MDL No. 2591

MEMORANDUM IN SUPPORT OF TOUPS/COFFMAN PLAINTIFFS' COUNSEL'S  
MOTION FOR AN AWARD OF ATTORNEYS' FEES AND EXPENSES

TO THE HONORABLE UNITED STATES DISTRICT COURT:

Attorneys Mitchell A. Toups and Richard L. Coffman, on behalf of themselves and co-counsel, Richardson, Patrick, Westbrook & Brickman, LLC, and the referral counsel listed in Exhibit D (collectively, "Toups/Coffman Plaintiffs' Counsel"), file this Memorandum in Support of their Motion for an Award of Attorneys' Fees and Expenses<sup>1</sup>, and respectfully state the following:

---

<sup>1</sup> Toups/Coffman Plaintiffs' Counsel are not class counsel in this litigation. Nor were they subject to any of the Court's orders requiring class counsel to keep and maintain contemporaneous time records. Rather, Toups/Coffman Plaintiffs' Counsel collectively represent over 9,400 individual U.S. corn producers under contingent fee contracts ("Toups/Coffman Plaintiffs"). See Exhibit E.

**TOUPS/COFFMAN PLAINTIFFS' COUNSEL'S CLIENT WORK**

Toups/Coffman Plaintiffs' Counsel first got involved in this litigation in 2014 when they were contacted by former clients in other similar litigation. Declaration of Mitchell A. Toups (Exhibit A); Declaration of Richard L. Coffman (Exhibit B).<sup>2</sup>

Since that time, Toups/Coffman Plaintiffs' Counsel have spent countless hours meeting with corn producers in the fields, in barns, across the hoods of trucks, in restaurants, in barber shops, and around kitchen tables to discuss the litigation and answer their questions. Toups Decl.; Coffman Decl. All told, Toups/Coffman Plaintiffs' Counsel collectively represent over 9,400 U.S. corn producers in 44 states collectively farming over 3 million acres of corn total on the average during each year in the damages period. *Id.*

Toups/Coffman Plaintiffs' Counsel have a signed contract with each and every corn producer client they represent. *Id.* The contracts state that Toups/Coffman Plaintiffs' Counsel will advance all litigation expenses and court costs on behalf of Toups/Coffman Plaintiffs. *Id.* Under the contracts, to date, Toups/Coffman Plaintiffs' Counsel have not been compensated for representing

---

Messrs. Toups and Coffman are lead counsel for all of the 9,400+ Toups/Coffman Plaintiffs. Of the Toups/Coffman Plaintiff group, Messrs. Toups and Coffman represent over 4800 clients outright, approximately 3000 clients in conjunction with co-counsel, Richardson, Patrick, Westbrook & Brickman, LLC, and over 1600 clients with the referral counsel listed in Exhibit D.

That said, and out of an abundance of caution, Toups/Coffman Plaintiffs' Counsel file their Motion for an Award of Attorneys' Fees and Expenses and Supporting Memorandum solely to comply with the Court's April 10, 2018 Preliminary Approval Order (Doc. #3532). In doing so, however, Toups/Coffman Plaintiffs' Counsel in no way waive, but rather, expressly reserve, and assert, their right to be compensated under the terms of the contingent fee agreements with their clients.

<sup>2</sup> All Declarations and other Exhibits to this Memorandum in Support of Toups/Coffman Plaintiffs' Counsel Motion for an Award of Attorneys' Fees and Expenses are incorporated herein, by reference. Toups/Coffman Plaintiffs' Counsel reserve the right to supplement their Declarations and/or submit additional declarations as need be.

Toups/Coffman Plaintiffs, and will be compensated only upon their clients' recoveries. *Id.* Plainly stated, Toups/Coffman Plaintiffs' Counsel have devoted, and will continue to devote, a large amount of resources to this litigation despite considerable risk of non-payment. *Id.* Toups/Coffman Plaintiffs' Counsel are here for the long haul to protect their clients' interests and do whatever it takes to maximize their recoveries. *Id.*

Prior to the litigation settling in September 2017, Toups/Coffman Plaintiffs' Counsel, individually or with co-counsel and referral counsel, spent thousands of man-hours, devoting time, risk, and effort: (i) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the litigation and their claims, (ii) filing and prosecuting Toups/Coffman Plaintiffs' claims in federal and state courts<sup>3</sup>, (iii) working with Toups/Coffman Plaintiffs to identify, collect, organize, and store documents and information supporting their claims, (iv) working with local Farm Services Administration (FSA) offices across the country to obtain Toups/Coffman Plaintiffs' Forms 578 in further support of their claims, (v) working with Toups/Coffman Plaintiffs to complete and submit their Plaintiff Fact Sheets (PFS) under the tight time deadlines imposed by the Court, (v) closely monitoring the litigation on all fronts, including attending status conferences and hearings telephonically and in person, and (vi) on telephone calls,

---

<sup>3</sup> On information and belief, Messrs. Toups and Coffman represent the largest number of individual corn producer plaintiffs in the federal MDL proceeding. Toups Decl.; Coffman Decl. Messrs. Toups and Coffman also represent 15 of the 48 designated bellwether plaintiffs, who, with their assistance, answered written discovery, produced documents, and sat for their depositions—under tight time deadlines—in full support of the litigation against Syngenta. *Id.*

Per the Court's order governing common benefit time and expenses, Messrs. Toups and Coffman kept and maintained detailed contemporaneous records of their common benefit time and expenses, which were authorized and approved by class counsel. Messrs. Toups' and Coffman's common benefit time and expenses have been presented to the Court for payment in a separate submission. *Id.* None of Messrs.' Toups' and Coffman's common benefit time and expenses are included in this Motion, nor is any of their time spent preparing this Motion and Supporting Memorandum claimed here. *Id.*

regularly sending hundreds of thousands of hard copy and email correspondence, in meetings, and establishing, maintaining, and regularly updating a dedicated case website—all to keep Toups/Coffman Plaintiffs fully apprised of the status of the litigation and their claims, and fully protect their interests. Toups Decl.; Coffman Decl.

After the litigation settled in September 2017, Toups/Coffman Plaintiffs' Counsel, individually or with co-counsel and referral counsel, have spent, and will continue to spend into the future, thousands of man-hours, devoting more time, risk, and effort: (i) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about, *inter alia*, the litigation, the settlement, the claims process, settlement claim forms, settlement claim form logistics, and how and when the settlement will be distributed, (ii) working with local FSA offices across the country to obtain Toups/Coffman Plaintiffs' Forms 578 in order to prepare their settlement claim forms, (iii) preparing and sending the settlement claim forms to Toups/Coffman Plaintiffs for their review and signature, (iv) researching and obtaining Social Security numbers and Federal ID numbers necessary to complete the settlement claim forms, (v) submitting Toups/Coffman Plaintiffs' completed and signed settlement claim forms to the claims administrator on their behalf,<sup>4</sup> (vi) working with the claims administrator regarding any post-claim form submission issues on behalf of Toups/Coffman Plaintiffs, (v) on telephone calls, regularly

---

<sup>4</sup> As of the date this Motion was filed, Toups/Coffman Plaintiffs' Counsel had submitted settlement claim forms on behalf of approximately 70% of the clients jointly represented by Messrs. Toups, Coffman, and referral counsel, and approximately 54% of the clients jointly represented by Messrs. Toups, Coffman, and the Richardson Patrick firm. Toups Decl.; Coffman Decl. On information and belief, this is the highest claim form submission rate of any individual corn producer plaintiff group and, in fact, Toups/Coffman Plaintiffs may have submitted more outright claim forms to the claims administrator than any other claimant group—whether represented by counsel or non-represented “true” class members. *Id.* Toups/Coffman Plaintiffs' Counsel will continue to work with their clients throughout the claims period in a concerted effort to achieve 100% participation. *Id.*

sending hundreds of thousands of hard copy and email correspondence, and in meetings following-up with clients to make sure they sign and return their claim forms so Touns/Coffman Plaintiffs' Counsel may timely file them before the Court-imposed 150-day deadline passes, (vi) closely monitoring the litigation on all fronts, including briefing key issues pertaining to the settlement to protect their clients' and all corn producers' interests,<sup>5</sup> (vii) attending and participating in hearings and status conferences telephonically and in person, and (viii) on telephone calls, regularly sending hard copy and email correspondence, in meetings, and maintaining and regularly updating their case website ([www.corncasesettlement.com](http://www.corncasesettlement.com))—all to keep Touns/Coffman Plaintiffs fully apprised of the status of the litigation and the settlement at all times and fully protect their interests. Touns Decl.; Coffman Decl.

Touns/Coffman Plaintiffs' Counsel will continue to work with, and on behalf of, Touns/Coffman Plaintiffs until the day they receive their settlement distribution checks. Touns decl.; Coffman Decl. Touns/Coffman Plaintiffs' Counsel will do whatever is necessary to protect their clients' interests and ensure their maximum possible settlement distributions. *Id.*

Touns/Coffman Plaintiffs and other non-client corn producers have regularly told Touns/Coffman Plaintiffs' Counsel how much they appreciate counsel's (i) accessibility (many were surprised and delighted that counsel actually took their calls and responded to their emails when other lawyers didn't), (ii) answers to their questions, (iii) interest in them and their operations, (iv) regular in person and telephonic litigation updates, and (v) preparation of their settlement claim forms for their review and signature, and then submitting them—especially since

---

<sup>5</sup> See, e.g., Motion to Delay Consideration of the Request for Preliminary Approval of the Mediated Settlement Agreement (Doc. #3499); Response in Opposition to Motion for Preliminary Approval of the Proposed Class Settlement Agreement (Doc. #3514).

many corn producers do not use the internet and/or are confused by the settlement claim forms—as they are very busy this time of year working in the fields. Touns Decl.; Coffman Decl.

In short, Touns/Coffman Plaintiffs' Counsel have been heavily involved in the litigation for almost four years and will continue to be heavily involved for the duration—working hard on behalf, and for the benefit, of their clients. Touns Decl.; Coffman Decl. They did not just appear on the scene after the settlement was announced. *Id.*

### **MOTION FOR AN AWARD OF ATTORNEYS' FEES AND EXPENSES**

#### **I. Touns/Coffman Plaintiffs' Counsel are entitled to attorneys' fees under the contingent fee contracts with their clients.**

Simply stated, Touns/Coffman Plaintiffs' Counsel are entitled to attorneys' fees calculated using the contingent fee percentages set forth in each of their client's contracts (*see* Exhibit E).<sup>6</sup> Based on their clients' contractual contingent fee percentages (Exhibit E), Touns/Coffman Plaintiffs' Counsel estimate that Touns/Coffman Plaintiffs' settlement claims will comprise at least 10% of the value of the claims filed. Touns Decl.; Coffman Decl. At this rate, Touns/Coffman Plaintiffs' Counsel's attorneys' fees under the contingent fee contracts with Touns/Coffman Plaintiffs would be \$34 million. *Id.* Counsel's attorneys' fees, of course, would increase if the Touns/Coffman Plaintiffs' settlement claims comprise greater than 10% of the value of the claims filed. *Id.*

Thus, based on the current structure of the settlement, the Court, respectfully, must fashion an attorneys' fee and expense payment mechanism that honors the contingent fee contracts between

---

<sup>6</sup> Likewise, per the contracts, Touns/Coffman Plaintiffs' Counsel are entitled to recover their reasonable litigation expenses incurred to prosecute the litigation on behalf of Touns/Coffman Plaintiffs. Touns Decl.; Coffman Decl. Touns/Coffman Plaintiffs' Counsel's total reimbursable litigation expenses are \$374,532.19, consisting of Messrs. Touns' and Coffman's expenses (\$215,176.23) (Touns Decl.; Coffman Decl.), Richardson Patrick's expenses (\$57,612.15) (Exhibit C), and referral counsel's expenses (\$101,743.81) (Exhibit D).

