("Williams") -- to handle Williams' and its subsidiaries' labor and employment matters, both nationally and internationally. I re-entered private practice in 2003 with Herrold Herrold & Co., Lawyers, and this firm merged with Sneed Lang in 2009. I currently practice primarily in the areas of commercial litigation, business torts, class action, mass action and multi-plaintiff litigation, and employment litigation representing both plaintiffs and employers.

5. J. David Jorgenson has extensive commercial litigation experience. Mr. Jorgenson graduated from the University of Texas, College of Law, with honors in 1978. Mr. Jorgenson was a partner at Conner & Winters in Tulsa, Oklahoma until 1995 and subsequently was a partner or was "of counsel" at four other Tulsa firms, including Sneed Lang PC.

6. At Sneed Lang, I was primarily responsible for securing class representative plaintiffs for the states of South Dakota and Colorado, interfacing with and between these representatives and the Gray Ritter Graham firm, responding to discovery from the Syngenta

defendants, preparing the South Dakota class representative for his deposition, and securing documentation and authorizations from these class representatives. As well, I was consulted regarding and involved in the filing of a class action on behalf of Oklahoma corn producers, *ALLAN AND CAROLYN FISCHER FLP, et al v. SYNGENTA AG, et al*, Case No. CJ-2-15-4252 (District Court in and for Tulsa County, State of Oklahoma). The *Fischer* case was subsequently transferred to the MDL.

7. At Sneed Lang I worked extensively with (i) Richard Bieber of Bieber Farm and Rolling Ridge Ranch, LLC, which were class representatives for South Dakota, and (ii) Lyle Ravenkamp and Scott Ravenkamp, both of Ravenkamp Farms Partnership, the class representative for Colorado. Each of these individuals was extremely cooperative and prompt in providing requested information and documentation during the discovery process. Mr. Bieber was extensively prepared for his deposition and then deposed on March 8, 2016. Sneed Lang's time records reflect the hours spent working with Mr. Bieber on discovery and related matters, including his deposition. Similarly, Sneed Lang time records reflect the time spent with Mr. Ravenkamp in producing documents and responding to Syngenta's discovery requests.

8. Ravenkamp Farms Partnership was selected and agreed to serve as a Colorado class representative and, in that capacity, responded to Syngenta's requests for production, which sought documents pertaining to numerous details about Ravenkamp Farm Partnership's farming operation and other information over significant time periods, and also called for personal financial information. Lyle and Scott Ravenkamp conducted an extensive search to locate, and reviewed records, and had several discussions with me in order to understand the requests and properly respond. Lyle and/or Scott Ravenkamp produced over 1000 pages of documents and made several special roundtrips of over 30 miles to collect documents held by third parties; Lyle estimates that

they spent 20 hours collecting documents responsive to Syngenta's discovery requests. Based on my time records, my contemporaneous involvement in the collection of discovery from Ravenkamp Farm Partnership, and discussions with Lyle Ravenkamp, I believe that Lyle's estimate is reasonable. Lyle Ravenkamp also agreed to, if necessary, sit for a deposition and attend a multi-week trial in Kansas City.

9. Sneed Lang assigned each matter a specific matter number. All attorneys at Sneed Lang, including myself and Mr. Jorgenson, regularly recorded and contemporaneously maintained records of time spent on each matter, and those records were recorded electronically and kept on the firm's server.

10. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

11. In compliance with the Common Benefit Order, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

12. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment. In that regard, and subsequent to a teleconference with Don Downing, I deleted 1.5 hours of time incurred by Sneed Lang attorneys that arguably was not common-benefit time.

13. With respect to billing judgment, I used that judgment each time I contemporaneously recorded time. In that regard, I incurred significant time reviewing select pleadings that kept me apprised of how the case was progressing, and for which I recorded no

time. My time records reflect my work in the referenced case as directed by Co-Lead Counsel and in the performance of tasks that I was asked by Co-Lead Counsel to perform.

14. After this re-review, I can confirm that this time was undertaken by the members of my firm at my direction. I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order.

15. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for Sneed Lang is $58,240.00 A breakdown of the lodestar is provided below.

Name	**Title**	**Total Hours**	**Hourly Rate**	**Lodestar**
Jorgenson, David	Associate	0.80	$400.00	$320.00
Waller, Mark	Partner	144.80	$400.00	$57,920.00
TOTALS		145.60		$58,240.00

16. The work Sneed Lang performed was almost entirely common benefit time. The amount of time is not such that it significantly impacted Mr. Waller's ability to perform other work at Sneed Lang, except during certain periods of intense discovery development, responses, and the deposition of Mr. Bieber.

17. My firm seeks an award of $882.91 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Description of Category Code	**Amounts**
Federal Express / Local Courier	$75.63
Postage Charges	$2.08
Hotels	$272.25
Meals	$9.46
Mileage	$247.43
Lexis/Westlaw/Bloomberg	$16.40

Description of Category Code	Amounts
Court Fees	$238.66
Service of Process Fees	$21.00
TOTAL	**$882.91**

18. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

19. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Tulsa, Oklahoma.

DECLARATION OF JERRY A. SOPER

I, Jerry A. Soper, declare as follows:

1. I am a shareholder of Soper Leddin Law Firm, P.C. Based on my position with the firm, I am authorized on behalf of my firm to submit this declaration.

2. I make this declaration based upon my personal knowledge and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation.

3. I have been licensed in Illinois since 1982 and Iowa since 1986. I have been involved in Civil RICO litigation in Federal Court. I passed the Uniform Certified Public Accountants Examination in Illinois in 1978. I have been in private practice since 1982. I have concentrated on personal injury and workers' compensation since 1991.

4. Soper Leddin Law Firm, P.C. maintains contemporaneous records of its time and expenses in the ordinary course of business.

5. In compliance with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), my firm submitted its common benefit time and expense submissions to Co-Lead Counsel in the MDL.

6. The work I performed includes discovery for class representatives. In compliance with the Common Benefit Rule, I did not include in these submissions time and expenses spent in respect to my individual clients who were not either bellwether or class representative plaintiffs.

7. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted in this litigation to exercise billing judgment. The only time entries presented are for time spent by myself.

8. After this re-review, I believe that the common benefit time and expense information submitted on behalf of my firm is accurate and in compliance with the Court's Common Benefit Order,

9. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $4,631.50. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Soper, Jerry	Partner	15.70	$295.00	$4,631.50
	TOTALS		15.70		$4,631.50

10. My firm seeks $185.00 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
14	Court Fees	$185.00
	TOTAL	**$185.00**

11. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

12. The expenses pertaining to this case are reflected in the records of my firm. These records are contemporaneously prepared from receipts; expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July, 2018, in Davenport, Iowa.

DECLARATION OF DANIEL BUKOVAC

I, Daniel Bukovac, declare as follows:

1. I am a partner of Stinson Leonard Street LLP ("Stinson") in its Kansas City, Missouri office. Based on my position with Stinson, I am authorized on Stinson's behalf to submit this declaration.

2. I make this declaration based on my personal knowledge and, if called to testify about the information herein, I could and would competently do so. I respectfully submit this declaration in support of Plaintiffs' request for attorneys' fees and expenses in this litigation ("Syngenta MDL").

