CONFIDENTIAL COMMUNICATION SUBJECT TO ATTORNEY-CLIENT PRIVILEGE

Dear Clients: By now you should have received our January 25th U.S. Mailing, enclosing our cover letter and the Court's Confidential Plaintiff Fact Sheet. Jim and I have now had a week to field calls from some farmers, get their feed back, thoughts, etc. We are always trying to think of ways to lessen the burden on you and to save your time. With that, we offer this email as further guidance on how best to complete the Confidential Plaintiff Fact Sheet, and to respond to the document production requested by the Court.

First, I don't believe Judge Sipkins or Judge Lungstrum ever intended farmers to spend upwards of 40 - 50 hours on this project. They were anticipating an average time commitment of 6 to 8 hours by most farmers and land owners (excluding the larger producers). **The overall goal of this project is to:**

1) have a completed Fact Sheet for every client,
2) have proof of corn acres planted (FSA Form 578's),
3) have proof of corn bushels harvested (crop insurance certifications),
4) have proof of what a farm sold to grain elevators, ethanol plants and/or feed yards, at what price and when (year-end sales summaries and/or settlement sheets have thus been requested),AND
5) Syngenta wants to know what seed varieties you planted (as you likely read).

Regarding Question A3 on the Confidential Fact Sheet *(which again a Fact Sheet must be completed and submitted by every farmer, partnership, corporate farm, trust, etc that is filed into the case)*, we know it is a pain, particularly for larger operators. I also trust none of the judges expect you to spend a week or more answering the A3 question. **Strike a balance, keeping in mind that WE MUST TURN IN A FACT SHEET, FSA FORM 578'S ('11 to '15),**

CROP INSURANCE DOCS ('13 to '15) & YEAR END SALES REPORTS FOR EVERYONE OF OUR CLIENTS, at a minimum. If you did not feed any of your corn to livestock, AND you did not store any of your corn to sell later on, then you will be answering questions A4 and A6 with a "No". But even with your crop insurance docs, we likely still can't tell how much you received per bushel and when you sold. This is why we still need year-end grain elevator summaries and/or your settlement sheets, which should document when you sold what and for what price.

You all know your documents better than any of us. Strike a balance between getting the job done to the satisfaction of the Court, and making sure we can adequately determine your acres planted, bushels yielded, bushels sold and for what price, and seed varieties planted. Most elevators, ethanol plants and feed yards you sell too are now computerized and can print this information off and mail it to you. They will likely call the printouts "year end summaries" or "producer reports". **IF YOU CAN GET GOOD, PRINTED OFF YEAR END SUMMARIES REFLECTING ALL YOUR CORN SALES AND WHICH SHOW ALL OR MOST OF THE INFORMATION REQUESTED IN QUESTION A3, THEN WE LIKELY DON'T NEED YOUR SETTLEMENT SHEETS FOR THOSE PARTICULAR ELEVATOR SALES. Or, if you have your settlement sheets but they are in PDF electronic format, maybe burn them to a readable CD or thumb drive, and throw them in with your paper work you send in your return envelope as additional support.**

ALSO, IF YOU FEEL THAT QUESTION A3 IS ADEQUATELY ANSWERED BY THE SALES SUMMARIES YOU RETRIEVE AND ARE SENDING IN ALONG WITH YOUR COMPLETED FACT SHEET (ESPECIALLY IF YOU ARE A LARGER PRODUCER), AND IT IS GOING TO TAKE YOU MORE THAN AN HOUR OR TWO TO ANSWER A3 WITH SPECIFICITY, THEN JUST STATE ON THE FACT SHEET UNDER A3 SOMETHING ALONG THESE LINES:

"SEE MY ATTACHED PRODUCER HISTORY REPORTS FROM GRAIN ELEVATORS X, Y & Z, ALL OF WHICH REFLECT ALL THE CORN I SOLD FROM 2011 TO 2015. I ALSO HAVE GRAIN ELEVATOR RECEIPTS, IF YOU WANT THEM, BUT THEY ARE VERY BULKY"
or
"SEE MY GRAIN ELEVATOR RECEIPTS PRODUCED IN ELECTRONIC FORMAT".
If not too much of a hassle on your end, make two copies of your CD or thumb drive (one for us as your lawyers and one we can send to Syngenta with your docs).

If you are truthfully completing the Fact Sheet to the best of your ability, producing FSA Form 578's and crop insurance docs, and retrieving and sending us year end sales summaries and/or settlement sheets that reflect your sales, I don't think the Court is wanting anyone to spend a week filling all that information out for each delivery of corn you made over a five year period. The documents will speak for themselves which you are producing along with the completed Fact Sheet.

Now, if you are a smaller to medium producer, and you can fit all your sales into the A3 boxes provided (or close to it), then I suggest you do put in an extra hour or so of work and complete the A3 section in detail, **as it just presents your claim in a better light and is another source of cross checking on our end.** And remember, everyone must still produce the supporting documents, in addition to answering your Fact Sheet.

IN SUMMARY, DON'T SEND US BOXES OF YOUR SETTLEMENT SHEETS IN PAPER FORMAT, IF YOU ARE COMFORTABLE THAT THE YEAR END SUMMARIES REFLECT MOST IF NOT ALL THAT IS REQUESTED ON QUESTION A3, AND YOU WERE ABLE TO GET SUMMARIES FOR ALL SALES FOR YEARS 2011 THROUGH 2015. If you can fit your settlement sheets in the envelope provided, and don't mind sending them in addition to your year-end reports, and/or you have them in electronic format, then please send them as described above.

Also, don't be afraid to write out notes on your Fact Sheet, to help explain your situation or what you want us to know about your production. This will obviously help who ever is to look at your Fact Sheet figure out how you are documenting your corn production, sales, etc. If you are a smaller to medium producer, can get the grain elevator summaries and have your settlement sheets still and want to send them in, and you can get them in the envelope provided, then go ahead and send

them to us. The more documentation you can provide the better. BUT we also don't want larger producers having to produce boxes upon boxes of settlement sheets, as long as they can get good grain elevator summaries which show most of the information requested on A3, OR as stated they can submit them electronically. **Its all about striking a balance and being in compliance with the Court's orders, and giving us what we need to document all of your bushels both harvested and sold, and at what prices and when sold.**

Finally, don't forget to put your tax payor information on the front page of the Fact Sheet, in the boxes provided. If you are a sole proprietor or a group of individuals in a "DBA partnership", then we need your personal social security numbers for all persons in the partnership. They will be kept confidential. If you are a registered corporate entity, we need the company's federal tax identification number. Trusts? Give us what you usually provide to vendors who will 1099 you on a payment you receive. **Without tax payer information, Syngenta cannot issue any payments to anyone, as they are required by law to 1099 all future, prospective settlement payments.**

Syngenta GM Corn Claim Update - February 8, 2016

-Nationally over 60,000 farmers have now filed individual suit against Syngenta. We anticipate another 20,000 are signed up with lawyers and waiting to have their individual suits filed.
-All filed producer plaintiffs must answer a Confidential Plaintiff Fact Sheet, and provide the requested production documents, by Court order of Judge Sipkins dated Jan. 11th. Judge Lungstrum issued a similar order the summer of 2015 for those filed in federal court.
-40 farmers have already been selected for pre-trial work up, consenting to give their depositions this winter and spring. From this group, 6 farmer's cases will be selected for trial in 2017 in MN. Kansas City trials should begin by the Fall 2017.
-Roughly 100 depositions of Syngenta employees, executives and former CEO Michael Mack are now underway. They will be completed by mid-summer 2016.
-Over 1 Million pages of documents have been produced by Syngenta to plaintiffs' attorneys, who are presently sifting through the documents looking for the best gems to help build the case of liability and damages against Syngenta.
-Experts have been retained by plaintiffs, and they are currently working on their initial expert reports. The expert reports will be produced to Syngenta by this summer, then Syngenta will produce their counter expert reports. The experts will then go through discovery depositions and be subject to cross-examination prior to trial. We are scheduled to complete depositions of both producers' experts and Syngenta's experts by early Fall.
-Judge Sipkins and Judge Lungstrum will both take up summary judgment motions this Fall 2016. These are the final legal arguments to clear prior to jury trial.
-Mediation and settlement negotiations could begin with Syngenta as early as Fall 2016.
-If global settlement terms are not reached by the Spring 2017, as stated, we have the first bellwether trials scheduled to begin March 2017 in MN. These trials and the juries' resulting verdicts regarding liability and damages will be the barometer readings for all farmers filed individually into the litigation. Called "bellwether trials", these are critical to establishing the overall prospective liability and damages in everyone's cases filed individually into the litigation.

Thursday, Feb. 4th, 2015 Update:

CHEM CHINA AND SYNGENTA HAVE TENTATIVELY ENTERED INTO A PURCHASE OF SYNGENTA, BY CHEM CHINA, FOR $43 BILLION U.S. DOLLARS. See the below link for info:

http://midwestcornfarmerlawyers.com/china-seeks-food-security-with-43-billion-bid-for-syngenta/

NOTE: THE PROSPECTIVE SALE OF SYNGENTA TO CHEM CHINA WILL HAVE NO LEGAL EFFECT UPON YOUR CASE.

Generally, if a company buys another company, you purchase both its assets and liabilities (in this case the on-going national litigation over Syngenta's Viptera and Duracade seeds). No guarantee, but I personally feel the prospective purchase may bode well for farmers in this case. I say that knowing most company's are not going to spend $43 Billion for Syngenta, without first knowing what the value or risk of the litigation is. We know its anywhere from $1 to $5 Billion, give or take. I'm quit sure a determination has already been made by the other side on how to handle the litigation in light of the prospective sale. Its 50/50 they will attempt global resolution either before or shortly after the purchase is consummated. Some Syngenta employees may be leaving the company, and former shareholders will have been paid and don't want to be bothered with on-going past business such as

being pulled into depositions and/or having to respond to trial subpoenas. Conversely, Chem China likely won't want to deal with the on-going litigation for any length of time. No guarantee on any of this, but these are just some of my personal thoughts on the proposed merger. We will all obviously learn a lot more in the coming months.

I hope this email helps give you further guidance on the work to be done, and how to tackle it. If you have any questions, please call or email Jim or I at our contacts below. Godspeed. Spencer

PS. Any farmers wanting to type up their Fact Sheet answers, in lieu of hand writing them out, can go to our web-site and hit the yellow button in the upper right hand corner (Download Confidential Plaintiff Fact Sheet Here). The Fact Sheet will download to your computer in a Word document, which you can then type your answers into, save to your computer, then print it off and mail back to us along with your supporting production documents. ***Be sure to type up your entity name and address as it appears on your mailed paper copy, and use the enclosed envelope to return your completed Fact Sheet and supporting documents back to our office.*** Alternatively, if you are submitting settlement sheets and/or other documents electronically, you can also send the completed Fact Sheet by PDF on your submitted readable CD or thumb drive. I'm also attaching the electronic version of the Fact Sheet to this email.

Lastly, I want to tell everyone that the Fact Sheet and requested documents were the product of a one year negotiation between Syngenta's attorneys, attorneys for producers and the Court. Syngenta wanted more (because Syngenta and its defense attorneys want to put up as many hurdles to recovery as possible), and we as attorneys representing farmers wanted less. The Judges ended up splitting the baby. Judge Sipkins in MN was kind enough to delay the process some 6 months, allowing a lot of you to complete your harvest and enjoy your holiday break. I've been doing litigation for 20 years now, and I always tell our clients, "don't let the process beat you down". It is what it is, and this is the major "time commitment" you as our clients will be making in this case. Get through it, and we should not only have everything we need to represent your claim, but also collectively you are going to be sending a huge shot across the bow of Syngenta. Syngenta never believed 70,000 to 80,000 producers would file suit against them. Now they hope you won't cooperate in document production and answering your Fact Sheets. We know you will given what's at stake.

National Tort, MDL & Complex Litigation Practice

Dear Clients:

February 24, 2016

By now every client who has a filed a claim in the *Syngenta* national GM seed case should have received our January 25th letter and the enclosed Confidential Plaintiff Fact Sheet. They were mailed to you in a large 9" x 12" white envelope. The packet also includes a large 10" x 13" envelope for return of your completed Fact Sheet and supporting production documents. **If for some reason you have yet to receive your mailed production packet, you need to contact our office immediately to request that another packet be mailed to your attention.** Also, if you have already returned your completed Fact Sheet with your supporting production documents, you may disregard this letter. Please note this letter contains much of the same information that was in my February 8th email, which some of you may have already read. **Please read on for additional time saving tips on how to complete your Fact Sheet.**

We have now had several weeks to field calls from farmers and landlords, get their feedback, thoughts, etc. We are always trying to think of ways to lessen the burden on you and to save your time. With that, **we offer this letter as further guidance on how best to complete the Confidential Plaintiff Fact Sheet and to respond to the document production requested by the Court.**

First, we don't believe Judge Sipkins or Judge Lungstrum ever intended farmers to spend upwards of 40 - 50 hours on this project. They were anticipating an average time commitment of 4 to 8 hours by most farmers and land owners (excluding the larger producers). **The overall goal of this project is to:**
1) have a completed Fact Sheet for every person or entity filed into the case (read on to see that it does not need to be perfect or completely filled out)(also understand that we do Fact Sheets in lieu of taking depositions of every plaintiff filed into the case),
2) have proof of your corn acres planted (through FSA Form 578's 2011 to 2015),
3) have proof of your corn bushels harvested (through crop insurance certifications 2013 to 2015),
4) have proof of what a farm sold to grain elevators, ethanol plants and/or feed yards, at what price and when (through year-end sales summaries OR settlement sheets for 2011 to 2015), **AND**
5) Syngenta wants to know what seed varieties you planted (FYI they can't use this information, if you do provide it, for future marketing purposes – that's not the purpose for the question).

As your attorneys, we are most concerned with getting back 1, 2, 3 and 4 above. 4 is especially important for those producers who fed or store a percentage of their corn. *Also, don't worry much about the pre-negotiated pricing contracts. If you have them send them. If not, let's not lose sleep over it.*

Regarding the Question A3 on the Confidential Fact Sheet, we know it is a pain, particularly for larger operators. I also trust none of the judges expect you to spend a week or more answering the A3 question. **Strike a balance, keeping in mind that WE MUST TURN IN A FACT SHEET, FSA FORM 578'S ('11 to '15), CROP INSURANCE DOCS ('13 to '15) & YEAR END SALES REPORTS FOR EVERYONE OF OUR CLIENTS, at a minimum.** For those who fed a percentage of your corn or are storing any of it, these year-end sales summaries will help us determine what you sold vs what you fed and/or are storing, in the event we need to distinguish your corn later on for purposes of settlement negotiations or settlement submissions.

You all know your documents better than any of us. Strike a balance between getting the job done to the satisfaction of the Court, and making sure we can adequately determine your acres planted, bushels harvested and bushels sold. If you can reasonably determine for what price you sold, and the seed

varieties you planted, then provide that information too. **But if you are stuck on the A2 question regarding seed varieties planted, and/or the A3 question regarding each and every sale of corn, do the best you can.** *Most elevators, ethanol plants and feed yards you sell too are now computerized and can print your sales information off and mail it to you. They will likely call the printouts "year-end summaries" or "producer sales reports".* **IF YOU CAN GET GOOD, PRINTED OFF YEAR END SALES SUMMARIES REFLECTING MOST OF THE INFORMATION REQUESTED IN QUESTION A3, THEN WE LIKELY DON'T NEED YOUR SETTLEMENT SHEETS FOR THOSE PARTICULAR ELEVATOR SALES. Or, if you have your settlement sheets but they are in PDF electronic format, maybe burn them to a readable CD or thumb drive, and throw them in with your paper work you send in your return envelope, as additional support for your claim.**

Also, if you feel that question A3 is adequately answered by the sales summaries, and it is going to take you more than an hour or two to answer A3 with specificity, then just state on the Fact Sheet under A3 something along these lines:

> **"SEE MY ATTACHED PRODUCER HISTORY SALES REPORTS WHICH I OBTAINED FROM GRAIN ELEVATORS X, Y & Z, ALL OF WHICH REFLECT ALL THE CORN I SOLD FROM 2011 TO 2015."**

For the A2 question regarding seed varieties planted, as your attorneys we really don't feel we need this information. Syngenta wanted it and the judge has allowed it. Again strike a balance, not letting it defeat YOUR AND OUR GOAL of documenting your acres planted, bushels harvested and corn sold. A lot of clients report they are simply calling their seed reps, getting seed purchase reports, and then just stating on A2 "see my attached seed purchase reports". Some are answering from memory, writing "the best I can recall I planted ….." Again, no one expected you to be spending more than a few hours on this production project. And no one should get flustered to the point they feel like giving up. Only Syngenta benefits from that, and fortunately we have only had three clients so far throw in the towel. After those three get this information, we are quite sure they will reconsider and stay in.

If you are truthfully completing the Fact Sheet to the best of your ability, producing FSA Form 578's and crop insurance docs, and retrieving and sending us year-end sales summaries and/or settlement sheets that reflect your sales (the best you can get your hands on), I don't think the Court is going to dismiss any of you from this case. The documents will speak for themselves which you are producing along with the completed Fact Sheet. **You can again answer the A2 and A3 questions by simply referencing over to your produced history reports.** If you simply can't answer something on the Fact Sheet, then write out "I can't answer this because…(and give your reason)..." The more detail the better.

Now, if you are a smaller to medium producer and you can fit all your sales into the A3 boxes provided (or close to it), then I suggest you do put in an extra hour or so of work and complete the A3 section in detail, **as it just presents your claim in a better light and is another source of cross checking on our end.** And remember, everyone must still produce the supporting documents, in addition to answering your Fact Sheet. If you have documents already in electronic format, you can save them to a thumb drive and return the thumb drive with your Fact Sheet in the envelope provided.

IN SUMMARY, DON'T SEND US BOXES OF YOUR SETTLEMENT SHEETS IN PAPER FORMAT, IF YOU ARE COMFORTABLE THAT THE YEAR END SUMMARIES REFLECT MOST IF NOT ALL THAT IS REQUESTED ON QUESTION A3, AND YOU WERE ABLE TO GET SUMMARIES FOR ALL SALES FOR YEARS 2011 THROUGH 2015. If you can fit your settlement sheets in the envelope provided, and don't mind sending them in addition to your year-end reports, OR you have them in electronic format, then please send them for additional support if you like.

Also, don't be afraid to write out notes on your Fact Sheet, to help explain your situation or what you want us to know about your production or farming operation. This will obviously help whoever is to look at your Fact Sheet figure out how you are documenting your corn production, sales, etc. Several farmers have told us they harvest one year, store their corn, and then sell it the following year. Just put a big note on top of your packet explaining this is how you operate, again to help those who later on would look at your documents either in our office or at Syngenta's counsel's office. **Simply, it's all about striking a balance and being in compliance with the Court's orders, and giving us what we need to document all of your bushels both harvested and sold, and at what prices and when sold (if you can easily figure it out and it is not too burdensome).**

Don't forget to put your tax payer information on the front page of the Fact Sheet, in the boxes provided. If you are a sole proprietor or a group of individuals in a "DBA partnership", then we need your personal social security numbers for all persons in the partnership. They will be kept confidential. If you are a registered corporate entity, we need the company's federal tax identification number. Trusts? Give us what you usually provide to vendors who will 1099 you on a payment you receive. **Without tax payer information, Syngenta cannot issue any payments to anyone, as they are required by law to 1099 all future, prospective settlement payments.**

Any farmers wanting to type up their Fact Sheet answers, in lieu of hand writing them out, can go to our web-site and hit the yellow button in the upper right hand corner (Download Confidential Plaintiff Fact Sheet Here). The Fact Sheet will download to your computer in a Word document, which you can then type your answers into, save to your computer, then print it off and mail back to us along with your supporting production documents. **Be sure to type up your entity name and address as it appears on your mailed paper copy, and use the enclosed envelope to return your completed Fact Sheet and supporting documents back to our office.** Alternatively, if you are submitting settlement sheets and/or other documents electronically, you can also send the completed Fact Sheet by PDF on your submitted readable CD or thumb drive.

Lastly, we want to tell everyone that the Fact Sheet and requested documents were the product of a one year negotiation between Syngenta's attorneys, attorneys for producers and the Court. Syngenta wanted more (because Syngenta and its defense attorneys want to put up as many hurdles to recovery as possible), and we as attorneys representing farmers wanted less. The Judges ended up splitting the baby. Judge Sipkins in MN was kind enough to delay the process some 6 months, allowing a lot of you to complete your harvest and enjoy your holiday break. I've been doing litigation for 20 years now, and I always tell our clients, "don't let the process beat you down". It is what it is, and this is the major "time commitment" you as our clients will be making in this case. Get through it, and we should not only have everything we need to represent your claim, but also collectively you are going to be sending a huge shot across the bow of Syngenta. Syngenta never believed 70,000 to 80,000 producers would file suit against them. Now they hope you won't cooperate in document production and answering your Fact Sheets. We know you will given what's at stake.

***Syngenta* GM Corn Claim Update - February 8, 2016**

-Nationally over 60,000 farmers have now filed individual suit against Syngenta. We anticipate another 20,000 are signed up with lawyers and are waiting to have their individual suits filed.
-All filed producer plaintiffs must answer a Confidential Plaintiff Fact Sheet, and provide the requested production documents, by Court order of Judge Sipkins dated Jan. 11th. Judge Lungstrum issued the same order the summer of 2015 for those filed in federal court.

-40 farmers have already been selected for pre-trial work up, consenting to give their depositions this winter and spring. From this group, 6 farmer's cases will be selected for trial in 2017 in MN. Kansas City trials should begin by the Fall 2017.
-Roughly 100 depositions of Syngenta employees, executives and former CEO Michael Mack are now underway. They will be completed by mid-summer 2016.
-Over 1 Million pages of documents have been produced by Syngenta to plaintiffs' attorneys, who are presently sifting through the documents looking for the best gems to help build the case of liability and damages against Syngenta.
-Experts have been retained by plaintiffs, and they are currently working on their expert reports. The expert reports will be produced to Syngenta by this summer, and then Syngenta will produce their counter expert reports. The experts will then go through discovery depositions and are subject to cross-examination prior to trial. We are scheduled to complete depositions of both producers' experts and Syngenta's experts by the Fall of 2016.
-Judge Sipkins and Judge Lungstrum will both take up summary judgment motions this Fall 2016. These are the final legal arguments to clear prior to jury trial.
-Mediation and settlement negotiations could begin with Syngenta as early as Fall 2016.
-If global settlement terms are not reached by the Spring 2017, as stated, we have the first bellwether trials scheduled to begin March 2017 in MN. These trials and the juries' resulting verdicts regarding liability and damages will be the barometer readings for all farmers filed individually into the litigation. Called "bellwether trials", these are critical to establishing the overall prospective liability and damages in everyone's cases filed individually into the litigation.

Thursday, Feb. 4th, 2016 Update:
CHEM CHINA AND SYNGENTA HAVE TENTATIVELY ENTERED INTO A PURCHASE OF SYNGENTA, BY CHEM CHINA, FOR $43 BILLION U.S. DOLLARS.

NOTE: THE PROSPECTIVE SALE OF SYNGENTA TO CHEM CHINA WILL HAVE NO LEGAL EFFECT UPON YOUR CASE. Generally, if a company bnys another company, you purchase both its assets and liabilities (in this case the on-going national litigation over Syngenta's Viptera and Duracade seeds). No guarantee, but we personally feel the prospective purchase may bode well for farmers in this case. We say that knowing most companies are not going to spend $43 Billion for Syngenta, without first knowing what the liability risk of the litigation is. We know its anywhere from $1 to $5 Billion, give or take. We're quite sure a determination has already been made by the other side on how to handle the litigation in light of the prospective sale. Its 50/50 they will attempt global resolution either before or shortly after the purchase is consummated. Some Syngenta employees may be leaving the company, and former shareholders will have been paid and don't want to be bothered with on-going past business such as being pulled into depositions and/or having to respond to trial subpoenas. Conversely, Chem China likely won't want to deal with the on-going litigation for any length of time. No guarantee on any of this, but these are just some of our personal thoughts on the proposed merger. We will all obviously learn a lot more in the coming months.

We hope this letter helps give you further guidance on the work to be done, and how to tackle it. **Our goal is to have all clients' returned production packets back to us by March 15th.** If you have any questions, please call or email us at our contacts below. Godspeed.

LAW GROUP, LLC

CONFIDENTIAL COMMUNICATION SUBJECT TO ATTORNEY-CLIENT PRIVILEGE

Dear Recently Signed Clients: On January 25th, 2016, we sent a U.S. Mailing to all our current clients, enclosing our cover letter and the Court's Confidential Plaintiff Fact Sheet ***(both of which are attached to this email if you just signed your case up - paper copies will follow in the U.S. Mail in the next few days to your attention - READ OUR ATTACHED JAN. 25TH COVER LETTER FIRST WHICH IS ATTACHED TO THIS EMAIL, THEN THIS READ THIS EMAIL SECONDARY - this will get you up to speed with the rest of our clients regarding document production and completion of the Court ordered Confidential Plaintiff Fact Sheet (which too is attached in a Word document - you will need Microsoft Office or a compatible program on your computer to open the Word document)***. Jim and I have now had an opportunity to field calls from some farmers, get their feed back, thoughts, etc. We are always trying to think of ways to lessen the burden on you and to save your time. With that, we offer this email as further guidance on how best to complete the Confidential Plaintiff Fact Sheet, and to respond to the document production requested by the Court.

First, I don't believe Judge Sipkins or Judge Lungstrum ever intended farmers to spend upwards of 40 - 50 hours on this project. They were anticipating an average time commitment of 6 to 8 hours by most farmers and land owners (excluding the larger producers). **The overall goal of this project is to:**

1) have a completed Fact Sheet for every client,
2) have proof of corn acres planted (FSA Form 578's),
3) have proof of corn bushels harvested (crop insurance certifications),
4) have proof of what a farm sold to grain elevators, ethanol plants and/or feed yards, at what price and when (year-end sales summaries and/or settlement sheets have thus been requested),AND
5) Syngenta wants to know what seed varieties you planted (as you likely read).

Regarding Question A3 on the Confidential Fact Sheet *(which again a Fact Sheet must be completed and submitted by every farmer, partnership, corporate farm, trust, etc that is filed into the case)*, we know it is a pain,

particularly for larger operators. I also trust none of the judges expect you to spend a week or more answering the A3 question. **Strike a balance, keeping in mind that WE MUST TURN IN A FACT SHEET, FSA FORM 578'S ('11 to '15), CROP INSURANCE DOCS ('13 to '15) & YEAR END SALES REPORTS FOR EVERYONE OF OUR CLIENTS, at a minimum.** If you did not feed any of your corn to livestock, AND you did not store any of your corn to sell later on, then you will be answering questions A4 and A6 with a "No". But even with your crop insurance docs, we likely still can't tell how much you received per bushel and when you sold. This is why we still need year-end grain elevator summaries and/or your settlement sheets, which should document when you sold what and for what price.