Toups/Coffman Plaintiffs' Counsel and Toups/Coffman Plaintiffs. There is no law justifying the abrogation of these contracts. Toups/Coffman Plaintiffs' Counsel, therefore, respectfully request that the Court honor their contingent fee contracts with Toups/Coffman Plaintiffs, and compensate Toups/Coffman Plaintiffs' Counsel accordingly.

**II. For purposes of a cross-check only, Toups/Coffman Plaintiffs' Counsel's attorneys' fees under the contingent fee contracts with Toups/Coffman Plaintiffs are reasonable in light of the time spent working on their behalf in the litigation.**

Working under individual contingent fee contracts with each of their corn producer clients, Toups/Coffman Plaintiffs' Counsel were not under any obligation to keep and maintain contemporaneous time records of the work they performed on behalf of their clients. Toups Decl.; Coffman Decl. That said, solely as a cross-check, Messrs. Toups and Coffman reasonably estimate that since September 2014, their law firms have collectively spent at least 4-5 hours of time per client (or 2-2.5 hours per client per law firm on the average). *Id.* An average of 4 hours of work per client equates to at least 37,600 hours for Messrs. Toups' and Coffman's firms performing the above-referenced tasks on behalf of each Toups/Coffman Plaintiff over a four-year period. *Id.*

As a further cross-check, Messrs. Toups and Coffman attempted to reconstruct their time from their records. Toups Decl.; Coffman Decl. Per their time reconstructions, through July 4, 2018, Mr. Toups' firm has spent approximately 20,000 hours working on this litigation, and Mr. Coffman's firm has spent approximately 13,000 hours working on this litigation. Toups Decl.; Coffman Decl. This time, of course, does not include any time spent by Messrs. Toups' and Coffman's firms after July 4, 2018 (i) on telephone calls, sending email, and in meetings with clients and other corn producers to answer questions about, *inter alia*, the litigation, the settlement, the claims process, settlement claim forms, settlement claim form logistics, and how and when the settlement will be distributed, (ii) preparing and sending the settlement claim forms to Toups/Coffman Plaintiffs for their review and signature, (iii) researching and obtaining Social

Security numbers and Federal ID numbers necessary to complete the settlement claim forms, (iv) submitting Toups/Coffman Plaintiffs' completed and signed settlement claim forms to the claims administrator on their behalf, (v) working with the claims administrator regarding any post-claim form submission issues on behalf of Toups/Coffman Plaintiffs, (vi) on telephone calls, regularly sending hard copy and email correspondence, and in meetings following-up with clients to make sure they sign and return their claim forms so Toups/Coffman Plaintiffs' Counsel may timely file them before the Court-imposed 150-day deadline passes, (vii) closely monitoring the litigation on all fronts, including briefing key issues pertaining to the settlement to protect their clients' interests, (viii) attending and participating in hearings and status conferences telephonically and in person, and (ix) on telephone calls, regularly sending hard copy and email correspondence, in meetings, and maintaining and regularly updating their dedicated case website. *Id.* While Messrs. Toups' and Coffman's ability to reconstruct time is not completely accurate, as a cross-check, it is approximately 90% percent of their estimated time—thereby validating its soundness.

In addition, Messrs. Toups and Coffman worked as co-counsel with Richardson, Patrick, Westbrook & Brickman, LLC on behalf of approximately 3000 individual corn producer clients. *See Declaration of T. Christopher Tuck (Exhibit C).* The Richardson Patrick firm's estimated time spent working on the litigation (12,260 hours) is consistent with Messrs. Toups' and Coffman's estimated time of approximately 4 hours per client over a four-year period. *Id.*

Messrs. Toups and Coffman also worked with referral counsel on behalf of their clients in the litigation. Toups Decl.; Coffman Decl. Referral counsel have collectively spent over 9000 hours working on behalf of 1,637 clients (Exhibit D), which is right in line with the 5-hour per client average. Toups Decl.; Coffman Decl.

The total estimated time of 58,860 hours spent working on this litigation by Messrs. Touns and Coffman (37,600 hours), Richardson Patrick (12,260 hours), and referral counsel (9000 hours) does not include estimated future time to be spent working on behalf of Touns/Coffman Plaintiffs. Touns Decl.; Coffman Decl. Once future estimated time is factored into the calculus—Touns/Coffman Plaintiffs’ Counsel will continue to assist their clients in the settlement claim process and protect their interests—the total Touns/Coffman Plaintiffs’ Counsel estimated cross-check time, at a blended rate of \$450 per hour, will exceed \$30 million. *Id.* This cross-check attorneys’ fee is consistent with Touns/Coffman Plaintiffs’ Counsel’s minimum estimated \$34 million of attorneys’ fees under the terms of the contingent fee contracts with their clients. *Id.*

As a further cross-check, a \$34 million attorneys’ fee equates to an average of \$3,617 per client over four years (less than \$1,000 per year), which is less than an uncontested divorce or minor probate matter in the State of Texas. *Id.* Yet this case is a complex mass tort that, in the end, will take close to five years to resolve with lawyers spending as much as 50% of their time working on the litigation, and certain paralegals and staff spending 100% of their time working on the litigation. *Id.*

The contingent fee contracts between the almost 80,000 individual corn producer plaintiffs and their lawyers, including Touns/Coffman Plaintiffs and Touns/Coffman Plaintiffs’ Counsel, should be enforced because the individual corn producer cases added substantial value to the outcome of the litigation. In fact, they drove the settlement. Class counsel, the Settlement Negotiation Committee, and Syngenta recognized the value of the individual corn producer plaintiffs represented by counsel when they signed the September 25, 2017 Settlement Term Sheet (Doc. #3514, Ex. A):

xviii. Nothing in this Term Sheet or the Settlement Agreements or the filing of subsequent settlement class certification motions will subject Individual Plaintiffs Counsel, the Individual Plaintiffs or the Individual Opt Outs, or their respective counsel to the jurisdiction of any federal court in connection with the Individual Plaintiffs' Claims, the Individual Opt Outs' Claims, the Settlement Agreements, the Individual Plaintiff QSF, or with respect to fees contracted to be paid to Individual Plaintiffs Counsel or other lawyers providing a timely Registration List by the Registration deadlines;

*Id.* at 9, para. XVIII. This is clearly an admission of the value of the individual corn producer plaintiffs and their counsel to the litigation, as well as an agreement not to interfere with the corresponding individual contingent fee contracts.

Moreover, individual corn producer plaintiffs will file the vast majority of the settlement claims. In fact, on information and belief, the number of claims to date filed by “true” class members (*i.e.*, corn producers not represented by counsel) is minimal. Toups Decl.; Coffman Decl. Nor will the “true” class member filing rate improve over time; rather, it will decrease over time—especially since the 150-day claim filing period is layered over that time of the year that corn farmers are working long hours in the fields. *Id.* They have other, more pressing priorities.

On information and belief, at the end of the day, claims filed by “true” class members will be less than 10% of the filed claims—meaning, contingent fee lawyers representing individual corn producers—such as Toups/Coffman Plaintiffs' Counsel representing Toups/Coffman Plaintiffs—as a whole are the real reason the litigation settled, and the reason why an estimated 90% or more of the settlement claims will be filed by individual corn producer plaintiffs. Toups Decl.; Coffman Decl. Thus, the contingent fee lawyers, including Toups/Coffman Plaintiffs' Counsel, should be properly compensated pursuant to the terms of their contingent fee contracts. *See, e.g., Gottlieb v. Barry*, 43 F.3d 474, 488 (10th Cir. 1994) (“We fail to see why the work of counsel later designated as class counsel should be compensated, while the work of counsel who were not later designated

class counsel, but on whose shoulders class counsel admittedly stood, should be wholly uncompensated.”).<sup>7</sup>

**WHEREFORE**, Touns/Coffman Plaintiffs’ Counsel respectfully request the Court to (i) honor the contingent fee contracts they have with Touns/Coffman Plaintiffs, (ii) award them a minimum of \$34 million of attorneys’ fees and reimburse them \$374,532.19 of reasonable litigation expenses pursuant to the terms of such contracts, and (iii) grant them such other and further relief to which they are justly entitled.

In the alternative, if the Court abrogates the contingency fee agreements between Touns/Coffman Plaintiffs’ Counsel and Touns/Coffman Plaintiffs (for which there is no law justifying same), Touns/Coffman Plaintiffs’ Counsel request an award of attorneys’ fees (in the amount of at least \$30 million with a minimum 1.5 multiplier) and an expense reimbursement (\$374,532.19) based on the time incurred and litigation expenses advanced in prosecuting this action on behalf of Touns/Coffman Plaintiffs. Or, in the further alternative, Touns/Coffman Plaintiffs’ Counsel request an attorneys’ fee award equal to a minimum 10% of the total amount

---

<sup>7</sup> Indeed, in its January 22, 2015 Order Concerning Appointment of Counsel (Doc. #67), the Court recognized the legitimacy of individual corn producer plaintiff claims:

The court was especially impressed by the extent to which their lawyers had thought through the matter of advancing the interests of diverse groups of plaintiffs and built a team which takes those interests into account. *Some of the plaintiffs in this case desire to proceed by individual actions.* Others prefer the certification of one or more classes. Still others seek or will seek remand to state court. Some of the plaintiffs are large entities, others operate small farms. The DCPS group alone included representatives of each of these interests in its leadership team, including its proposed Executive Committee. *Not only does the court agree that this is the best way to proceed, but it believes that it bodes well for the expeditious handling of this litigation* that the DCPS group anticipated this diversity and proposed an organization accordingly.

*Id.* at 2 (emphasis added).

set aside to pay all attorneys' fees (plus an expense reimbursement of \$374,532.19) since Toups/Coffman Plaintiffs' Counsel anticipate that Toups/Coffman Plaintiffs will file at least 10% of all of the settlement claims filed.

For my entire legal career, my practice has focused on business cases, consumer cases, complex commercial litigation, class actions, and mass actions in state and federal courts throughout the United States. I have served in leadership roles in MDL and non-MDL class action litigation. I also have represented opt-out plaintiffs in class action litigation. I am knowledgeable about class action and opt-out plaintiff jurisprudence. For more information about Mitchell A. Toups, Ltd, and my law practice, please refer to my resume attached hereto (Exhibit "1").

4. I, along with Richard L. Coffman, of The Coffman Law Firm, co-counsel, Richardson, Patrick, Westbrook & Brickman, LLC, and the referral counsel listed in Exhibit D to the Memorandum in Support of the Motion for an Award of Attorneys' Fees and Expenses (collectively, "Toups/Coffman Plaintiffs' Counsel") represent over 9,400 United States corn producers in forty-four states farming over 3 million acres of corn on the average during each year

in the damages period in this litigation. Mr. Coffman and I also represent 14 of the 48 designated bellwether plaintiffs. Toups/Coffman Plaintiffs' Counsel have a signed contingent fee contract with each and every client we represent in this litigation (See Exhibit "E" to the Supporting Memorandum – List of Clients and fee percentage in the contract)—including our bellwether plaintiff clients (We are not attaching the contract for each client, but have them available if the Court requires same). Our clients comprise the plaintiff group commonly known as the Toups/Coffman Plaintiffs.