3. Stinson is one of the 200 largest law firms in the United States with approximately 470 lawyers in sixteen offices. Stinson provides sophisticated corporate, transactional and litigation legal services to clients ranging from Fortune 500 corporations to small businesses and individuals. In the agriculture industry, the firm represents a variety of clients, including farm entities and owners, suppliers and producers, and animal health companies. Scott Roberts, another Stinson partner working on the Syngenta MDL, formerly served as a member of ADM's law department and has experience in complex agribusiness legal issues, including mergers and acquisitions, regulatory matters, class action and multidistrict litigation ("MDL"), antitrust and internal and external investigations. The class action experience of Stinson's attorneys spans the litigation spectrum, including antitrust, product liability, employment and financial and securities litigation. Stinson's attorneys also have experience in initiating and representing parties in MDLs, including MDLs coordinating or consolidating pretrial proceedings in multiple class actions. My own experience also includes representing both plaintiffs and defendants in complex litigation, including antitrust and securities litigation and class actions. In addition to the Syngenta MDL, I have represented parties in five other MDLs and have served as court-appointed liaison counsel for a group of parties in one of those MDLs. I have substantial agribusiness experience and, prior to the Syngenta MDL, had represented clients in other litigation involving genetically-modified (GMO) crops, including GMO sugarbeets, GMO rice and other GMO corn. In addition to my litigation experience in this Court and in courts in the State of Missouri, where I am admitted to practice, I have represented parties as lead counsel (*admitted pro hac vice*) in state and federal courts in other jurisdictions, including Arizona, California, Illinois, New Jersey, Oklahoma, Ohio and Texas. Similarly, other Stinson attorneys represent clients in litigation throughout the United States.

4. A two-page introduction about Stinson listing its offices, practices and industry experience is attached hereto. More detailed information about Stinson, its attorneys, practices and industry experience can be found at its website at https://www.stinson.com/.

5. A list of Stinson timekeepers (both attorneys and staff) working on the Syngenta MDL also is attached hereto. The list shows the positions and law school graduation years for attorneys and the years of experience for staff. The experience of each of the paralegals and other staff on the list is in the litigation practice area. The experience of attorneys on the list is also in litigation, with some exceptions mentioned below. Scott Roberts' experience has already been described above. Thomas J. Lynn, a former Stinson partner and currently the general counsel of an agribusiness company, has experience in mergers and acquisitions, corporate finance, securities law compliance and other corporate matters. Nicholas Hoffman, a Stinson associate, also has experience in mergers and acquisitions, corporate finance and other corporate matters. Sarah King, a Stinson partner, has experience in trusts and estates. Joel Leviton, also a Stinson partner, has significant trademark and other intellectual property experience in transactional and counseling matters and also has intellectual property litigation experience. The reasons for assigning projects to non-litigation attorneys will be apparent in the explanation of Stinson's responsibilities in the Syngenta MDL provided below.

6. Co-Lead Counsel contacted me to obtain Stinson's assistance on various projects in the Syngenta MDL. Stinson's responsibilities included the following:

a. Stinson assisted in research and analysis of legal issues related to Syngenta agreements (with producers), including warranty disclaimers and limitations, remedy limitations and unconscionability issues;

b. Stinson assisted in researching and drafting sections of plaintiffs' opposition to Syngenta's motion to dismiss;

c. Stinson researched and analyzed the comparative fault schemes of the States whose laws would govern producer negligence claims; the research addressed the applicability of comparative fault and contributory negligence principles and the treatment of non-parties at fault under the laws of multiple States and the extent to which different schemes applied to different types of injury (e.g., economic loss or property damage); the research and analysis was relevant to the selection and potential consolidation of State classes for bellwether trials;

d. Similarly, Stinson researched the elements of, and jury instructions for, negligence claims under the laws of multiple States; this research was also relevant to the potential consolidation of State classes for bellwether trials;

e. Stinson researched and analyzed the laws of multiple States related Syngenta's affirmative defenses, the pleading standards for those defenses and potential motions to address those defenses and the availability of and any limitations on punitive damages;

f. Stinson (Joel Leviton because of his intellectual property experience) analyzed expert issues related to Lanham Act claims;

g. Stinson drafted interrogatories and requests for admission addressing evidentiary issues as to the admissibility of Syngenta's documents and researched related issues;

h. Stinson (including Thomas J. Lynn and Nicholas Hoffman because of their mergers and acquisition and corporate finance experience) analyzed the structure

of ChemChina's proposed acquisition of Syngenta, including the proposed financing of the transaction, based on publicly available information; Stinson then researched and analyzed the transaction's potential impact on plaintiffs' claims and the collection of any judgments on those claims; the research addressed potential sovereign immunity and international comity issues arising from the transaction;

i. Stinson researched and analyzed legal issues arising from class counsel's communications with class members represented by other personal counsel and other counsel's communications with class members after class certification;

j. Stinson (Sarah King because of her trusts and estates experience) researched issues related to qualified settlement funds or trusts; and

k. Stinson conducted reviews and related coding and analysis of documents, including Syngenta Stewardship Agreements, other documents produced by Syngenta, and documents produced by other parties and non-parties.