You all know your documents better than any of us. Strike a balance between getting the job done to the satisfaction of the Court, and making sure we can adequately determine your acres planted, bushels yielded, bushels sold and for what price, and seed varieties planted. Most elevators, ethanol plants and feed yards you sell too are now computerized and can print this information off and mail it to you. They will likely call the printouts "year end summaries" or "producer reports". **IF YOU CAN GET GOOD, PRINTED OFF YEAR END SUMMARIES REFLECTING ALL YOUR CORN SALES AND WHICH SHOW ALL OR MOST OF THE INFORMATION REQUESTED IN QUESTION A3, THEN WE LIKELY DON'T NEED YOUR SETTLEMENT SHEETS FOR THOSE PARTICULAR ELEVATOR SALES. Or, if you have your settlement sheets but they are in PDF electronic format, maybe burn them to a readable CD or thumb drive, and throw them in with your paper work you send in your return envelope as additional support.**

ALSO, IF YOU FEEL THAT QUESTION A3 IS ADEQUATELY ANSWERED BY THE SALES SUMMARIES YOU RETRIEVE AND ARE SENDING IN ALONG WITH YOUR COMPLETED FACT SHEET (ESPECIALLY IF YOU ARE A LARGER PRODUCER), AND IT IS GOING TO TAKE YOU MORE THAN AN HOUR OR TWO TO ANSWER A3 WITH SPECIFICITY, THEN JUST STATE ON THE FACT SHEET UNDER A3 SOMETHING ALONG THESE LINES:

"SEE MY ATTACHED PRODUCER HISTORY REPORTS FROM GRAIN ELEVATORS X, Y & Z, ALL OF WHICH REFLECT ALL THE CORN I SOLD FROM 2011 TO 2015. I ALSO HAVE GRAIN ELEVATOR RECEIPTS, IF YOU WANT THEM, BUT THEY ARE VERY BULKY"
or
"SEE MY GRAIN ELEVATOR RECEIPTS PRODUCED IN ELECTRONIC FORMAT".
If not too much of a hassle on your end, make two copies of your CD or thumb drive (one for us as your lawyers and one we can send to Syngenta with your docs).

If you are truthfully completing the Fact Sheet to the best of your ability, producing FSA Form 578's and crop insurance docs, and retrieving and sending us year end sales summaries and/or settlement sheets that reflect your sales, I don't think the Court is wanting anyone to spend a week filling all that information out for each delivery of corn you made over a five year period. The documents will speak for themselves which you are producing along with the completed Fact Sheet.

Now, if you are a smaller to medium producer, and you can fit all your sales into the A3 boxes provided (or close to it), then I suggest you do put in an extra hour or so of work and complete the A3 section in detail, **as it just presents your claim in a better light and is another source of cross checking on our end.** And remember, everyone must still produce the supporting documents, in addition to answering your Fact Sheet.

IN SUMMARY, DON'T SEND US BOXES OF YOUR SETTLEMENT SHEETS IN PAPER FORMAT, IF YOU ARE COMFORTABLE THAT THE YEAR END SUMMARIES REFLECT MOST IF NOT ALL THAT IS REQUESTED ON QUESTION A3, AND YOU WERE ABLE TO GET SUMMARIES FOR ALL SALES FOR YEARS 2011 THROUGH 2015. If you can fit your settlement sheets in the envelope provided, and don't mind sending them in addition to your year-end reports, and/or you have them in electronic format, then please send them as described above.

Also, don't be afraid to write out notes on your Fact Sheet, to help explain your situation or what you want us to know about your production. This will obviously help who ever is to look at your Fact Sheet figure out how you are documenting your

corn production, sales, etc. If you are a smaller to medium producer, can get the grain elevator summaries and have your settlement sheets still and want to send them in, and you can get them in the envelope provided, then go ahead and send them to us. The more documentation you can provide the better. BUT we also don't want larger producers having to produce boxes upon boxes of settlement sheets, as long as they can get good grain elevator summaries which show most of the information requested on A3, OR as stated they can submit them electronically. **Its all about striking a balance and being in compliance with the Court's orders, and giving us what we need to document all of your bushels both harvested and sold, and at what prices and when sold.**

Finally, don't forget to put your tax payor information on the front page of the Fact Sheet, in the boxes provided. If you are a sole proprietor or a group of individuals in a "DBA partnership", then we need your personal social security numbers for all persons in the partnership. They will be kept confidential. If you are a registered corporate entity, we need the company's federal tax identification number. Trusts? Give us what you usually provide to vendors who will 1099 you on a payment you receive. **Without tax payer information, Syngenta cannot issue any payments to anyone, as they are required by law to 1099 all future, prospective settlement payments.**

Syngenta GM Corn Claim Update - February 8, 2016

-Nationally over 60,000 farmers have now filed individual suit against Syngenta. We anticipate another 20,000 are signed up with lawyers and waiting to have their individual suits filed.
-All filed producer plaintiffs must answer a Confidential Plaintiff Fact Sheet, and provide the requested production documents, by Court order of Judge Sipkins dated Jan. 11th. Judge Lungstrum issued a similar order the summer of 2015 for those filed in federal court.
-40 farmers have already been selected for pre-trial work up, consenting to give their depositions this winter and spring. From this group, 6 farmer's cases will be selected for trial in 2017 in MN. Kansas City trials should begin by the Fall 2017.
-Roughly 100 depositions of Syngenta employees, executives and former CEO Michael Mack are now underway. They will be completed by mid-summer 2016.
-Over 1 Million pages of documents have been produced by Syngenta to plaintiffs' attorneys, who are presently sifting through the documents looking for the best gems to help build the case of liability and damages against Syngenta.
-Experts have been retained by plaintiffs, and they are currently working on their initial expert reports. The expert reports will be produced to Syngenta by this summer, then Syngenta will produce their counter expert reports. The experts will then go through discovery depositions and be subject to cross-examination prior to trial. We are scheduled to complete depositions of both producers' experts and Syngenta's experts by early Fall.
-Judge Sipkins and Judge Lungstrum will both take up summary judgment motions this Fall 2016. These are the final legal arguments to clear prior to jury trial.
-Mediation and settlement negotiations could begin with Syngenta as early as Fall 2016.
-If global settlement terms are not reached by the Spring 2017, as stated, we have the first bellwether trials scheduled to begin March 2017 in MN. These trials and the juries' resulting verdicts regarding liability and damages will be the barometer readings for all farmers filed individually into the litigation. Called "bellwether trials", these are critical to establishing the overall prospective liability and damages in everyone's cases filed individually into the litigation.

Thursday, Feb. 4th, 2016 Update:

CHEM CHINA AND SYNGENTA HAVE TENTATIVELY ENTERED INTO A PURCHASE OF SYNGENTA, BY CHEM CHINA, FOR $43 BILLION U.S. DOLLARS. See the below link for info:

http://midwestcornfarmerlawyers.com/china-seeks-food-security-with-43-billion-bid-for-syngenta/

NOTE: THE PROSPECTIVE SALE OF SYNGENTA TO CHEM CHINA WILL HAVE NO LEGAL EFFECT UPON YOUR CASE.

Generally, if a company buys another company, you purchase both its assets and liabilities (in this case the on-going national litigation over Syngenta's Viptera and Duracade seeds). No guarantee, but I personally feel the prospective purchase may bode well for farmers in this case. I say that knowing most company's are not going to spend $43 Billion for Syngenta, without first knowing what the value or risk of the litigation is. We know its anywhere from $1 to $5 Billion, give or take. I'm quit sure a determination has already been made by the other side on how to handle the litigation in light of the prospective sale. Its 50/50 they will attempt global

resolution either before or shortly after the purchase is consummated. Some Syngenta employees may be leaving the company, and former shareholders will have been paid and don't want to be bothered with on-going past business such as being pulled into depositions and/or having to respond to trial subpoenas. Conversely, Chem China likely won't want to deal with the on-going litigation for any length of time. No guarantee on any of this, but these are just some of my personal thoughts on the proposed merger. We will all obviously learn a lot more in the coming months.

I hope this email helps give you further guidance on the work to be done, and how to tackle it. If you have any questions, please call or email Jim or I at our contacts below. Godspeed. Spencer

PS. Any farmers wanting to type up their Fact Sheet answers, in lieu of hand writing them out, can go to our web-site and hit the yellow button in the upper right hand corner (Download Confidential Plaintiff Fact Sheet Here). The Fact Sheet will download to your computer in a Word document, which you can then type your answers into, save to your computer, then print it off and mail back to us along with your supporting production documents. ***Be sure to type up your entity name and address as it appears on your mailed paper copy, and use the enclosed envelope to return your completed Fact Sheet and supporting documents back to our office.*** Alternatively, if you are submitting settlement sheets and/or other documents electronically, you can also send the completed Fact Sheet by PDF on your submitted readable CD or thumb drive. I'm also attaching the electronic version of the Fact Sheet to this email.

Lastly, I want to tell everyone that the Fact Sheet and requested documents were the product of a one year negotiation between Syngenta's attorneys, attorneys for producers and the Court. Syngenta wanted more (because Syngenta and its defense attorneys want to put up as many hurdles to recovery as possible), and we as attorneys representing farmers wanted less. The Judges ended up splitting the baby. Judge Sipkins in MN was kind enough to delay the process some 6 months, allowing a lot of you to complete your harvest and enjoy your holiday break. I've been doing litigation for 20 years now, and I always tell our clients, "don't let the process beat you down". It is what it is, and this is the major "time commitment" you as our clients will be making in this case. Get through it, and we should not only have everything we need to represent your claim, but also collectively you are going to be sending a huge shot across the bow of Syngenta. Syngenta never believed 70,000 to 80,000 producers would file suit against them. Now they hope you won't cooperate in document production and answering your Fact Sheets. We know you will given what's at stake.

SHIELDS LAW GROUP, LLC

February 27, 2016 ATTORNEY-CLIENT CONFIDENTIAL COMMUNICATION

Dear Clients: Hopefully this email finds you all doing well. **As set forth in the attached Coordination Order Related to Settlement issued Thursday, February 25th, 2016, all four presiding judges in the four consolidated national tort actions have ordered that a Special Master be appointed to help facilitate good faith settlement negotiations between Syngenta AG and the roughly 60,000 corn producers, elevator operators, ADM & Cargill, all of whom have brought suit to recover economic losses caused by the loss of the Chinese corn export market.** Although no guarantee of a future settlement, all four Judges I believe are making it clear how they likely view the legal merits of producers' claims against Syngenta for its premature release of its Agrisure Viptera and Duracade GM traits. Again, bellwether test trials are scheduled to begin in March 2017, if the case is not settled earlier. The earliest we could realistically see proposed terms would most likely be sometime this late Summer / early Fall. The appointment of an independent, disinterested Special Master (a/k/a Mediator) to steer the settlement negotiations is I believe very beneficial to the overall path to possible early resolution. We will of course keep you updated as the settlement negotiations proceed.

Hopefully none of you have torn out ALL your hair over the Court ordered Plaintiff's Fact Sheet and requested Production Documents. If you are still working on your production packets (and I know a lot of you are), we remind you to read our Feb. 8th eMail and forthcoming Feb. 24th mailed correspondence (its attached here as well) for helpful tips on how to stream line the process. Our firm will be working diligently over the coming months to organize and compile all of our clients' production data, in preparation for global settlement negotiations. **In the event of a proposed settlement, organized and complete production packets will definitely speed up the submission of our clients' claims for payment consideration.** *We again ask to have all completed production packets back to our office by March 15th.*

Finally, if any of you know friends or family members who are producers or land owners, and who were skeptical about the merits of this litigation, please tell them that we are still accepting new clients and filing their claims

daily. Our 30% contingency fee remains one of, if not, the lowest in the country. New clients can sign their case with our shortened 30% fee contract (which is available on our web-site for printing off) or they can sign electronically in 10 minutes or less on our dedicated web-site at:

http://midwestcornfarmerlawyers.com/e-signature/

Thank you All again for allowing us to represent you and your farm's interests in this very important agricultural mass tort litigation. We will keep you all updated as the case progresses and until further, Godspeed.

National Tort, MDL & Complex Litigation Practice

Dear Clients:

March 3, 2016

Hopefully this letter finds you All doing well. As set forth in the enclosed *Coordination Order Related to Settlement* issued February 25th, 2016, **all four Judges have ordered that a Special Master be appointed to help facilitate good faith settlement negotiations between Syngenta and the roughly 60,000 corn producers, elevator operators, ADM & Cargill, all of whom have brought suit (or are soon filing suit) to recover economic damages caused by the loss of the Chinese corn export market.** Judge Sipkins' MN Order is enclosed for your review. The exact same Order was filed by all four presiding judges on Feb. 25th in all the consolidated actions. Although no guarantee of a future settlement, all four Judges we believe are making it clear how they likely view the legal merits of producers' claims against Syngenta. As we have stated earlier, bellwether test trials are scheduled to begin in March 2017 in MN, *if the case is not settled earlier*. The earliest we could realistically see proposed terms would most likely be sometime this Fall. The appointment of an independent, disinterested Special Master to steer the settlement negotiations is we believe very beneficial to the overall path to possible early resolution. Of course, nothing will be settled without you being consulted.

We cannot stress enough how important the *Court ordered* Plaintiff's Fact Sheet and requested Production Documents are, particularly now given the Judges' coordinated Order mandating Syngenta begin good faith settlement talks. *If you are still working on your production packets (and we know a lot of you are), we remind you to read our Feb. 24th mailed correspondence for helpful tips on how to stream line the process.* Our firm will be working diligently over the coming weeks to organize and compile all of our clients' returned production data in preparation for global settlement negotiations. **In the event of a proposed settlement, organized and complete production packets will definitely speed up the submission of our clients' claims for payment consideration.** *We again ask to have all completed production packets back to our office by March 15th.*

If any of you know friends, family members or neighbors who are producers and who were skeptical initially, **please tell them that we are still accepting new clients and filing their claims, regardless of state of residence.** We can use federal tolling arguments to file most farmers' claims late even from two year statute states. Our 30% contingency fee remains one of, if not, the lowest in the country. New clients can sign their case with our shortened 30% fee contract which is available electronically on our web-site. Alternatively, **please pass them one of our enclosed 30% fee contracts.** We will immediately send them out a production packet after we receive their signed and submitted contracts. By filing individually, they (as with you) will be effectively opting out of the *possible* class action case.

In conclusion, we have or will be filing over two thousand suits against Syngenta for our clients. We go to Court and are fully aware of what the Judges have Ordered as proof of production. Some of it we agree with and some of it we don't. However, we assure you when we have four Judges issuing a coordinated order mandating that settlement talks begin globally, it is definitely a good sign. To get All your cases in the best posture possible for early settlement *and payment*, we need your proof of production and Fact Sheets timely. We thank you again for your efforts in this regard.

Hennepin County, i

STATE OF MINNESOTA

COUNTY OF HENNEPIN

DISTRICT COURT

FOURTH JUDICIAL DISTRICT

In re: Syngenta Litigation

Case Type: Civil Other
Hon. Thomas M. Sipkins

This Document Relates to: ALL ACTIONS

FILE NO. 27-CV-15-3785

ORDER

COORDINATION ORDER RELATED TO SETTLEMENT

Thousands of lawsuits have been filed in various federal and state courts arising from Syngenta's development and sale of corn seeds containing genetically modified traits known as MIR 162 and Event 5307 (used in products called Viptera and Duracade) before China's approval to import corn with that trait. Some 800 federal cases are pending in a multidistrict litigation ("MDL") proceeding in the United States District Court for the District of Kansas, captioned *In re Syngenta AG MIR162 Corn Litigation*, MDL Docket No. 2591, before U.S. District Judge John W. Lungstrum and U.S. Magistrate Judge James P. O'Hara. Lead counsel in those cases seek to certify a national class action which would include virtually every corn farmer in America. Three additional federal actions, involving more than 2,800 plaintiffs, are pending in the United States District Court for the Southern District of Illinois before U.S. District Judge David R. Herndon. Approximately 2,375 cases, involving over 20,000 plaintiffs, are pending in the Fourth Judicial District of Hennepin County, Minnesota, and consolidated before Judge Thomas M. Sipkins in a case captioned *In re Syngenta Litigation*, No. 27-cv-15-3785. In addition, about 200 cases are pending in the Illinois First Judicial Circuit Court before Judge Brad K. Bleyer.

For those not individually filed. Individual Filing gets you out of the prospective class action, seeking cash damages individually.

SCS

Filed in Fourth Judicial District Court
2/25/2016 8:16:24
Hennepin County

With counsel having been informed in advance, the presiding judges in these cases have conferred informally and determined that it would be beneficial to appoint a Special Master at the expense of the parties to vigorously and systematically explore settlement of all the cases in all of the courts in which they are pending at the same time those cases proceed toward trial on a traditional litigation track. Accordingly, by **March 11, 2016,** counsel for all parties in these cases are ordered to confer in good faith and then provide input to the Courts on appointment of a single Special Master. Specifically, the parties shall file in each case (or if consolidated, in the lead case) a joint statement proposing an individual to be appointed Special Master. If all of the parties cannot agree on a proposed Special Master, then for each of the Courts up to three nominations may be provided by plaintiffs as a group, up to three nominations may be submitted by all of the Syngenta defendants as a group, and ADM and Cargill (who are uniquely situated) may make one joint nomination. All nominations must include a statement of the candidate's experience, qualifications, and billing rates. Thereafter, the Courts will decide upon appointment of the Special Master.

BY THE COURT:

National Tort, MDL & Complex Litigation Practice

June/July, 2016

Dear _____:

VIA U.S. MAIL

We have received your New Client Contract of Employment. Thank you for allowing us the opportunity to represent you in your *Syngenta* GM corn claim.

We need your immediate response to the Production Packet and enclosed *Confidential Plaintiff Fact Sheet* (fancy legal name for a court ordered questionnaire everyone must complete), as we only have 28 days from the date of your filing to send in the court ordered production information AND questionnaire on your farm. We tell most farmers to anticipate anywhere from one to two hours completing the paper work and getting the required production documents back to us. If you have any questions with any of it, please feel free to call or email either of us. We are here to help in any way we can.

This said, please return the following documents for each of your farm entities you sent a contract in on and which had corn production:

2011-2015 FSA Form 578's for each entity selling corn (showing total acres of corn planted for each of the years) *VERY IMPORTANT DOCUMENT*

2013-2015 crop insurance docs (called the APH) certifying how many bushels of corn your farms yielded in total annually *VERY IMPORTANT DOCUMENT*

The court ordered questionnaire, which is called the Confidential Plaintiff Fact Sheet. It is enclosed with this mailing. *VERY IMPORTANT DOCUMENT*

We need the above three yellow hi-lighted documents completed and returned *AT A MINIMUM.* Your crop insurance agent will have the APH ("actual producer history"), and also usually has your FSA form 578's. One quick phone call directing your crop insurance agent to email them to us directly usually gets the job done. Have them emailed to scs0303@gmail

If your crop insurance agent does not have your FSA docs, call or drop by your FSA office. They too will usually email them either to us or to you, and you can then forward them to us at scs0303@gmail

* NOTE, **if you don't have crop insurance, it is mandatory** that you call your elevators and/or ethanol plants that you sold corn to from 2011 to 2015, and ask for year-end sales summaries. Submit these summaries in lieu of crop insurance to establish all your bushels harvested and sold, including any sales to feed lots as well. If you fed portions of your corn to your own livestock, document those bushels harvested the best way you can. We are claiming damages on any corn fed to your own livestock, in addition to corn sold in the grain market or which you may still be storing and is unsold. You will want

to document your total harvest of corn the best you can with summaries, reports and/or settlement sheets if you do not carry federal crop insurance which documents your total annual yields.

And a Last Important Note: The Court ordered questionnaire also technically requires two other sets of documents to have a complete production packet as a producer. Those two additional sets of documents are hi-lighted below. As your attorneys, we don't want you holding the process up too long trying to get these two additional sets of documents. BUT, if you can get them together promptly and send them as well, THEY WILL HELP MAKE YOUR PRODUCTION PACKET MORE COMPLETE IN THE EYES OF THE COURT.

2011-2015 year-end grain elevator/ethanol plant sales summaries (OR alternatively your settlement sheets summarizing your grain sales for these years =

2011-2015 seed receipts OR a seed purchase history report you can get from your seed rep(s) =

Again, we are under Court order to show proof of production on your farm(s). YOU DO HAVE TO SEND US BACK YOUR PROOF OF PRODUCTION AND COMPLETED QUESTIONNAIRE IMMEDIATELY, AS WE ARE UNDER A TIGHT DEADLINE TO PRODUCE THESE DOCUMENTS TO THE COURT! We currently have a 98% response rate from our group of 2,400 producers with regard to their production packets. Please help keep it that way with your anticipated cooperation. Simply, no one is going to get paid without proof of production in their file.

Finally, you should know that:
1) we are in settlement negotiations now with Syngenta and need the documents for this purpose,
2) the Court has made favorable legal rulings to date which favor farmers' claims and not Syngenta's defenses,
3) we are filing an individual lawsuit on your behalf, and consolidating it for pre-trial purposes with thousands of others from across the country,
4) we need your cooperation in documenting your farm's production to effectively handle your claim against Syngenta, AND
5) the first producers' trials begin March 2017 in Minnesota and Kansas City. These bellwether test trials will be a barometer reading for not only your case, but the value of the over 60,000 producers' cases now filed against Syngenta and consolidated for pre-trial purposes.

In conclusion, please respond immediately with proof of your farm(s) production. Use your crop insurance agents and/or FSA offices to facilitate transfer of your APH and FSA form 578's. Likewise, call your grain elevators and/or ethanol plants that you sold corn to and request year-end sales summaries to better document your file. If you need assistance, call Jim or Spencer at (816) 421-0800. We have staff completing questionnaires and contacting crop insurance agents for our farmers all day long. Call us if you need help getting through the proof of production aspect of your claim. Thank you and have a great summer.

Spencer Shields, Managing Attorney James Yoakum, Member Attorney

*If any other lawyers or firms attempt contact with you regarding *Syngenta*, just kindly advise them that you are now represented on the case. Under lawyer ethics rules, they must stop solicitation of you after being advised that you have already signed with another law firm.

National Tort, MDL & Complex Litigation Practice

June 23, 2016

To: _____

VIA U.S. MAIL

Dear _____:

We write as your attorneys in the *Syngenta* national GM corn claim litigation. **We are currently in settlement negotiations now with Syngenta on your claim, AND as you know, the court has ordered all producers to show certain proof of production on their claims.**

We did receive the responsive documents you mailed in on your case, and we thank you for those. This letter is to address one or more deficiencies we need to address regarding your file in the coming days in order to be in better compliance with the Court's orders.

Specifically, we need you to send the following documents for your file which are checked off and hi-lighted:

1. _____ **Confidential Questionnaire / Fact Sheet**: Please answer the enclosed shortened questionnaire the best you can. Tax ID #'s are needed because all future payments will be a taxable 1099 event to your farm. If your corn is marketed in your own name, your tax ID # is your social security number. Corporate and partnership tax ID #'s are required for corn marketed through company entities. *They will be kept confidential.* This questionnaire is being done by all 80,000 filed producers nationally.

2. _____ **FSA Form 578's showing your land planted in corn, for years 2011 to 2015.** For your file, we specifically still need the following year FSA's: _____

3. _____ **APH Form from your federal crop insurance agent, showing all yielded bushels on your farms for years 2013 to 2015** (NOTE: Your crop insurance agent will have this document, and many times has your FSA form 578's as well if we need them as well. *If you don't have crop insurance, then we need you to submit year-end sales summaries from all elevators, ethanol plants and/or feed lots you sold corn too in order to document your corn sales.*)

Immediately mail your completed questionnaire and/or supporting documents requested above to:

Shields Law Group, LLC 12710 S Pflumm Rd, Suite 208 Olathe, KS 66062

You can also have documents emailed directly to: scs0303@gmail.com

Or have documents faxed to: 1 (877) 247 -9844

Call us if you have any questions or need help. Your prompt reply is required.

Spencer Shields & Jim Yoakum, Attorneys

PLEASE RESPOND BY JULY 5TH

National Tort, MDL & Complex Litigation Practice

June 25, 2016

To: _____ *VIA U.S. MAIL*

Dear _____:

We write as your attorneys in the *Syngenta* national GM corn claim litigation. Although you completed the Court ordered questionnaire over the phone with one of our staff, we still need the below documents. **We are currently in settlement negotiations now with Syngenta on your claim, AND the court has ordered all producers to show proof of production by the end of June.** This matter requires your immediate attention. *We have had over 98% of our farm clients respond to date.* ***Plaintiffs' experts are opining that losses to producers are approximately $.30 to $.50/per bushel for years 2013, 2014 & 2015.*** Per your reported acres planted, your case could be valued at approximately _____ if you are yielding roughly 200 bushels/per acre on average.

WHAT YOU NEED TO DO IMMEDIATELY:

Immediately have sent to us the following two proof of production documents for all your corn:

1. FSA Form 578's showing your land/acres planted in corn, for years 2011 to 2015

2. APH (actual production history) form from your federal crop insurance, showing all yielded bushels on your farms for years 2013 to 2015 (NOTE: Your crop insurance agent will have this document, and many times has your FSA form 578's as well. *If you don't have crop insurance, then we need you to submit year-end sales summaries from all elevators, ethanol plants and/or feed lots you sold corn too in order to document your corn sales.*)

Immediately mail your supporting proof of production documents to us at:

Shields Law Group, LLC 12710 S Pflumm Rd, Suite 208 Olathe, KS 66062

OR have documents emailed directly to us by your crop insurance agent to:
scs0303@gmail.com

Call us if you have any questions or need help. Your prompt reply is required. We are here to assist. We will need the name of your crop insurance agent, his/her agency name, town he/she is located in, and phone number if you wish us to assist in getting these two documents from them. But again, a simple phone call to them from you, asking them to email us the documents directly to scs0303@gmail.com is usually enough to get the job done from our experience. Thank you.

National Tort, MDL & Complex Litigation Practice

July 12, 2016

To: _____

VIA U.S. MAIL

_____

Dear _____:

We write as your attorneys in the *Syngenta* national GM corn claim litigation. Although we have made multiple attempts to contact you regarding proof of production for your farm, to date we have not received a response. We are currently in settlement negotiations now with Syngenta on your claim; AND the court has ordered all producers to show proof of production. This matter requires your immediate attention. *We have had over 95% of our farm clients respond to date.*

WHAT YOU NEED TO DO IMMEDIATELY:

1. Answer the following short questionnaire the best you can. Tax ID #'s are needed because all future payments will be a taxable 1099 event to your farm. If your corn is marketed in your own name, your tax ID # is your social security number. Corporate and partnership tax ID #'s are required for corn marketed through company entities. *They will be kept confidential.*

2. Immediately mail your completed questionnaire back to us, along with the following two proof of production documents:

   - **FSA Form 578's showing your land planted in corn, for years 2011 to 2015**

   - **APH Form from your federal crop insurance, showing all yielded bushels on your farms for years 2013 to 2015** (NOTE: Your crop insurance agent will have this document, and many times has your FSA form 578's as well. *If you don't have crop insurance, then we need you to submit year-end sales summaries from all elevators, ethanol plants and/or feed lots you sold corn too in order to document your corn sales.*)

Immediately mail your completed questionnaire and supporting documents to us at:

Shields Law Group, LLC 12710 S Pflumm Rd, Suite 208 Olathe, KS 66062

You can also have documents emailed directly to: scs0303@gmail.com

Call us if you have any questions or need help. Your prompt reply is required.

claim deficiencies

1 message

Barbara Theisen <bjtheisen@gmail.com>
To: scs0303@gmail.com

Mon, Jun 27, 2016 at 9:58 AM

I received you letter regarding deficiencies in my Syngenta corn claim file. As I explained when I first spoke with your office, I do not participate in any federal programs and did not purchase any crop insurance for those years. We provided the FSA numbers for the farms but we do not register our crops. I don't feel that participation in a government program should be a requirement to participate in this claim.