5. I make this Declaration based on my personal knowledge, and if called to testify to the contents hereof, I could and would competently do so. I respectfully submit this declaration for the sole purpose of supporting The Toups/Coffman Fee Application for an award of attorneys' fees and expenses in this litigation. As a partner of Mitchell A. Toups, Ltd. and Weller, Green, Toups & Terrell, L.L.P., I am authorized to submit this Declaration on behalf of Mitchell A. Toups, Ltd. and Weller, Green, Toups & Terrell, L.L.P. As a contingency lawyer, we incurred attorney's fees and expenses on a wholly-contingent basis, assuming full risk of non-payment, and for which we have not been paid or reimbursed to date.

6. Mitchell A. Toups, Ltd., primarily staffed this litigation with one attorney, two senior paralegals, one paralegal and multiple administrative people. We also worked side by side with our co-counsel, The Coffman Law Firm, on a daily basis with similar staffing. In non-contingent fee cases, such as class action litigation where Mitchell A. Toups, Ltd., attorneys serve as class counsel, the firm utilizes hourly rates for its attorneys and staff. Numerous courts have approved the firm's fee petitions, regardless of whether the fees were based on lodestar or a percentage of the fund with a lodestar cross-check.

7. This fee application includes all firms that are part of the Toups/Coffman Group. They include the firms in Exhibits “C” and “D” to the Motion and Memorandum in Support of the Toups/Coffman Motion for Award of Attorney’s Fees and Expenses.

8. As part of the Joint Venture called Toups/Coffman Plaintiffs, Toups and Coffman have served as lead counsel for all 9,400 plus clients. I entered this litigation in 2014. Since that time, I, individually or with my firm and co-counsel, have spent a substantial amount of time on (i) conferring with clients via phone calls, emails and written correspondence with multiple status reports and updates on the website; (ii) reviewing clients’ original documents, including 578s if available, seed records and other insurance documents; (iii) filing lawsuits for all Plaintiffs in Federal and State Courts; (iv) answering Plaintiff Fact Sheets for the Plaintiffs; (v) obtaining 578 forms from government agencies for the Plaintiffs; (vi) opting all Plaintiffs out of the class, and advice and correspondence regarding the opt-out process and settlement process; (vii) keeping clients advised of trials, settlements, discovery and other motions faced in the case; (viii) preparing full claim forms for each client and correspondence with the clients regarding same; and (ix) working with Coffman’s office and staff to organize collecting and storing data on each client.

9. Although counsel herein kept time records for common benefit work, separate from the work for the 9,400 plus clients, attorneys on contingency agreements, including Toups/Coffman Group, were not under any obligation to track time spent on the litigation. Hence, Counsel has estimated that the amount of time spent by his office and The Coffman Law Firm since October, 2014 is at least 4 - 5 hours per client between both law firms, which work amounts to 2 to 2.5 hours per client per firm on average. This equates to at least 37,600 hours for both the Toups and Coffman law firms at just 4 hours total per client. The 4 hours per client would be based on (i) conferring with clients via phone calls, emails and written correspondence with

multiple status reports and updates on the website; (ii) reviewing clients' original documents, including 578s if available, seed records and other insurance documents; (iii) filing lawsuits for all Plaintiffs in Federal and State Courts; (iv) answering Plaintiff Fact Sheets for the Plaintiffs; (v) obtaining 578 forms from government agencies for the Plaintiffs; (vi) opting all Plaintiffs out of the class, and advice and correspondence regarding the opt-out process and settlement process; (vii) keeping clients advised of trials, settlements, discovery and other motions faced in the case; (viii) preparing full claim forms for each client and correspondence with the clients regarding same; and (ix) working with Coffman's office and staff to organize collecting and storing data on each client. This estimated time is over almost a four year time period. As stated above, keeping time was not required of the contingency lawyers, but in order to cross-check our estimate, Touns has attempted to reconstruct their time from their records and the Touns firm has approximately 20,000 hours and The Coffman firm has almost 13,000 hours, which does not include any time after July 4, 2018 for additional work in continuing to file claim forms and communicate with clients, and other calls and work with our 9,400 plus clients. While our ability to reconstruct time is not completely accurate, it appears to be almost ninety (90) percent of our estimated time and gives us confidence that our estimates are correct.

10. Touns also worked with Richardson, Patrick, Westbrook & Brickman ("RPWB") as co-counsel on approximately 3,000 individual corn producers. Touns/Coffman have also reviewed the Declaration from RPWB, and their estimate of time appears to be in line with the Touns/Coffman estimate of approximately four (4) hours per client. The total hours of the RP firm alone at 12,260 hours (See Tuck Declaration, Exhibit "C" to the Supporting Memorandum) is consistent with the work required of them for approximately 3,000 clients over a four-year period.

11. Toups/Coffman have also reviewed the Declarations and summaries of the hours spent by other referral firms representing approximately 1,637 clients in the Toups/Coffman group. The collective hours of this group are more than 9,000 hours (See Exhibit “D” to the Supporting Memorandum). This amount of time for these law firms is consistent with the work performed on 1,637 clients, which is right in the 5-hour per client average.

12. The total estimated time of 58,860 hours spent working on this litigation by Toups, Coffman (37,600 hours), RPWB (12,260 hours) and referral counsel (9,000 hours) does not include estimated future time of all of the above. Once the future time is factored in by continuing to assist clients in the settlement claim process, the total estimated cross-check time, at a blended rate of \$450/hour will exceed \$30 Million. However, Toups/Coffman estimate that these Plaintiffs will represent at least ten (10) percent of the total number of claims filed. At ten (10) percent, the Toups/Coffman clients, with a 38% fee award, will result in a fee of \$34 Million. Toups/Coffman seek the contingent fees they are entitled to on their contracts from all clients that receive an award, which should be at least \$34 Million, but possibly more if the Toups/Coffman producer claim forms exceed 10% of the total claims filed.

13. The Court should also note the fact that almost 80,000 opt-outs were one of the driving forces that helped settle this litigation and that is evidenced by the original Term Sheet signed in September 2017 which Toups/Coffman presented to the Court (Doc. 3514, Exhibit “A”). Clearly, the individual Plaintiffs represented by counsel at one time were to be a separate carve-out. In fact, the contingent fee contracts between the almost 80,000 individual corn producer plaintiffs and their lawyers, including Toups/Coffman Plaintiffs and Toups/Coffman Plaintiffs’ Counsel, should be enforced because the individual corn producer cases added substantial value to the outcome of the litigation because, in fact, they were the driving force behind the settlement.

Class Counsel, the Settlement Negotiation Committee and Syngenta recognized the value of the individual Plaintiffs (with Counsel) when they signed the Settlement Term Sheet on September 25, 2017 (Doc. #3514, Ex. A). In fact, on Page 9, Paragraph XVIII, the above parties agreed as follows:

xviii. Nothing in this Term Sheet or the Settlement Agreements or the filing of subsequent settlement class certification motions will subject Individual Plaintiffs Counsel, the Individual Plaintiffs or the Individual Opt Outs, or their respective counsel to the jurisdiction of any federal court in connection with the Individual Plaintiffs' Claims, the Individual Opt Outs' Claims, the Settlement Agreements, the Individual Plaintiff QSF, or with respect to fees contracted to be paid to Individual Plaintiffs Counsel or other lawyers providing a timely Registration List by the Registration deadlines;

This is clearly an admission, not only to the value of these Plaintiffs represented by counsel, but the parties also recognized the individual fee contracts of the lawyers representing these Plaintiffs and agreed not to interfere with same. Toups/Coffman believe individual corn producer plaintiffs represented by counsel will likely file the vast majority of the settlement claims. In fact, on information and belief, the number of claims to date filed by "true" class members (*i.e.*, corn producers not represented by counsel) is minimal. Nor will the "true" class member filing rate improve over time; rather, it will decrease over time—especially since the 150-day claim filing period is layered over that time of the year that corn farmers are working long hours in the fields. They have other, more pressing priorities.

14. As a further cross-check, a \$34 Million fee, if billed individually to each of the Toups/Coffman clients, would amount to only \$3,617. This amount (\$3,617 per client over 4 years is less than \$1,000 per year, per client) is less than the cost of an uncontested divorce case or a minor probate matter in the State of Texas, yet this case is a complex mass tort that will take almost five years to resolve, with lawyers spending as much as fifty (50) percent of their time on the case

for 3-4 years, and many staff members spending one hundred (100) percent of their time on the case.

15. As experienced class and mass tort lawyers, it is our belief that “true” class members (those without a lawyer) will represent less than ten (10) percent of the filed claims, meaning that the contingency lawyers as a whole are the real reason this case was ultimately settled and will be the reason ninety (90) percent or more of the claim forms are filed, which is the primary basis of the \$1.5 Billion settlement. It is also clearly known in class actions that opt-outs are typically paid more money than those that stay in class actions. Here, potentially 90% of all claims filed will be filed by individual corn producers represented by private contingent fee lawyers – most of whom have previously opted out of the class action.

16. Touns/Coffman Plaintiffs’ Counsel, therefore, request that the Court honor our the contingency contract with each client that timely files a claim form and is paid. We estimate our contingency fees for all of our 9,400 plus clients, which will be shared with all of the Touns/Coffman Plaintiffs’ Counsel, will amount to at least \$34 Million. This is based on Touns/Coffman Plaintiffs filing at least 10% of the total claims filed. In the event the Court does not honor the Touns/Coffman contracts (which there is no law to justify abrogating our contracts), Touns/Coffman Plaintiffs’ Counsel believe that all of their actual and/or estimated time up through July 4, 2018, and beyond is a minimum of \$30 Million. This is based on all hours referenced above at a blended rate of \$450.00. These amounts do not include a multiplier, but if the court abrogates our contract, we would seek at least a multiplier of 1.5. In the further alternative, Touns/Coffman Plaintiffs’ Counsel request an attorneys’ fee award equal to ten (10) percent of the total fees set aside for the payment of all attorneys since we anticipate we will represent ten (10) percent or more of all claim forms filed.

17. The expenses that Mr. Coffman and I have incurred related to handling our clients' claims (this does not include marketing expenses) total \$215,176.23, for which we seek reimbursement.

18. I declare under penalty of perjury pursuant to 28 U.S.C. § 1746 that the foregoing is true and correct.

Executed on July 10, 2018, in Beaumont, Texas.

The following cases are representative of some of the matters Mr. Toups has handled during his career beginning in May, 1983.

**COMPLEX / CLASS LITIGATION EXPERIENCE OF MITCHELL A. TOUPS**

Experience involving mass tort litigation and class actions includes some of the following important cases:

**Cook vs. Colonial** - Lead Counsel for 5,000 Plaintiffs in State Court in Jefferson County, Texas. This was a consolidation of 9,000 Plaintiffs regarding the pipeline ruptures in Houston, Texas, in 1994. Class allegations were involved in this case. The case was settled for a confidential amount. This was one of the largest ruptures and leaks of two of the nation's most important pipelines of fuel, oil and gasoline.

**Albright v. Aeroquip** - Lead Counsel for All Plaintiffs in State Court in Jefferson County, Texas. Involved over 100 Plaintiffs and Decedents regarding the Imperial Food Fire in North Carolina where 25 people died and 80 others were injured. This case involved over 40 defendants. Class allegations were involved in this case although the case was settled for a confidential amount as a mass tort. The Imperial Food Fire was one of the worst in American history – one of the doors in the case is now in the Smithsonian Museum of American History.

**Adams v. Wyeth** - Lead Counsel in a consolidated action of over 1,200 Plaintiffs in State Court in Jefferson County, Texas. This case settled for a confidential amount. The case involves the Norplant Contraceptive device.