7. In addition to the responsibilities described above, Stinson also worked with Fowler Sheffield on tasks related to his role as a named plaintiff and proposed class representative for the State of Oklahoma producers in the Syngenta MDL. Stinson attorneys and staff spent approximately 150 hours directly related to the representation of Mr. Sheffield as a named plaintiff, working on various tasks, including the following: interviews of Mr. Sheffield (including an interview with the participation of Don Downing, one of the Co-Lead Counsel in the Syngenta MDL); follow-up questions to Mr. Sheffield; preparing (and later updating) Mr. Sheffield's Plaintiff Fact Sheet; collecting documents from Mr. Sheffield; with Mr. Sheffield's authorization, collecting documents relating to his farm operations from other sources, including the USDA, an crop insurance broker and a seed dealer; responding to defendants' requests for production and

reviewing and preparing the documents collected for production in the Syngenta MDL; preparing a declaration for Mr. Sheffield in connection with a class certification motion in the Syngenta MDL; and communications with Mr. Sheffield related to those tasks and about class certification procedures and his role as a proposed class representative.

8. Mr. Sheffield was selected and agreed to serve as an Oklahoma class representative and, in that capacity, responded to Syngenta's requests for production, which sought documents pertaining to numerous details about his farming operation and other information over significant time periods, and also called for personal financial information. Mr. Sheffield conducted an extensive search through records kept on his farm to find responsive documents. Mr. Sheffield also gave my firm authority to collect responsive documents held by various third parties, including the FSA office, grain elevators, a crop insurance agent, and a seed dealer. Mr. Sheffield spoke on numerous occasions with Stinson lawyers and staff members regarding the collection of documents; Mr. Sheffield also spoke with Don Downing regarding his responsibilities as a class representative. Mr. Sheffield estimates that he spent 55 to 65 hours working on the tasks related to this litigation, with most of that time spent collecting documents responsive to Syngenta's requests for production. Based on Stinson's records and my contemporaneous involvement in Mr. Sheffield's document collection efforts and discussions with him, Mr. Sheffield's estimate is reasonable. Mr. Sheffield was also willing, if necessary, to sit for a deposition and attend a multi-week trial in Kansas City.

9. Stinson maintains contemporaneous records of its time and expenses in the ordinary course of its business. At my request, the firm established a matter for recording time and expenses in connection with the representation of clients with claims against Syngenta, including claims asserted in the Syngenta MDL, and related work requested by Co-Lead Counsel (the "Syngenta

Matter"). Pursuant to Stinson's internal procedures, Stinson attorneys and staff submitted time entries, specifying for each date the amount of time worked and a narrative describing the work performed related to the Syngenta Matter. Stinson's accounting department then provided me, as the "billing attorney" for the Syngenta Matter, a monthly proforma statement showing the time entries and expenses charges recorded in the Syngenta Matter as of the statement date.

10. In order to comply with the Court's Order Establishing Protocols for Common Benefit Work and Expenses, ECF No. 936 (the "Common Benefit Order"), I reviewed the monthly proforma statements for the Syngenta Matter before making common benefit time and expense submissions to Co-Lead Counsel in the Syngenta MDL and deleted entries that in my judgment were not properly included as common benefit time. In making submissions to Co-Lead Counsel, I excluded more than 500 hours of time entries outside the scope of the Common Benefit Order.

11. As part of the preparation of my declaration, I re-reviewed all of the time entries and expenses previously submitted to Co-Lead Counsel in the Syngenta MDL to exercise billing judgment.