Please let me know if you have any questions.

To: Doug Silhanek <dougsilhanek@aol.com>, "spencershields@kc.surewest.net" <scs0303@gmail.com>

We are filing all of our clients' claims as individual producer claims, in the Minnesota state court consolidation. It's where over 60,000 producers are individually filed. We are not a part of the class action efforts, FYI.

Thanks Doug. Let me know if you need anything else. Spencer

Syngenta GM Corn Claim

Spencer Shields <scs0303@gmail.com> Tue, Aug 23, 2016 at 9:35 AM
To: gmorrison_82@yahoo.com, "spencershields@kc.surewest.net" <scs0303@gmail.com>

Gary: As an update:

In our office, staff are doing an up-down review of all our 2,000+ files, sending out letters to farmers where needed requesting documents to fill in any holes in individual farmers' files proof of production.

Nationally, 4 farmers and 1 grain elevator have been picked for the first trials beginning in March 2017 in Minnesota. If not settled prior, these first verdicts will be barometer readings for everyone filed individually into the case regarding Syngenta's culpability, damages suffered by the farmers, grain elevators, etc., and how much the juries will award as damages on a prospective individual's case.

Regarding the first up trials, expert witnesses are finalizing their opinions to be expressed on these initial farmers' cases. The experts produce their reports shortly then go through depositions this fall prior to the trials next year.

Then globally, we are all in settlement negotiations now with Syngenta. It's an on-going discussion. 50/50 they settle prior to the first trials, but we may need to litigate some trials as well in 2017.

I will keep you posted. Hope all is well. Spencer

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

Dear Producer & Landlord Clients:

I hope you are all well and having a bountiful Harvest. As a client of the Shields Law Group, LLC (www.MidwestCornFarmerLawyers.com), we are providing you this courtesy update on the *Syngenta* GM Corn Seed litigation which we represent you and your farm in. Please do not reply to this email as it is for update purposes only.

MINNESOTA STATE COURT "MASS ACTION" LITIGATION:

- Approximately 65,000 producers from all across the U.S. filed individual law suits against Syngenta and its related entities, claiming damages over diminished corn prices due to the loss of the China export market.
- Of these, over 60,000 producer cases are filed into the Minnesota State Court consolidated action. A few thousand more producer cases are filed individually in the federal MDL (multi-district litigation) in Kansas City.
- ***ALL OF OUR CLIENTS ARE FILED INDIVIDUALLY INTO THE MINNESOTA STATE COURT CONSOLIDATED ACTION. We filed none of our clients into the federal court's MDL in Kansas City.*** **If you receive this email, you are filed into MN through our office.**
- All individually filed producers, including our 2,500+ clients that we represent from our offices in Kansas City, have been providing documentation in support of their proof of production, as part of a court ordered process. This has been on-going for the past 10 months.
- From our group of 2,500+ clients, on July 11th we produced over 15,000 sets of production documents to Syngenta's attorneys and the Court, pursuant again to a court ordered process for individual filers.
- *If you have received a letter from our office in the past three months, or you receive one next month in November, we are notifying you that you have one or more sets of documents still needed to confirm your case in full with the court ordered process.*
- *If you receive an individual letter from us, we need you to respond by early December with your supplemental documents. The Court granted a 6 month extension in July for producers' who came up short regarding proof of production.*
- *Our deadline as your attorney to turn these supplemental documents in on your behalf is December 11, 2016. We do need your documents a few days before to meet the deadline on your behalf.*
- If you did not receive a letter from us, this means we have all of your production documents in your file. You do not need to do anything further regarding proof of production at this point in time.

KANSAS CITY FEDERAL MDL "CLASS ACTION" CASE:

- On September 26, 2016, Judge Lungstrum in the federal MDL court certified a nationwide class action against Syngenta.
- Now, in essence, 100% of corn producers are represented by counsel in this matter. As such all solicitations of producers, by lawyers trying to sign and represent unsigned farmers and landlords, is to end. The unsigned producers

and landlords who did not buy Viptera and Duracade seed are now represented by the 4 class action attorneys (as long as they meet the class action definition).

- ***SINCE YOUR CASE IS FILED INDIVIDUALLY INTO THE MINNESOTA STATE COURT CONSOLIDATED LITIGATION THROUGH OUR LAW FIRM, YOU AND/OR YOUR PRODUCER ENTITIES WITH PRODUCTION ARE NOT A PART OF THE NATIONWIDE CLASS ACTION LAWSUIT WHICH WAS JUST CERTIFIED. YOU NEED NOT BE CONCERNED WITH DOING ANYTHING IN REGARD TO THE NATIONWIDE CLASS ACTION certified in the Kansas City, KS federal court.***
- For our clients whose cases were filed into Minnesota by June 15, 2016, we do not need to do anything because you were excluded already from the nationwide class action by definition. We had roughly 97% of our current clients filed into MN by June 15th. For those handful of producers that we represent who were not filed by June 15th, we will be contacting you at some point regarding the process to opt your case out of the federal class action, which we will handle for you. Your case has been filed into MN state court - we just did not receive your contract by June 15th and therefore we will need to opt you out of the federal MDL class action at some point.
- Just so you all know, "producers who purchased Viptera or Duracade corn seed" are also NOT a part of the nationwide class action just certified. For any of our clients who purchased Viptera and/or Duracade corn seed, your individual cases have been filed into the MN state court consolidated action against Syngenta. You too need to take no action regarding the class action or its opt out procedures. If you know other producers who planted Viptera or Duracade and who are not individually filed yet, they need to file immediately.
- In November 2016, Judge Lungstrum will be approving an **Action Plan Regarding Nationwide Class Notice** which is being put together by the 4 class action attorneys and Syngenta's counsel. **I anticipate the Court will be approving a combination of printed ads in farm publications, TV commercials and large newspaper advertisements, to be printed and ran over the winter, notifying the entire U.S. farming community that the federal court sitting in Kansas City, Kansas has certified a nationwide class action against Syngenta. This is how class action notice goes out. Do not be confused by it, and again, you need not take any action regarding opting out because all 60,000+ producers filed individually into Minnesota by June 15th are by definition not included within the nationwide class action.** For those few who contracted with us after June 15th, we again have filed your case into MN, but we will also need to opt you out of the federal class action at a later date. We will wait to see what the Court requires then follow up with you regarding any paper work you may need to sign for us. Again, this is a very small percentage of the clients we represent.
- For our clients who may sell corn in 2016 under a different entity than their 2013 to 2015 filed production, contact us regarding getting your 2016 entity with production opted out of the class action and filed into the Minnesota state court consolidation. 2016 is in play.
- Overall, between the Minnesota individual actions filed and now the nationwide class action certification, Syngenta now faces damages over 100% of U.S. corn production for years 2013 to 2016.

WRAP UP:

- Since February 2015, over 150 depositions have been taken of Syngenta executives, sales reps and scientists. Over 1 million documents were produced by Syngenta to producers' counsel and reviewed and summarized.
- We have strong evidence Syngenta pre-commercialized Viptera and Duracade in its unbridled attempt to take 10 to 20% of the U.S. corn seed market in years 2013 and 2014, before competitors could develop competitive traits.
- In September 2015, Judge Lungstrum in the federal MDL court ruled that Cargill, ADM, grain elevators and other shippers CANNOT be held legally liable for Syngenta's actions. Syngenta was trying to hold them partly at fault, in the event Syngenta is found at fault.
- The Court ruled that the national Grain Standards Act applies, and any attempt to impede international grain shipments are in violation of federal law. In essence, the Court ruled that Syngenta's argument that ADM, Cargill, grain elevators, shippers, etc should have tested, segregated and/or not shipped corn to China, would in essence be an impediment of the type that federal law prohibits.
- Judge Sipkins in the Minnesota state court consolidated action has made similar rulings with regard to the alleged culpability of ADM, Cargill, grain elevators, shippers, etc. They legally cannot be blamed for the loss of the export market caused by Syngenta's conduct.
- Chem China's $43 Billion purchase of Syngenta AG has no legal effect on the *Syngenta* case. Syngenta will continue as an entity in the U.S. selling herbicides, pesticides and GM seed. It's just owned by the Republic of China now through the state owned Chem China.
- In Minnesota, we are on schedule to have the first jury trials (bellwether trials) in the *Syngenta* litigation beginning in April 2017. Four individual producers are now scheduled for the first trials (1 Nebraska producer, 1 Iowa producer and 2 Minnesota producers), as well as 1 grain elevator operator with a filed individual claim against Syngenta. As verdicts are reached in the bellwether trials you will receive notice on the jury's decisions and thinking.
- I believe this case has only gotten stronger and stronger the past two years. No guarantee, but I strongly believe this case will resolve in producers' favor. At this point, it is the largest agricultural liability case ever.
- Favorable legal precedent has already been established by this litigation which will favor farmers for years to come. All seed manufacturers are now on notice that they will face liability claims by producers if traits are pre-commercialized and export markets are disrupted.

- Any producers who did not file individually will be given an opportunity to opt out of the nationwide class action suit. Entities with production can still file their individual cases if they so choose to. If you discover other entities (such as a missed trust) with corn production for years 2013 to 2016 that need to be filed still, contact us immediately and we will get this done on your behalf.
- This email is protected by Attorney-Client communication rules. You should not share it with individuals who are not clients of the Shields Law Group, LLC.

We will send a similar update via U.S. Mail shortly. We will of course keep you updated as the *Syngenta* case progresses, and notify you promptly if settlement terms are offered on your individual case. We are in on-going settlement negotiations now with Syngenta. But trials will not be delayed unless pre-trial settlement is reached. Both Judges have made that very clear to Syngenta and it's attorneys.

National Tort, MDL & Complex Litigation Practice

October 21, 2016

To: Sept. - Oct.

PLEASE RESPOND BY DECEMBER 4TH

Dear _____:

We write as your attorneys in the *Syngenta* national GM corn claim litigation. **As you know, the Court has ordered all producers to show certain proof of production on their claims.** The Court recently granted an extension for producers to submit their required proof of production, so you are still not too late to submit the needed documentation on your farm(s). Specifically, we still need you to send the following documents for your file which are checked off and hi-lighted below:

1. _____ **Confidential Questionnaire / Fact Sheet**: Please answer the enclosed shortened questionnaire the best you can. Tax ID #'s are needed because all future payments will be a taxable 1099 event to your farm. If your corn is marketed in your own name, your tax ID # is your social security number. Corporate and partnership tax ID #'s are required for corn marketed through company entities. *They will be kept confidential.* This questionnaire is being done by all 80,000 filed producers nationally.

2. _____ **Tax Payer ID No. and/or Social Security No.**: We have your Questionnaire / Fact Sheet. However, you have not yet provided your tax payer ID number. We will need this before any future payments can be issued. Please complete and mail back the enclosed short form for this purpose.

3. _____ **FSA Form 578's showing your land planted in corn for years 2011 to 2015.** For your file, we specifically still need the following year FSA's: _____

4. _____ **APH Form from your federal crop insurance agent, showing all yielded bushels on your farms for years 2013 to 2015** (NOTE: Your crop insurance agent will have this document, and many times has your FSA form 578's as well if we need them as well. *If you don't have crop insurance, then we need you to submit year-end sales summaries from all elevators, ethanol plants and/or feed lots you sold corn too in order to document your corn sales and bushels harvested.*)

5. _____ **Year-end sales summaries from all elevators, ethanol plants and/or feed lots** you sold corn too in 2011 to 2015. These are needed in order to document your individual corn sales, the date of delivery and the price you were paid for your corn. A quick phone call to your elevators, ethanol plants and feed lots usually gets the job done. Request that they email, mail or fax to us directly the documents.

Immediately mail your completed questionnaire and/or supporting documents requested above to:

Shields Law Group, LLC – 12710 S. Pflumm Rd, Suite 208 – Olathe, KS 66062

You can also have documents emailed directly to: scs0303@gmail.com

Or have documents faxed to: +1 (877) 247-9844

"Midwest Lawyers Representing the Interests of Midwest Farmers"

National Tort, MDL & Complex Litigation Practice

November 3, 2016

Dear Producer & Landlord Clients: ***-Confidential Communication-***

I hope you are all well and having a bountiful Harvest. As a client of the Shields Law Group, LLC, we are providing you this courtesy update on the *Syngenta* GM Corn Seed litigation which we represent you and your farm in. Please read in full as important information is contained below.

MINNESOTA STATE COURT "MASS ACTION" LITIGATION:

- Approximately 60,000 producers from all across the U.S. filed individual law suits against Syngenta, claiming damages over diminished corn prices due to the loss of the China export market.
- Of these, over 55,000 producer cases are filed into the Minnesota State Court consolidated action. A few thousand more producer cases are filed individually in the federal MDL (multi-district litigation) in Kansas City.
- All of our clients are filed individually into the Minnesota State Court consolidated action. We filed none of our clients into the federal court's MDL in Kansas City. If you receive this letter, you and your farm entities are filed into Minnesota through our office.
- All 60,000+ individually filed producers, including our 2,500+ clients that we represent from our offices in Kansas City, have been providing documentation in support of their proof of production, as part of a court ordered process. This has been on-going for the past 10 months.
- From our group of 2,500+ clients, on July 11th we produced over 15,000 sets of production documents electronically to Syngenta's attorneys and the Court, pursuant to the court ordered process.
- If you have received a letter from our office in the past three months, we are notifying you that you have one or more sets of documents still needed to confirm your case *in full* with the court ordered process. We need you to respond by early December with your supplemental documents. The Court granted a 6-month extension in July for producers' who came up short regarding proof of production.
- *Our deadline as your attorney to turn your supplemental documents in is December 1st, 2016.* We do need your documents a few days before to meet the deadline on your behalf.
- If you did not receive a letter from us, this means we have all of your production documents in your file. You do not need to do anything further regarding proof of production at this point in time.

KANSAS CITY FEDERAL MDL "CLASS ACTION" CASE:

- On September 26, 2016, Judge Lungstrum in the federal MDL court in Kansas City, Kansas certified a nationwide class action against Syngenta.
- Now, in essence, 100% of corn producers are represented by counsel in this matter. As such all solicitations of producers, by lawyers trying to sign and represent unsigned farmers and landlords, is to

end. The *unsigned producers and landlords, who did not buy Viptera and Duracade seed,* are now represented by the 4 class action attorneys (as long as they meet the class action definition).
- Since your case is filed individually into the Minnesota State Court consolidated action, you and/or your producer entities are NOT a part of the nationwide class action lawsuit which was just certified. As such, you need not be concerned with doing anything in regard to the nationwide class action case now certified in the Kansas City, KS federal court.
- For our clients whose cases were filed into Minnesota by June 15, 2016, we do not need to do anything further because you were excluded already from the nationwide class action *by definition*. We had roughly 97% of our current clients filed into MN by June 15th. For those handful of producers that we represent who were not filed by June 15th, we will be contacting you at some point regarding the process to opt your case out of the federal class action, which we will handle for you. Your case has been filed into MN state court - we just did not receive your contract by June 15th and therefore we will need to "opt you out" of the federal MDL class action at some point.
- Just so you all know, "producers who purchased Viptera or Duracade corn seed" are also NOT a part of the nationwide class action just certified. For any of our clients who purchased Viptera and/or Duracade corn seed, your individual cases have been filed into the MN state court consolidated action against Syngenta. You too need NOT take any action regarding the federal class action or its opt out procedures.
- *If you know other producers who planted Viptera or Duracade corn seed and who are not individually filed yet, they need to file immediately by contacting us or another lawyer.*
- In November 2016, Judge Lungstrum will be approving an **Action Plan Regarding Nationwide Class Notice** which is being put together by the 4 class action attorneys and Syngenta's counsel. **We anticipate the Court will be approving a combination of printed ads in farm publications, TV commercials and large newspaper advertisements, to be printed and ran over the winter, notifying the entire U.S. farming community that the federal court sitting in Kansas City, Kansas has certified a nationwide class action against Syngenta. This is how class action notice goes out. *Do not be confused by it, and again, you need not take any action regarding opting out because all 60,000+ producers filed individually into Minnesota by June 15th are by definition not included within the nationwide class action.***
- For our clients who may sell corn in 2016 under a different entity than their 2013 to 2015 filed production, contact us regarding getting your 2016 entity with production opted out of the class action and filed into the Minnesota state court consolidation. 2016 is in play.
- TO ALL CLIENTS: Do NOT send us 2016 corn documents as yet. We will only request them if ordered by the Court.
- Overall, between the Minnesota individual actions filed and now the nationwide class action certification, Syngenta now faces damages over 100% of U.S. corn production for years 2013 to 2016. This only puts more pressure on Syngenta to discuss global resolution of the litigation.
- Producers who stay inside the class action, because they never individually filed suit, are now represented by class action counsel as long as they did not purchase Viptera or Duracade corn seed. If the case eventually settles globally, including the class action as well, these producers will pay attorney fees just as everyone else. As we have advised our clients from day one, class action attorneys are compensated somewhat differently than contingent fee attorneys. If the class case settles, producers inside the class will almost certainly pay a substantial attorney fee, and producers will also have to show proof of production in order to be paid off of any prospective settlement fund for the class. No one will get a "free ride" on attorney fees as some misinformation has been put out in the public. Simply, attorneys cannot negotiate and settle cases for plaintiffs they do not represent. If class counsel make a recovery for the producers within the class action, they will be compensated for their efforts.

- Damages being sought at this point in time appear to be more liberal within the MN individual filings. We will learn more shortly as global expert reports, including economic reports, are broken down and analyzed in both the MN bellwether trials scheduled for 2017, and also the federal class action case.

***SYNGENTA* WRAP UP:**

- Since February 2016, over 100 depositions have been taken of Syngenta executives, sales reps and scientists. Over 1 million documents were produced by Syngenta to producers' counsel and reviewed and summarized. Syngenta's former CEO Michael Mack was one of those deposed.
- We have strong evidence Syngenta pre-commercialized Viptera and Duracade in its unbridled attempt to take 10 to 20% of the U.S. corn seed market in years 2013 and 2014, before competitors could develop competitive traits.
- In September 2015, Judge Lungstrum in the federal MDL court ruled that Cargill, ADM, grain elevators and other shippers CANNOT be held legally liable for Syngenta's actions. Syngenta was trying to hold them partly at fault, in the event Syngenta is found at fault.
- The Court ruled that the national Grain Standards Act applies, and any attempt to impede international grain shipments are in violation of federal law. In essence, the Court ruled that Syngenta's argument that ADM, Cargill, grain elevators, shippers, etc should have tested, segregated and/or not shipped corn to China, would in essence be an impediment of the type that federal law prohibits.
- Judge Sipkins in the Minnesota state court consolidated action has made similar rulings with regard to the alleged culpability of ADM, Cargill, grain elevators, shippers, etc. They legally cannot be blamed for the loss of the export market caused by Syngenta's conduct.
- Pending EU approval, ChemChina's $43 Billion purchase of Syngenta AG has no legal effect on the *Syngenta* case. Syngenta will continue as an entity in the U.S. selling herbicides, pesticides and GM seed. It will now just be owned by the People's Republic of China through its state owned ChemChina.
- We believe Syngenta's PR machine continues to put out misinformation regarding this case, the Court's rulings, etc. Some recent farm journal articles we have been provided by clients are simply not accurate. Be careful about who you get your news from!
- In Minnesota, we are on schedule to have the first jury trials (bellwether trials) in the *Syngenta* litigation beginning in April 2017. Four individual producers are now scheduled for the first trials (1 Nebraska producer, 1 Iowa producer and 2 Minnesota producers), as well as 1 grain elevator operator with a filed individual claim against Syngenta. As verdicts are reached in the bellwether trials you will receive notice on the jury's decisions and thinking, damages awarded, etc.
- We believe this case has only gotten stronger and stronger the past two years. No guarantee, but we strongly believe this case will resolve in producers' favor. At this point, it is the largest agricultural liability case ever prosecuted.
- Favorable legal precedent has already been established by the *Syngenta* litigation which will favor farmers for years to come. All seed manufacturers are now on notice that they will face liability claims by producers if traits are pre-commercialized and export markets are disrupted. Judge Lungstrum made a critical ruling in September 2015, in farmers' favor, finding that you are all in a connected market and therefore seed manufacturers owe a duty of "reasonableness" to others in the market when commercializing traits. The decision impacts all grain markets – not just corn. Jury's will now be asked to weigh the evidence and determine whether Syngenta acted as a reasonable person would in its commercialization of Viptera and Duracade, knowing China was an important market and approvals were not yet in place.

- Any producers who did not file individually will be given an opportunity to "opt out" of the nationwide class action suit. Entities with production can still file their individual cases if they so choose to. If you discover other entities (such as a missed trust) with corn production for years 2013 to 2016 that need to be filed still, contact us immediately and we will get this done on your behalf.
- Also, grain elevator operators are now filing individually into the *Syngenta* case. We recently have been contacted by several grain elevators who wish to file and we are preparing their cases now. This too will bring more pressure upon Syngenta to resolve this matter earlier rather than later.

We will of course keep you updated as the *Syngenta* case progresses, and notify you promptly if settlement terms are offered on your individual case. We are in on-going settlement negotiations now with Syngenta. But trials will not be delayed unless pre-trial settlement is reached. Both Judges have made that very clear to Syngenta and its attorneys. Trials are scheduled to begin in April 2017 in MN.

OTHER DEVELOPING FARM CASES:

Finally, everyone agrees that we should all work together in protecting consumers whenever possible. Many times this simply means dispersing information to those who need it most. In this endeavor, enclosed is a complimentary case assessment on the infant Monsanto product liability litigation regarding Roundup. *In Re: Roundup Products Liability Litigation, No. 2741, JPMDL* As with *Syngenta*, don't judge a book by its cover too quickly. We all know that cancer is caused by many carcinogens, and recent studies are now confirming glyphosate is a cancer causing carcinogen. Many of you have worked with Roundup your entire life. The attached case summary will explain things more regarding the litigation which again is in its infancy. In summary, claims are being pursued for Monsanto's alleged failure to warn consumers as to the risks associated with glyphosate as a cancer causing agent, when they knew or should have known it was a dangerous carcinogen. As with *Syngenta,* attorneys working on behalf of plaintiffs (some of whom are farmers) are conducting discovery into what Monsanto knew and when, and did they adequately disclose what they knew on labeling so that consumers could make informed decisions on how to conduct themselves when using Roundup (including wearing appropriate attire, ventilation or not using the product at all). If any of you or your loved ones have worked with Roundup extensively, and been diagnosed with non-Hodgkin's lymphoma (or passed away from cancer), call us for a free legal consultation if you like. Statute of limitations due apply and time is therefore of the essence when investigating and filing these type of claims. Otherwise, everyone should protect yourself accordingly when working with Roundup or other farm herbicides, pesticides, etc. There is good reason why the scientists who create this stuff wear lab coats, protective gloves and ventilation masks when they are at work. Stay safe yourself when working with them.

Thank you again for allowing us to represent you in your *Syngenta* GM Seed case. If any of you have any questions or concerns, please call or email us.

Sincerely,

"Midwest Lawyers Representing the Interests of Midwest Farmers"

National Tort, MDL & Complex Litigation Practice

NOTICE: YOU MUST RESPOND TO THIS LETTER IMMEDIATELY – PLEASE DO NOT DELAY

December 29, 2016

Dear Producer & Landlord Clients: ***-Confidential Communication-***

As we advised in our recent November update letter on the *Syngenta* litigation, on September 26, 2016, Judge Lungstrum in the federal MDL court in Kansas City, Kansas certified a nationwide class action against Syngenta. Now, in essence, 99% of corn producers are represented by counsel in this matter. Excluded from the federal class action, by definition, were the 50,000+ producers who had filed suit into the Minnesota state court Mass Action on or before June 15, 2016.

We as your attorneys have filed you or your farm entity individually into the consolidated Mass Action in Minnesota. **But because your case was not filed by June 15th, 2016, we now need to opt you out of the federal class action case as well.** You may have already received a copy of the Class Action Notice from the Court in the last few days. The Class Action Notice simply advises you that you have the right to retain independent counsel (which you have done with us as your attorneys), and proceed individually outside the class action (which you have done as well by filing individually into the Minnesota Mass Action case). **We must now notify the federal court of your selection to proceed in Minnesota on an individual basis.**

Specifically, to get you or your farm entity out of the Federal Class Action case, we must do an "Opt Out". Following the guidelines of the Federal Court, we have prepared the enclosed documents and envelopes for your use. Each individual must opt out and include your social security number (even if you DBA as a farm partnership with a partnership tax ID #, put your SS# on the form). Authorized person's must sign for farm corporations, and the corporate tax ID # must be provided for the company.

YOU SHOULD SIGN AND DATE BOTH LETTERS, PROVIDE SOCIAL SECURITY AND/OR TAX ID#'S WHERE NEEDED, AND MAIL COPY ONE TO THE COURT DIRECTED ADDRESS FOR OPTING OUT, AND THE SECOND COPY TO US AS YOUR ATTORNEYS. Self-addressed stamped envelopes are provided for your use. These letters must all be mailed no later than April 1, 2017. But just as parents direct our kids to "get their homework done early", please do get these opt out letters signed and in the mail in short order.

Common questions you may have are answered on the next page. If you want to discuss further, please call us.

- 50,000+ Producers who filed suit into Minnesota state court by June 15, 2016 were automatically opted out of the Federal Class Action case in Kansas City. By opting out now, you will be placing your case permanently with these 50,000+ Producers, many of whom are large producers from your state.
- *If you bought or planted Syngenta's Viptera and/or Duracade corn seed, then you are NOT part of the federal class action. You have no choice but to file suit individually against Syngenta. Act immediately.*
- Producers who elect to stay in the Federal Class case will pay attorney fees (as high as 33.33%), and they will have to show proof of production to get paid off of any prospective settlement fund. We will do your settlement submissions for you at the conclusion of your case, as part of our representation of you or your farm entity. Our contingent attorney fee at 30% remains one of, if not the lowest, attorney fees in the country that we know of. You will only pay one attorney.
- Damages being sought at this point in time appear to be more liberal in some respects within the Minnesota individual filings than the federal class action case. Example: In Minnesota we are seeking damages on all corn bushels sold back to September 2013. In the federal court class action case, they are seeking damages only back to "after Nov. 18, 2013".
- The issue of whether Judge Lungstrum properly certified all remaining, unfiled producers into a federal class action case is an appealable issue that Syngenta has indicated it intends to at some point appeal to a higher federal court. Class Certification could later be deemed inappropriate by a federal appellate court. Individual Minnesota state court filings do not face this legal challenge by Syngenta.
- In Minnesota, expert reports and opinions are more liberally admitted into evidence by the Judge overseeing the case. Also, juries must only agree 5 out of 6 on a verdict. In federal court, jurors must agree 12 out of 12 on a verdict, and expert report standards are more stringent.
- A class action trial is in essence "one bite at the apple". If the class action attorneys win it, then all plaintiffs within the class action receive that verdict. But lose it, and everyone in the class loses as well. In Minnesota, with 50,000+ individual filings against Syngenta, we get multiple bites at the apple.
- You have access to us at any time if you have questions, want an update, or need consultation on your individual claims against Syngenta. We strive to answer all calls, emails, and faxes within 24 hours.
- As part of your individual filing, you will be notified of any prospective global settlement offers to resolve the litigation, and given legal advice on the strengths and weaknesses of the overall litigation before deciding whether to consent or not to a settlement offer on your individual case. One size rarely fit All, and we believe individual filings are better suited to take this into account.
- Individual trials are scheduled to begin in Minnesota in April 2017. The fastest path to settlement is for trials to begin which in turn forces a corporation to the bargaining table.