**Vitek TMJ Litigation** - Lead Counsel for ~700 Plaintiffs Individually & Co-Lead Class Counsel in the Federal Class Action and MDL. This litigation involves over 10 years of action in State and Federal Court in Texas and Louisiana. Part of the cause of action includes the Methodist Hospital National Class Action which settled in Federal District Court for the Southern District of Texas, Houston Division. The other part of the litigation involves class actions in Louisiana and over 700 individual cases filed in the State of Louisiana and Texas. Over \$100 Million in settlements were achieved in the Class Action and individual cases.

**Wesley v. Colonial** - Co-Lead Counsel in this national class action in the United States District Court for the Middle District of Alabama, Northern Division. This case is settled for all property owners in thirteen (13) states which the Colonial Pipeline traverses. The settlements involved approximately \$500 Million to be spent over 10 years in improvements to the pipeline nationwide to bring the pipeline up to current DOT Guidelines. Mr. Toups was class counsel that oversaw the implementation of the program each year for ten years by reviewing the Colonial's plan of action and approving same.

**HCA National Class Action** - Co-Lead Counsel for action in the United States District Court for the Middle District of Tennessee, Nashville Division. This case involved health care fraud and was settled by the U.S. Government for more than \$1 Billion.

**Washington v. Smith-Kline** - Co-Lead Counsel for national class action in the United States District Court for the Northern District of Alabama, Western Division and then transferred to an MDL action in Connecticut. These cases have now settled on a national basis with millions of dollars returned to patients and healthcare funds that were overbilled for lab tests.

**City of San Juan vs. CP&L** - Co-Lead Class Counsel in class action in State District Court in Hidalgo County, Texas, on behalf of approximately 200 cities in South Texas against a utility company for failure to pay franchise fee taxes. This case was certified as a litigation class and then settled.

**In re Hyundai** - Co-Lead Counsel in a consumer class involving approximately 2 Million automobile owners whose horsepower was misrepresented over a period of ten years. This case involves 17 state class actions. The case settled and was valued at approximately \$110 Million.

**King v City of Austin, Texas** - Co-Lead Counsel in a class action for 900 police officers for back pay owed to them and a Summary Judgment was entered on both liability and damages for the Plaintiffs. The case was settled with the City repaying all back pay and attorneys' fees.

**In re: Mass Mutual (Santa Fe, New Mexico)** - Co-Lead Counsel of Objector Group wherein an attempt was made to settle the litigation with no compensation to the class and \$10 Million in attorney's fees to class counsel. After objections were made, the case settled for more than \$180 Million in cash to the class.

**In re Blockbuster** - Counsel herein served as an expert on attorney's fees in the settlement of this class action in Jefferson County, Texas, which was a consolidation of cases from around the country. The attorney's fees of \$9 Million were approved by the trial court and upheld on appeal by the 9<sup>th</sup> Court of Appeals in Beaumont, Texas.

**Clark v. Equifax, Clark v. Transunion, and Clark v. Experian (MDL)** - Co-Lead Objector Counsel was appointed co-lead counsel for a coordinated group of objecting class members who opposed the approval of proposed nationwide class settlements that would have provided only illusory benefits to the class members and would have allowed the defendants to continue to improperly report bankruptcies for consumers who had not actually filed for bankruptcy themselves (but were joint account holders with others who had filed for bankruptcy). Counsel herein was instrumental in ensuring approval of revised settlements that will provide significant relief (valued in the hundreds of millions of dollars) to many consumers nationwide by requiring the defendants to discontinue their improper bankruptcy reporting practices and providing favorable resolution provisions for breaches of the settlement by the Defendants.

**In re Cosmetics (MDL)** - Co-Lead Counsel for the coordinated objector's group in this class action pending in US. District Court, Oakland, California. Counsel was instrumental in making substantial changes to the settlement. Due to the objections, the Court did not approve the original settlement. **White/Hernandez v Equifax** - Counsel herein is one of the counsel for the class in a nationwide class action in the Central District of California regarding an FCRA case against all three credit reporting agencies for failure to accurately report whether a debt has been discharged in bankruptcy. The case settled for \$45 Million cash and injunctive relief worth hundreds of millions and is currently on Appeal to the 9<sup>th</sup> Circuit for the third time.

**Jowers v TransUnion (MDL)** - Co-Counsel herein is one of the counsel for the class in a nationwide class action in the Northern District of Illinois regarding an FCRA case against credit reporting agency TransUnion for allowing confidential consumer credit information to be sold, leased and/or improperly disclosed by TransUnion in the form of target marketing lists and failure to notify said consumers that their information had been released. The case settled for \$75 Million and additional relief making the settlement in excess of \$100 Million. This was the largest FCRA settlement in U.S. history at the time.

**Ford EMS Litigation** - Co-Counsel herein is one of the counsel for the class in a nationwide class action in the Eastern District of Texas involving ambulance owners with 6.0L diesel engines for breach of warranty on the engines. **US/Woodard v DaVita - Qui Tam** - Co-Lead Counsel for Relator, Ivey Woodard in the Eastern District of Texas. The Government declined intervention and the high profile and complicated *qui tam* ultimately settled for 8 figures to the U.S. Government with counsel's client receiving \$14.6 Million for his efforts.

This claim was appealed and recently remanded for further proceedings on behalf of the Financial Institution Plaintiffs. The case settled as a non-class.

**DECLARATION OF RICHARD L. COFFMAN IN SUPPORT OF TOUPS/COFFMAN  
PLAINTIFFS' COUNSEL'S MOTION FOR AN AWARD OF ATTORNEYS' FEES AND  
EXPENSES**

Pursuant to 28 U.S.C. § 1746, I, Richard L. Coffman, declare as follows:

1. I am an attorney in good standing licensed to practice law in the State of Texas. I am also admitted to practice in the United States District Courts for the Eastern, Western, Northern, and Southern Districts of Texas, the Central and Southern Districts of Illinois, the Eastern District of Michigan, the United States Court of Appeals for the First, Third, Fifth, Sixth, Seventh, and Ninth Circuits, the United States Court of Federal Claims, and the United States Supreme Court. I also have been, and am, admitted *pro hac vice* in various other state and federal courts.

2. I am a shareholder in, and President of, the Coffman Law Firm in Beaumont, Texas. I have practiced law for over twenty-eight (28) years. I am AV peer review rated by the Martindale-Hubbell Law Directory and a Texas Super Lawyer (Class Actions and Mass Torts) (2016-2018). I also have a Master of Professional Accounting and am a Certified Public Accountant. For my entire legal career, my practice has focused on business cases, consumer cases, agriculture cases, securities cases, complex commercial litigation, class actions, and mass actions in state and federal courts throughout the United States and in FINRA arbitrations. I have served in leadership roles in MDL and non-MDL class action litigation. I also have represented (and am representing) opt-out plaintiffs in class action litigation. I am knowledgeable about class action and opt-out plaintiff jurisprudence. For more information about the Coffman Law Firm and my law practice, please refer to my Firm website, [www.coffmanlawfirm.com](http://www.coffmanlawfirm.com).

3. I, along with Mitchell A. Toups of Weller, Green, Toups & Terrell, LLP, co-counsel, Richardson, Patrick, Westbrook & Brickman, LLC, and the referral counsel listed in Exhibit D to the Memorandum in Support of the Motion for an Award of Attorneys' Fees and Expenses (collectively, "Toups/Coffman Plaintiffs' Counsel") represent over 9400 United States corn producers in forty-four states farming over 3 million acres of corn on the average during each year in the damages period in this litigation. Mr. Toups and I also represent 14 of the 48 designated bellwether plaintiffs. Our clients comprise the plaintiff group commonly known as the Toups/Coffman Plaintiffs.

4. I have personal knowledge of the statements in this Declaration and, if called as a witness, I could, and would, testify competently about them. As a shareholder in, and President of, the Coffman Law Firm, I am authorized to submit this Declaration on behalf of the Coffman

Law Firm. I make this Declaration in support of Toups/Coffman Plaintiffs' Counsel's Motion for an Award of Attorneys' Fees and Expenses.

5. Mr. Toups and I first got involved in this litigation in September 2014 when I was contacted by former clients in other similar litigation. Since that time, the other Toups/Coffman Plaintiffs' Counsel and I have spent countless hours meeting with corn producers in the fields, in barns, across the hoods of trucks, in restaurants, in barber shops, and around kitchen tables to discuss the litigation and answer their questions.

6. Toups/Coffman Plaintiffs' Counsel have a signed contingent fee contract with each and every corn producer client we represent. The contracts state that Toups/Coffman Plaintiffs' Counsel will advance all litigation expenses and court costs on behalf of Toups/Coffman Plaintiffs. Under the contracts, to date, Toups/Coffman Plaintiffs' Counsel have not been compensated for representing Toups/Coffman Plaintiffs, and will be compensated only upon their clients' recoveries. Plainly stated, Toups/Coffman Plaintiffs' Counsel have devoted, and will continue to devote, a large amount of resources to this litigation despite considerable risk of non-payment. Toups/Coffman Plaintiffs' Counsel are here for the long haul to protect our clients' interests and do whatever it takes to maximize their recoveries.

7. Prior to the litigation settling in September 2017, the other Toups/Coffman Plaintiffs' Counsel and I, individually or with co-counsel and referral counsel, spent thousands of man-hours, devoting time, risk, and effort: (i) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the litigation and their claims, (ii) filing and prosecuting Toups/Coffman Plaintiffs' claims in federal and state courts<sup>1</sup>, (iii) working

---

<sup>1</sup> On information and belief, co-counsel, Mr. Toups, and I represent the largest number of individual corn producer plaintiffs in the federal MDL proceeding. We also represent 15 of the 48 designated bellwether plaintiffs, who, with our assistance, answered written discovery,

with Toups/Coffman Plaintiffs to identify, collect, organize, and store documents and information supporting their claims, (iv) working with local Farm Services Administration (FSA) offices across the country to obtain Toups/Coffman Plaintiffs' Forms 578 in further support of their claims, (v) working with Toups/Coffman Plaintiffs to complete and submit their Plaintiff Fact Sheets (PFS) under the tight time deadlines imposed by the Court, (v) closely monitoring the litigation on all fronts, including attending status conferences and hearings telephonically and in person, and (vi) on telephone calls, regularly sending hundreds of thousands of hard copy and email correspondence, in meetings, and establishing, maintaining, and regularly updating a dedicated case website—all to keep Toups/Coffman Plaintiffs fully apprised of the status of the litigation and their claims, and fully protect their interests.

8. After the litigation settled in September 2017, Toups/Coffman Plaintiffs' Counsel, individually or with co-counsel and referral counsel, have spent, and will continue to spend into the future, thousands of man-hours, devoting more time, risk, and effort: (i) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about, *inter alia*, the litigation, the settlement, the claims process, settlement claim forms, settlement claim form logistics, and how and when the settlement will be distributed, (ii) working with local FSA offices across the country to obtain Toups/Coffman Plaintiffs' Forms 578 in order to prepare their settlement claim forms, (iii) preparing and sending the settlement claim forms to

produced documents, and sat for their depositions—under tight time deadlines—in full support of the litigation against Syngenta.

Per the Court's order governing common benefit time and expenses, I kept and maintained detailed contemporaneous records of my firm's common benefit time and expenses, which were authorized and approved by class counsel. My firm's common benefit time and expenses have been presented to the Court for payment in a separate submission. None of my firm's common benefit time and expenses are included in this Motion, nor is any of my firm's time spent preparing this Motion and Supporting Memorandum claimed here.