12. Because I excluded time entries outside the scope of the Common Benefit Order *before* making submissions to Co-Lead Counsel, I did not discover time entries outside the scope during my re-review of those submissions. However, I did find 43.6 hours of duplicate entries in the submissions to Co-Lead Counsel that resulted from clerical errors in creating the submissions from the proforma statements.

13. After this re-review, I can confirm that the legal work reflected in the time entries in the re-reviewed and revised submission on behalf of Stinson was undertaken by Stinson's attorneys and staff at the direction of Scott Roberts or me and after authorization or approval by Co-Lead Counsel. I believe that the common benefit time and expense information in the re-

reviewed and revised submission on behalf of Stinson is accurate and in compliance with the Court's Common Benefit Order.

14. After exercising billing judgment and making billing reductions based on my review of the records, the total lodestar for my law firm is $782,219.50. A breakdown of the lodestar is provided below.

	Name	Title	Total Hours	Hourly Rate	Lodestar
1.	Montgomery, James	Associate	340.00	$345.00	$117,300.00
2.	Bukovac, Daniel	Partner	283.90	$730.00	$207,247.00
3.	Froelich, Steve L	Paralegal	279.20	$305.00	$85,156.00
4.	Hart, Joyce E	Paralegal	223.70	$280.00	$62,636.00
5.	Combs, Tamara V	Associate	202.40	$305.00	$61,732.00
6.	Stevens, Leisa C	Paralegal	185.30	$280.00	$51,884.00
7.	Sevedge, Christopher B	Associate	178.00	$345.00	$61,410.00
8.	Habiger, Ashley G.	Associate	91.60	$405.00	$37,098.00
9.	Bechina, Katherine A	Associate	65.30	$345.00	$22,528.50
10.	Diaz, Cheri M	Paralegal	65.20	$255.00	$16,626.00
11.	Roberts, Scott A	Partner	38.00	$670.00	$25,460.00
12.	Hoffman, Nicholas	Associate	18.70	$405.00	$7,573.50
13.	Turner, Colin	Associate	17.40	$455.00	$7,917.00
14.	Grutsch, Derek	Law Clerk	8.20	$325.00	$2,665.00
15.	King, Sarah	Partner	7.30	$515.00	$3,759.50
16.	Harrison, Courtney	Associate	7.10	$330.00	$2,343.00
17.	Leviton, Joel D	Partner	6.20	$590.00	$3,658.00
18.	Lynn, Thomas	Partner	3.70	$580.00	$2,146.00
19.	Henson, Renee	Law Clerk	2.80	$165.00	$462.00
20.	Woodard, Benjamin D.	Associate	2.50	$365.00	$912.50
21.	Pixler, Jessica	Associate	2.30	$345.00	$793.50
22.	Whalen, Patsy J	Paralegal	1.70	$250.00	$425.00
23.	Cusimano, Cindy	Paralegal	1.40	$255.00	$357.00
24.	Benson, John E	Paralegal	0.50	$260.00	$130.00
	TOTALS		2,032.40		$782,219.50

15. My firm seeks $172,315.00 in expenses in connection with the prosecution of the litigation. Those expenses are summarized below:

Category Code	Description of Category Code	Amounts
12	Lexis/Westlaw/Bloomberg	$12,315.00
19	Litigation Fund Assessment	$160,000.00
	TOTAL	**$172,315.00**

16. As part of my firm's request for an award of expenses, I have reviewed Section III(B) of the Court's Order Establishing Protocols for Common Benefit Work and Expenses and Establishing the Common Benefit Fee and Expense Funds (Doc. 936) (the "Common Benefit Order"). The requested award is in conformity with the Common Benefit Order.

17. Stinson is including in its request for expenses reimbursement for capital contributions to the litigation fund in the total amount of $160,000.00.

18. The expenses pertaining to the Syngenta MDL are reflected in Stinson's records, including the proforma statements for the Syngenta Matter. These records are contemporaneously prepared from vendor invoices, receipts, expense vouchers, check and credit card records and other documents and are an accurate record of the expenses.

I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on this 6th day of July 2018, in Kansas City, Missouri.