In conclusion, pursuant to your contract of employment with us, we have filed an individual lawsuit on your behalf and it has been consolidated into the Minnesota Mass Action litigation with over 50,000+ other producers. Thank you again for allowing us to represent you in your *Syngenta* GM Seed case. If any of you have any questions or concerns, please call or email us. Otherwise, please follow the directions herein and get your Opt Out letters signed, dated, and mailed ASAP to the addresses indicated.

Sincerely,

Spencer C. Shields

National Tort, MDL & Complex Litigation Practice

February 8, 2017

Dear _____:

VIA U.S. MAIL

We still have yet to receive documents in support of your *Syngenta* farm claim. We will be brief. .

- This is a very, very strong litigation for farmers. We are placing odds of resolution at 70% by year's end. No guarantee, but Syngenta has enormous pressure upon them to settle soon.
- We don't want to be bugging you during the farming season (particularly your fall harvest) to get your documents. Now is the time to retrieve them before the spring planting season starts.
- We have two options: 1) you can complete the enclosed questionnaire and send us the supporting documents below. – OR –
- 2) You can complete the enclosed questionnaire, and SIGN the enclosed BUSINESS RECORDS AUTHORIZATION, which will allow us to access your farm records from your FSA office(s), crop insurance agent, grain elevators, ethanol plants and feed yards that you sold corn to.

Either way, the questionnaire must be completed, and you must give us contact information for where to retrieve your documents. The questionnaire should take you no more than 15 minutes to complete. Return your questionnaire, along with your signed business records authorization (only sign and complete the yellow hi-lighted part) back to us in the enclosed envelope, and we will thereafter retrieve the needed documents on your behalf.

To date, we have over 2,300 farmers who have produced documents in support of their claims. We only have 73 farmers left, and yours is one of those. As your attorneys, we are striving to have a 100% response rate by March 15th for all of our farmers and landlords. But we need your help to achieve that goal on your behalf.

If you want us to retrieve your documents for you:

You must complete the enclosed questionnaire, give us good contact information for your FSA office(s), crop insurance agent, and places you sold corn to, AND sign the Business Records Authorization. Please return to us in the enclosed envelope. We will retrieve your documents thereafter for you.

If you are retrieving your own documents yourself:

You must complete the enclosed questionnaire, AND return the following documents for each of your farm entities you sent a contract in on and which had corn production:

The court ordered questionnaire, which is called the Confidential Plaintiff Fact Sheet. It is enclosed with this mailing. *VERY IMPORTANT DOCUMENT*

2011-2015 FSA Form 578's for each entity selling corn (showing total acres of corn planted for each of the years) *VERY IMPORTANT DOCUMENT*

2013-2015 crop insurance docs (called the APH) certifying how many bushels of corn your farms yielded in total annually *VERY IMPORTANT DOCUMENT*

2011-2015 year-end grain elevator/ethanol plant sales summaries (OR alternatively your settlement sheets summarizing your grain sales for these years - *IMPORTANT DOCUMENT*

Helpful Tips:

Your crop insurance agent will have the APH ("actual producer history"), and also usually has your FSA form 578's. One quick phone call directing your crop insurance agent to email them to us directly usually gets the job done. Have them emailed to scs0303@gmail

If your crop insurance agent does not have your FSA docs, call or drop by your FSA office. They too will usually email them either to us or to you, and you can then forward them to us at scs0303@gmail

* NOTE, **if you don't have crop insurance, it is mandatory** that you call your elevators and/or ethanol plants that you sold corn to from 2011 to 2015, and ask for year-end sales summaries. Submit these summaries in lieu of crop insurance to establish all your bushels harvested and sold, including any sales to feed lots as well. If you fed portions of your corn to your own livestock, document those bushels harvested the best way you can. We are claiming damages on any corn fed to your own livestock, in addition to corn sold in the grain market or which you may still be storing and is unsold. You will want to document your total harvest of corn the best you can with summaries, reports and/or settlement sheets if you do not carry federal crop insurance which documents your total annual yields.

In Conclusion:

We are under Court order to show proof of production on your farm(s). Use your crop insurance agents and/or FSA offices to facilitate transfer of your APH and FSA form 578's. Likewise, call your grain elevators and/or ethanol plants that you sold corn to and request year-end sales summaries to better document your file. If you need assistance, call Jim or Spencer at (816) 421-0800. We have staff completing questionnaires and contacting crop insurance agents for our farmers all day long. Call us if you need help getting through the proof of production aspect of your claim. OR, complete the questionnaire and send us your signed Business Records Authorization. Thank you and have a great spring planting season.

Spencer Shields, Managing Attorney James Yoakum, Member Attorney

*If any other lawyers or firms attempt contact with you regarding *Syngenta*, just kindly advise them that you are now represented on the case. Under lawyer ethics rules, they must stop solicitation of you after being advised that you have already signed with another law firm.

YOU DO NOT HAVE TO OPT OUT OF THE FEDERAL CLASS ACTION LAWSUIT. DISREGARD ALL SOLICITATIONS FROM LAWYERS TRYING TO GET YOU TO DO THIS. YOUR CASE IS ALREADY FILED INTO MINNESOTA AND ***YOU ARE ALREADY OPTED OUT OF THE FEDERAL CLASS ACTION CASE.*

GENERAL AUTHORIZATION FOR RELEASE OF BUSINESS RECORDS

TO WHOM IT MAY CONCERN: _____

_____

_____

You are hereby authorized and requested to release any and all information in your possession or under your control, relating to **MY INDIVIDUAL AND/OR CORPORATE CORN SALES FOR YEARS 2010 TO 2016,** to my below named attorneys acting on my behalf in the *Syngenta* national corn producers' litigation:

SHIELDS LAW GROUP, L.L.C.
12710 S. Pflumm Rd., Ste. 208
Olathe, Kansas 66062
Phone: (816) 421-0800
Phone: (913) 393-2080
Email: scs0303@gmail.com
Fax: 1-877-247-9844
www.MidwestCornFarmerLawyers.com

You are further authorized and requested to allow my attorneys or their representatives to review and obtain copies of any such records and, if requested by them, to meet with a representative of your company to discuss the same and have any questions they may have about their content answered for them, either in person, by fax, by phone or by electronic e-mail.

The foregoing authority and request shall continue in force until either revoked by me in writing, or after the passing of December 31, 2018, whichever occurs first.

It is expressly agreed that a photocopy of this authorization shall be valid as an original.

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

Dear Clients: We just wanted to give all of our clients with an email a quick update on the Syngenta GM litigation which we represent you in. This is a confidential communication. I will be brief.

1. Over 70,000 producers from across the Corn Belt are now filed individually against Syngenta, and most of these cases are filed in Minnesota state court. Syngenta Seeds, USA is based in Minnesota. Thus why Minnesota has jurisdiction over Syngenta.

2. **All of our clients are now opted out of the federal class action lawsuit certified against Syngenta in Kansas federal court.** We only have a few more clients waiting to file their opt out paperwork. **March 31st is the deadline** for any friends and family you know to get out of the federal class action case. We are taking our last producer clients now through the end of March (other than MN based producers - see below). Anyone you know wanting out of the federal class case should call us immediately if they want help getting out and to file individually against Syngenta.

3. If you have received mail or phone calls from lawyers telling you to opt out by April 1st, disregard this as you are already opted out of the federal class case. These lawyers should not be making contact with anyone because between all the individual filings and class actions now certified, virtually 99% of all U.S. corn growers are now represented by counsel in this matter. The only growers not represented are those who purchased or planted Viptera or Duracade AND are not yet filed individually through legal counsel. They need to file immediately on an individual basis if you know one of these Vipera/Duracade growers and they have yet to retain counsel individually.

4. **For our Minnesota producers that we represent, Minnesota state court has a separate carved-out state wide class action now certified. This is different than the federal class action case certified in Kansas City, KS federal court.** State-wide MN Class Notice is being mailed out now to over 10,000 MN producers. Just as with the federal class action case, we have already opted out our Minnesota producer clients from the MN state class action case. You need do nothing on this front as we have already done it for you. Deadline for MN producers to get out of the MN class case is May 30th. We can file individually for new MN producers up and through the end of May, FYI, if you know anyone wanting to get out of the MN state class action. I believe somewhere around 2/3 of MN growers have already filed individually and excluded themselves from the MN class action case.

4. **The first trial in the nation against Syngenta is going to happen in Minneapolis, beginning April 24th. We expect a three to four week trial.** Tons of resources and money are being spent by both sides, as this is the first bellwether trial. Bellwether trials are designed to test the evidence and to be a barometer reading for everyone filed into the litigation and their attorneys. We are in Court all day tomorrow in MN making final arguments to Judge Sipkins regarding both sides motions for summary judgment and motions to strike various expert witness opinions. This will be the last procedural hurdle prior to the first trial. Mr. Mensik, a 250 acre corn grower from Nebraska, is the first plaintiff's case to go. We will keep you posted on the outcome, likely sometime mid to late May.

5. In preparation for trial, over 200 depositions were taken of Syngenta executives, contractors and employees, a lot of them occurring all over the world in London, Singapore, Washington DC, etc. Also, over 2 million documents were produced by Syngenta and reviewed by plaintiffs lawyers representing corn producers. From a purely factual and legal standpoint, as the case now sits, this is a very good litigation for producers. Syngenta intends to try and muck up the waters at trial by attempting to shift blame to China and its zero tolerance for unapproved GM traits. This in my opinion is Syngenta's only chance at minimizing a verdict, short of outright jury nullification (whereby the jury just ignores all the facts and law put to them). For our side, we have great evidence and a lot of admissions under oath that Syngenta knew what they were risking

by pre-commercializing Viptera and later Duracade, they did it in an attempt to take market share from competitors, worse they had done it in the past and almost cost producers a significant export market (Japan), and they profited from their conduct while producers lost a very important export market in China. All things said, we like where the case is at and how it is presently postured. Just keep in mind, however, when you go to trial, its all up in the air for the jury to decide at that point.

6. We continue with regular settlement discussions with Sygnenta. They are heating up. We will notify you immediately if tentative settlement terms are reached at any point.

Take care and have a great Spring planting season! We will keep you posted as the case moves forward through the Courts.

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

Dear Producer and Non-Producer Clients:

As a client of Shields Law Group, LLC, we wanted to give you an update on the *Syngenta MIR162* GM seed case litigation.

BREAKING NEWS: On Friday, following a 3 week trial in federal court in Kansas City, Kansas, a jury of six individuals returned a finding of negligence against Syngenta over its commercialization and marketing of Syngenta's Viptera and Duracade MIR162 GM seed traits. This was the first case to reach a verdict against Syngenta. As compensatory damages, the jury awarded the Kansas class of farmers $217,700,000 in "compensatory damages". In the federal class case, plaintiffs economic experts presented opinions that farmers in the Kansas class lost ***$.15 to $.19 per bushel in roughly years 2013 and 2014***. The jury awarded compensatory damages in the full amount requested by the plaintiffs' class action attorneys. The Kansas class action consists of over 7,000 Kansas producers who either did not file suit individually against Syngenta, and/or who did not opt out of the federal class action case. As we have advised previously, all of our Kansas producers were opted out of the Kansas class case and filed individually into the Minnesota mass tort litigation.

Regarding "punitive damages", although Judge Lungstrum allowed the federal jury to consider an award of punitive damages against Syngenta to punish it for its conduct, the jury did not make an award of punitive damages in this first case. For trial purposes, Syngenta AG has been valued at $39 Billion U.S. dollars.

WHAT THIS MEANS: Syngenta will most likely file appeals in the first case to reach judgment against it. However, winning verdicts against Syngenta, whether in federal court, Minnesota state court, Louisiana state court, etc is the key to bringing this corporate defendant to justice. Law firms and trial teams from across the country, representing producers and non-producers alike, continue to prosecute cases and seek trial settings against Syngenta in multiple forums.

WHAT'S UP NEXT: We resume our Minnesota individual producer trial on July 10th. It will be the first bellwether trial for the Minnesota mass tort litigation, which consists of over 60,000 producers' and non-producers' cases. In Minnesota, many of Syngenta's defenses which were allowed in Kansas federal court are not being allowed under Minnesota law. Further, ***plaintiffs' economic experts in Minnesota will be offering opinions regarding per bushel losses of roughly $.50 per bushel for years 2013 and 2014***. Judge Sipkins in Minnesota has also already issued his order allowing for Minnesota juries to consider punitive damages in all cases filed in Minnesota. We expect the first individual producer verdict sometime toward the end of July. Then following this trial, next up will be the Minnesota class action trial in Minnesota in August. Several more bellwether trials of individual producers and one non-producer are then scheduled for the remainder of the year between Minneapolis and Kansas City. Cargill's trial against Syngenta is also slated for sometime in the first half of 2018 in Louisiana state court.

FARMERS IN STATES SUCH AS WISCONSIN, INDIANA, MICHIGAN, COLORADO, OKLAHOMA, PENNSYLVANIA, VIRGINIA, MARYLAND AND DELAWARE are as of now NOT covered by class action certifications. If they wish to file individually against Syngenta, we are still taking and filing cases for producers from these states. Producers from all states, other than those located in Minnesota, Arkansas, Kansas, Missouri, Illinois, Iowa, Nebraska, Ohio and South Dakota are still able to file individual claims if they so choose. They can visit www.MidwestCornFarmerLawyers.com for more information on filing.

WE CONTINUE TO FILE FOR NON-PRODUCERS, GRAIN ELEVATORS AND COOPERATIVES FROM ALL STATES. Non-producers are currently not covered by any state class action certifications.

SIDE NOTE: Jim and I speak to farmers daily. We know that it is not good times right now for a lot of folks in the farming community. As your counsel, my best gut check on this litigation is that if we have agreed settlement terms with Syngenta by the end of 2017/spring of 2018, then payments would begin to flow sometime in 2018. That is a best case scenario. If any of you are giving consideration to a bankruptcy filing for protection from creditors, be aware that the law would require disclosure of your interest in this pending litigation. You would need to discuss the legal ramifications with the counsel you would retain to file any bankruptcy proceedings on you or your farm corporations behalf. I hate to bring it up, but its something some may need to be aware of legally.

FINAL NOTE: Per pending court order, ***do not destroy any of your farming records from 2010 to the present***. This would include seed records, financial records, sales tickets, purchase invoices, etc. We will let you know on a case-by-case basis if any of our clients need to produce any additional records in support of their individual cases.

CONCLUSION: We will continue to push forward to hold Syngenta accountable for its conduct. Your export markets are very important to your business interests, and the first jury to hear the evidence in this case obviously agreed. We will keep you updated as the litigation progresses, and if and when global settlement terms are reached.

"Midwest Lawyers Representing the Interests of Midwest Farmers"

National Tort, MDL & Complex Litigation Practice

July 1, 2017

Dear Producer, Landlord and Non-Producer Clients: ***-Confidential Communication-***

As a client of Shields Law Group, LLC, we wanted to give you an update on the *Syngenta MIR162* GM seed case litigation.

RECENT NEWS: On Friday, June 23rd, following a 3-week trial in federal court in Kansas City, Kansas, a jury of six individuals returned a finding of negligence against Syngenta over its commercialization and marketing of Syngenta's Viptera and Duracade MIR162 GM seed traits. This was the first case to reach a verdict against Syngenta. As compensatory damages, the jury awarded the Kansas class of farmers $217,700,000 in "compensatory damages". In the federal class case, plaintiffs' economic experts presented opinions that farmers in the Kansas class lost ***$.15 to $.19 per bushel in generally years Nov. 2013 to 2014***. The jury awarded compensatory damages in the full amount requested by the plaintiffs' class action attorneys. The Kansas class action consists of over 7,000 Kansas producers who either did not file suit individually against Syngenta, and/or who did not opt out of the federal class action case. As we have advised previously, all of our Kansas producers were opted out of the Kansas class case and filed individually into the Minnesota mass tort litigation.

Regarding "punitive damages", although Judge Lungstrum allowed the federal jury to consider an award of punitive damages against Syngenta to punish it for its conduct, the jury did not make an award of punitive damages in this first case. For trial purposes, Syngenta AG has been valued at $39 Billion U.S. dollars.

WHAT THIS MEANS: Syngenta will most likely file appeals in the first case to reach judgment against it. There is also no "settlement" as yet for anyone, including Kansas farmers who proceeded within the class action trial. The Kansas class now has a "judgment", which Syngenta has indicated they intend to appeal. An appeal will take months if not years to work itself through the federal appellate courts. Law firms and trial teams from across the country, representing producers and non-producers alike, continue to prosecute cases and seek trial settings against Syngenta in multiple forums. The key to bringing Syngenta to settling the case globally for all producers is to continue to win verdicts against it, in whatever venue.

The Kansas class action trial was intended to be a "bellwether trial", meaning it gives all producers and their attorneys feed-back as to the strength of the evidence against Syngenta, how Syngenta's defenses play to juries, and the type and amount of damages juries are possibly going to award producers after hearing the evidence. Winning the first trial against Syngenta is a big positive for all producer cases filed nationally, in whatever jurisdiction. However, we will point out that the Kansas federal jury did not

return a finding of punitive damages against Syngenta, and second the award was for $.19/per bushel for sales conducted generally from Nov. 2013 to 2014. It misses many 2013 sales made prior to Nov. 2013.

WHAT'S UP NEXT: We resume the Minnesota individual producer trial on July 10th. It will be the first bellwether trial for the Minnesota mass tort litigation, which consists of over 60,000 producers' and non-producers' cases. In Minnesota, many of Syngenta's defenses which were allowed in Kansas federal court are not being allowed under Minnesota law. Further, ***plaintiffs' economic experts in Minnesota will be offering opinions regarding per bushel losses of roughly $.49 per bushel for years September 2013 to 2014 for producers***. Judge Sipkins in Minnesota has also alrcady issucd his order allowing for Minnesota juries to consider punitive damages in all cases filed in Minnesota. We expect the first individual producer verdict sometime toward the end of July. Then following this trial, next up will be the Minnesota class action trial in Minnesota in August. Several more bellwether trials of individual producers and one non-producer are then scheduled for the remainder of the year between Minneapolis and Kansas City. Cargill's trial against Syngenta is also slated for some time in the first half of 2018 in Louisiana state court.

For these reasons, we continue to believe that the path to better judgments lies ahead. Our damages modeling in Minnesota is that farmers lost generally $.49/per bushel on corn sales from September 2013 to 2014, and $.15/per bushel for subsequent year's sales, due to the loss of the Chinese export market. The path to punitive damage awards also seems clearer in Minnesota than in federal court, primarily because the Minnesota judge is severely limiting Syngenta in its defense of trying to blame China for the loss of the Chinese export market. This did not occur in the federal trial which just occurred, and I suspect it was the driving factor why the federal jury did not award punitive damages against Syngenta. FYI, an award of punitive damages against Syngenta in just one bellwether trial is going to be a giant legal blow to the company. Winning big verdicts against Syngenta, whether in federal court, Minnesota state court, Louisiana state court, etc is the key to bringing this corporate defendant to justice.

FARMERS IN STATES SUCH AS WISCONSIN, INDIANA, MICHIGAN, COLORADO, OKLAHOMA, PENNSYLVANIA, VIRGINIA, MARYLAND AND DELAWARE are as of now NOT covered by class action certifications. If anyone you know is still not filed and wishes to file individually against Syngenta, we are still taking and filing cases for producers from the above states. Producers from all states, other than those located in Minnesota, Arkansas, Kansas, Missouri, Illinois, Iowa, Nebraska, Ohio and South Dakota are still able to file individual claims if they so choose. They can visit www.MidwestCornFarmerLawyers.com for more information on filing. ***All clients whom received this letter, as addressed, are filed individually by our firm into the Minnesota state court consolidated action. You need do nothing further at this point in time.***

WE CONTINUE TO FILE FOR NON-PRODUCERS, GRAIN ELEVATORS AND COOPERATIVES FROM ALL STATES. Non-producers are currently not covered by any state class action certifications. ***As with Producers, if you are a Non-Producer and received this letter, your entity is already filed into the Minnesota consolidated action by our law firm and you need to do nothing further.***

SIDE NOTE: Jim and I speak to farmers daily. We know that it is not good times right now for some folks in the farming community. As your counsel, my best gut check on this litigation is that if we have agreed settlement terms with Syngenta by the end of 2017/spring of 2018, then payments would begin to

flow sometime in the later of 2018. That is a best case scenario. If any of you are giving consideration to a bankruptcy filing for protection from creditors, be aware that the law would require disclosure of your interest in this pending litigation. You would need to discuss the legal ramifications with the counsel you would retain to file any bankruptcy proceedings on you or your farm corporation's behalf. I hate to bring it up, but it's something some may need to be aware of legally.

FINAL NOTE: Per pending court order, ***do not destroy any of your farming records from 2010 to the present***. This would include seed records, financial records, sales tickets, purchase invoices, etc. We will let you know on a case-by-case basis if any of our clients need to produce any additional records in support of their individual cases.

CONCLUSION: We will continue to push forward to hold Syngenta accountable for its conduct. Your export markets are very important to your business interests, and the first jury to hear the evidence in this case obviously agreed. We will give you feed back as additional bellwether trials occur, so that our clients have some barometer readings as to what generally each and everyone's case is worth. We will keep you updated as the litigation progresses, and if and when global settlement terms are reached.

Sincerely,

Spencer C. Shields

MORE IMPORTANT BREAKING FARM NEWS: Our office currently is filing personal injury and wrongful death cases for farmers and their surviving spouses who contracted non-Hodgins lymphoma and/or other related cancers, and have a history of working with glyphosate. As of the writing of this letter, the State of California has just published that it intends to classify Monsanto's Roundup as a cancer causing agent (carcinogen). As we have advised everyone previously, take pre-cautions when spraying, including the use of appropriate clothing and ventilators. And remember, Knowledge is Power.

Monsanto Weed Killer Roundup Faces New Doubts on Safety in Unsealed Documents

By DANNY HAKIMMARCH 14, 2017 *(Article is taken from the New York Times)*

The reputation of Roundup, whose active ingredient is the world's most widely used weed killer, took a hit on Tuesday when a federal court unsealed documents raising questions about its safety and the research practices of its manufacturer, the chemical giant Monsanto.

Roundup and similar products are used around the world on everything from row crops to home gardens. It is Monsanto's flagship product, and industry-funded research has long found it to be relatively safe. A case in federal court in San Francisco has challenged that conclusion,

building on the findings of an international panel that claimed Roundup's main ingredient might cause cancer.

The court documents included Monsanto's internal emails and email traffic between the company and federal regulators. The records suggested that Monsanto had ghostwritten research that was later attributed to academics and indicated that a senior official at the Environmental Protection Agency had worked to quash a review of Roundup's main ingredient, glyphosate, that was to have been conducted by the United States Department of Health and Human Services.

The documents also revealed that there was some disagreement within the E.P.A. over its own safety assessment.

The files were unsealed by Judge Vince Chhabria, who is presiding over litigation brought by people who claim to have developed non-Hodgkin's lymphoma as a result of exposure to glyphosate. The litigation was touched off by a determination made nearly two years ago by the International Agency for Research on Cancer, a branch of the World Health Organization, that glyphosate was a probable carcinogen, citing research linking it to non-Hodgkin's lymphoma.

Court records show that Monsanto was tipped off to the determination by a deputy division director at the E.P.A., Jess Rowland, months beforehand. That led the company to prepare a public relations assault on the finding well in advance of its publication. Monsanto executives, in their internal email traffic, also said Mr. Rowland had promised to beat back an effort by the Department of Health and Human Services to conduct its own review.

Dan Jenkins, a Monsanto executive, said in an email in 2015 that Mr. Rowland, referring to the other agency's potential review, had told him, "If I can kill this, I should get a medal." The review never took place. In another email, Mr. Jenkins noted to a colleague that Mr. Rowland was planning to retire and said he "could be useful as we move forward with ongoing glyphosate defense."

The safety of glyphosate is not settled science. A number of agencies, including the European Food Safety Agency and the E.P.A., have disagreed with the international cancer agency, playing down concerns of a cancer risk, and Monsanto has vigorously defended glyphosate.

But the court records also reveal a level of debate within the E.P.A. The agency's Office of Research and Development raised some concern about the robustness of an assessment carried out by the agency's Office of Pesticide Programs, where Mr. Rowland was a senior official at the time, and recommended in December 2015 that it take steps to "strengthen" its "human health assessment."

In a statement, Monsanto said, "Glyphosate is not a carcinogen."

It added: "The allegation that glyphosate can cause cancer in humans is inconsistent with decades of comprehensive safety reviews by the leading regulatory authorities around the world. The plaintiffs have submitted isolated documents that are taken out of context."

The E.P.A. had no immediate comment, and Mr. Rowland could not be reached immediately.

Monsanto also rebutted suggestions that the disclosures highlighted concerns that the academic research it underwrites is compromised. Monsanto frequently cites such research to back up its safety claims on Roundup and pesticides.

In one email unsealed Tuesday, William F. Heydens, a Monsanto executive, told other company officials that they could ghostwrite research on glyphosate by hiring academics to put their names on papers that were actually written by Monsanto. "We would be keeping the cost down by us doing the writing and they would just edit & sign their names so to speak," Mr. Heydens wrote, citing a previous instance in which he said the company had done this.

Asked about the exchange, Monsanto said in a second statement that its "scientists did not ghostwrite the paper" that was referred to or previous work, adding that a paper that eventually appeared "underwent the journal's rigorous peer review process before it was published."

David Kirkland, one of the scientists mentioned in the email, said in an interview, "I would not publish a document that had been written by someone else." He added, "We had no interaction with Monsanto at all during the process of reviewing the data and writing the papers."

The disclosures are the latest to raise concerns about the integrity of academic research financed by agrochemical companies. Last year, a review by The New York Times showed how the industry can manipulate academic research or misstate findings. Declarations of interest included in a Monsanto-financed paper on glyphosate that appeared in the journal Critical Reviews in Toxicology said panel members were recruited by a consulting firm. Email traffic made public shows that Monsanto officials discussed and debated scientists who should be considered, and shaped the project.