Toups/Coffman Plaintiffs for their review and signature, (iv) researching and obtaining Social Security numbers and Federal ID numbers necessary to complete the settlement claim forms, (v) submitting Toups/Coffman Plaintiffs' completed and signed settlement claim forms to the claims administrator on their behalf,<sup>2</sup> (vi) working with the claims administrator regarding any post-claim form submission issues on behalf of Toups/Coffman Plaintiffs, (v) on telephone calls, regularly sending hundreds of thousands of hard copy and email correspondence, and in meetings following-up with clients to make sure they sign and return their claim forms so Toups/Coffman Plaintiffs' Counsel may timely file them before the Court-imposed 150-day deadline passes, (vi) closely monitoring the litigation on all fronts, including briefing key issues pertaining to the settlement to protect their clients' and all corn producers' interests, (vii) attending and participating in hearings and status conferences telephonically and in person, and (viii) on telephone calls, regularly sending hard copy and email correspondence, in meetings, and maintaining and regularly updating their case website ([www.corncasesettlement.com](http://www.corncasesettlement.com))—all to keep Toups/Coffman Plaintiffs fully apprised of the status of the litigation and the settlement at all times and fully protect their interests.

9. Along with the other Toups/Coffman Plaintiffs' Counsel, I will continue to work with, and on behalf of, Toups/Coffman Plaintiffs until the day they receive their settlement distribution

---

<sup>2</sup> As of the date this Motion was filed, Toups/Coffman Plaintiffs' Counsel had submitted settlement claim forms on behalf of approximately 70% of the clients jointly represented by Mr. Toups, referral counsel, and me, and approximately 54% of the clients jointly represented by Mr. Toups, the Richardson Patrick firm, and me. On information and belief, this is the highest claim form submission rate of any individual corn producer plaintiff group and, in fact, Toups/Coffman Plaintiffs may have submitted more outright claim forms to the claims administrator than any other claimant group—whether represented by counsel or non-represented “true” class members. Toups/Coffman Plaintiffs' Counsel will continue to work with our clients throughout the claims period in a concerted effort to achieve 100% participation.

checks. The other Touns/Coffman Plaintiffs' Counsel and I will do whatever is necessary to protect their clients' interests and ensure their maximum possible settlement distributions.

10. Touns/Coffman Plaintiffs and other non-client corn producers have regularly told me and other Touns/Coffman Plaintiffs' Counsel how much they appreciate counsel's (i) accessibility (many were surprised and delighted that counsel actually took their calls and responded to their emails when other lawyers didn't), (ii) answers to their questions, (iii) interest in them and their operations, (iv) regular in person and telephonic litigation updates, and (v) preparation of their settlement claim forms for their review and signature, and then submitting them—especially since many corn producers do not use the internet and/or are confused by the settlement claim forms—as they are very busy this time of year working in the fields.

11. In short, Touns/Coffman Plaintiffs' Counsel have been heavily involved in the litigation for almost four years and will continue to be heavily involved for the duration—working hard on behalf, and for the benefit, of our clients. Touns/Coffman Plaintiffs' Counsel did not just appear on the scene after the settlement was announced.

12. Touns/Coffman Plaintiffs' Counsel, therefore, are entitled to attorneys' fees calculated using the contingent fee percentages set forth in each of our client's contracts. Based on our clients' contractual contingent fee percentages, Touns/Coffman Plaintiffs' Counsel estimate that Touns/Coffman Plaintiffs' settlement claims will comprise at least 10% of the value of the claims filed. At this rate, Touns/Coffman Plaintiffs' Counsel's attorneys' fees under the contingent fee contracts with Touns/Coffman Plaintiffs will be \$34 million. Counsel's attorneys' fees, of course, would increase if the Touns/Coffman Plaintiffs' settlement claims comprise greater than 10% of the value of the claims filed.

13. Likewise, per the contracts with our clients, Toups/Coffman Plaintiffs' Counsel are entitled to recover their reasonable expenses incurred to prosecute the litigation on behalf of Toups/Coffman Plaintiffs. Toups/Coffman Plaintiffs' Counsel's total reimbursable litigation expenses are \$374,532.19, consisting of the expenses jointly incurred by Mr. Toups' firm and my firm (\$215,176.23), Richardson Patrick's expenses (\$57,612.15) (Exhibit C to the Supporting Memorandum), and referral counsel's expenses (\$101,743.81) (Exhibit D to the Supporting Memorandum).

14. Working under individual contingent fee contracts with each of our corn producer clients, Toups/Coffman Plaintiffs' Counsel were not under any obligation to keep and maintain contemporaneous time records of the work we performed on behalf of our clients. That said, solely as a cross-check, Mr. Toups and I reasonably estimate that since September 2014, our firms have collectively spent at least 4-5 hours of time per client (or 2-2.5 hours per client per law firm on the average). An average of 4 hours of work per client equates to at least 37,600 hours for our firms performing the above-referenced tasks on behalf of each Toups/Coffman Plaintiff over a four-year period.

15. As a further cross-check, Mr. Toups and I attempted to reconstruct our time from our records. Per our time reconstructions, through July 4, 2018, Mr. Toups' firm has spent approximately 20,000 hours working on this litigation, and my firm has spent approximately 13,000 hours working on this litigation. This time, of course, does not include any time spent by our firms after July 4, 2018 (i) on telephone calls, sending email, and in meetings with clients and other corn producers to answer questions about, *inter alia*, the litigation, the settlement, the claims process, settlement claim forms, settlement claim form logistics, and how and when the settlement will be distributed, (ii) preparing and sending the settlement claim forms to

Toups/Coffman Plaintiffs for their review and signature, (iii) researching and obtaining Social Security numbers and Federal ID numbers necessary to complete the settlement claim forms, (iv) submitting Toups/Coffman Plaintiffs' completed and signed settlement claim forms to the claims administrator on their behalf, (v) working with the claims administrator regarding any post-claim form submission issues on behalf of Toups/Coffman Plaintiffs, (vi) on telephone calls, regularly sending hard copy and email correspondence, and in meetings following-up with clients to make sure they sign and return their claim forms so Toups/Coffman Plaintiffs' Counsel may timely file them before the Court-imposed 150-day deadline passes, (vii) closely monitoring the litigation on all fronts, including briefing key issues pertaining to the settlement to protect their clients' interests, (viii) attending and participating in hearings and status conferences telephonically and in person, and (ix) on telephone calls, regularly sending hard copy and email correspondence, in meetings, and maintaining and regularly updating their dedicated case website. While our ability to reconstruct time is not completely accurate, as a cross-check, it is approximately 90% percent of our estimated time—thereby validating its soundness.

16. In addition, Mr. Toups and I worked as co-counsel with Richardson, Patrick, Westbrook & Brickman, LLC on behalf of approximately 3000 individual corn producer clients. *See* Declaration of T. Christopher Tuck (Exhibit C to the Supporting Memorandum). The Richardson Patrick firm's estimated time spent working on the litigation (12,260 hours) is consistent with our estimated time of approximately 4 hours per client over a four-year period.

17. Mr. Toups and I also worked with referral counsel on behalf of their clients in the litigation. Referral counsel have collectively spent over 9000 hours working on behalf of 1,637 clients (Exhibit D to the Supporting Memorandum), which is right in line with the 5-hour per client average.

18. The total estimated time of 58,860 hours spent working on this litigation by Mr. Toups and me (37,600 hours), the Richardson Patrick firm (12,260 hours), and referral counsel (9000 hours) does not include estimated future time to be spent working on behalf of Toups/Coffman Plaintiffs. Once future estimated time is factored into the calculus—Toups/Coffman Plaintiffs' Counsel will continue to assist their clients in the settlement claim process and protect their interests—the total Toups/Coffman Plaintiffs' Counsel estimated cross-check time, at a blended rate of \$450 per hour, will exceed \$30 million. This cross-check attorneys' fee is consistent with Toups/Coffman Plaintiffs' Counsel's minimum estimated \$34 million of attorneys' fees under the terms of the contingent fee contracts with their clients.

19. As a further cross-check, a \$34 million attorneys' fee equates to an average of \$3,617 per client over four years (less than \$1,000 per year), which is less than an uncontested divorce or minor probate matter in the State of Texas. Yet this case is a complex mass tort that, in the end, will take close to five years to resolve with lawyers spending as much as 50% of their time working on the litigation, and certain paralegals and staff spending 100% of their time working on the litigation.

20. The contingent fee contracts between the almost 80,000 individual corn producer plaintiffs and their lawyers, including Toups/Coffman Plaintiffs and Toups/Coffman Plaintiffs' Counsel, should be enforced because the individual corn producer cases added substantial value to the outcome of the litigation. In fact, they drove the settlement.

21. On information and belief, individual corn producer plaintiffs will file the vast majority of the settlement claims. In fact, on further information and belief, the number of claims to date filed by "true" class members (*i.e.*, corn producers not represented by counsel) is minimal. Nor will the "true" class member filing rate improve over time; rather, it will decrease over time—

especially since the 150-day claim filing period is layered over that time of the year that corn farmers are working long hours in the fields. They have other, more pressing priorities.

22. On information and belief, at the end of the day, claims filed by “true” class members will be less than 10% of the filed claims—meaning, contingent fee lawyers representing individual corn producers—such as Toups/Coffman Plaintiffs’ Counsel representing Toups/Coffman Plaintiffs—as a whole are the real reason the litigation settled, and the reason why an estimated 90% or more of the settlement claims will be filed by individual corn producer plaintiffs. Thus, the contingent fee lawyers, including Toups/Coffman Plaintiffs’ Counsel, should be properly compensated pursuant to the terms of their contingent fee contracts.

23. Toups/Coffman Plaintiffs’ Counsel, therefore, should be awarded a minimum of \$34 million of attorneys’ fees and an expense reimbursement of \$374,532.19 pursuant to the terms of the contingent fee contracts with their clients, the Toups/Coffman Plaintiffs.

24. In the alternative, if the Court abrogates the contingency fee agreements between Toups/Coffman Plaintiffs’ Counsel and Toups/Coffman Plaintiffs (for which there is no law justifying same), Toups/Coffman Plaintiffs’ Counsel should be awarded attorneys’ fees in the amount of at least \$30 million (with a minimum 1.5 multiplier) and an expense reimbursement (\$374,532.19) based on the time incurred and litigation expenses advanced in prosecuting this action on behalf of Toups/Coffman Plaintiffs.

25. Or, in the further alternative, Toups/Coffman Plaintiffs’ Counsel should be awarded attorneys’ fees equal to a minimum of 10% of the total amount set aside to pay all attorneys’ fees (plus an expense reimbursement of \$374,532.19) since Toups/Coffman Plaintiffs are anticipated to file at least 10% of all of the settlement claims filed.

26. I hereby certify that all Exhibits attached to the Memorandum in Support of Toups/Coffman Plaintiffs' Counsel's Motion for an Award of Attorneys' Fees and Expenses are true and correct copies of same.

I declare under penalty of perjury that the foregoing is true and correct.

**DECLARATION OF T. CHRISTOPHER TUCK  
IN SUPPORT OF TOUPS/COFFMAN PLAINTIFFS' APPLICATION FOR  
ATTORNEYS' FEES AND EXPENSES**

Pursuant to 28 U.S.C. § 1746, I, T. Christopher Tuck, declare as follows:

1. I am an attorney in good standing licensed to practice law in South Carolina and Wisconsin. I am also admitted to practice in federal district courts for the Eastern District of Wisconsin, the Northern District of Florida, the District of South Carolina, and the United States Court of Appeals for the Second, Fourth, Seventh, Eighth and Ninth Circuits. I also have been admitted *pro hac vice* in various other state and federal courts.