"I think it's important that people hold Monsanto accountable when they say one thing and it's completely contradicted by very frank internal documents," said Timothy Litzenburg of the Miller Firm, one of the law firms handling the litigation.

The issue of glyphosate's safety is not a trivial one for Americans. Over the last two decades, Monsanto has genetically re-engineered corn, soybeans and cotton so it is much easier to spray them with the weed killer, and some 220 million pounds of glyphosate were used in 2015 in the United States.

"People should know that there are superb scientists in the world who would disagree with Monsanto and some of the regulatory agencies' evaluations, and even E.P.A. has disagreement within the agency," said Robin Greenwald, a lawyer at Weitz & Luxenberg, which is also involved in the litigation. "Even in the E.U., there's been a lot of disagreement among the countries. It's not so simple as Monsanto makes it out to be."

If you or a loved one has a history of working with glyphosate, and either been treated for or passed away from non-Hodgkins lymphoma, contact us now for a free consultation and case review. Call the Shields Law Group @ 816-421-0800

What is Non-Hodgkin Lymphoma? Non-Hodgkin lymphoma (NHL) is a cancer that grows in white blood cells called *lymphocytes*. These cells help prevent infections and they are part of the body's immune system.

Warning Signs & Symptoms of Lymphoma: Non-Hodgkin lymphoma can grow in lymph tissue throughout the body. In some cases, low-grade NHL progresses slowly and produces no symptoms for years. In other cases, high-grade lymphoma spreads aggressively and rapidly cause death.

When symptoms do appear, they vary depending on where the cancer is located — chest, brain, skin, abdomen, and lymph nodes. The first warning signs may include:

- **Enlarged lymph nodes**
- **Hard lump the neck, armpits, groin, and other areas**
- **Fever and chills that come and go**
- **Coughing or shortness of breath**
- **Chest pain or pressure**
- **Abdominal pain or swelling (nausea, constipation, loss of appetite, etc.)**
- **Drenching night sweats**
- **Fatigue, tiredness, or weakness**
- **Anemia (low red blood cell count)**

Diagnosis of Lymphoma: Many people who are diagnosed with lymphoma visit a doctor after they notice a hard lump on their body. The first test is usually a biopsy, which is surgery to remove a small piece of tissue from the lump. This sample is examined under a microscope by a pathologist who looks for cancer. Other diagnostic tests may include blood tests or imaging (CT scan, MRI, X-ray, etc.).

How is Lymphoma Treated? The treatment for non-Hodgkin lymphoma depends on many factors, including the type of cancer, how aggressively it is spreading, and whether it has spread to multiple areas of the body. In some cases, surgery may be useful for removing cancerous tissue. However, most people undergo chemotherapy, immunotherapy, targeted therapy, and/or stem cell transplants.

If you or a family member believe you have been harmed by using Roundup containing products, call now for a free consultation. Spencer Shields is a licensed attorney with 20+ years of experience prosecuting claims involving personal injury, product liability and wrongful death on behalf of injured consumers. For more information, visit www.ShieldOfJustice.net, or call **(816) 421-0800** for a free consultation regarding your specific case. All cases are taken on a contingent fee relationship. No fees or expenses are owed unless a recovery is made on your behalf. We are working in co-counsel relationships with other law firms in our prosecution of these cases against Monsanto.

SHIELDS LAW GROUP, LLC

As a client of the Shields Law Group, LLC, we wanted to give you an update regarding the national litigation against Syngenta over its commercialization and marketing of its Viptera and Duracade GM traits. The third bellwether trial, consisting of the Minnesota Producer class action in Minneapolis, settled in week three of the trial. It has also been reported in multiple national news outlets and Ag web-sites that Syngenta settled all lawsuits "globally" for over $1.4 Billion. Since the reported "settlement" hit the news, we have received a high number of phone calls from clients regarding this matter. We also know many are curious as to what it all means but are too busy harvesting. This is what we can presently report.

First, there is a **proposed global settlement** of many, if not all, of the filed producer cases. It may or may not cover non-producer filings as well. Other than this, don't believe everything as reported in the news. We simply don't believe reporters understand or comprehend the breadth of this national litigation. **Proposed settlement terms are presently being finalized, and we anticipate it will be several more weeks until all the details are worked out and ready for discussion with our clients.**

Second, until there is a finished, written and signed proposed settlement agreement, we can't counsel you, our clients, about what the proposed pay periods are, the per bushel compensation rate, etc. The proposed settlement was not to be disclosed until all the details were worked out. Unfortunately a reporter got tipped and ran with the story, which has been replicated across many news outlets without much fact checking. **Simply, until its in writing and signed off on by Syngenta, its just a lot of speculation. The devil is in the details.**

We will be following up shortly with all our clients, **after the written agreement is finalized, signed and ready for review by counsel with their clients.** We know the farming community is busy harvesting, and we will do our best to have it all ready for review near the time most of you are wrapping up your fall harvest.

Take care, be safe in the fields, and we will follow up shortly with everyone. If proof of production documents have been requested of you recently, please get those to us during a rain day. Spencer & Jim

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

Confidential Attorney-Client Communication RE: *Syngenta* GM Corn Claim Litigation

Dear Producer and Non-Producer Clients:

We hope your harvests were safe and are now complete. As we all slowdown and enjoy family and friends for the holidays, we wanted to give a quick update on the *Syngenta* national corn claim litigation in which our firm filed suit on your behalf. We will be brief.

1. National global settlement negotiations continue with Syngenta. Jim and I were in federal court in Kansas City on Tuesday of this week, where all three judges presiding over producer and non-producer cases appeared for an update. The three respective judges are Judge Lungstrum - KC, KS federal Court and presiding federal MDL Judge / **Judge Laurie Miller - Hennepin County, MN District Court Judge (NOTE: Judge Sipkins took mandatory retirement in MN in the fall of 2017 and Judge Miller is our new MN Judge presiding over our MN cases** / and Judge Herndon - Southern Illinois federal district court Judge).

2. Although settlement negotiations continue toward a written, final settlement structure, all three Judges scheduled another update hearing on January 25th, 2018. Therefore, we anticipate final terms should be ready for presentation sometime in January. We of course will immediately let you all know, by both email and mail, when settlement terms are final.

3. **IMPORTANT: 2016 and 2017 production MAY (possibly) end up in the final negotiated terms.** If this occurs, we anticipate there will be a run on your local FSA offices, as folks try and gather documents late. **THEREFORE, Jim and I suggest that we all be vigilant and as you work on end of year tax and business matters, MAKE SURE THAT YOU OR YOUR CROP INSURANCE AGENT HAVE YOUR FSA FORM 578'S IN HAND for 2016 and 2017.** This way, if 2016 and 2017 production ends up in the settlement structure, each of you will be ready to submit to us your FSA Form 578's, crop insurance APH and any other production documents which may be required for the settlement process. As you know, a lot of FSA offices are currently understaffed and they could get back logged really quick after a national settlement structure is published. If you

wish to send them to us now, send by email, fax or mail as you did beforehand. All of our contact information is below.

4. Finally, don't be concerned that other firms are having some of their clients in for local town hall meetings. Some firms had only 50% or 60% of their clients turn in documents initially, and other attorneys are likely just trying to spur their clients to get them production documents. Contrary to what you may hear at the coffee shop, Syngenta has paid no one any money as yet and settlement terms are not final as yet. Our law firm, working with you during 2016 and 2017, obtained production documents from well over 95% of our producer and non-producer clients. We have had staff counting and recording our clients' bushel production (through 2015) for over a year now. Most of you submitted your production documents to us in the spring/summer of 2016, and included everything through your 2015 harvest. Some of our clients signed up later on and submitted to us 2016 as well. This is a general update for all our clients. If you did send us 2016 already, don't be concerned that we don't have it. We have it. We just want all our clients to know where things are at settlement wise, and in the event 2016 and 2017 production is included in final settlement terms, that we all be ready to supplement where needed in order to get you paid as quickly and efficiently as possible.

We wish you all a very happy and merry Christmas and holidays. We will follow up after the New Year.

Spencer Shields

E-mail communications are not intended to replace in-person or other types of communication for the purpose of determining whether an attorney-client relationship exists and, unless there is a written agreement or confirmation in written, non e-mail form, please assume that an attorney-client relationship does not exist.

The Kansas/Missouri Bar Chief Disciplinary Counsel requires all Kansas/Missouri lawyers to notify all recipients of email that: (1) e-mail communication is not a secure method of communication; (2) any e-mail that is sent to you or by you may be copied and held by various computers it passes through as it goes from me to you or vice versa; and (3) persons not participating in our communication may intercept our communications by improperly accessing your computer or my computer or even some computer unconnected to either of us which the email passed through. Further, I am communicating to you via e-mail because

you have consented to receive communications via this medium. If you change your mind and want future communications to be sent in a different fashion, please let me know at once.

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

It is possible (50/50) your 2016 and 2017 corn production will be included in the global settlement framework. If this occurs, we anticipate a run on your local FSA offices for documents. Please make sure you or your crop insurance agent have your 2016 and 2017 FSA Form 578's in hand. If you would like to send these in to us now, along with your APH crop insurance report for same years, please do so. Submit your docs by eMail or Mail please. We will follow up shortly with more details. Thank you. Spencer & Jim

Confidential Attorney-Client Communication RE: *Syngenta* GM Corn Claim Litigation

Dear Producer and Non-Producer Clients:

Court was held today, January 25th, in Minneapolis, Minnesota. We were in attendance as your representative counsel. All three Judges overseeing Producer and Non-Producer claims across the country were present, along with other lawyers representing both individual filers and the various class actions. The Judges were instructed by Special Master for Settlement Reisman that the parties are 95% done toward finalizing terms of global settlement. She believes the remaining hurdles will be cleared shortly and that we will have a written settlement proposal for presentation to the farming community. **Jim and I also confirmed that 2016 and 2017 production will most likely be included in the proposed settlement structure. We are also quite certain we will be under fixed deadlines to file paper work once terms are finalized.**

For this reason, we are now recommending that you do forward to us immediately your 2016 and 2017 FSA Form 578's, along with your crop insurance APH report showing your corn production numbers through 2017. The APH report typically shows a 10 year production history, and each individual person, corporation, trust or partnership should be supplementing their production documents. If you have already sent these documents to us, thank you. If you have them but have not yet sent them,

please forward them by email to **scs0303@gmail.com** or by mail to **Shields Law Group, LLC 12710 S. Pflumm Road, Suite 208 Olathe, KS 66062**

We have had staff recording acres and bushel count on each of your files for over a year and half now. We are complete through 2015. We are currently adding 2016 and 2017 production numbers as you submit supplemental documentation. We are hopeful that with your cooperation on submitting your production documents to us timely, as well as our staff's promptness once settlement terms are announced, that we will be out front in getting all our clients through the settlement process in as efficient and timely manner as possible.

For those without crop insurance in either 2016 and/or 2017, just note that when you send in your FSA Form 578's. You can submit your settlement sheets and sales summaries in lieu of a crop insurance APH report.

Once written terms are finalized and filed with the Court, we will immediately provide complete details on the proposed settlement structure. You each will have an opportunity to review the proposed settlement at that point in time, as well as review your production numbers and to execute any final paper work that will be required for settlement.

Thank you. We will follow up shortly. Spencer & Jim

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

Special Master for Settlement Reisman informed the Court on Jan 25 that global settlement negotiations are now 95% complete. She expects final terms to be complete shortly. We too confirmed 2016 & 2017 production will most likely be included, and we will be under fixed deadlines to file paper work. For this reason, we now recommend you forward to us your 2016 and 2017 FSA Form 578's and APH crop insurance report through 2017 (if not done as yet). Please submit by email or mail. Our next update will be by formal correspondence regarding the proposed payments. Please keep an eye out for our letter with our logo on it. The material will be time sensitive and likely include final paperwork for review and execution.

Thank you. Spencer & Jim

National Tort, MDL & Complex Litigation Practice

NOTICE: YOU SHOULD READ THIS LETTER IMMEDIATELY – PLEASE DO NOT DELAY

April 30, 2018

Dear *Syngenta* Clients: ***-Confidential Communication-***

First, Jim and I want to say "Thank You" for being a client of the Shields Law Group, LLC. We know you had many choices in counsel. It's truly been an honor to represent your interests, and we've enjoyed immensely working with all of our clients since January 2015. In 2015 and 2016, we witnessed over 100,000 producers retain independent counsel such as ourselves and file suit, all in an effort to hold Syngenta accountable. The federal class actions were later certified. Through this two-pronged attack, Syngenta eventually agreed to the largest agricultural settlement in history: **$1.51 Billion U.S. Dollars**.

[redacted] Please read this letter promptly upon its receipt. We then would recommend to let it digest for a day or two, then re-read it. If you still have questions or concerns after that, feel free to call Jim or Spencer to discuss further. ***The Court is also sending information regarding this settlement.***

SETTLEMENT OFFER & PROCESS: The proposed national settlement is akin to the Oklahoma Land Rush of years ago. There is a $1.51 Billion pot of money. The Court is going to line everyone up and give everyone an equal shot to make claim on the money. **The starting gun will go off on May 11, 2018**, then every producer and non-producer that wishes to make claim has to **stake their claim by the cut-off date of October 12, 2018**. Those producers and non-producers who do NOT make timely claim or opt out will have their legal rights extinguished against Syngenta. For those who do make claim, you ***must stake the claim yourself***; we as your attorneys cannot do it for you because you have to sign a legal release of your claims against Syngenta in exchange for the future payment. For entities, a person of authority must sign for the LLC, trust, corporation, etc. After all claims are staked, the Court thereafter will distribute the monies on a *pro rata* basis, but only on the valid and timely claims submitted. So if only 50% of U.S. corn ends up making claim, you should see some decent payments in relation to this **settlement process which covers bushels harvested for the years 2013 to 2017**.

LESS CLAIMS MEANS MORE MONEY PER CLAIM. Producers and non-producers who retained independent counsel (such as yourself) should have a greater advantage because you have been kept up to date and advised about this litigation from the day you got on board. Producers and non-producers who are not represented by individual counsel are going to be left to figure it out. The timing of this settlement campaign is not great, as you are all very busy planting and spraying. But that actually works to our advantage. Simply, a lot of folk think the settlement is for pennies, because they run the numbers based on 100% of U.S. corn getting paid. This again is not correct. **Only those who make claim get paid.** In the end, less claims means more money for the claims that are submitted, including yours.

HOW TO SUBMIT YOUR CLAIM. The Court ordered mailed Notice regarding this settlement goes out across the nation on **May 11th** and it will provide more details including the specifics on opting out.

It is a simple and efficient Settlement Process from here, and electronic claims by you are preferred by the Court. **The electronic settlement web-site, www.CornSeedSettlement.com, is open May 1st. If able, you should immediately log on and submit your settlement claim, as well as electronically sign the legal release of Syngenta.** Many of you will do your own settlement submissions with ease in just a few minutes. The web-site is being pre-populated with your FSA acreage, and the Court is encouraging everyone possible to make their claim via electronic signature in order to speed up payments. *Paper claim forms can be requested and done if needed.* **If you do submit your own claim form electronically or by paper *without our assistance*, please email Spencer at scs0303@gmail.com OR call Jim at (913) 963-3011 and leave a voice mail to let us know you did it.** We will thereafter double check things on our end before noting your file as cleared for settlement.

Jim and Spencer, along with increased staffing beginning the first of May, will be focused on one task: getting and confirming all of our 2,500+ clients through the settlement portal/process. This way all our clients are set up to get paid in early 2019. We are here to help, but again **if you are able and can do this yourself, DO NOT WAIT FOR US!** **You do not need to submit paper FSA's or crop insurance reports on the web-site.** As stated, this information should pre-populate on the settlement web-site when you are on it. Once your claim is staked, you will need to do nothing further but wait for final approval by the Court. Our firm's goal is to have all 2,500+ clients done by July 31st, leaving us some wiggle room if needed. **Do not procrastinate.** Early bird gets the worm and is less likely to run into backlogs, web-site blackouts, etc. This will also leave time to do any "clean up" on any rejected submitted claims we encounter. Any rejected claims must be corrected immediately within receiving notice of the rejection. We are available to help with any rejections you may encounter along the way.

[redacted] to Syngenta. Those who come late to the game will be received with a closed and locked door at the court house steps. **Payments are scheduled to be mailed directly to you, from the Settlement Fund, in April 2019, if not earlier.** If you don't file a timely claim or opt out, your rights will be extinguished with NO PAYMENT! You will be providing Tax Payer ID information, as payments will be 1099'ed.

THIS CASE IS ABOUT MORE THAN JUST MONEY. SETTLEMENT IS A COMPROMISE. Those who elect to opt out could have a difficult road ahead. The settlement was done this way primarily so Syngenta could commit to paying $1.51 Billion, and be sure that a bunch of farmers would not be coming in late with a bunch of new attorneys representing them, filing more claims against them, etc. **The deal is simple: Syngenta is paying $1.51 Billion cash out now, and in exchange they give up their rights to appeal AND buy their peace to move forward without this litigation hanging over their head.** Jim and Spencer wanted to see more money on the table, as did others, but Syngenta wanted to appeal the case to see if they could get it all overturned and pay nothing. In the end the age old adage reigns true: if both parties leave the table with a little bit of bad taste in their mouth, then it just may be a reasonable settlement. And most important, the legal precedent of this case remains in place with this settlement. Why is that important?

Judge Lungstrum's ruling in September 2015, finding that Syngenta owed a legal duty to all farmers to act reasonable in commercializing and marketing their Viptera and Duracade GM traits, served as the foundation for the entire case. Syngenta to this date disagrees with Judge Lungstrum's ruling, and some **legal minds believe that the ruling is on shaky legal ground**. If Judge Lungstrum's ruling in federal

court were to be overturned on appeal, then two things happen: 1. the entire MDL case goes away, including the $1.51 Billion settlement fund, and worse 2. Syngenta and other seed manufacturers have the green light to start to pre-commercialize their seeds before they seek out and achieve export market approvals. Your industry would be left operating in an ever increasing volatile market because, once seed manufacturers receive FDA approval, they will launch thus allowing bureaucrats around the world to embargo shipments on a whim for unapproved traits. Syngenta's conduct in this case cost the farming community a major export market for U.S. corn. By having this case remain in place and not subject to further review on appeal, Judge Lungstrum's ruling stands and all seed manufacturers are on legal notice that if they pre-commercialize and cost farmers' markets, they will face mass litigation and damages over the matter. *That is a big benefit for farmers, part and parcel with the $1.51 Billion being paid.*

LEGALLY HOW IT ALL WORKS. On April 10, 2018, Judge Lungstrum sitting in federal court in Kansas City, KS certified a national settlement class of all producers, non-producers/grain handlers and ethanol plants in the United States. This national settlement class is for one purpose only: **to convey and administer the national proposed settlement to the entire farming community in one legal process. This is why the nationwide Class Settlement Notice is going out on May 11th.** Judge Miller sitting in Minnesota state court (where your cases are filed) has *de facto* consented to this process. As your attorneys, Jim and Spencer will openly state that there are things we like about the settlement, and things we don't like. But, when we take all things into consideration as fully explained herein, we do believe the offer is fair and reasonable. We therefore are advising all of our clients to accept the proposed payments in exchange for your legal release of Syngenta, AG. *When you submit your claim electronically or by paper, you are agreeing to a legal release of Syngenta, in exchange for the future payment off of the $1.51 Billion settlement fund.* If you do nothing, your legal claims will terminate.

OTHER IMPORTANT QUESTIONS.

1. **Who is in charge of the funds?** Brown Greer, per federal Court Order, is the Settlement Fund Administrator. They specialize in administering large settlement funds such as this. **They along with the Kansas federal Court will be mailing you and other registered FSA producers and non-producers a lengthy legal notice on May 11, 2018 regarding the national *Syngenta* Corn Settlement.** Look for this Notice in your mail. It's very detailed and explains your rights in full. You will also be hearing about this settlement on radio spots, tv spots, newspaper ads, internet, etc. This nationwide notice campaign is designed to advise everyone about their rights under the settlement, and more important, for those who come late to the table after October 12, 2018, they can't claim: "But Judge, I did not know." The Court will kindly respond there is no way you could not have reasonably known before extinguishing their legal rights and denying them any payment. **Simply, no one gets paid unless you stake your claim on the pot of money. And you must stake your claim no later than October 12, 2018.**
2. **What should I do?** After May 11th, get on-line and stake your claim electronically at the Settlement Website: **www.CornSeedSettlement.com** If you can't for some reason, OR you need a paper claim form, call us. We again are on this full-time for everyone's benefit, and we are adding staff for the summer to get our clients through the settlement process.
3. **Who is eligible?** All corn producers, grain handlers and ethanol plants are eligible whether you filed individually or not. There are four sub-classes of plaintiffs for settlement, each with funds: Sub-Class 1- any producer who did NOT purchase Agrisure Viptera or Duracade corn seed

Sub-Class 2- any producer who did purchase Agrisure Viptera or Duracade corn seed*
Sub-Class 3- any grain handling facility who priced corn for sale
Sub-Class 4- any ethanol production facility who priced corn for sale
(*Producers who purchased Viptera and Duracade are subject to grower agreements, which can have a legal effect on your claims. But only 1%+ of growers nationally planted Viptera/Duracade, AND money is available to pay growers of Syngenta's Viptera and Duracade seed traits.)

4. **Do I need my paper FSA docs**? Your efforts as an individual filer played an important part in bringing about this settlement. By gathering your records and being prepared, you will be able to get through the settlement process easier. The settlement web-site has been designed to pre-populate your corn acreage and other information after you enter your FSA farm numbers. You thus will need your FSA farm numbers, and a lot of information will automatically populate for you as you navigate the site. *If you are not registered with FSA, call us immediately.* There is a process for you to do the settlement paper work as well. **You will NOT upload documents.**
5. **How much will I get paid?** It is a *pro rata* recovery for all who make claim. We do not know how much you will get paid because there is no way to predict how many farmers will make claim on the settlement. Again, the less who make claim means the claims submitted get paid more money. *Over $1 Billion is going to be paid out to those who submit timely claims.*
6. **What if I choose to opt out of the Settlement Class?** We are here to help. You need to call us if you actually want to discuss opting out. You have to opt out in writing by August 10, 2018. We cannot do it for you. And there are perils and pitfalls with going forward. Simply, we believe it is in everyone's best interest to settle now. Remember, one bird in hand is better than two in the bush. By settling now, you avoid the risk of losing on appeal, losing at trial, overcoming certain defenses including causation and the economic loss doctrine, etc.
7. **Do I need to establish actual bushels?** No. The proposed settlement as of now calls for bushels to be calculated on County Average as recorded with the FSA office. You will need your FSA farm numbers, and basic personal identifying information, but nothing more. After you enter FSA farm numbers, your acres should pre-populate on the site, and bushels will thereafter be determined by County Average. We will use your APH crop insurance reports on our end to double check submissions before confirming you are cleared for settlement.
8. **Legally how did we get here?** The settlement negotiations were hard fought. The Court ordered 4 producers' attorneys to negotiate collectively with 2 attorneys for Syngenta. These 6 attorneys, along with the assistance/oversight of Special Master for Settlement Helen Reisman (who too was Court appointed), negotiated on and off for over six months before a final Negotiated Settlement Agreement was entered into on February 26, 2018. The Settlement Agreement, along with Judge Lungstrum's Orders and Memorandum regarding settlement, are posted at **www.CornSeedSettlement.com** and available for viewing if you like. **The proposed National Class Settlement, which we are advising you of here, follows the agreed to terms and conditions of the written, final and signed National Settlement Agreement.**
9. **What do the Judges think?** The judges involved made it clear that they wanted all plaintiffs to accept Syngenta's $1.51 Billion offer. They continued several trials. Plaintiffs access to the court system going forward could be a problem. Courts only have so many resources, and certain resources don't look to be readily committed at this time for those who may want to go forward. After attorney fees, the Court is viewing this as a Billion+ in U.S. dollars for the U.S. farming

community, at a time when it looks to be needed. Judges made it clear they don't want folk getting bogged down in the small details of it. They know some farmers are going to lose some bushels, and some farmers will pick up some bushels, paying it on County Averages. But it speeds the process up immensely getting the funds out, and they made it clear that is their concern more so than an individual farmer wanting to fight over a few bushels here and there.

10. **What are the deadlines?** All producers have a 5-month deadline to file claim and get through the settlement portal @ **www.CornSeedSettlement.com**. You can file via paper but the electronic portal will be easier and is Court preferred. If you experience difficulties getting through the web-based portal call us and we will help to get you through it. *Every individual, entity and share crop/cash rent landlord must file.* **These dates/deadlines apply from here:**

May 11th, 2018	Settlement Web-Site open for submitted claims. Nationwide mailed Notice goes out from the Court. Notice campaign also begins via radio, newspaper, internet, etc.
August 10th, 2018	Deadline to Opt Out of national settlement class. Objections due.
October 12th, 2018	Deadline for all submitted claims against Settlement Fund by Producers and Non-Producers nationally.
November 15th, 2018	Hearing for Final Approval in federal court
Spring 2019	Settlement Payments Mailed Out from Settlement Fund

11. **Opt out deadline is 90 days.** August 10, 2018 is the opt out deadline. The opt out process has very specific requirements. If you want to opt out of this Settlement, we need to know immediately. We cannot do it for you. Be aware a "Most Favored Nation" clause is in the Settlement Agreement that restricts Syngenta from settling with producers and/or non-producers for any more money for a certain time period after this Settlement, making trial almost certain for those who go this route. Thus why we are recommending against it. You could also get nothing because of loss on appeal, causation, etc. Call us to discuss more on this if needed.
12. **Can this fall apart legally?** Yes, if a large % of farmers opt out, per the Settlement Agreement Syngenta can walk away and not fund the Settlement. We don't know what it would take to give them this option, as the Court ordered this part of the Settlement Agreement be filed under seal. Only the Negotiating Committee, Syngenta and the Court know what the tripping mechanism is.
13. **Milo, sileage and corn fed "on farm":** These bushels are NOT being paid. Expert testimony and evidence in the case ended up not supporting the damages in these areas. When you file your claim, producers will be asked questions whether a part or all of their production was for sileage or fed on farm. *You will be estimating what was fed and you will be signing an affidavit to this effect under penalty of perjury.* If you have a corporate entity separate from your farm which you sold corn to then fed it to livestock of the separate corporate entity, this may pass muster.
14. **Cash rent landlords are being compensated.** Money is there, and we need to document these claims case-by-case with proof that you reduced your income *due to the drop in corn*. We will follow up with our clients with these type claims individually, by phone, as we don't have many of them. OR feel free to reach out to us to discuss your specific case. We have some docs now.
15. **When submitting settlement paperwork, please identify Shields Law Group as your counsel.** There will be a drop down menu of firms, and we will be on it. ***This costs you nothing,***

and simply helps track for the Court that we were your attorneys who filed your case and kept you up to date and advised along the way. If any of you wish to send us emails, cards or thank you letters, we will provide these to the Court along with our claim for attorney fees. It will help support our cause of getting paid for the last three and half years we have dedicated to this case. And just so you know, there will be no double dipping on attorney fees between individual filing attorneys and class action attorneys! The attorney fee and expense issues are being dealt with separately from the producers & non-producers' prospective payments, as set forth below.

16. **How much and how does Shields Law Group get paid?** This settlement will pay $1.51 Billion total. It is currently proposed 1/3 goes to attorney fees and costs, and 2/3 - or over $1 Billion+ - goes to paying submitted and valid claims by producers and non-producers. Judge Lungstrum can change things on final approval in November 2018. I would anticipate the claimed attorney fee fund may go down some, but not up any further. Attorneys for individual filed farmers, and the class action attorneys as well, will all be making submissions to the Attorney Fee and Expense fund by July 10, 2018. We will of course limit our submitted claim to 30% of our clients' prospective settlement payments, in line with our contracts with each of you. The Court will thereafter be considering all submitted attorney fee and cost reimbursement claims for awards on a *case by case* basis. This will keep attorneys from coming in late, trying to snag unfiled class action producers/non-producers and claiming large fees against the settlement fund, for little to no work performed by them.
17. **Anything else?** We will be providing updates most likely, via email and post cards, if and when needed. We also intend to double check everyone's submitted claims, on the back end, after they are submitted by you. *Email Spencer at scs0303@gmail.com or call Jim at (913)963-3011* when done with your electronic or paper submissions please, just to let us know you did it.
18. **I need to do this by Paper. What do I do?** You should call us first, or call Brown Greer as the Settlement Administrator. *The settlement web-site should also have a downloadable paper form, as well as our web-site having a link to it.* You will thereafter complete the paper form, with our help if needed, and sign it and mail it back to the appropriate address. A wet-ink signature is required on paper claim forms done by producers and non-producers. Attorneys cannot sign the claim form for you, as you are also singing a legal release of Syngenta in exchange for payment.
19. Wet-ink signatures on paper are also required on all opt outs. Again, if you are actually considering opting out, you should read the Court's nationwide Notice in detail and call us.

Once again, the Settlement Web-Site Opens May 11, 2018 at:

www.CornSeedSettlement.com

Sincerely,

Spencer C. Shields

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

NOTICE: YOU SHOULD READ THIS LETTER IMMEDIATELY – PLEASE DO NOT DELAY
THIS SAME COMMUNICATION IS COMING BY WAY OF FIRST CLASS U.S. MAIL AS WELL

April 30, 2018

Dear *Syngenta* Clients: ***-Confidential Communication-***

First, Jim and I want to say "Thank You" for being a client of the Shields Law Group, LLC. We know you had many choices in counsel. It's truly been an honor to represent your interests, and we've enjoyed immensely working with all of our clients since January 2015. In 2015 and 2016, we witnessed over 100,000 producers retain independent counsel such as ourselves and file suit, all in an effort to hold Syngenta accountable. The federal class actions were later certified. Through this two-pronged attack, Syngenta eventually agreed to the largest agricultural settlement in history: **$1.51 Billion U.S. Dollars**.

This correspondence is very important, as it conveys 1) a proposed settlement offer for your case, 2) the process required to get you paid, and 3) information which impacts your legal rights going forward if you choose to opt out. Please read this letter promptly upon its receipt. We then would recommend to let it digest for a day or two, then re-read it. If you still have questions or concerns after that, feel free to call Jim or Spencer to discuss further. ***The Court is also sending information regarding this settlement.***

SETTLEMENT OFFER & PROCESS: The proposed national settlement is akin to the Oklahoma Land Rush of years ago. There is a $1.51 Billion pot of money. The Court is going to line everyone up and give everyone an equal shot to make claim on the money. **The starting gun will go off on May 11, 2018,** then every producer and non-producer that wishes to make claim has to **stake their claim by the cut-off date of October 12, 2018**. Those producers and non-producers who do NOT make timely claim or opt out will have their legal rights extinguished against Syngenta. For those who do make claim, you ***must stake the claim yourself***; we as your attorneys cannot do it for you because **you have to sign a legal release of your claims against Syngenta in exchange for the future payment.** For entities, a person of authority must sign for the LLC, trust, corporation, etc. After all claims are staked, the Court thereafter will distribute the monies on a *pro rata* basis, but only on the valid and timely claims submitted. So if only 50% of U.S. corn ends up

making claim, you should see some decent payments in relation to this **settlement process which covers bushels harvested for the years 2013 to 2017**.

LESS CLAIMS MEANS MORE MONEY PER CLAIM. Producers and non-producers who retained independent counsel (such as yourself) should have a greater advantage because you have been kept up to date and advised about this litigation from the day you got on board. Producers and non-producers who are not represented by individual counsel are going to be left to figure it out. The timing of this settlement campaign is not great, as you are all very busy planting and spraying. But that actually works to our advantage. Simply, a lot of folk think the settlement is for pennies, because they run the numbers based on 100% of U.S. corn getting paid. This again is not correct. **Only those who make claim get paid.** In the end, less claims means more money for the claims that are submitted, including yours.

HOW TO SUBMIT YOUR CLAIM. The Court ordered mailed Notice regarding this settlement goes out across the nation on **May 11th** and it will provide more details including the specifics on opting out. *It is a simple and efficient Settlement Process from here, and electronic claims by you are preferred by the Court.* **The electronic settlement web-site, www.CornSeedSettlement.com, is open May 11th. If able, you should immediately log on and submit your settlement claim, as well as electronically sign the legal release of Syngenta.** Many of you will do your own settlement submissions with ease in just a few minutes. The web-site is being pre-populated with your FSA acreage, and the Court is encouraging everyone possible to make their claim via electronic signature in order to speed up payments. *Paper claim forms can be requested and done if needed.* **If you do submit your own claim form electronically or by paper *without our assistance*, please email Spencer at scs0303@gmail.com OR call Jim at (913) 963-3011 and leave a voice mail to let us know you did it.** We will thereafter double check things on our end before noting your file as cleared for settlement.

Jim and Spencer, along with increased staffing beginning the first of May, will be focused on one task: getting and confirming all of our 2,500+ clients through the settlement portal/process. This way all our clients are set up to get paid in early 2019. We are here to help, but again **if you are able and can do this yourself, DO NOT WAIT FOR US! You do not need to submit paper FSA's or crop insurance reports on the web-site.** As stated, this information should pre-populate on the settlement web-site when you are on it. Once your claim is staked, you will need to do nothing further but wait for final approval by the Court. Our firm's goal is to have all 2,500+ clients done by July 31st, leaving us some wiggle room if needed. **Do not procrastinate.**Early bird gets the worm and is less likely to run into backlogs, web-site blackouts, etc. This will also leave time to do any "clean up" on any rejected submitted claims we encounter. Any rejected claims must be corrected immediately within receiving notice of the rejection. We are available to help with any rejections you may encounter along the way.

Once the October 12, 2018 deadline passes for submitting claims, the Settlement Administrator will thereafter tally up all claims submitted, report to the Court the amount of claims versus opt outs, and then, if all things go according to plan, the entire pot of money will be paid out to both Producers, Non-Producers and Attorneys for the various parties. No money is being left unpaid, and nothing goes back to Syngenta. Those who come late to the game will be received with a closed and locked door at the court house steps. **Payments are scheduled to be mailed directly to you, from the Settlement Fund, in April 2019, if not earlier.** If you don't file a timely claim or opt out, your rights will be extinguished with NO PAYMENT! You will be providing Tax Payer ID information, as payments will be 1099'ed.

THIS CASE IS ABOUT MORE THAN JUST MONEY. SETTLEMENT IS A COMPROMISE. Those who elect to opt out could have a difficult road ahead. The settlement was done this way primarily so Syngenta could commit to paying $1.51 Billion, and be sure that a bunch of farmers would not be coming in late with a bunch of new attorneys representing them, filing more claims against them, etc. **The deal is simple: Syngenta is paying $1.51 Billion cash out now, and in exchange they give up their rights to appeal AND buy their peace to move forward without this litigation hanging over their head.** Jim and Spencer wanted to see more money on the table, as did others, but Syngenta wanted to appeal the case to see

if they could get it all overturned and pay nothing. In the end the age old adage reigns true: if both parties leave the table with a little bit of bad taste in their mouth, then it just may be a reasonable settlement. And most important, the legal precedent of this case remains in place with this settlement. Why is that important?

Judge Lungstrum's ruling in September 2015, finding that Syngenta owed a legal duty to all farmers to act reasonable in commercializing and marketing their Viptera and Duracade GM traits, served as the foundation for the entire case. Syngenta to this date disagrees with Judge Lungstrum's ruling, and some **legal minds believe that the ruling is on shaky legal ground**. If Judge Lungstrum's ruling in federal court were to be overturned on appeal, then two things happen: 1. the entire MDL case goes away, including the $1.51 Billion settlement fund, and worse 2. Syngenta and other seed manufacturers have the green light to start to pre-commercialize their seeds before they seek out and achieve export market approvals. Your industry would be left operating in an ever increasing volatile market because, once seed manufacturers receive FDA approval, they will launch thus allowing bureaucrats around the world to embargo shipments on a whim for unapproved traits. Syngenta's conduct in this case cost the farming community a major export market for U.S. corn. By having this case remain in place and not subject to further review on appeal, Judge Lungstrum's ruling stands and all seed manufacturers are on legal notice that if they pre-commercialize and cost farmers' markets, they will face mass litigation and damages over the matter. *That is a big benefit for farmers, part and parcel with the $1.51 Billion being paid.*

LEGALLY HOW IT ALL WORKS. On April 10, 2018, Judge Lungstrum sitting in federal court in Kansas City, KS certified a national settlement class of all producers, non-producers/grain handlers and ethanol plants in the United States. This national settlement class is for one purpose only: **to convey and administer the national proposed settlement to the entire farming community in one legal process. This is why the nationwide Class Settlement Notice is going out on May 11th.** Judge Miller sitting in Minnesota state court (where your cases are filed) has *de facto* consented to this process. As your attorneys, Jim and Spencer will openly state that there are things we like about the settlement, and things we don't like. But, when we take all things into consideration as fully explained herein, we do believe the offer is fair and reasonable. We therefore are advising all of our clients to accept the proposed payments in exchange for your legal release of Syngenta, AG. *When you submit your claim electronically or by paper, you are agreeing to a legal release of Syngenta, in exchange for the future payment off of the $1.51 Billion settlement fund.* If you do nothing, your legal claims will terminate.

OTHER IMPORTANT QUESTIONS.

1. **Who is in charge of the funds?** Brown Greer, per federal Court Order, is the Settlement Fund Administrator. They specialize in administering large settlement funds such as this.**They along with the Kansas federal Court will be mailing you and other registered FSA producers and non-producers a lengthy legal notice on May 11, 2018 regarding the national *Syngenta* Corn Settlement.** Look for this Notice in your mail. It's very detailed and explains your rights in full. You will also be hearing about this settlement on radio spots, tv spots, newspaper ads, internet, etc. This nationwide notice campaign is designed to advise everyone about their rights under the settlement, and more important, for those who come late to the table after October 12, 2018, they can't claim: "But Judge, I did not know." The Court will kindly respond there is no way you could not have reasonably known before extinguishing their legal rights and denying them any payment. **Simply, no one gets paid unless you stake your claim on the pot of money. And you must stake your claim no later than October 12, 2018.**
2. **What should I do?** After May 11th, get on-line and stake your claim electronically at the Settlement Website: **www.CornSeedSettlement.com** If you can't for some reason, OR you need a paper claim form, call us. We again are on this full-time for everyone's benefit, and we are adding staff for the summer to get our clients through the settlement process.
3. **Who is eligible?** All corn producers, grain handlers and ethanol plants are eligible whether you filed individually or not. There are four sub-classes of plaintiffs for settlement, each with funds:
Sub-Class 1- any producer who did NOT purchase Agrisure Viptera or Duracade corn seed
Sub-Class 2- any producer who did purchase Agrisure Viptera or Duracade corn seed*

Sub-Class 3- any grain handling facility who priced corn for sale
Sub-Class 4- any ethanol production facility who priced corn for sale

(*Producers who purchased Viptera and Duracade are subject to grower agreements, which can have a legal effect on your claims. But only 1%+ of growers nationally planted Viptera/Duracade, AND money is available to pay growers of Syngenta's Viptera and Duracade seed traits.)

4. **Do I need my paper FSA docs**? Your efforts as an individual filer played an important part in bringing about this settlement. By gathering your records and being prepared, you will be able to get through the settlement process easier. The settlement web-site has been designed to pre-populate your corn acreage and other information after you enter your FSA farm numbers. You thus will need your FSA farm numbers, and a lot of information will automatically populate for you as you navigate the site. *If you are not registered with FSA, call us immediately.* There is a process for you to do the settlement paper work as well. **You will NOT upload documents.**

5. **How much will I get paid?** It is a *pro rata* recovery for all who make claim. We do not know how much you will get paid because there is no way to predict how many farmers will make claim on the settlement. Again, the less who make claim means the claims submitted get paid more money. *Over $1 Billion is going to be paid out to those who submit timely claims.*

6. **What if I choose to opt out of the Settlement Class?** We are here to help. You need to call us if you actually want to discuss opting out. You have to opt out in writing by August 10, 2018. We cannot do it for you. And there are perils and pitfalls with going forward. Simply, we believe it is in everyone's best interest to settle now. Remember, one bird in hand is better than two in the bush. By settling now, you avoid the risk of losing on appeal, losing at trial, overcoming certain defenses including causation and the economic loss doctrine, etc.

7. **Do I need to establish actual bushels?** No. The proposed settlement as of now calls for bushels to be calculated on County Average as recorded with the FSA office. You will need your FSA farm numbers, and basic personal identifying information, but nothing more. After you enter FSA farm numbers, your acres should pre-populate on the site, and bushels will thereafter be determined by County Average. We will use your APH crop insurance reports on our end to double check submissions before confirming you are cleared for settlement.

8. Legally how did we get here? The settlement negotiations were hard fought. The Court ordered 4 producers' attorneys to negotiate collectively with 2 attorneys for Syngenta. These 6 attorneys, along with the assistance/oversight of Special Master for Settlement Helen Reisman (who too was Court appointed), negotiated on and off for over six months before a final Negotiated Settlement Agreement was entered into on February 26, 2018. The Settlement Agreement, along with Judge Lungstrum's Orders and Memorandum regarding settlement, are posted at **www.CornSeedSettlement.com** and available for viewing if you like. **The proposed National Class Settlement, which we are advising you of here, follows the agreed to terms and conditions of the written, final and signed National Settlement Agreement.**

9. **What do the Judges think?** The judges involved made it clear that they wanted all plaintiffs to accept Syngenta's $1.51 Billion offer. They continued several trials. Plaintiffs access to the court system going forward could be a problem. Courts only have so many resources, and certain resources don't look to be readily committed at this time for those who may want to go forward. After attorney fees, the Court is viewing this as a Billion+ in U.S. dollars for the U.S. farming community, at a time when it looks to be needed. Judges made it clear they don't want folk getting bogged down in the small details of it. They know some farmers are going to lose some bushels, and some farmers will pick up some bushels, paying it on County Averages. But it speeds the process up immensely getting the funds out, and they made it clear that is their concern more so than an individual farmer wanting to fight over a few bushels here and there.

10. **What are the deadlines?** All producers have a 5-month deadline to file claim and get through the settlement portal @ **www.CornSeedSettlement.com**. You can file via paper but the electronic portal will be easier and is Court preferred. If you experience difficulties getting through the web-based portal call us and we will help to get you through it. *Every individual, entity and share crop/cash rent landlord must file.* **These dates/deadlines apply from here:**

May 11th, 2018 Settlement Web-Site open for submitted claims. Nationwide mailed Notice goes out from the Court. Notice campaign also begins via radio, newspaper,

internet, etc.

August 10th, 2018 Deadline to Opt Out of national settlement class. Objections due.

October 12th, 2018 Deadline for all submitted claims against Settlement Fund by Producers and Non-Producers nationally.

November 15th, 2018 Hearing for Final Approval in federal court

Spring 2019 Settlement Payments Mailed Out from Settlement Fund

11. **Opt out deadline is 90 days**. August 10, 2018 is the opt out deadline. The opt out process has very specific requirements. If you want to opt out of this Settlement we need to know immediately. We cannot do it for you. Be aware a "Most Favored Nation" clause is in the Settlement Agreement that restricts Syngenta from settling with producers and/or non-producers for any more money for a certain time period after this Settlement, making trial almost certain for those who go this route. Thus why we are recommending against it. You could also get nothing because of loss on appeal, causation, etc. Call us to discuss more on this if needed.
12. **Can this fall apart legally?** Yes, if a large % of farmers opt out, per the Settlement Agreement Syngenta can walk away and not fund the Settlement. We don't know what it would take to give them this option, as the Court ordered this part of the Settlement Agreement be filed under seal. Only the Negotiating Committee, Syngenta and the Court know what the tripping mechanism is.
13. **Milo, sileage and corn fed "on farm".** These bushels are NOT being paid. Expert testimony and evidence in the case ended up not supporting the damages in these areas. When you file your claim, producers will be asked questions whether a part or all of their production was for sileage or fed on farm. *You will be estimating what was fed and you will be signing an affidavit to this effect under penalty of perjury.* If you have a corporate entity separate from your farm which you sold corn to then fed it to livestock of the separate corporate entity, this may pass muster.
14. Cash rent landlords are being compensated. Money is there, and we need to document these claims case-by-case with proof that you reduced your income *due to the drop in corn*. We will follow up with our clients with these type claims individually, by phone, as we don't have many of them. OR feel free to reach out to us to discuss your specific case. We have some docs now.
15. **When submitting settlement paperwork, please identify Shields Law Group as your counsel.** There will be a drop down menu of firms, and we will be on it. ***This costs you nothing, and simply helps track for the Court that we were your attorneys who filed your case and kept you up to date and advised along the way.*** If any of you wish to send us emails, cards or thank you letters, we will provide these to the Court along with our claim for attorney fees. It will help support our cause of getting paid for the last three and half years we have dedicated to this case. And just so you know, there will be no double dipping on attorney fees between individual filing attorneys and class action attorneys. The attorney fee and expense issues are being dealt with separately from the producers & non-producers' prospective payments, as set forth below.
16. **How much and how does Shields Law Group get paid?** This settlement will pay $1.51 Billion total. It is currently proposed 1/3 goes to attorney fees and costs, and 2/3 - or over $1 Billion+ - goes to paying submitted and valid claims by producers and non-producers. Judge Lungstrum can change things on final approval in November 2018. I would anticipate the claimed attorney fee fund may go down some, but not up any further. Attorneys for individual filed farmers, and the class action attorneys as well, will all be making submissions to the Attorney Fee and Expense fund by July 10, 2018. We will of course limit our submitted claim to 30% of our clients' prospective settlement payments, in line with our contracts with each of you. The Court will thereafter be considering all submitted attorney fee and cost reimbursement claims for awards on a *case by case* basis. This will keep attorneys from coming in late, trying to snag unfiled class action producers/non-producers and claiming large fees against the settlement fund, for little to no work performed by them.
17. **Anything else?** We will be providing updates most likely, via email and post cards, if and when needed. We also intend to double check everyone's submitted claims, on the back end, after they are

submitted by you. *Email Spencer at scs0303@gmail.com or call Jim at (913)963-3011* when done with your electronic or paper submissions please, just to let us know you did it.

18. **I need to do this by Paper. What do I do?** You should call us first, or call Brown Greer as the Settlement Administrator. *The settlement web-site should also have a downloadable paper form, as well as our web-site having a link to it.* You will thereafter complete the paper form, with our help if needed, and sign it and mail it back to the appropriate address. A wet ink signature is required on paper claim forms done by producers and non-producers. Attorneys cannot sign the claim form for you, as you are also singing a legal release of Syngenta in exchange for payment.

19. **Wet ink signatures on paper are also required on all opt outs.** Again, if you are actually considering opting out, you should read the Court's nationwide Notice in detail and call us.

Once again, the Settlement Web-Site Opens May 11, 2018 at:

Dear *Syngenta* Clients that are Grain Handling Facilities: ***-Confidential Communication-***

Enclosed is our letter of April 30th, addressed to all our 2,500+ Producer clients, regarding the prospective $1.51 Billion *Syngenta* national settlement offer being conveyed to the entire corn producing community. As a Non-Producer/Grain Handling Facility and client of Shields Law Group, LLC, we wanted to give you a little more specific information regarding the settlement claim process for your elevator operations. **Do read the attached letter in full, as all of the details set forth therein apply to your cases as well on the re-selling side.** Of the $1.51 Billion, $29,900,000 is being set aside to compensate grain handlers specifically on a *pro rata* basis on all claims submitted by the deadline of **October 12, 2018.** As with Producers, less claims by grain handlers means more money per claim. We therefore recommend you keep this matter private and confidential.

As with Producers, the Court prefers electronic submissions at www.CornSeedSettlement.com. We as your attorneys cannot do it for you since you will be signing a release of Syngenta in exchange for the future payment. Attached is a *DRAFT ONLY Grain Handling Facility Claim Form*. The electronic portal will follow this path. **Unlike Producers, you will be providing some documentation in support of 1) the storage capacity of each facility and 2) the number of bushels bought and then *priced* for sale (include bushels transported, stored or otherwise handled that were subsequently *priced* for sale.)** *This is for the five-year period 2013 to 2018.* There are additional concerns for grain handlers wishing to opt out and go forward; specifically application of the Economic Loss Doctrine to your case. If you are giving opting out consideration, please call us promptly to discuss matters further. Deadlines do apply.

We are both available to answer questions, aid in any way we can, etc. We will be reaching out to each of you after May 11th. ***DO NOT USE THE ATTACHED CLAIM FORM, AS IT IS FOR DEMONSTRATIVE PURPOSES ONLY!*** You will need to either submit claim electronically at the below web-site, or print off the *clean* Grain Handling Facility Claim Form and submit the same by paper. You can obtain *clean* claim forms on or after May 11th at the below settlement web-site.

Dear *Syngenta* Clients that are Grain Handling Facilities:
-Confidential Communication-

Below is our letter of April 30th, addressed to all our 2,500+ Producer clients, regarding the prospective $1.51 Billion *Syngenta* national settlement offer being conveyed to the entire corn producing community. As a Non-Producer/Grain Handling Facility and client of Shields Law Group, LLC, we wanted to give you a little more specific information regarding the settlement claim process for your elevator operations. **Do read this and the below letter in full, as all of the details set forth therein apply to your cases as well on the re-selling side.** Of the $1.51 Billion, $29,900,000 is being set aside to compensate grain handlers specifically on a *pro rata* basis on all claims submitted by the deadline of **October 12, 2018.** As with Producers, less claims by grain handlers means more money per claim. We therefore recommend you keep this matter private and confidential.

As with Producers, the Court prefers electronic submissions at www.CornSeedSettlement.com. We as your attorneys cannot do it for you since you will be signing a release of Syngenta in exchange for the future payment. Attached is a *DRAFT ONLY Grain Handling Facility Claim Form.* (see attached PDF document with *dirty grain handler* claim form) The electronic portal will follow this path. **Unlike Producers, you will be providing some documentation in support of 1) the storage capacity of each facility and 2) the**

number of bushels bought and then *priced* for sale (include bushels transported, stored or otherwise handled that were subsequently *priced* for sale.) *This is for the five-year period 2013 to 2018.* There are additional concerns for grain handlers wishing to opt out and go forward; specifically application of the Economic Loss Doctrine to your case. If you are giving opting out consideration, please call us promptly to discuss matters further. Deadlines do apply.

We are both available to answer questions, aid in any way we can, etc. We will be reaching out to each of you after May 11th. ***DO NOT USE THE ATTACHED CLAIM FORM, AS IT IS FOR DEMONSTRATIVE PURPOSES ONLY!*** You will need to either submit claim electronically at the below web-site, or print off the *clean* Grain Handling Facility Claim Form and submit the same by paper. You can obtain *clean* claim forms on or after May 11th at the below settlement web-site. Electronic submissions are once again preferred by the Court, however.

PRODUCER LETTER MAILED APRIL 30, 2018 IS BELOW - Please read it as it contains much valuable information you need to know as a Grain Handling Facility.

NOTICE: YOU SHOULD READ THIS LETTER IMMEDIATELY – PLEASE DO NOT DELAY
THIS SAME COMMUNICATION IS COMING BY WAY OF FIRST CLASS U.S. MAIL AS WELL

April 30, 2018

Dear *Syngenta* Clients: ***-Confidential Communication-***

First, Jim and I want to say "Thank You" for being a client of the Shields Law Group, LLC. We know you had many choices in counsel. It's truly been an honor to represent your interests, and we've enjoyed immensely working with all of our clients since January 2015. In 2015 and 2016, we witnessed over 100,000 producers retain independent counsel such as ourselves and file suit, all in an effort to hold Syngenta accountable. The federal class actions were later certified. Through this two-pronged attack, Syngenta eventually agreed to the largest agricultural settlement in history: **$1.51 Billion U.S. Dollars.**

This correspondence is very important, as it conveys 1) a proposed settlement offer for your case, 2) the process required to get you paid, and 3) information which impacts your legal rights going forward if you choose to opt out. Please read this letter promptly upon its receipt. We then would recommend to let it digest

for a day or two, then re-read it. If you still have questions or concerns after that, feel free to call Jim or Spencer to discuss further. ***The Court is also sending information regarding this settlement.***

SETTLEMENT OFFER & PROCESS: The proposed national settlement is akin to the Oklahoma Land Rush of years ago. There is a $1.51 Billion pot of money. The Court is going to line everyone up and give everyone an equal shot to make claim on the money. **The starting gun will go off on May 11, 2018,** then every producer and non-producer that wishes to make claim has to **stake their claim by the cut-off date of October 12, 2018**. Those producers and non-producers who do NOT make timely claim or opt out will have their legal rights extinguished against Syngenta. For those who do make claim, you ***must stake the claim yourself***; we as your attorneys cannot do it for you because **you have to sign a legal release of your claims against Syngenta in exchange for the future payment.** For entities, a person of authority must sign for the LLC, trust, corporation, etc. After all claims are staked, the Court thereafter will distribute the monies on a *pro rata* basis, but only on the valid and timely claims submitted. So if only 50% of U.S. corn ends up making claim, you should see some decent payments in relation to this **settlement process which covers bushels harvested for the years 2013 to 2017.**

LESS CLAIMS MEANS MORE MONEY PER CLAIM. Producers and non-producers who retained independent counsel (such as yourself) should have a greater advantage because you have been kept up to date and advised about this litigation from the day you got on board. Producers and non-producers who are not represented by individual counsel are going to be left to figure it out. The timing of this settlement campaign is not great, as you are all very busy planting and spraying. But that actually works to our advantage. Simply, a lot of folk think the settlement is for pennies, because they run the numbers based on 100% of U.S. corn getting paid. This again is not correct. **Only those who make claim get paid.** In the end, less claims means more money for the claims that are submitted, including yours.