2. I am a member in the law firm of Richardson, Patrick, Westbrook & Brickman, LLC ("RPWB") in Mount Pleasant, South Carolina. RPWB maintains multiple offices in South Carolina and one office in Illinois. I have practiced law for 22 years, including 16 years at RPWB. My practice focuses on complex litigation, including mass torts and class actions in state and federal courts throughout the United States. I have served in leadership roles in class action litigation and I am knowledgeable about class action procedure and opt-out plaintiff jurisprudence. For more information about RPWB, my firm's resume is located at <https://www.rpwb.com/wp-content/uploads/2014/06/RPWB-Firm-Resume-April-2017.pdf>.

3. I, along with Weller, Green, Toups & Terrell, LLP, the Coffman Law Firm, and other attorneys at RPWB, represent 3006 U.S. corn producers in 38 states farming an average of approximately 671,109 acres of corn during each year in the damages period. I have a signed contingent fee contract with each and every corn producer client that I represent, and I have attached a current spreadsheet showing those client names and contingent fee percentages. RPWB intended to litigate the claims individually and solely under a contracted contingent fee. RPWB was not subject to the Court's common benefit time recording requirements.

4. All of my clients are part of the plaintiff group commonly referred to in this case as the Toups/Coffman Plaintiffs. RPWB has a joint venture agreement with Toups/Coffman.

5. I have personal knowledge of the statements in this Declaration and, if called as a witness, I could, and would, testify competently to them. I make this Declaration in support of Toups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses.

6. I initially entered this litigation in October 2015 upon meeting with many farmers who expressed interest in seeking relief. Since that time, I, individually or with my firm and co-counsel, have spent a substantial amount of time (i) on telephone calls, sending email, and conferring with clients and other corn producers to answer questions about the litigation prior to the case settling; (ii) on telephone calls, sending emails, and conferring with clients and other corn producers to answer questions about the settlement, the claims process, and the settlement claim forms after the settlement was announced; (iii) working with local Farm Services Administration (FSA) offices to secure Form 578 documents as required by the Court; (iv) on telephone calls, sending emails, and conferring with clients regarding signing and returning their settlement claim forms so they could be filed timely; (v) on telephone calls, sending emails, and conferring with co-counsel regarding all aspects of the litigation, both prior to and after the settlement was

announced; (vi) drafting and editing documents filed in the litigation and conducting research as needed; (vii) reviewing pleadings filed by others so that client questions can be answered; and (viii) supervising non-attorney staff and coordinating project details. I and others at my firm have regularly updated my clients via telephone calls, emails, and other communications, and will continue to work with my clients until the day they receive their settlement checks. My clients are very appreciative of my firm's accessibility, our answers to their questions and concerns, the regular litigation updates we provide, and our assistance with the settlement claims process.

7. RPWB primarily staffed this litigation with four attorneys, one senior paralegal, one paralegal, and one administrative support person. In non-contingent fee cases, such as class action litigation where RPWB attorneys serve as class counsel, the firm utilizes hourly rates for its attorneys and staff. Numerous courts have approved the firm's fee petitions, regardless of whether the fees were based on lodestar or a percentage of the fund with a lodestar cross-check. For the purpose of estimating RPWB lodestar in the event the Court conducts such an analysis for contingent fee counsel, the hourly rates for RPWB attorneys working on this litigation include James L. Ward, Jr. (\$600 per hour), Robert S. Wood (\$650 per hour), T. Christopher Tuck, (\$650 per hour), and A. Hoyt Rowell, III (\$850 per hour). Since October 2015, RPWB attorneys have worked approximately 4,050 hours in service of our 3,006 clients, at an average of approximately 1.35 hours per client.

8. The hourly rates for RPWB staff working on this litigation include Aubrey Honemond (\$120 per hour), Barbara Carter (\$170 per hour), and William King (\$195 per hour). Mr. King has worked on the litigation full time since late 2015. Since January 2017, Ms. Carter has spent 40% of her time on the project. Ms. Honemond began working on the litigation in May 2016 and has spent 60% of her time on the project.

9. Since October 2015, primary non-attorney personnel have worked approximately 7,710 hours in service of our 3006 clients.

10. The estimated lodestar to date must also include time incurred by other staff at RPWB who did not have daily responsibility for the litigation but had to assist as needed to meet deadlines. This time would not exceed an estimated 500 hours. That calculation brings the total paralegal time per client to an average of 2.73 hours and to a total combined time of 4.08 hours per client when including attorney work. This does not include any time spent assembling this Declaration or reviewing the Troups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses.

11. Due to the significant hours now being expended by RPWB during claims administration, I estimate that RPWB will spend approximately 2,000 additional staff hours, plus substantial attorney time, through the end of the settlement claim filing period and continuing until the settlement is ready for disbursement. These hours will be incurred by the primary staff on the project, who must now work full-time on the litigation or very close to it, as well as additional staffing required for the volume of work that must be completed by the claims deadline. Attorneys will assist as necessary. This estimate assumes that no significant delay will occur to final approval and claims administration. The projected time will be spent answering client questions, providing litigation updates, working with clients to sign and return their settlement claim forms so that we can file the claim forms on a timely basis, and resolving any administrator deficiencies with the claims. At the same proportion of staff time to attorney time per client already incurred to date, RPWB can estimate that attorneys will incur approximately 1000 additional hours from now until claims administration and final payment when all client issues have been resolved.

12. As of June 25, 2018, RPWB had advanced \$57,612.15 of corresponding out-of-pocket expenses working on behalf of my clients in this litigation. The out-of-pocket expenses incurred

in this case are reflected in RPWB accounting ledgers. These ledgers are an accurate record of the expenses incurred.

13. All work performed in this matter by the attorneys and paralegals at RPWB was performed on a wholly contingent basis, assuming full risk of non-payment. To date, RPWB has not received any compensation for the rendered services from any source. RPWB incurred the above-referenced out-of-pocket expenses for the benefit of my clients. These expenses also were incurred on a contingent basis and have not been reimbursed to date.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on June 27, 2018, at Mount Pleasant, South Carolina.

plaintiffs in class action litigation. I am knowledgeable about class action and opt-out plaintiff jurisprudence.

3. I, along with Weller, Green, Toups & Terrell, LLP and the Coffman Law Firm, represent 69 U.S. corn producers in the states of Maryland and Pennsylvania farming approximately 26,735 acres of corn on average during each year in the damages period. I have a signed contract with every corn producer client that I represent. All of my clients are part of the plaintiff group commonly referred to in this case as the Toups/Coffman Plaintiffs. I have personal knowledge of the statements in this Declaration and, if called as a witness, I could, and would, testify competently. I make this Declaration in support of Toups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses.

4. I first got involved in this litigation in 2017. Since that time, I, individually or with co-counsel, have spent a substantial amount of time (i) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the litigation prior to the case settling, (ii) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the settlement, the claims process, and the settlement claim forms after the settlement was announced, (iii) working with local Farm Services Administration (FSA) offices to secure my clients Forms 578 as required by the Court, (iv) on telephone calls, sending emails, and in meetings with clients regarding signing and returning their settlement claim forms so they could be filed timely, (v) on telephone calls, sending emails, and in meetings with co-counsel regarding all aspects of the litigation, both prior to and after the settlement was announced, and (vi) Scheduled town hall meetings with Pennsylvania corn farmers to discuss the details of this litigation. I also have regularly updated my clients via telephone calls, emails, and other communications, and will continue to work with my clients

until the day they receive their settlement checks. My clients have regularly told me how much they appreciate my accessibility, my answers to their questions, my regular litigation updates, the fact that I return telephone calls and respond to their emails, my interest in them and their operations, and preparing and filing their settlement claim forms for them since they are very busy this time of year working in the fields.

5. As of June 30, 2018, my Firm has (i) spent a total of 102 hours, and (ii) advanced nominal out of corresponding out-of-pocket expenses of less than \$500 working on behalf of my clients in this litigation. Throughout the litigation, my staff and I have maintained contemporaneous daily time records of the time incurred working on this matter. This time does not include any time spent preparing my detailed time summaries, assembling preparing this Declaration, or preparing or reviewing the Toups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses. The out-of-pocket expenses incurred pertaining to this case are reflected in my Firm's books and records. These books and records are prepared from receipts, payment card records, and check records, and are an accurate record of the expenses incurred. I estimate that my Firm will spend another 20 hours and nominal of out-of-pocket expenses through the end of the settlement claim filing period answering client questions, providing litigation updates, and working with them to sign and return their settlement claim forms, so we can file the claim forms for them on a timely basis.

6. All work performed by the attorneys and paralegals at my Firm in this matter was performed on a wholly contingent basis, assuming full risk of non-payment. To date, my Firm has not received any compensation for the rendered services from any source. My Firm also incurred the above-referenced out-of-pocket expenses for the benefit of my clients. These expenses also were incurred on a contingent basis and have not been reimbursed to date.

I declare under penalty of perjury that the foregoing is true and correct.

Declaration of CONRAD F. CROPSEY In support of TOUPS/COFFMAN Plaintiff's  
Application for Attorney Fees and Expenses

Pursuant to 28 U.S.C. § 1746, I, Conrad F. Cropsey, declare as follows:

1. I am an attorney in good standing licensed to practice law in the State of New York and the United States District Court for the Western District of New York. I have personal knowledge of the statements in this Declaration and, if called as a witness, I could, and would, testify competently thereto. I make this Declaration in support of Troups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses.
2. Over the years I have appeared *pro hac vice* in other jurisdictions. I have also appeared in several Federal District Courts under the Rules pertaining to MDL litigation.
3. I am the surviving owner of the law firm named and styled as Cropsey & Cropsey and have practiced law for over 40 years. Among other professional and community endeavors I have:
  - \*served the public as the elected District Attorney of Orleans County, New York,
  - \* held a post as an adjunct professor of sociology at the State University of New York, Buffalo,
  - \*spent over a decade as corporate counsel for the County of Orleans Industrial Development Agency, a Public Benefit Corporation organized by Special Act of the New York State Legislature,
  - \*been involved in many public and professionally related activities,
  - \*had (have) experience as co-counsel on several class action law suits which advanced consumer interests, and
  - \*run a general practice of law located in a rural area midway between Rochester and Buffalo, New York. I am well versed in virtually all areas of

general law and, locally, with farm related legal problems.

4. My New York clients have all signed retainer agreements with me and Weller, Green, Toups & Terrell, LLP and the Coffman Law Firm; together we represent well over one hundred New York State corn producers (139 at last count) who collectively till well over one hundred thousand acres of corn (103,000 at last count). My clients are part of the Toups/Coffman Plaintiffs group.

5. I first got involved in this litigation in April 2017 when a long-standing client called me. Since that time, I, individually or with co-counsel, have spent a substantial amount of time on this matter. The tasks performed include time spent:

- (i) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the litigation prior to the case settling,
- (ii) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the settlement, the claims process, and the settlement claim forms after the settlement was announced,
- (iii) working with local Farm Services Administration (FSA) offices to secure my clients' Forms 578 as required by the Court and update them, Cornell Cooperative Extension, and the New York Farm Bureau District offices on the litigation,
- (iv) on telephone calls, sending emails, and in meetings with clients regarding signing and returning their settlement claim forms so they could be filed timely,
- (v) on telephone calls, sending emails, and in meetings with co-counsel regarding all aspects of the litigation, both prior to and after the settlement was announced, and
- (vi) building, programing, and maintaining a web site devoted in large part to providing a) a chronological history of the litigation and b) each of the major developments in the litigation as they occurred. It was very well received by our clients as a convenient way to access information when they were in the fields working. I also used a local e-news service to get information out to them.