HOW TO SUBMIT YOUR CLAIM. The Court ordered mailed Notice regarding this settlement goes out across the nation on **May 11th** and it will provide more details including the specifics on opting out. *It is a simple and efficient Settlement Process from here, and electronic claims by you are preferred by the Court.* **The electronic settlement web-site, www.CornSeedSettlement.com, is open May 11th. If able, you should immediately log on and submit your settlement claim, as well as electronically sign the legal release of Syngenta.** Many of you will do your own settlement submissions with ease in just a few minutes. The web-site is being pre-populated with your FSA acreage, and the Court is encouraging everyone possible to make their claim via electronic signature in order to speed up payments. *Paper claim forms can be requested and done if needed.* **If you do submit your own claim form electronically or by paper *without our assistance*, please email Spencer at scs0303@gmail.com OR call Jim at (913) 963-3011 and leave a voice mail to let us know you did it.** We will thereafter double check things on our end before noting your file as cleared for settlement.

Jim and Spencer, along with increased staffing beginning the first of May, will be focused on one task: getting and confirming all of our 2,500+ clients through the settlement portal/process. This way all our clients are set up to get paid in early 2019. We are here to help, but again **if you are able and can do this yourself, DO NOT WAIT FOR US! You do not need to submit paper FSA's or crop insurance reports on the web-site.** As stated, this information should pre-populate on the settlement web-site when you are on it. Once your claim is staked, you will need to do nothing further but wait for final approval by the Court. Our firm's goal is to have all 2,500+ clients done by July 31st, leaving us some wiggle room if needed. **Do not procrastinate.**Early bird gets the worm and is less likely to run into backlogs, web-site blackouts, etc. This will also leave time to do any "clean up" on any rejected submitted claims we encounter. Any rejected claims must be corrected immediately within receiving notice of the rejection. We are available to help with any rejections you may encounter along the way.

Once the October 12, 2018 deadline passes for submitting claims, the Settlement Administrator will thereafter tally up all claims submitted, report to the Court the amount of claims versus opt outs, and then, if all things go according to plan, the entire pot of money will be paid out to both Producers, Non-Producers

and Attorneys for the various parties. No money is being left unpaid, and nothing goes back to Syngenta. Those who come late to the game will be received with a closed and locked door at the court house steps. **Payments are scheduled to be mailed directly to you, from the Settlement Fund, in April 2019, if not earlier.** If you don't file a timely claim or opt out, your rights will be extinguished with NO PAYMENT! You will be providing Tax Payer ID information, as payments will be 1099'ed.

THIS CASE IS ABOUT MORE THAN JUST MONEY. SETTLEMENT IS A COMPROMISE. Those who elect to opt out could have a difficult road ahead. The settlement was done this way primarily so Syngenta could commit to paying $1.51 Billion, and be sure that a bunch of farmers would not be coming in late with a bunch of new attorneys representing them, filing more claims against them, etc. **The deal is simple: Syngenta is paying $1.51 Billion cash out now, and in exchange they give up their rights to appeal AND buy their peace to move forward without this litigation hanging over their head.** Jim and Spencer wanted to see more money on the table, as did others, but Syngenta wanted to appeal the case to see if they could get it all overturned and pay nothing. In the end the age old adage reigns true: if both parties leave the table with a little bit of bad taste in their mouth, then it just may be a reasonable settlement. And most important, the legal precedent of this case remains in place with this settlement. Why is that important?

Judge Lungstrum's ruling in September 2015, finding that Syngenta owed a legal duty to all farmers to act reasonable in commercializing and marketing their Viptera and Duracade GM traits, served as the foundation for the entire case. Syngenta to this date disagrees with Judge Lungstrum's ruling, and some **legal minds believe that the ruling is on shaky legal ground**. If Judge Lungstrum's ruling in federal court were to be overturned on appeal, then two things happen: 1. the entire MDL case goes away, including the $1.51 Billion settlement fund, and worse 2. Syngenta and other seed manufacturers have the green light to start to pre-commercialize their seeds before they seek out and achieve export market approvals. Your industry would be left operating in an ever increasing volatile market because, once seed manufacturers receive FDA approval, they will launch thus allowing bureaucrats around the world to embargo shipments on a whim for unapproved traits. Syngenta's conduct in this case cost the farming community a major export market for U.S. corn. By having this case remain in place and not subject to further review on appeal, Judge Lungstrum's ruling stands and all seed manufacturers are on legal notice that if they pre-commercialize and cost farmers' markets, they will face mass litigation and damages over the matter. *That is a big benefit for farmers, part and parcel with the $1.51 Billion being paid.*

LEGALLY HOW IT ALL WORKS. On April 10, 2018, Judge Lungstrum sitting in federal court in Kansas City, KS certified a national settlement class of all producers, non-producers/grain handlers and ethanol plants in the United States. This national settlement class is for one purpose only: **to convey and administer the national proposed settlement to the entire farming community in one legal process. This is why the nationwide Class Settlement Notice is going out on May 11th.** Judge Miller sitting in Minnesota state court (where your cases are filed) has *de facto* consented to this process. As your attorneys, Jim and Spencer will openly state that there are things we like about the settlement, and things we don't like. But, when we take all things into consideration as fully explained herein, we do believe the offer is fair and reasonable. We therefore are advising all of our clients to accept the proposed payments in exchange for your legal release of Syngenta, AG. *When you submit your claim electronically or by paper, you are agreeing to a legal release of Syngenta, in exchange for the future payment off of the $1.51 Billion settlement fund.* If you do nothing, your legal claims will terminate.

OTHER IMPORTANT QUESTIONS.

1. **Who is in charge of the funds?** Brown Greer, per federal Court Order, is the Settlement Fund Administrator. They specialize in administering large settlement funds such as this.**They along with the Kansas federal Court will be mailing you and other registered FSA producers and non-producers a lengthy legal notice on May 11, 2018 regarding the national *Syngenta* Corn Settlement.** Look for this Notice in your mail. It's very detailed and explains your rights in full. You will also be hearing about this settlement on radio spots, tv spots, newspaper ads, internet, etc. This nationwide notice campaign is designed to advise everyone about their rights under the settlement, and more important, for those who come late to the table after October 12, 2018, they can't claim:

"But Judge, I did not know." The Court will kindly respond there is no way you could not have reasonably known before extinguishing their legal rights and denying them any payment. **Simply, no one gets paid unless you stake your claim on the pot of money. And you must stake your claim no later than October 12, 2018.**

2. **What should I do?** After May 11th, get on-line and stake your claim electronically at the Settlement Website: **www.CornSeedSettlement.com** If you can't for some reason, OR you need a paper claim form, call us. We again are on this full-time for everyone's benefit, and we are adding staff for the summer to get our clients through the settlement process.
3. **Who is eligible?** All corn producers, grain handlers and ethanol plants are eligible whether you filed individually or not. There are four sub-classes of plaintiffs for settlement, each with funds:
Sub-Class 1- any producer who did NOT purchase Agrisure Viptera or Duracade corn seed
Sub-Class 2- any producer who did purchase Agrisure Viptera or Duracade corn seed*
Sub-Class 3- any grain handling facility who priced corn for sale
Sub-Class 4- any ethanol production facility who priced corn for sale
(*Producers who purchased Viptera and Duracade are subject to grower agreements, which can have a legal effect on your claims. But only 1%+ of growers nationally planted Viptera/Duracade, AND money is available to pay growers of Syngenta's Viptera and Duracade seed traits.)
4. **Do I need my paper FSA docs**? Your efforts as an individual filer played an important part in bringing about this settlement. By gathering your records and being prepared, you will be able to get through the settlement process easier. The settlement web-site has been designed to pre-populate your corn acreage and other information after you enter your FSA farm numbers. You thus will need your FSA farm numbers, and a lot of information will automatically populate for you as you navigate the site. *If you are not registered with FSA, call us immediately.* There is a process for you to do the settlement paper work as well. **You will NOT upload documents.**
5. **How much will I get paid?** It is a *pro rata* recovery for all who make claim. We do not know how much you will get paid because there is no way to predict how many farmers will make claim on the settlement. Again, the less who make claim means the claims submitted get paid more money. *Over $1 Billion is going to be paid out to those who submit timely claims.*
6. **What if I choose to opt out of the Settlement Class?** We are here to help. You need to call us if you actually want to discuss opting out. You have to opt out in writing by August 10, 2018. We cannot do it for you. And there are perils and pitfalls with going forward. Simply, we believe it is in everyone's best interest to settle now. Remember, one bird in hand is better than two in the bush. By settling now, you avoid the risk of losing on appeal, losing at trial, overcoming certain defenses including causation and the economic loss doctrine, etc.
7. **Do I need to establish actual bushels?** No. The proposed settlement as of now calls for bushels to be calculated on County Average as recorded with the FSA office. You will need your FSA farm numbers, and basic personal identifying information, but nothing more. After you enter FSA farm numbers, your acres should pre-populate on the site, and bushels will thereafter be determined by County Average. We will use your APH crop insurance reports on our end to double check submissions before confirming you are cleared for settlement.
8. **Legally how did we get here?** The settlement negotiations were hard fought. The Court ordered 4 producers' attorneys to negotiate collectively with 2 attorneys for Syngenta. These 6 attorneys, along with the assistance/oversight of Special Master for Settlement Helen Reisman (who too was Court appointed), negotiated on and off for over six months before a final Negotiated Settlement Agreement was entered into on February 26, 2018. The Settlement Agreement, along with Judge Lungstrum's Orders and Memorandum regarding settlement, are posted at **www.CornSeedSettlement.com** and available for viewing if you like. **The proposed National Class Settlement, which we are advising you of here, follows the agreed to terms and conditions of the written, final and signed National Settlement Agreement.**
9. **What do the Judges think?** The judges involved made it clear that they wanted all plaintiffs to accept Syngenta's $1.51 Billion offer. They continued several trials. Plaintiffs access to the court system going forward could be a problem. Courts only have so many resources, and certain resources don't look to be readily committed at this time for those who may want to go forward. After attorney fees, the Court is viewing this as a Billion+ in U.S. dollars for the U.S. farming community, at a time

when it looks to be needed. Judges made it clear they don't want folk getting bogged down in the small details of it. They know some farmers are going to lose some bushels, and some farmers will pick up some bushels, paying it on County Averages. But it speeds the process up immensely getting the funds out, and they made it clear that is their concern more so than an individual farmer wanting to fight over a few bushels here and there.

10. **What are the deadlines?** All producers have a 5-month deadline to file claim and get through the settlement portal @ **www.CornSeedSettlement.com**. You can file via paper but the electronic portal will be easier and is Court preferred. If you experience difficulties getting through the web-based portal call us and we will help to get you through it. *Every individual, entity and share crop/cash rent landlord must file.* **These dates/deadlines apply from here:**

May 11th, 2018 Settlement Web-Site open for submitted claims. Nationwide mailed Notice goes out from the Court. Notice campaign also begins via radio, newspaper, internet, etc.

August 10th, 2018 Deadline to Opt Out of national settlement class. Objections due.

October 12th, 2018 Deadline for all submitted claims against Settlement Fund by Producers and Non-Producers nationally.

November 15th, 2018 Hearing for Final Approval in federal court

Spring 2019 Settlement Payments Mailed Out from Settlement Fund

11. **Opt out deadline is 90 days.** August 10, 2018 is the opt out deadline. The opt out process has very specific requirements. If you want to opt out of this Settlement we need to know immediately. We cannot do it for you. Be aware a "Most Favored Nation" clause is in the Settlement Agreement that restricts Syngenta from settling with producers and/or non-producers for any more money for a certain time period after this Settlement, making trial almost certain for those who go this route. Thus why we are recommending against it. You could also get nothing because of loss on appeal, causation, etc. Call us to discuss more on this if needed.

12. **Can this fall apart legally?** Yes, if a large % of farmers opt out, per the Settlement Agreement Syngenta can walk away and not fund the Settlement. We don't know what it would take to give them this option, as the Court ordered this part of the Settlement Agreement be filed under seal. Only the Negotiating Committee, Syngenta and the Court know what the tripping mechanism is.

13. **Milo, sileage and corn fed "on farm".** These bushels are NOT being paid. Expert testimony and evidence in the case ended up not supporting the damages in these areas. When you file your claim, producers will be asked questions whether a part or all of their production was for sileage or fed on farm. *You will be estimating what was fed and you will be signing an affidavit to this effect under penalty of perjury.* If you have a corporate entity separate from your farm which you sold corn to then fed it to livestock of the separate corporate entity, this may pass muster.

14. Cash rent landlords are being compensated. Money is there, and we need to document these claims case-by-case with proof that you reduced your income *due to the drop in corn.* We will follow up with our clients with these type claims individually, by phone, as we don't have many of them. OR feel free to reach out to us to discuss your specific case. We have some docs now.

15.* When submitting settlement paperwork, please identify Shields Law Group as your counsel.** There will be a drop down menu of firms, and we will be on it. ***This costs you nothing, and simply helps track for the Court that we were your attorneys who filed your case and kept you up to date and advised along the way. If any of you wish to send us emails, cards or thank you letters, we will provide these to the Court along with our claim for attorney fees. It will help support our cause of getting paid for the last three and half years we have dedicated to this case. And just so you know, there will be no double dipping on attorney fees between individual filing attorneys and class action attorneys. The attorney fee and expense issues are being dealt with separately from the producers & non-producers' prospective payments, as set forth below.

16. **How much and how does Shields Law Group get paid?** This settlement will pay $1.51 Billion total. It is currently proposed 1/3 goes to attorney fees and costs, and 2/3 - or over $1 Billion+ - goes to paying submitted and valid claims by producers and non-producers. Judge Lungstrum can change things on final approval in November 2018. I would anticipate the claimed attorney fee fund may go down some, but not up any further. Attorneys for individual filed farmers, and the class action attorneys as well, will all be making submissions to the Attorney Fee and Expense fund by July 10, 2018. We will of course limit our submitted claim to 30% of our clients' prospective settlement payments, in line with our contracts with each of you. The Court will thereafter be considering all submitted attorney fee and cost reimbursement claims for awards on a *case by case* basis. This will keep attorneys from coming in late, trying to snag unfiled class action producers/non-producers and claiming large fees against the settlement fund, for little to no work performed by them.
17. **Anything else?** We will be providing updates most likely, via email and post cards, if and when needed. We also intend to double check everyone's submitted claims, on the back end, after they are submitted by you. *Email Spencer at scs0303@gmail.com or call Jim at (913)963-3011* when done with your electronic or paper submissions please, just to let us know you did it.
18. **I need to do this by Paper. What do I do?** You should call us first, or call Brown Greer as the Settlement Administrator. *The settlement web-site should also have a downloadable paper form, as well as our web-site having a link to it.* You will thereafter complete the paper form, with our help if needed, and sign it and mail it back to the appropriate address. A wet ink signature is required on paper claim forms done by producers and non-producers. Attorneys cannot sign the claim form for you, as you are also singing a legal release of Syngenta in exchange for payment.
19. **Wet ink signatures on paper are also required on all opt outs.** Again, if you are actually considering opting out, you should read the Court's nationwide Notice in detail and call us.

Once again, the Settlement Web-Site Opens May 11, 2018 at:

www.CornSeedSettlement.com

Dear Syngenta Clients: We write with some additional information regarding the nationwide *Syngenta* Settlement Class process. We will be brief as we know your busy. This email follows our paper correspondence/email dated April 30th which you should have received and read by now.

1. The settlement web-site at **www.CornSeedSettlement.com opens this Friday, May 11th.** Again, we highly recommend you log on Friday, Saturday or Sunday and stake your claim before the mass, nationwide notice campaign (which too begins May 11th) takes root. This will include hundreds of thousands of legal notices being mailed out across the nation from the federal court in Kansas City, Kansas.

2. The court appointed settlement administrator, Brown Greer PLC, is in charge of **www.CornSeedSettlement.com.** Staff at Brown Greer have notified Jim and Spencer that Producer names and corresponding Tax ID#'s will be the controlling feature of the settlement portal. In essence, when a Producer goes to the web-site, they will be prompted to type in their name (individual person, corporation, trust, LLC, etc) and that Producer's corresponding Tax ID#. These should track the Producer names and Tax ID#'s as reported to FSA over the years. For individuals with production in their own name, your Tax ID# will be your social security number. Corporations, trusts and LLC's should use their legal name and corresponding Tax ID#. After this, you will be authorizing Brown Greer to access your FSA documents (including farm #'s and acreage count) as reported to the federal government for years 2013 through 2017. Answer the remaining questions truthfully and the best you can. As we understand it, Brown Greer will thereafter populate all the staked claims and corresponding acres by working with the FSA. **Therefore, it is very important that every Producer person, company, LLC, trust, partnership that we have filed suit for against Syngenta submit a settlement claim. Use the post cards that we have mailed to all of our identified Producer clients and entities over the course of this litigation as your map to make sure you get every Producer staked into the claim process, with the right legal name, etc.** To be safe, "DBA partnerships" should file as your reported on FSA form 578's. FSA documents are controlling in this settlement process and the population of the staked acres for future *pro rata* payment. Don't assume a partnership Tax ID# will get everyone paid unless your FSA form 578's are reported that way. We are hoping to get more detail on this issue shortly.

3. We will be working with Brown Greer to confirm at some point that all of our identified 2,500+ Producers have staked claim through the web-site or by paper mailed claim form. Again, the Court prefers electronic submissions through the settlement web-site. **We honestly think this will take around 5 minutes per Producer entity, as FSA Farm #'s may not be needed.** If you don't use a computer, you might consider asking a friend or family member to help. Alternatively, call us or Brown Greer and we will help you complete and fill out the paper claim form which can be submitted by U.S. Mail. Deadline for all staked claims is October 12th.

4. This electronic settlement process is very efficient and likely speeds up our producer clients receiving settlement checks by six months. **Checks will be distributed off the settlement fund, to all Producers who submit claim by October 12, 2018, sometime toward the end of this year, or spring 2019.** This will depend somewhat on whether any appeals might be taken of the Court's anticipated Final Approval Order on November 15th. Over one $Billion+ is being distributed to Producers who stake claim, and none of this is going to attorney fees of any kind. Read below for further details on fees.

SOME OTHER DETAILS IF YOUR INTERESTED.

5. **Regarding Attorney Fees, contrary to some reported articles recently there is no "double dipping" by attorneys.** The settlement currently calls for 1/3 of the $1.51 Billion settlement to be set off into an Attorney Fee and Expense Fund, which the various Courts will oversee. ***Your payments off of the settlement fund will NOT get assessed with additional fees by anyone****, including us as your representative attorneys.* Every lawyer and law firm, including ours, has to submit an application for fee and expense award from the Court, to be paid from the separate Attorney Fee and Expense Fund. As with your prospective payments, we too cannot know for sure when or how much we are to be paid for our three and half years work on the *Syngenta* litigation. The federal class action lawyers also will be submitting their firm's applications for fees and expenses to this separate Attorney Fee and Expense Fund. This process keeps the reasonableness of the earned fee for each lawyer/firm within the discretion of the Court. We will limit our claim for attorney fees at 30% of our clients' prospective settlement payments, in-line with our contracts of employment we have with each of you. *When staking your claim at the settlement web-site, please be sure to mark* ***Shields Law Group, LLC*** *as your representative counsel.* ***You will incur no additional fees for doing this*** *and it helps the Court keep track of which clients are with which firms.*

6. If you know of potential errors on your FSA Form 578's for any years 2013 to 2017, regarding a producer not having a proper percentage or a producer who may have passed, we don't think the settlement process is going to allow for addressing this on the front-end during claim submissions. This goes to the Court's #1 priority being getting this money distributed to the farming community as efficiently and as fast as possible. We are thus recommending just to make sure all your relevant Producer(s) names and corresponding Tax ID#'s get submitted and staked, in-line with your FSA Form 578's, and do any accounting clean up on the back-end after you receive your payments. The Court indicated it does not want the process bogged down with tit-for-tat details on individual FSA docs, etc. Also, we have pushed for clarification from Brown Greer whether irrigated acres could be paid on irrigated county averages (in county's that keep track of both irrigated and non-irrigated averages). We are waiting for further detail on this point. Stake your claim(s) now and we will update when we know more on this issue.

7. Contrary to what some may state, your efforts on document production and fact sheets were not a waste of time. 100,000 Producers filed suit individually and took the prudent step to not wait on class certification. Class certification was never a given, and in-fact class certifications were denied in the rice GM litigation years ago. Your efforts regarding proof of production were in response to the Judges' Orders, AND sent a very strong message to Syngenta that you and your counsel were prepared for trial if needed. Mr. Mensik, a Nebraska producer, was selected for trial by Syngenta and worked his case up in great detail with his trial counsel, Mikal Watts. Syngenta settled with Mr. Mensik confidentially the Friday before his Monday trial was to start. In essence Syngenta forfeited the bellwether trial against an individually filed producer. After class actions were certified, in essence scooping up unfiled Producers in nine states, the Kansas class proceeded to trial and won against Syngenta. Several representative farmers prepared for trial, and sat through weeks of trial, on the class action side as well. Through this two-pronged attack and the winning of bellwether trials (individual and class), Syngenta eventually dropped and offered to pay compensation on both fronts totaling $1.51 Billion. Had the class actions not been certified, we may not be here as yet. Had Syngenta tried the *Mensik* trial and won, we may not be here yet. Or had Syngenta appealed and prevailed on appeal, we definitely would not be here.

Also contrary to some media reports, no one's cases are settled as yet. If you elect to receive payment from the $1.51 Billion Settlement Fund, AND not too many producers opt out (which we do not anticipate happening), then your case will be settled in exchange for the prospective *pro rata* payment from the Settlement Fund. Otherwise you must opt out, or have your legal rights cut off by prospective Order of the federal Court on November 15th. **If this settlement were to fall apart, which it legally could, then we are back to where we left off, and your cases are ready for trial if needed in Minnesota state court.**

Also contrary to some media reports, this global nationwide Settlement Agreement was not negotiated by the federal class action attorneys. It was negotiated by four attorneys, appointed by the Courts, to represent Producers & Non-Producers (called the Plaintiff's Negotiating Committee), and two Syngenta attorneys. The negotiation lasted well over eight months, and was over seen by Court appointed Special Masters. The Courts and interested judges received regular updates on the negotiation process, and in-fact participated during several of the Court dates. For our side, two of the four attorneys negotiating had significant numbers of individually filed producers as their clients. The remaining two attorneys on the Plaintiff's Negotiating Committee represented the class action interests. In the end, the $1.51 Billion global Settlement Agreement was achieved, which prospectively ends all litigation against Syngenta (whether filed individually or via class action method).

8. Our staff will be working to confirm that everyone of our represented Producers has staked a timely claim on the settlement fund. Attorney's Jim and Spencer, law clerks Nick and Palmer, and paralegal Pam will be working this case 24/7 on behalf of our clients in the coming weeks. **If you stake your claim with no problems and before we reach you by phone, please email Spencer at scs0303@gmail.com OR call Jim and leave a message at (913) 963-3011, letting us know you did it and for which Producer entities.** If you receive a phone call from our staff, we are only inquiring whether you need help or whether you have staked your settlement claim already. Please return any voice mails, emails as needed. Again, our goal is to have all of our Producers staked into the settlement fund by mid-July, if not sooner.

Thanks again for all your efforts and for being a client of Shields Law Group, LLC. God Speed

claims submitted

Spencer Shields <scs0303@gmail.com> Fri, May 25, 2018 at 9:11 AM
To: Ernest Moxley <moxleys12345@gmail.com>, "spencershields@kc.surewest.net" <scs0303@gmail.com>

Ernest: Thank you for letting us know you submitted your name/production entity into the *Syngenta* national settlement process. Based on your email, it is our understanding that a claim(s) has been filed for **Moxley Farms Inc., P&J Moxley Farms LLC, E Moxley Inc., and Sterrett Farms LLC** and we will mark your claim(s) as submitted in our file. If a claim has not been filed, please contact us immediately.

Please note that you should have submitted into the settlement the name and tax ID# / SS# for every person or entity (corporation, LLC, trust, partnership) that may have had corn production for any years 2013 to 2017, as reported to the federal government. *Production as reported to the FSA / federal government, under SS#'s and TaxID#s, is controlling in this settlement.* How you reported that production and under what names is what we want to make sure 100% gets submitted into the settlement program.

Some extra tips for reporting:
- If you submitted in an individual's name with SS#, and their spouse has ever received federal farm payments from 2013 to 2017, we recommend you file the spouse too.
- If you filed for a trust, use the SS# or TaxID# you use to report to the federal government, for years 2013 to 2017. If it changed during this time, submit both SS#'s/Tax ID#s.
- If you filed for a partnership with partnership TaxID#, and are not absolutely 100% sure that is how all acres were reported to the federal government from 2013 to 2017, then to be safe we also recommend you file each partners' name and SS# into the settlement web-site. This will guarantee you submit 100% of your acres for these years.

In essence a submission should be done for each Producer with SS# or TaxID#, whether in an individual's name or production entity such as an LLC, trust, etc. If you are comfortable you have done this, then you need not do anything further. If you have any questions or concerns about some production and it getting reported, email us or call us for help.

Also, be aware that the settlement web-site gives you a claim # before your are done. *We don't like this, but it is what it is*. We point this out because some producers realized that they did not complete their submission. **Your submission on the web-site is NOT complete until you get a pop up saying "Congratulations Your Submitted..."** *If you got such a pop up at the end after you electronically signed your name, then you are submitted. If NOT, then you should log back on with your claim # and Tax ID#, and complete the submission process.*

Finally, Brown Greer is the Settlement Administrator for the Syngenta national settlement. Under terms of the national Settlement Agreement, any rejections of submitted claims must be remedied within 30 days by the Producer. Therefore, if you receive a rejection notice from Brown Greer or the Court for any reason, contact us immediately and Jim or I will work with you to fix the problem. Also, we do not have administrative access to the web-site, and thus we cannot see what acres are populating on the back end after you do your submissions. **If you want confirmation, *especially for partnerships*, that your acres populated after you submitted, then either call or email Brown Greer through the settlement web-site.** They have staff that can confirm, after you give them your claim #, that your acres populated on the site after you submitted.

Thank you again for being a client of Shields Law Group, LLC. We will keep you posted as the national settlement process progresses toward conclusion and payment.

National Tort, MDL & Complex Litigation Practice

May _____, 2018

To:_____

VIA U.S. MAIL

Dear Client:

Thank you for letting us know you submitted your name/production entity into the *Syngenta* national corn settlement program, for each person or entity written above. **Please note that you should have submitted into the settlement the name and Tax ID# / SS# for every person or entity (corporation, LLC, trust, partnership) that may have had corn production for any years 2013 to 2017, as reported to the FSA/federal government. The Tax ID# or SS# reported to the FSA during these years is controlling and what captures your acres inside the web-site for cash payment under the settlement program. If you have any doubt, submit a claim for all entities and all Tax ID#s / SS#s used from 2013 to 2017 and which may apply.**

Tips and questions to make sure your claim gets credit for EVERY acre:

- **Is your spouse on an FSA 578?** If you submitted in an individual producer's name and SS#, and your spouse has ever received federal farm payments from 2013 to 2017, we recommend you file your spouse's name and social security number too at the web-site: www.**CornSeedSettlement.com**
- **Is there a trust involved?** If you filed for a trust, use the SS# or Tax ID# you use to report to the federal government, for years 2013 to 2017. If it changed during this time, submit both SS#'s/Tax ID#s.
- **Are you filing for a Partnership?** If you filed for a partnership with partnership TaxID#, and are not absolutely 100% sure how all acres were reported to the federal government from 2013 to 2017, then to be safe we also recommend you either: 1) contact your local FSA office and personally confirm you reported all acres under the partnership name and Tax ID#, or alternatively 2) file each partners' name and SS# into the settlement web-site. This will guarantee you submit 100% of your acres for these years. If some acres were reported one way and other acres the other, the system is designed to capture all acres by the reported Tax ID# or SS#.
- **While doing your submission at the web-site, did you get to the page that said, "Congratulations, your claim has been submitted."?** The settlement web-site gives you a claim # before you are done. Your submission on the web-site is NOT complete until you get to the page that says "Congratulations, your claim has been submitted." **If you did not see this page then you need to log back on the website and complete your claim.**

If you are comfortable you have done this, then you need not do anything further. If you are unsure, you can log back onto the site with your Claim # and Tax ID# and check, OR call or email Brown Greer through the settlement

web-site, give them your Claim #, and they can verify that your submission is complete and your acres are populating inside the web-site.