6. My clients like the fact that, as noted, this included speaking with them and following up personally to help them through the litigation process. This included, for example, speaking and corresponding with several Cooperative Extensions and FSAs to be sure they too were up to date on the litigation and prepared to generate FSA 578s or provide them to me. In this way, along with telephone calls, emails, and other communications, I have

worked with my clients and will continue to work with my clients until the day they receive their settlement checks.

7. My clients have regularly told me how much they appreciate the fact that I am local and accessible. Time and again I have been, and will continue to be, here to answer questions, give them regular litigation updates, return all phone calls within minutes or a few hours at most, respond to their emails (again within minutes or a few hours at most), my interest in them and their operations, and preparing and filing their settlement claim forms for them since they are very busy this time of year working in the fields. Since I, and my colleagues are so hands on, our services have included actually visiting the farms when asked and arranging for convenient places to meet which have been closer to their fields than my office.

8. As of May 31, 2018, my Firm has (i) spent a total of 418.70 hours which are chargeable on this case. It should be noted that I do not charge for mail, telephone, copying, or gas. The My time records do not include time spent on this affirmation, my time records or anything related to any other firm or attorneys records or application(s). I estimate that I will spend another 50 hours through the end of the settlement claim filing period answering client questions, providing litigation updates, and working with them to sign and return their settlement claim forms, so we can file the claim forms for them on a timely basis.

9. Per my retainer agreements with our clients, all work was on a wholly contingent basis and I assumed the full risk of non-payment if there were no recovery. I have not received any compensation for the rendered services from any source on this matter. I have not presented my expenses for consideration and have received no money or other thing of value in respect to any of my out-of-pocket expenses.

I declare under penalty of perjury that the foregoing is true and correct.

4. I have been involved in this litigation since 2015. Since that time, I, individually or with co-counsel, have spent a substantial amount of time (i) on telephone calls, sending email, and in meetings with clients and other corn producers to answer questions about the litigation prior to the case settling, (ii) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the settlement, the claims process, and the settlement claim forms after the settlement was announced, (iii) working with farmers to secure my clients Forms 578 as required by the Court, (iv) on telephone calls, sending emails, and in meetings with clients regarding signing and returning their settlement claim forms so they could be filed timely, and (v) on telephone calls, sending emails, and in meetings with co-counsel regarding all aspects of the litigation, both prior to and after the settlement was announced. I also have participated in updating my clients via telephone calls, emails, and other communications, and will continue to work with my clients until the day they receive their settlement checks. I have always been accessible to each and every client to answer their questions or get information from Richard Coffman and his office to answer their questions, provide regular litigation updates, return telephone calls and respond to their emails, show interest in them and their operations, and prepare and file their settlement claim forms for them since they are very busy this time of year working in the fields.

5. As of June 30, 2018, my Firm has (i) spent a total of 77.65 hours working on behalf of my clients in this litigation. This time does not include any time spent preparing my detailed time summaries, assembling preparing this Declaration, or preparing or reviewing the Toups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses. I estimate that my

Firm will spend another 30-50 hours through the end of the settlement claim filing period answering client questions, providing litigation updates, and working with them to sign and return their settlement claim forms, so we can file the claim forms for them on a timely basis.

6. All work performed by the attorneys, paralegals, and legal assistants at my Firm in this matter was performed on a wholly contingent basis, assuming full risk of non-payment. To date, my Firm has not received any compensation for the rendered services from any source.

My Firm also incurred the above-referenced out-of-pocket expenses for the benefit of my clients. These expenses also were incurred on a contingent basis and have not been reimbursed to date.

I declare under penalty of perjury that the foregoing is true and correct.

**DECLARATION OF JAMES M. PIETZ IN SUPPORT OF TOUPS/COFFMAN  
PLAINTIFFS' APPLICATION FOR ATTORNEYS' FEES AND EXPENSES**

Pursuant to 28 U.S.C. § 1746, I, James M. Pietz, declare as follows:

1. I have been a member in good standing of the bars of the State of Illinois since 1988 and the Commonwealth of Pennsylvania since 1989. I am admitted to practice before the United States Supreme Court as well as the Second, Third, Fifth, Sixth, Seventh, Eighth, Ninth, Tenth and the District of Columbia Federal Circuit Courts of Appeal. I am also admitted to practice by the United States District Court for the Northern District of Illinois and the Western District of Pennsylvania.
2. I have been given the highest possible rating (AV) by the Martindale-Hubbell Law Directory.
3. I am a graduate of Marquette University (1982) and the Chicago-Kent College of Law (1987).
4. I am a member of the National Association of Consumer Advocates.  
([www.naca.net](http://www.naca.net)).
5. Since 1989, I have concentrated my work in the prosecution of class actions in both state and federal jurisdictions around the United States.
6. As of January 1, 2016, I joined the law firm of Feinstein, Doyle, Payne & Kravec,

LLC. as a partner. This firm also engages in the prosecution of consumer and employee class actions.

7. Previously, I was the principal of Pietz Law Office, LLC where I concentrated my practice in consumer protection and class action litigation from 2007 until 2015.

8. Before this, I had been employed by the law firm of Malakoff, Doyle & Finberg, P.C. ("MDF") for 17 years from December, 1989 until January 2007. MDF or its predecessors had been engaged in prosecuting class actions since 1972.

9. I have been appointed to represent plaintiffs in class actions in state and federal court over the last 25 years. Most recently, the court appointed FDPK to Plaintiffs' Steering Committee in *In Re Experian Data Breach Litigation*, 15-1592 (C.D.Cal 2016). I was appointed to represent a class of consumers in *Meyer v. Northwest Saving Bank*, GD-13-024884 (Allegheny Cty.) and *Alwine v. SHEC*, 12-017815 (Allegheny Cty.) After establishing Pietz Law Office in January 2007, I was appointed class action counsel in a number of consumer class actions, including cases brought under the Fair Credit Reporting Act. ("FCRA"). I was appointed class counsel in one of the first reported class certifications under the FCRA. *See Campos v. ChoicePoint Services, Inc.* 237 F.R.D. 478 (N.D.Ga. 2006) (noting that the action was one of the first cases to enforce the "file disclosure" requirement of the FCRA, and that my adequacy as class counsel was not an issue).

10. I successfully prosecuted other novel, precedent-setting class actions under the FCRA. See, e.g., *Gillespie v. Equifax*, 484 F.3d 938 (7th Cir. 2007) (finding Equifax violated the requirement that a file disclosure be "clear").

11. I was also lead counsel in a class action seeking to enforce the FCRA's requirements applicable to an employer's use of consumer reports to assess the qualifications of

prospective employees. *Reardon v. Closetmaid Corp.*, 2011 WL 1628041, at \*1 (W.D. Pa. Apr. 27, 2011)(memorandum opinion granting class certification). *Reardon* involved an issue of first impression of whether an employer willfully violates the FCRA by incorporating a release or waiver of rights provision within the required disclosure/consent form to be signed by the prospective employer. *Reardon v. Closetmaid Corp.*, 2013 WL 6231606, at \*1 (W.D. Pa. December 2, 2013). The court found that the employer's incorporation of such a release was a willful violation of the FCRA as a matter of law. *Id.* at 11. *See Reardon v. ClosetMaid Corp.*, 2013 WL 6231606, at \*1 (W.D. Pa. Dec. 2, 2013).

12. I was appointed class counsel in a consumer class action involving the alleged illegal forced placement of property insurance. *Wahl v. ASIC*, 08-555 (N. D. Cal.). I was co-counsel in an action certified for settlement purposes, alleging the negligent supervision of a hospital employee. *Hoyman v. UPMC* 12-16636 (Allegheny Cty. 2012). I have also been appointed in other cases raising similar allegations. *See Haluska v. Forbes*, 05-09134 (Allegheny Cty, Pa.) and *Alwine v. SHEC*, GD 12-018715. Pietz Law Office was appointed Plaintiffs' Class Counsel for purposes of a settlement class in *Vincent v. Wolpoff & Abramson*, 08-423 (W.D.Pa. 2008).

13. During my tenure at MDF, Courts had recognized MDF's background in representing plaintiff classes in certifying MDF as class counsel: *Bald Eagle Area School Dist. v. Mid-State Bank*, 1999 WL 335059 (Pa.Comm.Pl. Ct.) ("Counsel can rightly claim to be competent and experienced in complex state and federal class action litigation, including cases involving alleged fraudulent practices, breach of fiduciary duty, breach of contract, and duties and obligations of banks. In the case of Malakoff, Doyle and Finberg their practice is limited almost exclusively to class actions with a few exceptions involving financial frauds."); *In Re CMS Energy Litigation*, Master File No. 02-CV -72834 (W.D. Mich. 2004) ("Counsel for plaintiffs,

furthermore, is clearly qualified to prosecute this case, as they have demonstrated with vigor to date”); *Ida Kennedy v. United Healthcare of Ohio*, C-2-98- 0128 (S.D. Ohio 2002) (“Counsel in this case has served as class counsel in factually similar cases. The Court finds that counsel is well qualified to serve as class counsel”).

14. In my work at MDF, I was principally responsible for the prosecution of seven class actions involving the allegedly illegal sale and financing of campground timeshare interests. With respect to this litigation I was certified as class counsel in the following cases: *See Zaazouh v. Bank One, C.A.*, No. 89-145 (W.D. Pa. 1989); *Conley v. Bank One*, 4:91-CV-0251 (N.D. Ohio 1991); *Rudnik v. Cortland*, 1120 of 1990 C.D. (Fayette Cty. 1990); *Gogola v. FirstSouth*, No. 1121 of 1990 (Fayette County, Pa. 1990) and *McDonagh v. GEICO Financial*, 4:93 CV 1352 (N.D. Ohio); *Isaak v. Trumbull Savings and Loan*, 4:93 CV 1121 (N.D. Ohio) and *Slentz v. Cortland*, C.A. 4:93 CV 1480 (N.D. Ohio 1993).

15. Additionally, I was principally responsible for handling the firm’s prosecution of class actions against Metropolitan Life Insurance Company alleging the fraudulent and deceptive sale of life insurance policies. With respect to this litigation, I was certified as class counsel with respect to the following cases: *see, e.g., State ex. rel. Metropolitan Life v. Starcher*, 196 W.Va. 519, 474 S.E.2d 476 (1996); *Wolbert v. Metropolitan Life*, No. 95-0861 (W.D. Pa.); *Cope v. Metropolitan Life*, 82 Ohio St.3d 426, 696 N.E.2d 1001 (1998). These actions ultimately resulted in the national class settlement at *In Re: Metropolitan Life Insurance Sales Practice Litigation*, 1999 U.S. Dist. Lexis 22688, MDL No. 1091 (W.D. Pa).

16. I have also handled numerous appeals in the state and federal courts many of which involved significant, systemic issues in complex class litigation. *Martin v. Franklin Capital*, 393 F.3d 1143 (10th Cir. 2004) (what standard applies under 28 U.S.C. § 1447 for awarding attorneys’

fees and costs for defendants' erroneous removal); *Gayman v. Principal Life*, 311 F.3d 851 (7th Cir. 2002) (whether demutualization of life insurer pursuant to state law constitutes "state action" within the meaning of 42 U.S.C. § 1983.); *LaBarre v. Credit Acceptance*, 175 F. 3d 640 (8th Cir. 1999) (whether McCarren-Ferguson Act barred claim under RICO, 18 U.S.C. §1962(c)); *Stewart v. National Education Assoc.*, 05-7140 (D.C. Cir. 2006) (whether demutualization consideration attributable to a group life insurance policy must be held exclusively for the benefit of the insureds under the policy)

17. For more information about the FDPK Law Firm and my law practice, please refer to my Firm website, [www.FDPKlaw.com](http://www.FDPKlaw.com) and see [www.jpietzlaw.com](http://www.jpietzlaw.com).