Finally, Brown Greer is the Court appointed Settlement Administrator for the *Syngenta* national settlement, and they operate the settlement web-site at www.**CornSeedSettlement.com**. Under terms of the national Settlement Agreement, any rejections of submitted claims must be remedied within 30 days by the Producer. Therefore, if you receive a rejection notice from Brown Greer or the Court for any reason, contact us immediately and Jim or Spencer will work with you to fix the problem. We do not have administrative access to the web-site, and thus we cannot see what acres are populating on the back end after you do your submissions. **If you want confirmation, *especially for partnerships*, that your acres populated after you submitted, then either call or email Brown Greer through the settlement web-site.** They have staff that can confirm that your submission(s) are complete.

Thank you again for being a client of Shields Law Group, LLC. We will keep you posted as the national settlement process progresses toward conclusion and payment.

Very truly yours,

Spencer C. Shields *James T. Yoakum*

Spencer C. Shields James T. Yoakum

Midwest Corn Farmer Lawyers

SHIELDS LAW GROUP, LLC

We have yet to receive confirmation the Producer receiving this card has submitted their settlement claim for cash payment at www.CornSeedSettlement.com. It takes 5 minutes to file electronically. FSA farm #'s are NOT needed. After you file, the site will retrieve your corn acres as reported to FSA under SS#/Tax ID# for years 2013 to 2017. Filing Tips: 1.Sign out exactly as you sign in. 2.File separately each SS#/Tax ID# you reported corn with during '13 to '17. 3.If Tax ID# changed, submit both #'s 4.If spouse receives federal payments file their SS# too 5.Web-site gives you a claim # BEFORE your done - complete the submission until you get confirmation your done 6.Note Shields Law Group as firm who filed your lawsuit. Please email us at scs0303@gmail.com when done with names you filed, OR leave message at (913) 963-3011. Questions? Call us. Thank you. Jim & Spencer

Olathe, KS 66062

POSTCARD USA

6-1-18 This post card was mailed today to all producers not yet confirmed settled as of 5-31-18.

"Midwest Lawyers representing the interests of Midwest Farmers"

Although we have attempted multiple contacts, we have yet to receive confirmation the Producer receiving this card has accepted their cash settlement payment at www.CornSeedSettlement.com. It takes 5 minutes to file electronically. Deadlines do apply and FSA farm #'s are NOT needed. You only need your SS#s and Tax ID#s you report corn under. **Turn out on this money will not be 100%, which means more money for you on your case. DO NOT DELAY!**

After you file your SS#/Tax ID# and answer a few brief questions for each Producer submission, the settlement web-site will retrieve your corn acres as reported to FSA under each SS#/Tax ID# for years 2013 to 2017. Filing Tips: 1) Sign out with your name exactly as you sign in. 2) File separately each SS#/Tax ID# you reported corn with during '13 to '17. 3) If your Tax ID# changed, submit both #'s. 4) If your spouse receives federal payments file their SS# too. 5) The web-site gives you a Claim # BEFORE your done - complete the submission until you get confirmation your done. 6) Shields Law Group, LLC is who you hired to file your lawsuit against Syngenta. **Please mark us as the firm who filed your lawsuit. It costs you nothing more in attorney fees, as the Court has already removed the attorney fees off the top of the Settlement Fund. You will NOT get a bill from us. If you want to help us get paid, please note us as your attorneys.** We greatly appreciate your cooperation. Also, if you absolutely need a paper claim form, call us. The Judge does prefer electronic submissions however.

Please email us at scs0303@gmail.com when done along with each name you filed for, OR leave message at (913) 963-3011. We would appreciate having your Claim #s too for each submission. Questions? Call us. We have staff answering phones and email daily. Thank you. Spencer & Jim

National Tort, MDL & Complex Litigation Practice

April 6, 2018

To: Spencer Shields, Attorney
From: Sydney Chiles, Legal Staff Assistant

Re: Additional Supplemental Document Production 12/11/16 through 4/5/18

Spencer,

On July 11, 2016 we sent our first thumb drive of client information to Patrick Haney of Kirkland & Ellis. The flash drive contained 71.4 GB of roughly 1,786 electronic folders, which held 14,906 PDF files. These files were created from March 14, 2016 through July 11, 2016.

On December 10, 2016, we sent our second thumb drive containing 4.45 GB of information on our clients to Patrick Haney of Kirkland & Ellis. Inside the drive was roughly 388 additional electronic folders that held 1,452 PDF files. These files were created from July 12, 2016 through December 10, 2016. All transferred data consisted of the Court Ordered client Plaintiff Fact Sheets, FSA form 578's, APH crop insurance reports and supporting sales summaries where available.

We were prepared to send another flash drive to Mr. Haney, but for the national class settlement approved yesterday in Federal Court. These files were created from December 11, 2016 through April 5, 2018. The drive would have contained an additional 3.36 GB of data comprising roughly 1,047 electronic client folders which held 3,795 additional PDF files. All this additional client data consisted of production of ongoing Plaintiff Fact Sheets and FSA form 578's, per Order of the Minnesota Court and our continuing obligation to supplement for new client filings, as well as those filed prior.

In total, our *Syngenta* database holds 87.1 GB of client information containing 3,463 client folders that hold 25,838 PDF files. This comprises all data scans from March 14, 2016 through April 5, 2018 done by Shields Law Group, LLC in relation to the Court Ordered PFS, etc.

If you need anything else let me know. Thank you.

Sydney Chiles

Re: *Syngenta* Litigation – SLG Plaintiff Producers' PFS and Production thru 7-9-11
MASTER COURT FILE No: 27-CV-15-3785

Dear Patrick:

To date our firm has filed suit on behalf of the 2,257 corn producers and/or landlords identified in the attached Excel spreadsheet, and conformed their claims over to the Master Producers' complaint on file in the Hennepin County, MN State Court Consolidated Proceeding. Also enclosed herewith is a USB thumb drive containing 71.4 GB of information on our clients. The data is organized by client name inside roughly 1,786 electronic folders which hold roughly 14,906 PDF files. These files are indexed by client as follows:

PFS
FSA 2011 to 2015 (scanned separately by year)
CI 2013 to 2015 (the APH's are scanned collectively as one report unless they were provided by year)
SALES (were scanned as received so some are collective of years and some are by year)
SEEDS (were scanned as received so some are collective of years and some are by year)

Where possible, we combined a tenant farmer and his/her landlords into one electronic file, with each plaintiff named on the electronic file.

To find a particular plaintiff's documents, search by the plaintiff's filed name and his/her electronic file should appear. If a plaintiff's name has no electronic file associated with it as yet, that means to date we have received neither a PFS nor documents from our client. Please note some of these missing clients' production is not due until 45 days after service of their suit which occurred in June 2016. I would estimate that roughly 95% of our clients have an electronic file associated with their name included within the enclosed production. This would include plaintiffs who we filed suit for in June 2016.

We will continue to supplement our clients' production as they return their packets and/or supplement their already produced file. We are also working proactively to address any deficiencies as we come across them. If you require anything further, or if you would like to discuss matters, please contact me at (816) 421-0800.

Very truly yours,

Spencer C. Shields

Patrick: As we discussed, we forwarded production today to your attention in D.C. by way of U.S. Mail. I copied Rob Shelquist at his office with our electronic file as well. Our mailed cover letter, along with our Excel spreadsheet of clients, is attached. This is our production through July 9th, 2016. We will continue to supplement in line with the recent Stipulation and proposed Order.

Thanks All. Spencer

Invoice and overview for 9 x 12" Packages...

Don @ RecordNews <don@recordnews.com> Tue, Jan 26, 2016 at 8:42 PM
To: Spencer Shields <scs0303@gmail.com>

Hi Spencer -

We have all pieces printed and bound (and 10 x 13" folded) and are inserting the 3 pieces into the 9 x 12's for mailing. We are realistically looking at finishing up the matching and handwork on Thursday morning (and mailing on Thursday).

Here's a recap of the attached invoice for you:

Print 2200 of each:
Print 9 x 12's = $.18 each = $396
Print 10 x 13's = $.18 each = $396
Print & Staple 2 page cover (generic) = $.105 each = $231
Print & Staple 7 page Fact sheet (variable) = $85 + $.38 each = $921
Total Print = $1,944+tax

Mailing of 1918 pieces:
Inkjet 9 x 12's = $.035 each = $67.13
Inkjet 10 x 13's = $.035 each = $67.13
Handmatch 3 Way = $.29 each = $556.22
NCOA $45
Dedupe $25
Total Mailing Services = $760.48+tax

Postage = $1,243.24

Total Project = $2704.48+tax (229.88)+ $1,243.24 postage = $4,177.60.

Please forward a picture of a check via text or email to my info below for at least the postage amount of $1,243.24 by Thursday for the postage (or can send the entire invoice amount).

Thanks, Spencer!

I have additional 9 x 12's, 10 x 13's, Cover Letters & Fact Sheets for you at my office.

-dm-

Spencer Shields <scs0303@gmail.com>

Shields Law Group, LLC - currently filed MN state court cases

Don M. Downing <ddowning@grgpc.com> Sat, Jun 25, 2016 at 12:46 PM
To: Spencer Shields <scs0303@gmail.com>

We received your firm's declaration on June 14, 2016. We were not certain why you sent us the declaration, but assumed it related to your firm's desire to exclude your clients from the class. To the best of our knowledge, you have not signed any agreement that would entitle you to have your clients excluded from the class. That agreement was signed only by the Minnesota leadership lawyers.

After consulting with the Minnesota leadership, we are willing to allow you to take advantage of the agreement signed by the Minnesota leadership lawyers and exclude your clients from the class, but only if you timely comply with the same requirements the Minnesota leadership lawyers have agreed to comply with. Those requirements include:

1. Provide in Excel format a list of all producer clients who had cases on file in state court as of June 15, 2016, with columns showing for each producer: (1)the producer name, (2) style of case, (3) the state in which the producer farms and (4) the producer's corn acres in each of the years 2013, 2014 and 2015 as set forth on the FSA form 578. Please list only the acres in which the producer has an interest. For example, if the producer's share as shown on the FSA 578 form is 50% of an 80 acre crop, the acres shown on the spreadsheet should show 40 acres for that producer.

2. We need this spreadsheet no later than August 15, 2016

3. You also must provide copies in a PDF format of all of the 2013, 2014 and 2015 F5A Form 578's for each of the produces listed on the spreadsheet mentioned in #1 above.

4. You agree to supplement your Excel spreadsheet and PDF production as FSA Form 578's become available for the producers identified in #1 above for years after 2015.

5. Finally, you must not oppose class certification in the federal MDL.

If you comply with these terms and the other terms in the First Addendum to Amended and Restated Joint Prosecution Agreement with certain firms in the Minnesota leadership, we will exclude from our class your producer clients who had cases on filed in state court as of June 15, 2016.

Please let us know whether you wish to have your clients excluded from the class and your willingness to timely comply with the above-stated requirements.

In re Syngenta Corn Litigation - Minnesota Excluded Client Information

Don M. Downing <ddowning@grgpc.com> Thu, Aug 25, 2016 at 1:48 PM
To: "scs0303@gmail.com" <scs0303@gmail.com>
Cc: "Don M. Downing" <ddowning@grgpc.com>

Spencer,

As you know we agreed to extend the deadline to August 15, 2016, to provide us with specific information on the clients you want to exclude from the class in the Kansas MDL. We received a list of the excluded clients but still need the following additional information in the format specified:

1. Provide in Excel format a list of all producer clients who had cases on file in state court as of June 15, 2016, with columns showing for each producer: (1) the producer name, (2) style of case, (3) the state in which the producer farms and the producer's corn acres in each of the years 2013, 2014 and 2015 as set forth on the FSA form 578. Please list only the acres in which the producer has an interest. For example, if the producer's share as shown on the FSA 578 form is 50% of an 80 acre crop, the acres shown on the spreadsheet should show 40 acres for that producer.

2. We need this spreadsheet **no later than September 13, 2016**.

3. Copies in a PDF format of all of the 2013, 2014 and 2015 FSA Form 578's for each of the producers listed on the spreadsheet mentioned in #1 above.

Please keep in mind that only producers whose cases were on file by June 15, 2016 will be excluded as set forth in our agreement.

Our class certification hearing is on September 13 thus we need this information in order to understand and verify which producers are excluded from the class along with the amount of acreage.

Mr. Shields,

Thank you for providing the spreadsheet of the clients you wish to exclude from the Kansas MDL if the class is certified. The FSA-578 thumb drive has been received in our office as you noted in your earlier email today. With regard to your request that we consider an automatic opt out for those clients who will be filing in Minnesota within the next 10 days, we cannot make an exception under the deal with the Minnesota leadership. Those clients will have the option to opt out if they do not want to be part of the class. Don is presently out of the office preparing for the class certification hearing but will be able to discuss this with you on Thursday or Friday of this week.

Don: On July 11th our firm produced to Syngenta's counsel some 15,000 pdf's as initial discovery responses for our 2,257 producer plaintiffs who were filed into the MN state court consolidation by June 14th. We have a response rate from our producer clients of nearly 97%, with most of them already providing their FSA Form 578's for years '13 to '15 to us. **We do request that our identified producers listed on our client list sent to you on June 14th not be included within the MDL class definition,** and we are agreeable with your terms as set forth in your June 25th email. We can provide most of what you ask for by August 15th, including the actual FSA Form 578's of all our clients. What will be a problem is stating how many acres each producer planted EXACTLY; **we have estimates for the time being**. We are currently working on extracting this data (EXACT acreage and other specific data) from our clients' documents and uploading it our spreadsheet. I just can't guarantee we can have that all done by August 15th. Again, we have most of our clients' FSA docs as of now and can send them, along with estimated acreage, by August 15th. We will of course agree to supplement as soon as possible thereafter.

Let me know your thoughts. Thanks Don. Spencer

To: Spencer Shields <scs0303@gmail.com>

Spencer, when can you get us the excel spreadsheet reflecting all the acreage data from the FSA Form 578's referred to in my prior email? Estimates do not work for us.

Don

To: "Don M. Downing" <ddowning@grgpc.com>, "spencershields@kc.surewest.net" <scs0303@gmail.com>

Don: The game plan our staff is currently operating under is:

1. get any deficiency paper work from our producers prior to their fall harvest (Sept. 15th or so); then
2. Sept. 15th thru December 15th we were going to begin extracting all the actual acre and bushel production data from our producer docs and placing them onto our spreadsheet.

Our goal was by Dec. 15th we have all data extracted and have very specific numbers regarding acres and bushels for all our producer clients. We also will make supplemental production to Syngenta/Kirkland & Ellis by year's end.

Our producers provided "estimated acres of corn planted" initially on their contracts for years '13, '14 and '15. Most are pretty accurate, and we have FSA docs now on most to cross check quickly.

Let me know your thoughts regarding time demands on your end. I understand this is for damage modeling and needs to be accurate. Thanks Don. Spencer

Spencer, we need an excel spreadsheet showing the acreage for each of your clients as shown on the FSA 578 as soon as possible. As mentioned in my previous email back in June, this spreadsheet was originally due earlier but we extended the deadline until August 15, 2016. Our experts need this information now to complete their damage reports. If you have any question about format or other information about what needs to be included in the spreadsheet, please contact my paralegal Jackie Statz. I understand some in the Minnesota leadership have found a relatively inexpensive and quick way to get this job done through workers in India. I encourage you to reach out to Rick Paul in the Minnesota leadership on this, and he can fill you in. But please get this to us ASAP – if our expert don't have it, we will not be able to exclude your clients from the class.

Don and Jackie: We put additional staff on this project a month ago and I'm told we will be done with our spreadsheet by Friday evening of this week. I will overnight it on a memory stick from there, and likely email it as well in a zip drive. Thanks for the heads up. Spencer

Don and Jackie: Attached is our firm's Excel spreadsheet with our clients represented through 9-10-16. All clients listed #1 through #2258 (Marceil A. Kleine of Allen County, IN) had their individual producer cases on file in MN state court by June 15, 2016, and all their cases have been conformed over to the MN state consolidated master petition pending before Judge Sipkins in Case No.: 27-CV-15-3785 in Hennepin County, MN. I previously attested under oath to this fact and sent you our declaration of oath back on June 14th, 2016. Clients listed #2259 (Friestad Farms, Inc.) through #2294 (Evelyn Carlisle) will have their cases on file in MN within 10 days, and we would request that they be considered for automatic opt out as well.

Regarding FSA PDF's for all clients, we burned those to a thumb drive and Fed Ex'ed them to your attention on Friday of last week. You are scheduled to receive that delivery today via Fed Ex at your St. Louis office. Please look for it and combine our clients' data with our spreadsheet attached.

Regarding our spreadsheet, if an * is listed to the right of a producer's name, their acreage is accounted for in a prior line as they are a partner within an already identified DBA farm operation. If the acreage columns are blank to the right of a producer's name, we are still awaiting receipt of our clients' FSA documents. We have had a great response so far receiving our clients' FSA documents so most of our spreadsheet is filled in. We will of course supplement FSA acreage data as more information comes in.

Finally, my letter of September 9, 2016 is attached, which was also mailed with our thumb drive containing all FSA documents in PDF format. Please let us know if you require anything further on our end. Thanks to you both.

Re: Syngenta MDL 2591 ***VIA FED EX AND EMAIL***

Dear Don:

Per your request, attached is a thumb drive which we have copied approximately 6,169 PDF's to, said PDF's which include our producer clients' FSA documents for years 2011 to 2015, all of whom filed suit in Minnesota state court on or before June 15th, 2016. I will email this information as well, in addition to our spreadsheet with our indicated acres for each producer (as you requested in your email of August 25th). It is understood and agreed that in exchange for this data, you will opt out our producer clients from the MDL class case in the event it is certified. Further, we trust you will keep the FSA documents confidential in-line with the agreements and orders in place already.

If you require anything else on our end, please let us know.

Very truly yours,

Spencer C. Shields

This e-mail is intended only for the addressee and may contain confidential or privileged material. Use or interception of this e-mail by someone other than the intended recipient is prohibited by law. If you received this e-mail in error, contact us immediately at 913-393-2080, and delete the communication from any computer or network system. In the event this communication and e-mail is in response to an inquiry about possible legal representation or services, this communication should not be construed to indicate that an attorney-client relationship exists. E-mail communications are not intended to replace in-person or other types of communication for the purpose of determining whether an attorney-client relationship exists and, unless there is a written agreement or confirmation in written, non e-mail form, please assume that an attorney-client relationship does not exist.

The Kansas/Missouri Bar Chief Disciplinary Counsel requires all Kansas/Missouri lawyers to notify all recipients of email that: (1) e-mail communication is not a secure method of communication; (2) any e-mail that is sent to you or by you may be copied and held by various computers it passes through as it goes from me to you or vice versa; and (3) persons not participating in our communication may intercept our communications by improperly accessing your computer or my computer or even some computer unconnected to either of us which the email passed through. Further, I am communicating to you via e-mail because you have consented to receive communications via this medium. If you change your mind and want future communications to be sent in a different fashion, please let me know at once.

In re: Syngenta Litigation (Court File No. 27-cv-15-3785)

IMPORTANT: RESPONSE REQUIRED BY JANUARY 31, 2017

Dear Counsel:

On December 22, 2016, the Court issued the attached Order relating to the Class Notice. In that Order, the Court directed counsel to submit a list of clients that qualify and wish to be amended out of the Minnesota Class Definition, no later than January 31, 2017.

In order to eligible to appear on a list:

1. The client must be a Minnesota Producer; AND

2. The client must have a case filed on their behalf in this Court in these consolidated proceedings; OR the filing Counsel must have signed the Minnesota Participation Agreement.

In an effort to clarify and make consistent the information required on the list, we are circulating the attached spreadsheet. While many columns are self-explanatory, please see below and feel free to contact my office with any questions.

Column A – First Name:

- This is the first name of the client you are excluding from the Minnesota Class.

Column B – Last Name:

- This is the last name of the client you are excluding from the Minnesota Class.

Column C – Farm (Entity Name):

- To the extent that your client has a Minnesota corn farm with an entity name please include the entity name in this column. If no name exists, leave blank.

Column D – Address:

- Street name and number of the client's residence.

Column E – City:

- City of the client's residence.

Column F – State:

- State of the client's residence.

Column G – Zip:

- Zip code for the client's residence.

Column H – County:

- County of client's FARM.

Column I – Percentage of Ownership:

- Please list the percentage of ownership in the farm that the client possesses. To the extent that the percentage of ownership has changed between 2013-2017, please provide the average.

Column J – Number of Corn Acres Planted 2013-2017 (Actual or Estimate):

- This column should include the total number of corn acres planted from 2013 – 2017 as shown on the FSA. For the 2017 year, please include planned acres estimate.

Column K – Date Case Filed:

- The date the client's case was filed in Minnesota State court. If the case was not filed, please state N/A.

Column L – Case Caption:

- Case caption if the case is filed. If column K states N/A, then this column should as well.

Column M – Attorney Name/Firm:

- The name of the attorney and firm handling this case.

After the lists have been submitted, Class Counsel will move the Court to amend the Class Definition to specifically exclude any qualifying client appearing on the submitted list.

Please do not hesitate to contact my office with questions.

Sincerely,

GUSTAFSON GLUEK PLLC

Daniel E. Gustafson
Co-Lead Class Counsel

Dan and Sarah: Attached is our firm's Excel spreadsheet with our MN clients represented through 9-10-16. All clients listed have their individual producer cases on file in MN state court, and all their cases have been conformed over to the MN state consolidated master petition pending before Judge Sipkins in Case No.: 27-CV-15-3785 in Hennepin County, MN.

Regarding FSA PDF's for all MN clients, we burned those to a thumb drive and Fed Ex'ed them to your attention. You are scheduled to receive that delivery at your Minneapolis office in the next day or so. Please look for it and combine our clients' data with our spreadsheet attached.

Regarding our spreadsheet, if an * is listed to the right of a producer's name, their acreage is accounted for in a prior line as they are a partner within an already identified DBA farm operation. If the acreage columns are blank to the right of a producer's name, we are still awaiting receipt of our clients' FSA documents. We have had a great response so far receiving our clients' FSA documents so most of our spreadsheet is filled in. We will of course supplement FSA acreage data as more information comes in.

Please let us know if you require anything further on our end. Thanks to you both.

To: Spencer Shields <scs0303@gmail.com>, "yoakum.shields" <yoakum.shields@gmail.com>

Thank you. We will also need the individual state court file number for each producer and the date the case was filed. If you could send me a revised spreadsheet with this information added I would appreciate it.

Thank you,
Sarah

Good Morning,

Just following up to see if I can get the court file numbers and filing dates for these plaintiffs.

Thank you,

Sarah

In re: Syngenta Litigation (Court File No. 27-cv-15-3785)

IMPORTANT: RESPONSE REQUIRED BY SEPTEMBER 9, 2016

Dear Counsel:

We write regarding the Class Certification exclusion requirements of the Minnesota Participation Agreement (MPA) (copy attached). As you recall, Section 2.D.i.-iii. of the MPA, explains that Co-Lead Class Counsel will exclude from the Class Certification Definition any individual Minnesota Producers who have:

1. cases filed in the Minnesota state court;

2. that are pending as of the date the Class Certification Order; and

3. are included on a Client List as of the date of the Class Certification Order.

This is **different from MDL** requirements.

Therefore, if you want your Minnesota filed cases to be excluded from the Minnesota Class Definition under the MPA, you must complete the attached form no later than **September 9, 2016** and return to Sarah Moen at my office via email: smoen@gustafsongluek.com. In addition to the list, please include the following information:

1. Your Excel spreadsheet needs to include a list of all Minnesota filed cases you want to exclude ("Client List"). [*See* MPA Section 2.D.i.-iii.]

2. Copies in a PDF format of all of the 2013, 2014 and 2015 FSA Form 578's for each of the Minnesota producers listed on your Client List. [*See* MPA Section 2.D.i.-iii.]

Remember, to be excluded from the Minnesota Class, we need this spreadsheet **no later than September 9, 2016.**

Please call Sarah Moen at 612-333-8844 if you have any questions.

Sincerely,

GUSTAFSON GLUEK PLLC

Daniel E. Gustafson

SYT Opt-Out List

Spencer Shields <scs0303@gmail.com> Thu, Oct 12, 2017 at 4:33 PM
To: Ashlea Schwarz <ashlea@paulllp.com>, "spencershields@kc.surewest.net" <scs0303@gmail.com>, "yoakum.shields" <yoakum.shields@gmail.com>

CONFIDENTIAL

Ashlea: Nice to hear from you. Per your request, attached is an Excel spreadsheet with all of our clients listed, Producers and Non-Producers (2nd sheet in document is non-producers).

Regarding Producers, most of our clients were filed into MN prior to 6/15/16 and therefore were automatically opted out per agreement with MDL counsel. We designated these clients on the list as AUTO EXCLUSION.

We then had Producers that we filed after 6/15/16 but before the 4/15/17 MDL opt out date. For all these cases, we had a 100% opt out in writing per the federal court's protocol. We had all our clients copy us with their mailed opt outs, so we have copies in all their files. They are designated with an OPT OUT next to their names.

Then, after Judge Lungstrum dismissed the federal Lanham Act in April 2017, we continued to file for Producers in non-state wide class cert states, mostly ND, MI, WI and IN, with some from CO, OK, as well. We designated these clients with POST LANHAM DISMISS.

All of our Producers have been filed into MN and conformed over. We have provided initial case #'s and filing dates for everyone. We only have 5 Producers left to file into MN listed at the bottom of the list, FYI.

I hope this helps. Let me know if you have any questions. Spencer

SYT Opt-Out List

Ashlea Schwarz <ashlea@paulllp.com> Thu, Oct 12, 2017 at 10:46 AM
To: Spencer Shields <scs0303@gmail.com>

Spencer,

In furtherance the settlement negotiations, we are trying to wrap our hands around the total number excluded and opt-out plaintiffs. Of course, the Affidavit that the KS CLC submitted in D. Kan. is the starting place, but it was full of errors. Assuming we win at the end of the day on the discrepancies (both the clerical and "deficiency" issues), can you send me what you believe to be the number of opt-outs you all have and the number of Plaintiffs that were excluded from the class notice? I will keep the information confidential.

Much appreciated,

Ashlea