18. I, along with Weller, Green, Touns & Terrell, LLP and the Coffman Law Firm, represent approximately 20 U.S. corn producers in Western Pennsylvania farming approximately 4500 acres of corn on the average during each year in the damages period. We have a signed contract with each and every corn producer client that I represent. All of our clients are part of the plaintiff group commonly referred to in this case as the Touns/Coffman Plaintiffs. I have personal knowledge of the statements in this Declaration and, if called as a witness, I could, and would, testify competently them. I make this Declaration in support of Touns/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses.

19. I was first asked to assist in co-counseling in this litigation in August 2017. Since that time, I, individually or with co-counsel, have spent a substantial amount of time (i) on telephone calls, sending email, and in meetings with clients and other corn producers to answer questions about the litigation prior to the case settling, (ii) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the settlement, the claims process, and the settlement claim forms after the settlement was announced, (iii)

working with local Farm Services Administration (FSA) offices to secure my clients Forms 578 as required by the Court, (iv) on telephone calls, sending emails, and in meetings with clients regarding signing and returning their settlement claim forms so they could be filed timely, (v) on telephone calls, sending emails, and in meetings with co-counsel regarding all aspects of the litigation, both prior to and after the settlement was announced, and (vi)] I also have regularly updated my clients via telephone calls, emails, and other communications, and will continue to work with my clients until the day they receive their settlement checks..

20. As of June 30, 2018, my Firm has (i) spent a total of 53.50 hours, and (ii) advanced \$161.27 of corresponding out-of-pocket expenses working on behalf of my clients in this litigation. Throughout the litigation, my staff and I have maintained contemporaneous daily time records of the time incurred working on this matter. This time does not include any time spent preparing my detailed time summaries, assembling preparing this Declaration, or preparing or reviewing the Touns/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses. The out-of-pocket expenses incurred pertaining to this case are reflected in my Firm's books and records. These books and records are prepared from receipts, payment card records, and check records, and are an accurate record of the expenses incurred. I estimate that my Firm will spend another 20 hours and \$200 of out-of-pocket expenses through the end of the settlement claim filing period answering client questions, providing litigation updates, and working with them to sign and return their settlement claim forms, so we can file the claim forms for them on a timely basis.

21. All work performed by the attorneys and paralegals at my Firm in this matter was performed on a wholly contingent basis, assuming full risk of non-payment. To date, my Firm has not received any compensation for the rendered services from any source. My Firm also

incurred the above-referenced out-of-pocket expenses for the benefit of my clients. These expenses also were incurred on a contingent basis and have not been reimbursed to date.

I declare under penalty of perjury that the foregoing is true and correct.

I make this Declaration in support of Touns/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses.

5. I first got involved in this litigation in 2014. Since that time, I, individually or with co-counsel or staff have spent a substantial amount of time (i) on telephone calls, sending email, and in meetings with clients and other corn producers to answer questions about the litigation prior to the case settling, (ii) on telephone calls, sending emails, and in meetings with clients and other corn producers to answer questions about the settlement, the claims process, and the settlement claim forms after the settlement was announced, (iii) working with local Farm Services Administration (FSA) offices to secure my clients Forms 578 as required by the Court, (iv) on telephone calls, sending emails, and in meetings with clients regarding signing and returning their settlement claim forms so they could be filed timely, (v) on telephone calls, sending emails, and in meetings with co-counsel regarding all aspects of the litigation, both prior to and after the settlement was announced. and (vi) I also have regularly updated my clients via telephone calls, emails, and other communications, and will continue to work with my clients until the day they receive their settlement checks.

6. As of June 30, 2018, my Firm has (i) spent a total of 386 hours, and (ii) advanced approximately \$12,000.00 of corresponding out-of-pocket expenses working on behalf of my clients in this litigation. My staff and I have not maintained contemporaneous daily time records of the time incurred working on this matter. We were not required to do this because we were

not required to maintain time records under the terms of our contingency fee contracts. However, the time and expenses set out above are a good faith estimate based on my forty years of experience in representing clients. This time does not include any time spent preparing my detailed time summaries, assembling, preparing this Declaration, or preparing or reviewing the Toups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses. The out-of-pocket expenses incurred pertaining to this case are reflected in my Firm's books and records. These books and records are prepared from receipts, payment card records, and check records, and are an accurate record of the expenses incurred. I estimate that my Firm will spend another 400 hours and \$24,000.00 of out-of-pocket expenses through the end of the settlement claim filing period answering client questions, providing litigation updates, and working with them to sign and return their settlement claim forms, so that we can file the claim forms for them on a timely basis.

7. All work performed by the attorneys and paralegals at my Firm in this matter was performed on a wholly contingent basis, assuming full risk of non-payment. To date, my Firm has not received any compensation for the rendered services from any source. My Firm also incurred the above-referenced out-of-pocket expenses for the benefit of my clients. These expenses also were incurred on a contingent basis and have not been reimbursed to date.

I declare under penalty of perjury that the foregoing is true and correct.

**DECLARATION OF KENNETH G. WALSH IN SUPPORT OF TOUPS/COFFMAN  
PLAINTIFFS' APPLICATION FOR ATTORNEYS' FEES AND EXPENSES**

Pursuant to 28 U.S.C. § 1746, I, Kenneth G. Walsh, declare as follows:

1. I am an attorney in good standing licensed to practice law in the State of New York. I am also admitted to practice in the United States District Courts for the Eastern, Western, and Southern Districts of New York. I also have been admitted *pro hac vice* in various other state and federal courts.

2. I am the principal of the Law Offices of Kenneth G. Walsh, in Mt. Kisco, New York. I have practiced law for over 25 years. For most of my legal career, my practice has focused on antitrust, consumer cases, complex commercial litigation and class actions in state and federal courts throughout the United States at nationally recognized litigation firms.

3. I have served in leadership roles in MDL and non-MDL class action litigation: *In re First Databank Prescription Information Antitrust Litig.*, MDL No. 2822 (D. D.C.) (co-lead counsel for direct purchasers); *DRAM Antitrust Litig.*, MDL No. 1486 (N.D. Cal.) (co-lead for indirect purchasers) and *In re Vitamin C Antitrust Litig.*, Case No. 1:06-MD-01738 (E.D.N.Y.) (co-lead for indirect purchasers). I also have represented opt-out plaintiffs in antitrust class action litigation: *In re Brand Name Prescription Drugs Antitrust Litig.*, MDL 997 (co-lead counsel for

3,800 independent retail pharmacies across the country who opted-out of the class). I am knowledgeable about class action and opt-out plaintiff jurisprudence.<sup>1</sup>

4. I, along with Weller, Green, Toups & Terrell, LLP and the Coffman Law Firm, represent 975 corn producers in the states of Delaware, Florida, Maryland, New Jersey, New York, Pennsylvania, Kentucky, Virginia and West Virginia farming approximately 460,000 acres of corn on the average during the damages period. I have a signed contract with each and every corn producer client that I represent. All of my clients are part of the plaintiff group commonly referred to in this case as the Toups/Coffman Plaintiffs. I have personal knowledge of the statements in this Declaration. I make this Declaration in support of Toups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses.

5. I first got involved in this litigation in April 2017, after the Court granted Syngenta's application for summary judgment on Class Plaintiffs' Lanham Act claim. The practical effect of which was to leave corn farmers east of the Mississippi with no class action protecting their interest or rights.

6. Since that time, I along with co-counsel, have spent a substantial amount of time (i) meeting with corn producers and explaining that after the Court's ruling on April 6, 2017, there was no class action covering claims for New York, Delmarva, North Carolina, New Jersey, North Carolina, South Carolina, Kentucky, Virginia or West Virginia corn producers, (ii) on telephone calls, sending email, and in meetings with clients and other corn producers to answer questions about the litigation and what information they needed to provide to participate in the action, (iii) since the settlement was announced, I have spent considerable time on telephone

<sup>1</sup> Having represented class representatives in *In re Plasma-Derivative Protein Therapies Antitrust Litig.*, MDL No. 2109 (N.D. Ill.) and in *In re Hypodermic Products Antitrust Litig.*, MDL No. 1730 (D.N.J.). I have represented 42 New York County Plaintiffs and the State of Iowa in consolidated individual actions against over 40 pharmaceutical manufacturers in *In re Pharmaceutical Industry Average Wholesale Price Litig.*, MDL No. 1456 (D. MA.).

calls, sending emails, and in meetings with clients and other corn producers to answer questions about the settlement, the claims process, and the settlement claim forms, (iv) working with local Farm Services Administration (FSA) offices to secure my clients Forms 578 as required by the Court, (v) contacting my clients via emails and through telephone calls regarding signing and returning their settlement claim forms so they could be filed timely, (vi) communicating and coordinating with co-counsel regarding all aspects of the litigation, both prior to and after the settlement was announced. Throughout my involvement in this litigation, I have regularly updated my clients on material developments in the case through telephone calls and emails, and will continue to work with my clients until they receive their settlement checks. My clients have regularly told me how much they appreciate my accessibility, my answers to their questions, my regular litigation updates. In fact, one Maryland corn producer called me at 7:00 A.M. on a Saturday morning hoping to simply leave me a message while he was unloading his truck. To his surprise, I answered the phone and answered his question. Months later, I ran into him at Delaware Ag Week and he was complementing me to others for fielding his call so early on a Saturday.

7. Throughout this litigation, I have been mindful of the corn producers' time and the seasonality of their profession. Since the claim process is occurring during the busiest time of the year for my clients, we in the Toups/Coffman Plaintiffs Group created a program to populate the corn producers' claim forms for each individual corn farmer we represent. We took all the FSA-578 information collected from our clients and filled in the Court mandated information and sent each client a claim form which only requires their signature. We also enclosed stamped self-addressed envelopes so the corn farmer only had to sign the claim form and return it to us. Many clients have expressed their appreciation for our efforts in streamlining the claims process.

8. As of June 30, 2018, my Firm has (i) spent a total of 1731.25 hours, and (ii) advanced \$14,653.38 of corresponding out-of-pocket expenses working on behalf of my clients in this litigation. Throughout the litigation, my staff and I have maintained contemporaneous daily time records of the time incurred working on this matter. This time does not include any time spent preparing my detailed time summaries, assembling preparing this Declaration, or preparing or reviewing the Toups/Coffman Plaintiffs' Application for Attorneys' Fees and Expenses. The out-of-pocket expenses incurred pertaining to this case are reflected in my Firm's books and records. These books and records are prepared from receipts, payment card records, and check records, and are an accurate record of the expenses incurred. I estimate that my Firm will spend another 60 hours and \$500 of out-of-pocket expenses through the end of the settlement claim filing period answering client questions, providing litigation updates, and working with them to sign and return their settlement claim forms, so we can file the claim forms for them on a timely basis.

9. All work performed by the attorneys and paralegals at my Firm in this matter was performed on a wholly contingent basis, assuming full risk of non-payment. To date, my Firm has not received any compensation for the rendered services from any source. My Firm also incurred the above-referenced out-of-pocket expenses for the benefit of my clients.
